BELGIUM WILL BE ACCORDED FULL SUPPORT

French Delegation at Genoa Announces Decision to Stand By Position Taken by the Latter Country

GENOA, (AP)—France's decision to support the reversion of Belgium to the private property class of the Reparation fund, the Russians was announced today by the French delegation here on receipt of official information from Paris. It was added that Vice Premier Berton, head of the delegation would meet his return to Genoa, arriving here Saturday.

This announcement is believed to mean that France will stand by its position on the reparations until the property class is further amended in a manner satisfactory to Belgium.

Representatives conceded today that the more the property class is amended to satisfy Belgium, the less satisfactory will it become to the allied government and, therefore, as the question of nationalized property is a fundamental one for the soviets, further changes are liable to increase the difficulties of the negotiations.

ROOSEVELT MAY RUN FOR GOVERNOR

THEODORE ROOSEVELT, Assistant Secretary of the Navy in President Harding's Cabinet and son of the illustrious former president, will be a candidate for the governorship of New York, according to rumors current in the Empire State. He was a Lieutenant-Colonel in the American Expeditionary Forces during the war.

BORAH WANTS TO SEE CREDENTIALS

Declares Russian Ambassador Represents Country Now Out of Business

WASHINGTON, D. C. (AP)—Rights of Boris Bakmestoff, last accredited Russian ambassador to the United States in diplomatic privileges and immunities was discussed in the senate today by Senator Borah, republican, of Idaho, who declared in his opinion "the state department never had had reasonable grounds for accrediting Mr. Bakmestoff to the American government.

Senator Borah challenged the state department's action in accrediting him "if it existed" and added that it was "inexcusable" that a man can be ambassador without a government. Mr. Bakmestoff's government, he asserted, disappeared five years ago and none has taken its place so far as recognition by the United States is concerned.

WILL PRESENT BONUS PLAN

Senate Finance Committee Empowers Chairman to Put Up Soldier Legislation to President

WASHINGTON, D. C. (AP)—Chairman McPherson of the senate finance committee was authorized formally today by the majority of that committee to present to the president a bill for the bank loan provision to President Harding as the committee plan.

Senator Snow, republican, Utah, however, informed the committee that he himself would bring before the president his bonus plan, which contemplates a 20-year endowment life insurance plan without any front-end provision for loans to be made in veterans.

ATTACK LASTS THREE HOUR

Home of Grand Master of London Lodge of Odd Fellows Subject to Outrageous Assault

DELEPAST, (AP)—The residence of Major Moore, grand master of the London Lodge of Odd Fellows on Moleman on the Pennsylvania boundary, was attacked last night by 100 armed civilians.

The attack lasted nearly three hours, after which the invaders fled. The building was shattered, but since the windows as well as the doors are protected by iron shutters the attackers were unable to enter.

Two Hundred Strikers Arrested by Police as Aftermath of Riot

Wholesale Roundup Effected in Raid on Union Headquarters After Disturbance

MONTREAL, (AP)—Two hundred striking longshoremen were arrested today in a raid in a meeting at union headquarters. The riot was an aftermath of the riot Tuesday night, along the docks, when several policemen were wounded.

The longshoremen are striking in protest against a 10 per cent wage reduction. The shipping federation has employed non-union labor.

Angry Crowd Wrecks Street Car Manned by Strike Breakers

Police Rescue Crew After Lively Struggle; Windows and Vestibules Damaged

EAST LIVERPOOL, O. (AP)—A crowd estimated at 200 attacked a street car put into service by the Stucobville, East Liverpool and Beaver Valley Traction company with non-union workmen here this afternoon. The windows and vestibules of the car were smashed by rocks.

The five men operating the car were rescued by police.

Salt Lake Store is Held Up and Robbed by Daring Thieves

Z. O. M. I. Drug Clerks Bound with Ropes and Cash Register Busted

SALT LAKE CITY, Utah, (AP)—Two men, one armed with a revolver and one wearing automobile goggles as a mask, held up the Z. O. M. I. drug store here here yesterday before 11 o'clock last night.

They robbed the cash register of about \$500, bound with ropes two clerks and made their escape.

ERECT TWELVE NEW HOSPITALS

\$17,000,000 to be Expended in Plan to Further Care for Disabled Soldiers

WASHINGTON, D. C. (AP)—Erection of 12 soldier hospitals, at a cost of \$17,000,000 and with a total capacity of 4000 beds is provided for in a bill reported today by the house appropriate committee.

The facilities proposed to be acquired, with approximate cost figures, are: 1. District No. 12, California; Arizona and Nevada, tuberculosis clinic, 600 beds, \$1,500,000.

2. District No. 13, Washington, Idaho and Oregon, neuro-psychiatric clinic, 250 beds, \$750,000.

No provision was made for additional estimates in district No. 17, Connecticut, New Mexico, Colorado, Utah and Wyoming, facilities already there or under way being described as adequate.

Charles Madden of the appropriations committee said he hoped to put the bill through the house Saturday.

Work on the new projects will begin at once.

FEDERAL LOANS FOR IDAHO

WASHINGTON, (AP)—Approval of \$22,000,000 for agricultural and livestock purposes aggregating \$1,765,000 are announced today by the treasury department. The loans include: Colorado \$1,000,000; Montana \$487,000; Idaho \$7,000,000; Wyoming \$1,000,000; Washington \$2,000,000 and Wyoming \$31,000.

MONUMENT FOR CAP. ANSON

One Hundred Thousand Dollars to Be Raised to Erect Monument to Father of Baseball

CHICAGO, (AP)—An Adrian Constantine Anson memorial association has been formed. It was announced today that the organization is planning to erect a monument in honor of the father of big league baseball in a public park here within a stone's throw of the place where "Doc" played on the diamond 22 years. The association plans a \$100,000 fund from 100,000 fans. Communications and contributions are to be sent to A. Frahier, president of the Heliance league.

The Chicago Center Commercial club sponsored the movement.

PEKING SURROUNDED BY CHINESE TROOPS

FORMER OFFICER OF FEDERATION TELLS OF PLANS

Examination of Witness in Case of Alleged Spurious Masonic Activity Discloses Interesting Story

SALT LAKE CITY, (AP)—Peter J. Wilkie, Sacramento, California, attorney was the only witness examined at the morning session of the United States district court here when the officers of the American Masonic Federation are on trial charged with using the mails to defraud. Wilkie, formerly an officer of the federation, was on the stand yesterday also.

