NEGRO IS HANGED AND
CORPSE BURNED TO CHAR

Mob Batters Down Jail Doors to Secure Man Who Had Killed Officer

TEKASKANA, Texas (P)—The mob was quiet today following the hanging last night of Willie Owens, negro, by a mob which took him from the Miller county jail on the Arkansas side, where he had been confined following the fatal shooting of R. C. Chester, Arkansas policeman.

Owens killed Chester in attempting to escape yesterday after being taken from the jail to show the authorities, he said, where he had hidden stolen goods. He pulled a revolver from a hiding place and shot at the officers, but he was killed in the face. Owens ran and shot and killed Chester a few blocks away when the latter attempted to capture him.

The negro attempted to drown himself in a pond. He was rescued and taken to a hospital.

The threatening attitude of a crowd that gathered about the hospital caused the removal of the negro to the jail. The mob followed and the doors of the jail were battered down. Owens was dragged from a park in the center of the city, where his body was riddled with bullets and then the corpse was burned in a park.

HOPE TO UNITE GREATER CHINA

Constitutional Government To Follow the Defeat of General Chang

PEKING, (AP) — Solution of China's internal problems, including unification of the north and south, await the outcome of the military activities north of Tien Tsin, where the armies of General Chang Tso Lin, and General Wu Pei-Fu face each other.

Willing to Quit.

General Wu, who defeated Chang in their recent campaign near Peking has declared he will not fight again if Chang peacefully withdraws his forces north of the great wall, as the most important question to be considered now is the establishment of a constitutional government.

(A Tien Tsin dispatch last night reported that Chang's troops had completely evacuated Lanchow, and that Chang himself and 10 trainloads of soldiers had already gone outside the great wall. The retreat was attributed either to General Wu's outflanking movement or to trouble in Manchuria.)

World Overthrow Chang.

General Wu is convinced that Chang contemplated establishing an independent empire in Manchuria, but believes the republic is capable of overthrowing such a government. It is said that, if necessary, an expedition will be sent into Manchuria to reunite the province with China proper.

Wu has announced that he is supporting a unification scheme which he believes will win the approval of the southern, or Canton, government, headed by Dr. Sun Yat Sen.

Dr. Sun May Join.

Importance is attached to provision for reassembling the old parliament as the majority of the members now reside in Canton, and it is believed that, by inviting them to reconstruct the country, Wu has removed any grounds for opposition on the part of Sun Yat Sen.

It is understood that if the parliament is convened, President Hsin Shih Chang will resign. His term of office at the dissolution of parliament and for that reason Dr. Sun has contended that his election was illegal. The Chinese press notes Dr. Sun as declaring his willingness to abdicate the Canton government if the president withholds his approval.

Li Yun-Hung, who retired from the presidency during the attempt to restore the monarchy in 1917, is being urged to accept the office again should a vacancy occur.

M. Poincare made his statement in replying to an inquiry by M. Klotz, former minister of finance, with regard to declarations recently made by Austro-Chamberlain, government leader in the British house of commons, on the question of allied action in case of a German default.

Swat King and Teammate Reinstated That They May Play in St. Louis

CHICAGO, (AP) — Babe Ruth and Bob Meusel of the New York Yankees were reinstated by Baseball Commissioner Landis today.

The home run king now is eligible to start his drive for 1922 slugging honors in this afternoon's game with the St. Louis Browns of New York.

The telegrams from Ruth and Meusel asking reinstatement were received at the commissioner's office about 8:50 a. m. The judge was not there but his secretary, Leslie O'Connor, had received his instructions last night and promptly sent telegrams to Ruth and Meusel reading as follows:

"Your reinstatement application granted effective immediately."

(Signed) "K. M. LANDIS."

A third telegram was sent to Captain Cilli and Owens, reading:

"Ruth and Meusel reinstated effective immediately. Eligible for today's game. K. M. Landis."

The applications for reinstatement from Ruth and Meusel were identical. They read as follows:

"I hereby respectfully apply for immediate reinstatement to enable me to play in the game here today, Saturday, May 20."

An application for reinstatement was also received from Bill Piley, Boston American league pitcher, suspended for playing in post-season games.

Piley's telegram follows:

"I hereby make application for reinstatement to enable me to pitch game today, May 20. Kindly wire."

