### CROWD WAITING FOR VERDICT IN ARBUCKLE CASE

Jury Goes to Lunch at Noon After Six and One-Half Hours' Actual Deliberations Without Agreement

Corridor Gossip Says Three for Conviction

Film Comedian on Trial, Drops Haggard Look and Chats with Newspaper Men in Apparently Carefree Manner

SAW FRANCHISE, Cal. (AP)—The jury in the manslaughter trial of a man who was given a two-hour lunch break at 12 o'clock after having failed to reach a verdict in six and one-half hours of actual deliberations. The jury retired at 4:15 p.m. last evening.

The jury was taken from the courtroom in its hotel. There was no indication of the taking of the morning developments in the jury room.

"Hung Jury" Talked

In the speculation on the final outcome the possibility of a hung jury was the outstanding topic at noon. There was no word of any kind, however, that would indicate its final decision other than the early morning report that the jury stood three for conviction and two for acquittal. Even this report lacked confirmation.

The crowd in the courtroom today was the smallest of any since the Arbuckle trial began. It is supposed to be the arrival of Marshall Cook in San Francisco.

Defence Hopes for Verdict

Defence counsel said it hoped for a verdict today but the prosecution is silent. Court officials announced that the Saturday half holiday and the Sunday holiday would not result necessarily in a scaled verdict being returned, as the law provides that a verdict may be returned to the court and announced at any time.

Arbuckle's Appearance

Arbuckle appeared somewhat nervous upon his arrival in court this morning. He was wearing a suit of that the strain was telling on him. He was in and out of the courtroom throughout the morning.

The jury considering evidence submitted in the trial of Roscoe C. (Fatty) Arbuckle on a charge of manslaughter in connection with the death of Virginia Rappo, returned to the jury room.

The corporation also announced that a new livestock loan company had been established in Montana with a authorized capital stock of \$500,000 and will be doing business within ten days.

The corporation also said that an agricultural and livestock loan company with an authorized capital of \$1,000,000, had been formed in Nebraska.

### Authorizes Cut of 10 Per Cent in Rate on Farm Products

Interests Commerce Commission Passes Favorably on Railroad Application

WASHINGTON, D. C. (AP)—A general order authorizing a 10 per cent rate cut on practically all farm products was authorized by the interstate commerce commission today in passing favorably on the voluntary application of all the railroads except those in New England territory.

The commission acting with great expedition on the application of the railroads, which was completed this week, repealed all of its outstanding orders affecting rates which would interfere and authorized the railroad schedule for a period of six months.

### SNOW BLANKET IS SPREAD OVER MOUNTAIN AREA

Eastern Slope of Rockies Bears Brunt of Storm, Diminishing in Intensity as it Moves South Toward Texas

FARMERS REAP BENEFITS MOUNTING INTO MILLIONS

Low Temperatures Accompany Snow Fall Covering Large Territory; 6 Inches Snow in Denver; 7 in Cheyenne

DENVER, Colo. (AP)—The heaviest snowfall of the season in the Rocky Mountain region was diminishing in intensity today as it moved on to the southeast, covering over Oklahoma and northwestern Texas, the district weather bureau reported. The storm swept this region yesterday and last night covering a large territory with snow that reached a depth of seven inches in places and caused a general slump in temperatures.

In the East Slope bears the brunt of the storm. That part of Colorado and Wyoming received an average of six to seven inches of snow, temperatures ranged from 10 to 20 degrees below zero. Leadville, Colo., was the coldest point in the Rocky mountains, the temperature there being six above.

Six inches of snow fell in Denver, seven in Cheyenne, Wyoming, six in Lovellville.

Boon to Farmers

Farmers of this region will reap benefits amounting into millions of dollars in their winter wheat and rye crops as a result of the snowfall, agricultural officials declared. Crops were being sown in a better condition than in previous years, and winter wheat and rye crops were being sown in a better condition than in previous years.

The weather bureau predicted fair to a few showers for the next few days, but more snowfall was the weather prediction.

### GREAT BRITAIN, JAPAN AND FRANCE GIVE THEIR PLEDGE TO ABANDON LEASED LANDS

China Wins Another Important Point at Washington Conference; Contingent Upon Named Conditions

WASHINGTON, D. C. (AP)—Another important point in the Far Eastern discussions of the armament conference was won today by China in the committee of the powers, Great Britain, Japan and France agreeing to retire from much of the leased territory of China.

Japanese representatives. It was said, agreed to give up their leasehold territorial holdings in Shantung and also agreed to effecting to discuss retirement from their special territorial privileges in Manchuria.

Imposed Conditions

The offers from Great Britain, Japan and France were said to be contingent on fulfillment of conditions which China was expected to meet.

Mr. Fiviani, for France, expressed willingness to retire from Kwangchow, the French leased territory.

British spokesmen. It was said, followed with a proffer to give up the British leased territory of Wei Hai Wei.

The committee on Far Eastern questions adjourned until Wednesday because of engagements of delegates and to give time for sub-committees to prepare work for the full committee.

France Favors Way

In the agreements for relinquishment of leased territory in China, France to say nothing was with an official of her regarding her leased territory, Great Britain followed with the offer regarding the British territory of Wei Hai Wei, and Japan then made her proposal regarding Shantung and Manchuria.

Chinese delegates expressed themselves as greatly pleased over what they described as the generous offer coming from all three of the powers and especially with the breadth of that from Great Britain. The discussion of disposition of leased territories is expected to be resumed Wednesday, with general expectations of an ultimate agreement greatly to the benefit of China.

Agreement Denied

Information from other sources, however, was that not even the basis of a tentative agreement had been reached upon the question of foreign leases and that discussions on the subject practically had been abandoned.

