# BUCKEYE STATE HONORS GRANT

Brown and Clermont Counties to Celebrate Birthday of Civil War Hero

COLUMBUS, O., (AP)—Ohio will celebrate the centenary of the birth of General U. S. Grant, in the city of his birth and youth, April 27, 1862 and 23.

Grant was born at Point Pleasant, Clermont county, O., a huddle of houses 25 miles east of Cincinnati on the Ohio river.

If plans are carried out a distinguished body of men will travel up the Ohio river from Cincinnati April 27 in the steamers Island Queen and Morning Star, to do homage to the memory of one of the most illustrious men born in Ohio.

President Harding, who is to deliver the commemorative address, will be on the Island Queen, as will General Pershing and most of the descendants of General Grant.

Exercises that day will be held on the plot of ground on which formerly stood the little cabin in which Grant was born; the cabin is on the state fair grounds here now, enclosed in a glass house covering. A detachment of soldiers from Fort Thomas, Ky., are to accompany the president, as well a military band. Four hundred survivors of the civil war also will go on the boats as guests.

The following day there will be a celebration at Bethel, Clermont county, a village of about 1500 persons, where was born the mother of General Grant, Hannah Simpson, said, where the general lived from 1841 to 1848. His two oldest children, Frederick D. and Nellie Grant were born there. The chief orator that day is to be Senator Frank B. Willis of Ohio.

On the day following, the final event will take place at Georgetown, Brown county, where the boy Grant was taken at the age of one and a half years, and where his entire youth was spent. He went to West Point from there. United States Senator Alice Pomeroy is to be the chief speaker.

Two counties of Clermont, and Brown now are constructing with state aid, a highway from Cincinnati to Georgetown, about 28 miles in length, at a cost of nearly \$1,000,000. This road has been officially designated as the

Grant highway, and is along the route traversed by him on horseback in going from Georgetown to Cincinnati when a boy.

The two souvenir coins, issue of which has been authorized by congress, to silver half dollar and a gold dollar, will be sold at a premium and the funds used to erect memorial community houses in Bethel and Georgetown, and the construction of a road from New Richmond to Pt. Pleasant, a distance of five miles, to be known as the Grant Memorial road.

(There are several families in Twin Falls county who are natives of Brown county where General Grant was reared. The Parish families are from eastern Brown county, while R. H. Stevenson is a native of Georgetown. It was Mr. Stevenson's great uncle, Thomas L. Hamer, who, as congressman, appointed Grant as a cadet at West Point. Mr. Stevenson has at his home in Twin Falls a checker-board made by his grandfather, General John J. Higgins, congressman, Hamer and Justice Grant, father of the late General Grant. Mr. Stevenson also has an old piano upon which Ulysses Grant played when a youngster and upon which he wrote his name.)

# HUMAN AGENCY IS REAL CAUSE

### Second Scientific Pronouncement on Ghost Mystery Differs from First

HALIFAX (AP)—Dr. Walter Franklin Prince, New York scientist and slayer of ghosts, is satisfied that on their human and not supernatural agencies constituted the Antigonish ghost, it was learned today that residents near Caledonia Mills, which is near the MacDonald home, were reluctant to accept his version that Mary Ellen MacDonald, 15, was at the root of their phenomenon.

Dr. Prince, in a lengthy report, the fruit of a week's stay in the "haunted house of Alex MacDonald," declared the adopted daughter of the old farmer was author of the supposedly super-normal fire and pranks among the MacDonalds which drove the family from the old homestead in the dead of winter. The ghostly slaps which Harold Whidden, reporter, and F. O. Carroll, provincial detective, claim to have received were attributed to natural phenomena by Dr. Prince.

Skeptics of Antigonish county are shaking their heads today, however, and insisting the slaps are in their cheeks. They are seemingly loath- so easily to relinquish the importance that attached to their section of the country as long as the MacDonalds were fascinated with tales of what they are wont to believe was a prandial, wrath with designs on the MacDonalds. They characterized as absurd the scientist's nomination of Mary Ellen as compelled author and cast of their mystery while in a "dream state" and the victim of an "altered consciousness."

