Prominent New York Man is Sought in Connection with Mysterious Slaying of William Desmond Taylor

SEES HER FATHER'S PICTURE FOR FIRST TIME ON SORROW

NEW YORK, (AP) — Ethel Dwyer daughter of William Desmond Taylor, slain motion picture director, first learned his identity when his image was flashed on the screen of a New York playhouse and her mother who was with her exclaimed: "That is your father!"

LOS ANGELES, Cal., (AP) — The little green-eyed monster, jealousy, plied private detectives with a trail of photographs in the possession of her mother, Mrs. E. L. C. Collins, of Manhattan, wrote to Taylor in care of the motion picture company, that he had a correspondence that continued up to the time of the tragedy.

QUEER CHAIN OF EVENTS LEADING TO FINAL CRIME

Story of Killing of J. Belton Kennedy Presents Air of Mystery as Far From Solution as Ever

LOS ANGELES, Cal., (AP) — Mrs. Madeline Obenshain of Chicago and Evanston, Ill., camped with Arthur C. Borch, a former college acquaintance to kill J. Belton Kennedy, a young Los Angeles real estate broker, according to the indictment in which Mrs. Obenshain and Borch were jointly charged with murder.

Married Chicago Attorney

In spite of the apparent intimacy of the young woman, who up to that time was Miss Madeline Conner, was married only in January, 1919, in Los Angeles, to Frank B. Obenshain, a young Chicago attorney who had just returned from overseas army service.

Mrs. Obenshain started west last July 1921, according to her affidavit in San Francisco. He was not there when she arrived, and she came to Los Angeles.

On July 17, Mrs. Obenshain wired to Borch, who was in Evanston to come to Los Angeles, adding, "I need you and the friend I had last summer."

Mrs. Obenshain told officers she saw two rough looking men diverging in lines from which the shorter one fired and that Kennedy, after he was shot, exclaimed, "Goodnight, Madalynno."

Burch, it developed, was out in a rented car that night, and two persons swore they saw him in Beverly Hills, He left Los Angeles the next morning for Chicago, but was arrested at Las Vegas, Nev., and brought back to Los Angeles.

The prosecution contended that Borch, who was divorced last year by Mrs. Alice Conroy Borch, daughter of Bishop Matthew Borch of St. Louis, Mo., was in love with Mrs. Obenshain and subject to her will in the alleged conspiracy.

CODE OF ETHICS FOR NEWSPAPERS ON A HIGH PLANE

Oregon Editorial Association Sets Forth Rules for Proper Conduct of Better Class Publications

EUGENE, Ore., (AP)—Setting a standard upon truth, civility, thoroughness, justice, mercy, kindness and moderation, the Oregon State Editorial Association adopted recently at a meeting here a code of ethics intended to guide the profession of journalism in the state.

The code was prepared by Dean Colin Dymond, of the University of Oregon, at the direction of the association and was unanimously approved at a representative gathering of Oregon editors and publishers who pledged themselves to adhere to its precepts.

Accuracy Insisted Upon

There are seven sections to the code and they go in detail into all practices and relationships of journalism. The first is headed "Accuracy and Truth" and declared for accuracy in editorial, advertisement, article or news story.

"Care, Competency, Thoroughness" is the caption of the second section which includes among its duties the following: "By study and inquiry and observation, we will constantly aim to improve ourselves, so that our writings may be more authentic, and of greater perspective, and more conducive to the social good."

Protection, within reason, of the rights of individuals mentioned in public documents, regardless of the effect on "good articles" is upon editorial policies, "is a principle included in the section devoted to "Justice, Mercy, Kindness." This section also declares against making "privileged utterances" a cloak for unjust attack, or spiteful venting, or carelessness in investigation in the cases of parties or persons.

Avoid Hasty Conclusions

"We will endeavor to avoid the injustice that springs from hasty conclusions in editorial or reporter or interpretative articles," is a principle laid down in section 4, devoted to "Moderation, Conservatism, Propriety." This section also provides against distortion of news by improper emphasis, skillful arrangement, or devices of typography or rhetoric.

The section dealing against partisanship and propaganda sets forth the following: "We will not permit news in exceptional cases, the publishing of news and editorial matter not prepared by ourselves or our staffs, believing that original matter is the best answer to the perils of propaganda."

"No man who is not in ethical advance of the average of his community should be in the profession of journalism," is a declaration in the section devoted to "Public Service and Social Policy." "We will keep our writings and our publications free from favoritism, except so far as we may sincerely believe publication of scurrilous details to be for the social good," says an article of this section.

On advertising and circulation the code pledges the Oregon newspapermen to co-operate with those special agencies whose business it is to raise the ethical standards of advertising, and to bar such advertising as the publisher has reason to believe will deceive the reader.

Modesty Endorsed

"We will not advertise our own newspaper or its circulation boastfully or otherwise in terms not in harmony with the clauses of this code of ethics," is another provision of this section which concludes with the following: "We will not make our printing facilities available for the production of advertising which we believe to be socially harmful or fraudulent in its intent."

ONE MORE VICTIM

WASHINGTON, D. C., (AP)—Miss Caroline Upham of Atlantic, Ga., niece of Representative Upham of Georgia, died early today as a result of injuries inflicted by the Kilduff fire, the theater disaster. Her death brought the number of dead from the disaster up to 93.

