NEW GAINS ARE REGISTERED IN WHEAT MARKET

Sensational Advance in Liverpool and Other Foreign Markets Reflected in Strong Advances on Chicago Board

CHICAGO, (AP)—Wheat prices jumped as much as 6 1/2c a bushel today at the opening of the board of trade. The reason was a sensational advance in Liverpool and other foreign markets...

Dealing in Chicago took on large proportions as soon as the market opened. The prevailing view seemed to be that the extraordinary rise was largely due to more general realization of the fact that the world is confronted by small supplies of wheat, and that hope for relief by early shipments of new winter wheat from the United States might not be so easy, owing to the poor crop outlook.

FIRST EDITION PUBLISHED FOR NATIVE INDIAN

Original Bible Sent to Press in America was Printed in the Tongue of Massachusetts Aborigines

CHICAGO, (AP)—The first Bible printed in the United States sprang from a national solicitation of funds in England and Wales in a manner somewhat akin to the Liberty Loan drive, according to George B. Urey, historian of the Newberry Library here.

GENERAL COLLECTION TO COVER EXPENSE

But more especially it ordered a general collection in all the countries, cities, towns and parishes of England and Wales. It required the ministers to send the act to their congregations and instructed them, with others, to go with all convenient speed from house to house to every one of the inhabitants of the said parishes and places respectively, and to take the subscription of every such person.

Better education of the Indians was also named among the purposes of the corporation. Twenty-five years later there were ten Indian towns under the auspices of the corporation. The "praying Indians" there numbered 4,000. The collection ordered by parliament brought in about 15,000 pounds, it is reported.

SECRET POLICE ARE ABOLISHED

Russian Authorities Take Big Step for Establishment of Civil Rights

MOSCOW, (AP)—Accusations against all persons under arrest for political offenses in Russia must be made within a fortnight, and within two months all persons under arrest must either be freed or turned over to the courts under special provisions for the further development of the subject which exercised a preferential treatment by which a vessel of the Cunard line and attempts to restore this policy have been made since the war.

FORMER POWERS ORBATLY CURTAILED

The decree orders the liquidation of all the branches of the checks, creating instead a new central political department which will take over many of the checks' powers, but will have jurisdiction only in cases of open counter revolution, espionage, banditry, the manufacturing of railways and river communication, protection against contraband and persons without proper identification.

WILL PAY HIGH HONORS TO DEAD ANTARCTIC EXPLORER

Military, Naval and State Officials to Take Part in Last Ceremonies

MONTEVIDEO, (AP)—Military, naval and state honors will be rendered by the Uruguayan government tomorrow to Sir Ernest Shackleton when his coffin is put on the British steaming Woodhouse, which will convey it back to South Georgia Island for burial. After services at the English church the coffin will be placed on a gun carriage and conveyed to a pier with a escort of troops and followed by a procession of British organizations and representatives of the general public. Troops stationed at intervals along the line of march will salute as the body passes.

Foreign Minister Buzo will await the body at the pier, where he probably will deliver the eulogy. The ruler Uruguay will escort the Woodhouse to sea and fire a farewell salute.

CHINESE PIRATES STILL OPERATING

Ship Reported Held Up in Genuine Old Time Style; Seizure Much Booty

PEKING, (AP) — A recrudescence of the activities of former Chinese pirates recently took place when the Kwang Lee, a steamer bound from Shanghai to Hongkong, was looted by a band of 50 Chinese who came aboard in junka and demanded the surrender of the vessel. The pirates looted the crew and commanded the captain to continue his course toward Hongkong. Two of the three junks in which the pirates had come aboard the ship were abandoned owing to the fact that they were badly battered by the heavy sea prevailing, while the third was towed by the other of the pirate chief.

PLUNDERER WORTH REAL MONEY.

The plunder of the pirates amounted to some \$120,000 including five cases of gold bars and a quantity of Chinese bank in Hong Kong. One Chinese passenger was killed by a bullet from the pirates but the board of the ship by the pirates but the Chinese made up for this by the amount of booty which was taken.

PURPOSE OF UNIVERSITY TO EDUCATE FOR LEADERSHIP

Public Expense of Upkeep Can Be Justified on No Other Line, Declares Speaker

UNIVERSITY OF IDAHO, Moscow, (Special to The News) — "Students are being trained for the future, but it is not their duty to be better citizens; there is no other theory on which you can justify it," said Donald A. Galbraith, university attorney, before a group of university students at his regular assembly.

"Men and women of the past, history's most illustrious, have not only could live and become great, but also as its people received the benefits of higher learning. They, therefore, set an example for us to follow, to provide an education for our students, whom they foresaw here. Think back to the time when Idaho was a wilderness, and the men and women who left the comforts of civilization to come here and create this state. Because of the hardships they endured, and the sacrifices they made, you are enjoying the benefits of these pioneers.

CIVIL WAR IN IRELAND IS BEING FREELY DISCUSSED

Entire Situation Grows Hourly More Tense and Grave

Fears Entertained

LONDON, (AP) — Michael Collins' dramatic disclosure of an alleged revolution plot to overthrow the provisional government, the arrests and unexplained suspension of the British military evacuation and the dangerous situation between the north and south have combined to produce a serious situation in Ireland.

