## BREAKDOWN OF COLORADO MINERS STRIKE DENIED

### Strikers Have Not Been Ordered Back to Work and International Union Lends All Possible Aid, Lewis Declares

WASHINGTON, D. C., (AP)—President of the International Union of Mine Workers of America declared here today that the Colorado strike is not a breakdown of the strike. He said the union is lending all possible aid to the strikers and that they have not been ordered back to work.

### MISUNDERSTANDING COMES FROM SPREAD OF REPORT

Local officials have said miners will continue strike to limit of ability regardless of central body's decision.

### SPRINGFIELD, Ill. (AP)—Financial support of the Colorado mine strikers to the extent of the international union, will be continued.

John L. Lewis, president of the United Mine Workers of America declared here today that the Colorado strike is not a breakdown of the strike. He said the union is lending all possible aid to the strikers and that they have not been ordered back to work.

### Polio Unchanged

Mr. Lewis emphasized that the fight against woe reduction and have no intention of discontinuing it. He said that the strike is not a breakdown of the strike.

### Declared Report False

Official and field workers in Colorado are cooperating in every way with the miners in the state county. Mr. Lewis continued, "I do not intend to enter into a controversy with the board of directors."

### PLEDGES MEMBERS TO STRIKE

PUEBLO, Colo. (AP)—John McLenahan, local president of the United Mine Workers of America, announced today that the strike of miners of the Colorado Fuel and Iron company will not be called off.

### MILITARY CREDITS REPORT

OF WITHDRAWAL OF SUPPORT from the Colorado Fuel and Iron company received yesterday that the international union would not financially support the strike of miners of district 15, United Mine Workers of America.

### Quiet Christmas at White House Planned

WASHINGTON, (AP)—A quiet Christmas is expected here with the observance of the President and Mrs. Harding, unless present plans are changed by an unexpected development. It was announced today that the president would be in the White House on Christmas day.

### Mine Workers to Make Test of Kansas Industrial Law

INDIANAPOLIS, Ind. (AP)—Both sides in the case of the enforcement of the Kansas industrial court law is on the ground that it violates the state and federal constitutions by attempting to deprive the court to fix wages, working conditions and by making innocent acts a criminal offense.

### Invites Shippers to File Protests on Freight Rates

Commerce Commissioner Rules that Individual Complaints Concerning Rates and Prosecute them in the Ordinary Way.

## Invites Shippers to File Protests on Freight Rates

WASHINGTON, D. C., (AP)—Intimate Commerce Commissioner Hall, presiding today in the commission's investigation into the responsibility of transportation charges, ruled that participating shippers might be the first individual complaints concerning rates and prosecute them in the ordinary way.

VETERANS HOLD WORLD'S PEACE SAYS M'NIDER

American Legion Commander in Greeting to Comrades of Allied Armies Outlines Great Objectives

PARIS, (AP)—In a message to the Inter-Allied Veterans' Federation which opened its second annual conference here today, Haanford MacNider, national commander of the American Legion, declared the federation "will be a stronger factor toward the prevention of future war than any limitation of armaments conference or any international agreement."

The federation is a union of veterans' societies which are made up of men who fought in the great battles of the world war. Delegates are present from the United States, the British empire, including overseas dominions, France, Belgium, Italy, Rumania and Czechoslovakia. The American member of the federation is the American Legion.

Commander MacNider's message was presented by William B. Follett of Chicago, Ore., former national vice commander of the legion, and chairman of the American delegation. Mr. Follett also extended an invitation on behalf of the American Legion to the federation to hold its next world meeting in New Orleans in October, 1922, in connection with the fourth national convocation of the American Legion.

"The American Legion sends you greetings with the warmest hope that this meeting and the year ahead may be filled with great achievements for the cause of all ex-service men, for the countries for which we fought and for the civilized world. "Our union is needed and the strength of our friendship and comradeship is a guarantee to the world of a future which is more peaceful and more prosperous with opportunities to bind even closer the strongest ties man can have—those of serving side by side in battle against the foes of civilization."

Time for Action Near. "It is our belief that the time is nearly ripe for concerted action toward the great ends in which we are pledged in spirit. The Inter-Allied Veterans' Federation, composed of men who know what war means and who have seen eyes and vivid memories of the experiences which only can be gained upon the field of battle, will be a world of happier days and a future of peace and prosperity than any limitation of armaments conference or any international agreement."

We pledge to you in memory of the American who did not come back, and with constant thought of those who blind, maimed and crippled the people of the world shall

Women Who Are Doing Things in Washington

Mrs. Josephine G. Adams, assistant superintendent of documents in the government printing office, the largest job printing plant in the world. Miss Adams is a Washington, D. C. girl and has been connected with the government printing office for a number of years. A graduate of the Woman's College in Baltimore, Md., and at one time a teacher in the district schools, she was appointed to her present position by the Public Printer, Mr. Carter, on September 1 last.

have the opportunity to say that such things must never come again. Civres Legion's Objective. "We must build up our legions so big and firm and strong, and tie them into our national existence by such firm bonds of service, that our great nations will stand behind the men who offered their lives for the defense of liberty. That is our first task. "Our next task stands clearly before us, and for this great service to humanity, we pledge ourselves to you—our comrades of yesterday, today and tomorrow."

