STOPS WORK ON BATTLE CRAFT FOR UNCLE SAM

President's Order Halts Construction of War Ships and Forts on Possessions in the Pacific Waters

WASHINGTON, D. C. (AP) - Immediate translation of the work of the arms commission into a reduction in governmental expenditures was called for by Senator Beach, republican, Idaho, in a formal statement today in which he declared a further cut in the army should be had and the troops returned from the Rhine at once.

WASHINGTON, D. C. (AP) - President Harding will order suspended the last 10th work of new buildings which are destined for the army under the naval treaty, but will issue no final order for discontinuation of the work until the treaty is actually ratified, it was said today at the White House.

HALTS BUILDING OF PACIFIC PORTS - The president's order, it was stated, already has ordered suspension of work on additional fortifications on the island of Guam and likewise funded developments underway in the Philippine islands, taking his action in view of the clause of the naval treaty fixing the limit of those Pacific islands of the United States.

WILL BUSH TREATIES TO SENATE - The treaties resulting from the arms conference, it was said, at the White House are expected to be sent to the senate in the next few days. This will depend on submission of the report of the American delegation to the president. Mr. Harding, it was said, has not decided whether to present the treaties in person or by letter.

DIPLOMATS STILL LABOR IN WASHINGTON - Although the Washington conference and itself gone out of existence today, with several of the delegations, including the British, already on their homeward journey, many of its decisions, particularly relating to the Far East, still remained to be applied and several of the armistice commissions authorized for the purpose, in addition to the conference, so far as its final decisions are concerned, provided virtually for its re-visit eight years hence when the armistice commissions which were joined in the naval agreement, will meet again to discuss naval armament, and it also authorized specially a five-year commission to revise the rules of warfare.

SECRETARY IS TO KEEP HOUSE - The only directly continuing function of the conference remaining after its windup was the secretarial-general's office, which has been charged temporarily with the final duty of compiling and printing corrected minutes of the plenary and committee sessions and also sent at the British direction, through which the various governments will form each other fully as to their existing commitments affecting China. It is expected to be completed before the very near future and then close its doors.

# BIG HORSE FARM WILL BE USED TO RAISE CHICKENS

Owner of Famous Patchen Wilkes Declares it is No Longer Possible to Operate at Profit

LEXINGTON, Ky., (AP) — Patchen Wilkes, one of the most noted trotting horse farms in the Bluegrass, soon is to be metamorphosed into a chicken farm, according to a recent announcement by W. E. D. Stokes of New York, the owner.

Chickens raising, according to Mr. Stokes, is more profitable than trotting horse breeding. Mr. Stokes and Peter Duryn bought the farm 35 years ago and named it Patchen Wilkes after the famous trotter they acquired at that time.

### HAS SPLENDID WINNING RECORD.

Mr. Stokes' Kentucky estate first came into prominence in the trotting horse world through Peter the Great's performance. Patchen Wilkes soon became the mecca of visiting horsemen and during its 35 years' existence it has produced more futurity winners than any other farm its size in the United States.

Among the great performers that claimed Patchen Wilkes as their home were Peter Vale, world's champion two-year-old trotting colt; Peter Thompson, Futurity winner of 1911; Lady Waretka, Peter the Great, J. J. Audubon, Patchen Wilkes and Peter Donna.

### HOLD DIAMOND JUBILEE

Celebration at University of Iowa Expected to Occupy Full Day

IOWA CITY, Ia., (AP) — A diamond jubilee celebration at the University of Iowa on February 25 will commemorate the seventy-fifth anniversary of its establishment with an all-day program depicting the progress made by the institution during three quarters of a century.

The morning mass meeting will be held in the morning taking the form of an historical review. There also will be a distinctive and historically impressive program written for the occasion.

