Trolley and Train Service Demoralized and Snow Fall Shows No Sign of Abatement

WASHINGTON, D. C. (AP)—The storm comprising the blizzard that was today was buried had been further buried under the heaviest snowfall since the long remembered blizzard of February, 1899.

The storm which began with almost unprecedented heavy falls of snow in the Carolinas, Virginia, the coast leaving buried cities, stalled trains, disrupted trolley service and a general suspension of business and social activities in its wake.

Train service from the south where snowfalls have been reported for two days and four with variable winds was wholly suspended. Several trains from the south were reported stalled between Richmond and Washington with others being held at Richmond.

Train Service Crippled.—Railroad officials were attempting to get a train comprising day coaches only out before noon for Baltimore and possibly to Philadelphia and other points north. Trains from the south were reported held up in each section, near and Baltimore, and in Maryland city.

The snowfall in the middle Atlantic section was the heaviest since the blizzard of February, 1899. At Washington, D. C., the snowfall yesterday afternoon still continuing early today, the snow had covered the national capital to a depth of a half an inch. Trolley service was practically suspended early today and prospects were not bright for government and otherwise, would be greatly handicapped.

Philadelphia Wrecked Autos.—Here streets with the heaviest snowfall were reported. The formation of drifts but the depth on the level was enough to strand practically all vehicles except those of the heavier type.

At New York, the edge of New England reached early today, although its center remained off the Virginia coast, the weather bureau predicted active weather here for now today and tonight, along the coast from New York north, although not as heavy as that over the middle Atlantic seaboard.

The blanket of snow early today was heaviest in the District of Columbia, with the fall reaching a depth of six to seven feet. At that time, it was still snowing and the weather bureau prediction was a continuation of the fall through today and into the night.

Starting shortly before dark yesterday evening, the snow fell continuously through the night and by midnight railroads and trolley lines began to be closed.

QUESTION OF VALIDITY OF MORTGAGE APPEARED

Creditors of H. S. Frame Ask Supreme Court to Determine Status Under Assignment

Idaho's supreme court will be asked to determine whether a mortgage on certain sheep given by H. S. Frame to E. E. Hagg of Pinar and attached to litigation instituted by creditors of Frame is a valid instrument, notice of appeal from judgment in the case, rendered this week by District Judge W. A. Babcock having been served today by H. S. Frame, the creditors named.

Judgment of the district court upheld the validity of the mortgage, and Hagg and Bennett are attorneys for Hagg, and H. C. Mills and S. T. Hamilton represent Frame in this litigation.

Ancient Cemetery Gate Tender Has Likely Viewed Last Funeral

"Grandpa Jimmy" Murray, 107 Years of Age, for Fifty Years in Charge of Portals of Great Burying Ground, Stricken Suddenly as Result of Unusual Activity Due to Many Funerals

NEW YORK, (AP)—For fifty years "Grandpa Jimmy" Murray has stood at the gate of Trinity cemetery, 155th street and Amsterdam avenue and watched funerals enter. He was 54 years old when he began his long vigil and today he, too, at the age of 107, was seemingly in the shadow of the

gate he had opened so many times. Yesterday there was an unusually heavy traffic through the cemetery gate and the aged man was forced to hurry to his home every 20 days. Just before night came, he collapsed. He was hurried to Bellevue hospital, but physicians there held out little hope for his recovery.

TEACHERS OF RUSSIA ARE IN WOEFUL WANT

Poverty of Instructors in the Schools of Entire Country is Distressing — Children Too Cold to Heed Lessons

MOSCOW, (AP) — The virtual breakdown of Russia's school system is one of the tragedies of the general economic situation. Outside of this city, in the dozens of smaller places where the correspondent traveled, the poverty of both teachers and pupils is appalling.

Those in the United States who got their education by tramping for miles through the snow to the little red schoolhouse were far better off than the eager students of this land. "How can I teach?" asked a woman teacher in hammer. "I have here only enough clothes to cover my body, I sleep in a cold room and I have next to nothing to eat. For months my salary has not been paid. I keep life together by trading in the public market, selling goods on commission. Nor can I expect the children to learn. They come to school hungry, poorly clad and as the rooms are cold, we go through the motions of learning, that is all. They haven't any books, there is no chalk for the blackboard. The discipline goes to pieces."

No Salaries in Months. In Moscow, teachers' salaries hadn't been paid for many months, until recently, when they were given from 200,000 to 500,000 rubles one, a month's salary, equivalent to the price of 10 pounds of butter, half enough to buy a pair of shoes, or one tenth the price of a suit of clothes. The men and women teachers are ragged, wearing clothing that is literally falling apart. Some of them have secured the privilege of living in the public buildings where some heat is furnished. The clothing of the pupils is on a par with that of the teacher.

The Moscow schools notwithstanding, there is good discipline and the pupils show an abiding will to learn. They are astonishingly light-hearted. Excitement rather than gloom is the rule, for they are happy and merry for all their poverty and just like American school children.

They fear that Raisuli's offer was made to gain time for his escape.

DOLLS FOR ADULTS IN PARIS

Latest Fad in France: Capital Gains Tremendous Vogue Among Devotees of Fashion.

LAHLS. (AP) — Dolls for grown-ups, dolls that are from three to five feet in length, that hang limp, with trailing limbs, are the latest craze in fashionable Paris. A favorite is a pale-faced pherret, with stilted, craning and bright red, bow-shaped lips. He is placed in the corner of a settee and produces quite an effect.

