

COAL PRICE AT MINE IS FIXED BY COMMITTEE

Secretary Hoover Announces Agreement on \$3.50 Per Ton in 80 Per Cent of Present Production Fields

Hoover Explains Reason for Government Interest

It should be understood that the whole object of the administration's interest in coal prices is to protect the consumer by indicating the maximum price that would be fair for spot coal during the temporary period of the strike and by doing so to protect that great group of operators who do not wish to take advantage of the present situation.

WASHINGTON, (AP)—Establishment of a maximum price of \$3.50 a ton for coal at the mines in 80 per cent of the present production fields for the duration of the strike was announced tonight by Secretary Hoover. He regretted, he added, that a small minority of the operators, representing Western Kentucky, had refused to cooperate and were demanding higher prices.

Consumers can insure themselves a square deal under the established prices by checking freight rates with the maximum price, Mr. Hoover said, determining whether they are buying contract coal, and making proper allowances for cost of retail distribution.

Acceptance Obtained

Mr. Hoover announced he has been advised that operators of Virginia, West Virginia, Tennessee and Eastern Kentucky would accept the maximum of \$3.50 a ton, while Alabama operators would accept the rate of 25 cents a ton below the Garfield scale in that district.

Western Kentucky operators, however, were demanding \$4.25 a ton but he did not feel justified in advising the public to accept that price level, although he said production costs were higher in that district than in other fields.

War Veteran Acts as Interpreter

Robert Knisk Bolando, official interpreter on the Hiers Ordona, served five years as captain in the French army and suffered injuries to his eyes which still cause great pain. He was wounded three times and once captured, but walked from Italy to Paris after being exchanged. He was a favorite in French motion pictures until his eyes were injured. He has composed many songs.

HUGE MERGER OF STEEL CONCERNS IS DECIDED UPON

Midvale, Republic and Inland Companies To Be Unified Under Single Corporate Management

NEW YORK, (AP)—A plan for the unification of the properties of the Midvale Steel and Ordnance company, Republic Iron and Steel company, and Inland Steel company, under ownership of Midvale, was announced here Thursday by Thomas L. Chadbourne, attorney. The new corporation probably will be known as the North American Steel corporation.

The terms of the plan were outlined as follows: "All existing obligations of the three companies are to be assumed by the unified company. Existing preferred and common stocks will be changed into preferred and common stocks of the unified company. The new preferred stock is to have a par value of \$100 per share, is to be 7 per cent cumulative, is to be redeemable at \$116 per share and accrued dividends, and is to be convertible for 12 years into new common stock at the rate of five shares of new common for four shares of new preferred. The common stock is to be without par value.

"All assets of the three companies are to be owned by the unified company except the Nicetown plant (armor making ordnance and forging) of the Midvale Steel company, which is to be transferred to a separate company with a capacity of 200,000 shares without par value.

"Republic Iron and Steel preferred stockholders are to receive dividends in cash 43 days when the new preferred dividend begins to accrue and 100 per cent in new preferred stock. "Republic Iron and Steel common stockholders are to receive 25 per cent new preferred stock which is to be purchased from them at \$95 a share, and 70 per cent new common stock. "Inland company stockholders are to receive 25 per cent in new preferred stock, which is to be purchased from them at \$95 per share, and 70 per cent in new common stock. "It is intended to provide \$20,000,000 additional cash working capital from the sale of common stock.

More Buys Pending. Negotiations are pending, Mr. Chadbourne said, for the acquisition of other properties, but irrespective of the outcome of these negotiations, Midvale, Republic and Inland companies propose to proceed with these merger plans. Financing will be handled by Kahn, Loeb and Company. The combined annual ingot ton capacity of the three concerns is about 5,200,000. The entire total of the country is about 20,000,000, of which the United States Steel corporation has about 45 per cent, it was said by John

A. Topping, chairman of the Republic Iron and Steel company, in testimony today before the Lockwood hearing committee. The Bethlehem and Lackawanna combined, he thought, have a 5,000,000 ingot ton capacity.

OSRD OF THANKS We wish to express our grateful appreciation of the kindness and sympathy shown us in our sorrow in the loss of our wife and mother; particularly do we thank the members of the Odd Fellows and Knights of Pythias for their helpfulness. BLINDED VETERAN SEEKS SIGHTLESS SERVICE MEN

James E. O'Hara on Tour of Northwest Interviewing Afflicted Men

POCATELLO—James E. O'Hara, recently appointed head of the vocational work for the blind veterans in this district, is making a tour of the Northwest to interview sightless former service men relative to their rehabilitation. He plans to visit Pocatello about every two months, local bureau officials stated. Mr. O'Hara is blind himself and studied during his confinement in the hospital as well as at Columbia and Harvard later to fit himself for his present position of service to his blind comrades.

There are 25 veterans in the Northwest district sightless because of war service, according to word received from Mr. O'Hara, local officials of the veterans' bureau announced. The number of totally and partially blind service people throughout the United States has increased to more than 500, it was stated. Mr. O'Hara works for the rehabilitation of deaf veterans as well as those who are sightless.

Walton's Minions Are Spreading His Canards in Twin Falls

Walton's minions are spreading campaign canards.

From house to house they go, these servants of the Boss, and they spread the fabricated stories Walton has concocted for them to deceive the people of Twin Falls.

One of these stories is to the effect that the men on the Graham ticket will not serve if elected; that they will resign and that others will be named in their stead to fill the offices.

