

# RAILROAD LAW IS UNDER FIRE

Wisconsin Governor Declares for Repeal of Esch-Cummins Act

DES MOINES, Ia., (P)—Governor John J. Blaine, of Wisconsin, in speaking to middle west governors and state officials in conference here Wednesday declared there can be no return to normal conditions until the Esch-Cummins law is repealed.

"After a lengthy talk on the freight rate problem, the unemployment situation and conditions generally, the Wisconsin governor presented a resolution calling for repeal of the Esch-Cummins law. Action was deferred.

**Attacks Income Guarantee.**  
"The Esch-Cummins law discourages efficient and responsible management for it guarantees the carriers a fixed return. Railroad stocks are generally inflated and the fixed guarantee is upon the inflated value, commonly known as 'watered stock.'" Governor Blaine said.

"It guarantees to a private enterprise is dangerous and vicious, yet there is no note justification for guaranteeing a return on railroad investments. It guarantees the farmer, merchant, banker, manufacturer, professional man or woman a return," he declared.

D. A. Carter of New York, president of the Northwestern Construction company, who is in the city with several construction men making a tour of the middle west states appeared before the officials and stated that he would not build the state executives that now was the right time to build and speed up construction after saying that labor and material costs were reasonably cheap.

**Defends Materials Cost.**  
"After a brief outline of the needs for construction to remedy the unemployed situation he added that in nearly all cases prices on material and construction prices were right. He said there was a making price and a selling price for materials and the time was right to buy. He said that the money and could take the material men forget the 'making' price."

## TWIN FALLS INVITES NEXT INSTITUTE HERE

School Convention Board Asked to Hold 1922 Teachers' Convention Here

Expressing the belief that Twin Falls city is best located, offers most advantages, and has most accommodations to place at the disposal of large convocation bodies, the directors of the Twin Falls Chamber of Commerce has addressed an invitation to the executive committee of the Institute of the South Central district of Idaho to hold next year's institute in this place.

Following is a copy of the letter signed by President A. B. Wilson and Secretary W. E. Wilson and the executive board, now in session at Burlington:

"The Twin Falls Chamber of Commerce through its board of directors respectfully submits the following invitation to your committee and to all the teachers concerned:

"Because the city of Twin Falls, by virtue of its size and location and surrounding natural attractions is the logical place in this district for holding the teachers' institute.

"Because Twin Falls is amply equipped to accommodate all the teachers, officers and instructors of the institute.

"Because the Twin Falls high school building affords an ample and satisfactory place for holding such a convocation and the convenience of conducting the entire institute within one building.

"Because the attitude and spirit of the teachers of the Twin Falls city schools is such as to guarantee you an unsurpassed degree of co-operation on their part in arranging for and in holding the institute in Twin Falls.

"Because Twin Falls has the greatest number of teachers accommodated with permanent resident conveniences who are otherwise compelled to change to another community temporarily for institute week.

"Because the business men and the people of Twin Falls will render every needed assistance on their part in making the institute a success.

"Therefore, we request your honorable committee to determine upon Twin Falls as the meeting place of the South Central District Teachers' Institute in 1922."

"Respectfully submitted by the board of directors of the Twin Falls Chamber of Commerce."

## Fishermen Rescued After Liner Passed Them By

Captain Albert B. Randall, commander of the United States liner Hudson, has been suspended from duty as the result of his failing to aid three Brooklyn, N. Y., fishermen who were adrift seven miles out on the Atlantic in a disabled motorboat. The men had been drifting seaward more than twelve hours, when the Hudson came up on seeing their signals for assistance. The Hudson, however, failed to stop, sending out a radio telling of the fisherman's plight. More than seven hours

after the Hudson had passed them by the three were rescued by the coast liner Statuak, bound from Boston to Philadelphia. Captain Randall's defense was that another steamer was nearer the men and that he had ordered his wireless operator to notify the freighter to go to the assistance of the men and to explain that he had made aboard and was proceeding. The photo shows the rescued men, who testified at the hearing. Left to right: Albert R. Taveri, Edward D. Young and William T. Tuvort.

# Rasmussen Decides TO UNLOAD!

*Entire Stock---Jewelry, Watches,  
Diamonds, Clocks, Silver, Cut Glass*  
And Nearly Everything in the Store at Half-Price  
**Sale Opens Tomorrow at 10 o'Clock Sharp**

**T**OMORROW morning at 10 o'clock we shall begin the sale. Everything in the store is included and the prices are by far the lowest ever known hereabouts. It is not the purpose of the sale to MAKE money. The intention is to RAISE money. And to raise money these days is no easy task. To turn Diamonds, Watches and Jewelry into cash it is going to be necessary to forget the cost altogether.

And we have done this. A glance at what follows will show the kind of sale this is going to be.

**I**JOTTED down the following from the window display: A \$12.50 Sandwich Tray of plated silver is marked \$3.50. A tall Vase of fine China, covered with 24-karat gold, is marked \$7.35, instead of \$20.00. The Tiffany gold Clocks, which never require winding, are marked \$16.85 instead of \$25. Wall Clocks, large size, which show the time by night as well as by day, are \$2.85 instead of eight dollars.

**A**SHEFFIELD Sandwich Plate, in a beautiful pierced design, is \$4.35 instead of \$9.00. A mahogany Mantle Clock, which strikes the hours on a soft-toned cathedral gong, \$9.85 instead of \$20.00.

**A**VELVET-LINED chest of "Community" silver, containing twenty-six pieces, can be bought for \$34.85 instead of fifty dollars. A silver-plated Basket is three dollars instead of fifteen. A mahogany Candlestick can be bought for a single dollar. A "Sheffield" silver Water Pitcher that was \$30.00 is now \$18.50. A \$12.00 silver-plated Bread Tray, is \$5.85. A set of Community Fruit Knives with hollow handles, if offered at \$3.25 instead of \$6.50.

**A**SET of Community Knives and Forks, sold the U. S. over at \$22.50 a set, is offered at \$14.85.

**A**SET of Rogers "1847" Knives and Forks with hollow handles are now \$9.85 instead of \$20.00. A group of odd Table Spoons, Tea Spoons, Dessert Spoons, Knives and Forks, worth up to \$1.25 apiece, will be sold for 20c apiece.

**A**MAGNIFICENT Tea Set, consisting of two pots, sugar bowl, creamer, spoon holder, all set on a fine big silver-plated tray to match. The set, originally \$165.00, will be sold for \$98.00—and it is one of the big prizes in the sale.

**S**TERLING silver Candlesticks that were \$32.00 a pair can now be bought for \$19.50. A Pyrex Casserole, in a silver-plated frame, can be bought for \$7.85 instead of \$12.50. A Tea Set of four pieces, valued at \$30.00, will be sold for \$19.85. A Sheffield Meat Platter, worth \$18.00, will go for \$11.85. And so on thru the entire stock of Silver, Sheffield and Plate.