Neglecting That Cold or Cough?

LETTING the old cough or cold drag on, or the new one develop seriously, is folly, especially when at your drugstore, you can get such a prompt and successful remedy as Dr. King's New Discovery. No drugs, just good medicine that relieves quickly.

For over fifty years, a standard remedy for coughs, colds and grippe. Eases throats also. Loosens up the phlegm, cures the croupy cough, stimulates the bowels, thus relieving the congestion. All druggists, 60c.

PROMPTLY WONT CURE

Dr. King's Pills

PROTECTION NEEDED BY GOVERNMENT OFFICIALS

Bill to be Introduced to Provide Punishment for Unseemly Demonstrations

BERLIN, (AP)—The "Junker" press and the socialists of Germany are at odds over a proposed law intended to protect members of the government from insult and to prevent anybody insulting others to violence against them. Announcement has been made that the government intends to introduce a bill in the reichstag providing for imprisonment and fine up to \$500,000 for persons guilty of insulting the president or the president or any member of the central or federated government.

The socialists contend that the law is necessary to protect the country against violent and treacherous monarchic propaganda and chicanery. The conservative and nationalistic newspapers, on the other hand, attack the law as free speech and free thought. They accuse the socialists of outraging their own principles as they formerly fought against the president and several royal personages of Germany from analogous statements.

The newspapers now opposing the bill have been won't certain radical leaders to protect the country against the republican constitution and the government's democratic political leaders.

OVERFEEDING KILLS BOY

OHENWURO, Uganda (AP)—The danger of giving solid food to starving children was illustrated on the platform of the station here.

When the train from Tsekent to Moscow halted here, a woman single mother with two children, took pity on a small boy begging at the car window. She gave him a part of white bread, which he began to eat voraciously. Within a few minutes he went into choking convulsions and within a half hour was dead.

"You All"

Prof. Annette H. Hopkins, of the English department at Coecher college, said that the only way to iron out sectional desires and colloquialisms is to get 'em young and train 'em. If a student is not made aware of her peculiarities of speech before she is twenty or eighteen, Professor Hopkins believes, it is usually too late for effective permanent correction. "To achieve a speaking vocabulary unspiced by localisms," she said recently, "requires more than four years of college. Thus at Coecher, 'you all' is a firmly established institution."

New York, Evening Post.

Too Dangerous

Vicar—You mustn't neglect their education, Mrs. Craddock. Why I had to pinch severely to send my boys to school.

Mrs. Craddock—Ah, sir, but Craddock is too fearful of the law to do anything like that.—Tit-Bits.

POLAND FAST COMING BACK

Work of American Relief Administration Will Probably be Discontinued

WARSAW, (AP)—Poland is gradually making her place in the world as a self-supporting nation, according to recent reports of allied experts in economics. Within the last few months the new republic has made rapid strides toward straightening many difficulties, in the opinion of the students of economics, one of the principal factors assisting in a balance in Poland's favor being liquidation of the Upper Silesian matter which had been hanging fire for nearly three years, the settlement giving the Poles their own coal and gas from 10,000,000 to 13,000,000 tons annually for export.

Many Children Fed

The population of Poland is approximately 30,000,000. While the American relief administration continues to feed some 500,000 children in the devastated areas and some of the crowded industrial centers it is planned to abandon this work in the principal factories assisting in crops another season, the experts believe the government and the people will be able to get along without outside help.

The necessity of buying foreign exchange for foodstuffs, a situation which Poland faced from the beginning, is almost passed an agricultural estimate that, with few exceptions the country's own products will meet the requirements. This is expected to reduce the constant drain on the government treasury which bought flour and other necessities from America and elsewhere and sold them at a loss to the people.

Gold Return Expected

To assist in meeting current expenses an emergency tax legislation has been enacted by the diet, from which a return of something like 80,000,000,000 marks is expected. The regular tax assessment has been readjusted with the aim of bringing in a return which will offset the present, depreciated value of the Polish mark and the increased cost of government.

In Lodz, the largest industrial center of the young republic, the cotton mills are operating at about 60 per cent of pre-war capacity and the woolen mills at about 25 per cent. Some of the Lodz textiles are exported to Russia over the Ukrainian frontier.

Raw cotton for the Lodz spinning is received off the platform within 48 hours the Poles are compelled to buy from the outside, this necessitating purchase of foreign exchange with Polish marks as low as 2000 to the dollar.

The new year means new letter and invoice titles. We have them. Clois Involc Store—adv.

TO PROMOTE GOOD ROADS

Texas Highway Advocates Take Steps for Decision to Close Up Construction Job

DALLAS, Texas, (AP)—Further progress toward perfection of the Texas-Mexico division of the Bankhead highway is, expected at the meeting of the Bankhead Highway association to be held at Phoenix, Ariz., April 24-25. F. E. Morris, president of the Automobile Club of Texas, has received word to this effect from J. A. Bountree of Birmingham, Ala., director general of the Bankhead association.

The Automobile Club of Texas has completed a log and map of the Texas-Mexico division and marked the highway its entire length. The division extends from Mt. Pleasant, Texas, to Laredo, Texas. The club has received President Oberon's endorsement of the proposed extension of the Bankhead and Meridian highways to the Mexican capital, Mr. Morris said, thus creating an international line that will be beneficial to both the United States and Mexico.

