# LOAN FUND HAS NEVER SUFFERED BY NONPAYMENT

### Interesting Record in Connection with Old Time Custom in Use for Years by University of Michigan

ANN ARBOR, Mich., (AP)—For more than a quarter of a century, the university of Michigan has been loaning money to needy students, and over that span of years has never lost a cent through willful failure of the borrower to repay.

Several funds now are available under the plan that had its inception with the class of 1894, which established a fund from which the loan was to be used as a loan fund for the benefit of needy and worthy undergraduates in the literary department. ... afterwards surplus from various class treasuries were diverted to the fund, and although in general, the loaning privilege was limited to students of the literary college, a good portion of the money has been made available to students in other branches of the university.

## EASY TO OBTAIN HELD FROM FUND

The money is disbursed by J. A. Campbell, treasurer of the university, and the collective fund now approximates \$2,000. All loans are subject to approval by the dean of the college in which the student is enrolled, and by the president of the university. The recommendations of the dean, it is explained, are based principally upon the scholarship and the degree of need. As a general rule, it is stated, students obtaining loans are carrying the greater part of their expenses by outside work. College authorities have noticed that loans are sought in practically the same proportion by men and women.

The maximum loan which a student may make at one time is \$100, and in general, payment is expected to be made within a year after graduation, with interest at 6 per cent. In cases where such action is deemed advisable however, the interest is waived.

# FAMOUS CLIPPER TO END CAREER

### Glory of the Seas with Speed Record of 35 Years Ago to be Broken Up

TACOMA, Wash., (AP)—An old clipper ship, the *Glory of the Seas*, which 35 years ago set a record for "wind-jammers" between San Francisco and Australia, is being broken up here following the discovery that barnacles have eaten into her hull beyond repair.

The stout old ship was built at the famous Donald McKay yards in Boston, Mass., in 1860 and, since then, has sailed on all the great seas and called at most of the important ports around the globe.

Some years ago the *Glory of the Seas* was purchased by a Tacoma fish company and was used in the service between Puget Sound and Alaska. Each spring she would head for the north, carrying supplies and employes for the Alaska canneries operated by the company, and, in the fall, would return with the season's catch. The old boat was built of oak and other tough woods and some of these are still in good condition. She is being broken up for what metal she holds.

Chief Regulate for Success. Experience shows that success is due less to ability than to zeal. The winner is he that gives himself to his work, body and soul.—Charles Burton.

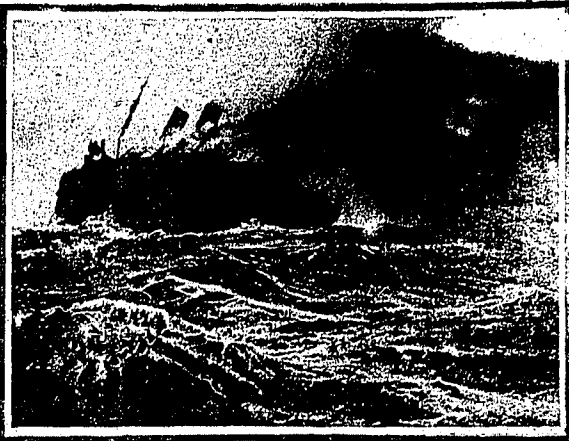

## Maybe She'll Also Like Us

This is the latest portrait of Mrs. W. L. George, bride of the English novelist, who is here on his second wedding tour. She was Miss Kathleen Giebel, only daughter of Herbert Giebel, J. P., of 1913 Hill, Crowsville, N. Y. She is a versatile woman, having distinguished herself in tennis and music and appeared in the films. During the war she served three years in the military of munitions and achieved the distinction of being the first woman to attain the rank of section officer. Mr. George professes to have fallen in love with America. His military decorations were to be displayed among New York, Washington, Detroit, Chicago, Nashville, Tenn., and New Orleans. Chicago apparently inspired him with a grand passion. He says of her, "I want to be upset again, as a shy girl shrinks from, yet approaches a giant." Of America, he says: "When I think of America I think of a land, a people, a life without doubts, life with enthusiasm, with faith, with ruthless energy. To me America is a sort of quagmire radiating life force."