The University of Iowa was founded February 25, 1847, by an act of the first general assembly of the state legislature which approved the establishment and locating of the institution. First instruction was given in 1855, but the university did not begin its true functioning until 1857 when the state capital was moved from Iowa City to Des Moines. Amos Dean of the Albany law school was its first president. The attendance this year will surpass the 6100 mark and the faculty number 500.

### NEWSPAPERS FORM TRUST.

STOCKHOLM, (AP) — Publishers of the most important Russian newspapers have formed a co-operative association or trust, according to information received here. The combine is to control the administration and distribution of the different papers and owners of the papers become stockholders in the trust.

The communist party is now contemplating a plan to give the daily newspapers economic freedom while the government will retail political control. Any deficit in the yearly budget of these semi-official newspapers will be covered by the soviet government, and the central executive committee of the government will be requested to set aside a permanent fund for the support of the press.

## FAMOUS PRELATE COMING ON VISIT TO AMERICA

Head of State Church of Sweden is Advocate of International Friendship

STOCKHOLM, (AP) — Archbishop Nathan Soderstrom, head of the state church of Sweden and spiritual advisor of King Gustave and the royal family, plans to visit the United States sometime next summer or fall to make a series of addresses for the promotion of international friendship.

He is the president of the European section of the Universal Christian Conference on Life and Work, the mission of which is to heal the spiritual wounds of international suspicion, distrust and hatred left by the world war. This organization numbers among its active workers some of America's most noted divines.

The archbishop's visit to America will be made under the auspices of the World Alliance for Promoting International Friendship. Through the Churches, the American-Scandinavian Association of New York City and the Augustana Synod, an organization of Lutheran churches in the United States.

Archbishop Soderstrom fervently believes that before Europe can recover from her material losses and regain normal balance economically and socially, the spiritual wounds of the late war must be healed. In his speeches throughout the United States the archbishop will appeal to the leaders and members of all creeds to work within their denomination and in their own way toward restoring international good will.

He says the American section of the Christian conference and other bodies promoting international friendship have accomplished more than the European organizations working toward the same end.

**A Judicious Enquiry**  
A well known traveling man who visits the drug trade says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, croup and whooping cough it is unsurpassed.—adv.

## WAR-PRISONERS RELEASED

Work of Joint Commission of League of Nations is Virtually at an End

GENEVA, (AP) — Prisoners were sent to their homes between Mar 1, 1920, and December 31, 1921, thanks to the work of the joint commission of the League of Nations and the International Red Cross.

The repatriated men were prisoners of war still remain in Russia, but as far as the joint commission is concerned, although it has much difficulty in obtaining accurate information, they are men who have preferred for personal reasons not to join the convoys of repatriated prisoners.

The commission considers that its work ended December 31 and all agreements pertaining to it will be denounced on March 15.

# DRY FARMING IS MANY YEARS OLD

### Attempts Made in Texas by the French Refugees Leave Interesting Evidence

DALLAS, Texas, (AP) — The first dry farming in Texas is believed by older residents here to have been attempted successfully just west of Dallas approximately 15 years ago. It was attempted has been found to be land with valuable deposits good for making cement. The ground has never had the appearance of good farms and the development of the land for farm purposes was undertaken by a group of French political refugees who founded a colony just west of Dallas at what is now known as Oak Cliff, a part of Dallas. The first dry farming was by E. Remond, who also had ideas the land had other values, including gold deposits and clay good for pottery. Experience with conditions as encountered in the new colony, difficulties of farming and other problems caused the colonists to gradually abandon their project, and many moved into Dallas. The French colony came to Dallas county in 1858, under the leadership of Victor Prosper Couderc, who in Dallas is named, was prominent with considerable.

The colony consisted of political refugees from France, most of whom were men who had distinguished themselves in politics or science. They settled on the hill west of Dallas, near the Western Heights and which was then known as Flanders Heights. The colonists took up agriculture and built a school and a church. Only two or three houses still stand and they are in a dilapidated condition.

