Harding Indicates Success Attends Armament Parleys

PRESIDENT'S VIEWS ON VITAL QUESTIONS

WASHINGTON, (AP)—The text of President Harding's message to congress delivered today, included the following statements:

Taxation

Later on, when other problems are solved, I shall make some recommendations about renewed consideration of the tax program, but for the immediate future I shall continue to deal with the billion dollar reduction in the tax draft upon the people and diminished irritations, banished the specter of a general levy of collection.

Capital and Labor

There is indeed, too great divergence between the economic conditions of the most and the least favored classes in the community. But even that divergence has now come to the point where we bracket the very poor, the middle class and the very rich, the least fortunate classes. Our efforts may well be directed to improving the status of both.

Merchant Marine

I invoke your tolerance for a few more weeks until a plan may be presented which contemplates no greater draft on the public treasury, and which, though yet too crude to offer it today gives some promise of offering our merchant marine what it will give its own approval. It is enough to say that we are possessed of ships, and the American intention to establish a merchant marine so unalterable, that a plan is contemplated in the existing act, will appeal to the price and encourage the hope of all the American people.

GIVES FIGURES ON WEALTH OF PUBLIC DOMAIN

Secretary Fall, in First Annual Report, Points Out Untapped Resources; Urges a Strong Reclamation Policy

WASHINGTON, 4/7—An untapped wealth estimated at a minimum of 900 hundred and fifty billions of dollars is contained in the more than 400,000,000 acres of land still left in the public domain, Secretary Fall of the interior department says in his first annual report, made public today.

Coal and oil form the bulk of this wealth, the total coal deposits being estimated at 110,000,000 tons and the oil deposits at 1,325,000,000 barrels, with an additional 30,000,000,000 barrels of shale oil.

Figures Revealed

From the development of these resources the federal government, Secretary Fall said, would realize by way of royalties, rentals, etc., a total of \$12,877,000,000, divided as follows:

Coal in public ownership: Bituminous 10,000,000,000 tons at ten cent royalty \$1,000,000,000. Sub-bituminous 20,000,000,000 tons at eight cents royalty \$2,400,000,000. Lignite 50,000,000,000 tons at five cents royalty \$2,500,000,000.

(Note: Coal upon national lands, private grants, private lands in the public land states but not developed not estimated above.)

Oil in public ownership (crude) 700,000,000 barrels at \$2.14, 000,000,000 at 12 1/2 cents royalty \$175,000,000. Shale oil 50,000,000,000 barrels at \$2.10, 000,000,000 at five cents royalty \$25,000,000,000.

Phosphate 2,500,000,000 tons at \$4.14, 000,000,000 at two per cent royalty \$280,000,000.

Potash 20,000,000 tons at \$70, \$1,400,000,000 at two per cent royalty \$280,000,000.

Waterpower, 13,000,000 horsepower at ten cent per horsepower per year \$130,000,000.

Indian reservations: Oil 600,000,000 barrels at \$3, \$1,800,000,000.

Phosphate 1,000,000,000 tons at \$4, \$4,000,000,000.

Alaska:

Coal 20,000,000,000 tons, all grades at five cents royalty, \$1,000,000,000. Oil 25,000,000 barrels at \$1, \$25,000,000 at ten per cent royalty \$25,000,000.

Waterpower, 2,500,000 horsepower at ten cents per horsepower per year \$250,000.

Surface Land Values

Surface value of public lands outside of national forests: Desert and semi-arid lands 100,000,000 acres at \$1, \$100,000,000. Pasture lands 75,000,000 acres at \$2, \$150,000,000.

Grazing and forage lands 15,000,000 acres at \$4, \$60,000,000.

National Forests

Grazing lands 110,000,000 acres at \$4, \$440,000,000.

Timber: \$350,000,000.

Other resources: \$145,000,000.

"History is now repeating itself," says Secretary Fall, "and after a period of unlimited expenditure in war measures and in preparation for war, in the creation of a navy, etc., it has been found necessary to curtail such expenditures to the very utmost. I am justified in calling attention to the fact that the department of the interior—the home department—is fully equipped and prepared to do its part in the development of these great natural resources which must be developed if the tax burden upon this and future generations is to be borne at all."