## WAVE OF TYPHUS AGAIN SWEEPS SOVIET RUSSIA

In Moscow itself the epidemic is growing rapidly and the toll which it is exacting from the Moscow population is already now seven to eight times larger than that of last season and it is feared that before the winter months are over it might well overgrow the epidemic of 1919.

## FIRE BELIEVED WORK OF CROOK

### Chicago Officials Convinced Origin of Conflagration was Incendiary

CHICAGO, (AP)—Several separate investigations of yesterday morning's disastrous fire which swept a city block and burned buildings to two cities with a loss placed by insurance and property experts at \$5,000,000 were continued today. Shirley T. High, city fire attorney, expressed conviction that the conflagration, the most serious since that of 1871 which virtually destroyed Chicago, was of incendiary origin. A negro employe of one concern which was among the first to go up in flames was sought. He was named by a fellow worker who was arrested but denied connection with the starting of the fire.

In the tabulation of losses in the fire was that of 90 paintings by Henry Arthur Elkins, valued at \$250,000. Among them was "Shifting Light," a painting of a California sunset valued at \$75,000.

## ACID IN STOMACH SOURS THE FOOD

### Says Excess of Hydrochloric Acid is Cause of Indigestion

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which irritate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulency, water-brash, or nausea.

He tells us to buy salts all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.—adv.

## STAR PITCHING PLEASES BOSS

Kid Gleason Ticked to Death Over Showing Made by Minneapolis Man

CHICAGO, (AP) — Manager William (Kid) Gleason of the Chicago White Sox, was in high spirits today, despite the fact that his team was defeated yesterday by the New York Yankees. The reason for the manager's joy was the great pitching by Charles Robertson, the Minneapolis star, who worked the first five innings against the world's champions at the Sox training camp in Seguin, Texas.

The White Sox outfit their opponents, despite the fact that Jess Barnea and Art Noyd were working against them. The untidy fielding of Johnny Meath, who played second base, paved the way for the Giants' victory. Reports from the Chicago Cubs' training camp at Catalina Island, Cal., state that Manager Killifer gave his players another hard drill yesterday preparatory to their second invasion of the mainland, which they tackle Los Angeles tomorrow. The players have shown vast improvement since their defeats at Portland and Vernon.

### WALTER JOHNSON HAS A GOALD.

The Washington team at Tampa reports its pitching staff to be rounding into shape satisfactorily with the exception of Walter Johnson, who has been kept out of practice several days with a cold.

The Boston Red Sox were reinforced yesterday by Fred McHugh and Glenn Holdouts, who arrived at Hot Springs, Ark., each with claims for more money. Nemo Halbold also joined the club. At Ft. Petersburg, Fla., the arrival of Watson and Beckett made the Braves' season complete.

Casualties followed each other in quick succession in yesterday's clash at Seguin, Texas, between the New York Giants and Chicago White Sox. In which the New York team was reported a 3 to 2 winner. Frank Frisch, Glant second baseman, was spiked; Ed Huber, White Sox first sacker, was hit behind the ear with an inch and a half of wood; and Owens had their feelings hurt by words dropped by the coaching staff. The Brooklyn Dodgers camp at Jacksonville, Fla., yesterday, but former Judge Landis strolled in and watched the players warm up.

### TENNIS MATE IS CHOSEN

Fourteen Year Old Philadelphia Lad Declared to Show Championship Class in Game

NEW YORK, (AP) — Al Weiner, 14-year-old Philadelphia boy, will be partner to William T. Tilden, II, world's indoor tennis champion, in the men's national tennis championship tournament, starting here on March 25. Mr. Tilden announced his selection of the boy today. Weiner was to be his partner, saying he believed the youngster to be a future Vincent Richards. Although entries do not close until next Wednesday, 15 nationally known players, have already sent in their names for the singles and three teams for the doubles.