### PACKING HOUSE WORKERS IGNORE KANSAS COURT

None of Union Officials Claimed to Appear Before Tribunal Answer when Names are Called by Judge

ALL "BIG FIVE" PACKERS REPRESENTED BY COUNSEL

Operators Make Plain Their Intention to Continue Operations and Declare They Do Not Fear Walkout

KANSAS CITY, Mo. (AP)—Representatives of union packing house workers in Kansas City, Mo., today carried out their intention to ignore summons issued by the Kansas court of industrial relations, which was convened in Kansas City, Kan., this morning to take up the threatened packing workers' strike called for Monday. None of the officials of the five branches of the Amalgamated Association of Meat Cutters and Butcher Workmen of North America failed to appear answered when W. I. Higgins, presiding judge, called their names.

Packers Represented

No attorneys responded for the union. All of the "big five" packers were represented by attorneys, swearing the citation read by the court, the packers' attorneys said they were to give any information they had with regard to the jurisdiction of the court in the matter.

Bedford S. Brennan, counsel for the Amalgamated Association of Meat Cutters and Butcher Workmen, was said to have advised his attorneys that they need not appear and to have prepared a brief in connection with the case in the state court.

A union committee of two was appointed to "pick" the city hall where the investigation is being held and to advise the court of the results of the picketing.

"We have sent special instructions to go about the picketing in Kansas, however," Mr. Lane said.

"The Kansas industrial court is a joke to us."

No Strikers at Parade

The Core City parade of the Amalgamated Association of Butcher Workmen of North America has agreed to continue the present scale of wages and the men there will not go on strike Monday, according to officials received today by Secretary Lane.

According to announcement of Swift and company here today, the employees of the company are not on strike. Lane declared best plant had posted a notice to the effect that "after serious consideration," the committee had agreed to a wage arbitration, but that the men had refused and requested all employees to stand by your agreement."

### PEACE OUTLOOK FOR IRISH DARK

Little Optimism Attends Daily Eireann's Consideration of Proposals

DUBLIN, (AP)—Members of the Daily Eireann cabinet assembled today to consider the British government's latest proposals for an Irish peace settlement. There is little optimism as to the decision, and Sinn Fein peace delegates to London are reported as believing the revised terms will be unacceptable to Kamona de Valera and his advisers.

Text is Kept Secret

The exact nature of the proposals is not known, but they are said to be based on an all-Ireland parliamentary government. Ulster, it is understood, would be required to remain in this arrangement at least six months, when the could withdraw at her option.

One variation of the new terms is that they deal with the Sinn Fein objection to swearing allegiance to the crown by providing that allegiance be sworn to the Irish free state, the commonwealth of nations known as the British empire, and to the king as head of that community of nations.

Delay May Be Sought

In the event the new terms are unacceptable to the Daily Eireann, it is believed the Sinn Fein delegates have been asked to present a proposal on behalf of the British government, or postponement of the negotiations is likely to allow for a possible adjustment of views but to permit Premier Lloyd George to maintain his position at the Washington armament conference.

### WAY SEEMS OPEN FOR ACCEPTANCE OF 5-5-3 NAVAL SLASHES RATIO

Negotiations at Standstill While Japanese Delegation Waits for Further Word from Tokyo; Indications Point to Approaching Agreement on Other Questions Making Possible Settlement Outside of Alteration in American Proposal

WASHINGTON, (AP)—Negotiations in the naval ratio question, were practically at a standstill while the Japanese delegates awaited further word from Tokyo.

By today the results of yesterday's conference between the principal American, British and Japanese delegates were understood by the Japanese cabinet and the diplomatic advisory council.

Hold Ratio Dictat

All indications were that whatever had been proposed as a maximum of bringing the United States and Japan together did not involve any abandonment of the 5-5-3 ratio proposed by Great Britain, but rather concerned other considerations, which the Japanese regard as necessary to them. Chief among these was understood to be the question of further fortification of the American bases in the Pacific, which the Japanese wish to see checked. The relation of fortified bases is understood to be that there was suggestion the Japanese might regard the 5-5-3 proposal as not inconsistent with their standard of national security, if details regarding them could be arranged.

There was a decided impression among other delegates, who represented the "big three," of a conference of approach to a settlement had been found outside of any alteration of the 5-3.

In general discussion of the street negotiations there is a general feeling that the Anglo-Japanese alliance, is being dealt with and that there soon may appear a plan, approved by both Great Britain and Japan, to abandon the much discussed agreement and substitute it with some other sort of agreement to which the United States might agree.

### BERLIN TO ASK DEBTS HOLIDAY

Reparations Commission is Expected to Receive German Communication

PARIS, (AP)—The international reparations committee will probably begin formal consideration of the proposal for a moratorium on Germany's foreign debts at the meeting of the commission to be held next Tuesday, by which time it is expected that a formal request from the German government for a reparations holiday will have been received.

Unofficial dispatches received in Washington committee earlier today announced that the Weitz government in Germany had decided to ask a moratorium and would forward the request together with the reasons for it immediately.

### MINERS' STRIKE GAINING GROUND

Colorado Operators Report Shows Fewer Men Reporting for Work

WALDENBURG, Colo. (AP)—A decrease in the number of miners reporting on work today at mines of the Colorado Fuel and Iron company, as shown by the company's reports, was reported by Frank Heffley, information officer for the United Mine Workers of America. A proof he said that the miners' strike against a 30 per cent reduction in wages "is steadily gaining ground."

Operators Blame Snow

Company officials, on the other hand declared the decrease in workers at work today was due to a heavy snowfall. The total number of diggers reporting for work at the five company mines in the Trinidad district today, company reports showed, was 667, compared with 700 yesterday. In the Watsonburg district, reports showed 162 today against 200 yesterday.

