

The Big Store on the Corner

The Christmas Store of Twin Falls

Beginning tomorrow and continuing for the rest of this week we will inaugurate the most novel Xmas sale of the year :

TAKE OFF SALE

This, folks, is the most novel and biggest money-saving sale of the year. We've inaugurated it just before Xmas so that you can take advantage of it and save on your gift purchases.

There are no 'hitches' or 'ifs' or 'ands' about this sale. It is simple and offers big possibilities in saving money, thruout the store.

We take off five cents on every quarter spent in the store. For instance, if an article sells for \$5 we take off twenty nickels or \$1. You saving \$1 on the transaction.

Simple, isn't it?

Read the items. You can figure out for yourself just how much to take off, and how much to save.

INFLUENCE OF AMERICA SEEN IN LITHUANIA

"Main Street" in Kovno Bears Evidence of Effect of Americanization of Men Prominent in Government

KOVNO, Lithuania, (AP)—The "main street" of Kovno, which has always resembled, to a certain extent, that of a well-worn town, has become more Americanized than ever. Dozens of the men now playing prominent roles in the Lithuanian government and in business here are Lithuanians who have been in America and returned to their birthland since their country won its independence. Some of the business men still retain their American citizenship. More strictly American typologies are noted in Lithuania than any other country of Europe.

Many Ties with America
Lithuania, exclusive of the disputed Vilna territory, has about 3,000,000 inhabitants. At least 100,000 of these have been at one time or another in America, while, according to Lithuanian statistics, nearly a million of Lithuanian birth or parentage are now residing in the United States. The country being almost exclusively agricultural, they do not usually congregate in large cities. Among those in America, however, are many coal miners, distributed about the Pennsylvania and Illinois mining fields.

The smallest Lithuanian village generally boasts at least one English-speaking citizen. Languages come easy to them, as their mother tongue, it is claimed, is the nearest modern approach to the ancient Sanskrit, from which all Aryan languages sprang. Their English, however, is of the American variety.

Dr. Zanulis, of the Lithuanian diplomatic corps, said that nearly 300,000 daily is coming to Lithuania from boys and daughters in the United States.

Returning Emigrants Play Big Part
"A great role in the economic life of Lithuania is played by the American-Lithuanians," he said. "Trade enterprises, factories, banks, etc., are being established with their money. A group of them has just purchased one of the largest textile factories in Kovno, which will produce yearly about 10,000,000 yards (a square is about three-fourths of a yard) of cloth."

In the ordinary calls of a few days at Kovno the correspondent found the

director of the town's biggest bank had been a resident of Scranton, Pa., the manager and president of the largest trading concern were both American citizens of Lithuanian parentage and the under-minister of foreign affairs had been a Chicago lawyer.

"The hotel porter had been a coal miner in Illinois and the chief department of the newly opened American consulate here was jammed with Lithuanian-Americans daily, naturalized and carrying American passports, seeking renewal of these documents which proved their American citizenship."

CITY CONSIDERS SCHEME TO OBTAIN RIGHT OF WAY

Condemnation Proceedings Against F. O. Ware on Heyburn Ave. Probable

Possibility of resorting to condemnation to procure a right-of-way which will make Heyburn avenue a finished thoroughfare between Washington and Adams streets was a matter of consideration by the city administrative trustees last night. The avenue right-of-way, it was shown, is complete with the exception of a portion of property owned by F. O. Ware.

The Ware property is eight and a half feet in depth, but it is sufficient to block the road project as a complete thoroughfare until the city acquires right and title to this patch by some method of legal procedure.

During the past week efforts have been made by John J. Pilgrimage, superintendent of city streets and alleys, to procure from Mr. Ware an easement to the eight and a half foot patch, but without success. Other property owners want the avenue put through and have either already deeded easements to the city or offered such grants. The city attorney has been authorized to investigate lines of procedure believed to be best for adoption in this case.

Mr. Ware has asked \$200 for the blocking strip.

D. K. West, operator of a produce booth on the market site at the corner of Third avenue north and Boshone street, has been instructed to remove a combustible thing in a sheet iron building and proceed immediately with plans to make the structure fireproof in conformity with the provisions of the town ordinance. Mr. West has promised to comply with the order.

Suggested by Superintendent Pilgrimage arrangements have been made for overhauling, repairing and cleaning, as well as painting, the auto-street trolley during the early part of the coming year.

AUTO LICENSES BRING \$82,133

In Twin Falls County 4,899 Motor Cars Were Operated in the Year 1921

County officials in charge of the department receiving applications for automobile licenses during the year 1921 received the sum of \$82,133.50 on these applications during the ten months concluding with December 15.