**COLONY COMPOSED OF POLITICAL REFUGEES.**  
E. Remond was famed as a scientist and spent the greater part of his life developing the possibilities in the formations of those western hills. He made pottery and cement and terra cotta and various other things from the materials found there. It was said to be due to his efforts that the existence of gold in paying quantities in the hills was discovered, but it was found to be more profitable to make cement than to separate the gold.

Another member of the colony was Roverchon, who was famed as a naturalist and wrote many books on this subject. Agassiz was his intimate friend and often visited him on Western Heights. Other members of the colony included Jean Barber, J. B. Louck and L. C. Dessaint.

The first dry farming in Texas was practiced by the French colony, and the first dry farmer in the colony was Remond. He is said to have raised a good corn crop which had only one rain from the time it was planted until it matured and that rain was in May.

Potential resources of the Western Heights country were pointed out in articles written for the Dallas News by Remond. He claimed that it had splendid clay for pottery making and similar work and wonderful shale for cement.

## SECRET POLICE EFFICIENT

### Russian Forces Arrest Both Sides Indiscriminately Under Iron Clad System

MOSCOW, (AP) — That the Cheka, or secret police, is no respecter of persons, in making arrests, may be set down to its credit. It arrests communists and Cheka agents as freely as any others. The method of arrest often becomes personal friends of the persons to be arrested. If the person wanted is not at home, a guard is placed inside the door of his home and every visitor is held until he appears. This is to prevent warnings getting to the persons to be arrested.

If the visiting friends are arrested, they risk being held several days. On one occasion a woman passing a house door heard a cat howling hungrily and entered to see and feed it. She stumbled into a Cheka net, was held in prison for three months when, finally, her explanation was accepted as to why she had visited the house.

There are months when great numbers are in jail. The Cheka is not bothered by lack of prison space. If a prison room is intended to accommodate two or three persons, it often happens that in fact it is made to accommodate 25 or 50. People are just put in, in layers, and that's an end to the space problem.

## HIGH SCHOOL NOTES

The Hirs Triangle Girls had a special meeting in the auditorium, the fifth period yesterday. The girls met to discuss means for making money to send the delegates to the annual Old Reserve Conference at Payette Lakes next summer. They had planned on giving a "Trip Around the World," but as there is so little space available for the high school they were forced to consider other plans. The suggestion was made by Margaret Beche, vice-president of the club, that they have a carnival and in it some of the countries of the world illustrated in costumes, scenery, entertainment and refreshments. All members seemed to think this the better plan. Geo. De Witt, chairman of the membership has charge of the plans for making the money for the camp fund.

The agricultural club met last evening at 7:30. The debate try out was held in the auditorium last night at 7:30. Mr. Mitchell has coached the boys and they are expected to have the success of previous debate teams.

## JUNIOR HIGH SCHOOL

At a reorganization meeting last week the debating club of the Junior High School established itself as a permanent factor in school activities and chose the name of the Webster Debate

club. On account of some of the old members retiring the senior high school new boys were invited to join the club and lend their ability and effort towards making this the finest club in the school. The new members are Cornell Jarman, Charles Vance, Loyal Perry, Joseph Jamison, Edward Deas, Clyde Ross, Orville Thompson, Byron Hendahl, Nelson Lybushenko, Lloyd Sullivan, and Russell Potter. Clinton Evans was elected president of the club and Donald Lenz the secretary.

An initiation party was given Friday night for the old members for the new boys. The initiation was held in Study Hall 207. The committee which had charge of this ceremony was made up of Edward Hornbrook, William McDonald and Donald Lenz. All of the new boys "made good" in the trying ordeals through which they were made to pass, and the whole club voted them good sports. The party closed with a beautiful "spread" in the canteen room. The lunch consisted of sandwiches, pickles, olives, cake and ice cream. During the course of the lunch, speeches were made by Clinton Evans, Donald Lenz and by Miss West, the club leader. The boys in charge of the "entertainment" were James Cross, Raymond Tucker and Clinton Evans.

