SEXTON SAYS MRS. SOUTHWORTH LAUGHED AT MEYER'S GRAVE

Conduct of Alleged Murderess During Illness and Death of Fourth Husband Is Disclosed by Testimony

WITNESS TELLS OF PREPARATIONS OF ACCUSED FOR HASTY DEPARTURE

STATE OPENS FIGHT TO SUBMIT TESTIMONY DEALING WITH PREVIOUS HUSBANDS' DEATHS

At 3 o'clock this afternoon the jury was dismissed and a recess ordered after which the question of the state's right to submit testimony dealing with the death of Mrs. Southworth's previous husbands will be argued.

Following the Meyer funeral Mrs. Lloyd Meyer Southworth, in the act of getting into the car to return to the city...

Details of the examining of the body of Meyer were given by the witness. These did not differ materially from testimony previously given covering the features of the evidence.

Dr. Coughlin, Mrs. Meyer asked the doctor what had become of Meyer's body and he said, "What would I want to poison him for?"

Mrs. Meyer took a number of meals with Mr. and Mrs. James at the Rogers-on one of which occasions as they were together their meal a number of nurses entered the dining room.

Mrs. Roberts was present at the time of the concluding conversation with Mrs. Meyer relative to the holding of a post mortem examination upon the remains and according to the witness at that time said, "Do you know, Mrs. Meyer, that it is the general opinion as to what actually caused your husband's death and with your permission I should like to hold a post mortem examination?"

LATER the witness said she talked with Mrs. Meyer on the telephone at which time Mrs. Meyer said, "People are talking dreadfully about me and I want you to tell me how to get the headlines out of the newspapers an article saying that he died of typhoid fever and that I am not to blame."

# VACATION FOR PUPILS WHILE TEACHERS AWAY

## Schools Will Close Next Week as Educators Attend Work- ing Conference

Beginning next Monday and continuing to Friday evening the annual Joint Meeting of the South Central District Institute and the South Central District Teachers' association will be held in Burley. The annual conference was instituted in Twin Falls in 1919. Last year's meeting was held in Twin Falls.

All schools in the district will be closed during conference week, it is announced. The executive committee in charge of the institute is composed of the county superintendents of the eight counties in the district. They are: Miss Maw Love, Cassia; Mrs. Leah Lamson, Camas; Miss Douglas Hill, Gooding; Mrs. June L. Kearney, Jeri; Miss E. H. Dyer, Power; Miss E. C. Bishop, Blaine.

H. M. Broadbent, superintendent of the Burley public schools, and J. W. Mitchell, superintendent of the eight county public schools of the Burley district are joint conductors of the institute.

M. C. Mitchell, superintendent of the Twin Falls public schools, is president of the district association, and Miss Maw Love, superintendent of the Cassia county schools, is secretary. The faculty of the institute includes the following: Dr. E. A. Bryan, commissioner of education, Boise, Idaho.

Ethel E. Beifield, state superintendent of public instruction, Boise, Idaho; A. H. Upham, president of the University of Idaho, Moscow, Idaho; F. J. Kelley, dean of the school of education, Kansas university, Lawrence, Kan.; W. H. McKeever, author, lecturer, and former university professor; J. F. Messenger, dean of the school of education, University of Idaho; Moscow, Idaho; J. C. Werner, director of the training school, Albion State normal school, Albion, Idaho.

Miss Kate S. North, supervisor of English language schools, and J. W. Mitchell, state superintendent of the Boise city schools, Boise, Idaho; T. R. Nielson, supervisor of music and art, Nanpa public schools, and author of the Nielson drawing series; S. N. Lewis, director of vocational education, state department of education, Boise, Idaho;

Miss Kate S. North, supervisor of English language schools, and J. W. Mitchell, state superintendent of the Boise city schools, Boise, Idaho; T. R. Nielson, supervisor of music and art, Nanpa public schools, and author of the Nielson drawing series; S. N. Lewis, director of vocational education, state department of education, Boise, Idaho;

C. R. Frazier, president Idaho Technical Institute, Pocatello, Idaho, and president Idaho State Teachers' association. Dean Kelley and Professor McKeever will address the general assembly of the institute Monday, Tuesday and Wednesday. Dr. Bryan, superintendent Redfield and President Upham will occupy the platform Thursday and Friday mornings. Thursday and Friday afternoons will be given over to the meetings of the District Teachers' association. President Frazier will give the keynote address and President Mitchell of the district association will render an account of the year's work in the district.

Sections for the high school teachers, upper grade and junior high school teachers, primary grade teachers, music and art, and physical education will meet each morning at 9 o'clock and Monday, Tuesday and Wednesday afternoons at 1:30. Administration, commercial, commercial and rural sections will meet Thursday and Friday at 9 o'clock, with conferences, during the day.

Superintendents, principals and teachers are expected in a general body.

