SECOND EXPERT CANNOT ASSIGN DEATH'S CAUSE

Dr. G. S. Murphy, Testifying for Defense, Finds No Clue to Cause of Meyer's Death in Hypothetical Question

SAYS HEAVY DOSES OF ARSENIC MAY NOT KILL

Person Accustomed to Use of Poison Can Take as Much as Four Grains at One Time Without Fatal Result

"After your patient becomes accustomed to arsenic you can safely administer up to 12 to 14 grains of a certain drug, 30 per cent of the arsenic, from the county hospital, some time ago," Dr. G. S. Murphy of Twin Falls, testifying for the defense in the Southworth case this afternoon.

Schwab Willing to Bet Last Dollar on American Industry

Steel Magnate Declares He Is Not Alarmed About Busi- ness Depression

ATLANTIC CITY, N. J., (AP)—Charles M. Schwab, addressing the annual banquet of the National P. O. and Warlike association last night, said he was not alarmed about business depression.

"We are on the eve of the greatest development in our history. If I had to live my life over again, I would choose the present day for beginning, because we have all learned to live extravagantly, but it does not mean anything except that I can use it to develop through my plans and develop them."

"As long as I can borrow money, I am going to bet every dollar of which I have control on American industry. I believe that the great nation of ours is going to be the workshop of the world."

PAVES WAY FOR VOTE ON BONDS

Senator Reed Proposes Tax Bill Amendment to Create Service Men's Fund

WASHINGTON, D. C., (AP)—The way was paved today by Senator Reed, Democrat, Missouri, for a vote on the recently laid on the table at the request of President Harding.

Senator Reed introduced an amendment to the tax revision bill providing for taxes on excess profits of corporations and for use of the revenue derived as a special fund to pay bonuses to former army and navy soldiers.

SIX MILE AERIAL TEAMWAY TO CROSS MOUNTAIN RANGES

ST. CROIX, Minn., (AP)—An aerial teamway, which will be built in the San Jacinto mountains near the southern border of California according to plans announced here. The purpose will be to connect Croyville, Wis., and the San Diego and Arizona railway with deposits of marble and sand, the sand being 95 per cent silica, the type used in the manufacture of glass.

POSTMASTER GENERAL IS SHAKEN IN TRAIN CRASH

NEW YORK, (AP)—Postmaster General E. A. Tamm, in a passenger car on the Midnight Express of the Pennsylvania lines, for Washington, was badly shaken up early this morning when the express crashed, in a heavy fog, into the rear of a local train at the Manhattan transfer in New Jersey.

CANADA SENDS ADELMAN OF JAPANESE DELEGATION

VICTORIA, B. C., (AP)—The Canadian government has consented to lift the customary quarantine regulations for the Japanese liner Kachoon, which is in port tonight, with the Japanese delegate to the Washington conference on the limitation of armaments. At whatever hour the ship arrives she will be given entry.

REVOLUTIONARY WELCOME GIVEN MARSHAL FOCH

Mighty Bombardment of Cheers Greets Commander of Allied Armies as He Arrives to Sit with Legionnaires

NEW YORK, (AP)—A mighty bombardment of cheers greeted Marshal Foch when he stepped into New York today on the liner Paris to sit with his American "brother" in the Legion's convention in Kansas City.

"Multitudes thousands lined the waterfront to welcome the gray-haired little man, soldier of France and soldier of the world, who had held the allies' cards in the great game of war—and had turned the trick."

Guns Boom Greeting.
Up the harbor he came, escorted by fleet destroyers and soaring airplanes above the boom of guns from guarding the harbor's mouth, great blasts from whistles afloat and ashore and sounding cheers for the man who had out-Napoleon Napoleon as a traitor.

An hour earlier General Pershing, commander of America's millions of men who did their "bit" in the world war, had been greeted by a similar enthusiastic welcome. The general's ship, the George Washington, had raced to port in order that he might arrive in New York at the same time as the general's ship, the George Washington, had raced to port in order that he might arrive in New York at the same time as the general's ship.

Federal Board's Assurance that Wage Revisions Will Be Delayed Is Deciding Factor

CHICAGO, (AP)—The official record of the rail strike leaders by the switchmen, trainmen, conductors, engineers and firemen were dispatched today when leaders of the "big five" railroad unions met to elect a new chairman. The chairman will submit the message to the locals and the official order recalling the strike will thus permeate the country in a few hours.

HOOPER'S ACTION MARKS TURNING POINT LEADING TO SETTLEMENT

CHICAGO, (AP)—The announcement from the railroad labor board that it would not be in a position to give consideration to any motion that would change the rules or working conditions or the present scale of wages for a considerable length of time was one of the principal reasons given as influencing the brotherhoods to call off the strike, according to the text of the resolution adopted by the brotherhoods last night.

NEW POLITICAL FACTOR ENTERS NEBRASKA FIELD

Non-Partisan League Attorney, as Chairman of Independent Progressive Committee, Outlines Caucus Plans

LINCOLN, Neb., (AP)—Whether to poll their strength in the democratic or republican party primaries next year or to form a third party was before the caucus today. Three who favor the latter enter for discussion at a meeting with an independent progressive committee today. Plans for a third party platform in 1922 were also to be considered.