He says he has of American men and women many memories, nearly all of which are pleasant.

## Northern Pacific Before She Took Death Plunge

A remarkable scene from one of the rescue ships showing the Northern Pacific after she had taken on water and was being towed to safety. The ship was rescued after being in danger for several hours. A forty-mile gale fanned the blaze and added to the peril of the rescue.

The water's edge and sank. Of the crew of twenty-four, twenty were saved at once and four drifted in a long lifeboat were rescued hours later. A forty-mile gale fanned the blaze and added to the peril of the rescue. It is suspected that a fire broke out aboard the vessel, probably before she left Brookhaven, was responsible for the blaze. The ship, which sank off Cape May, N. J., was of 4,200 tons and was one of the latest American merchantmen.

## VIGOROUS CAMPAIGN TO CHECK TYPHUS SPREAD

### National Congress in Interests of Sanitation Expected to Take Firm Action

WARSAW, (AP)—A vigorous campaign to check the spread of typhus is expected to result from the meeting, which began here today of the first Polish National Congress of Hygiene and Sanitation. A country-wide health campaign based on the American model will be organized.

Polish medical authorities are some what apprehensive over the spread of typhus but feel confident that the epidemic will not reach the proportions of 1919 when there were 120,000 cases in the first few months, with a mortality of 10 per cent.

American relief organizations are lending every assistance to the government in caring for the thousands of typhus-infected Polish refugees who are flocking across the border. Half a million of these refugees have been repatriated in the last three months and it is expected that another 500,000 will be returned to their homes in the next two months. The Polish authorities are now working in friendly co-operation with the soviet officials.

## LAWYERS DIG INTO OLD LAWS FOR A PRECEDENT

### Determination of Suffrage Leader to Retain Maiden Name After Marriage Excites Attorneys

HARTFORD, Conn., (AP)—Elmo Hill who recently married Professor Levitt was so well known in Connecticut as a suffrage leader and worker, that the announcement that she would retain her maiden name though married attracted wide-spread attention. It not lawyers and others at work reading statistics still and new to see if there was anything in them which would prevent Elmo Hill from using in Connecticut her maiden name though married.

The best legal opinion is that of an actual court decision is that a woman may take any name she chooses provided there is no intent to defraud. There are no written laws which require a woman in Connecticut to take her husband's name after marriage. Lawyers, however, say that it will have to be determined if a married woman, retaining her maiden name can vote under the maiden name or obtain a passport from the government.

Would Have to Wait. "No, A.J.C., I cannot marry you for a while." "Why?" "I was down to the jeweler's today and the wedding gifts were dreadfully picked over."—Detroit Free Press.

## HUGE FIND OF WAR MUNITIONS

### Thousands of Automatic Pistols and Plenty of Ammunition Found in Palestine

HAIFA, Palestine, (AP)—Accidental discovery of a consignment of several thousand automatic pistols and 25,000 rounds of ammunition, which were being smuggled into Palestine in boxes supposed to contain beehives, has aroused much comment and tended to revive the bitter feuds between the Arabs and Jews.

Elr Herbert Samuel, the high commissioner, had exempted beehives from customs duty in order to develop Palestine's industry.

Ninety-six boxes supposed to contain beehives were being unloaded at Haifa when one of them was broken, revealing the weapon and ammunition. The whole consignment which had been addressed to Jews was seized. The head of the Jewish Co-operative Workers' association at Haifa and a noted Jewish lawyer had been arrested and charged with being implicated in the affair.

The Zionist leaders have disavowed all responsibility and condemned the incident. The native press has warned the people to be on guard, asserting that probably the contraband business has been going on for some time and that very likely great quantities of arms and ammunition have been brought in this way.

