Tornado Leaves Trail of Death Across South

Buildings Are Shattered, Towns Lev- eled, Forests Razed by Terrific Force of Twister

RAIN DOWNPOUR ADDS TO HORRORS OF THE STORM, FLOODING STREAMS

KANSAS CITY, Mo., (AP)—A known death toll of seven- teen lives was collected by tornadoes in the southwest last night. Ten persons were killed at the mining village of Gowen, Okla., near McAlester, six negroes lost their lives at Gethsemane, Ark., and one man was killed at Sul- phur, Okla. Scores of persons were injured and the usual destruction of property occurred.

The tornadoes were a part of a general rainstorm throughout the south from Illinois, Mo., on the Mississippi river to Amarillo in the Texas Panhandle. Sections of this great grain and stock raising area which have experienced an almost waterless winter, are now menaced by floods. Streams in Kansas are reported bank full. Four inches of rain fell at Fort Scott, Kansas and part of this city is inundated. The Weather Bureau at Topeka reported that the rate of six inches an hour. At Gowen, Okla., where the greatest loss of life occurred, the path of the twister avoided the business section of the town, but demolished about twenty homes. Red Cross relief work has already been started there.

OKLAHOMA TOWN IS IN TWISTER'S RANOR

McALESTER, Okla. (AP)—Nine persons were killed and a number seriously injured by a tornado that traveled a path through Owen, a small village 15 miles east of here last night, according to Dr. W. S. James of Edmond, who returned to his home today after assisting in relief work at the stricken town last night. Most of the dead and injured are Mexicans, Dr. James said. Many persons were slightly injured.

REHEARSED STAFF FOR STRIKE ZONE

WILBUNTON, Okla. (AP)—Nine persons were killed and 25 seriously injured by a tornado which struck Gowen, a village 15 miles west of here last night, according to advices received this morning.

A Mexican family and one woman are missing. A party of doctors and relief workers left here early today for the stricken village and supplies are being sent by the Red Cross. Twenty-five homes were reported destroyed.

TORNADO RIPS OFF END OF CITY

SULPHUR, Okla. (AP)—One man is dead and half a dozen other persons were 'in a hospital, seriously injured today as a result of a tornado which ripped through the west end of this city late yes- terday, wrecking about 50 build- ings, with property damage esti- mated at approximately \$100,000. Several of the injured were not expected to live.

Approximately 150 persons are home- less and are being cared for in inade- quate residences. The tornado leveled a path two blocks in width and more than half a mile long.

TEN ABB DEAD IN ARKANSAS NEIGHBORHOOD

FIVE BLUFF, Ark. (AP)—At least four white persons and six negroes were killed and several white persons injured in a tornado which passed through the northern part of this county early today.

The storm passed through north- eastern Jefferson and southeastern Lonoke counties about 3 p. m., leveling farm houses and build- ings, according to passengers ar- riving on a train from the storm section this morning. Wires in the storm area are down and details meagre.

The settlement of Gethsemane, near the Lonoke county line, was the scene of the worst damage. Bodies of six negroes had been found in the wreck- age there up to 3 a. m.

ENTIRE TOWN IS SWIFT AWAY

BAYON ROUGE, La. (AP)—Hurricane Ida, in West Baton Rouge parish, was practically obliterated this morning by a tornado. Two persons were killed, 10 injured, and a number of dwellings were demolished.

Secretary of Labor Davis and Miners' President Lewis Reach Agreement

WASHINGTON, D. C. (AP)—A general strike in the bituminous coal industry on or about April 1 is inevitable, Secretary of Labor Davis and John L. Lewis, president of the United Mine Workers of America, agreed today following a prolonged conference at which they discussed the situation growing out of the controversy between the miners and mine opera- tors.

Mr. Lewis declared later that the operators were forcing the strike "as a bold commercial ploy for which the public will pay." The miners' president reiterated today his statement that the unions were prepared to open negotia- tions looking to the formation of an agreement to take the place of that which expires next month.

FASCISTI OPEN REIGN OF TERROR OVER ITALY

Pistols, Knives and Clubs Are Used to Destroy Political Rivals in Communities

ROME, (AP)—Sanguinary encounters between fascist and socialist have been resumed with all their fer- vency, according to advices received in Rome today from various parts of Italy.

Five workmen were killed by bullets from fascist revolvers in villages sur- rounding Parma, following isolated encounters between the various factions. More than a score were injured, in- cluding two fascist.

Grup Modena the fascist attacked a group of socialists in a cafe, one socialist being killed and several seri- ously injured with heavy bullets.

Near Piacenza, a peasant was last- ed to death by the fascist and the secretary of a socialist club was killed near Reggio. Still another socialist was killed at Spezia.

Diablers in which many were wounded occurred near Bologna and Amana. Near Cremona the fascist at- tacked the royal guards and wounded two of them before they sought to quell a rioting fire to socialist headquar- ters.

MANY ARE HURT IN UTAH BLAST

OGDEN, Utah. (AP)—There has been an explosion at Lakeside, Utah, on the Southern Pacific and the injured brought to Ogden, ac- cording to information given out at the Southern Pacific offices here. Details are lacking. The Southern Pacific company has a large quarry near Lakeside from which it obtained material to re- pair the Ogden-Ducon trestle over Great Salt Lake. The injured were to arrive here at 4 o'clock this after- noon.

The streets were filled with the usual shopping crowds and the fashionable tea rooms and stores were all doing business. Government forces have captured Drakpan, entering the town yesterday afternoon. Drakpan is a coal mining center, 25 miles east of Johannesburg, and has been a revolutionary stronghold. A Capetown dispatch last night stated that Major General Van Deventer was marching on Drakpan after having cap- tured Benoni.

ADMITS TWELVE BRIDES

Bigamist Arrested on Eve of Wedding in Minneapolis Makes Startling Confession to Police

HOOSIER WIFE MAKES EMBEZZLEMENT CHARGE

Wholesale Marriages Came So Fast All the Names of Victims Are Not Remembered by Man

INDIANAPOLIS, Ind., (AP)—

Isiah Moore's twelfth marriage was to have taken place in Min- neapolis today, according to local authorities who arrested the man yesterday on a charge of bigamy and embezzlement.

CHABOS IS PREFERRED BY LATEST VICTIM

The embezzlement charge was pro- vided by the late wife, Harriet Evans, a Hoosier school teacher and his eleventh bride. He is said to have embez- zled \$100 from her after they had been married less than a week. As Miss Evans' husband he was "George Mel- rose."

FORGETS SOME BRIDES' NAMES

Moore told the police he had forgot- ten the last name of two of the eleven girls he said he married. However, he did make up his list of matrimonial partners.

Elena Dolf of Wyoming, Pa., married 13 years ago. One child. Anna, West of Detroit, Mich., married at Windsor, Canada, under the name of Harry Moore.

Sue Harris of Houns, Ia., whom he married under the name of Harry Mel- vin.

MARRIED BESSIE IN WILSON, N. C.

Bessie (he did not remember her last name) of Wilson, N. C., whom he married under the name of George Shields.

A woman whose given name was Gertrude, but whose last name he is said to have told the police he could not remember, of Findlay, O. He gave his name as Howard Wilson on that occasion.

Laura Shields, whom he married at Spokane, Wash. Florence Johnson of David, Neb., whom he married under the name of J. H. Vaughan.

Irene Hardegraves at Augusta, Kan. He up to this time it is alleged that he carried his brides in person and de- parted each within a few weeks.