The Automobile Club of Texas is planning to aid in demonstration trips communities along the Mexico, extension the value that would accrue as the result of having a logred, and mapped international highway traversing them. Mr. Morris said the club hopes to send a party over the route to do preliminary work and to talk up the highway to the Meridian.

The Meridian highway extends from Winnipeg to Laredo. One end of the route from Hot Springs which join at Texarkana, one through Oklahoma and New Mexico and the other entirely through Texas, it extends through Arizona again splitting at Laredo, and converging again at Tempe. It has its western terminus at San Diego, Cal. The Automobile Club of Texas is now waiting for Mexico to carry out its logging, mapping and marking program. Progress in the club. It is expected that after this has been accomplished an amazing exchange of automobile traffic between the countries connected will result.

NOISEL BREAD ONCE MORE

KANSAS CITY, Mo., (AP)—The nickel loaf of bread came back to Kansas City today when a local baking company announced its ten-cent loaf will be reduced to 6 cents.

JURY RETURNS VERDICT FOR FILER HOMEBUILDER

Awards Judgment for \$1,300 to J. O. Reichers Against Contractor

Verdict awarding judgment for \$1,300 to J. O. Reichers against J. L. Edwards, building contractor, was returned late Saturday afternoon by a jury in district court here at the conclusion of a trial that continued for almost four days.

Reichers sued the contractor for a total of \$1,918.32, claiming that he accepted Edwards \$18.32 for extra construction involved in erection of his residence at Piler in 1920, and that defective workmanship had damaged him to the extent of \$1,900. Edwards denied the validity of the claim for damages and denied that he had been overpaid, but in a cross claim asserted that Reichers still owed him \$237.70 for materials and labor used in extra construction.

Certain-teed Roofing Costs Less to Lay

You will appreciate the low cost and convenience of laying Certain-teed Roofing. Skilled labor is not required to lay it properly. You save much of the expense of hiring trained workmen and avoid delays because of a scarcity of such men.

But this is only one of the Certain-teed economies. It also costs less to buy and less to maintain than any other type of good roofing.

In addition, Certain-teed roofing is weather-proof, fire-retarding and spark-proof. It is guaranteed for five, ten or fifteen years, according to weight. Experience proves that it usually outlasts its guarantee by years of satisfactory service.

See your dealer about Certain-teed Roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.

GUARANTEE OF QUALITY AND GUARANTEED SATISFACTION—CERTAIN-TEED

SIGNING OF TREATIES IS COMPLETED

(Continued from Page One)

Shushara and Vice Foreign Minister Hanabara followed, each signing his name to all five documents.

PRESIDENT HAVING AWARDS SIGNATURES

President Harding arrived while the Japanese were signing but waited in the background for the ceremony to be completed.

Viscount D'Almeida and Captain Vasconcelos, the Portuguese delegates, also had their two treaties signed and they finished at 10:40 A. M.

President Harding thus entered the hall a minute later. Audience and delegates rose and applauded for a half minute, while the president bowed his appreciation to all sides.

Six completed treaties were placed in envelopes and the president, after reading his address, the text of which will be found in another column.

By the major agreements of the conference, the great powers put a limit on their naval strength in capital ships.

Great Britain declares her intention to retain Wei-Hai-Wei in China and Japan hands back Shantung and promises to withdraw from Siberia as conditions there are stabilized.

These are the six treaties which, during the twelve weeks of negotiations here, have been brought to final completion.

Naval limitation treaty, by which the United States, Great Britain, France and Italy agree to scrap or convert 48 capital ships and no limit future construction.

After aircraft carriers are limited similarly to 10,000 tons and neither can carry more than eight planes.

Submarine and gas obligation treaty, by which the same five powers agree as among themselves.

The British declaration of readiness to withdraw from the leased territory of Wei-Hai-Wei was not elaborated.

Social Notes

Edited by Mrs. E. B. Williams, Telephone 598

Mr. and Mrs. J. A. Van Meter, who are leaving this week to make their home in Los Angeles, Cal., were given a farewell surprise party on Friday evening.

Eugene Perrine entertained ten boy friends on Saturday in honor of his sixteenth birthday at his home on Blue Lake boulevard.

A delightful surprise party was given in honor of Miss Mattie Vetter at her home, 730 Second avenue east, on Friday evening.

At the last meeting of the Women's Foreign Missionary society of the Methodist church it was decided to hold a social.

Little Jeanie gazed long and thoughtfully at the young man who was calling on her grown-up sister.

"May I climb up on your knee, Mr. Green?" she inquired at last.

"I heard Maude say this morning that if a man ever had the word 'idiot' written all over his face, that man was you!" - Stray Stories.

"Look here!" belovéd an irate customer in the general store of Ben Cooper.

"Can't you lend me a ten spot, old man?" remarked Black, who had changed to white at the corner.

"What became of that \$5,000 your uncle left you?"

"Ma, may I go hunting?" asked Doris. "Indeed you shall not," replied her mother.

"Per pro."

Sleepy Sam—"Hush, mums, here you are cleaning, scrubbing, washing or household work what you want."

Lady of the house—"But surely you don't do that kind of work, my good man?"

