## TRAIN IS MARCOONED BY STORM

### Score of Passengers Without Food for Forty-Eight Hours on Ice Bound Cars — Story by Wireless

NEENAH, Wis., (By Wireless)—Ice-bound for two days on passenger trains stalled nine miles north of Neenah, more than a score of passengers reached this town last night. They had been practically without food for 48 hours.

NEENAH, Wis., (By Wireless)—In the center of the Fox River valley has been cut off from the outside world since Monday night when ice coated telegraph and telephone poles collapsed dragging down communication, light and power wires and railroad traffic was suspended.

ENGINES DERAILED BY FALLING POLES.

Two 800-horse engines were derailed by falling poles in Neenah. Other poles snapped off under the weight of a two-inch coating of ice, plunged through the roof of the box line station. The telegraph operator on duty heard the strident shriek and dashed first through the nearest window as the debris showered over his desk.

By noon of Wednesday Neenah was without light or power and the mayor issued a special proclamation warning against falling high tension wires.

TRAIN CUTS DOWN WIRES.

The Eastern Wisconsin Electric company's trolley lines and all power wires leading west from the business district were broken when a blizzard of snow and sleet piled about the fallen wires. A train of cars was killed by a "ragging trolley" wire but the driver was unhurt.

HAZARD TO LIFE.

Onkash was even harder hit than Neenah, according to word received here. Both trolley lines from Neenah are tied up and officials say it may be weeks before service can be restored. The telephone company reports three thousand poles down in the Appleton district. Conditions in surrounding districts in other cities are down, thousands of trees ruined and cities and villages are without light or power.

The paper mills here have sufficient coal to continue operations for a day or two. There is no shortage of food.

HARDLY A TREE LEFT STANDING.

With clear weather today the work of clearing away the storm debris was undertaken in earnest. Hardly a tree in the district escaped destruction. The cold rain last Monday night froze so fast that in many places the ice coating is from four to six inches thick. Every building, tree and fence was covered with a gleaming coat. In many places today a film of ice, all the available supply having been exhausted by amateur photographers.

Neenah's only communication with the outside world is by a temporary wireless station installed at a local paper mill by Charles and W. G. Quinn and H. J. Bishop.

Neenah is being received from Fond du Lac, Manitowish and Milwaukee.

DAMAGE OVER \$2,000,000.

GREEN BAY, Wis., (By Wireless)—Property damage wrought by the latest storm in the Appleton district, communication with which was established today from Green Bay exceeds \$2,000,000. It is reported today.

## Policeman is Shot While Guarding Bank

CHICAGO, (By)—Patrolman M. Fagan, of Argo, Illinois, was probably fatally wounded early today when he was shot through the head while guarding the Summit state bank, the windows of which had been shattered by the dynamite explosion in McCook quarry near here. The shooting was done by several men who drove up to the bank in an automobile and early today Fagan fell. Argo police believe they intended to rob the bank but became frightened.

REQUISITION PAPERS SAULT LAKE CITY, (By)—Governor Charles R. Malye today signed requisition papers on the governor of Massachusetts for the return to Salt Lake City of James P. Bate, now held in custody on a charge of embezzlement of \$150 from the Greater Features corporation by whom he was employed.

## Princess' Trousseau Is Simple

### Wedding Gown Follows Closely the Precedents of English Dress of Royalty — Blue is Predominant

LONDON, (By)—Simplicity is the keynote of Princess Mary's trousseau, now practically complete at Buckingham palace, in readiness for her marriage to Viscount Lascelles next Tuesday evening at the wedding dress itself, which conforms to the precedents of English royalty for the attire of royal brides. The princess was allowed an entirely free hand in the choosing of her trousseau. A large selection of models was taken to Buckingham palace for her approval, and after trying them on and consulting with Queen Mary, the princess ordered her selections to be copied in her favorite colors.

BLUE IS PREVAILING COLOR.

Blue is the predominant note, blue in almost every shade and tone from forget-me-not to deep-rose flower. After blue comes gray—the smoke, dove and ecruish French shades, after gray, wild rose and hyacinth blue. The royal bride-to-be has had all her dresses, costumes and tea gowns cut on long, straight and simple lines with the fashionable low waist and wide or slit sleeves. The skirts are of medium length.

WEDDING GOWN OF SILVER CLOTH.

Cloth of silver, with a sleeve of inchwidth, was selected by the princess to form the foundation of her wedding dress. This was draped with a costume over-dress embroidered with designs of pearl and gold in some of the most delicate work of the country. A deep-lace collar falling in little loops was chosen to appear above. The English-silver cloth court train, magnificently mounted on white duchesse satin, enveloped the silver and all-pierced lace. The dress was square-cut.

THE DECORATION IS SQUARE-CUT.

The decoration is square-cut, the over-dress has transparent sleeves, reaching to the elbow, and veils of gleaming silver transform the square collar into a "Lighthouse" front. The skirt point, lace which will be understood was worn by Queen Mary at her wedding played an important part in the evolution of the dress. It is arranged to fall over the back and down in soft cascades on each side from the waist, reaching below the hem of the skirt.

## FIRES LAMER DURING TRIAL

### Man Convicted of Shooting Senator Henderson, Says Chief Justice is Biased

WASHINGTON, (By)—Charles A. Greck, who last March 5 shot and wounded former Senator Chas. H. Henderson of Nevada today was sentenced to ten years imprisonment by Chief Justice Mc Coy in the District of Columbia supreme court. An appeal was taken and the accused was committed to jail in default of \$15,000 bail.

REHOARDING IS RESULT OF GRUDGE

Senator Henderson was shot while in the senate office building, the trial taking effect in his arm. The affair was said to have been the result of a grudge of long standing.

Greck discharged his attorney at the trial today and argued a motion for a new trial, claiming that his conviction by a jury of an assault in which Senator Henderson was killed. He secured his lawyer of collusion with the government prosecutor, declared that he had been detected by the chief of police and kept him in the asylum for 33 days.

CHARGES CHIEF JUSTICE WITH BIAS

The accused also charged the chief justice with bias, asserting that the court had been influenced by the fact that Senator Henderson once introduced a bill to increase the salary of the chief justice.

The defense at the trial had been incompetently led by Dr. Percy Fleckling, District of Columbia attorney, while stating that Greck was a paranoiac, declaring him legally responsible for his acts.

## LANDRU PAYS IN FULL FOR HIS CRIMES

### Bluebeard of Gambais Refuses to Make Confession and Approaches Guillotine Without a Tremor of Remorse

VERSAILLES, (By)—Hippolyte Landru, "Bluebeard of Gambais," convicted of the murder of 46 women and one youth, paid his life morning in exchange for the fifteen he had taken. The triangular-life of the guillotine fell at 6:05 o'clock, twenty-five minutes after the time originally set for execution, the delay causing many to express the erroneous opinion that Landru was making a confession.

Myriam's wife, Landru rejected Father Loiseaux' query as to whether he had any confession to make. "It is an insult to a man like me," was his reply. "Had I any confession to make, I would have made it long ago." But never did he utter the word "innocent" as he had failed to utter it during his thirty-four months of imprisonment and the twenty-four days of his trial.

He refused the sacrament, but conversed a few moments with the priest. "I shall be brave, never fear," he told the "clergymen."

The guillotine was erected only a few feet from the main entrance to the jail. Landru appeared, clad in dark trousers and white shirt. He walked exactly five steps before the executioner's assistants caught him around the waist and leveled him on the table, which was immediately up-ended; the heavily weighted knife-sword, and the whole affair was over in less than twenty seconds. Landru never faltered from the time he appeared in the door; he saved the guillotine one look, squinted his shoulders and walked erect, uttering not a word.

## PREMIERS WILL TALK FINANCES

### Poincare and Lloyd George Are to Meet in Conference in Boulogne Today

BOULOGNE, (By)—Agreement to a postponement of the Geneva conference until April 15 was reached by Premier Poincare of France and Prime Minister Lloyd George of Great Britain at their conference here today. The conference originally was called to meet March 18.

Mr. Lloyd George said after the conference there would be no necessity for a further discussion of the French franc. Both sides were mutually agreed as to all essentials. The pact would be ready for signature in a few days, he added.

BOULOGNE, (By)—Premier Poincare and Prime Minister Lloyd George of Great Britain were in the city today for their first interview on the subject of the coming international conference and financial conference.

Mr. Lloyd George is crossing the channel on the regular Calais line boat and will complete the journey by automobile. M. Poincare arrived at noon, together with a small army of photographers and reporters who accompanied his car to the sub-prefecture.

MAY SPRING SUBSERVE

PARIS, (By)—Land disarmament is held by the Temps to be a surprising result of the conference of Great Britain and Italy intended to spring at the Geneva conference, proposing the reduction personally or getting another of the British delegation to make the suggestion.

