POLICE ARE UP AGAINST STONEWALL

Many Odd Points but No Definite Clue Brought to Light by Probe of District Attorney's Office in Murder Case

SAN DIEGO SUICIDE MAY BE MISSING MAN

SAN DIEGO, (AP)—Belief that a man known both as William Koegel and James Martin, and who committed suicide here last Saturday night or Sunday is Edward P. Sands, sought in connection with the murder of William Desmond Taylor, was expressed today by Coroner S. C. Kelly.

LOS ANGELES, (AP)—Police here after communicating with San Diego police, expressed belief today that the suicide at San Diego identified as William Koegel is not Edward P. Sands.

LOS ANGELES, (AP)—The camera of the district attorney today to inspect all the information that can be obtained from news accounts, producers, directors and others in an effort to find solution of the mystery drama of the death a week ago last night of William Desmond Taylor, noted actor, former co-star of William Cullen Dana-Tanner, who was killed by a pistol bullet in his home.

MISSING LETTERS FOUND IN BOAT

They include recovery of a packet of letters, including some written to and from Madalyn Norman, Taylor's last person known to the police to have been with Taylor just prior to his death. This packet was found late yesterday at the boat house in the closet on the floor above that in which the murder was committed. It has been sought six days. According to Madalyn Norman, Taylor kept his letters in a drawer of his desk on the lower floor.

American Ships Rush Food Supplies and Seed Grain to Hungry Hordes in the Famine Regions of Stricken Russia

THE work of rushing food supplies and seed grain to starving Russia is now well under way. The pictures here tell the story of how America has come to the assistance of sufferers in the great Volga basin, where drought destroyed the crops and caused hundreds of thousands of otherwise happy well-to-do Russian men, women and children to die in all directions to escape the menace of starvation.

CHICAGO SAID TO BE HOME OF 10,000 PROFESSIONAL CROOKS

CHICAGO, (AP)—Chicago is the home of about 10,000 professional criminals, or about one-third of one per cent of the city's population, according to estimates of the Chicago crime commission, made public today. The reason for such an unprecedented number of law breakers here is ascribed by crime experts to the slowness with which the wheels of justice are set in motion and the small number of convictions.

MURDERER OF DRUGGIST IN POLICE TOOLS

Salt Lake Authorities Convinced that in Gilbert L. Brighton of Well Known Family, They Have Slayer of C. A. Faus

SALT LAKE CITY, Utah, (AP)—Gilbert L. Brighton, arrested by the police, and who confessed that he was one of two bandits who murdered Charles A. Faus' home here last Friday night but was not the one who killed Faus, is believed by officers to have fired the fatal shot that Brighton shot at this case. They based their belief on the confession reported to have been made by Augustine Wacaster, 18-year-old maid at the Faus home, was, according to the police, said that she framed the 'job' for Brighton and a companion to rob the Faus home.

BOY CHILDREN OF MURDERED MEN

A feature in connection with the search for the slayer of Charles A. Faus, was the discovery of the children of murdered men. They are both natives of Utah. When the girl was only five years old, her father was shot by one Kelly at American Fork, Utah. Brighton's father, Gus Brighton, a street car conductor, died in a gas chamber, a policeman, was shot by James McPherson Sheehy, on January 6, 1914. Sheehy was sentenced to death but the sentence was commuted to life imprisonment. He was released from the Utah state prison after serving 10 years. He is now a farmer in Missouri.

RESORT NAMES 'WEBSTER' BRITISH

Brighton, a popular resort in the mountains, 30 miles from Salt Lake City, is named after William B. Brighton, grandfather of the man said to have confessed to the slaying of Miss Wacaster, according to the police, said that he plotted the proposed robbery by the two men because he had a grudge against Mrs. Faus. The grudge, she is reported to have explained, was due to Mrs. Faus complaining of her staying out late at night. Brighton was a member of the juvenile court authorities.

BLAME'S COMPANION FOR SHOOTING

'Brighton' in his reported confession said that his companion shot Faus because he was nervous and thought Faus was carrying a gun. Brighton said that his companion was a Frank Miller who occupied a room adjoining his in a local hotel. Brighton is 31 years old. His mother is about a year ago, his wife obtaining a divorce six months later.