# WELCOME WORLD PRESS CONGRESS

## Dr. Walter Williams Goes Step Toward Universal Friendship in Honolulu Sessions

HONOLULU, T. H., (AP)—Dr. Walter Williams, president of the Press Congress of the World, which opened its session here today, has received the following message from T. B. Williams, president of the American Newspaper Publishers' association:

"On behalf of the American Newspaper Publishers' association, permit me to extend heartfelt greetings to the Press Congress of the World. It is a gathering from which it is impossible for anything but good to come, where in it will be regarded in some quarters, perhaps, as differing from other congresses which we all respect too highly to mention.

"It is really of good omen to the people of all countries that there should be such an international conference of their respective newspaper fraternities as that which you are holding.

"This press is, in every civilized land, the supreme vehicle of public opinion, and it is public opinion which ultimately governs. That the press by which the chief nations are interpreted to one another, should be internationalized in the spirit of fraternal good will, is therefore of the highest consequence to men everywhere.

"The friendly mingling of editors and publishers from widely separated lands for the purpose of better understanding and increased co-operation is the first step toward the era of world-

One day will be given over to international relations, economic, social and political, and limitation of armaments, another to the fundamentals of American history; the principles and service of political parties, another to a study of Consociate legislative processes, party conventions and caucuses; another to city and town problems.

Those who will lead the classes in these professors are among the best known of the year, and the best known of the year are among the best among the educators of the country.

### TOBACCO MONOPOLY PAYS FRENCH GOVERNMENT WELL

PARIS, (AP)—The French treasury last year profited more by the government tobacco monopoly than by the income tax. The profits from smokers reached about \$10,000,000 francs, while income tax payers only yielded \$12,000,000. The government tobacco monopoly gives a profit of about 50 per cent.

# SNOW SWEEPERS TURN TO EDISON'S OLD PROPOSAL

## Machine Left in Experimental Stage by Inventor, May Hold Solution to Street Cleaners' Problem

NEW YORK, (AP)—Engineers interested in snow removal from city streets have considered perfecting a machine built 40 years ago by Thomas A. Edison, but left in an experimental stage because the inventor turned his work into other fields.

This machine, drawn by a horse, devoured the flakes and disgorged them into leaf blocks which dumped only one fourth the amount of the fallen snow and snow removal easy. In a letter from Mr. Edison, recently read at a forum on "snow removal in cities," the inventor expressed belief that a competent engineer could readily figure out an efficient means of improving and modernizing his invention.

### DETROIT CONFERENCE URGES SOUTH CHINA'S RECOGNITION

DETROIT, Mich., (AP)—Resolutions urging recognition by the United States of the government of the southern republic of China were adopted Monday at the final business session of the International Chinese conference. The resolutions set forth business advantages in China awaiting American capital and declare the future of the republic may hinge upon the attitude of the Washington government.

# PRISONERS SAVE GUARDS WHEN TRAIN JUMPS TRACK

## Military Convicts Bound for Al- geria Turn Rescuers of the Wreck Victims

LYONS, France, (AP)—Handcuffed in pairs and in charge of four guards, 12 French military prisoners en route for Algeria to serve sentences ranging from 3 to 15 years, were aboard the Strasbourg-Marseille express when it jumped the track at Les Echots a few miles here. Forty passengers were killed and 70 injured.

None of the prisoners was seriously hurt, but three guards were killed and the other planned under the wreck age, lay seriously wounded.

All semblance of authority and order had disappeared. The prisoners were free but instead of running away, they pulled guardmen out of the tangled mass of wool and iron and laid him on the grass. During the night they rescued 31 injured passengers. Then they gave themselves up.

They have since left for Algeria to serve their sentences, but it is understood that the minister of war is studying the case and the opinion is expressed that, in due course of red tape, they will be pardoned.

# MAJORITY SOCIALISTS OF GERMANY OMAIN GAINS

BERLIN, (AP)—The social democratic (majority socialist) party in Germany now claims a total membership of 3,220,000, an increase of 40,851, over last year.

In urban districts, the number of social-democratic mayors and councilmen shows a slight decline, but in country districts popular representation has become increasingly socialist in tendency, according to the party statistics.

# FRENCH CAPITAL'S WOMEN GREATLY OUTNUMBER MEN

PARIS, (AP)—Parisian women greatly outnumber the men. There are 65,947 women in one arrondissement alone, while men number only 47,418. This preponderance is especially manifest among persons between 20 and 25 years of age, where the war alas made such gaps in the ranks of the men.

# YALE OFFERS COURSE IN CITIZENSHIP FOR WOMEN

## Feminine Voters of Connecticut Given Chance at Intensive Education

NEW HAVEN, Conn., (AP)—Women voters of Connecticut will have a chance to go to school this month for a week's intensive course in citizenship. The lessons will be given in Yale university classroom and Yale professors and instructors will give them classes. This will be the first school of the kind in this state. It will open October 24, and if deemed successful, similar weeks of schooling will be held from time to time. The Connecticut League of Women Voters, Miss Mabel C. Washburn, president, sponsors the innovation.