Charges Reports Falsing

Charges that the company is padding its reports were made today by Orenzer Heffley.

"We know that there are not as many men working as the company reports," he said. He declared 300 miners from Colorado Fuel and Iron company mines attended the regular union meeting last night and that only one who attended are on strike.

# DALLAS COUNTS ITS BLESSINGS

### Business Men Devote Entire Week to Unquote Observance of Thanksgiving

DALLAS, Texas, (AP)—"Dallas gives Thanks" was the unique slogan adopted by the business men of this city during a week of Thanksgiving giving and observance. The observance was not only specifically for the purpose of stimulating the morale of Dallas residents by "encouraging them to properly recognize and appreciate the blessings and opportunities" and to minimize the effect of "hard times." The observance is thought here to be the first of its kind ever initiated by the business men of any city in the country.

Community Falls in Line  
In the belief that "not only high buildings, but road foundations, deeply laid," best exemplify the thought and spirit of Thanksgiving, the Chamber of Commerce and kindred organizations launched the week of Thanksgiving on November 17 with a luncheon attended by leaders in the city's development. This was followed by services on Sunday in all the churches that gave particular emphasis to Thanksgiving. The following day various organizations as well as employers in the business life of the community all fell in line with the aim of the week. Daily programs at luncheon, schools and civic centers were held in line with the observance, culminating in a great community mass meeting in the local coliseum on Thanksgiving evening.

On the first day of the week, as the observance related to the business life of the city, was the use of rubber stamps bearing the slogan "Dallas Gives Thanks" for merchandise generally.

Topics slogans for each day of the observance were adopted. These were:  
Thanks for country—"The land of freedom and opportunity."  
Thanks for Dallas spirit—"Seek you the welfare of your city."  
Thanks for churches and charitable institutions—"Serve the Lord with gladness."  
Thanks for government, local, county, state and national—"We have the government that we deserve."  
Thanks for marital progress—"Not only high buildings, but also broad foundations deeply laid."  
Thanks for schools and colleges, for the press, libraries and all educational centers—"Without which a people perish."  
The slogan for the Thanksgiving Day program in the coliseum was "Count your blessings one by one."

## GOVERNOR REFUSES TO BE INDUCED TO LEAVE STATE

Declines Urgent Invitations Because of Pledge to Himself Based on Convictions

LITTLE ROCK, Ark. (AP)—A pledge to himself that he would not leave the state during his incumbency, has caused Governor Thomas C. McRae of Arkansas to refuse to be induced to leave the state to attend the annual conference of state governors at Charleston, S. C., in December.

Gov. McRae's opinion that a chief executive of a state should not leave the state during his tenure in office was expressed freely during his campaign for governor, and although he did not make it a campaign pledge, he endeavored to leave the impression, he said, that only matters of greatest importance would cause him to go out of Arkansas.

## BURGLARS AGAIN VISIT BIG NORTH-SIDE STORE

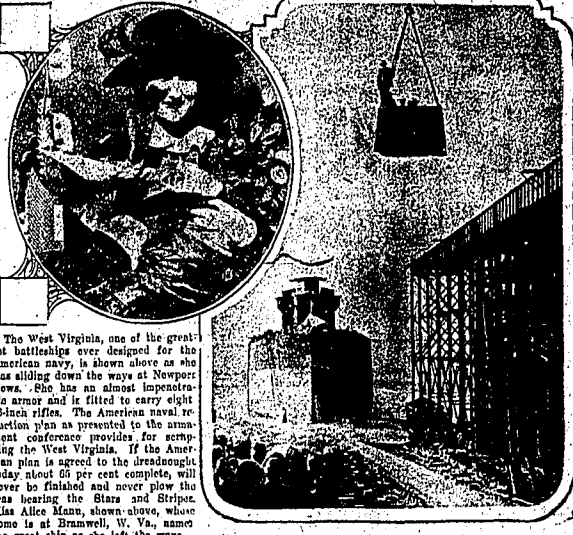

White House Establishment Victimized Third Time in Two Years—Robbers Loot Store

JEROME, Idaho (Special)—For the third time in two years the "White House" store was burglarized and robbed recently. Men's suits and overcoats, valued at several hundred dollars, were taken. Most of the stolen property has been recovered from a cache in a hay stack at the edge of town. Entrance to the place was made by breaking a plate glass window. The robbery took place shortly after the salesman had had the rest of the business district at midnight, and while he was passing through the warehouse section. A cull of clothes and an overcoat are all the goods not yet recovered.

## RUSSIANS WANT KERENSKY BACK

Indications Point to Early End of Leader's Term of Exile

RIGA, Latvia (AP)—Despite denials by former Premier Kerensky and Russian Soviet officials, it is generally believed in Riga diplomatic circles that Kerensky has been put out recently by Bolshevik representatives and agents of the Russian Social Revolutionary party to sound out the possibility of reaching an agreement for entrance of some Kerensky's party into the Moscow government.

M. Tchernoff, one of the leaders of Kerensky's party, who is now at Riga, is said to have discussed the matter with Maxim Litvinoff, chief of the Soviet diplomatic mission abroad, who was in Riga on an unexplained errand. Many of the more important Social Revolutionary leaders remaining in Russia, including some in prison, are known to have sent word last summer to their comrades in exile at Prague, Czechoslovakia and elsewhere abroad advising a cessation of counter-revolutionary work and an attempt at reconciliation.

According to one report, the Social Revolutionaries proposed that M. Kerensky should be admitted to the Bolshevik cabinet in the capacity of foreign minister. They also demanded the calling of a constituent assembly.