An disarmament is not on the program, the question will come up indirectly, according to the paper, which was first reported by the London European states not to attack their neighbors and thus suggesting reduction of armaments as a means of lessening budgetary surplus. Temple concludes that the only way to reduce land armaments effectively would be to adopt the French peace conference idea of giving the league of nations an international force to police the world.

RAILWAY SUPERINTENDENT DIES

NEW YORK, (By)—J. R. Savage, general superintendent of the Long Island railroad, died today after a brief illness. He was born in Philadelphia in 1869.

## Chicago Thrown Into Panic When Thirty Tons Dynamite Explodes In Stone Quarry

### Bull Wrecks Auto

TOPEKA, Kan., (By)—F. Knudson, a farmer, today appealed to the state superintendent of insurance for aid. He complains that he paid his automobile red, that he had a reliable sale at Oron, Kansas, wrecked it and the insurance company refused to consider his claim.

## Frightened Residents Conclude Big Manufacturing Plants of City

### ---Force Is Felt for Miles

### GRANDDAUGHTER OF JOHN D. ROCKEFELLER, 16, WILL WED SWISS HORSEMAN, 48

MISS MATILDE MCCORMICK, sixteen-year-old daughter of Harold F. McCormick, the "Harvester King," and granddaughter of John D. Rockefeller, whose engagement to Max Oser, forty-eight-year-old Swiss horseman, has been announced by her father. The romance of the pretty bride and the proprietor of a riding academy in Zurich, Switzerland, caused an international sensation. Mr. Oser has been the riding instructor in Switzerland for years. Oser had agreed to become an American citizen. The marriage will be celebrated next August.

## Buildings Are Shaken, Windows Shattered and People Mystified by Force of Concussions from the Blast

CHICAGO, (By)—Chicago and dozens of its suburbs today found out what caused a blast which literally shook them to their foundations and caused a frenzy of excitement last night. Thirty tons of dynamite led to the quieting of the city shortly before 6 o'clock and hundreds of thousands of alarmed residents were led to bed knowing just what had happened in the city in rumors of completed bombings, earthquakes, falling meteoric iron disintegrators to manufacturing plants.

BUSINESS DISTRICT IS IN FUROR.

For an hour after the blast the Chicago district was in a furor. The smashing of glass in thousands of windows, the shattering of buildings and the reports of the explosion gave rise to the notion that bombings were occurring simultaneously in many parts of the city.

REAR-END NEWS FROM ASSOCIATED PRESS.

A Mooner railroad freight, owned by Dyer, Ind., received definite word of the blast, and this was relayed to the Mooner shipyard at Lafayette, Ind., from which it was transmitted to the Fayette newspapers and the word of the explosion on the edge of Chicago came back to the city over the Associated Press.

In spite of the large area of land affected by last night's blast only one man was seriously injured although scores were cut by glass and shaken from the scene of the blast. Albert Kendle, the injured man, was operating a crane some distance from the explosion and sustained a broken arm. Reports that hundreds had been killed proved groundless.

DYNAMITE IS STORED IN CASKS.

The McCook quarry of the Consumers' company, about 11 miles from Chicago's downtown district, contained two powder magazines where dynamite was stored in casks and in each magazine 600 cases of dynamite were stored, each case containing 50 pounds of the explosive. The cause of the explosion probably will never be known.

Within a few hundred feet of the quarry an Allison, Topeka and Santa Fe train passed a few minutes before the blast to clear out and dry. In each magazine 600 cases of dynamite were stored, each case containing 50 pounds of the explosive. The cause of the explosion probably will never be known.

BLOWS TRAIN FROM THE RAILS.

The explosion resulted in many curious freaks, part of a train standing on a siding at McCook was blown from the rails. A crowd in an Argo theater rushed from the building in a panic. One woman was injured as she ran. Street lights in Summit, twelve miles from McCook, were extinguished. An automobile accessory dealer in Chicago summoned the police, describing the explosion as a broken arm. The explosion toppled a pile of tires on him. A Chicago police sergeant was accused from sleep by the blast. He was his car in a frenzy of terror landed on his head and dug in with all his claws. Window glass was shaken from windows along entire streets in Chicago. Windows in adjoining streets were unshattered. The damage caused by the explosion will never be known but it is hundreds of thousands of dollars. There is little to show the effect of the blast, at the spot where it occurred. A great hole in the ground some 50 feet wide and 300 feet long marks the place where yesterday the powder magazines stood.

## Good Samaritans Help Sick Men and Rob Them of Jewels

NEW YORK, (By)—Police today were seeking "Good Samaritans" who robbed two New York business men of gems and currency amounting to more than \$15,000.

which he said were worth \$75,000. The name of the second victim had not been made known. The police say he suffered an attack of vertigo after leaving a brokerage office from which he had withdrawn \$78,000. Passerby carried him into a doorway and he was revived. One of his "manufacturers" police say, made away with the money.

## FAMILIES OF DELEGATES TO BE HELD HOSTAGES

### Soviet Government Fears Representatives Will Not Return

MOSCOW, (By)—In order to insure returns to Russia of the delegation sent to Genoa, those persons who have families or possessions that guarantees will be allowed to go there.

## MARINE MAIL GUARDS BE REPLACED BY CIVILIANS

### Effective Stop Put to Looting by Use of Forces, Declare Postal Authorities

WASHINGTON, D. C., (By)—Replacement of marine mail guards by a specially recruited force of men from the department is now being carried out by the postoffice department, it was stated today by postal officials.

Officials said that it was expected in a short time all mail carriers now engaged in guarding the mails would be withdrawn. The civilian guards are being carefully selected and will form a permanent service, it was asserted. Marines were detailed to guard the mails and postoffices in all parts of the country last November, following a series of mail robberies and information of others planned on a large scale, but it was announced at that time they would be withdrawn in favor of civilian guards as soon as such an organization could be perfected. Since the mail has been open to day, robberies have decreased and postoffice department officials have been highly pleased with the result.

## Big Chief Pays His Visit to President

WASHINGTON, D. C., (By)—Chief George Menzies and five other Indians from the Yakima reservation in Washington called at the White House today and paid their respects to President Harding. The Indians were accompanied by Indian Commissioner Burke and Representative Sigmund of Washington.

## Brothers are Held for Murder Charge

NEW YORK, (By)—William and Frank Evans, brothers, were under arrest here today charged with the murder of Paul J. Gillman, a Brooklyn druggist Thursday night. The police announced both men had made confessions and had admitted a number of robberies in Brooklyn and Manhattan.

JOHN KEOUGH AND STEPHEN COLLINS, alleged by the police to have been implicated by William Evans as confederates in the robbery, were arrested later.

CONTINUES TO IMPROVE.

LOS ANGELES, Cal., (By)—Continued improvement of Abner Norman, film actor who is suffering from influenza and nervous breakdown, was predicted early today by his physician.

# SHOWER GIFTS OF RARE SORTS UPON PRINCESS

### Old Mansion, Rope of Pearls, Rare Jewels and Sums of Money are Offered by Adoring Folk

LONDON, (AP)—Gifts of royal magnificence have been showered upon Princess Mary and Viscount Lascelles in anticipation of their wedding, February 28. An estate, a rope of pearls, jewels, donations of money and a score or more of other splendid presents, many of which would represent a princely dowry for a bride of humbler station, are among the gifts which have taken a world-wide wish for the long life and happiness of the royal bride and her fiancé.

### PARENTS' PRESENT FINE OLD MANSION

The estate, a magnificent country seat in Yorkshire comprising a fine old mansion, Goldborough Hall, and extensive grounds, was presented by the bridegroom's parents, the Earl and Countess Harcourt. This will be the future rural home of the Viscount and his bride.

When in London they will reside at Chesterfield House, a miniature palace in Park Lane which for some years has been the property of the bridegroom. It was placed at the disposal of the Japanese crown prince during his visit to England a year ago.

### MARBS OF EMPIRE ADD THEIR SUMS

Donations of money, most of them to be used in the purchase of gifts of Mar's own selection, have come from the City of London, the Guilds, British residents of Paris, from Danes and various other nationals living in the United Kingdom, from various charitable organizations in France and Air Force units with which the Princess came in contact during her many war-time activities, and one tremendous fund which represents the good will of "the Mar's" of the British Empire.

Intimate friends of Princess Mary have sent her bits of furniture. Members of the royal household have given an historic clock of the Stuart period. The King's Watermen gave a reproduction in silver of the ancient royal badge, the Friends of the Poor a handsome fire screen in Chippendale style, the citizens of Liverpool a magnificent diamond bracelet, citizens of Glasgow an elaborate mahogany dressing table fitted with finely cut crystal requirements.