Sleepy Sam—"No, mums, but my wife does."

JEALOUSY MAY BE MOTIVE

(Continued from Page One)

They say, was frank in expressing admiration of Taylor and it is known that he was much of her. Here, police say, is one of the possible motives.

"We have never seen it," he said. "We have had a lot of reports about it and if it existed it has disappeared."

ADD TO MYSTERY OF IDENTITY.

RIFLEMAN, N. Y. (AP)—Mrs. John Ruffalo, aunt of Mrs. Ada Deane-Tanner of Moscow, Colo., today expressed the belief that William Desmond Taylor, silent cinema director is in reality Dennis Deane-Tanner, and that Dennis Deane-Tanner are identical persons.

NEW YORK, (AP)—Technical conditions continued to favor the long sale at the opening of today's stock market, as indicated by the higher prices.

MEXICO'S OPPORTUNITY

Notwithstanding dire prophecies of exhaustion of the Mexican oil fields, the great wells are producing more than ever before and shipments out of Mexico are of record-breaking volume. Slightly less than 2 per cent of the world's production of petroleum is coming from the small area that has been drilled. Were the flow to stop, and no one familiar with the field expects it to last more than a few months, the world would face a serious condition. In the scramble for supplies by industries, shipping in particular, prices would be bid up and still many needing oil would have to go without.

But no one can speak with assurance with respect to the life of the Mexican wells. Experimentation has proved the possibility of prolonging production after appearance of salt water. Wells that were about given up some months ago have kept producing and the intelligent "stripping" of pools promises profitable yield for some time to come. Experts agree that if the "over-all" companies drawing upon one pool would agree as to the amount each would take daily from the underground vault, all might create in business a considerable "thrift." But investments there, have been so heavy that each one wishes to get back as much as possible in the shortest time. The only agreement is that exhaustion soon is inevitable.

Enormous sums have been the production of Mexican oil wells, and huge sums have left the profits some companies have taken out, millions of investment have been made unless there is an extension of the developed area permitting continued use of the great plants which have been erected. Plans for exploration are announced from time to time, but actual work of this sort is held in abeyance. In this particular Mexico differs from every other oil producing country. Geologists have found indications of petroleum over large areas of Mexico. The man who made the first investment about 50 years ago, expresses the opinion that, notwithstanding the enormous output there, the country is virtually virgin territory. All experience warrants confidence that the Mexican fields could be vastly extended by the drill. The world needs the oil and capital has the courage to seek it. All that obstructs is the Mexican government's policy. "If it would give the oil companies a fair chance they and it would prosper prodigiously."

THE MODERN GIRL

Besides the hard work of making a living for the family and of making the living cover the thousand and one things needed, another hard task is imposed on parents by a national executive of the Camp Fire girls—that of making the home life so interesting it will prove a successful rival of peppy parties and joy rides. While people crave excitement, the modern life of youth is not essentially interesting. In the opinion of this member of that large circle seeking an answer to the question "What is the matter with the modern girl?" The matter is all in the girl's surroundings, says the Camp Fire worker who goes on to declare the lack of household tasks leaves too much emotional energy going to waste. While there is food for thought for the parents in this opinion, what will the apparently self-sufficient girl of today think of the further statement as to what ails her. "The amusements of the modern

girl are none of her own creating and her emotions and enjoyments are almost entirely vicarious."

MR. MELLON SPEAKS

Congress should give due attention to the warning of Secretary Mellon about large drains upon the strength of the United States. He is in position to know more about national finances and prospects than any congressman. Maybe he is unduly alarmed, but if so it is the first time the above Pennsylvania financier has ever appeared to the light. Congress evidently determined to enact into law the popular demand for soldiers' bonus, but in doing so it should see to it that it does not bring down on the heads of the people, ex-ceders included, such evils as Mr. Mellon appears to fear.

Concerning Color.

Blue is the coldest of the colors and green the next coldest, according to Good Housekeeping. Green is produced by mixing yellow—a warm color—with blue, hence it is less cold than pure blue. So long as it contains more blue than yellow, it is a "cool" color, but the moment the yellow overabundance the blue a "warm" green begins to develop. Blue and blue-green are termed "cooling" colors because a surface colored blue or green, particularly in light values, appears more distant than it actually is. These attributes of coolness and recedingness are true in different degrees of every color tinged with green or blue, including blue-lavender, blue-purple, and bluish and greenish gray. Pure gray is the only perfect neutral except black and white. It is normally a revealing color, somewhat cool in effect. It becomes cooler as it is tinged with blue or green and warmer as it is tinged with pink or yellow. Gray and the modifications of blue and green make small rooms appear larger and help to counteract the effect of too sunny an exposure.

The Lust for Speed.

According to L'Air, France is still concerned with the problem of producing speed airplanes capable of defeating the existing world speed records, the laws of resistance, and possibly the abilities of the best pilot to land on any airframe smaller than the Goliath. It is stated that in a certain number of new monoplane, possessed of engines of anything up to 600-horsepower, thin wings, retractable undercarriages and the absence of outside bracing, the constructors are hoping for a speed of 200 miles per hour, with a unit engine producing anything over 250 miles per hour. The firms concerned are Nieuport, Spad and Hanriot, and it is hoped that their efforts, at any rate to produce a really fast machine, will give rise to some remarkable construction.—Scientific American.

