PRICE FIVE CENTS

WILL TEST ELECTION VALIDITY

Suit to be Instituted at Once to Settle Question of Alleged Irregularities in Preparation of Commission Plan Petition

Within the next 24 hours, according to announcement made today, suit will be instituted in district court here to test the validity of the special city election of March 25 at which the commission form of government was adopted for Twin Falls.

The suit will be filed by John Kowarski, local attorney who has previously announced his purpose to test the sufficiency of the proceedings in this regard. Citizens interested with Mr. Kowarski in the undertaking have retained James B. Bothwell and W. Orr Chapman, as attorneys to bring the suit.

It is not only the validity of the election but the validity of the petition for calling of the commission form election filed in the office of the city clerk by W. M. Gledhill and Gledhill, will be called in question.

Bringing of this suit presents a new angle to the situation here resulting from the filing of a petition for commission of the city manager plan and the subsequent filing of the petition for the commission form election.

Why Is Left Open. Following the adoption of the commission form of government March 25, Judge J. D. Baker in district court here last Saturday, made absolute a writ of prohibition obtained by E. P. Walton, a leader of the commission form forces, to prohibit the city manager plan election, which had been called for April 18.

The way was thus left open for the election of "commission form" government, having been called by Mayor E. W. McElbourn to be held June 6.

The suit to be filed by Mr. Kowarski and which is now being prepared, is expected to halt proceedings toward the election of commissioners under the commission form of government and successfully prosecuted, it is expected to bring about return to the political situation that existed here before the commission form was submitted to vote of the electors.

GUARDMENT OF NAVY DEPLOYED

National Commander of American Legion Declares Cut Is Threat to National Safety

INDIANAPOLIS, (AP)—The proposed reduction of the navy by congress is "a disaster and a threat to national safety," Randolph C. Mackay, national commander of the American Legion, said in a telegram to President Harding today pledging the support of his organization to the president in his fight against the reduction.

Influence in congress are trying to strike the United States a second naval power, Mr. Mackay said. "The commander of the American Legion, said in a telegram to the president today: 'The safety of our whole country depends first of all upon the navy. It is our first line of national defense in time of war and must be kept ready as an impregnable bulwark behind which national mobilization can be effected. No single man here is prepared to bind the feet of another nation and so we did in the world war.'

MILLIONS OF RUSSIANS ARE SCHEDULED TO DIE

Report of Investigator Into Conditions Fixes Deaths by Famine at Six Million

GENEVA, (AP)—Between six million and seven million Russians will have died of famine before the next crops are harvested, according to a report received today from Captain G. G. G. representing the international relief organization headed by Dr. Fridtjof Nansen. Captain Gledhill estimates the number of survivors on May 1 at 600,000 in the region of Odessa and at one million in each of the following affected regions: Nicolaev, Ekaterinoslav, Donetz, Kharkov, Kremenchuk and Poltava.

WEIRD JOKE ON FORMER PREMIER GETS HEARTY LAUGH FROM "TIGER"

DUBLIN, (AP)—Former Premier (Clarendon) after the unveiling of the statue of King Edward VII of England here the other day, requested to be introduced to the sculptor. "You have real talent," the Tiger said, "as any of your work in the public museum."

MARY BAKER SAILS FOR ENGLAND TO MARRY

MARY LANDON BAKER, socially prominent in Chicago, famed for having left her millionaire fiance, Alister McCormick, awaiting at the church, has sailed for England to marry her fiance, Mr. McCormick. She thrice postponed the ceremony without explaining her reasons.

Dentist Grabs Teeth to Compel Payment

Collection Methods of Practitioner Result in Arrest and Charge of Larceny

ST. LOUIS, Mo. (AP)—John Busch, a barber, today told police that Dr. Frank Pasobek, a dentist, snatched his false teeth from him while he was taking a walk.

GOLD MEDALS OFFERED TO CONTEST WINNERS

Eighteen High Schools to be Represented at Annual State Declamatory Event

IDAHO FALLS, Idaho, (AP)—Eighteen high school contestants from all parts of Idaho will meet here Friday evening in the annual state declamatory contest. Gold medals will be awarded to the winners in each of the three divisions—oral, dramatic, humorous. Judges of the contest will be Professor N. B. Johnson of Idaho Technical Institute at Pocatello; Superintendent R. H. Walls of American Falls and Mrs. C. E. Trueson of Elgin.

NO AGREEMENT REACHED AT IRISH CONFERENCE

Peace Parties in Dublin Adjourn to Meet Again Next Week—Progress at Initial Session

DUBLIN, (AP)—The peace conference convened by Lord Mayor O'Neil of Dublin began its session in the Mansion House at 3 o'clock this afternoon, with leaders of all factions present.

BOHEMIA NOT A SUGGESTION

LOS ANGELES, (AP)—Los Angeles' municipal experiment in conducting a motion picture theatre has resulted in a deficit of \$23 in four weeks, and the city council committee has recommended that "certain be rung down" on the enterprise.

OPENING GUM IN TARIFF CONTEST FIRED IN SENATE

Ranking Democrat on Finance Committee Assails Measure as the Most Un-American Bill Ever Framed

WASHINGTON, (AP)—The administration has been firing in the senate was assailed today by Senator Simmons of North Carolina, ranking democrat on the senate finance committee, as "the most un-American bill ever framed."

"Even a cursory examination indicates that it is the highest tariff ever written by congress," said Senator Simmons, who will lead the minority fight on the measure in the senate.

"It is a tariff more unjust to present conditions, if we are to participate in world trade, could not have been framed."

Makes Dire Prediction "If it is adopted," continued Senator Simmons in a formal statement, "we will hardly have much more about republican tariff bringing prosperity. It will be at least one republican tariff that will be condemned not as bringing prosperity, but as bringing ruin."

World Seed Prices Up "The high and excessive duties imposed on manufactured products would immediately result in a great increase in the price of seed, and farmers, but, out do not produce. In other words the result of this so-called protection to agriculture will be, so far as the farmer are concerned, the swapping of dollars for dimes."

Senator Simmons and other minority members of the committee hope to present their minority report within nine days.

LIVESTOCK INDUSTRY MAKING RAPID GAINS

Market Sets Pace for Agricultural Readjustment; Effect in Future Will Be Marked

CHICAGO, (AP)—The livestock industry has set the pace for agricultural readjustment and the effect in the future will be marked.

"The livestock industry has set the pace for agricultural readjustment and the effect in the future will be marked."

Discount Rate of Bank of England is Lowered Again

Action Accepted as Welcome Step in Direction of Restoration of Normal Business

LONDON, (AP)—The bank of England today reduced its discount rate to four per cent. The last previous reduction was on February 16, last when the rate was dropped from five to four and a half per cent.

The reduction coming on the eve of the Easter holidays, was a welcome surprise to the money market and financial circles.

The action was prompted by the treasury, which has been ruling the money market for some time past.

