BRUMFIELD IS GRANTED STAY OF EXECUTION

Convicted Murderer Extended Executive Clemency on Eve of Execution for Killing Dennis Russell

SALEM, Ore., (AP)—As a result of executive clemency an indefinite stay of execution was granted yesterday in the case of Dr. Brumfield, whose execution was scheduled to take place at the penitentiary here on Friday, January 13.

Dr. Richard M. Brumfield was convicted October 10, 1921, of murder in the first degree by a jury of farmers of Douglas county. The complaint charged that the doctor killed Dennis Russell, a sheepherder and laborer, near Roseburg, Ore., and at the trial the state introduced 60 witnesses and the defense about two score. The trial lasted two weeks.

Evidence Circumstantial.
The state's case was an accumulation of evidence of a circumstantial nature, indicating that a body found July 13, 1921, under the wrecked automobile of Dr. Brumfield, at the foot of a cliff on the Moore road, near Roseburg, was that of Russell, who lived alone in a cabin at Dilgall. The state also introduced evidence intended to prove that Dr. Brumfield had been seen, before the discovery of the wreck, driving rapidly along the highway with something like a body protruding from the machine. Two shots were heard and on the next day a pool of blood was found at a spot near where Russell's hat was discovered.

The state introduced evidence to the effect that the accused dentist had been borrowing money and that he carried \$10,000 life insurance. The motive charged for the crime was Dr. Brumfield's alleged desire to extricate himself from a financial tangle and to make the insurance money available for his family. He was shown to have made inquiries regarding estate accommodations to Australia, and was said to have told a chambermaid at Lake Louise, Alberta, at a hotel where he stopped on his flight, that he planned to leave for Australia about September 10.

Used Assumed Name.
Dr. Brumfield was arrested August 13 while working on a ranch near Calgary, Alberta, under the name of Norman Whitney, his capture resulting from a letter he had written to an express office in Seattle asking that it forward a box addressed to Mrs. Norman Whitney. The box, it was charged

Faculty Orders College "Ghost" to Vanish

"The Ghost," a publication of the students at George Washington university, Washington, D. C., which has shunned not only President Howard L. Hodgkins and noted women club leaders at the capital, has been banned by the college board, but not before 200 copies of the paper had been sold. The president was notified when he received his copy and glanced over it. On the cover was a drawing of a young lady who was anything but modest. But on the inside such pictures as *Murder in Egypt* and the *Feeling of the Believer* made the president gasp for breath. However, the board of trustees which calls the publication an indulgent one of the president's ban, and they say that *The Ghost* is no snappier than *Frisky*, the *Punchbook* and other college publications. The above photographs show the cover of *The Ghost*, to which exception was taken, and below is Miss Whitford DeVoe, artist student, whose sly pictures on the inside pages shocked President Hodgkins.

was sent by Dr. Brumfield from Myrtle Creek, Ore., on the day of the tragedy.

The box contained a varied assortment of articles, including a pink satin undershirt, some lingerie, Christmas ornaments and tissue paper patterns. The skirt was purchased by a woman whose identity did not come out at the trial.

The defense advanced a theory of insanity and Brumfield himself went on the stand and told a story of having lost his memory on July 10, 1921, and not regaining it until following his arrest.

On the stand, the defendant told, however, of recalling fragmentary in-

NORTH SIDE RECEIVES BLOODED DAIRY COWS

Local Organization Operating Under War Finance Corporation Plans, Builds Up Herd

JEROME, Idaho — In addition to four carloads of dairy cows previously received here, seven carloads of high grade Holstein cows from Wisconsin and Jersey cows from Oregon have been unloaded at North Side tract station during the past week as a result of activities of the North Side Livestock Loan company, which was formed here recently to take advantage of provisions of the war finance corporation plans for lending assistance to farmers. This week's shipments bring the total number of cows received in this district through operation of the local agency up to 350. Three additional carloads of cows are in transit from Wisconsin. The price of the cows runs from \$60 as a minimum to \$120 as a maximum.

Boston Woman Hires Man to Thrash Her Hubby

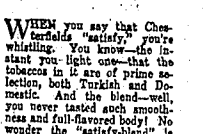

Mrs. Ella M. Whitehead.

