TWIN FALLS, IDAHO, SATURDAY, DECEMBER 24, 1921.

PRISON FIVE ORTS

## MILITIAMEN ENTER MILL UNDER FIRE

State Troops Dispatched to Newport, Kentucky, Rolling Mills where Steel Workers are on Strike

MACHINE GUN DISPLAY PUTS END TO SHOOTING

Soldiers Take Charge of Plant, Disarm Guards and Issue Orders that No Shooting from Either Side will be Permitted

NEWPORT, Ky., (AP)—State troops detained today in Newport and through details of this march to the Newport rolling mills where steel workers are on strike. The detachment numbered 200 men, divided into five companies, under command of Colonel H. S. DeBarth, of Bowling Green. Occasional shooting and stoning during the strike had marked the progress of the strike. As the militia proceeded into the mill plant several shots were fired from the outside. The troops were halted and a machine gun was set up under the name of John Dillan. The gun remained at its station about ten minutes and as all remained quiet on the outside, it was dismantled and taken inside the plant. Adjutant General Jackson Morris said the guards inside the mill would be disarmed and that no shooting from either side would be permitted.

## RUSSIAN GOLD WILL BUY FOODSTUFFS IN AMERICA

Soviet Agrees to Turn Over \$10,000,000 to Relief Administration

LONDON, (AP)—As a result of negotiations here between representatives of the American relief administration and Leonid Kraevich, Russian soviet trade representative, the soviet government has agreed to turn over to the relief organization \$10,000,000 in gold to be used by the administration for the purchase of foodstuffs and goods in America for relief in the Volga basin area.

## Admiral Kato Ordered to Bed by Physicians

WASHINGTON, D. C., (AP)—Admiral Kato, head of the Japanese army conference delegation, who is suffering from a slight indisposition, probably due to the strain of conference work, has been directed by his physician to cancel all social engagements and to remain in bed for a week.

## Reports Say Colombia Has Ratified Treaty

NEW YORK, (AP)—The treaty between Colombia and the United States has been ratified by the Colombian congress, according to a cablegram received today by the American International corporation.

## COLD WAVE HITS NEBRASKA

OMAHA, Neb., (AP)—Low temperatures ranging from 16 below zero at Valentine, Neb., to 5 below at Omaha prevailed in Nebraska today, with snow.

## BROKEN SWORD WILL NOT HAVE PLACE ON NEW SILVER DOLLAR

CHICAGO, (AP)—New silver dollar, marking the first change in design in 25 years, will not bear a broken sword. Director of the Mint Baker said today in announcing circulation of the new coins would start about December 30. A design showing an eagle instead of an eagle clutching a broken sword, had been accepted, officials said, but the carrying out of the design of a new era of peace as inaugurated by the armament conference.

## HARDING ASKED TO END STRIKE

Omaha City Commission Appeals for Intervention in Packers Dispute

OMAHA, Neb., (AP)—A resolution calling on President Harding to end the packing plant strike in Omaha, was adopted by the Omaha city commission today. Confidence that means employed by Omaha's packing plants are conducive to a healthy state among employees was expressed in a report of an investigating committee made public today following a recent charge by Jacob Davis, district president of the Amalgamated Meatcutters and Butcher Workmen's union that the men were being employed to take the places of striking workmen. The report followed by all three members of the committee, and in a few days inspecting of the Armour, Swift, Cudahy and Morris company plants, declared that sanitary conditions prevail, and that all applicants for positions.

(Continued on Page Five)

## DEATH GARNERS TOLL OF LIVES IN HIGH WINDS

Tornado Sweeping Both Sides of Lower Mississippi River Causes Thirty-One Fatalities and Many Injuries

## SWEEPS SOUTHWARD FROM EAST ARKANSAS DISTRICT

Plantations and Small Farming Communities in Path of the Storm Suffer Heavily in Loss of Life and Property

NEW ORLEANS, La., (AP)—A storm which last night and early today swept both sides of the lower Mississippi river, took a toll of 31 lives and injured about 70, according to reports reaching here. The storm first struck in eastern Arkansas and continuing southward, passed through northwest Mississippi and northwest Louisiana, wrecking a number of plantations and small farming communities.

## ARKANSAS DEATH LIST

MEMPHIS, Tenn., (AP)—Nine persons—one white man and eight negroes—killed, more than a score injured and property damage roughly estimated at \$200,000 today was the known result of a windstorm which hit yesterday afternoon about 5 p. m. at a dozen farming settlements in Crittenden county, Arkansas. In Clarksville a brick store building, in which approximately 50 negro farm hands had taken refuge from the storm, was wrecked.

## SEVEN DEAD IN LOUISIANA

MONROE, La., (AP)—One white woman and six negroes were reported killed and several persons injured in a storm.

