PREVENTION OF ACCIDENTS PAYS BIG DIVIDENDS

Interesting Figures Supplied by Chicago Great Western as to Casualties Last Year and Formerly

CHICAGO, (AP)—Systematic accident prevention pays, in dollars saved and suffering avoided, say officials of the Chicago Great Western railroad, in making public figures to show reductions in deaths and injuries on that road for 1921.

Accidental deaths were cut from 33 in 1920 to 20 in 1921, according to a statement issued by the company and the number of injuries reduced from 614 to 514 in the period.

Ten of the deaths in the last year resulted from automobile crossing accidents, five of those killed were trespassers on the right of way and five were employees, while no passengers were killed, the statement adds.

The western division was the banner offered by the company for fastest train and train service casualties per 100 engine hours.

The company boosted safety work among the employees by means of daily wire bulletins in each division announcing the number of days absent from the division. The bulletins were copied and posted at all telegraph stations. It was put out to train crews whenever they cleared a station and was also read and mailed to points in the service not reached by telegraph.

Factors which went to promote safety work, according to the statement, are:

1. Whole hearted support of safety work by the management.
2. Conviction of superintendents to the idea that accidents show inefficiency and that their prevention is just as much a part of the day's work as the prevention of train accidents, that safety work is the first principle of efficiency, not a side issue.
3. Conversion of employees to the belief that accident prevention work really decreases accidents—that the employee is the chief gather through such work and that carelessness is a criminal folly from which only physical suffering and financial loss are to be expected.
4. Promotion of a spirit of competition among employees by the giving of prizes among divisions.
5. Improved methods of maintaining interest in accident prevention.

WRESTLING IS POPULAR

SUGENE, Ore., (AP)—Wrestling has become increasingly popular at the University of Oregon here this year, because the mat sport has recently been given a major standing, with a full-sized "O" as the award. A large squad of men are out nightly under Coach Gerald Barnes. Although there is a dearth of material in the 175-pound class, several men in the other classes show promise, including Wagner and Whitcomb, 125; Strano and Waters, 135; Kirtley, 145; and Nygren, heavy. Meets thus far arranged are: February 4, Oregon Argos at Eugene; February 27 or 28, Washington at Eugene.

Lines to Be Remembered

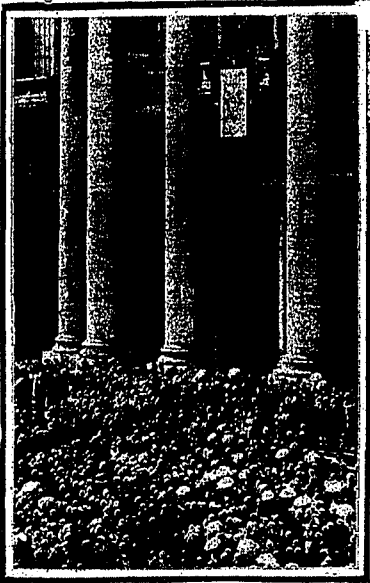

To do an evil action is base; to do a good action without incurring danger is common enough, but it is the part of a good man to do great and noble deeds, though he risks everything.—Plutarch.

New Polish Minister Appointed to United States

Prince Sapieha will soon join the diplomatic corps at Washington as the new minister from Poland.

Announcing Election of New Pope

A scene similar to this will occur at the vatican, with the announcement of the election of the new pope. Throngs are shown gathered under the balcony at the vatican when the election of the late Pope Benedict XV was announced.

START WORK ON BRIDGE ACROSS DETROIT RIVER

Engineers Engaged in Running Bores for Preliminary Estimates of Operations

DETROIT, (AP)—First actual steps toward bridging the Detroit river between this city and Canada have been taken. Engineers have started boring at several points between Twelfth street and River Rouge on the American side and between Windsor and Ojibway on the Canadian side, to determine the location of the structure. The borings will find bed rock on which to place tower piers, on which cables will be anchored 100 feet below the surface of the Detroit river. Results of the borings will be known within the next month.

Long Single Span

The span will be 1802 feet, the longest single span bridge in the world. The present record length is held by the cantilever bridge at Quebec, which is 1800 feet long, or but two feet shorter than the one to be built here. Surveys to fix harbor lines will be started within a few days. Accurate measurement of the distance across the river also will be made to match street lines and permit engineers to fit the bridge steel. Actual construction of the bridge will start with the coming of favorable weather in the spring, it is announced.

The bridge will carry vehicular and street car traffic and also afford walks for pedestrians.