### SECOND BARBERM SPICED.

SAN ANTONIO, Texas, (AP) — The New York Giants will be without the services of Frank Frisch, major second baseman for some time. The Portland fish is out of the game because of injuries received in the exhibition contest at Seguin yesterday when Rafferty, a young Chicago outfielder, spiked the second sacker while the latter was sliding into the bag in the fourth inning of an exhibition game with the White Sox.

### WILL HOLD FIELD MEET.

SPOKANE, Wash., (AP) — The first annual track and field meet of the Spokane intercollegiate conference will be held here Saturday, June 3, with teams from Spokane university, Spokane college, Whitworth college and the Cheney State Normal school.

## RUPERT BEATS TWIN FALLS

Tournament Result in Local Players Taking Two Out of Three Games

STANDING. W. L. Pct. Rupert 3 2 .600 Twin Falls 3 3 .500

### PLAYERS' STANDINGS.

Player	W.	L.	Pct.
Turner, Rupert	2	0	1.000
Epler, Twin Falls	2	0	1.000
Ansell, Rupert	1	1	.500
Goldwater, Twin Falls	1	1	.500
Edmunds, Rupert	0	2	.000
Mattison, Twin Falls	0	2	.000

RUPERT (Special to The News).—Rupert took sweet revenge on two of the three three-cushion billiard players who journeyed from Twin Falls last evening to mix in the second series of the Rupert-Twin Falls tournament.

The local men with the crowd with them, and playing on a familiar table, played 50 per cent better billiards than they did on their last visit to Twin Falls.

Epler was the only local man able to get into the win column last evening, Mattison losing to Ansell, and Goldwater losing to Turner.

The opening game between Mattison and Ansell gave the Rupert player a 50 to 37 victory. The start of the game was a little slow, but toward the latter part, "An" began to speed up, and with a keen knowledge of every angle, he took from Frank.

Ansell had a run of 5 while Mattison's best effort in the line of making a big run was two. This game went 150 innings.

The second game of the evening was between Goldwater and Turner. Goldwater suffered his first defeat of the tournament, being on the short end of a 50 to 47 score.

At the start of this game, Goldwater started off as though he was going to make a landslide of the affair, piling up 25 billiards, while Turner was gathering 12. At this stage of the game, his hip came off, and from then on Turner began to move up.

### TURNER MAKES SOME NICE SHOTS.

Turner made no less than 20 bank shots last evening, exceeding his own at his own game. Goldwater although playing his usual steady, was unable to stop the march of the Rupert man. The Twin Falls man held the lead up to 45, when Turner won a run of 3, tied the score. With the cans at fever heat, the Rupert star came to the bat in the 51st inning and made four of the prettiest scratches ever seen in this section. This run of 4 was high for this game. This is not said to stop the march of the Rupert man, as he played a pretty uphill game from start to finish. Goldwater's net was at sea after losing his cue. One hundred and fifty-one innings were consumed to finish this game.

### HEPLER GAVES TWIN FALLS.

Epler, playing the third game of the evening, got away to an early lead on Ed Edmunds and held it throughout

the game, the final reading being: Epler 60, Edmunds, 44. The game went out in 137 innings, with "Epl" conceding for a run of 6. This is the high run of the tournament so far.

Edmunds was unable to get started while Epler played his usual steady game, picking up the natural. The results of last night's play puts the two teams on an equal footing, with three won and three lost for each town.

The final session of the Rupert-Twin Falls tournament will take place at McCauley's next Wednesday evening starting at 7 o'clock, with Epler and Turner playing the opener, Mattison and Edmunds in the second, and Goldwater and Ansell winding it up. To win the tournament, the local players must win two of the three games played.

The crowd last evening was impartial, and applauded both sides. Standing room was at a premium.

## TODAY'S MARKETS

(Continued on Page Eight.)

### Chicago Grain

CHICAGO, (AP)—Although the wheat market here opened lower today in sympathy with new declines at Liverpool, an upturn in prices soon took place. The advance resulted from a little speculative buying, which disclosed that the amount of selling orders had dwindled to relatively small proportions. Talk was current too, that despite reported weakness of British markets, the actual difference between Chicago and Liverpool values of late had widened instead of narrowed.