**C**UT GLASS is half price—not for a few odd pieces, but for the entire stock. Bowls that were \$12.00 are now \$6.00. Nappies that were \$4.00 are now \$2.00. Sugar and Cream Sets are \$4.00 instead of \$8.00 a pair. Water Sets that were \$85.00 are \$17.50, and all the famous "Libbey" glass goes at half price as well.

**D**O you want to read about Pearl Beads? They're all half price.

**S**CARF Pins? Solid gold and set with brilliant stones. Half price, too. Cuff Buttons, Knives, Watch Chains, Charms, Seals, Rings. All—everything—half price.

**W**ATCHES, Clocks, Diamonds and Diamond Set Jewelry—a third off. Everything is marked in plain figures, so that you can see at a glance exactly how much you are saving.

**T**HIS advertisement could be made as long as a lawyer's brief, but it could not possibly convey any idea of the wonder of the sale and the tremendous savings it brings. And then, think of Christmas—only a few days away. To be exact there are by actual count just fifty-six shopping days to Christmas.

**W**ATCHES for men and women, a third to a half less.

Every one plainly marked. The original tickets are on every article.

Come early in the morning. Buy quickly—anything that goes wrong you can depend on Mr. Rasmussen to make right.

Pay cash. The purpose of the sale is to raise money. Please don't overlook the fact. And if you don't get into the store tomorrow, come Saturday.

For on Saturday the store is open till ten o'clock at night. Sale will end whenever the necessary funds have been secured.

I thank you.

# 44 STOCKYARDS FEDERAL WARDS

## List of Properties to Pass Under Government Supervision Made Public

WASHINGTON, D. C. (AP)—A list of the stockyards which, under the packers and stockyards act, will come before the supervision of the secretary of agriculture, November 1, was made public today. Fifty-four yards in almost 300 miles are included in today's list and it was announced, "It is to be observed that the status under the bill is confirmed officially."

Tentative regulations for the control of the yards, under the commission now and other market agencies, will be published soon, the department announcing however, that these are "open to modification upon suggestion or criticism from interested firms and persons."

**On Control List.**

The yards "listed" today included the following:

The Union Stock Yard and Transit company of Chicago, Chicago, Ill.; the Cincinnati Union Stock Yard company, Cincinnati, O.; the Cleveland Union Stock Yard company, Cleveland, O.; Denver Union Stock Yard company, Denver, Colo.; Eastern National Stock Yards, East St. Louis, Ill.; Independent Union Stock Yards, Ft. Paso, Tex.; Fort Worth Stock Yards company, Fort Worth, Tex.; The Ballou and Sons Stock Yard company, Indianapolis, Ind.; Kansas City Stock Yards company, Kansas City, Mo.; Milwaukee Stock Yards company, Milwaukee, Wis.; Union Stock Yards company, Omaha, Neb.; New York Stock Yards company, New York, N. Y.; Union Stock Yards, Ogden, Utah; Oklahoma City, Okla.; Union Stock Yards company of Omaha, La., Omaha, Neb.; Jasco Union Stock Yards company, Jasco, Okla.; Pittsburgh-Union Stock Yards company, Pittsburgh, Pa.; Fortified Union Stock Yards company, Port-au-Prince, St. Joseph Stock Yards company, St. Joseph, Mo.; St. Paul Union Stock Yards company, St. Paul, Minn.; Salt Lake Union Stock Yards, Salt Lake City, Utah; Union Stock Yards, San Antonio, Tex.; Union Stock Yards company, Seattle, Wash.; Sioux City Union Stock Yards company, Sioux City, Ia.; Spokane Union Stock Yards company, Spokane, Wash.; the Wichita Union Stock Yards company, Wichita, Kan.

**Supervisor on Ground.**

The department will place supervisors in each stockyard, to be designated livestock market supervisors, whose duty it will be to observe conditions and report the same to the secretary of the department and to iron out any difficulties on the ground as far as possible.

## DEFENSE RECALLS

(Continued from Page One)

"Arsenical poisoning," answered the witness.

"Doctor, would you say that the symptoms of Robert Dooley in his final illness were compatible with arsenical poisoning?"

"Yes, sir," replied the witness.

From four to six weeks was the usual duration of a typhoid shock. Dr. Wilson said, "The body illness culminating in death was unusual."

## Holds Fast to Position.

A lengthy cross-examination failed to develop any new points. Dr. Wilson persists in his assertions that while he assigned typhoid fever as the cause of death, he was never satisfied with his diagnosis of the case.

"I had to sign something—the body had to be embalmed," was one of the doctor's admissions. "My City witness when presented as his reasons for such signature."

City Chemist E. R. Dooley testified that on an analysis of the fluid used by the Grossman undertaking institution in the preparation of the Dooley body showed no trace of arsenic.

## Uses Method of Analysis.

Chemist Herman Harns of Salt Lake described his method of analysis of the typhoid specimens given him for this purpose by Deputy Sheriff Ormsby.

**Last Expert Testimony.**

The last of the expert witnesses who testified was in the trial of Lydia Meyer, charged with the murder of Edward P. Meyer, her fourth husband, occupied the witness stand yesterday. Edward P. Bodenbaugh, state chemist, dated a brother-in-law, Harns, state chemist of Utah, placed in evidence the results of their analysis of the bodies of the woman's three previous husbands and a brother-in-law.

In every case the analysis showed the presence of poison in the organs examined.

The cross-examination failed to shake the testimony of either witness.

Samples of the insect exterminator which it is alleged was used by the defendant to poison all five men, sprayed from the bodies of which he was analyzed, was also submitted for examination to Chemist Herman Harns. The analysis showed the presence of substantial quantities of the poison.

**Dr. Wilson on Stand.**

Dr. H. W. Wilson of Twin Falls, who treated both Ed and Robert O. Dooley, respectively, brother-in-law and husband of the defendant up to the time of his death in 1916 declared on the witness stand that he assigned typhoid fever as the cause of death for the reason that he did not know what else to call it. He never was satisfied with his own diagnosis of the case, he said.

Dr. Wilson described in detail the symptoms attending the case of both Edward and Robert O. Dooley. Temperature, he said, was present in both cases. Aside from this his description did not vary from the descriptions given as to the cases of Meyer, Lewis and McElfatich by attending physicians. In the case of Robert Dooley, the second of the two brothers to die, he was so dissatisfied with the results obtained in the case that he asked for a consultation and called Dr. H. W. Clouschek into the case. Abdominal pains, high temperature and delirium were the predominant characteristics of the case, Dr. Wilson said, and the only symptom consistent with typhoid within a ten day period was the results obtained in the case. Robert Dooley was the predominant characteristics of the case, Dr. Wilson said, and the only symptom consistent with typhoid within a ten day period was the results obtained in the case.