CHICAGO PLANS WATER ROUTE TO PHILADELPHIA

Regular Passenger Service to be Inaugurated; Five Ships to be Used

CHICAGO, (AP)—Without waiting for action on the proposed Great Lakes-St. Lawrence deep water route to the sea, Chicago will have regular steamship service to Philadelphia next summer, according to officials of the Chicago Steamship company.

Five ocean-going steamers have been purchased to start the line. All the ships come within the present dimensions of the Welland canal locks, so they can pass from the lakes to the St. Lawrence.

One of the vessels, the George W. Clyde, left Philadelphia for Chicago several weeks ago loaded with sugar, but after being buffeted by winter gales off the Nova Scotia coast, was caught by ice in Lake St. Clair, above Detroit and is now held there waiting for a thaw. The Clyde is able to plough through six-inch ice on the open lakes, but the narrow St. Clair has been jammed with thick floes.

Two More Secured

Two other ships, purchased from the shipping board at Seattle, are outfitting for the long trip via the Panama canal and the St. Lawrence. The same trip was made last summer by the passenger steamer Petoskey, formerly in the Seattle Alaskan service.

The Chicago Steamship company has purchased two other tramp steamers, one of which is now at a Cuban port and the other at Philadelphia. The five ships will make regular ports of call including Detroit, Montreal, Quebec, Boston, New York and Philadelphia, according to J. C. Hoskins, general manager of the line.

PRIZE FOR MODEL YACHT.

SEATTLE, (AP)—A yard for miniature ships—model yachts—has been established in a big houseboat moored near the Seattle Yacht club's quarters on Lake Union here where junior members of the club are hard at work afternoons and Saturdays on more than 70 entries for the club's first model cup race to be held May 1. Older members have provided all facilities for the boys and supplied them with designs and instructions. A prize has been offered for the best model yacht constructed.

Spanish Licorice Industry.

The manufacture of licorice extract and paste is an important Spanish industry. This is a comparatively new industry; its formerly the root was exported manufactured, over 6,000,000 pounds of the root were exported in 1913 and more than 100,000 pounds of extract and paste.—Brooklyn Eagle.

What is unclear to you may be vague to others—advertise it in the classified columns.

UNIQUE DINNER PARTY ENJOYED

Socialist Premier of Sweden Has Guests 300 Unemployed Men and Women

STOCKHOLM, (AP)—Hjalmar Branting, the socialist premier of Sweden, recently gave at his own cost a dinner to 300 unemployed men and women of Stockholm. The premier and Mrs. Branting acted as host and hostess, while the guests were waited upon by society women of the capital.

Later in the evening, the guests were given hot baths and provided with lodgings in the municipal lodging houses of Stockholm.

That the premier of a European state has personally entertained his destitute constituents. When his guests had eaten their fill, Premier Branting addressed them on the economic conditions in Sweden.

The premier began by informing them that neither this dinner nor any other private or public aid extended to men and women without work was in any sense charity, but simply what was rightfully due them from those who were fortunate enough to be able to help. He said it was not their fault that they were without means of livelihood, but the result of warped conditions throughout Europe.

Immediate Results Unlikely.

Mr. Branting warned his guests that the efforts of the state to better social and economic conditions could not be expected to lead to immediate results. Alluding to the chaos in Russia, he declared that the slow-moving efforts of the old established government system to improve social conditions was infinitely preferable to the breaking up of the old social system.

This is believed to be the first time seen where such a course led. But so

cial solidarity, he continued demanded from every person that he help as far as he possibly could in relieving the distress of the more unfortunate.

"I hope," the premier continued, "that others will follow this example and that you will see thereby an utterance of social solidarity which breaks through all barriers."

The premier's speech which was delivered with great earnestness, was received by a spontaneous and enthusiastic applause.

Worth Considering

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you will consider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. There are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.—adv.

"I want some letterheads but I want them in two colors and of course, you don't do two-color printing—"

Important if true, BUT Where could the man have gotten such an idea?

The fact of the matter is, two-color printing, or three-color, or four-color, is just as simple a proposition to a properly equipped printing office as is one-color printing.

Lots of two and three-color work is done in Twin Falls—work which will compare well with similar work anywhere.

Ask your Twin Falls Printer to show you samples.

There are no better equipped printing establishments anywhere than those to be found right here in Twin Falls—some few people don't believe this, but that is because they don't want to believe it.

Set your Twin Falls Printer on a parity with any printing establishment anywhere—he can stand it!