## ARGENTINE WILL ASSIST CREDITS

### Government Making Special Effort to Finance Foreign Market for Products

BUENOS AIRES, (AP) — Recent offers of credits by the Argentine government to France and Belgium for the purchase of Argentine produce have been extended to all countries where Argentina has diplomatic representation.

A circular sent out by Foreign Minister Phoyredon to the various legations says that the Argentine government, being desirous of making closer all its relations with other nations thereby putting into practice a policy of economic co-operation, desires that Argentina's representatives abroad should inform the governments to which they are accredited that the Argentine government is willing to grant all kinds of facilities for buying Argentine wool, cereals, wood and other national produce which may be necessary for the consumption and the manufacturing industries of other countries.

## MEAT FOR ALL REQUIREMENTS

The Argentine foreign representatives are instructed to point out the abundance of Argentina's new cereal harvest, the suitability of Argentine meat for the requirements of all the consuming markets, the fact that previous wool clips have been partially liquidated and that the sale of the present year wool clip has commenced under favorable conditions.

Argentina's representatives are also instructed to put themselves in contact with commercial and industrial centers and inform them fully of the matter.

## POLICE RESCUE JANITOR

BUENOS AIRES, (AP) — Rival women jobseekers endeavoring to interview President Frigoyen in his office the other day in a Argentine newspaper had had him and with finger nails a muscular janitor who sought to separate the infuriated seekers of government preferment. The janitor was rescued by a policeman.

Women seeking government positions who try to get an audience with the president in a Argentine newspaper are numerous that one day of the week has been set aside to attend to them.

**I**N the July issue of the American Motorist, the official publication of the American Automobile Association, appeared the following article, under the department headed "Pertinent to Car Ownership":

"A most interesting contribution to the solution of the careful motorist's lubricating problems is found in Desmond's Miracle Oil, which is of a composition and nature which while affording a most perfect lubricant yet is so perfectly soluble in the gasoline that it neither settles in the tank nor separates from the fuel until it is drawn together with the fuel into the combustion-chamber and there compressed with the gases.

"When the explosion occurs the oil separates from the gases and is sprayed over the piston head and against the cylinder walls as well as into piston rings and valves. Having a higher fire test than the gases, Miracle Oil lives and does its work and then blows out through the exhaust valves, lubricating valves and stems on the way out.

"An efficient lubricant in the upper working parts of the motor can only mean one thing, freedom from carbon trouble, and freedom from carbon trouble means more mileage."

After using Miracle Oil daily for two months in my Buick Four, I have decided that I cannot possibly afford to be without this oil. The car runs more easily and with far less noise than it did when it was new. The extra power and the greater gasoline mileage produced by Miracle Oil are two pleasant and amazing surprises to the car owner.

(Signed) C. E. BISBEE, Twin Falls.  
I am using Miracle Oil in my car. I find the car starts right off with a quick pickup and runs much smoother. I will always use Miracle Oil when I can obtain it.  
(Signed) C. J. STEVENS, General Contractor and Builder, Twin Falls.

Could I get an agency to sell your Miracle Oil to garages and oil stations in Idaho? I am using Miracle Oil in my Overland car and think it fine.  
(Signed) A. M. BARNETT, Kimberly, Idaho.

I find that through the use of Miracle Oil my truck motor is running much smoother, with a cleaner engine and a saving of gasoline.

# MANY SUBJECTS TOUCHED ON IN SPEECH BY KING

### British Monarch Pays a High Tribute to America in Connection with Work of Disarmament Conference.

LONDON, (AP)—The imperial parliament which was prorogued December 19 to await action on the Irish treaty by the Dal Eireann, was reopened today with the reading of the "speech" from the throne by King George V.

