## Blast Destroys Small Structure Near New State Highway Building and National Guard Headquarters at Phoenix

### OFFICIALS INVESTIGATE ACTIVITIES OF RADICALS

Direct Inquiry Into Reports of Shipments of Specific Quantities of High Explosives and Alarm Clocks

PHOENIX, Ariz., (AP)—In connection with an explosion in a small frame structure near the new state highway building here today, local authorities are investigating a report that Industrial Workers of the World have shipped two and one-half cases of high explosives and 27 alarm clocks, equipped to set off the explosive, into this district from California.

The explosion itself did only about \$1000 worth of damage but authorities are investigating on the theory that it was intended to destroy the highway department building, in which are the headquarters of the Arizona National Guard.

The explosion occurred just before state employees were due to report for duty this morning. All the buildings in the highway department building and many in houses for several hundred yards were broken by the force of the explosion.

Explosives to Building. Officials claim that no explosive of sufficient force to do damage that was done was stored in the building in which the explosion occurred.

There was no other powerful explosive in the building on the highway department's property, unless it was stored in some place connected with the department. Thomas M. Jackson, state engineer, said:

"Adjutant General Walter B. Tignall of the National Guard headquarters there was no explosive stored in the building where the explosion occurred."

### RENEW SEARCH FOR TWO WOMEN IN STORE BLAST

Police and Firemen at Work in Wreckage of Ohio Establishment

COLUMBUS, O., (AP)—Police and firemen are continuing their search of the ruins of the Wright Woman an Ohio Parading store, partially wrecked late yesterday by an explosion of a bomb in the store.

Six of the injured, five women and a man were reported in serious condition.

The explosion was said to have been caused by a bomb from a leaky main seeping into the basement of the store, which eventually came in contact with fire in a furnace.

## Daring Fireman Leaps from Train To Rescue Youth

### Dives into Creek from Moving Locomotive in Effort to Save School Boy

NEW YORK, (AP)—Jerry Driscoll, a daring fireman of the Erie Railroad, was congratulated as a hero today. While his train traveled at 25 miles an hour he jumped from the engine into a creek and pulled a young boy from the tracks. Driscoll was thrown into the water by the engine and took 15 feet of water.

The train had gone ahead almost a mile before the engineer missed Driscoll, and when he stopped and backed up, he saw the fireman sitting at the edge of the creek holding the boy, who was unconscious from a fracture of the skull. Persons who saw the rescue said Driscoll dived four times before he found the boy.

## REBUILDING OF MIDDLE EUROPE COULD BE

### AMERICAN AMBASSADOR TO LONDON TO ATTEND

Conference of French and British Premiers Leads to Expansion of Rehabilitation Plans to Include Russia

LONDON, (AP)—The allied supreme council at its evening meeting in Cannes will be asked to invite the interested powers to appoint a commission to elaborate a comprehensive scheme for the rebuilding of Europe and Russia. This conclusion was reached at the conference of the French and British premiers just ended here.

The allied supreme council at its evening meeting in Cannes will be asked to invite the interested powers to appoint a commission to elaborate a comprehensive scheme for the rebuilding of Europe and Russia. This conclusion was reached at the conference of the French and British premiers just ended here.

United States Invited. The United States would be invited to have a membership in the commission. It was stated that the commission would be composed of representatives of the United States, France, Great Britain, Italy, Japan, and Russia.

When Premier Briand returned to his hotel this morning from the conference with the British premier, Lloyd George in Downing street, he told the correspondent agreement had been reached on many points.

"One could almost say practically all essential points," added the premier, "but no decisions have been taken on them. These can only be taken by the supreme council at its next meeting."

The discussions held by the premiers, it was stated, were much wider in scope than the meeting of the German reparations committee.

A "Day of Reparation" Issue. First, the reparations plan suggested for fixing the reparations payments on a basis mutually agreeable to France and Germany. This plan was discussed in detail by the premiers.

The question of the restoration of Austria and the possibility of bringing Austria within the council of the nation was also discussed.

Then it was decided that the best course to pursue would be to suggest to the supreme council that it accept the reparations plan suggested by the premiers.

American Will Attend. American Ambassador Harvey will attend the Cannes meeting. It was stated that the American ambassador will be accompanied by a number of American officials.

Paris, (AP)—An invitation to attend the meeting of the supreme council next month has been extended to George Harvey, the American ambassador in Paris.

## POWERS BID BARGAIN ON CAPITAL SHIPS LIMITATION

### Auxiliary Craft and Submarines Wait While Delegates Work Out Details of Original Question

WASHINGTON, D. C., (AP)—Statements by the French and British delegations accepting formally the American proposal for limitation of capital ships armament were made today at the meeting of the delegates of the five major powers of the Washington conference.

