

# TWIN FALLS DAILY NEWS

TWIN FALLS, IDAHO, TUESDAY, JANUARY 3, 1922 PRICE FIVE CENTS

## ALL SIGNS POINT TO RATIFICATION OF IRISH TREATY

Review of Situation in Erin Apparently Indicates An Overwhelming Sentiment for a Lasting Peace

## FIVE MORE COUNTY BODIES ADD NOTE OF APPROVAL

Farmers of Whole Country Seem To Be in Accord and Hopes of Speedy Settlement Apparently Running High

DUBLIN, (AP)—Michael Collins during the afternoon, to make a suggestion for the ratification of the Anglo-Irish treaty, proposed in substance that its opponents allow the treaty to be published, after which its opponents could continue the fight for a republic.

DUBLIN, (AP)—Members of the Dail Eireann reassembled here today after an adjournment of 12 days to resume discussion of the treaty with Great Britain.

A review of the attitude taken by the Irish people at large would seem to indicate overwhelming sentiment in favor of ratification of the compact. Since announcement was made that the treaty had been signed in London, 101 public bodies have adopted resolutions in favor of the treaty.

Five more county councils—Livercote, North Tipperary, Tyrone, South and Wexford—yesterday adopted resolutions in favor of approving the treaty. The unanimity of the farmers on the question is a notable feature of the demand for ratification.

## Reform Mayor Changes Mind About His Police

Starts on Job Resigning City on Modern Plan

YOUNGSTOWN, Ohio, (AP)—Mayor George A. Oles came to his desk at 7:30 a. m. today with his new administration and the first order was issued as the result of a busy day's work yesterday while the rest of the city was observing a holiday. City hall was the scene of a conference and addresses to police details.

## Thirteen Mail Pouches Mysteriously Stolen From Station Platform

Discarded Overcoat Furnishes Sole Clue to Identity of the Darling Robbers

PERRY, Okla. (AP)—Local authorities assisted by postal inspectors from Muskogee, have been investigating the theft of thirteen pouches of mail from the Atchison, Topeka and Santa Fe station here yesterday. A check of the loss has not been completed.

ESTIMATE FOOD SUPPLY TO INSURE BALANCED DIET

New Bulletin Shows How to Adapt the Food Needs of Ideal Family to Any Household

Housekeepers often feel the need of some simple plan by which the food needs of their families can be estimated in kind and in amount with those really needed. This calls for a standard or model that may be used as a guide in the selection of foods for any family at any season of the year and under any market conditions.

The United States department of agriculture has just issued a new farmers' bulletin, No. 1225, prepared by Caroline L. Hiett. The subject of the bulletin is "A Week's Food for an Average Family."

Life. He was graduated with the class of '16. He came to his death August 14 of this year. During a short vacation trip he took part in a bathing party at Seattle, Ore. A young member of the party, Miss Margaret Hawkins of Portland, ventured beyond her depth. Fawcett went to her aid and after a heroic battle to save his companion, went down. The body was recovered a little later.

"Such a memorial as given by Mrs. Fawcett, has an immense value and rightly appreciated will enable 15 to 20 students a year who would otherwise drop out of school in the middle of a semester to complete that unit," said President Upham. "It is a fine example of a student who would have left two or three months after school opened to stick it out and avoid losing the work he has commenced."

# INQUIRY SHOWS 'WETS' WORSTED

## Prohibition Well Enforced in Nine-Tenths of Country, Board Reports

CHICAGO, (AP)—Prohibition is effectively enforced in nine-tenths of the area of the country and in the remainder is sufficiently well enforced to be a very great improvement over the illicit system.