### GIFTS FROM THE PROVINCES

New South Wales sent a gold loving cup set with Australian stones. Victoria's contribution was a writing table of Australian wood inlaid with Australian opals. Melbourne, Australia, sent a work of art. James and Edinborough a Mary Queen of Scots brooch richly enamelled. Talalay sent a fine example of its famous shawl. The Society of Women Artists has arranged for Mrs. Dikensy Ward to paint a portrait of Princess Mary as a gift from that organization. The Clan MacDougal sent a replica "Brooch of Clona," an ornament that has an ancient history. Legend says it was worn by Robert Bruce when the Brothers MacDougal tried to capture him after the battle of Bannockburn. The clasp gave way, and the brooch remained with the Mac Dougals.

### SELETS FAMOUS OLD GOLD PLATE

Princess Mary has expressed a liking for an unique service of gold plate that formerly belonged to King George the First. It is now in private hands. The service is said to be worth 10,000 pounds. The royal crown and motto are in the center of each of the 18 pieces, six of which are fan-shaped, forming one large circular dish when placed together. The service was made by a Huguenot refugee in 1714. One of the many funds subscribed through the empire for the purchase of presents selected by the couple will be used in procuring this magnificent service.

Viscount Lascelles has received from the Doanston, Idaho Committee silver statuettes representing types of the British Empire. In all, the committee has received 10,000 pounds. The Viscount agreed with distinction in the Grenadier Guards during the late war. As he is also an Honorary, British consul, he is making a pure for the purchase of a present.

Scores of other offerings, great and small, from far-flung corners of the globe, the tributes of monarchs, dignitaries and humble folk, oiled into Buckingham palace in such volume that it was necessary to appoint a special staff to assist in unloading and storing them. They are of such a miscellaneous character that a catalogue would be of book-like proportions.

Out to the... This phrase... the utmost degree... taken from a mathematical formula... where a sum is for any number... "Out to the n-th, plus one" is another form of the phrase, a plus 1... counting more than any number.

### Cast of Shapely Limbs Graces Art Institute

Mary Craven Fox

She has a perfect "understanding" according to the Chicago Art Institute, which has honored Miss Mary Craven of that city with the title of having the shapeliest limbs and feet in the United States. A cast of her feet and limbs has been added to the exhibits of the Art Institute at Chicago.

# BOYCOTT USED WITH EFFECT

### All Goods of British Manufacture Subject to Rigors of Scheme

ALEXANDRIA, Egypt, (AP)—In defiance of a boycott against all goods of English manufacture, the Egyptians have adopted the tactics of the nationalists of India. They have heard that the Indians have been successful in their attempt to boycott British goods and are endeavoring to use the same means to bring the British government to terms.

As yet the extent of the boycott is not clear. However, many Egyptian merchants are now refusing to buy English goods and are turning to Egyptian customers are promptly told that he wishes no quotations on such merchandise.

But the great majority of importers and exporters are foreigners who desire to continue to buy and sell in the great markets.

If the Egyptians are able to hold together on the boycott program and force the importers to no longer deal in English cotton piece goods, iron and steel products, the result may be serious for English factories in Lancashire and Birmingham.

### BRITISH BANKS SHARP IN BOYCOTT

British banks are included in the boycott. It is stated that considerable sums of money have been withdrawn from English banks in Egypt and placed in their foreign banks.

School boys have boycotted the schools and the native bar association voted to suspend all work.

It has been proposed also to restrict the cultivation of Egyptian cotton, which would be of interest to the cotton growers of the United States. It has even been suggested that the Egyptians should refuse to export onions to England which now takes 50 per cent of the Egyptian onion crop.

Certain members of the Effendi class, Egyptians of leisure, have announced that they would cease to drink English whiskey and refuse to wear sport-clothing matches as the English do. Various other boycotting plans have been proposed.

### First Safety Razor

The first safety razor was merely an ordinary straight razor with a blunt edge instead of a sharp one. It was made by Michael Thayer, of Sheffield, in 1873. Blades with serrated blades were not introduced until some time later.

# COPPER FIELDS FIND NEW LIFE IN ALL ZONES

### Year of Inactivity Seems Ended in Hope for Renewed Activity in Both Mine and Smelter

CHICAGO, (AP)—Dead for twelve months, the copper industry has arisen, shaken off its shroud, and on its way will give momentum to its way back to normalcy, according to reports from the copper sections of the country.

War, or rather the end of the war, relieved the temporary death blow. The smelters found the mines with great quantities of copper on hand. Demand suddenly ceased. The market collapsed. Through a year of general depression the copper industry was among those hardest hit.

But the resurrection is at hand. Revival of copper mining on a "cautious" scale to start about April 1 is announced by the Calumet and Hecla company, the Utah Copper company and the Anaconda Copper Mining company. At that time more than a million acres of land will renew their yield of red metal.

Several mines are already operating. Others have started preliminary work with a few weeks. Utah mines operating at capacity and this is not expected for many months—approximately 50,000 men are employed in the country's copper mines. Montana and Michigan also employ 20,000 each, provide the great majority of work with Arizona and Utah mining on the west. At the time of the shutdown a year ago, however, no mines were operating at near capacity. In 1914, Michigan copper mines employed 20,000 men. This dwindled until in 1920 the number was 7,500. In 1921 the number was 5,700. A similar decline in employment is predicted in other copper fields.

About half of normal production is expected this spring, reports from the chief copper mining areas indicate.

### Summarized, the general situation is: MICHIGAN.

Resumption of work at the Calumet and Hecla company and subsidiary mines throughout the state. The smelters and smelters mines upon the disposal by the companies of their surplus metal. April 1 is expected to see many mines operating, although with short reserves. Fifty or more per cent normal is the estimated production at the beginning. Six months will be required to build up an organization replacing that scattered after the shutdown.

### ARIZONA.

Four properties of the Anaconda Copper Mining company resumed operations January 10 of this year after being closed eight and one-half months. These mines, together with the other mines at Anaconda and Great Falls, employ 1500 men. Mines of Montana are working about one-third capacity, according to figures furnished by the state department of mines for the Anaconda company.

### UTAH.

The Utah Copper company, closed in the general shutdown, will reopen at a "comparatively early date" an official of the company declared. During the inactive period only 200 men have been employed at the mines which at peak production in 1918 provided work for 6000.

The depression from which the industry is today showing signs of recovering was the greatest it ever experienced.

The war emergency led to over-production and subsequently to disastrous under-consumption which paralyzed every copper mine in the country. A huge supply of metal was met with a dwindling demand, a situation which sent the market plunging downward, closed the mines, three thousands out of work, stagnated mines in entire communities and seriously embarrassed many hundreds of stockholders whose incomes were affected when dividends ceased.

Some mines escaped. In Michigan four mines—the Quincy, Michigan, Copple Hill and the Wolverine—continued to operate, but operations were only half of normal.

# BRAZIL FAILS TO LURE JAPS

### Planters, with Help of Nipponese Government, Unable to Get Sufficient Help

TOKYO, (AP)—Japanese emigrants have shown a decided inclination to seek their fortunes in South America in the past two years despite the "overcrowding" in Japan and offers of bonuses.

The Brazilian government pays 10 pounds to each Japanese emigrant, but, nevertheless, Japanese labor contractors have found it impossible to fulfill their contracts with Brazilian coffee planters to furnish 5,000 Japanese laborers each year.

Last year the number of Japanese emigrants to Brazil was estimated at 900. These figures are given by an official of the commercial bureau attached to the foreign office.

### HOME MARKET STOPS EMIGRATION.

The reason assigned for this disinclination to immigrate to South America is the improved status of the labor market at home. Officials of the bureau predict that the coming year will see a greater exodus from Japan than for some years past.

The total Japanese population in South America in 1920 is estimated by Japanese authorities at about 40,000, of whom 31,000 are in Brazil, 6,000 in Peru, 2,500 in Argentina, 800 in Bolivia and 600 in Chile.

### GOVERNMENT HELPS MOVEMENT.

Emigration is being encouraged by the Japanese government says Mr. Akamatsu, chief of the commercial bureau. Railway fares to ports of embarkation are reduced and special allowances are offered.

Last year the government advanced \$50,000 to the company to promote emigration by means of moving pictures showing conditions abroad, chiefly in South America. Comparative statistics show that Japan proper is just about as thickly populated as England. Japan has 370 persons to the square mile compared with 172, Holland's 320 and Belgium's 604.

# AGENTS SEARCH TRAINS FOR WOMEN OF WEALTH

### German Males in Market for "Gold Fishes," Create New and Thriving Industry

BEELIN, (AP)—Traveling matrimonial agents constitute the very latest idea in Germany, where keen competition is being waged among matrimonial bureaus because of the great surplus of women, partly due to the war.

The matrimonial agents go from town to another seeking "gold fishes," as the Germans call them, in other words, women with money who are desirous of obtaining true love and a good-looking husband, though poor.

