Five Principal Powers Reach Agreement in Effect that Curtailment is Improbable for the Present

ANNUAL COMMISSION TO STUDY QUESTION

First Draft of Naval Limitation Treaty Virtually Completed; Discussion is to Begin at Once

WASHINGTON, D. C. (AP)—The limitation of development of air craft is impossible at this time, the members of the armament conference decided today. It adopted a resolution, however, providing for an annual commission to study the question with a view to future limitation. The sub-committee draft of the five-power naval limitation treaty had been completely ready by the naval experts and the full naval committee was prepared to begin discussion of the final draft of the preliminary treaty in the afternoon.

See Two Disadvantages

The Italians, Japanese and French all are said to feel that failure to place restrictions on the armament of merchantmen is not only unjust but also tends to limit the individual tonnage of auxiliary water but also might result in a great disadvantage to nations with small merchant fleets.

The British delegation, on the other hand, was said to be prepared to bring the question before full committee, if necessary, and to agree that merchant ships may carry guns without becoming auxiliary war vessels and thus subject to attack without warning by submarines.

Although the shanting controversy remains in deadlock, there was evident in both the American and British delegations a belief in the mediation of Secretary Hughes and Arthur J. Balfour, was almost certain to bring the Japanese and Chinese together.

UNEMPLOYED IN GERMANY WANT SHARE IN WORK

Larger Allowance from Municipalities and Labor Unions Also Demanded — Demonstrations Frequent

BERLIN, (AP) — The unemployed throughout Germany are demanding a divided "if" work with the regularly employed and a larger allowance from the municipalities and the labor unions. They have become so insistent and demonstrations and strikes between the employed and the jobless so frequent that representatives of the central government, the labor organizations, and the municipalities are trying to find a method of dealing with the situation.

Not All Unemployed. Labor circles charge that many of the "unemployed" are not members of labor unions, are not really out of work, and if they were would seek to avoid work. They attempt to compel work on the part of the latter by splitting in favor of the unemployed. The government is planning the establishment of employment bureaus throughout the country, while the municipalities and the labor councils are canvassing the industries in the hope that jobs may be found for all. The unemployed are also active in trying to aid unemployed married men by placing their wives in positions to earn a little money when not engaged in housework. Low earning power of workmen and high prices has popularized the movement among women to share the responsibility of supporting the family.

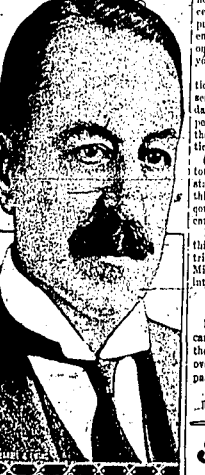

IRISH NEEDLE WORKERS MAKE ROYAL TROUSSEAU

Fifteen Young Women Selected to Prepare Garments for Coming Honeymoon

LONDON, (AP) — Fifteen Irish colliers, picked needle workers, have been selected to make part of the lingerie for the royal couple's trousseau. The work will be done at the girls' own homes, and will take six weeks to complete. Fashion experts are enthusiastic over the beauty of the material. The garments are to be of the latest Irish linen trimmed with exquisite Carrickmacross and Irish point stitch lace, and backed with pale blue satin ribbon. Some of the lace has the shamrock pattern worked into it. Donegal fisher girls are to make a number of white knitted socks for the princess' honeymoon dress. Technicians are described as "of very fine wool," quite plain in the bodies, short sleeves, and with a deep V-neck for the skirt showing raised knots. Irish tweed is the material for the princess' traveling dresses.

WANT GERMAN MATERIAL. PARIS, (AP) — Inhabitants of several devastated villages along the Channel de Dames have demanded the employment of German material and labor in their reconstruction. They asked the minister of liberated regions to organize a referendum of parishes affected to take a vote on the question. They asserted that their villages had been neglected by the government for three years.