One day will be given over to international relations, economic, social and political, and limitation of armaments, another to the fundamentals of American history; the principles and service of political parties, another to a study of Consociate legislative processes, party conventions and caucuses; another to city and town problems.

Those who will lead the classes in these professors are among the best known of the year, and the best known of the year are among the best among the educators of the country.

# Prettier Teeth Next Week

If you will now start this delightful test

This is to offer you a way to whiter teeth, cleaner, softer teeth. Such glistening teeth as millions now enjoy.

The dealer named below will give you the means. Get it and watch the effects. See your teeth grow prettier—note how clean they feel.

Dentists everywhere have adopted this method. Millions of homes have improved it. Try it this week, for your own sake. Learn what it means to you.

**To remove the film**  
Your teeth are coated with a dingy film. It is viscous—so you can feel it with your tongue. It clings to teeth, enters crevices and stays. It clouds the teeth and causes most tooth troubles.

The ordinary tooth paste does not effectively combat it, so the tooth brush has lost much of its impact. As a result, teeth lose their luster. And, despite all brushing, tooth troubles have been constantly increasing.

The film is what discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Many other serious troubles are also traced to them.

**Science combats it**  
Dental science has long sought ways to combat that film. The ways have now been found. Able authorities have amply proved them. Leading dentists everywhere advise their daily use.

The methods are embodied in a new-day tooth paste—Pepsodent. It combats the film wherever it may linger. In this way it brings surprising results which one quickly sees. Over 5,000 new people daily are trying out this modern method.

**Fights acids too**  
Pepsodent brings three other effects which authorities now desire.

It multiplies the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay. Pepsin is also included.

# Free This week only

Your dealer will give you a 10-Day Tube of Pepsodent if you present the coupon at the store named below.

Do this for your own sake—for your family's sake. Watch how your teeth improve. The delightful effects will very soon convince you what is best.

Every application of Pepsodent brings five distinct results. And modern authorities consider all of them essential.

**Now a world method**  
In many countries Pepsodent is fast displacing old tooth cleaning methods. Dental authorities the world over endorse it. Careful people must adopt it sooner or later, for old methods are no longer safe. With them, tooth troubles and discolorments have become almost universal. A change must come, and now is the time to start it.

**Quick changes come**  
The user of Pepsodent quickly feels conspicuous changes. One cannot doubt the benefits it brings.

Perhaps men who smoke seek the most conspicuous effects. Their films are tobacco-stained.

Women see them in prettier teeth, for most film-coats are dingy.

But Pepsodent is most important to the children. Their teeth seem most subject to these film and starch attacks. Dentists advise that children use Pepsodent from the time the first tooth appears.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects, and read the reasons in the book we send.

This ten-day test will be a revelation. It may bring to your home a new era in tooth cleaning. And the benefits to you and yours may be life-long in extent. Cut out the coupon now. Present it today so you can start at once.

## BROTHER BOB MEUSEL PROVED OUTSTANDING YANK LUMINARY IN FIFTH GAME; STOPS GIANTS

American's Right Fielder Had a Lot To Do with Downfall of J. McGraw's Baseball Champions in Monday's Tilt—Doctor Tells Babe Ruth to Get Out of Game and Rest His Sore Self

NEW YORK, (AP)—Harry Harper for the Yankees and Joe Barnes for the Giants were expected to receive the pitching assignments today for the sixth clash of the world's series, in which the American leaguers now have a lead of three victories to two.

No one is sure they will start, however. Even Miller Huggins, manager of the Yankees, and John McGraw, leader of the Giants, seemed undecided this morning. Huggins agreed it might be Harper, but surmised he would also give a thought or two to Shawkey or the mellowed Jack Quinn. The Napoleonical general of the Giants announced that he would select either Barnes or Teacy.

It was Barnes who held the Yankees after they had knocked Teacy out of the box last Friday when the Giants won their first game of the series.

**More Confidence.**

The commander-in-chief of the Yankees contemplated the prospects of his team with optimism as he breakfasted today. The team got back its fighting spirit while whipping the Giants, 3 to 1, yesterday, he remarked, going to predict that the Giants would never come back far enough to beat the Yankees out of the championship.

The only gloom on Huggins' horizon was the fact that Babe Ruth's doctor again had ordered him out of the active league of his injured arm and leg. The Babe overruled a similar order Sunday, but he was obviously in bad shape after yesterday's exertions and his doctor declared there was danger of permanent injury if his big slugger persisted further in using his injured arm.

Huggins declared the Yankees could win without Ruth.

"Hoyt was in great form yesterday," said Huggins. "All of us had confidence that the boy would win again. The whole team played vigorously behind him, and it was great after the loush loss of Sunday."

"Wann't our Meusel wonderful in the field and at bat?" inquired.