USES BUREAU TO FIND CHICAGO WITNESS

As "Howard Wilson," Moore is said to have married Irene Hall, three years ago in Chicago. He met her through a marriage bureau in a south- ern state, he said. He deserted her, taking with him \$1500, it is alleged.

In June of last year he is said to have married Laura Hardegraves at Topeka, Kan., and the name of George Churchill. His last matrimonial ven- ture was that with Miss Evans of Vin- cennes, Ind. Moore is 32 years old.

MAN IS WANTED ON CHARGE

DAVID CITY, Neb. (AP)—Florence Johnson of David City, Neb., who mar- ried James E. Vaughan, alias Isiah Moore, obtained a divorce from him February last, according to Ike West, sheriff of Butler county. "I've been looking for him for some time on a charge of issuing a fraudulent check," he said, but I guess it is no use," said Sheriff West upon being advised of his arrest at Indianapolis upon a charge of bigamy and embezzlement.

ANOTHER VICTIM IS AGAIN MARRIED

WILSON CITY, N. C. (AP)—Mrs. Bessie Whitson, a young widow of this city, but I guess it is no use," said Sheriff West upon being advised of his arrest at Indianapolis upon a charge of bigamy and embezzlement.

URGE APPROVAL 4-POWER PACT

Lenroot Tells Senate President May Withdraw Treaties if Vote is Unfavorable

WASHINGTON, D. C. (AP)—In its first roll call on any item of the four-power treaty fight the senate rejected today the amend- ment of Senator Robinson designed to widen the benefits of the treaty to non-signatory nations who in- terest in it is required.

The amendment was defeated 65 to 30. Four republicans, Borah, Frank- linton, Johnson and LaFollette opposed the amendment and four democrats, Pom- eroy, Randall, Underwood and Wil- liams voted in the negative.

WASHINGTON, D. C. (AP)—Sup- porters of the four-power pact treaty again took the offensive when the senate resumed debate on the pact today under an agree- ment to vote late this afternoon on the first of the proposed amend- ments.

DENY TREATY ENTANGLEMENTS

Senator McCumber of North Da- kota as a Lenroot of Wisconsin, both republicans, led off for the ratifica- tion advocates, urging the treaty as a long step toward international un- derstanding and denying that it embol- densed dangerous entanglements. On the opposing side Senator Walsh, democrat, Montana, was given right of way for a legal argument attacking the treaty obligations.

Senator Lenroot suggested that if ratification of this treaty failed, Pres- ident Harding might consider, with- drawing the others produced by the conference and asking for a popular verdict on the whole subject at the November election.

KEYS TREATY TO RISK TO SITUATION

Senator McCumber also declared the four-power arrangement was the key to the whole program. He asked what had become of the republi- can campaign pledge of 1920 for an "association of nations" embracing the entire world in its scope.

Although not regarded by the lead- ers as a test vote with direct bearing on the question of ratification, the roll call to be taken at 4 p. m. today was expected to show for the first time the attitude of minds of various senators who have not previously taken an ac- tive part in the treaty fight.

"The amendment to be acted on was offered by Senator Robinson, democrat, Arkansas. It proposes participation of non-signatory nations in the benefits and conferences" of the treaty in- volving their interests. Senator Lenroot's suggestion that withdrawal of the other treaties might be considered should the four-power pact fail, was made in connection with a long prepared reply to charges that the proposed agreement would bind the United States to use force. Not only was such an inference wholly un- warranted, he said but the treaty con- stituted such an important peace step that its failure "may mean failure of all the treaties."

BIG BILL PUTS OVER SCHEME FOR WOBBLES

6,000 Members I. W. W. Will Go From America to Operate Concession Under Their Fugitive Leader

MOSCOW, (AP)—William D. "Big Bill" Haywood heads a group of American I. W. W. men to whom Premier Lenin has granted a concession to operate the big Kuznetsky iron works in the Ural mountain region east of the coal mines in the Kuznets basin and auxiliary factories.

HAYWOOD IS FUGITIVE FROM JUSTICE

(Haywood disappeared from the United States last year while under a \$62,000 bail after he had about 20 other I. W. W. men had been convicted of espionage and conspiracy against the government in the war. He has since taken some part in the delibera- tions of the third internationale at Moscow.)

TO BE OPERATED BY AMERICANS

It is stipulated that 4800 American workers with a technical personnel shall be brought into Russia to operate the plant. Each must bring with him \$100 worth of goods and agree to observe the soviet labor code.

6000 AMERICANS TO LEAVE FOR RUSSIA

NEW YORK, (AP)—H. B. Calver, one of the men associated with Wil- liam D. Haywood in obtaining a con- cession to operate an iron works and coal mines in Russia, said that a party of engineers and technicians will soon leave for Russia to prepare the way for six thousand American workmen. Calver, like the other concessionar- ies, is a member of the I. W. W. and was formerly a foreman in the Ford automobile plant in Detroit.

DIAL PLOT THROUGH BY WOBBLE

The others in the group of concession- aries, Calver said, are Thomas Barker and D. Bayer, who are well known in Russian with Haywood, and C. J. Rutgers, a native of Holland, who have been identified with the I. W. W. movement in the United States.

GOVERNMENT IS TO RECEIVE PAID

Under the terms of the concession, Calver declared the soviet govern- ment will collect a revenue of 7 per cent from the properties and reserves the right to command approximately 50 per cent of the colony's output of coal, iron, and machine products, for which it agrees to give the workers credits with which they can purchase other supplies. The remainder, he said is to be left to the workmen to dispose of as they see fit.

The Kuznetsky iron works are about 1500 miles east of Moscow and the Kuznets basin is about 3000 miles east of Moscow in the Tomsk district of western Siberia.

GOLDEN RULE IS BUSINESS AXIOM OF ASSOCIATION

Business Men's Christian Unity Has Immense Following With Steady Growth in Various Cities of Country

KANSAS CITY, Mo., (AP) — With the object to practice "the Golden Rule in all commercial relations between ourselves and all men," the Business Men's Christian Unity is organizing on a national scale, and now has branches in nearly 20 large cities.

With no dues or assessments, and the bond of membership the acceptance of a business creed that we are banded together to help one another in all ways, but especially to realize that God is the source of all our prosperity and that we must, in the end, all demonstrate his laws in our affairs," the scope of the association is declared to be "the commercial relations of the whole world."

"Loving service shall be the keynote of our commercial ambition, rather than personal gain," says the preamble of the organization, which has associations in New York, Chicago, Philadelphia, Baltimore, Washington, St. Louis, Spokane, Lincoln, Neb.; Tulsa and Pawlana, Okla.; Omaha, Sioux City, Seattle, Los Angeles, Oakland, Denver and Kansas City. Others are forming.

MOVEMENT NOW NATION-WIDE.

Conceived as an organization of Christian business men in one city, the idea sponsored by the original association spread to other cities, until now the movement has become nation-wide, and is being organized on an extensive scale.

The declarations adopted by the Kansas City association, which are similar to those used in other cities, follow:

"The object of this association shall be to practice the Golden Rule in business. God's fundamental laws, demonstrated and taught by Jesus Christ shall be the foundation and rule of action of this association.

"The primal aim and object shall be to search out and apply the laws of God in all commercial relations between ourselves and all men.

"The scope of this association shall be the commercial relations of the whole world, to the end that uniform prosperity, efficiency, equity, honesty, justice, and fair dealing shall be established everywhere and in every relation of life.

"Loving service shall be the keynote of our commercial ambition, rather than personal gain.

"We are banded together to help one another in all ways, but especially to realize that God is the source of all our prosperity and that we must, in the end, all demonstrate his laws in our affairs.