To sound out sentiment of leaders of the various groups without definitely binding them on the question of what action shall be taken, was the purpose of the meeting, according to C. A. Sorenson, attorney for the Non-Partisan League, and chairman of the committee. He called that while many of the representatives present are members of the league, the league would not be officially represented or in any sense be active as an organization.

What measures if any, shall be drafted for submission to the voters under the initiative, will also be discussed. Mr. Sorenson outlined the following platform on a non-partisan ticket, similar to the process of electing municipal officials; and reduction of alleged wastes of government and more economical conduct of state and federal government.

Urges Third Party.
Judge Arthur G. Wray of York, defeated gubernatorial candidate in the 1920 primary on an independent ticket, declared today that he would lead the caucus for formation of a third party.

FIVE MEN AND CAT IN SEARCH OF ADVENTURE

San Francisco in Gasoline Boat, Leave on Year's Cruise of Coast of South America

SAN FRANCISCO, (AP)—Adventure is being sought by five San Franciscans and a black cat, who left here recently for a year's cruise in the 40-foot ketch Los Angeles along the west coast of South America. Each of the five is the captain of the craft and head of the party. Sail will be depended upon to propel the boat, although there is an auxiliary gasoline engine aboard. During the cruise tests will be made of the craft's unusually strong wire-lash net, which, it is claimed, has wider range than instrument generally used. The voyage will start at San Francisco, California ports and then head for Ocos, Guatemala, and Callao, Peru, where the boat will turn back toward the states.

FRENCH PLAYHOUSE ON BOAT

Actors in Remarkable Theatre Are Said to Find Their Occupation a Pleasant One

France has a playhouse, built on a barge, which travels from Tours to Strasbourg. It is a gorgeous affair painted in white and silver and called the "theatre-theatre." It wanders along the canals and wherever it touches the French, who have few entertainments, crowd into the Fulminant to see a dramatic representation. It is appreciable life to move laborably by canal and river, to stop where one chooses, to play to a crowded house in a hall, which is always ready to give pleasure to a whole community and profit to oneself. The room where the performances take place is spacious enough. It holds five hundred persons, and every one of the fault-bits covered in red velvet in this blue and gold decorated hall is occupied whenever the floating theatre casts anchor in an out-of-the-way town. The actors are their own mariners. There is much work to be done or heard any kind of boat, an all who have ever helped to sail a yacht will agree. They all look a hand. They scrub the decks and they make the preparations which are constantly called for. What do they not do? They go out shopping—and is there anything so delightful as to shop all ways in strange towns? They prepare their play bills and announce their advent. The mere business of acting is only an incident in this varied life.

92 CENTS OUT OF TAX DOLLAR GOES FOR WARS

Iowa Conference on Limitation of Armament Is Given Striking Figures Illustrating the Costs of Conflict

DES MOINES, Ia., (AP)—Let the people once thoroughly understand how much of the money they pay to the federal government goes for war purposes, and war's popularity will slump far below its present low level. Dr. Charles McDuffy told the Iowa conference on limitation of armament, in the opening address of the afternoon session.

Divides Tax Dollar.
"It has been computed," he said, "that the average tax paid to the government in 1920 by each person was \$43.51. How was this money spent? Here is the answer: For wars of the past we spent 23.2 per cent of the whole; in preparation for future wars we spent 23.4 per cent of the whole.

"Out of every dollar paid to his government by the American citizen in 1920, over 92 cents went to purposes of war. For civil departments of our government we spent 4.8 per cent. When we pass from war we pass from billions.

"For public works we spend 1.4 per cent while—listen everyone who believes in God and in his fellow man—for research and public health and education and such lines of development of the people we spend out of each dollar 1.5 cents.

"I will not yield to anyone in love for this land of ours, but when this showing is made of our use of sacred funds, you cannot wonder that the cry leaps to the lips of critics of our institutions that we are mad.

Overshadowed Money.
"While war is costly in money the supreme cost is in money in money in lives, broken careers, shattered ideals of men and nations. For the sake of the soul of all our people there must be a new and living way an emphasis upon the life cost of the war.

"Both God and man are saying to the commissioners of the nations who will soon be face to face in Washington that steps must be taken to begin at least such a line of world life as will forbid a repetition of the horrors of a recent past. The vital steps are an immediate recourse to military expenditures and perfectly definite provision that little by little, as the hearts of men can be given the vision, the strain of the armaments shall be positively lessened."

UNIVERSITY STEERS WIN NATIONAL RECOGNITION

Stock Magazine Names Idaho School Livestock with Notable Ring Record

UNIVERSITY OF IDAHO, Moscow, (Special)—Three shorthorn steers from the head of the university college of agriculture are credited by the stock magazine, "Shorthorns in America," with being among the 37 holding the most notable American livestock show ring records.

"This recognition is given in a recent issue of that magazine where pictures of the 37 leading steers were shown," said Dean E. J. Kilde of the college of agriculture today. "Each of the university animals was fitted and exhibited by the university.

"As there are 48 colleges of agriculture established in the country, many of them long established and with greater advantages, there is considerable gratification in this honor. Among the other institutions owning animals that were similarly recognized are the University of Minnesota, Iowa State college and University of Missouri.