That was an easy one to answer. Meusel was wonderful, even more so than the box score showed. The hitting statistics gave him a two-bagger and a single.

**Cuts Out Run.**

This same Meusel it was, who stifled a Giant hitting spell in the second round with a beautiful throw to second after Bancroft muddled one into right field, while Burns was on base. Again in the eighth he extinguished the flaming Giant hopes by fast fielding on Kelly's smash that caromed off a sign

board, and a whizzing throw that tagged Kelly at second. Young previously had singled and a run seemed imminent at the time.

Ulliko Huggins, McGraw made no flowery forecast of the future.

"I believe Ruth was out at first on that punt," he said. "This referred to the little surprise attack by the east fast territory, which started the Yankees toward triumph No. 3. Mr. McGraw also maintained the unproven behind the plate was bad. "We lost and we should have won" was his retrospective summary of the proceedings yesterday.

Babe Ruth's hot devoted himself to recalling the breeze of the afternoon on all occasions save the one that present him as a master craftsman in the gentle art of hunting.

**Hoyt Shares Glory.**

With the sluggers Huggins and Meusel, the sturdy Waite Hoyt completed the triumvirate of the day's victorious heroes. He allowed ten hits—four more than Hoyt and six of them were evenly distributed among the first three innings, but except for the first, which opened with an error by McNally on Burns' poke toward third, the young Brooklyn right-hander annihilated all hopes. Unopposed support helped him over the humps of the second and third innings, and after that the assistance he required was not extraordinary.

In the eighth, Hoyt showed himself to be of such stuff as great pitchers are made. He had a two run lead but the Giants were gunning and they began this last effort with a viable two-bagger by Rawlings. Hoyt, unflinched, caused Smith to pop up over the inner lawn, and then put a final spool on the Giants by fanning Snyder, a pinch hitter, and Burns.

The Giants, despite their setback, were not without sparkling achievement. Fitch kept up his remarkable stick work, holding his series mark at .500 by touching Hoyt for two singles in his four appearances at the plate. Long George Kelly should off what never had been afflicting his batting power and made three hits. His backhand grab of Phipps' hopper in the ninth was one of the folding gems of the day.

**TO PLAY BAYLOR.**

BOSTON, Mass., (AP)—The Boston college football squad, including only three members of the undefeated eleven of last year, left today for Dallas, Texas, where they will play Baylor university Saturday. The team will stop in St. Louis tomorrow for practice.

## Peckinpaugh is Given Silver Chest by Cleveland Ball Fans

## COACH'S BLUES REFLECTS POOR GRIDIRON YEAR

Idaho Football Squad is Given Poor Rating by Pessimistic Mentor

UNIVERSITY OF IDAHO, Moscow, (Special).—Using Coach Kelley's continued pessimism as a criterion, the Idaho eleven is embarking on what may develop into nothing more than a "medicinal" season. Although this prediction is not final it is the general impression which hovers over the silver and gold camp.

Felix Elatino, last year's captain and co-captain, and Pat Perrine, tackle, are out with injured shoulders. Other injuries, alone sufficient to reduce the efficiency of Kelley's machine, are also reported. A valiant effort is being made to nurse the crippled back into shape for the opening game.

"Idaho is also handicapped by not having any early season games scheduled, but in view of the present condition of certain members of the squad it would be to our disadvantage to run them against any very strong opposition," said Coach Kelley.

At least Idaho will do nothing more than hobble into Tomahawk against the Ninth Army Corps Area team of Camp Lewis Saturday. In case the squad doesn't hobble in, most of the substitution men will be given chances, for

## Brief Bits of Sport

Anyway folks now know there is one American league club that's got the edge over a National league rival.

The White Sox lost no opportunity as to which of the Chicago teams it the better.

Crusky's men made it five straight and did it all so decisively that not even the adherents complained.

Waite Hoyt is twice-brood. He whipped the Giant a couple of times, and though yesterday's tilt brought a lucky decision it was a decision, never

tholess, and counts as a win for the youngster.

New York experts expect the present series will turn in a million dollars at the gates of the Polo Grounds.

And John McGraw continues to declare he is ready the possessor of a world's baseball championship.

Fitch, the bright spotted star of the Giant force, capped two more hits yesterday, and simply because he have little expense. No bookkeepers, no managers, no window trimmers and high rents. I can afford to sell for less. One trip to my store will convince you. I've proven it to hundreds, I'll prove it to you.

Don't Throw Your Money Away Paying the Exorbitant Prices of Big Expense Stores—Trade the Behrman Way

**Come Up! Where Prices Are Down**

Trade the way hundreds of Twin Falls shrewdest shoppers are doing. Come up to this little expense store of mine which has eliminated all the frills and useless expense and extravagance of big expense stores. Get right down to plain hard facts. Prices here are positively, absolutely lower. Better the swiftness of the sword, and simply because I have little expense. No bookkeepers, no managers, no window trimmers and high rents. I can afford to sell for less. One trip to my store will convince you. I've proven it to hundreds, I'll prove it to you.