SIGNS OF WAR ARE APPARENT ON EVERY HAND

Astrakhan, Russia, Declared in Deplorable State — City is Compared to New Orleans After the War

ASTRAKHAN, Russia. (AP)—Once prosperous but now ravaged by revolution, the situation of this city recalls the visitor of the condition of New Orleans after the Civil War. It is trying to rebuild its city, but the process is slow. Even in its position Astrakhan resembles New Orleans in some ways. The city is pitched on an island on a point where the Volga river divides into many smaller streams forming a delta, that extends 60 miles to the Caspian sea.

The commerce of Astrakhan was once comparable with that of St. Louis, Memphis, or of New Orleans. It was rich in furs, in fish, in exotics, and busy throughout the day. The streets were paved with gold. There was once food for every mouth and clothes for every back, work aplenty for every man.

Many Signs of War Today are seen the wrecks wrought by combat, between the imperial and revolutionary forces, but an sympathy is expressed with Communism. "We have had enough," said some of the workmen who, together with thousands of others, followed and joined the revolution. "The bourgeoisie and the bourgeoisie in 1917, took to arms and besieged the Cossack troops and the wealthy people of the city, gathered in the Kremlin and the city government. We have no jobs in the city, no work, no money, no food, no clothes, no shelter, no shelter at the heart of the business district.

The immediate result of these 16 days of struggle was the destruction of the "Duma" buildings, the governor's house, the great bazaar, and several blocks of stores filled with dry goods and furs and all the furniture, carpets, silks and other fineries. The ultimate result is indicated by the bare, fire-burned walls looting, standing and empty, and the work on the river and no food in the homes for these workmen. The people have little money to buy anything.

Horses All in Cavalry The spirited horses which once filled the horse market at the river side have gone to the war and are now being reconditioned for the present Russian cavalry, a few troops of which are quartered here. The city is a hospital where 300 patients lay there was practically no broth for famished refugees nor quinine for fever sufferers. Dr. Zakatkovsky, the military surgeon, and the American relief was promised but so far it had not come. The only public gathering place open seemed to be the movie picture theatre, which was crowded with young people and soldiers of the Russian cavalry watching an utterly vulgar Italian tragedy.

U. OF I. UNDERCLASSEN ORGANIZE NEW SOCIETY

Glen Wilkinson of Twin Falls One of Members of Newly Formed Knights of Ball and Chain at Moscow.

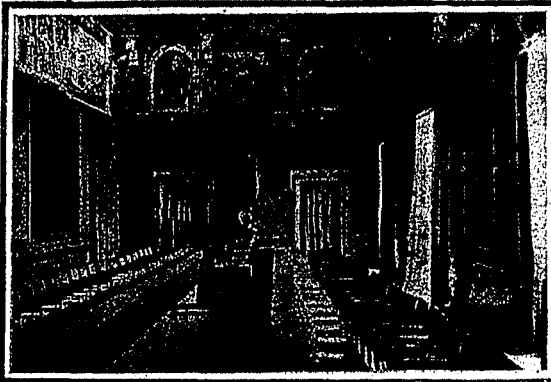

UNIVERSITY OF IDAHO, Moscow, (Special)—The Knights of the Ball and Chain, an honorable underclassmen's society, has taken its place on the university campus and was given official recognition at the last meeting of the student body. All members will be chosen from the freshman and sophomore classes.

The society, in form, is similar to the Knights of the Book at the University of Washington, the Oregon Knights at Oregon and the Bear Paws at the University of Montana. Its primary purpose is to entertain and furnish entertainment for visiting students and faculty members, who are at the university. The organization also will be active in organizing students for relief rallies, helping in the promotion of any student activities and in general, will be a bunch of handy men ready to be called on for any duty that may be for the advancement and benefit of the university and its students.

Ted Turner of Caldwell, yell king, is president of the Knights of the Ball and Chain. Van Peterson, Boise, is secretary and Loren Bull, Moscow, treasurer. Other members are: Glenn Wilkinson, Twin Falls; Emil Stiles, Boise; Harold Cornelson, Moscow; Wayne Leitch, Wendell; Malcolm McKinstry, Sandpoint; Merle Drake, Challis; Melvin McBride, Port Orchard, Wash.; and Dilbert Boise, Moscow.

One Name to Yellow Livens The yellow color of the yellow lichen grows on the Yellowstone park over its rich color and its name is the yellow lichen covering its lofty walls; and the lichenable hue of the great hot-spring terraces arise mainly from the presence of minute plants growing in the water that overflows them. Milk Snake Harms None The house or milk snake is a handsome and mild-tempered coldblood snake, very abundant in farming districts, where it frequently enters houses, probably in search of mice rather than for the purpose of drinking milk, as is popularly believed. Reading of Good Books A book we may read over and over again we remember it and it gives us pleasure, or at our leisure. So that good books are a very great remedy to the world.—Richard Baxter.