GERMANS TO CONSTRUCT ZEPPELIN FOR AMERICA

Council of Ambassadors Grants Permission for Building of Big Blimp at Friedrichshafen

PARIS, (AP)—The council of ambassadors has granted permission to the United States to contract for the construction at Friedrichshafen, Germany, of a Zepplin of the L-7 type. This decision marks the end of diplomatic negotiations which have proceeded between the United States and the United States since July last.

The application for the construction of a Zepplin grew out of the destruction in Germany of five of the big airships, one of which had been allotted to the United States during the peace conference. The United States based its application on the grounds that the airship was to be repaired under Germany's reparations agreement. The council of ambassadors referred to have reauthorized.

It is said that construction of the new Zepplin may be started in January.

CALLS MISSOURI STATE PENITENTIARY DISGRACE

Former Warden of Bing Sing Tells St. Louis Audience of 2nd Conditions at Jefferson City

ST. LOUIS, Mo. (AP)—Thomas Mott Osborn, formerly warden of Bing Sing penitentiary, called the conditions here last night declared the Missouri state penitentiary at Jefferson City to be a disgrace.

Osborn told of his visit to Jefferson City last spring. He said that while there he saw dozens of men who had thrust thumbs or forefingers into machinery and cut off because they could not stand the steady drive of the foreman. He said these men were put in the "coolie" over Sunday for some misdemeanor committed during the week and after a diet of bread and water were returned to work on Monday for the foreman of the shops to squeeze all they could out of them for another week.

RUPERT HIGHWAY BOARD ORDERS WORK SPEED-UP

Cold Spell, State Commissioners to Expedite Action in Effort to Complete Building Program

RUPERT, Idaho (Special)—Arrival of the present cold spell has ruffled the board of highway commissioners to further action in an effort to get the present road building program completed without unnecessary delay. A gravel pit has been opened at the Montponery bridge, and it is expected that through operation of this institution road work can be carried on at a considerable saving to the district.

RESTORES PRE-WAR RATES

Cuban Congress Eliminates Increases in Transportation Charges

HAVANA, (AP)—Inflated rates prevailing before Cuban entered the war are re-established under a bill, the passage of which was completed by congress yesterday. The measure had been vetoed by former President Mena.

Music Lovers Mourn Death of Charles Camille Saint-Saens in Algeria

PARIS, (AP)—Music lovers today mourned the death in Algeria, Africa, yesterday of Charles Camille Saint-Saens, aged 88, noted French musician and composer.

WEATHER PREDICTIONS FOR WEEK BEGINNING MONDAY

WASHINGTON, D. C., (AP)—Weather predictions for the week beginning Monday are: Upper Mississippi and lower Missouri valleys: Generally fair and much colder; some probability of snows after Wednesday. Rocky mountain and plateau regions: Pacific states: Generally fair and cold. To Be Picked With Care. "Pleasures," said Uncle Sam, "are much like mushrooms. Be right kind and fine, but you have to be on the lookout for bad stalks."

War Heroine Back Home, Will Tour America

Miss Agnes Peter

Miss Agnes Peter is back home in Washington. She is the first American woman to be granted the silver medal of honor given by the French government to foreigners for distinguished service, having been the director of the Payer de Solent, which is similar to our own Y. M. C. A. Miss Peter served with the army of occupation in the Rhineland later with the "42" in Poland, Austria and Czechoslovakia, and on her way home visited England where she saw the survivors of the Z-12 which crashed in Hull. Now she is on a tour of the "Olive" Schools of this country, telling them of the needs of fellow students in Europe, explaining their desperate plight, because of the failure of governmental subsidies and the exchange situation; and she is raising funds to help provide them.

MORE ANARCHISTS FROM AMERICA ENTER RUSSIA

Riga Dispatches Tell of Going and Coming of Deportees; Emma Goldman Reported In

RIGA, (AP)—Mollie Steimer, Jacob Abrams, Hyman Lachovsky and Saruul Lipman, deported from the United States after being pardoned for seditious activities, have entered Soviet Russia, having obtained the necessary visas. They left the United States the latter part of November for Lban. Emma Goldman and Alexander Berkman are still here. They are without German visas of permission to go to any other country and their permits to stay in Latvia expire tomorrow. Miss Goldman was confined to her bed by illness today.

REDUCE MINERS' WAGES

Coal Mines of Gallup, New Mexico, Out Pay Roll 30 Per Cent

GALLUP, N. M., (AP)—Notices were posted at coal mines in the Gallup district today putting into effect a general 30 per cent reduction in wages to the scale in effect in November, 1917. The reduction, operators state, has been generally accepted and working conditions at the mines remain normal. The mines also announced a reduction of \$1 a ton in the mine prices of domestic coal.