Urges Reclamation Policy

Secretary Fall devotes a considerable part of his report to reclamation projects and in this connection, he refers to pending bills providing for further reclamation activities. Mr. Fall says that if they are enacted additional opportunities for labor will be offered to the unemployed and at the same time homes made for those who desire them.

"This department," he adds, "is thoroughly equipped to carry out any work which such an enlightened policy as suggested might be assigned to it and the interior department of our national resources."

Discussing the Alaskan situation, the interior secretary declares the resources of that territory, "and of the wealth to be drawn therefrom in the future are almost incalculable."

"There are 21,000,000 acres of land in forests in that territory," he says, "and many millions of acres upon the public domain upon which settlers may depend for mining timbers, lumber for houses, etc. There are millions of acres of land fitted for agriculture and the agricultural resources are such that a large population can be supported in Alaska without the importation of foodstuffs from the United States or other countries."

Bad Tape Retarding Factor

"Alaska's resources have not been developed for various reasons, among

SOVIET RUSSIA HAS ENOUGH OF FOREIGN CRANK

Persons Who Have Nothing But Sympathy for Bolshevik Regime are Becoming Less and Less Welcome

MOSCOW, (By a Staff Correspondent of the Associated Press). — Foreign hangers-on who have nothing but sympathetic words and promises of world revolution...

The era of free hotels, free automobiles, free opera and free railway fares is over. Government guest houses have become hotels where foreigners pay a foreign currency at rates comparable to those of really good hotels in New York, London or Paris.

In consequence, there is a general scrambling for cheaper quarters among the international associations of philosophers, poets, political scientists, professors and non-professors who have been attracted to Russia by the free sign and hopes for a brighter future...

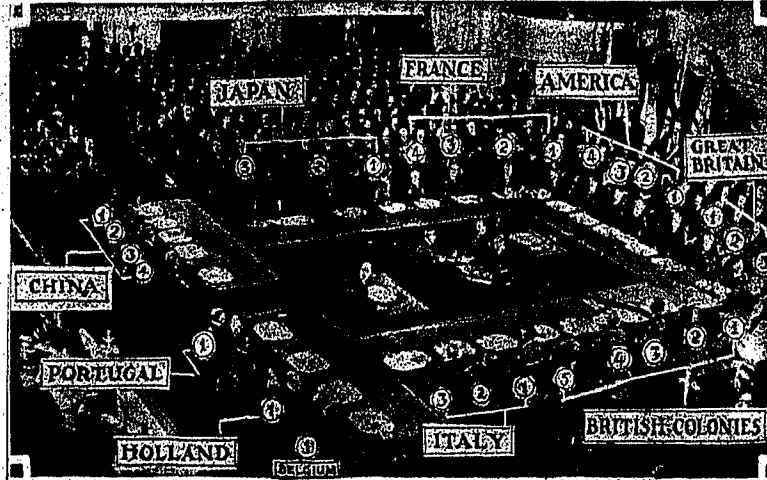

It's a rough end to a pleasant dream. Professional proletarians don't like it any better than the parlor bolsheviks. Many of the visitors are finding sudden reason for their return home, and the influx of foreign sympathizers is declining.

Traders Coming In. Cloth merchants, foreign engineers and foot soldiers are now coming. There is far more interest in agriculture and clothing business than there is in liquidating political illiteracy.

It is true that many contract servants and recover from them without taking any precaution or treatment, and knowledge of this fact leads others to take their chances instead of giving their colds the needed attention.

WOULD SPAN SEA WITH WIRELESS

Amateur Operators Ready for Attempt to Talk with Europe Through Air

HARTFORD, Conn., (AP)—Amateur wireless stations in each state and in practically every city of the country are ready today for the first extensive trans-Atlantic wireless tests ever planned.

To date there is no authentic record of an amateur station having been heard across the ocean but it is predicted by Major E. H. Armstrong, former chief of the U. S. Army radio research division, who is co-operating with the amateurs in the tests, that fully 12 stations will be heard on the other side.

Mr. Godley is acting as the representative of the Radio League overseas and will be in touch with amateurs in France, and Holland, as well as with those in England.

Roosevelt's Son Takes His Role at Christmas

OSTYER BAY, N. Y., (AP)—The old Santa Claus who gladdened the hearts of Cove Neck school tots at Christmas is gone, but the task of carrying the joy has devolved upon the shoulders of his son.