M. Kerensky himself, in an interview published at Prague, where he was staying, issued a general denial of the negotiations, saying: "I must emphatically deny all rumors about alleged negotiations between the Social Revolutionary party and the Bolsheviks for finding means of a compromise. Such a thing would not only be foolish, but criminal. The fate of Bolshevism is more or less clear already, for absolute breakdown is inevitable. Russia is already cleared of the ideology of Bolshevism, and we may say that today Russia is only in the hands of a Bolshevik government apparatus but that Bolshevism, as such, does not exist."

## Disturbance in Vienna Disappears with Storm

Advent of Real Winter Weather or Serves Effectively to Restore Order

VIENNA (AP)—Advent of real winter weather has served better than the police to restore order in Vienna after the serious rioting of Thursday, when mobs pillaged hotels, stores and restaurants, and robbed and beat all who presented an appearance of prosperity. The city yesterday was in the grip of a blizzard with the temperature several degrees below the freezing point, and a bitter wind driving fine snow through the almost deserted streets. Troops have arrived and are on guard at advantageous points.

A total of 174 stores were wrecked and looted, police reports show, and many others were damaged and their show windows pillaged by the mobs.

The body which was found to be in a remarkable state of preservation, has now been exhumed in a massive walnut casket adorned with gold trimmings and will be transported to Lisbon as soon as disturbances there have subsided.

## RUSSIAN WANTS KERENSKY BACK

Indications Point to Early End of Leader's Term of Exile

RIGA, Latvia (AP)—Despite denials by former Premier Kerensky and Russian Soviet officials, it is generally believed in Riga diplomatic circles that Kerensky has been put out recently by Bolshevik representatives and agents of the Russian Social Revolutionary party to sound out the possibility of reaching an agreement for entrance of some Kerensky's party into the Moscow government.

M. Tchernoff, one of the leaders of Kerensky's party, who is now at Riga, is said to have discussed the matter with Maxim Litvinoff, chief of the Soviet diplomatic mission abroad, who was in Riga on an unexplained errand. Many of the more important Social Revolutionary leaders remaining in Russia, including some in prison, are known to have sent word last summer to their comrades in exile at Prague, Czechoslovakia and elsewhere abroad advising a cessation of counter-revolutionary work and an attempt at reconciliation.

According to one report, the Social Revolutionaries proposed that M. Kerensky should be admitted to the Bolshevik cabinet in the capacity of foreign minister. They also demanded the calling of a constituent assembly.

M. Kerensky himself, in an interview published at Prague, where he was staying, issued a general denial of the negotiations, saying: "I must emphatically deny all rumors about alleged negotiations between the Social Revolutionary party and the Bolsheviks for finding means of a compromise. Such a thing would not only be foolish, but criminal. The fate of Bolshevism is more or less clear already, for absolute breakdown is inevitable. Russia is already cleared of the ideology of Bolshevism, and we may say that today Russia is only in the hands of a Bolshevik government apparatus but that Bolshevism, as such, does not exist."

Style in Writing  
In style, as in other things, it is well always to aim at the combination of many excellences and possibilities. In poetic excellences, it may be those other beauties of prose. A busy age will hardly educate its writers in correctness. Let its writers take time to write English more as a learned language; and compelling that correction of style which will not only give a certain way in the last century, raise the general level of language towards their own.—Pater.

## How Logansport Was Named

Among the relics preserved at Terre Haute, Ind., is a target rifle that was, it is said, the means of giving Logansport its name. The story is that a number of frontiersmen, being unable otherwise to reach a decision in the matter, decided to shoot at a target to determine what name should prevail. The marksmen, who proposed Logansport hit the bull's-eye.

## DEMONSTRATORS ROUTED

Montevideo Police Break Up Meetings of Protesting Communists

MONTEVIDEO, Uruguay, (AP)—Several persons were injured yesterday when police with drawn sabres dispersed a demonstration staged before government house, by communists protesting against the conviction for murder in Massachusetts of Sacco and Vanzetti.

The police acted when the communist orators began to use violent expressions against the American authorities and the leaders refused to suspend the meeting.

# COLLEGE GIRLS TENDING BABIES

## University of Nebraska Offers Practical Course in Duties of Motherhood

LINCOLN, Neb., (AP)—Assuming the role of that messenger of the air which the kiddie knows only as "milk" when a new brother or sister arrives at the home, Vernelle Judge, W. M. Morningstar, has made possible the completion of the family that inhabits the practice house of the home economics department of the University of Nebraska by placing such a handful of fat, curries and dainties to their care.

Kathryn Marie is the name of this parcel of five-months infancy, although she will remain incomplete so far as her last name is concerned. Enough is to be done to the mother of the house and those junior and senior girls who will in turn assume the role of "student mothers" that Kathryn Marie is of a good but destitute Lincoln family.

Her "mother" to be trained Kathryn Marie's adoption as a part of the household of the practice house was for the purpose of offering college girls an opportunity to learn first hand the fundamentals of intelligent care of the baby. Six sets of "mother" will have been induced by the end of the school year as six junior and senior girls in this department have a rotation at-weeks course with Kathryn Marie.

Each one of the six co-eds during the practice house course must function in one of six positions each week, rotating so that each girl has experience in all six of the positions of the course. One girl is to be "baby manager" and Marie's care for Kathryn Marie will be responsible for Kathryn Marie.

One girl is to be "baby manager" and Marie's care for Kathryn Marie will be responsible for Kathryn Marie.

Visits to Clinic Scheduled Once or twice a week Kathryn Marie will be taken to a clinic at the office of two Lincoln infant specialists and the girls will have an opportunity of talking with the doctors and getting an idea of how the baby's care should have been improved and by what methods. The doctors will direct the girls to the outward signs of improvement and show how to regulate diet as Kathryn Marie grows older.