**Grew Gradually Worse.**

Robert Dooley grew steadily worse until his death, dying on October 1, 1916.

"The first saw Edward Dooley of July 20 of 1915. His symptoms were typhoid fever," he said. "He was treated by the ordered—the patient taken to hospital for closer observation on August 7. On August 8 he visited the patient twice. Asked as to the condition of Mr. Dooley at the time of this visit Dr. Wilson said that he was dying. This was the last time he saw him alive."

"I was successful in making a satisfactory diagnosis of this case," asked Prosecutor Stephan.

"My diagnosis was not satisfactory to me," answered the witness.

"Why?"

"For the same reason as in the case of his brother."

"What was it that bothered you?"

"I couldn't account for the excessive pain in the abdomen."

"What cause of death did you assign?"

"Typhoid fever."

"Why did you assign typhoid fever as the cause of death?"

"Because I didn't know what else to call it."

**No Arsenic Used.**

"Doctor Wilson, did you prescribe arsenic in your treatment of either of the bodies?"

"I did not, in any quantity or any form."

Herman Harns, Utah state chemist, asked questions of analysis of each of the five cases brought into the evidence with the exception of Harlan C. Lewis. In each case his findings showed the presence of arsenic in slightly varying quantities. In case of the two Dooleys, a trace of morphine was also found.

"Because I, Harns, analyzed samples of typhoid material over to him

by Deputy Sheriff Ormsby on the occasion of his first visit during the trial of Harns of Salt Lake was paid \$125 which for his examinations of specimens from the four different bodies and that in addition to this he expects to receive his expenses and the sum of \$25 per day. Mr. Harns stated, is a much smaller sum than is usually charged for expert services of this character.

**Seeks Another Poison Source.**

An interesting feature of the cross-examination of the witness by Mr. Mills developed through the doctor's counsel to go to Mr. Harns to admit the possibility of arsenic gaining access to the bodies in some manner other than that alleged by the prosecution.

"Wouldn't it be possible for the body to take up arsenic from the soil?" he asked Mr. Harns.

"Such a contingency would be very remote indeed," replied the witness.

"Well, Mr. Harns, wouldn't it be possible for arsenic to seep from one body containing it into another after death?"

"No, it wouldn't."

"Couldn't arsenic gain access to buried bodies by seeping through the soil beneath the feet of the bodies, where it has been used for spraying?"

"This, I think, would be a very unlikely contingency," replied the witness.

"Did you ever hear of the body taking up arsenic from the clothing, the coffin, the box in which it was buried?"

"I have heard of it," replied the witness. "In certain low-line countries. Where bright colored clothes are worn at burial, arsenic dyes used in the manufacture of such clothes might result in small quantities of the poison working into the body."

**Vapors Bear Poison.**

"Did you ever hear of arsenic poisoning by vapor or fumes?"

"Yes, I have. Animals have been poisoned by smelter smoke around Salt Lake."

"Did you ever hear of arsenic poisoning through the use of intoxicating liquors?"

"I have never heard of an instance of this."

"Did you ever hear of trees, plants and vegetables containing arsenic poison?"

"I have traced arsenic having been found in certain plants and vegetables, but the presence of a drug in this way is in no sense injurious," answered the witness.

slipcase could be removed without difficulty.

The embassy was carefully guarded today by policemen and detectives. Experts at the city laboratory had completed examination of fragments of the bomb and confirmed earlier reports that it was of British make of the portable type.

If the man who opened the package had not been a soldier in the late war he would have been taken to pieces," said a police official this morning.

Final decision regarding the communitarian manifestation managed for tomorrow evening remains to be taken. Police officials said today that whether the decision, there would be sufficient force on hand to prevent crowds from approaching the American embassy or indulging in violence anywhere.

**Trial Leads to Communitarian.**

The attention of the police had been directed toward a certain number of American citizens who, although banished from France, are known still to be in the country. The first search, however, it was said today, probably will be made in anarchist and communitarian circles as the crime is regarded by the police as a result of a communitarian campaign against the conviction for murder of Nicolo Sacco and Bartolomeo Vanzetti, two Italians, by a Massachusetts court last summer.

## Today's Markets

**WHEAT MARKET REGAINS STABILITY SEMBLANCES**

Prospective Reduction in Winter Crop Acreage Tends to Check Further Price Fall

**CHICAGO, (AP)—Wheat** secured a moderate rally today chiefly as a result of covering by shorts. Predictions in some quarters that a general rail strike would yet be averted count somewhat in a bullish factor. Besides, hope was expressed for a fair crop harvest today. Opening prices, which varied from unchanged figures to 1-2c higher, with December \$1.10 to \$1.04 3-4 and May \$1.08 to \$1.10 were followed by numerous changes within the initial range.

Subsequently the market made a further ascent, influenced more or less by prospective reduction of winter wheat acreage, but export call was rather slow, and prices declined in the late trading. Closing quotations were unsettled, at the same as yesterday's prices to 1-3c higher, December \$1.03 3-4 to 1.04 and May \$1.08 1-2 to 1.09 3-4.

Corn and oats paralleled the action of wheat. Corn started 1-8 to 1-4c to 3-8c up, December \$3.34 to \$3.78, and then continued to harden.

Better shipping demand from New England helped to sustain the corn market at the last. Prices closed firm, 3-8 to 5-8c net higher, with December \$4.00.

Oats were 1-8c higher at the outset.

**New York Stock Market**

**NEW YORK, (AP)—Shorts** contributed to the better tone of local market, but fairly broad stock market. Transportation and high grade industrial held or extended recent gains. Sales approximating 400,000 shares. Treasury shorts continued to cover contracts in the stock market today, evidently with the belief that there would be no serious interruption to road traffic. Early gains among rails were moderate, but at higher levels. American Sugar preferred was the steepest issue, rising three points on official announcement that the prevailing dividend would be maintained. Popular equipments, oils and specialties also were better. May Department Stores gaining 3 points. Virginia Carolina Chemical and Republic Iron were heavy, the latter reacting on yesterday's unfavorable quarterly statement. Leading foreign exchanges, including German marks, were steady. Rails were neglected later but mixed gains and losses were made by rubbers, tobaccos, motors and obscure specialties. German marks, were steady. Liberty and railroad bonds were firm.

**New York Sugar**

**NEW YORK, (AP)—The raw sugar** market was steady early today at 4 1/2 for duty free centrifugals and \$4.11 for Cuba's. The committee reports sale of 60,000 bags of Cuba's.

The raw sugar futures were very quiet, but the undertone was steady and prices at midday showed gains of 1 to 3 points.

No further changes occurred in refined sugar with fine granulated listed at \$23.20 to \$23.