Twenty-five years ago the late Theodore Roosevelt played Santa Claus for the children of Cove Neck school, for four of his own tots were pupils there. And then it became a joyful habit with him to don the red and white suit and long whiskers so well known to little folk.

The Santa letters written at Cove Neck this year have been sent to Assistant Secretary of the Navy Roosevelt at Washington.

HARDING TAKES HONORARY POST

President Accepts Place as the Head of Magna Charta Day Association

ST. PAUL, Minn., (AP)—President Harding has accepted the post of honorary president of the Magna Charta Day association, which seeks to further general recognition of Magna Charta day in Anglo-Saxon nations.

Reply to Dr. Johnston's invitation, to become honorary president, President Harding wrote: "Thank you for your notification that I have been selected to serve as honorary president for the United States of the Magna Charta Day association."

Not Aching Holiday. The association emphasizes it is not seeking to have established an inter-

national holiday, but urges that the press and the pupils, public schools and colleges, give a notice each year to fitting expressions of the significance of the day.

looked for, as it meets satisfactorily the points raised by the Sinn Fein. It will be embodied in a bill and submitted to the British parliament which is expected to be called in special session to consider it. The consent of Ulster is not required to make the new Irish agreement effective. She is given the option of withdrawal in a month, reverting then to her present status within territory to be decided by a boundary commission.

Ulster Cannot Prevent.

While the agreement has been sent to Sir James Craig, the Ulster premier, an unfavorable decision from him will not prevent the scheme from maturing. Provisional government will be formed in southern Ireland while the British parliament is considering the agreement.

On the question of allegiance a form of words was found which satisfied both the government and the Sinn Fein. The recognition of Ireland as an independent state is said to be clear.

Puts Trust in Ireland.

The principle at least adopted by the government is said to have been that of trusting Ireland fully and giving her full power of decision without hampering her conditions.

It is also understood that an agreement satisfactory to the Sinn Fein was reached regarding control of Irish ports by the navy.

The agreement was signed for the government by Prime Minister Lloyd George, Austen Chamberlain, Lord Birkenhead and Winston Spencer Churchill and for the Sinn Fein by

Arthur Griffith, Michael Collins and Robert C. Barton.

Drops Free Trade Provision.

The condition previously insisted upon that there must be free trade between England and Ireland is said to have been dropped by the government, and Ireland is given freedom regarding tariffs. The delegates of the Danit Sinnann, however, explained that it would be to Ireland's advantage to have free trade between the two islands and that she would accept it voluntarily.

The Evening Standard says that the government's proposals for an Irish settlement, upon which the agreement was reached this morning, provide for an Irish free state, withdrawal of all military forces from Ireland and arrangements which will insure peaceful conditions there.

Definite promise of allegiance to the empire by the Sinn Fein is provided in the Irish peace terms, the Central News states. The agreement, it says, is satisfactory to the king in that it involves Ireland's association with the empire.

FRENCH RENOVATE VOTES CONFIDENCE IN BRIAND

PARIS, (AP) — The French senate this afternoon voted confidence in the policies of Premier Briand. The vote was 292 to 12. It was on all the cabinet's foreign policies with the exception of that toward the Washington conference, which was eliminated from the discussion by agreement.

Candles on Birthday Cakes.

The custom of placing candles on a birthday cake—one for each year—comes from Germany. The Germans placed a tick on the center, called "Lebenslicht," the light of life. Only he or she who declares his or her birthday may put out the light of life; it is unlucky if done by any other member of the family. The lights are symbols of life and its portion—the year. For payment advanced in years one candle must do duty, or otherwise too many would be required.

DECLARES GOAL OF WORLD HOPE WITHIN REACH

(Continued from Page One)

Senator Cummins, president pro tempore of the senate.

The audience rere and applauded Mrs. Harding when she appeared.

Promptly at 12:30 the president was announced.

The audience rose and applauded for half a minute until Speaker Gillette's gavel called for silence.

President Draws Applause.

The president's remarks drew applause at the outset, when he expressed gratification over the nation being at peace. Again from house members and others, came applause when the executive promised help to other nations to working out their problems.

