

FIRST WOMAN TO ENTER RACE FOR GOVERNOR

Candidacy of Mrs. W. D. Mowry for Position of Chief Executive of Kansas Attracts Attention Over State

TOPEKA, Kan. (AP)—A pathfinder rather than a politician, Mrs. W. D. Mowry of Kansas City, Kan., whose name will go on the primary election ballot next August as the first woman gubernatorial candidate in Kansas. In filing her candidacy, Mrs. Mowry also was the first person to register her intentions for the August primaries.

Although active in local affairs, Mrs. Mowry expressly stated that she is not a "society woman." She was president of the first Wyandotte (Kansas City) Republican club some years before national suffrage was enacted. She is past president of the History club of Kansas City, chairman of the legislative committee of the Kansas City, Kan., Federation of Women's Clubs, and has been affiliated with other women's suffrage and literary organizations.

GERMANS HAVE HEAVY DEMAND FOR PRODUCTS

Output of Factories Contracted Years Ahead; American Buyers Given Short Shift in Race for Manufactured Goods

BERLIN. (AP)—American commercial representatives who come here to make purchases find that German manufacturers often are sold out for a year ahead and that they have long-time contracts with British, French, Swiss and other manufacturers and consequently cannot guarantee deliveries in America.

Five hundred American buyers who attended a recent exhibition of German-made goods are said to have made a few purchases except in such lines as toys, novelties and implements, delivery of which usually could not be guaranteed under a year.

American here are devoting much of their attention to purchasing hosiery, and objects, paintings and articles associated with princely families who are in financial straits.

THIRD-YEAR MEN WIN FIRST PLACE

Interclass Track and Field Meet on Lincoln Field Regarded Splendid Success

The inter-class meet which was to have been held last Tuesday was held yesterday afternoon at Lincoln field, and resulted in the Junior class winning with 27 points to their credit. The Seniors took second place with 45 while the sophomores made 15, and the freshmen made 1.

It was a great meet, with all students of the different classes rooting for their respective heroes.

Couch Evans, who has been under the weather for the last few days, was in charge, and was ably assisted by R. V. Jones, E. P. Nafziger and H. W. Morrill had charge of the weights and jumps.

The opening event of the afternoon was the 50-yard dash and was won by Eldred Patz, Houghtelin coming in second and Dudley Swin pulling down third place. The time for this event was 5:04. Patz ran a nice race and was very fast.

In the first trial heat for the 100-yard high hurdles, Browne, soph, and Murray, fresh, were first and second, but were disqualified for knocking down three hurdles, the next two were Nob, soph, and Lyons, junior, the next best, George Johnson, junior, took first place. In the final, Lyons, junior, won first place; Johnson, junior, second, and Nob, senior, third. Time 1:30 seconds.

The mile run was a dandy, and brought out the fact that the Juniors were going to have things their own way in the running events, as Clifford Bice, who handled, with Julius Roy, also a Junior, in second place, while Ralph Ormsby, also a Junior, took third money. This race gave the Juniors 9 points, and started them on their way to win the meet.

In the javelin throwing, Moroni Jamieson of the Juniors, took first with 117 feet 4 inches. Joe Johnson, senior, took second, while Veronna Murray, fresh, took third. Incidentally, this was the only time that the sophomores took the lead at the shot and for 100 yards went at a terrific pace. He began to weaken at the last turn, where Patz overtook him. It looks as though Patz belongs in the 440, and when the southern central section have their meet at Darby, he should be an easy winner. This holds good for the Boise eliminations, too.

The 220 low hurdles in the first trial heat brought Lyons and Houghtelin in first and second place. The time in this heat was 3:02. The second heat gave Walter Wroner, soph, first place, and Marshall Summerville, junior, second. The time in this event was 3:30. The final put "Bea" Lyons, junior, in first place, Houghtelin, senior, second, and Summerville, junior, third. Time 3:02.

In the discus throwing event Beves, soph, won first with a throw of 81 feet. Forrest Strickling, Junior, was second, and Clarence King was third.

Makes Good Record. The running broad jump was won by Bob Putzler, senior, with 17 feet 8 1/2 inches. Jamison, junior, second, and Alford was third.

In the shot put, Putzler also took first place with 38 feet. Nicholson, senior, took second with 34 feet, 7 inches. Patz was third with 32 feet, 10 inches.

Bring On Your "Strangler" Lewia!