GRAVE CHARGES FILED AGAINST DOMINANT PARTY

President of Brazil Declared by Enemies to Have Postponed Election in Order to Perpetuate His Power

BUENOS AIRES, (AP) — Charges that President Irigoyen is planning to keep himself in power, by postponing the national elections, which would otherwise be held on April 2, are made by leaders of the opposition parties. There is a constitutional prohibition against a president succeeding himself in office but President Irigoyen's opponents allege that he intends to evade it by delaying the election by some manufactured excuse.

They are proof of their charges in the fact that the radical party which now controls the government has failed to announce a date for its convention to nominate a presidential candidate. They openly say that the radical party plans to continue the delay and that no candidate will be nominated.

Dr. Francisco J. Beazley, chairman of the convention of the Concentration National, an opposition party, charged at the convention of that party that Irigoyen intended to do everything in his power to retain control of the government.

ORGANIZED FRENTRY FOR POSITIONMENT. "There has even been talk," the speaker said, "of a general revolutionary strike promoted secretly by the executive power and stimulated and prolonged by its tolerance so as to afford a pretext for the postponement of the elections in April."

Dr. Norberto Pinciro, who was nominated for the presidency by the Concentration National, delivered in a speech that Irigoyen had "declared himself outside the usual order of government, invested himself with an illegitimate mission, a superior authority and placed himself above our fundamental charter."

The Concentration National is an association of conservatives, democrats and other parties supported by two leading newspapers, La Nacion and La Prensa and by many leading business men.

La Prensa, the governmental organ, treats the accusations against President Irigoyen with disdain.

FAMOUS NECKLACE IS SOLD PARIS, (AP) — The celebrated pearl necklace which once belonged to Queen Maria Theresa and which has been on display here, has been bought by Jefferson Davis Cohn of England, for 200,000 pounds.

WIRELESS TELEGRAPHY BIG FACTOR IN MEXICO

Revolutions Nipped in Bud and Incipient Troubles Put Down Quickly

MEXICO CITY, (AP) — Wireless telegraphy has contributed greatly to keeping down revolutions in Mexico and the government, recognizing its value, is establishing stations in every large city in the republic.

Officials assert that by using the wireless they are able to communicate directly and immediately with military headquarters and thus are able to head off many incipient revolutions which might grow into serious uprisings if not promptly checked.

In the old days the first thing a band of rebels did was to cut all telegraph and telephone wires, thus isolating the region of revolt.

In its stations at Chapultepec park here the Mexican government has one of the largest and best equipped plants on the continent.

During the Carranza administration the station was practically idle but during the past few months it has been used daily by the government in sending official news letters to Central and South American countries and in keeping its ministers and consuls informed of affairs at home.

OPEN STATION FOR COMMERCIAL WORK.

It has been announced that the government expects to open the station shortly for commercial work.

It has also been found that the station here can be used as a supplement for the land lines throughout the republic and congestion on the latter is often relieved by the Chapultepec plant.

Ignacio Gallardo, who for many years has been identified with wireless activity in Mexico, will represent the public at the radio-telegraph convention to be held in Rome next April.

EXCHANGES NEWSPAPERS FOR BUNDLE OF RUBLES

Methods of News Kids in Russian Cities Call for Little Attention to Change

STOCKHOLM, (AP) — Russian newsboys now, for the first time in years, selling daily papers in the streets of Moscow merely exchange a bundle of papers for an armful of rubles. Street sales of daily newspapers are now permitted in all Russian cities, according to the Russian correspondents of Stockholm papers.

The Moscow Ivestia, formerly given free of cost by the Soviet government to Soviet officials was put on sale at 2,000 rubles a copy. A boy who sold 50 of them would be loaded down with 100,000 rubles in Bolshevik currency.

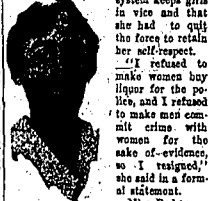

The first day's sale of a Moscow daily in that city amounted to 10,000 copies at 2,000 rubles per copy, or a total of 20,000,000 rubles, but on the second day the sales fell off, and in about a week, only some 5,000 copies of daily papers were being sold.

The monthly subscription price of daily newspapers in Moscow is 40,000 rubles, and 45,000 in the adjoining rural districts. Only billions in the

modern Russian sense of the word can afford a daily paper, but, of course, there are a good many millionaires in Russia these days.

Charge Police System Keeps Girls in Vice

Resigning her job as follow-up woman Miss Sabina Delaney has caused a sensation in Boston by charging the police system keeps girls in vice

Resigning her job as follow-up woman Miss Sabina Delaney has caused a sensation in Boston by charging the police system keeps girls in vice and that she had to quit the force to retain her self-respect.