Another type is a snuck-headed peasant, a grotesque leer on his ruficulent face, and dressed in a blue blouse, red and white striped trousers and wooden shoes.

RUSSIAN BANK ACTIVE

MOSCOW, (AP) — Director Katerinelevich of the new Russian bank, who was a banker under the old regime, has announced that the bank has now entered into agreements with banks in New York, London, Warsaw, Rome, Riga and Berlin for the transfer of its affairs, to and from Russia by both post and telegraph. He said the bank is receiving 100 million transfer daily. Remittances of Russian money from abroad are paid in Russian money at legal rates established by the government, which St. Petersburg has said are fair, although below the market rate which can be obtained in the open market.

WAGE IDEA SOUTHERN.

MEXICO CITY, (AP) — Rumors of war between Mexico and Guatemala are described by a high Mexican official as "too ridiculous to deny." Semi-official sources were positive in denying the reports. Luis Caballero, Mexican minister to Guatemala, requested a leave of absence several weeks ago, and it is stated that if he decided to return to Mexico at this time it will be for that reason, and not because of any strained relations between the two countries.

LONDON FOLLIES IS COMING

Performance Comes with Recommendations which Give Splendid Promise

When Albert de Courville produced his second review in London and scored a hit with it, that portion of his public who pride themselves on pessimistic predictions said that "he must be a favorite son of the Goddess of Luck." When he produced eight more successes in a row they gradually admitted that he seemed to be possessed of some insight into what the public wanted in the way of amusement.

Now he has started the theatrical world again by bringing his entire Gaiety company to America (not a number two company, but the original), with Harry Tate and forty of his famous picked beauties, and in doing so he has placed the so-called "vase" in a predicament. If anyone who were attempting such a venture had it would be a case of "thumba down" by everyone who thinks they know the theatrical business, but, remembering how he made thousands of them on his eight previous occasions, they are at a loss to make a prophecy, and what is going to become of a prophet who does not prophesy? Mr. de Courville is highly optimistic regarding his American tour, and that his hopes of a highly successful season are justified as evidenced by the widespread interest with which his coming is awaited throughout the entire continent.

The Courville "London Follies" will be seen at the Lavering theatre Monday evening, January 30.

CURWOOD STORY MAKES SPLENDID PHOTO PLAY

Scene Features in "Flower of the North" Declared to be Among the Best Ever Produced

In "The Flower of the North," Vitagraph has produced a truly wonderful picture in every sense of the word. It is based upon a famous novel by James Oliver Curwood whose works among the best sellers and have over a million and a half circulation, and is scheduled for the New Orpheum next week.

"Flower of the North" is perhaps one of the best. It deals with the country "north of 53" in the summer time, and is full of action—a struggle between the hard and the forces of greed and wealth that are united by criminality. But at the heart of the story is a romance that centers about Jeanne, who has grown to womanhood at the wilderness is so strongly blended with the courtly atmosphere of old France.

The story is spectacular to the extreme. It contains thrilling fights and fights, heroic rescues and the miraculous escape of Philip and Jeanne through Big Thunder Rapids, which provide one of the big scenes of the play. From both a scenic and story standpoint "Flower of the North" offers motion picture opportunities not equaled by any of the other Curwood stories.

Betty Compson in the Paramount Picture "At the End of the World"

She was born in Salt Lake City, was for a period in vaudeville and entered motion pictures in 1917, appearing in Christie Condon's "The Devil's Trail." Attention was called to her talents when she played opposite Thomas Meighan in "The Miracle Man." She is now a Paramount star, her first stellar appearance being in "At the End of the World."

OLD TIME COMEDY WILL BE GIVEN AT LAVERING

"Are You A Mason?" Is Second Attraction for Coming Week-Splendid Company Promised

Every man, woman and child in this city should go to see one of the cleanest, most enjoyable comedies of the American stage—"Are You A Mason?" which is to be presented at the Lavering theatre on Wednesday, February 1.

It is an exoteric review of the famous clean, wholesome play made famous by Leo Dietrichstein. There are no vulgar, scandalous or sex problems in it—nothing but hearty, honest laughs, in almost every situation that arise in the based on every American's everyday life, and you will enjoy it equally with your mother, wife, sister or sweetheart. A thoroughly good company of professionals at present touring the United States, will present this charming comedy here and from the reports of their performances they are winning wonderful receptions wherever they play. The success of this old favorite play, in the hands of players, to a more normal, healthy state of mind in matters per-

SEA SCENES ARE FEATURE

"At the End of the World," with Betty Compson, Heraldized as One of the Best

One of the most interesting sets ever constructed for Betty Compson's first Paramount star picture, "At the End of the World," which opens to the Idaho theatre next Monday and Tuesday. This setting represents a light-house, complete in every detail, which was built on a lonely promontory along the California sea coast. It is in this lighthouse that some of the most exciting action transpires.

The picture is an adaptation by Adelaide Hillborn of a play by Ernest Klein. Miss Compson has a remarkable supporting cast, including Milton Sills, Casson Ferguson, Mitchell Lewis, Joseph Kilgour, Spatswood Atken and others.

