

TWIN FALLS DAILY NEWS

VOL. 6, NO. 30

TWIN FALLS, IDAHO, SATURDAY, MAY 13, 1922

PRICE FIVE CENTS

ESCAPES FROM INSTITUTION IN NIGHT CLOTHES

Eighteen Year Old Inmate of the St. Anthony Reform School Gets Clear Away After Stealing Auto at Rigby

IDAHO FALLS, Idaho, (AP)—Bird Harris, 18, escaped from the Idaho industrial training school at St. Anthony early Wednesday morning, clad only in his pajamas and after stealing some clothing, blankets and a bicycle and his way to Rigby, 40 miles distant, where he attempted to hold up a pedestrian but falling in this, stole a car belonging to the Utah Power and light company and made good.

He was committed to the school from Payette. It is believed that he is headed for Montana to join an older brother who made an escape from the school in a similar manner a few years ago and succeeded in hiding his identity until recently.

FALSE ARRESTS BASIS OF SUIT

Four Actions for \$50,000 Each Brought Against Chief of Police of Chicago

CHICAGO, (AP)—Four damage suits for \$50,000 each, alleging false arrest and imprisonment following police raids on the headquarters of the Chicago Building Trades council on last Wednesday, were filed today against Chief of Police Burdick and the four directing officers of the department.

The actions are in behalf of Emmott Flood, a general organizer for the American Federation of Labor, with his son, a member of the fixture hangers' union, and his daughter, all of whom were taken in the raids.

WOMAN IS HELD IN BOOZE CASE

Police Raid on Lodging House Discloses Two Quarts of Contraband

In consequence of a raid by the police upon the Shamrock Rooms, 227 Shoshone street south, at about one o'clock this morning, clinking in the kitchen there two quarts of moonshine whiskey, complaint charging the proprietress, Mrs. A. Avery, with illegal possession of liquor was today filed in police court by Chief of Police Ben J. Brown.

The accused woman upon arraignment, entered a plea of not guilty and furnished \$100 cash bond to secure her appearance Wednesday for preliminary examination before Police Judge Paul R. Taber.

The raid on the part of the police was made by Patrolmen W. R. Patton and Eli Ripley.

CALLS ON VETERANS TO OBSERVE MOTHERS' DAY

American Legion National Commander Points Out Benefits Due Patriotic Devotion

BOISE—For a year of devotion, we have set aside a day of recognition, Elmer MacNider, commander, says in a communication received by the State Department of the American Legion here, announcing the observance of Mother's Day, May 14.

Mother's Day will be observed nationally and locally by the 3,000 units of the American Legion Auxiliary. The national effort at observance will be symbolized by an impressive ceremony over the body of the Unknown Soldier at Arlington, Alexandria, and posts throughout the state of Idaho will observe the day with certain appropriate ceremonies.

IDAHO WEATHER

Thought and Sunday fair.

HUSBAND IS DECEITFUL, ASSERTS MRS. BISHOP

HEE HUSBAND, Joseph O. Bishop, New York millionaire, electric light man, is 'coming, abroad, ruthless and deceitful,' asserts Mrs. Elizabeth Bishop, his divorced wife, who has filed suit to collect \$50,000 alimony.

Deputy Constable Tries Crime With Very Poor Result

Passes Worthless Checks while Disguised, Then Takes Up Case in Official Capacity

SAN DIEGO, (AP)—H. B. Stafford, a deputy constable here for many years, is today in jail awaiting sentence on a charge of passing a worthless check on a local grocer.

Evidence given at the trial, which resulted in a verdict of guilty, yesterday showed that after selecting some grocery store that had just changed hands, Stafford paid on an old gray cap and worn clothing and carried a workman's collapsible lunch box, that he called on the new grocer, charged about neighborhood affairs as if he lived near, ordered groceries or other goods worth a few dollars and tendered a check which proved worthless. Five local grocers said Stafford defrauded them in this manner.

Having made his "purchase," it was alleged, Stafford would leave the store, quickly change clothes, appear again as the deputy constable and start working on the case.

TO SELL TAYLOR'S EFFECTS

Autos, Clothes and Piano of Murdered Movie Director to Be Disposed of by Auction

LOS ANGELES, Cal., (AP)—The personal effects of William Desmond Taylor, film director who was murdered here February 1, will be sold at public auction by the public administrator May 23.

These effects include two automobiles, one valued at \$10,000, a piano, a phonograph and clothing.

Taylor's jewelry will be turned over to his daughter, Ethel Daisy Tanner, now in New York. This includes a locket containing the photograph of Mabel Normand, motion picture actress, with whom he was close friend, and one of the last persons known to have seen him alive. The locket was Miss Normand's gift to Taylor.

KLANSMEN TO BE BARRED

Knights of Pythias Head Takes Definite Stand Against Member-ship in Order

SAN FRANCISCO, Cal., (AP)—William Ladlow, grand chancellor of the Knights of Pythias, whose home is in New York, announced here today that he would request the suspension of any member of the order found to belong to the Ku Klux Klan.

The grand chancellor said the Knights of Pythias could be expected to take a definite stand on the subject of the Ku Klux Klan at the Knight's national convention, to be held here August 8 to 15.

MISSIONARY IS ATTACKED

EL PASO, Tex., (AP)—Miss Elizabeth Stearns, a Methodist missionary worker of the Terrell district, is at Durango City suffering from broken thigh bone received when she was thrown into an irrigation ditch by a member of a Mexican mob that drove her and five co-workers, Mexicans, from the village of San Juan de Montquital on May 4, according to reports from the interior today.

Two Shot to Death in Barber Shop of Italian District

Proprietor and Customer Killed with Shotguns in Hands of Two Unknown Visitors

CHICAGO, (AP)—Two men armed with shotguns walked into a barber shop in the north-side Italian section and opened fire without warning, killing the proprietor and a man who was being shaved. The murderers escaped.

PROMPT RELIEF IS NEEDED FOR FLOOD VICTIMS

More Than a Thousand Homeless Living in Tents and Shacks Under Conditions Described as Pitiful

NEW ORLEANS, La., (AP)—More than a thousand persons driven from their homes in Concordia and Catahoula parishes by the Mississippi river floods and now congregating at Bil; Island and Holloway in Rapides parish, are facing disaster unless afforded immediate relief. Prof. C. M. Abbott, all-rounder of the Rapides health administration, stated here today after investigation of conditions in the flooded area.

Mr. Abbott said that refugees were living in cotas cribs, bunks, tents, house boats and crude shacks, under pitiful conditions and that many of them were sick. Cattle and hogs dying of starvation, he added, are adding to the menace of disease and to the existing distress.

ENDORSE SOLDIER'S BONUS

Council of Bankers' Association Oppos on Record on Many Points

WHITE SULPHUR SPRINGS, W. Va., (AP)—The declaration of principles adopted by the executive council of the American Bankers' Association at its final session here included condemnation of all forms of paternalism in government, opposition to the soldier bonus and to changes in the federal reserve board.

Enforcement of care for disabled veterans was expressed by the Denton blue sky law of perpetual charters for national banks and the proposition of a legislative amendment doing away with federal tax exemption on securities was declared.

It was also recommended that the United States send an official representative to the reparations commission and that free zones be established at principal harbors of the country.

RED FLAG FLIES OVER PLANTS OF CREAM FACTORY

Employees Take Over Institution Following Failure of Wage Negotiations

BLISSAET, (AP)—The employees of the Cleveox creamery factory at Car-pick-on-Spr and of its branches at Tippecanoe, Clongmel, Knocknong and Mallow took over the plants today as a result of the failure of negotiations with their employers regarding wages. The red flag was hoisted at all these places.