Another Theory of the Flood. A new theory of the flood has been discovered in South Africa. Hydrographers investigating the waterways of Lake Victoria and other central African lakes were at one time vast inland seas, which a little excess of rainfall would cause to overflow into the lands to the north. The discovery of primitive stone implements along the old water levels prove these to have been within the "human" period.

Telephone to-Deaf. The receiver of a telephone set for the deaf that has been invented in Germany is small enough to be hidden in a person's ear, while the transmitter can be carried in a banding or secured to clothing.

BALFOUR LAUDS HARDING'S PLAN

Head of British Delegation Says Nations with Big Fleets Benefit Most

WASHINGTON, (AP)—Arthur J. Balfour, head of the British delegation to the arms conference, declared Friday that "the great scheme initiated by President Harding" for reduction of naval armaments would benefit all the countries of the world and mostly those with the biggest fleets of fighting ships. "I am sure the burden now falling upon the people because of heavy armaments would be diminished," said Mr. Balfour at a conference with newspaper men. "I believe this new arrangement has the great merits of leaving the three great powers—Great Britain, the United States and Japan—safe from attack and will prevent cut-throat competition among them in the cost of armaments. It absolutely does nothing that any patriot may regret if he considers only the safety and security of his country and the other countries participating."

Must Consider Taxes. "Even the richest countries of the world had to consider sooner or later the problem of taxation, growing out of the war. Looking at it only from the standpoint of finance, national and international, the example set by President Harding is difficult to over-estimate. It opened a new chapter in the history of armaments because it was started with the greater and more practical example of the sacrifice of armaments. "President Harding, in his initial address to the conference, was aware that he was opening a new page in the history of the discussions of armaments because it was written on the sacrifice of particular armaments by the three countries concerned."

Landmark in History

"That, to my mind, was a wholly new result of international arrangement and it is going to be a landmark in history because it begins with the announcement of a particular sacrifice of arms on the part of the nation (the United States) leading in the deliberations of the conference. "The economic effect on Great Britain will be the same as on Japan and the United States. This new naval reduction program will diminish public burdens, relieve the economic straits. It will be a lesson for humanity and a splendid example for future performance."

Princess Mary's fiancé

Viscount Lascelles, who will marry Princess Mary some time in February.

According to latest reports, Viscount Lascelles will very likely be named the first Governor-General of the Free State of Ireland, making Princess Mary, after her marriage, the "First Lady of Ireland."

COMMANDER OF BRITISH ARMY IN MESOPOTAMIA IS DEAD

LONDON, (AP)—General Sir John D'Almeida Nixson, commander of the British forces in Mesopotamia in 1915 and 1916, died at St. Raphael, France, on Thursday, according to a Maradul dispatch to the Times. After his return from Mesopotamia he was cleared of all responsibility for the British reverses there, which ended in the retreat from Bagdad.

Salt and Dampness

Salt is what is called "hygroscopic" that is, it eagerly absorbs moisture. In fact, both air and salt are absorbents of moisture and it is a contest between them as to which gets it. Results depend on atmospheric conditions. Ordinary atmosphere always contains a proportion of moisture, and warm air is apt to be more humid than cold, as it absorbs and holds water vapor more readily than cold air. Salt has such affinity for moisture that under such conditions it draws it from the atmosphere. When the atmosphere is dry, the moisture is given up by the salt, which in turn becomes dry as it returns the moisture to the air.

Sentiment for Total Disarmament Growing

WASHINGTON, D. C. (AP)—Analyzing political and social sentiment, received from all parts of the country, the American advisory committee to the arms conference announced Friday, showed a growing sentiment in favor of total disarmament and of open sea of total disarmament, in favor of limitations.

The committee estimated that communications voiced the sentiments of more than twelve million people. A total of 1,000,000 individuals expressed themselves as favoring some sort of an association of nations, the statement said, and 690 favored abolition of the submarine.

Says South Approves Conference Results

WASHINGTON, D. C. (AP)—Former Representative Slocum, Democrat, Tex., called Friday to congratulate President Harding on the "wonderful success" of the Washington conference, "as viewed by the people of the south."

Mr. Slocum said that in traveling through the south, particularly in Virginia, he had found the people pleased and contented with the accomplishments of the conference.

Wales Hunts Tigers in Jungles of India

DELHI, India, (AP)—The Prince of Wales is enjoying the sport of tiger hunting at the guest of Maharaja Sr Chandra Jung of Nepal. Despite the rioting in Bombay and the Hartals in Amjere, Allahabad and Benares, his reception has been of a gratifying character. None of the events on his program have been abandoned or modified.

DISTRICT COWS STAND UP WELL IN MONTH TEST

Pioneer Association Expert Issues Gratifying Report for Month of October

(By W. G. FLETCHER, Tester.) While October found no phenomenal producers it introduced several cows that promise to make very good records, as well as culling some cows already on test actually to increase their production over September.

Among these cows were Mr. Otto's Gypsy Ladd's Caranotto, the four-year-old Jersey heifer, in an effort to surpass the record of the Boise state record cow, Idaho-Irene, with 539 pounds. Gypsy produced 45.3 pounds of milk, making a nine months' total of more than 430 pounds.