Elizabeth Knew.

A neighbor asked Elizabeth if there were any peaches on the tree in her backyard. It was too young to bear fruit and Elizabeth had never heard its speak of it as a fruit tree. The question seemed to her an impertinent one, and she answered indignantly, "That tree grows switches."—Chicago Tribune.

PALACE MADE INTO REFUGEE

Russian Embassy at Rome Put to Practical Use by the Authorities of the City.

The Russian embassy in Rome, a large and gaudy magnificently furnished villa, standing in its own grounds in the aristocratic Porta Pia quarter, has been turned into a refuge, especially at night, for the many Russians who have swarmed in Rome since the disbanding of Wrangle's army. The beautiful drawing rooms are reduced to a state of dirt and untidiness and a general disposition hard to describe every nook and corner is crowded with some poor human victim of Russia's revolution. Princesses rub shoulders with peasant women, and men who figure in Russia's history are glad to make cigarettes at 75 cents a hundred to buy a little food. In any other circumstance the sanitary authorities would interfere and end life overcrowding. For two reasons this human rabbit warren is allowed to exist side by side with rich men's palaces and foreign embassies. To begin with, no one has the heart to turn the refugees into the street, which would be the only place available for them in the overcrowded city of Rome. But there is a practical reason, too; Vorovsky, Lenin's emissary now in Rome, is moving heaven and earth to get the foreign ministry to quiet the refugees, so that he may take possession of the embassy in the name of the soviet. And Com. Storz is determined that he shall not, because it would be tantamount to official recognition of Lenin's government.

Tucson's Public Auto Camp.

Tucson, Ariz., has a great public auto camp which occupies about six acres of ground. This auto camp has a wire fence around it and an attractive gateway. It is a city within a city, with running water, etc. Tucson built this novel auto camp for the accommodation of the thousands of motorists who motor through Arizona into other states. Those desiring to do so can drive their cars into this auto camp, remain there over night for a nominal charge, and have fire, police and every other protection that a city can provide.

Physical Training.

"I suppose," said Captain Joe to the soda fountain tender, "you don't expect to keep at this business all your life." "No," replied the young man. "Well, take my advice and study music. All the exercise you're getting with hands and feet ought to make it easy for you to learn to play the pipe organ."

Not a Cent.

Clifford—I hear your rich uncle is dead. He left you something, I suppose. Although—Oh, yes—penniless.—London Answers.

Picardance.

"Do you keep football requisites here?" "Yes, everything in that line." "Then wrap me up a bottle of arnica, a book of courtship and an armistice. I'm going to play in a match this afternoon."—Boston Transcript.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that create the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which re-

moves the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot in-

jure; makes a delightful effervescent lithia-water, drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. The News is read by the permanent reading classes. READ THE CLASSIFIED ADS.

IDAHO CLEANERS AND DYERS CHAS. B. ROWLEY & CO. Phone 215-W. 123 Rhoshone St. West French Dry Cleaning Repairing—Dyeing

A VISITOR at The News Office

a day or so ago started out something like this: "Say, I was in Salt Lake the other day and in a printing office they showed me the greatest thing in the way of a printing press I ever saw in my life---why, say, it simply starts printing and goes ahead. It does not require to be fed at all. And it prints nearly twice as fast as the ordinary printing press---and if it should run against a torn sheet or anything like that it stops and rings a bell---hollers for help---Yes, sir---you ought to get one."

Nearly two years ago The News

installed the Miller Automatic Printing Press, which operates just about as described. It's the last word in printing equipment, the most efficient printing machine in the world.

NOW our friend is not to be

blamed for not knowing that The News was so equipped---printing equipment is added to printing establishments in the same sense as new goods are added to stocks by merchants, and; as a rule, very little is said about it. But---

The attitude of the man is typical---he was willing to assume that Twin Falls printing establishments have less in the way of printing facilities than have outside city printing houses.

He is wrong, of course.

NO BETTER PRINTING IS OBTAINABLE ANYWHERE THAN IN THE PRINTING ESTABLISHMENTS OF TWIN FALLS.

Let your TWIN FALLS printer tell you about it.

Advertisement for Snow Flake Sodas and Snow Flakes biscuits. Includes images of product boxes and a tin, and text: "Have You Tried Snow Flakes in the Family Tin?", "You know how good Snow Flakes are---how crisp and tasty? You can serve these dainty wafers on so many occasions. Why not buy a family-size tin, which will insure a constant supply? Your grocer can supply you." "Don't ask for crackers---say SNOW FLAKES." "P. C. B. GINGER SNAPS Another P. C. B. product. Particularly crisp and fine-flavored. Your grocer can supply you." "Pacific Coast Biscuit Co."

The More You Delay The Better It Raises

If you can shut yourself up in the kitchen and avoid all interruptions most any baking powder will give good results. But with Crescent declares do not make a particle of difference—in fact, best results are obtained by allowing the dough to stand for five or ten minutes before placing in the oven. Griddle cakes or biscuits raised with Crescent can stand hours if necessary before baking. Neither is a very hot oven required for Crescent. Crescent produces sweet, wholesome baking. Your grocer can supply you.