"I refused to make women buy liquor for the police, and I refused to make men commit crime with women for the sake of evidence, so I resigned," she said in a formal statement.

Miss Delaney is a 27-year-old Saturday night rider, and her "taboo assistants" forced her to buy liquor at kitchen bars, hotels and to consort with unfortunate women to obtain criminal evidence.

She further charges the police are not interested in reforming women and all they want to do is to arrest them. "The police want to stimulate crime, not prevent it. The methods enforced on me were enough to disgust any decent woman," she added.

HUNT FOR BIRDS PROVES BAFFLING

State Game Warden Tells of Difficult Quest of Hungarian Pheasants

The Hungarian pheasant is so rare a bird that efforts of the state game department to secure specimens of the species for Idaho during the past three years have been unavailing and the prospect for success in the immediate future is not bright, Otto M. Jones, state game warden, says in a letter to Ernest White of Twin Falls, under date of February 6, supplementing correspondence heretofore had on the subject.

"I am advised that there seems to be a sentiment in your district among some of the applicants for these birds that they may be secured like our fish; that is, all they have to do is to apply for them and we will fill the application in a reasonable time," the warden says.

GRABS EVERY OPPORTUNITY. "In order to correct this impression as far as possible," he continued, "I will advise that we have at all times grasped every opportunity that looked like a source of supply for these birds."

In fact we authorized Max Muller, who made a trip to Europe last year, to secure 200 pairs for us, but Mr. Muller was forced to return without a single bird in spite of the fact that Mr. Muller on other occasions had visited Europe and secured the same man who had secured a shipment for the states of Oregon and Washington several years ago.

Referring to a letter received by his office from J. H. Broadbent of Detroit, a copy of which was enclosed, Mr. Jones says: "As you will note by Mr. Broadbent's letter, my last order for Hungarian pheasants was placed with him on November 24, 1920, but, as he states, there have been no exportation permits issued since 1914, and that he is going personally to Europe this spring and expects to bring back some birds. I have again advised Mr. Broadbent that we will take at least 200 pairs."

STILL HAMMERING AT WASHINGTON. Mr. Jones advises that he is still hammering at the Washington department to get them to fulfill their promise to trap us a few birds from their district and trust we will be able to get at least a fair sticking from that source."

He suggests, also, that any information tending to disclose possible source of supply of the birds will be welcomed at his office.

INTEREST GROWS IN CONCLAVE ON AMERICAN FALLS

Conference of Irrigation Districts and Companies at Pocatello is Expected to Turn Tide for Gigantic Project

POCATELLO, Idaho, (Special to The News).—The meeting called for two o'clock Friday afternoon in this city of representatives from the various irrigation districts and companies that are contracting parties under the American Falls storage reservoir project has aroused unusual interest and is generally regarded, according to reports received today at the office of the Idaho Reclamation association as one of the most important and far-reaching that has been held here for some time.

These representatives will have presented to them the whole situation, including a concrete plan for financing the various districts and thereby relieving funds to make their payments to the government, which liquidation will elicit the American Falls project.

GOVERNOR TO BE PRESENT

The meeting will be held at the Pocatello Chamber of Commerce rooms, and the chamber is planning to entertain the visitors at luncheon Friday noon.

Governor Davis will be present and impress the gravity of the situation and relate recent happenings in Washington hearing on the project. The legal aspects of the subject will be presented, as well as concrete plans for financing in a manner that will not be burdensome.

PROFIT OR LOSS, WHICH?

Some of the salient features of the situation are summarized as follows: Failure of the American Falls enterprise would put a damper on development in southern Idaho from which the state would not recover for many years. There would be a diversion to other states of immigration that is now looking toward Idaho.

The districts involved would be continually threatened with water shortage if the project should not go through.

It is a fact that in 1919 the loss due to water shortage amounted to more than three times the entire price received for anything that would lead to continuation of work and completion of the project it will have an immediate striking effect on all lines of business, including farming. The employment of 4000 to 5000 men on the works would, of itself, constitute an enormous payroll that would be felt beneficially throughout this entire territory.

DEMAND FOR FARM PROPERTY

There would be an immediate demand for farm property in these districts at increased prices, and opportunity would be afforded to sell profitably such portions of present holdings as owners desired to part with.