RUSSIAN MONEY ALONE CHEAPER THAN AUSTRIAN

Estimates of Cost of Foods Almost Impossible to Reach Under Conditions

VIENNA, (AP) — Only the money of soviet Russia is now cheaper than the currency of Austria, and prices in Austria are rapidly approaching the same fantastic figures as in soviet Russia. Of the 120,000,000,000 crowns in circulation on December 1, 72,500,000,000 have been issued in ten months. Effective December 1, new federal taxes are calculated to yield about 150,000,000,000 crowns, principally on public utilities and the state monopolies. The increases range from 30 to 250 per cent. Taxes on all spirituous and malt liquors are increased enormously. It is nearly impossible to estimate the increased cost of food, varying as it does in different parts of the city. Only fats, milk, bread, other than the softest white, coffee, flour, and sugar only far beyond the reach of the average Viennese but very difficult for any one to obtain. Firewood has advanced 100 per cent and the sheep 50.

Won't Consider Loan. Thus far the government has refused to consider an internal loan or a consignment of foreign money and securities introduced by the social democrats. Efforts to reduce the enormously disproportionate civil list, composed of 253,000 civil servants and 87,000 pensioners have been abandoned despite the fact that of a total population of 6,000,000, nearly one-fifth live on government pay. The civil servants and their friends and families stand as one man against it and their opposition was so powerful that the scheme was hopeless. It is now considered likely that Finance Minister Gurtler's plan for the abandonment of food subsidies may be delayed as it is contended that it would result in such an advance in prices that the people could not buy bread.

COUNTY RANKS THIRD IN SCHOOL FUND DIVISION

Appointment of State Money Given Twin Falls \$17,239.97 for Educational System. Twin Falls county, with 8,761 pupils, ranks third in the division of the \$1,000,000 in public school enrollment and receives in the apportionment of state public school funds, made on basis of this apportionment is \$17,239.97, only by the sums paid to Ada and Canyon counties. These facts are disclosed in connection with announcement of the final semi-annual apportionment made Friday by Miss Ethel Bedford, state superintendent of public instruction, of the state funds among the several counties. Twin Falls county's share out of a total of \$280,200.92 certified by the state treasurer as being available for this apportionment is \$17,239.97. County receives \$10,887.63 and Canyon county \$10,932.83. Distribution of the county's share of this fund among the several districts of the county devolves upon Miss Britton Wolf, county superintendent of public instruction.

CONVICTED MAN MAY HAVE BEEN FOREIGN AGENT

Interesting Hypothesis is Put Forth by Paris Lawyer as to Real Meaning of the Landru Operations

PARIS, (AP) — The idea that Henri D. Landru, may have been a master spy who employed as his agents the ten women he is convicted of murdering, was advanced by Henri Javal, a member of the Paris bar. This suggestion is advanced in an effort to account for the fact that no direct evidence of the murders was brought out by Landru's wife. The absence of this evidence has caused a feeling of uneasiness by most Parisians in regard to this mysterious case and numerous attempts have been made to solve the mystery on some other basis than murder. Developing his theory, Maître Javal said: "Eleven persons, 10 fiancées and the son of one of them, have disappeared. Landru alone knows what has become of them, and he says nothing. By his silence he puts his head at stake. This can only mean that the truth, were it known, would be as fatal for him—But the whole affair takes on another complexion if we imagine, for the sake of argument, that his victims were his accomplices in crime, and that 'crime'—explosion.

Interesting Supposition. "Let us suppose," he continues, "that during the war Landru was German spy-revealing agent. He prefers to work through women. At once this explains his motives, sometimes five in the same day, with hundreds of women, of whom he chooses only a few and these few without friends or relatives who might in any way hinder their long absence. He takes a lonely wife as far from other habitations as possible where he can receive them. There he fabricates false identity papers for them, keeping their own, and sends them forth on their missions of treason. Arrested, Landru says nothing, and his victims' naturally do not break the silence. "Can you imagine by any other hypothesis," Maître Javal concludes, "who so careful, calculating a criminal as Landru should turn the bodies of his victims with great difficulty and yet neglect to throw into the air-burning flames such damaging evidence as their identity papers? "And does not this theory explain why he should keep such an incriminating document as the diary, in which

reference to his victims is made by initials other than their own? He had of their identity papers and the entries in his diary to show to those who employ him as a recruiter of spies."