Shortly before 9 o'clock a messenger boy ambled down the hall to the judge's office, which was locked.

"Is this the boy Landis?" he asked a reporter after quipping at the last word "Baseball" on the door.

"Yes, what do you want?" answered the reporter.

"Here's some telegram from them players," said the boy showing them into the reporter's study. "Big boys."

The reporter signed, stuck the telegram in his pocket and was assured that he could not be scooped, waited for Mr. O'Connor.

"Don't you feel kind of big after delivering such important telegrams?" he asked the boy as the latter started away.

"Now, them guys ain't nothing to me. I handle bigger stuff than that every day," the youngster answered.

Previous to the reinstating trip in which the three players took part, Judge Landis warned them that they would be disqualified. Several other players had planned to take part in the trip, but they changed their minds after the judge's warning.

The trip was called off at the instance of the owners of the New York club, after only a few games had been played.

Judge Landis refused to comment on his decision.

Trace Valentino and Bride to Room Occupied in Palm Springs Hotel

LOS ANGELES, Cal., (AP)—A report that Rodolph Valentino, film actor, and Winifred Hudnut, motion picture art director, known professionally as Natscha Rambova, occupied a room at a hotel at Palm Springs, Cal., after their marriage, was taken up at the Los Angeles office here today.

Detectives Follow Clue.

It was forwarded by two Los Angeles detectives sent to gather evidence bearing on the case along the Mexican border, so that the authorities here could determine whether to prosecute Valentino for bigamy because he remained within less than a year after obtaining an interlocutory decree of divorce January 10 last from Joan Ackers, actress actress.

The detectives declared they had located at Indio, Cal., five witnesses who would testify to the appearance of Valentino and Miss Hudnut at the Palm Springs hotel.

It has been previously stated that if sufficient evidence was obtained to prove that after the marriage in Mexico the film actor brought his bride back into California, bigamy proceedings would be instituted.

Further Reports Expected.

The detectives were expected to visit El Centro, Cal., and Mexicali, Lower California, also in their inquiry, and it was believed possible they might make a further report today.

Valentino's attorney has announced he was ready at any time to take to the district attorney.

Miss Hudnut is on the way to New York.

Miss Ackers made her third engagement to appear at the district attorney's office today.

SWEDISH FARM IS ELECTRIFIED

Plows, Seeders and Harvesters to be Driven by "White Coal"

STOCKHOLM, (AP)—The Swedish government has been requested to establish a model electrified farm to be located, if possible, near Stockholm. In view of the fact that more than one-third of agricultural Sweden is now electrified, it is proposed that the model farm be as nearly 100 per cent electrically operated as possible so that Swedish farmers, who are now in a position to change horses for electric power, may be enabled to view demonstration of how "white coal" can be utilized in the country.

Would Study Electricity.

The request for the electrified model farm comes from the National Association for Electrification of rural Sweden. In its communication to the government this body points out the necessity for training Swedish farmers in making use of electrical power. It proposes that farm electrification be made a special subject of study at the agricultural schools and colleges of the country.

It is proposed that the model farm be fully equipped with all the latest electric agricultural devices so that the farmers may see electrically operated plows, tractors, seeders, threshing machines. Motors of different sizes will drive the milk separators and the churn. The new electric device which passes an electric current through an ensilage of cattle fodder to increase its nutritive value is to be shown.

Will Relieve Labor.

There is very little heavy labor on Swedish farms, heretofore performed by man or beast, which machines operated by electric current cannot do, and more than a third of the Swedish farmers can operate their farms by electricity if they understand the elementary principles of electrical science. Naturally, the agricultural population needs considerable training before full advantage can be taken of the wonderfully cheap power furnished by the many waterfalls and rapids which have of late been harnessed.

Supporting Desmond in the notable cast are Virginia Brown Faire, as leading lady; Rosemary Theby, who leads him the leading role in "A Connecticut Yankee"; Doris Pawa, Joseph J. Dowling, William Lawrence, Emmett C. King, Jack Richardson, William C. Dyer, Bert Landier, George Stanley and Vernon Snively. "Fightin' Mad" was directed by Joseph J. Franz and photographed by Harry A. Gersted.

Rattan Furniture.