The president's statements regarding agriculture and railroad rates were delivered without demonstration, but there was considerable applause when the executive declared for regulation of labor organization. The demonstration because pronounced when the president declared that labor organizations should not be permitted to exact unfair terms or cause distress to the public. (The suggestions for an industrial tribunal were followed intently.)

There was hearty applause when the president concluded.

The Red Sea.

The Hibernian called the Red Sea the "fun" South or sea of weeds of sedges. The first sea is really red, due to a minute bright red plant, a kind of seaweed so small that 25,000,000 can live and thrive within a single cubic inch of water.

Lifted Horizons.

While all men under our feet, we may well grasp at any "exquisite" passion, or any contribution in knowledge that seems by a "Fred" horizon to set the spirit free for a moment, or any stirring of the senses, strange dyes, strange colors, and curious odors, or work of the artist's hands, or the face of one's friend—Walter Pater, in the Renaissance.

Today's Markets

WHEAT MARKET RECEDES AS CASH DEMAND FAILS

CHICAGO, (AP)—Wheat prices showed firmness today in the early dealing. Opening quotations which varied from 1.86 off to 1.85 advance, with May \$1.16 to 1.15 3-4 and July \$1.03 1-2 to 1.03 3-4, were followed by slight further gains and then a moderate reaction.

Later wheat declined on reports of poor cash demand at Minneapolis. The prices closed heavy, 1 5-8 to 3c net lower, with May \$1.12 1-4 to 1.13 3-8 and July \$1.01 1-2 to 1.01 5-8.

Corn opened unchanged to 5-8c lower, May \$3 3-8 to 3 5-8, and continued heavy.

The country sold rather liberally to arrive. Prices closed heavy 8-4 to 1 5-8 to 1 3-4 net lower, with May \$3 1-4.

Oats started unchanged to a shade higher, May \$3 1-4 and then hardened a little.

Higher quotations on hogs gave strength to provisions.

Stock Quotations.

CHICAGO, (AP)—Wheat—No. 3 hard \$1.11 1-4.

Corn No. 2 mixed 48 1-4 to 49 1-8.

Oats No. 2 white 34 3-4 to 35 3-8.

Eye No. 2 54 3-4.

Lard 43 5-8.

New York Stock Market.

NEW YORK, (AP)—Strength of foreign exchange and President Harding's message to congress were used as a bullish argument by traders in the stock market today, industrials and specialties making substantial advances. Sales approximated 750,000 shares.

Shipings, oils and motor specialties were conspicuously strong at the opening of today's stock market. Mercantile Marine preferred, Standard Oil of New Jersey, United States Rubber and Goodrich made gains ranging from large fractions to 1 1-2 points. Linn Locomotive fell four points or about one-third of yesterday's gain. Norfolk and

Western American, Alameda, preferred, Central Leather, Tobacco Products and Sears-Roebuck wanted to further pressure. British exchange made no visible response to the reported settlement of the Irish situation, but German marks strengthened decidedly and Swiss francs rose to par, their highest quotation in almost two years.

Buying of Ludwig Valley, which rose nearly 3 points and further advances in motors and related issues lifted the average of prices later. TBA-closing was firm. Government bonds were irregular and railroad bonds steady.

Liberty Bonds.

NEW YORK, (AP)—Liberty bonds closed: 3 1-2's \$95.10; first 4's \$97.60 bid; first 4 1-4's \$97.75; Victory 3 3-4's \$100.

She Carried a Roll.

When the special effects of the once-famous dancer "Hilgobloche" were did recently in Paris at the age of eighty, were sold at auction, an old silk dress was knocked down to a second-hand-clothing dealer for a mere song. On examining the garment the purchaser found concealed in the lining a bundle of French bank notes to the value of \$1,000.

Snakes Run From Garlic.

In traveling through the swamps of Liberia the natives rub their bare feet with garlic and the snakes in such spots tend scurrying into the glades to most venacious reptiles.

YOU AND YOUR WIFE

Let's suppose you are a business man. You have something to sell. You do not think it is safe for your neighbors who want what you have to sell, to send to distant cities for those things.

Let's suppose you are an employed man. You know that employment is increased as the business of Twin Falls banks, stores and factories is increased.