The employees of the Tippecanoe branch issued a proclamation declaring that the owners of the plant had unreasonably offered more than ten million pounds during the war and that now they wanted to reduce the workers' wages by one-third. Therefore, said the proclamation, employees had taken control themselves in the interest of the workers and farmers of the community.

HARVARD DEFEATS YALE

CAMBRIDGE, (AP)—Harvard defeated Yale in their annual track and field meet in the stadium here this afternoon. The point score was Harvard 70 and Yale 42. E. B. Burke, Harvard's star runner, won the mile run handily and then came back to win the 880-yard dash.

THREE DIE WHEN TRAIN HITS AUTO

Ask Close Study of Ouija Board on Scientific Basis

Manufacturers Object strenuously to Government's Classification

WASHINGTON, D. C., (AP)—Supreme court has been asked by a petition filed by a Baltimore manufacturing company to apply profound learning to the question of whether it is aOuija board.

The federal government, through the United States district court at Baltimore, with that utter lack of sentimentality for which it is noted and with the bluntness of a tax collector, has classified the notorious "spiriting" goods along with tennis rackets, snowshoes and golf clubs.

The manufacturing company, defendant in the case, claims the board is a "grade of motor automobile" involving considerable subtlety of engineering of "intelligence" and not subject therefore to a tax of 10 per cent.

TWO COUNTRIES STICK FAST TO OLD POSITIONS

Differences Between France and Great Britain Give Rise to Belief that Reconciliation May Never Be Effected

GENOA, (AP)—As the result of the meeting of the economic conference of the British and French governments, it is believed that the situation between the two countries is becoming more difficult than it seemed. The chief differences of opinion regarding the proposed mixed commission of experts, suggested in the Russian reply were these:

First, whether the Russian should be included.

Second, whether the mixed commission should meet at Genoa or else where.

Third, whether the work of the mixed commission should begin immediately or after the breaking up of the cabinet.

Fourth, whether the mixed commission should be divided into three sub-commissions, one for Russian public debts, another for credits to be granted to Russia, and the third to consider the private property question; or whether there should be one commission appointed, each dealing with one of these subjects.

Omaha Judge Will Go Back to Early Day Punishments

Fifteen Lashes on Bare Back or 15 Days in Jail for Wife-Beating Hereafter

OMAHA, (AP)—Police Judge Wappish today announced that hereafter any man convicted in his court of wife-beating will be given the choice of going to jail for 15 days or taking 15 lashes on the bare back.

Such whippings will be given in the court room, the judge said.

DEMPEY BAILS FOR HOME

SOUTHWESTERN, (AP)—

Dempey bailed today for the United States on the liner Aquitana. The champion was hidden God-speed by the mayor of Southampton and numerous celebrities in the sporting world as he boarded the steamer.

DAYTON, O., (AP)—Former Governor James M. Cox who was the Democratic candidate for president in 1920, today declined the invitation of a political club to enter the race for governor of Ohio.

Passenger Coaches Derailed and Twenty-Five Persons Injured as Result of Collision at Grade Crossing

BATAVIA, N. Y., (AP)—Three persons are dead as a result of the Black Diamond Express on the Le-high Valley railroad striking an automobile at Leroy. The victims were Thomas E. Brodie of Leroy, driver of the car; E. B. Croser, of Niagara Falls, a railroad yardman; and L. E. Clay a train passenger. Twenty-five injured were taken from the wreckage of the three passenger coaches which overturned. Three were believed fatally hurt.

The train was going about 70 miles an hour when it hit the automobile. The derailed passenger coaches ploughed over a 4-foot embankment. A Pullman car also left the rails.

Many Persons Injured.

At Davison, headquarters of the Le-high Valley, it was said that reports from North Leroy were that about 23 persons were injured in the wreck.

The train ran into an automobile at a grade crossing, the engine and three cars of the express being derailed and overturned. The driver of the automobile was killed.

Rumored Hold-up of Train is Not Taken Seriously

Story of Alleged Action by the Striking Coal Miners in Utah Not Confirmed

SALT LAKE CITY, (AP)—Conflicting reports were received here yesterday and last night concerning the reported stopping of a train by striking coal miners in Garbon county. A personal representative of Governor Mabey declared to the best of his knowledge the train stopped at a switch and had not been stopped by the strikers.

The situation in the Carbon county coal district is being watched closely by state officials in view of the recent shootings there in connection with the coal strike.

Youthful Bandits Steal Goodly Sum From Two Cashiers

Office of Los Angeles Herald, Block From Police Station Victim of Hold-up

LOS ANGELES, Cal., (AP)—Two youthful bandits last night held up the office of the circulation department of the Los Angeles Herald and escaped in an automobile with \$535. The office is within a block of the police station. The bandits surprised two cashiers at work wrapping up small coins, forced them with pistols to hold up their hands, accepted up the money and drove their automobile into heavy traffic nearby, where it was lost to pursuit.

SCOUTS INVITE PUBLIC TO RADIO ENTERTAINMENT

Presenting the first opportunity for the public to hear music and messages projected by radio telephony over the apparatus recently brought here for the Boy Scouts of Twin Falls, arrangements have been completed for a public exhibition to be held this evening at the high school building. Weather conditions permitting, it is expected that messages and music from several Pacific coast stations will be picked up. For the occasion Superintendent Pruitt of the Berkeley schools will bring over an amplifying device and other apparatus that may be used in connection with the Scouts' apparatus.

MASONIC CASE NEARLY ENDED AT SALT LAKE

Argument Opened This Morning to be Closed by Judge Martin J. Wade of Iowa Not Later Than Monday

SALT LAKE CITY, (AP)—The trial of Matthew McBain Thomson, Dominico Bergera and others identified with the American Masonic federation, charged with using the mails to defraud, which has occupied the attention of the federal court here for two weeks, narrows its close today when one counsel for the government asked another for the defense presented arguments.

A verdict is expected Monday when one counsel for either side will be the arguments and Judge Martin J. Wade of Iowa will sum up the case.

The defendants are alleged to have fraudulently used the mails to obtain members for the federation.

Shortly after the close of the examination of Thomson yesterday both the prosecution and defense rested.

Thomson proved a difficult subject in cross examination being warned several times by both counsel and by Judge Wade to confine his remarks to the orderly bounds of court procedure.

ASKS POINTED QUESTION

The most dramatic occurrence of the trial came when Special Prosecutor John Jensen questioned Mr. Thomson: "In the underground days you acted as a spy," referring to Thomson's residence in Idaho in the eighties. "Before the words had been uttered Thomson was gasping and fairly choked." "No, no, no!"

Jensen followed with: "Were you not burned in effigy and given a severe beating for your part in this business?"

"Again the witness almost rose from the stand and shouted: "No, no, no." The reference to "underground days" was not understood by Judge Wade, until counsel informed him it referred to early local history, presumably in the time of an anti-Mormon ligue.

Later on red-reaction testimony Thomson testified that he had been burned in effigy by some railroad workers at Montpelier, Idaho, because as a sheriff of Bear Lake county, he had closed two disorderly houses.

Jensen asked the witness why he had never joined any religious sects for withdrawing from King Solomon Lodge A. F. and A. M. at Montpelier. Thomson stated that the matter was too sacred to write of, but that he had spoken of it many times.

USE FLAIN LANGUAGE

After obtaining acknowledgment from the witness that he stands on his previous declarations as to the religious tolerance of universal Masonry, as Thomson refers to in his testimony, Jensen read an extract from a publication of the American Masonic federation in which the Roanoke, Va., Masons were called "plain damn fools for allowing the Knights of Columbus to meet in their halls."

Jensen had considerable difficulty in obtaining information concerning Thomson's personal finances and the financial condition of the lodge. The head of the A. M. P. testified that he has made an average of from \$900 to \$250 a month from his Masonic work, but that he knew nothing of the bank accounts or finances of the organization, that work being in the hands of the secretary and treasurer. Thomson declared that his personal bank balance has averaged around \$1,200 for the past several years, saying that he had been notified of overdrafts on occasion.