Bouncing in a white baby carriage, propelled by a blushing co-ed, Kathryn Marie already is a favorite on the university campus, around which she is pushed for her daily airing.

Steel Derrick at Oil Wells. Excepting one, every oil field in the world is equipped with wooden derricks. This exception is at the comparatively new fields of Trinidad where the white ants and insects of similar appetite will quickly devour anything in the way of a piece of timber. Derricks of lumber, especially pine, are literally eaten up in a very short time. In this event it has been found necessary to make use of steel and the many great advantages of this construction is likely to encourage the use of derricks of metal in other fields.

# WIRELESS CHAIN FAILS TO MEET EXPECTATIONS

## Proposal for Binding Together British Empire Units is a Disappointment

LONDON, (AP)—The "Imperial Wireless Chain," which, it was predicted when the scheme was first broached, would bind together the different parts of the empire, has not yet fulfilled the sanguine expectations of British newspaper men. At the annual meeting of the British Press Union in London, the wireless chain was much criticized for the alleged apathy and procrastination in the matter.

Robert Donald, well-known journalist, said that the wireless chain as it were there would be no Imperial Wireless Chain. There might be two or more disjointed systems, but no one coordinated scheme under one control. He said that the wireless chain as it were there would be no Imperial Wireless Chain. There might be two or more disjointed systems, but no one coordinated scheme under one control.

The Imperial Conference, he added, came to no decision on wireless. Churchill, as secretary of state for the colonies and chairman of the imperial communications committee, took up the subject and hoped to put through a scheme on a big scale, but more had abandoned the child of his adoption and wireless had drifted back to the postoffice.

Premier Hughes had declared for free wireless by Australia, said Mr. Donald. The South African government found itself unable to devote money to wireless for several years. Canada would like to see a wireless system working in cooperation with America. The Indian government stated officially that it did not want the postoffice plans but wanted direct communication with Australia, said Mr. Donald.

It had been understood, was therefore and was true, Mr. Donald said, that the first station in the chain, that is London, had been established several months ago and the second at Cairo was to be ready at the end of the year. The designs for the other stations in the Imperial chain were not yet complete.

## Articles on Love and Marriage Find Way Into Japanese Newspapers and Magazines

TOKIO, (AP)—A series of articles on love and marriage is appearing in Japanese newspapers and magazines, as a sign of the modern tendencies of the Japanese mentality. Professors in psychology, school teachers and writers of note are prominent in this discussion of the reforming of the old matrimonial system and advocating more freedom for personal choice.

According to the old custom, the parents chose bride and bridegroom and the marriage was performed without the interested parties having known each other. Marriage was considered a duty towards country and family, the religion of ancestor worship being its principle. The young people were to be obedient to the parents and the bride owed complete obedience to her mother-in-law.

The custom is now prevalent for the young people to meet long before the marriage takes place so that they may know each other, and to live apart from the family is no longer considered undignified. Yet, of late, the tendency appears to marry for love's sake and out of personal choice. This new and romantic ideal is so strong that all means are tried to obtain it, including elopement, sudden, notorious family dissensions, and the parents and the bridegroom are more social life which are quite opposed to the old social system of Confucius, that men and women should keep apart for love's sake and not for love.

Scots may be surprised, but in the days of Ptolemy Ireland was known as Scotia! In fact Ireland has had a number of names. Dioboras-Siculus called the Inland Iria, or Iria; in the De Iribio, credited by some scholars to Aristotle, it is called Irenae; in the Argonautics of Orpheus it appears as Irius; Strabo called it Irenae; Caesar, Tacitus and Pliny mentioned it as Hibernia; Meia called it Joverna. The native names in Celtic are Ir, Eri, Erin. Plutarch mentions it under the name of Oxyria.

# UNIVERSITY SINGERS COMING JANUARY SEVEN

## Varsity Glee Club Has Scheduled Long Road-Literary Starting Dec. 22

UNIVERSITY OF IDAHO, Moscow, (Special)—Thirteen towns appear on the tentative itinerary arranged for the University of Idaho glee club's state tour this year. Four dates are in north Idaho, eight in the southern part of the state and one in Montana.

The club starts out with a preliminary appearance at Geneseo on December 22. The route will go through the north across Montana into southeastern Idaho and then westward and back to the University.

Members of the club will remain on the campus and go through daily rehearsals during the two weeks of Christmas vacation.

Positive engagements and dates are as follows, according to Rex Kimmel, business manager: Geneseo, December 22; Coeur d'Alene, 29; Wallace, 30; St. Maries, 31; Dillon, Mont., January 2; Idaho Falls, 3; Benewah, 4; Pocatello; American Falls, 6; Twin Falls, 7; Gooding, 8; Boise, 9; Parma, 10; Weiser, 11; Kellogg, Buhl and Payette are other possible dates.

The program will be more varied than formerly, according to Prof. E. O. Range, head of the department of music and director of the club. Part one includes club and quartet singing. In the second half, a comic opera from Sullivan's "Trial by Jury," entitled "The Student Number," will be presented. This number is re-written for the university club.

AMERICANS SET FORTH NAVAL CUT PROPOSAL CALCULATIONS BASES

Figures Submitted in Reply to Japanese Inquiries Relating to '5-5-3' Ratio Suggestion are Made Public; England and Japan Credited with Ships on Which Money Has Been Spent

WASHINGTON, (AP)—The Associated Press is able today to present some of the official figures involved in the changes between the American and Japanese experts over the '5-5-3' ratio proposal and the Japanese counter claim for a '10-10-7' status.