(Continued on Page Five)

## MOB ATTACKS GOVERNMENT OFFICE IN SUBURB OF CAIRO

British Troops Rushed to Scene of Disorder, Eject Attackers; Losses Given as Five Killed; 20 Wounded

## OBSERVERS SEE EVENTS TENDING TO CREATE ANOTHER IRELAND IN EGYPT

CAIRO, Egypt, (AP)—Disorders in connection with the Egyptian national agitation broke out today in Ghiza, a suburb of Cairo, when a party of students of the government survey offices British troops were rushed from Cairo to cope with the situation. The students were ultimately ejected. The losses were given in the early report as five killed and 20 wounded. While the disorders were proceeding in Ghiza, Cairo itself remained quiet, and no disturbances from the province were reported with the exception of minor troubles at Tanta, 50 miles northwest of Cairo. Practically all schools in Cairo have been closed and students are endeavoring to bring out government officials, many of whom have gone on strike. The military frustrated attempts by the students to set fire to government property.

## ALEXANDRIA'S STREET LAMPS SUFFER FROM DISORDER

ALEXANDRIA, Egypt, (AP)—More than 100 of the city's street lamps and some shop windows were smashed today by small groups of demonstrators. Police forces and armored cars dispersed the mob. Otherwise Alexandria remained quiet but with an indication of excitement evident.

## OBSERVERS SEE UGLIER IN DEVELOPMENTS IN SOYET

CAIRO, (AP)—The rupture of negotiations between the Egyptian delegation in London and Lord Curzon, the British secretary for foreign affairs, late in November is looked upon by many quarters here as likely to create another Ireland in Egypt, because of the intense nationalist feeling that has been aroused among the Egyptians. (The Egyptian problem today is considered by close students of the situation as far worse than ever, judged by the tone of the native press and the number of anti-government demonstrations in the large cities. Meanwhile the extremists under Said Zagloul Pasha are again coming to the fore and seem to be winning the support of the masses.

## UNITED STATES OFFERS SUBMARINE LIMIT PLAN

American Program Given Naval Armament Committee of Five Powers at Washington, Proposes Undersea Craft Tonnage of 60,000 Each for Great Britain and United States and Existing Tonnage for Japan, France and Italy

## Italy Demurs at Submarine Limit Set by Americans

Points to Disadvantages as Compared with France on Present Status

WASHINGTON, D. C., (AP)—Italian arms conference delegation spokesmen express the belief that Italy cannot possibly meet the American proposal for limitation of submarine tonnage as outlined at today's session of the full naval committee of the conference. The American proposal which conference retention by Japan, France and Italy of existing tonnage, the Italians say, would be contrary to the Italian contention that the naval strength of Italy and France should be equal.

## Christmas Greetings

The offer on behalf of the United States was made by American sources to be generous in view of the fact that it now has approximately 55,000 tons of submarines and the plan would involve scrapping more than 33 7-3 percent. The British now have about 82,000 tons of submarines and the American plan therefore would entail a substantial scrapping by that nation. Below French figures. The American program for submarines, it was conceded by American delegates, was considerably less than (Continued on Page Five)

### A Christmas Tree

By Charles Dickens.

IT HAD been looking on this evening at a merry company of children assembled round that pretty German toy, a Christmas tree. The tree was planted in the middle of a great round table, and towered high above their heads. It was brilliantly lighted by a multitude of little tapers; and everywhere sparkled and glistened with bright objects.

Being now at home again, and alone, the only person in the house awake, my thoughts are drawn back, by a fascination which I do not care to resist, to my own childhood. I begin to consider, what do we all remember best upon the branches of the Christmas Tree of our own young Christmas days, by which we climbed to real life.

Straight, in the middle of the room, cranked in the freedom of its growth by no encircling walls or over-arched ceiling, a shadowy tree arose; and, looking up into the dusky brightness of the top—for I observe in this tree the magical property that it appears to grow downward toward the earth—I look into my youngest, earliest recollections.

All eyes at that time, I find, upon the green holly and red berries, is the Tumbler with his hands in his pockets who wouldn't lie down, but whenever he was put upon the floor, persisted in rolling his fat body about, until he rolled himself still, and brought those lobster eyes of his to bear upon me—when I affected to laugh very much, but in my heart of hearts was extremely doubtful of him. Close beside him is that infernal snuff-box, out of which three upright a demonical Counselor in a black gown, with an enormous head of hair, and a red cloth mouth, wide open, who was not to be endured on any terms, but could not be put away either; for he used suddenly, in a highly magnified state, to fly out of mammoth snuff-boxes in dreams, when I set expectant. Nor is the frog with cobble's wax on his tail far off; for there was no knowing where he would jump; and when he flew over the candle, and came upon one's hand with that spotted back—red on the green skirt—he was horrible. The cardboard lady in a blue silk dress, who stood up against the candlestick to dance, and whom I see on the same branch, was milder, and was beautiful; but I can't say as much for the larger cardboard man, who used to be hung against the wall and pulled by a string; there was sinister expression in that nose of his; and when he got his legs

(Continued on Page Six)

## OHIO PREPARES FOR FLOODS IN WAKE OF RAINS

River at Gallipolis Rises Ten Feet During Night and Continues Rise at Rate of Five Inches an Hour

COLUMBUS, O., (AP)—Because of unusually heavy rains yesterday and last night in southern Ohio, the United States weather bureau here today issued flood warnings for the lower Scioto river and announced that flood warnings may be issued later today for the lower Muskingum river.

## GALLIPOLIS, O., (AP)—The Ohio river

river today is predicted to rise probably within a stage of 20 to 25 feet by tomorrow. The Ohio river at this point rose ten feet during the night and was rising today at the rate of five inches an hour. The Kanawha river also was reported rising. The Hocking valley bridge at Glenn, near here, was washed out this morning seriously, with a crippling railroad service. Lowlands in this vicinity were flooded this morning.