MISCHIEF MAY BE CAUSE OF TRAIN WRECK

Preliminary Investigation Leads to Belief that Tampering with Switch Responsible for Derailment at Burley

One fatally resulted from the wreck Saturday evening near Burley of the eastbound passenger train on the Milwaukee-Buhl branch. A. M. Ellison, baggage man, who was caught under a heavy safe when the baggage car left the track and tumbled over, died at Burley by fatal injuries sustained in the accident. Engineer James Senanon and fireman James Puley, who suffered from burns and bruises, are being cared for at Burley and spent a comfortable night last night according to reports received here. Their recovery is indicated. There are no reports of other members of the train crew or of passengers being injured. Mr. Ellison leaves his widow and four children at Salt Lake.

A number of Twin Falls residents were passengers on the train, but railroad officials here insist that they had no knowledge of any of them returning into the accident. An extra train was pressed into service and all of the passengers taken from wreck site to their homes or to connection with main line trains.

MALICIOUS MISCHIEF MAY BE CAUSE

Evidence today came to light indicating that the wreck was caused by what is known as a "crooked switch," and railroad men expressed the opinion that a malicious mischief maker was responsible for the occurrence. A "crooked switch," they said, means when the lock is removed from the switch permitting the rails to move at the switch juncture.

The wreck occurred at 6:40 p. m., one mile west of the station at Burley. The train was running on schedule time at the rate of 30 miles an hour. "When the train left the station, the engine and pilot truck" came loose from the engine and ran up the main line tracks for a distance of about two blocks. The locomotive headed off the track and the pilot truck, engine, ground and turned over. The mail car, coming next in the train, broke loose and started up the main line where it overturned. The engine, mail coaches and sleepers were dislodged from the rails but remained upright on the ties of the side track.

EVIDENCE OF BOOZE AND BELLIGERENCY IN COURT

Police Magistrate Heary Vicious Accounts of Encounters from Lips of Scared Participants

Haled into police court here today on charges of being drunk and fighting, James Kirk agreed to pay in lieu of bond in the amount of \$250 to the extent of \$25, and Kirk agreed to settle with the magistrate for \$20. Dan Harrison and William Harrison, listed as piano movers, paid fines for driving a motor car. Kirk taken to custody Saturday evening after complaint had been lodged with the police that Kirk was leading effort of F. R. Rice to overthrow the sheriff's office on Fourth avenue south. Kirk, in court today, said that he had gotten into Rice's shack by mistake and that he was seeking to make a signature on that time he was arrested but that he feared to turn his back on Rice so long as Rice continued threatening him with a shotgun. Rice said that Rice came to his place with the announced purpose of doing away with Rice. A witness to the affair said there were "rumors" which he did not recall and that he had summoned the police after the shotgun, which he had taken from Rice, had been wreathed from his grasp by a companion of Rice. He said the encounter displayed evidence of its sanguinary nature.

STAGE IS SET FOR TRIAL

Mrs. Madalyrma Obenshain Will Face Jury Charged with Complicity in Murder

LOS ANGELES, Feb. 5.—Mrs. Madalyrma Connor Obenshain, divorced wife of Ralph Obenshain, a Chicago attorney, was taken to trial here today charged with the murder of J. Milton Kennedy, Los Angeles racketeer, slain here last August.

Counsel for Mrs. Obenshain challenged the jury panel upon a statement that while a no-pain panel had been selected for the trial by the superior court judge, a number of verdicts were announced in court today were upon last year's panel. The challenge was not allowed.

His statement that the jury were called from the venire to the jury box.

Three men and two women announced scruples against the death penalty and were dismissed, their places being taken by the women leaving the jury box filled with nine women and three men when attorneys proceeded with examination of the prospective jurors.

ARSENIC POISON YEAR A GO IS CAUSE OF DEATH

E. Van Hornet Succumbs to Baffling Ailment After a Long Fight

A victim of arsenic poisoning, which he contracted in an unexplained manner while in the employ of T. Clyde Baron as a foreman of sheep camps on the north Idaho mountains, E. Van Hornet died at his home here at 7:30 o'clock Sunday evening at about ten months after contracting the ailment on Fourth avenue. He had been treated at the University of California hospital, San Diego, Cal. For several months after his arrival Mr. Van Hornet was associated with Mr. Ostrander, a former resident of Twin Falls, now living at San Diego, Cal. For some time after his arrival Mr. Van Hornet was associated with Mr. Ostrander, a former resident of Twin Falls, now living at San Diego, Cal. For some time after his arrival Mr. Van Hornet was associated with Mr. Ostrander, a former resident of Twin Falls, now living at San Diego, Cal.

While arsenic poison is given as the cause of Mr. Van Hornet's death, attending physicians here believe that the attack of pneumonia and heart ailment, complicated his ailment and hastened the end.

TRAFFIC EXPERT LEAVES FOR NATIONAL CAPITAL

Leonard Way Will Appear Before Commerce Commission in Rate Hearings

Leonard Way, managing secretary of the Twin Falls Chamber of Commerce, left Sunday morning for Washington, D. C., where he will appear before the Interstate Commerce commission in hearings on general freight rates and reduction in rates affecting Idaho producers and shippers, and will be engaged on route on this work, while members of the office here will complete the arrangements of additional speakers.