If you can't do it yourself, ladies, hire a strong-arm man to do it for you. This is what Mrs. Ella M. Whitehead did when her husband publicly insulted her. She hired John Hartnett, a Providence, R. I., strong-arm man, to give him a beating, and he did. He said: Hubby had her in court on an attempted murder charge, but she explained to the judge that she had no intention of assaulting him, but felt that he deserved a licking. Whitehead, she claims, is old enough to be her father. She also told of having to call a policeman to eject another woman from her home, and is now seeking a divorce. The beating cost her a hundred dollars, and she says the satisfaction was worth double that sum.

TWO YEARS OF DIPLOMACY IS HARD ON TRADE

Constant Exchange of Notes Between Russia and Rumania Highly Unsettling to the Business Affairs

MOSCOW. (AP)—The business circles of both Russia and Rumania continue to be affected by the interrupted exchange of diplomatic notes between those countries during a period of two years over the possession of Bessarabia, now occupied by the Rumanian army with civil officials cooperating in the occupation.

Russian men near Russian frontiers have been frightened by these notes, thinking they would lead to war at any time. American business men and bankers in Constantinople have refused loans or participation in investments involving either Russia or the Ukraine because of these notes.

What has for several years proved an apparent misfortune to Rumania may now be a blessing in disguise. It may lead Soviet Russia, unable to pay back this money, to surrender Bessarabia. During all the long notes between the two foreign offices, there has been a sarcastic tendency on the part of the Rumanians to ask: "When do you intend to return that money you stole?"

George Chichorie, the Russian foreign minister, has not infrequently asked: "When will Rumania's equatorial army be divided?" The impression prevails here that Russia with her new economic policy, will not only refrain from war but concede to let Rumania remain in occupation for several years at least. Then, when the horizon is clear and business good, a Russian army may march in and take Bessarabia.

Women Take Prominent Part in Washington Official Life

Women are taking a prominent part in official life at the nation's capital these days, and Miss Grace Abbott who is head of the children's bureau of the United States government, is among those of prominence. Miss Abbott holds from Nebraska and has held several government positions of importance. She was formerly a school teacher in her home state. Her appointment to head the bureau was made in 1917, and she is one of two women that hold positions as bureau chiefs in the U. S. government. This bureau is the part of the U. S. department of labor.

SUCCESSOR IS SECURED FOR FAMOUS TREE

Death of Cedar Over 1200 Years Old Results in Interesting Ceremony of Transference of Spirit

TOKIO, (AP)—The famous old pine tree of Karasaki, on the shore of Lake Biwa, famous in song and legend and venerated by thousands of pilgrims each year, as one of the eight beautiful scenes of Lake Biwa, is dead, says the Japan Advertiser. This ancient pine was said to be 1200 years old, having lived from the time of the Namu epoch. During the last year it has withered and died.

Recently there was held on the shores of Lake Biwa a ceremony "to transfer the spirit" of the ancient tree to a younger tree that will succeed to the honor and near-worship which has been bestowed on the "Karasaki no mitsu." The youthful successor of the veteran which has passed is only 350 years old and is claimed to have sprung from seed cast by the old tree. The solemn ceremony was held under the direction of Kiani, priest of the Hiyoshi shrine, in the presence of more than 100 of the highest dignitaries of Shiga prefecture.

Covers Wide Space. The ancient pine was of that low spreading variety often seen in this country. Although only 30 feet in height, its branches covered a span of 185 feet from east to west and 154 feet from north to south. The area shaded by its wide spreading branches was 4000 square feet. The new tree of smaller dimensions is 20 feet in height and 11 feet 6 inches in the circumference of its trunk. The area covered by its branches is only 1200 square feet. But this tree is still a youngster and has 800 years in which to reach the dimensions of the ancient pine of Karasaki that has just passed.

OLD BASEBALL SCANDAL AGAIN BROUGHT TO LIGHT

Buck Weaver Tells Story to Judge Landis and Asks for Reinstatement

CHICAGO, (AP)—An echo of the 1919 world series scandal was heard today when it became known that George (Buck) Weaver, former Chicago White Sox third baseman, had personally appealed to Judge Landis for reinstatement in organized baseball.