Where Cardinals Meet to Select Pope's Successor

Historic Sistine chapel in the Vatican where cardinals from all parts of the world will meet in secret session to choose Pope Benedict's successor.

BOY SCOUT COUNCIL

Interests and Activities of the Young Citizens of Twin Falls

The executive council and the scoutmasters Wednesday listened to a very interesting talk by Dr. J. H. Taylor of Salt Lake City. He told many anecdotes from his wide experience in scout work, and gave a bigger vision of the work that they were doing.

He stated that John Vanambler had such confidence in the type of boy that started in scout work and stuck to it, that he gave jobs to only young men who had been scouts. We have preference always to those who are at least first class.

Last week, also a small bunch of Twin Falls business men, who lunched together, stated that they would give preference first to a boy who had the ambition and ability to become a first class scout.

Dr. Taylor answered many questions which were put to him by the scoutmasters, and showed various medals and other devices for keeping up the interest and enthusiasm of the boys.

Last Sunday afternoon six boys from

several different troops spent a couple of hours in the park learning the different kinds of trees and passing their nature study tests in that subject.

Final Returns on Scout Picture Show Money received—Erster's troop, No. 9, \$29.20; Caldwell's troop, No. 8, \$14.10; Nixon's troop, No. 7, \$64.80; Johnson's troop, No. 6, \$5.85; Berg's troop, No. 5, \$11.25; Munson's troop, No. 4, \$6.05; McLean's troop, No. 4, \$17.87; Twentieth Century club, \$3.15 taken in at door; \$27.35; total, \$179.62.

Money paid out—Muster, \$6; advertising, \$3.50; printing, \$12; film rental (3 days), \$5; tax (5 per cent), \$2.75; posters, \$1.80; telegram, \$1.67; telegram, \$3; telegram, \$2; express on film, \$3.44; return express, \$3.38; postage on machine, \$1; frame for machine, \$1.75; total, \$46.25; amount paid E. R. White, \$41.49. Net profit, \$41.49.

Inter-troop Basketball Game.

Troop No. 1 and troop No. 4 clashed at basketball in the high school gymnasium on Friday night. The score was 29 to 13 in favor of troop No. 4. The teams were lined up as follows: Troop No. 1—Jack Skinner, rf.; Berry, cg.; M. J. Wyatt Johnson, c.; Voy Gluh, lb.; Vincent, lg.; Troop No. 4—David Al-

ford, rf.; Edward Walters, lf.; J. H. Hoke, c.; Walter Weaver, rg.; Veranus Murray, George Duke, lg.

News of the Troops. Troop No. 6 met Thursday night in the high school gymnasium and the evening was spent in boxing, etc. Dr. Taylor's talk to the scoutmasters was also discussed by Mr. Johnson, scoutmaster.

At the last meeting of Troop No. 4 Wednesday night, an election was held, at which Joe Deiss was elected senior patrol leader; Veranus Murray, junior patrol leader; Oscar Floyd, scribe, and Donald Martyr, assistant scribe. Only those boys whose marks on their scout tests totaled the highest were considered as candidates for these offices. Average grade to become a first class scout is about 3200. The following are the scores of all the boys who have earned 1000 points or more: Joe Deiss 2900; David Alvord 2920; Oscar Floyd 2800; Donald Martyr 2700; Veranus Murray 2318; Willard Wilham 2200; Walter Weaver 2200; Carl Hahn 2000; George Winder 1923; Clifford Bice 1795; Clark Beeson 1774; Paul Birkford 1757; Arthur Swenden 1525; Wilson Jackson 1445; George Duke 1440; Ross

Colo 1107; Edward Walter 1076; Wesley Mentch 1570.

(Troop No. 3 met on Thursday night with the following results: In attendance: Donald Lenz, Wallace Caldwell, Chester Wilson, Charles Wilson, Jim Patton, Dennis Tracy, Byron Benish, Horace Robinson. The first two annual check ups were for an old-fashioned contest on scout knowledge. The sides alternated in asking questions of the other and each side made a good score point for the other side. The final score stood eight to three in favor of Wallace's side, consisting of the captain, Byron Caldwell, Chester and Charles Wilson.

Patrol No. 1 elected Donald Lenz, as patrol leader; Chester Wilson, assistant patrol leader, and Jim Patton, scribe. The patrol leader, assistant patrol leader, and Horace Shupman constitute a committee to organize and direct the discipline of the troop. They in attendance were divided into four teams, and about 20 minutes of boys in signal practice. Several of the boys are about ready for their examinations in this work.