## FORBASTER GIVES ASSISTANCE TO CINCINNATI DISTRICT

CINCINNATI, O., (AP)—Unless something unforeseen occurs, there will be serious flood in the Cincinnati district. W. C. Doveaux, government weather forecaster said today. The rain in these days duration has ceased, and freezing temperatures for tonight were predicted. The overflowing of Mill creek outlet reached at South Cumminsville, and St. Bernard, this city, from their homes during the early hours of today. Police and firemen co-operated in rescuing households belonging from the swirling waters.

## MEXICAN STATE IN GRIP OF INDUSTRIAL TURMOIL

Workmen and Peasants Ask for Land on Which They Can Raise Food

MEXICO CITY, (AP)—Puebla, the most important industrial state in Mexico, is going through an acute industrial crisis. The cotton mill, handicapped by the high cost of raw materials, has been unable to withstand the competition from foreign manufacturers and have been obliged to dismiss two shifts of workers, leaving more than 15,000 persons in idle unemployment. Union workmen and peasants hold a demonstration in Puebla yesterday at which they adopted resolutions outlining the critical conditions facing them and asking the authorities to grant them land on which they can raise food. They also planned to ask the department of agriculture for implements with which to till the soil. Some of the demonstrators declared that if the government did not heed their demand they would seize the lands.

## THREE MEN MEET DEATH IN FLAMES AT TONOPAH

Workmen Search Ends of Mining Company Boarding House to Check Up Casualties

TONOPAH, Nev., (AP)—Three men lost their lives and ten were injured in a fire last night which destroyed the Belmont Mining company boarding house, known to mining men as the "Big dip." Workmen are searching the ruins today to learn if others may have been killed also.

IDAHO WEATHER  
Tonight and Sunday rain or snow.

# ENGLISH PEOPLE SUPPURT FIGHT ON SUBMARINES

### Newspaper Comment Indicates Popular Approval of British Demand for Abolishment of Undersea Craft

LONDON, (AP)—Presentation to the Washington conference of Great Britain's plan for abolition of the submarine as a naval weapon has aroused the greatest interest here. The newspapers comment at length upon the speech of Lord Curzon, first lord of the British admiralty before the conference on Thursday, in which he made the proposal and outlined the reasons promptly.

General opinion here undoubtedly favors abolition, and there are many regrets that there seem to be no prospect of the being brought about. On the other hand there is some skepticism regarding the possibility of preventing the use of submarines. Even if the conference decided to abolish them, the morning post argues that the developments at Washington point to the necessity of Great Britain maintaining an adequate force of cruisers and small craft for the protection of her commerce against submarines.

# NOTED FILIBUSTER BOAT TO BE USED AS WRECKER

### Florida Shipping Concern Buys Famous Craft for Utilitarian Purpose

JACKSONVILLE, Fla. (AP)—The ocean-going tug *Three Friends*, which attracted world-wide attention as a filibuster prior to the outbreak of the Spanish merchant war as a result of her exploits in transporting arms and ammunition from the United States to Cuba for the Cuban revolutionists, has been purchased by a shipping concern from the outfit of the late Governor and United States Senator-elect Napoleon R. Broward, who commanded the tug for several years as a privateer, and will be converted into a wrecking tug.

The *Three Friends*, built in Jacksonville in 1905, 115 feet long, 22 feet wide and although designed solely for towing purposes her lines and power were such that she easily could show her heels to all but the speediest of the day. When gun running began she was popular and profitable she joined the tug *Dauntless*, commanded by the widely-known "Dynamite Johnny" O'Brien and successfully capturing numerous Spanish and American warships sent to capture them; the two vessels landed cargo after cargo of munitions for the Cuban cause.

# WOOD ASKS FILIPINOS TO USE TWO LANGUAGES

### Suggests Bilingual Preparation of Legislative Measures to Stimulate Popular Interest

MANILA, P. I. (AP)—At the request of the Philippine Chamber of Commerce, Governor General Wood has recommended to the legislature that all important bills introduced be printed in both Spanish and English, instead of Spanish only as at present.

In his recommendation to the legislature, Governor General Wood said: "There are about 2,000,000 of the inhabitants of the Philippines who understand the English language and it is believed that it would be advisable for important measures proposed in the legislature to be given out in English as well as Spanish so that the English speaking public may have knowledge of them, thereby bringing about a fuller public discussion and understanding of proposed measures."

# BUDDHIST MONKS RESORT TO FORCE TO SEE SNOW

### Tear Down Fence and Turn Out Audience when Refused Free Admission

BANGOON, (AP)—In the course of the Buddha-Dagun pagoda 200 monks were admitted to a theatrical performance free of charge; whereupon another 100 demanded the same privilege on the ground that monks never paid. On being refused, because, so they were told, there was no room for them, the monks tore down the fence and turned out the audience.

The police were summoned and temporary spirit was restored, but the dissatisfied monks and their sympathizers rapidly increased to a crowd of 3,000. The arrival of 40 Gurkhas to keep order was the signal for a fresh outbreak and for three hours: there were continuous free fights on the slopes of the pagoda. Eventually the police were dispersed, after one Gurkha had been killed and 11 injured. Two of the Gurkhas also were injured.