FEAR ATTITUDE OF DE VALERA TOWARD TREATY

Parliamentary Majority for the Irish-Free State So Narrow That Much Depends Upon Views of Opposition

DUBLIN, (AP) — Developments at today's session of the Dail Eireann were awaited by Ireland with interest nearly as intense as that before the Anglo-Irish peace treaty was ratified. Although through that pact the Irish free state is created, giving Ireland the status of a Dominion in the British empire, the attitude of Eamonn de Valera, president of the Irish republic and his followers who so bitterly fought the agreement has thrown a cloud over the situation. Many rumors have been created including one that strong republican resistance to the provision of government may be expected when the latter begins to function. The Freeman's Journal's political correspondent writes: "The way is now open for settling up the Irish free state, evacuating the British army, and taking over the entire machinery of government by representatives of the people.

The attitude of the bulk of people is already ascertained by the valley of the minority in the Dail is much less certain. The result of the deliberations at the meeting of Mr. De Valera's supporters Sunday was not made public. If obstruction is continued and offered to the utmost degree it will mean a bitterblow of the situation and may lead to a great deal of disorder and unhappy consequences. It will achieve no other object, and will disappear in the course of the next two or three months when the people will rally upon to elect the first parliament of the Irish free state."

RUSSIA POOR SPOT TO PICK FOR VACATION

New York Man Tells Illuminating Tale of Generosity of the Authorities Under Rule of Soviets

MOSCOW. (AP) — Russia is no place to spend a holiday, according to George Soloviet, formerly a business man of New York city and Syracuse, N. Y., and later a member of the United States Sixteenth Field artillery, who recently arrived here on his way home full of troubles and minus his clothes and \$100.

Mr. Soloviet related that after 16 years in New York he had accumulated some money and thought he could afford a holiday and improve his health. Passed Through Siberia.

Last June he left Seattle for Japan and then, as he speaks Russian, decided to wander through the East. He continued west, thinking to visit Moscow. But at the frontier, he was stopped by the "Cheks," as the familiar name of the active police, his papers, money and clothes taken from him and he was told these would be held in safe keeping, as "everything was for the soviet Russia."

After a fruitless visit to the "Cheks" headquarters he heard light conversation about how one-third of his fellow passengers had just been shot by mistake pending a closer examination of their papers, he got aboard a departing train and quacked Samara.

Braunting Shares Nobel Peace Prize

The Nobel Peace prize for 1921 has been divided equally between Kjalmar Branting, premier of Sweden, shown in the photograph, and Christian L. Lange, of Norway, secretary of the Ulster Parliamentary Union. Kjalmar Branting, a leader in international Socialist activities for many years, has been prominent in the disarmament movement since the close of the war. At both sessions of the League of Nations Assembly he was chairman of the Assembly Committee on Disarmament and last March was appointed a member of the League Council's Commission on Armaments, headed by Rene Viviani of France. His profession is a journalist. In March, 1920, he became first Socialist premier of Sweden.

Aviators in Cold and Gale Break Non-Stop Record

Flying for twenty-seven hours two minutes and fifty seconds, in the face of a gale that reached a velocity of sixty miles an hour, the JL-6, all-metal monoplane, broke the world's endurance record for aircraft at Lincoln, N. Y. The triumphant American aviators are Edward Binson and Lloyd Bertaud. Binson was in charge of the plane, assisted by Bertaud. The aviators took off at 6:35 a. m. and landed the next morning at 11:17 a. m. At the start of their trip they were confronted by a heavy snow storm.

When the storm stopped a high wind sprang up, and during the remainder of the flight the machine was buffeted in a gale of fifty miles an hour. Both Binson and Bertaud were army aviators during the war. Binson's home is in McKeesport, Pa. Bertaud spent two years in the army air service and instructed at Holling Field, Washington, and at Love Field, Dallas, Texas. The above illustration shows the type of plane used in the record-breaking flight and Aviator Binson, who piloted the machine.