AID FEDERAL FARM LOANS

Continuation of the project would have a most important bearing on federal farm loans and result in lower rates of interest for all classes of lands. Interest rates are higher than they should be on securities covering irrigated land, because of uncertainties as to water, all of which would be removed by completion of this project. These and other angles of the subject will be discussed with representatives of the various districts, and an effort made to agree upon a definite plan of financing.

He Will Help to Feed Famine Stricken Russians

AMONG the men who will have charge of purchasing, shipping and distributing food supplies and seed grain under the \$20,000,000 appropriation for relief in the Russian famine district is E. M. Fleish of St. Louis, treasurer of the U. S. Grain Corporation, who had been appointed a member of the Purchasing Commission for Russian Relief.

The Commission, which was designated this appropriation in conjunction with the American Relief Administration, is now engaged in the work of rushing supplies to Russia. In addition to Mr. Fleish the Commission consists of Herbert Hoover, Secretary of Commerce; Don Livingston, representative of the U. S. Farm Bureau and State Agriculture Commissioner for South Dakota; former Governor James P. Goodrich of Indiana, and Edgar Richard, director of the American Relief Administration. The Commission has its offices at 42 Broadway, New York City.

The Purchasing Commission for Russian Relief is bending every effort towards facilitating the speedy shipment of the needed commodities to the famine regions. Large quantities of supplies, grown and purchased in America are being sent as fast as American ships can be chartered and loaded.

Secretary Hoover has announced that 400,000 bushels of grain have been shipped as of January 25th and instructions given to rush the shipment of further cargoes.

CATS AND DOGS EATEN FREELY

Horrible Pictures of Conditions Painted by Records of Russian Famine Area

KAZAN, ON THE VOLGA, (AP)—The famine in the Spassky canton of this province has caused some of the people to resort to the eating of cats, dogs, and the flesh of frozen or starved horses and cattle.

While yet the exception, the plight of the Hamidullina family in the village of Tlapubast shows what the winter may bring to the whole village. The father and head of the family died in the spring of starvation. Then his wife and two sons, ten and eighteen years old, took to the fields and ate the remains of starved cattle.

Then they killed and ate the house cat. As they found they could live on such food, they ate several dozens of cats in the village and, when this supply was exhausted, wandered away.

Black bread, however, is no longer known to the other villagers, who still have a few handfuls of acorn and potato bread.

The village council of Seio has certified to F. V. Warren, the American Relief district superintendent, that Gregory Ivanoff, fed his family on dog meat until his wife and two children died.

Cases are officially reported in which the people ate worse food than cats and dogs.

BLACK BREAD BRINGS HEAVY PRICE

The population of this canton in 1920 was 238,608 persons. Now it is estimated at 184,116. The difference is accounted for by 20,000 deaths and 30,000 who fled. The entire crop is given at about 8,000,000 pounds or about one-tenth of a pound of bread per day for each person.

Black bread is 10,000 rubles a pound. The price of a pound of a mixture of acorns, bark, leaves and ploverseed, used as bread, is one-third that of a pound of black bread. Pigweed sells for 2,000 rubles a pound.

Many intestinal illnesses have been caused by eating such food, until it is estimated that 50 to 70 per cent of the population is suffering from scurvy, dropsy and general exhaustion. The people have sold off their personal and real estate in order to buy food.

The various relief organizations, including the American, are daily distributing, through kitchens, some 30,000 rations.

SUSPECT FIRE NOT WHOLLY AN ACCIDENT

Loss of S. S. Northern Pacific Develops Angle of Mystery; Four Men Missing Believed to Have Perished with Ship

NEWPORT NEWS, Va. (AP)—Survivors of the former transport Northern Pacific, which was burned at sea yesterday with a loss of four lives, are convinced that the burning of the ship was wholly accidental.

While Captain William Lusti, who was in command, nor any member of the crew would make a formal statement concerning the fire, some of the latter declared they suspected foul play. Relief was expressed among the survivors that the fire was the result of some activity on board the vessel before she left her berth at Brooklyn.

AN attorney for the San Shippbuilding company was retained for the purpose of obtaining sworn statements from the crew. So far as could be learned the agent failed in every case, the explanation being given that the men had been warned to say nothing.

BELIEVE FOUR MEN LOST WITH STEAMER.

NORFOLK, Va. (AP)—Members of the crew of the Northern Pacific, said on their arrival at Newport News early today aboard the steamer Transportation, they were convinced that the four employees of the San Shippbuilding corporation of Chester, Pa., reported missing were lost with the ship.