"Strangler" Lewia, demerit of heavy-weight wrestler, might not do so well against "Brownie," wrestling bear of the Philadelphia zoo. Nothing phases the brute so much as to engage in a tussle with a strong man. The picture shows him ready for action just as soon as his keeper gives him the least encouragement.

Down, 44 ft. was his first event, while all other contestants had been in one or more races. The time for this event was two minutes, 37 seconds.

In the high jump, Frank Powers, junior, won with a jump of 5 feet 5 inches. George Johnson, junior, was second, while Putzler and John Nob, both seniors, were tied for third place.

The pole vault was the last event of the day, with Putzler, Houghtelin, Ryan and Alford as their stars, while the fresh were represented by Kriwanek, Day, Hardesty and G. Jarman. This event was won by the senior with Dudley Swin coming in first, Alford of the soph, second, while Jamieson of the Juniors, took third place.

The meet was an entire success, and the officials are to be congratulated for their handling of the affair. Very little time was lost between events, and all in all it was a gala day, especially for the Juniors.

Shotput—Putzler senior, first, 38 feet; Nicholson, senior, second, 34 feet; Putzler, junior, third, 32 feet, 10 inches.

Javelin throwing—Jamieson junior, G. Johnson, senior, second; Murray, fresh, third. Distances: 117 feet, 4 inches.

Running broad jump—Putzler, senior, first; Jamison, junior, second; Alford, soph, third. Distance: 17 feet 8 1/2 inches.

AMATEURS DO GOOD WORK BATTING RIOT KEEPING UP

National Tournament at Boston Brings Out High Class Boxing

BOSTON, Mass. (AP)—The country has a brand new set of amateur boxing champions today, the product of a national tournament, never equaled in the degree of competition.

The 11 hours fighting which ended early this morning required to decide the eight titles, was a record for these several championships carnivals.

The list of champions for the year, almost without exception because of the newness of its members, follows: 112 pounds—T. P. McManis, Pittsburgh.

116 pounds—Sid Terris, New York. 125 pounds—George Fifelet, Toronto. 135 pounds—Joe Ryan, Pittsburgh. 147 pounds—Henry D. Simons, Gary, Ind.

160 pounds—William Antrobus, New York. 176 pounds—Charles McKenna, New York. Heavyweight—John Williams, San Francisco.

The champions, the first to be selected under the new Olympic weight classifications, will be invited, it has been announced, to go to the Pacific coast for a tournament in San Francisco next month.

George Monco of New York, heavy weight champion last year, passed out of the title picture a disappointed man, after in his last 43 bouts, he was upset when the decision went against him and to Williams, after an extra round, that he threw into the crowd the watch given him as second prize.

BOY IS POSTPONED. NEW YORK, (AP)—Postponement of the best American Heavyweight match scheduled for Jersey City tomorrow night, has been announced. Fimp, the South American heavyweight, asked more time to train for the bout and the exact date of the affair will be determined and a new site selected later.

Major League Rich in Sluggers Variety of Offerings Well Handled at Plate

NEW YORK, (AP)—The early season batting rampage continued unabated yesterday, major league sluggers, particularly in the American, swatting the offerings of a parade of pitchers for several broadsides of base hits.

Cleveland and Philadelphia Athletics led the attack, Speaker's class continuing its unbroken winning streak by rattling out 28 hits, including nine doubles, for 17 runs at the expense of St. Louis, while the Mackmen hung up a similar tally in swamping Washington.

Walter Johnson, "ace" of the Senators, was hammered from the box in his first appearance of the season. Four former Boston Red Sox stars—Scott, Schang, Bush and Jones—played stellar roles in aiding the Yankees to humble their old team mate.

Detroit dropped the fifth straight game, losing to Chicago. The Giants were 14th because of rate, but getting undisciplined hold on first place when Chicago dealt St. Louis another reverse. Pittsburgh made a clean sweep of its series with Cincinnati.

New York sluggers today led the race for hitting honors, Snyder and Grob showing the way in the National, and Scott and Ewing climbing to the top in American, each collecting three hits yesterday. Speaker and Johnston, the Athletics' first sacker, each gathered four hits, while Fournier of the Cardinals, hung up the only addition to the home run column.

DISQUALIFIED IN TENTH. NEW YORK, (AP)—Young Bob Fitzsimmons was awarded a decision here last night over Jack Beves, San Francisco, after the latter had been disqualified in the tenth round for fouling. Beves had outpointed Fitzsimmons in the majority of the rounds. Fitzsimmons weighed 180 pounds and Beves 170.