# YANKEES PLACE VICTORY HOPES ON LEFTHANDER

Shadow of Harry Harper Falls Athwart Path of Giants in Struggle to Even World's Series; Fans Miss Ruth

POLO GROUNDS, New York, (AP)—The shadow of Harry Harper fell this afternoon athwart the path of the Giants in their struggle to even the world's series with the Yankees. The National League leaver yet to face a lefthander in the series, and as Wally Schang, the Yankee catcher, put it before the game:

"If Harper gets that old curve aching across the corners of the plate Giants will be through for the year."

Like Girl with Outfit  
"Hackenschack" Harry Harper, his mates say, is like the girl with the cut—when he is good his good and when he is bad he's not good. Manager Hugie said Slawkey and Quinn would be held in reserve.

The Yankees, with a one game lead, can take a gambler today; not so the Giants, who must capture the contest to have even a fair chance of winning the series. Manager McGraw looked to big Fred Toney who was knocked out of the box last week, and to Jess Barner, who went to Toney's rescue, and pitched a brilliant game.

The Yankee fans bemoaned the loss of Babe Ruth who will be mending nails again in this series.

Both Out of Game  
The massive Babe's arm is swollen and the poison from his infected elbow has spread to the glands of the upper arm. He telephoned to the Yankee clubhouse today that he would not be able to play again. Manager Huggins was prepared to play Bob Meusel left and Wilson Frewster in right field. It was learned at the clubhouse that Wally Lott had pitched eight innings yesterday with a finger split by a grounder from Frisch's bat. He refused to leave the game.

The day was bright and clear and the sun (casted the early comers in the bleachers. The crowd came late. The Yankees today played host to the Giants who were the visitors.

# BUSINESS MEN'S COMMITTEES INAUGURATE CLEAN-UP DRIVE FOR RAILROAD BUILDING FUND

Thirty-Six Solicitors Start Raking East End of County for Subscriptions to Assure Construction of South Line of Railroad for Twin Falls District—Chairman Makes Statement

Fifteen automobiles carrying thirty-six Twin Falls business men left early today for points in the east end of the county to carry on a four-day cleaning campaign in the interest of the railroad bonus fund. Another force is scheduled to start out tomorrow for the Murtaugh district. The forces going out today will work with Hansen and Kimberly delegations, those going out tomorrow will co-operate with a committee of Murtaugh officials.

The committee from here today are: Tom Kimbrough, J. N. Chan, K. S. Peters, C. A. Bailey, L. Cline, H. E. Powers, A. Guiteri, George F. Sprague, Phil Thomas, John Maxwell, P. D. Lundford, W. H. Dwight, P. E. Dean, R. C. Letcher, A. D. Johnson, T. J. Woods, George W. Dean, Leonard Smith and others.

The Hansen delegation consists of Captains P. W. McRoberts, J. E. Lowery, F. W. Dunlap, Harry McKinley, E. J. Finch, W. E. Sangor, C. H. Robbins, W. O. Smith, Phil Crow, J. E. Dunning, and others.

Speaking of the bonus drive, Chairman Thomas makes the following statement to the public:  
"With over half of the \$500,000 home money raised and in sight the committee are starting out with great enthusiasm on the down hill part towards the finish of the drive."  
"In the Twin Falls city drive itself the 'clean-up' campaign is bringing the most gratifying results. An average of over two thousand dollars a day is being turned in to the chamber of commerce headquarters from voluntary subscriptions and from the farmers who have not already signed their pledges towards the railroad building fund."

"The need and necessity for the railroad is now becoming well known all over the Twin Falls tract. The facts and figures already given have readily shown the increased income that will result to the farmer and landholder to the town, justice man and merchant from building this new railroad at once.

The following subscriptions are reported by the committee as received today:

Mr. Louisa Miller (vol.)	\$ 10.00
Mr. G. S. Murphy (vol.)	100.00
H. B. Jones (vol.)	100.00
Verano L. Bailey (vol.)	50.00

## HIGH SCHOOL NOTES

There will be a meeting of the Blue Triangle club Wednesday evening in the home at 7:30. The program will be in recognition of the new members and is as follows:  
Recognition service formally receiving the new members.  
Speech of welcome by Alina Baker, president of the club.  
Piano solo by Margaret Deeb.  
"The Blue Triangle Club means to the Community," by Mrs. O. E. Scott.  
Talk by Miss Alice Johnson, club leader.

Games and refreshments will complete the evening's program.

The Spanish club will have their first meeting of the year Thursday evening at the high school home.

Piano tuning—Phone 108—adv.

## Social Notes

Mr. and Mrs. I. H. Masters were hosts at luncheon today at their home, complimenting Mr. and Mrs. John J. McGowan of Salt Lake. Dr. and Mrs. E. R. Van Cott were guests.