Weaver is said to have declared to Judge Landis that he was approached by a White Sox player near the end of the 1919 season and asked if he would join in a plan to throw games to Cincinnati in the world series that fall. It was explained to him that several other players had agreed deliberately to lose contests and make the series a "made to order one" so far as the gamblers were concerned. "Buck" was offered \$10,000 as his share. Weaver said that although he needed money badly he never once thought of accepting the offer. He said he did not know definitely which men were involved in the plot and therefore "decided to keep quiet and play my best." The third baseman and seven others were tried and found not guilty of conspiracy.

WAGE CONFERENCE IS DECLARED A FAILURE

Swedish Manufacturers Unable to Get Together with Employees as to Cuts

STOCKHOLM, (AP)—Efforts by employers in various trades to agree with their employees on a reduction of wages have failed. The employers notified trade unions comprising about 500,000 men that the collective agreement now in force would be abrogated in the building, engineering, wood, iron and textile trades. New collective agreements on the basis of reduced wages were offered but the unions declined a collective agreement. Manufacturers contended that present wages in Sweden make it impossible for them to sell Swedish products abroad.

CHANGE IN FLAG LIKELY TO COST ENORMOUS SUM

Entry of Irish Free State Into British Dominions Brings Up Question of Interest to Ex-perts

LONDON, (AP)—The question has been raised whether the designs of the Union Jack and Royal Coat of Arms of Great Britain will have to be altered now that Ireland has become a free state within the empire.

The Union Jack has the cross of St. Patrick superimposed upon the crosses of St. George and St. Andrew. The Royal Coat of Arms has the Irish harp in one of its corners.

At the college of arms in London, it was stated that certain modifications were under consideration and that if any action were taken it would be done by the King in council. No statement any action will be necessary.

Heraldry experts say that alterations in arms are very expensive. Some years ago there was a demand from Irish quarters that the blue ground of the golden harp on the royal standard should be changed to green. It was then estimated that the alteration would cost at least two million pounds. To remove all reference to Ireland from the present Union Jack and Royal Arms would be vastly more expensive. One authority said that it would not be correct for England and the present partner, to have Ireland out of the royal arms, unless and until Ireland herself demanded it.

FRENCH ACTION MAKES FRIENDS IN NEAR EAST

Treaty with Turkish Nationalists Interpreted by the Latter as Evidence of Close Relationship

JERUSALEM. — France has achieved a great increase of her prestige throughout the Near East by her treaty with the Turkish nationalists by her surrender to them of the whole province of Cilicia, and by giving the guarantee of the maintenance of the French in the final settlement of the Near Eastern question.

Mohammedans of Syria, Egypt and Palestine are beginning to look upon France as having assumed the role of champion of Islam in succession to Great Britain and the latter efforts of Commander Williams to become the "Defender of the Crescent."

Political observers here affirm that France has secured a diplomatic victory in the Near East as a result of the Ankara pact and that this means the end of allied co-operation in handling the Turkish affairs. France, they say, has turned over Mesopotamia to Emir Faisal, who was driven out of Syria by General Gouraud. They point out that the latest Ankara pact was signed at a hostile nation on the border of Mesopotamia.

Strong for France.

Only yesterday the Mohammedans of Syria, Egypt and Palestine were all united in their condemnation of the French mandate and also in Syria. Today they are singing loudly the praises of the French mandate. It is noticeable that the latest Ankara pact is devoting many of its clauses in appreciation of the Ankara pact and the service it has rendered Islam in general and the Caliphate in particular.

Chief of Bedouin tribes, who in past months have been a source of trouble to the British in Palestine, have in the account of regular raids carried on in Syria, are now not only pledging their loyalty and good behavior but are also demanding that they be incorporated under the government of Syria.

A few days ago, a great demonstration was held in the city of Beirut to commemorate the Anglo-Turkish treaty. About 10,000 Mohammedans took part in the event. Speeches were delivered by leading citizens in all of which the keynote was "Hing live France down with England." Resolutions were adopted calling upon all Moslems in all parts of the world to stand loyal to the French flag.

In the days when all correspondence was sealed there was etiquette about the use of sealing wax. Royalty would give their favorite courier the sole right to use a certain colored wax, and officers of the state would each have distinguishing colors. Sugar.

NEW YORK. — The raw sugar market was unchanged, and no sales were reported in the local market with Cuba's cost and freight quoted at 20, equal to 3 1/2 for continental.