GOLDEN RULE IS FUNDAMENTAL.

"All members agree to make the Golden Rule: 'Do unto others as you would have them do unto you,' fundamental in their relations with one another, and with all people.

"The teaching of Jesus, as given in the New Testament, and as revealed by the Spirit of Truth, promulgated by Jesus, when he, the Spirit of Truth, is come, he shall guide you into all the truth, shall be our guiding light.

"In all meetings of this association a chair shall be reserved for Jesus Christ. The unseen guest, whom we acknowledge to be the directive head of our work.

"In all cases where the rule of action is in doubt, the matter shall be submitted in prayer to the Holy Spirit with the central thought, 'What would Jesus do?'

Florida Mayor Likes Modern Styles

Pretty girls will not be forced to wear foolish and unnecessary frills in their bathing suits if Mayor Frank Fortuna Pulver of St. Petersburg, Fla., has anything to do with styles. With the party league in Florida's advocating the abolition of the one-piece bathing suit and the adoption of more demure costumes, Pulver has announced that fair damsel vacationists in his

city may choose their own styles. His edict made him popular and here he is shown with a boy of pretty bathers. In the rear are Dorothy MacLachy, Montreal, and Margaret Collyer, Atlanta. In front are Pauline Bahner, Chicago; Mary Origny, San Francisco; Mayor Pulver, St. Petersburg; May Bahner, Chicago, and Mary Bullard, Cleveland. Four of the girls serve as lifeguards.

PRIZES OFFERED TO HELP ANIMALS

American Humane Association Encourages Consideration of Dumb Friends

ALBANY, N. Y., (AP)—Anyone willing to champion animals or humans against cruelty and neglect may compete for prizes in a poster, essay and cartoon contest to be conducted by the American Humane association. The contest will close May 20, William O. Stillman of this city, president, announced. Cash prizes totalling \$412, will be awarded for various groups, to include the young of the dog group. For example, there will be a cartoon group for persons born before May 20, 1903, and another for persons born after May 19, 1903. Poster groups cover the various school grades, with a group for art students and any persons not included in the other groups.

Special prizes for posters and essays are offered to pupils in Indian schools.

KINDNESS MUST BE RECORDED.

Posters should illustrate "the idea of kindness to animals or humans by acts of abuse or cruelties that should be stopped." A poster which was a winner last year in a similar contest shows a girl kneeling to gather a tiny dog into her arms, and apparently reproving three small boys who stand beside her. A can hangs from the dog's docket tail. In another winning poster a fox, silhouetted against the moon, lifts a forefoot clutched by the jaws of a trap. Subjects suggested this year include: Child labor; juvenile courts; overworked; overloaded, improperly shod and unthinker animals; over-revolving animals and poultry; inhuman slaughter methods; humane Christmas cards.

Prizes are offered for both published and unpublished cartoons bearing the words, "Be Kind to Animals."

Too Bad!

Little Helen, aged six, was taken to her first tooth-pulling game. She was quite excited when her father cheered some particular play and waved his arms. Helen followed suit. At the critical stage, in the eighth inning, the batter got to first and then swung for second, which he managed to reach just in time by a perfect slide. Helen was quite distressed and turning to her mother she said: "Oh, mama, what a pity! The poor man slipped."—Horton Transcriber.

ORCHARDISTS DECIDE ON PURCHASE OF MATERIALS

Group Discusses of Fruit Growing Methods with Action on Sprays

Members of the Twin Falls County Horticultural society, at an adjourned meeting in Parish hall Saturday afternoon, coupled discussion of field mice and insect pests damage to orchards with definite decision to purchase through the association a quantity of lime sulphate and arsenate of lead spray for use by its members this season.

Proposals of several dealers for supplying the spray material were submitted through a committee previously appointed and composed of George F. Sprague, Joe Day and C. Fahrney. The bid of the Diamond Hardware company was accepted. It was recommended that members place their orders for spray as early as possible in order to insure delivery of a sufficient quantity to meet this season's requirements.

During discussion of the damage wrought in orchards by field mice, J. A. Waters, district inspector, advised that trees that had been partially girdled by the rodents might be saved by application of a thin mixture of soil and water while new bark formed to replace that which had been gnawed away. In cases where the tree had been entirely girdled he said bridge grafting had been employed successfully. It was brought out in the discussion that orchardists who had made early use of the poison recommended by horticultural societies had suffered negligible loss from insects of mice.

Application of five sprayings or arsenate of lead instead of two or three during the season was strongly urged by a number of successful growers.

Another interesting discussion had to do with the necessity for "thinning" the orchard crop. Preservation of "tree strength" and production of the best fruit can be obtained in no other way, it was asserted. It was shown that about three-quarters of the "production burden" imposed upon the tree is devoted to the production of seeds in the fruit, while the production of pulp, skin, etc., represents only about one-quarter of the burden. Reduction of this burden by thinning, it was asserted, tends to make the fruit that is retained much more valuable and leaves the tree in a stronger and more healthy condition for the production of the next season's crop.

WHEAT EXPORTS BREAK RECORDS

Volume Greater Than That of Any Other Farm Commodity in History

WASHINGTON, D. C., (AP)—Wheat was king of American agricultural exports in 1921.

An analysis of the 1921 exports of 32 of the principal agricultural products grown in the United States, made public today by the department of agriculture, shows that more wheat was exported during last year than in any preceding year in the history of the country and that for the first time the export value of wheat and wheat flour exceeded the value of cotton exports.

CORN SHIPMENTS ARE HEAVIEST IN YEARS.

Exports of corn in 1921, including corn meal converted into terms of corn, were larger than in any year since 1900. Since 1910 the United States has become an exporter of rice, the exports of 600,000,000 pounds in 1921 being more than 23 times the average annual rice exports in the five-year period, 1910 to 1914.

EXPORTS SHOWN IN DOLLARS.

The principal agricultural exports during 1921 and their declared values were:

Wheat and wheat flour, \$551,000,000; cotton, \$234,000,000; pork and pork products including lard \$246,000,000; leaf tobacco, \$205,000,000; corn and corn meal \$97,000,000; cigars \$49,000,000; rye \$44,000,000; condensed and evaporated milk \$38,000,000; cotton seed oil \$24,000,000; rice \$21,000,000, and barley \$21,000,000.

SQUART "HOOGH" INTO MOUTH OF CUSTOMERS

Syringe by Bootleggers Prevents Police Carrying Out Visible Evidence

NEWARK, N. J., (AP)—Local cafe owners have devised a new difficulty for enforcement officers, Deputy Police Chief McNeil said today. Here's the way the scheme is worked at Newark bars.

A thirsty one enters. The man behind the apron appraises him and decides he needs what he wants. The thirsty one is told to stand close to the bar, hold his hands at his sides, throw back his head and open his mouth. Then the desired liquor is squirted down the waiting throat with a syringe.

"Now there's only one way for a policeman to take evidence out with him," complained Deputy McNeil. "We've got to figure out a scheme to beat this new dodge."

Grab Gets Decision Over Gibbons Because He Used Two Hands in His Attacks

NEW YORK, (AP) — Harry Grab, a young man from Pittsburgh, was today bearing his blushing honors after a coming out affair at Madison Square Garden last night. Thomas Gibbons of St. Paul, a handsome youth, attempted to interfere with the success of Mr. Grab's debut in metropolitan society, but he merely showed how the Pittsburgh man can perform before a large and select company.