The reduction is welcomed as another step in the restoration of more normal conditions and the loosening of money for trade purposes.

NEW YORK, (AP)—With the exception of Switzerland, Great Britain now has the lowest bank rate in the world. Switzerland cut its 4 per cent rate to 3 1/2 per cent March 2 on account of the excessive gold supply in that country.

The present rate is the lowest since August 1, 1913, and a low of 3 per cent January 29, 1914.

EARNEST APPEAL IS OFFERED FOR REASONABLE PAY

Case of Maintenance of Way Workers Compared by Attorney to That of French Peasantry Before Revolution

CHICAGO, (AP)—An appeal to the United States railroad labor board to forget the legal phrases and technicalities of the law and pay more attention to the humanitarian side in deciding wages for railroad employees was made today by Frank E. Walsh in closing the case of the maintenance of way workers.

Mr. Walsh told the board that the wage matter was one which was far above the law and which actually went to the heart of the matter.

He declared that regardless of the law the men must have a living wage, previously, E. F. Grable, president of the maintenance of way union, declared the board not only to disregard the law's pay of men "so that they could live decently."

Mr. Walsh yesterday brought a number of employees before the board who testified that they were underpaid and underfed because of low pay.

"If railroad congress may laugh in the same vein as that monarch who when he cried for bread, said 'Why don't they eat cake?' but there are those people, underfed in their homes, while the railroads say, 'We have behind us an army which will take their homes and give them even more delectable cake,'" said Mr. Walsh.

"In fixing wages this board cannot allow its deliberations to be clothed in the legal phrases of the law. It must go deeper than that. The law says the board shall fix a just and reasonable wage, but no place in the law does it say that the board in any circumstance shall ignore the human element. Here we get down to the cold facts of the case itself. The railroads request a reduction of from five cents to underbid, but the railroads say to the level of supply and demand."

OPERATORS ARE CONFIDENT

PITTSBURGH, Pa. (AP)—The battle of the miners' strike in Pennsylvania has centered in West Moreland, Cambria and Fayette counties, where organizers are making energetic efforts to line up the miners' strike against plant workers. While significant gains are claimed by the union leaders from the actions where the H. C. Price Co. cementary operators, generally optimistic concerning the situation, believing that they will be able to strike a balance in the operation of their business.

The important Leasing and Tractor plants, employing about 2000 men, remained at work yesterday. About 1500 workers, however, have stopped operations in the vicinity of Conroy City.

FOREIGN TRADE INCREASING

WASHINGTON, D. C. (AP)—Increase in the value of America's foreign trade was reported today by the department of commerce with announcement of the report's value. The increase reported \$32,000,000, the highest since October, 1921, and that imports totalled \$239,000,000, the greatest since December, 1920.

French Attitude is Decisive Factor

Neither Disarmament Nor Reparations Questions Will be Brought Before Genoa Conference in Opposition to Her Will—Complicated Nature of Financial Problems Puzzle

GENOA, (AP)—While rumors were flying thickly about conference circles today, most of them being purely unwarranted, the one fact that appeared to stand out in the somewhat clouded atmosphere was that neither the disarmament nor reparations questions would be brought up for specific action against the opposition of France.

The extremely complicated nature of the financial problems connected with the economic reconstruction of Europe is shown by the fact that even the keenest of the economic and financial experts here admit that they are hard put in their efforts to see the light.

Urges All Women to Get Into Politics in Practical Way

Mrs. McCormick Says Fair Sex Can Organize State for Less Money Than Men

PHILADELPHIA, Pa. (AP)—Pennsylvania women are advised by Mrs. J. P. McCormick, national chairman of the League of Women Voters, to get into politics in a practical way.

"Women," she declared, "can organize a state for the same amount of money that men need to organize a ward."

STRIKE IS TEST OF ENDURANCE

Union Chiefs Claim Steady Gains in the Unorganized Districts

INDIANAPOLIS, Ind. (AP)—Continued gains in the non-union fields were claimed today by the United Mine Workers of America for the nation-wide suspension of work in the coal industry with the union's announcement that 605,000 miners are participating in the walkout.

First of them to appear unannounced in the non-union fields, particularly central Pennsylvania, were being conducted by union officials, with incidents that more and more are being reported into the coal fields. Formal announcement of any decision was unlikely, for the union's plan has been to permit the first forces to appear unannounced at their work.

With the strike now in the end of the second week, the new figures on the number of 100,000 in the number of 65,000 since the opening of the suspension when the union claimed 60,000 participants. Of this number 25,000 recruits have been added this week, union officials asserting that more of them have been obtained in central Pennsylvania.

Except for the developments in the non-union fields, no change has yet come in the general situation. In union circles here, the opinion appears to be that the strike is settling down to a test of endurance and that any changes will occur slowly.

CRIME WAVE IS SUBSIDING IN EASTERN CITY

Detroit's Orgy of Criminality Declared to be Largely Thing of the Past, According to Statement by Police Head

DETROIT, Mich., (AP) — Detroit's crime wave, that raged its crest in 1920, has subsided to a ripple, according to Dr. James W. Innes, police commissioner.

"Passing of the orgy of spending, heavy sentences assessed against persons convicted of crime, and regulation by Americans generally of their consumption are the factors responsible for the passing of the crime wave," Dr. Innes asserted.

The head of the police department pointed out that there were 58 per cent fewer crimes in this city during 1921 than there were in 1920. The percentage is based upon the major crimes — holdups, burglaries and homicides. "Hardened criminals are staying out of Detroit because of heavy sentences imposed upon convicted wrongdoers but we still have a heavy prison population of criminals," Dr. Innes said. "These youngsters are now at the crime game. The war and its attending conditions brought them into being as crooks. Many of them earned more money during the war period than they ever had before and probably more than they ever will again. They grew used to living in comparative luxury."

Crime Offered Only Way.
"Then came the industrial slump and to stay straight it was necessary to lower the standards of living. Rather than go without the luxuries there were turned to criminals," Dr. Innes said. "The police department is having a good effect in reducing the ranks of the inexperienced criminals."

Sometimes ago judges in Detroit announced a campaign to reduce crime and began to mete out heavy prison terms to convicted criminals. Many men found carrying weapons were given long terms. The number of these offenses has been greatly lessened here within the last year, police records show.

The American public is beginning to think normally again and normal thinking does not countenance crime, the department head said.

He asserted he had reports from other large cities of the country showing a similar trend in crime reduction.

ADVERTISING CAMPAIGN FOR APPLES IS ADVISED

Idaho Horticultural Association Takes Steps Toward Marketing Plan

T. George Hyabry is the committee member for the Twin Falls district, appointed at a recent meeting of the Idaho State Horticultural association at Nampa, to discuss with apple growers of this district a plan for creating a fund for advertising northwest hood apples.

The idea was originated at a meeting in Portland in March at which representatives of Idaho, Oregon, and Washington apple growers were present. It was decided to recommend to the apple growers of the Pacific northwest that an advertising campaign be inaugurated this coming season, to extend over a series of years, and that it be started on the basis of one cent a box.