This is the result of an investigation covering several months, through official channels and direct inquiry as announced today by Dr. DeLoe Pickett, research secretary of the Board of Prohibition, Temperance and Public Morals of the Methodist Episcopal Church. The organization of the church was used as one of the agencies of information, which was obtained from 20,000 heads of churches and with numerous leaders of the 10,000,000 lay adherents. The statement, including 200 figures, sets forth the following:

**Wet Consumption Decline**—The investigation showed that there has been an enormous decrease in the consumption of liquor, a decrease of less than 45 and possibly more than 90 per cent, according to Dr. Pickett. "This has resulted in a very large decrease in the number of arrests for drunkenness and in a very considerable increase in the purchasing power of the poor and of the skilled and unskilled laborers," says the report.

"In San Francisco, prohibition has decreased arrests for drunkenness in its first year from 17,354 to 1,814. In Los Angeles, from 15,320 to 2,589. In Boston, it was from 55,692 to 10,467. In Baltimore, in the last wet October, there were 1,105 arrests for drunkenness and in the first dry October 119.

We have similar reports from the heads of police of Washington, St. Paul, Lincoln, Galveston, St. Louis and other cities.

**Money Goes Elsewhere**—The fact of increased purchasing power is attested by signed statements of the secretaries of chambers of commerce, real estate dealers, furniture and musical instrument dealers and merchants of many kinds.

"There has also been a large decrease in petty crimes. In Boston, prohibition brought about a decrease in the number of cases of assault from 2,127 to 1,073 in one year. In St. Louis, petty larceny declined from 6,107 to 3,023.

**Crimes on Decline**—There has also been a decrease in more serious crimes in many cities. The wet propagandists have spoken much of a crime wave in New York. "I have it on the authority of the commissioner of police of the city of New York, that in 1918 there were 11,611 burglaries, and in 1920 only 6,330. He makes similar statements as to the commission of other crimes of serious nature on other charges.

"Even better results have been obtained in rural and small town districts.

"There has been a startling decrease in poverty and financial distress. The hospitals have been relieved. In Philadelphia, in six months of the last wet year, there were 1,184 cases of alcoholism in general hospitals and in the same months of the next year, 275. Similar reports have been received from other cities.

**Home Brew Discouraging**—It is frequently stated by alcohol propagandists that there is in the United States enormous illicit distillation, that nearly every family makes alcohol. Obviously, this is simply an exaggeration of opinion. In America, only a few families of German extraction know how to make palatable brew. Whiskey, illicitly produced, is so near-by non-palatable that only habitual alcoholics can consume it. Private distillation and brewing, while it worries the prohibition officers by necessitat-

ing many arrests, is an insignificant factor.

"Prohibition is a relative success now, and on the road to complete success."

## ALCOHOL IS BLAMED FOR MUCH GERMAN INSANITY

### Increasing Seriousness of Situation Causes Disillusion of Prohibition's Admirability

BIRMIN, (AP)—The number of cases of insanity attributed to the excessive use of alcohol has increased in Germany to such an extent that some writers view the situation with alarm and discuss the advisability of restricting the use of intoxicants.

All illnesses due to use of alcohol have increased 100 per cent in the last year over the average for the war years, according to official statistics.

Some authorities, denying that the use of alcohol has greatly increased, attribute the present situation to the weakened stamens of the German people.

**SOVIET STILL PAYS HONOR TO RUSIA'S GREAT AUTHORITY**—MOSCOW, (AP)—The soviet government continues to honor the great authority of Russia. The fortieth anniversary of the death of Dostoiwiski, considered by some Russians as greater than Tolstol, has just been observed; also the eleventh anniversary of the death of Tolstol.

**Chamberlain's Cough Remedy**—This is a pleasant, safe and reliable medicine for coughs and colds. It has been in use for many years and is held in high esteem in those households where its good qualities are best known. It is a favorite with mothers of young children, as it contains no opium or other harmful drug. Try it when you have need of such a remedy.—adv.

## LUNCH COUNTER MEAL FOR CHICAGO BANKERS

### Pressure of Events Sheds Interesting Sidelight on Views of Financial Leaders

CHICAGO, (AP)—Several dozen Chicago bankers who have under their control more than a billion dollars, spent their New Year holidays, Sunday and Monday, working 24 hours a day solving the difficulties of two big banks whose \$35,000,000 assets had been im-

pacted by over-extended credit and impaired investments.