The opening here which was varied from 1-2 to 1-3-8 lower with May \$1.31 to 1.31 1-2 and July \$1.31 1-2 to 1.31 3-4, was followed by a rise to above yesterday's finish.

Subsequently, signs of export buoyancy were seen, and a few receipts at Minneapolis and adverse crop reports from Ohio together with absence of selling pressure here helped to lift values in a decided manner. The close was strong, 2 to 3-8-8 net higher, with May \$1.33 3-8 to 1.33 1-2 and July \$1.16 5-8 to 1.16 3-4.

Corn and oats paralleled the action of wheat. After opening unchanged to 3-8 lower, May 59 3-8 to 59 1-8, the corn market sagged a little more and then scored slight general gains.

Industrials were active buyers and with receipts light prices continued on the upgrade. The close was firm 1-3-8 to 1-7-8 net higher, May 61 1-4 to 61 3-8.

Oats started 3-8 off to 1-8 advance, May 37 1-2 to 37 3-4 and later showed an upturn all around.

Higher quotations upon goods were reflected by the provision market.

## New Spring Hats

Because it is new, our millinery department has nothing but late creations of the milliner's art to show.

The models are copied from the best Parisian and American milliners. The styles shown are authentic. The late colorings and combinations of colorings express individuality.

Then, too, our prices are lower than are the prices of the exclusive shops or millineries. It is because we have marked our hats on department store prices, which makes them in keeping with other merchandise in a department store. But because they are low in price, do not confuse these lovely hats with cheap and inferior merchandise. They are the best grades for the money we could buy.

## New Skirting

\$3.50 and \$4.95 Per Yard

These late skirtings have just arrived. In plain colors, they have a stripe of contrasting checks running lengthwise; which when made up in pleated skirts, make a very pretty effect. Two lengths only are required for a skirt, which makes them very reasonable in price. In different qualities, they are priced at \$3.50 and \$4.95 per yard.

## New Tissues

75c and 85c

These silk tissue gingham represent unusual values. Checks of live hues, plaids of wonderful colorings are here. Soft, silky texture of the materials assures that they will make up lovely.

CHAPTER XI (Continued) Dyck stood for a minute with head thrust forward, eyes fixed upon the distant misty ahead...

"Master, the game's with us—it is fighting! I know the difference between the two sets of guns, English and French. Listen—that quick, apomodic firing is French; the steady-as-

Dyck Calhoun Could See the Struggle Going On.

thunder in English. Well, we've got all sail on. Now, make ready the ship for fighting!"

"She's almost ready, sir." An hour later the light mist had risen, and almost suddenly the Ariadne seemed to come way into the field of battle...

"From the square blue flag at the mizen topgallant masthead of one of the British ships engaged, Dyck realized that the admiral's own craft was in some peril...

While still too far away for point-blank range, the Ariadne's guns began upon the French ships distinguishable by their shape and their colors.

What the French thought of the coming of the Ariadne was shown by the reply they made presently to her firing...

As she drew in upon the action, she gave herself up to great danger; she was coming in upon the rear of the French ships, and was subject to fierce attack...

The canister, chain-shot and langrei of the French foe had caused much injury to the Ariadne, and her crew was in a sore plight...

On the forenoon, Dyck watched the progress of the battle with the joy of a natural fighter. He had carried the thing to an almost impossible success.

There had only been this in his favor, that he was an unexpected entrance—a fact which had been worth another ship at least. He saw his boarders struggle for the Aquiline. He saw

them discharge their pistols, and then resort to the cutlass and the dagger; and the marines bringing down their victims from the masts of the French flag-ship.

Presently he heard the savagely buoyant shouts of the Beattitude men, and he realized that, by his coming, the admiral of the French fleet had been obliged to yield up his sword, and to signal to his ships—such as could get away. That half of them succeeded in doing so was due to the fact that the British fleet had been heavily handled in the fight...