Thomson said he is a painter by trade but that since 1914 he had devoted his time to his organization efforts and incidentally in the investing of money.

ARMY AND NAVY BALLOONS WILL JOIN IN RACES

Government Aircraft to Test New Radio Alignment—Pilot Law Service in World War—Secretary Maintained

MILWAUKEE, Wis., (AP)—One of the government balloons which will compete in the national balloon race for 1922, to start here May 31, will carry a complete and new radio alignment which will be tested here for the first time. For the third time American army and navy balloons will compete against civilians. Most of the government pilots saw service in the world war. The army will send three balloons and the navy two, but secretary appears to surround the entry of these balloons.

In addition, entries have come from Ralph H. Brown of New York, who won the International Gordon Bennett trophy in 1914; J. C. McKibben of St. Louis, Mo.; R. F. Donaldson of Springfield, Ill.; H. E. Honeywell of Dayton, Mo., and Warren Risor of Brookville, Pa.—The races will be one of the largest in number of entries held in America.

Planes Will Race

During the week of May 29 a series of plane races will be conducted under the direction of the Aero Club of Wisconsin, the aeronautical section of the Wisconsin Association of Commerce. The organization reports promises from various new clubs that they will send planes to the city to give the balloon a good soil-off, and also promises from army officials that they will have a number of planes on hand. Brigadier General William Mitchell will fly to Milwaukee from Washington, D. C., accompanied by two other planes. Thirty or more planes are expected to be available for the demonstration, including some from Chicago, Monmouth, Ill., Detroit, Mich., Minneapolis, Minn., Dayton, O. and New York.

The balloon race will be for distance, and the pilots must choose the best wind currents at different altitudes and dispose of ballast and gas to the best advantage in order to land as far as possible from the starting point. This is said to involve hundreds of different problems. It has been estimated that the direction of the wind at the time of year selected has averaged a northwesterly course during the last fifty years. If this condition should prevail this year it would take the balloons to Canada, and all the pilots will carry winter equipment. The races commonly run from 400 to 1200 miles and last from eight to sixty hours. It is expected some of the balloons this year will be in the air four or five days. One balloon party in the national race last year was lost for days.

The Milwaukee program calls for an inspection and violators' day on May 30. On this day there will be a series of airplane races around the city. May 31 the balloons will start.

Publicity for Milwaukee

The Aero club of Wisconsin has stipulated that each pilot must carry as ballast 100,000 circulars about Milwaukee and the business interests to be released from time to time. It is announced that except for balloons and pilots everything in the race, will be Milwaukee made; that pilots will use Milwaukee clothing and outfits, Milwaukee food and coffee, Milwaukee sand as ballast, and Milwaukee gas.

Speakers of the Aero Club of Wisconsin say that the race will draw on almost every talent the ballooning has; on his knowledge of navigation and meteorology, experience in the application of the laws of aerodynamics, judgment in their interpretation, practical skill in handling the balloon, firmness in adhering to a good plan of action, but always with eye and mind open for a better, courage combined with caution, physical endurance and sportsmanship.

In free-ballooning, meteorology is of prime importance. To meteorology and its newest branch, aerology, the pilots of free balloons turn to solve the problems of the location and condition of their course in the air; the racing balloonist seeks the factors of greatest speed and longest fetch of the winds of the lower levels; the balloonist trying for a destination seeks the factors of direction while the reconnaissance balloonist seeks the elements of quiet and safety.

WITH THE YOUNGER SET

By HANNY

Trees at the Dawn, Papers in Evening

BERLIN, (AP)—Trees on which birds nested their nesting song are turned into newspaper paper and sold as mid-day editions on the same day in certain towns of the Harz district, says the Papierfabrikant, the leading German paper-makers' organ.

The exact time taken in the process is three hours 25 minutes. The trees were felled at 7:35 a. m., pulped and turned into paper by 9:30, rushed in a motor truck two and one-half miles to the printing office and at 11 o'clock newspaper boys were crying the local sheet on the streets.

AUTOMOBILES IN SWEDEN CAUSE ROAD DESTRUCTION

STOCKHOLM, (AP)—Motor traffic in Sweden has become so general that the consequent deterioration of highways is great that the minister of finance has submitted a bill to the riksdag proposing a tax on all motor-driven vehicles.

The bill proposes that a tax of 10 kronor (equivalent to about \$2.10) be levied on a motorcycle without sidecar; 20 kronor on motorcycle with sidecar; 80 kronor for every 100 kilos (220 pounds each) of weight of ordinary motor cars with rubber tires; 50 kronor per 100 kilos for cars and trucks with non-rubber tires.

The proposed tax on automobiles will net the state about five million kronor (about \$1,000,000) annually, all of which will be devoted to road maintenance. Towns and cities will receive one-fourth of the money thus collected and the rest will go to local communities.

PRESIDENT AND HIS WIFE ENJOY REST ON SEA COAST

Official and Social Duties Forgotten in Effort to Gain Relaxation from Routine Affairs

ABSECON, N. J., (AP)—President and Mrs. Harding today were enjoying a weekend rest at the Sea View Golf club, near here, after their automobile trip from Washington yesterday and the president's appearance at the dinner given by the Women's Republican club of New Jersey, and the bankers' convention in Atlantic City last night. Almost perfect weather was promised! And it was expected they would find complete relaxation from their official and social duties.

Secretary and Mrs. Weeks and Attorney General Daugherty have arrived and completed the official party, to which Senator Edge is host.

Republican leaders here were interested in the address by the president at the women's club dinner. His expressions of "friendship for the state's two senators were noted."

"The administration," he said, "is not better supported anywhere than it is in New Jersey. I have more than a personal fondness for Senators Edge and Frost-Phelan. I cannot always beat them at golf, but I know where to find them when there are difficult problems to solve."

"I hope," he added, "you people think as much of them as the executive in Washington does."

Mr. Harding said the administration had worked to bring about a better understanding in the world and a new security to America.

"In that work," he continued, "the republican party has not done all it hoped to do, but it has done a lot, and will accomplish much more."

EXPORTS SHOULD EQUAL IMPORTS

Prosperity of United States Is Not Dependent Entirely on Goods Sold Abroad

PHILADELPHIA, Pa., (AP)—Declaring that the prosperity of the country depends in part upon its imports, Dr. Walter Lichenstein, executive secretary of the First National Bank of Chicago, told the Ninth National Foreign Trade convention today that to "have large exports there must be correspondingly large imports and that with the increase of both our prosperity will be enhanced."

He also opposed demanding full payment of the allied debt.

"Exports are necessary for the prosperity of the country," said Dr. Lichenstein, "unless, indeed, we are willing to face an interminable period during which we should suffer stagnation and social and political upheaval. Unhappily we can not pay for our exports until we receive imports from foreign countries. I think that if we look far enough ahead, the danger of the United States is not that we are not making it very much exaggerated."

"If, however, we wish really to increase the danger of competition in our own markets, all that will be necessary for us to do is to insist upon full payment of the debts due us from our allied allies. When we require payments of this kind the effect is the same as an over-stimulation of our imports and a checking of our exports, for the payment of these huge debts means the shipment of foreign goods to us in enormous quantities, that being the only way in which these payments can be made."

Condemns High Tariff

"If we have permanently a very high protective tariff, which will check imports into this country to a marked degree, and our exports go on as they did during the last years of the war and immediately following, then we shall have an influx of gold which will increase ultimately our currency and thus in the final analysis affect our prices and prevent the exportation of our goods. In a sense that is exactly what has been taking place."