Many people imagine that rattan and willow furniture are the same. Rattan, however, is the strongest of materials, and is susceptible of bending and twisting without even cracking. It possesses, besides, great firmness and strength. Rattan is therefore used for such articles as baskets and lighter ornamental furniture. Each wood has its use, the rattan being better adapted for working up into intricate designs, no energy sought in modern artistic furniture.

PEOPLE ARE PURCHASING PUBLIC UTILITIES STOCK

Customer Ownership Increasing and Normal Conditions May Not Lessen It

ATLANTIC CITY, N. J., (AP)—Customer ownership of the public utilities of the nation, while devised as a war financing measure, has become so firmly established that real public ownership is being attained and it will not fade away with the return to normal conditions. John F. Gilchrist of Chicago, chairman of the customer ownership committee of the National Electric Light association, reported to the forty-fifth annual convention of the electric light and power industry here today.

As indicating the wide growth in public ownership of utility securities

that took place in the last year, Mr. Gilchrist cited the figures of 34 electrical central station companies which showed:

The 34 companies sold approximately 370,000 shares of stock during the year.

"The year just passed has been one of great activity in the sale of utility securities," Mr. Gilchrist's report said. "The growth of the electric light and power utilities has been rapid and for this reason, as well as on account of the falling commodity prices, net earnings have been satisfactory. In addition to these factors, which have made utility securities attractive, there has been the falling price of money and the corresponding increase in the selling price of securities of recognized value which is always a stimulus to buying."

"The last year has given us more experience upon which to base views as to the improvement in relations with the public which is directly attributable to the wide distribution of utility securities among the citizenship of the community. The conclusion has been definitely arrived at that customer ownership is not to be taken upon as a war measure destined to fade away with the return of normal conditions, but from a financing standpoint alone will become more and more important each year."

WOULD-UNITE FORCES AGAINST PROHIBITION

General Wrangel Principal Figure in Enrolling Russians Against Government

PRAGUE, (AP) — Progress toward a union of the Russian anti-bolshevik forces abroad around the personality of General Wrangel, formerly commander of the White Russian armies in the Crimea, is reported here as a result of a conference held in Belgrade in March.

The difficulties in the way are said to be great but Vladimir Skulgin, a Russian officer formerly of Skulgin, says that Wrangel's influence has been drawn together the Russians in Constantinople and Sofia, has gained ground in Belgrade and there is about to be the support of those elements in Paris whose spokesmen are the philosopher, M. Katschinski, president of the Russian National council in Paris.

These elements leave the Russians divided into two main groups — one the Wrangel forces and the social revolutionists, with whom Professor Paul Mikulski is co-operating.

Soldiers Loyal to Wrangel.
About 15,000 Russian soldiers, mostly officers, have continued to remain loyal to Wrangel since they were driven out of the Crimea and thousands of them are performing frontier guard or gendarmic service in Jugoslavia where their discipline has continued. In Bulgaria the Bulgarians have the small army units and the sentences of their court-martials are carried out without reference to the laws of Bulgaria.

The Wrangel forces actually are better armed than the Bulgarians and recently have been equipped with arms and munitions from allied sources but the Bulgarians are not able to watch their frontiers effectively.

YAKIMA WOMAN ACTS AS "MOTHER" TO JAPANESE

Teaches Them Principles of Citizenship, Knowledge of Christian Religion, and American Ways of Cooking.

YAKIMA, (AP) — After having acted as "mother" to five Japanese home holds in this vicinity, Mrs. George McKay is looking forward with a great deal of pleasurable anticipation to assuming the same duties in six other families. In time she hopes to render like service for each Japanese family in this part of the state where her presence is desired.

Besides teaching the Japanese families the principles of American citizenship, Mrs. McKay is spending a great deal of effort in spreading among them the principles of Christianity. She has found Japanese bibles, and these she employs in her teaching.

"In many ways the Japanese are more sanitary than we are," Mrs. McKay said recently. "One of the Japanese home where I have been found that the women scrubbed the whole house every day."

"Most of the Japanese are making real sacrifices to keep their children in school. The children are bright and work hard."

Mrs. McKay remains in each home for a minimum of three days.