Covering by October shorts caused an advance of 20 points in that position to refined futures, but no other transactions were recorded.

Sugar futures closed steady; approximate sales 550 tons; December \$2.40; January \$2.35; March \$2.30; May \$2.40.

(By BONUS COMMITTEE.)

With the listing of today's notes, comes Filer with a rousing sum for a starter. And with the "Fair City's" entrance we presume it an opportune time to repeat an interesting point recently brought to the attention of the bonus committee.

In all probability a shipment of potatoes, hay or other commodity, consigned to San Francisco, Nevada or the various states, in transit over the Central railroad will be assessed a flat rate, regardless of its point of origin, whether it be Castelford, Filer, Rupert or Kimberly. Twin Falls, or the city will, or can be by any reasonable argument, reap all the benefits of this project. We are tempted to repeat Everett M. Sweeley's mass meeting statement: "This railroad is bigger than any city, any county or county; it is a matter for the entire southern part of Idaho."

This is the sentiment that must prevail if we are to succeed in this drive. It is the bonus committee's honest desire that Bartley, Rogerson, Buhl, Kimberly and Jerome look upon this project with as much a sense of possession as do the citizens of Twin Falls and Contact. The entrance of Filer in our behalf elicits good if great distance to uphold this view. We feel we are everybody the happy sentiment of every one in the two wards.

We call attention to the pleasing returns brought in today by a very few sincere collectors: \$3700. We need not ask solicitors and pleaders, but men are not too many. The weather, too, appears to be with us on this drive, but, who knows how long it is going to continue its gracious beneficence while we drive and only sweat the fine days. Let's try getting out of bed once, just a little before 9 a. m. The women! Surely it would be marvellous if the great work completed, did without their arduous efforts, no doubt, many are wondering how they can be of assistance to the drive. Lament providing the plan was under way, they through to carry we wish to state the bonus committee will not be in dire need of quite a number of ladies—Good jobs, short hours, no work and we refer to any "lady".

# SERIOUS DISORDERS REPORTED

BADAJOS, Spain, (AP)—Serious disorders attended the military movement against the Portuguese government, which broke out in Lisbon on Wednesday, it is said, in advance received here. The trouble began when the Cafe Drumlair, a political rendezvous, was closed, causing a number of Portuguese guard coming into collision. In the ensuing demonstration, there was considerable rifle and revolver firing, but the number of casualties is not known. Sailors became involved in the street fighting, and went to their vessels, seized weapons and fired upon a crowd, wounding a number of persons. Students and the police also came to blows and many were injured. The police have arrested numerous persons.

# MEXICAN COURT UPHOLDS OIL OPERATORS CLAIMS

Enjoins Vera Cruz Officials from Interfering with Activities of British Concerns

MEXICO CITY, (AP)—Officials of the state of Vera Cruz were enjoined from interfering with the operations of the Agulla Oil company, a British concern, yesterday by the Mexican supreme court. The injunction stopped the officials from creating any obstacles of recent acts of the state legislature and declared that those acts were not retroactive in that they had no effect upon titles or transactions on record prior to the passage of the law. Efforts by the corporation to have lifted the embargo which was recently imposed by Vera Cruz state authorities to insure the payment of back taxes, were sustained by the court.

# BOY SOUGHT TO REPRODUCE ROOSEVELT'S BANGOR HOME

OSHTON, N. Y., (AP)—A reproduction of the Bangor home of Theodore Roosevelt for three years lived the life of a cowboy, he being planned by Boy Scouts of the United States. Efforts by the corporation to have lifted the embargo which was recently imposed by Vera Cruz state authorities to insure the payment of back taxes, were sustained by the court.

It is proposed to have the original construction of the ranch house carried by relays of scouts from the Little Missouri river to Oyster Bay.

It did not, but that it was the road's policy so to confer. He also denied that the road felt bound by the law of the labor board to select employee representatives by ballot, adding that a number of representatives had been named without a written ballot.

# Executives Push Plans

Plans to operate passenger, mail and freight service were held by railroad executives, in event the strike takes place, with resumption of freight traffic as fast as men can be secured. The eleven "standard" unions probably will meet tonight in an informal conference to discuss developments at the railroad labor board-brotherhood meeting this afternoon. E. F. Grabie, president of the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers, said at noon that the eleven organizations expected to reach a common understanding for concerted action. Twenty-one grand lodge officials of Grabie's union were in conference today and three more, one from the Pacific coast, one from Salt Lake City and the other from Toronto are expected to arrive this afternoon.

# Deaths

Mrs. Sarah Cochran.

Mrs. Sarah Cochran, wife of Wilson Cochran, died Wednesday at 2:30 a. m. after a long illness south of Twin Falls. Deceased was 72 years of age and had been an invalid for the past six months. Besides her husband, her immediate family consists of four children: Mrs. Frank Wilson and Roy Cochran of Twin Falls, and Ray and Guy Cochran of Eagle Rock, S. D. Neither of the absent sons will be able to attend the funeral which will be conducted by the Frank Wilson home church of Twin Falls Sunday at 2:30 p. m. The Rev. E. L. White will officiate and J. E. DeWitt will be in charge. Interment will be made in the Twin Falls cemetery.

# Wright's Plush Coats

A GOOD PLACE TO TRADE

These new Plush Coats that arrived yesterday are out of the ordinary values. The quality of plush is excellent and the fur trimmings are better than usual.

There are squirrel and skunk collars and cuffs on them and every one is fully silk lined. The sizes run from 16 to 42. Last season, coats of this quality and style cost you more than today's retail.

There is an insistent trend toward better merchandise quality being given first consideration, and these coats are indicative of this fact.

The department will place supervisors in each stockyard, to be designated livestock markets supervisors, whose duty it will be to observe condition of stock and to report to the stockyards, report the observations to the department and to iron out any difficulties on the ground as far as possible.

DEFENSE RECALLS

(Continued From Page One)

"Aren't you poisoning?" answered the witness.

"Doctor, would you say that the symptoms of Robert Dooley in his final illness were the same as those of arsenic poisoning?" asked the attorney.

"Yes, sir," replied the witness.

From four to six weeks was the usual duration of a typhoid fever, Dr. Wilson said. A ten-day illness terminating in death was unusual.

Holds Fast to Position

A lengthy cross-examination failed to develop any new points. Dr. Wilson persisted in his assertion that he had assigned typhoid fever as the cause of death, he was never satisfied with his diagnosis of the case.

"I had, to sign something—the body and to be signed," was the story of the witness when pressed as to his reasons for such signature.

City Chemist E. R. Dooley testified that on analysis the embalming fluid used by the Grossman undertaking in Dooley's case showed a trace of arsenic.

Oliver Meador of Anaconda, Montana, state chemist of Idaho and Herman Harms, state chemist of Utah, placed in evidence the results of their analysis of the fluid in the two cases.