# FIANCE OF PRINCESS IS POPULAR WITH VETERANS

### Viscount Lascelles Wins Envious Military Record in the World War

COLOGNE, (AP)—Numerous stories of the life and personality during the war of Viscount Lascelles, fiancé of her royal highness, Princess Mary, when the betrothal was announced, were told among the soldiers of the British army on the Rhine who had served under the regiment of two U. S. O. awards in the famous Grenadier guards. Soon after the armistice Viscount Lascelles, who was three wounds stripes, led the second battalion of the guards into Cologne as a part of the army of occupation of the Rhineland.

A Grenadier, who served formerly in the distinguished officer's battalion, or, as he said, "the batman," a Grenadier officer and a real man in every sense of the word—a strict disciplinarian, to whom politeness and shine and cleanliness during an engagement, Viscount Lascelles would be the most cheerful of his company.

"Often Lord Viscount would give us his blankets on a cold night so that a private in his company would not suffer," said the "batman." "He was always most considerate of his men in many cases where most officers would have handed out seven days in the guardhouse, he would let his soldiers off, for some trifling offense, with only a slight reprimand and the request to be more careful next time."

Viscount Lascelles was very fond of sharing his parcels from home with his men. Surprise gifts of cigars, chocolate, socks and shirts and other useful articles were often distributed rather mysteriously in the rear billets, and although everyone knew who they came from, our commander never admitted that he was the fairy godfather of our battalion."

# PARIS MILLINERS DERIVE INSPIRATION FROM SEA

PARIS, (AP)—Paris milliners have gone down to the sea for their latest inspiration. Toggles of sea shells and shells with just enough black felt to provide a band for the head, are the newest creations of the modistes. Iridescent shells are used to produce unique effects, while real coral also forms part of the trimming.

# MAKES NO MOVE TO FIX PRICES

### Congress Heeds Farmers' Advice and Does Not Legislate Against Packers

BUENOS AIRES, (AP)—The Argentine congress has ended its session without taking any action on the bill introduced to fix a minimum price for live stock.

The measure was accompanied by charges that the British and American meat packing companies operating in Argentina were making excessive profits and had caused the slump in live stock prices. The bill provided for a committee following a report on the meat trade situation made at the committee's request by the Argentine Rural society, a national agricultural organization. The report opposed the bill.

**Oppose Price Fixing.**  
The Rural society, which held a hearing at which the managers of the packing establishments and representatives of the livestock industry gave their opinions, held that the fixing of a minimum price was unworkable and that the charges that the fall in price was the result of the result of the "forced" maneuvering of the packers, had not been proved. It was "no" the consequence of a certain factor, but of a world-wide situation," the report said. The society advised that the meat trade should be left to the regular action of supply and demand.

**Goes After Facts.**  
Regarding what were referred to as the most "treats," the report said: "If the existence of 'noxious trusts' had been proved, the Argentine Rural society would condemn them and claim the guarantee of our law against them. But before reaching this point a better knowledge of the situation is necessary. Those who make such an indictment are persons who are principally interested in the course of their business being perfectly known to the cattle raisers. In this respect the Argentine Rural society will bring all the instances to bear in order to obtain exact, detailed and continuous information of the accounts and balance sheets of these companies, to the publication of which they are, however, legally committed."

# PROPOSES REDRAFT OF PHILIPPINE OIL RULES

### Governor General Reports Existing Laws Less Liberal to Foreigners Than Americans

MANILA, P. I. (AP)—Stating that it is the belief of the government at Washington that the law governing the lease of exploration of oil lands in the Philippines is less liberal to foreigners than it is in America, Governor General Wood in recommending the amendment of the law says he is acting on the suggestion of the department of state at Washington. The governor general's message says:

"The department of state finds in its efforts to insist on the proper treatment of our nationals by foreign countries in this matter (lease of petroleum lands and other lands containing mineral oils) that it is confronted with the statement that the law in the Philippines is less liberal to foreigners than is the law in the United States and the department believes it should be made to conform exactly with the United States law."

# HARIED ATMOSPHERE NO HANDICAP TO PERUVIANS

### British Scientific Society Goes After Secret of Natives' Immunity

LONDON, (AP)—Many of the natives of Peru, it is stated, are much less affected by the rarefied air at high altitudes than are ordinary men of other races who are accustomed to lowland living. It is declared that at an altitude of 10,000 feet they can carry loads of 150 pounds up a steep incline where the ordinary person would find it all but impossible to do so.

The Royal society is going to try to find out what is the secret that enables them to perform such feats of physical strength under conditions that would render the task an impossible one for the average man. Three scientists have just gone to Peru to investigate the phenomenon. They were Professor Macklin, J. I. Barcroft and J. H. Doggart, the two latter of Cambridge university.

Five other scientists from Canada, Mexico and New York will join them in Peru. Mr. Barcroft told an interviewer that the purpose of the expedition is to test the strain to which the heart and lungs are subjected by carrying heavy loads at such great height, and to endeavor to discover how the natives can stand it.