NEW POLITICAL PARTIES PROHIBITED BY RUSSIA

Will Take No Members Except Those in Sympathy with Proletariat

MOSCOW, (AP) — No new political parties can be legalized in Russia for a number of years, said the communist party constitution to keep its rank and file loyal to the party. The constitution also prohibits the formation of parties in sympathy with the dictatorship of the proletariat, G. P. Zinoviev told the last session of the all-Russian communist party congress.

Zinoviev is head of the Third International, president of the Petrograd provincial soviet, one of Premier Lenin's closest friends and the author of Lenin's biography. He is a fiery revolutionary, crusader and in the soviet regime virtually has been dictator of Petrograd.

"Our party has the monopoly of legality," he said. "The danger of this monopoly is that a number of people are getting into the party who would go into the petty bourgeois parties if they could. They are not coming into the party with bad intentions, and are honest and sincere, but they are not the kind of people who like to participate in the economic and political life of the country. We shall strictly enforce the monopoly of the legality of any party in this country for a number of years to come."

M. Zinoviev said it would be difficult to clear out this element of the party but, as the labor class must "do in" the bourgeoisie, the party's difficulties on this matter are great. In restoring Russia, should not permit any such measures that would lead to the restoration of the Menshevik or other bourgeois parties.

More serious attention must also be paid to the press. M. Zinoviev declared, as the bourgeois writers are trying to get an independent press and even journalists registered as employees of the newspapers now permitted to operate (all government controlled) are mostly of the old intelligentsia class.

TODAY'S MARKETS

WHEAT MARKET TAKES ON FIRMER UPERTONE

Reaction From Previous Day's Bear Movement Follows Straggling Crop Reports From Southwest

CHICAGO, (AP) — Reports that the condition of the new crops in the southwest is not as favorable as expected gave the wheat market a rather bullish tinge here today. The rainfall was said to have been insufficient during the past six weeks in certain sections of the country. The early trading was rather light, but the market showed a rather firm undertone with moderate buying by commission houses and short coverings. The May delivery which broke at the start soon recovered its loss on scattered buying, but the bulk of the trade which was of a local character, was in the new crop deliveries.

It was estimated that arrivals here today were 225 cars, while the deliveries on May contracts were reported as 430,000 bushels of wheat. May started 7-8 to 1-2 lower at \$1.23 1-2 to 1.30 while the deferred deliveries varied from unchanged figures to 3-8 up, with July \$1.24 1-2 to 1.24 3-4. The market underwent slight gains all around, then experienced somewhat of a setback. The May delivery continued under pressure and broke sharply toward the finish, with the other deliveries moving in sympathy. The close was weak, 3-8 to 4-5 cent lower, with May \$1.23 1-2 to 1.26 and July \$1.23 5-8 to 1.23 3-4.

Corn and oats were dull, but the market was more to lack of pressure than anything else. The wheat market is generally rather bullish and the markets are regarded as overvalued in some quarters. After starting unchanged to 3-4 higher, with July 64 1-4 to 64 3-8, the corn market showed slight gains, then suffered a slight reaction.

Later the corn market rallied some what on reports that rains were needed in parts of the corn belt and closed firm with values averaging 1-8 to 3-8 cent higher, with July 64 1-4 to 64 3-8.

Oats varied from unchanged prices \$1.14 to 1-2 higher at the start, with July 39 1-2 to 39 1-2 to 3-8, and then eased off.

Provisions were higher in line with higher values for grain.

MR. FOX'S STORY

MR. FOX knew he was in a tight spot when he had seen Mr. Coon running for a tree ahead of him, though he was well aware that Mr. Dog was after him and had not seen Mr. Coon at all.

He was in a tight place because he knew perfectly well that Mr. Coon had watched the chase from the tree, and saw him tumbled over by Mr. Dog, roll down the smooth, steep hill and land at the bottom in a muddy pond.

"I must think up some sort of story to tell tonight at the Four Paws club," said Mr. Fox as he sat by his kitchen stove drying himself.

"Of course, I should have kept away from that hill," said Mr. Fox, "but I

was thinking of the fun I could have with Mr. Dog. For it was such a good morning for a race."

Mr. Fox sighed as he thought how his plan had failed, and how he had run down the smooth hill, and Mr. Dog, being an exceptionally fast runner, had caught up to him, but was running so fast he could not stop, and bump he went against Mr. Fox, tumbling him over.