WOULD ABOLISH PULQUE AS NATIONAL DRINK OF MEXICO

President Obregon Proposing to Follow in Footsteps of Uncle Sam—Commission Named

WASHINGTON, (AP) — Abolition of pulque, the national drink of Mexico, is planned by President Obregon, according to a report to the commerce department today from Consul Cornelius Ferris at Mexico City. President Obregon, he said, has appointed a committee to study the problem of abolishing the maguey plant, from which pulque is produced, which is practically the only crop of the large haciendas throughout the valley of Mexico.

Seventy-five per cent of the deaths registered in Mexico City, Mr. Ferris declared, and throughout the central section of the country where pulque is principally used are said to be caused by the drink, which is indulged in by men, women and children. The reform would be brought about gradually, he reported, but if the young plants are now destroyed instead of replanted the supply would be exhausted in from seven to ten years.

Clear Night in Scotland.

On a cloudless night one can sit by the shores of the Moray firth and read a newspaper at midnight, and gold, seals and bows have all been played while England slept. Cattle can be seen steadily grazing through the clear night. The birds, too, appear to be a little puzzled by the unusually bright conditions. Their twittering never ceases, and occasionally one will break loud song that another will answer.

DAUGHTER OF SELF STYLED EMPEROR WEDS

Long Island Crime of Three Years Ago Recalled by Nuptials of Daughter of Chieftain in Tragedy

NEW YORK (AP) — Jacqueline Lebaudy, the late Jacques Lebaudy, self-styled "emperor of the Sahara" has been married in Paris to Roger Sudreau, it was learned here today through an announcement by Ernest S. Saffers, administrator of the estate of the young woman's father. Lebaudy, an eccentric figure, was shot and killed by his wife three years ago, when he attacked her and her daughter at the family home in Long Island. Mme. Lebaudy was tried and acquitted.

About 20 years ago Jacques Lebaudy and his brother Max, who claimed they inherited a vast fortune from their father, began to obtain prominence in dispatches from Europe. After Max died, leaving to his brother his share of the father's estate, the latter conceived a plan of forming an African empire, and ordered built in London a magnificent throne. International complications developed, and the plan came to nothing.

INDIAN VICEROY SAYS MAJORITY WANT ORDER

Declares Duty of England is to Restore Order and Stay Out of Politics

DELHI, India, (AP) — Lord Reading, viceroy of India, laid forth the attitude of the Indian government toward the revolutionary elements in a recent address to a delegation from the Punjab Chamber of Commerce. After promising that the full strength of the government would be exerted to prevent disturbance, he said at that time, Lord Reading added:

"We have no desire to interfere with the lawful activities of political parties, however opposed to us, but, although we are most anxious to redress all legitimate grievances and to remove the grounds of popular discontent, yet we cannot allow any political party to impose its will upon the country by violence, intimidation, coercion or other unlawful means."

Must Respect Law.

"There is today a natural and legitimate desire on the part of the vast majority of the people that the law should be respected and observed. I cannot but think that in many quarters there is a misconception of the position of the government of India. They say, I verily believe, the support of the law-abiding citizens of India."

"It cannot be fairly said that we have abused our power. Indeed, we are sometimes criticized for not having sufficiently exercised it and I readily admit that we sought to avoid action which might either be misconstrued or misrepresented as too severe or as provocative."

American Newsboys Four Will Be Headliner at Monday and Tuesday Shows

The American Newsboys Four, a quartet of clever youngsters who may be relied upon to give a performance that will please and one that will be remembered will be the headliner at the New Orpheum Monday and Tuesday. Good, wholesome comedy is the feature of this offering with harmony singing presenting the latest song hit of the day, this number is a vocal surprise.

Roberta and Davis deliver laughter on topics you all understand in the Wise Guy and the Book Kid, a humorous combination of comedy nonsense. Norton and Kane are two delineators in bright ideas, a mixture of pantomime, acrobatic, chit-chat comedy, a waltz song and juggling. Florine, the Girl and the Piano Accordian, who is master of this music instrument adds red and enjoyment to the music-lovers. She will start the show with her artistic ability.

"Not Guilty," a Sydney Franklin eight-part super-special, and a two-part comedy are also on this bright and catchy bill.

THIRTY PARISIAN GOWNS WORN BY SINGLE ACTRESS

Ethel Clayton in "Wealth," Coming to Idaho Theatre, Sets on Interesting Fashion Array

Ethel Clayton, the beautiful Paramount star, wears thirty rich Parisian gowns, all fashion confections, many taken from the Parisian fashion magazines she recently spent several weeks on her tour of the world, in her latest picture, "Wealth," which will be shown at the Idaho theatre next Wednesday and Thursday. Miss Clayton is noted for the superiority of the gowns which she wears in her pictures. In the previous production she has worn costumes as stunning as those which she displays in "Wealth." They constitute a veritable display of the latest creations of the most famous Parisian modistes and every woman admirer of Miss Clayton will relish the showing. The story is simple and the various scenes are thrilling and appealing. Herbert Rawlinson heads a strong supporting cast of players.

TO CUT DOWN WASTE.

CLEVELAND, O. (AP) — A campaign to stop waste through careless handling, packing and tagging of freight is being conducted by the New York Central Railroad company. T. A. Ward, special representative of the freight claim department of that railroad, told Cleveland shippers at a conference recently. More than \$100,000,000 was lost by the various railroads last year through stowed freight and damage caused by packing over \$100 received in freight revenue the New York Central in 1920 paid \$3.03 in claims, he said.