The outcome no one here ventures to forecast more definitely than by speculating on the direct possibilities but dispatches show that the position on the frontier is not far removed from a state of war. Indeed, the prospect of a large-scale military campaign in Belfast and elsewhere in the north.

The dispatches sent by Belfast correspondents of the London newspapers represent the temper of the Ulster men as being such that, unless the kidnapped unionists are speedily released, there will certainly follow an explosion which may lead to war.

Of the suspension of troop movements, little more is known here, but it is generally believed this development to be a most dangerous side of affairs, of the northern border of the free state, although some correspondents indefinitely to "certain week-end messages in south Ireland" as a conflagration can.

The northern danger, with its threat to the whole Irish settlement, is realized acutely in the south, which, however, is not in the great difficulty of confronting the provisional government.

He writes, "Collins has no military forces at his disposal and cannot claim the direct allegiance of the Irish republican arm in County Monaghan, or in any other part of the country."

CANADIAN PARLIAMENT FACING NEW SITUATION

Government Has Two Groups in Opposition for First Time in History of Country

OTTAWA, (AP) — The dominion parliament this year, for the first time in Canadian history, will have two strong opposition groups in the house of commons.

In the past, with only two main parliamentary groups, it was the custom for the government party to occupy the seats to the right of the speaker, with the opposition opposite. During the last years of the Borden-McLellan administration a small bloc of independent members, mostly farmers' representatives, These "outsiders" sat at the back of the chamber, facing the speaker.

As a result of the recent election there are two opposition groups and their combined strength amounts to that of Premier Mackenzie King's supporters. The unofficial opposition group is made up of progressives, whose chief is T. A. Crozier, ex-Minister of western farmers.

The Crozier group is larger than that of former Premier Meighen, but more closely approaches the government policy on tariff and other issues.

SCIENCE GAINS BY DISCOVERY

Base of Famous Leprosy Cure Will Be Manufactured from Philippine Trees

MANILA, P. I., (AP) — Lepers of the Philippine Islands are to be cured with the products of their own land, according to Dr. H. L. Coley, organic chemist, who has discovered a new method of returning from an extensive investigation through the southern part of the archipelago where he found in the island of Mindanao, the tree which bears the fruit which chaulmoogra oil is obtained. This oil is made into a glycerine which has already been used successfully in the Hawaiian Islands and other places in the cure of leprosy.

Many of these trees were found on the island of Mindanao and Dr. Coley believes the chaulmoogra enough to yield ten tons of seeds annually. He has arranged to have the seeds gathered for shipment to Manila where the oil will be extracted at the bureau of science.

CHEMICAL PURITY IS JUST AS GOOD

"Chemically the chaulmoogra oil made from the Philippine seeds is as pure as the oil from India," said Dr. Coley.

"It takes one ton of seed to care for 1000 lepers for a year. We have a supply large enough to care for 50,000 lepers. We are now able to find a larger supply. In that case we will probably send some of the oil to India, China and other Far East countries where it has never been used."

At present there are 5000 lepers on the island of Cebu in the Philippine group, several hundred of whom are being treated in the chaulmoogra oil treatment. Governor General Wood has expressed special interest in the treatment of these lepers has organized a large number of the medicine and to plans to increase the number to whom it is given as fast as possible, until all have been given the benefit of it.

PLAYED ANOTHER WELL KNOWN ANTHEM

The auspicious moment arrived. The band leader feigning spoke of the cordial relations between Great Britain and the United States, proposed a toast to the mother country and her ambassador, the company arose and the orchestra burst out with "There'll Be a Hot Time in the Old Town Tonight."

The guests were struck dumb and all eyes turned toward Mr. Bryce. That gentleman began to laugh. He laughed until the tears streamed down his face.

PEOPLE TALKED ABOUT

Gandhi, "Great-Souled One"

Here is a new portrait of Mahatma Gandhi, leader of the non-cooperation movement. It is a fine picture in that far-away possession of the British empire. It is difficult for the American, being of the West to understand the East, as shown in the situation in India. Gandhi is said to be a disciple of Tagore, Indian poet and orator. The title given him by his followers is "Great-Souled One." Since the war's close, when "self-determination" has been so much on the world's lips, Gandhi has gained many followers. His attitude is based on Tolstoyan non-resistance. The new leader is positively opposed to physical force. For years the quiet campaign of "non-cooperation" with the alien government of India succeeded without thought of force. Millions obeyed the injunction of their leader and took to forest, creating disturbances, brought about the shedding of blood.

Gandhi then issued a proclamation to Muslims and Hindus alike, requiring them to do penance and make reparation for their violence. This having been done, the taboo is still working, with what results remains to be seen.

SENSE OF HUMOR SAVED OCCASION

Ludicrous Error on Part of Orchestra Well Received by Late Lord Bryce

TAMPA, Fla., (AP) — The sense of humor possessed by the late Viscount Bryce, formerly British Ambassador to the United States, was passed away recently in England, was strikingly illustrated at a banquet tendered the ambassador here some years ago by the Tampa Board of Trade.

While the orchestra concluded its rendition of the air so popular with the army and navy during the Spanish American war the party applauded loudly and the musicians, feeling highly honored by the acclaim, played it over.