The two men, light-heavyweight pugilists by profession, were billed in advance as staging their meeting as a prize for the better man entering into active relations with William Harney Dempsey, row champion mauler of the universe. After last night's social affair, attended by the flower of this city's smart set, there was not much talk of either man being sent into the ring to give Mr. Dempsey a roman holiday. Not in a month was a crowd of more than 10,000 men, women and boys social promiscuously watching two athletes swing gloves at each other. The garden was simply a mass of official leaders, bankers and policemen and a list of those present would read like the social register.

Mr. Grab was acclaimed the winner because he used both hands in wind-up attack, while Mr. Gibbons depended upon fists for his points. Grab was wild, but he swung more often and the percentage of landing a blow now and then was all in his favor. Gibbons landed at times, but the most of the time he was having trouble in avoiding the tornado of gloves hurled toward his marcelled head. He never got a chance to launch his attack to the body, his best stroke in trade, and on the showing made Grab was without question the headliner for the evening.

LOS ANGELES TO GO AFTER OLYMPIC GAMES

Weaver Takes Heart When Told French Government Has Not Raised Funds

LOS ANGELES, Cal., (AP) — Los Angeles again will go after the 1924 Olympic games, providing the Olympic committee and the French government do not reach an agreement for staging the event in Paris. Robert S. Weaver, former president of the Amateur Athletic association, and now president of the Southern Pacific branch of the association, said when asked by an Associated Press dispatch that the French capital had devoted only 1,000,000 francs instead of the requested 10,000,000 francs to defray expenses.

"It would cost about \$1,500,000 to hold the games in Los Angeles," Mr. Weaver said. "The municipal authority will be finished in a year and a half, and I am confident that the country would raise the money needed to bring the foreign athletes and our own athletes here and to care for them."

Twilight Follies Expoted to Help Fix Up Old Park for Sunday Games

The Twilight Follies will be on the boards this evening, in an effort to arouse interest in baseball for the coming season.

A Twilight league, composed of four clubs with a mogul at the head, supervising the different players, would be the ticket. A mogul has been picked, and now it is up to the fans as to what they are willing to do.

It is a certainty that Twin Falls plays Sunday baseball, and the writer is in receipt of a letter from Kimberly stating that they will have a Sunday team in the field, and want to know what Twin Falls is going to do. They suggest that a four-team league be composed of Twin Falls, Flyer, Bull and Redwings, and in that order. Flyer will not have a team to invite Jerome in. Is this what the fans want or do they want outside teams, such as Boise, Caldwell, Nampa, etc.?

Of course, the Sunday games would have nothing to do with the local Twilight league, which would stage the regular games twice a week at the stadium.

The purpose of the Twilight Follies is to get enough funds together so that the old ball park could be fixed up, and Twin Falls claim a park of their own. The people behind the Follies have worked hard to make it a success, and they thought there would be enough money realized to finance the building of a new grandstand, fence, and fixing up of the diamond.

It has been suggested that 200 season tickets be put on the market, to be sold at \$5 apiece, which would give the holder the seat approximately 37 games. This would bring the cost per game down to a fraction under fifteen cents for each game.

With \$1000 from the sale of these season tickets, utilized for the completion of the ball park, the ball players of this city could at least have a few grounds, and when a big game was to be played they wouldn't have to go to a neighboring city to play it.

TROUT ARE TAKING FLY IN ALL CLEAR WATERS

Ginger Quill, Gray Hackles and Red and Special Most Killing; Spinner Good

Melting days, bright sunshine and an accumulation of ambition have kindled the spirit of conquest in the bosoms of Twin Falls fishermen.

During the past three days all roads have been trilled by anglers, with more or less result.

"Reports to date" show no heavy catches, although there have been a few of the big fellows taken from the spring waters as they gurgle into the fish-colored waters of the Snake. These have, largely, been taken with a fly, but the spinner devices have not gone unrewarded for their hardihood and energy.

The men with a can of worms has not been busy thus far, as the ground has been frozen, and his favorite lure has been hidden beneath the frost line. He is hopeful today, however, and no doubt he along his favorite stream the work is cut away and sent adrift.

At Clear Lakes quite a few small trout have been taken on the fly, the preference being for the Wilson Red Ant. At Thousand Springs best results have been with a spinner and Salmon fly, although there have been some small ones taken with the gray fish-bait.

Fly casting on these waters has been productive of heavy baskets, the trout working largely on the small, but here it was nearly that he killed and night. The nights have been his first but when he was 17 years of age, when trout working largely on the small, but here it was nearly that he killed and night. HISTORIC HOME GOING TO RUIN FROM NEGLECT

Stone House in Pennsylvania where Daniel Boone was Born Now Tenantless and Deserted with Land Untilled

READING, Pa., (AP) — Deteriorated by the elements it has withstood for 103 years, the stone house in the foothills of Exeter township, Berks county, where Daniel Boone, the Kentucky pioneer, was born is slowly falling to ruin from lack of care. Until two years ago the house had been tenanted and the necessary repairs made, but now it is deserted, the cellar full of water, windows broken, floors decaying and the 160 acres of estate are uncared for.

The farm is situated about one and a half miles from Stonersville. The lane leading to the premises is marked by a large white rock placed by the Historical Society of Berks county, on which is the inscription: "One quarter mile to the birthplace of Daniel Boone, October 22, 1733."

In this connection it may be said that some authorities give the date of his birth as 1734 and 1735, and his parents, although there have been some births, Bucks county, Pennsylvania, taken with the gray fish-bait.

According to history Boone stayed here until he was 17 years of age, when he went to Kentucky. Tradition has it that it was nearly that he killed and night. The nights have been his first but when he was 17 years of age, when trout working largely on the small, but here it was nearly that he killed and night.

to the original in every respect was made after the family migrated. One of the original rooms contains a large fireplace made of stones and still in good condition. Here it was on the mantle piece, according to tradition, that young Boone carved a notch indicating his height when he went to Kentucky, and upon his return in middle age was interested to see how much he had grown. However, the historic notch cannot be discovered on the mantle piece.

The shutters and doors of the dwelling are hung on wrought iron hinges and still are in good condition, but many of the windows are broken, permitting rain and snow to enter and causing the floor to decay.

Efforts have been made to have the state purchase the house where the pioneer was born, and still more recently, there have been reports that the Historical Society of Clark county, Ky., has interested itself in the possible purchase of the farm for historical purposes. The farm is valued at \$15,000, according to late estimates.

"The Sister of Shakespeare." Joanna Hallie (1702-1851) was conferred with the title of the "Sister of Shakespeare." She was a distinguished British poet and dramatist, and was given this title because of the remarkable insight into human nature manifested in her plays, several of which were acted by Keen, Kemble and Mrs. Siddons. Among her more famous dramas may be mentioned "The Family Legend," "De Montfort" and "Hassil."

Neon's Peculiar Property. Neon, one of the rarest elements of the air, has the peculiar characteristic of glowing bright red when an electric current passes through it, says Popular Mechanics Magazine. This has been utilized in a new spark plug tester, consisting of a hard rubber shell that contains a small glass tube of neon. When the metal cap, carrying the plug, touches a spark plug, the action of the neon quickly shows whether the plug is working or not.

LOGALS TREK TO RUPERT

Second Games in Billiard Tournament are Scheduled for This Evening

The second session of the inter-city three cushion billiard tournament will be held at Rupert tomorrow evening, when Eppler, Mattison and Goldwater journey to that city. The first set was to the best of three, Goldwater and Eppler winning their games, while Mattison lost a close affair to Turner.

Three games will be played tomorrow with Mattison and Ansell in the opener, Eppler and Edmunds playing the second, and Goldwater and Turner mixing it in the third event.