L. J. Tencknick's exceptional cow, Beauty, has more than 400 pounds of milk credit, and has increased both her test and production over September.

E. G. Ehlers of Twin Falls, introduced a new star, Josephine Della with 214 pounds milk and 62.5 pounds of fat. (Tests compiled for November and December indicate that she should make 202 pounds of fat by January 1, having begun test on September 21.)

B. H. Rayler, the well known Twin Falls breeder, has five excellent Jersey cows on official test. Bright Lights Jersey, his latest, has an average of practically 50 pounds of fat a month for her first two months.

Mrs. B. F. McPherson, the Filer Jersey enthusiast, has a number of excellent "little" cows on test. Her Dame Hampton's Jewel, will crowd 500 pounds very closely for the year. Incidentally, Mrs. McPherson's two-year-old Jersey, Premier, born in October, her average being 38.7 pounds of fat against the latter's 37.

Better Records. One thing that impresses me in my little journeys from farm to farm is that there have been better stock records, and that these are priced low enough and liberal enough terms are given to make it inexcusable for every milk producer to neglect his stock.

above the actual market value, but less than charged retail), oats, 85c; bran, 81c; oil meal 45 per hundred.

Butter fat, price used was 40.5 cents, the net paid to the producer. Facts to Remember. In reading the above table one should remember that so far as apparent profit it is generally desirable to have the cow tested under the supervision of the dairy division of the United States department of agriculture, for instance, the cost of testing milk and fertilizing value of manure is considered as paying for the labor, taxes, and depreciation. While manure has a great value in fertilizing crop lands, not a great deal should be allowed for it under the local conditions with alfalfa hay selling for 43 or 44 per ton.

Again this list of cows are in many instances below the cost of production, when rent for any accordingly high priced land is charged. As Carl Johnson, formerly dairy manager for the university extension service, stated here recently the dairyman would be actually money ahead under present conditions if he bought all his feed.

That unique milk is fed to young growing stock, as poultry, calves, or pigs, the low price of feed makes it a pretty cheap by-product.

It is interesting to note that there is a special value and should be compared with tankage as 95¢ per ton.

BURLEY TEACHERS ARE OFFERED SALARY CUT. Education Board Proposes Contraction of Expenses to Keep the Schools Open

BURLEY, Idaho (Special).—Reduction of 25 per cent in salaries of all teachers, janitors and wagon drivers, together with other contractions of operating expense accounts connected with the Burley schools, are contemplated by the school board as a method of maintaining the operation of the educational departments the rest of the year. The reduction necessarily has been placed before all employees concerned and is being considered by the board.

It is understood the teachers have consulted counsel with regard to their status in the premises.

COWS HELP TO FARMERS. RUPERT, (Special).—During the month of November checks aggregating \$4,000 were paid local farmers for butterfat delivered at the cream stations. Managers of these stations note a continued increase in deliveries, indicating what is believed to be progress along lines of better dairying.

RUPERT FARMER GETS LOAN. RUPERT, (Special).—The first Twin Falls cooperative loan on a Burley district livestock was received here this week by the Rupert Loan company in favor of Henry Hilt. The amount advanced by the federal corporation was \$1,000.

May Operate to Music. With local amusements growing in importance for use in major operations of all kinds, phonograph music is taking its place as an important accessory to surgical work. In the view of Dr. Robert E. Furr of Minneapolis, Doctor Furr corrected a statement from Milwaukee, where he recently spoke at a medical convention, in which he was quoted as saying music is a part substitute for anesthesia.

What I said was that, where major operations are performed with the aid of a local anesthetic rather than by the ether method of etherizing, the patient remains conscious and alert, and gently played phonograph music has a decided value both in calming the patient and in supplying pleasurable sounds as an offset to the realization that he is being operated on," Doctor Furr said.

Largest Crater in the World. Two Swedish scientists recently made a long journey of exploration through Iceland with the interesting result that they discovered the largest volcanic crater in the world. It took them nine days, using three horses and sledges, to cross the great sea of ice of the Vatnajokull from west to east in order to reach Kolar, on the Fjeld of Hornar.

Rabbi Joseph Saul Korndorf, of Columbus, Ohio, who has accepted President Harding's offer to become Minister to Persia. The rabbi was born in Austro-Hungary in 1873 and took up his residence in Columbus in 1907. He is prominent as an author on Jewish history and also fair to honor his race and his country in his new position.

Big Forest Nursery. The forestry nursery at Saratoga Springs, which is in the course of organization at this time, will be the largest in the world at the present date. When completed it will have an output of 100,000 trees per day and each idea of the scope of this new nursery may be gained from the fact that during the transplanting season last spring the employees of this nursery several times transplanted more than 125,000 white pines in a single day. Seven transplanting tables were in operation at one time. It is at these tables that the transplanting boards are filled, by which fifty young trees are planted in a row simultaneously. The beds in which these plants are growing present a very attractive sight, the trees being all the same size and planted in faultless rows.