Mr. Bryce was so greatly amused at the incident he took steps to see that the newspapers in Great Britain recorded it and from that source it went all over the world.

Concert Attraction Extraordinary!

"THE GRIFFES GROUP"

OLGA STIEB is a brilliant star on the pianistic horizon. Within the past year she has replaced upon immediate notice both Godowski and Liszt with unsurpassed success. "She played with a freedom and power that cannot fail to be recognized."—New York Eve. World.

EDNA THOMAS has a great mezzo-soprano voice, but she would be a "hit" if she had no voice at all, because she has the spirit of the born entertainer. She complements her "Cresolo Songs" sung in the crispness of 1840 or becoming immensely popular. "These songs were all being sung, twice over before the fashionable audience would let the concert proceed."—New York Times.

JACOBINOFF—There is scarcely a large orchestra here or in Europe that has not listed Jacobinoff among its soloists on several occasions. He is among the "big ones" of the violin, satisfactory and sure. "To all who heard him there came the inevitable memory of Miska Elman's first visit to this country."—New York Eve. Sun.

THEATRE

Long after the last scene of "The Faith Healer" had faded out at the Idaho theatre yesterday the captivated audience lingered in the memory of the picture, lingered in the memory of those who saw "The Miracle Man" compared it favorably with the famous production, and the comparison was deserved.

The picture is based on the late William Vaughn Moody's play and the scenario was written by Mrs. Moody, the widow in collaboration with Z. Wall Covington.

Long after the last scene of "The Faith Healer" had faded out at the Idaho theatre yesterday the captivated audience lingered in the memory of the picture, lingered in the memory of those who saw "The Miracle Man" compared it favorably with the famous production, and the comparison was deserved.

Louise Glavin, in "Love Madness" is the big offering at the Idaho starting today, and running for two days. This film is by far her best effort, and contains seven reels of high class action. A two part comedy is also included on this super-bill.

"Remorseless Love", in which Elaine Hammerstein will be presented at the Orpheum theatre for the last time today is a somewhat different type of story from any in which the popular screen star has yet appeared.

Where do they get the name Griffes Group? It is the usual question in connection with that fine concert attraction which comes to the Laversing tomorrow, Wednesday evening, under the auspices of the 20th Century Club.

The organization itself is composed of three prominent young American concert artists, a singer, a pianist and a violinist. They began their joint work by dedicating it "To Applying American Art," hence it was fitting altogether that they should choose the name of the most unusual and interesting composers that America has produced—the late Charles T. Griffes whose untimely death came just as his work was being prominently and widely recognized.

While the Griffes Group is interested in fostering the best American composition it does not confine its program to them, however it includes at all times at least one composition by Griffes.

TEACHERS' WAGE SCALE TOPIC AT BOARD MEETING

District Trustees Consider Without Taking Action the Question of Salaries; Schools Will Not Close for Holiday

Schools of Twin Falls public schools will continue through the day on the anniversary of Washington's birthday next Wednesday in accordance with the board's decision at last night's meeting of the board of school trustees. The holiday heretofore has been observed here with suspension of school sessions.

TEACHERS WANT WAGE LEVEL TO STAND.

In connection with a written statement prepared by a committee for the board's consideration, the trustees, who, in the trustees' opinion, there should be no further reduction in their salaries next year, Superintendent M. C. Mitchell presented a resolution indicating the trustees' opinion of Twin Falls teachers as regards salaries in comparison with salaries paid in other districts of Idaho and other western states.

This tabulation showed that 10 out of the 23 teachers employed in the Twin Falls high school receive the minimum salary of \$1400, and the highest salary paid is \$2200, the average being \$1975. In comparison with salary schedules of the 13 largest high schools in the state, Twin Falls average salary is lower than that of 11 of the 13, being lower than that of Lewiston, Moscow and Burley. Larger than the only school in the state doing with Twin Falls and with an average of \$1875, plus \$1700 a year to 17 out of 23 teachers employed.

COMPARATIVE FIGURES ON SALARIES.

Twin Falls high school teachers' average salary of \$1975 is \$185 below the average for the state, according to figures compiled by the state department of the federal bureau of education. Average of salaries paid to high school teachers in cities ranging in population from 1000 to 100,000 is given in the following table: California, \$2045; Nevada, \$1890; Wyoming, \$1740; Utah, \$1600; Washington, \$1604; Oregon, \$1599.

MARKET STALLS IN RUSSIA

Plentiful Condition of the Country Revealed by the Articles Offered for Sale.

The cry that Russia was wholly without needles, pins and thread was absolutely without foundation. The abundance of domestic trade restrictions has produced a great quantity of such articles in Russian marketplaces. They are of Russian, English, German and American manufacture.

Needles, pins and thread were hoarded and could be had secretly before free trade was inaugurated. Darning cotton and wool, hooks and eyes, hairpins, combs, brushes, buttons and other notions also are offered freely. In fact, the market is in comparison with the markets of western Europe.

Good is scarce and apparently of inferior quality. Market stalls set up here more than a few yards of any sort of cotton or woolen fabrics. Foreign is also scarce.