Former Officer Testifies.

The methods of importation of a Masonic federation were explained before Judge Wain yesterday by Peter J. Wilkie, an attorney of Sacramento, Cal., and formerly an officer of the federation.

Mr. Wilkie told how he had paid \$130 to the thirty-three degrees of the Masonic order which, the American Masonic Federation and its affiliate organization, the Federated Supreme Council offer. The witness told of the representations of authenticity made by the defendants in the case, Matthew Melvin Thomson, Thomas Kelly, Dominic Bergers and Robert Jamison, saying they intended to derive their authority from the highest Masonic bodies, and to provide the only legitimate Scottish rite degrees in the country.

M. G. Price, post office inspector who investigated the case for the government, completed his testimony yesterday, saying that he had examined and derived their authority from the highest Masonic bodies, and to provide the only legitimate Scottish rite degrees in the country.

Declo Banker to be Returned for Action by Court

Extradition Papers for Wilson, Now Nebraska Resident, Will Be Honored

LINCOLN, Neb., (AP)—Extradition papers for C. J. Wilson, a banker of Cassia county, Idaho, arrested at Omaha and released on credit under the charge of violating banking laws of Idaho, will be granted, effective May 8, Peiham A. Barrow, acting governor, said today following a hearing at which counsel requested extradition on behalf of Wilson.

The protracted papers will permit the preparation of habeas corpus proceedings.

CHANG ARMIES ARE DEFEATED BY WU PEI-FU

Victorious Forces Succeed in Setting Up Blockade of City; All Road Traffic Suspended; Enemy in Rapid Retreat

PEKING, (AP)—The troops of General Wu Pei-fu, the central Chinese commander, have surrounded Peking. General Chang Tso-lin's army in the vicinity of Peking has been scattered.

All road traffic out of Peking has been suspended.

It is reported that Wu Pei-fu brilliantly turned the right flank of General Chang Tso-lin's army last evening according to today's advice from the front. Chang's troops are now being retreating toward Fengtai from Changdin.

These developments followed the dispatch of eight trainloads of Chang Tso-lin's soldiers eastward. (In the direction of Peking.)

Admiral Sien, commander of the American Asiatic fleet, has arranged to leave Peking for Tien Sin in a motorship.

Another Tien Sin.

Unofficial reports received here today stated that the forces of General Wu Pei-fu, the Chinese leader, had reoccupied Changdin, which for the past few days has been held by the rival for the control of Peking, General Chang Tso-lin, military governor of Manchuria.

It is exceedingly difficult, however, to obtain authoritative news here of the military activities, as Tien Sin is completely cut off from General Wu's headquarters and agencies. This has no respect to the city. The city is being flooded with propaganda in favor of the Manchurian leader, an example of which was yesterday's report that General Wu had been killed in action. Even the Fengtienites, as the followers of General Chang are known, today admitted that the report was unfounded. It is very likely that the newspapers here are under control of Fengtienites.

A special train mysteriously arrived here this morning when an unknown figure emerged and drove off in a motor. The Chinese inhabitants, generally believe it was General Chang Tso-lin, who had been killed in the battle, which is on the line between Peking and the sea, is becoming more and more blocked on both sides of the city.

LEGISLATION IS NOT A CURE FOR LABOR TROUBLES

Gompers Bitterly Assails Plan to Clothe Courts with Extra Powers in Cases Arising Out of Controversies

NEW YORK, (AP)—Testifying before the Lockwood legislative committee today, Samuel Gompers, president of the American Federation of Labor, defied Samuel Untermyer, counsel to the committee to "legislate labor abuse out of existence."

"You can't do it," he declared emphatically when Mr. Untermyer announced that the committee proposed to recommend legislation clothing the courts with jurisdiction over controversies between employer and laborer.

"I have no more to say," Gompers was asked, "that this committee has not the right and that the legislators lack the loyalty to their public trusts to consent to such a thing."

"Do you mean that the American Federation of Labor is so powerful politically that it will block it? I mean that you can't and won't fix the status of labor by law," the labor leader declared.

"You won't take labor back to the conditions of 300 years ago."

Detestable Treaty Used.

Repeating his avowals that he would not entrust the courts with jurisdiction over labor or intra union controversies or disputes between unions and employers, Mr. Gompers charged that "over fifty detective agencies maintained by the state and federal governments are thousands of spies whose sole purpose is to permeate the unions, foment radicalism and promote strikes."

"Under such conditions no asserted, name corporation. Distribution of the loans include: Colorado \$1,000,000; Montana \$487,000; Idaho \$7,000,000; Wyoming \$1,000,000; Washington \$2,000,000 and Wyoming \$31,000.

MINERS' FAMILIES EVICTED

Household Goods of Dozen Men Sof in Streets as First Step in Company's Plans

UNIONTOWN, Pa. (AP)—First evictions of striking miners and their families in the Pacific slope region took place today at the mine of the Amsco Coal and Coke company here. A dozen families, it was reported to the county authorities, had been evicted from the company houses and their belongings set out in the road. This, it was stated, was the beginning of a movement by operating companies to reclaim homes and other buildings which have been "undesirable."

IRELAND DECLARES TRUCE

Hostilities to Cease from 6 o'clock Today Until the Same Hour on Monday

DUBLIN, (AP)—A truce between the rival Irish republican army forces has been declared. It was reported this afternoon.

The truce is operative from 6 o'clock this afternoon until 6 o'clock Monday with a view of giving ground to the army time to discuss plans for unification.

The provisions of the truce are: "All operations except training and ordinary military routine will cease."

All penetrative operations will cease.

Both sides will keep to main order and prevent acts of aggression against persons or property.

NEW TESTAMENT AS SERIAL

BLUEFIELD, W. Va., (AP)—The Bluefield Daily Telegraph began today the printing of the new testament in serial form and will, says Colonel H. L. Short, the editor and owner, continue the practice until the final chapter of Revelations has appeared in its complete form.

Every morning, under a double column heading "Reading the Bible With Us," will appear parts of the new testament, exactly as it appears in the bound volumes of the Bible.