Mail for Lonely Island. Romance lies hidden in a parcel being carried by the Shackleton-Rowett exploration ship Quest for delivery at the lonely British island of Tristan da Cunha, in the south Atlantic, to which the Quest is taking mail. It is being sent to a young woman by a sailor who formed a strong attachment for her during his stay on the island. He is anxious that a photograph of her should be taken and sent to him. This will probably be done. Among other parcels sent to the island are some addressed to "The Oldest Inhabitant" and "The Principal Lady."

A Useful Fish. They have a remarkable fish in Nova Scotia. It is known as the frost fish, because it can be frozen solid, but if placed in water it soon thaws out and swims around as vigorously as ever. The natives, we are told, use this fish in making ice cream. The fish is caught, frozen and placed in the cream. In thawing out it freezes the cream and its movements at the same time beat the mixture, making it nice and smooth. It is a fresh water fish, but the story requires a lot of salt.

"DUFFY" LEWIS COAST CIRCUIT STICKING STAR

Salt Lake Outfielder and Manager-Elect, Compiled Best Average in 1921

SAN FRANCISCO, Cal., (AP)—"Duffy" Lewis, Salt Lake outfielder, and former world series batting star, with a percentage of .403, was the best hitter in the Pacific Coast baseball league for 1921, according to official average made public here today. Lewis knocked out 14 home runs, 3 three-baggers and drove in 84 runs in hitting his average.

His nearest competitor was "Hack" Miller, Oakland outfielder, with an average of .347. Miller played in 341 games, however, while Lewis participated in but 105 contests. Miller's hit record is 137 runners, more than any other player in the league. Jimmy O'Connell, San Francisco first baseman and outfielder, who was sold recently to the New York Giants for \$75,000, finished the season with a batting average of .337. He hit 17 home runs, nine three-baggers, 35 two-baggers and sent 101 runners across the plate.

ENGINE TROUBLE PREVENTS WASHINGTON, D. C., (AP)—Plans to bring America's largest airship, the Roma, from Langley field, Virginia, to Washington today on her first cruising flight were abandoned early today after receipt by the army air service of word that the engine of the big craft had developed some minor trouble that made the flight inadvisable.

What Every Woman Knows. When a woman asks her husband for "a little money," the word that seems to impress him most is "little."—Eaton Transcriber.

FUNDAMENTAL BUSINESS PRINCIPLES. From a purely cold-blooded business point of view, honesty is the best policy. To treat the other man as you would have him treat you is an equally fundamental business principle. This does not mean that you should surrender your rights or neglect to avail yourself of your opportunities. It simply means that in the game of business, the same rules of sportsmanship should prevail as in a boxing bout, in a match of golf, or in a football game.—John D. Rockefeller, Jr.

# TIME CHANGE ONCE MORE UP TO BE AIRD

## Congressman Smith Tells of Plans for Further Arguments with Committee

Arguments of a more convincing nature are required by the interstate commerce committee before a change in the system of establishing time in this zone will be authorized. Such arguments are being prepared for presentation to the committee by congressional delegates from Idaho, with officials and state authorities, says Addison T. Smith, southern Idaho representative in congress in a letter to Howell E. Wright, of the chamber of commerce.

Congressman Smith's communication replies to a letter by Mr. Wright having direct relation to the decision of the interstate commerce board not to require Pacific Coast time with Mountain time in this district, the committee failing to understand that a need for such a change exists, or that it would be beneficial in any way to the communities or districts affected.

## WAB SECRETARY FAVORS UNIVERSAL DRAFT LAW

## World Mobilize Men, Money and Manufactories in Event of Future War

WASHINGTON, D. C., (AP)—Secretary of War Weeks is in favor of the mobilization of men, money and manufactures under a comprehensive law in the event of future war.

Such a course, the war secretary declared in an address last night at the annual reunion of the War Industries Board, would preclude profiteering and slacker lists.

"I would conscript every person in the United States from 18 to 60 years of age should a future war prevail," said Mr. Weeks.

He described the draft law of the world war as "the very greatest piece of legislation—carried—almost—perfectly."

## YEAR'S PROBATION GIVEN BAMBINO MAUDE DELMONT

## Complaining Witness in Arbuclle Manhandling Case in Court for Charge of Bigamy

FRESNO, Cal., (AP)—Mrs. Bambino Maude Delmont, who swore to the complaint at San Francisco charging Roscoe C. (Fatsy) Arbuclle of murdering Virginia Rappie, was granted today one year probation when she appeared in court for sentence on a charge of bigamy.

She pleaded guilty from 18 to 20 years of the complaint.

The complaint Mrs. Delmont swore out was reduced to one of manhandling by the police court and the jury which tried Arbuclle on it failed to agree.

## STINK BOMBS PLANTED IN OMAHA STRIKE DISTRICT

## Meat Cutters Continuing at Work Must Stop Wastely to Avoid Trampling on Odorous Devices

OMAHA, Neb., (AP)—Use of what police termed "stink bombs" in street cars going to and from Omaha's packing house district, where meat cutters and others were on strike, was reported by police today.