Only a few good table silver and porcelain are in the hands of hundreds of reduced peddlers who stand in queues about the public markets and offer their household belongings for the rubles necessary to buy black bread at 3000 rubles for a Russian pound of 12 ounces. Every conceivable household article and every sort of furniture can be bought in these queues.

Chairs, chandeliers, lamps, stoves, carpets, rugs, saddles, trunks, talking machines, beds, bicycles, pots, pans, teacups, table linen, fur coats, boots, evening gowns and every sort of furniture are offered for sale by the owners in these queues. Endless lines of second-hand dealers and individuals requiring wages pass along these queues asking prices and offering cash or barter.—New York Tribune.

CITY FINANCES IN GOOD SHAPE

Treasurer's Report and Estimate Show Probable Restoration to Cash Basis

Estimates prepared by City Treasurer James R. Hill and submitted last night to the city council indicate that Twin Falls city, at the close of the fiscal year of the present administration in the spring of next year, will be restored to a cash basis and will have a surplus in its treasury.

Municipal expenditures during the first nine months of the present administration have been held to \$66,845, or \$125,735 under the budget appropriation of \$92,580 for that period.

The probable surplus at the close of the present administration is estimated roughly at \$15,000. This amount is determined by the addition of the amount collected in fines, costs and license fees, estimated at \$5,000, to the city's proportion of highway tax, estimated at \$5,000, for expenditure of which no provision was made in the budget, and adding to this amount an estimate of \$5,000 as the surplus which is expected to remain as between the amount of expenditures and the sum to be raised under current tax levies.

Whatever surplus remains is to be taken into consideration in preparation of the next budget to bring about a reduction in the municipal tax levies.

Payment of all delinquent taxes at the present time will make possible the redemption of all outstanding city warrants, it was explained to the council.

The statement of expenditures for the three months past together with the amount of budget appropriation for that period and for the year in the several departments is as follows:

Department	Amount Expended	Appro. for Period
Appro.	\$ 3,900.00	\$ 2,925.00
Sanitary	2,602.24	2,925.00

HIGH SCHOOL NOTES

A short burlesque play will be given at the weekly assembly Wednesday by the public speaking students under direction of their teacher, Mrs. Jackson. The name of the play is "Suppressed Desires." The high school assemblies are attractive to people of the community and visitors are always very welcome. They will be the week's program especially interesting.

Students who have received their proofs from Mr. Hillburg, Coyote photographer for this year, express their grief with his work. The taking of the Juniors' pictures will be completed this week.

The Blue Triangle club have laid elaborate plans for their next meeting on Wednesday night. The meeting will be devoted to vocational topics. Mr. Kerner, principal of the high school will speak on the occupational a girl may follow with a high school education, and Mrs. J. E. Joely will talk on the vocations that a girl may follow with a higher education. This will be a duet by two boys of the orchestra. There will be games and refreshments at the close of the evening.

JUNIOR HIGH SCHOOL

The fifth period table tennis of the seventh grade basketball team played the girls of the eighth grade. The score was a tie. Tomorrow the same teams will play again and the winning team will play the champions of the Junior High, who will play eighth grade.

The basketball work was taken up in connection with the Girl Reserve club and the teams are coached by Miss Towill and Miss Nelson.

Social Notes

Miss Ruth Youngs was hostess to the King's Daughters Monday evening at her home on Fifth avenue north. Eighteen members were present and a general social time was enjoyed after the dinner. Refreshments and decorations were appropriate to the season, carrying out the Valentine idea.

One-half of the members of the Wilmot club are entertaining the other half at a Valentine luncheon at the home of Mrs. H. B. Cowling 104 Park avenue, on Wednesday at ten-thirty.

The Episcopal Guild is giving a silver tea at the home of Mrs. D. D. Alford, 125 Sixth avenue, on Thursday afternoon. An appetizing luncheon program will be given under the direction of Mrs. Jerry Siggle.

The Amos class of the Baptist Sunday school held their annual election of officers in the church Monday evening with the following results: President, Thelma Threlkeld; vice-president, Sue Smith; secretary, Marjory Kenyon; treasurer, Lucy Wolfenbarger; clerk, Evelyn Kenyon; librarian, Marjorie Turner; reporter, Judith Jones; entertainer, Ruth McFarland.

The Community Service department of the Y. W. C. A. held their annual election of officers in the amusement room at the Reed apartments Wednesday afternoon. All women interested in the different forms of city government will speak on the present form of our city government; O. W. Witham on the combined form, and Taylor Coombs on the city manager plan. The first speaker had been asked to begin at 7:30 and it is hoped that all attending will be present at that hour.

The Mass Choir will, Mrs. Frank Hill, Deulah Tronsville, Pauline Frank and Audrie Brain entertained sixty guests at a Valentine party Saturday evening at the Business Women's club rooms. Decorations of hearts and cupids were used in profusion and the Valentine idea was repeated in the fragments. The mothers of the hostesses assisted in receiving, and served punch throughout the evening.

The Skookum Tillikum Campfire girls met at the home of Ingeborg Craven Monday evening at 7:30. After a short business meeting a social hour was enjoyed. Fourteen members were present.