RIVER SPREADS STEADILY OVER INCREASING ACREAGE

Sixteen Thousand Persons, in 5 Counties Now Being Inundated, Stand Badly in Need of Organized Assistance

NEW ORLEANS, La., (AP)—The Mississippi river and its tributaries continue to spread over a large section of Louisiana and Mississippi, and the extended area from the crevasses and spillways. Eleven parishes already have felt the effects of the flood, and the Mississippi counties where 20,000 persons are reported in need of assistance, are being inundated. It is estimated that 40,000 will need it in total sections until new food crops can be produced.

The congressional party which is investigating the flood conditions proceeded southward today toward Natchez, where it is expected to land late today.

High fresh lands in Rapides and Avoyelles parishes, 60 miles from the Mississippi river are threatened, according to reports received here, by the junction of water pouring through the crevasse at Ferriday with backwaters in the Red river basins. The break at Poplar, south of New Orleans, said the water was encroaching on land hitherto regarded as safe from the flood.

The relief situation continued acute at Harrisonburg, La. Red Cross workers there support 6,000 persons driven from their homes "who are suffering from lack of food as are thousands of persons who insist on remaining with their inundated homes."

BONDS OVERSUBSCRIBED

NEW YORK, (AP)—Subscription books for the Brazillat government bond offering of \$5,000,000 (formerly \$10,000,000) in this country were closed today. Dillon, Read and company, head of the banking syndicate which floated the issue, announced that the issue was heavily over-subscribed. Seven million pounds of the loan were offered for public sale today in London.

GOMPERS DECLARES LABOR MUST FIGHT PROHIBITION

Veteran Leader of American Federation Tells Audience Light Wines and Beer Should Be Restored to America

NEW YORK, (AP)—Samuel Gompers, veteran, president of the American Federation of Labor, speaking last night to a crowd that jammed Madison Square Garden in a mass meeting called by the New York branch of the federation against the prohibition amendment, declared that labor must make the fight now and we will never stop fighting until the rights of the people have been restored to them.

SLOW REVIVAL IS INDICATED IN BRITISH TRADE

Decrease in Unemployment and Decline in Food Prices Cause for General Betterment in Living Conditions

LONDON, (AP)—Trade and industrial conditions in this country on the whole are, in the opinion of experts, steadily improving, though somewhat slowly.

No big revival has materialized, but there has been a continuing betterment of conditions, a seemingly healthy growth that has satisfied traders more than any sudden "revival" which might have been built on shifting sands and would have collapsed, leaving many worse off than before.

One outstanding indication of the trend of affairs is that money is easier and more is being loaned, which indicates confidence in the trade situation generally.

Encouraging reports come from various trades, notably coal, textiles and pig-iron. General living conditions have improved, commodities having dropped in price, and there has been a decrease in unemployment, although it is still large.

In speaking for an unabated statement regarding conditions from an authority, the Associated Press turned to Robert Skinner, the American consul general in London. In response Mr. Skinner gave the following statement:

Trade Recovering Slowly
"While governments undoubtedly continue to have their very serious difficulties of a political nature, there are signs of improvement in business which is much less dependent upon the activities of governments than might appear to be the case. The recovery of trade is taking place very slowly and unevenly, but to realize that it is recovering it is only necessary to recall, for example, the state of this country just one year ago.

"At that moment there was much political and industrial unrest, troops in large numbers were on active service, the coal industry had closed down and dependent lines were necessarily affected. Prices were high, unemployment was much greater than at present, and the psychological factors had deteriorated.

"It seemed a year ago as though Great Britain had lost her foreign coal market, but today it is obvious that this has been recovered to a great extent.

"The Manchester Chamber of Commerce tells us that hopes of a moderate revival of trade with India have been realized and that inquiries from India and China have been numerous. Egypt has placed a fair number of orders. South America continues quiet.

"India, for many years the great market for British cotton goods, has become herself a manufacturer of such goods.

"Greece has become more or less a manufacturing country, absorbing, say, 100,000 bales of American cotton last year. South America, notably Argentina and Brazil, have begun to man-

ufacture textiles and generally all countries give signs of interest in domestic manufacture. While this shifting of production from one place to another creates certain difficulties, on the other hand, far from indicating depression, it suggests the reverse condition.

Increase in Export Trade
"As for trade between Great Britain and the United States, exports from the city of London are suggestive. For the three months ended March 31, 1922, declared exports from London to the United States aggregated \$370,000,000, plus merchandise valued at \$1,272,689 which was invoiced in American currency only, as against exports for the same period in 1921 amounting to \$201,575,000.

"It is noticeable how prices have dropped since a year ago we shall at once see that not only has there been an increase in values but a still greater increase in quantities. The large single items of these exports which show increase are: leather, precious metals, guns, linen, sugar, metal, aluminum, linseed oil, and copper concentrates.

"One hesitates to pick out these cheerful symptoms for purposes of optimistic discussion because it is always very dangerous to prophesy. Nevertheless, it would have to be a very pessimistic individual indeed who would fail to recognize the prevailing indications as most encouraging."

THIS HOLSTEIN COULD SUPPLY A BIG HOTEL

Forty Pounds of Butter in Seven Days Record of California Cow

DELAVAN, Wis., (AP)—Forty pounds of butter in seven days is the production record just announced for a California cow by Malcolm H. Gardner, superintendent of testing for the Holstein-Friesian association of America. The cow is Miss Aggie Ormsby Sigis, a registered Holstein owned by Fred Hartwood, Lankershim, Cal. Her milk production during the seven days was 643.9 pounds. The test was supervised by the California Agricultural college, the California State association and the National Holstein association.

Miss Aggie established a world's record over all breeds for two year olds several months ago, producing 100 pounds of butter in 10 days and yielding 82.7 pounds of butter, it was stated. The daily average for the ten months' test was more than 70 pounds of milk a day, or more than 35 quarts every twenty-four hours. She freshened for her last record the last days of March, only few months after completing the ten months' record, the announcement stated. Less than fifty cows have produced 40 pounds of butter in a week, according to records of the United States Department of Agriculture.

BALLOONISTS TO RACE FOR PRIZE

Three Thousand Dollars Put Up in Pursues Will Tempt a Dozen Airmen

MILWAUKEE, Wis., (AP)—Contestants in the national balloon race, which is scheduled to take place here May 30 and 31, may encounter "almost any kind of weather," according to spokesmen of the Aero Club of America. Milwaukee lies directly in the path of most of the cyclonic storms which sweep across the country, and the date selected is near the dividing line between spring and summer conditions, it was pointed out.