Where "Pep" is Useless.
The business day is short in India; it seldom begins before 11 o'clock in the morning. There is a "Ujjan" or lunch period, probably two hours long, followed by an early closing. The American salesman, accustomed to sleeping from town to town on fast trains, seeing customers early and late, and scolding daily orders to the "house," is hardly the one to tackle the deliberateness of India, where the "house" is best forgotten in the sales talk and where the potency of the first person singular is undeniable.

Mary's Little Lamb.
Regarding the authorship of "Mary's Little Lamb," a recent number of a London magazine says: "There have been many claimants to the distinction, but most of the evidence points to Sarah Baell Hale, who for a number of years edited the Lady's Magazine, the leading journal of its kind for almost half a century in the United States. She was the author of many books for the children and her son, Horatio Hale, stated that the poem was first published by his mouth in 1830."

Paint Also Helps.
Most people go to the expense of having cellar walls whitewashed every year or so, but few people realize that it is necessary to have any paint used in the cellar. However, it is a good idea to have cellar stains treated to a coat or so of good floor paint. It prolongs their life and makes them easier to clean later.

Town of Steinmanger Within Territory Once Important Part of the Old Roman Empire.

Perhaps it was not without deep sentimental reasons that former Emperor Charles of Austria-Hungary chose the town of Steinmanger—to the Hungarians, Szombathely—as a place from which he hoped to receive the acclaim of his former subjects as their returned ruler, says a bulletin from the Washington headquarters of the National Geographic society.

It has been the cherished policy of the Hapsburg rulers of Austria-Hungary to rejuvenate the old "Holy Roman Empire," the Frankish and later the German union which claimed to be the heir to the power and overlordship of Rome. The afflictions of what was Austro-Hungarian territory before the World war, with the old Roman empire, were perhaps closer through Steinmanger than through any other town. The present town is in the site of the Roman Sabria, which was the capital of one of the chief divisions of Pannonia—the name given by the Romans to the province which covered the heart of modern Austria-Hungary.

Anything to Please.
Adv. Wanted—Girl for general housework, any old kind; family of three adults. Nice, large, airy room; no washing nor much of anything else to do. Last girl quit because we invited some relatives to help us celebrate "Patriot" day. Next Patriot day, if she demands it, we will disown our relatives and renounce our country.—Boston Transcript.

A Man's Weight in Gold.
How much is a billion dollars? One billion dollars' worth of coin silver would make a cube nearly 50 feet on an edge. If you were worth your weight in silver, that would not make you rich. The weight of a 180-pound man would be balanced on the scales with \$2,500 worth of coin silver. His weight in coined gold would be worth only \$40,000.

If your property is desirable and is advertised in the classified — you'll find your buyer.

SECOND EXPERT CANNOT ASSIGN DEATH'S CAUSE

(Continued from Page One)

W. P. Guthrie of the defense. "No, I don't want it in now," answered Mr. Morgan.

"Then don't ask a speech to the jury about it," observed Mr. Guthrie. "Make your objections to the court," Mr. Guthrie, contributed Judge Babcock.

The chart was finally admitted as to substance and the entire record read to the jury by Dr. Coughlin. The reading covered the better part of an hour.

Under cross-examination by Mr. Stephan, Dr. Coughlin said that the evidence heretofore given by him was based upon the written records of the hospital and his own observations of the case.

Has No Significance. "Does the nose bleed you read from the chart have any particular significance?" asked Mr. Stephan.

"Does other appearance of blood have any particular significance?" "No, sir."

"Does the chart indicate to you the amount of water taken by the patient?" "Yes, sir. The chart indicates the need of the body for water. The water, however, was not retained by the patient to any great extent."

Details of Last Sickness. Questioned again by Mr. Mills, the witness affirmed that September 5 was the day upon which Meyer committed (Meyer's death took place at 1:45 p. m. on September 7). The last entry in the chart of vomiting was of 8:30 a. m., September 6, Dr. Coughlin said. He personally recalled no vomiting after that time.

Dr. G. S. Murphy of Twin Falls, a practicing physician since 1899, took the stand under examination by Attorney Mills. He was in the army during the Spanish epidemic. Seventy-five per cent. of the 6,000 men he was engaged in caring for had "flu," he said. He described a surgical abdomen as "requiring surgical interference or amputation."

"What effect would such a condition have upon the patient's respiration?" asked Attorney Mills. "Slight," answered the witness. "What in your opinion caused the death?" asked the attorney, the reply being based upon the same question asked the witness yesterday by Dr. Morgan, which was listened to at the same time by Dr. Murphy.

The symptoms are too conflicting to form a link of direct answer. The symptoms are not sufficiently connected up with the finding of the poison," answered the witness. "Asked to detail the symptoms of arsenic poisoning, Dr. Murphy varied at some length. His description started but little, if at all, with the testimony of previous witnesses as to this.

Morgan Continues Evidence. Yesterday afternoon was given up to the examination of Dr. E. B. Morgan, who as a witness for the defense earlier in the morning replied to the state's hypothetical question on the cause of Meyer's death.