Contrary to general expectations, the question of auxiliary craft, submarines and aircraft was not reached at the morning session of the committee but went over until another meeting at 3 o'clock.

French Awaits Instructions. The French delegation, which had planned to state its case in opposition to submarines as a naval arm, also withheld its statement at the morning session, which was said to have been confined largely to preliminary general discussion and the clearing up of the capital ship ratio question.

The regulations for the limitation of armament were accepted, it was said, from first line ships to auxiliary craft today when the full naval committee assembled with its experts to begin consideration of the proposal for an increase in submarine tonnage.

Confidence Prevailing. As the committee assembled there seemed to be a general feeling that the auxiliary warship problem would not be sufficiently difficult to jeopardize success of the conference. The clearing of vessels was finished at 11 o'clock.

## EVEN DIVISION DEVELOPING IN DAIL'S DEBATE

### Loss of Strength in Sentiment for Acceptance of Treaty is Seen as Result of Day's Proceedings

DUBLIN, (AP)—The Daily Freeman late today rejected by a vote of 77 to 44 a motion to continue the debate on the Anglo-Irish treaty. The vote was taken on the motion emanated from the opponents of the treaty and the vote was regarded as strongly indicating the relative strength for and against the treaty.

The Daily Freeman this evening adjourned its session until January 3.

The writing on the amendment did not follow strict party lines. Nevertheless, those voting for adjournment were supposed to represent moderate opinion, and those voting against to give the country an opportunity for further consideration.

DUBLIN, (AP)—Richard McBride, chief of staff of the Irish republicans, created a stir when he began his speech on the Anglo-Irish treaty in the Irish parliament today by saying that no body wanted the treaty, but saw no alternative to its acceptance.

Optimism Lessens. The optimism which the supporters of the treaty have been displaying during the last few days, appeared somewhat diminished, however, before the morning session had ended. When the Daily adjourned for lunch, the impression seemed general that sentiment for the treaty had been somewhat lessened.

A decision as to ratification of the treaty will be made by the Irish parliament on Christmas day, which is expected by tonight as the Daily Freeman gathered for today's session.

All observers agree that when the vote for the treaty was taken the majority vote will be small.

Dublin Free Willing. The supporters of the treaty appear to be in a state of free will. The opposition, but in Dublin, which is strongly in favor of acceptance of the treaty, continued this morning to take a gloomy view of the situation.

## DEFENSE WORKS ON THREE LINES

### Joins Insanity Plea and Attempt at Alibi with Attack on the State's Case

LOS ANGELES, Cal., (AP)—The defense of Arthur C. Burch, on trial here charged with the murder of J. Belmont Kennedy, had progressed far enough today to show that it was composed of three phases: An attempt to break down the state's case by contradictory or impeaching evidence, an insanity plea, and an attempt to establish an alibi for the defendant.

Alibi Feature Disclosed. The alibi feature was now today. Counsel for the defendant said they had written in advance who would testify they had seen Burch in Eagle Rock, a suburb of Los Angeles, at the hour the prosecution had fixed as that when Kennedy was shot down in Beverly Glen. Beverly Glen and Eagle Rock are only a few miles apart in the hills and a drive of at least 15 miles would be necessary to get from one place to the other.

Attacks Doctor's Credibility. The first evidence introduced today was directed against the credibility of Dr. J. E. Finley, who had testified for the state that he had removed a thorn from Burch's knee, in the county jail, just after Burch was returned from Las Vegas, where he had been confined. A day or two after the shooting, attempts were made to show that similar thorns were numerous on the hands of Burch, who had testified that Kennedy was shot down in Beverly Glen. Kennedy was believed to have been shot. Dr. Finley was serving a jail sentence at the time of his trial and was asked whether he had ever been convicted of a felony and said he had not.

Today's events were brought in which showed that he had placed his hands in the county jail. Dr. Finley, however, that they did not believe that Dr. Finley understood a pile of pulley was equivalent to a condition of the law.

Boas' Doctor's Deposition. After this proof was presented the reading of the deposition of Dr. J. E. Finley, who had testified for the state that he had removed a thorn from Burch's knee, in the county jail, just after Burch was returned from Las Vegas, where he had been confined. ## SALMON RIVER TRACT TO RECEIVE FEDERAL LOANS

### Efforts of Congressman Smith in Interests of Project Set- tlers Bordered

WASHINGTON, D. C., (AP)—(Special to The News)—After repeated visits to the federal farm loan board and correspondence with the Federal and State banks of Spokane, Wash., Representative Addison T. Smith is assured that steps will be immediately taken to make loans to the settlers and there is hope that the settlement of the Salmon River tract as soon as the report of the engineer appraiser, who has been directed to make investigations, is received. Inasmuch as the patent has been issued to the settlers and there is no question about the stability of the project and the sufficiency of the water supply, Congressman Smith continues to urge that the settlement of the Salmon River tract as soon as the report of the engineer appraiser, who has been directed to make investigations, is received.