Let's suppose you are a stockholder, officer or employee of a bank. You know that the more money that is put into circulation in Twin Falls, the more money spent in Twin Falls after being made in Twin Falls.

Whatever you are, whether it be minister, doctor, lawyer, laboring man, clerk, investor, capitalist, it makes no difference, if your interest is in Twin Falls it is to your benefit that all Twin Falls people do their buying in Twin Falls.

This is merely simple arithmetic. If we all buy out of town the town dies. If half of us buy out of town we have a half-town.

All of this comes with special force right at this time because this is the very time when doing your spending at home is most needed.

money here, that could pump the life blood of business faster, is sent away, and is gone for good. Spent here, it is turned over and over, getting into many pockets, making things easier for everybody.

Spent away from Twin Falls it does no good in Twin Falls; spent in Twin Falls it does not stop its usefulness with that one spending.

More Truth Than Poetry

THE CONCEPT OF THE BULB By E. E. ZIEBER Filled with conceit, modern democracy will not accept expert advice.

THE people who should be expected To look with awe on those who rule Decline to listen, to be subjected To laws learned in the ancient school;

HOW and it is, how disconcerting That they who mockfully should obey Dislike the burdens that are heaving; And talk about 'a never said' impatient, willful, and conceited.

WHEN shall we have a restoration Of faith in those annotated ones Who should be free to hurl demnation On us, and also on our souls.

HOW shameful that the governed masses Want something more than mere advice; They should be glad, the sinful slaves, For what they get, at any price.

IT CONTINUES TO COME UP Cancellation of the inter-allied debts is again proposed. Why not have a post-Victory Loan here for the purpose of raising money with which to wipe out all the debts of our debtors.

LACKING IN DECORATIVE QUALITIES Forch has received degree from Yale, Princeton and several other institutions, but, special is in degrees, but they won't help much.

NO FURTHER GAMES FOR REGRET It appears that smoking is not permitted at the disarmament conference. Well, the ladies needn't worry so much now because of the fact that they are not represented on any of the delegations.

GOVERNMENT EXPENSES FOR NEXT YEAR GIVEN

Figures Given Congress in First Report of Director of Budget Show Where Reductions and Increases are to be Made in Expenditures

WASHINGTON, Dec. 5.—Here are the estimated expenditures of the federal government for the fiscal years 1922 and 1923 as transmitted to congress by the director of the budget:

comedy, and the features were both written by Ralph Spaulding, and the picture was exceptionally good last evening.

'What Do Men Want?' Lola Welton's latest dramatic drama, 'What Do Men Want?' had last evening at the Idaho. It is a picture that will appeal to most women.

'White Youth' with Edith Roberts. Is a picture that is well worth the seeing, and a picture with a moral.

'The Face of the World' a real thriller of the higher variety will close a successful run at the Lavering this evening.

IRVING'S NAME GOES FIRST ON TROPHY SHIELD

Rupert Athlete, Star of University Gridiron, Accorded Highest Honor

UNIVERSITY OF IDAHO, Moscow, (Special).—"Robert Nell-Irving" will be the first name engraved on the West trophy shield that was presented to

the university student body by James E. Work, of Seattle, at the rally that preceded the W. S. C. game at the end of each football season, according to stipulations made by Mr. Work, the player having been most valuable to the team will have his name engraved in one of the 10 laurel-bordered circles. The name of this player is to be decided upon by open discussion among the football letter men, and final decision is to be made by open ballot. Irving was given practically a unanimous vote for the honor. Irving, the first player to be accorded the honor, last year played his last year for Idaho. His home is in Burket. Last season he was picked as halfback on the all-northwest team, and this year, although handicapped by injuries to the last two games, is considered as one of the greatest players in the conference. Irving was elected to captain the freshman team last year at Idaho. The second year he stepped into a berth on the varsity, which he has retained since that time. He ends a long and eventful football record at university with four letters and a distinction of having been one of the greatest gridiron stars ever developed at Idaho. Although his playing was considered nothing less than sensational by writers and spectators this season, he was a staunch exponent of teamwork. The West trophy shield is the emblem of a player kicking goal after a touchdown. Around the edge of the shield are ten circles each one to contain the name of the player who was of most value to the team during the season.