The "bombs" were described as being made of small sacks of a substance which, when trampled upon, causes a bad odor in the immediate vicinity.

## Canada's Next Premier

W. L. Mackenzie King, who will succeed Premier Meighen, of Canada, as the result of the victory of the Liberal party in the Canadian elections, Mr. King is Liberal leader in the House of Commons and will thus become Prime minister of the Dominion.

## SECRET SERVICE HOUNDS NAB SUSPECT IN WARSAW

(Continued from Page One)

arrest of the participants in the bomb plot and to recover the \$20,000 reward for three abductees. It was described by Mr. Burns as a highly educated and intellectual man of pronounced racial tendencies, although he did not himself advocate violent measures. He is about 6 years old and has a wife and two children now in New York, and is a native of the town of Lidenfeld in the province of Posen in the east of Poland.

Expect Claim for Reward. Officials expect Lindenfeld to put in a claim for the \$20,000 reward offered in New York for information leading to the solution of the bomb mystery.

Attendant Is Burns Man. Paul Altendorf, who, with Cosgrove, trailed Lindenfeld and his wife into Warsaw in his secret investigation, was said by the bureau of investigation chief to be a Burns agency man, who had been sent abroad first upon information supplied by Lindenfeld but had been unable to make sufficient progress himself, so that Lindenfeld had been sent over to gather the details concerning the case of the suspects.

Upon Lindenfeld's failure to report, he added, Cosgrove was sent over to arrest him.

It also was pointed out that J. P. Morgan, for whom the bomb was shot, had been intended, was shooting in Scotland at the time, so that it would have been impossible for a woman spy to have watched him daily.

## DEFENTION OF RADICAL IN NEW YORK IS EXPECTED

NEW YORK, (AP)—A report that a arrest would be made here this afternoon in connection with the arrest of the federal agent investigating the Wall street-Lomb explosion was current today.

William J. Burns, head of the federal investigation bureau was to arrive here this afternoon.

Police headquarters professed to be without advice regarding the arrest.

Local investigators, while expressing intense interest in reports of the arrest, pointed out in connection with the statement that the third international had flung the plot with \$20,000, that anarchists usually were moved by fanaticism rather than by the desire for gold.

It also was pointed out that J. P. Morgan, for whom the bomb was shot, had been intended, was shooting in Scotland at the time, so that it would have been impossible for a woman spy to have watched him daily.

## Boon to the Armies

An English machine for the use of armies now consists of a table upon which are pegs worked by the feet. The pegs are connected with artificial arms.

Everything that can be done by human agency. Thus the patient can use a spoon, knife and fork, drink from a cup, pick a cigarette and place it in his mouth, open a box of matches, strike a match and light the cigarette, type-write, turn the leaves of a book, make cigarettes, wash and dry his face and neck, etc.

## Careful and Interest.

"The story goes that John Hopkins, the founder of the university that bears his name, was accustomed, even when of venerable years and more or less infirm of body to walk to his office. Questioned by a friend as to why he did this, he replied: "I never forget that a curfew represents an entire year's interest on a dollar. The interest on a dollar is worth saving."

## CHASE INVOLVES WEB OF INTRIGUE

(Continued from Page One)

international through New York committee. Lindenfeld has declared his willingness to return to New York as soon as possible and turn state evidence. The Polish authorities may be exposed in 1000 as a Russian secret agent and fled to America at that time, returning to Warsaw next spring.

Attendorf came to Europe, in February last, while Lindenfeld came over in March. During the summer, Altendorf, living in various communist centers, obtained a clue which led him to seek Lindenfeld's acquaintance.

As a result, Cosgrove arrived in Warsaw five months ago, posing as having connections with communist groups in America, and was introduced to Lindenfeld by Altendorf.

Police Hold Doubt-Cross. Polish investigators, after establishing the acquaintance Cosgrove suggested to Lindenfeld a scheme whereby, by giving information in regard to the Wall street explosion he could receive a large share of the rewards offered for the arrest of the plotters, without risk to himself.

## Today's Markets

## WHEAT PRICE ADVANCED BY EXPORT CONDITIONS

Closing Hour in Pitts Sees December at \$1.07 1/4; May \$1.12 1/4 to \$1.12 5/8

CHICAGO, (AP)—Wheat was easy and unchanged to 1/4c lower at the opening of the Chicago board of trade today. Prices were \$1.07 3/4 for December, \$1.12 1/2 to \$1.12 3/4 for May, and \$1.02 1/2 for July.

Some scattered buying strengthened the deferred contracts a bit but this had only momentary effect and within an hour the list was down 1/8 to 1/4c from the opening.

The report of the northwestern grain dealers at Winnipeg showing smaller reserves than expected on Canadian farms had been discounted and had little effect, but there was a small rally at the end of the first hour when weather reports showed no moisture in the dry sections in Kansas and Oklahoma.

The market sagged slowly in mid-session and toward the close broke half a cent but export conditions and evening up made a sharp rally and the closing saw December at \$1.07 1/4, May \$1.12 1/2 to \$1.12 5/8 and July \$1.02 7/8.