# TURKS FEARFUL OF AGGRESSION BY BOLSHEVIKI

## Friction Between Soviet Russia and Nationalists Results from Agreements With Britain and France

CONSTANTINOPLE, (AP) — Friction in the relations between Soviet Russia and the Turkish nationalist government have resulted from the Turkish-French agreement and the agreement between the British and French.

Some anxiety is said to have been caused at Ankara by reports that the bolsheviks have reinforced the eleven army at Kara with two divisions. The Russians also are said to have ceased granting credits and supplying munitions to the nationalists.

It is understood that Major Henry's British delegation at Irbil obtained very important concessions from the nationalists, including the following: Recognition of the international control of the Mandates by the nationalists, giving Great Britain priority over the other allies; abandonment of anti-British propaganda in the Islamic countries; full recognition of the British mandate in Mesopotamia and granting of economic privileges in Asiatic Turkey north of Mosul.

"I am happy to state, at this glad Yuletide season," he said, "that most gratifying results are being secured in constructive enforcement of the eighteenth amendment.

"All those who constitute the splendid prohibition organization in Washington, the 48 states of the Union, Alaska, Porto Rico and Hawaii, I extend the sincerest and most cordial greetings. The certain success of our task behooves a Christmas gift that will be of everlasting value."

### DISALLOWS FORD'S PLAN TO CUT FREIGHT RATES

Commerce Commission Bars Scheme as Being Discriminatory Against Other Mining Territory

WASHINGTON, (AP) — Henry Ford's attempt to reduce freight rates on coal 20 per cent along the line of his railroad, the Detroit, Toledo and Ironstone, was disallowed today by the interstate commerce commission.

The commission based its action on the ground that the reduction would constitute a discrimination against other mining territory, the coal product of which is sold in Toledo, Detroit and other cities along the Ford rail road.

The proposed rate cut disallowed under today's ruling is the first suggested to which the commission has not agreed.

# WRECK CLOSES BOAT'S CAREER

Sailing Vessel with Adventurous and Checkered Record, Goes to Pieces

HONOLULU, T. H., (AP) — The wreck of the four-masted American schooner Carrier Dove on a coral reef off the west coast of Molokai, the "super ship" of the Hawaiian group, brought to an end an adventurous and checkered sea career that belied the vessel's pacific name, and breathed of the days of real sailing when steam was unknown.

As called, the Carrier Dove went ashore while en route from the South Sea island of Tonga to San Francisco with a capacity of cargo of 300 tons of copra. She broke up after several hours of pounding and, with her cargo, was a total loss but the crew was saved. It was the third and last time the vessel had been on the rocks. The two previous times she had been pulled off with only slight damage. On each of the occasions, however, the Carrier Dove ran into extraordinary adventures.

Defied British Embargo. When she rooted on the rocks at Levaia, Fiji, in February, 1920, she was extricated and her damages repaired, but Captain Gus Stoltenberg, the master, was refused permission by the British authorities to sail from the port, he said. The British authorities threatened to send a gunboat after him the captain said, but he ran up the American flag, sailed, "and nothing came of it."

In September, 1903, the Carrier Dove had come to rest on the rocks, this time in the China sea near Shanghai. Private Jankman was aboard, and he and the crew were forced from the vessel. This led to a report to the state department that the ship had been lost. The pirates were forced to leave the Carrier Dove by heavy weather. Captain C. Jensen, then master, returned with some of the crew and found the vessel looted of most of her portable fittings. A great part of her lumber cargo was removed and she was floated, being repaired and placed in commission later.

"Madhouse" Voyage. On February 11, 1903, the Carrier Dove had arrived in Honolulu harbor on "a madhouse" voyage from Biera, South Africa, with only Captain Jensen, the mate and two of the crew able to work. The vessel's log told the story of tragedy. The remainder of the crew having either died or been left in hospital en route.

PASADENA PREPARING FOR TOURNAMENT OF BOBBS. PASADENA, Calif., (AP) — People of Pasadena are preparing for their thirty-fourth annual tournament of bobbsleds which will be held New Year's day, January 2, 1922.

Approximately 200,000 people, it is believed, will witness the pageant, one of the big features of the tournament. Nearly 100 floats, each bearing an individual theme worked out in natural blossom, will be in the pageant. Each year the pageant leads to Tournament Rock, where the annual football game between representative eastern and western teams is held. This year the University of California will play Washington and Jefferson university.