Opinion was expressed at this meeting that in a general way much of the advertising of the northwest apples has not been along right lines, and that, while the population has been increasing tremendously, proportionate increase in the consumption of apples has not taken place.

BEHRMAN'S IN ROCHDALE STORE BLDG.

MONEY IS MAIN NEED OF CITIES OF MANUFACTURE

Russian Factory Towns in Bad Way Through Inability of Factories to Properly Finance Their Growing Needs

ODessa, (AP)—This once rich port on the Ukraine is struggling to regain some of its former prosperity but it looks like a long, hard road. The factories must first be rebuilt and financed by foreign capital. Just now there is none to be had.

The chief production of the 12 factories in operation is leather, agricultural machinery, grain bags, nails, cloth, varnish, shoes, glass and very poor matches.

The cost of production is constantly varying with the exchange, the price of food and labor and at the present time no fair comparison could be made with imported goods.

The cost of labor here far has been negligible due to the forced nationalization of factories and mobilization of the workmen but it is steadily increasing.

It requires a minimum of 200,000 rubles daily or about 25 cents to feed one person. Rent is free. A pair of shoes costs \$10 to \$15; a pair of clothes twice as much.

It may be said that the working man has lost vastly in a material sense by the revolution. Today his cry is for bread and bread only. If it is an advantage the working man now partly controls this city, once one of the richest and most comfortable ones of all Europe, and, perhaps, destined to be so again in the years to come when the 60 old factories are rebuilt and reorganized through private capital.

High Prices for Momentos
VIENNA, (AP)—An auction of autographs at the Hortothum, the government pawn shop brought some curious contrasts in prices. The top price was given for a Schiller letter, 190,000 kronen (about \$390 at current exchange).

Taste is a matter of tobacco quality
We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

Happenings of a Day In Sports

PITCHING MAIN FEATURE OF ALL OPENING GAMES

Work of Men on Mound Constitutes Decisive Element for Victory or Defeat in Practically All Games

NEW YORK, (AP)—Opening games of the major league season were marked yesterday in most instances by the interesting contest in the "Big City." "Dutch" Ruether of Brooklyn engaged Artie Nehf of the Giants in a tussle at the Polo grounds.

Urban Shocker of the Browns and Urban Faler of the White Sox had an interesting contest in the "Big City." Faler allowed only three hits, but issued a trio of passes, two of which blossomed into runs and defeat. Shocker was touched for nine scattered way-

ward. Sherrill, ace of the Cardinals, was opposed to Cooper, the Pirate star in St. Louis. Rhedel was effective; Cooper Cleveland Alexander lured the Cubs to an easy victory over the Cincinnati Reds; the veteran mound-men, Quinn, had a close decision for the Red Sox against Philadelphia through errors, and the bespectacled Le Meadows turned in a four-hit game for the Phillies against the Braves.

PARIS TO HAVE LEAGUE

PARIS, (AP)—Paris is to have league baseball this summer. The opening of the season was set for May 20 at a meeting held last night in the American Legion building.

FRESHMAN SELECT COACH
BERKLEY, (AP)—F. Hunt, former University of Indiana quarterback, has been named football coach of the freshman at Stanford university. Hunt has been athletic coach at the Berkeley high school here since 1918.

CHAMPION TO WRESTLE
WICHITA, Kan., (AP)—Ed "Strangler" Lewis, world's heavyweight wrestling champion, will defend his title against Ed Caddock, former champion here tonight. Lewis won the championship from Stanislaus Zbyszko here six weeks ago. The match will be a finish, two falls in three, for a purse of \$20,000. Caddock and Lewis have met four times, both winning twice. Lewis, weighing 220 pounds, will have a 30-pound advantage over the challenger.

Baseball

KEEN INTEREST IN EVENT

Twelve Pacific Coast Colleges and Universities Accept Invitation to Carnival

SEATTLE, (AP)—Twelve Pacific coast universities and colleges have already accepted invitations to participate in the University of Washington's third annual regatta carnival, to be held at the stadium here April 29. A number of others are expected to enter.

The schools that have already placed men in the entry list are Oregon Agricultural College, University of Oregon, Washington State College, Oregon College, University of Idaho, University of Montana, Montana Wesleyan College, Pacific University, College of Puget Sound, Beulah (University), Gonzaga University and the University of British Columbia.

BOISE BOY WINS

SEATTLE, Wash., (AP)—Young Gordon, Boise welterweight, was given the decision over Ray Quinn, Bremerton, Wash., boxer, in four rounds here last night. Bobby Mcneels, New York lightweight, knocked out Joe Harahan of Seattle in three rounds.

WINS DECISION

TULSA, Okla., (AP)—Captain Bob Hooper, Chicago heavyweight boxer, won a decision over Carl Morris in the third round of a scheduled 12-round bout here last night.

FRENCH PEOPLE ARE INTERESTED

Pay Envelope of Babe Ruth Draws Comments from the Press and Fans

PARIS, (AP)—The fame of the great Babe Ruth has at last crossed the ocean and French publications have recently been filled with the narrative of the superlunary exploits.

Of the 50 home runs he is not being excited in France for the number of fences he has driven the ball over but the feat he has made in the bankroll of the club owners.

Big Money in France
"Five hundred dollars each time for hitting a baseball half as far as I could hit a golf ball," comments an anonymous writer in the Paris Sport.

Babe Ruth might have gone on for several families in affluence," says Comedini, a theatrical painter.

TEXAS OPENS TODAY
DALLAS, Texas, (AP)—The eight clubs of the Texas league will get away today on their 1922 chase postwarward. With favorable weather predicted generally and with enthusiasm running high, every city is expected to make a strong bid for the opening day attendance cap.

BOVING CREW READY.
TOKIO, (AP)—The Japan Rowing association is now engaged in getting together student teams of various colleges and schools to take part in rowing contests by way of according welcome to the Prince of Wales. So far 108 boats with sliding seats are ready including 28 boats with eight oars, 13 with six oars, 18 with four oars, six double sculls and 33 single scull.

NINE VILLAGES ARE INUNDATED IN GREAT FLOOD

Upwards of 250 Square Miles of Farm Land Under Water with Heavy Damage in Area of Lower Mississippi

VICKSBURG, Miss., (AP)—At least nine villages are inundated or surrounded by water and upwards of 250 square miles of farm land is under water as a result of floods on the lower Mississippi and its tributaries.

Reports today to headquarters of the levee district here indicated that the most severe flood conditions were centered in the Arkansas and White river basins, but the Mississippi itself approached new high records at Vicksburg and Greenville.

At many points, engineers were at work reinforcing the levees. The village of Vicksburg is under water and the Missouri Pacific railroad has distributed 150 box-cars along its route for use of the boatmen.