Mr. Way expects to arrive in Washington Wednesday evening and to appear before the commission the next morning at the beginning of the hearing on low grain rates. He will take part also in hearings on dairy products, rates and other rates of particular interest to Idaho producers and shippers.

HONOR COMES TO MUNSON

Twin Falls Man on Interstate Y. M. C. A. Executive Committee

G. E. Munson, of Twin Falls, is one of four new members of the interstate Y. M. C. A. executive committee for Idaho elected at Saturday's session of the twenty-second annual convention of the Oregon and Idaho Y. M. C. A. at the long session of the twenty-second annual convention of the Y. M. C. A. executive committee were selected from the members being added. Besides Mr. Munson the new members are C. A. Horton and Laurel E. Ham of Boise, and E. H. Stone of Idaho Springs.

A. E. Roberts of New York, international field secretary and senior secretary in charge of county work, who Thursday evening addressed an address of welcome to the delegates and was a principal speaker at a banquet Saturday evening held in connection with the convention. Mr. Roberts spoke of and for the youth of America in a manner so deeply touching and so eloquent as to hold the audience of all ages silent under the sway of gripping appeal.

COURT EXCUSES JURYMEN

Judge Babcock Schedules Cases for Court Trial Before Next Term

With a score or more of members of the Twin Falls county bar association in attendance at sessions of the district court here this morning, Judge W. A. Babcock announced setting of a number of cases for trial before the court and the absence of the jury during the interval remaining before the opening of the next regular term of court on February 20. Members of the bar announced their services during the January term of court were excused from further service on Saturday afternoon.

LOGGERS COME IN NUMBERS TO CONCLUDE HERE

Competition for Odd Fellows Degree Teams of Odd District Brings Record Gathering of Order's Membership

One of the largest gatherings of lodge members ever convened in Twin Falls was witnessed Saturday evening when about 350 members of the Odd Fellows Lodge assembled here for the series of four contests to determine the degree team championship for the Minidoka-Twin Falls district. The competition was staged in the high school auditorium and continued until about 4 o'clock Sunday morning. Bandishes and coffee were served at midnight.

Fred C. Moore of Boise, grand master of the Odd Fellows lodge in Idaho; Harry D. Jackson of Jerome, grand commander of the Patriarchs Millitary, and William Leary of Jerome, past grand patriarch, were distinguished visitors who addressed the assembled lodgesmen. M. H. Pope of Twin Falls, one of the oldest members of the order in the state, contributed to the entertainment with a reading.

BUHL LODGE'S DEGREE TEAM

Members of Buhl lodge's degree team which conferred the first degree of the order, were: Ambrose, noble grand; Welch, right supporter noble grand; Leuber, left supporter noble grand; Swartz, warden; Johnson, conductor; Newton, past grand; Galloway, chaplain; Priest, vice grand; Ellis, right supporter noble grand; Nunnally, left supporter noble grand; Bremmerly, Ewelsh, Bull, Wein, Blankenship, Zukel, Stewart, Leth, Welch, Cuthbertson, Carson, Vetter, Vetter, Harvey, Stahl, Channingham, McArthur, Carlson.

BURLEY CONFERS THIRD DEGREE

The third degree was conferred by Burley lodge's degree team which was composed of Frank Gravitoff, noble grand; E. E. Murphy, right supporter noble grand; J. A. Torwalt, chaplain; R. B. Huff, warden; Ed Trout, conductor; J. E. Robinson, right supporter noble grand; Leonard True, left supporter noble grand; Henry Mueser, right supporter noble grand; Oscar Weldon, left supporter noble grand; George Keesler, right scene supporter; E. H. Green, left scene supporter; Herbert Canine, Stanley Moe, Wilbur Robbins, J. E. Rose.

FRED VERNBERG SERVICE ANNOUNCEMENT

Due to the long continued money stringency, with its consequent unemployment, there may be those who are in need of medical and surgical attention, yet hesitate to ask for it on account of financial distress. To such we hereby announce the opening of a free dispensary service from the hours of 8 to 10 a. m., every Tuesday and Friday, at which we will be glad to take care of them.

TOURNAMENT STILL DRAWS

Large Number on Hand to Witness Game Between Epler and Larson

STANDING	W.	L.	Pct.
Goldwater	3	1	.633
Epler	2	1	.500
Larson	4	2	.667
Bonbrake	3	2	.600
Snook	4	3	.571
Balley	2	5	.286
Cammisa	1	5	.200
Brown	1	6	.143

Saturday evening's games at Macaulay's three cushion billiard tournament were attended by the largest crowd that ever witnessed a billiard game outside of the Hoppo games. The reason was the game scheduled between Epler and Larson, which ended in a victory for Epler playing 40 to Larson's 23, who was playing for 22. This game was played in the remarkable time of 11 minutes, breaking all records for the tournament, and Epler was to be congratulated on his wonderful showing.

The second game of the evening between Snook (40) and Bonbrake (30) was an excruciatingly long game which played in 23 minutes. Bonbrake had high run for four.

The games Saturday night changed the standings a little, with Goldwater leading by a score of 40 to Epler, with Larson in second place. Snook and Bonbrake are tied for fourth place, and all in all it looks as though there will have to be a few extra games played for positions.