Steel-Head Trout.

The stretch-out is classed as a salmon by fishermen and the fishing trade, and it is said that it was given the name "steel-head" because of the hardness of its skull. Fishermen tell that it often requires several blows from a club to kill this fish when captured and taken into a boat.

NEWS NOTES OF THE MOVIES

Interesting Comment on Men, Women and Shows with Personal Comment on Lives of Leading Figures of Stage and Film

"Lorna Doone" is the latest novel which has proved interesting through the test of the years that is coming to the screen. Maurice Tourneur is the producer, and Midge Holliday, who recently played opposite Douglas MacLean in "Passing Through," has been selected for the title role.

Dorothy Phillips Holubar and Allen Holubar took a long vacation after "Man, Woman and Marriage." However, they have started work again and are now busy at the United Studios on "The Soul Seeker." Incidentally, the United Studios were formerly the Brunton studios, so when you hear their names mentioned in the future you will know that they are one and the same.

The author of "Sonny" refused to permit the story to be filmed, so they say, unless Richard Littlefield, played the role of Sonny. That suited Dick's right, for he wanted to get the motion picture rights to the story. They have already begun work with Henry King directing and Pauline Carson the leading lady.

After a short vacation in England, Elinor Olyn has returned to the Lasky lot where she is again taking an active interest in the production of her stories.

POLISH CHILDREN SAIL ON RETURN TO WARSAW

Three Hundred Orphans After Two Years in America, on Way to Far Off Home

NEW-YORK (AP) — The steamship Princess Matinka, sailing today for Danzig, has on her passenger list 295 Polish orphans who are beginning the last lap of a trip around the world. They fled from their native land two years ago to escape starvation and death in the wake of the Red Bolshevik armies, then driven hard against the Polish forces defending the capital of that republic.

The little globe trotters are to be returned to Warsaw, where the Polish government will find homes for them. When the children awakened this morning aboard the vessel, Red Cross workers were on hand to present them with gifts and wish them bon voyage.

CORN COBS ARE RICH IN VALUE

Recent Discovery Opens Up a New and Interesting Field of Opportunity

RACINE, Wis., (AP) — The common corn cob which heretofore has been a waste product on the farm, may come to be considered a valuable article of commerce as a result of experiments just conducted by Professors L. R. Fred and W. H. Peterson of the University of Wisconsin and reported to the Wisconsin Agricultural Experiment Station. It was discovered that cobs are rich in acetic and lactic acids both of which are used extensively in the industries.

When the corn cobs are partially water soaked and inoculated with the bacteria *lactobacillus pentoseus*, equal quantities of acetic and lactic acid are produced. If the year of commercial scale are equal to the laboratory results, every ton of corn cobs will yield more than 300 pounds of acetic acid and 250 pounds of lactic acid.

Heavy Annual Yield. There are produced in the United States alone more than 200,000,000 tons of corn cobs yearly. A great amount of these are used for pipes or in feed but the great bulk usually is discarded. Acetic acid is used in many technical operations in various other industries.

CAPITAL IS BURIED BY BIG STORM

(Continued from Page One)

Overnight until 9 o'clock this morning no trains left the capital and only three trains, two from New York and one from the west arrived. Gathering the generally little used snow fighting material, railroad officials shortly after 9 o'clock succeeded in getting out two trains, one over the Pennsylvania and the other over the Baltimore and Ohio from the north and hope to continue intermittent service during the night.

No Car Service. In the national capital itself, street car service was practically suspended at 4 o'clock but gradually was being restored on the main lines, but thousands of government employees were forced to struggle through almost knee-deep drifts of snow to the government departments, while others in outlying and suburban sections took auto outside and decided to remain at home.

Pennsylvania avenue, the capital's historic thoroughfare, was strewn with abandoned automobiles. Numerous accidents were reported and the police reported several calls to aid to find persons believed to have lost their way in finding their homes.

Heavy at Baltimore. Reports of the weather bureau show the fall of heavy rain today at Baltimore stood at 14 inches. Lynchburg, Va., reported 20 inches, the heaviest in the world in that city. The storm was reported to be continuing at Richmond, where street cars were completely tied up and many trains stalled or held in the yards. Balt., N. C., reported several inches and about half inch of sleet and the snow still falling.

Conditions at Norfolk appeared to be the worst, with a gale of 51 miles per hour not a part of the business section of the city under water and crippled shipping.

ONLY ONE TRAIN TODAY

PHILADELPHIA, Pa., (AP) — The only train from the south on the Pennsylvania line, a night train, passed through here before 9 a. m. today. It left the national capital at 4:28 a. m. The Pennsylvania official said there was no section interruption to service west from sections interrupted to service here today and had reached a depth of four inches at 10 a. m.

Calings of Trade Dollars

The total number of trade dollars coined was 35,955,243. The number redeemed under the act of 1907 was 7,088,000, and from the bullion resulting from the melting of these dollars there were coined in addition five \$2,000, 674,530 and into standard silver dollars \$5,078,722. Since the expiration of the period of redemption trade dollars have been purchased as bullion when presented at the mints.

Ancient Vanity Boxes

Greek and Roman ladies affected small caskets or coffers, like a modern lady's sewing box, which were borne gracefully under the hooded skirt of full length. Very often they were carried by a slave, walking respectfully in the rear, and, where their owners were patricians, usually included a stytia and waxen writing tablet among their contents.