This fact, even when combined with the hazards imposed by the proximity of large bodies of water and of the Canadian wilderness, apparently failed to discourage balloonists, judging from the number of entries. F. A. Vaughn, president of the Aero Club of Wisconsin, said twelve to fourteen were expected to take part in the race. The size of the starting field is said to prohibit entrance by an appreciably larger number. The prizes will amount to \$3,000.

In addition to the prizes \$100 will be paid toward the expenses of contestants who actually start. The Aero Club of America has apportioned the awards as follows: first, \$1,000; second, \$500; third, \$300; fourth, \$200; fifth, \$200; sixth, \$100.

The three leading teams at the finish will be chosen to represent America in the international Gordon Bennett race which will start from Zurich, Switzerland, August 6.

Twenty-four committees have been appointed to take care of every phase of the race. The chairman of the committee comprises an executive committee.

COST OF LIVING DECLINES 22.9 PERCENT SINCE 1920

Level of Prices in March 66.9 Per Cent Higher Than in 1920, Government Announces

WASHINGTON, D. C., (AP)—The average cost of living in the United States decreased 22.9 per cent in the period from December, 1921, to March, 1922, and 22.9 per cent from June, 1920, to last March, the bureau of labor statistics of the department of labor today announced. This level of prices in March however, according to the bureau's figures, was 66.9 per cent higher than in 1913.

Atlanta, Ga. reported the largest decline since June, 1920, with 22.4, and Birmingham since December, 1921, with 4.5 per cent. The statistics for San Francisco and Oakland show declines of 19.6 per cent and 3.7 per cent respectively, in the two periods.

In San Francisco and Oakland the level was 27.4 higher in March than in the end of 1914.

FARMER LEADER POINTS OUT WAY TO PROSPERITY

New Wealth Comes Out of Soil and Livestock, Says C. B. Ross; Farmer to Get Production Cost Plus Profit

(By C. BEN ROSS, Secretary, Idaho Farm Bureau Federation.)
We are all looking ahead to prosperous times, farmers, business men, great corporations and the citizens of every village and city in the country are in the position of the boy walking past the cemetery on a dark night, they are exhibiting optimism, which is good and wholesome, because the return of prosperity in Idaho depends on just two things, first that the farmers of the state raise good crops, because if new wealth comes out of the soil and livestock, second that he receives out of production plus a profit.

It is an evident fact that the majority of our farmers are one or two crops farmers, which is all well and good if he is raising crops for which there is an active demand and sells above the cost of production plus a reasonable amount of interest on his investment over a term of years, but the farmer who raises hay and grain as his major crop will find that he is on the wrong side of the ledger. The 12 principal crops in Idaho only brought \$64,000,000 in 1921, and those crops on a whole were produced at an actual loss to the farmer, and one of the reasons for this situation is, the farmers persist in raising one or two crops, the remedy is diversification, intensification and rotation of crops, livestock, the cow, the pig and the hen.

There are two counties in southern Idaho that are reasonably prosperous, the majority of their farmers have a monthly income, the banks are in good shape, they have the money to finance the production of this year's crops, some of them haven't a dollar of reticent paper in their vaults.

Dairy, poultry and hogs brought into of these counties \$4,000,000 last year. Ask any traveling salesman who makes the banks safe in good which counties they are, he will tell you without a moment's thought, ask him which town in these counties is the most prosperous, he will tell you and you will find that \$1,200,000 was paid to the farmers of the surrounding country for dairy products. NEW PARTY MOVEMENT IS UNDER WAY IN KANSAS

Mine and Railway Workers Asked to Join in Organization Formed to Oppose Many Bills

TOPEKA, Kan., (AP)—Comparing the "new party" movement in Kansas with the causes championed by Patrick Henry, John Brown and Theodore Roosevelt, E. E. Sowers of Concordia, opened the new party convention here today with a brief address in which he extended a special invitation to mine and railway workers to join the farmers in the movement.

The convention was held in response to a state-wide call issued a few days ago by the Grand County Farmers club which Paulsen is president.

"Opposed taxation" was the theme of an address by the Rev. H. O. Bond, pastor of the Christian church at Concordia. Some 30 years ago Bond was an active sponsor of the "populist party."

The proposal platform for the new party includes an anti-industrial control plank and favors a co-operative banking law, an "effective" statute putting the responsibility of officials and one providing for stabilization of farm product marketing.

The Rolling Stone.
Restless gathering no more, a rolling stone naturally gravitates down hill.

county in Idaho can be made prosperous, in three times of depression, if we only lack the proper education, it is costing us twice as much as it is to conduct our education. The salvation of this country depends on us, and we implement the proper education, it is only by making to see the possibilities we have here at home, on the farms of Idaho. It must be brought about through education to induce our farmers to grow dairy crops. In 1921, 12 principal crops, \$64,000,000 of which there was, but very little, if any profit to the producer. Three of our crops brought more than that amount. Dairy \$5,000,000, hogs \$2,000,000 of which over \$5,000,000 would be made from waste that is lost to the farmer, to the community, the state and to society in general.

Poultry, \$4,000,000 of which \$1,200,000,000 would be profit and \$10,000,000,000 would be lost. The other ten principal crops should bring as much, or more, than they did in 1921, then our \$5,000,000,000 and every other crop in Idaho would be prosperous. Why do we look away, in the distance, to congress, the war finance, and the end of the rainbow, when the basket of gold lays at our feet.

The first pre-assembly conference was held at St. Louis, Mo., preceding the assembly of 1921 and was attended by more than 200 commissioners to the assembly. All commissioners and visitors to the assembly will be invited to attend this preliminary conference, at which the evangelistic work of the assembly for the last year will be reviewed and plans in connection with this phase of home mission work outlined for the coming year.

It will be shown at the pre-assembly conference, it was announced, that during the last year the seven evangelists of the assembly conducted 59 meetings, as a result of which there has been added to the membership of the church 3871 on profession of faith, and 658 by certificate.

The convention was held in response to a state-wide call issued a few days ago by the Grand County Farmers club which Paulsen is president.

"Opposed taxation" was the theme of an address by the Rev. H. O. Bond, pastor of the Christian church at Concordia. Some 30 years ago Bond was an active sponsor of the "populist party."