DOPING IT OUT FOR THE FUTURE

Just for the sake of an argument, let us look over the dope sheet. First of all, tonight's game between Goldwater and Epler will decide the winner of the tournament, they having an open date game yet to be played. Both these players have lost but one game, Epler losing to Balley, and Goldwater losing to Larson. This game promises to be the hardest fought of the series, and looking at both sides it is found that Goldwater beat Balley by the score of 40 to 19, then Balley (36) came along and beats Epler by the score of 26 to 17 with Epler going to 40, beating him by three points. Then Larson defeats Goldwater 35 to 29 with Goldwater trying to go to 40. Saturday evening Epler beat Larson 40 to 23, so thus it is seen that the man that beat Goldwater was easy for Epler and the man that was easy for Goldwater beat Epler, which again points to the question— who will win the game this evening between Goldwater and Epler. In the event of Goldwater losing, he will have to play Larson for second place, and likewise Epler, should he lose. Snook Larson lose to play off, he should go into a tie for third place with Snook and Bonbrake, who are tied at the present with four won and three lost. It has been a great tournament, and it is to be hoped that the future isn't far distant when another will be started.

MURTAUGH ROAD DISTRICT VOTED

Decision for Divorce from Twin Falls Organization Shown by 115 to 13 Vote

A. W. Nelson, W. O. Hall and Sam Cox will be recommended for appointment by Governor Democrat as commissioners of the Murtaugh highway district as a result of a vote taken in connection with the vote Saturday at Murtaugh for creation of the district.

Nelson, Hall and Cox received high votes for commissioners from each of the three districts into which the new district will be divided.

The candidates and the vote given each follows:

A. W. Nelson, 56; W. O. Hall, 48; Sam Cox, 33; James Boyle, 36; A. D. Lee, 31; Ben Van, 33; James Barnes, 25; Glenn Engle, 14; E. B. True, 4; Francis Johnson, 10; T. D. Nash, 5.

Electors of the Murtaugh highway district at an election Saturday at Murtaugh, voted 115 to 13 the creation of the Murtaugh highway district out of territory included in the original Twin Falls highway district.

Snow drifts covered roads north and south from Murtaugh to depths of from three to four feet and stood level with fence tops in many places so that voters coming from those directions succeeded in breaking their way through only on the backs of the snow.

The total vote cast was 50 per cent greater than had been anticipated at Murtaugh Saturday forenoon.

APPRAISERS BE NAMED

Returns of the election will be canvassed by the board of county commissioners within ten days, and thereafter appraisals will be appointed by the new and present districts to determine the amount of credit due from the old to the new district. Anticipatory estimates prepared by W. F. Edwards, assistant engineer of the Twin Falls district, gave the Murtaugh district a credit of approximately \$18,000.

The Murtaugh district is the first to be created out of territory included in another highway district under provisions of existing state law. It is stated here, and this fact coupled with possibility of questions arising in connection with appraisals, awards are deemed likely to result in litigation before a settlement is obtained. Payment of the amount due the new district is at the rate of 12 to 50 per cent on the spot of harness by buying this week at Fred Fosk—adv.

COME TO THE LAVING DANCE

William H. Greenhow. Funeral services for the late William H. Greenhow will be held at 3 o'clock Tuesday afternoon at Ansonian church (Episcopal), under auspices of Twin Falls community, Knights Templar, and the reverend, the Rev. Charles Glenn Baird. Services at the cemetery will be conducted by Dan McCook, post, Grand Army of the Republic, military honors being paid by the Civil war veterans with the assistance of a bugler and firing squad composed of members of the American Legion.

COME TO THE LAVING DANCE. Will be on Tuesday, February 7 and will be the prize at the hard line dance—adv.

Warmer Weather Follows Drop to 6 Degrees Above

Temperature last night dropped to 6 degrees above zero with 31 above as the high mark for Sunday, according to records of the government weather observatory here. Light winds veered around to the west gales this morning and the mercury today was mounting rapidly. Warmer weather in the southeast portion with rain of snow tonight and Tuesday is the official forecast for the state.

Saturday's low mark was 81 degrees above with 85 above for high. A trace of precipitation was recorded.

TERMINED BY THE APPRAISERS WILL BE MADE IN FOUR EQUAL ANNUAL INSTALLMENTS

HIGHWAY IS BOBBE SEPT.

The Murtaugh district, with a valuation in 1919 of \$11,000, contains about 15 miles of the Idaho-Pacific state highway or about one-half of the total amount of state highway in the original Twin Falls district. Failure to obtain improvement for this portion of the state highway under three years' administration of the Twin Falls highway district is considered a principal factor in influencing the vote at Murtaugh Saturday.

Creation of the proposed Kimberly district was voted down 127 to 64 at an election at Kimberly January 23, while formation of the proposed Hansen highway district is to be submitted to an election at Hansen on Saturday next. The Kimberly and Hansen districts as well as the Murtaugh district, were proposed to be formed from territory taken from the original Twin Falls district.

FUNERALS

Funeral services for the late William H. Greenhow will be held at 3 o'clock Tuesday afternoon at Ansonian church (Episcopal), under auspices of Twin Falls community, Knights Templar, and the reverend, the Rev. Charles Glenn Baird. Services at the cemetery will be conducted by Dan McCook, post, Grand Army of the Republic, military honors being paid by the Civil war veterans with the assistance of a bugler and firing squad composed of members of the American Legion.