# Women Share in Heavy Work With Men Folks in Russia

Because of the shortage of male help, women are employed by the authorities of Petrograd to do manual labor. In the top photograph women are shown cleaning the streets of Petrograd, following a heavy snowfall, with a mere man (on the left) holding the job. In the circle are women porters, with sleds, waiting for the arrival of the daily train from Moscow. They haul the baggage to any part of the city. There is a shortage of horse-drawn vehicles in the once-thriving capital of Russia.

Care of the Rifle. The sergeant of armistice was instructing his men on the care of small arms, says an item in Our Navy. "The rifle is the marine's best friend," he said. "He must never neglect it. He must treat it as he treats his wife and wipe it over with an oily rag twice a day."

## PRESIDENT PREPARES TO LAUNCH ECONOMY POLICY

Calls General Meeting of Business Organization of Government

WASHINGTON, (AP) — President Harding has directed that a general meeting of the business organization of the government to discuss administrative economy be called during the latter part of January, it was announced by Director of the Budget Dawes.

President Harding will preside at the meeting. Director Dawes said it was the president's purpose to call these meetings semi-annually. They will be similar to the one held last June, which was attended by all administrative government officials from the president down to bureau chiefs. The president's immediate purpose in calling the January meeting, Mr. Dawes said, is to give personal instructions in connection with the administration economy policy. The president also, Mr. Dawes stated, will outline the "official" "to do" list "followed" in connection with compliance with the provisions of the act of February 27, 1906, which provides a penalty for the creation of a deficiency by a government official. This act, which has never been enforced, provides that a government official responsible for the expenditure of any sum in excess of appropriations made by congress for the fiscal year may be punished by a fine of not less than \$100 or by imprisonment for not less than one month.

## CONSIDERS TAX ON BEER TO RAISE BONUS FUNDS

Ways and Means Committee Chairman Announces Hearing for Proposal

WASHINGTON, D. C., (AP) — Feasibility of raising funds for a soldier bonus by a tax on beer and light wine will be considered by the house ways and means committee, Chairman Ford says announced yesterday. After the Christmas recess when the committee takes up the adjusted compensation question, particularly the phase relating to the raising of revenue to finance it.

The possibility of a tax on beverages with small alcoholic content, to be looked into, Mr. Fordney said, to determine whether it would be advisable, and constitutional, to lift the prohibition ban sufficiently to permit their sale.

## CLAMPS LID ON CHICAGO

Police Chief Says New Year's Eve Won't Know Itself in Metropolis

CHICAGO, (AP) — Chief of Police Pitamperis declared today that Chicago "is going to be in for New Year's Eve that it won't know itself."

The chief of the rich and the dives of the underworld will receive equal attention from raiding squads on information that liquor is being drunk or sold, the chief declared. Special raiding squads, equipped with fast automobiles will scour the city. He told an advice of the chief, posted notices warning patrons not to bring liquor on the premises else they would be liable to arrest under the stringent features of the Illinois prohibition enforcement act.

## HOLIDAY OUTLOOK DREAR IN KANSAS COAL FIELDS

Christmas Finds Many Miners Dependent Upon Charity as Result of the Strike

PITTSBURG, Kan., (AP) — Santa Claus may be frightened away from the Kansas coal fields this year with several thousand miners out of work and state troops camped near many mines while numbers of miners and their wives are under charges of disturbing the peace.

Out of 12,000 miners in district 11, about 1000 are said to be at work in Missouri and in Kansas 2000 are reported at work. Although large numbers of miners have left the district many of their families and those who remained, several thousand of them are chiefly dependent upon food and other aid from the Illinois miners. These conditions have resulted from the strike called by Alexander Howat, deposed district president serving a jail sentence for violation of the industrial code law.

# FRANCE GIVES SYRIA REFORMS

Moslem Element Antagonistic But Concedes Betterment Over Turkish Rule

BEIRUT, Syria, (AP)—The streets of this ancient city which for hundreds of years have borne old Arab names have been given French designations as one of the results of the French mandate. Although the Moslem press, which represents a majority of the people, manifests the spirit of public antagonism to the introduction by the authorities of French customs and the French language, it concedes that French occupation had been a boon to Syria.

The financial conditions of the province are more stable now. New laws and regulations have been made for the bar, placing the legal profession on a higher basis. A new police force has been organized, assuring the population of better security than existed during the Turkish regime. New and modern public schools are raising the standard of education. In brief, reforms have taken place in all branches of the government for the betterment of Syria.

A noteworthy event occurred a few days ago when Marshal Gouraud, the French high commissioner, proclaimed the new constitution. According to the new regulations Syria is divided into four autonomous states, each endowed with deliberative councils elected by suffrage. These states are Damascus, Aleppo, the Amonites and the Great Lebanon. As regards the first three, they are to unite in a federation with a federal congress appointed by the states' governments. The Great Lebanon at present will remain outside of this union, managing its own affairs independently. However, it is likely to join with the others when conditions seem favorable.