Dr. and Mrs. E. H. VanCott entertained Mr. and Mrs. John J. McGowan and Mr. and Mrs. I. H. Masters at supper last evening, following the organ recital at the Methodist church.

Mrs. Durston E. Morse was hostess yesterday at a one o'clock luncheon complimenting Mrs. O. D. Alken, who will go to Boise within a few days to make her home. The members of the Cosmos club were guests, Mrs. Alken being one of the original members of that club.

The Annona class of the Methodist Sunday school held a regular meeting at the home of Miss Marjorie Keniston last evening with about 16 members present. Following the business meeting, the members enjoyed music and games, and the hostess served refreshments at the close.

Mr. C. A. Miller entertained last evening in honor of Mr. Miller's birthday. The evening was spent with music and social diversions and at the close the hostess served a two-course luncheon. The guests were Mr. and Mrs. Clyde W. Simpson, Mr. and Mrs. Douglas Dayler, the Misses Ruth Wray, Irene Visser, Grace Tobill, and the Messrs. J. Bineman, Cass Figue and A. Totten.

Announcement is made of the marriage of Mrs. Lois Stewart, daughter of Mr. and Mrs. J. Sherman Stewart of Elvethat avenue east, to William Duin Arnett at San Jose, Cal., at noon on October 8, 1921. Intimate friends of both bride and groom witnessed the ceremony, which was solemnized at the home of Mrs. Margaret Duckworth, cousin of the groom. The bride wore an attractive gown of Canton crepe and carried an arm bouquet of Opheelia roses. Following the ceremony Mr. and Mrs. Arnett motored to San Francisco, where they will spend a few days before going to their home at El Paso, Texas. Mrs. Arnett is a graduate of Stephens college, Missouri, and of the State Teachers' college of San Jose, California. It was there that she met Mr. Arnett, who is a graduate of the engineering college of the University of Colorado, and is engaged in orcharding in San Jose. He also has interests in oil fields in Texas, and Mr. and Mrs. Arnett will be at home at 1011 East boulevard, El Paso, Texas, after November 1.

LAVERING—"It's A Great Lie" story by Mary Roberts Rinehart; so a 3 part comedy entitled "D That Stocking."  
OHPIHEUM—3 vaudeville acts; 1 pleasure, "The Breaking Point" by Harris; a comedy and Seattle.

### BRITISH WORKERS PLAN TO WAR ON CAPITALISM

Organized Laborers of Europe Summoned to Conference to Formulate Program

LONDON, (AP)—Affiliated transport workers, railroad employees, miners and metal workers have been called to meet in a conference on November 11, the date of the opening of the Washington conference on limitation of armaments, according to a decision of the International Federation of Trade Unions of Great Britain. Robert Williams, secretary of the Transport Workers union informed the Daily Herald organ of labor last night that the conference would include all the workers of Europe and would call on the peoples of America and Europe to "wage war against capitalism in the only effective way."

"When politicians and statesmen vote credits for war munitions," he continued, "they will have to reckon with the question whether the workers will produce and transport them."

# Nix on the "Parley-Voo" stuff!

A FRIEND of mine,  
WHO COULDN'T speak,  
A WORD of French,  
WENT TO Paris,  
AND THE first time,  
HE HAD to get  
A HAIRCUT and shave,  
HE PRACTICED an hour,  
MAKING SOBS,  
IN THE looking glass,  
SO THE French barber,  
WOULD UNDERSTAND him,  
AND THEN he went in,  
AND WIGGLED his fingers,  
THROUGH HIS hair,  
AND STROKED his chin,  
AND THE barber grinned,  
AND FINISHED the job,  
THEN MY friend thought  
HE'D BE polite,  
SO HE gave the barber,  
AN AMERICAN cigarette,  
WHICH THE barber smoked,  
AND MY friend polished,  
TO HIS mouth,  
AND SAID "Likee voo,"  
AND THE barber roared,  
AND SAID "You BET,  
I USED to smoke 'em,  
WHEN I worked,  
IN INDIANAPOLIS,  
AND BELIEVE me,  
THEY SATISFY!"

HERE'S a smoke that talks in any language and needs no interpreter. Light up a Chesterfield, draw deep—and more plainly than words your smile will tell the world "They Satisfy." It's the blend that does it—and you can't get "Satisfy" anywhere except in Chesterfields; for that blend can't be copied!

MEETING THE CAR SHORTAGE

Three out of four men in an Idaho town the other day, when asked for their opinion as to what could be done to stop the annual car shortage which affects the north of Idaho crops when the market is favorable, hopped on to the transportation system.

Wouldn't track the Short Line said one; we must continue the fight for cars—we always get cars when we go after them hard enough, advised the second, and the third man declared for getting after the railroad commission and get them to force the cars through.

But the fourth man took a new tack. The farmers should form co-operative associations, he said, and build warehouses to store their produce until the rush is over and they should be compensated in a measure by being granted a lower freight rate for relieving the railroads of a burden. To require the railroads to furnish expensive refrigerator cars all over the United States for the brief space of time they are needed, he added, is asking too much.