Beginning the Irish treaty, the king said parliament would be called upon to consider a measure as may be necessary to give effect to the agreement. He also touched upon the negotiations for a pact with France to guarantee action and treat of an unapproved attack by Germany, and paid high tribute to the accomplishment of the Washington conference.

In his speech the king mentioned in the last three months the Washington conference on the questions of disarmament and the Far East continued its sessions. A general agreement to maintain peace in the Pacific has been signed by representatives of the British empire, the United States, France and Japan and the United States.

"While the treaty replaces the Anglo-Japanese alliance, I am happy to feel that the long standing concord between the two countries will remain constant as ever under the arrangements thus concluded. At the same time our relations with the United States enter a new and even closer phase of friendship."

### WORLD OWES GREAT DEBT TO AMERICA

"An agreement also was reached on the question of disarmament and a treaty has been signed providing a large measure of relief from the burden of armaments. In all these respects great results have been attained and the success of the conference, for which the world will owe a deep debt of gratitude to the initiative of the president of the United States of America, will be the happiest augury for future international relations."

"The problem of securing payment of reparations by Germany in the manner most comfortable to the general interest engages the continuous consideration of my ministers and of our allies."

"The German government, at the request of the allies, have themselves submitted proposals which now are under consideration."

"Discussions recently initiated are now proceeding between my government and France and Belgium with a view to reaching an agreement for common action in the event of a renewed attack by Germany."

"The situation in the Near East continues to engage the anxious attention of my government and it is my earnest hope that the forthcoming allied discussions in Paris may result in an early solution which will terminate the conflict in a manner honorable to all parties concerned."

### TO RELIEVE PEOPLE OF HEAVY BURDEN

To the house of commons the king said the estimates for services for the coming year would be submitted, and that every effort had been made to reduce the expenditures to the lowest possible limit in order to relieve the people as much as possible from their heavy burdens. He mentioned on a great scale would be hard on individuals, he said, "but in a time of great industrial depression such as that through which the world at present is passing it is the necessity of the situation that economy be practised by all, and in every direction, and I look for your support in securing essential economies."

To both the house of lords and the commons, he said:

"The articles of agreement signed by my ministers and the Irish delegation, to which you already have signified assent, have now been approved in relation and a provisional agreement contemplated in that instrument is at present engaged in taking over the administration of the country."

"Final establishment of the Irish free state as a partner in the British commonwealth is anxiously awaited throughout the world. You will therefore be filled and in early date to consider such measures as may be necessary to give effect to the agreement. A bill of indemnity will also be submitted to you."

### UNEMPLOYMENT TO RECEIVE ATTENTION

"The great continued volume of unemployment among my people causes me deepest concern and will continue to receive the earnest attention of my ministers. The only remedy for this distressing

### Arthur Woods May Assist Hays at Movie Job

Arthur H. Woods, former police commissioner of New York, is said to have been offered a position as chief assistant by Will H. Hays, who will soon begin his duties as "Empire General" of motion picture exhibition. The position offered Woods would carry a salary of \$50,000 annually.

situation is to be found in appointment of international rivalries and suspicions, and in the improvement of conditions under which trade is carried on all over the world.

"For these reasons I welcome arrangements now making for the meeting of an international conference at Geneva at which I trust it will be possible to establish peace on a fair basis in Europe, and to reach a settlement of many important questions arising out of the pressing need for financial and economic reconstruction. Proposals will be submitted to you for the reform of the house of lords and an adjustment of the differences between the two houses."

Among the bills for submission to parliament, most of which are purely domestic, is one relating to the establishment of the international trade corporation.

### MEXICANS MUST EXPLAIN POSSESSION OF LIQUOR

Tony Vasquez and Pilar Martinez in Custody Following Discovery of Still Under Chicken House

Tony Vasquez, 23, and Pilar Martinez, 46, Mexicans, are today held in the county jail here pending their arraignment on charge of illegal manufacture and possession of liquor, which with a home made still in a pig sty under a chicken house was found on Vasquez's farm east of town when the men were arrested yesterday by Deputy Sheriff H. C. Van Ausdine and H. R. Hamilton. The still, the officers say, has a capacity of about 15 gallons a day. About two gallons of home made whiskey were found on the premises. Martinez is said to deny any responsibility for the still of liquor. Vasquez is said to have told the officers he was making alcoholic beverage for his own consumption only.