Between meetings last night they watched a half hour for dinner.

A group of junior vice presidents and newspaper men strolled out together but divided when the bankers decided the nearest eating place—"one arm" lunch room—would not suit them.

The newspaper men went to the hotel room and found four customers sipping milk and eating pie.

They were James H. Foregan, chairman of the First National bank; Frank G. Wetmore, president of the First National; John J. Mitchell, president of the Illinois Trust and Savings bank; and Edmund D. Hulbert, president of the Merchants Loan and Trust company and Corn Exchange National bank.

IF a certain note of land in Twin Falls county were worth \$500 one year ago and today is not readily salable at any price is anyone justified in assuming that the owner has incurred a loss?

If a certain individual buy land at \$200, and the sale sticks and he gets \$250 an acre and sell it at \$500 on the money, he has undoubtedly made \$300, roughly, upon the transaction. But if, offered the price of \$500 per acre he preferred not to sell, has he actually made a loss because, at this time, there is no market whatever for his land?

These are the questions which people are beginning to ask themselves. They are the inevitable outcome of a situation such as that through which we of the Twin Falls county are now passing, and no matter what the correct answer may be certain inevitable conclusions may be reached.

The land is still here and it is just as good land now as it ever was. Intrinsically there has been no change. The water right is just as good, the character of the soil is not different. Every acre will grow just as much crop as it ever did.

What, after all, determines the value of the land? In a speculative sense, there is of course but one answer, the demand; but in a larger sense, there is a great deal more back of the question of land values than the market or the price which somebody is or was at one time willing to pay for it—there is the land itself.

If it is impossible to get away from the fact that there is no better land, no richer or more productive, in any where than is to be found in Twin Falls county, as land, it is worth as much today as it ever was, and if it is not worth \$500 an acre now then it never was worth \$500 an acre at any time, speculative trading, on such basis to the contrary notwithstanding.

The fact might as well be faced. In order to profit by the future it is first necessary to get out on a sound basis with respect to the past.

There is no better time than the present to look at the situation squarely in the eye and begin to plan to work out of it. And work is the main thing necessary to put things back upon a solid basis.

In every walk of life the readjustment process is going forward steadily. The business man stands hand in hand with the farmer, the employer is in partnership with the boss. Even the housewife is not exempt from the necessity of contributing a share in the movement. The schoolboy will cut more grass for his fifty cents next summer, albeit there will be less grass to cut at any price.

But only by such a movement can there be a return to the solid, safe and conservative basis upon which real prosperity depends.

More work, less talk; more toil and less money. A complete, comfort and the satisfaction which comes of honest and unremitting toil. These are the things which will set us all back on the road to lives of sane and healthy usefulness. To the man who is willing to work the future beckons with arms spread wide in invitation to better things.

Nineteen Hundred Twenty-two should be a better and more useful year in the Twin Falls country than that which has just closed.

WORST HAS PASSED: "Clear up, the worst is yet to come," is an ironical, thin-worn old adage that can be revised for the present. Just

now the business man can look in his mirror, and say "Clear up, the worst has happened." And the worst having happened, what follows naturally must be in the way of improvement. Everybody agrees that the country is on the upgrade, although it naturally will be some time before the increased buying capacity will begin to make itself manifestly felt.

What a well-known financial expert has termed "deferred business" has accumulated, and is accumulating every day. This means that as soon as the sale of trade sets in strongly, with prices stabilized and rising here and there, orders will be placed for all manner of commodities. It is an odd fact that buying slows up on a falling market, and is stimulated as soon as there is an indication of sustained advance. The wise dealer or manufacturer is getting his business in order. He is keeping his business favorably before the public. He will be ready to take full advantage of the steady growth of business that is just ahead. While the pessimist is bemoaning his fate, the optimist is going after business—and getting it.

THE ROAD WE MUST FOLLOW.