WHEAT MARKET TAKES ON DECIDED UPWARD SWING

Settlement of Rail Strike Proves Effective Influence on Advancing Prices as Demand Increases. CHICAGO, (AP)—Moderate strength developed in the wheat market today as a result of the settlement of the threatened strike of railroad employees.

CHICAGO, (AP)—The wheat market today as a result of the settlement of the threatened strike of railroad employees. Buying, however, was not of an aggressive character, and offerings increased on the upturn in price.

Subsequently demand broadened out, and the market took a much more decided upward swing. The close was unsettled, 1 1/2 to 2 1/2 cent higher, with December \$1.05 to 1.08 5/8 and May \$1.13 1/4 to 1.13 1/2.

Grain and oats paralleled the action of wheat. Corn opened 1/4 to 1/2 cent higher May 53 1/4 to 53 3/8 and later closed off somewhat.

Unfavorable looking returns from Illinois tended to increase bullish sentiment there. The close was firm, 1 1/8 to 1 3/8 to 1 3/8 cent higher, with May \$1.44 to \$1.46 3/8.

Oats started 1/4 to 1/2 cent, December 37 7/8 to 38c, but then underwent something of a setback. Provisions were lower in line with hog.

AN ACTUAL INSTANCE

One certain Nevada cattle company that winter shipped 4,500 head of cattle from Wells, Nevada, to a point in Arizona near Phoenix, for feeding purposes.

With the building of a railroad to Wells from the heart of the Twin Falls country, a hay market would be provided which would insure the sale of all the hay not actually needed here, at a price which would mean a splendid profit.

CAPITAL LOOKS THIS WAY

The fact that representatives of capital have lately visited the Twin Falls country with a view to investment in an irrigation project is in itself highly significant.

In particular the favorable impression of the Hansen butte project expressed by these men while in Twin Falls, when carried to the writing desks of their principals, is very likely to bear fruit in the inauguration of operations which will add to the taxable valuation of the county an area of something like 50,000 acres that are now almost valueless but which, are destined to be converted into homes and producing farms as soon as irrigation is made possible by this means.

AN EDUCATIONAL CRISIS

Indisputable school housing and scarcity of teachers throughout the land make an "educational crisis" in the opinion of President Harding. There will be no general disagreement with his judgment, though a good many localities will point with pride to the ample provision which they make for schooling their youth.

The president finds no reason for misgiving or pessimism in the situation gave it is. Though we are not providing adequately, we are not going backward. Though we do not keep up with the demand, we are going ahead.

Perhaps that jolt the Prince of Wales got in the automobile snafu will prove a valuable part of his training for his later job. A good many monarchs have had much worse jolts.

Attorney General Daugherty has promised to obtain the release of Rubens from jail if they will leave the country and never come back. Considering the alternative perhaps they will decline.

It is noticed some persons talk so glibly about a complete tie-up of the railroads as though they were asking somebody for a match to light a cigar.

"The mails will be moved," says Postmaster General Hays. President Cleveland made a similar remark once—and the mails were moved.

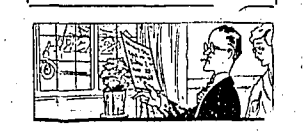

The public is long-suffering, but any suggestion of tying up the railroads of the country draws its fire on the instant.

As the father of his country, look at what George Washington would have coming in income tax exemption.

Don't belittle an opponent before meeting him, is a bit of advice to the over-confident footballist.

BALKAN STATES DEMAND GIVING UP OF CHARLES

Little Entente's Ultimatum to Hungary Sets 36 Hour Time Limit for Surrender of Former Emperor

PRAGUE, (AP)—Former Emperor Charles must be surrendered to the "Little Entente" within 36 hours under the terms of an ultimatum from the member of the coalition of states which it has decided to present to the Hungarian government in Budapest. Deputy Masoch declared last night that the ultimatum would be presented if the project of entering the former emperor in either Czechoslovakia or Yugoslavia has been discussed freely by newspapers in this country.

Karist Leader Halted.
Prime Windisch-Graetz, a Karist leader, fled from West Hungary when Charles' attempt to restore his throne in Hungary failed, intending to go to Holland. He was, however, stopped at the Czechoslovak frontier. Leaders of the political parties forming the coalition ultimatum of this country have decided the government will introduce a bill in parliament denouncing the confiscation of estates owned by Count János Andrássy, Deputy Embassador and Count Albert Apponyi located in Czechoslovakia.

To Proclaim Martial Law.
As a precautionary measure, martial law has been proclaimed in the eastern districts of the country, although perfect order prevails.

CHARLES FORFEITS THRONES BY UNWILLINGNESS TO ATTACH

BUDAPEST, (AP)—Former Emperor Charles is believed to have lost the chance to occupy the Hungarian throne because of his unwillingness to order the abandonment of his Austrian kingdoms. He bitterly attacked who barred his path at Budapest for two hours last Sunday morning. Hungary's fate hung in the balance during that time, it is asserted here.

"I am sorry for the poor boys," he is quoted as saying. "I try to persuade them that resistance is hopeless."
Earlier today in the meantime government troops were hurried forward from Budapest and occupied the ridge held by the Austrians. As a result it was found when Charles gave the order to attack that the battle was already lost.