TRAFFIC EXPERT WILL ILLUSTRATE ARGUMENT

Leonard Way Plans to Use Stereoscopic in Driving Home Points

Leonard Way, formerly traffic expert for the state public utilities commission and now secretary of the Southern Idaho Traffic Association, in oral moments at his office here is preparing an illustration or "graph" showing the ups and downs of motor production, prices and transportation rates since 1913. It shows, as would be expected, the rise of prices with the fall of production, but it shows, too, that prices paid to Idaho growers are consistently lower than the general market price and that there has been a steady increase in transportation charges on potatoes.

This is one of a number of illustrations which Mr. Way expects to project by means of stereoscopic in connection with a series which he is planning to conduct in school houses and other meeting places throughout the district served by the traffic association.

ORANGE CROP DAMAGE APPARENTLY GROWING

Recent Cold Waves in California Now Estimated to Have Destroyed from 20 to 50 Per Cent

WASHINGTON, D. C., (AP) — The damage caused by the recent cold wave in California to the orange crop will amount to 20 to 50 per cent, depending on locality and to the lemon crop about 65 per cent, the department of agriculture said in a statement today, based on reports from its agents in the state. The statement added that it would be about two weeks, however, before complete estimates could be made.

STORM INTERFERES IN STOCK MARKET SALES

Many Private Wires Down and Trading Generally Affected by Weather Conditions in East

NEW YORK, (AP) — Trading on the stock exchange, the opening of today's session was curtailed by the storm, the wires of many commission houses being out of commission. Prices were irregular, but mainly upward. Columbia graphophone proffered made a further gain of 5-8 on its better financial condition and American Iron rose 3 points. Tools were active in chemicals, shippings and utilities, the latter including public service of New Jersey and Peoples Gas.

Various speculative shares including many obscure issues, were bid up by pools in the course of today's short market session. American Ice, Hemington Typewriter, May Department Stores and Krugg Rose 2 to 6 points. Other representative stocks, Mercantile Marine preferred, General Electric, Mexican Petroleum, Peoples Gas and Associated Dry Goods gained 1 to 1 1/2 points. Rails were neglected, except for a two point rise in Norfolk and Southern. The closing was firm. Sales approximated \$20,000 shares.

Between \$1,500 and \$2,000 was expended at the close of last year for taxes on MACHINERY AND EQUIPMENT ALONE by the Printing Establishments of Twin Falls County.

Add to this the amount expended in taxes by the men who own the various plants and publishing houses and it should become apparent to anyone that Twin Falls county is actually the center, in this part of Southern Idaho, of the Printing Industry.

Make use of this industry --employ it for one hundred per cent of your Printing needs--Regard it as one of the important lines of business which has so far been developed here. Make it pay more taxes, employ more men--the industry is willing to serve.

If you can buy a better product in the printing line elsewhere, by all means do so. But give this particular "Home Industry" the same chance that you accord the salesman for the outside establishment.

Twin Falls Printing is Good Printing.

SOUTH AMERICA IS CHOSEN FIELD

Next Expeditions of Field Museum Will Investigate the Southern Hemisphere

CHICAGO (AP)—South America will be the field of four out of six selected research expeditions to be sent out by the Field Museum of Natural History during the next five years. Two of these expeditions will gather biological specimens in the area from Brazil to Patagonia and two, one zoological and one botanical, will study the animal and plant life of Peru.

An archeological expedition will visit the isthmus of Panama and the state of Colombia and at the same time an ethnology expedition will go to the more peninsular regions. The latter will go before summer and will be gone for a period of two to five years.

The department of geology is one that plans to extend its expeditions over a period of five years. The first of these will be headed by Dr. Oliver C. Farrington, curator of the department of geology, and will consist of geologists and geologists of the department of geology. One of the objects of this expedition is to secure a full series of minerals associated with the diamond.

Will Visit Brazil.

Two later expeditions under Dr. Farrington's direction will visit the important gold and iron mining districts of Peru and Bolivia. The latter expedition will also take specimens from the important nitrate and vanadium mines of Chile.

Specimens of pre-historic vertebrate life will be searched for by the second of the geological expeditions. This expedition will visit the Santa Cruz basin of Patagonia, certain areas of the peat formation of northern Argentina and some cave deposits of Brazil. It is hoped to secure some specimens of the great ground sloth, the mammoth and other types of vertebrate life of South America. The expedition will be under the direction of Mr. E. B. Riggs of the department of historical geology of the museum.

LOCAL EIGHTH GRADERS DEFEAT KIMBERLY TEAM

Big Improvement Noted in Work of Home Team—Social Session Later is Greatly Enjoyed

The Eighth Graders of the Junior High went over to Kimberly yesterday afternoon and won from the eighth grade team of that town by the eight score to 19. The game was a decided improvement and played far better than on their last appearance in Twin Falls.

Miss Casey, coach of the local team, has in the eighth grade boys a team that will hold its own with any of them. Their team work yesterday was remarkable, considering the ages of the boys.

For the home team, Victor Galoway center made three baskets, as did Frank McMaters, forward, and Russell Potter, running guard, made one basket, running forward, made one basket.

After the game the boys were entertained with some real eats prepared by the girls of the other grade cooking class. The Twin Falls boys also won in this set to.