### TODAY'S MARKETS

#### ADVANCE IN WHEAT IS CONTINUED IN CHICAGO

Market Maintains Its Strong Early Tone, with Reactions in Corn and Oats at Opening

CHICAGO, (AP)—Dealings on an unusually large scale accompanied a continuance of advancing prices in the wheat market today during the early part of the board of trade session. New upturns in quotations at Buenos Aires and Liverpool had much to do with the rise here. Besides talk was current as to adverse conditions for the domestic winter crop in the southwest. Heavy rains to reduce profits, however, was in progress on the assumption that after a 21 cent recent advance the reasons for higher prices had been discounted enough. The opening which ranged from 1.4 to 1.5 1/8 higher, with May at \$129 3/4 to 1.50 3/8 and July \$112 to 1.12 1/4, was followed by numerous changes within the initial range and then a slight setback.

Subsequently the market lost more than the early advance. Buying power gave out at times, but revived in some degree at the finish. Closing prices were unsettled, 1.8 to 1.8 1/2 net higher, with May at \$128 1/2 to 1.28 5/8 and July \$111 3/8 to 1.11 1/2.

Corn and oats ascended with wheat and the July delivery both of corn and oats closed at their highest prices for the present season. After opening 3.6 to 1.4 1/4 up, May 69 to 69 1/4, the corn market reacted to a moderate extent.

Later houses with eastern connections did much selling to realize profits, and country offerings were of liberal volume. The close was unsettled 1.4 to 1.5 to 5.8c net lower, with May at 68 to 68 1/8 to 69 1/8c.

Oats started 1.8 to 3.8c higher, May 40 5/8 to 40 7/8c, and then eased back some to 3.8c net lower, with May at 38 to 38 1/2c.

"Higher quotations on hogs tended to lift provisions."

New York Stocks

NEW YORK, (AP)—With few exceptions the stock market made low order substantial gains in the early opening of today's session. Junior rails, independent steels and oil again led the advance. Erie first preferred rose 3/4 points and accumulation of St. Paul preferred, St. Louis Southwestern preferred, New Haven and Rock Island was in progress. An early rise of 1 3/4 points in Gulf States Steel was soon followed by a 2 1/2 point rise in Republic Iron-ore also coming briskly forward. New Haven was strongest of the oils with Mexican and California petroleum. 26-28 points and accumulation of St. Paul points marked the initial offerings of American Ice, Pierce Arrow preferred, Pullman and American Sauff.

New York, (AP)—Bullion activity in the stock market was resumed today. The farther rise precipitated considerable profit taking, however, with resultant reactions in the final dealings. Bids approximated 800,000 shares.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$92.15; first 4's \$92.04; second 4 1/4's \$92.00; third 4 1/4's \$91.70; fourth 4 1/4's \$92.23; Victory 3 3/4's \$100; Victory 4 3/4's \$100.20.

Sugar Market

NEW YORK, (AP)—There were no sales in raw sugar early today but the undertone was firm and prices were unchanged at 2 3/32 cents for Cubas, cost freight, equal to 3.70 for centrifugal.

Raw sugar futures opened firm, but eased off under trade selling and at midday showed declines of 1 to 2 points.

The market for refined was quiet and unchanged at 45 to 51.0 for fine granulated.

There were no transactions in refined futures.

BILLIE BURKE'S MOTHER DIES

HASTINGS, N. Y., (AP)—Mrs. Billie Burke died today at the home of her daughter, Mrs. Florence Ziegfeld (Miss Billie Burke). She was born in New Orleans and had made her home here for the last 15 years.