The matrimonial agents carry a "sample case" in the form of a large album, leather bound, with handles, and which is nearly as large as a suitcase, the album containing photographs of men who have registered as being in the market for a "gold fish" wife.

These agents work on a commission basis, being paid by the bureau managers who when a match is made, charge a per cent of the woman's wealth, payable immediately after the marriage takes place, the bureau also receiving a certain percentage from the successful man candidate, payable in installments, a certain length of time after the wedding date.

### Birds and Cycles.

One naturalist has expressed the opinion that birds habitually make use of storms in traveling from one part of their range to another. He points out that if a bird cannot find shelter, it must be more comfortable on the wing than on the ground during a storm, because in the heaviest gales the air, as a mass, is at rest; that is, the bird is in a moving, supporting medium, like a swimmer in a strongly flowing river.

# DRYAN OFFERS HIS OLD HOME TO HIS CHURCH

### LINCOLN, Neb. (AP)—The home of William Jennings Bryan and a 10-acre plot surrounding the scene of the earlier life of the now famous lecturer, orator and statesman, located on a hill-top southwest of Lincoln, has been offered tentatively to the Presbyterian church as a permanent home and hospital for missionaries, teachers and members of families that have become unacquainted in the service of the church.

### CHURCH BOARD APPROVES PLAN.

The Bryan mansion, which has been idle an devoid of activity most of the time since the commoner changed his residence to Florida, recently was visited by representatives of the board of relief of the church. The members reported the home admirably suited for this purpose and would accommodate about forty patients after a few alterations and repairs have been made. Henry B. Moyer, one of the members of the board, said it would report on the offer when the board returned to Philadelphia.

### REPRESENTS CHURCH OF NORTH.

This house represents the Presbyterian church of the north. The proposal suggested the use of the home as an infirmary for patients from Japan and China. Far Eastern missionaries and teachers of the church, hospitalized in service, now are sent to hospitals farther east, members of the board stated.

Mr. Bryan is reported to have at one time offered to sell part of his land out the home and the area were never served.

### Overcrowded Room.

A room that is overcrowded and hung with heavy draperies is bad for health. A bedroom should have plenty of windows and they should be kept open during the night.

# NO CHARGE IS FILED AGAINST BLACKMAILER

WASHINGTON, D. C. (AP)—George E. Long, veteran war department clerk and, according to the police, confessed author of the blackmail letters recently received by Henry White, former ambassador to France, and several women prominent in Washington society, was tending to the needs of a seriously ill wife and his three children at their home today. He was permitted to return there several minutes after the alleged confession was drawn from him at police headquarters yesterday. No complaint had been lodged against him today for sending the letters, which demanded large sums of money under threat of death, and the police said none would be filed unless those who received the letters showed a disposition to press the case against him.

## HAROLD LLOYD'S NEXT SKYSCRAPER ROMANCE

Makes Tall Building His Play-thing in Boron Tale of Love and Youth

Skyscrapers are the playthings of Harold Lloyd, the inimitable Associate Exhibitor comedian, in "Never Weaken," his newest release showing Monday at the Idaho theater.

Skyscrapers are heroes of romance and "Never Weaken" is the amusing and amazing tale of the love of a youth for a maid, whom he believed untrue. They worked in adjoining offices. Her "boss" was a doctor without any patients—until Harold undertook to get some for him.

Business was thriving when Harold discovered the girl who wore his diamond ring, in the arms of another. He smiled upon death; he welcomed it with open arms—until he found himself sitting on an iron grid, 12 stories in the air, and nothing to grab hold of but the framework of a skyscraper in the making! Life then became sweet and worth scrambling, tumbling and falling for.

Harold Lloyd's feminine partner in fun is the petite and pretty Mildred Davis. Roy Brooks, Mark Jones and Charles Stevenson are splendid aids.

### LOCALS WILL BELIEVE

Mrs. D. E. Hogan, who is state chairman of music of the Idaho State Federation of Women's clubs, is conducting a music department in connection with local high school work. She has under her supervision about 70 pupils in the different branches of music. It is interesting to know that she teaches piano, harp, mandolin and guitar and pipe organ. A club has been organized in mandolin orchestra consisting of the following members: Forrest Finney, Herbert Nungson, Hart Van Ripen, Charles Dwight, Marcus Ware, Julian Hoono, John Nye, Dorothy Roy, Mrs. Caldwell, and Mrs. Hogan. This club will make its first appearance before the footlights at the Idaho theater on next Wednesday and Thursday evenings, playing several numbers between the picture programs. It should prove quite a treat to music lovers.

At The Idaho Theatre Monday and Tuesday

**HEAVY EQUIPMENT ORDER**  
LONDON, (AP)—A contract valued at between 750,000 pounds and 1,000,000 pounds for material needed in the electrification of South African railways has been obtained by a Manchester firm. The order is said to be the largest concerned with main line railway electrification that has ever been entrusted to a British establishment and was obtained in the face of strenuous European and American competition. It involved the supply of at least 70 electric locomotives designed for the 150-mile railway line between Glence and Hibernianburgh.

## CLAIM A BARREL OF FUN

Vivian Martin Was Not Satisfied to Get Laughs by the Bushel

Vivian Martin has some unique experiences in "Pardon My French," her second Messmore Kendall production which is released by Goldwyn. She plays the part of an actress of the road who returns to New York after some experiences, funny in the retrospect, but not so funny while they were being endured.

Folly decides that she has had enough of the road and decides to go into the movies and does so. She works one day, for which she receives \$5, less the agent's commission. At the end of the day she goes home and goes to bed in a haggard condition. For her \$5, less the agent's commission, she has been pursued by an old man, who is comically crazy, with a gun, by a couple of robbers by a laborer and various others who join in the pursuit, until finally she has taken refuge in a rain barrel in which a man traps her down in his efforts to hide. Of course there are rehearsals, too.

This take-off on some elements of movie production is one of the many funny scenes in this, hilarious photoplay which comes to the Star theater at Kimberly Sunday and Monday.

### OTHERS SAVING MONEY

"COPENHAGEN," (AP)—A Danish financial with a knowledge of Russian conditions says that between 200,000,000 and 300,000,000 kronen are deposited in Swedish banks in the names of various Russian companies. He adds that any money deposited in the name of any Russian government is liable to sequestration by states with monetary claims against Russia and it is therefore pointed in the names of companies. The financier also asserts that still larger sums are deposited in South American banks in the names of companies.

## VARIETY IS PROMISED IN NEW VAUDEVILLE BILL

Roman Rings Stunt, Comedy Pair and Song and Dance Duo Create Diversity

In the coming vaudeville bill at the Orpheum theater on the Monday next, Morrice Brothers and the Wendell trio in their incomparable feats of originality, dexterity and strength on the Roman rings. Their routine is varied including juggling stunts, some standard and some novel, but all the feats presented necessarily requires accuracy and cleverness.

Muri & Newton, a happy-go-lucky comedy act in their ninth provoking and humorous side of every-day life at a country hotel, replete with songs, lark and dancing.

Walker & West in their show, the situations are said to be original and amusing and the dialogue unusually bright, introducing many singing and dancing numbers, showing some pretty costumes.

Geo-La-Shay, a musical treat on the marionette stage the show to good effect as he is a musical wizard. A Galsworthy feature picture will be added to this stellar bill, entitled "The Man Who Had Everything."

## Electric Refrigeration.

A brine tank in place of ice, which by means of an electrical instrument keeps a near temperature in the refrigerator. It is growing in popularity in suburban and country places where ice is difficult to obtain. Its advantages are that it does away with the ice man, it gives a dry temperature advantageous for the preservation of food, and there is no steam, dirt or drip with the use of ice. It is supposed to freeze a little less for table use when that is desired. It is not an expensive luxury, costing about \$200 to install in any refrigerator.

### The Humble Clotheshop.

Every Monday morning thousands of pulley lines squeak and thousands of clotheslines are jabbed into place. In spite of many new inventions, people the world over still use the primitive wooden clothesline designed years ago by a New Hampshire man. Twenty million feet of lumber are said to be needed each year to supply the clothesline manufacturers in the United States.

## President Signs Bill to Aid Farm Marketing

President Harding

President Harding is shown signing the Capper-Volstead bill, which permits agricultural organizations to form greater co-operative marketing bodies. The farmers want to unite to do away with the middle-man's profits and enable themselves to realize a greater profit on their grain and produce. The official title of the new law is the Capper-Volstead Farmers' Co-operative Market Bill.