"I was not," in any quantity or any form."

Herman Harms, Utah state chemist, analyzed specimens from the bodies of each of the five cases brought into the evidence with the exception of Italian C. Wilson, in each case his findings showed the presence of arsenic in almost varying quantities. In case of each of the two Dooleys, a trace of morphine was also found.

According to Mr. Harms' analysis of samples of flypaper turned over to him

by Deputy Sheriff Ormsby on the occasion of his first visit during the trial he testified yesterday that his analysis showed that 40 square inches of the flypaper contained two grains of arsenic.

Chemists' Pay Disclosed

Cross-examination into yesterday afternoon developed the fact that \$1250 in fee for the analysis of the bodies of each for his examinations of specimens from the four different bodies and that in addition to this he expects to receive \$1000 for the sum of \$2250 per day.

This, Mr. Harms stated, is a much smaller sum than is usually charged for expert services of this character.

Seeks Another Poison Source

An interesting feature of the cross-examination of the witness by Mr. Mills developed through the desire of the counsel to get Mr. Harms to admit the possibility of arsenic gaining access to the bodies in some manner other than that alleged by the prosecution.

"Would it be possible for the body to take up arsenic from the soil?" he asked Mr. Harms.

"If a contingency would be very remote indeed," replied the witness.

"Well, Mr. Harms, wouldn't it be possible for arsenic to seep from one body containing it into another after the latter was buried?"

"No, it wouldn't,"

"Couldn't arsenic gain access to buried bodies by creeping through the soil?"

"I have heard of it," replied the witness, "in certain low-lying countries. Where bright colored clothes are worn at burial, arsenic dyes used in the manufacture of such clothes might result in small quantities of the poison working into the body."

Repeat Bear Poisoning

"Did you ever hear of arsenic poisoning by vapor or fumes?"

"Yes, I have. Animals have been poisoned by smelter smoke around Salt Lake."

"Did you ever hear of arsenic poisoning through the use of intoxicating liquors?"

"I have never heard of an instance of this."

"Did you ever hear of trees, plants and vegetables containing arsenic poison?"

"Faint traces of arsenic have been found in certain plants and vegetables, but the presence of a drug in this way is in no case injurious," answered the witness.

No Arsenic Used

"Doctor Wilson, did you prescribe arsenic in your treatment of either of the Dooleys?"

"I did not, in any quantity or any form."

Herman Harms, Utah state chemist, analyzed specimens from the bodies of each of the five cases brought into the evidence with the exception of Italian C. Wilson, in each case his findings showed the presence of arsenic in almost varying quantities. In case of each of the two Dooleys, a trace of morphine was also found.

Embassy Under Guard

The embassy was carefully guarded today by policemen and detectives.

Reports at the city laboratory had confirmed explanation of fragments of the bomb and confirmed earlier reports that it was of British make of the verifiable type.

"If the man who opened the package had not been a soldier in the late war he would have been blown to pieces," said a police official this morning.

Final decision regarding the communist manifestation announced for tomorrow evening remains to be taken.

Police officials said today that whatever the decision, there would be sufficient force on hand to prevent disorder from approaching the American embassy or indulging in violence anywhere.

Trail Leads to Communist

The attention of the police had been directed toward a certain number of American citizens who, although banished from France, are known still to be in the country.

The first arrests, however, it was said today, probably will be made in anarchist and communist circles, as the crime is regarded by the police as a result of a communist campaign against the conviction for murder of Nicolo Sacco and Bartolomeo Vanzetti, two Italians, by a Massachusetts court last summer.

Today's Markets

WHEAT MARKET REGAINS STABILITY SEMLANCES

Prospective Reduction in Winter Crop Averages Tends to Check Further Price Fall

CHICAGO, (AP)—Wheat scored a moderate rally today chiefly as a result of covering by shorts.

Predictions in some quarters that a general railroad strike would be averted convinced the market as a result of a factor.

Beiside, hope was expressed for a fair export business today. Opening prices, which varied from unchanged figures to 1-2-2 with December \$1.04 to \$1.04 3-4 and May \$1.08 to \$1.10, were followed by numerous changes within the initial range.

Subsequently the market made a further ascent, influenced more or less by prospective reduction of winter wheat acreage, but export call was rather moderate and price declined in the late dealing.

Closing quotations were unsettled, at the same as yesterday's finish to 1-2-2 higher, December \$1.03 3-4 what they are now trying to get through their heads.—Boston Transcript

NEW YORK, (AP)—Shorts contributed to the better sale of today's fall, but fairly broad stock market. The portions and high grade industrials held or extended recent gains.

Salomon's 40,000 shares. Short covering continued to cover contracts in the stock market today, evidently with the belief that there would be no serious interruption to railroad traffic.

Early gains among rail were modest, but at higher levels. American Sugar preferred was the strongest issue, rising three points on official announcement that the prevailing dividend would be maintained.

Popular equipments, oil and specialties also were better. May Department Stores gaining 3 points. Virginia-Columbia Chemical and Republic Iron were heavy, the latter reacting on yesterday's unfavorable quarterly statement. Leading foreign exchanges, including German marks, were steady.

Rails were neglected later but mixed gains and losses were made by rubbers, tobacco, motes and obscure specialties. The prevailing dividend would be maintained. Liberty and railroad bonds were firm.

# FILER SUPPORTS RAILROAD DRIVE WITH ITS CASH

## 'Fair City' Enters List of Subscribers with Good Amount in Pledges

Twin Falls city	\$112,278.00

Total this hour \$258,447.50  
(By BONUS COMMITTEE)

With the listing of today's notes, comes Filer with a rousing sum for a starter. And with the 'Fair City's' entrance we presume it an opportune time to repeat an interesting point recently brought to the attention of the bonus committee.

In all probability a shipment of postage, lay or other commodity, consigned to San Francisco, Nevada or the eastern states, in transit over the Idaho Central railroad will be given a flat rate, regardless of its point of origin, whether it be Castelford, Filer, Rupert or Kimberly. Twin Falls or no other city will, or can by any reasonable argument, reap all the benefits of this project. We are tempted to repeat Everett M. Sweeney's mass meeting statement: "This railroad is bigger than any city, any community or county, it is a matter for the entire southern part of Idaho."

This is the sentiment that must prevail if we are to succeed in this drive. It is the bonus committee's honest desire that Burley, Rogerson, Buhl, Kimberly and Jerome look upon this project with as much a sense of urgency as the citizens of Twin Falls and Contact. The entrance of Filer in our list of cities goes a great distance to uphold this view. We feel we are voicing a happy sentiment in hereby listing in the two words: "Filer! Welcome!"