Twenty-one members of the crew and Captain William Lusti confirmed reports that another boat-load of five men had been picked up by the tank steamer Herbert G. Wylie, which also was understood to be proceeding to Hampton Roads.

CAPTAIN DECLINES TO MAKE STATEMENT.

Captain William Lusti, master, today emphatically declined to make any statement regarding the disaster which cost the lives of the men employees of the San Shippbuilding company of Chester, Pa.

"The shipping board regulations are very strict. I am very sorry, I am unable to make any statement whatever," said Captain Lusti.

Captain Beth Chase, master of the Transportation, described the reason of survivors from the Northern Pacific. "The sea was very rough," he said, "but we did not have great difficulty in picking up the three life boats. Another steamer had seen the blaze and responded picking up one boat with five men. When we first sighted the Northern Pacific she was in flames from end to end. We made haste for her assistance and found the lifeboats floating about when we reached the scene."

ORIGIN OF FIRE IS A MYSTERY.

Captain Chase said his vessel first sighted the Northern Pacific about 9 o'clock yesterday morning and took the first boat in about 2:30. The rescue work was completed at 3:20 and the Transportation stood by until 9 o'clock yesterday morning, at which time the Northern Pacific, listing about 20 degrees to starboard, was still afloat.

"I think she remained in that position, although of course that is just a guess," he said. "No one knows how the fire started. No one can imagine who she listed as she did, for she was light at the time."

LITTLE HOPE IS HELD OUT FOR MISSING.

No one on the Transportation early today held out any hope for the four

men of the San Shippbuilding, Mallott, Hall, Keiser and Beckman, who were aboard the Northern Pacific. "They are undoubtedly lost," said one of the men, with whom the Associated Press correspondent spoke before Captain Lusti questioned that some of the men he requested. Members of the crew say they were quartered near where the fire broke out, and none of them were seen afterwards.

tives or by deputies of the sheriff—would be given to Mr. Doran and all forces, including detective assigned to the district attorney's office would pool their energies in trying to solve the mystery.

To this was added today the announcement that Mr. Doran would make all official statements in progress of the investigation, hereafter, although the been quoted as saying there would be no abatement of their zeal in trying to uncover the murderer.

TWO HANDBOOKS FOUND IN THE SCENARIO.

A second handbook found. It was only the investigation when, among the crew of the steamer, they said they found the letters in a boat in a closet in the Taylor apartments, Henry Penney, Taylor's negro houseman, as evidence found a handbook bearing the initials "M. M. M."

A handbook previously reported found near the body shortly after the steamer was discovered, the director said he is missing. It is regarded improbable that a complaint charging murder will be issued against any person in connection with this case until after the whole affair has been presented to the county grand jury, which has not yet been impaneled for 1922.

COURT ORDERS SALE OF RESTAURANTS PROPERTY

Receiver's Report Shows Operation of Model Cafe for 31 Days at Loss of \$328.22

Order for sale by the sheriff of property interests of J. M. Orwig, lessee, in the Model cafe, here, which on December 16, was turned over to William B. Ashdown as receiver, was yesterday afternoon signed by Judge W. A. Babcock in district court here. Mr. Ashdown's report as receiver, filed prior to issuance of the order for sale, showed claims in the sum of \$4362.04. Under the receivership the cafe was operated for 21 days with a loss of \$328.22 less the amount paid in labor claims and the fulfillment of meal ticket credits outstanding when the receiver took charge, the receiver's report showed. C. A. Jungst, E. N. Whitely and Fred K. Wash, as concerned in the operation of the independent meat market and as assignees of the Kinney Wholesale company, prosecute the action against the restaurant keeper.

TODAY'S MARKETS

HIGHEST WHEAT PRICES OF YEAR PREVAIL TODAY

Outlook for Crop in States Responsible for Well Defined Note of Optimism

CHICAGO, (AP)—Highest prices yet this season were reached in the wheat market today chiefly owing to continuing reports that the outlook for the domestic winter crop was precarious in Nebraska, Kansas, Oklahoma and Texas. These states contain roughly about 50 per cent of the total seeded area. Profit taking sales led to some declines at the outset this morning, but then rather general buying set in, and the market rose rapidly. Opening quotations, which varied from 1 1/4c lower to 1/8c advance, with May \$1.23 1/4 to 1 3/4 and July \$1.15 1/2 to 1 1/2. They were followed by a slight further sag in some cases and then a decided uptick all around.