## FATHER AND SON MEET AT BANQUET IN FILER

Many Attend Second Annual Event Under Auspices of Church

FILER, Idaho (Special to The News)—An event of unusual interest occurred on Wednesday evening when the second annual father and son banquet occurred in the basement of the Methodist Episcopal church. The rooms were beautifully decorated in patriotic colors and the five long tables at which about 150 fathers and sons were gathered, carried out the same color scheme and effect. At the close of a beautiful dinner served by the ladies of the church the following toasts were responded to, by the Rev. C. E. Deal acting as toastmaster: Vivian solo, Helen Peasey, "Our Second Honored" toastmaster; "His Father's Pal," Rev. C. E. Helman, Hull; "The Dad That Wins," Walter Beary; "Training Win-

ners," Prof. Deuman; "The Ladies," on Tuesday afternoon. This is the Prof. Beck address, Rev. White, Twin Falls; "Our Delinquent Boys," Mr. by Mrs. Childs on Friday and Saturday

Full, Twin Falls; solo, David Parrot, afterwards. On Wednesday afternoon, one of the The evening closed with the singing. The most interesting feature of the program of America by the audience and the most interesting feature of the program of the request that the third annual father-son banquet be not forgotten. "Main Street," was the subject of the Many of the prominent men of the program. A comprehensive symposium were not having sons of their own of the lunch was given by Mrs. C. E. were accompanied by borrowed hands. Deal and the discussion which was One hundred and seventy seats were warmly entered by many of the men-son for the affair.

One of the pleasant parties of the week was held Friday afternoon at the home of Mrs. F. P. Nisley when some, selectible fifty members were 12 of her intimate friends gathered at, served by the hostesses.

The next meeting of the Literature club had been provided for by the daughters, Mrs. P. E. Drake and Mrs. T. C. Carney. The party was a success, both as presented her with a beautiful potter. The military dance given by the boys are among the pioneers of Filer. Monday evening was a success, both as These present were Modestas, Bea, chivalry and financially. The large Rev-Dean, Greves, Griffith, Newberry, Tanager, Moore, Blumens, Schindler, Drake, and a feature of the evening was Mrs. Harry Hummerquist and Mrs. sounding of taps in the darkened hall

A. E. Hoem entertained on Saturday and the singing of several war songs afternoon at the home of Mrs. Hoem, by a number of the veterans. A large in honor of the teachers of the public attendance was present from the post schools. The living rooms were artists of Dahl and Twin Falls and the event-ly decorated in valentine colors being costumes of the ladies added and the contrasts of the afternoon were great and the beauty of the occasion.

Under the leadership of Miss Bush, favors were won by Mrs. Woolflice and Miss Deal. Among those present were: Mrs. George Deuman, Mrs. Wood, the high school have been organized ridge and Mrs. Park, whose husbands into four basketball teams and during of the school faculty, and Misses the latter part of next week will close Bush, Olsson and Thorsberg of the intercollegiate series for the school high school, and Misses McGinnis, championship. This series will close Powell, Gardner, Olick, Kinn, Musser, and Deal and Madeline Gilis, West-berly, Kellog and Theodora of the grad-schools.

## NEW YORK COURT SENTENCES JAP MURDERER TO CHAIN

NEW YORK, (AP)—Saito Taisei, 23, the only Japanese ever convicted of murder in New York City, today was sentenced to die in the electric chair in keeping with the season of his 21st birthday were presented the guests during the evening and delicious refreshments served.

Dr. and Mrs. A. A. Newberry entertained in dinner on Wednesday evening for Dr. and Mrs. T. C. Carney and Mrs. and Mrs. O. J. Childs.

Mrs. O. J. Childs entertained about 20 friends at a Kensington at her home advertised in the classified — you'll find your buyer.

Happenings of a Day In Sports

BURLEY FIGHTS FOR HONOR WITH OAKLEY'S SQUAD

Twin Falls, Rupert and Elmer are Eliminated in Earlier Games of the Basketball Tournament

With Oakley winning from Twin Falls this morning, in the basketball...

The opening game this morning between Oakley and Twin Falls resulted in a victory for the visitors by the score of 43 to 19.

For the locals, the entire team won their first free man, and did not use to playing against a finished product, they did exceptionally well.

PUTZNER SHOOTS BASKET. In the first minute of play, Putzner shot a beautiful basket from the center of the floor.

For the visitors, Martindale made some of the longest passes of the day, and also brought his crowd to its feet with four dandy field goals.

MAKES FIVE FIELD GOALS. Jackson, center, made five field goals, and swelled the score with three free throws.

The summary of the first game this morning: Field Goal Total Oakley - G. O. F. Pts. 4 0 0 8

BURLEY ELIMINATES RUPERT'S HOPE. The second game this morning, which spelled elimination for Rupert, was won handsily by Burley by the score of 44 to 20.

JENKINS IS STAR OF GAME. For the Burley team, the playing of Jenkins was by far the outstanding feature.

IDAHO CLEANERS AND DYERS. CHAR B. ROWLIFF & CO. Phone 216-W. 125 Broadway, St. West. French Dry Cleaning. Repairing - Dyeing.

the basket, nine field goals were put against his name, giving him a total of 32 points scored. This is the record for individual scoring during the present tournament.

Worthington, with two field goals, and Keranshik, with his wonderful guarding, are worthy of special mention.

Table with 4 columns: Player, G., O., F. Pts. Totals: 15 14 1 1 41

TODAY'S MARKETS

SHARP BUYING TAKES UP SLACK IN MARKET

What Declines Half Cent on Opening but Quickly Reverses Under Pressure of Demand

CHICAGO. (AP) -Wheat started half cent to one cent lower on the Chicago board of trade today but quickly rallied to above yesterday's finish.

By the end of the first hour May was above \$1.40 and July had bettered it to \$1.25.

Corn opened 3-8 to 5-8 higher for May at 66 1/2 to 66 7/8 and 1-8 lower to 67 1/4 to 67 1/8 for May and \$1.25 1/4 to 1 1/4 for July.

Profit takers caused some reaction but toward the end of the session country offerings and strength in wheat kept prices netting and the close was 68 5/8 to 68 3/4 for May with July at 70 3/4 to 70 7/8.

Provisions started generally unphased to 5-16 higher.

Cash Wheat. CHICAGO. (AP) -Wheat—No. 2 hard \$1.40 to 1.41 1/2.

Corn No. 2 yellow 61 to 62c; No. 2 white 61 3/4 to 62c. Oats No. 2 white 40 to 43c; No. 3 white 36 1/4 to 37c.

Potato Market. CHICAGO. (AP) -Potatoes—Firm; receipts 30 cars; Wisconsin sacked Round Whites \$1.50 to 2 cwt; Wisconsin bulk Round Whites \$2 to 2 1/2 cwt; Minnesota-sacked Round Whites \$1.75 to 1.85 cwt; Idaho sacked Rurala \$2 to 2 1/2 cwt.

Colorado sacked Brown Beauties \$2.10 cwt.

Portland Livestock. PORTLAND, Ore. (AP) -Cattle, hogs and sheep steady; no receipts; unchanged.

Omaha Livestock. OMAHA. (AP) -Hogs - Receipts 5,000; market fair; 5 to 10c higher; bulk of sales 10 to 10.25; top \$10.35.

Chicago Livestock. CHICAGO. (AP) -Cattle - Receipts 1,000; compared with week ago; beef steers closed largely steady to 15c higher; with spots 25c up, lower grades showing the advance; canners and chuters mostly steady; bulls gained largely 50c; veal calves mostly 81 higher; stockers and feeders 1/2 to 3c higher.

NEW YORK. (AP) -Selling of independent steels, yesterday's disturbing feature, was resumed at the opening of today's stock market.

NEW YORK. (AP) - Liberty bonds closed: 3 1/2's \$90.99; first 4's 497; second 4's \$90.04 bid; first 4's 497.10; second 4's \$90.56 bid; 4's 497.45; fourth 4's \$97.54; Victory 3 3/4's \$100.02; Victory 4 3/4's \$100.26.

Exide BATTERIES WHAT YOU WILL FIND OUT Exide Battery and Ignition Station. GEORGE WALLACE, Distributor. PHONE 603 TWIN FALLS

Camels are made for Men who Think for Themselves. Such folks know real quality—and DEMAND it. They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTE AFFERTASTE. Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels. And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons. But QUALITY! Listen! That's CAMELS!

Social Notes

One hundred and fifty members and guests enjoyed the annual winter picnic of the Federated Rural clubs held yesterday in the Baptist bungalow. Twelve clubs were represented, and the husbands and families of the members were guests.

The luncheon club was entertained on Friday at the home of Mrs. Charles H. Robbins on Ninth avenue north. The table, at which about 40 were laid, was charmingly decorated with George Washington emblems and a centrepiece of flags.

Miss Opal Dillington entertained informally last evening with three tables of bridge.

Honoring Mrs. Rose (vice, who will soon return to her home in Indiana after an extended visit here, the Mentor club last night entertained with a dancing party at the home of Mr. and Mrs. J. E. Winnans.

The Drama and Literature department of the Twentieth Century club met Friday afternoon with Mrs. M. E. Kelly on Tenth avenue east.