HUNGARIAN OPERATORS ENGAGE IN POLITICAL FIGHT

BUDAPEST, (AP)—Hungarian aristocracy involved in the conspiracy to place Charles upon the Hungarian throne is now engaged in a bitter fight in the political arena. Small land owners and the land aristocracy are arrayed against each other in a conflict which is expected to result in stormy scenes at the national assembly in the next few days.

PEKING WALLS MENACED BY TRAMWAY PROPOSALS

Foreigners and Chinese alike join to protest against scheme to install Traffic Lines

PEKING, (AP)—Construction of modern tramway system will wipe out the ancient walls of Peking, called by the populace "the glory of the city." It plans submitted to the municipality by the Peking Tramways company met with

The proposal has called forth strong opposition from foreigners and Chinese alike and pressure is being brought to bear upon the municipality to preserve the ancient walls at any cost.
French equipment would be used in building the new tramway system, it is stated here.

Electricity and Chinese Demons.
Word has come from Shanghai that employees of the China Electric company recently called in a native priest to drive away the demon in an electric bus saw which had cut off two of the operator's fingers. DR. YEN DENIES CHINA MAKES OFFER TO JAPAN

Peking Has Not Approached Tokio on Shantung Issue, Says Statement

PRKING, (AP)—Dr. Yen, the Chinese foreign secretary, has answered the demand of certain public bodies for an explanation of his alleged desire, expressed to Yuki Kato, the Japanese minister, to enter into negotiations with regard to the Shantung controversy and of the statement that Chinese officials had confidentially sent to the Japanese government terms for a settlement of the issue. Mr. Yen denied the charges. He said the Chinese government would shortly issue a statement to the newspapers in an endeavor to clear the government of the charges. The Peking Leader, in an editorial says that it will be impossible to hold the Shantung negotiations in either Peking or Tokio. It suggests that the delegates to the approaching Washington conference confer informally and settle the matter tentatively and that the conference on Pacific relations should make the settlement or arbitrate the matter.

First Woman Elected to Norway's Storting

CHRISTIANIA, Norway, (AP)—The general elections on Monday gave 20 party a clear majority, and it is impossible to predict which party or bloc will form the next cabinet for the new Storting which meets in February.
Out of the 160 seats, the conservative, running on an anti-prohibition platform and against the government policy of maintaining wartime restrictions, secured 55 seats. The communists, following the Moscow program, held 20 seats. The largest party in the old storting, their 52 seats reduced to 39. A woman, Miss Karen Platou, of Christiania, was elected for the first time.

American Trainer and Jockey Draw Big Pay

PARIS, (AP)—William Duke and Guy Garner, American trainer and jockey, respectively, for the stable which the Aga Khan, an Indian prince, is putting together for 1922, will receive the largest salaries ever paid on the French turf.
Duke, formerly trainer for the W. K. Vanderbilt string, is said to have signed a contract with the prince calling for a guarantee of 600,000 francs, with a percentage of 30 per cent of the stake winnings. Garner's retainer is made up in dollars and is said to top the amount paid by Vanderbilt to Frankie O'Neil, St. Louis, who up to this year was reputed to be the highest paid jockey on the continent.

Own Scoring System Causes French Defeat

PARIS, (AP)—The French team's defeat in the last dual track meet of England and France was due to a new point scoring system proposed by the French Athletic federation. The English players accepted the system after a debate and defeated France, 123 to 118.
The method used was seven points for first; five for second; four for third; three for fourth; two for fifth and one for sixth. The English suggested five points for first, three for second and one for third. Had the French accepted this idea they would have won 53 to 49.

Term Originated With Lloyd's.
The term "A. I." a slang phrase popularly used to denote a high quality of excellence or a condition perfectly satisfactory, originated with Lloyd's agency in London. When a ship was being insured the rating "A. I." was placed opposite the name of the vessel to indicate absolute seaworthiness. The leading American financial reporting systems adopted the symbol, with variations, to indicate a business man's credit rating and capital.

GOVERNMENT'S SUPPORT IS CREDITED TO OPIUM

Confession of Former Official Shows New Light on Scandal in Kwangtung Administration

TOKIO, (AP)—That opium sales helped the government of Kwangtung to carry on the administration of the leased area is the confession of a former official of the Kwangtung government, during the public trial of those connected with the opium scandal in the high court at Port Arthur.
According to this confession, the government would have been thrown into a hopeless financial condition if it had not gone into the opium trade. "Whenever the government was short of funds it made it a point to sell opium," said the official.

"We succeeded in sending opium into the interior of China in spite of the protests of the Peking authorities because we eluded Chinese vigilance by paying the sale to the residents of Kwangtung leased area. However through agents appointed by the Kwangtung government, we made sales on a large scale. Various undertakings in which we engaged with success without much reliance on the national treasury or increase of taxes in the country to our efforts in extending the sales of opium."