GOSSACK CHIEF FACING PRISON

General Semenov Virtually a Fugitive Due to Cancelling of Bond by Company

NEW YORK (AP)—General Greco Semenov, former "Ataman of the Cosacks" in eastern Siberia, who was arrested on his arrival here last week today faced the task of furnishing a new bond or going to jail before night.

Officials of the surety company which furnished the bond the night after Semenov was arrested, gave notice yesterday of the firm's intention to cancel its responsibility in the case.

A considerable mystery developed as to the whereabouts of the "Ataman" last night. Two or three deputy sheriffs were hunting for him. It was declared that Semenov would be produced by his attorneys today.

The referee in the bankruptcy proceedings of the Youvanova Home and Fashion "Finlay" company, the referee for which General Semenov's arrest also intended to question the general relative to the location of the company's assets in Chile. Claims arising from this alleged action on the part of Semenov and his associates were held before a court at Harris, Manchester, last December and a judgment of about \$447,000 was awarded the company.

NEW YORK (AP)—While Deputy Sheriff's men hunting today for General Greco Semenov, former commander of the Cosacks, to furnish a new bond in the bankruptcy proceedings against him, his aide, George W. Kroupsky, former district attorney at Petrograd was arrested at Broadway and Chambers street, charged with carrying a pistol without a permit.

NEW YORK (AP)—General Semenov, former "Ataman" of the Cosacks, for whom deputy sheriff's have been searching for two days, surrendered in Sheriff Nagle's office today.

Son of Ex-Empress is Named Austrian King

Princess Ottilie, son of the late Emperor Charles of Austria, has been named "king" of that country by the legitimist party, declare reports from Vienna. Prince Otto is 19 years old. He is at Magdon, where he studied before. The naming of Otto as king is not taken seriously, inasmuch as the royal family was dethroned during the war. But the child is said to have royal rights in Hungary and Prince Otto may yet become involved in Europe's politics.

They're Chief Actors in New 'Love Dual'

Norma Garmany

Mrs. Thoresen

Charging that she has found 14 "love letters" to her husband from Norma Garmany, famed actress, Mrs. Thoresen is suing for separation from her husband, Max Jacobs, conductor of the New York orchestra society.

CHIEF ADVISOR IS ARGENTINIAN

President of Mexico Sets High Value on Counsel of South American Minister

MEXICO CITY, (AP)—The chief advisor of President Obregon of Mexico is the Argentine minister there, Dr. Manuel E. Malbrán, asserts Dr. Enrique Gil, an Argentine lawyer, who has arrived in Buenos Aires after a trip through a number of Latin American countries. To a reporter of La Nación Dr. Gil said:

In reality President Obregon adjusts his conduct and his decisions to the counsel of the Argentine minister, Dr. Malbrán. His ideas are those of Dr. Malbrán when he consults for any decision of importance. Dr. Malbrán is in this way in an admirable situation to pursue the diplomacy of Argentina. He enjoys much prestige in Mexico, among a group of Mexicans in extraordinary regard.

Dr. Gil said that Mexicans had a poor concept of Argentina and believed that Mexico was the most advanced of the Latin American countries.

"So great is the ignorance of Argentina in Mexico," he said, "that I have considered a scandal and a blot upon my country that the great majority of the population of our country was pure white and that there were only 20,000 Indians."

Referring to the jolly of the United States toward Mexico, Dr. Gil said that any conception that the United States was actuated by motives of imperialism was entirely wrong.

TINY PLAYHOUSE PERFORMS WORK OF HIGH MERIT

Smallest Theatre in Country at Ypsilanti Meets Success from Inception - Seating Capacity Only Sixty

YPSILANTI, Mich. (AP)—Ypsilanti claims the smallest theatre in the country, one of the oldest of its kind anywhere and one that is regarded as a unique example of the "little theatre" movement.

The club was started seven years ago with 15 members for a study of drama. The organization has developed to a point where it occupies national prominence as recipient of the "little theatre" movement.

The chief object of the club at its inception was to provide entertainment for its members. After the first year the society purchased a small barn and remodeled it into a playhouse. The same building is in use at present. The building has a seating capacity of 60 persons and is but 12 by 18 feet in dimensions, with a small balcony constructed from part of the roof formerly a hayrack. The stage has a depth of 25 feet and a proscenium arch nine by fifteen feet.

Its Well Equipped Stage. The interior of the theater has been painted and decorated with old English lanterns, giving it an Elizabethan appearance. The stage is equipped with a modern lighting system costing \$2000 and described by theatrical experts as unsurpassed within its limits by any stage in larger theaters.

Only one-act plays are offered, usually two or three of them on each night when performances are held. Evened the performances players and audience join in a supper prepared in the basement of the building.

The club has become self-supporting and announces it is working toward bringing about a municipal playhouse. Every member of the society is subject to call for any performance, from scene shifting to playing a role in some play. Some of the members have above unusual ability in scene painting and costume making.

Each play is studied in detail before being presented, costumes, announcement posters and other articles needed are prepared and all furniture necessary is obtainable; it is built by club members.

Among the plays presented so far this year are "The Green Scarf" (Kenneth Goodman); "Night of the Trojan War" (John Drinkwater); "Fourteen" (Alice Gerstenberg); and "Her Only Son" (Marjorie Sinclair).

COAL TAR JACKET KEEPS PHEASANTS OUT OF CORN

County Agent Offers Suggestion to Farmers Troubled by Game Birds Eating Their Food

Seed corn when covered with coal tar is not an article of diet which the pheasant fancies, according to E. E. Spear, county agricultural agent, who offers the following suggestion to farmers who are troubled by the game birds eating their seed corn.

Many farmers have had difficulty in the corn fields to keep the pheasants from following up the rows and eating the seed, in many cases causing such damage as to make it imperative to replant in order to get a stand.

A department of agriculture suggests that a detergent be used on the seed corn to keep the pests from eating it. They suggest the use of coal tar, which is not a poison, but which imparts a disagreeable, many-colored stain to the grain that is distasteful to them.

It has the advantage not possessed by some other deterrents on the market, of not affecting the germination of the seed, when used in limited quantities. A tablespoonful is used to a half bushel of corn. The grain is first heated by an application of warm water, and then drained. The coal tar is then added immediately after a thorough stirring with a clean fork and is then coated. The seed is then spread out to dry or is dried by the addition of sifted ashes, lead plaster, or powdered earth.

developed. Oats stirred unchanged to 1.8 to 1.4 up, July 30 7.8 to 4.0c, and continued firm.

In later weeks, the slowness of cash demand was a handicap to bulls. The finish, however, was firm, 38- to 7.5c net higher, July 31 6.5 to 6.3c.

Lower quotations on hogs weakened provision values.

New York Stocks NEW YORK (AP)—Tomorrow's holiday caused further realising in the stock market today, but renewed buying of transportation and oil securities offset occasional recessions among industrial. Sales approximated 1,500,000 shares.