VIOLENCE USED AGAINST JARVIS NOW IS THEORY

Six Men Arrested on Belief that Ditcher is Victim of Deadly Assault

Whether John Jarvis, ditch rider, now a patient in the county hospital, was a victim of a bucking bronco, of his own excesses, or was set upon by ruffians, beaten and robbed, are questions that, in the developing circumstances and the efforts of the criminal authorities, must decide. The latter circumstance is to be believed, and it is this theory the officers of the county are working.

Bodily Injured.

Jarvis was found by the roadside early a week ago, bleeding and unconscious. At the hospital he was found to be suffering from a fractured skull, this break being at the base of the brain, a broken collar bone and various and sundry other bodily injuries of a more or less severe nature. He is said now to be conscious and able to give a coherent account of the cause of his condition.

Nothing a program of operations on Jarvis' behalf does not take much stock in the first supposition that Jarvis' injuries were caused by a fall from his horse, although the sheriff, H. G. Van Ausdell, aided by City Marshall Allen of Piler, yesterday developed a trail of circumstantial evidence which pointed to a broken collar bone and district. These men are now in the county jail, facing the possibility of a charge of assault on a public highway. Jarvis' condition is said to be better, but further development, according to Sheriff Sherman, a charge of gambling will be preferred.

Under Suspicion.

The men under arrest are Jay Logsdon, Floyd Castle, W. H. Johnson, J. J. Duley, Ivan Cobb and Earl Fisher. They range in age from 22 to 45 years and are all of the same height. The sheriff avers most of the men admit that they were gambling in the cream of Piler. Jarvis, however, is implicated in any such activity that involving the major charge.

Following the arrest, the sheriff and Logsdon in jail in order that the sheriff returned to Piler and searched the W. H. Ruppel home. Jarvis' place where he is said to have been found, a client to form a basis for a kidnapping charge.

During such intervals Jarvis is said to have admitted to sheriff's men and his authors that he was gambling and was going on considerable liquor of an intoxicating nature was consumed. He does not admit, however, that he was drunk or was involved in any such activity. He says he was given "knockout drops," and is said to have implicated one of his companions in the gambling which led to the poisoning.

New Evidence Found.

Authorities believe that Jarvis was knocked on the road to his home after he had been intoxicated. That his home was not responsible for his injuries is believed by the officers of the law since an investigation of the place where Jarvis was found show signs of violence without evidence of disturbance, such as the ground would probably show had the animal reared, plunged or bucked. Another piece of evidence is that Jarvis' clothing was found torn but, found in a field nearby, the hat belonging to the injured man.

Jarvis is expected to have recovered his mental faculties sufficiently, by this evening to be able to give some account of the circumstances leading to his condition.

RED CROSS ENTERS ON RETRENCHMENT POLICY

Home Service Office is Dropped to Center Relief on the Ex-Servicemen

Report of the roll call committee of the Red Cross made at the regular monthly meeting last evening showed a total of \$10,943.25 collected with Haines, Hollister and Red Cross, yet to hear from. A little less than one half of this sum will be sent to headquarters. Upon motion a committee was authorized to draw a budget for consideration at the next meeting. Reports from the various departments were accepted, and the annual meeting of the membership of the Red Cross for 1921 was held. As a measure of economy, suggestions were considered for changing the office location, but the matter was referred for further consideration. A statement was made that free office space might be found in the court house.

Report has not yet been received from the proceeds of the Junior Red Cross roll call which has been conducted through the schools. Funds derived from this source are not put into the general treasury, but are disbursed through the approval of the chairman of the Junior department.

Because of the great number of claims by ex-servicemen still pending, the government to handle, the discontinuance of the home service office was not considered feasible at this time. Plans for the reduction of cost, if possible, will be presented at the next meeting.

Sees Real Need of Police Matron in Community's Life

Miss Johnson Speaks Continued Support for Place She Resigned

"The office is very much worth while," in my opinion, and can be made of great and permanent benefit to the entire community," said Miss Johnson, recipient of the Twin Falls High School, in discussing the duties and possibilities of the position of police matron which she resigned last week.