There was only a quiet trade in raw sugar. Futures but the underbase was steady and after advancing 1/4 to 3/4 points on trade buying and covering, prices eased off and closed unchanged to 1 point net higher. March 22 1/2; May 22.44; July 22.64; September 22.74.

The refined market was steady and unchanged at 4.80 to 4.90 for refined granulated. The demand seemed to be less active.

Refined futures were without transactions closing unchanged to five points net lower with March at 65 1/2; May 64.40 and July 65.00.

TODAY'S MARKETS

PRICES GAIN STRENGTH DURING OPENING HOURS

Well Known Industrials Register Well Defined Gains—Entire Market Is Distinctly Active

NEW YORK. — Week-end settlement of speculative accounts accompanied the buying of the stock market at the active opening of today's session. The foremost features of the advance included oil and motors, Chrysler and Studebaker, now showing gains of 1 1/4 points. California and Mexican Petroleum, Atlantic Gulf and General Asphalt also were strong. Large fractional gains accompanied the buying of American Locomotive, General Electric, Gulf States Steel, Central Leather, Famous Players, and Public Service of New Jersey. In the railway division, firmness was shown by Canadian Pacific, Southern Pacific, Union Pacific, and Reading.

Today's short session of the stock market was relatively the broadest and most active of the week. Shorts covered from the outset, and with moderately large buying for the long account, the market advanced to points marked by prominent issues. Motors, low priced steel, domestic and foreign oil, chemicals and food specialties, the latter including Coca Cola and Wilson, were especially strong. Grangers led the rails, notably Atchafalpa, Illinois Central and Chicago and Northwestern. Of the "picks" transportation, New Orleans, Texas and Mexico was the feature, rising five points. The closing was strong. Sales approximated 1450,000.

Trading in bonds was active with a firm to strong tone.

Liberty Bonds

NEW YORK. — Liberty bonds closed: 3 1/2's \$93.80; first 4's \$97.60; second 4's \$97.70; third 4's \$97.90; fourth 4's \$97.85; Victory 4's \$100.32.

Chicago Grain

CHICAGO. — The price of wheat was in order at the opening of the board of trade today. Lower markets in England and Argentina were contributing factors. First prices were 78c lower to unchanged with May \$1.11 5/8 to \$1.11 7/8 and July 99 7/8 to \$1.00. Commission houses and local market dealers in the mid and no supply appeared, until May was under \$1.11 when scattered buying checked the decline. Trade was not large.

Toward the close the trade thinned up a bit on rumors of export demand in sight for next week. Final prices were \$1.11 to \$1.11 5/8 for May and \$1.00 to 1.00 1/4 for July.

There were little doing after the close at set back and the market turned heavy. Final prices were \$2.34 to \$2.34 1/2 for May and \$3.38 1/2 bid for July.

Prices were dull at the start with oats 1-8c lower to unchanged. May was quoted at \$3.14 to \$3.8c and July at \$3 to \$3 1/8 to \$3 1/8 in the initial trade.

Prospects for larger receipts of live hogs next week and lower prices at the yards on today's arrivals caused weakness in provisions. Initial prices were generally 1/2 to 1/4c lower.

SUGGESTIONS ON WINTER DRIVING

Motor Expert Tells How to Secure Best Results With Car During Cold Weather.

RICH MIXTURE IS REQUIRED

Where Heated Garage is Used Little Difficulty Will Be Experienced In Starting—Drain Radiator on Cold Nights.

Present day grades of gasoline do not usually contain a sufficient amount of heat in present. For this reason, an excessively rich mixture is required when starting in order that some of it will retain its vapor like form and reach the cylinder. The remainder of the mixture, either fuel back through the manifold or will be kept at ambient temperature. Starting conditions in a cold garage are different, however, and it must be remembered that excessive amounts of gasoline are required for the "warm-up" process which seems to be so necessary before an engine can be expected to develop its normal power.

Drain Radiator.