Asserting that there is no special advantage in being a creditor nation, Dr. Lichenstein said, "We have still unexploited tracts here at home, and it will be a long time before it is likely that we shall receive much greater returns from foreign investments than we do from domestic ones."

Declaring that agricultural prices and profits are influenced by the for-

eign market, and that during the last fiscal year about 37 per cent of the wheat crop was exported, and in 1920 about 42 per cent of the cotton crop, Dr. Lichenstein said:

"The statistics would indicate that somewhere between 40 and 45 per cent of the people of the United States are still engaged directly and indirectly in agricultural production. It is idle to talk of any return to normal conditions in this country as long as one-half of the working population is unable to market its product at proper prices."

Referring to the fear that cheap European goods may flood American markets, the speaker said, "As a matter of fact, according to a recent number of the Nation's Business, Germany's exports at present, are in quantity only a fourth of what they were before the war, and have been declining in recent months."

EXPERIMENTS ON ANIMALS WILL BE OPEN TO PUBLIC

Humane Society to Co-operate with Scientists in Behalf of Animal Protection

NEW YORK, (AP)—An open door policy in the laboratories of medical research, where experiments are conducted on animals was announced today by Miss Madeleine Phillips of Springfield, Mass. Miss Phillips' announcement of this was the first public declaration of the principle that has ever been made in the United States and that the Humane Society is the first humane society to co-operate actively with scientists as a body in behalf of animal protection in medical research.

Miss Phillips' announcement preceded the meeting of the directors and signatories of a large number of the 85 laboratories where experiments are made on animals declaring their willingness to admit members or officials of humane societies so that these may be acquainted themselves with the actual conditions under which animal experimentation is being conducted.

FLAMES CLAIM OLD HOTEL

LEWISTON, Idaho, (AP)—The Raymond House, known to every cattle buyer and stock dealer in the west as Lewis' steeple hotel, today is reduced to ashes as the result of a fire last night.

Diamond Hardware company is certainly offering remarkable value at their big ten-day sale—adv.

PEGGY JOYCE IS INDIGNANT OVER HER DISBARMENT

Information That She Will Not Again Be Permitted to Appear in the Films Calls for Sprightly Comment

NEW YORK, (AP)—Peggy Hopkins Joyce, returning Friday on the Muretans from France, bubbled over on the trip up the harbor from quarantine when she was shown a Washington dispatch stating that the motion picture theatre owners of America had banned any films in which she might be featured, "in the interest of a clean screen."

"I haven't committed any crime," asserted the actress, whose name has been mentioned in dispatches from Paris in connection with the recent shooting there of a French aviator, the Errazuriz family have indignantly denied reports that the attack died because of unrequited love of the actress.

"I think this is outrageous," she continued. "It is as comical to me that my name is associated with crimes that have been charged with crimes the day of chivalry in America. I am gone. I have confidence in the fair play of my American brothers and sisters and that they will give me a square deal."

Booster Americans Abused
Boying that she had hurried out of France because of the Chilean suicide, she said: "The French police never came to see me about the suicide. The French people mind their own business and that is more than I can say about some Americans who attack the Chilean embassy. They tried to take up the theater owners' band with her lawyer here before proceeding to Norfolk, Va., for a month's rest. Miss Joyce's language was ordered detained and sent to the appraisers store. Customs agents later subjected her to an examination but declined to comment."

UNIVERSITY OF MONTANA SEES END OF HOBO CLUB
MISSOULA, Mont., (AP)—University of Montana students who in future "burn" their respective ways to Scott, Spokane, Moscow, and Pullman, for athletic and other intercollegiate events, may save money, but they will no longer be eligible for the Hobo club. For that organization by faculty ruling, has ceased to exist.

For many years the Hobo club flourished on the university campus. To be eligible for membership, neophytes had to prove that they had "beat" their way a thousand miles or more by road, blind baggage, because of gasoline. Many became eligible through the simple expedient of slipping a railroad porter a dollar to keep his head shut.

"The university girls began their apprenticeship last fall by 'bumming' their way to the Armistice day football game at Botanman, the round trip netting them 400 miles on their necessary thousands. It has not been learned whether or not this co-ed encroachment on the privileges of the male hoboes had anything to do with the annulment of the Hobo club's charter, but at any rate, all that mileage is wasted now.

Simultaneously with the passing of the club came the announcement from Missoula high school that high school students would not be given permission to attend out-of-town athletic events without written consent of their parents, to prevent "bumming" on the part of the younger generation of students.

Thrill
Thrill is such a simple thing—and it means so much. It is the foundation of success in business, of contentment in the home, of standing in society.—Russell Sage.

Classified advertising is the cheapest thing you can buy—measured by the profit it may bring you.

Use All Modes of Transport to Haul Corn—Now Breaking Back of Famine in Russia

Because of the danger of an early thaw which would make the roads impassable with mud, thousands of camels, oxen and Cossack ponies were pressed into service to haul the American corn to districts east of the Volga Basin in Russia. It was necessary, in breaking the back of the world's greatest famine, even to use hand sleds to cross ice which was too dangerous for draft animals.

Administration in Russia, stimulated the railway authorities to a point where food was moved on schedule. At warehouses and along railroad tracks, beggars and hungry peasants scrape the kernels of corn out of the corners of empty box cars, digging deep into the mud for any that drop, and sift others out of filth along the tracks. Some of these farmers eat the kernels as they walk; others put them into little sacks. The people of the lower Volga are familiar with corn, though they have not tasted it in many months. They are amazed to find that the American corn can be milled without loss for their native corn suffers a loss of 15 per cent in milling.

In addition to nearly 2,000,000 children who are being fed at American Relief Administration kitchens, the gift corn from America is bringing a new hope of life to 5,000,000 adults, and "Americanized maize" is a term which is spoken with a depth of feeling by the Russians in the famine district. The American Relief Administration believes the relief has progressed so far that, if a fair grain crop is harvested this year, the famine will be ended by autumn. Misery and suffering will remain, but in the words of a report from the hunger area "they will be the result of poverty, an economic condition calling for basic remedies, rather than of famine, which is a drought disaster due to natural causes."

Twin Falls Theatrical Attractions

DECLARED SPLENDID PLAY
"Hail the Woman" Coming in Magnificent in Themo and Presentation

"Hail the Woman," Thomas H. Ince's latest picture, which is at the Orpheum theater this week, is one of the big productions of the year, big in theme and big in presentation. It tells a story of man's rebellion over woman to the point of dominance and emancipation, and shows something of the strides which women have made in their march toward freedom. But it is not a preachy picture. Not at all.

The story is of a stern New England father who rules his family with an iron hand, determining his son shall be a minister of the gospel and his daughter shall marry whom he chooses. The son submits and like a weakling lets the girl be secretly married deep in the mire, while he pursues the course his hard father has mapped out for him, though it is against his desire that he undertakes the salvation of souls.

The daughter, driven from home on suspicion that she has done wrong, carves out a successful career for herself, and finds her brother's child and saves it to a useful life, forces the brother to acknowledge the boy and wins respect and happiness for herself, breaking down the opposition and bitterness of her father.

The story is magnificently told, splendidly acted, and finely photographed. It strikes a new note of naturalness and vigor in pictures and stands out as an example for other directors to follow.

There isn't any padding, every scene building up to another, or throwing a side light on the main theme. Florence Vidor plays the daughter, giving a superb performance of the independent girl who realizes the time for women to think and act for themselves has come in the world. Miss Vidor is lovely to see and acts with a largeness and finesse that are delightful to see.

Pollen Carried Far.
Wind-blown pollen (sulfur rains) is known to be carried far. The St. Paul experiment station reports a quite extensive rain of tree pollen on two fire ships, twenty and thirty-seven miles from shore, and the pollen of alfalfa is known to have been carried even as far as 200 miles.

The News is read by the permanent carrying classes.