Accord Local Autonomy. While the two rifles of Beirut and Tripoli are included in the state of Great Lebanon, still they are to have local autonomy. The law allows each a general governor with executive power. He will have an advisory council nominated by the government until elections are possible. The two general governors will be nominated by the high commissioner after consultation with the executive of the state of Lebanon.

"In the east the races are so intermingled that no western power could govern there without disintegrating a good portion of the population," says a New East missionary. He adds: "The question arises, can France afford to turn against her Moslem medina population of Syria?"

## Who Said Disarmament? Surely Not These Fighters

This photo shows that soldiers of some nations are not very familiar with the arms conference going on in Washington. Potential disarmament means nothing in their lives. The fighters pictured are Greek infantrymen in action against Turkish nationalists in Asia Minor, one of the few wars now going on.

### Today's Markets

#### PROFITS TAKING SALES DEPRESS WHEAT MARKET

CHICAGO, (AP)—Wheat prices scored a slight new advance today in the early trading. European buying of future deliveries at Winnipeg tended to stimulate bullish sentiment here, and so did reports of harvest delay in Argentina. Besides, prospective Russian roller demand for corn continued to attract attention. Opening prices, which varied from 1-2 off to 1-2c advance, with May \$115 7-8 to 1-12 1-2 and July \$103 3-4 to 1-12 1-4, were followed by an uptick all around to above yesterday's finish.

Subsequently the market reacted as a result of profit taking and a selling of May here against purchases at Winnipeg. The close was weak 3-8 to 1 3/8 net lower, with May \$115 3-4 to 1 1/8 7-8 and July \$104 1-8 to 1 1/4 1-4. Corn was decidedly stronger on account of Russian relief plans. After opening unchanged to 1-2c higher, May

54 5-8 to 54 7-8c, the market made a substantial general advance. Prices underwent a setback later with wheat. The close was unsettled at the same as yesterday's finish to 5-8 to 1-4c higher, with May 54 1-2 to 54 5-8c. (List hardened with other cereals, starting a shade off to 1-8c higher, May 38 5-8 to 38 3-4c, and later showed a little gain for all deliveries. Higher quotations on hogs gave firmness to provisions. Cash Quotations CHICAGO, (AP)—Wheat—No sales reported. Corn No. 2 mixed 40 1-2 to 50c; No. 2 yellow 40 3-4 to 50c. Oats No. 2 white 37 to 37 1-2c; No. 3 white 34 to 35 1-2c. Rye nominal. Barley nominal. Clover seed \$12.50 to 18.50. Flour MINNEAPOLIS, Minn., (AP)—Flour—15 to 25c higher. New York Stock Market NEW YORK, (AP)—The short interest in the stock market was dominant again today. Leaders of almost every division and numerous specialties for felled one to four points. Sales approximated 550,000 shares. Shorts resumed their aggressive tactics at the opening of today's stock market, soon causing irregular losses in the general list. Further selling for the long account added to the early reversal. Oil, shiping and metals bore the brunt of the movement. General Asphalt, United Fruit, Utah Copper and National Amunition showed declines ranging from large fractions to 1 1/2 points. Baldwin Locomotive, Pullman, American Woolen, International Paper, American Sugar and Famous Players also were heavy. Selling broadened in the final hour, shorts ignoring the further decline of money to five per cent. Stocks, copper and chemicals were most vulnerable and foreign war issues were lower.

Potatoes CHICAGO, (AP)—Potatoes—Dull; receipts 7 cars; total U. S. shipments 298; only sale reported was one car of Idaho Bonita at \$2.10 cwt.

Liberty Bonds NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$103.40; first 4's \$99 bid; second 4's \$95.45; first 4 1/4's \$95.50; second 4 1/4's \$95.20; third 4 1/4's \$96.00; fourth 4 1/4's \$95.80; Victory 3 3/4's \$109.04; Victory 4 3/4's \$109.02.

# RUSSIAN RELIEF ACT IS ADOPTED

### Bill Appropriating \$20,000,000 for Famine Sufferers Goes to White House

WASHINGTON, (AP)—Purchase of American grain for the relief of the famine stricken peoples of Russia for which the government report of \$20,000,000 is made in a bill on which congressional action was completed today, will be started tomorrow.

Secretary Hoover as chairman of the American Relief Association, said that grain would be moving to Russia under the government appropriation within eight or ten days.

WASHINGTON, (AP)—Final legislative action on the bill appropriating \$20,000,000 for the relief of Russia's starving and distressed through purchase of grain was taken today by senate approval of the government report. It now goes to the president, whose signature congressional leaders hoped would start additional relief as America's Christmas gift to Russia's famine regions.

The report was adopted in the absence of Senator Watson, democrat, Georgia, who yesterday served notice that he would block action on it at least until after Christmas. Only about twenty senators were in the chamber and no dissenting voice was heard when the presiding officer called for the vote.