The proposal platform for the new party includes an anti-industrial control plank and favors a co-operative banking law, an "effective" statute putting the responsibility of officials and one providing for stabilization of farm product marketing.

PRESBYTERIANS TO TALK ON "HOME MISSIONS"

CHARLESTON, W. Va., (AP)—The second pre-assembly evangelistic conference of the Southern Presbyterian church will be held in Charleston on Wednesday, May 17, the day preceding the opening of the sixty-second general assembly of the church. This conference will be held under the direction of the executive committee of home missions and secretaries of this committee, Rev. B. L. Morris and Rev. Homer McMillan of Atlanta, Ga., will be the presiding officers.

The first pre-assembly conference was held at St. Louis, Mo., preceding the assembly of 1921 and was attended by more than 200 commissioners to the assembly. All commissioners and visitors to the assembly will be invited to attend this preliminary conference, at which the evangelistic work of the assembly for the last year will be reviewed and plans in connection with this phase of home mission work outlined for the coming year.

It will be shown at the pre-assembly conference, it was announced, that during the last year the seven evangelists of the assembly conducted 59 meetings, as a result of which there has been added to the membership of the church 3871 on profession of faith, and 658 by certificate.

The Devoe Interior Decorating Expert Will Show You How to Bring Out the Hidden Beauties of Your Home

WOULDN'T you like to have expert advice and color suggestions on how to make your old scarred furniture, floors, woodwork and bric-a-brac new-looking and artistic again?

Wouldn't you like to know how to transform rooms that are now lacking in distinction into gems of interior decoration?

That's just what the Devoe Interior Decorator will be here for.

She will show you how to brighten up the gloom spots in your home. She will show you how, with a little Mirrolac and Velour, brushes, and a few hours of time you can add more beauty to your home than if you spent several hundred dollars for new furniture and decorations.

Mirrolac and Velour are wonder products. Mirrolac restores scarred surfaces to their original beauty as if by a "magic touch." It gives new expensive wood a finish that imitates perfectly the appearance of more expensive woods, such as Oak, Mahogany and Walnut.

Velour is the Ideal Flat Wall Finish which perfectly illustrates a principle that every great artist insists upon; namely, that there is no necessary conflict between beauty and utility; but that they are rightly considered one and the same thing.

The Devoe Expert will be at the service of our customers on the dates noted above. There will be absolutely no charge for her advice. Come in and let her help you with your home decorations.

ORGANIZED BASEBALL

WILL HONOR HEROES

Invalid Veterans of World War Will Be Guests at Various League Parks

CHICAGO, Ill.—(AP)—Organized baseball again will pay tribute to heroes of the world war on second annual National Hospital day, May 12, according to word received today by Matthew O. Foley, executive secretary of the National Hospital day committee, from Baseball Commissioner K. M. Landis, president Dan Johnson of the American League and President J. A. Hoerder of the National League.

Baseball's part in National Hospital day is in the role of league games on May 12 in parks near hospitals where service men are receiving treatment. Last year thousands of veterans were conveyed to the park where in addition to the games a special program of music and flag raising had been arranged. This year, under Commissioner Landis' direction, the minor leagues also will participate.

"The idea of National Hospital day," said Mr. Foley, "is to educate the people concerning the important service rendered them by the 8000 hospitals of the United States and Canada, and baseball is doing an important service in connection with the day by bringing to the attention of the public as forcibly as the fact that although the war has been over for nearly four years, there still are thousands of men under hospital care."

'WOULD BE GLAD TO MEET WILLARD AGAIN': DEMPSEY

Arrangements for Another Bout with Former Champion Satisfactory to the Heavyweight

PARIS.—(AP)—Jack Dempsey, heavyweight champion, referring to announcements in the United States that arrangements for a bout between him and Jess Willard were progressing favorably, said today he would be glad to meet Willard again. He was also ready to meet the winner of the Carpenter-Lewis bout in London, he declared.

Dempsey said he intended to sail for New York on the Aquitania May 13. "Sure I'll be glad to meet Willard again," said Dempsey to the sports reporter. "He was once champion and ought to be given every chance to regain the title. Whenever the time, place and conditions are ready I'll be ready to sign up."

"Willard is a good, clean, game fighter and I would enjoy another match with him. I am a fine slayer and haven't a doubt that I can easily repeat my victory over Jess."

MANY SWEDES SEEK HAVEN OF AMERICA

Native of Ashland Recent Awarding of Islands to Finland by League of Nations

STOCKHOLM.—(AP)—The exodus of Swedes from the Ashland islands to the United States has begun. Several groups of about 50 persons each already are on their way to America.

Sweden appears to be alarmed over this new tide of emigration although it is not large in volume, but no student of the Ashland situation is surprised. The islands, which lie in the mouth of the Gulf of Bothnia between Finland and Sweden were claimed by both countries after the separation of Finland and Russia. About a year ago the Council of Nations awarded the islands to the League of Nations.

Sweden accepted the decision, but the Ashlanders have never made any secret of their disappointment, the overwhelming majority of them being of Swedish blood. The population of the islands is only about 25,000 and Sweden is anxious to have this stock remain Swedish even under Finnish rule.

The Stockholm press says that the Ashlanders are among the best that the Swedish race has to offer, being physically strong, hard-working and intelligent and from the American point of view, "desirable."

PRESIDENT OF CHINA TRYING TO STOP WAR

Civil Strife Held Up as Menace to Country—Military Leaders Called On to Place Country's Welfare First

PERKING, (AP)—President Hsu-Shih Chang made another effort to end hostilities between the armies of General Chang Tso-Lin, military governor of Mukden, and General Wu Pei-Fu, military leader of central China, who are fighting for the control of Peking.

The telegram called attention to three notes handed to the Chinese government by the foreign representatives here, protesting against the fighting in the vicinity of Peking and warning of serious consequences to China should foreigners suffer from the hostilities.

The cabinet at its session also discussed the financial situation of the government. It was disclosed that the total resources of the pending administration are about \$185,000,000 silver dollars monthly, a sum scarcely sufficient to pay the expenses of Peking.

The teachers of eight government universities appealed for payment of their back salaries, due for many months. The government replied that the war had cut off its revenues and payment was impossible as long as the hostilities continued.

Likewise, all the international committees which were organized at Washington to consider the Chinese customs, the extra-territorial system and the withdrawal of foreign troops have suspended their plan to convene in China in the immediate future.