Subsequently persistent profit taking sales and a lack of continued aggressive buying brought about a downturn in prices. The close was weak, 1/2c to 1 3/8c net lower, with May at 5 1/2c and July \$1.15 1/2 and July \$1.15 1/2.

\$1.25 1/4 to 1 3/4 and July \$1.15 1/2 to 1 1/2.

Liberal receipts of corn here and complaints of lack of storage room tended to prevent the feed grains from advancing with wheat. After opening 1 1/2 to 1 1/4 to 1 1/2c lower, May \$0.86 to \$0.88, the corn market showed further losses, although temporary rallies intervened.

Shipping demand here was slow and increased country offerings were reported. The market finished weak at 5 1/2 to 5 3/4 to 1 1/4 to 1 1/2c net decline with May \$8 to \$8 1/2 to 1 1/4 to 1 1/2c. Oats started 1 1/2 to 1 1/4 to 1 1/2 to 40 to 60c and then receded with corn.

Firmness of values in the hog market helped to sustain provisions quotations.

Cash Grain and Provisions CHICAGO, (AP)—Wheat—No. 3 red \$1.28; No. 2 hard \$1.23 3/4 to 1.25; Corn No. 2 mixed \$3 to \$3 1/4; yellow \$3 to \$3 1/2; Oats No. 2 white \$8 1/4 to \$9 1/4; No. 3 white \$5 1/4 to \$7 1/2; Rye No. 2, \$3 to \$4; Barley \$9 to \$10; Timothy seed \$2 to 2; Clover seed \$1 1/2 to 2; Pork nominal. Lard \$10.35. Hibs \$9.50 to 10.50.

Minneapolis Flour MINNEAPOLIS, (AP)—Flour—Unchanged to 1/8c higher. In carload lots family patents quoted at \$7.85 to 8 a barrel. Bran \$24.

Market Close is Firm NEW YORK, (AP)—Shorts opposed the further advance of prices in the stock market today but finally retreated in recurrent demand for rails and standard industrial. Sales approximately 650,000 shares.

The further advance of leading foreign exchange failed to sustain price

as at the opening of today's stock market. Trading was active and broad, but yesterday's reaction among industrial and specialties was extended, oil, motors and independent stocks being among the first to yield. Leases were limited to fractions although Standard Oil of California reacted only a point, one of yesterday's strongest features, was under pressure. St. Louis and San Francisco preferred and Toledo, St. Louis and Western preferred. "D" were fractionally higher.

Rallying of junior rails and prominent steel, equipment, shippings and oil offset profit taking elsewhere in the later dealings. The closing was firm. Foreign issues and convertible domestic rails were strong features of the broad bond market.

Liberty Bonds NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$96.40; first 4's \$96.20; second 4's \$96.00; first 4 1/4's \$96.30; second 4 1/4's \$96.10; third 4 1/4's \$96.25; fourth 4 1/4's \$96.25; Victory 3 3/4's \$99.98; Victory 4 3/4's \$100.10.

DIPHTHERIA

Diphtheria is an acute disease of the nose and throat, and is very dangerous. It is caused by the diphtheria germ. These germs not only cause a sore spot where they grow, but also make a poison which weakens the system.

Children may get diphtheria from spoons and cups that have not been thoroughly cleaned in boiling water before using.

You should be very careful to protect your children from diphtheria, and to keep other children from getting it if yours are sick with it.

Place the child in a room alone. Take out all unnecessary furniture. If possible, choose a room on the top floor of your house, well ventilated and sunny.

DRESS WARM AND KEEP FEET DRY

Rheumatism is no respecter of age, sex, color or rank. It is one of the most dangerous of human afflictions and is one of the most painful.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine.

Many long distance "shots" were taken of beautiful exteriors but director and camera man were ever on the watch to maintain the perfection of all details and not a California picture was "registered" on the film.

DISEASE IS DUE TO HARD WORK

Wear and Tear of Modern Business Responsible for New Ailment of Workers

CHICAGO, (AP)—Modern business methods and the wear and tear of professional life in big cities have produced a disease known as "chronic fatigue intoxication," about which physicians know little, according to Dr. Edward H. Oschner, who described the disease before the Chicago Medical society last night.

Dr. Oschner illustrated his discussion of the subject with pictures showing men and women with mouths drawn down, making them look like "chronic grognards" and others, with tired, mechanical smiles.

