

# LAYS TREATIES BEFORE SENATE FOR APPROVAL

## President Harding Urges Early Ratification of Agreements Reached by Recent World Disarmament Conference

WASHINGTON, D. C., (AP)—The treaties negotiated during the Washington conference were laid before the senate by President Harding today with a request that they be ratified as a guarantee of peace.

The treaties were carried by the president in a large manila envelope under his arm. Seven treaties were submitted by the president. The first was the five-point armament agreement, the second the submarine and poison gas treaty, the third, the four-power Pacific treaty, the fourth and fifth were supplementary treaties to the four-point armament and the others related respectively to the general Far Eastern situation and to the Chinese tariff.

## IN RESPONSE TO WORLD DEMAND.

Referring to the unratified treaty of Versailles, Mr. Harding said it was drawn in response to a "manifest world hunger" for greater relations, and that the treaties submitted today were drawn in response to the same desire but without any provision except "to promote peace."

## STEWARD KILLED CAPTAIN WOUNDED

### Steamship Bessie Dollar Severely Damaged by Heavy Storms

SAN FRANCISCO (AP)—The steamship Bessie Dollar, 700 miles from Cape Henry, was wrecked today. The steward was killed and the captain injured, according to a radio message received this morning by the marine department of the chamber of commerce.

## NO THREAT OF RESIGNING

WASHINGTON (AP)—Secretary of the Interior Fall told today that he was planning to resign soon from the cabinet and made the following statement: "Although I have received telegrams from newspapers in my own state, and have been inquiring as to these rumors, I am at a loss to account for them. I am not resigning; I have not the matter in contemplation, and my official relations with the president are entirely satisfactory. Nor have I received any offers from oil companies."

## EMPLOYMENT FOR MANY.

CHICAGO, (AP)—The Southern Pacific railroad is planning rapid construction work on its track between Chicago and Sacramento which will furnish employment for about 12,000 men according to work received here. A camp at Anvil rock will serve as a base.

## POPULATION SHRINKING

MEXICO CITY, (AP)—The population of Mexico is a trifle more than 14,000,000, according to figures recently compiled by the census bureau which has just completed its enumeration. This represents a loss of approximately 1,000,000 over the last census was taken in 1910. The decrease is attributed to emigration of natives and foreigners during the periods of revolution. Officials here assert that there are now more than 4,000,000 Mexicans living in the United States.

# WHEREABOUTS OF CAPTIVES IS A MYSTERY

## Reports that Captives Taken in Ulster Raids Would Be Released Have Not Borne Fruit to Late Hour Today

LONDON, (AP)—It was reported from Dublin today that Belfast, many of the men kidnapped in Ulster would be released today, but none except those who reached their homes yesterday, as yet are known to be free, and the whereabouts of the captives was still a mystery.

## RELIGIOUS BARRIERS PLANNED

An article in the Daily Telegraph remarks that, if the raids were planned with the connivance of the provisional government, it is obvious that much of the material which was seized by the British has reached hands unfriendly to Mr. Collins and his government. It adds that there are many signs that the British are in the hands of the Irish republican army.

## CO-OPERATION IN AGRICULTURE

## Details of Intimacy with Murdered Film Director Will Be Subject of Searching Investigation by District Attorney's Office and Police—Investigators Take Brief Rest from Duties

## DECLARES TAYLOR WAS IRISH ARRISTOCRAT AND NEVER AT ANY TIME HAD A BROTHER

CHICAGO, (AP)—William Desmond Taylor, the known as William Desmond Taylor, never had a brother, and belonged to the class and was the first aristocrat in Ireland, according to a statement made today by Mrs. W. O. Farman, an old friend from Ireland, who knew him well when he was a boy.

"His father's name was Major William Traiser," she said. "He was the only one of his family who was not something of a mob. He talked to the common people. Two other little girls and I used to wait at the edge of the Kansas estate, near the Tanner estate, in the horse-drawn house for him to give us a ride to town. He drove four miles to school at Ylanor in a pony."

"He admired athletic people and the little girl who over got any special attention from him was Eva White Shannon, who was 15 and the best angler in the county."