THE WEEK WITH THE AMERICAN LEGION

News Notes of Interest Particularly to Former Servicemen and Women

A band of 8,000 pieces, the largest of its kind ever assembled in the United States, will play at the national convention of the American Legion in Kansas City, October 31, and November 1 and 2. A contest of the 100 Legion bands and drum corps will be held to determine the three best musical organizations. The combined bands will play under the direction of the leader of the band winning first prize.
Terribly burned in a gasoline explosion, Louis Turner, world war veteran of Bloomington, Ill., was not expected to recover. In a hospital at Davenport, Ia., however, the skin of two American Legion comrades was grafted on his body and he is now out of danger. The two men did not know Turner except that he was "a buddy, out of luck."

Co-operation of every member of the American Legion in preventing abuse of the reduced railroad fare privilege extended Legion men and their families to the organization's national convention at Kansas City, October 31, November 1 and 2, is asked in a bulletin poster circulated by national headquarters at Indianapolis. It is feared that the low rate tickets will fall into the hands of persons not entitled to their use.

"To show the world that Arkansas produces the finest diamonds," the American Legion of that state will present the new national commander, elected at the Legion convention in Kansas City November 8, a 2.38 carat flawless canary diamond. The Arkansas veterans will do it the same time present Marshal Peck a scarf pin set with an Arkansas pearl.

An aerial traffic cop will operate "stop" and "go" signs above Kansas City during the national convention of the American Legion there October 31, November 1 and 2. Governors Hyde, Missouri, and Allen, Texas, have commissioned Dudley Steblo, former army aviator, to patrol the air lanes, prevent traffic "jams" and prohibit low-flying and stunting over the city by the flyers who take part in the aerial derby and circus. The Kansas City Flying club will prosecute offenders.

Aroused by threats of violent death against prominent members of the American Legion, in Iowa, federal authorities are conducting an investigation. John B. Wallace, son of the secretary of agriculture, was interfered with a note that he would "come across with \$200 or be blown to hell." He didn't and was "H. H. Folk, Des Moines, received a similar note threatening to blow up his apartment and him, too, because he "led the boys to death on the battlefields of France."

When General Pershing visits Kansas City this month to attend the convention of the American Legion he will be received by members of his post of the Legion of Lincoln, Neb. The general, as Lieutenant Pershing, was military instructor at the University of Nebraska on his first assignment from West Point, 23 years ago.

Little Black Bees.
Little black bees were on the blossoms of the wild cherry. They worked in the snow-white cups and often shook down the petals from the flowers. They darted from cluster to cluster, loading their thighs with primrose-colored pollen, while their wings vibrated in a flutter, rather shrill murmur. They were ground bees and had their home among the stones in a bank of fine grass, thyme and dog violets not far distant.—Edna Phillips.

HARDING GIVES HIS IDEALS FOR ARMS CONCLAVE

President, in Address at Atlanta, Points to Reunion of North and South as Lesson for World at Large

ATLANTA, Ga., (AP)—A gospel of understanding and good will, not only blighting north and south in closer ties but bringing all the peoples of the world into co-operation and enduring amity, was preached by President Harding Wednesday in an address here, coming to a close with the closing of a disarmament conference.

Speaking at the station of Henry W. Grady, southern apostle of national reunion, the president declared America would enter the conference on a subject with the desire for international friendship that the blame must rest elsewhere should the negotiations for reduction of armaments result in failure.

"I believe it wholly consistent," the president said, "to crush peace and its triumphs in that unselfish nation commands, and yet make sure about our proper defense."

With his prayer, Grady the president coupled a tribute to Theodore Roosevelt, of whose Great South League he declared the whole world should be proud. The address follows in part:

Tribute to Roosevelt

"To come to Georgia is to come to the heart of the South. To come to Georgia on this, the anniversary of the birthday of Roosevelt—is to realize that the heart of the South throbs for all the nation.

"So it is good, in greeting you men and women of Georgia, to recall the career of that outstanding American who in his life, as in his lineage, taught us how much we are prospered and exalted by the memory of one who taught a reunited nation its duties, its obligations, its possibilities. For, I recall the thrill with which I read, as a young man, the address of His Excellency, the New England club; that most famous oration I think, of his generation; that inspiring call to a nation to awaken to itself, to understand that reality was dead, it is necessary pregnant with magnificent opportunity.

Georgia in Reconstruction

"The other day there came into my hands the volume of the letters of a group of eminent Georgians of the Civil war and reconstruction period. In the main they represented the correspondence of Alexander H. Stephens, Howell Cobb, Robert Toombs and Governor Joe Brown. Especially was I interested in the extensive correspondence between these northern leaders and prominent men of the south, which was carried on at that period. It was nothing less than astonishing to note how little bitterness, of resentment, of hatred and recrimination was manifested on either side. They were all back in the harness, working for the reformation of their state, their people, their respective country.

"We would rather have one immigrant from the north than 50 from Europe" wrote one, a few years after Appomattox; and he urged his northern friend to make the northern people understand how welcome they would be. Not even the unconstructive hatred of old Thad Stevens could maintain an effective front against such a plea as that. The North did come to you with olive branch instead of sword; and you went to the North and West and became full partners in making that new empire which together we carved out of the trans-Missouri wilderness; and now, here, there can be described no sectional division of this land.

"It has seemed to me, many times in the period since the war was ended, that the world at large might well let us show it the marvel which was wrought through a reunion and restored America.