At the Idaho Wednesday and Thursday

LILLA LEE in the PARAMOUNT PICTURE "AS MATRIMONY A RAISE"

NEW PARAMOUNT COMEDY RAISES A BIG QUESTION

It is all right to say what one thinks about various questions concerning the course of ordinary living, but one in a while there arises a question about which only the boldest and most radical dares to commit himself.

Such a question, "Is Matrimony a Failure?" is raised in the new Paramount special comedy showing at the Idaho theater with T. Roy Barnes, Lila Lee, Walter Heira, Lois Wilson, Tolly Marshall, Sylvia Ashton and other notables in amusing roles.

One day, while the company were making rehers for this new picture, the most important members of the set was asked for an opinion as to how such a question should be answered. Here are a few of the answers:

James Cross, who directed the picture, avoided the issue with a broad grin: "I don't dare to say 'yes,' because I'm married!"

T. Roy Barnes, who plays the leading role of Arthur Haviland, blinged his answer on a condition: "It all

depende on the coffert" observed T. Roy.
"Lila Lee answered as follows: "I don't know, but I hope to be some of these days."
Lois Wilson remarked: "Being single, I can safely answer, 'Not'."

NEW PICTURE IS PRAISED

"Where Lights Are Low" Featuring Sessue Hayakawa, Declared Big Artistic Success

Three masters in their respective professions lent their combined talents on "Where Lights Are Low," Sessue Hayakawa's new production released by R. C. Pictures corporation, which will be screened at the Orpheum theater for two days beginning Thursday.

Mr. Hayakawa, who stands at the top among dramatic actors on the screen; Lloyd Osborne, stepson of Robert Louis Stevenson and one of the greatest living fictionists, and Colin Campbell, the director, all helped to make "Where Lights Are Low" one of the really big artistic successes of the season. The story was adapted from the novel "East Is East," by Mr. Osborne and tells of the experiences of a young Chinese prince who loves the daughter of a gardener and has many difficulties winning her.

MAN WHO HELPED ELECT LINCOLN DEAD IN SPOKANE

SPOKANE, Wash., (AP)—One of Lincoln's nominators, John W. South, formerly of Corvallis, Ore., was dead here today, 87 years old. He was a delegate from Oregon to the national republican convention in Baltimore in 1861, when Lincoln was nominated for a second term, according to his daughter, with whom he had made his home here for 25 years.

Progress

Progress in human history has been traced by the destruction of barriers. While science has found a way to span the seas and bridge the continents, philosophy has made planes of thought on which men of every race may meet together in harmony of faith and purpose.—Walter S. Young.

DOROTHY DALTON COMING IN A WESTERN PICTURE

Paramount Star Supported by an Excellent Cast in "The Crimson Challenge"

Dorothy Dalton in her latest Paramount picture "The Crimson Challenge" will be a cast of really popular players. She has for her leading man Jack Mower, who played one of the principal parts in "Ocell O. De Mille's "Saturday Night."

Frank Campana, one of the most experienced players in the profession, has the part of the villain in "The Crimson Challenge" at the Idaho next Friday and Saturday.

DOROTHY DALTON
PARAMOUNT PICTURE
"THE CRIMSON CHALLENGE"

the part of the villain so black that he makes coal look like snow. Clarence Burton, who has popularized Mexican bandit roles, also plays a villainous role, and the trio of villains—an unusual feature of a picture—is completed by George Field.

The picture, which was adapted from Vingie E. Roe's popular novel, "The Son of Lost Valley," by Dosta Mario Dix, will be shown at the Idaho theater, next Friday, Paul Powell directed.

BIG STAGE SUCCESS IS SCREENED BY DEMILLE

A play that has never failed to thrill American audiences is George Broadhurst's "Thought and Pain" will be shown at the Idaho theater Monday and Tuesday, probably will thrill them even more effectively.

So well known is the story of this popular play that to repeat it seems quite superfluous. It need only be said that the picture follows the story of the play with faithful exactitude, diverting only in those slight instances where diversion meant betterment.

For its direction, the picture could not have been in better hands than those of William Doolittle, whose consummate skill in the interpreting of scenes filled with dramatic intensity has led to his becoming one of the foremost producers of the motion picture world. The popular Paramount stars, Agnes Ayres and Jack Holt, head the list of stars with Walter Heira, the returned comedian in support.

A Mack Sennett comedy entitled "Love Loops the Loop," with Charlie Murray is on the same bill. One of the great American author series showing Edgar Allan Poe, the tragic genius of America, is also shown.

Good Location for a Light

There are two lights which seem almost necessary in the average kitchen. One is between the windows over the kitchen sink and the other is just inside the hood over the stove so that the light is thrown directly on the top of the stove. If these two lights are properly placed no other light is absolutely needed.

RUSSIA'S HUNGRY HORDES NOW ARE RECEIVING CORN

All Districts in Famine Area Being Supplied with Cereal for Adult Feeding

LONDON, (AP)—Every district in the Russian famine area is now provided with corn for adult feeding, says a cable message received at the London office of the American relief administration. The last district to receive the food was Kazan, where the corn was first used in the city.

Thirty-two hundred horse teams are now distributing it to the outlying villages near Kazan rising against time and the rising snow which will make the Kazan river impassable to one of the worst areas, lies across the Kazan, and every effort is being made to get the food there in time.

Condition of Boats a Factor
If 25 per cent of the American supplies reach their destination before the boats are frozen, then the administration is assured, in the opinion of American relief administration officials. That amount will carry the people in the most villages through the ice and snow until the roads makes them again accessible. The cities therefore are receiving their rations just because they can always be reached from the railroads.

All American relief administration supplies are now moved in solid trains of 30 cars or more and are routed straight through to their ultimate destination. One hundred and seventy thousand tons of supplies left Russian ports for the interior during the month of March.

When the thaw prevents transportation in the outlying districts, the movement from the ports will still continue but the cars will be routed to Bilibino and Tzaritsin. Here the corn will be stored until the opening of river navigation and its shipment by water possible.

Varieties of John Smith
In Latin John Smith becomes Johannes Smith; in Italian he is Giovanni Smith; in French he becomes Jean Smith; the Russians call him Jonoff Smitsofski; the Poles know him as Jan Smitlwek; the Welsh as Ithon Schmdidi; the Hollanders as Hans Schmit; the Greeks as John Smitaki; and the Spaniards as Juan Smith, while in Turkey he is disguised as Yoo Seef.

Fig Pickers' Platform
To use a three-wheeled platform for the purpose of picking figs was the timely idea of a grower of that fruit in order to harvest his crop quickly, as described in a scientific journal.

The News is read by the permanent carrying classes.

Happenings of a Day in Sports

FAST BUHL TEAM IS AGAIN BEATEN BY TWIN FALLS

West End Players Lead Until Seventh Inning, when Local Players Grip Their Bats and Rap Out Victory

Twin Falls high school baseball team won their last scheduled game of the season yesterday afternoon when they beat the fast Buhl high school ball players by this score of 9 to 5 on the latter's diamond.

The game, as was predicted, was a hard fought affair, with the west-enders leading for six innings. The Twin Falls boys didn't seem to be able to realize that they were playing a ball game, and for six innings the large crowd of fans that made the trip were stumbling over their chins.

The first double play was the contest. The last one, which involved L. Jarman, G. Jarman and Hammond, was as fast as one would expect to see in the big show. With one man gone in the eighth inning, L. Jarman took command on Hodgins and fumbled his easy roller. Krael was hit a hot one at L. Jarman, who threw to his brother at second, who in turn whipped the ball over to first in time to get the fleet Krauel. He drew a round of applause from the stands.

Buhl Makes Fast Start

The Bullies started off as though they were going to put the game on ice at the very start, piling up three runs in the second, and adding two more in the fourth and fifth. The Twin Falls boys didn't get their bearings until the sixth, when they took the lead by two runs.