LOS ANGELES, (AP)—Mabel Normand, motion picture actress, will be the next star in the reeling by the district attorney's office of all facts and circumstances that investigators can obtain to build up the real story of the mystery drama surrounding the shooting of William Desmond Taylor, noted film director, here nine days ago. It was announced today by District Attorney Woolwich.

DIFFERENCE IN POLITICS GOOD DIVORCE CAUSE

Legal Separation in Russia Easiest Thing in the World Ignorance of Laws Punished by School Sentence

MOSCOW, (AP)—Politics in Russia is a more chaotic than bigamy in Soviet Russia. Cupid's errors are painlessly, instantaneously and inexpensively cured by Bolshevik courts, but ignorance of Bolshevik laws punished by sentence to courses in Communist schools organized to enlighten those untaught in the ways of the Soviet republic.

Ivan Ivanovich Linsky was recently faced in a Moscow court by two wives and five children. "I didn't know that it was necessary to get a divorce and thought my living apart from my wife whom I didn't love any longer was proof that I didn't want her," was Linsky's defense.

One woman was granted a divorce and Linsky was instructed to enter the school for the liquidation of political illiteracy at the government printing office, where he will be taught the ways in which he may be disposed of only by making declaration before a Soviet court that one does not want them and paying the price of 10,000 rubles.

WET ELEMENT BADLY SCARED

It's much easier than the Reno treatment and Moscow should become a popular resort for misnamed foreigners after Soviet Russia gets the recognition necessary to make Russia in verba waterproof abroad. There are no residence requirements and "difference of political views" is the ground on which many divorces are granted. Alimony is not yet come into fashion in Russia. Under the old Communist ideal nobody had anything, the wealthy, and everybody worked, and was supported by the state. With the reversion to capitalistic ways and the recognition of the rights of personal property, divorce proceedings may soon be tinged by Mammon.

LAY PLANS FOR INCREASED PAY

Scale Committee of United Mine Workers in Session Over Demands to be Made

INDIANAPOLIS, Ind., (AP)—With reports showing widespread unemployment among coal miners before it, the scale committee of the United Mine Workers of America has been in consideration of the wage demands affecting the entire coal industry that will be presented to the union committee on Wednesday.

Attention was centered by the committee on 200 resolutions sent by local unions throughout the country containing suggestions to be made by the miners in seeking new wage agreements to become effective next April 1.

Possibility that Mexico City May Go Dry Taken to Mean Country Will Follow

MEXICO CITY, (AP)—The "wets" in Mexico are frankly alarmed. They say there is a real possibility that Mexico City, at least, may go "dry" within the next few weeks, and that if so, the next step would be to make the entire republic arid of alcoholic beverages.

President Obregon does not say that he is a prohibitionist, but within the past few months he has given his unqualified support to certain legal measures which aim to cut down drinking and eventually to put intoxicants under the ban.

Saloons, clubs and cantinas have been put under more rigid restrictions and, only a few weeks ago, a presidential decree increased the federal revenue tax on alcoholic drinks 100 per cent. There are many rumors that these taxes will be automatically increased until they become prohibitive.

Nation-wide protest was heard several days ago when the newspapers said that President Obregon contemplated issuing a decree forbidding the planting and cultivation of the manioc plant which is the basic ingredient of the most popular native drinks.

MUST REPLANT EVERY SEVEN YEARS

The sugar, which is a species of cactus, must be replanted every seven years, and a decree prohibiting its cultivation would mean its extermination and with it the elimination of tequila, rum and pulque, drinks of unquipped potency.

Ministry of manioc rushed numerous petitions to President Obregon pointing out that the plant is a part of the agricultural wealth of the nation in that it produces a valuable fibre, sugar, a luscious fruit and a medicine that is said to be a specific for kidney ailments. It was also said that its spines, treated by an inexpensive process, make cheap and excellent phonograph needles.

President Obregon has not yet issued the decree, but the planters are still worried and so are certain other persons.

The "wets" have held numerous meetings within the past few weeks to organize their campaign against prohibition.