The following Wednesday evening the Rupert stars will play the final three games at Masonry and the management has promised that seats will be erected so as to give all the fans a chance to sit down while watching the contests.

The winner of the Twin Falls-Rupert clash will issue a challenge to the winners of the angle game at Boise, and all possibility another inter-city series will be arranged.

A large crowd of billiard fans are leaving on the 6 o'clock train tomorrow evening for Rupert to take in the games.

WILL HOLD TOURNAMENT

SALT LAKE CITY, (AP) — The inter-territory high school basketball championship is to be decided in a three day tournament scheduled to begin here Thursday night. The high school teams which will participate in the round robin event are Lehi, Greely, Missoula and Weston, respective champions of Utah, Colorado, Montana and Idaho. The tournament is to be held under the auspices of the Utah High School Athletic association and the teams were invited to participate.

BEARSKINS IN SUMMER

The Turkish panseriny in Asia Minor believe in keeping out the heat as well as the cold, and it is not uncommon to see in many parts of the country people wearing huge bearskin coats in the midst of summer, with the thermometer standing at 100 degrees.

THE PNEUMONIA MONTH

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold no matter how slight is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a great disease and occurs in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures colds but prevents the resulting pneumonia. It is pleasant to take. Children take it willingly.—adv.

Husband of Diva Matzenauer Escapes from Gotham to Find Freedom in Streets of San Francisco

SAN FRANCISCO, (P) — Margaret Matzenauer, famous diva, apparently has lost her chauffeur husband, whom she termed "100 per cent."

FINDS ROMANCE AT THE WHEEL

A year ago he took Miss Matzenauer out for a drive for hire. She sat on the front seat with him; better to enjoy the scenery.

The San Francisco Examiner today gives Glotzbach's reasons for leaving his bride in New York.

LIFE OF LUXURY IS TOO HARD

It would seem Glotzbach was forced to let another man drive his wife's automobile.

"It would drive any man crazy to sit back among the cushions and squirm everytime he felt the backseat of the transmission, when all is needed is a real mechanician," the reporter quotes.

Neither did Glotzbach enjoy breakfasts in bed. Nor did sitting up night after night through the mad scene of Lucia appeal to an art connoisseur to hum of a smooth running motor.

ESCAPES WHEN BRIDE IS NOT LOOKING

The reporter says Glotzbach told him there had been no friction; that the chauffeur husband just "recapit" when his bride was not looking; that he will not go back.

Madame Matzenauer, it is said, wants for husband a "lick." There is talk of compromise from New York, but unhitherto, says Glotzbach.

After this marriage Matzenauer will her first marriage, to Ferrari Fontana, failed because of the artist's temperament.

"Glotzbach, a six-foot westerner, comments: 'Orchids will thrive in hot houses, but wild mustard needs the California sun.'"

13 COMPANIES ASK FOR WATER

Corporations to be Included in Proposed District Are Listed

In addition to the Twin Falls Canal company just 12 other canal companies of the Snake river valley will be included in the proposed Snake River irrigation improvement district to be formed for the purpose of building the American Falls reservoir, according to information made public today through reclamation service offices.

Under the irrigation system of the other companies have a combined area of 297,000 acres as compared with 200,000 under the Twin Falls canal system, and all of the lands under the other companies' systems are under cultivation.

AVERAGE REQUIREMENT IS 51 ACRE FEET

The average amount of water required from the American Falls reservoir by all of the companies listed for inclusion in the proposed district is .61 acre feet for each acre, or a total of 216,750 acre feet.

The list of canal companies proposing to enter the district with the acre of land in each project and the acre feet of water required by each, is as follows:

TODAY'S MARKETS

WHEAT SWAYS RESPONSE TO DEMAND FROM EUROPE

Buying From Strong Commission Houses Restores Early Losses in Market of the Day

CHICAGO, (P)—Buying on the part of strong commission houses lifted the price of wheat a little today during the early trading, although the beginning of business was at a material decline.

Subsequently, reports that 2,000,000 bushels of Canadian wheat had been taken for Europe gave the market an additional upturn. Prices closed unaltered, at the same as yesterday's final.

The market kept within a narrow range in the later dealings. Prices closed firm, 1-4 to 1-2 net higher with May 61 1-8 to 61 1-4.

Oats started 1-8 to 3-8 down, May 38 to 38 1-8, and then more than recovered.

Provisions were lower in line with the hog market.

Chicago Produce. CHICAGO, (P)—Dotted — Higher, creamery extras 38 1/2; firsts 33 1-2 to 37 1-2; seconds 31 to 32 1-2; standards 37 1-2.

Eggs—Receipts 16,000 cases; firsts 21 3/4 to 22; ordinary firsts 19 to 20; miscellaneous 21 to 21 1/2.

Potato Market. CHICAGO, (P)—Potatoes weak; receipts 45 cars; total U. S. shipments 805 cars; Wisconsin sacked Round Whites \$1.65 to 1.80; Minnesota sacked Round Whites \$1.60 to 1.75 cwt.; Minnesota sacked Red Rivers \$1.50 to 1.65 cwt.; Idaho sacked

Round Whites and Hussets \$1.75 to 1.80. Omaha Livestock

OMAHA, Neb., (P)—Hog — Receipts 12,000; heavy July 25c lower; 180 to 225 pound butchers \$9.65 to 9.75; top \$9.85; bulk 220 to 235 pound butchers \$9.40 to 9.65; packing grades \$7.75 to 8.20.

Cattle — Receipts 11,500; beef steers mostly 25c lower; she-stock, 15 to 25c lower; bulls and veals weak to 25c lower; steers and feeders about 10 to 15c lower.

Sheep — Receipts 8,500; lambs slow, July 25c lower; early sales \$14.00 to 14.75; some held higher; sheep and feeders steady, over, top \$9.

Chicago Livestock. CHICAGO, (P)—Cattle — Receipts 15,000; very slow undertone, weak to lower on all classes; few early sales beef steers and fat she-stock 15 to 25c lower; bulk beef steers of quality to sell \$7.40 to 8.25.

Hogs—Receipts 23,000; slow, mostly 25c lower than yesterday's average; top \$10.70 early; practical limit \$10.65; bulk \$10 to 10.20; pigs mostly 25c lower; bulk desirable 100 to 120 pounders \$9 to 9.35.

Sheep—Receipts 16,000; fat lambs opening week to lower; fat sheep 25 to 30c higher; shearing lambs steady; choice lambs \$12.75 to 15.50; fat woolled lambs sold early; needed area, top early \$9.75; good 120 pound shorn ewes \$7.50; shearing lambs to yard traders \$14.20.

New York Stock Market. The upward movement in selected or special issues was continued at the opening of today's stock market, traders paying no attention to further uncertainty abroad.

Many of the representative rails and industrials were unquoted in the initial dealings. Such miscellaneous issues as Remington Typewriter common and second preferred, Kelsey Wheel, Public Service of New Jersey, United Railways preferred and Republic Steel were among the active and strong stocks.

New York Stocks. NEW YORK, (P)—The activity of high grade transportation issues at substantial advances was the feature of today's market, but professional dealings, trading in speculative stocks was again very extensive.

Comprehensive buying of investment rails, notably the leading Pacifics and gaggers at gains of 1 to almost 2 points, marked the later dealings. The closing was strong.

PLAN TO BUILD RESERVOIR WINS AT CASTLEFORD

Vote Shows 30 Land Owners In Favor of One Against Proposal for Financing American Falls Project

Out of 31 Twin Falls Canal company stockholders voting at a meeting Monday afternoon at Castleford, only one cast his individual ballot in opposition to the proposal that lands under the Twin Falls canal system should be included in the Snake River Irrigation Improvement district to be formed for the purpose of building the American Falls reservoir. Thirty of the 31 ballots declared for the plan.