Further selling for profits in anticipation of tomorrow's recess caused some irregularity of prices at the outset of today's stock market, but gains prevailed. Pierce, Fenner and Smith, and preferred, American Woolen, Royal Dutch, Shell Trading and Famous Players scored early gains of one to two points. Copper, shipping, leather and sugar also made moderate advances, but Canadian Pacific was the only active rail to display firmness. Mexican Petroleum, Bethlehem Steel, Republic Gas and Light, valley fertilizer large fractions. Cables announcing another reduction in the bank of England contributed little to the strength of foreign exchange.

Liberty Bonds NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$99.98; first 4's \$99.70 bid; second 4's \$99.54 bid; first 4 1/4's

Charles Chaplin will be with an aplomb in "Pay Day," the first National attraction which will open a run at the Orpheum theatre tomorrow. "Pay Day" is declared to rank among the best comedies the star has produced. The plot is complete in itself and abounds with new stunts, novelties and humorous situations that are not seen in Chaplin's inimitable style. In "Mack Swain," who rejoined him during the making of "The Idle Class," the star has a good deal, while Edna Purviance furnishes a very attractive and capable feminine lead. Sydney Chaplin is also in the role of a starring friend.

"Handle with Care," a beautiful Grace Darmod at the Idaho theater, is the story of a wife who wanted love from a husband who gave her laughter. It is a story for Associated Exhibitors by Al and Roy Rockett from the story by Charles Belmont Davis. "Handle with Care" discloses a new angle on the marriage tangle. And it is not a triangle. Participating in the tangle are Harry Myers, Jimmy Morrison, Lancers Brown, Palmy Ruth Miller, William Austin and William Courtwright.

Now He Knows. Johnny—Would you please tell me, teacher, what logic is? Teacher—Logic, Johnny, is the art or science of reasoning; correct inferences or conclusions. In other words, that which may convince you that things are or are not what they are. Johnny—

FARMERS ARE SKIRMISHING WITH WEATHER

Impatience to Begin Active Work on Larger Scale Than Backward Spring Permits Characterizes Situation

Backward spring conditions existing here are admittedly discouraging to the farming industry but there is little or no evidence of discouragement among the farmers of this district. Employment agencies report steady demand for farm labor with the supply continuing largely in excess of demand, and farmers generally have improved the time with preparations for intense activity when the spring actually opens, while advantage is being taken of every opportunity to get in as much work in the fields as the weather permits.

Economic Disturbance a Factor.—Late fall conditions last year would allow planting as soon as the ground is fit for the drills to start. Because of disturbed economic conditions, however, farmers have been unable to know whether they would be in position this year to farm or not, and because of that fact, it is said that a greater amount of plowing remains to be done this spring than in previous years. In numerous instances, it is said, farmers stop plowing their fields piece-meal, turning over such portions as are thoroughly fit in position of the work being done now and connecting them up as the moisture allows. Farmers generally express impatience to begin active work on a large scale than weather conditions so far have permitted, but the spirit generally is far from being one of despondency. Some persons with recent memories recall that the spring of 1917 in this district was as late or later than this, and that the harvest season that year came on only about a week later than usual, while bumper crops were produced.

FARM BLOC PROGRAM

WASHINGTON, D. C., (AP)—Legislation providing long term credits for farmers, reduction of railroad rates, adequate tariff protection for agricultural products, and development of the Muscle Shoals, Ala., projects as a fertilizer producer were announced to the senate today by Senator Capper, republican, Kansas, as among the objectives of the agricultural bloc.

MINERS RETURN TO WORK

NASHVILLE, Tenn., (AP)—Miners of the Bon Air corporation, which operates in the Nashville district, Eastland and Clifty, Tenn., are said in advices today to have all returned to work on the 1917 scale with an agreement that whatever scale is adopted by the miners and operators in their negotiations eventually will be effective.

BLAST INJURES TWO

SALT LAKE CITY, (AP)—Two men were seriously injured and many buildings were damaged today when an explosion of T. N. T., three thousands of tons of large rock fragments into the business section of the town of Helper, Utah. Investigation and development of the explosion that the heavy charge of high explosive had not been sufficiently weighted prior to firing. Many structures in the business district were wrecked by the force of the explosion.

AVIATOR KILLED UPON EVE OF WORLD FLIGHT

Famous Flyer and Passenger Lose Lives when Machine Crashes on Trial Trip

LONDON, (AP)—Sir Ross Smith, the Australian aviator who with his brother, Sir Keith, had planned to start from Croydon April 25 on a flight around the world, was killed in a practice flight at Brooklands today. Lieutenant Bennett, an engineer, who was planning to accompany Sir Ross and his brother on their around the world flight, also was killed. The machine which crashed was the one the Smiths intended to use in their flight. Captain Conkley of the Vickers company had previously flown it for half an hour, then handed it over to Captain Smith.

As the machine was approaching the airfield to land it got into a spin and the crash followed. Captain Sir Ross Smith sprang into prominence in 1919, when accompanied by his brother, Sir Keith, he made flight from England to Australia, 11,500 miles, winning a prize of 10,000 pounds from the Australian government. Both aviators were knighted for the feat.

Saw Much Service

Captain Smith saw distinguished service in the war, first with the Australian forces in Egypt and Gallipoli, and later with the Australian flying corps in Egypt and Palestine. He was one of the British army aviators who, in December, 1918, made the first flight from Cairo to Calcutta.

The route of the flight around the world which the brothers expected to start from Croydon, near London, April 25, was by way of France, Egypt, India, Japan, and Siberia, thence jumping to North America at Bering straits with landings on some of the Aleutian Islands and the Alaskan, in Alaska, thence across Canada to the 800, arriving there to the southeast to New York and continuing along the New England coast to New Foundland for the jump across the Atlantic to Ireland. The aviators expected to cover the 21,500 miles in 240 hours of flying spread over a period of three months. Their machine was of the bi-plane type, fitted with wheels for alighting on land and propelled by an engine of 150 horsepower.

SECRETARY FAVORABLE TO PLAN OF REHABILITATION

Scheme to Settle Former Service Men on Ten Acre Tracts with Free Irrigation and Tuition Wins Official Approval

WASHINGTON, D. C., (AP)—Secretary Fall today said he approved the bill pending in congress which provides for co-operation between the interior department and the veterans' bureau in establishing a settlement of rehabilitated former service men on a reclaimed spot of the Yuma mesa in Arizona. In the course of the hearing, the secretary said, would initiate the first practical effort in the placement of service men on a reclaimed project. The plan of the bill contemplates turning over to the veterans' bureau a number of five and ten-acre farm units for which the reclamation service will furnish a complete irrigation system. Veterans capable of farming, would be schooled in agriculture during the period of land preparation and building, and as soon as the lands were productively would take over their plots.

Ladies of Altar Society will have a cowdy food and drink, April 16, at Alford & Mott's, Main West.—adv.