ACCIDENT DELAYS RETURN

Mrs. E. C. Gettler is Detained in "Old" camp by Fracture of Right Arm.

Because of fracture of her right arm suffered in a fall in Chicago where she is here for several weeks following attendance at funeral services for her sister, during her mother's illness, Mrs. E. C. Gettler will be detained for three weeks from leaving for her home here according to word received yesterday.

Pearls From Herring.

"French pearls" were very popular before the war. To make these artificial pearls, the French catchen oysters from the coast of the Russian Black fisheries, and used these sherry scales to give glass beads the luster of pearls. The work stopped the Russian fishermen, and consequently French pearl-makers were forced to work. Therefore great efforts were made to find a substitute for the Russian fish scales. Now it has been found that the scales of certain sea herring and shell possess a delicate luster similar to natural pearls. The silver cast is removed from it, essence of kerosene (Kerosene) or pearl essence is made. The essence adheres like cement; and a glass bead which has been coated with it here a passable resemblance to a genuine pearl.

Women Grow Prize Dates.

On a four-acre plot in California, Mrs. Carl Woodhouse planted date trees three years ago, and this year the harvest will net about \$5,000. Two of the prize bunches weigh thirty pounds each. Mrs. Woodhouse has found all the work herself.

EUROPE RECOVERING If the signs of the times are reliable European countries, with America, are slowly but steadily and surely adjusting themselves and, soon, we are urged to believe, the old world, torn by the most dreadful and devastating man-made holocaust, is patching itself up and fitting itself to do business at the old stand and on the old sound industrial basis.

This being true, Twin Falls city and district look as well as the entire state of Idaho and intermountain region in general, must share proportionately in the prosperity bound to come when the world has finally gone through the readjustment and rejuvenation course and settled back to the conduct of affairs on the "business as before" plan.

This district being an agricultural area will it be natural to suppose, find ready market at stable prices for its produce, and once more the tiller of the soil will hear the merry jingle of the coin of the realm in his pockets while the merchant prospers in proportion.

Signs have been multiplying of late that European finance and industry, though still in a bad way, are slowly improving. Secretary Hoover stated a few days ago, on a basis of reports made to the department of commerce that there can be no doubt of this.

It is borne out by the rise in English, French and Italian exchange, under the disorder, is much stabler and healthier than two years ago.

Two years ago what was Mr. Keynes' prediction? In his volume "The Economic Consequences of the Peace" he saw Europe on the verge of complete disaster.

It's whole civilization was endangered and if the Treaty of Versailles were to be carried out nothing was to be looked for except crumbling governments and a general social and financial debacle.

Now, however, Mr. Keynes admits that in these respects he was, to use the phrase of Bernard Shaw, "a rotten bad prophet."

He admits that many of the misfortunes he predicted then have not occurred. He explains this is partly on account of the

patience of the common people and the fact that governmental institutions proved more stable than he expected. Also, he says, the actions of those in power have been "wiser than their words."

In this statement Mr. Keynes is clearly referring to his paragraph in his earlier volume on German Reparations. "He now remarks that if there had been carried out a concerted effort to compel Germany to meet her financial obligations all of his dire predictions would have come to pass.

But the truth of the matter is that Germany has been paying, is paying and promises that she will do her best in the future to pay as she has agreed.

This particular question has a undeniable importance in the entire economic outlook of Europe, but, after all, its importance can be considered but minor.

Mr. Keynes regards the calling of the International Economic Conference at Genoa as a confirmation of his ideas of 1920. But he will not state, formally at least, the question of German reparations is not to be upon the agenda at Genoa.

Let us hope, though, that Mr. Keynes proves a more reliable prophet for 1922 than he was in 1920.

FOR SWIFTER JUSTICE It is a matter of frequent comment among the public that there should be much extraordinary delay between the arrest of those charged with crime and their trial.

The effect of prolonged delay in bringing offenders to trial tends to weaken the influence of exemplary punishment. The crime is remembered, but the vindication of the law is eclipsed by the interval before conviction.

Nothing is so calculated to deter the criminally inclined or to protect community from a reign of terror by thugs and bandits as the demonstrated certainty that the police and officers are vigilant and that the arrest is followed inevitably by swift and certain trial.

New Jersey justice has become famous throughout the nation for the celerity of its disposition of criminal cases. If this standard were prevalent throughout the country we should hear less of crime waves and more of respect for the law.

COMMENCE WORK ON BOOKS State Examiner and Assistant State Examiner of Oklahoma Start on Examination of Oklahoma Bank

OKMULGEE, Okla. (AP) - Fred Jackson, state examiner and inspector here, with V. T. Miller and G. J. Alexander, deputies, today started upon a thorough examination of the books and records of the defunct Bank of Commerce of Okmulgee, which failed last fall, with the expressed intention to "stay on the job until it is finished, if it takes six days or six weeks."

Superior Court Judge H. R. Christopher was wired today from Coyle, Okla., from where yesterday he mailed his resignation to E. J. Dick, chairman of a citizens' committee which condemned the judge's action last Thursday in absolving the superior court grand jury in the midst of its inquiry into the affairs of the defunct Bank of Commerce. The committee had asked that the judge resign.