Mrs. Cawood's Comp Fire Girls met Thursday evening with Nona and Leon Vochem. Following the business session, dancing was enjoyed.

Honoring the eighty-sixth birthday of her mother, Mrs. Dates, Mrs. S. H. Bolton entertained Friday at her home on Second street with a three course luncheon.

COMMONS WILL TAKE HALF HOLIDAY WHEN MARY WEDS LONDON, (AP) — The house of commons will be given a partial holiday on the date of Princess Mary's wedding, the government has announced.

HAROLD PAYTON PROVES TO BE SON OF MONTANA MAN DAYTON, O. (AP) — The youth known as "Harold Payton" of the national military home here, who has not known his real identity since being released from the Brooklyn navy yard hospital, was identified as Harold Payton today as Lawrence Payton, and of W. H. Keating, mine operator and ranchman of Heath, Mont.

CHICAGO THROWN INTO PANIC (Continued from Page One) After an all-night investigation of the dynamite explosion, which last night rocked south Chicago, causing \$1,000,000 damage, R. M. Furbisher, assistant fire marshal, declared today that the cause of the blast was the result of a premeditated plan.

Two deputies George P. McNally and Calvin T. Weeke, agreed with Mr. Furbisher the blast occurred in the quarry of the Government of the company, near Argo, Ill., could not have been caused accidentally.

"The magazine was in the brittle and crumpled with the state law," the assistant fire marshal said. "The powder and dynamite was of such a nature that it would not explode without some concussion or ignition."

SNOW AND RAIN ARE PREDICTED FOR WEEK

WASHINGTON, (AP) — Weather predictions for the week beginning Monday are: Upper Mississippi and lower Missouri valleys: Temperatures below normal; snow or rain over entire portion at beginning of the week; rain or snow also probably Thursday or Friday.

Open Inquiry as to Cause of Disaster to Air Craft Roma

Charge Big Flier Was Unsafe in Statement of Brother of One of Victims

NOBOLK, (AP) — Formal inquiry by an army investigating board into the causes and circumstances surrounding the Roma disaster Tuesday in which 34 men lost their lives was begun at headquarters of the army supply base here today.

LETTER SAYS ROMA UNSAFE CHICAGO, (AP) — Robert M. Smythe, Jr., brother of Lieutenant Clifford E. Smythe, one of the victims in the Roma disaster, today notified his command, made last Wednesday that he had seen letters from his brother in the air service declaring the Roma unsafe.

Stadium Row Causes Professor to Resign Post at University

Institution Split Over Location of New Athletic Plant in Beauty Spot

BERKELEY, Cal., (AP) — Charles Henry Rieber, professor of logic at the University of California, dean of the summer school and connected with the university 10 years today had resigned all connections with the institution as a result of a controversy over the location of the proposed mammoth athletic stadium in Strawberry canyon.

Robbers Dig Tunnel Under Bank Building to Cut Through Floor

Sensational Attempt to Loot Vaults is Frustrated When Neighbor Girls Alarm

BANUS, Ore., (AP) — Robbers last night broke into the Washington County bank here by tunnelling under the rear of the building and cutting through the floor. They succeeded in reaching the vault but failed to open the safe. The bank's loss, according to a report early today, by officers, was \$271 in cash and jewelry.

Dominio Club's Pool Grabs Cool Million

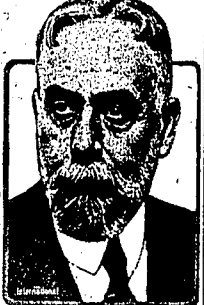

NEW YORK, (AP) — Further disclosures concerning the "Dominio club" pool in which Alfred E. Lindsay, broker, is alleged to have induced a score of women to pour their gold, indicated that the women's losses would pass the \$1,000,000 mark. It was said today at the district attorney's office. The figure originally was put at \$500,000.

Shoemaker is Shot; His Building Fired

CEDAR RAPIDS, Ia., (AP) — Flames shooting from the shoe shop of P. Romanowski today brought investigators who found Romanowski lying in the bullet wounds in his head. There is no clue to the authorship of the attempted assassination.

Sir Gilbert Parker

Only a very limited number of Canadians have received the distinction of knighthood. Among them Gilbert Parker stands out most prominently for he has the unique record of acquiring the honor solely as a recognition of his literary gifts.

Since making him a knight in 1902, the British Empire has conferred additional honors upon him. He was created a baronet of Great Britain in 1915, a privy councillor in 1916 and later made honorary colonel of the ancient and aristocratic Kent Royal Garrison artillery. He also has a collection of regular and special college degrees.

To most of us he is more impressive as plain Gilbert Parker, one of the foremost novelists of the day, who was once a poor boy and who rose to his present prominence through the sheer force of ability.

It has written about thirty novels, a book of poems, several successful plays and some books on travel. It was the great Canadian story, "The Point of View," which established him firmly. This paper has secured one of his very successful stories, "No Defense," for a special feature. It will start soon. Do not miss it.

BONUS QUESTION GOES BACK TO COMMITTEE

Failure to Agree on Sales Tax Issue Leaves Hope Dependent on President

WASHINGTON, (AP) — Failure of the special sub-committee of republican members of the house ways and means committee to approve any provision for financing the sales tax, after rejecting the sales tax in favor of a vote of 7 to 2 had placed the question again today in the hands of the entire majority membership of the committee for further study.

In addition to the vote against the sales tax the sub-committee was understood to have gone on record yesterday, to do so by supporting an anti sales bill without any provision for raising the revenue.

The majority members of the committee will not meet again until next Tuesday.

Some supporters of the sales tax plan were pinning their hopes today on the possibility that President Harding might again take a hand in the situation, believing that it was the present intention of the committee to report out legislation based on proceeds from refunded foreign bonds, a plan which they said the president had expressed disapproval.

FIGHT AGAINST TREATY NOW GOES TO SENATE

Four Power Pact Voted Out Over Protest of Borah, Johnson and Shields

WASHINGTON, D. C., (AP) — The four-power treaty together with its supplement and a reservation and the limitation and submarine treaties were ordered favorably reported today by the senate foreign relations committee.

The reservation attached by the committee to the four-power pact embodies the compromise suggested after conferences with President Harding and declares that nothing in the treaty shall be construed as forming an "alliance." It was approved by a ten to three vote.

Also by a division of ten to three, with Senators Borah, Idaho, and Fiske, California, Republicans and Shields, Democrat, Tennessee, voting in the negative, the four-power treaty was ordered reported to the senate.

Old English Farthing. The farthing is an old English coin, coined in silver first by King John. The Irish farthing of his reign bears the date of 1210 and it is valuable because it is so rare.

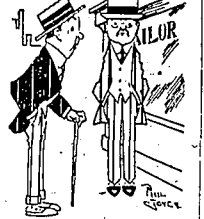

OUR TIRE VULCANIZERS exercise the same care and use the same high grade materials as the workers in the tire factories. Therefore when you give us a job of tire or tube vulcanizing, you are perfectly sure to get right results. GEM STATE VULC. CO. 126 SECOND AVE. WEST

Bank Deposits Show a Gain of \$46,401,260

NEW YORK, (AP) — The actual condition of the clearing house banks and trust companies for the week (five days) shows that they hold \$14,202,520 in excess of legal requirements. This is an increase of \$46,401,260 from last week.

President Prepares Message to Congress

WASHINGTON, D. C., (AP) — President Harding spent a portion of today writing his message to congress on government aid for the American merchant marine. Chairman Lasker of the shipping board said today on leaving the White House after a conference with the president that the executive hopes to deliver the message Monday.

NOT HIS FAULT "A thoroughbred gentleman puts on his clothes and then forgets them," said a man in a suit.

"Muscle Accompanied Operation." His own muscle so swollen at South Boston when he preferred it to their readily while hospital surgeons were preparing for a bullet in his thigh.

Men is a Producer. A hen owned by Byron Central, Mich., is reported to have broken an egg during a fight with a rooster.

Shoat Goes Far Into Ground. A shoat sunk at Yankovsk, Siberia, in the hope of finding water for the town, failed to penetrate below the permanently-frozen ground, or "ground ice," even at a depth of 382 feet.

Kitten Bull Like Rabbit. In Wauchago, Australia, there is a kitten bunny. It is an ordinary puss, born with a deformity. The hind legs are immovable at the joints, consequently the kitten gives her cat and appearance of a rabbit.

PHILIPPINES WILL EXPORT 300,000 TONS OF SUGAR MANILA, (AP) — The production of sugar for export from the Philippines this season is estimated at 200,000 tons of centrifugal and 100,000 tons of muscovado by the Sugar News. E. Benton Hill, editor of the Sugar News and general manager of one of the largest sugar mills in the islands, thinks that many of the sugar mills will make a profit if they get the current price of 1 1/2 cents a pound.