The line-up of the local team: Victor Galoway, center; Frank McMaters, running forward; Clyde Lane, left forward; Howard Berg, standing guard; Russell Potter (captain), running guard.

HIGH SCHOOL NEWS

Results of the final class elections were announced to the school yesterday afternoon. Dale Starr was re-elected for senior president. An election for student body president, in which Allan Lind was chosen secretary for a second term. The student councilors are: John W. Johnson, Neil Cole and Helen Reed.

Frank Powers succeeded John McMartin as president in the junior class. Cleo DeWitt was made secretary and Clayton Lyons was elected class speaker.

Miss Joy was elected as the class sponsor.

Boss Cole was elected president and Martha Farrar was elected secretary in the sophomore class. Miss Reed was elected as sponsor and in the freshman class Miss Barnes.

VARRO'S ADVISORY

Varro, author of the famous book on agriculture, lived in the Ciceronian age. He built a model aviary, with fish ponds, and duck houses enclosed by oak nettings. Similar nettings spaced housed blackbirds, nightingales and other song birds. The aviary was furnished with fresh water, and food was introduced beneath the netting. Scientific American.

INDIANS MOVED IN SINGLE FILE

To go Indian file is simply to walk in single file. The Indians, when marching through a woods, especially on the warpath, moved in single file, the one behind trailing oxactly in the footsteps of the one ahead, and the last man carefully checking the footsteps of that which had preceded him. In this way the Indians were able to conceal not only their numbers, but also their whereabouts.

The Music department of the "Trentons" club met Friday afternoon with Mrs. I. H. Masters and Mrs. A. C. Stevens at the home of Mrs. Stevens, Sixth avenue east. A short business session was held, presided over by the chairman, Mrs. Frank Ellis. A new secretary and treasurer were elected, Mrs. Norvin J. Keefer, to take the place of Mrs. W. A. Alexander, who is leaving soon. The program was organized by Mrs. Stevens, giving a splendid paper which was followed by a solo by Mrs. W. H. Dwight, "Ho Is Despair." Mrs. Dwight and Mrs. Masters sang "He-He-Hee-Hee-Hee" both from the Messiah. Mrs. Masters gave "With Verdure Glad" from The Creation, A. Trio, Miss Emma Smith, Mrs. Dwight and Mrs. Masters, sang "Lift Thine Eyes," from Elijah. Mrs. Dorman Johnson was the accompanist of the afternoon. The rooms were attractive with vases and baskets of marigolds. Light refreshments were served.

Mr. and Mrs. Olson Strong were hosts at a surprise party on Thursday evening, commencing at 7:30. Mr. George Webb, who is leaving Twin Falls to make their home permanently at Burlington, Daning, games and military with refreshments were enjoyed. These present were Messrs. and Mrs. D. J. Ellsworth, Ted Van Meter, L. L. Webb, J. E. Abell, S. L. Lory, C. Kirkman, P. A. Hanary, Mrs. Parker Webb, Miss Thelma Webb, Mrs. J. J. Shipp, Roy Webb, Lavon Strong and Lois Strong.

Mrs. B. A. Read was hostess to the Luncheon club on Friday. Covers were laid for fourteen. Bridge followed the luncheon, Mrs. C. E. Booth winning the honors.

The Pythian Sisters met at the home of Mrs. James Woodhead on Second avenue west Friday afternoon. About fifteen members were present and the following ladies were visitors: Mrs. Edna Taber, Mrs. Roy Ledson, Mrs. D. C. Howard and Miss Gertrude Taber. Sewing and conversation made the hours pass swiftly, and delicious refreshments were served by the hostesses, Mrs. Woodhead, Mrs. Fletcher and Mrs. Arthur Eldred.

Mrs. W. H. Stanley entertained informally at dinner on Friday evening for Miss Mary Wright and Miss Miriam Lecky, who are among the instructors in our city school.

TWIN FALLS IS BEATEN BY FILER AGGREGATION

Game Described as Hard, Fast and Rough, with Good Individual Plays

Offering their first defeat of the season, the Twin Falls basketball five met their match last evening at Filer when Coach Deeman's men put them under a 27 to 10 score.

It was the roughest ever seen on this section, and although Coach Deeman has rounded up a real fast and snappy team, it is to be regretted that they are forced to employ the tactics used last evening. Many a football game has been a far gentler affair than last evening's. There was a tripping, holding, tackling and slugging, in fact, there was everything but clean basketball.

Such games are not going to help high school sports, and the sooner they are done away with the better the fans will support high school athletics.

Twin Falls is not offering any all-star or all-probability, they would have six well-defeated just the same in a good clean game, but some ruling should be made to stop the protection of games to be played in the future.

For Filer, Murray did most of the scoring with a total of 12 points, followed by Blackborn with 10. Timm made the other two.

For Twin Falls, Merrill Jamison played a snappy game scoring eight of the 17 points. Cron, playing his usual clever game, scored 7.

A large crowd of Twin Falls patrons went over to cheer their heroes.

BIG CROWDS GATHER AT BILLIARD TOURNAMENT

Many Players Show Improved Form as Series Moves Along—Attendance is Increasing

The two games last evening at McClellan's brought out another capacity crowd.