From the standpoint of efficiency rather than convenience, the best way is to drain the radiator on cold nights and to fill the cooling system with water. It will be kept at ambient temperature. This then places the entire engine in the same condition, as regards temperature, as though it had been operated for fifteen or twenty minutes, and will save the amount of gasoline which would otherwise be needed to pre-heat the entire system to this temperature. It will save dilution of the crank case oil, and through the ease of starting which is thus assured will save the severest strain on the battery which cold weather usually entails. The battery is an expensive necessity of car operation, and long periods of use of the starter before the motor will respond, represent a punishment which which amounts to a serious item of cost to the owner for battery recharging, rental, repair or renewal.

Radiator covers, robes and the like will serve to retain the heat of a water cooled car for several hours. Care should be taken when starting on the street or in garages for more than three or four hours, however, in exceedingly cold weather should be provided with some form of anti-freezing mixture in the radiator. A 25 per cent solution of alcohol (lower-grade alcohol and three-quarters water) will freeze at zero, a 50 per cent solution will freeze at five degrees below and a 40 per cent solution will freeze at twenty degrees below.

Heat Wakens Them.

Little Real Graham Flour.

Graham flour derives its name from Sylvester Graham, a Congregationalist, who advocated the use of unbleached wheat flour as more conducive to health than white flour. His contentions have been fully borne out by recent discoveries in regard to starch dressed in the immaculate uniform of flour so coarsely ground as to be unpalatable.

What Makes Joke Good.

Those who joke badly suppose that a joke is a frivolous way of saying something which, but for human weakness, they would say otherwise; but, in fact, a good joke is good because it could not be said otherwise; it expresses a truth in itself humorous, and when it occurs in a speech or in literature it comes because it must. So the best joke depends on their content; in a way they are created jobs, made by events, like a good repair, which would be nothing but for the remark which has provoked it.—London Times.

ECLIPSED EVERY THREE DAYS

Astronomers Have Just Discovered Why the Star "Algol" Disappears at Regular Intervals.

There is a star that winks every three days. Algol is its name, meaning the "Demon Star," by which name it was known to the ancient Arabs. It was visible in July.

Ordinarily, it is quite a bright star, but at intervals of every three days it slowly sinks almost out of sight, and then just as slowly brightens again. The process takes about nine hours to complete.

Why it winks was for a long time a profound mystery. At last some one discovered that a dark, or nearly dark, star regularly passed in front of it and partially eclipsed it, as the moon sometimes does the sun.

Neither a telescope nor an opera glass is needed to see these nine-hour winks of "Algol," although the writer has found that an opera glass is an advantage; the night is rather hazy.

It was one of the most wonderfully impressive sights to be seen in the sky.

No one knows how the star that makes Algol wink has come to be so dark. It may be a dead or dying sun. It approaches our own sun in size, but Algol itself is much larger.

FINDS FINLAND A FAIRYLAND

American Traveler Has Nothing But Praises for the People of the Northern Country.

In Petrograd, Arthur Juhl relates in "New Masters of the Baltic," he had handed over his bag and overcoat to be checked. The functionary in charge secured a great label covered with ornate patterns in his suitcase, and then proceeded to duplicate the operation by marking his coat in the same way. "Dunfounded," at his protest against sticking so much artistic grime on his good American clothes, the old gentleman, finally agreed to stick the label on the coat.

Thirty miles out from Petrograd you cross the Finnish border. Mr. Juhl stepped into a station restaurant, deposited a small coin in an automatic, turned the crank, and out came the bed of coffee with cream and sugar on a neat metal tray. His luggage was cured for as it would be in the best American hotels. Instead of bearded Russians, there were dapper young men outside the station and charming young women inside, each dressed in the immaculate uniform of the Finnish waitress. "One west about," he says, "tubbing here and there as a child in a dream nibbles from a castle made of chocolate."

EVIDENCE OF FALLING PRICES IN GERMAN CITY

Living Costs in Berlin Mount Steadily, Hotel Living is Cheaper Than Housekeeping for Most Part

BERLIN (AP) - Foreigners sojourning in Berlin have learned that "prices go up, but never come down," regardless of the rise or fall of the German mark.

At least once a month prices are increased, and the usual increase is 10 per cent. The notice of increase is sent the day before the new rates are effective.

Disadvantages of living in second class hotels in addition to the absence of modern conveniences, are multiplied by the necessities of the workers.