MONTANA BUYS BIG SHIPMENT

Over 500 Pairs of Hungarian Partridge on Way to America for Restocking

NEW YORK, (AP)—For the first time since 1914 a shipment of more than 1000 game birds for stocking the game preserves of the west has started on its way from Europe to the United States. H. P. Holland, vice president of the American Game Protective and Propagation association, announced today.

The cargo of live wild birds, Hungarian partridges, consists of 540 pairs in 60 cages aboard the Panamanian, which left Hamburg, Germany, and is due in New York on April 25. "The state of Montana, through its department of fish and game, and the Thomas N. Maffey of Missoula, is chairman, has purchased these birds," said H. Holland, "to stock the state and bring back some of the game lost by indiscriminate gunning in the early days.

Thirty in Washington. "The Hungarian partridges, introduced in small numbers in the east, have not been much of a success in the state of Washington released 80 pairs in the county of Spokane about two years ago and last year Mr. Marjole informed me, there were 150,000 shot during the season, and it is estimated that about that many more can be shot this season without impairing the breed supply. The birds have multiplied rapidly. The Hungarian partridge is now doing very well in the province of Alberta, Canada, and is being shipped to Idaho and are multiplying rapidly. The Hungarian partridge is now doing very well in the province of Alberta, Canada, and is being shipped to Idaho and are multiplying rapidly.

"The state of Montana is distributing these birds free throughout the state and our association will meet the birds here and label 120 boxes for the state and direct shipment. We will feed the birds here and see that they get started for their new home in the local physical conditions as possible." H. Holland said that while other small shipments had come into the country for individuals this was the largest shipment for a state so far reported.

CRACKING TENDENCIES OF METAL WILL BE TESTED

Important Experiments to be Undertaken in Interests of Manufacturers of Motor Cars

WASHINGTON, D. C., (AP)—At the suggestion of the automobile manufacturers and large foundries of the country, the bureau of mines announced today that an investigation of fact reaching importance would shortly be made to determine the cracking tendencies of commercial aluminum alloys. The purpose of the proposed investigation, to be made in conjunction with the General Motors Research corporation, was said to be to determine whether lighter weight motor cars can successfully be manufactured and to obtain the same stability now found in the larger and more substantial vehicles.

At the bureau's Pittsburgh station an investigation was said to be now under way to ascertain "the total variation in volume on freezing, and the linear expansion in different grades of various light aluminum alloys." Commercial melting practice for aluminum, it was said, already had been made the subject of a preliminary study and the results would be made public in the near future.

FOR ALL YEAR SUITABLE

BAKERSFIELD, Cal., (AP)—Mrs. Milton W. Higgins, national president of the Parent-Teacher association, speaking here last night, said that in a comparatively few years school would be conducted all the year around. She said that "instead of spending the summer in the street, pupils should be sent to the woods to learn to build houses and other useful things."

RUTH'S BRAIN IS GREAT MACHINE

Sparker Contrasts the Earning Power of Slugger with Salaries of Other Members

LOUISVILLE, Ky., (AP)—A university president at Oxford, Miss., said Dr. Winship, "any ten state commissioners of education, any eight city school superintendents, and if he makes as many home runs as in 1921 he will have \$30,000 more than the president of the United States. His remuneration is not the result of trick work, it is not made at the disadvantage of anybody, not due to striking oil, and not due to politics nor business combination. It is pure intensified brain power such as no other American equals.

"Ruth's mind accurately estimates when and where the ball that is being hit like lightning will cross the plate. At the same time he has decided just where to have his bat swing the ball. "America is waiting for an equally brainy university president to estimate what is best to equip students in college to give the best service in life."

EIGHT COUNTRIES ARE IN LONDON

(AP)—Eight countries are represented among the entries so far approved for the Masters' Tournament of the London International Chess Congress, which begins on July 31. Cuba's contingent to the congress includes, besides the world's champion, J. E. Capablanca, Benoitia Maria Teresa Mora. Benoitia Mora's entry is the only one recorded to date for the Winona's chess tournament beginning August 7.

START IS DELAYED

LISBON, (AP)—Bad weather prevented a start today by Captains Baccarus and Goulho, the Portuguese aviators, on the third stage of their flight to Brazil from the Cape Verde islands to St. Paul rock, in mid-Atlantic. The aviators called here today that the conditions would make it impossible for them to leave before Sunday.

THE TIGER AND THE MOVIES

The Tiger of France, Clemenceau,
most renowned of all living Frenchmen,
is reported to be composing a
scenario for the films.

As a turbulent career of ups and
downs, picturesque enough to draw the
eyes of all the world to him, from the
very midst of all the great noisies of a
noisy world, this statesman has retired
now to the quiet life of a scenario writer.

He that once held in his hand the
destiny of his own nation, and swayed
strongly those of other national groups,
is now sharpening pencils and wearing
them dull by constructing plots and
writing out suggestions for scenario
producers and actors.

A marvelous transformation, this; not
likely to be encountered in the lives of
many men in any age; comparable only
to a chimney sweep's becoming lord
mayor of London. The biographer of
this French statesman will have some
little trouble in deciding just how to
treat this new diversion of Clemenceau.

It will seem in the book a rather flat
ending to have to record the fact that
"from this time on M. Clemenceau became
a scenario writer."

But is this change of interests and
occupation as remarkable? Is it through
a changed life not Clemenceau through
his whole public career issued orders
and made suggestions to directors and
actors in the great drama of life? Has
he not staged many scenes, and produced
many comic and tragic situations? He
has always understood men and the
motives from which they act, and he
has always lent his energies in the di-
rection of placing them aright in the
volunteer part of the stage in his opin-
ion they belonged.

'No! Clemenceau's decision to take
up scenario writing is the logical next
step. With imaginary characters he
has the power, which in real life his
followers at times withheld from him.

GARDENING TIME AGAIN

The inventive war production and the
urge of post-war prices alike have
passed, not so much will be heard
of the vacant but gardens this spring.
Patience and thrift no longer spur us
once they did.

Nevertheless, there will be much
spading and planting in the next few
weeks in soil that, before the war, was
given over to weeds. A multitude learn
ed during the fog of the back-yard
garden that the effort is repaid many
fold. Not a few who took to garden
making for their country's sake, or for
the garden's sake, will sow and pluck
again this year for their own sake. It
is not only profitable but full of pleas-
ure, health and recreation.

Of course, all do not find joy in the
same garden. But the man who loves
the feel of the soil and finds philoso-
phy in the miracle of life and growth,
quickly becomes an addict. He may
not talk much about it as in recent
days of enthusiasm, but will hie his
row in contemplative contentment just
the same.

Not all good citizens are home gar-
deners, but most home gardeners are
good citizens.