OLD TIMER COMES BACK

Iron Man, Former Big League and Coast Error, Pitches 7 Scoreless Innings

DANVILLE, Ill. (AP)—"Iron Man" Joe McGilvray, former big league and coast error, today has another first driven to clinch his title. After 34 years in the pastime, he "came back" yesterday and pitched his Danville league team to a 5 to 3 victory over Peoria, lost by way of demonstrating that the old arm still retained at least a modicum of its former might.

He accepted two chances and got one hit out of four hits in the eighth inning. McGilvray carried the "Iron Man" appellation years ago by his repeated efforts at pitching both ends of a double header.

NEW YORK, (AP)—Babe Ruth, king of home run hitters, had his tonsils removed at St. Vincent's hospital this morning. Nurses in charge of the operation stated that everything was satisfactory.

Mr. Ruth was expected to be operated on later in the day at the same hospital. Doctors declined to discuss his malady.

WITH VERNON CLUB

SAN FRANCISCO, (AP)—"Pine" Boddy, former San Francisco baseball player, who is under suspension, will appear with the Vernon club of the Pacific coast league when it plays San Francisco here next week according to Howard Lorenz, Vernon secretary.

Boddy was with the New York Yankees and was sold to Boston. When he refused to report, Baseball Commissioner Landis suspended him. Now, he is with Vernon and will be eligible to play on May 12 for the first time this year.

JOINING CLEVELAND INDIANS

SAN FRANCISCO, Cal. (AP)—Bill Doran, young San Francisco baseball player, leaves this week to join the Cleveland American league team, where it is believed he will be an underpinning for the third base post.

Doran formerly attended St. Mary's college, Oakland, and played on the baseball team there.

FEMALE CHOICE

Women on Jury in Murder Case Reported to Have Favored Extreme of Law

LOS ANGELES, (AP)—Calvin Rowell and James Wheaton, two of five men accused of having slain two policemen here December 9, 1921, were found guilty of first degree murder late last night. The jury recommended life imprisonment.

Two others of the five, W. A. Braghurst and Willard Tompson, formerly of Utah, will go to trial tomorrow. Jesse Winde, the first man charged with murder, killed himself when a posse surrounded him in a cabin near Kingman, Ariz.

The jury which tried Rowell and Wheaton was composed of three women and nine men. After the verdict had been returned, it was stated the women favored infliction of the death penalty, but were persuaded by the men to join in a recommendation for life sentence.

REAL AUTHORS OF CHARGE ARE NOT YET APPARENT

Attorney General Daugherty Makes Vigorous Reply to Allegations of Senator Caraway

WASHINGTON, (AP)—Attorney General Daugherty in a formal statement today refuting charges that he was guilty of the crime by Senator Caraway, democrat of Arkansas, in connection with the release from the Atlanta state penitentiary in 1912 of Charles Moran, New York shipbuilder, declared "the real people behind this movement, aside from the persons interested have not yet shown their hands."

Denial his intention "if there is occasion for it" to publish letters written several years ago by President Taft and George W. Wickham, then attorney general, which he said "conclusively answered all charges." Mr. Daugherty asserted that when the facts are fully known he "would not expect that persons now being used to perpetrate which they do not suspect or refer to the matter again."

TODAY'S MARKETS

Chicago Grain Market. CHICAGO, (AP)—Wheat prices declined today during the early dealings, some pressure to sell being occasioned by downturns in Liverpool quotations notwithstanding yesterday's advance here. Besides talk was current that May trade here was being covered up.

May trade here was being covered up through rather free selling by longs at opportune times. Deliveries on May contracts this morning of 150,000 bushels of wheat were announced and there were receipts in Chicago today of 140 carloads of wheat. The opening, which

ranged from 1-5/8 to 1-7/8 lower, with May \$1.41@1.44 1-2 and July \$1.23 1-8 1-4. It was followed by material further declines.

Later the May option became irregular and was easily influenced by a decline in the market for one line rallying to above yesterday's finish. Exporters became free buyers of July wheat on the early declines but this failed to influence the market for one line rallying to above yesterday's finish. Exporters became free buyers of July wheat on the early declines but this failed to influence the market for one line rallying to above yesterday's finish.

There was a good demand for flour and the market moved within relatively narrow limits. Reports said that country offerings from Iowa gradually were increasing as spring wheat is making rapid progress. The finish was weak with prices unchanged to 1-2 lower with July 65 7-8 to 66c.

Oats opened 1-8c lower to a sharp advance, July 40 1-4 to 40 3-8c and then rallied a trifle. A big decrease in western stocks of corn together with higher quotations on hogs led to a sharp upturn in the value of provisions.

New York Cattle

NEW YORK, (AP)—Cows, rails and traction represented the stronger side of today's active stock market. Steels,

equipments and motors gave way to further selling. Sales approximated 1,275,000 shares.

Repurchasers of stocks sold for the short accounts in the general list became large following excited buying of the investment issues. Low priced issues of the group were also in favor and the entire market took on a tone of greater confidence. General trading common and preferred. Standard Oil of New Jersey, Houston Oil and Pacific Oil were marked up 2 to 3 points. American Woolen, LeClair, Olin, Canadian Pacific, Texas and Pacific and Rock Island were also conspicuous in the afternoon advance.

Liberty Bonds

WAL, THE DECEIVER.

The conference at Genoa does not promise great things. Perhaps when it is over the best that will be said of it will be that it made beginnings...

The problems discussed are momentous, but the spirit manifested has not been good. There is too much of enfilade and cunning; too much of bitterness and selfishness; too little willingness to make concessions...

A chastened Europe might have been expected at least to have gained a little common sense from the experience of the last eight years. And yet such is the facility of war that it even seems to deprive its victims of the power to profit by its chastenments.

The most ordinary common sense exercised by any impartial observer would give advice something like this: "You peoples of Europe struggling to recover from the terrible scourge of war need more than anything else to cooperate with one another."

But there is not in all the world a voice to speak these simple words of wisdom, and were the advice given it would not be received in seriousness by anyone in authority in Europe.

Such potency has war to deprive mankind of reason.

EDUCATION AND SUCCESS. The advantages of education not only in its cultural but also in its more homely bread-and-butter aspects have been brought home in many ways to the minds of the American people since the war.