TEACHINGS OF REDEEMER ARE HIS PLATFORM

New Head of American Cast Iron Pipe Company Will Operate Center Along Christian Lines

ATLANTA (AP) - The teachings of Jesus Christ are to be "the ruling principle of our business," said John J. Pagan of this city, following his election as president of the American Cast Iron Pipe company.

"The directors of the organization all are church members," he explained. "They have elected another progressive church member as president."

Christians who did not make Christ's teachings a part of their business, he characterized by Mr. Pagan as "lacking faith in the power of those principles to save the world."

Policy Eight Years Ago. "Employees of the company have been engaged in the effort of the officers to practice Christ's teachings for about eight years, it was pointed out by Mr. Pagan. First, a large industrial plant was converted, he said, and "with that as a center we have been entering constantly the scope of the company's services to its employees."

BLOODY SCENES OF REVOLUTION ARE DESCRIBED

Portuguese Sailor is Declared by the Widow of One of His Victims to be Utterly Depraved

LIBRON (AP) - A sailor commonly known as "Golden Tooth," is the principal member among the ten persons who have been charged with participating in the assassination of Terrence Granjo and several other Portuguese statesmen in the revolution which took place on the 10th of October.

"Golden Tooth" has figured in two dramatic incidents in the course of the investigation still progressing. Confessed by the son and brother of Admiral Marinho Santos, founder of the revolution, he was accused by both of them as one of the most cruel and insolent of the savage group of men who broke into the senator's house and dragged him to his death.

SALARIES OF EDUCATORS SHOW NOTABLE INCREASE

College Presidents and Members of the Faculty Draw 50 Per Cent More Than Formerly

CHICAGO (AP) - The salaries of presidents and faculty members in the state colleges and universities have increased 50 per cent since the school year of 1913-14, Commissioner John J. Tigert, of the federal bureau of education, said today in an address before the annual meeting of the Association of American Colleges.

"In the collegiate year 1913-14," he said, "the average salary of the presidents of the state institutions was \$2539. In 1921-22 we asked the presidents to estimate the value of the real estate owned in addition to the salary and to add it to the salary. In this way we arrived at an average salary of \$8661 for 1921 reporting."

TWIN FALLS MEN WIN FROM FILER

Evans' Squad Defeats Visiting Team by Narrow Margin in Opening Game

The basketball season opened here last evening at the high school gymnasium, when Twin Falls defeated Filer by the score of 22 to 16.

The local team were not up to their usual standard and their former display of teamwork was lacking. Time and time again the local lads showed how they had improved, but the necessary punch was missing. The visiting boys, however, and several times during the evening they tossed the ball into a Filer man's open arms.

Several long shots at baskets were made, but the short pass that denotes teamwork was missing.

The game was close enough at all times to keep the large crowd that filled the gymnasium in a state of excitement.

Jamison played a clever game, shooting three beautiful baskets in the first half.

Cole who took Jamison's place at center, although playing his first year of basketball, played exceedingly well and shot two nice baskets in the first half.

Stanley Crom, who played a wonderful game last week at Kimberly, again started the home folks with his close work. He hit two baskets in the last half.

It was a pretty game, as far as closeness was concerned, and the fans went home satisfied.

Tom Filer, Murray did all the heavy work, and several times it looked as though Murray's deadly aim would prove the undoing of Twin Falls, but in each instance the fiddlers of local men were able to get back into the game.

This game gives Twin Falls two wins without a defeat.

GREENWICH VILLAGE BOY BEATS BATTILING LEVINSKY

Gene Tunney, Army Trained Pugilist, Gets Away with Easy Victory

NEW YORK (AP) — Gene Tunney, the Greenwich village boy, is today American heavyweight boxing champion by virtue of his victory last night over the veteran battling Levinsky. He got his start in pugilism through a desire, while not busy with boxing punches with the Germans in France, to entertain his buddies behind the battle lines.

When boxing became the king of A. E. P. sports, Tunney entered for the fun of it. His opponents never were able to plant a real hard blow on him, and he went on to become champion at the weight of all the glove wringing artists in the American forces in France.

Sporting experts here were almost unanimous in their opinion that Fred Fulton, the Rochester, Minn., plasterer who fought a 12-round draw with Barney Madison last night, did not show enough ability to warrant a return match with Jack Dempsey.