Who anybody's game, until the final inning, and the local boys can consider themselves lucky to get away as they did.

Twin Falls started the scoring in the second, when Fix, the first man up, got hold of one of Hodgins' slow ones on a two-base knock to the center field fence. Thometz grounded out, Wilson to Cox, Fix rolling back at second. Mussell hit a roller to Wilson, who threw to third but Macheck missed the throw trying to get Fix and all hands were safe. Hammond hit a hot one over Wilson's head and Fix came in with the first run of the game. Wilson barely touched Hammond's drive, and it went as a single.

Buhl went in the lead in their half. Krauel, the first man up, was safe when L. Jarman's first error of the season. Krauel went to second while L. Jarman and Hammond were taking care of Mullens. Krauel went to third on a passed ball and scored, when Dolan singled to right. Dylan went to second on a wild pitch. Kimball inflied the course, but Wilson came through with a timely fly, scoring Dolan. Wilson went to second on a passed ball. Macheck hit a high one over his head. Putzier couldn't get under it on account of the high wind. It hit in front of the plate, and while Putzier was saying things about the climatic conditions, Wilson raced in with the third run of the inning. Snyder ended the inning by popping out to Hammond.

Twin Falls managed to appear once in the third. Cron opened up by fouling out to Macheck. G. Jarman hit a hot one between third and short. Putzier singled to right, sending G. Jarman to third. Putzier scored second. Fix shot a single to left, scoring Jarman. Thometz batted. Mussell went out; Snyder to Cox.

Buhl made one in the fourth when Fix let Mullens' roller get away from him. Dolan sacrificed along the first base line. Kimball stepped one on the nose and sent it to deep left for three bases scoring Mullens. Wilson hit one to G. Jarman who threw to the plate. Kimball, seeing the folly of his ways in trying to score, started back to third but was run down by Putzier and Cron, Cron making the putout. Macheck fanned out, ending the inning.

Fifth Sees Buhl's Last Score

The west-enders made their last score here last night.

Bambino and Wife Undergo Operations

At New York's St. Vincent hospital, Mr. and Mrs. Babe Ruth underwent surgical operations on the same day. The operation on Mrs. Ruth was a serious one, but she is recovering.

In the fifth, Snyder popped out to Cron. Hammond juggled Cox's ground out. Cox went to second when Hodgins hit one to L. Jarman and was thrown out at first. Krauel sent a hot single to right scoring Cox. Krauel was the victim of Putzier's deadly pop to second.

The game stayed this way until the sixth when Twin Falls made two more runs. Mussell cracked a two-base hit to right center, and went to third while Hodgins and Cox were taking care of Hammond. John Nye sent a long fly to left. Wilson, Mullens missed, Mussell scoring and Nye tying up at third. L. Jarman sacrificed Nye home when he bunted along the first base line. Cron went out, Hodgins to Cox.

The seventh was the big inning for the Evans side. G. Jarman was hit on the nose, when Bob Putzier slipped out a scorcher to center field. Putzier went to second on the first ball. Fix fouled out to Macheck. Thometz hit a single to right, scoring Putzier. On two hits and run signal Mussell singled to left. Thometz tying up at third. Hammond poked a clean single to center field, scoring Thometz and Mussell. One more was counted in the eighth. Lavell Jarman started off with a single to left. Cron sacrificed him to second. Kimball went in to pitch for Buhl. Gerald Jarman was hit in the ribs for the second time. Putzier singled to right, filling the bases. Fix singled in field, scoring L. Jarman. Thometz flew to Dolan, and G. Jarman was held at third. Mussell grounded out to Cox.

The last run of the game for Twin Falls came in the ninth. Hammond singled over first base and stole second. Nye hit a terrific one to Macheck which crossed off his shoes. Hammond scoring, and Nye going to third. Nye was credited with a single. L. Jarman sent a short fly to center. Nye

PAIR WEATHER FOR DERBY

LOUISVILLE, Ky., (AP)—The more than 70,000 persons who will witness the running here this afternoon of the forty-eighth renewal of the Kentucky derby awake today to find the sky cloudless and the early sunshine giving promise of summer heat. A lightning-fast track is assured, barring a sudden and unforeseen change in weather conditions. The exact minute of the start of the classic cannot be determined, but the barrier will be snapped between 6 and 7:15 o'clock, central standard time. It is generally agreed, the derby being the fifth race upon the card.

COWBOY KNOCKED OUT

DAVENPORT, Ia., (AP)—Morrie Schlaifer of Omaha knocked out Cowboy Padgett of Davenport in six rounds here last night.

eral errors of omission that the box score won't show.

Hodgie pitched a nice game consisting of his own shoulder.

Buhl made two hits in the first inning and couldn't get a run over.

Hodgie made several balls and got away with them until the fifth, when Evans started to protest.

L. Jarman made a nice peg to the plate in the first inning when he threw out Wilson on Hodgins' slow roller along the third base line.

Hodgie juggled Hammond's high fly in the fourth, but managed to get his mitts on it for keeps before it hit the ground.

John Nye had his eye on the ball in the fourth he tripped to the left field fence, with one out and wasn't able to score.

Wilson played a nice game at short for the Buhl team, accepting six hard chances without a bobble.

Macheck made a jumpy running catch of Fix's foul in the seventh.

Shel-John Nye stole third base in the ninth.

Kimball took Hodgins' place in the box in the eighth, and showed a lot of stuff.

Lavell Jarman pitched great ball after the fifth, not a hit being made by the Buhl swatters. Lavell struck out all three batters in the last of the ninth.

Hammond's hit along the first base line in the sixth was so hot that Cox didn't get his lamps on it, and nearly cracked his shins looking for it.

Three fast double plays Not so fast for high school baseball.

HAZELTON-KIMBERLY GAME

High Wind Interferes with Work of Players and as Result Errors Proliferate on Both Sides

In a loosely played game, replete with errors on both sides, due largely to the high wind, the Hazelton high school baseball team defeated the Kimberly high school baseball team on the latter's diamond yesterday afternoon by the score of 13 to 4.

The wind made it impossible to play good baseball, and most of the runs were due to misjudged fly balls.

The battery for the winners was Jeffries and Brown, while Rowland, Wilson and Sizemore did the heavy work for Kimberly.

MAY SUSPEND TWO BOXERS

Failure to Extend Themselves in Bout Will Probably Result in a Year's Retirement

DETROIT, Mich., (AP)—Danny Prush of Cleveland and Johnny Holman of New York probably will be suspended from Michigan rings for a year, according to Charles P. Campuz, boxing commissioner as a result of their alleged failure to put forth their efforts in a bout here last night. They were scheduled to go ten rounds. The bout was stopped by Campuz's order in the second.

Both fighters, it was said, became dissatisfied before the fight with the purses they were to receive.

WINS IN STRAIGHT FALLS

HERINGTON, Kan., (AP)—Ed "Strangler" Lewis, world's champion heavyweight wrestler, threw Jatriada Gohar, his Hindu, in straight falls here last night. Lewis took the first in 37 minutes and the second in eight minutes, using the headlock on both occasions.

HINDU WRESTLER WINS

SEASIDE, Calif., (AP)—Bosnian Slavic Hindu wrestler of Portland, Ore., defeated Jack Reynolds of Cedar Rapids by winning two of three falls in their match last night.

FANS FEELING CHEERFUL

Only Danger in Caldwell Game Lies in Possibility of Locals Taking Task Too Lightly

The coming three-game championship series between the Caldwell high school baseball team and the local high school side will be played at Lincoln field next Wednesday, Thursday and Friday, and aroused the interest of the fans, and it seems to be the main topic of conversation all over town.