# VETERAN MISSIONARY IS LAID AT REST IN KOREA

### Mrs. Horace G. Underwood Meets Death in Foreign Land at End of Long Career Abroad

SEOUL, Korea, (AP) (By Mail)—Mrs. Underwood, widow of Horace G. Underwood, was buried here recently (aged 70). With her husband she died a few years ago after a lifetime of missionary work in Korea. She was married in the Korean mission field since 1884.

Mrs. Underwood came to Korea as a pioneer woman doctor and was at one time attendant on the late empress of Korea. She was married to Korea to Dr. Underwood who was a brother of the manufacturer of that name, and was associated with her husband in educational work in Korea.

Her son, Rev. H. H. Underwood recently laid the cornerstone of Underwood hall, one of the buildings of the Chosen Christian college, which is a monument to Dr. Underwood's efforts in the cause of the higher education of the Koreans.

# HUNGER IS BAR TO CELEBRATION

## Russian Soviet Anniversary Finds People in No Mood for Jubilation

**LUDOGOVKA, Tartar Republic, (AP)**—The fourth anniversary of the establishment of the soviet republic in Russia found this peasant village of 600 people in no mood for celebrating. Foodless and cheerless, the starving population could have no heart for any sort of jubilation, even if it knew what the political maneuvering was all about. Like most Russian peasants, the unhappy folk of Ludogovka have neither the learning nor the will to study politics. Bread, wood and warm clothing are their three deities. They haven't enough of any of these.

**Crin Endurance Test.**  
Winter has laid its first heavy coating of snow on the flat prairie, and the peasants have started, grimly, on the endurance test to see how many can survive the six months of cold and privation. Many of the younger children have been deemed so completely unendured by the doctors in the employ of the American relief administration that they will be given one good hot meal a day.

Ludogovka is a typical peasant village of the poorer class. It is 60 miles from Kazan, and many miles from the Volga and railway communication. Unpainted log houses are scattered along the main street. The houses generally have two rooms. Some have three. Frequently the animal sheds are built against the houses for warmth. Many of the stables are at the back end of long vegetable gardens which yielded few potatoes and cabbages this year because of the drought. The stables are chiefly deserted. There is no forage, no grain for the animals which have survived up to this time on the dry stubble which will soon be under several feet of snow.

Russia doesn't have blizzards such as are known in America. In late October or early November the snow begins and continues gently through every day until the earth is covered to a depth of three or four feet.

**Winter Sports Missing.**  
This winter will not bring its customary round of winter sports and recreation. There are no horses to draw the troikas and jungle the bolts which ordinarily entice Russian highway through the short days and long nights of frost.

The home of Ivan Ivanovich Petroff is typical of the most poverty-stricken houses visited by the correspondent. Petroff is a farmer, a practically all the villagers are. He has the use of several acres of land, more than he was able to cultivate because of lack of tools and seed. He has owned a sturdy giant, over six feet tall. But his ragged trousers show his legs have shrunk to mere bones and his scraggly beard shows he has lost the emaciation and sallowness of his face. His wife is lying ill, above a large man, sooty stove. A gangling, hollow-eyed boy of 16 stands by the stove, looking at the strangers. A little girl of eight, who is getting the American meals, and two others, slightly older, who were disappointed in the foreign food, stand near their mother.

**Smells of Poverty.**  
The furnishings of the room are almost nil. It has the smell of poverty and neglect. In good seasons Russian peasant houses are seldom clean. They are never ventilated. But the smell of cabbage soup and tea make them less offensive in normal years.

When asked what the family had to eat Petroff pointed to two green loaves of green bread which lay on the stove and said there had been nothing else for his family in ten days. He threw open an adjoining room and pointed to a pile of the improvised "flour" out of which the bread was made. It was nothing but ground up grass, leaves, sunflower seed and other trash of a similar character.

The visitor offered him money. He took it unwillingly and asked: "But what shall I do with it? There is nothing to buy in this village and I can't go in search of food. Neither can my family."

One of the American relief workers thereupon offered to buy some flour in a village many miles away. Through-out the remote villages of the Tartar republic and the Samara government most American workers have found the same lack of food.

### NORWELMAN TO FARM ESTATE TO WHEAT BAIN AT AUCTION

**GLOUCESTER, England, (AP)**—In order to save his beautiful estate at Lymington here, from coming under the auctioneer's hammer, Lord Bledlow, a former assistant food controller, intends to go in for farming on an extensive scale.

If the business failed, his lordship has stated, he would have to leave Lymington park, which has been occupied by his family for 200 years.

# BABSON SEES ROUGH ROAD AHEAD FOR OIL INDUSTRY

## Lower Prices for Both Stocks and Commodities are Forecast by Famous Statistician; Petroleum Trade One of Last to Respond to "Contracting Economic Cycle"

**ROGER W. BABSON**  
By Special Arrangement with Babson's Statistical Organization, Wellesley Hills, Massachusetts

(All rights strictly reserved)  
Wellesley Hills, Mass. — Discussing the future for the oil industry, both from the point of view of the commodity itself and securities of the producing companies, Roger W. Babson makes the following statement:  
The petroleum industry has been one of the last to respond to the contracting economic cycle. Since early 1920 production has been well maintained, averaging far above war proportions. In fact, at the present time it seems highly probable that the total output for 1921 will rule in the vicinity of 20,000,000 barrels, over the record figure of 1920. As production has ignored

fundamentals, it is not surprising that stocks have advanced rapidly since the low point established a year or so ago. In January, 1918, stocks on hand of crude petroleum were about 150,000,000 barrels. The end of the year found stocks depleted, ranging close to the 125,000,000 barrel level. During 1919 there was not any material change and the low point in stocks was reached in May, 1920, approximately 124,000,000 barrels. The recovery, however, has been rapid and stocks today are far from 180,000,000 barrels, or the largest figure in history.