Long cherished delusions on the subject have been shattered. There was at one time a prevalent sub-conscious belief that, in some walks of life a certificate of graduation was a hindrance rather than a help, and those who held this opinion were fortified in their error by stories...

young man who begins his work with an intensively trained mind as the result of a college education has a much greater chance of attaining a position of high responsibility and corresponding compensation than has the young man without such advantages.

Religion Named as Only Means Toward Race Rehabilitation

Pastor Says President Confronted with Task Which Church Alone Can Aid

CHICAGO, (AP)—President Harding needs less argument and aid's cooperation to straighten out the tangled situation now confronting him, his pastor, the Rev. Dr. Wm. B. Abernathy, pastor of Cavalry Baptist Church, Washington, told the laymen's missionary conference here today.

Declaring that President Harding faces a situation more delicate, more complex, more treacherous, than any he has confronted since Lincoln's, Dr. Abernathy said it was his firm belief that he is going to straighten out the tangle.

"The laws, the scrapping of warships, international conferences—all these are good," he asserted, "but they will not save the situation. Religion will. A nation's church will."

He said there were some great proponents of religion in England and American pulpits, in replying to "talk of a decadent ministry."

MARRIAGE OF HEIRESS TO RIDING MASTER DELAYED

Prospective Groom is Worried Because Chatterbox Are Unanswered

CHICAGO, (AP)—The engagement of Miss Mathilde McCormick, 17-year-old daughter of Harold F. McCormick, head of the International Harvester company, and grand daughter of John D. Rockefeller, to a riding master, is being delayed because of unanswered questions.

Mr. McCormick returned from New York, and surrounded by reporters as he left the train, refused to comment on rumors and reports connecting his name with interest in the engagement of Alexander Smith Cochran and Ganna Walska Cochran, Polish opera star.

All rumors pertaining to the marital relations of the McCormick will be ignored, it was said at the family home. "My father has done all that he could," said Howard A. Colby, friend of the family, in commenting on whether Miss Mathilde and Ozer were estranged. Mr. McCormick announced his daughter's engagement, isn't that sufficient?"

MANY ASSOCIATIONS TO JOIN IN CONVENTION

ST. LOUIS, Mo., (AP)—The 1922 convention of the American Medical Association will be held here the week of May 22. The Radiological Society of North America, the American Association of Industrial Physicians and Surgeons and the medical and surgical section of the American Railway association will hold conventions in conjunction with the medical association.

It is gratifying to note that the general membership of the association will hold sessions in conjunction with the delegates' meeting.

CHAPTER VIII

A Late Evening Call.

A young woman in an open-necked nightgown sat up in bed, a cascade of black hair falling over her white shoulders. Eyes like jet beads were fastened on him. In them he read indignation struggling with fear.

"Say, what are you yawning—a mull buster? If you're a porch-ember-out for the cops, you've come out to the wrong dump. I got nothin' but bum rocks."

This was Greek to Clay. He did not know that she had asked him if he were a man who rode women, and that she had told him he could get no diamonds there since hers were false.

The Arizona guessed at once that he was not in the room mentioned in the letter. He slipped his revolver back into its place between shirt and trousers.

"Is this house number 1217," he asked.

"No, it's 123. What of it?"

"It's the wrong house. I'm certainly one chump."

The black eyes lit with sardonic mockery. "Say, did I look like one of them born-every-minute kind?" she asked quickly. "Go ahead and spring that old one on me about how you got ticked at the club and come in at the window on account of your wife, havin' a temper something fierce."

"No, I—I was lookin' for some one else—Fin awful sorry I scared you. I'll cut dirt if it would do any good, but I won't let you see a plumb idiot. I reckon I'll be right on my way."

He turned toward the window. "Stop right there where you're at," she ordered sharply. "Take a step to that window and I'll holler for a harness ball like a bowery bride gettin' a whuppin' from friends and neighbors. I gotta have an explanation, And who told you, I was scared? Forget that stuff. Take it from Annie that she ain't the kind that scares."

"I came to see some one else, but I got in the wrong house," he explained again lamely.

"That's better I heard both them interestin' facts. Who is this girl you was comin' through a window to see in the middle of the night. And what's that got for if it ain't to crank some other guy? You ought to be ashamed of yourself for not pullin' a better wheeze than that on me."

Clay blushed. In spite of the slaugy impudence that dropped from the pretty red lips the girl was slim and looked virgin.

"You're 'way off. I wasn't callin' on her to—" He stumped helplessly. "Whynya know about that?" she came back with obvious sarcasm. "You sointainly give me a pain. I'll say you weren't callin' to arrange some Sunday school picnic. Listen. Look at that wall a minute, will you?"

When he turned again at her order she was sitting on the side of the bed wrapped in a kimono, her feet in bedroom slippers. He saw now that she was a slender-limbed slip of a girl. The lean forearm, which showed here to the elbow when she raised it to draw the kimono closer round her, told Clay that she was none too well nourished.

It occurred to him that she might give him information of value. He

told her the story of Betty Mason. He could see by the girl's eyes that she had jumped to the conclusion that he was in love with Betty. He did not intend to clarify that conviction. It might enlist her sympathy.

Annie Millikan had never seen a man like this before, so clean and straight and good to look at. From behind she had been brought up to the fringe of that intertidal atmosphere of which is miasmic. She was impressed in spite of herself.

"Say, why don't you go into the movies and be one of these here screen beauties? You know 'em down here, they're advised flippantly, crossing her bare ankles.

Clay laughed. He liked the innocent little twist to her mouth. She made one strong appeal to him. "Talk bit of a girl, so slim that he could break her in his hands, was game to the core. He recognized it as a quality of kinship.

"How do you know the girl ain't a singer-singer? You wantin' a show when you tackle Jerry Durell? I can tell you one thing. He's in this instance, up to the neck. I seen his shadow, Gortilla Dave, comin' out the house next door twice today."

"None. But she ain't a tough game. Honest, you're up against a tough game. Why don't you lay down on it?" she asked, her frank eyes searching him. "You sointainly will if you've got good sense."

"I'm goin' through."

Her black eyes warmed. "Say, I'll bet you're some guy when you get started. Hop to it and I hope you get Jerry good. Say, listen! I got a hunch maybe it's a bum story, but you can't be sure till you try it. Why don't you get in through the roof instead of the window?"

"Can I get in that way?"