AMBASSADOR IN NEAR ACCIDENT

George Harvey, Representative of Washington at London, Has Narrow Escape

GANNEX. (AP) — George Harvey, American ambassador to Great Britain, narrowly escaped death here in an automobile accident. Accompanied by Richard Crane, former American minister to Czechoslovakia, by whose car he was riding, and Wickham Steed, editor of the London Times, Ambassador Harvey was on his way for a round of golf.

The axle of the machine broke, and Mr. Harvey was thrown out landing heavily on the road. He was able to arise, but was rushed back to his hotel in a critical condition.

Physicians who were hurriedly summoned, found him suffering from the shock, and from severe bruises on his back. His deplorable condition after the accident lasted more than an hour. The physicians expressed the opinion he would be confined to his bed for several days and said it should not be attempted to attend to any official duties.

Savings Accounts

The habit of putting aside some income for a particular purpose, perhaps to buy an automobile, is of great importance in building up the ability to succeed in accomplishing other objectives. If you set yourself to reach one goal after another, you will find each goal attained makes the next easier. Saving on a checking account is subject to temptation of spending before the object is attained. A savings account makes you think twice before withdrawing.

BRITISH CLUB LIFE IS RAPIDLY DISINTEGRATING

Majority of Better-Known Institutions are on the Verge of Bankruptcy

LONDON. (AP) — It is no exaggeration to say that 90 per cent of the London clubs are insolvent, an article in the Evening News states. According to the writer, most of London's 150 clubs have been unable to pay their way for the past two or three years and have been keeping up a precarious existence by increasing subscriptions and entrance fees, and by raising loans and mortgages at high rates of interest. In many cases all assets and board of the servants absorb the whole of the subscription.

THE FIRST NIGHTER.

The four acts of vaudeville that will be seen at the New Orpheum, this evening come here with a real reputation. Advance notices proclaim them the best acts that have been seen in a long time. There is plenty of variety, as there is a violinist, an acrobatic act, a sketch, and a musical act. The Monday vaudeville is becoming popular, and Manager Anderson is well pleased with the way the public has accepted his efforts. The usual run of high class pictures is also on the bill.

The role of Lisa Paraisova in "Footlights," Hila Welman's story of the stage in which Miss Ferguson will appear at the Idaho theater today and Tuesday, calls for strenuous activity on the part of the Paramount star. Robertson, her director, who insists on correct details, had Miss Ferguson rehearse the fencing scene a half dozen times before the camera "shot" the scene. Reginald Denry plays opposite the star. EVENTS MOVE RAPIDLY IN IRISH REPUBLIC

(Continued from Page One)

to suggest the formation of a committee, whose members would be chosen from both sides of the controversy, to keep the peace. Work, and not talk, was now required, he added.

Mr. Thomas J. Clarke moved the resolution of Mr. De Valera as president of the republic. Liam Mellows seconded the motion.

Arthur Griffiths said the question of the treaty had been previously settled and that there was nothing to prevent its terms being carried out.

Would Be Laughing Block

After the recognition of De Valera for the presidency Michael Collins said he would not object to the re-election of President De Valera, but that if Mr. De Valera were re-elected the Dail would be the laughing stock of the world.

Mr. De Valera declared that the republic must immediately be proclaimed by an election, established by law, was quite ready during the interval, he said, to help maintain the independence of Ireland.

He said that until the treaty was put into executive form and worked out the people would not understand what it meant. He called the treaty "only a paper promise."

The Dail must continue, he declared, until the people could decide between the treaty and the Irish republic. He challenged the supporters of the treaty to an election after the treaty was put into operation.

P. J. Hogan said the people had a right to decide immediately and he asked for a speedy election.

No Constitution Yet

John MacIntee of Monaghan argued that England had not yet given Ireland the constitution for the free state and that until the terms of the treaty were carried out the republican government must be continued.