**Statistical Position Weak**  
The statistical position is extremely weak and there are no indications of any material improvement during the winter months. The immediate future constitutes a period during which consumption is at a minimum, and this factor must be counteracted by a further marked contraction in output. There has been a great deal of propaganda relative to the Mexican situation, particularly as regards salt water in many of the leading producing wells. I feel that this is largely the propaganda of oil interests in the endeavor to create a buying atmosphere. An official statement from Washington indicates that there is a marked basis for such a report, and Mexican production today is in the increase.

**Readjustment Incomplete.**  
The industrial readjustment is by no means complete. This includes particularly the automobile industry, which still faces readjustment and competition, and perhaps lower prices in 1922. Industrial activity will come back only gradually, and the principal source of outlet in petroleum are by no means in a position to buy on an extensive and expanding scale. Conservatism will certainly prevail. Finally, looking at the price side of the question, the trend of petroleum, Mid-Continent, Texas, and Pennsylvania, could not hold up against the excessive supply, and during the first quarter of this year, broke materially. For example, Pennsylvania crude fetched from \$4.10 in January, 1921, to a low level of \$2.25 in August. Since that time prices have advanced approximately 100 per cent, but as previously intimated, stocks have advanced radically, now 39 per cent more than at the low point last year. The recovery has stimulated new drillings and this fact will inevitably have a direct effect upon the situation.

The advance in petroleum has been entirely adverse to the statistical and fundamental position, which I feel has been due to a large extent to manipulation. I question whether petroleum can hold its present level. There is a marked possibility of a price reaction during the winter months unless there

is a drastic curtailment in production, a feature that seems improbable at this time. The principal by-products, such as gasolene, kerosene, lubricants, etc., are also in the same category as crude petroleum, and should be regarded accordingly.

**Securities In for Fall**  
I do not see how the securities of the producing companies can escape this same readjustment. From a high average price of 700 reached in 1920 the stocks of the oil companies came down to around 400 and are now up to about 625. At the present time they are less than half way back to the 1913-14 average level of 500. I can see no reason for any broad upward movement, in oil stocks until they have been more thoroughly readjusted.

The general business of the country at large as reflected in the Babsonchart index maintains its high point for the year gained last week. General business now stands 11 per cent below normal.

**FRANCESCO PIVARICH.**  
It is said that the great Italian poet, Francesco Pivarich, died, almost exactly to the day, 70 years after his birth. There seem to be conflicting dates regarding his precise day of birth and death, although the variance is very little. One account says that he died July 10, 1874.—Chicago Journal.

Merry Xmas

## Christmas Greetings:

*Business is so large a part of life that we are glad it brings us friends, and we appreciate our pleasant relationship with you in nineteen hundred and twenty-one.*

*A right Merry Christmas! May the New Year find you well and keep you in good cheer.*

**FRIENDSHIPS**—Newly born and those grown to virility—constitute our richest source of gratification as we look back over the year. The abundance of names listed on our roll of well-wishers has demonstrated that the star of genuine service has guided us along the correct course. And the spirit of the season calls us to a warmer appreciation of the associations which have made this success possible, prompts us to take this means of expressing our thankfulness for the support our efforts have received. We sincerely hope that the New Year will bring you increased happiness and prosperity, and that we may count on your active co-operation in 1922.

# BANDITS ADOPT ROUGH TACTICS TO GRAB GIFTS

## One Man in Hospital and Another Man and Wife Reunited after Two Kidnaping Affairs Staged by Holdups

CHICAGO, (AP)—One man was in a hospital today, his life in grave danger and another man and his wife were reunited after two kidnaping incidents in the methods of Chicago bandits in obtaining Christmas gifts.

Arthur C. Bush, inventor and manufacturer of Des Moines, Ia., was severely beaten, robbed of \$200 and his wife was held captive for nearly an hour and chained to his automobile in the outskirts of the city after having been kidnaped in the downtown district by robbers.

**Puts Bluffs in Month.**

J. A. McRae, a Detroit manufacturer and his wife were separated by kidnaping bandits on the north side. Mrs. McRae was taken into the bandits' car and suffered indignities in the robbers' search for her jewelry and although they obtained a diamond bracelet valued at \$250 she saved two valuable diamond rings by placing them in her mouth. She was released on the west side and several hours later her husband was freed in another part of the city after having been robbed of \$100.

**Three Kidnapings in 24 Hours.**

The two kidnapings were the third of the kind within 24 hours. On Thursday night one bandit said to have been a train robber, was killed by a policeman and his companion was severely wounded. The kidnaped Mrs. James J. Callahan, wife of the former manager of the Chicago American league baseball club, her daughter and brother.