The suggestions of the first three men, if carried into effect, might relieve the situation. But they do not take into consideration the possibility of a new conception of marketing among the producers, while the fourth man seems to have caught a glimpse of the only path leading to a better and brighter economic day for the producers. And it is to be noted, he is not asking for the assistance of the state or any other person. He is putting the responsibility where it belongs—upon the industry itself.

THE TRANSPORTATION TANGLE

One of the greatest vexes of this country is transportation genius. Every consideration of present difficulties leads to the seemingly inextricable maze of freight glut and freight rates.

And yet why should not railroad business be the best business in the United States? The railroads that were built in that great era of construction a generation ago. They made money. They were built for that purpose. The people invested in them freely. They carried the commerce of the country at costs remarkably low. According to normal laws of business, it would be expected that as the volume of commerce increased the business of the railroads would benefit, since no more railroads are built, and competition, therefore, does not decrease profits. That is, the railroads ought to have grown up with the country. The village store enlarges and becomes the city emporium as the population of the village increases and the village becomes a city.

But the railroads have not so taken advantage of their opportunities. They have seen the villages which they connect grow into great centers of population; they have seen the lands which they traverse settled up and brought to perfection of cultivation and vastly increased production; they have seen new industries initiated and built to

gigantic proportions. Great manufacturing enterprises, like the automobile industry, have come into existence and increased freight carriages by millions of tons. In addition, railroad rates have been arbitrarily increased by order of the interstate commerce commission beyond the wildest dreams of the original railroad builders. Why should not the railroads roll in wealth?

But they have degenerated to the status of pitiable beggars. Their vim and fire is gone. They seem to have lost all genius and all inspiration. Their stocks are in no demand, and even their bonds seem to be disastrous. Meanwhile they are not "on the job". They are not fulfilling their purpose. The business of the country has outgrown them, and they have revealed no energy to keep up with it.

And yet, notwithstanding the seriousness of the problem and the actual menace to every interest because of it, no intelligent solution is offered from any source. The mutual recriminations between railway management and railway labor, together with the constant pleading for government aid and support, constitute for the public one of the most perplexing situations ever presented.

More Truth Than Poetry

BEHIND THE CLOUDS THE SUN STILL SHINES

By R. E. KISER

THREE years ago a friend of mine— At least he said he was my friend— Brought something I was asked to sign; You know how such things often end. The price it cost was far from slight. But why was wasting futile slight? I learned a lesson that I might Not ever have learned otherwise.

MY hair's becoming thin on top; I've bought a dozen kinds of dope, Each guaranteed to save the crop, And each has failed—but I have hope! Some day I may pick up the end Of toxic soil that will save my land; The latest "remedy" we find First rate for polluting the stairs.

ABOUT two weeks ago some sly And very nimble-fingered "gent" Scooped out my purse, and that is why My landowner's waiting for his rent. Because he thinks I'm holding out; His men are papering the hall; The circumstance that causes doubt May bring contentment, after all.

LAST night I had to walk the floor From twelve o'clock 'til after three; The baby's cutting two teeth more; It's said that such things have to be— I mean that babies suffer so; While innocent and free from sin; I need a lot of walking, though, To keep me comfortably thin.

REMEMBERED IN HER PRAYERS

Each night beside her bed she prays That he may not be swamped with debts Or lose his job, because he pays The alimony that she gets.

IT'S ALMOST UNETHICAL

In the opinion of the "hot sport," the mascot of the world is the one who will steal the receipts at a prize fight.

GERMANS HELP TO PLAN NEW WORLD TRADE ROUTE

Commission of Danish, German and Swedish Experts, Maps Out Course

LUBBECK, Germany, (AP)—Plans for a new international traffic route, which the promoters claim is destined to be one of the world's great highways, are being worked out in detail by a commission sitting here composed of Danish, German and Swedish experts.

The proposal is to establish a fast route between Denmark, and the principal western European capitals by constructing a railway bridge connecting the island of Fehmarn (in the Baltic sea) with the German mainland, enabling trains from Hamburg to run to the extreme end of the island, where a ferry would transport them bodily to the new Danish port of Næstved on Lolland. From that point a new direct railway would connect with Copenhagen.

It is claimed that the journey from London or Paris to Stockholm would thus be shortened by six hours. The cost of the project is variously estimated at between five million and ten million dollars.

FEWER PARISIAN GIRLS ATTRACTED TO MILLINERY

Shortage of Millinery Brings Gloomy Forebodings Among Leaders of Important Syndicate

PARIS, (AP)—There is, also, a shortage in the ranks of the little millinettes in Paris. There is a gloomy foreboding among the leaders of the wealthy and important syndicate of milliners. Despite the many improvements since the war in the working conditions of these girls, their number is decreasing, for the petite Parisian is turning to typewriting and kindred occupations. The millinette's life was not always now so shorted to pay to be apprentices, earned little which the apprenticeship was ended and faced enforced idleness when business was bad. So notwithstanding the gay pictures of her painted by Parisian artists, it is not surprising that the Paris working girl is turning to other vocations.