We call attention to the pleasing returns brought in today by a very few sincere subscribers. \$700. We need more such subscribers and pledges. Fifty men are not too many. The weather, too, appears to be with us on this drive, but who knows how long it is going to continue its gracious benevolence while we dilly and dally away the fine days. Let's try getting out of bed once, just a little before 9 a. m. the morning. Surely it would be more satisfactory if this great work was completed without their personal efforts, no doubt, many are wondering how they can be of assistance to the drive. Let's try to get the drive new and under way carry through to success we wish to state the bonus committee will soon be in dire need of quite a number of ladies. Good jobs, short hours, no work and we regret to say it's no pay."

## SERIOUS DISORDERS REPORTED

BADAJOS, Spain, (AP)—Serious disorders attended by the military government, which broke out in Lisbon on Wednesday, it is said, in advices received here. The trouble began when the Cafe Bravissimo, a political rendezvous, was closed, citizens and the republican guard coming into collision. In the ensuing demonstration, there was considerable rifle and revolver firing; but the number of casualties is not known here. Sailors became involved in the street fighting, and went to their vessels, seized weapons and fired upon a crowd, wounding a number of persons. Students and the police also came to blows and many were injured. The police have arrested numerous persons.

## MEXICAN COURT UPHOLDS OIL OPERATORS CLAIMS

Enjoins Vera Cruz Officials from Interfering with Activities of British Concern

MEXICO CITY, (AP)—Officials of the state of Vera Cruz were enjoined from interfering with the operations of the Agulla Oil company, a British concern, yesterday by the Mexican supreme court. The injunction was issued by officials from carrying out the provisions of recent acts of the state legislature and declared that those acts were not applicable in that they had no effect upon titles or transactions on record before the passage of legislation. Efforts by the corporation to have lifted the embargo which was recently imposed by Vera Cruz state authorities to insure the payment of back taxes, were sustained by the court.

# EAST AND WEST SURE TO CLASH OVER 'CULTURE'

### Japanese Editor Predicts Differences But Says Trouble Can Be Settled Without Resort to Warfare

HONOLULU, T. H., (AP)—A "cultural war" between the Orient and the Occident is "bound to come," but all differences between the United States and Japan can be settled amicably, according to the beliefs expressed today before the Press Congress of the World in session here, by M. Zumoto, editor of the Herald of Asia and formerly secretary to the late Premier Ho of Japan.

"If the west persistently refuses to listen to the voice of reason and justice and aggravates the antagonism of culture by injecting race prejudice," he said, "it is not inconceivable that the result possibly may be war between the races, increasingly more calamitous than the last great war and larger in extent. Therefore the responsibility for avoiding such a calamity rests with the civilized nations of the west."

**Fight or Arbitration**  
"Mainly, the question is whether Japan and the United States will fight or settle all troubles in a friendly way as all international problems should be settled," Mr. Zumoto declared. He continued:

"A cultural war is bound to come but I hasten to tell you my firm conviction that all trouble existing between Japan and the United States can and will be settled peacefully. I believe that in spite of occasional complications and recent rivalry in many fields of activity the two countries will remain friendly and at peace."

"The question before the world with regard to the Pacific ocean is whether that beautiful expanse of water is to be made a scene of strife. Japan and America are the respective vanguards of two civilizations, representing two continents and making no difference that when they come into contact the shock is bound to be unpleasant and disconcerting."

"Such impact necessarily engenders heat which, unless handled with the utmost care and patience, may result in a configuration unparalleled in the safe history of human wrongs and sufferings."

**Problem of History**  
"The question of cultural antagonism cannot be settled by official conventions. It is a permanent problem of history and we Orientals are ready to take a philosophical view of the matter. We certainly will not hesitate to call attention, sometimes in a loud voice, to the Occident's failure or unwillingness to meet our just demands when such failure is considered incompatible with our honor or our vital interests. But we will not be in any haste to press the point."

"This philosophical attitude is illustrated in Japan's handling of the California question. Deeply as we feel the affront California persistently offers by frankly discriminating legislation against our nationals, there are but few sane men among us who even dream of the possibility of a rupture in connection with the California problem. With regard to California we are prepared to treat to the potent power of time to solve all difficulties."

## LABOR SHORTAGE HALTS HAWAIIAN GUARDS CAMP

War Department Postpones Annual Manuevers to Permit Oiltown Soldiers to Remain at Work

HONOLULU, T. H., (AP)—Shortage of labor in the Hawaiian islands has led to a war department's decision to postpone the annual encampment of the national guard of Hawaii, according to orders received from Washington by Colonel W. D. Potter, adjutant general of the territory.

Colonel Potter, in making this announcement, said that he had placed the labor situation of the islands before the war department, pointing out that harvesting and grading of the sugary cane crop would have to be delayed at a loss to the plantation owners, if the encampment were held as usual, because many members of the guard are employed in the fields. He also said that he had informed the department that the annual manuevers of the organization would force several units to close down.

## TESTS INSURANCE FOR WAR MADDENED VETERAN

American Legion's Attorney Brings Suit to Compel Payment on Policy

PROVIDENCE, R. I., (Special)—Whether former soldiers, maimed or mangled by shell-shock, wounds and gas are temporarily or permanently insane is to be determined in three suits to compel payment of war risk insurance by the government, filed in United States district court here today by James H. Littlefield, attorney acting for the American Legion.

The action has been taken in behalf of three soldiers, Adam Mikkilwitz, Giuseppe Vifilio and James McFee. It is alleged under the war risk insurance act that the three are totally disabled as a result of insanity. The government insurance bureau, Mr. Littlefield charges, has refused to pay the insurance of the men on the ground that they are but temporarily disabled and may recover their normal faculties.

Hundreds of New England service men, their minds dwarfed from shell-shock, wounds and gas, are confined in state institutions for the insane and in some instances are being treated as insane. "These men were returned from service in the army as insane, and it has been established that they are insane due to army service," Mr. Littlefield declares. "Yet the government refuses them the financial relief to which they are entitled under the war risk insurance act and they have not drawn a cent from their policies. Two must remain confined in the state asylum unless we can collect the \$47,500 a month for 20 years on their policies. This amount would enable them to be released from the asylum and allow their families to care for them."

## LEGION PLANS TRIBUTE TO THEODORE ROOSEVELT

Observance of Famous American's Birthday Anniversary by Veterans

INDIANAPOLIS, Ind., (Special)—Observance of Theodore Roosevelt's birthday on October 27 is urged upon all posts of the American Legion in instructions being sent out by national headquarters of the service organization. The 11,000 Legion units are asked to organize celebrations of their own or to take active part in exercises arranged by their community bodies.

"The American army in Europe and in the camps at home never had a better friend than Theodore Roosevelt," the Legion instructions read. "If he had had his wish he would have fought and died at our side; as it was, he fought the good cause at home until, like the soldier on the firing line, he fell fighting, with his face to the enemy. By his vigorous efforts for preparedness he made all Americans his debtors. No one will ever know how many American lives were saved to future usefulness by his appeals for adequate protection before war came."