That Simple Every-Day Life. There is not a thought or a feeling, not an act of beauty or nobility, without its supplement and its complementary expression in the simplest, most ordinary life; and all that cannot be expressed therein must of necessity belong to the falsehoods of vanity, ignorance or death.

The new year means new letter and invoice files. We have them. Close Book Store—adv.

The Scrap Book

PROBABLY SORRY HE SPOKE Shop Proprietor's Statement Naturally Appealed to Customer's Sense of Humor.

The proprietor of a certain shop is ever scolding his employees for their indifference in the matter of possible sales.

One day, hearing an assistant say to a customer: "No, we have not had any for a long time," the proprietor, in a fit of pique, called to a customer: "We have plenty in reserve, ma'am—plenty drawers!"

Whereupon the customer looked dazed; and then, to the amazement of the proprietor, burst into hysterical laughter and walked out of the shop.

"What did she say to you?" demanded the proprietor of the assistant. "We haven't had any rain lately."

He Says He Saw This. A New York Times correspondent was according to his experience with snakes that they do not burrow their own holes but simply take up the ready-made holes of probably "hunted" or certainly ousted mice.

He says: "Last spring I was in a black-buckled, cream-blinged female who was wriggling away from me when she suddenly threw a twist, formed eight and tried to tie herself into a knot of grimy knots and then she disappeared."

After replacing the lid I noticed a hole in the floor. I visited the spot and found that the lid had been moved to one side; but in the evening the door once again covered the hole.

Next day similar maneuvering was carried out by both parties concerned. For the third day I made a call and met the lady in the grass and saw her hurriedly enter the hole—and replace the lid with a final semi-circle sweep of her tail.

Fast! Done for Swan. Not content with rumples thrown to it by a party at a Christmas party, Surrey, England, a festive swan stole a piece of Jim that had been put aside because several swans had settled upon it. Apparently the swan were wild on the tart which the man swallowed it, for a moment later the bird screeched in pain, lashed the water with head and wings, and after diving wildly round the lake, fell back. A flock of other swans watched the bird's distress in fight.

WAGE REDUCTION SLIGHT

A study of the wages paid and hours of work in factories and machine shops of the United States, just published by the National Industrial Conference Board of New York, supplies an important indication of the extent and effect of industrial depression on wages and hours.

This study by the conference board covers more than 80 per cent of the wage earners classified under this group by the 1910 United States census of manufacturers. Schedules were received from 1,652 plants employing 438,894 wage earners at the high point of industrial activity in August, 1920. In 435 of the plants wages were employed. The report finds that the composite hourly earnings of all wage earners in the foundry and machine shop group increased 137 per cent from July, 1914, to September, 1920, and from that date to July, 1921, declined 13.7 per cent. In June, 1921, composite hourly earnings were 105 per cent above July, 1914.

Composite weekly earnings of all wage earners in the group increased 135 per cent from July, 1914, to October, 1920, and declined 28.5 per cent from the latter period to July, 1921. Total employment decreased 44.5 per cent from August, 1920, up to July, 1921. The reduction in the number of wage earners has been severe throughout the entire period from the peak to the middle of 1921.

The total number of employees in identical establishments increased 105 per cent from July, 1914, to July, 1920. About 14 per cent fewer wage earners were employed in identical establishments in June, 1921, than in July, 1914.

A MATTER OF THINKING

The other day a woman psychologist of New York with a standing which commands respectful attention, told an audience that since mind is the creator and adapter, all one needs to do to secure physical changes is to do the necessary thinking. Women, she said, can reduce or increase their weight by the right sort of thinking and can alter their facial features by the same means. Every woman is her own beautifier.

If this claims too individual to be accepted as scientific, the judgment of Jean Piaget, one of France's celebrated psychologists and authors on psychology, recently deceased, may be placed alongside of it as a strengthening. Mr. Piaget does not touch upon those physical changes in which the New York expert specializes, but presents others of greater importance, at least to the male of the species.

He says the reason why men have not easily lived to be at least 100 years old is because for centuries mankind has been taught and come to believe in the 70-year limit. It was so because everybody believed it to be that way and constant thinking completed the process. Now if mankind is as consistently taught that this thesis is a blunder, that men should, can and will live 100 years as easily as 70—the thing is done. All that is necessary is the thinking. It may be worth trying to those who believe they want to live to be 100 years old.

"SMARTER" THINKING ON EARTH

Mary Austin, the writer, in a recent magazine article, declares the girl of the day in America the smartest thing the world has ever seen, being a law unto herself and compelling the rest of the world to take her at her own valuation and to let her do as she pleases.

JACK FROST AIDS

By RUTH W. BAKER

Pauline rose impatiently from the greatavenport. Why should it be so difficult to make a decision? Surely she could not love two men equally well? She could be happy with one of them, she was sure, but alas, Jim's voice had great power to thrill her.

The sound of his step on the stairs could cause her heart to beat sufficiently. Last night, at the country club dance, both had asked the right to place on the third finger of her left hand the shining circlet which means but one thing. She thought whimsically that it was unfortunate that she could marry but one.

The girl was not content. She so effectively shrunk from the thought of bringing unhappiness to anyone. But which one should she marry? Channing was coming this afternoon for his answer, and she was no nearer to knowing what that answer would be than she had been the night before. He had been the night before, and she had been the night before, and she had been the night before, and she had been the night before.

NATIONS BEGIN WORK ON PALACES IN BRAZIL

Rio de Janeiro Exposition to Rival Famos World Fair in Its Grandeur

NEW YORK, (AP)—Five nations, including the United States, have started erection of palaces at Rio de Janeiro for the international exposition next fall commemorating the centennial of Brazilian independence. According to word received by Fritz Lobo, Brazilian consul general, The foreign buildings are being constructed along the Avenida Wilton.

A fund of \$1,000,000 has been established to provide an adequate exhibit on the part of the United States. Supplying American manufacturers will show their goods. France, Great Britain, Belgium and Italy are the other countries which are building under construction and several smaller nations are competing for exhibits in other structures on the exposition ground, so that the centennial will have the atmosphere of a world's fair.

Roof of Washington's Home

The wood shingle roof on George Washington's home at Mount Vernon was replaced by him in 1785 and was again replaced until 1900—a life of 125 years ago, the American Forester Magazine of Washington. There have been many instances found where shingle roofs have lasted satisfactorily for 50 years and even 100 years. It is not at all unreasonable to attribute such a lifetime to a roof when it is made of the old shingles in which some of the Egyptian kings were buried 3,000 years ago are still found in fairly good condition.

RELIGIOUS INSTRUCTION IN THE SCHOOLS

Dr. Channon, in his great lecture-room to the people of Twin Falls last Monday evening, made an eloquent plea for Christian education in the public schools of America. He was one of the many subjects that he touched upon in the course of his address on "The Mission of the Republic," but it made a profound impression on his audience. He made very plain the difference between religious education of the right sort, that is vital for character development, and the mischievous aims and methods of sectarian propaganda. He said that America was founded by religious men, with a religious purpose, and that the only way that this government can justify itself is by fulfilling its high mission—to train the children in Christian principles and moral responsibility. Education without a religious background is not education, and it is a failure without love for God and man, never have made a nation great and enduring and never will. All those things lead to materialism and are not to be taught in our schools. We must restore the Bible to its rightful place in our educational system, and make religion a vital part of our everyday culture, if America is to fulfill its divine mission to the world.

There is a growing demand throughout the country today for religious education in the public schools, and no wonder, for the history of religion and the literature of the Bible. The problem of how to introduce courses on religion into the public school is by no means simple, because of the traditional and justifiable opposition to anything that smacks of sectarianism. We do not need sectarianism taught in the public schools, and it ought not to be taught anywhere else by men who really care at heart the progress of Christian education and who care for the real in life of religion. Secularism was a long time in developing, and it will require a long time for it to die. But

Attention, Farmers!

Now is a good time to make plans for this year's crop. We believe it is better to plan crops a year in advance. We also believe that a farmer should decide on the best rotation possible to suit his particular farm, then make the necessary arrangements to carry out this rotation.

Any one crop grown on the same land year after year does not give the best results. If wheat is grown without a cultivated crop to follow, you invite disaster. As wheat has a cultivated crop, we will be safer to confine ourselves to one crop or should we divide the available land to the various cultivated crops possible to profitably grow, such as Sugar Beets, Potatoes and Beans? We believe the conservative farmer will grow some of each, each year. Sugar Beets because of a guaranteed price and market when the crop is ready to harvest, also because the by-products fit in with livestock and dairy industry as he wishes to get fertility to build up his land and increase the production of all other crops. Potatoes because when there is a failure in some part of the potato producing country, he is sure to hit a high price occasionally; in fact, he is in a better position if he has a number of crops than to depend on any one crop.