Elmer Tower of Mik. So enormous is the consumption of condensed milk in various forms that a year's supply would be no light burden for all the soldiers at present serving in the world's armies.

To get a more vivid conception of its vastness, let us fashion a column, from the highest of the highest, which would contain it; we shall then find that our column, standing on a base one hundred feet square, will rise higher than the summit of the Eiffel tower. Its height, in fact, will be 1,100 feet, and its top there will be comfortable standing room for four battalions of soldiers.

NONE WILLING TO HAVE THEM

Famous Anarchistic Trio Now in Sweden Hard Put to it to Find Asylum.

STOCKHOLM, (AP) - Sweden is facing a curious dilemma as the result of her well meant hospitality in granting temporary asylum to Emma Goldman, Alexander Berkman and Peter Shapiro, formerly deported to Russia from the United States. Since this trio arrived, several other Russian anarchists have come into the country.

As matters stand at present Sweden may either have to deport the anarchists or cope with a movement, said to be on foot, of making Stockholm an international anarchist capital.

But to what country can these anarchists be deported? Nobody wants them. Since their arrival in Stockholm, Emma Goldman and other anarchists from Russia have so roundly denounced the soviet government that if they are returned thither, the soviet authorities, never noted for their leniency, may send them all to jail or deal with them in a more summary fashion.

GERMANY WILL HAVE NONE OF THEM Germany has already put up the bars against these anarchists. It was shown recently when Miss Goldman tried to enter Germany for the purpose of attending the international anarchist congress in Berlin.

Sweden is now the temporary abiding place of so many leading anarchist lights. The press emphasizes that it would be most unfortunate if Sweden's hospitality should be abused by thus making Stockholm an anarchist center, and the same papers assert that energetic steps will be taken against any attempts of this character.

New Jersey justice has become famous throughout the nation for the celerity of its disposition of criminal cases. If this standard were prevalent throughout the country we should hear less of crime waves and more of respect for the law.

LYRICS OF LIFE

By DOUGLAS MALLOCH

THE USUAL LIFE. I DO NOT wish you riches, friend, For riches may not stay; So much we lose, so much we lend, So much we throw away.

I wish you only smiles through tears and glad days in the saddest years.

I do not wish you cloudless skies; They can't be always fair; But may the sun that streaks arise, The heart arise from care.

You may have clouds, but may they show a silver lining somewhere, though.

I do not wish you only ease, No toll for hand or brain; They are but parasites, are these Who live by others' pain.

Let something other than your life employ your busy hands and brain; For you may wish for you a cloudless day, wish for you a modest part, And simple joys for you; And then I hope with all my heart That simple dream comes true, wish you toil and meritment - The usual life, with life content. A Judicious Enquiry A well known traveling man who visits the drug trade says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child they almost invariably recommended Chamberlain's Cough Remedy.

The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for colds, croup and whooping cough it is unsurpassed.

Sanitary Wine Mystery. Mysterious circumstances surround the discovery of about 100 bottles of wine, Datchet. The greater part was pulled down some years ago and the destroyed; a good deal of the remainder. There are several deep wells and it is said that at the bottom of one there are 3,000 bottles of wine placed there, by mistake, but an attempt to find them has failed. Under the ruins are a large number of earthenware bottles of various patterns, and there is a legend that a subway leads from the monastery to Burnham above, -London Daily Mail.

The Triumph of Half a Century Forty-five years ago the telephone was an experiment - an invention of uncertain utility and of questionable value. Today it is an actual business necessity and an almost indispensable household servant. The development of the telephone to its present high state of facility and efficiency has come about through hundreds of supplementary inventions and the solving of hundreds of scientific problems. Nearly half a century of research, experimentation, invention and the exercise of organizing genius has resulted in a public service of inestimable value - a service which thousands of telephone men and women are constantly striving to improve and enlarge. It is their constant endeavor to serve you efficiently and satisfactorily. The Mountain States Telephone & Telegraph Company

DEPLORES FLARING SKY SIGN

London Newspaper Complains of Dazzling Electric Sign as Spelling City's Beauty.

The London Observer ventures to register a good-natured protest against "the terrible affliction of the jazziest" that about their advertisements from every corner of the London streets when darkness comes. The cumulative effect of these flashing electric signs is as distressing as a "vordette, vermillion" with a megaphone.

In Switzerland, the Observer comments, they do things differently—old before the war. In Zurich the citizens sit by their swift-flowing Limmat and watch the shimmer of water under the stars or moon, while the venerable outlines of the old minster loom dark against the sky. Paris, indeed, has lost her old-time loquacity as the city of light.

"Some, perhaps, would rather be left to dream of that other Georgian London, illuminated by the gas lamps of the Elizabethan one, peopled by gallants with ruff, doublet, jerkin, and smoking torches. The woad, baby food and whisky they prefer to do, encourage them to do so. They are sure at least it does not occasion a kind of visual delirium."

HAVE NEW IDEA OF MARRIAGE

Public Discussion of the Subject in the Japanese Press is Regarded as Significant.

A series of articles on love and marriage is appearing in Japanese newspapers and magazines, as a sign of the modern tendency to discuss the matter. Professors in psychology, school teachers and writers of note are prominent in the discussion on reforming the old matrimonial system.