Japan Asks Questions
In submitting their original questionnaire to the American experts, asking explanation of the Hogues proposal on seven specific points, the Japanese officials included this question: 'Explain the relation between the ratio of 5-5-3 and the existing ratio of 60-50-30 respectively of Great Britain, the United States and Japan.'

English means by which the existing strength of the British navy has been calculated as 600,000 tons.

Credited Expenditures
In answer, the American experts said: 'Although Great Britain has not laid the keels of her four new Hoodas and the Japanese have not laid the keels of the Takao and the Atago, they have spent money on all. In order to be entirely fair, therefore, these ships were included in the lists of their respective nations with the consequent in their relative strengths. When this was done, the tonnage measure of naval strength between the United States and Japan was as follows:
United States 1,118,650; Japan 558,890; ratio United States 100 per cent; Japan 53 per cent.'

British Ships Older
As to the 60-50-30 existing strength ratio calculation, the American answer explained: 'The war conditions caused Great Britain to suspend her building program. In consequence her ships are relatively older in type than those of the United States and Japan. This fact was considered in allocating her 604,950 tons for the present, but the standard allowed her on replacement was 500,000 tons.'

In explaining, as asked by the Japanese, the method of calculation of existing strength, the American experts said that the basis taken was keels laid down as of November 11, 1914, the date of the opening of the conference. The further explanations given above, however, show that this was not held rigidly against Great Britain and Japan in the American plan but only against the United States. Money spent by Great Britain and Japan on ships not yet laid down, was figured into the existing strength of those nations.

LAST OF CONSPIRATORS IN KABER MURDER TAKEN

Italian Alleged to Have Stabbed Ohio Publisher to Death is Captured in Native Land

CLEVELAND, O., (AP)—Victoria Paveselli, who is said to have stabbed to death Daniel Kaber, wealthy publisher two years ago, has been captured in Belpalmonzo, Italy, according to word received here from two Cleveland detectives.

As there is no extradition treaty between the United States and Italy for capital offenses, Paveselli probably will be tried in that country. Paveselli is the last of six alleged conspirators in the Kaber murder plot to be arrested. They were to have been paid \$5000 by Mrs. Eva Catherine Kaber, the slain man's widow, who also was convicted and sentenced to life imprisonment.

STRONG RALLY FEATURES WEEK END GRAIN TRADE

Support Develops for May Delivery Wheat During Closing Hours Spurt

CHICAGO, (AP)—Wheat started from 1-4 to a cent lower on the Chicago board of trade today, mainly because of reports of beneficial snow and rains over the west winter wheat belt. Opening prices were December \$1.13 to 1.13 1/2; May \$1.10 1/4 to 1.10 5/8; July \$1.08 1/2 to 1.08 1/2.

Later there was a strengthening tendency in December on word from the seaboard that export demand showed signs of reviving but the deferred options continued weak and at the end of the first hour May was \$1.10 1/8 and July \$1.07 1/8.

Later support came out for May and a strong rally marked by week-end evening up prices at one time above yesterday's finish. Trading died down in the final half hour and the close was barely steady with December \$1.12 7/8 to 1.12 3/4; May \$1.08 3/8 to 1.08 1/2; and July \$1.05 3/4 to 1.05 1/2.

Cash demand kept corn prices near the top throughout the session. At the close December was \$2.75 to \$2.80; May \$2.58 to \$2.58 to \$2.46 and July \$2.46.

Options unchanged to 1-8 higher, December being offered at \$2.75 and May commanding \$2.58 to \$2.46 to \$2.46.

Provisions were dull with the packing house strike in prospect. In lard January and May were \$2.15 higher at \$2.82 and \$2.82 respectively, but quickly lost seven points. May ribs at \$7.75 showed a decline of 2 1/2 early in the session.

NEW YORK, (AP)—Oil and the bulk of industrial favorites furnished the bulk of today's broad but irregular dealings in the stock market, rails being relatively firm, but the American International Paper and Union Bag led the stronger specialties.

The closing was firm with sales approximating 350,000 shares. In the bond markets, Liberty firsts and Victory 3d issues continued to strengthen, with a firm tone to the general list. Price tendencies at the opening of today's stock market were uncertain, although weak and covering of short contracts in steel, equipments and shipping was evident. General Electric, American Locomotive, Republic and Lackawanna Steel, American Seating, Metropolitan and preferred, American International and Transcontinental Oil were higher by large fractions to 2 points. Cans, chemicals and non-dividend paying rails also strengthened. The only stocks to show distinct selling pressure were specialties of the types represented by Central Leather-preferred and Liggett and Myers.

CHICAGO, (AP)—Potatoes—48 cents; slightly stronger; Wisconsin Round Whites, sacked \$1.09 to 1.20; bulk \$1.70 to 1.80; Minnesota Round Whites, sacked \$1.05 to 1.20; sacked. Red Alvers \$1.20 to 1.50; Bandana Early Onions, sacked \$1.05 to 1.25; Idaho Russets, sacked (one car) \$2.10.

First American Patient of Dr. Lorenz

Miss Mary Moore, pretty New York actress, was the first American patient of Prof. Adolf Lorenz, the famous 'bloodless' surgeon, who is now visiting the United States on a mission to the Broad Street Hospital where she was operated on for a broken neck.

BEZDEK BRINGS STRONG ELEVEN TO WASHINGTON

Former Oregon University Coach Expects Victory for Penn State

SEATTLE, Wash. (AP)—Penn State's football team, considered to be one of the strongest eleven in the east, meets the University of Washington in the big university stadium here today.

Hugo Bezdek, who was coach at the University of Oregon several years ago, has charge of the Nittany Lions, as the visitors are called, and it is believed that tomorrow he will see his team win from Washington, something his Oregon teams seldom could do.