STOCK VOTE OVBREWHELMING.
On a basis of canal company stock represented in the poll, 5000 shares were in favor of the district plan, and 380 against it.

Speakers at the meeting which was one of a series of meetings to be held in this county this week for submission of the plan, included F. A. Banks, reclamation service engineer, and Senator L. L. Evans of American Falls. G. F. Thomas presided as chairman of the meeting.

Speakers were called upon to answer numerous questions as to various phases of the plan.

DAVIS TELLS OF CONVERSION.

E. G. Davis, who was secretary of the meeting, told the assembly that he had attended the initial meeting of the series held Saturday in Boise, that he had made up his mind in opposition to the plan proposed but that he had been convinced of the desirability and necessity for the plan and that he was now heartily in favor of it.

Several persons who voted in favor of the plan asked for ballots to be used by neighbors who were unable to attend the meeting Monday.

The third meeting of the series was to be held this afternoon at Ellier, with H. J. Weaver as chairman. The schedule provides for meetings Thursday at Hatlen, Friday at Murtaugh and Saturday at Twin Falls.

Wage Reduction to Come Only as Last Resort, Directors Decide, and Vocational Training May Suffer

BOISE, Idaho—P. J. Zimmerman, superintendent of Boise schools, told members of the board of education Monday night he would favor a cut in vocational training rather than in teachers' salaries. His recommendation came midway of an intensive series of deliberations regarding necessity for cuts in the school budget for the ensuing year, and was substantiated by the decision of the board to make cuts in Boise city school teachers salaries only as a last resort. None of the members voiced any favor to salary cuts, at the Monday night meeting.

Can-Send Checks by Wireless.
Through the invention of a Frenchman named Pellin it is now possible to transmit documents or checks by wireless. In future, not only will there be no impossibility in regard to the transmission of legal documents, autographs and manuscripts, but the very authenticity of messages will acquire fresh guarantees by their auto-graphed transmission.

This Store Is the Very Center of Attraction Now

It naturally should be, of course, when every woman is in quest of style information, which will enable her to select what Spring apparel she needs with an absolute assurance of correctness. Correctness of style, correctness of quality, correctness of price and correctness as to individuality.

Distinctive Suits—
Boxey, flared suit coats with bright linings, some are finished dresses with blouse of silk and either coat or cape to match. Then there's the tailored suit for the tailored woman, and then the sport suits that the woman of today demands for street- and outing wear. They are in tweeds, homespun—some in checked skirts with plain coats—very attractive and another beauty—they don't cost so much money either.

Fascinating Hats—
Fascinating is the word and it applies to the street hats, tailored hats, dress hats and sport hats—all of which can be had here in vast assortments. Here you can have expert attention and have the correct shape and shade made to fit your particular taste and get just the hat that you should have.

Correct Shoes—
Perhaps nowhere outside of the large cities could you find a more complete stock of what is new in shoes. Many novelties are shown for spring. Suedes, satins and leathers, some fancy, some plain, the new toes, the new heels. When you spend your good money you expect to get the newest, the best, that's what you get here—and an expert fitting.

New Spring Ginghams, Organdies, Silks and Trimmings.
It's really surprising how attractively dressed a woman can be with a small outlay of money this season. With such pretty fabrics in tissues, organdies and silks at the new prices, every woman should look her best this spring. Let us help you select. With Delfor Patterns its easy to make your own clothes now.

Our Ever-Changing Weight.
Weighed in a delicate scale, it would be found that your weight is a very fickle quality. If the scales are delicate enough it would be seen that the mere act of stepping from the platform and back entails a loss of weight. The "flitting" of an eyelid means an expenditure of energy and a consequent loss of weight.

THE ELECTION

On Tuesday, March 28, the people of Twin Falls will be called upon to vote Yes or No to the question as to whether the City is to be ruled by a Mayor and four councilmen or a Mayor and four commissioners.

Should twenty-five men vote in favor of the question and twenty-four against, Commissioners it is; a simple majority is all that is necessary and, obviously, if one side goes into the election game, as a business and the other elects to take it out in merely voting.

But that isn't half of it. If the "Yes" entry the day, it will be up to the candidates to get busy with petitions for nomination. Twenty-five signatures or more are required, which secured, the man with the petition becomes a sort of primary candidate for a Commissioner.

That the inexpensive little proposition of "the election", is multiplied by three for the benefit of the Ninety and Nine at the bidding of the One. But the joys of a Commission Plan election are but a foretaste to the possibilities of this opened up through the actual adoption of the plan.

Different sets of petitions under this feature of the Commission Plan might be kept in constant circulation if some one could be found willing to take sufficient interest in the matter to look after the details a little.

It's all very interesting, added to which it helps to advertise the town—after a fashion.

CANNOT GIVE IT UP

The obstinacy with which some President cling to their idea of pooling international debts or otherwise unloading the cost of the war upon the world at large, including of course, the United States as the chief burden bearer, is equaled only by their ferocity of imagination in proposing schemes for doing it.

The reparations credits allotted to the allies would be transferred to the league, which would establish an international bank authorized to issue international money, which would be divided among the allies in proportion to their claims for reparations.

where it has long been the desire of the promoters of the debt pooling idea to place us.

COUNTRY LIKELY TO JOIN LEAGUE

France Willing to Grant Autonomy to Syria Sufficient for This Purpose

BEIRUT, Syria, (AP)—France contemplates granting to Syria a certain amount of autonomy which will qualify the country to become a member of the league of nations, it is reported here.

Rumor adds that France will recognize the existence of Syria as a sovereign state and will agree also to the constitution of a Syrian ministry and the establishment of a Syrian military.

"The French have made good," is the expression one hears everywhere in this country where during the great war Jamal Pasha's reign of terror culminated in the gas chambers in Damascus of the leading 400 Arab leaders.

MANY IMPROVEMENTS BROUGHT ABOUT

Marshall Gournel has done wonders for this land. Beginning with the industrial exhibit which gave impetus to commerce and industry, he followed it up by improving communal conditions and the customs which he found in a disorganized state.

Perhaps the two outstanding innovations introduced in the land are the rail and the wireless station built near Beirut. The former is facilitating the transport of important commodities and the latter the latter is communicating directly with European countries, thus removing the age-long dependency of Syria on the British cables of Egypt.

As regards education Syria has also made great strides under the mandate. Aside from the hundreds of new primary and secondary schools scattered throughout the country two universities, one in Beirut and one in Damascus each of all creeds are closed each year and sent to France to pursue higher education.

CHAPTER XXI (Continued.)

STRENGTHENING of the infantry he had acted with decision, judgment and strength. He had guided the Ariadne joining the numerous ships, and he had skillfully constructed petitions to the admiralty, the house of commons and the king.

He had determined to get control of the Ariadne. His gift as a speaker had conquered the fellow-officers, and the fact that he was an ex-captain gave them confidence that he was not a friend of the government.

None of the regular officers of the ship were left upon her, except Greenock and the rest of the crew, whose rank was below that of lieutenant, and whose duties were many and varied under the order of the captain.

"We've come to the parting of the ways, brothers," he said. "We're all become liable to death for mutiny. The job offered by the king has been done, and fresh demands are made. There I think the rest of you have been committed by our people. The Ariadne is well supplied with food and water. It is the only ship-with sufficiency. And why? Because at the beginning we got provisions from the shore in places; also we got permission from Richard Parker to fill our holds from two stopped merchant ships.