"I believe that every family which has lost a member in the struggle to save mankind from absolutism, every citizen-soldier, who has given years and suffering to that cause, every gunner, mother or nimble veteran, will agree that peace is preferable to war and that to train a world in the ways of peace is better than to prepare it

for a war. I would not have you misconstrue. I believe it wholly consistent to preach peace and its triumphs in that unselfish nation commands and yet make sure about our proper defense.

Ready for Experiment

"Manifestly, mankind is disposed to try that experiment. If, trying it, nations shall fail, it will be no fault of the United States of America. Our own experience has taught us that we may hope that a like decision will be reached by a world following amid the convictions which result in the wake of a tragedy supreme."

LAPWAI AGRICULTURAL STUDENTS HOLD HONORS

Northern Leads Hold Championship for Sectional Stock Judging

UNIVERSITY OF IDAHO, Moscow (Special)—Lapwai high school agricultural students hold the stock judging championship of northern Idaho as a result of the victory over other Smith-Hughes students at the university judging contest Saturday.

With a total team score of 1925, Lapwai easily took first place, receiving a silver cup awarded by the faculty of the college of agriculture. Genesee with 1897 was second; Lewiston, 1796, third; Moscow, 1486, fourth; and Coeur d'Alene, 1438, fifth.

The teams consisted of three men each. Numerous other students from the entering schools came with their teams for the sake of the experience offered. A total of 37 took part.

The Lapwai team was composed of Roy Shaw, Wesley Calkins and Wayne Dever. Members of the other teams were Otto Brown, Archie Keane and Thomas Platt; Genesee, Melvin Leeper, Glenn Selick and William Confort; Lewiston, Ellis Anderson, William Duncan and Estel Smith; Moscow, L. Nemcey, Roy Patchen and Glen Lillibridge; Coeur d'Alene.

REJECTED SUITOR HELD AS IOWA GIRL'S SLAYER

Jealousy and Broken Engagement are Ascribed as Causes of Killing

M'GREGOR, Ia., (AP)—Ocell Kersten, 20 years old, daughter of a prominent Clayton county farmer, died at her home Thursday afternoon from shrapnel wounds inflicted by Peter Kleinow, who is now being held on a murder charge.

Jealousy and the fact that Miss Kersten broke her engagement with him recently are ascribed as the cause. Kleinow fired first a shot at her and Harry Shaw, a former sweetheart, through the window of the Kersten home. They were only slightly injured. Miss Kersten then rushed to the yard

where Kleinow met her and fired again. Then Kleinow picked up the girl in his arms and carried her into the house, and he telephoned for a doctor.

"If I can't have you myself nobody else is going to," Kleinow is said to have told the wounded girl as he knelt by her couch.

He remained by her side until arrested. The Kersten and Kleinow farm homes stand opposite each other on the road about six miles northwest of McGregor.

How Better Than Pills?

"The question has been asked: 'In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills?' Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve the appetite and strengthen the digestion."

RAILROAD PRESIDENT HERE

Mr. Gray Believes Davis' Presence in District Would Help Bonus Drive

Directors of the Idaho-Nevada Holding company, an institution handling bonus funds for the Central Idaho railroad company, last night held a meeting in quarters of the Twin Falls Chamber of Commerce. Matters pertaining to the results of the pledge drive, thus far conducted, as well as plans for the future, were discussed at this session.

Contact Map Talks

Although making of a definite character relating to the meeting is given officially today, it is known that the sessions led to an intention of the members of the drive in 1922 and thus far this year and did lead an altogether optimistic note to the general situation. The drive is heard of P. Gray of the Twin Falls railroad in his district. Prior to meeting Mr. Gray declared Central Idaho has been a solid unit. The members of the line, and during the three days he has spent in this week he has made the statement that the Nevada district will stand beyond the question. Mr. Gray stands ready to proceed further with the drive to reach the requested \$500,000 guarantee for road-building.

For Moral Effect

Mr. Gray has also expressed the sentiment, since coming here early this week, in favor of creative urging, in each part of the districts, that President George J. Davis, of the Central Idaho Railroad company, re-established his office headquarters in Twin Falls, a moral influence toward the success of the drive. Mr. Gray told the morning for contact and will carry further operations toward making the total fund quota of the entire district benefited.

SEALED VERDICT RESULT OF LONG DELIBERATIONS

Probate Court Jury, After Many Hours, Decides in Favor of Sheriff Sherman

In a sealed verdict a probate court jury gave a verdict in favor of Sheriff E. Sherman in a revolving case against the county official by the single defendant. The verdict was written by the jury after deliberations of most of yesterday afternoon and through a considerable period of this morning. The action had been filed by the sheriff on a residence owned and occupied by the Robinson family. The attachment was levied to the county property. The sheriff sought the release of the defendant on claim that the house was separate property and not a county interest. The Greer Morahan company of Boise, Idaho, was the attachment proceedings some time ago. J. P. Martin, of the law firm, White, Martin & Wade, pleaded the case for the Robinsons. Mr. J. Sweller appearing for the defense.