COUNTY NEEDS HOOVER
However gratified the people of Cal-
ifornia might be should they be able
to induce Secretary Hoover to run for
the United States senate, the people
of the rest of the country could not
help a feeling of deep disappointment.
In his present place as head of the de-
partment of commerce, Mr. Hoover is
giving the United States a rare exam-
ple of governmental efficiency. For
the first time since the department of
commerce was instituted a general

sense of its usefulness is apparent
among business men.
No mistake, indeed, is the apprecia-
tion of Secretary Hoover's effective-
ness as a coefficient of American busi-
ness enterprise that many people al-
ready perceive a desire in themselves
to promote him in due time to an even
higher place. In the meantime they
earnestly desire to retain his unusual
abilities and vision in the position
where he now serves.

An efficiency expert is a person who
can show that everybody else is in-
efficient.

The difference between man and wo-
man is that the former can't stop with-
out trying something.

JUNIOR CHURCH
GREAT SUCCESS

Only Institution of Its Kind Said
to be Accomplishing
Much Good

INDIANAPOLIS, Ind. (AP)—A junior
church, the membership of which is
limited to persons between six and 16
years old, with the preacher the only
present, is being successfully oper-
ated in this city. The plan was in-
augurated by the Rev. N. B. Sichter-
man of Grace Presbyterian church.
According to Dr. Sichterman, there
are 50 children ranging in age from 2
to 16 years who are members of the
junior organization. They have their
own services, which are of thirty
minutes' duration, and have their
own officers. The plan was put into
operation in January and Dr.
Sichterman is so pleased with the
results that he expects soon to double
the membership.
Dr. Sichterman said the idea of
forming a junior church developed
from his experiences in church work
a boy.

Locals Boyhood Days.
"My people came from Holland and
settled in a neighborhood of Holland-
land in a small Michigan town," he
said. "The church I attended as a
boy also used the Dutch language and
the sermons sometimes lasted two
hours or more. I will remember how
lined and restless I would get as the
sermon dragged on for the stretch, while
appealing to adults, was not such a
would appeal to the child.
"It was this experience which gave
birth to the junior church idea, and
last January I started the organiza-
tion. The results have been gratifying.
The children have their own board of
elders, boys of deacons, and board of
trustees and name their own officers.
They also have their own choir. I am
the only adult present at the services.
The services last only 30 minutes which
I believe is sufficient, for he keeps
the children interested every minute.
The hymns and text of the sermons are
such that will appeal to the child-
hood.

Dr. Sichterman said he had started
the children into singing in three-
minute talks and hoped eventually to
have some of them take turns at
preaching.

NOTICE TO LOT OWNERS IN TWIN
FALLS CEMETERY

The annual charge for maintenance
of lots in the Twin Falls Cemetery for
the year 1922 will be due and payable
this 15th day of the month of April.
H. Taylor, 127 Main Avenue East, May
1st, 1922. The assessment is \$4.00 for
a full lot, \$2.50 for a half lot and \$1.00
for a single grave. Please give this
matter your attention.—adv.

Worth Knowing.
It is said that marks on a polished
or varnished surface may be removed
by first rubbing them with a cut lemon
and then with a cloth dipped in water.

FATTY, ACQUITTED, WILL
ATTEMPT TO COME BACK

Arbuckle Jury Agrees on Ver-
dict of Not Guilty; Decision
Easily Reached, Report

SAN FRANCISCO, Cal. (AP)—Roscoe
C. (Fatty) Arbuckle, film comedian,
found acquitted today after undergoing
three trials on a charge of manslaughter
for the death of Miss Virginia Rappe,
screen actress, who was taken to a
hospital fatally ill after a party at
which Arbuckle was host in hotel rooms
here. Arbuckle was heard after the case
was submitted to the jury late yester-
day afternoon. The verdict of not
guilty had been returned. Arbuckle
of the jury said the actual agreement
was reached by acclamation within a
few minutes after they retired to delib-
erate.
Arbuckle said his plans were uncer-
tain.

"I am going to take a good rest and
get rid of some of this surplus flesh,"
explained the actor whose picture fame
was associated with his weighty phys-
ique.
"If the public doesn't want me,"
he added, "I'll take my medicine. But
after the quick vindication I have just
received, I am sure the American peo-
ple will be glad to believe I am due
for a comeback."

Members of the jury, in statements
to the press, said Arbuckle "deserved
no such a severe sentence." Mrs. Irene
White, a juror, declared the jury had
felt "there was absolutely no case
against Arbuckle." Another member
said the conviction "impressed an as
a man who was telling the truth."

The two previous Arbuckle trials had
resulted in jury disagreements.

BERGER

BERGHE—H. C. Erlerson, who has
been a resident of the Salmon tract and
Berger neighborhood the past nine
years, was given a farewell reception
by friends and neighbors at the home
of Mr. and Mrs. J. M. Pierce Sunday.
He was taken unwarmed and was com-
pletely surprised. Owing to poor health
Mr. Erlerson has decided to quit farm-
ing, having rented his farm, and will
move to Twin Falls.

Easter will be observed by the Sab-
bath school with a program Sunday
evening. The program will consist of
music by the Berger orchestra, songs
by a male quartet, also by a mixed
choir, and recitation by school children.
Brotherhood will be served in the morn-
ing at 10 o'clock by the Sabbath school
after which appropriate exercises for
the occasion will be rendered.

Notwithstanding the inclemency of
the weather the farmers are continuing
with their spring work.

Mrs. A. G. Ayer who has spent several
days visiting friends and relatives in
Twin Falls, returned home Tuesday.
There was a social hop with a large
attendance at home of Merion Hum-
phrey Saturday night. Music was fur-
nished by the Melon orchestra.

Miss Pearl Thorp of Twin Falls
visited Miss Marie Thompson the first
of the week.
Among the pupils of Berger schools
who took examinations in Hollister
Friday were: Ambrose Thompson, Hester
McBride, Virgil Wandell, Earl Brady,
Emma McGregor and Albert Shaw.

EXCESS POTATO
CROP IMMINENT

Number of States Producing
Over Supply of Spuds
Constitutes Problem

OGDEN.—Farmers of Utah and
Idaho are likely to precipitate a hard-
ship in the unwarranted acreage they
intend devoting this year to the potato
crop. This was the information con-
veyed to resident Fred G. Taylor at
the chamber of commerce by Joseph
Taylor of Idaho Falls, Idaho, who is
extensively concerned in the potato in-
dustry.

The statement from the Idaho man
was conveyed in a telephone conversa-
tion with the president of the chamber
of commerce, who was former general
manager of the Amalgamated Sugar
company of this city.

Mr. Taylor called attention to the
fact that the Dakota, Minnesota, Ry-
branka, Montana and other potato rais-
ing sections have increased the acre-
age for potatoes this year. The amount
that has been contracted for in
Idaho, it is said, will amount to
60,000 to 80,000 carloads. Mr. Taylor
said the Ogden man that he had never
seen anything like this situation in
the country before. He added further
that personally he was not going to
touch potatoes this year.

Urges Investigation.
President Taylor said that he believed
it was highly important for the
farmers to know of the real situation
and receive the statistics
before planting their crops and de-
ciding on the kind of crop they want to
plant. The prosperity of the commu-
nity depends on the consistent balance
of agriculture products, he added.