MacIntee urged keeping resolutions of Ireland intact as they could fight "if England lets us down."

John McKewen and Michael Collins both jumped up at this, shouting: "No!"

Mr. De Valera said that if he were re-elected no effort of his would be made to obtain a joint cabinet.

He said that until the terms of the treaty were declared, then looking at Griffiths and Collins he added: "You have a majority with your sixty-four votes, elect your own president."

A split vote followed between Wm. Cosgrave, a strong advocate of the treaty, and Mr. De Valera.

URUGUAY IS MECCA OF ILL MATED ARGENTINIANS

Divorce Laws of Country Prove Magnet Which Draws Heavily From Neighboring Territory

BURNOS AIRES, (P) — The Uruguayan divorce laws have made the city of Montevideo the mecca of the ill-mated couples of the neighboring republic of Argentina.

The Buenos Aires newspapers refer to Montevideo as a "matrimonial safety valve" and daily observe that up-to-date divorce legislation has been rendered unnecessary in Argentina by the enterprise of the Uruguayan lawyers.

According to La Razon of Buenos Aires, the Montevideans (possibly in a fit of repentance for having dissolved so many Argentine unions) are now endeavoring to hold the balance even by making marriage an easy and expeditious matter in their capital.

So far have they gone in the latter direction that they have been condemned by both Uruguayan and Argentine. One cynical scribble, however, remarks that the "marriage will you want" system should serve as an excellent feeder to the divorce court in the slack season.

TODAY'S MARKETS

Stocks Open Stronger

NEW YORK, (P)—Stocks were disappointed at the opening of today's session, a sentimental factor probably being the further pronounced recovery of British and other allied foreign exchanges. Copper, sugar and tobacco gained 1/2 to 2 points. Within the first half hour, however, selling of oils and rails was actively resumed. Chicago and Northwest, one of last week's heaviest features, declined 1-3/8 points to a new low record for the current movement and Delaware and Hudson and Mexican and Pan-American Petroleum became reactionary. Union Pacific, American Can and Canadian Pipe preferred also were under pressure.

Chicago Grain

CHICAGO, (P)—Absence of any aggressive buying tended to weaken the market today in the early trading. The fact that an election of officers of the C. B. was in progress served to diminish active dealings. Besides, bulls were apparently inclined to slow pending further developments in regard to milling and end to crop damage southwest. Opening quotations, which varied from unchanged figures to 3-8 lower with May \$1.12 1/2 to 1.12 3/4 and July \$1.01 3/4, were followed by slight setbacks all around and then by a rally which, however failed to last. Lack of support became more pronounced near the end of the day, notwithstanding a liberal decrease of the visible supply total. The close was steady, 3-4 to 1 1/4-c net lower with May \$1.10 5/8 to 1.11 3/4 and July \$1.01 to 1.01 1/4.

Corn and oats were easily with the wheat. After opening at 1-1/2 to 1-1/4 lower, May 53 1/2 to 53 5/8, underwent a further sag and then recovered somewhat.

Export demand helped later to sustain values. The close was steady at 1-1/2 to 1-1/4 net lower with May 53 1/2 to 53 5/8 and later showed slight general losses.

Provisions were dull but firm. Wheat No. 2 hard \$1.00 1/2 to \$1.01 1/4.

DEMAND FOR FURTHER LIGHT

Connecticut Newspaper Wants to Know More About Buying Women's Shoes for \$2 a Pair.

A Bridgeport (Conn.) paper tells its readers that a large manufacturing establishment in its city is aiding its employees by selling shoes and coats to the operatives at a reduced rate. Listen to this, for example:

Women's shoes, durable, stylish and cheap withal, are being distributed to workers who want them for \$2 a pair. The significance of the \$2 price is seen in a comparison with ordinary shoe price schedules. The shoes are sold on two days each week and several hundred pairs still remain.