Nutrition in Fruits. Fruits are chiefly valuable for their sugar, acids and salts. Bananas, dates, grapes, pines and grapes, owing to their large amount of sugar, are the most nutritious. Apples, lemons and oranges are valuable for their potash salts, and oranges and lemons, especially, are valuable for their citric acid. Some fruits contain two or more acids, such as strawberries, raspberries, gooseberries and cherries. These fruits contain both citric and malic acids.

## INVASION OF GYPSIES IS CAUSING MUCH ANNOYANCE

### German Townspeople Crowded Out of Market Places and Inconvenienced

BERLIN, (AP)—North and East Hanover, from Olsenburg to Brunelwick, have been invaded by an army of gypsies, traveling in bands comprising sometimes 100 wagons and camping in fields and woods. They invade the market places in towns and no market days extend to German vendors.

The authorities in the several communities are taxed beyond their resources to control these hordes and prevent them from heading the Germans in trades at which they are adepts. Members of the Reichstag have asked the government what steps were to be taken to drive out or control the unwelcome guests.

Where they have come from the authorities do not know, but many of them are rich, travel in state in luxurious wagons, equipped with rich oriental rugs and fine furnishings, and are boxes in which there are always supplies of good wines, liquors, and costly champagne.

Men of these gypsy bands have adopted modern European apparel, but they are clinging to the quaint and picturesque original costume. The young girls are beautiful. Communities through which the invaders pass usually are cleaned out through trade, purchase, or theft, although it is next to impossible to fix crimes upon the gypsies.

Indian as Tobaccoist Sign. The selection of the Indian as a sign by tobaccoists in the early years following the introduction of the "weed" into Europe, was undoubtedly due to the fact that it was generally known that Indians had first been found in use among the Indian tribes of the new world. Its use was first reported to Christopher Columbus in November, 1492, by a party sent out by him to explore the island of Cuba. The plant itself, however, was not brought to Europe until 1538, when Francisco Fernandez, a physician sent by Philip II, of Spain, to investigate the products of Mexico, brought it with him on his return home.

## WILL ATTEMPT TO CHECK WORST OF PROFITEERING

### Citizens Asked to Co-operate with the Government in Reporting Names of Offenders.

VIENNA, (AP)—In an effort to check the wild profiteering prevalent here, the government has asked the public to report, refuse of merchants to sell goods, those withholding or concealing stock or unjustifiably increasing prices.

Charges may be brought by simply mailing them through the post, thus avoiding the red tape of personal appearance.

ROYAL WELCOME TO VISITORS IS SADLY LACKING

People of Rangoon Apathetic Over Arrival of Prince of Wales; No Disorders; Little Evidence of Anything Else

RANGOON, (AP)—The attitude of the people toward the Prince of Wales was indicated on his arrival here today. The prince was given the customary slow of welcome, without any attempt being made at a palace. The stands erected to seat the crowds were not nearly filled. A large percent of the people who turned out to greet the prince were children from government schools and government-aided mission schools who were required to be present.

The arrival of native schools gave their quarterly examinations today, for the expressed purpose of preventing the students from greeting the prince. In the stands were the Associated Press correspondents. As is to be expected, very few of the people rose from their seats or gave any form of deferential greeting as the prince passed by.

STRICT BOYCOTT IS AFFRONT

Personal inquiry showed that in the hazaar district a strict boycott was being observed. Practically all the Burmese and Indian shops were closed in strict protest at the prince's visit. Most of the Chinese shops remained open. Very few garces (carriages), except private ones, were seen in the streets.

The prince came here by the steamer Dufferin from Calcutta, where he had been since December 24. While there he received the honorary degree of doctor of laws from Calcutta university and dedicated the Victoria Memorial, his coronation of which was held by his father. A harial was closed when the prince arrived in Calcutta.

This afternoon the prince was received at the University of Rangoon. He was given a reception at the government house.