Corn started firm with opening prices unchanged, May being \$1.65 1/8 and July \$1.15 to 1/8c. Wet weather and seaboard bids were factors.

Corn held its position in the face of what weaknesses until the last half hour when it sank a bit. Final prices were 40 1/2 for December, 62 3/4 to 62 3/4 to 7 1/8 for May and 64 1/4 for July.

Oats started dull and steady with December 22 1/2 and May 35c. Provisions were generally 2 1/2c lower.

## MINNEAPOLIS, (AP)—Flour

—Unchanged. Bran \$31 to 32. Wheat—Receipts 200 cars, compared with 250 cars a year ago. Oats No. 1 Northern \$1.24 1/4 to 1.28 1/4; December \$1.18 5/8; May \$1.10 1/4; July \$1.16 1/4. Corn No. 3 yellow 37 3/4. Oats No. 3 white 29 3/8 to 30 3/8c. Barley 37 to 39c. Rye No. 2 76 7/8 to 77 7/8c.

## Chicago Produce

CHICAGO, (AP)—Butter—Lower; creamery extra 43c; first 34 to 41c; second 29 to 30c; standard 37c. Eggs—Unchanged; receipts 2,847 cases. Poultry—Alive higher; fowls 14 to 23c; springs 21c; turkeys 35c; roosters 19 1/2c.

## Portland Livestock

PORTLAND, (AP)—Cattle—Steady; receipts 20. Hogs—Steady; receipts 31. Sheep—Unchanged; receipts 545 (going through).

## Omaha Livestock

OMAHA, Neb., (AP)—Hogs—Receipts 4,000; compared with week ago, head steers mostly 50c to 61c lower; medium and good grades showing full decline; strictly common steers little changed; sheep mostly 25c to 30c lower; calves lower; stocker and feeder steady to 25c higher; bulls 25c to 50c higher.

Sheep—Receipts none. Compared with week ago: Lambs 50 to 75c lower; sheep 25 to 50c lower; feeders strong.

## Chicago Livestock

CHICAGO, (AP)—Cattle—Receipts 1,000; compared with week ago, head steers mostly 50c to 61c lower; medium and good grades showing full decline; strictly common steers little changed; sheep mostly 25c to 30c lower; calves lower; stocker and feeder steady to 25c higher; bulls 25c to 50c higher.

## St. Swithin's Day Dispaired.

A record was kept from 1840 for twenty years for the purpose of testing the truth of the popular belief that if rain fell on St. Swithin's day it would rain for forty days after. The result of this test shows that the greatest number of rainy days had occurred in these two decades in years when St. Swithin's day was dry.

## GOOD ENOUGH FOR SANTA CLAUS

and so your valentines first ought to be good enough for your son. They will be, if the service is what you are after. Why throw good money after bad, when you can turn your old tires and tubes into real money, at small cost?

## GEM STATE VULC. CO.

## "Oh Boy! Ain't this the life!!"

I LIKE my job.  
BUT DAYS do come.  
WHEN SKIES are blue.  
ABOVE the city smoke.  
AND BREEZES stir.  
THE PAPERS on my desk.  
AND THEN I think.  
WHAT I would do.  
IF I were boss.  
I'D OPEN shop.  
AT TWELVE o'clock.  
AND CLOSE at one.  
WITH ONE hour off.  
FOR LUNCH, and I.  
WOULD GET old Sam,  
TO RUN me out.  
IN HIS big sit.  
AND DROP me off.  
UNDER A greenwood tree.  
BESIDE A babbling brook.  
AND THERE I'd lie.  
AND EVERY once.  
IN A while.  
ROLL OVER.  
OR MAYBE sit and think.  
BUT MOST likely,  
AND EVERY once.  
IN A while I'd light.  
ONE OF my Chesterfields,  
AND OH BOY,  
I GUESS that wouldn't,  
SATISFY!

COMPANIONSHIP. Say, there weren't you such a cigarette as Chesterfield for steady company? Just as mild and smooth as tobacco can be—but with a mellow "body" that satisfies even cigar smokers. On lazy days or busy ones—all the time—you want this "satisfying-smoke."

MEMBER OF ASSOCIATED PRESS... The Associated Press is exclusively entitled to the use of reproduction of all news dispatches credited to it...

EASTERN REPRESENTATIVES... George H. Root, 111 Madison Ave., New York; A. B. Foster, 1411 Hartford Building, Chicago.

A GOOD EXAMPLE... Action of the Board of Commissioners of Twin Falls county in ordering dismissal of certain salaried county employes and reduction of the salaries of others to effect an estimated saving of between \$10,000 and \$12,000 a year...

Unquestionably the county has benefited by reason of the work of the persons whose services are now to be dispensed with, and there can be no rejoicing in any quarter over the fact that county employes will have to work in the future for less money than they have received in the past...

It's a good start and the commissioners are to be congratulated upon their action. Do it undorstood, the saying, by reason of this action, to the taxpayers in actual dollars and cents is almost infinitesimal; but, as before stated, it's the principle which counts and, also as before stated, a start must be made somewhere.