President Taylor said he also had
received advices as to the potato crop
from Edward H. Richard, secretary of
the Paul, Idaho, Commercial club, who
said that he could not imagine a more
serious situation in the farmers of the
Middlewest, in Idaho, than the
proboling of an extremely large crop
of potatoes and then to learn to late
that every community in the United
States has done the same thing.
Mr. Richard said that he is compil-
ing information regarding the potato
crop, which he hopes to be able to
give to the farmers of the state im-
mediately, before they plant their
crops.

President Taylor of the Ogden cham-
ber said that he thought the farmers
should consider carefully before decid-
ing definitely upon the crops they are
going to plant this year. He said
there were other crops for the farmers
to consider.

HIGH SCHOOL NOTES

A one-act play entitled "The Flower
Shop," presented by the public
speaking IV class, at the assembly
held yesterday. The cast included Joe
Johnson as Mr. Slowsky, Octavia Wil-
liamson as Maude, Clayton Syon, a
clerk in the store, Helen Wolfe as Miss
Henderson, and Dale Starr as her hus-
band, Mr. Jackson.

Mr. Karnes announced that the in-
ter-class track meet will be postponed
until next Tuesday owing to the ill-
ness of Coach Evans.

The Blue Triangle club met last
night in the home. Each of the four
standing committees, the social, serv-
ice, program, and membership, illus-
trated the first part of the Girl Reserve
code in playlet form. The social com-
mittee portrayed "Gracious in Man-
ner," the program "Impartial in Judg-
ment," the service, "Ready for Serv-

ice" and membership, "Loyal to
Friends." Each member was given
a ballot to sign, following the commit-
tee she would prefer to serve on next
year. After songs and games the
meeting adjourned.

THE Studebaker LIGHT-SIX will
appeal to every buyer who wants
a low-priced car that will be satisfac-
tory in performance, appearance, com-
fort and endurance.
Aid in addition to its recognized su-
periority in these essentials, the LIGHT-
SIX carries refinements found only on
more expensive cars.
The LIGHT-SIX is equipped with cowl
ventilator operated from the instru-
ment board; cowl parking lights; inside
and outside door handles and large
rectangular plate glass window in rear
curtain. A rich-proof transmission
lock, which reduces the rate of insur-
ance to LIGHT-SIX owners 15 to 20
per cent, and cord tires are also stand-
ard equipment.
Long, semi-elliptic springs (50-inch in
rear; 36-inch in front) and soft, gen-
uine leather upholstered cushions, 300
inches deep, provide unusual comfort.
Its 40-horsepower motor delivers
ample power for the hard pull. And
vibration is practically eliminated by
Studebaker's method of machining the
crankshaft and connecting rods.
The intrinsic value of the LIGHT-SIX
is unmatched at anywhere near the
price because Studebaker does not
skimp on materials or workmanship
but uses the best. It is built complete
in the most modern and complete
automobile plant in the world, a o. b.
factory.
Studebaker has been building quality
vehicles and selling them at fair prices
for nearly three-quarters of a century
and is the largest builder of six-cylinder
cars in the world.
Towing, \$1045; 3-Passenger Roadster, \$1045; Coupe-Roadster, \$1375;
Sedan, \$1750. All prices f. o. b. factory.

LEGAL ADVERTISEMENTS

NOTICE OF SHERIFF'S SALE OF REAL ESTATE UNDER DEED OF FORECLOSURE AND ORDER OF SALE.

H. L. Stewart, Plaintiff, vs. John E. White, and Carrie Harper White, husband and wife, and First National Bank of Twin Falls, a corporation. Defendants. Under and by virtue of an order of sale and decree of foreclosure, issued out of the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, Idaho, dated the 1st day of April, 1922, wherein, H. L. Stewart, the above named plaintiff, obtained a decree against John E. White and Carrie Harper White, husband and wife, and First National Bank of Twin Falls, a corporation, defendants, on the 31st day of March, 1922, which said decree was on the 31st day of March, 1922, recorded in Judgment Book Seven of said District Court, at page 303, I am commanded to sell all that certain lot, piece or parcel of land situated in the County of Twin Falls, State of Idaho, and bounded and described as follows, to-wit:

Southeast quarter (SE 1/4) of Section Twelve (12), Township 10 (10) North, Range 18 (18) East, E. B. M., County of Twin Falls, State of Idaho. Public notice is hereby given, that on the 6th day of May, 1922, at the hour of 2 o'clock p. m. (Mountain time) of said day, at the east front door of the Courthouse of the County of Twin Falls, State of Idaho, I will, in obedience to said order of sale and decree of foreclosure, sell the above described property, together with all costs that have accrued or may accrue, to the highest bidder for cash money of the United States. Dated this 12th day of April, 1922. H. L. STEWART, Sheriff.

By Bonnie Herriman, Deputy.

NOTICE OF ELECTION.

Notice is hereby given, that a petition, asking the establishment of Rock Creek Highway District, out of the lands in the Twin Falls Highway District, and accompanied by a map of the lands to be included in said Rock Creek Highway District as required by law, has been filed in the office of the Board of County Commissioners of Twin Falls County, Idaho. That the lands asked to be withdrawn from the Twin Falls Highway District are described as follows, to-wit:

Commencing at the southeast corner of Section 33, Township 11 South, Range 10 E. B. M., thence north five miles to northeast corner of Section 9, Township 11 South, Range 10 E. B. M., thence west 1 1/2 miles to the half section line of the southeast 1/2 of Section 5, Township 11 South, Range 10 E. B. M., thence north 1 1/2 miles to the intersection of the right-of-way line of the Low Line canal with the line between Sections 9 and 10, Township 11 South, Range 10 E. B. M., thence westerly along the said right-of-way line of said Low Line canal to its intersection with the range line between Ranges 17 and 18, E. B. M., thence south approximately 1 1/2 miles to the intersection of the south side of the right-of-way line of the Low Line canal with the line between Sections 9 and 10, Township 11 South, Range 14 E. B. M., thence east six miles, to the southeast corner of said Township 14, thence north eighteen miles to the southeast corner Township 11 South, Range 18, E. B. M., thence east three miles to the place of beginning.

And, that an election will be held at Rock Creek schoolhouse, No. 5, on Saturday, the 15th day of April, 1922, for the purpose of determining whether or not Rock Creek Highway District shall be formed from the land above bounded.

The election shall be by ballot and the ballot shall contain: "Rock Creek Highway District"—Yes "Rock Creek Highway District"—No and the polls shall be open from 9 o'clock a. m. to 6 o'clock p. m. of said day.

All qualified electors, residents of said district are entitled to vote at this election. Dated this 12th day of April, A. D. 1922.

C. C. SIOGINS, Clerk of the Board of County Commissioners.

By John F. Hanes, Deputy.

The News is read by the permanent carrying clause.