## FRATERNAL CONGRESS TO OBSERVE ARMISTICE DAY

Instructions All Member Associations to Prepare Special Programs in Memory of Dead Heroes

CHICAGO, (AP)—In keeping with the nation-wide observance of Armistice day, November 11, when the nation will pay tribute to the dead heroes, the National Fraternal Congress of America has set out plans to all local member associations to prepare special programs in connection with the event. The scope of this observance is best realized when it is known that the National Fraternal Congress of America is composed of 92 organizations, embracing a membership in excess of eight million people.

All the local branches of the various societies will have programs which will include prayer, songs, drills and music, appropriately fitted for the day. In many cities, the fraternal units will erect crosses at the graves, and gold star mothers will be signally honored.

## MOSES ATTACKS POLICY OF GRADUATED TAXATION

New Hampshire Senator Urges Adoption of Sales Levy as an Alternative

WASHINGTON, D. C., (AP)—Urging adoption of the Smoot manufacturers sales tax, Senator Moses, republican, New Hampshire, told the senate Wednesday that it would "strike down the pernicious principle of graduated taxation which appears in the pending tax bill and which is but a modern legislative adaptation of the communist doctrine of Karl Marx."

Senator Moses, a leader in the group of eastern senators opposing the republican compromise tax revision program declared that the finance committee measure had been "plainly drawn under the inspiration of the inspiring slogan 'soak the rich.'"

"I referred to the agricultural bloc which proposed the compromise plan as 'that division of the lynchable empire which may be styled as the Ken-Saw-Ken.'" Senators Kenyon of Iowa and Capper, Kansas, are leaders in the agricultural bloc.

"I hold no brief for the rich," Senator Moses said. "Nevertheless, any of my kin have ever stood within their circles. But I cannot help thinking:

**OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY**

Rub Pain from Back with Small Trial Bottle of Old 'St. Jacobs Oil'

When your back is sore and lame or lumbago, sciatica or rheumatism has you suffered you don't suffer! Get a small trial bottle of old, honest, "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, lumbago or rheumatism so promptly. It never disappoints!—adv.

that the rich may learn from some suffering, even as Peter the Great learned from the repeated assaults of Charles XII, how to fight. Indeed, they have already begun. Capital has gone on strike."

Senator Jones, democrat, New Mexico, expressed regret that the pending bill did not contain a provision taxing undistributed profits of corporations and said that he would offer an amendment within a day or two designed to make this possible.

**What made the automobile practicable?**

There can be no question that gasoline preceded the automobile and made its present universal use possible.

Internal combustion engines have been made to run with other kinds of fuel—alcohol, benzol, coal and natural gas, kerosene, etc. But gasoline, because of its greater effectiveness and economy compared with all other known motor fuels, has been responsible in a large measure for the tremendous growth of the entire automotive industry.

For over a decade The Continental Oil Company has been serving a great territory consisting of the six intermountain states. Its task has been a big one and has called for much strenuous effort and the development of a large organization.

Volume production, particularly in the petroleum industry, and efficient distribution make possible a lower selling price for each commodity made than would be practicable for a legion of small producers. And this applies not only to petroleum products but to every necessity of modern life, from matches to steel rails.

The various storage stations of The Continental Oil Company, its many fleets of delivery trucks and wagons, its up-to-date service stations, the uniformly high quality of its products—all these are evidences of the efficient way in which this company is handling the big job that it has undertaken. ### STUDENTS PLAN REBUILDING OF VARSITY TRACK

#### Cinder Path to be Made Equal to Best in the West, is Announcement

UNIVERSITY OF IDAHO, Moscow, (Special) Plans for rebuilding the Idaho cinder track, making it the equal of the best in the west, and laying out an ideal baseball diamond on MacLean field, are being perfected by students at the University of Idaho.

"Track Day" will be held soon, at which each student and faculty member will be asked to give 50 cents. Prof. John H. Cushman, director of dramatics, has agreed to coach two plays and give the receipts. Money in excess of expenses taken in by university clubs at dances is looked for also.

### SPEED DEMONS SCHEDULED TO MEET SUNDAY

California Speedway to be the Scene of Fast Driving when Racers Gather

SANTA ROSA, Cal., (AP)—Governor of the nation's fastest automobile drivers meet on the Coast City race track near here, next Sunday in a 100-mile race which may decide the speed championship of the United States.

Two of the races will be Tommy Milton and Ross Starnes, who are only a few points apart in the year's battle for points which decide the possession of the American Automobile association speed cup. If Starnes places ahead of Tommy Milton Sunday he will take the lead in points.

Other drivers will be Jimmy Murphy, winner of this year's Dixie Prix race in Paris; Ralph De Palma, Eddie Hearne, who on August 14 broke the 150-mile record on the Cotati track, Jerry Wondolish, Joe Thomas, Tom Alley and others.

### British Hockey Girls' Team is in Weak Shape

Two Important Members Unable to Play in All-Philadelphia Series

PHILADELPHIA, Pa., (AP)—The English girls hockey team met the 1920 all-Philadelphia eleven today in the first of a series of matches with American teams arranged by the Philadelphia Hockey association. Two of the British players, Mrs. E. Ward and Miss W. I. Anos were unable to take part. Mrs. Anos was injured on board ship and Miss Anos has bronchial pneumonia.

### FIRST BASKETBALL MINNEAPOLIS, Minn., (AP)—First basketball practice of the 1921-1922 season at the University of Minnesota was scheduled for today.

### CALIFORNIA'S FOOTBALL TEAM BADLY DAMAGED

#### Injuries to Men Put Smith's Team Practically Out of Running

BERKELEY, Cal., (AP)—Some time ago Andy Smith, head football coach at the University of California, said he feared injuries this year might cripple his "wonder team," which last season won the Pacific Coast conference championship and defeated Ohio State University at Pasadena, Cal. Smith evidently knew what was coming for noon after his statement appeared, several star Blue and Gold players were put on the hospital list.

California's big loss is in H. P. (Breck) Muller, end, probably the best player on the team, who broke a bone in his knee while playing against the University of Nevada. There is a slim chance that Muller will be in the California lineup for the "big game" against Stanford university November 10.

Another place hard to fill is the quarterback position, held last year by Charley Erb, who is out of the conference game this year with his leg. Erb expects to play in the only game.

Others on the hospital list, and their injuries are: Dick White, promising fullback candidate, broken leg; Ken Engelbrecht, first string end; substitute, sprained ankle; Jimmy Clunk, substitute, right ankle and left, sprained shoulder, and L. C. (Cris) Tomney, regular fullback, bad ankle.