"I resigned the position solely in case I could not make the duties conform to the adequate discharge of other duties previously assumed," she referred for further consideration, my membership convinced me that from the standpoint of economy, the office is more than worth while." The cost of maintaining the school is considerable. This cost is assumed solely with the idea of benefitting the next generation. When, because of disapproval the previous evening, children come to school with mental facilities below par, the community fails to benefit by the instruction it pays for. It is only straight clean-cut economy for the community to see to it that every student goes to school every day in the best possible physical condition to benefit by the instruction offered."

PRESENT PLAY AT PILER

Miss Beale, Carlson, Miss Owen, Miss Helen Wood, Pauline Brown, Nova Jones and Fred Beer composed a party of Twin Falls young people who attended the production of "Uncle Robb" by the Evening League of Twin Falls at Piler last week. SMOKE IS MENACING HEALTH OF COMMUNITY

Municipal Department Sounds Alarm Against Bad Smoking Practices

City health and sanitation authorities sound a stern warning against smoke nuisance in the suggestion that furnace and large heating plant smokers follow rules of reason in building and maintaining fires.

"Use less fuel at a time, pile it (to the firebox) so that immediate combustion will be obtained," says a member of the sanitation department.

This official, for the information of all operators of big building and industrial plants, such as hotels, laundry, warehouses, court house, school buildings and similar institutions, explains that Twin Falls is situated geographically much as in Salt Lake, where the smoke nuisance is said to have reached proportions that tend toward ill health and widespread contagion.

The local atmosphere, it is said, being rarified by the altitude, is much lighter than smoke, the gases of which are inclined to remain at a low stage until driven out by cooling breezes from the west and north. Health authorities here condemn the practice of piling coal on fires to an excessive depth, an act which causes poor combustion, creates heavy smoke and often causes explosions in furnaces, resulting in fire. These same authorities declare that smoke drives out pure air, which drives out by cooling breezes where such conditions obtain.

Attention is directed to the extraordinary pall of smoke which overhangs Twin Falls to a big hour this morning, following the firing up of the many furnaces and steam plants for the day's service. There was little breeze noticed at the morning when wind there was being a peculiarly light

Warm Weather Prediction Off on Wrong Tack

Yesterday's official weather forecast was going to be warmer immediately. Last night's temperature was as high as 70 degrees below that of Sunday night. Now the prognosticator predicts "continued cold."

Yesterday's high temperature was 41, or four degrees above Sunday. This weather, but continued cold is to be expected to-night and Wednesday, according to reports.

VALUABLE HARNESS SET PREY OF BARN LOOTERS

Brown Brothers Ranch Near Curry Shows Signs of Surtitious Activities by Thieves

Some time last night culprits entered the barn on the Brown brothers' ranch, a mile east of Curry, and carried away a set of work harness valued at about \$150. The harness was the property of a tenant on the place named Derby. Deputy Sheriff V. H. Ormsby has been detailed on the case and is following several clues. It is reported.

SHERIFF SHERMAN MAKES FORCE REARRANGEMENT

Resignation of Brown as Chief Deputy Causes Changes in Office Personnel

With the appointment of Ben Brown, chief sheriff's deputy, as chief of police of Twin Falls, a rearrangement of the official force of the sheriff's office has been planned. Sheriff E. B. Sherman has appointed Miss Donno Herriman office deputy to serve the Herriman office deputy to serve with the sheriff himself and Deputy H. B. Hamilton is contacting the affairs of the office. Mr. Sherman will be chief in charge.

Miss Herriman (the first woman deputy sheriff appointed for regular duty in this county) is the daughter of Mr. and Mrs. P. O. Herriman, of Deep Creek, and will have charge of the greater part of the clerical duties of the office. V. H. Ormsby, who demes that finally led to the arrest of Mrs. Lydia Meyer Southard, recently convicted on a murder charge, will continue to be active in work of the department outside the office, assisted by H. C. VanAnden and Deputy Hamilton.

BOOK GREEN'S COUPLE WED

Deery Greenfield and Mary Miller, both of Book Creek, were married at the Baptist parsonage at seven o'clock last night. The groom is the son of the late Jones Greenfield of Book Creek and the bride is the sister of Henry Miller, a farmer living a mile and a half out from Book Creek. They were accompanied by Gladys Greenfield and Pearl Greenfield, who is the sister of the groom. The young people will be temporarily located in Book Creek.