Washington this year is not rated strong. The eleven is being built over this season and did not win one of its Pacific coast conference games, although it held the Stanford university team to a scoreless tie.

There is more difference in the days when Bezdek was at Oregon. Then Old Doc coached Washington and the local Sunbirds were practically superior, holding the east football championship for several years. Several times Bezdek had first class teams down at Oregon, but when they went against Washington they were beaten.

Penn. State, it is thought, will have little trouble in running up a score on Washington. Lieutenant Governor W. E. Roy of Washington, who was a knickerbocker quarterback under Bezdek, watched the Lions play in the east recently and brought back the report that the Nittany had the greatest eleven he ever saw. And Coye says the champion University of California undefeated eleven win from Washington State at Portland.

Washington will be playing only another of their many games away from home. Penn. State is located in Center county, Pennsylvania, a place hard to reach as the team plays nearly all its games on strange territory. This year they played Harvard in Cambridge, Georgia Tech in New York, Pitt at Pittsburgh and now Washington in Seattle.

The season's record for the two teams follows: Washington, 24; Ninth Army Corps, 17; Washington T.; Williams college, 7; Washington 28; Montana university 7; Washington 0; Oregon 4; Washington 3; California 17; Washington 0; Washington State 14.

Penn. State, 53; Lebanon Valley 0; Penn State 24; Gettysburg 0; Penn State 35; Fort Hancock 1; Penn State 28; Lehigh 7; Penn State 30; Harvard 21; Penn State 23; Georgia Tech 7; Penn State 28; Carnegie Tech 7; Penn State 15; Navy 7; Penn State 0; Pittsburgh 0.

DUNDEE TAKES BEVBY ROUND BOCK ISLAND, Ill. (AP)—Mike Dundee of Rock Island won a second round of his ten round bout with Gene Watson of the Pacific coast here last night. The small attendance apparently affected Watson's work, he showing a disinclination to take any chance.

GADDUCK WINS DECISION. IOVA FALLS, Ia. (AP)—Earl Gadduck, former heavyweight wrestling champion, was awarded a decision over Joe Stangle, of Carroll, last night.

BASKETBALL MEN START EARNEST PRACTICE WORK

Varsity Hoop Floor Alive with Candidates for Places on Big Quintet

UNIVERSITY OF IDAHO, Moscow, (Special)—With the football season a matter of history, varsity basketball has started in earnest. Coach MacNeil is sending the prospective Varsity squad through concerted daily practice in preparation for an exceedingly hard season. As yet the strength of the team cannot be estimated sufficiently to make any comparison with the quintets to be entered by other western colleges. During past seasons Idaho has always had one of the best on the coast but this year the state and gold will fall into the palms of "Squid" Hunter, Les Mc and Bill Carder, three of the greatest stars who ever graced from an Idaho team.

CALL FOR FROSH HOOP PRACTICE GETS RESPONSE

Forty Candidates Are Out for Instruction in "Big League" Basketball

UNIVERSITY OF IDAHO, Moscow, (Special)—Forty men have reported for frosh basketball practice according to Head Coach MacNeil. This is by far one of the largest assortments of material ever presented for a freshman team. Practices will be arranged so it will not conflict with the program mapped out for the varsity men and within a short time practices will be played between the two teams. Freshman ability are unusually strong at the university this year and indications point to a speedy first year quintet.

Sports Directors Fixing Things Up For Coming Year

Western Conference Folk Gather to Consider College Activities in 1922

CHICAGO, (AP)—The annual meeting of the western conference athletic directors and coaches in various college sports opened here today with formulation of the 1922 schedules being given paramount consideration. The Western league teams will meet here today to plan the schedule of games for the 1922 season. No important changes in the schedule have been predicted and it is probable that the personnel of the teams will remain practically the same.

NEW YORK, (AP)—Twenty-one exhibition games have been scheduled by New York Giants for their spring training season. In 20 of the contests the regular champions will have either the Chicago White Sox or the Memphis Southern association club for an opponent.

Big Teams Battle Today to Maintain Clean Year's Mark

Detroit 'U' and Washington & Jefferson College at Grips on Gridiron

DETROIT, Mich. (AP)—Football teams of the University of Detroit and Washington and Jefferson went into a post-season contest here today, each prepared for a desperate battle to keep its record clean for the year. Neither team had been defeated and only one, Pulaski, had been able to score upon Detroit.

An intermittent rain for the past few days had so softened the Maitland field that a game confined solely to straight football was in prospect.

# CHOLERA BARRKS OUT AMONG HOGS

Three Herds Near Kimberly Found Affiliated; Drastic Measures Taken

In the district immediately north and east of Kimberly hog cholera has been reported, according to Farm Bureau Agent R. E. Broadard. Drastic measures have been taken to check spread of the disease, and it is now believed that veterinary officials have the situation well in hand.

**Three Herds Affected.** Outbreaks occurred on the twelve herds on the place of Frank Hooy, Elmer Morrill, and J. M. Huggins, all in a section about a mile and a quarter north and a mile and a half east of Kimberly. Dr. H. R. Groome, state deputy veterinarian, has taken part of the situation, and it is believed that the high crest of the malady, as far as these herds are concerned, has been reached.

"We do not fear a serious outbreak on the places where herds have been treated in the past few days, but we do wish to advise the nearest state deputy veterinarian, or the farm bureau, immediately any symptoms of sickness are observed among the hogs here," Agent Broadard said today.

**MI in Character.** The outbreak is said to be of a rather mild character, up to the present time. The disease has not yet spread out the district in its inception, and, therefore, appeal to farmers for the fullest cooperation in this endeavor.