TO PLAY POCATELLO TEAM

First Real Game of Season When Local High Meets Railroad City

The first real game of the season will take place Friday afternoon when the local high school team is to cross bats with the Pocatello high school. Pocatello comes here with a fine record, and the locals will have to snap up. Coach Evans is giving them some real practice these days, and with Eric and Jarman in tip-top condition to do the checking, with the other players also behind the plate, the bats from the railroad city should have their hands full in taking as much as one of the two games played. There will be two games, one on Friday and the other on Saturday. The Friday game will start at 2:30.

This will be the first real test of the season for the locals, and although a good many of the boys are playing their first year of high school baseball, the team is rounding out nicely, and the fans can rest assured that two rousing games are in store for them on Friday and Saturday.

On Tuesday next, the snappy Hazelton team will be here to play the locals. Hazelton has a real team, and their ambition in life is to give Twin Falls a beating. Whether they can do this remains to be seen, but nevertheless, it should prove to be a real battle. The new uniforms arrived this week, and Friday will see the ball players topped up like circus queens. They are blue with a white stripe, with a white "H" on the left-hand side of the shirt. On the 28th the track team tracks to Burley for the annual elimination for

MEANS MUCH TO SCIENTIFIC MEN

Discovery of Pre-Historic Clam Would Revolutionize Present Day Theories

BUENOS AIRES, Ore., (AP)—A pre-historic clam which in all probability will receive the serious attention of geologists throughout the United States has been found in southern Oregon by two geological students of the University of Oregon. Buried in sandstone formation and looking very much like shells to be found along sea coasts at present, these fossils were discovered 15 miles east from Roseburg in the Umpqua valley. Dr. Paul Packard, acting head of the geology department, told how the discovery affects paleontological theories. The epizym, the name by which the extinct clam was catalogued, has never before been found above the cretaceous. The fossil was in the cretaceous formation, that geological period when mammoths and other huge monsters sluggishly ambled about in dense forests. The epizyma was supposed by geologists to have lived in a previous epoch, but if this discovery is verified by further research it means that the epizym lived in an era several millions years beyond the time when it was supposed to have disappeared from the earth.

MEANS MUCH TO SCIENTIFIC MEN

Discovery of Pre-Historic Clam Would Revolutionize Present Day Theories

BUENOS AIRES, Ore., (AP)—A pre-historic clam which in all probability will receive the serious attention of geologists throughout the United States has been found in southern Oregon by two geological students of the University of Oregon. Buried in sandstone formation and looking very much like shells to be found along sea coasts at present, these fossils were discovered 15 miles east from Roseburg in the Umpqua valley. Dr. Paul Packard, acting head of the geology department, told how the discovery affects paleontological theories. The epizym, the name by which the extinct clam was catalogued, has never before been found above the cretaceous. The fossil was in the cretaceous formation, that geological period when mammoths and other huge monsters sluggishly ambled about in dense forests. The epizyma was supposed by geologists to have lived in a previous epoch, but if this discovery is verified by further research it means that the epizym lived in an era several millions years beyond the time when it was supposed to have disappeared from the earth.

Poetry and Reality. It is one of the misfortunes of progress that the teeth of Little Boocah is not in Kashmir rain, by the crystal pools of Shalimar, but close to one of the rumbling little rattlers that are modernizing Hindustan. She Discovered It, Too

After 10 years of hit or miss baking with various other brands of powder I at last discovered that the bitter taste sometimes found in hot breads was caused from alum in cheaper grades of powder. So I am now an ardent booster for Royal Baking Powder.

FREIGHT RATES IN IDAHO TO BE INQUIRY TOPIC

Utilities Commission Takes Action in Line with Suggestion of Leonard Way and Sets a Date for Investigation

With a view to prescribing an intrastate scale of class and commodity freight rates for use within the state of Idaho, the state public utilities commission has set July 25 at Boise, as the time and place for the entering upon an investigation which the commission and commodity rates now in effect for the purpose of making such order or orders as might thereby be justified.

The commission's decision in this regard is in line with the suggestion made by Leonard Way, secretary of the Southern Idaho Traffic Association, at the investigation in class and commodity rates which the commission decided that rates in effect in the upper Snake River and Wood river districts were discriminatory.