"But Mr. Dog did not tumble; he

Ten members of the Salmon Social club and five guests enjoyed the hospitality of Mrs. Peter Hansen on Thursday afternoon. The "Baggage" of the profession of apple blossoms and cut flowers gave a very springlike atmosphere to the reception rooms. A short business session was held with the respective leaders, after which music and various forms of amusements provided entertainment, which was greatly enjoyed by all present. The hostesses served tempting refreshments at the close of the afternoon, assisted by her daughter, Miss Maude Hansen, who leaves soon to make her future home in Utah. The next meeting will be June 1 with Mrs. Leo Kirkman.

30,000 BABY CHICKS ARE REQUIRED BY IDAHO FALLS IDAHO FALLS, Idaho, (AP)—As a result of a "corn, pig and hen" campaign carried on in Bonnellville county by the merchants of Idaho Falls co-operating with the farm bureau, to increase interest in diversified farming, over 30,000 baby chicks have been shipped into Idaho Falls this spring.

Found Big Water. Silas Wright Titus, the "water wizard," is dead. Since boyhood, it is said, that he never failed to find underground water when he went after it. He made water hunting his life work. One of his big jobs was locating the underground water that supplies Brooklyn, N. Y., 10,000,000 gallons a day.

No matter how peculiar a demand comes up from the people always comes some man intuitively fitted to handle the job. We may be masters of our own destinies, but there's a wonderful system back of it all, distributing human abilities to meet demands.

Is He Staged, in some respects, in advance?

WRITING ALMOST A LOST ART

Typewriter Has Practically Put the Pen Out of Business, With Some Unfortunate Results.

Who remembers the old days when men of commerce and industry wrote a "good business hand"—when handwriting was one of the accomplishments and letters written in ink could be read with small effort asks the Nation's business. Handwriting has gone out of style because it gave way to something infinitely better: the old story. Hand work could not compete with machine work—the pen could not compete with the typewriter.

But we view with sorrow the fact that the decline and fall of handwriting has also meant the decline and fall of the ordinary business letter. These days, and while the body of the communication stands forth in clean-cut typographic, you are lucky if you can make out the signature.

Unless you know who wrote it, the name may be anything from "Bliss" to "Jones." Some of them appear to be perfect; they are made up of regular, sharp saw teeth, but when you try to imitate them you can't tell the "m" from an "n" or the "l" from the "t." Others confuse and confuse you with serifs and flourishes. And still another type is just plain awful. Plainly something should be done.

Maybe congress could be induced to pass a law making it compulsory for every letter to have the name of the signer typewritten in the near neighborhood of the signature.

APPRECIATED GIFT OF SHOES

Maimed Footgear Eagerly Welcomed by the Unfortunate Children of Wretched Armenia.

A shoe factory in Boston recently offered the Near East relief a consignment of maimed shoes—offered them doubtfully, not knowing whether such a gift would be acceptable. Nevertheless, the gift was joyfully accepted by the organization, and the odd shoes were not sent forth as eagerly received by the little folks in Near East relief orphanages.

For children in Armenia are no different from children anywhere. They love new shoes. Although these shoes were not made for them without holes, they were shiny, they were solid, they were clean. They were, in short, shoe—real shoes—and when one has been entirely shoeless for a long time, or has worn at best, worn-out pieces of shoes, shoes full of holes, which have not been so long that they are quite the color of the earth—even maimed shoes, that are shiny and new, seem a veritable boon from heaven.

And the maimed shoes meant for the Near East children were "more than pleasure. They meant their life itself. A recent report from an overseas worker contains a simple statement which makes one realize the larger value of the gift.

"As a result of giving shoes to the children," the statement reads, "disparaging cases dropped from over forty to about twenty."—New York Herald.

Just Think. Jud Tunkins says it's all wrong to think that in business friendship ceases. The fact that they are obliged to transact business with one another is all that keeps a lot of people, even a little bit friendly.

"High Noon." "High noon" is exactly at 12 o'clock or apparent noon, as distinguished from the hour between 12 o'clock and 1 o'clock, generally designated as "the noon hour."

A Sweet Moral. To the gossip the malicious is delicious.—Boston Transcript.

RELEASE ROLLING STOCK USED IN LIQUOR TRAFFIC

SPOKANE, (AP)—Federal prohibition officials of this district have waived their claim on railroad rolling stock which they seized in a liquor raid last February, but any such equipment found being used for transportation of liquor in future will be taken over, they have announced.