STILLMAN LOANS WORKS OF ART TO EXHIBITORS

Metropolitan Museum Receives Memorial Donation from Former Bank President

NEW YORK, (AP)—A notable collection of paintings has been placed in the Metropolitan Museum of Art as a permanent loan from Charles Stillman Stillman in memory of his father, James Stillman, one-time president of the National City bank.

Eight of the pictures belong to the Italian Renaissance. They are "Virgin and Child," by Titello; two subjects, each entitled, "Portrait of a Man," by Morelli; "Virgin and Child with Holy granitic," by Giampietrangeli; "St. Barbara," by Francia; "Virgin and Child with a Bird," by Boccaccio; "Halb-eller," by Fontana; and "Portrait of a Middle-aged Man," by Lorenzo di Credi.

Two others represent the French of the eighteenth century—"Portrait of Mlle. Honore de Grigny," by Nattier, and "Portrait of a Lady," by Vestier. A fine example of Spanish art by Murillo, "The Madonna and Child," and Rembrandt's "Portrait of Titus," complete the loan.

The last named picture represents Rembrandt's son and was painted just prior to the artist's death. Pontorno's "Haltereller," was formerly in the collection of the Princess Mathilde.

PRODUCERS' PROSPECTS BETTER THAN THEY WERE A MONTH AGO

Apple, Potato and Wheat Yields Improve in Abundance According to Official Statistics—Government Report Shows State Productions Large, while Those of Nation Reduce

Idaho apple growers' prospects as shown in the government crop report for October are even brighter than a month ago. The report, issued by Julius H. Johnson, Idaho agricultural statistician, Saturday, forecasts the smashing of records. This state's crop is now estimated to be 200,000 bushels. There is a demand for Idaho apples that 100 cars will be required to move the commercial crop. The reason is that a week is available to ship the harvest this year. "The proportion of 'wind-falls' will be rather large but considerable of it will be shipped in bulk, while of some that were hit by hard frosts—many are being wrapped, boxed and shipped at 'half-market.' Their appearance is under par somewhat, but size, color and eating qualities are here just the same. "There is an immense crop in the Idaho and Payette valleys of highest quality. Conditions were generally all-around and districts were generally considered commercial, with the state's total crop estimated at 10,764,000 bushels.

Table with 2 columns: State, Production (1920 Crop, 1921 Crop). Rows include New York, Pennsylvania, Virginia, West Virginia, Ohio, Illinois, Michigan, Arkansas, Colorado, Washington, Oregon, IDAHO.

the total crop will move in carload lots, so that the previous estimate of 10,500 cars for Idaho still holds. Some 2500 cars of this total have already moved, principally from the early potato sections of Caldwell. "Wheat prospects are also improved with the state banking records and the country's production being average. Cuts show a gain in Idaho, but barley and sugar beets decline. The grain excerpts are as follows: "A state average of 24 bushels per acre is the preliminary estimate of spring wheat in Idaho this year. This means a crop of 15,000,000 bushels and a total wheat crop of 24,518,000 bushels when combined with the winter wheat crop already harvested. "This still exceeds former state records by nearly a million bushels. Scarcity and hot, dry weather at critical periods reduced earlier prospects, as otherwise this would have been a banner year for wheat production. Quality is 94 per cent, same as last year. "Correspondents estimate that 47 per cent of the 22,000 bushels of this year's crop has been marketed by October 1.

"The estimated yield of spring wheat in the United States is only 10.9 bushels per acre for 190,451,000 bushels. Adding the 15,979,000 bushels winter wheat crop, the total is 749,330,000 bushels. This is some forty-seven million below 1920 and ninety-one million below the 1915-1919 average. It is estimated that 321,000,000 bushels of the nation's crop had been marketed by October 1. "Production of oats in Idaho this year is estimated at 7,912,000 bushels, or 184,000 acres with an average yield of 43 bushels per acre. Last year the yield was 38 bushels per acre for a total of 7,200,000. "Barley averaged 34 bushels per acre for a total of 2,958,000 bushels; 1920 yields were 38 bushels per acre for a total of 3,438,000 bushels. "Rice and sugar beets are favorable to the sugar beet crop. Idaho prospects 46,540 bushels. The forecast is 380,274 bushels.

"What you may be sure to find in the classified advertising is the

Making Extraordinary Mileage a Certainty

Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.

Read Letters Below—Records from 29,000 to 57,000 Miles

Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 20,000 or 30,000 miles are frequent and consistent records. Now and then they are emphasized by unusual instances such as quoted below. Performances like these demonstrate the ultimate possibilities of Firestone Cords under careful driving.