According to the old custom, the parents choose bride and bridegroom; and the marriage was performed without the interested parties having known each other. Marriage was considered an undivided lot of fate, and the religion of ancestor worship being its principle.

The custom is now prevalent for the young people to meet long before the marriage takes place so that they may know each other, and to live apart from the family is no longer considered undivided lot of fate, and the tendency appeared to marry for love, and out of personal choice. This new and romantic idea is so strong that all means are tried to obtain it.

Hard Names to Pronounce. The new frontier which has been drawn up in Upper Silesia will affect the place names of a number of cities more or less familiar to the American public. Of the larger cities, Hatibor (Hacıbörün Polisi), Gliwice, (Gliwice) and Beuthen (Bytom) will retain their present German names. On the Polish side the place names of Katowice, Pless is changed back to Peczyna, Tarnowitz will again be Tarnobrzeg Gory, and once more Lublinitz will be known as Lublitz. The place name of Zabok will remain unchanged, the Polish and German forms being identical.

Uncommon Sense

MAKE HOURS COUNT

SAVING time is wasted effort unless you utilize the time you save. Most people are in a hurry. They rush to their offices in the morning. They rush to their homes at night. When they get to the office, they sit around waiting for dinner.

When you are given eight hours to do a job, you must get it done in eight hours. You can save from one to five hours out of the eight, at least once or twice a week, if you are careful.

Most successful men are very careful to save a little time out of the "idle" eight hours. They use this either to add to the efforts they put forth on their regular business, or to take up something related to their business which is inconvenient to do during working hours.

They make it earn dividends. And they do so in such a fashion as to always get a return which is in excess of the investment.

Those three weeks are worth money. They may mean success. Use them and a considerable share of all the time you save, and your output soon begins to show a gratifying increase.

MILK AND MEAT PROBLEMS HOLD COUNCIL FLOOR

Designation of A. W. Murray as Assistant to Inspector Is One Concrete Step Pending Developments

Problems of meat and dairy inspection again came to the attention of the city council last evening's session of the city council. Decision was taken with respect to the designation of Alex W. Murray, city sanitary inspector, as assistant to Dr. W. L. Kierd, meat and dairy inspector.

Suggestions looking toward the drafting of municipal meat and dairy inspection ordinances, considered at a prior meeting of the council when a delegation of dairymen presented a resolution to the effect that the city council should offer to meet additional expense involved, were held in abeyance at last evening's session when a new clause to the problem was presented by City Engineer Taylor Commins.

LITIGATION HAS BEARING.

Opinion of the court in pending litigation in which enforcement of meat inspection ordinances had been enjoined, might necessitate revision of the regulations to which the city is not now before court. Commins advised. An early decision by the court is expected following filing of briefs by the city and the dairymen.

Pending further developments in the inspection situation, the council authorized continuance of negotiations with Dr. B. Dooley, city chemist, looking toward establishment of a system of daily tests of water and milk.

An assistant to the meat and dairy inspector, a position which at one time occupied Mr. Murray will be expected to exercise supervision over smaller dairies within the city limits. In discussion of the problem, Taylor Commins expressed the opinion that regulation of the smaller dairies should not be carried to a point where they would be driven out of business.

It should be noted that the city milk that would be comparable in quality to the product of the larger dairies.

DEFERS ACTION ON CANE.

The council deferred action for another week on the application of A. J. Titinger for a permit to erect a system of cans for collection of waste on streets. It developed that the applicant expected to derive his compensation for the service from the sale of advertising space on the cans, and that he had not yet obtained from the chamber of commerce "blue card" committee a permit to so advertise for his purpose.

WEIGHMASTER'S POSITION IS AWARDED TO A. WHITE

Mayor and Council Arrive at Decision After Two Six-Crot Ballots

After two secret ballots in which the applicant secured the majority of the city council, announced the appointment of A. White as weighmaster to fill the office vacated by the death of the late W. H. Greenhow, and the appointment was confirmed by the council. There were 27 applicants for the position.

Compensation of the weighmaster was reduced from \$1200 a year to a maximum of \$1000 a year, and salary of the new incumbent was fixed at \$750 a year, allowing for the possible necessity for employment of an assistant during the farm marketing season. It was estimated that the resigning officer on this basis would defray his expense on account of salary.

Selection of the new weighmaster was declared by the mayor and most of the council to be the most difficult decision which they have yet been called upon to make.

LETTUCE GROWERS HEAR TALKS ON NEW INDUSTRY

Representatives of Farm Bureau and Marketing Agency Address Meeting

Production and co-operative marketing of head lettuce were under discussion today at a meeting of lettuce growers assembled in Parish hall here under auspices of the Twin Falls County Vegetable association, which was formed here Saturday. Seventy-five persons were attended by between 150 and 200 persons.

C. B. Boss, secretary of the state farm bureau federation, was the first speaker. He discussed advantages of co-operative marketing in general and location of the farm bureau, as he conceived them, in particular.