Never, perhaps, in the history of the navy, had British ships cramped the enemy as the Aquiline was clamped by the Beattitude and the Ariadne. Certain it is that no admiral of the British fleet had ever to perform two such acts in one day as receiving the submission of a French admiral and being offering thanks to the captain of a British man of war whom, while thinking, he must at once place under arrest as a mutineer.

What might have chanced further to Dyck's disadvantage can never be known, because there appeared on the deck of the Beattitude, as its captain under the rear admiral, Captain Iry, who, five years before, had visited Dyck and his father at Plymouth, and had gone with them to Dublin.

The admiral had sent word to the Ariadne for its captain to come to the Beattitude. When the captain's gig arrived, and a man in seaman's clothes essayed to climb the side of the flagship, he was at first prevented. Captain Iry, however, immediately gave orders for Dyck to be admitted, but without honor.

On the deck of the Beattitude, Dyck looked into the eyes of Captain Iry. He saw that the captain held out a friendly hand.

"You're a mutineer, Calhoun; but your ship has given us the victory. I'd like to shake hands with the man that's done so good a stroke for England."

A queer smile played about Calhoun's lips. "I've brought the Ariadne back to the fleet, Captain Iry. The men have fought as well as men ever did since British had a navy. I've brought her back to the king's fleet to be pardoned."

"But you must be placed under arrest, Calhoun. Those are the orders—that wherever the Ariadne should be found she should be seized, and that you should be tried by court-martial." Dyck nodded.

"I understand. When did you get word?" "About forty-eight hours ago. The king's man came by fast brigantine."

"We took our time, but we came straight from the channel to find this fleet. At the mouth of the Thames we were determined to find it, and to fight with it—and by good luck so we have done."

"I've brought the Ariadne back to the fleet, Captain Iry. The men have fought as well as men ever did since British had a navy. I've brought her back to the king's fleet to be pardoned."

Dyck smiled. "I never have." The next moment the door of the admiral's cabin was opened.

"Mr. Dyck Calhoun of the Ariadne, sir," said Captain Iry. (Continued in Friday's Issue.)

Origin of Treadmill The treadmill that was employed for many years in British prisons for purposes of discipline was invented in prison form by Sir William Culliv, of Ipswich, and the power produced was employed in grinding corn and flour for food for the prisoners.

Surely. Some little time back a professor in the medical department of a certain college asked one of the more advanced students: "What is the cause of the teeth that a human being gets last?" "Fate," was the reply.

Limit of Incompetency. The worst incompetent in any business is the person who is so cocksure he knows everything that he doesn't take the time to learn anything. This applies to employer as well as employee.

## Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

**BEARS**

"A good many of the different animals from India have wanted to tell their stories lately," said Daddy, "They have all been animals who have since been brought to the zoo to live.

"Now the Bears should tell their stories.

"Not the Bears who live in this country, or the Polar bears from far to the North, but the Bears from India also want their stories known."

"Shall I talk first?" asked the Sixth Bear.

"You've talked before," said the Malay Sun Bear. "They know your story."

"Let me tell it again," said the Sixth Bear. "For there may be some who didn't hear of what I had to say the first time."

"Oh, very well," said the Malay Sun Bear. "It is not because I want to hear it but because I don't feel like talking now."

"I'll talk later when I feel more like it. At present I want to rest."

"I suppose you don't answer me any more angrily than you do because you

"Even if I have," said the Malay Sun Bear, "you shouldn't have talked so long."

"You had no business to talk as long as I do," said Daddy. "I hate the keeper too. I hate everyone. I am just as cross as you can be."

"If I had my way about it I'd not have any work at all. I'd like to be in the woods and myself too. I don't like myself, not a bit of it!"

"I don't see how you can be happy with yourself when you are so cross," said the Sixth Bear. "And I've seen you hit your black bear on his eye when I was there."

"I hate everything," said the Malay Sun Bear, "and that is the sort of a creature I am."

"I don't even care if no one is interested in my story, for I hate everyone, you see."

"Who threw that eraser at me?" bellowed the teacher, as he glared at the section reserved for little boys.

"Please, teacher," said the worst of the lot, "didn't you look over at the girl's side?"