The Twin Falls boys had a narrow escape yesterday afternoon at Caldwell but it must be remembered that Buhl was one of the best teams in this section.

It looks very much as though the local boys were inclined to take their game too lightly, and should they get into the championship series with the same feeling, the honors will be taken back by Caldwell.

EVANS WORKING HARD

Coach Evans is working hard for the coming games, and has given instructions that all members of the ball team be in bed every night by 10 o'clock until after the third game is played. This in itself shows that the coach will make life miserable for all.

Caldwell has a more enviable record than has the Twin Falls team, having played four more games, and having four shutouts to their credit, while the local boys have only two. That the locals have been able to keep away from the plate.

The business men of the town will go out Monday morning, selling tickets for the coming affair, and it is to be hoped that every lover of the national game will buy a ticket.

Caldwell got away with another game yesterday afternoon at Caldwell for the first time, winning by a score of 8 to 4. Caldwell made 11 hits, which shows that they, too, are a good ball team. The field, their pitcher, did the throwing yesterday, and allowed but four hits. Heads up, Twin Falls.

CHARGES ARE RIDICULOUS

Legal Efforts of Happy Felch Not Taken Seriously by Chicago American President

MILWAUKEE, (AP)—President C. A. Comiskey of the Chicago American league White Sox regards the recent charges of Felch concerning the 1917 baseball season as "unworthy of any consideration whatever."

In a statement given to newspapermen at his home, the veteran manager said: "I consider the Felch charges too ridiculous to answer, as he is a ball player in bad standing and unworthy of any consideration whatever."

Mr. Comiskey will return to Chicago Sunday, he said.

Meanwhile, in Milwaukee, his attorney, George B. Rothall, opposed the move of Felch's counsel seeking help of Judge John J. Gregory in circuit court today to force Comiskey to bring the books and records to determine pay, bonus and damages for foregone Felch out of organized baseball.

Notices of the suit, similar to Felch's in behalf of Joe Jackson, former White Sox outfielder, and "Swede" Ribberg, shortstop, were issued yesterday.

Felch's attorney criticized Judge Landis for saying "no one will pay much attention to what Felch says."

GENTS REVERBER'S DECISION

VANCOUVER, B. C., (AP)—Bobby Melnick's New York boxer, was given a referee's decision after 10 rounds with Charlie "Roughhouse" Burns, light-weight champion of British Columbia, here last night. No title was involved in the bout.

RECORDS OF THE PILL SWATTERS

Many Players Putting Much Fat on Their Batsting Averages as Weather Warms Up

CHICAGO, (AP)—Lawton Whit, New York Yankee outfielder, is at the top of the list of batters in the American league, according to figures released today which include games of last Wednesday. The average of players who have participated in 15 or more games.

The pitching in the past week has been to Whit's liking and he boosted his average from .395 to .410. Catcher Severely, for the Browns, brought his mark of .410 to .424, for the runner-up honors. George Blaser, another member of the Browns, who topped the batters a week ago, slumped a little and is in third place with .405, with Steve O'Neill, star catcher of the Cleveland Indians, pressing him with .403.

Other leading batters for 15 or more games: Clark, Detroit, .393; Jamieson, Cleveland, .379; Ed Miller, Philadelphia, .372; Gardner, Cleveland, .361; Pratt, Boston, .353; Williams, St. Louis, .348; Scott, New York, .345.

George Trapaner of the St. Louis Cardinals has struck a batting stride which promises to make the batters of the National league hustle to keep pace with him. He cracked out nine hits in his last five games, including last Wednesday's contest, and boosted his average from .400 to .430.

Maravalle of the Pirates lost one point, but with an average of .413 is the runner-up with George Kelly, the slugger. Giant first baseman, who topped the list a week ago, lost 40 points and is resting in third place with an even .404.

Other leading batters for 15 or more games.

PRESBYTERIANS WILL ASSEMBLE IN DES MOINES

General Assembly of Church to Hold 134th Session—Many Foreign Delegates Will Take Part in Discussions

DES MOINES, Ia., (AP)—This city is preparing to welcome hundreds of commissioners, together with many foreign missionaries, officers and representatives of the Presbyterian church, to be assembled here in annual general conference on May 13 for an eight-day session.

One of the outstanding reports of the convention is expected to be that of the special committee on reorganization and consolidation of boards, to be submitted May 22. Dr. John Timothy Stone of Chicago is chairman of a committee which has spent two years investigating the advisability of consolidating certain boards.

Opening of the General Assembly will be conducted by Dr. Henry Chapman Swearingen, Moderator of St. Paul, Minn., whose term of office will then expire.

Layman May Be Moderator

There appears to be a strong possibility that a layman may succeed Dr. Swearingen as Moderator. Dr. John T. Mason, banker of New Haven, Conn., has been suggested for the position. Only one layman moderator has been in charge of the general assemblies of the church. At one time, Dr. John Willis Baer, a banker of Pasadena, Cal., held this position. Owing to the growing importance of men's work in the church, it was believed by many members that another layman might take charge at this time.

Among the foreign delegates of Dr. William Hiram Foulkes of New York, general secretary of the New Era Movement, has been named as a possible successor to Dr. Swearingen. The New Era Movement is given credit by ministers and laymen alike for the fact that the Presbyterian church in the United States is today stronger than ever before in its history, having made great gains in membership and more than doubled its benevolent budget.

Big Paganist in Pasture

One of the major features of the assembly will be a paganist exhibition and report to be given under the direction of the Rev. George G. Doney of New York. It has been announced that more than 500 members of the Des Moines Presbyterian churches will participate.

The Home Mission council of the church is expected to arrive in the city on May 12 to open a church exhibit which will include booths representing all branches of the church both at home and in foreign missionary fields.

A number of preliminary conferences have been arranged to take place before the opening of the general assembly. These include the evangelists, the foreign missions and the movement conferences on May 16 and 17.

Two of the more notable figures among the missionaries who will attend the assembly will be Dr. and Mrs. F. H. Spence, coming from the northernmost hospital in the world, the Presbyterian mission station at Point Barrow, Alaska. This hospital is located more than 600 miles beyond the Arctic Circle. For thirty years this mission has been administering to the needs of the natives there. Much of the financial funds to maintain it was furnished by Mrs. Elizabeth F. Shepard. The Spences were established at the mission for five years before the hospital was built. No other hospital exists within a radius of 1,000 miles of Point Barrow.

FAIR WEATHER FOR WEEK

WASHINGTON, D. C., (AP)—Weather outlook for the week beginning Monday: Rocky mountains and plateau regions, generally fair and moderate temperature; Pacific states generally fair and normal temperature, but with a probability of occasional showers on the north coast.

LOVERS OF DICKENS WILL CELEBRATE ANNIVERSARY

LONDON, (AP)—Lovers of Dickens are preparing to participate in the commemoration of the 60th anniversary of G. G. George Church, where Miss Dorrit rested on the night after the party when she was too ill to return to the Marshfield Priory. Later she was married in the church. Dickens was also a worshipper there during his boyhood and often attended the services later in life.

The present church was built in 1774 on the site of the first church which was given by Thomas Arden to the monks of Downham Abbey in 1122.

No Happiness in Idleness. There is a working class wrong and happy—among both rich and poor; there is an idle class—weak, wicked, unlovable—among both rich and poor.—Huntin.

SELECTION OF STOCKS BESET WITH PITFALLS

Securities Classified Into Groups for Benefit of General Investor—Repeat Product Manufacturers Have Advantages while Monopolies Are Subject to Carelessness in Management

By ROGER W. BABSON... WELLESLEY HILLS, Mass.—(Special to The News)—When asked for his plan for selecting industrial stocks, Roger W. Babson, the statistician, today sounded a new note in recommending what he calls "the repeats."