This amount was taken in on licenses applied for on 4,899 pleasure cars and trucks. Of the latter vehicle there are about 400 in operation in Twin Falls county. License cost for pleasure cars ranges from \$15 to \$40 per year and on motor trucks from \$20 to \$40.

Assessor Handles Business
Auto license applications are all filed with and handled by the office of the assessor, S. Claud Stewart, in Twin Falls county. Attached to this department beginning today are receiving applications for license plates, which will be mailed daily to the secretary of state, Robert O. Jover. Attached to the department will also, as required by law, advise applicants as to the requirements of the license plates, the use of license plates on the permit in lieu of plate. The application and permit must be pasted on the windshield of the car to be operated. The law does not require that a license be taken out for a car which is to storage. If it is to remain in such storage, but the machine must in no case be taken upon a public road without being equipped with the latest issue of license authority.

Division Made
Of the total amount collected for licenses 25 per cent goes directly to the state, the county takes out \$12,000 to be applied on interest and sinking funds for road and bridge bonds. The residue goes to the highway districts in the county in proportion to the number of cars registered from each district and for each amount collected.

The most imposing collections, made in a single month during the past year came in March, when the total ran up to \$30,142.00. The month of November was lightest with \$10.00.

MUNICIPALITY TO SAVE MONEY THROUGH PRISON

Jail Construction Cost Less Than Year's Registration With County

While the cost of installing a prison in the rear portion of the municipality will be \$511, according to a builder's estimate, that amount, and more will be saved the city in payment made to the county for accommodation of minor malefactors in the course of a single year.

The estimate of cost was submitted by John J. Pilgrimage, city waterworks and streets and alleys superintendent, and covers each detail of construction of such a housing plant for city prisoners as will meet all requirements. On the other hand the city clerk, Paul H. Taber, submitted a statement of cost for registering city prisoners at the county jail per month for the past year. This average \$51, bringing the total for the annual period to \$612. The proposed city prison will be a single story room with steel banks. It will have a cement floor and will be equipped with heating and sanitation plant as well as heat.

Disruption of the municipal jail led to consideration of a bill for taxi hire by police officers, through which consideration the council was provided with some interesting information which may result in adoption of a scheme which will ultimately save the city further finances in the course of the coming year.

CONFERENCE ON GERMAN DEBT IS REPORTED PLAN

Unofficial Reports Say Lloyd George Suggests Five Power Conference

LONDON, (AP) — Prime Minister Lloyd George and Premier Briand of France resumed today their conference on the German reparations and kindred questions. They would some time for reports of experts which had been in preparation last night and this morning. It is expected the conference will be concluded before Friday, when Mr. Lloyd George plans to go to Wales for the holidays.

It was hinted unofficially that Mr. Lloyd George made a suggestion that a five-power conference to which representatives of Russia and Germany should be invited be summoned early in January. Meanwhile the allied financial experts would examine definite proposals which would have the backing of England and France for stabilizing exchange and for general improvement of the economic position of Europe.

WHEAT MARKET DECLINES

Realizing Sales Take Wind Out of Bullish Requirements Estimates

CHICAGO, (AP) — Lack of moisture in the southwest together with a forecast of zero temperatures as far south as northern Kansas had a tendency to strengthen the wheat market today during the early trading. Upturn in price, however, led to selling on the part of houses with northwestern connections. Taken as a whole, business was wanting volume and the market was easily influenced. Opening quotations, which varied from unchanged figures to 8-8c higher with May \$1.14 1/2 to 1.15 and July \$1.04 to 1.04 1/4, were followed by slight gains all around, and then something of a reaction.

Bullish estimates of world import requirements led to a new upturn, but realizing sales brought about declines at the last. Prices closed weak, 1-4 to 3-8c net lower, with May \$1.14 to 1.14 1/2, and July \$1.03 1/2 to 1.03 5/8c.

Corn and oats were easy in the absence of any special demand. After opening unchanged to 2-4c lower, May 53 1/4 to 53 3/8c, the corn market sagged a little all around.

No important rally took place. The close was 1-4 to 7/8c net lower, with May at 53c.

Oats started 1-6 off to 1-18 advance, May 38 3/8c and later showed a slight general setback.

Provisions reflected steadiness of the hog market.

New York Stock Market
NEW YORK, (AP) — Quotations price movements prevailed in today's dull and professional stock market. Speculative issues were firm to strong but investments, including rails, were inclined to recede. Sales approximated 975,000 shares.