Robert Hahn has been elected president of Switzerland by the federal assembly for the year 1922. He will take office on January 1st. Hahn, who is a member of the federal council and also minister of posts and railways, succeeds Edmund Schulhaus as chief executive.

## EVEN DIVISION

(Continued from Page One)

terday, declared the Irish republic was far from dead. He said there would be a continuation of the war in Ireland whether the treaty was ratified or rejected.

**FIGURES ON DAILY LINE-UP**  
**OF TREATY DELEG LONDON**  
LONDON, (AP)—When the Daily Evening adjourned in Dublin late yesterday, twenty-nine members had given their views on the Irish peace treaty since debate was opened last Monday on the motion for ratification. Of these fifteen favored the treaty, thirteen were against it, while Dr. Patrick McCartan, known as "first ambassador of the Irish republic" to the United States, declared his neutrality.

How many of the remaining ninety-one members, intend to exercise their right to be heard is not known.

Some London newspaper correspondents declared today that an unofficial canvass of the Daily members last night showed virtually an equal division. The figures were given by one of 58 for ratification, 48 against and four uncertain. Probability that the question would be submitted to a popular referendum was therefore regarded in some quarters as increasing.

It was suggested that the violent attack on the treaty by Mary MacSwiney which drove many members out of the chamber had injured rather than helped the cause also advocated.

# BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

## WHAT SCOUTS FIND TO DO.

In Stoughton, Wis., boy scouts removed a large number of rocks and other obstructions from the Lake Kegonsa camp ground so as to permit better boating and bathing, to the better satisfaction of the cottagers and campers concerned.

A Brooklyn (N. Y.) troop gave up a much anticipated overnight bike and spent their holiday installing painting and repairing a fence which surrounded church property.

Honolulu scouts have been supporting a French orphan in Paris for four years.

Stanford (Cal.) scouts, among other activities found time to build a tennis court, plant trees and make other improvements in their local park, helped the American Legion conduct a city clean-up, made a point of picking up the glass or nails they saw in the streets on their way to school and took clothing collected 125 pounds of old clothing for the Near East relief and expatriated a formidable foe.

Columbus (G.) scouts have performed 3,000 hours of civic service that everybody knows about, not to mention the probable 500,000 small, individual "good turns" which have been done in the public eye, but which stand for good scouting on the less.

## LEAVES FOR HONOLULU.

James R. Wilder, chief sea scout of the Boy Scouts of America, inventor of the famous Pine Tree patrol and good scout generally, left recently for the Pacific coast where he will visit all the sea scout bases and join Doctor Fisher, deputy chief scout executive, and L. L. McDonald, director of the camping department, in their conference with various regional leaders. Later, Chief Wilder will visit Honolulu, where he will be a scout committee chairman, and which is a desirable center of sea scouting. He will be gone about six months.

## PRINCE SENDS MESSAGE.

The Prince of Wales, who is also the chief scout of Wales and an enthusiastic supporter of the movement, sent the following message to Patrol Leaders Marr and Mooney, who were chosen for the antarctic expedition:

"The Royal Highness was very interested to hear that Sir Ernest Shackleton has selected two scouts to go with him in the Quest. Please convey to Patrol Leader Marr and Patrol Leader Mooney the Royal Highness' congratulations and tell them how lucky he thinks they are to have been chosen for such a trip."

## SENATORS GET FAVORABLE

REPORT TO KENYON BILL

WASHINGTON, (AP)—The initial legislative step toward a program of long range planning of public works as a means of offsetting cyclical periods of business and industrial depression was taken today when the senate labor committee favorably reported the Kenyon bill designed to carry out some of the recommendations of the recent national unemployment conference.

## TO DEFEND TITLE.

BERMINGHAM, Ala., (AP)—Stanislaus Zbyzko, wrestling champion, will defend his title tonight against Bob Gobar. The Hindi challenger has youth in his favor; Zbyzko has experience. The champion weighs 228 pounds and Gobar tips the scales at 224.

# Girls Ride Brakebeam Out But Pullman Back

OROVILLE, Cal., (AP)—Lucile and Leah Doughton, Hall Lake girls, 18 and 19 years, respectively, are on their way to that city from Oroville today in a nice, soft Pullman, after having ridden from the home town on the brakebeam of a Western Pacific railroad company freight train. "It was simply great," they said.

The girls said that the "hobo" trip was due to an adventurous spirit. Superior Judge H. D. Gregory decided to send them home in style and the girls expressed themselves as perfectly willing to go.