Manufacturing concerns are divided into three main groups, said Mr. Babson, according to the nature of what they produce. These groups are as follows: Group one includes those concerns making products that are bought eventually by every person, but in small quantities.

Group two includes those concerns manufacturing products which only a certain percentage of the people buy at all and which, only a very few buy more than once. They are both of these kinds of goods, flatso, automobiles, law mowers, garden tools, etc., in this group.

Group three includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it. The soap people are engaged in this repeat business.

Group four includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group five includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group six includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group seven includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group eight includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group nine includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group ten includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group eleven includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

Group twelve includes those concerns who are engaged in the manufacture of repeat merchandise. The breakfast food people are an illustration of such manufacturers. You get into the habit of using a certain breakfast food and you keep buying it.

great source of all life and matter, so it is all through the world... God made the world and as a part of His great plan the success of our lives depends upon how completely we have entered into the divine plan.

Some one pressed a button and the room leaped to light. There he stood, a little taller than the first. He recognized Gertrude Dave. The second of the gunmen was out of range of his vision.

From the sound of cracking furniture Jerry judged that the man had not shot so heavily. "It was that blount quills us. And say—how come the bulls so hot on our trail? Who rapped to 'em?"

"Must 'a been that boob with the goll. He got busy quick. Well, Jerry, you'd better get out of here. We made our getaway all right," said Dave.

"Say, where's Joey?" "Pulled a snake like this. 'Wha's it matter?' Listen! 'Wha's that?' See, the man in the room moved cautiously to the door. The hall light was switched on.

"Lo, Jerry," Gertrude Dave called softly. He closed the room door and the sound of the voices was shut off instantly.

The uninvited guest dared not step out of the closet to listen, for at any instant the man might re-enter. He crouched in his hiding place, the twilight in his hand.

The minutes dragged interminably. More than once Jerry almost gave up his mind to steal out to learn what the men were doing. But his judgment told him he must avoid a brush with them.

The door opened again. "Now beat it and do as I say if you know what's good for you," a bullying voice was ordering.

The cover of the voice came in and slammed the door behind him. He sat down at the desk, his neck to the closet. Through the chink Jerry saw that the man was Jerry Durand.

From his vest pocket he took a fat black cigar, struck a match and lit it. He stomped down in the twilight and it took no time to discern that his mind was busy working out a problem.

Jerry stepped softly from his place of refuge, but not so noiselessly that the gangster did not detect his presence. He stepped round the door and stood up with outlike agility.

Jerry cursed him with a low, savage stream of profanity. The gangster engaged was not a slight pleasing to see.

"What you don't here?" he demanded. "Makin' my party call," returned Jerry calmly.

Jerry cursed him with a low, savage stream of profanity. The gangster engaged was not a slight pleasing to see.

mouth was dry as a whisper and there were goose quills on his flesh.

But Durand, used to the fatal accidents of business and to the soft living of the great city, found his nerve beginning to crack under the strain.

"What kind of a man was his enemy to lie there in the black silence? Not once give sign of where he was or what he was doing. Was it possible that he could have killed the fellow at the first shot? The comfort of this thought whispored hope in the ear of the ex-prize-fighter.

A chair crashed wildly. Durand flung up his arms and his hands were giving way to a panic that carried him to swift action. He could not have stood another moment without screaming.

"There came the faint sound of a light spring on the wall, and immediately after a flood of light filled the room.

Clay stood by the door. His revolver covered the crouching gang leader. His eyes were hard and pitiless.

"Jerry another shot," he advised ironically.

"You'll tell me what you did with Kitty Mason," said Clay in his low, persuasive voice, just as though there had been no intermission of flying bullets since he had mentioned the girl before.

"You can't kill me when I haven't a loaded gun," Durand answered between dry lips.

The other man nodded an admission of that point. "That's an advantage you've got to me. You could kill me if you had a gun, because you're a yellow wall. But I can't kill you. That's right. But I can beat you out of you, and I'm sure goll to do it."

"Talk's cheap, when you've got a loaded six-gun in your fist," teased Jerry.

With a flick of his hand Clay forced the revolver to the top of a bookcase, out of easy reach of a man standing on the floor. He ripped open the buttons of his overcoat and slipped out of it, then moved forward with elastic fluidity.

"It's you or me now, Jerry Durand." The prize-fighter gave a snort of derisive triumph. "You'd-a fool! I'll eat you alive!"

"I reckon my system can assimilate any villain you're liable to hand me. Go to it!"

Durand had the heavy shoulders and swarming muscles that come from years of training for the ring. Like most pugilists out of active service he had much of the lean bulk of a soldier and stood up with outlike agility.

He held his leadership partly at least because of his physical prowess. So tough in New York would willingly have met him in a fight.

The younger man was more slightly built. He was a Hercules rather than a Hercules. His muscles flowed. They did not bulge. But when he moved it was with the litheness of a snake.

"Makin' my party call," returned Jerry calmly. The clear eyes in this brown face told of a soul indomitable in a perfectly synchronized body.

Durand lashed out with a swinging lead, but he was slightly off his mark. The desk. Clay stepped back, shot a hard straight right to the cheek and ducked the counter, Jerry rushed him, falling at his foe blow on blow, intending to wear him out by sheer hard hammering. He hit with his head and neck, used every foul trick he had learned in his rotten trade of prize-fighting.

Clay was cool, quiet master of himself. Before the fight had gone three minutes he had a hand on Clay's neck, a hand on his face, or a bit of bad luck, he would win. He was covering up, letting the pugilist wear himself out, and taking only the punishment he must. But he was getting loose some heavy body blows that were playing the mischief with Jerry's wind.

The New Yorker, pulling like a sea lion, came out of a rally winded and spent. Instantly Clay took the offensive. He was a trained boxer as well as a fighter. He had been taught how to make every ounce of his weight count. Hipping to a body blow as a feint, he brought down Durand's guard. A straight left crashed home between the eyes and to the heavy solar plexus of the chest.

LABORERS WITH GOD... 1 Cor. 3:9: "For we are laborers together with God."

The first thing that we read in the Bible about God is concerning His own work. He created the heavens and the earth. He set the world an example, then, in the way of labor, and gave labor a divine dignity.

When our Lord and Savior came on earth, He was raised in a family of plain, hard-working people in the little village of Nazareth. Joseph was a carpenter, and the Master learned the trade and worked at it for many years, in company with His father. So that Christ not only preached the doctrine of labor, but He himself was a laborer.

Most of the apostles and early disciples of Jesus were what would be called today laboring people. St. Paul is a good example. Though he was a man of great learning and culture, yet he had learned the trade of tent-maker, and followed that work throughout his ministry as a missionary.

Most of what we hear about the dignity of labor is said in a patronizing way by people who do very little real labor themselves, either with their hands or with their brains. A good deal of the talk of dignity in labor is by professional politicians.

The only dignity to labor is that which is won by the worker who, by his own hands, makes bread out of it, and who, in the process of creation, lives. It is a process of creation in which we are co-workers with the one

ship with God. It is the sense of companionship with God in making the world a process that God began, and that He is watching us every day to see how faithfully we do that work. God the Architect of the world, has given us certain work to do to help finish the work of Creation. More and more we are seeing that creation was not a finished work, even though God rested from His labor, but creation is a process that God began, and that He is watching us every day to see how faithfully we do that work.

God has given to us all a work to do, and He is watching us every day to see how faithfully we do that work. God the Architect of the world, has given us certain work to do to help finish the work of Creation. More and more we are seeing that creation was not a finished work, even though God rested from His labor, but creation is a process that God began, and that He is watching us every day to see how faithfully we do that work.

God has given to us all a work to do, and He is watching us every day to see how faithfully we do that work. God the Architect of the world, has given us certain work to do to help finish the work of Creation.