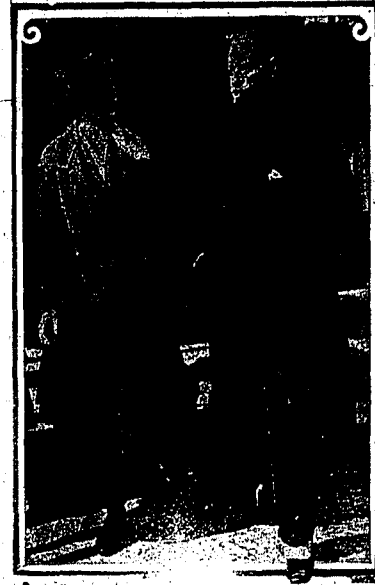

Secretary of Interior Calles is coming in for a large share of the criticism for the "dry" wave, as he was a staunch "home dry" advocate long before he left the state of Sonora to take a cabinet position. Secretary of the Treasury de la Huerta is also a prohibitionist.

MAY POSTPONE ART EXHIBITION

International Function Planned for Spring May Be Held This Year

NEW YORK, (AP)—Announcement has been made that it has been decided to postpone until the spring of 1923 the exhibition of American art in Paris which was first planned to be held next spring. The French government has decided to postpone the exhibition the building known as the Jeu de Paume in the Tuilleries Gardens.

It will be given under the auspices of the ministry of foreign affairs and under the direction of Monsieur Benoit, the director of the Luxembourg museum.

The permanent American committee appointed by the ministry of foreign affairs is composed of Messrs. William Emerson of Boston, Paul Cret, of Philadelphia, Charles Butler and Julian Clarence Leff of New York.

Mr. Leff says the scope of the exhibit will be very comprehensive as the French government wishes to have representative exhibition of all American art activities, not only in the fine arts, but in the decorative and applied arts as well.

TRADE MARK TO APPEAR AGAIN

Old "Familiar" "Made in Germany" Likely to Once More Adorn Products

BERLIN, (AP)—The trademark "Made in Germany" soon may be stamped again on German export wares for the agitation to revive this trademark, which was known in three fourths of the market cities of the world before the war, has been increasing in industrial and commercial circles.

Arguments that the anti-German sentiment which resulted in widespread boycotts following the war is subsiding and that many merchants again would welcome the trademark have had noticeable influence with manufacturers, who are now investigating the probable result of its revocation.

It is almost certain the wares will shortly be used for articles which cannot be limited or for which there are no substitutes in other countries. SOME MERCHANTS WOULD WELCOME SIGN.

Some of the reports said to have been received from foreign merchants say many would welcome the sign again.

# URGES ACTION TO STOP FLOW OF JAPANESE

## California Publisher Delivers a Strong Appeal for Protection of Coast from Peaceful Invasion of Yamato Race

WASHINGTON, (AP)—If friendly relations with Japan are to be maintained, the United States government must effectively stop the continued admission of Japanese and the rapid increase of Japanese population in California, Cal. Bee, declared in a statement today before the house immigration committee.

Urging federal action along the lines approved by the California legislature in its memorial to congress last year, Mr. McClatchey declared that "gentlemen's agreement" between this country and Japan "should be concluded as falling to carry out the purpose for which it was made, and this country should, by treaty or proper legislation, accomplish the intent of that agreement as clearly set out by President Roosevelt, under whom it was made."

Although immigration from other countries has been sharply curtailed since the percentage limitation was placed on the number of Japanese permitted to come into the United States under the agreement since that legislation went into effect. While the immigration of Japanese "picture brides" has been stopped, "in defiance to public protest," he said, there are now coming to this country "in still greater numbers" what he described as "exclusion bride" wives. These, he declared, are "to be kept many children in order that the Yamato race may be permanently established on this continent."