FORCED TO QUIT FAMILY DOMICILE

Marquis of Lintlogh Frank in Admission Pocket Book No. Longer Sufficient

LONDON, (AP)—High taxation has forced another British nobleman to desert a historic family seat and seek residence in a hotel with his wife and children. The Marquis of Lintlogh, 10, Grosvenor place, the Italian mansion set in stately domain of beautiful Versailles gardens, one of the finest country houses in Scotland, had the home of the Marquis of Lintlogh to be closed. Seventy employees will be dismissed or transferred to other work.

The estate has been handed from father to son since 1703. "Local and imperial taxes are too much for me," the Marquis told an Edinburgh interviewer. "Like Jack Spratt and spiced they leave nothing. A British noble level, with no vote in such matter, is in a class with paupers and lunatics. Times are changed and we are changed with them," he philosophized.

That position of landed gentry of England and Scotland truly is difficult as evidenced by the fact that the Marquis of Lintlogh had disposed of his pack of hounds and all his horses except two chargers for military service. Shooting rights on his estate also were sold. Further, the Marquis is to be impossible without failure in the duty of landlord.

Hopetoun House is one of the treasures of Scotland. The grounds dotted with giant trees and intersected by shady avenues, command splendid views, taking in the whole sweep of the Firth of Forth and the Orkney Hills.

The Wide Spaca. The air was very clear and crystalline. The lighthouses on the ends of the twin piers, through some mists distant, seemed close at hand. White herring gulls, cruising against the blue, flashed white on the sails of a distant ship. A fresh breeze darkened the blue velvet surface of the water, tumbled the white foam along the beach, blew the sand over the dunes, a fine hurrying mist of sand, and bore to order at last the refreshment of the wide spaces.—Stewart Edward White.

Bill to Prohibit Blocs in Congress

only are more dangerous to the country than combination in restraint of trade. "If we are to have an agricultural bloc why not a manufacturers' bloc, a consumers' bloc, and numerous group-union blocs?" Mr. Anzorge asked. "This legislation will not follow plain pledges, but will be the result of clevering and combinations between various blocs. It will be a case of 'you vote for this and we'll vote for that,' and I shudder to think what will happen to our representative form of democracy."

On the other hand, Senator Capper said the other day in the senate, among other things: "Here, Mr. President, is the true reason why we have a group of men in congress sometimes called the farm bloc. Our entire business structure rests upon the land. The farmer not only feeds us and clothes us, but is a class our best customer. Without him the national world hunger, the biggest industry perish. Unless the farmer and the farm industry prosper, no other industry can. This is the task those representatives and senators from the agricultural states feel they have set out for them."

GENOA CONFERENCE TO BE HELD BY STUDENTS

Trinity College Men Arrange Elaborate Program as Feature of School Work

HARTFORD, Conn., (AP)—Students at Trinity college here will have a "Genoa conference" on February 22 to discuss questions which are expected to be on the agenda of the conference of the nations of the world at Genoa, Italy. Students will assume the role of leading statesmen, and so far as possible the consideration of subjects and parliamentary procedure will parallel that of the actual conference.

By Harold T. Glastrey of Bridgeport, Conn., has been named Premier Bonomi of Italy, and through him the invitations to "representatives of various nations" who are students, have been issued. The preliminary announcement makes the program: revision of the treaties; national debts and other national necessities; labor and national international trade and credits; future of the League of Nations; supreme council and other forms of conference; acceptance of the findings of the Washington conference.

It is recalled that Ephron university staged a limitation of armaments conference in its student body recently. By the Political Science club.

# PASSING OF LIE BRINGS KILLING

## Office of Attorney Scene of Deliberate Shooting when Accusation is Made

SOMERSET, Ky., (AP)—John P. Todd, farmer, who yesterday shot and killed A. P. Wilson, wealthy land owner, in an attorney's office here after Wilson had denounced as a black list "Toll's" charge that he had been intimate with Mrs. Todd, today remained silent concerning the case.

The shooting occurred during the taking of depositions in divorce proceedings. Wilson had been named correspondent in a counter claim for divorce.