# THE weekly pay-roll of the Twin Falls News last week contained the names of THIRTY-EIGHT PERSONS.

Deduct from this that portion of the pay envelopes which went to the fifteen to eighteen carrier boys and there remains a list of heads of families supported by the printing industry in Twin Falls by ONE PLANT ALONE which is worthy of more than passing attention.

Probably nearly one hundred persons in all are employed in the various printing establishments of Twin Falls---

The only point to be deduced from the foregoing is that the Printing Industry is an important integral part of the industrial and business life of Twin Falls.

# THE weekly pay-rolls of the printing business constitute a factor which should be regarded as an element to be considered by buyers of Printing all the time.

There are larger printing establishments in the larger cities, but there are no better ones and the pay-rolls of Kansas City, Chicago and New York contribute not one penny's worth of good to the city of Twin Falls or any single resident thereof.

# Twin Falls Printing Establishments are in competition with the world.

They ask no special favors, no extra consideration of any kind, they merely solicit the privilege of doing one hundred percent of the printing work used by Twin Falls persons, firms and corporations.

If better for the same money can be had elsewhere, by all means buy it, but, **GIVE YOUR TWIN FALLS PRINTER A CHANCE!**

HOOP TOURNEYS PLANS ADOPTED

Interscholastic Board of Control Makes Rules for Determining Championships

High school basketball teams in each of the six districts into which the state has been divided for this purpose will compete in the near future at a central point in each district to determine the district championship...

DISTRICT TOURNAMENT

The tournament to determine the championship of the fourth district which includes high schools of Buhl, Elmer, Hagerman, Hatley, Jerome, Rupert, Shoshone, Twin Falls, Wendell, Bellevue, Burley, Gooding, and Klamath will be held February 24 and 25 in the Twin Falls high school gymnasium.

The four districts of south Idaho will hold a tournament at Pocatello in the gymnasium of the Idaho Technical Institute March 3 and 4. The champion team of each of the four districts will participate.

DISPOSITION OF BROTHERS

The receipts at each tournament, whether district, sectional or state, after paying necessary local expenses, will be applied toward payment of the prizes of teams participating in the state tournament.

B. H. Snyder, superintendent of the schools at Idaho Falls, and Mitchell at the Pocatello meeting Saturday, E. L. Cherry, superintendent of schools at St. Maries, the third member of the board of control, was unable to attend.

Cured of Desire to Be Female

A year on a lonely South Sea island, a thousand miles from the nearest inhabited land, with coconuts and coconuts for breakfast, dinner and supper, has cured Mrs. William Meng of wanting to be a female Robinson Crusoe.

Many urged prompt settlement of the question to help towards clearing up the matter.

**THE DEBT REFUNDING BILL**

Rejection by the senate of amendments to the allied debt refunding bill that were designed to hamper the proposed commission to the point of withholding from it all discretion in the making of agreements, gives ground for hope that the beginning of negotiations by Secretary Mellon will not be much longer delayed. Opposition to the necessary grant of authority written in the bills will be confined by those senators who are classified as irreconcilable on all matters involving formal arrangements with foreign states. But purely obstructive objections will not serve to prevent passage of the bill.

How much money will flow into the United States treasury on account of principal and interest of the approximately \$1,000,000,000 owing to us as a result of the refunding process it is difficult to speculate. Some opponents of the pending legislation profess to believe certain interests here and abroad are determined we never shall recover any of the money and they found their objections in part on fears that the agreements to be made will hamper the alleged scheme of non-payment. In this connection it is well to remember that as matters stand there is no possible way of compelling our debtors to discharge these obligations. Americans must anxiously that the country collect what is due it have failed to present plans that give promise of being productive. The refunding commission would be given the duty of making the best arrangement that can be made to give the American claims the character of assets. They possess that character in very slight degree today.