"The disease attacks only those who are alert, mentally and physically and who turn out prodigious amounts of work for a time," he said. "The disease causes their muscles to contract and it is because of the inability to relax that the patients carry a continuous frown on their faces. The disease is caused by poison generated by fatigue."

TO PROMOTE EMPLOYMENT

ROME, (AP)—The financial depression has increased unemployment in Italy. To relieve the situation, the Italian government has allotted 268,000,000 lire, equivalent at par to \$53,000,000 for public work. This is in addition to relief work undertaken by local government bodies.

The government fund will be used in hydraulic works, harbor improvements, dredging channels, coast protection works and similar enterprises.

The last official figures showed 492,368 unemployed and 46,426 on part time in Italy in November last.

CHAMBERS OF COMMERCE UNDERTAKE HEAVY TASK

Convention of Federated Bodies of Mexico to Take International Aspect

NOGALES, Ariz., (AP)—The chambers of commerce of Nogales, Arizona, and Nogales, Sonora, across the Mexican border from this city, have sent invitations to chambers of commerce throughout Mexico and the United States, to trade associations, manufacturing corporations, bankers and representatives of both governments to attend the annual convention of the Federated Chambers of Commerce of Mexico, to be held in Nogales, Sonora, April 1, 2, 3 and 4.

The Confederated Chambers of Commerce of Mexico is similar in aims also to the Chamber of Commerce of the United States. Growth of the chamber of commerce idea in Mexico is regarded as one of the principal factors in bringing Mexico back to a settled condition and the aid and co-operation of commercial organizations in the United States is sought.

At the conclusion of the convention all delegates and visitors will be taken on a special train for a 1,000-mile trip through the west coast states of Sonora, Sinaloa and Navarre, the strategic point to be visited being the quaint city of Tepic.

On the fourth day of the convention there will be an international business conference in Nogales, Arizona, for exchange of ideas for better understanding of the Mexican market and exporting to Mexico.

IDEAL CHAPLAIN DESCRIBED

Head of Army Religious Activity Guest at Banquet Gives His Personal Views

SAN FRANCISCO, (AP)—Col. John T. Axton, chief of chaplains in the United States army in San Francisco on a tour of inspection.

Speaking at a banquet he declared his ideal chaplain, figuratively, was one "with a Methodist hat, a Roman Catholic collar, a Presbyterian vest and Congregational trousers."

Thus attired, the colonel said, they would combine steadfastness, loyalty, faith, high thinking, morality, civility and enthusiasm.

Owe Name to Yellow Lichen.

The rocky pass called the Golden Gate to the Yellowstone park owes its rich color and its name to the yellow lichen covering its lofty walls; and the indescribable hues of the great hot spring terraces arise mainly from the presence of minute plants flourishing in the water that overflows them.

10 PER CENT OF TAX MONEY GOES TO PAY INTEREST

County Auditor's Computations Show Where Taxpayers' Dollar Goes; 40 Per Cent for Educational Purposes

Annual interest charges on bonded indebtedness of Twin Falls county and its political subdivisions including municipalities, highway districts and school districts, and upon special improvement bonds of cities and villages of January 7, 1922, amounting to \$350,505.59, constitute 10 per cent of the taxes charged against Twin Falls county taxpayers, according to figures compiled today by Frank C. Lynch, deputy county auditor.

Cost of all activities of the state government account for 9 per cent; county governments 11 per cent; general city expenses 9 per cent; special improvement assessments 1 per cent; highway road and bridge construction and maintenance 6 per cent; and education 40 per cent of the county's tax bill, these figures show.

Chinook Clears Ice and Snow Banks Off Twin Falls Streets

Snow and ice on Twin Falls streets disappeared rapidly under influence of a warm wind which visited this section yesterday and continued here throughout the night and today. Water released by ascending temperature ran in streams through the city's thoroughfares and taxed storm sewers to their capacity.

In rural districts the thick blanket of snow that has covered the land for several weeks past began to yield to influence of the chinook, and ditchwaters over the Twin Falls canal system, under direction of John W. Tice, watermaster, opened apertures to permit of the escape of excess water running into the canals as a result of the thaw. The runoff, however, was gradual, and watermaster Tice this morning said that unless there was a rainfall increase in temperature some of the spillways would be closed again in the future to avoid danger of ice in the canals breaking up and forming jams in consequence of lowering of the water level.
