DATE FIXED FOR COMPLETION OF HUGE MEMORIAL

National Victory Building Expected to be Ready for Occupancy in Time for Next Inauguration Ceremonies

WASHINGTON, D. C., (AP)—National Victory Memorial building here commemorating the father of his country and the sons who defended it in the world war, is expected to be completed by 1925 in time for the next inaugural ceremonies.

The present plan for financing the project is through state participation, each state subscribing a sum of money for each citizen who served in the world war. The individuals to be represented by the state are those who were in the military service of the United States, which will form state chapters on a huge service flag in the dome of the building.

Bond Issues Problem.
Some of the states, it is understood, will issue bonds while others will sell funds by popular subscriptions. Tennessee has authorized a one hundred thousand dollar bond issue; Ohio has completed its state subscription to undertake the raising of its fund, while Maine, Delaware and New York, and the District of Columbia already have guaranteed hearty cooperation.

In President Harding's recent endorsement of the erection of the building, he explained that it was to be a national memorial commemorating not only the services of all Americans in the world war, but perpetuating the memory of George Washington, and carrying out the suggestions suggested in his will. The president's solicitation of state cooperation in the erection of this national monument, and a national day of observance to protect began many years ago by the George Washington Memorial association.

Pays Fine Tribute.
In connection with the laying of the cornerstone of the George Washington Victory memorial, as it is called, on November 14, in the presence of high government officials, foreign representatives and the heads of the army and navy, President Harding said: "We are come to pay tribute to the foresight which first encouraged and endorsed the institution here established—an institution which is to be alike a monument to those who sacrificed in a noble cause and a beacon to show the light of useful knowledge and grateful understanding among men."

Unique Gathering Place.
The purpose of the memorial was also announced as a gathering place for Americans, where American minds could meet in fruitful exchanges. Thus, as the president suggested, this institution of the national capital may become through its varied uses, a veritable "University of American citizenship."

It will fill a long-felt want, for, happily, though the city of Washington has become an international meeting place, it is not yet equipped with suitable assembly rooms.

When completed, the building will house the headquarters of national military and patriotic organizations, while spacious rooms will be set apart for the exclusive use of the states and territories. Organizations may, upon request and without charge, use the auditorium and assembly rooms for meetings and conventions.

MANY CITIES REPRESENTED
CHICAGO, (AP)—Forty-five cities are represented in the fifth annual tournament of the Elks National Bowling association, opening here today and continuing until Feb. 20. The Elks finished 346 pins are entered and in the singles 600 bowlers will compete. There are 166 teams entered in the meet from all parts of the country.

OLD CALIFORNIA TREE HAS UNIQUE HISTORY

Scale of Record Worked Out Discloses Interesting Commentaries

RED BLUFF, Cal., (AP)—Unusual historical interest attaches to a paper received recently by Deputy Supervisor C. C. West of the Lassen national forest. The document, received from a friend, consists of a scale prepared by Edgar de la Rue of El Dorado, California county, California, 1865, showing the growth of the original Sequoia gigantea, in the famous Calaveras grove of big trees. This grove, in the year in which de la Rue made the scale, was cut down and a dance hall was erected upon the immense stump.

According to the scale, the tree started growth about the year 620 A. D., at the time of Mohammed. When the battle of Tours was fought in 732 the tree was 110 years old. At 830, when Christianity was introduced into Sweden, the tree had attained the age of 210 years. In 1870, the beginning of the reign of Alfred the Great; the tree was 250 years old. At 1066, the time of the Norman conquest of England, the tree was 450-years of age. Thirty years later, at the time of the First Crusade, the tree was 480 years old. The tree died at the age of 609 in the year 1230, when Magna Carta was signed and in 1280, when Wales was conquered, the tree was 660. The tree was 730 years old in 1350 at the time of the battle of Cressy. When John Huss, the reformer, was burned at the stake, in 1420, the tree had reached 690 years. When John of Arc drove the English from France, in 1430, the tree was growing steadily—it was then 810. In 529, when Babylon discovered the Pacific ocean, the tree was 59 years old. At the time of the defeat of

the Spanish Armada, 1580, the tree was 970 years old.