Speculative issues featured the constructive side of the stock market at the opening of today's session, while investment shares continued their irregular or heavy trend. Burns Brothers and Stromberg-Corbet registered two point gains and Pacific Gas and Electric rose one point. Several of the prominent oils, coppers and chemicals made fractional advances, but rails, steels and equipments eased. Pennsylvania, New Haven and Pullman were especially heavy. Latest developments bearing upon the arms conference contributed to the further strength of foreign exchanges.

Utilities, especially Peoples Gas and Pacific Gas and Electric, also Texas and Pacific, Corn Products and Famous Players, were strong in the late deal-

KEEPING UP OUR SCHOOLS

Reference to the county tax levy for school purposes has been made by The News in connection with discussions of the tax problem, the statement being made that thirty-seven and four-tenths cents out of every county tax dollar goes to the maintenance of the county's educational institutions. It has been shown that there can be no reduction of this particular tax without amendment to existing state law.

But it is to be taken into consideration that the county school tax is only one, and, in most instances, the smallest, of the three sources of income of the county school system.

In addition to the county school tax, additional taxes may be levied by the school districts themselves, while the state also contributes from funds derived from the sale of certain lands, to school expenses.

The county school tax this year amounts to \$140,775. State law requires the county to raise the equivalent of \$15 for each person of school age, and there are 9,385 persons in this category as compared with 8,405 last year, school enumerations show. To raise this amount a county tax levy of 4.3 mills is required. This is equivalent to an assessment of 43 cents on every \$100 property value.

tion, and takes thirty-seven and four-tenths cents out of every county tax dollar.

Distribution of this amount is made among the several school districts in accordance with their school populations. Except in a very few cases, funds so derived, together with state funds, similarly distributed, are inadequate to meet the expenses of operating schools in any of the districts.

Accordingly each district is vested with authority to levy additional taxes to meet its requirements.

In some few cases, districts have not found it necessary to make their own tax levies, while in the Twin Falls and Buhl districts the legal limit on such levies has been exceeded this year under special dispensation by the state legislature so that the Twin Falls school district levy this year is \$3.75, while that of the Buhl school district is \$2.10 on each \$100 of property valuation as compared with the county's levy of 43 cents on the same basis.

Reasons for this extraordinary school tax levies have been set forth in detail in connection with elections at which they were authorized by vote of the people. These districts had an emergency to meet, and the extra levies offered the only way out. It just so happens that this extra burden must be assumed at a time when retrenchment and rigid economy are imperative in private affairs.

As an interesting matter of comparison, the official records show that the Twin Falls school district this year will raise by its own tax levies not less than \$280,000. This amount exceeds by about \$12,000 the whole amount to be raised by all county tax levies. In addition the district will receive a proportionate part of the state and county school funds.

Reference to individual tax notices also reveals an interesting sidelight on the situation with respect to school taxes. One such notice, for instance calls for payment of a total of \$107.65. Of this amount \$67.50 is accounted for by the Twin Falls school district levy.

There is however, a very distinct rift in the cloud. Of the total amount to be raised by the Twin Falls school district, approximately \$200,000 is for the retirement of extraordinary obligations to meet which the extra levy of 20 mills was authorized. These obligations will be wiped off the state when this year's taxes are paid, and it is to be confidently expected that next year's taxes insofar as the Twin Falls school district are concerned will be reduced by at least \$200,000.

And the situation in the Twin Falls school district is almost precisely duplicated by the situation in the Buhl district and applies with greater or less pertinence to the other school districts of the county.

LIVESTOCK MEN DEMUR AGAINST LICENSING LAW

Committee Urges Suspension of Fee for Auctioneers at the Purchred Sales

Auctioneers especially trained in the sale of purched livestock from the auction block are not exempt from the operation of the new municipal ordinance, as it relates to public sales. They must pay the license required by the city just as is demanded in the case of an auctioneer who sells a furniture, implement, or other similar sale. This is the decision of the city council at a meeting held last night, and in reply to a committee, composed of R. E. Brossard, head of the local farm bureau, and C. A. McMasters, who appeared before the board of municipal council members of the ordinance, announced that the fee was not a duty fee as the committee appeared to understand, but accorded the livestock men the same privileges as are permitted in the case of any resident auctioneer, and would be permitted to operate an auction every day in a period of three months. Members of the council gave considerable attention to the request of the

committee after the regular business of the meeting had been disposed of, and after Messrs. Brossard and McMasters had left the deliberation chamber. The board members were unanimous in the decision they finally reached.