On instructions from Washington, a \$10,000 bond furnished by the Spokane and Inland Railway company as security for a motor and freight car taken in custody at Colfax, Wash., last week has been released. A quantity of liquor was found in each.

Attorney General Daugherty, without passing upon the law in the case, instructed that the rolling stock be released, and that the road be required to prevent a recurrence of the incident. "I can see no difference in the reading of the law as between an automobile carrying liquor and a railway car," said H. S. McClure, federal prohibition agent for this district, in commenting on the matter. "The next railway car or engine we find with liquor in it will be seized."

CLASS OF 1922 COMPLETES WORK IN HIGH SCHOOL

Commencement Exercises for Class of 116 Young Men and Women Beautiful and Im- pressive Event

Parents, relatives and friends of the 116 young men and women composing the Twin Falls high school graduating class of 1922, filled the lavishing theater to the limit of its capacity Friday evening at commencement exercises marking the completion of the graduates' work in the Twin Falls schools.

Makes Eloquent Appeal

Dr. Alfred H. Upham, president of the University of Idaho, speaking on the subject of "Education and Human Values," delivered an eloquent and convincing appeal for appreciation of mental and spiritual factors. Dr. Upham, as the principal speaker for the occasion, was introduced by M. C. Mitchell, superintendent of Twin Falls schools.

Diplomas were presented to the members of the graduation class by Mrs. Jane Conner Scott, president of the board of education.

Invocation and benediction were offered by the Rev. W. B. Durka.

Mrs. L. H. Masters sang a group of songs and instrumental numbers were given by the high school orchestra under direction of J. T. Bainsbridge.

In Colorful Bow

The graduates were seated during the exercises on the stage which had been made beautiful by use of spring blossoms and the class colors of purple and white.

Announcement was made of the members of the class attaining the highest grade average during their high school course. Named in the first of these were Helen Monrold, Marcus Ware, Violet Holderman, Lillian Lind, Haymon Dunlap.

Motion to quash court proceedings against John H. Glander, George Clement, J. C. Hayden, G. F. Thomas and William Hight, as members of the Castleford district board of education, has been sustained by Judge F. B. Walton in district court at Burley. The decision received here today by J. R. Bothwell and W. Orr Chapman, attorneys for the board members.

The motion was based on argument that the court had no jurisdiction in the case because the acts of the board members complained of were not committed during their present term of office.

The proceedings were instituted for E. H. Robbs of Castleford, by H. G. Mills of Twin Falls. Following, it is reported an investigation made by E. F. Walton.

Neighboring Indian Tribesmen Would Send Band Here For Fair

Duck Valley Indian reservation's inhabitants numbering about 750 members of the Pisto and Shoshone Indian tribes will come in numbers to Twin Falls county next September if negotiations looking toward engagement of the reservation's Indian band, as an attraction at the county fair are carried to a successful conclusion.

J. B. Blackwell, who is employed by the government to instruct the native Americans on the reservation in agricultural methods, was here today to meet with the secretary and members of the county fair board in reference to the possible engagement of the band. If the band is engaged, Mr. Blackwell said, at least one-half the population of the reservation will follow it, bringing along elaborate displays of bead work and other handicraft of the American aborigine. The reservation band has been engaged for several seasons past for county fairs in Nevada.

The reservation is situated west of Jarbidge, and occupied territory in both Nevada and Idaho.

NATURALIZATION ADDS 8 TO LIST OF CITIZENS

Admissions Equal in Number of Rejections After Hear- ing in Court

Certificates of naturalization were today issued to John Hollister Nye, Twin Falls; Richard Gort, Twin Falls; and Frederick K. Johannes Seters, Buhl, following hearings before Judge W. A. Babcock in district court here conducted by Del L. Sullivan, naturalization examiner.

Decisions upon the application of Louis Gougeon, a native of Greece, who served in the American army during the world war was suspended upon the application of John Peter Lorenson of Buhl, a native of Germany, was dismissed upon motion of the examiner because of lack of prosecution.