"Surest thing you know—if the trapdoor ain't let out. Say, stick around outside my room half a sec, will you?" The cattlemans waited in the darkness of the passage. If his enemies were trying to ambush him in the house next door the girl's plan might save him. He would have a chance at least to get them unexpectedly in the rear.

It could have been scarcely more than two minutes later that the young woman joined him. They padded softly along the corridor till they came to a flight of stairs running up. The girl led the way, taking the trends without noise in her stockinged feet. Clay followed with the utmost caution.

She took him toward the rear to a ladder which ended at a dormer half-door leading to the roof. Clay fumbled with his fingers, found a hook, unfastened it, and pushed open the trap. He looked up into a starlit night and a moment later stepped out upon the roof. Presently he saw the figure of the girl stand beside him.

They moved across to a low wall,

climbed it and came to the dormer door of the next house. Clay knelt and lifted it an inch or two very slowly. He lowered it again and rose.

"I'm a heap obliged to you, Miss," he said in a low voice. "You're a game little gentlesman."

She nodded. "My name is Annie Millikan."

"Miss is Clay Lindsay. I want to come and thank you proper some day. I take tickets at Heath's Palace of Wonder, two blocks down from New York. Disappointed. 'Look out for yourself. Don't let 'em get you. Give 'em a chance, and that gang would crank you sure. You will be careful, won't you? 'I never threw down on myself yet. 'The girl's flippancy broke out again. "Say, lemme know when the wedding is and I'll send you a salad bowl. She flashed at him saucily as he turned to go.

Clay was already busy with the door.

GUN PLAY GETS BY

BOISE, Idaho, (AP)—A lone streaked bandit held up a Belt Line street car late Wednesday night and, at the point of a gun, forced the motorman to hand over his money changer which contained only \$4 in small change. Boise street cars have the pay-as-you-enter system and the fares are dropped into a lock-secured receptacle. The hoodlum stopped the car by pulling the trolley from the wire as the car rounded a curve on a residence street in the north end. When the motorman stepped out to investigate he looked into the barrel of a gun. Passengers were not molested, the car went on its way and the robber disappeared in the darkness.

HEAVY WITH ROOT OF EVIL. THIS MAN BEGS IN SPOKANE

SPOKANE, Wash., (AP)—Frank Donato, aged 26, guest of Spokane's first hotel, is to be tried in police court late today on a robbery charge. Donato, according to police who arrested him, was found begging on a busy street corner. The customary "G'kissin'" at headquarters resulted in finding \$410 in cash on his person. He wore a silk shirt and an expensive wrist watch. He is said to have "worked" in "all cities from New York to Seattle. He has but one leg on the court register, he used the name "Frank Dargo."

Find Stricken Man—David Jinka, of 440 Blue Lakes boulevard, was last night found by police officers in the case of H. M. McKeown and G. C. Cook at the Bickel school. Unable to determine the identity of the stricken man, the police took him to headquarters for medical attention at the county hospital. This morning his condition was somewhat improved and he was removed to his home. It is suspected that Mr. Jinka was a victim of food poisoning.

Must Support Bride—Andrew T. Flynn must contribute a month for the next six months to the support of his bride of a few weeks; under judgment imposed by Kennedy Packard, justice of the peace, when Flynn was unsuccessful in his attempt to get out of a charge of failure to provide for his wife. Bond in the amount of \$250 guaranteeing fulfillment of the judgment was executed by T. J. Flynn and Roy Brooks and delivered to the board of county commissioners.

Investigations in British Columbia Show It Was Carried On in Last Century

VICTORIA, B. C., (AP)—The stone age which, scientists say, came to an end in Western Europe about 1700 B. C., was carried on for more than three thousand years later and in its most characteristic form existed in British Columbia up until as late as a century ago in some districts, according to findings of archaeologists who have been exploring some of the old community sites, mounds and aboriginal graves along the coast and the interior of the province.

The stone age in British Columbia has for many years been the study of scientists of who have been working the field in an effort to build up the story of the evolution of the prehistoric civilization as exemplified in the tribes who worked out their existence between the Rocky Mountains and the Pacific. Valuable collections have been obtained.

It was only recently, however, that British Columbia, in an effective way, turned its attention to the past. Under the direction of Premier John Oliver the Provincial Museum has been particularly robust and the collections put on heavy display.

The aboriginal occupants of the country belonged to the neolithic, or new stone age, scientists determined from the specimens obtained from old villages and burying places. Stone and bone tools were in common use when the first white explorers visited the North Pacific, although iron and copper in small quantities were found all over the coast.

At Express in Stone. In some instances the native races had developed a degree of art. One of the features exhibited in the museum is a copy of a sealed human figure holding a bowl. It was chipped from a solid block of stone and these polished. There are two of these specimens very much alike. One was discovered near Departure Bay, Nanaimo, and the other in North Saanich, on Vancouver Island.

Primitive man in British Columbia apparently did a little smacking now and then. Old shell mounds on the Thompson and Fraser rivers have yielded what appear to have been stone pipes. The early explorers found the native races using a true tobacco, nicotine atmosphere which grew wild in the Thompson river country and was smoked alone or mixed with grease and klaniklan.

MORE WOMEN THAN MEN VICTIMS OF TUBERCULOSIS

WASHINGTON, D. C., (AP)—Tuberculosis kills almost twice as many men as women in New York city, Godtas J. Drolet, lead member of the National Tuberculosis Association, said today, in a statement here today. Mr. Drolet is a statistician of the New York Tuberculosis Association.

He said that in the 12 years since 1910 tuberculosis had taken in New York 71,271 male victims as against 41,097 females. The death rate of the two sexes in 1921 was respectively 123 and 83 per 100,000. The reason for this difference in tuberculosis mortality was found, said Mr. Drolet, in the conditions under which they grew which break down resistance and cause the development of adult tuberculosis.

Mr. Drolet described a movement in New York to extend tuberculosis dispensary work into industrial plants. An industrial health survey of workers employed in the district covered by that institution is being made. Factory workers to be examined. Beginning in February, 1922, Mr. Drolet said, an industrial nurse made a preliminary survey to ascertain the possibility of going into local factories for the actual examination of workers. Several managers welcomed the idea and agreed to utilize the health service of the New York Tuberculosis Association. An industrial health survey of workers employed in the district covered by that institution is being made.

Cases found suffering from tuberculosis are referred to their physicians for treatment. If they cannot pay for treatment.