### RACE GOVERNS FROM WITHIN

Mr. McClatchey asserted the Japanese in this country were "maintaining here a government within a government most dangerous to American institutions." The citizenship of those here is being "utilized largely for purposes of Japan," he declared, adding that of the 90,000 claiming rights as American citizens by registration up to last year only 73 had applied for expatriation from Japan, and only 64 had been granted it. Thousands are being "lost for loyalty to the United States," he said, "and are returning to Japan at an early age to be educated there and later to re-enter this country. He said there were nearly 20,000 Japanese misers in Japan and between 10,000 and 15,000 who were born in California. Mr. McClatchey declared the last census enumeration of Japanese in California was "many thousands short even of the acknowledged incomplete returns secured by the Japanese under order of the Japanese government. They are increasing by reproduction, he said, "ten times as fast as the whites."

### BOONVILLE WAS ALIVE TO SITUATION

Asserting it was made clear beyond any misunderstanding not only by his published utterances but in his autobiography that Roosevelt, under whose administration the gentleman's agreement was entered into, intended that, if it did not effectively stop the entry of Japanese settlers into this country, the government would "keep them out by an exclusion act," Mr. McClatchey declared the state of California had the right to demand that the government carry out the agreement which he said was made with the state to that effect.

He maintained that the assurances given the state by President Roosevelt in his message to the legislature in February, 1909, during adjustment of the Japanese school question, should not be considered as approved by the commercial treaty concluded with Japan by President Taft in 1911, al-

# REDUCE SIZE OF ENGLISH FORCES

## Navy and Air Defenses Also to Be Cut and Co-ordinated Under Ministry

LONDON, (AP)—Reduction of the British army, navy and air forces and their co-ordination under a ministry of defense are advocated in the report of the committee headed by Sir Eric Geddes issued today.

The committee recommends reduction in the naval personnel of 25,000 men and a cut in the naval estimates for next year from \$1,000,000 to \$6,000,000 pounds exclusive of any savings brought about through the two year naval holiday agreed upon at Washington.

Reduction of 50,000 men in the army with a cut in the army estimates of \$5,000,000 pounds.

A cut of 5,000,000 pounds in the air service estimates and reduction by eight per cent of the air squadrons allotted to the navy and army.

The committee favors reducing the education estimates by 18,000,000 pounds and recommendations are also made regarding conditions in the board of trade, services, the agricultural and fisheries services and the police and civil service departments.

It is remarked on the navy and air force estimates, the report says: "In our opinion full economy in the fighting services cannot be realized under existing conditions. There is overlapping and duplication throughout."

### NEW DEPARTMENT TO BE ORGANIZED

"In order to fully realize the economies, the three forces must be brought together under the creation of the co-ordinated authority of a ministry of defense responsible for seeing that each force plays its part and is allotted appropriate responsibility for carrying out its various functions."

The committee, which was asked to show 100,000,000 pounds could be clipped from the national expenditures, recommended possible economies in the amount in this report and will suggest further reductions of expenses in various government departments later.

The committee says that it is not yet informed as to what extent the government intends to adjust the naval estimates as a result of the Washington armament conference, nor is it informed regarding the proposed expenditure on oil stocks, oil storage and on permanent military establishments abroad.

### FORMER ESTIMATE ON NAVALY BOLD

In recommending the reduction in the navy, the committee expresses the opinion that the estimates for 1922-23 provided for man power on a lavish scale and that without interfering with the manning of the fighting ships of the navy, from capital ships to submarines, there is an excess of more than 35,000 officers and men in the navy. It asserts that the admiral, with a smaller navy, is maintaining far larger shore establishments than it did before the war.

The report continues: "No account has been taken of the large savings which might result from the results being out of the Washington conference, such as the discontinuance of the construction of the four new capital ships for which the estimates of 1922-23 include 11,000,000 pounds out of the possible reduction in the number of capital and other ships in full or in partial commission."

The committee censures the army man power estimates due to have been made on a lavish scale and thinks that a reduction of 50,000 officers and men could be made without reducing the forces employed by the war office on foreign service.

### FEMINE USE OF PROFANITY

Census Taken at Girls' Seminary Cannot Be Taken as Positive of 'Iniquity.'

It has long been the fashion at colleges and schools to take a census of graduating classes to determine such vital facts as these:

"What is your favorite flower? How tall are you? Do you smoke? Are you a prohibitionist?"