Attained Enormous Size.
The tree was 300 years of age when Oliver Cromwell was made Protector in 1650, 1140 when Quebec was captured in 1700, 1156 when America's Declaration of Independence was signed in 1776. It was 1230 years of age when California was admitted to the Union, in 1850, and 1244 years old at the close of the Civil war, 1865, the year it was cut down.

The La Rue scale said that the tree grew to a height of 302 feet, had a diameter of 24.6 feet, six feet above the ground, and a circumference of 83.25 feet. The area of the section of the stump was 521.5 feet.

MANY BAPTISTS IN RUSSIA.

MOSEKOW, (AP)—Dr. Everett Gill, representative of the Southern Baptist Convention of America, who is here for the purpose of distributing clothing among the Baptists of Russia, says he has been surprised to find there are between 1,000,000 and 2,000,000 Baptists in this country and that Russians take readily to immersion, as they are accustomed to it because of its practice by the Orthodox church.

Timber Baptist evangelists are now endeavoring to spread the teaching of that doctrine very widely in Russia. A union of all the Baptists of this country is planned next June. Until now they have been divided into two branches, one located at Moscow and the other at Petrograd.

The Russian Baptists say they have not been persecuted under the soviet regime; the lot of the communists being mostly directed at the Orthodox church, which they regarded as a tool of the empire.

STATE OF WASHINGTON TO TAKE BOLD ACTION

Authorities Will Withhold Privileges of Legal Residence to Illiterates

SAN FRANCISCO, Cal., (AP)—Illiterates who in the future go into the state of Washington will be required to learn to read and write before they can secure actual residence, according to present plans of the Washington literacy commission. Mrs. Josephine Collins Prater, superintendent of schools of the northern state, declared in an address at a National Educational Association literacy conference here today.

Washington's state literacy commission held its first meeting January 30 in Olympia, the capital. Mrs. Preston said, and made plans for the eradication of illiteracy in the state.

"The state of Washington has been thoroughly aroused to its problem of illiteracy during the past two months through the crusade being waged against it under the leadership of the national literacy chairman, Mrs. Cora Wilson Stewart, of Kentucky," she added.

Will Be First State.
"Washington will be the first state to wipe out illiteracy. North Dakota has challenged the other states to be the first to wipe out illiteracy, but long before North Dakota's challenge for 1924 comes due, we shall stand out as an illiterate state.

"Washington has a small percentage of illiteracy, but so long as one individual remains in our state not emancipated from mental bondage, we shall consider our work in illiteracy not completed."

CHICAGO, (AP)—Indictments against seven officials and former officials of Chicago charging violation of the civil service law through sale of subscriptions to a political newspaper backed by the city administration and tickets to a picnic given by the political faction headed by Mayor Wm. Hale Thompson, were returned today by a special court by grand jury.

Evidence submitted to the jury was intended to show that city employees virtually had been forced to subscribe to the paper and buy picnic tickets under threat of losing their jobs. One of the men indicted was said to have sold \$5,000 worth of subscriptions by himself.

"Pardon me, doctor," broke in the medical student, who had caught these words as he was about to pass by into the consumptive ward, "but if you have no objections, I'd like to take a few notes on that accident case."

Mr. and Mrs. Jones had been invited to a friend's home for tea, and the time had arrived for preparing for the visit.

"Come along, dearie," said Mrs. Jones to her three-year-old son, "and have your face washed."

"Don't want to be washed," came the reply.

"But," said mother, "you don't want to be a dirty little boy, do you? I want my little boy to have a nice clean face for the ladies to kiss."

Upon this persuasion he gave way and was washed.

A few minutes later he stood waiting his father's washing.

"Ha, ha, daddy!" he cried. "I know why you're washing!"