SPECIAL CEREMONIES ATTEND LODGE AFFAIR

Music Program, Addresses and Banquet Precede Class Initiation

The Moose lodge last night played to a large gathering in Parish hall, the occasion being marked by initiation of 25 candidates for admission into the fraternal order. A similar number of the order members will be given the work at a later meeting.

Last night's affair was featured by music and a banquet, along with the initiation ceremonies, the program carrying on to 11 o'clock this morning.

Lodge opening ceremonies were conducted in the regular Moose hall, in the McCormick building. 100 members of the order marched from that place to Parish hall shortly after 8 o'clock for the major portion of the program. Short talks, mainly for the good of the order, were given by a casual program.

DISTURBING SHOTS STARTLE RESIDENTS

Mysterious Gunman 'Shoots Up' Sections of City During Nocturnal Hours

"Tom the Prepper" has not been heard of in Twin Falls or environs for a week or more, but last night developed a new and equally important mysterious person. It is "Tom the Shooter."

"Tom" made his presence heard in various places about town on intermittent occasions starting about 10 o'clock. The incident caught the attention of the law and citizens in a walk for the noisy disturber wherever he was heard.

The "shooter" started his nocturnal program of concussion as the town clock striking 10:10. The shots were reported, evidently from a revolver, rang out on the air and woke early retirees in the vicinity of the junction of the hospital-road with Main street.

Immediately after the three-ply shots, and while folks were communicating with accounts of a neighborhood maniac to the police, came two other shots, which were still being reported for the steady "putt-putt" of the motorcycle cop's machine, as that officer charged from "central station" to the scene of trouble.

"Shooting" was a released Officer Ray Brown, after he returned, making his quest developed nothing.

As far as reports to the police had anything to do there was still "nothing doing" up to 1 o'clock this morning, but folk in various neighborhoods of the city today declare some fellow with a main for keeping the walking ringing, did a lot of shooting at intervals.

The 1 o'clock report came from the west end of Main street, this time two shots being fired. No clue to the mysterious disturber has been located, according to the police.

Deaths

Albert Cochran, aged 84 years, died at his home three miles south of Twin Falls on Friday, October 27. The body will be taken to the DeWitt mortuary parlors pending funeral arrangements.

ANNOUNCEMENTS

The regular quarterly meeting of the Methodist church will be held this evening in the church parlors at 8:15. Following the meeting a reception will be held in honor of Miss Emily Atkinson, the newly appointed deaconess. An interesting program has been arranged by the committee in charge. Refreshments will be served and all members of the congregation and friends are cordially invited.

The First Noble Grand's association will give a Halloween social at the I. O. O. F. hall on Monday evening, October 31, to which all members of the I. O. O. F. and Bebeah lodges are invited.

The Neighbors of Woodcraft will meet on Friday evening at the I. O. O. F. hall at 8 p. m.

CARD OF THANKS
I take this means of expressing my appreciation of the kindness and sympathy shown me in my recent bereavement and especially for the kindness of those friends who acted as pallbearers.

Thursday Holds Low Temperature Record of Year

YESTERDAY'S mercurial high was the lowest low temperature since the frigid winter subsided into gentle springtime. The nocturnal low, by the same token, was one of the lowest of the year, being below zero on only one occasion by a single degree.

RAILROAD UNION LEADERS

the suffering that would have resulted. There is no doubt that if the settlement had not been made the men would have left their jobs and some would never have returned to the job.

Sheppard Discusses Factors

In statement issued today, L. E. Sheppard, president of the conductors union, said:

"There were several factors which contributed to being able to secure a settlement of the contract, notably the promise of the representatives of the railroad, Mr. Dwyler, before the United States railroad labor board, to the effect that there would be an arbitrary cancellation of schedule and working conditions or further request for wage reductions except in the natural course of events and after due notice."

Another point became more evident from day to day and that was that the flight had drifted to a fight between the brotherhoods and the government.

NOTICE TO ALL BIRD SQUADS

I wish to make a special request to all Boy Scouts to act as guards and to police duty on Halloween. Owing to the financial conditions of the present time I believe all boys should refrain from destroying property or causing any financial loss to anyone.

STRIKE SETTLEMENT IS CALLED MEN'S VICTORY

Brotherhood Chiefs Expect a Year's Postponement of Wage Revision

CHICAGO, (AP)—Railroad brotherhood chiefs said that their resolution adopted last night calling off the strike emphasized two points as evidence for the men.

These points were: First, that action of the railroad labor board on further wage revision would be postponed until a second year was the men's organic rule which the action was taken with the belief that it will throw its place on the regular calendar of the board, so that it will not likely have an immediate issue.

take any action on wage applications affecting any class of employees until it is definitely known what working conditions apply.

Third, that the train and engine employes will be given full consideration in view of the hazardous responsibilities and other conditions peculiar to their employment.

Draws Own Conclusions

The resolution then notes the reduced condition of the labor board docket and the failure of the carriers and their employes to organize voluntary adjustment boards, whose work would present numerous cases coming up to the board.

FATHERS RETURNING

Mrs. Robert Evans this morning accompanied her father B. S. Wilson, to Minidoka. Mr. Wilson is returning home in a motor City after spending a year in Idaho.