At a girls' seminary a recent inquiry was more sweeping. To the interrogation, "Do you swear?" 200 of the 215 girls answered yes.

But statistics that they swear is not proof that these feminine lips do utter oaths. So at least says the lady in New York state, writes "Griant" in the Philadelphia Press.

"Four or five people must hear you swear twice a second or two, but for about five minutes—that's the law in North Carolina."

"Down in Alabama they don't expect a man to swear from the houseposts, but the law says that if three or four persons hear you just once, good night!"

"In Tennessee it is not necessary to repeat the offensive words when a culprit is indicted for swearing."

"I saw on the veranda of a country club 17 women, of whom 12 were drinking an intoxicating liquor and seven were smoking cigarettes."

"But if that census at the girls' seminary is an index, more women swear than daily with John Barleycorn or Lady Nicotine."

# TODAY'S MARKETS

## WHEAT STILL MOVING UP

### Higher Quotations at Liverpool Result in Sympathetic Advance in Chicago

CHICAGO, (AP)—Fresh upticks in the price of wheat took place today during the early trading, the market sympathizing with higher quotations at Liverpool. It was pointed out that the Liverpool market had made a straightaway advance of 100 points against 10 cents here. Besides, reports were current telling of crop damage in Argentina, and a cold wave in Kansas to slight westward.

The opening which varied from 5-8c lower to 1-4c higher, with May \$1.20 to \$1.20 and July \$1.15 to \$1.15-4, was followed by material gains all around.

Reduction in estimates of the Argentine crop surplus, together with renewed reports of high winds in Kansas and other disquieting conditions southward led subsequently to a further advance in price. The close was firm, 1 1/8 to 1 1/4c net higher, with May \$1.21 5/8 to \$1.21 7/8 and July \$1.17 1/4 to \$1.17 3/4.

Corn and oats rose with wheat after opening unchanged to 8-8c lower, with 27-3-4 to 27-7-8; the corn market scored a general uptick.

Argentine crop damage advances caused a rise in wheat at an advance of higher prices. The market closed firm at 7-8c to 1 1/4c-3-8c net advance with May at 59-3-8 to 60-1-4c.

Oats started 1-2c to 1-4c higher, May 30-7-8 to 40 and then all deliveries went well above yesterday's finish.

Provisions were lifted a little in price owing to the higher quotations on hogs.

### Slight Losses Recorded

NEW YORK, (AP)—Legislative developments and the situation in industrial conditions, as indicated by the United States Steel tonnage report for January, encouraged a renewal of short selling in today's stock market. Sales comprised about 70,000 shares.

Another drive against the shorts in steel, rails and motors marked the resumption of trading on the stock exchange today. United States Steel, yesterday's strongest feature, was the only noteworthy exception, opening at a loss of half a point. Crucible, Lackawanna, Gulf States Steel and Republic Steel reflected further post operations with United States Steel Iron Pipe, the latter gaining one point. Rails were bought in expectation that the government may grant credits for their rehabilitation. Maryland Oil, Industrial Alcohol, Pierce Arrow preferred and Adams Express also were strong.

Buying of influential railroad stocks like Abilene, Great Northern preferred, Northern Pacific, Norfolk and Western, Reading, Southern Pacific and Union Pacific, were improved one to two points, provided a stimulating influence for a time, but the entire market weakened on the publication of the United States Steel tonnage report, which showed a decrease, whereas an increase had been quite generally expected. Liberal offerings of the steel, equipments, American Sugar, American Sumatra Tobacco, Peoples Gas and General Asphalt depressed them 1 to 1 3/4 below yesterday's final figures. Subsequently the market again moved forward under the leadership of Mexican Petroleum.

Other oils improved with Mexican Petroleum, but reacted later when steel, equipments and specialties became depressed. The closing was heavy. Strength of low priced rails again featured the bond market.

EARLY BALLOTS WIDE OF MARK

Election of Pope Followed Wide Divergence of Opinion Among Cardinals

ROME (AP)—Authentic revelations concerning the proceedings in the conclave which elected Pius XI are coming to light. The conclave lasted three periods. During the first, Cardinals Gasparri and Merry Del Val received most of the votes, although for the two-thirds majority, the second and third periods were necessary to elect Pius XI.