"Were you ever intimate with Mrs. Todd?" Judge William Carter, attorney for Mrs. Todd, asked Wilson.

"Absolutely not. His a lie—as black as one—ever was told."

Todd whipped a pistol from his pocket and fired four shots at Wilson seated only a few feet away. Three shots took effect. Todd surrendered.

## GREAT MAN'S SON FORGOTTEN

### Lafayette's Boy, Named for George Washington, Was Once a Refugee in This Country.

The Century company says that comments provoked by "Sword of Liberty," recently published by them, impressed them with the fact that the average American seems never to have heard of George Washington Lafayette. It seems strange that his story was not exploited during the wartime resurgence of enthusiasm about Lafayette and his noble friendship for this country; yet how many Americans know that Lafayette had a son named after his first friend, General Washington, or that the boy was at one time a refugee in this country?

The story is part of the background of the account of two revolutions—American and French—contained in the book. Following the earlier phases of the French Revolution, during which Lafayette was so immensely popular, and after the hostility to his moderation had developed, which drove him into exile, he sent his son to America, to the care of the American General Washington for whom he was named.

It was his boy, according to the authors, Frank W. and Corstelle J. Hutchins, who, on returning from America, dug up from the garden of the Paris residence where he was named after his first friend, General Washington, the two medals given to Lafayette by the American congress and the French republic in recognition of his services in the two republics.

This George Washington Motter de Lafayette was born in 1770; he was therefore, but thirteen years old when America in 1776 and his distinguished father to the neutral territory of Liege.

## TODAY'S MARKETS

### WHEAT DECLINES SLIGHTLY

Liverpool Market Also Lower: Strength of Closing Hours Falls to Change Trend

CHICAGO, (AP)—Wheat declined in value today during the early trading, affected chiefly by downturns in quotations at Liverpool. Besides, numerous holders of wheat continued to show a disposition to realize profits whenever the market rallied. In some quarters there was evidence of a desire to let go of May contracts and to take July instead because of unfavorable weather and crop reports from the southwest. Opening quotations, which varied from unchanged figures to 3-4 lower, with May @1.39 to 1.39 3/4 and July @1.21 3/4 to 1.22, were followed by an irregular but general decline.

Subsequently reports of high winds in Kansas were received, but the news failed to prove helpful in sustaining prices. The close was heavy, 1 5/8 to 1 3/4 lower, with May @1.37 1/4 to 1.37 1/2 and July @1.27 3/4 to 1.24.

Corn and oats settled down with wheat. After opening 1 1/2 to 3/4 to 3 1/2 cts, and up 8 to 6 cts, the corn market recovered to some extent.

In the later dealings the corn market receded further with wheat, although much notice was taken of the fact that there are 800,000 more hogs on the farms at present than was the case a year ago. Prices closed unsettled 5/8 to 1 1/2 to 1 1/2 cts lower, with May @4.14 to 4.4 3/8.

Oats started a shade to 3-8c lower, May @2 to 42 1-4 and July @2 1-4.

Absence of offerings made provisions average higher despite contrary action of hog and grain values.

### Rooney Cattle-Cancelled

NEW YORK, (AP)—Pressure against foreign oils and other specialties lead here today cancelled a very large part of the recent gain in the stock market. Support was confined to minor specialties. Sales approximated 875,000 shares.

Buyers and sellers of the investment class lifted the average of prices sub-

stantially at the opening of today's stock market but gains soon were cancelled as a result of renewed pressure against oils and independent stocks. Initial quotations reflected further buying of United Fruit, Union Pacific, Southern Pacific, Mercantile Marine preferred, Lehigh Valley and Reading. Short made a drive against Mexican Petroleum, probably on rumors of an increased export tax and Crucible Steel, reacted one point. Fractional losses were made by Anaconda, Copper, Peoples Gas and Corn Products.

The entire market was more adversely affected in the final hour when Mexican Petroleum extended its loss to almost 7 points on increased liquidation. The closing was heavy.