# Will Be Sister-in-Law to Princess Mary

Viscountess Hoyne, who, by the marriage of her brother, Viscount Lascelles, will become sister-in-law to Princess Mary as her sister.

# JAPAN PROMISES WORK TO SHIPYARD LABORERS

## Anticipated Construction of Auxiliary Craft is Made Basis for Pledge

TOKIO, (AP)—All the shipyard laborers in Japan are assured continued employment for at least a year in completing the ten big cruisers and six destroyers now building or projected. This assurance comes from Vice Admiral Katsuo Okada, chief of the department of naval equipment. As a result of the promises reached at Washington, work has been suspended on four battleships and four battle cruisers.

Assuming that the Japanese government will be allowed to proceed with the building of the auxiliary craft, Vice Admiral Okada's statements show that the efficiency of all dock yards possible. This would be merely a development against any possible development which might necessitate additional construction during the ten-year "naval holiday" over the amount allowed under the present agreement.

**Worth While Americans.**

Americanism is loyalty to American institutions, and the only loyalty which is worth while is a loyalty which expresses itself in service and sacrifice. There is great need to remember that the quality of our citizenship is determined by the quality of the character of citizens.—From the Churchman.

**Pursue Happiness Too Stronoually.**

We all seek happiness so eagerly that in the pursuit we often lose that joyous sense of existence and those quiet "happy moments" that give to each our pride alone presents us from acknowledging.

### Killed Notorious Bandit Who Helped Him Escape from Prison

Genestine Jack Howard, convicted robber, who shot Tom Slaughter in the cedar hills of Saline county, Ark. on Slaughter, most notorious bandit, was the days of Jesse James, and died in escaping from the Little Rock penitentiary.

# CAPITAL PUNISHMENT IS UNDER FIRE IN CHILE

## Ministry of Justice Advises Substitution of Life Imprisonment for the Death Penalty

SANTIAGO, Chile, (AP)—Abolition of capital punishment and flogging, provided in the Chilean penal code, is asked in a bill sent to congress by the ministry of justice. Life imprisonment would be applied in cases where the penalty of death is determined under the existing code.

Referring to capital punishment, the measure says, "It offends, by its cruelty, the moral sentiment prevailing in cultured nations. It is inhuman and, consequently, it does not comprise the possibility of impeding the consequences of the errors which the administration of justice might have incurred on applying it."

"Flogging is barbarous in itself," says the bill. "It is rejected by civilized nations and among us it has fallen into disuse and it would be impossible to find executors, willing to apply it."

**Wandering Gnomes.**

I have observed that superstitious persons have imagined and imagined themselves—frequently come on board of the suit-suit, where I am at work. What have these little strangers to do on Long wharf, where there are no flowers nor any green things—nothing but brick chimneys, some three black-tipped, and the bustle of mill-men, who neither look up to the sky, nor take note of these wandering gnomes of the air—Haw-Thorne.

**To Remove Paint from Cloths.**

To remove paint from cloths, lay a pad of blotting paper on the side of the material on which the paint fell, and rub the other side gently with a soft piece of flannel dipped in chloroform or benzol, both of which are paint solvents, as the paint dissolves it naturally passes into the pad which is having paper and the adjacent cloth. This stain can be completely removed by this method.

**The "Liberty" Age.**

Liberty day is usually thought of by Americans as July fourth and Liberty year is recalled from our statistics as 1776, but statistics indicate that the liberty year of men and women differs. The average age of men seeking divorce is thirty-four and the average age of women on the same quest is twenty-nine.

**True Thrift.**

Thrift is steady earning; wise spending, same saving, careful investing, and the avoidance of all waste.

# OUTLOOK BRIGHT IN STEEL TRADE

## Industry Anticipates Improvement in Industrial Conditions and Business

NEW YORK, (AP)—The steel trade is looking forward to a whole with optimism toward the new year and is confidently anticipating a general improvement in industrial conditions and in the volume of business. Just at the most important time, the reduction of the usual holiday reduction in the demand and is unsettled. Prices have been shaded in some cases, the most important being the reduction of \$5 per ton in wire products. The pig iron market has also slowed down, although there is no accumulation of supplies and a better business is anticipated after the turn of the year.

In copper there has been the usual pre-holiday lull in domestic demand but export business has continued and the market has been generally firm. It is said that some of the smaller dealers or customs smelters are willing to take orders for small lots of electrolytic for January and March shipments at 13 7/8 cents delivered but the larger producers are offering nothing below the 14 cent level and the copper export association is reported to be selling abroad at prices equivalent to 14 cents for New York. Recent export business has included sales to the Orient as well as to Europe and China has bought a small lot of casting copper at about 13 cents.

Lead remains steady with production and demand about evenly balanced.

**Effects of Sun Spots.**

Magnetic storms manifest themselves by their effect on electrical apparatus and are visible as the aurora borealis. Because such storms frequently coincide with sun spots, it is believed that the atmosphere of the earth is in some way ionized by the sun. The sun spots are believed to shoot huge charges into space as a result of magnetic discharges. When the earth goes into the path of such a bombardment we have auroral displays and other magnetic disturbances.—Youth's Companion.