The benefit to be derived from refunding is that the country will know the value of the claims now represented by demand notes which it is futile to present to the makers. We shall know where we stand with respect to these claims. Dates will be set for settling interest payments. Though it is necessary to extend credits on this account for several years, it will be worth much to know when real money may be expected from the allies. If the commission is not to be granted reasonable discretion in the business it

**BASEBALL'S FRIEND**

George Wharton Pepper, of Pennsylvania, successor to the late Senator Penrose, baseball and the fans who support it will have a champion on the floor of the United States senate. While baseball has a hold all its own upon the affections of the American public, in these days of reformers and cranks it is possible for a situation to arise when a real, understanding friend in the halls of legislation may be an exceedingly useful thing to have around.

His present national agreement base-baller to Senator Pepper. He drafted it and elucidated it and made the magnates and the public and the player, too, understand it and subscribe to it.

"As the national game is played for the life of the nation will be lived," was Senator Pepper's own statement, and he illuminated that statement with: "Nothing is good enough for baseball that is not good enough for America."

Such a view needs no explanation. It is the phrasing of a sportsman who recognizes the value of the greatest of all professional sports to the sport lovers of the nation. Any American can unhesitatingly endorse just such a view.

Police Chief Ben J. Brown Reports on Activities for the Month of January

Arrests for violation of city traffic ordinances numbered 23 out of 30 arrests made by city police during the month of January while 84 motorists were officially wanted for minor traffic ordinance violations, according to report made last evening to the city council by Chief of Police Ben J. Brown.

The report was made in writing and is believed to be the first written report covering a month's activities filed

by a chief of police in Twin Falls history.

The report in full follows:  
"For your consideration I beg to submit the following report covering the work of the police department during the month ending January 31, 1922."

Arrests:

Violation City Ordinances	23
Violation Traffic Ordinances	23
Drunkenness	10
Violation (state laws)	2
Misdemeanor (state laws)	2
Total number arrests	60
Total fines imposed	\$349.50
Warned for minor violations	84
Warned for minor traffic ordinance violations	84
Various complaints investigated	33
Search warrants executed	4
Animals impounded (horses)	1
Number of dance halls visited	12
Number skating rink visits	4
Violations curfew ordinance (boys)	8
Violations curfew ordinance (girls)	9

**NO SECOND OFFENSE**

"Regarding work of the police department will say that same has been centered principally on the enforcement of the curfew ordinance and the supervision of public dance halls. Where violations of the former have been found, they have been reprimanded and sent to the city hall and in no instance does the record show a second offense by the same individual, owing no doubt to the apparent willingness of the children under the age of 15 to comply with the provisions of the curfew ordinance.

"The public dances have received the most careful attention during the period and the conditions that prevail at these places are now satisfactory and I believe, creditable to the city. Without exception, the dance hall managers have shown a sincere desire to cooperate in providing clean amusement properly conducted. During the operation of the skating rink, several visits were made to that place and a few violators of the curfew ordinance were found.

"In regard to the livestock impounded, same were found running at large within the city limits and a charge of \$1.00 per head was exacted, as by ordinance provided. The clerk's official receipt for such fees collected is attached

hereto and hereby made a part of this report.

**NEW SYSTEM ADDS EFFICIENCY**  
"Since opening the new police station on January 20 I have installed a system requiring certain hours of office duty for each member of the department, thereby an officer is available immediately at all times during the day and night, by simply calling the station by telephone. No delay, as occasioned by the former method of requesting central telephone operator to display the red light, and an aggravating wait until an officer answered, is now required. In so far as I am able to determine, in the short length of time this system has

been in operation I feel that same is a great improvement, therefore, added efficiency.  
"I have made frequent visits to hotels, rooming and lodging houses during the month and have found some things not just conforming to my idea of how a rooming house should be conducted, but believe when the new ordinance becomes effective these matters will be corrected and we will be able to see the same in a justly deserved to the satisfaction of all concerned."