## JACK BRITTON TO FIGHT PARLOUS DAYS FOR YANKEES

NEW YORK, (P)—Jack Britton, who was whipping first-rate pugilists before the Babe Ruth era, will fight today a boxing game, will defend his world's welterweight title against the younger star in a 15-round decision match here tonight.

It is said that the champion, because of his age—he is 37—has started to slip and that he will not be able to withstand the assault of the 19-year-old star from the family of fighting Shands of San Francisco.

Jack met David in Portland, Ore., about a year ago and he remembers the occasion. He was floored once in the early sessions of that scrap, but arose to fight his way through the remainder of the ten rounds. The contest was adjudged a draw.

Shade has had success since he transferred his punching activities from the west coast to the east. His aggressive boxing has carried him to victory in a majority of his bouts.

Britton hasn't been very active in the past year, excepting a series of bouts with lesser lights. They say, he hasn't the heart, nor the skill, that marked his bouts of several years ago.

Tonight's bout, in one respect, has been likened to the Zyrkoff-Gilcock Staniulau, the champion, nearing the fifty mark in years, defended his title against Caddock, just turning 23. Caddock was good and aggressive, but Stanulau still has the title.

# PLAYERS WANT MORE MONEY AND MANY PUT IT UP THAT THEY WON'T PLAY WITHOUT IT

### Players Want More Money and Many Put It Up That They Won't Play Without It

NEW YORK, (P)—These are parlous days for the New York Yankees, Baseball calls it "a hot oil season," but the situation is described as a strike in labor circles.

Babe Ruth, ambassador extraordinary of the herd, thinks he ought to have more money—and measures the "more" in the thousands. Little Aaron Ward, keeper of the Keystone sack, lets it be known from Fort Smith, Ark., that he wants his salary increased to \$10,000 and won't play until he gets it.

Of the pitchers, Waite Hoyt is the only one to come to terms so far. Waite recently announced himself holdout, then got married and made peace. "Bullet Joe" Bush and Sam Jones, obtained from the Boston Red Sox feel that their advancement entitles them to increased salaries.

Bob Shawkey is firm in his opinion that he, too, is deserving of a little monetary gain, and Carl Yast, of the subway system, talks about a higher check for 1922.

Many Famous Film Stars Form Independent Screen Artists' Guild in Fight for Better Pictures

Asserting Freedom from Wall Street Control, They Will Hold National Exposition of Their Greatest Productions

To those who have imagined that the life of a seven star is a halcyon existence, made up of a goodly portion of pleasure, a slight amount of work, no worry at all, a luscious compensation every Friday, it may come as a surprise to hear the story's side of the matter.

The formation of the Independent Screen Artists' Guild is a fortunate move against those forces which have assailed them. One of the prime movers in the creation of this Guild happened to be reading over a copy of the Declaration of Independence and came to the passage guaranteeing "the inalienable right of life, liberty and pursuit of happiness."

"But what we've always wanted," he said, "is the guarantee that we as citizens; why can't we have it as business people and independent producers."

"When we were making pictures for six or seven years," he said, "we had no say in our own picture finance, we didn't have the liberty of producing such films as our instincts and experience dictated. We didn't even own our own picture."

Included among the signatories of the Guild are Charles Chaplin, Norma Talmadge, Constance Talmadge, Marshall Neilan, Thomas H. Ince, Richard Barthelmess, Anita Stewart, Joseph M. Schenck, Louis B. Mayer, Katharine Cornell, Mabel Normand, Maurice Tourneur, R. A. Walsh, Miriam Cooper, Dorothy Phillips, Allan Holubar, Buster Keaton, Mabel Normand, etc.

Many of these artists have produced some of the most brilliant pictures of Associated First National Pictures, and now all are pledged definitely and irrevocably to the individual film. This pledge reads:

We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress. We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress. We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress.

"Molly O" is a bromide of joy. The big picture, made to town to-night and won New York with a greater popularity than was accorded Myrtle Hylan in the recent election. The packed theaters are full. The local press is unanimous in its approval, with an unanimous agreement as to the tremendous success scored by Comedienne Mabel Normand.