In the case of Walter Freeman, native of Switzerland and resident of Buhl, the court sustained the examiner's motion for dismissal for five years based upon the evidence that Freeman had claimed exemption from military service during the world war on the basis of "Education and Human Values," delivered an eloquent and convincing appeal for appreciation of mental and spiritual factors. Dr. Upham, as the principal speaker for the occasion, was introduced by M. C. Mitchell, superintendent of Twin Falls schools.

Of the three men today admitted to citizenship, one, John H. Nye is a native of the United States having been born in Vermont. He became naturalized as a citizen of Great Britain during a period of residence in Canada.

Richard Gort is a native of England, and Frederick K. J. Seters, a native of the Netherlands.

Noted Author Sues For Divorce

Governor Morris, the noted author, whose handsome features always marry the girls of their choice and live happily ever after, has entered suit for divorce in Los Angeles against his wife the former Elsie Waterbury of New York. He charges desertion and abandonment. The couple have two children, Kate, 15, and Jefferson, 11. The wedding of Miss Waterbury to Mr. Morris in 1905 was one of the most brilliant events of the social season. "Temperament" is the reason given by his friends for the divorce action, but it is reported that Mrs. Morris' attachment for the suffrage movement and her entry into business in New York, where she conducts "Primrose House," a beauty parlor, had something to do with the split.

AMERICANIZATION TOPIC AT MEETING OF W. C. T. U.

Speakers Tell of Work Among Aliens in Big Cities and at Home; Relief for Veterans Discussed

The W. C. T. U. met in the parlors of the M. C. church Friday. A goodly number were present to hear the account given by Mrs. Dr. Brown Lewis of Americanization work. She has had quite a experience along that line in New York city in recent years. Mrs. W. Moonloch also told of her work among the Spanish speaking people in Twin Falls city and how happy they are to learn of our customs and language. She told of how delighted they seemed when she entertained them recently in her home together with the teachers who had assisted her in instructing them. She admonished taking more pains in visiting them and inviting them to church services. Mrs. Wall gave an account of visiting the soldier's hospital in Boise, saying it was most gratifying the improvements made in caring for the disabled boys in the home. Beds were clean and white, and the boys were well fed and one of the boys who showed her through remarked, "We have the best of food and all we want answered by waitresses in good style," but added, "Lady, it has not always been so." She also visited the tubercular ward, vocational office and the amusement hall. The boys seemed glad to have visitors and were very free to talk, as each one was asked a few questions about home and health. They were delighted to show their work and were complimented on their skill. The amusement hall has a playster piano, Victrola, all kinds of games, easy chairs and couches for the boys.

100 Per Cent Girl is Chosen in Boise to Rout "Flapper"

Boise, Idaho, (P)—Boise's 100 per cent girl" was chosen here Friday at a May day fete given by the high school seniors. She is Miss Helen Turner, a senior high school student, and was selected through a vote of 25 girls recently chosen as typical representatives of the "100 per cent" type described in answers to questionnaires distributed among faculty and students of the school.

Miss Turner was crowned queen of May and the "100 per cent girl" following a campaign in the local institution to find a girl or set of girls who could put to rout the modern "flapper" by setting an example of high standard in dress, speech and action, according to members of the faculty and Parent-Teachers' association who were a committee to decide on the "perfect girl."

High School Hamlet Uses His Long Sword to Rout Highwayman

TULSA, Okla., (P)—Hamlet, in the version of Oscar Wilde, a high school boy gave little to the modern highwayman last night. Garbed in the raiment of the Danish prince, whose character he had portrayed in a school entertainment, Osborne was going home when set upon by a robber. The youth drew his long sword and attacked the highwayman, who, unacquainted with "fencing such strange weapons, turned and ran. He recaptured and Osborne re-arranged his plumed hat and flowing robes and continued his journey homeward.

Babe Unable to Hit Ball; Yankees Lose

NEW YORK, (P)—A crowd that packed the Polo grounds today hoping to see Babe Ruth, Bob Meusel and Kenneth Williams do their little stunt of hitting home runs saw two such wallups, but nothing from the bats of the three renowned wall-poppers.

It was Aaron Ward of the Yankees and Bill Jacobson of the Browns, who banged the ball into the bleachers. Neither Ruth nor Meusel, Yankees just home from exile, were able to get any sort of a hit, and the best Williams, the St. Louis slugger, could produce was a single. The Browns had a fortune telling landing rally that brought them from behind the Yankees to an 8 to 2 victory.