Next speaker was J. C. Caldwell, representative of the Canyon county farm bureau, was to speak on similar lines at the afternoon session. Officials of the California Vegetable association, which will conduct a California recently closed a marketing contract were this afternoon to discuss the lettuce growing industry with special emphasis on irrigation problems, and with reference also to the history of co-operative marketing in California. The organization officials scheduled to speak were: Thos. O'Neill, superintendent, and R. G. Bieser, superintendent of production.

MEMORIAL FOR EMANCIPATOR FESTIVE EVENT

Twin Falls County Republicans, Under Inspiration of Occasion, Lay Plans to Assure Annual Observance

Abraham Lincoln's one hundred and thirtieth birthday anniversary was observed in Twin Falls county last evening by one hundred men who were gathered at a banquet in the Hotel West here.

With an inspirational address on Lincoln's life and work and its application to the present day by Hugh A. Baker, of Newport, presiding attorney for Minner county, with assistance of Lincoln from the viewpoint of a friend and neighbor by Thomas E. Harris, a former resident of Springfield, Illinois, now living in Twin Falls; with a musical setting by Miss Pearl Boyd and strains of orchestra music, with a stimpous report on the life of the great man, the program from among which the great war president's picture looked down upon the assemblage, the affair was an outstanding one among occasions of this kind.

LINGOLIN DAY FORMED.

Under the inspiration of it there was formed last evening the Twin Falls County Lincoln Day association, which is to arrange for similar annual observances of the event. E. V. Larson of Twin Falls, who presided at last evening's gathering, was elected president of the new association after Shad L. Holgin, chairman of the Republican county central committee, and R. McNamara of Dubl, for reasons given by themselves had declined the place.

Delegations of men and women from Murtaugh to Hight and Castleford and from here to Newport were in attendance. Mr. Baker's address was an appreciation and eulogy of Lincoln, concluding with a plea that the principles of freedom announced by the party of which Lincoln was the first great leader shall be by us handed down to those who follow us pure and as clean as Lincoln gave it to those who followed him.

"We need to reverently honor the memory of a greater mind and of a greater spirit. The speaker said in his address that Lincoln was a man who led, the simple honest man given by God and simple parents to a simple honest boy was born February 12, 1809, in the state of Kentucky. Never before told his coming. No one said that a new king was about to be born. No one said that a child, destined to deliver the nation from itself and from the sin of its own making was about to be born. No one announced that the man destined to shake the world with the destruction that still in the right to put into his mouth the bread that his own hands have earned, the (the human slave) is the equal of our own. No one said that a child, destined to proclaim his birth. No bells were rung and no star appeared in the east to announce him. He came as unostentatiously as a child was ever born. His advent caused no ripple in the surface of a quiet community. His coming caused no comment. He was born and he lived, and he died, and he left behind him a special notice among the children of his day.

NATURAL GRATITUDE OF A NATION.

"When you mention his name we do so with reverence, with affection and with gratitude. That affection is not white or black. No one would love him as an natural as nature itself. That people should most to honor his memory is an acknowledgment of love and of gratitude. His memory is our memory and his memory is sacred. We pride ourselves that he was one of us, for the world offers no parallel in moral grandeur.

"We know and have known from babyhood a portion of the Sermon on the Mount, yet from the more saying of it we feel ourselves respond to the ideals and truths there expressed. So it is with the man before us. We know only from what we read and know, but we are made better for having done so. Our hopes and our faith are renewed. We find new strength to carry us through the minor difficulties of our experience and we feel a new determination to live cleaner, better lives, have cleaner, purer homes, and a better country. We feel a new inspiration for nobler deeds, for higher thoughts and for greater achievements."

PAYE TRIBUTE TO MOTHERHOOD.

Referring to tragedy and sorrow that marked Lincoln's life the speaker told us through the minor difficulties of our experience and we feel a new determination to live cleaner, better lives, have cleaner, purer homes, and a better country. We feel a new inspiration for nobler deeds, for higher thoughts and for greater achievements."

"As it was given to Washington to create a free people under a government of their own choosing and to wisely shut it on his way, it was given to Lincoln to save and preserve it when it appeared that later strife and disunion were about to break it up. I venture the statement that Lincoln's task was greater and that more evil words he attended and followed his defeat than would have followed the defeat of Washington. Washington first created and Lincoln saved a free people. Not only did Lincoln save a free people but was a guiding spirit and the first representative of an organization having for its purpose the only perpetuation and extension of that freedom. Lincoln not only saved but created and passed on to us and to those who follow the duty of saving that which he created as I saved that which Washington created.

RESPONSIBILITY IN HERITAGE.

"We pride ourselves upon being Americans of the political party he brought into existence. The party in its creation was clean and pure and it was left to us by him just as clean and pure and unblemished. His ideals were as free as the birds of the air and he represented it. He left us an inheritance of greatest value and a burden of great proportions rests upon us. We are charged with the duty of retaining and while we are here that which has been given to us to keep and of passing on to posterity the principles established at as great a cost and possibly only through the ideals of a Lincoln."

Preceding Mr. Baker's address, Harry J. Benoit of Twin Falls read Lincoln's program of address. The program in Lincoln's life from the viewpoint of Mr. Lewis, who was a member of a program has been prepared and some other club that took an active part in unique numbers will be presented under the direction of Mrs. J. H. Marshall of Lincoln in 1860 and who sang there.