"As to the coat, it is sufficient to say that the corporation is furnishing three coats a week to its employees at \$12.00 a ton, which does not strike us as such a marvel as the sale of shoes at \$2 a pair, but as to this we should venture further information, says the Hartford Courant. If it is possible to buy shoes at once durable and stylish at \$2, the fact has gained precious little publicity in the last four years, even among women, and we should suppose that the women of Bridgeport would be apt to mention the fact to the dealers in the city.

Surely there must be men employed by this corporation who would be glad to find it dealing in footwear for them, inasmuch as mere men will need shoes within a month or so at the best. Why not sell these durable and stylish shoes at \$2, \$3? We shall watch the further development of this plan with some interest.

SPUD GROWERS OPEN FIGHT ON FREIGHT RATES

Vote Disapproval of Proposed "Combination Grade" and then Turn Attention to the Transportation Charges.

After making a unanimous vote in opposition to adoption by the state of Idaho of the proposed "combination grade" for potatoes, a meeting of about 50 potato growers and shippers in Paris last here Saturday afternoon, acting upon suggestions of Leonard Way, former traffic expert for the state public utilities commission and now secretary of the Southern Idaho Traffic association with headquarters here, authorized the appointment of two committees to take action on behalf of the potato growers with a view to obtaining reduction and equalization of freight rates on potatoes.

A committee composed of T. H. Nicholson, C. L. DeLong and Alvin Harbert was appointed by George Leavitt of Plover, chairman of the meeting, to draft resolutions for submission to the interstate commerce commission at its hearing on general freight rates revision at Washington, January 11, and to the agricultural committee of the Secretary of Agriculture Wallace to convene in Washington, January 21.

A second committee, composed of Harry Walling, Plover; H. W. Wood, Kimberly; and H. Weaver, Plover, was appointed to confer with officials of the Southern Idaho Traffic association with a view to bringing about cooperation by potato growers with the association.

Discussion of responsibility of adopting the "combination grade" was the primary purpose of the meeting. This grade would provide for mixing of 75 per cent No. 1 with 25 per cent No. 2. The question was presented in detail by J. H. Thomas, state potato inspector, and exhibitors of the several grades adopted and in use by the state of Idaho for three years past. It was the opinion of the proposed "combination grade" were on display.

Other meetings scheduled. Mr. Thomas announced that similar meetings would be held on January 12 at Buhl and on January 18 at Burlew. At these meetings Miles Cannon, state commissioner of agriculture, who was unavailably detained from attending at the meeting here, would be present. Mr. Thomas said.

Introducing his suggestions for action by the potato growers with respect to freight rates, Mr. Way briefly reviewed transportation costs in their relation to Idaho producers over a period of several years.

"Prices of potatoes are comparatively high now because the country's potato crop was 81,000,000 bushels short last year," Mr. Way said, adding that the tendency of prices next year would be downward.

Declaring that in 1914 he had seen potatoes in the Boise valley going begging at 30 cents a hundred pounds, Mr. Way quoted figures to show that freight rates on Idaho potatoes to Texas markets, which are the largest consumers of the Idaho crop, had increased to a point where the present rate is 34 cents a hundred pounds higher than it was in 1914. The increase in freight rates represents a tax of 47.00 against each acre of potatoes grown in Idaho," Mr. Way asserted.

Contrasting the situation of the Idaho growers with that of Minnesota and Wisconsin, Mr. Way quoted figures to show that the increase in freight rates on potatoes from these states to their principal markets in

the middle west was only 9 cents a hundred pounds, an amount which results increase collected from the Idaho producer.

PREFER HOME TO BUSINESS

Most Women Who Quit Their "Jobs" Do So With a View to Becoming Wives.

In normal times, twenty out of every one hundred persons engaged in gainful occupations in the United States are women. At present it is believed that eight million women are girls are at work and that a fourth more will be when industry reaches normal conditions. This invasion of women applies to almost every field of enterprise.

Yet these figures take no account of the vastly greater number of women who are not classed as "gainful occupations" yet perform the natural function of women—home making. The woman who is a home maker may not be able to count her income in dollars as accurately as the other, who draws a fixed salary, yet she is in a gainful occupation nevertheless. Her "income" may be her sons and daughters and her reward may be less financial, but she finds it in the satisfaction of having done a woman's part in rearing a family. It does not fail to every woman to give such service, but to whomsoever it is given to be a wife and mother the reward is not less though it is expressed in different terms.