It was unanimously voted to hike down to Rock Creek canyon on Saturday, to practice cooking, signaling and first aid work.

A Hike by Compass

Bernard Martyr, say bundle on the hike, and I left the Scout cabin as the clock hand neared nine in the morning. Martyr carried a surveyor's telescope, which he focused on the cabin. As the saying is, and headed directly south across the hills and valleys. We crossed the hill, which is to the left of the cabin, down into a very large and deep valley, which connects to the smaller one. Here, we were following a cattle trail and Martyr found the broken end of a deer horn, which is now in the Scout cabin.

From this peak we were on then we could see far in the distance the Shoshone Basin, which was then yellow with either wheat, or wild mustard. We could see cattle grazing far off in the distance, scattered on the hills. We went on for several hours crossing hills and valleys covered with sage brush, quaking aspens, pine trees and rocks. We had crossed several streams, from which we drank.

We began to come to where cattle were scattered around grazing, and a large red bull would have liked to chase us, but we soon crossed that small valley and were in the underbrush. We went onto the top of that hill, which was covered with pine trees, and here we turned to the east and went for about a mile just inside of the pines

where we found a dead porcupine. We then turned north toward the cabin, and crossed hills and valleys until we came to a very high hill, with a flat plateau on top, which the wind had swept across at a high rate of speed. Before we reached the top, we thought we would be able to see the cabin from there, but when we reached it, no cabin was in sight.

We started down the hill through some very heavy underbrush, but soon came to a clearing which the wind followed it down for quite a ways, and just as we got to the bottom, a very large deer crashed out just ahead of us, and ran for a short distance, and stopped looking at us for a just a little while, then darted ahead and up over the brink of the hill. We went on following some trails that went north, and wounding how far camp was, so we stopped on the next hill to look over the surrounding country, but we could not see anything which looked familiar, so we kept on our way, and suddenly emerged into a clearing which showed signs of lumbering, and upon examination, found some newly cut stumps.

We then were far from where we had when we came into a very dense growth of little pines. We had to force our way through them until we came out into a hill, from which we could see a road in the distance.

Arriving at the road, we discovered that we were about a quarter of a mile from camp. We followed the road into camp, and found that supper was about ready. We were surprised to find that it was so near six o'clock. We then went for a long walk and supped heartily at supper time.

—OSCAR FLOYD, Eagle Patrol No. 3, Troop 4.

The Swallow Dives

Some boys were being given instruction in diving. The particular lesson was on the swallow dive. "Now, Jenkins," said the instructor to the most backward pupil, "you take a turn." Jenkins made a hopeless attempt and created a alarming splash. "That's not a swallow dive," said the instructor. "My bird" gulped the unfortunate Jenkins. "With a light I had swallowed the whole pool!"

Chamberlain's Cough Remedy

This is a pleasant and reliable medicine for coughs and colds. It has been in use for many years and is held in high esteem in those households where its good qualities are best known. It is a favorite with mothers of young children, as it contains no opium or other harmful drug. Try it when you have need of such a remedy.—Advt.

Fishing Boat Starts International Dispute

This is the new famous little fishing boat which captured the surprise of anglers between the United States and Mexico, and its skipper, J. Herndon. The vessel was fired on and seized by a Mexican gunboat and despatched through into jail and fined, on charges of illegal fishing...

Theatro

(By FIRST NIGHTER.)

AGED FRIEND OF BIRDS IS DEAD

Note of Pathos in Final Passing of Man Who Cared for the Feathered Visitors

DUBUQUE, Ia., (P)—J. A. Rhomburg, 83 years old, for a half century a friend of Idaho birds, was found dead today in his home from Specht's ferry. Outside, the birds had fed and sheltered, fluttered and twittered about the door unaware they had lost a friend.

FANS' PREDICTIONS ARE SET AT NAUGHT

Defeat of Epler by Bailey Furnishes Main Feature of Local Billiard Tournament

Table with columns: STANDINGS, Name, W, L, Pct. Includes names like Larson, Epler, Bonhoefer, Goldwater, Snook, Cummins, Bailey, Brown.

Once more the hope went wrong when Bailey (38) defeated Epler (40) last evening in the final round of the local billiard tournament.

Eppler came through with his second run of six, and it looks very much as though the high run prize will be handed over to this player.

Eppler came through with his second run of six, and it looks very much as though the high run prize will be handed over to this player.