Eppler (40) playing Cummins (35) easily outclassed his opponent, playing a game that ranks well up to this very best. Eppler seems to be getting better as the tournament progresses, and when the final week starts he will be right up at the top. Last evening, after making one of his famous scratches, he piled up five more real billiard points in all probability will be high average.

In the second game of the evening, Ray Brown (32) kept up his perfect score of not winning any games by leading on the snail end of a 36 to 20 score against Bonebrake (46). Bonebrake had a high run of four. In the latter part of the game Brown came in and got within three points of winning. This game went 112 innings.

This evening's game will be played between Snook (40) and Bailey (30). This game will start at 7:30 sharp. The second game will be between Goldwater (40) and Larson (22). This game should be a hammer, as both players

THEY DO NOT TRUST LEAGUE... Arrangement for an Anglo-French military defensive alliance which, despite the change in the French government, is likely to be ultimately confirmed...

ARRANGEMENT FOR AN ANGLO-FRENCH MILITARY DEFENSIVE ALLIANCE... The general return to the old system of military alliances is a significant commentary on the way in which the principal powers appraise the practical value of the League of Nations.

THE GENERAL RETURN TO THE OLD SYSTEM OF MILITARY ALLIANCES... The authors of the League intended that it should render unnecessary private party warfare among the nations for the purpose of mutual defense.

THE GENERAL RETURN TO THE OLD SYSTEM OF MILITARY ALLIANCES... It is not in accord with the spirit and traditions of our government to become involved in a foreign military alliance.

IT IS NOT IN ACCORD WITH THE SPIRIT AND TRADITIONS OF OUR GOVERNMENT TO BECOME INVOLVED IN A FOREIGN MILITARY ALLIANCE... The Anglo-French arrangement is logical, in the absence of an authoritative international association to keep the peace, and so is the Anglo-Belgian convention.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... This is a much more explicit guarantee than that afforded by the provided by the "neutralization" of Belgium in the original British-French-Prussian treaty.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... These powers not to invade Belgium, but they were not definitely pledged to go to war on her account if she were attacked.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... Great Britain will now serve notice that anyone who fights little Belgium will have to fight her also.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... Instead of relying on the broken reed of the League of Nations, Belgium will cast her lot with Britain.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... Some day such arrangements may not be necessary, just as when there are no criminals we shall not need police.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... But no one can blame either Belgium or France for securing protection from possible marauders.

THE ANGLO-FRENCH ARRANGEMENT IS LOGICAL, IN THE ABSENCE OF AN AUTHORITY INTERNATIONAL ASSOCIATION TO KEEP THE PEACE... Their prudence is the product of their sad experience.

DISCOVERED BOOKS... A thoughtful writer in a New York newspaper is authority for the suggestion that the intellectual unrest of this period is about to result in the "discovery of real literature."

DISCOVERED BOOKS... Americans who have never been interested in the classics to an intelligent extent.

DISCOVERED BOOKS... It is refreshing, in the face of the frequently expressed regret over the decadence of a love for solid literature.

DISCOVERED BOOKS... There are tokens that the times are to see a revival of such interest.

DISCOVERED BOOKS... Whether this is due to the "intellectual unrest" or not is a matter for the analyst and psychologist.

DISCOVERED BOOKS... The fact is that library records in many cases show more changes of readers and far more individual patrons of the libraries are being found to find there is interest.

DISCOVERED BOOKS... Reuts and Sheridan, inspiration in Shelley and Coleridge, information that

particularly apposite to these times and their problems in Gibbons and Macaulay and Hugo and the finest sort of entertainment and refreshment in Dickens and Scott.

RECOMMENDS CHINESE STOCKS AS FIELD FOR AMERICAN INVESTMENT

Famous Statistician Sees Great Future for Asiatic Republic Which He Declares Has Greatest Natural Resources of Any Country in the World—Labor Supply is Practically Unexploitable and People Naturally Industrious

By ROGER W. BABSON. (All Rights Reserved.) WELLSBLEY HILLS, Mass. (Special to The News)—If you must gamble foreign securities—like the transactions in this field would indicate that you feel you must—

It is true that we have been brought up to think of China only in connection with hundreds, big toys and enigmas. These impressions of our youth are, however, very misleading. China is today experiencing a tremendous awakening.

China is today experiencing a tremendous awakening. It is the richest country in the world. But unlike South America, which is also rich in natural resources, China has a great and increasing population.

The largest available labor supply in the world can be found there today. China and the United States are united by the available labor. Then in one generation it could become a great industrial and commercial power.

There are distinct signs that this spark is already kindling. Very few realize that China's ambassador to the United States is also her ambassador to Great Britain are graduates of mission schools established

by American churches. Not only that, but a majority of her delegates to the great Washington conference for the limitation of armaments are earnest Christian men trained in the Christian mission schools. This is a simple statement but it is of great significance, industrially and commercially, as well as religiously and socially. It means that China is getting the only thing that it lacks—

It is getting the only thing that it lacks—education. If you have any doubts about this—consult with any of the great church missionary societies or the International Y. M. C. A. which is doing much toward the rehabilitation of this vast Asiatic republic.

Securities Go Begging. At the present time, the few securities in use are in desperate. Even the Chinese railway bonds, technically known as Chinese Hukang Railway's are a good deal of a gamble. The Chinese debt is very small and these securities could easily make good. I am not advising the purchase of any foreign securities, through these few securities, but to look for them and foreign securities do not fall to include China in your list. China is turning the corner.