That the position of home maker is the natural desire of women is shown in that about 85 men step out of gainful occupations, usually as center men. Thus for every woman which enters into it temporarily in contemplation of marriage, that so many are willing to exchange salaries for the home's profit which occupation depends with more force to women—Blairon Starr.

Montland Wm. The Rev. K. P. Jones, of Franklin, was talking rather seriously to his fourteen-year-old son, Montland, Sunday, on misbehavior, when the child interrupted him by saying:

"Mother, you always make me lose my heart when you talk like that."

The father says the talking stopped—Indianapolis News.

BLIND TO GREAT INVENTION

French Emperor Missed Opportunity When He "Turned Down" Ericsson's Offer to Build Monitors.

March 8, 1862; August, 1921. These dates comprise the history of French monitors, the first of which, invented by John Ericsson, met and defeated the Meriton at Hampton Roads on the date first named. The rest of the British monitors, after seeing minor service in the World War, was assigned to the scrap heap by the admiralty last August.

The history of the monitors goes back to the days of Napoleon III, when Great Britain was in a ferment, apprehending invasion from across the channel. Ericsson, a Swedish engineer, met, argued the French emperor in 1854 to build, according to his design, armored vessels of low freeboard, with big guns in revolving shot-proof cupolas, placed centrally on the deck—such a type of armor-clad ship, he declared, would revolutionize naval warfare. The idea was not carried out, and Great Britain's wooden ships never had to face the ordeal of the Meriton.

But Ericsson prevailed on the United States of the American Civil War to give his idea a trial. In 100 days his ship was built, armed and equipped, and it soon fulfilled the inventor's hope that it would serve as a "monitor," or lesson, to the Confederacy.

Even before this, however, the British admiralty had taken up the idea and had built a vessel of a similar type. At the time of the armistice the British navy had 37 of them.

WALTON BEATS SERVICE MEN TO ELECTION DATE

Petition Calling for Submission of Commission Form of Government Within 60 Days is Filed with City Clerk

Being 700 signatures of Twin Falls citizens, a petition was today filed in the office of the city clerk by E. F. Walton, secretary of the Taxpayers' league, requesting the city administrator within the next ten days, to issue a proclamation providing for submission at a special election the question of organization of Twin Falls under the commission form of municipal government as provided under chapter 173 of the 1919 Idaho compiled statutes.

The request is made by the league that the special election will be held within the next 60 days.

Walton campaign manager for the Taxpayers' ticket in the last city election, was one of the opponents of the proposal for organization of Twin Falls city administration under the city manager plan, as urged by citizens backing the ticket composed of former service men of whom five out of seven were commissioned officers. Opposition to the proposal that same was based upon Walton and his followers on the broad grounds that the expense to the city involved in submission of the petition at a special election would be insupportable.

SENTENCE IMPOSED UPON POSSESSORS OF LIQUOR

Court Hands Fines and Jail Terms to Confessed 'Moonshiners' Owners

Sentence of fines and imprisonment was imposed Saturday afternoon by Judge W. A. Babcock in district court in two cases in which illegal pot stills and stills for the manufacture of 'moonshine' whiskey were admitted by each offender.

George Hoyer pleaded guilty to the manufacture of moonshine. A still and gallon keg of home-made liquor discovered by police when he was arrested December 16. He waived statutory procedure and was sentenced to a fine of \$100 and serve a term of 60 days in the county jail.

Floyd Castro, aged about 20 years, also confessed to have manufactured moonshine. He was sentenced to a fine of \$100 and serve a term of four months in the county jail, and was paroled in consideration of proof that his parents had assumed responsibility for his conduct in the future. He provided transportation to his home in Oregon.

Jury Places \$25 Valuation on Dog Shot by Neighbor

Twenty-five dollars is the value placed by a jury of six men upon a bulldog that was the topic of controversy in litigation, that occurred last Saturday afternoon. The court and jury here all day Saturday.