Once we were content with the history of our own country, of our own racial group. Whatever we learned about other nations we learned because at some time or other our crowd had clashed with their crowd. There had been war or trade rivalry perhaps. It had reached a certain crisis. This crisis affected the development of our own land. So we studied the stranger because he had touched our destinies at some point.

Because we had gone to war with Mexico and had taken some land from her we briefly looked at Mexico. At first Britain, with whom we had our first war, we took a longer look. But the point is that most history, the kind taught in the public schools and the kind in which the average man is interested, was purely national in its point of view. The rest of the world was largely ignored except by learned specialists.

But now something better than a vague sense of unity and brotherhood is being born. We are conceiving of ourselves, not as a part of an organic whole. The whole history of mankind belongs to us. We share in the common social heritage. We are linked by invisible threads to all that has gone to the making of mankind as it is. No one group of us is separate and apart, but we are subtly bound together in a certain social wholeness that we cannot escape if we would.

It is on some such basis as this that any joint act of all the nations of the world against war must rest. We cannot act together unless we first feel together. Fellowship must be recognized in the heart before it can be translated by the hand. The rather extraordinary popular reception of books emphasizing world fellowship would indicate that our hearts are ready for an education in fellowship.

Love's Itinerary: J. B. thinks a novel idea for some journalist would be to begin a story with the hero and heroine meeting in Friendship, N. Y.; then have them journey successively to Love, Va.; Kissimee, Fla.; Ring, Ark.; Parselt, Ky., and finally settle down in Home, Pa.—Boston Transcript.

World's Gold Production: In the world's history 27,000,000,000 ounces of gold has been mined of which 25,000,000,000 worth has been lost. From the Argonaut.

Twelve States Now Furnish 48 Senators

READING of the biographical chapters of the Congressional Directory discloses the interesting fact that forty-eight of the ninety United States senators are natives of twelve states and that of the remaining forty-eight, three were born under foreign flags, Pennsylvania and Ohio are tied for first place each with six of their native-born sons members of the upper house of congress. Maine being second with five, and New York, Illinois, Massachusetts and Kentucky tied for third place with four each.

The senators who were born in Pennsylvania are: Boies Penrose and William E. Crow, the representatives of the Keystone state; Albert S. Cummins of Iowa; Schlen P. Spencer of Missouri; and Walter E. Phillips of Colorado. The Maine natives are her own senators, Adlai Stevenson and Frank B. Willis; William S. Koyama of Iowa; James A. Reed of Missouri; Governor W. Morris of Kentucky; and Thomas Sterling of South Dakota. The Maine quip includes the two Maine senators, Bert H. Fernald and Frederick Hale. George H. Moses of New Hampshire, Ralph H. Cameron of Arizona.

NEWS IS SELECTED FOR IMPORTANT FUNCTION

Famous Players Lasky Corporation Will Attempt New Plan

The News, on account of its thoroughly representative circulation, has been selected by the Famous Players Lasky corporation as the medium for this territory in an advertising campaign, which if successful, will completely revolutionize national motion picture advertising. Hereafter, Famous Players Lasky corporation will always conduct their advertising through the national magazines alone. For the initial experiment only a few newspapers in three western states were selected. The choice of The News was a signal recognition of their commanding position in their respective fields. If the campaign proves successful, it will mean that Famous Players will direct their extensive campaign on Paramount pictures through newspaper campaigns rather than magazine advertising.

Like many other large advertisers, Famous Players appreciate that carefully selected newspapers will ensure a duplication in circulation which is often the case in magazines. It also enables the national advertiser to affect a direct tie-up with his representative in each territory.

It is Famous Players' plan to concentrate their campaign on advertising the Paramount productions which will be shown at the theaters in each territory.

Worth Considering: The question is not so much how you contract a cold but how to get rid of it with the least loss of time and inconvenience. If you will consider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. There are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.

Like Salamanders: Chinese smokers seem to be immune to the fiery heat of the fireproof on the ocean steamships, and can stand temperatures that would speedily prostrate white men.