## DEATH SUMMONS

(Continued from Page One)

Of his career Mr. Watterson recently said:

"I came out of the war like many of the young fellows of the south, a very picked bird, indeed. In order to escape the humiliation of borrowing from a northern uncle, whose money I did not appreciate, I went with my watch to an 'uncle' who had no politics at all and got \$30 in it. Along with two banknotes, who were as poor as myself, I started on rather revised, publication of an old suspended newspaper at Nashville. Nothing could withstand the energy and ardor which I brought into the enterprise. We were working for bread and had to have it. When we began there were nine daily papers struggling for a foothold in the Tennessee capital. At the end of the year there were but two, and of these ours had two-thirds of the business. After two years it was called to Louisville to take an editorial position on the old Louisville Journal, the paper of George D. Prentiss. Six months later Walter N. Halldeman, who owned the Courier-Journal, was assembling the Journal and Courier. Incidentally this led to the purchase of the old Louisville Democrat, this publication, losing its identity" entirely. That is what it is.

**First-Big Combination.**

The consolidation of the three papers was the first of the great newspaper combinations. It resulted in the first appearance of the Courier-Journal, No. 100, 2, 1868.

In his early years he superintended the death of every department in the paper more than 30 years "put the paper to press" every night.

In 1918, Mr. Watterson sold his interest in the Courier-Journal to Justice Robert W. Bingham, of Louisville, who also purchased stock of other owners, and Watterson retired from editorial responsibility and place, accepting several months the title of editor emeritus. In the spring of 1919, he resigned that position and since then he has been living a wholly retired life, interrupted only occasionally by a letter to a newspaper on a public topic or an interview granted to some young reporter.

He was born in Washington, D. C., February 10, 1840.

form, Senator Barnh has a draft declaring that "no provision of the high contracting parties when acting under duress shall commit any nation, either legally or morally, to the use of force in meeting any exigency."

Another reservation to be offered would relieve the treaty, inapplicable to the household of Japan, touching the subject on which President Harding and the American delegates have differed.

Senator McNary, republican, Oregon, a "mild reservationist" in the Versailles treaty fight, and others, including some Pacific coast senators, have indicated that they leaned to the construction expressed by the president, which would make the agreement inapplicable to the principal Japanese islands.

**Anticipator President's Action.**

The president is expected to submit with the treaty the reservation mentioned to the document when it was signed declaring questions of internal domestic concern such as immigration shall not be held to come within the purview of the treaty.

Senators Lodge and Underwood, members of the American delegation at present are disposed to oppose other reservations. They hold the view that the proposed Barnh reservation is unnecessary, contending that the treaty contains no obligations, moral or legal for the use of force.

**DOMESTIC DRAWBACKS**

Those who are wondering why prosperity does not return are peering over their spectacles. They fix their eyes on the far-off horizon and keep mumbling about the loss of our foreign commerce. Foreign commerce is good. America has made a lot of money out of it. But this country has prospered on less foreign commerce than we have now.

The inside works of the commercial machine need adjusting. Our domestic commerce should cease its mere worry. The country never has been prosperous when its farming population was down at the heel. And under present conditions it is futile to expect farmers to feel bilious.

The arithmetic signatures were not dry of their ink before a lot of folk set up a cry of deflation and readjustment. Three whole years later we have got as far as readjusting and deflating the greatest of our industries, agriculture. We have deflated the farmer's income down to about the 1913 level and we have left his expenses pretty nearly at the top notch of war times. He can hardly give away his hides but he pays as much for his

shoes as ever. He begs the buyers to take his fat stores, but if he wants a steak at the meat market he is charged the full un-discriminated price of the darkest days of conflict. Pork chops are worth their weight in gold, but there is a sick market for corned-hogs. Twin binders cost twice as much as in the former days of dollar wheat, but the dollar shakes hands with the bushel of the farmer's grain on terms of equality.

The farmer must be a reluctant buyer of all but the barest necessities under such conditions. And when the farmers can not buy there will be no prosperity in this country. Those who would remedy the evils from which the country is suffering should scan closely the economic conditions which are thus oppressing the nation's greatest industry and reducing the legitimate incomes of nearly half the country's population.

**LOTS OF SUNS**

Star-gazers have not always been taken seriously but they have their mission if only to keep common folks from getting the big head. Most of our ideas of bigness are relative. The country boy marvels at the bigness of the county seat. Few become so travel wise as not to be impressed by the magnitude of the carth.

But a world association of astronomers is engaged in a work which in the imagination capable of grasping it, reduces our carth to a speck of dust. On Mt. Wilson, using the huge Hooker telescope, and every sun of them in the observatory at Arequipa, Peru, the work of photographing the entire area of the starry heavens goes forward. The result is a revelation even to the astronomer.

Years of arduous toil will be required to complete the task, but already enough has been accomplished to give the basis of stupendous estimates. Already the experts are predicting that the count of suns will total more than 3,000,000,000. And most of the three billion suns are bigger than our luminary.