THE WILL TO IMPROVE. Luke 18:14: "I tell you that the more he wills to improve himself, the more he will be improved."

IN HIS PAPER FOR THE PUBLICATION OF THE PHARISEE, Jesus undoubtedly went contrary to the common opinion of the Pharisees. He was justifying a publican as we would say, approved the Pharisee. The people thought of the Pharisee as the better man, and they were wrong.

LISTEN TO THE PHARISEE AS HE SPEAKS TO GOD: "God, I thank thee that I am not as other men, extortioners, unjust, adulterers, or even as this publican. I fast, and I give tithes of all that I possess." Of these we dislike this self-complacent spirit.

THESE WORDS HAVE BROUGHT THE NAME OF PHARISEE INTO DISREPUTE. The Pharisee was honest. He didn't lie to God. He was a good man. Outwardly he lived a good life. This Pharisee was a better man than the publican who was unquestionably a man of excellent social and financial position.

LISTEN AGAIN TO THE PHARISEE: "God, I thank thee that I am not as other men, extortioners, unjust, adulterers, or even as this publican. I fast, and I give tithes of all that I possess." Of these we dislike this self-complacent spirit.

HELPED BY SENSE OF HUMOR

Posibly Man Who Would Incorporate It in the Marriage Ceremony Is Right.

A man got up the other day and said it was his opinion that a sense of humor was so important in life that it ought to be put right into the marriage ceremony.

It is needless to add that the man who got up and said it was a bachelor. If he had been a married man he wouldn't have been allowed to get up in the first place, and even if he had managed that he couldn't have dared say anything so radical.

This gentleman's suggestion was that, since the "obey" had been omitted from the service, the loving couple should be required to "love, honor, and have a sense of humor" until death do them part.

"Undoubtedly a sense of humor has its place in the home, but we don't see the advantage of thrusting it into the wedding service.

If you really had a sense of humor in working order you wouldn't be doing anything so ridiculous as promising anything. A man getting married is in no condition to enjoy a joke—even if he is one.

When a man can hardly keep a wife, the way prices are now, can he be expected to keep a sense of humor? Even if he did manage to scrape up the remnants of one after the wedding it would be knocked out by the first of the month, when the bills begin to come in.

Generally speaking, a sense of humor in matrimony is about as much use as a map of Europe, published in 1913.—Chicago Herald and Examiner.

GREAT GAME IS ADVERTISING

Has Developed Until Today It Calls for the Services of Trained Experts.

Advertising is a game. Business is its stake. No other game has greater scope or importance. Too many business men play it carelessly.

Competition is the great instructor. Run your eyes over the advertisements of today and you will find it showing a skill, and ingeniously worded, deserving the name of art. The interested like news heads and have the appetite for news. The copy is terse and readable. It tells people unambiguously how they can economize; where they can buy the best goods for the least money and with the least inconvenience to themselves. Everyone wants to economize now. The advertisement which does not promote economy might as well not be written.

We see a judicious use of space and appropriateness of display that makes even modern good advertisement a cinch. If one should compare them with the old-fashioned advertisements, he would be surprised at the improvement.

And yet there are shrewdly advertised items, advertisements which merely take notice and exhibit the backwardness of those who pay for them.

The best skill in any game is only attained by trained experts. Others may have a good idea and flashes of luck. But only the expert knows how to use good ideas for the maximum result without relying on luck.—New York Mail.

TOOK THE KISS SERIOUSLY

According to French Scientists, the Romans Had Three Distinct Ways of Specifying It.

Dr. Emile Mialope, a scientist of Lyons, France, and a contributor to physiological subjects to leading French periodicals, has written an article for the Forum in which he traces the development of the kiss as a social custom from earliest history.

The first manifestation of the kiss encountered in history was that of the Duke of Malmouche, "are those which are not further removed from the kiss of homage, appear rather as ceremonies, than as natural and spontaneous expressions of sentiment. The Bible starts with a passage in which the Greeks and Romans had a special veneration for statues; there was at Agrigento, according to Cicero, a marvelous statue of Hercules, of which the lips and chin were completely blank without by the devotion of the faithful.

"The Romans, as well as the Greeks, knew the kiss in all its perfection. Their physiologist wealth in this regard, is an added proof. Without counting the divinites, they had three words specifying the kiss: The osculum, the amplexus, and the oscula. The osculum, which was the kiss of friendship; the amplexus, more tender, was the kiss of relatives, and of husband and wife; finally, the oscula applied to the kisses of lovers."

Turk as a "Goat Herder." The famous goat herder of primitive centers who sits his milk by the jet or cup from the goat skin bag on his back has his modern prototype in the person of a chap who appeared on the Bowersy said the New York Sun.

Slung over his shoulder was a large white metal container similar in shape to the goat skin bag and from one end of which protruded a spigot. The top of the container was garly festooned with flowers and flags and for three coils the pottler would take a small paper cup from his pocket and draw a little milk from the spigot, pour it into the cup and offer it to the thirsty youngster or passenger. The carrier of the metal container wore a bright red turban on his head. His trousers were broad-beamed of the same color and his sash of the kind figured in lithographs of the Terocious Turk.

Good Writers of Opinion. The only good writers of opinion are those who instinctively reproduce the atmosphere of discussion, whose sentences have the tone of discussion, with themselves or with an imagined group.—Randolph Bourne.