The suit was instituted by Fred C. Carson, a Tully district farmer, who charged that L. B. West, a neighbor, on December 27, had shot and so severely injured Carson's dog that it could not be utilized by Carson. Carson's residence was destroyed by fire on December 27, and he asked damages in the sum of \$300, declaring the dog worth this amount. Several persons qualified as experts to testify as to the value of the dog.

West's defense was that he did not intend to injure the dog but that he had shot at it in frightful terror from his place. The jury awarded damages to Carson in the sum of \$25, and in the sum of \$100, assessed against West.

BUSY WEEK AHEAD FOR CHAMBER OF COMMERCE

Decision of Directorate Upon Program of Activities Falls Committee to Action

A week of great activity lies before the Twin Falls Chamber of Commerce, according to the statement today of Secretary, Newton S. Wiggin. Directors of the organization will meet Tuesday evening to take action on a program of activities for the ensuing month. Among the matters to be considered is the suggestion of the commission for obtaining a popular expression on tax questions and inviting the assistance of the tax experts.

Following the action of the directors on the program of activities for the organization, meetings of the various committees will be called. The chamber of commerce will be called to a session to take up and work out details for carrying the authorized plans into execution. We expect to hold from Tuesday to five such meetings during the week. Secretary Wiggin said today.

MUSIC LOVERS RECEIVE TREAT

University of Idaho Glee Club on Tour of State, Pleases Ten Years of Sentence to

Music lovers of Twin Falls were treated to an evening of genuine entertainment Saturday when the University of Idaho's glee club gave its annual concert in the high school auditorium.

From the opening music consisting of Idaho songs to the final "Student Boy," every number was of the highest order.

Four songs in the opening number, consisting of "Oh, Let Us Sing of Idaho," "Idaho, We Dearly Love You," "We're Really Gay Students," and "Alma Mater Idaho" were well done, the blending of voices showing a floridly heard in glee club singing.

A tenor solo by Alfred Bingham was well rendered, and called for an encore. The third group, "The Four," "Captain Kidd," with an encore of "Tuck Me to Sleep in My Old Tucky Home," was perhaps the best number of the evening.

"The Shipper," a comic musical farce put on by eight members of the club, was well done.

Four songs, comprising cornet, trombone, saxophone, clarinet, banjo and piano, held up the show with their rendition of popular music the audience being reluctant to let them go.

No glee club is complete without a quartette that sings some of the old time melodies, and this club was no exception. Its songs were well received.

"Glad to Get Home," "Stars of a Summer Night" made up the seventh number of the program, and these two songs were close to "Sea Fever," in their first hour for the evening's music.

Rec Kimmel gave a wonderful rendition of "On The Road to Nowhere," and followed with a recitation about a man who had been in a happy frame of mind.

MURTAUGH ROAD PETITION VALID

Re-Check of County Records Shows Sufficient Valuation in Proposed District

Real property within the boundaries of the proposed Murtaugh highway district has an assessed valuation of \$1,161,823.98, and the petition regarding calling of an election for submission of the question of the district's creation, therefore, conforms with all legal requirements, it was announced today by the county recorder's office.

County Enormous Report. This announcement is based upon figures disclosed by further examination of the county records in relation to creation of the proposed district, and sets at rest the report that the district boundaries, as outlined in the petition filed last week did not include property of sufficient valuation to permit of the submission of the question of its creation.

Officials said that a preliminary examination into the question had indicated that valuation of the proposed district fell short of the legal requirements, and accounted for the discrepancy with the explanation that the preliminary examination had failed to take into account the valuations placed upon school districts outside the Murtaugh highway district. Other school districts included in the proposed district are those designated as Alder, Artesian City and Hekel districts.

Two Elections Pending. The county commissioners at their session which began today will be called upon to provide for election of the submission of question of creation of both the proposed Murtaugh and Kimberly highway districts. Each, if formed, would take territory from the Twin Falls highway district.