To the fellow who gets an exaggerated notion of his own importance a few suggestions of universal bigness may be salutary. Let him think of our great world, 25,000 miles in circumference. Then tell him that big as our world is, 330,000 of them would be required to make a mass of the size of our sun. And then lead him on to imagine 3,000,000,000 other suns, each, perhaps, encircled by its own system of planets, and every sun of them bigger than our sun, and then ask him how much he stacks up in such a layout. Nothing could be better devised for the reduction of a magnified ego.

**FILER**

Mrs. F. A. Dwight and daughter, Harriet and Marion, are expected from the last of the week from Chicago where they have been visiting relatives since September. Dr. Dwight and son Charles, remained here.

Miss Grace McConna, principal of the Park street grade school, resumed her teaching Monday morning after a week's absence caused by illness. Ronald Graves returned Friday from Corvallis, Ore., where he is attending the state agricultural college. He will remain with his parents during the Christmas vacation.

Phillip Duck, son of Mr. and Mrs. Joseph Duck, who left Filer a year ago to make their home in southern California, will arrive here the latter part of the week to spend the holidays with friends. Phillip is now attending the university at Moscow. The Ducks hope to return to Filer to make their permanent home.

The domestic science department of the Filer Woman's club met Saturday afternoon in the cooking rooms of the high school and under the leadership of Mrs. Wallace Gillis demonstrated Christmas candy making. Five different kinds of candy were successfully made. Mrs. Gillis was ably assisted by Mrs. Arthur Beers, Mrs. Jesse Henline and Mrs. George Leonard.

A blaze in the furnace room of the Tanner theater on Tuesday morning caused much concern in the business section, but with quick response from the fire department it was quickly extinguished.

On Quick-Impulse Mercury Drops to Another Low Mark

SUDDEN impulse continued to bring the state weather maker. For instance, yesterday he authorized the statement that last night would be marked by either rain or snow.

Instead of rain or snow, which would indicate moderate temperatures, the Boise official kennel of the weather in good shape and slurred the mercury down to a new low mark for the season.

Temperature yesterday was 28, the mercury slipping during the night to 5 above zero, or two degrees lower than the previous low record for the winter.

HIGH SCHOOL NOTES

Yesterday's assembly was one of the most enjoyable meetings of the kind recorded this year. The glue club gave the program, aided by a picked male chorus and mixed quartet.

First number on the program was "Silent Night," which was sung by a chorus composed of Donald Crow, Glen Noble, Lesley Morgan, Vernon J. Williams, Frank, Milton Harvey, and Joseph Weaver, John Nye and Cedric Seaver.

Miss Tachman accompanied the singers. Next the entire club sang "Single Bella," and immediately followed this they sang "Mark the Here and Angels Sing."

A guitar solo was next presented, accompanied by Miss Tracey. Following this, a quartet sang "Aloha" and "My Sunshine," accompanied by Cedric Seaver, John Nye and Miss Tracey.

The club next sang "The Wreath." Immediately following this Cedric Seaver and Miss Lucette gave "Evening Bells" as a violin duet; the club also sang the chorus; Cedric Seaver played a violin solo, a rendering by Franz Drang. Following this the male chorus sang "I'm Wringing."

Principal A. E. Karnes presented "letters" to the football team who had earned them. They were handed out by Captain Clifford Pyle, Robert Putzer, Captain-elect; Donald Finn, John Leiser, Craven Scott, Leonard Holt, Merrell Puckett, James Bell, Clarence King, Clayton Lyons, Stewart Robinson, Robert Nicholson, Eugene Thompson, Moroni Jamerson, Walter Selek, John Houghton and Alton Denton.

Work is starting on the girls' basketball program. The junior girls have had the gymnasium for the past two nights. A regular schedule has been worked out by the girls.

Work is progressing on the junior play at a very rapid rate. The debate report has been postponed, so that the date for the play will probably be on the Friday after the Christmas vacation.

GILMORE IS APPOINTED VICE GOVERNOR GENERAL

University of Wisconsin Law School Professor to Take Executive Position in Philippines

WASHINGTON, (AP)—Formal announcement of the selection of Eugene Allen Gilmore to be vice governor general of the Philippine islands was made today by Secretary Weeks.

MADISON, Wis. (AP)—The appointment of Prof. Eugene A. Gilmore, of the University of Wisconsin law school, as vice governor general of the Philippines, has been expected here for several months, following a conference last summer between the professor and President Harding in Washington.

Professor Gilmore has been connected with the university here since 1902 and during 1918 and 1919 and again during the world war was acting dean of the law school. For some time during that period he was a non-resident lecturer on law at the University of the Philippines.

He is secretary of the national commissions on uniform legislation and former president and secretary of the Association of American Law Schools.