### Carpenter Will Box George Cook in London Dec.

London newspapers indicate the British are taking against the coming bout between George Carpenter and George Cook for December 2. Cook is said to be a tough fellow who can take a lot of hitting, but is classed as a light hitter for a heavyweight.

With present dissatisfaction with Joe Beekoff as England's heavyweight champion, British favor less confidence to follow George's ring career, and London's greatest crowd is expected to see the December 2 bout.

Of course Georges cannot afford to take much of a clinch, for he is booked to meet Tommy Gibbons in the United States, probably in January, and Gibbons is some shucker when it comes to fighting.

It is thought that if Cook should chance to defeat Carpenter or the Gibbons engagement would be cancelled. If Cook makes a fairly good show, Carpenter will not be considered the same drawing attraction he is now.

### Stagg's Eleven Not Confident Against Tigers

University of Chicago Grid Team Just "Hopeful" as Men Start For the East

CHICAGO, Ill., (AP)—Hopeful rather than confident, the University of Chicago football team departed today to meet Princeton on Saturday with a squad of 36 players and coaches, headed by Coach Stagg and Captain McGuire. Training efforts the past week have been largely devoted to stiffening the Maroons' rearmenue line to withstand the Tiger offensive in the first periods, while the backfield has planned a punting and forward passing game.

### PUNTS AND PASSES

(By FULLBACK) The boys went through a real workout yesterday and it looks as though they will be in top condition for the Jerome game Saturday. They were out from 3 to 6 o'clock, and after eating a bite they met at the high school for basketball practice, which is commonly known as skull exercise.

In football, the skull plays an important part, which of course, it does in everything else, so Evans is getting the noodle to working so that the crowd of onlooker will be few and far between, from now on. In last Friday's game it could be seen that the blackboard hadn't been used very much but Rome wasn't built in a day, and as far as we are concerned, Clint has done wonders with the material at hand. It isn't hard to make a championship team out of championship timber, but it does take a good man to win the championship with raw material.

CANAL COMPANY BRINGS YEAR'S LEVY TO \$1.50

Reduction of 50 Cents Per Acre Authorized in Operation Assessment

Making a reduction of 50 cents an acre over last year the board of directors of the Twin Falls Canal company has fixed a maintenance levy of \$1.00 against each acre of land receiving the water for irrigation purposes on the Twin Falls irrigation system.

This levy covers the year 1922 and is payable semi-annually. The initial payment is to be made March 1, and will be \$1. The second, of 50 cents, is due on September 1. The levy was decided upon at a meeting of the board of directors at which a material reduction over that of last year, when an assessment of \$2 an acre was made, company executives are convinced that the amount will be ample for all maintenance and operation purposes as well as defrayment of such obligations as may become due in the year.

Since the year 1918 assessment levies against acreage served by the canal company have been reduced from \$3 to \$2 an acre, the board of directors, together with the fact that the company is carrying a considerable number of accounts which are collectible in large proportions, make the last decline a possibility.

Members of the directorate spent a part of yesterday investigating seepage and other waste conditions along the lines in the immediate vicinity of Twin Falls. Today they are spending some time in similar inspection through the Eagle district. The board held session until 10 o'clock last night considering routine matters.

FREIGHT AGENT REPORTS AMPLER CARS FOR NEEDS

Spud Market Slump Caused Cancellation of Orders; Strike Frete Apple Men

Orders permitting the shipment of potatoes in box cars have been cancelled, as it is no longer considered safe to ship through the regions of high altitude areas in refrigerator cars. Many local orders for cars have been cancelled by shippers, states Agent D. E. Sullivan, owing to the slump in the price of potatoes. Shipments of potatoes have been postponed by the dealers because of the threatened rail strike. There are plenty of cars for all immediate needs, according to the figures submitted by freight authorities.

"In fact," said Mr. Sullivan, "it looks as though we would have to advertise for shippers to use the cars on hand."

Questioned as to the effect upon the local situation in case the threatened strike becomes a fact, the agent stated that there was not a man in the offices who wanted to strike, so far as he is concerned.

TOOLS MISSED; TRAVELERS ARE UNDER ARREST

Turpins Jailed Following Report of Loss by Blue Lakes Gardener

Charles W. Turpin and his wife, Genevieve, Viola Turpin, are lodged in cell at the county jail, held to answer charge of larceny. Arrested this morning by Police William Austin. Information: making T. C. Shaver the principal witness against the pair, is being prepared for trial this morning by Sheriff Charles A. North, to be held in the probate court.

The Turpins are specifically accused of larceny of carpenter tools, said to be the property of Shaver, and valued at approximately \$300. The tools are said to have been stolen from a work house at the Blue Lakes ranch. Mr. Shaver reports that most of the tools were lost recently by Sheriff's deputies. The property is held at the sheriff's office as evidence against the accused.

Witness Shaver is a carpenter by trade but for some time has been employed at the Blue Lakes ranch as gardener and handy man. He kept his implements in a building on the south side of the river. Sheriff states that he was last seen by the wife and several other boys in camp while apparently making repairs on their car, a Buick carrying the Idaho license plate number 3123. The car was reported to have been stolen from the ranch yesterday and camped in the tourist park. Last night, it is stated by officers, they returned to a point near the south side of the river, in an automobile, and went down the grade on foot. Some time after midnight a boy, who had been working on the automobile and was walking home, found the car present and many from foreign countries, notably, one from Peru, South America.

Mr. Young states that one of the most important items of the meeting was the passing of stringent resolutions looking to the discontinuance of the practice of using spik and cream substitutes in the manufacture of ice cream.

INTEREST DEVELOPS IN FESTAL QUEEN CONTEST

Every Community in County is Eligible to Entry for Popularity Honors

Booming—booming right along is the report given out by Howard E. Rubin, who is handling the Queen Contest contest for the American Legion's Big Fall Festival and Old-Fashioned Carnival. The contest is not restricted to the city of Twin Falls, as the members of the American Legion decided that unannounced as it is a celebration for all the county and state, all the communities of the county should be permitted to enter young ladies in the Queen Contest. Several entries have already been received from the neighboring cities.

Twin Falls Post No. 7 will work in conjunction with the post commander in Twin Falls county in bringing about a combined celebration and a regular reunion. A slogan suggested is "No Buddy" should miss this.

Arrangements have been made to post a daily bulletin in the corner window of the First National bank which will contain the standings of the contestants in the Queen Contest and other items of interest about the festival.

Following is the standing of the entries in Twin Falls up to 5 p. m. October 19. The county list will be completed and published within the next few days:

- Eunice Ling, 625; Margaret McAttee, 500; Julia Wood, 500; Cleo DeWitt, 625; Alma Ludwig, 500; Mrs. L. A. Chapman, 500; Roberta Nelson, 750; Ilse Mounce, 750; Mrs. E. R.