THE CRITICAL X-RAY

The joyous of the season was handed us by Comedienne Mabel Normand. Gales of laughter swept through the auditorium and former Secretary of the United States Treasury, Mr. William Brewster, in a book of my, nearly ripped his buttons with unrestrained mirth. Joy it in your little book that Mabel Normand is both a comedian and a comedienne.

We shall not attempt to analyze the humorous qualities of this picture for the audience which has been here before, but never in such a breezy, effervescent manner. It's all in the way that the Comedy King reflects the blunders of the past in a series of outspung comely with a sense in every situation, while the titles snap like spontaneous combustion.

Mabel Normand has been fitted with a perfect 360 set of rate. She never lost an inch of the mirth-provoking qualities of the washer woman. She reflects the blunders of the past in a series of outspung comely with a sense in every situation, while the titles snap like spontaneous combustion.

Critically speaking the comedy would have consistently ended with a marriage, but the resourceful Bennett tackled on another reel bringing in the little spinell race and during rescue of the girl by a parachute leap.

No matter the ingredients used to construct the picture, "Molly O" is a success. The blunders of the past of Wall Street, amidst the blunders of the past, amidst the blunders of the past, amidst the blunders of the past.

Many Famous Film Stars Form Independent Screen Artists' Guild in Fight for Better Pictures

Asserting Freedom from Wall Street Control, They Will Hold National Exposition of Their Greatest Productions

To those who have imagined that the life of a seven star is a halcyon existence, made up of a goodly portion of pleasure, a slight amount of work, no worry at all, a luscious compensation every Friday, it may come as a surprise to hear the story's side of the matter.

The formation of the Independent Screen Artists' Guild is a fortunate move against those forces which have assailed them. One of the prime movers in the creation of this Guild happened to be reading over a copy of the Declaration of Independence and came to the passage guaranteeing "the inalienable right of life, liberty and pursuit of happiness."

"But what we've always wanted," he said, "is the guarantee that we as citizens; why can't we have it as business people and independent producers."

"When we were making pictures for six or seven years," he said, "we had no say in our own picture finance, we didn't have the liberty of producing such films as our instincts and experience dictated. We didn't even own our own picture."

Included among the signatories of the Guild are Charles Chaplin, Norma Talmadge, Constance Talmadge, Marshall Neilan, Thomas H. Ince, Richard Barthelmess, Anita Stewart, Joseph M. Schenck, Louis B. Mayer, Katharine Cornell, Mabel Normand, Maurice Tourneur, R. A. Walsh, Miriam Cooper, Dorothy Phillips, Allan Holubar, Buster Keaton, Mabel Normand, etc.

Many of these artists have produced some of the most brilliant pictures of Associated First National Pictures, and now all are pledged definitely and irrevocably to the individual film. This pledge reads:

We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress. We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress. We appeal to the public to continue their patronage of the new Art of the Cinema, that it may progress and not retrogress.

LODGE OFFICER'S VISIT IS CELEBRATED BY ELKS

Lodge Session and Smoker Attended by Between 200 and 300 Members of Order

The official visit of G. L. Stewart of Boise district, grand exalted ruler, to the Twin Falls lodge of Elks last evening was the occasion for a lodge session and smoker attended by between 200 and 300 members of the order.

Mr. Stewart's address was a feature of the lodge session. Two candidates for membership were initiated into the lodge. Luncheon of sandwiches and coffee was served.

In connection with the smoker the wrestling match between Cliff Lewis and Ed Miller, which went to the third fall and was won by Lewis, was an event of paramount interest. There was less than two pounds difference in weight between the two men. Lewis' strength and quickness on the offense gave him an advantage over Miller's skill and agility on defense. Lewis took the first fall in 33 minutes. Miller's second fall was scored 50 minutes later, but was so nearly exhausted that Lewis dumped him again for the second fall in four minutes.