"The first iron boat was built at Paskine, a little village near Glasgow, and piloted for many a day on the Forth and Clyde canal between Burntisland and Kirkcaldy. The launch, many were in doubt whether it would float or not, and a good deal of betting took place. An old woman who was paring potatoes at the side of the canal understood the point at issue at once, and thereupon quipped her iron pot with the potatoes in it into the water. It floated!"

"Peaches" Jackson in Latest Clothes... "Don't think because I've spent four years in prison under the sternest discipline the world offers, and have never been a scoundrel before, if I'm not fitted to expiate my crime. By Heaven, I am—I am—I am! I know the wrongs you've suffered. I've smelted the water you drink. I've tasted the rotten meat. I've seen the honest man who has been for years upon the main—I've seen the scars upon his back got from a brutish officer who gave him too big a job to do, and flogged him for not doing it. I know of men who, fevered with bad food, have fallen from the rigging, or have slipped overboard, glad to go because of the wrongs they've suffered.

"I'll tell you what our fate will be, and then I'll put a question to you. We must either give up our stock of provisions or run for it. Parker and the other Delegates proclaim their comradeship yet they have hidden from us the king's proclamation and the friendly resolutions of the London meeting. I say our only hope is to escape from the Thanaes. I know that skill will be needed, but if we escape, what then? I say, if we escape, because, as we sail out, orders will be given for the other mutiny ships to attack us. We shall be fired on; we shall risk our lives. You've done that before, however, and will do it again.

"I'm not inclined to surrender, or to stand by men who have touched our business for us. I'm for making for the sea, and, when I get there, I'm for striking for the West India, where there's a British fleet fighting Britain's enemies and for joining in and fighting with them. I'm for getting out of this river and away from England. It's a bold play, but it's a good one. I want to know if you're with me. Remember, there's danger getting out of the ship, but it's less than if we stay. The other ships may pursue us. The Portsmouth fleet may nab us. We may be caught, and, if we are, we must make the dose prepared for us; but I'm for making a strong rush, going without fear and without reproach. I won't surrender here; it's too cowardly. I want to know, will you come to the open sea with me?"

"We may have to fight when we get out, but I'm for taking the Ariadne into the open sea, where we can find it. This I want to ask— isn't it worth while making a great fight in our own way, and showing that British seamen can at once be millionaires and patriots? We have a pilot who knows the way, and we don't deal with the admiralty commissioners as we ought. So, I'm for joining up with the captain here!"—he waved a hand toward Dyck—"and making for open sea. As sure as God's above they'll try to hammer us; but it's the only way."

"I held a hankerbitch—a dirty, red all thing. "See," he continued, "the wind is right to take us out. The other ships won't know what we're going to do until we start. I'm for getting out. I'm a pressed man. I haven't seen my girl for five years, and they won't let me free in port to go and see her. Nothing can be worse than what we have to suffer now, so let's make a break for it. That's what I say. Come on, lads, three cheers for Captain Calhoun!"

A half-hour later, on the captain's deck, Dyck gave the order to pass astern. It was sunset when they started, and they had not gone a thousand yards before some of the mutineering ships opened fire on the Ariadne. The breeze was good, however, and she sailed bravely through the leaden storm. Once—twice—three she was hit, but she did not stop. By daylight the Ariadne was well away from the land. NOTICE OF SHERIFF'S SALE OF REAL ESTATE UNDER EXECUTION

Joe O. Davis, Plaintiff, vs. Fred Wilson and Joe Wilson, Defendants.

By virtue of an execution issued out of the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, Idaho, dated the first day of March, 1922, wherein Joe O. Davis, the plaintiff, recovered judgment against Fred Wilson and Joe Wilson, defendants, on the first day of March, 1922, for the sum of Three Hundred Twenty-Four and 70-100 (\$324.70) Dollars and the further sum of Twenty-Two and 80-100 (\$22.80) Dollars and disbursements, together with interest thereon at the rate of seven per cent per annum from the said first day of March, 1922, I have levied upon all the right, title, interest and claim of said defendants, Fred Wilson and Joe Wilson, of, in and to the following described real estate, to-wit:

East one-half of the southwest quarter of the southwest quarter (E 1/2 of the SW 1/4 SW 1/4) and the southeast quarter of the southwest quarter (SE 1/4 SW 1/4), section twenty-four (24), township ten (10) south, range sixteen (17), in the county of Twin Falls, state of Idaho.

Public notice is hereby given, that I will on the 30th day of March, 1922, at the hour of 2 o'clock p. m. (mountain time), of said day, at the east front door of the Court House of the County of Twin Falls, State of Idaho, sell at public auction to the highest bidder for cash, lawful money of the United States, all the right, title, interest and claim of the defendant, above named, of, in and to the above described real estate, or so much thereof as may be necessary to satisfy plaintiff's judgment with all costs that have accrued or may accrue.

Dated this 6th day of March, 1922. E. R. SHERMAN, Sheriff.

Two Ounces OF MIRACLE OIL

poured in the fuel tank to each five gallons of gasoline or kerosene, by living through heat of the combustion chamber, will lubricate the upper cylinder walls, valves and valve stems, reducing friction where friction is greatest; prevents carbon formation, maintain compression, and save to least 15 to 25 per cent in fuel which is three to five times the cost of MIRA-COLE OIL.

Considering the facts, can you continue to operate your car, truck or other combustion engine without this upper lubrication when every stroke of the piston against dry upper cylinder walls is grinding away the most vital parts of your motor?

Think this over now even if your motor is in good condition. We are using MIRA-COLE OIL in our trucks and find it gives quite a saving in gas as well as largely increasing power, and is also preventing carbon trouble.

SUMMONS.

In the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls.

John Peters, Plaintiff.

vs.

D. E. Sullivan and Theresa Sullivan, husband and wife; John J. Turner and Barbara Turner, husband and wife, Defendants.

The State of Idaho sends greetings to John J. Turner and Barbara Turner, husband and wife, two of the defendants above named.

You and each of you are hereby notified that a complaint has been filed against you in the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, for the purpose of foreclosing a certain mortgage on the County of Twin Falls and State of Idaho, to-wit: Lots Nine (9), Ten (10), Thirteen (13), Fourteen (14), and Fifteen (15), of Peters Sub-division of north half of northeast quarter (N 1/2 NE 1/4) of Section Nine (9), Township Ten (10) South of Range Seventeen (17) East of Boise Meridian, as the same is platted and of record in the office of the County Recorder of Twin Falls County, Idaho, excepting one acre extending along the south end of the said lot, which said mortgage was given by the above named defendants, D. E. Sullivan and Theresa Sullivan, husband and wife to the above named plaintiff to secure the payment of Six Thousand (\$6,000.00) Dollars, and which is now in default.

And you are hereby directed to appear and answer said complaint within twenty days of the service of this sum-

mons, if served within this Judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

High Seas.

The term "high seas" is the open sea or ocean. The status of various nations to exclusive rights and control over extensive tracts of the ocean highways have been settled after much controversy by a general international law. The principle now accepted is that the jurisdiction of maritime law extends only for three miles off the coast line; the remainder of the open sea is open to all nations. Inland waters, of course, are ex-

BOARD RETAINS SOME EMPLOYEES IN SCHOOL ROOM

Re-Elects Principals of Junior High and Grade Schools Together with Farm Teacher and Athletics Coach

Deferring its decision for one week as to positions of the superintendent of schools and principal of the high school, the board of trustees of Twin Falls Independent school district, at a regular meeting Monday night, made further progress with its work of re-electing salaries for the coming year, ordering reductions in salaries of some employees in special positions and re-electing the principals of the three-grade schools.