# USE MATCH AS LIGHTS GO OUT; FIRE FOLLOWS

Raise at Sheehan Residence Results of Necessary Quasi-Flight Gained

Advices from the H. F. Sheehan home on Seventh avenue east intimate that this morning a fire was caused by the fire on Thursday night at that residence the matches were employed in a legitimate domestic pursuit. One of the junior members of the family entered the kitchen where later they found, using a match to ignite some clothing for night wear. Electric current had been temporarily shut off during the storm, and when later they came from the match, unnoticed, communicated with some clothing hanging in the closet. Dense smoke was later inhaled by another member of the family, who set forth the alarm for the fire department.

# DITCH RIDER JARVIS SHOWS IMPROVEMENT

Canal Company Employee, Injured by Bucking Horse, Recovers Consciousness

Condition of John Jarvis, Castleford ditch rider in a local hospital for treatment of a leg wound, is somewhat encouraging. Hopes are now entertained for recovery.

Jarvis is the victim of an accident occurring last Wednesday. The ditch rider, who is employed by the Twin Falls Canal company, sustained a fractured skull and broken collarbone. Until this morning he has been almost totally unconscious since confinement in the hospital. Today he developed some rational periods, but was unable to give a lucid account of the accident. He is employed by the Twin Falls Canal company.

# Social Notes

Spending the afternoon with Christmas sewing, the members of the Past Junior Club had a pleasant meeting at the home of Mrs. V. H. Ormsby on Friday afternoon. The hostess served refreshments at the close to the 19 members present. Mrs. Jessie Barkey was the guest of the club.

A special dance for the younger set was given at the Lavering dance pavilion last evening in good management.

The Catholic Women's league met at the Business Women's clubhouse last evening. Following the business session, during which a report was heard from Mrs. E. M. Wolfe on the benevolent offices of the league, a program of dances was given by the members of the dancing team, and a fairy dance by little girls, with Helen Neely as queen was especially pleasing. The hostesses, who served refreshments at the close of the evening, were Mrs. Peter Ericson, Mrs. Peter Dean, Mrs. M. Dean, Mrs. W. E. Decker and Miss Degele.

# Breeze Exhausts Itself and Cold Weather Sets In

The big blow having exhausted itself the weather last night settled to the task of starting a cold wave and making snow, while high temperatures. It succeeded in the former ambition, but failed in the latter.

The lowest point reached during the recession was 23 degrees, also snow, while high temperatures were 80. The fury of the wind subsided more or less during the night, and today weather conditions are generally more like normal for this time of the year.

Fair weather is expected tomorrow, but the mercury is scheduled to stick around lower regions.

# CLIMATIC EFFECT ON WOOD

Studies Made in Forest Service Laboratories Have Been of Great Value in Aeronautics.

In the great laboratory at Madison, Wis., maintained by the United States forest service, for woodworking experiments a special study has recently been made of the effects of various climatic conditions upon airplane propellers.

In one room, by regulation of warmth and humidity, the climatic conditions of southern Texas or arid Egypt were reproduced. It was found that propellers, subjected to these conditions had a tendency to dry out, flatter and become unbalanced.

In another room the climate of the Amazon valley was imitated. This caused propellers to warp badly and to change their shape so much as to become totally unfit for use.

It was found that a coat of aluminum leaf did best service as a water proof covering for propellers, which, when thus protected, may be exposed to a high humidity for a long time without warping. Leaf aluminum is so thin that from 10,000 to 12,000 layers of it are required to make a inch in thickness. One pound will cover 150 propellers, at a cost of 85 cents.—Philadelphia Ledger.

# PROPOSAL SOLUTION FOR DOUBLE TAXATION PROBLEM

WINDSOR, Ont. (AP)—Relief from the double income tax Canadians who work in the United States was being offered to pay under the new American tax law. It is to be sought by William C. Kennedy, member of parliament, at North Essex.

The new law nullifies an agreement entered into two years ago by which citizens of Canada and the United States, employed in the neighboring country, were required to pay income taxes to but one country. The law would require Canadians to pay no part tax in this country without exemption.

# THIRD PARTY PROPOSERS IN SESSION IN NEBRASKA

OMAHA, Neb. (AP)—Nebraskans who refer to themselves as independent and progressive are now meeting in select committee of the state today to select delegates to a state convention at Grand Island, Neb., December 8, when they are expected to form a third political party.

At the same time executives of the democratic state committee were scheduled to meet in Omaha to lay plans for the 1922 campaign.

# IS LARGEST SWIMMING POOL

One of Madison Square Garden, New York City, Contains 1,400,000 Gallons of Water.

Largest and most hygienic fresh-water swimming pool ever installed within a permanent, roofed structure is in the Madison Square garden, New York city. Covers an area of more than 80,000 square feet. Contains 1,500,000 gallons of water when filled. Cost \$250,000 to establish the pool.

Floor of pool has a graduated slope toward the center at the Madison avenue end, and toward the garden end at the other. The fourth avenue end, a portion reserved for, as you put it, "ladies and kiddies," starts with a depth of about two feet. An existing tunnel traversing the center of the garden had been utilized in the development of the new pool. The latest adaptation of the ultra violet ray was used in filtering and sterilizing the water. A system of vacuum cleaners was provided for the cleaning of the walls and floor of the pool while still full of water.

Some 4,000 private dressing-rooms; 2,000 steel lockers in the general dressing-rooms; 6,000 bathing suits for children; 1,000 more for the children. A special electrical washing and drying machine for cleansing them. Great built-in seats and lockers, in order that patrons may enjoy a plunge after the theater. On the box fronts along the entire circumference of the arena a duplicate of the Thorwaldsen frieze depicting the triumphant entry of Alexander into Babylon.—Robert Cortes Holiday in Leisure.