Our COAL PRICES: Lump \$11.50, Spring Canyon \$11.50, Kemmerer \$11.50, Hiawatha \$11.50, Service \$11.00, DRAYAGE—\$1.00 PER TON, NIBLEY-CHANNEL, TELEPHONE 23

HIGH SCHOOL NOTES

The Agriculture club met last evening at the high school. After an interesting program, the members indulged in a pie feast.

Girls' interclass basketball games begin this evening at 4 o'clock, when the Juniors met the Seniors and the Sophs and Freshmen tonight. Wednesday evening at 7 o'clock the Juniors and the Freshmen play the opener and the Seniors and Sophs play end the evening's program. Friday afternoon at 4, the final games for the class championship will be played.

The next two weeks will be spent largely in review as at the end of this time the semester examinations will be given. The examinations take an hour and a half in all classes, and take two days to run them through.

Last evening one of the best and most entertaining affairs was given in the agriculture rooms of the high school by the Agricultural club. The program was in the form of several talks by club members and agriculturists of the community, and then the special feature of the program, the annual agricultural pie feast. Warren E. Crampton, leader of the club and head of the high school agricultural department talked of the future of the agriculture student. John Owens told of some of his experiences with an stock judging team's trip to Portland and Spokane which he took early this fall with Milo Davis and Ralph Brown. Clifford Bice gave a "looker" of a long list of crop jokes. A. J. O'Reilly, county vocational club leader, "kicked in favor of the advantages of the Durac Jersey breeding. A. E. Kenner, principal of the high school, gave an interesting talk on experience, tractor farming, George Perrine gave another interesting talk, "James Say" of a long list of crop jokes.

Attractive Nursery: If in a child's room there is not nursery wallpaper and pictures, one can make an attractive room by placing pictures of children and animals on the walls. The young child learning to talk will find much pleasure in naming the objects in the pictures.

If You Like a Cup of Coffee that is ALL COFFEE Try The THE POPPY It Simply Can't Be Beat!

Junior Class Play The Junior Class of Twin Falls High School Presents "ALL OF A SUDDEN PEGGY" On Thursday Night at 8 o'clock, January 5th, 1922 At High School Auditorium Admission—Balcony 75c; Lower Floor 50c Season Tickets, Worth 25c Towards Admission

Savings Accounts The habit of putting aside some income for a particular purpose, perhaps to buy an automobile, is of great importance in building up the ability to succeed in accomplishing other objectives. If you set yourself to reach one goal after another, you will find each goal attained makes the next easier. Saving on a checking account is subject to temptation of spending before the object is attained. A savings account makes you think twice before withdrawing.

The First National Bank of Twin Falls Oldest Bank in the County POSTAL SAVINGS DEPOSITORY Member of Federal Reserve System

The four senators who were born in the Empire state are, in addition to James W. Wadsworth, Jr. and William M. Calder, the state's own Senators, Frank B. Kellogg of Minnesota and Tasker M. Odell of Nevada.

Also with a quartet of native-born sons is Illinois, the senators who first saw the light in that state being William E. Borah of Idaho, and Wesley M. Jones of Washington, and Melville McCormick and William B. McKinley, the last two the Illinois, representatives in the chamber.

Frank B. Gooding of Gooding, Idaho, was born in England, Samuel D. Nicholson of Colorado was born and lived his boyhood on Prince Edward Island, Canada, while Knute Nelson of Minnesota, the "Grand Old Man," was born in Norway.

Idaho THEATRE LAST TIMES TODAY Gloria Swanson in "The Great Moment" A Romance by Elinor Glyn WEDNESDAY AND THURSDAY

Betty Compson in "The Little Minister" Made Adams' greatest stage success and Barrie's greatest play. Made into a picture brilliantly worthy of this best loved romance of modern times. An hour and a half of pure delight. Note that we are showing this picture at the same time that it is running at the Paramount Theatre, Salt Lake. TWO REEL COMEDY GOOD MUSIC ON THE ORGAN