Recommendations of Superintendent M. C. Mitchell were adopted in each case where definite action was taken by the board.

STUDENTS' PLEDGE KEEPS COACH

Having before it the report of a resolution adopted Monday by the high school students, council renewing its pledge of last year to reimburse the district to the extent of \$2000 in payment of the salary of Clinton W. Evans as coach and director of athletics in the high school, the board authorized retention of Mr. Evans in this capacity during the coming school year at a salary of \$3700. The students have made good their pledge to contribute two-thirds of the salary of the coach this year.

Re-election of Warren E. Carbro as instructor in agriculture at a salary of \$1920 for 12 months' work was voted by the board following discussion in which it was developed that only five high schools in the state participating in federal approval under provisions of the Smith-Hughes act pay a lesser salary for this position, and that approximately one-half of the salary is paid from federal funds.

RE-ELECTS GRADE SCHOOL PRINCIPAL

Acting upon recommendation of the superintendent, the board voted to re-elect Mrs. Rose Murray Reed as principal of the junior high school; Miss Elizabeth Shotwell, as supervisor of the elementary grades; Miss Alice Johnson as preceptor of the high school; Mrs. Francis Perkins as principal of the Lincoln school; Miss Ruth Way as principal of the Bickel school, and Mrs. Ethel Gray as principal of the Washington school.

The scheme of organization in the grade schools in effect this year was endorsed by the board.

Under this scheme the principals of the Lincoln and Bickel schools devote one-half of their time to teaching and the principal of the Washington school devotes about three-fourths of her time to classroom work.

Retention of the offices of preceptors of the high school and of supervisor of elementary grades was voted by the board and reduction of \$100 a year in the salary paid in each position was ordered. Similar reduction had been ordered in the case of the principals of the grade schools.

FRUIT GROWER AWARDED JUDGMENT BY VERDICT

Jury Upholds A. J. Milnor's Claim Against Marketing Agency for \$7,766.04

A. J. Milnor, fruit district orchardist, was awarded judgment against the Earl Fries Company of the Northwest for \$7,766.04, by verdict returned by a jury in district court here Monday afternoon. The judgment awarded the full amount of Mr. Milnor's claim against the marketing agency as the balance he alleged due him in payment for his 1919 apple crop. The verdict was signed by nine of the 12 members of the jury.

The defendant corporation denied its liability for Mr. Milnor's claim and based its defense on the claim that contract signed by Mr. Milnor provided for marketing of his crop on a consignment basis. Mr. Milnor alleged that this contract had been abrogated by subsequent agreement with the company's agent.

Mr. Milnor was represented by E. V. Larson of Twin Falls, Charles M. Kahn of Boise and W. P. Guthrie appeared as attorneys for the defendant corporation.

CLAIMS ALTERATION IN NOTE SIGNED AS SURETY

G. Voelker Donies Liability for Payment of Instrument Held by J. H. Glander

Claim of material alteration in a promissory note which he signed as surety for K. E. Betzer, who has since decessed, is set up as a defense in the case of John H. Glander against Betzer and G. Voelker, in the trial of which a jury was empaneled in district court here Monday.

Mr. Voelker alleges that the note upon which suit is brought was payable to the First National bank of Buhl when he signed it as surety for Betzer in November, 1919. The note was drawn for \$200 and was made payable six months after date.

Mr. Voelker alleges that without his knowledge or consent the note was altered so that it appears to have been made payable to Mr. Glander. He alleges further that the note, as it was altered, was delivered by Metizer to Mr. Glander for the purpose of commencing a crime, and that Metizer had been furnished with a quantity of grain valued at \$1500. He charges that Mr. Glander knew of the alteration in the note when he received it.

The defendant Voelker is represented in the trial of the case by J. W. Taylor, of Buhl, S. L. Holgren of Walters, Hedgie and Decker in conducting the case of the plaintiff Glander.

SCHOOLS FUNDS DEEMED AMPLE

Statement Shows \$71,335.95 Available for Remaining Three Months

Statement of the financial condition of Twin Falls Independent school district submitted Monday to the board of trustees by Frank O. Lynch, book keeper, shows a surplus of \$71,335.95 available to meet the expenses of the remaining three months of the school year. This amount is considered ample in view of the fact that expenses of the present school year, have been averaging about \$20,000 a month.

The statement shows also that there is available to the district's sinking fund a total of \$37,738.08.

The statement, which shows the financial condition of the district on February 28, is as follows:

GRAHAM IS SELECTED AS ROAD DISTRICT ATTORNEY

Commissioners Tender Position to Former Public Utilities Commission Member after Contract Lapse

Commissioners of the Twin Falls highway district have tendered to John W. Graham, of this city, the position of attorney for the district on a salary of \$100 a month. Mr. Graham has not indicated whether or not he will accept the post.

Since the first of the year when the district's contract with Walters, Hedgie and Decker expired, the district has not retained an attorney. Salary paid the attorneys heretofore has been \$1500 a year.

Mr. Graham resumed the practice of law here about two years ago at the conclusion of his term as a member of the state public utilities commission.

COUNCIL MAKES SHORT WORK OF ROUTINE TASKS

Initial Protest Against Sprinkling, Purchase of Equipment for Flusher and the License Awards Occupy Session

In exactly one hour's time the city council Monday evening disposed of all the business before it for consideration and adjourned at 8:30 o'clock. Only three members of the council were present, the mayor, Captain P. W. McRoberts being in Spokane on a business mission and Councilman C. H. York absent. Councilman C. H. Krengel, as president of the council, presided.

SURVEY OF SESSION'S WORK

During the hour's session, the council—

Herald Jones' protest against sprinkling Elizabeth boulevard.

Considered proposals for battery and lighting system for the street flusher and awarded to J. W. Husaker, the contract for installing such device at a cost of \$125.

Considered a proposal submitted for the possible concern for repairing the roof of the city hall building at a cost of \$125.

Granted licenses to two draymen and to Olin Dawson as operator of the Weaver trucks.

Authorized payment of claims against the waterworks department for \$25 and against the general obligations fund for \$33.21.

OTHER PROTESTS ARE EXPEDITED

Mr. Bates' protest against inclusion of Elizabeth boulevard in the proposed sewerage system was regarded as the precursor of other protests with respect to proposed sprinkling of other streets and avenues, all of which are to be considered at the next meeting.

In connection with the award of contract for batteries and lighting system for the street flusher it was pointed out that the city itself is a violator of traffic regulations in that it fails heretofore to display a light at the rear of this ponderous vehicle. It was estimated that the installation of the device contracted for would result in a saving equal to the investment within two years time in that it would do away with necessity of re-charging batteries every second day as is the case now. Two proposals were considered.

The proposal for repair of the city hall roof was submitted by a Poetschke concern. In this connection, J. S. Piggerrin, commissioner of streets and waterworks, indicated that it might be possible for the city to do the work by force account at a lesser expense.

WEIGHS THE OPPOSING FACTORS

The council's action with respect to award of a license to Olin Dawson, operator of the Weaver trucks was taken in pursuance of recommendations of the chief of police, who, in a written communication, explained that a regulatory ordinance recently adopted empowered the police department "to enforce proper conduct," and that this, in his judgment, would oblige him to granting of the license in this case.

Draymen's licenses were granted, upon recommendation of Dr. W. L. Kirkland, meat and dairy inspector, to W. O. Thorpe and Frank Fullford.