Saddest Christmas in Store at Ellis Island

NEW YORK, (AP) — In contrast to the joy with which nearly everybody else in the metropolis is looking forward to Christmas, more than 1000 men, women and children here are preparing for a day made only more bitter by the realization that they are unhappy in the midst of rejoicing. These are the majority of Uncle Sam's temporary guests at the Ellis Island immigration station, who are awaiting deportation because quotas permitted their countries are exhausted. It will, immigration officials say, be the saddest Christmas the island has ever seen. There will be no Christmas holidays for the immigration men but on Sunday afternoon we hope to have a little celebration to brighten things, if we can get the men who are to be turned back, said Robert E. Tod, commissioner of immigration.

MUNICIPAL LEGISLATURE WILL OBSERVE HOLIDAYS

No Further Sessions of City Administration will be Held Until January 3

The municipal administration will adhere strictly to the order recently emanating from the chief executive officer at the Boise state capital prohibiting two state holidays, one on the Monday following Christmas, and another on the Monday after New Year's day.

Those two days will be observed as holidays in conformity with the terms of the proclamation, at least as far as holding executive council by the Twin Falls legislative body is concerned.

Mayor P. W. McElharts reached this conclusion after a short deliberation on the subject of the extra holidays, and, at the same time, decided that the next meeting of the council will be on the night of Tuesday, January 3. Discussion of this question was conducted briefly last evening on a recommendation of Howell B. Wight, secretary of the Twin Falls Chamber of Commerce, who explained that business houses had arranged their affairs so as to carry out the wishes of the state department.

Dumb Beasts to Have Own Christmas Tree

PHILADELPHIA, Pa., (AP)—Dumb beasts in Philadelphia are to have a Christmas tree. Arrangements are being made by the Pennsylvania Women's Society for the Prevention of Cruelty to Animals. Horses, dogs and cats are to be guests of the society. For the horses there will be apples, carrot and blankets, for the dogs, steaks; for the cats, catnip balls. Each horse will also receive three meals one at the "party" and two to be taken home.

CALUMET BAKING POWDER SAVES THREE WAYS

—A moderate priced Baking Powder of greatest merit. Honestly made. Honestly sold. Economical in every way. Every particle is full of actual leavening value. A full money's worth.

—You save time when you use it. Calumet is all baking powder. It begins to raise bakings the instant they are put into the oven. You don't have to keep "peeping" to see if bakings are all right. You know they are. Calumet is sure — never fails. That's economy. And true economy — in cost — in use — in time.

One trial will prove it and show you in results why millions of shrewd, thrifty housewives prefer Calumet to all other brands.

—The unflinching strength of Calumet guarantees perfect results. Not only saves flour—sugar—eggs, etc.—but saves Baking Powder. You use only a teaspoonful—you use two teaspoonfuls or more of many other brands.

HAVE YOU NOTICED THIS?
A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

HARD PUNCHERS FIGHT WINNERS IN PAST SEASON

Championships Were Won by Packing the Stiffest Jolt; Many Titles Involved

NEW YORK, (AP)—In pugilism where titles are knocked down to fighters with the hardest or the truest punches, business was brisk in 1921. There were many bidders for the title of the heavyweight champion, and a million punches, more or less, were offered by a group of trainers well known in the sporting public. "Fritz Jones," Lynch of New York's great age, by virtue of a high bid last December, came into the year with the title. He then engaged the old hand, Pete Herman, of New Orleans, and lost when Peter's brand was recognized by the audience—some people call them judges—as the better of the two. Peter, however, went to sleep one night in the market at Madison Square Garden and Johnny Buff, a funny little Jerseyite, outbid him. Buff still retains the title.

Arbitration Proposal Is Accepted by Chile

Calls for Determination of the Questions at Issue in Tacna and Arica Dispute

SANTIAGO, Chile, (AP)—The Chilean answer to Peru's note rejecting Chile's proposal for a plebiscite in Tacna and Arica involves the continuation of direct negotiations in an attempt to find some solution of the difficulty under the terms of the treaty of 1904, which it says cannot be ignored by the countries signing it. "Chile considers adequate any means to find a solution of the difficulties with Peru," says the note. The only unfulfilled clauses in the treaty of Arica are not due to any action of Chile, according to the note. Chile, three, providing for the plebiscite in Tacna and Arica involves the fulfillment for many years, and clause 12, providing compensation for damages suffered during the war by Chile, has not been met by Peru. The note continues: "The only divergence dividing us is the difference as regards the manner of carrying out clause three. This matter is useful, before resorting to arbitration, which Chile does not refuse to determine the points which should be submitted to reach a perfect agreement."

Taking Desperate Chances

It is true that many contract surgeons and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their cells the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack, and paves the way for the more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of lung colds, may be had for a trifling sum.