Now is a good time to oil harness, get machinery in shape, and be all ready to say, when the land is in condition to work, "Let's go boys!" We have plenty of moisture now, don't forget that if surface soil is not worked, a few hot windy days soon uses it up. "The early bird catches the worm."

ALVIN HARBOUR

A Splendid Story by a Great Writer

No Defense

By Sir Gilbert Parker
Seldom do you get an opportunity to read a story by Gilbert Parker in serial form. As a rule they appear as novels, the minimum price of which is \$2.00. Only recently has the great Canadian author consented to their publication otherwise. We have taken advantage of the opportunity and secured for our readers "No Defense," one of his most popular tales. It is a real Parker romance with the high lights and deep shades, swiftly moving plot, unexpected and unusual developments, the warm human love and absorbing interplay of soul upon soul, which distinguish his writings above all others.

## SPORTS

### TEAMS SHOW IN BRILLIANT FORM

(Continued from Page Four.)

The opening game yesterday afternoon at 6 o'clock was between Oakley and Filer. This game started out most promisingly with both teams showing their best.

For the visitors, Canine, Jenkins and Nelson starred. Jenkins with his unanny basket shooting, and free throwing, and Nelson with his guarding. Both of the boys that make the short throws to the baskets.

Though cannot be said of the wonderful shooting of the local five, as they fought against heavy weight and experience. The old spirit of the Blue and White, the spirit of never giving up, was in evidence all through this game.

Stanley Cron was the big point maker for Twin Falls with three field goals and eight free throws to his credit. His guarding was also worthy of special mention.

Putzier played the best game of his career against Burley. Time and again, his clever guarding kept the enemy out of the danger zone.

## KING DOES FINE WORK

King, at left forward, did fine work, and shot two dandy baskets. Scott made three field goals, two of which came in the first five minutes of play.

Nine fouls were called on the Twin Falls boys, while the Burley five had seven chalked against them. The summary:

Field Goal	O. G.	F. Pts.
Jenkins, Jr.	5	2 10
Canine, H.	7	0 14
Cuning, H.	0	0 0
Kathman, Jr.	0	0 0
Kathman, Jr.	0	0 0
Kathman, Jr.	0	0 0

Kathman, Jr.	0	0 0

## THE EVENING GAMES

The game between Filer and Twin Falls brought out a crowd that taxed the capacity of the gymnasium last evening.

These two teams had an odd score to settle, as each had won one game previously.

Twin Falls won the game last evening by the score of 19 to 15. It was a hard and fought-out game, but Twin Falls held the long time to come. With grim determination, both teams went to the middle of the floor.

## OAKLEY BEATS BURLEY FIVE

The second game of the evening, and the fourth of the day brought Oakley and Burley together, resulting in a victory for Oakley, 40 to 24.

This game, although lacking the spirit of Oakley's afternoon game was a hard and fought-out contest, but this team will be in the final game this evening.

## BROTHERS IN LIMELIGHT

Cliff Markhall at right forward, made five beautiful field goals, one of these being from beyond the center of the floor.

His brother, playing center, made seven field goals. Both boys are fast and accurate.

## EVANS PULLS ANOTHER

The second half started off with Twin Falls trying to put in a few more cones, but with Blackburn and Aman guarding like demons this style of play proved futile.

## BY ACTUAL COUNT, FOUR OUT OF EVERY FIVE HOMES IN TWIN FALLS RECEIVE THE NEWS, DAILY. TELL ALL THESE PEOPLE WHAT YOU HAVE TO SELL, TRADE OR EXCHANGE, ABOUT YOUR ROOMS FOR RENT, HOUSES FOR SALE OR RENT, THE POSITION YOU WANT, OR THE HELP YOU NEED—ONE CENT PER WORD—PHONE 32.

FATHER'S DEATH LEAVES FOUR CHILDREN ORPHANS

O. M. Towne, Buhl District Farmer, Dies Here After Short Illness

C. M. Towne, aged 28 years, a Buhl district farmer, died last midnight at a hospital here, where he had been a patient for only a short time.

Death of Mr. Towne leaves four little children orphans. Their mother died suddenly on the day of his death.

Lyle Doversy Succumbs to Pneumonia Attack at Pocatello Hospital

Word of the death of Pocatello last night of Lyle Doversy, son of Mr. and Mrs. Thomas Doversy, was received here this morning in a telegram from Pocatello.

Pneumonia was so immediate cause of death, which occurred at the general hospital in Pocatello where Doversy, about three weeks ago, underwent a minor surgical operation.

Condition Grows Serious. Early this week pneumonia developed and his condition was considered dangerous when W. L. Epler of Twin Falls, then paid him a visit at the hospital.

Smaller Cities Are Doing Well. Although Detroit has been severely hit owing to the unusual boom it experienced during the recent period of prosperity, other smaller cities with automobile industries are doing well.

Production of bituminous coal during 1921, by the way, was only 4,000,000 tons, or 27 per cent less than the previous year.

Iron Regions Are Still Dull. The iron and copper districts of the lake region are still very dull.

Local Brevities. Inspector on Stock List—Alex. W. Murray, Twin Falls military inspector, is today confined to his home by an attack of the flu.

Drunk Proves Expensive—Charles Miller, in police court this morning, was sentenced to pay a fine of \$20 on a charge of drunkenness proffered by city police, who last night took him in custody.

Mission Enlarges Scope—At a meeting held in the Twin Falls Mission Feb. 21, the mission was turned over to the hands of work by its members in Christ.

Prisoner Violently Ill—A. Ahrens, who was Thursday night arrested by the police as the suspected operator of an illicit still—accused at his residence on Second avenue south, was last night stricken by a violent attack of illness necessitating attendance of a physician.

Admitted to Citizenship—Soren Jens Jensen, a carpenter, resident of Twin Falls for several years, and a native-born citizen, was admitted to citizenship by the United States following a hearing in naturalization proceedings before Judge W. A. Babcock in district court here today.

Speculators Are Indicted—Chicago, Ill. (AP)—Indictment against Raymond J. Blushoff, the Chicago speculator who has invested lost thousands of dollars, and Charles Blushoff together with 21 others, were returned by the grand jury today.

ELECTORS LIST IS CHECKED FOR COMING BALLOT

City Officials Make Preparations for Special Elections for Submission of Proposed Government Changes

Lists of Twin Falls electors registered for the last city election were today being checked by City Clerk Paul R. Taylor and his assistant, Miss Anna Walkington, in preparation for special elections to be held here on proposals for change in the form of municipal administration.

Persons who registered for the last city election will not be required to register again for the special election, Mr. Taylor advised.

More than 2000 names are contained in the registration list for the last city election.

Qualification of adoption of the commission form of city government under provisions of the Blank law is to be submitted at the first of the special elections, which is to be held March 5 and 18.

Appointments to be Made. Appointment of judges and clerks to serve in this election is expected to be made by the council at its meeting next Monday evening.

On April 18, question of the adoption of the city manager plan of administration, which was advocated by

Wellesley Hills, Mass. (Special to The News)—Continuing in the report of his personal survey on business conditions, Roger W. Babson, famous economist, outlines his findings in the western central states following.

A year ago I found the worst conditions in these western central states, the section of the country lying between Buffalo, Pittsburgh and Atlanta on the east, Chicago and St. Louis on the west.

Detroit, Mich. and Akron, O., were then the center of the depression area. The storm center having moved west from New York on an earlier date, they, however, I find conditions in this section of the country much improved.

The worst is over. While definite improvement is not yet evident, business gradually but steadily is turning upward.

The best sections of the district as far as sales are concerned are found in the states supported by a diversity of interests. Ohio for instance is in very fair condition.

Smaller Cities Are Doing Well. Although Detroit has been severely hit owing to the unusual boom it experienced during the recent period of prosperity, other smaller cities with automobile industries are doing well.

Production of bituminous coal during 1921, by the way, was only 4,000,000 tons, or 27 per cent less than the previous year.

Iron Regions Are Still Dull. The iron and copper districts of the lake region are still very dull.

Local Brevities. Inspector on Stock List—Alex. W. Murray, Twin Falls military inspector, is today confined to his home by an attack of the flu.

Drunk Proves Expensive—Charles Miller, in police court this morning, was sentenced to pay a fine of \$20 on a charge of drunkenness proffered by city police, who last night took him in custody.

Temperature Finds Day's Level Under the Freezing Point

Temperature in the Twin Falls district held below the freezing point all day yesterday and there was a trace of precipitation, according to records of the government weather observer here, showing 31 degrees above zero for high and 17 below for low.

Preacher Gets Coat of Tar and Feathers. LAKE CHARLES, La. (AP)—A telephone message to the American Press this afternoon states that the Rev. W. E. Bennett was taken to the outskirts of Deridder this morning and tarred and feathered by masked men.

Necessary Governmental Power. When respect for law is not voluntarily it must be compulsory, else government fails in its purpose.