Many nickels make a muckle, and to neglect the possible saving of pennies is to let black and white dollars fly out through the window. The principle constitutes a triumph as old as the hills.

OIVING OF GIFTS... After all, it is a matter of sentiment and sentiment rather than of dollars—all this custom of holiday gift-giving.

BASKETS FOR APPLES FINDING POPULARITY... Idaho Product in Fancy Containers Wins Prestige in the Fruit Markets

AMSTERDAM... AMSTERDAM, Idaho—Charles Tuoman and son Arthur, were business visitors in Rogerson Thursday.

Small Boys' Lament... Ernest was alling and obliged to miss a day in school. His mother prepared dainty food for him and surprised him in a manner to his liking.

ment for all the coming lifetime of these growing little folk... Holiday giving has been too burdensome in the past.

The cost-plus system in general giving in the holidays ought to be adopted; and plus taken in this higher value which does not deplete the bank roll and which does give more back to the giver than it ever transfers to the recipient.

Law Enforcement

It is only by vigorous enforcement of all laws—not one law—that the great purpose of this government can be accomplished... We are at the cross-roads. We are facing the problems of a new age—the age of a highly developed civilization.

More Truth Than Poetry

THE REWARD OF MERIT

BY S. E. KISER... DOC WILLARD'S bought a big sedan; it cost about eight thousand smackers.

THEY'VE given up the little bit in which they formerly existed; Doc has a most impressive strut.

DOC WILLARD'S mansion on the hill... 'Proves that it pays to strive, undaunted; it's rare that he preaches a pill!'

DOC WILLARD'S mansion on the hill... 'Proves that it pays to strive, undaunted; it's rare that he preaches a pill!'

the school children an interesting de-bate was held the subject being: 'Why has the Negro More Rights Than the American Indian?'

Small Boys' Lament... Ernest was alling and obliged to miss a day in school. His mother prepared dainty food for him and surprised him in a manner to his liking.

Small Boys' Lament... Ernest was alling and obliged to miss a day in school. His mother prepared dainty food for him and surprised him in a manner to his liking.

THE NEWS SUNDAY SERMONETTE

By CHARLES GLENN BAIRD, M. A. Rector, Church of the Ascension, Episcopal

THE ABRIDGING WORD... Matt. 24:35: 'Heaven and earth shall pass away, but my words shall not pass away.'

It is so easy for us to think that the material world is more enduring than the spiritual world. We are constantly being deceived by the outward appearance and the show of things, and having to learn the art of getting behind appearances.

THE GREEN BRER... The Green Brer, under the name of Moewe and commanded by Capt. Conrad Nicholas, was Donna Schindler, for a long time terrorized passenger and cargo-carrying vessels in the Atlantic and as a result of her operations British and allied shipping suffered extensively.

Over against this eternal character of the words of Jesus let us think of the kind of words which do not and cannot endure. False promises cannot endure long. Falshoods have often a surprising vitality, and do an infinite amount of mischief.

Her Subjects Love Her So Well They Ask Her To Come Home

Here is something out of the ordinary: A real live queen who has been petitioned by her subjects to return to her homeland... The photograph shows the Rajah, Rajas. They have been living in Cannes, France.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SEA CAMP AT MARION, MASS.

In the little town of Marion, Mass., by the unruffled waters of Bippican harbor, is a sea camp for the Boy Scouts of America. Here under the patronage of old-seafaring skipper, boys are taught the tricks of the trade of sailing and seamanship.

Through the timely aid of William H. Todd of the Todd Shipbuilding corporation and the kindness of the 'Father Neptune' in permitting over their entire school to Chief Seascout James A. Wilder for a summer camp, dreams became realities.

The second program is the official older boy program of the Boy Scouts of America; a scout must be at least fifteen years old before joining. It is a club run like a ship, involving strict discipline and immediate obedience—sea ceremonies and general snappy work.

Checking up the trees... Boy Scouts Know All About the Big Forest Trees "Fraserology" is One of the Scout Specialities.

BLINDNESS NO HANDICAP.

Every now and then we hear of the remarkable achievements in Scouting of blind boys. In Overbrook, a suburb of Philadelphia, there lives a whole troop of blind youngsters who astound everybody who watches them by their versatility. They do practically everything other scouts do and in some things even excel their comrades with two good eyes.

Blindness no handicap... The blind boy, says Mr. Hartung, their accoutrements, has landmarks the rest of us know nothing about. They are practically undetectable in the woods, and can do their tests, gather food, make fires and cook outdoor meals precisely as if they had their vision.

Boy Scouts could find them... At the big state fair in Yaktima, Wash., the authorities discovered the very first day that it was harder to locate a doctor when wanted than a doctor of blind youngsters who astound everybody who watches them by their versatility.

Blindness no handicap... The blind boy, says Mr. Hartung, their accoutrements, has landmarks the rest of us know nothing about. They are practically undetectable in the woods, and can do their tests, gather food, make fires and cook outdoor meals precisely as if they had their vision.