**Birds' Mating Instinct.**

The homing instinct in migrating birds consists of their wonderful ability to detect changes in climate, and the direction of the compass, for their "zone" may cover a large area. The rest is all accomplished by the observation of the stars.

# Today's Markets

**New York Stock Market.**

NEW YORK, (AP)—Trading in stocks today was nominal but a firm tone prevailed in almost all branches. Shares continued to cover in oils, coppers and rubbers, those issues leading at gains of one to two points. Tobacco, food and other specialties, notably American Ice cream and preferred, Kansas Players common and preferred, Texas Gulf and International Paper, also were moderately higher. Usual leaders of the industrial group were almost entirely neglected. Bull hardened on buying of Delaware, Lackawanna and Western, Chicago and Northwestern, St. Paul common and preferred, Canadian Pacific and Northern Pacific. The closing was strong. Sales approximated 250,000 shares.

Bonds were dull and irregular. Trifling changes were the rule at the customary opening of today's stock market. Short covering in several of the favorite rails and industrials imparted a semblance of firmness. Mexican Petroleum and General Asphalt were higher by substantial fractions with Atlantic Marine, Copper, Roberts and high grade transportation, American and Baldwin Locomotives eased slightly with American Woolen and Northern Pacific. The closing was strong. Sales approximated 250,000 shares.

**Liberty Bonds.**

NEW YORK, (AP)—Liberty bonds closed: 3 1/2 402.20; first 4 495.00; second 4 495.00; third 4 495.00; fourth 4 495.00.

**Chicago.** (AP)—Prices were on the uptick in the early trading on the Chicago board of trade today. Trade was light and was interrupted by a visit of oil speculators to the pit traders but the underlay was firm.

Wheat started 1-4 to 1-2c higher with December \$1.13 1-2; May \$1.17 to 1 1/2 1-2 and \$1.04 7/8 to 1.05. Every sign of a dip brought out some scattered buying and there was a general advance until resting orders came out from commission houses and checked the upward movement when May started \$1.17 1/2.

At the last hour the market broke sharply on rather general selling but profit taking by shorts and some help by bearish speculation the market and there was a recovery at the end. December finished at \$1.13 5-8; May at \$1.17 1/8 to 1.17 1-4 and July at \$1.05 1/2 to 1.05 3/8.

Corn futures broke into new ground for the present upward. The start was 1-4 to 3-8c higher with December 40 3-8c; May 55 1-4 to 55 3-8c and July 50 3-4c. The purchase of five cargoes of corn by the Russian relief yesterday with prospects that western stocks would be in demand soon helped the upward movement. May was 55 5-8 and July 51 3/8 at the end of the first hour.

Corn dipped with wheat in the final hour but finished with small net gains for the day with December at 40 3-8, May at 55 5-8 to 55 11-16 and July at 51 3-8.

Oats started steady to 1/8c higher and moved up with other grains, May being 40 1-2c after another dealing. Most birds studied the market and they pork with an initial price of \$15.00 set the January option, which showed 35c lower at \$14.50.

**Chicago Cash Quotations.**—Wheat—No sales reported.

Corn No. 2 mixed 50 1-4 to 50 3-8c; No. 2 yellow 50 1-2c.

Oats No. 1 white 37 1-2 to 38 3-4c; No. 2 white 35 3-4 to 36c.

Rye No. 2 90c.

Barley 53 to 55c.

Clover seed \$12.50 to 13.50.

**Chicago Futures.**

CHICAGO, (AP)—Butter—Unsalted creamery extras 42 to 43 1/2c; firsts 39 to 40 1/2c; seconds 39 to 40 1/2c; standard 37c.

Eggs—Unsettled; receipts 4,000; firsts 50c; ordinary firsts 43 to 44c; miscellaneous 40 to 42c; refrigerator firsts 38 to 40c.

Poultry—Unchanged.

KANSAS CITY, Mo., (AP)—Eggs—Firm, unchanged.

Butter—Unchanged.

Poultry—Tens and springs unchanged; turkeys 50c today, quoted nominally for next week.

**Omaha Livestock.**

OMAHA, Neb., (AP)—Hogs—Receipts 3,600; active 15 to 20; bulk of sales \$6.70 to 7.85; top \$6.95.

Cattle—Receipts none; for the week, heavy weight and yearlings strong; other and yearlings steady; bulls and veals steady; stockers and feeders weak to 25c lower.

Sheep—Receipts none. For the week, fat lambs 25 to 30c higher; sheep mostly 25c higher; feeding lambs steady.

**Chicago Livestock.**

CHICAGO, (AP)—Cattle—Receipts 200; compared with week ago, beef calves mostly 25 to 50c lower; plain to medium grades showing full decline; sheeple generally 25 to 50c lower; veal calves \$1 to \$1.20 off; stockers and feeders 25 to 40c lower; bulls 50c lower.

Hogs—Receipts 8,000; active and strong, to 15c higher than yesterday's average with lights up most; shippers bought about 2,000; good market; top \$7.80 for 100 pound average; \$7.50 for 150 to 160 average; bulk \$7 to \$7.40; pigs 10 to 15c higher.

Sheep—Receipts 4,500; practically all packers direct and all on shipper count; compared with week ago, fat lambs and yearlings about \$1 higher; fat sheep and feeder lambs steady to 25c higher.