Urges Basis of Equality

It was Mr. Way's contention that all Idaho shipping points should with respect to a plane of equality with respect to these rates. He did not present argument in support of this contention at the prior hearing because of the limited time at the disposal of the commission on that occasion, but will urge his views at the hearing in July.

The commission's order providing for the hearing in July provided that if the proposed scale is not found practicable as a state-wide matter, the commission will proceed to fix tentative rates of such points as may be properly deemed distributive centers and the class and commodity rate to be used as distributive rates therefrom.

Boise Ties Question

The question in the first place was raised by the Boise Chamber of Commerce which alleges that a new schedule of freight rates proposed to be used by the Oregon and the Idaho was discriminatory against Boise and in favor of Coeville as a shipping point.

APPRAISERS BEGIN WORK ON DISTRICTS DIVISION

Basis for Settlement Between Twin Falls and Murtaugh Road District Sought

J. S. Thompson, associated with J. H. Schofield, Earl Lake, accountant, appraiser for the Murtaugh highway district, and James Monroe, associated with Edwin A. Wilson, Twin Falls, accountant, as appraisers for the Twin Falls highway district, have entered upon the consideration of the road district of the Twin Falls district with a view to determining a basis for distribution of credit and claims for roadwork as between the Murtaugh district and the Twin Falls district out of which it was created.

The appraisers began their work at the courthouse where they are inquiring into the records as to transactions between the Twin Falls district and the county.

Neither of the appraisers believe it is necessary at this time that would be occupied in their work. Mr. Thompson, however stated that the job was a bigger one than he had anticipated, and indicated that he would call for an assistant from the Salt Lake office.

ENORMOUS POTATO CROP THIS SEASON INDICATED

Replies to Chamber of Commerce Inquiry Estimate 33-1-3 Per Cent Increase

Production here this year of 33-1-3 per cent more potatoes than the largest crop grown in the Twin Falls district in five years past, is indicated by a survey of replies received to letters of inquiry sent out by the Twin Falls Chamber of Commerce.

Last year, according to figures given out by the chamber of commerce, Twin Falls county growers devoted 7,650 acres to potatoes. The average estimated increase this year is 40 per cent, according to the returns of the questionnaire, or it is expected that approximately 11,000 acres will be planted to potato if conditions do not change between now and planting time. The estimates give range from 20 to 90 per cent increase, with an average estimate of 40 per cent increase this year.

If such a crop as is estimated is grown, it is considered probable that the yield will be approximately 33-1-3 per cent more potatoes than ever grown here in the past five years. Such a crop at an average production of 140 bushels per acre would yield 1,500,000 sacks, or 3,000,000 bushels or approximately 5,000 carloads.

KINGSWOLD AND GOONEY GUILTY

Jury in Second Trial Finds Accused Men Were Drunk When Arrested

Fines of \$25 each were today imposed by Police Judge E. Taylor upon Andy Kingswold, formerly operator of the ferry at Shoshone falls, and Tom Cooney, plumber, who were Tuesday convicted by a jury in police court of having been drunk when they were arrested here in the early morning hours following the commission and election of March 28, in which both were active workers.

The case was tried Friday for the second time, the jury in a previous trial having failed to agree upon a verdict, being understood that the vote stood four for conviction and two for acquittal.

The verdict Friday was reached at about 9 o'clock after about three hours of deliberations, and was agreed to by all of the members of the jury. Leniency was recommended by the jury because, the attorney said, Kingswold and Cooney may have been severely punished by the arresting officer.

In his closing sentence this morning Judge Taylor said:

"In pronouncing judgment in this case I am apologizing therefore, other than the fine, to the city of Twin Falls and the third offense of Mr. Kingswold and the city of Twin Falls has been in an expense in the two trials of this case approximately \$100. I think it only fair that the defendants in this case stand half of this expense and it is therefore the judgment of the court that each of you be fined in the sum of \$25."

The trial Friday developed new features that were not brought out in the first trial. E. J. Murray, proprietor of the Twin Falls laundry, was an official witness for the prosecution.

The defendants admitted that they had been drinking, but denied that they were drunk. The theory of the defense was that Kingswold and Cooney were the victims of spite work on the part of officials who had been disappointed by the adoption of the commission form of government at the election.

The case for the prosecution was conducted by City Attorney Taylor Cooney. Honorable C. Mills was attorney for the defendants.

Members of the jury were: B. N. Readahl, J. P. Johnston, G. P. Welch, F. W. Bronaugh, J. W. Houck and Charles N. Walgreen.