DEMPEY-CARPENTIER MAY FIGHT IN EUROPE

Ring Followers Say Bout Would Not Pay Here But Might Draw Across Water

NEW YORK, (AP) — Ring followers conceding with Tex Rickard that another match in America between Jack Dempsey and Georges Carpentier would be a financial fiasco were inclined to believe today that such a scrimmage might be staged abroad with fair profit.

There have been reports from time to time that the Frenchman again might like to face Dempsey and this is confirmed by dispatches from Carpentier's camp abroad, after his victory over Cook, the Australian heavyweight, Dempsey's manager said the champion was ready to defend his title any time the guarantee were needed.

Dempsey's appearance might prove a strong drawing card abroad, for he would be at least as well known favorably as Carpentier.

If Georges stuck to his proposed plan of boxing Dempsey at long range it is probable that European spectators would witness a longer contest than Carpentier has staged in the past.

Owing to financial conditions abroad attendance and gate receipts would not likely approach those in Jersey City.

Dempsey, however, has no worthy opponent for a bout next summer and might be willing to go abroad for consideration less than that received from Rickard for facing Carpentier.

CARPENTIER'S CONDITION PROVED TO BE EXCELLENT

Outcome of Fight with George Cook Disposes of All Stories to the Contrary

LONDON, (AP) — Georges Carpentier's decisive victory over George Cook, heavyweight, in his second fight last night at the Casino Theatre in Jersey City, in reporting circles as definitely disposing of recent reports that the European champion was in poor physical condition.

Cook put up a game fight for three rounds, but the superior ring generalship of Carpentier, combined with his cardinal traits of strength, speed, bold, and the Australian went down for the count in the fourth. A straight left to the jaw followed by two crashing rights on the same point felled Cook, who was on one knee at the count of ten but unable to continue the contest.

Carpentier entered the ring at 170 pounds, 10 pounds lighter than his opponent, but a 5 to 3 favorite in the betting. Ring-side observers declared he had never appeared at a better and had never reestablished greater skill.

CANAL COMPANY ASKS TO RAISE CASH

Directors Reiterate Purpose to Take Part in Building American Falls Reservoir Dam, but Lack Funds Now

Reaffirming purpose of the Twin Falls Canal company to fulfill provisions of the contract with the department of the interior under which it agrees to pay a proportionate share in the cost of construction of the American Falls reservoir project from the supply of 100,000 acre-feet annually, directors of the corporation late yesterday adopted, and authorized to carry out, a plan for raising the necessary funds. The plan, which was presented by the engineering financial and industrial committees.

Similar action was last year taken by the board of directors, and the plan of the interior under which it agrees to pay a proportionate share in the cost of construction of the American Falls reservoir project from the supply of 100,000 acre-feet annually, directors of the corporation late yesterday adopted, and authorized to carry out, a plan for raising the necessary funds. The plan, which was presented by the engineering financial and industrial committees.

CASTLEFORD'S PLEDGE GIVEN TO TRAFFIC MEN

Enthusiasm Characterized the Meeting to Consider Transportation Problems

One of the largest meetings ever assembled in the school house at Castleford last evening adopted resolutions pledging cooperation and support to the traffic association. The resolutions "to limit of money, time and energy," and calling upon Governor Tamm to make provision for representative of the traffic association on the freight rate reductions in progress before the interstate commerce commission at Washington. The meeting was addressed by Leonard West, traffic department and secretary of the Southern Idaho Traffic Association, and by C. D. Thomas of Twin Falls. G. F. Thomas, president of the traffic association, presided at the meeting.

MATERIAL CUT IN MAINTENANCE CHARGE LIKELY

Canal Company Directors Decision is Reported to Contemplate Lower Assessment Against Irrigated Lands

Material reduction in the Twin Falls Canal company's assessment of irrigation maintenance costs, which last year amounted to \$2 against each acre of land under the irrigation system and which for the three years previously averaged \$2 an acre, it is reported, was decided in resolutions on the subject adopted shortly before adjournment yesterday at the board of directors closed last Tuesday. Definite figures set forth in the resolutions were withheld, pending final action on the question to be taken by the board at its next regular meeting in February, but members of the board, prior to the introduction of the subject, said they hoped to reduce the maintenance charge to \$1.50 an acre this year, and as much lower as possible.