In the second period Cardinal Latruncolo replaced Merry Del Val, while the votes given first to Gasparri were divided among Cardinals Batti, Maffi and Luaidi, all however being still far from the necessary two thirds.

Finally on the fourth ballot, Cardinal Batti was chosen daily ballots, Cardinal Maffi was chosen almost unanimously. Cardinal Merry Del Val, however, was elected by a narrow majority.

The false report circulated at the time of the election that Cardinal Tosi had been chosen arose from the fact that he was ill, his presence being excused by his attendants as due to illness at his election.

Pope Pius XI has been urged to give assent to several pending matters, but has decided to postpone the settlement of all important questions until after his coronation. It is believed, however, that he will make no change in the policy of the conclave.

It is expected the new cardinals will be created according to the decisions already reached by the Holy See. The new cardinals, including Monsignor Bonzano apostolic delegate to Washington, and two from France besides other whom the present pontiff may have appointed until after the conclave.

Happenings of a Day In Sports

FANS ENJOY GREAT GAME FOR LIGHTWEIGHT TITLE: KIMBERLY TO MEET LOCALS

By superior team work, aided by the remarkable marking of Ezzet, the local team of the American Legion defeated the Legion five from Buhl last evening at the high school gymnasium in the score of 22 to 6.

The local executive team snatched off a hurray, and before the start had cleared for the first half, they were leading 22 to 6. The game was fast and away from the start, and the most crowd present were on their toes most of the time.

Exciter, who hails from Utah, gave the fans an exhibition of football, but a technical foul, and four personal fouls were called on Dr. Boche, who led, three in the first half and one in the second.

Getting back to the players, after the wonderful shooting of Ezzet, the all around team work of the Twin Falls five, Davis and Firman, forward played great ball, as did Woodley. Five of his seven buckets being remembered that these boys have played together for two weeks.

For the Buhl men, Chandler, right guard, played a crackle job for Woodley. Five of his seven buckets being remembered that these boys have played together for two weeks.

Rooky Kansas and Benny Leonard to Enter 15 Round Battle for Championship

NEW YORK, (AP)—Rooky Kansas, rugged Italian pugilist of Buffalo, will tonight get his second chance at the world's lightweight title in a fifteen round decision bout with Champion Benny Leonard.

In an open air arena in Harrison, N. J., last summer, Kansas met the champion in combat for 12 rounds, a no decision contest not required by New Jersey law, and Leonard was acclaimed the victor on points by a majority of flaic experts in attendance.

Benny took quite a number of solid wallops in that contest but, withstood them with apparent ease, returning two blows for one. He never was in danger of a knockout.

Leonard is famous for his hitting and, even if he is unable to knock out Kansas, is favored by a majority of experts to win a decision on points.

Good Game Expected Tonight Between Twin Falls and East End City

This evening at 8 o'clock on the high school gymnasium floor the Kimberly hoopers will play the local five in a regular scheduled game. This is Kimberly's first appearance in Twin Falls this season and a large crowd is expected to see them work.

Cough Evans will use practically the same team that has kept him at top all season. With the complete recovery of Bob Parker the local five is expected to take an additional pep.

The lineup will be Scott and Cole, forward; Jamieson, center; Fulton (captain) and Cram, guards; With Leo Bracken, retreating the Five-Buhl game this evening at Buhl, R. E. Evans, manager of the local five, has called into service for this evening's game.

ALL READY FOR BIG RACE - CHICAGO, (AP)—Riders from Australia, Italy, Belgium, and Poland, as well as American riders, will participate in the six-day bicycle race to start here Sunday night and the pairings, announced today, indicate that each team has a chance to win first in the league trial, according to their past performances.

Fourteen teams will await the start of the race on Sunday night and most of the sprinters are expected to take part in the races which will take place in the Coliseum. Among the pairings are William Hanley, Stan Francis, and Alex McBeth, Australia; Al Percy Lawrence and Lloyd Thomas, comprising the San Francisco team.