THIS STATEMENT IS FALSE!

If elected Graham and the other men on the ticket with him will fill out their full terms.

Another canard, hatched in the conniving brain of Walton, and spread for the purpose of enabling him to elect HIS ticket and control YOUR CITY, is that registration with the county registrars is sufficient. This story is told only to those who have not registered and who are opposed to RULE BY WALTON.

It is designed to prevent citizens from voting; to deprive them of their right of suffrage. When the WALTON HENCHMEN find a voter in favor of their Boss and HIS TICKET, they correctly advise that registration for the city election can ONLY BE MADE AT THE OFFICE OF THE CITY CLERK.

Good people are advised to beware of the stories spread in this fashion about registration. YOU CAN NOT VOTE AT THE CITY ELECTION TUESDAY UNLESS REGISTERED AT THE OFFICE OF THE CITY CLERK. If you voted at the last city election you do not need to register unless you have moved into another ward.

Registration with women registrars who are canvassing the city for County Registrations will NOT entitle you to vote in the city election.

Aroused public indignation has made WALTON DESPERATE. He sees the public opposes rule by him, and he is resorting to cunning and brazen efforts to fool the people; to rob many of their right of franchise, and win an election which would place YOUR CITY absolutely in his power.

We have no need for a political boss in Twin Falls. We are a stable people, able to run our own affairs, without dictation of any political boss. Much less would we want one of the Walton stripe, whose resort to canards and deception is but a sample of what may be expected should he become our MASTER and our BOSS.

If you are opposed to RULE by WALTON, see that you are registered. If in doubt call 87, the office of the city clerk. If you know that you are not registered DO YOUR DUTY.

REGISTER TODAY!

KU KLUX KLAN MEMBER IS GUILTY OF ASSAULT

Member of Quartet of Masked Robbers Gets Short Shift at Hands of Jury

HAVERFIELD, Cal. (AP)—William Pickens, a member of the Ku Klux Klan, was found guilty by a superior court jury of assaulting and robbing Clyde Richey, a taxicab driver. The prosecution contended Pickens was one of four masked and robed men who went and robbed the chauffeur. Pickens was the first to be tried of five men indicted recently in connection with night-riding activities.

Why Suffer from Rheumatism?

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to anyone afflicted with rheumatism.—Adv.

SHARP REMARKS MARK CLASH OF PARTY LEADERS

"Word to Democrats" by Chairman Leads to Charge that Attacks on Daugherty Made to Serve War Crooks

WASHINGTON, (AP)—The war trials fight raging for days in the senate, broke up unexpected fray in the house Thursday morning. The rules committee had referred the action to giving signs of ways to the republicans resolutions for investigation of the lack of government prosecution of alleged war grafters.

Charges by Chairman Campbell, of the committee, "in a word to democrats" that their attack on Attorney General Daugherty was the only way in which they could "serve war crooks," threw the house into disorder. There were cheers from the republican side as the charge was flung in blinding voice at the democrats, all of them shouting "yes" to the charge. It brought out Representative Garrett, the democratic leader, the assertion that Chairman Campbell, who in the first instance had voted to put the investigation resolution before the house, had been induced by the attorney general "to change his vote and vote not to investigate the department of justice."

Starts in Odd Way.
Curiously enough, the row started during consideration of a measure which sought to find work for idle prisoners and as a veteran member expressed it "They were off their heads and they were off their heads." Mr. Garrett declared that Chairman Campbell, "as an excuse for his own surrendering, for his weakness of will, for his own lack of intellectual integrity and courage against the democratic administration." After Mr. Garrett had finished his attack on the former Attorney General Palmer, counting an investigation by congress, Representative Mondell, the republican leader, declared he was glad the committee had rescinded its action.

Delay is Only Object.
"A congressional investigation at this time," Mr. Mondell said, "could serve no other purpose than that of delay, of preventing prompt action of the grand jury and courts. I am not surprised that gentlemen whose names may figure in investigations before grand juries prefer a congressional investigation to action by grand jury and the courts. That is their only hope."

In his speech Mr. Campbell said the activities "of a man in the Chicago convention will not operate in his defense in the grand jury proceeding." He also presented a name to the San Francisco convention will not accept his name from presentation by the grand jury.

In this connection the chairman asserted that in the case now being presented to the grand jury at Washington, general hopes to "put the halter on those conspicuous crooks who conspired to defraud and rob the government during the war and lead them to the penitentiary."

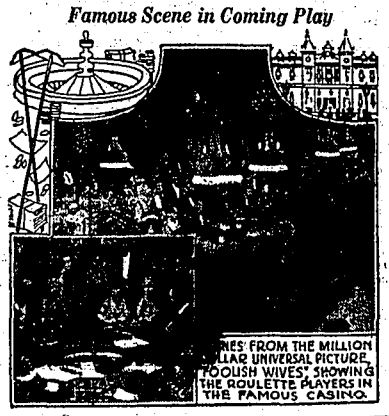

In the fighting back and forth speakers on the other side attacked the methods of the other respecting investigations.

WHEREABOUTS OF TEACHERS GIVEN

Summer Vacation Addresses of Educators Contained in Superintendent's List

Indicating the addresses during the summer vacation of the teachers employed during the year just closed in the Twin Falls schools, Supt. M. C. Mitchell Thursday made public the following list:

- M. C. Mitchell, superintendent of city schools, 1020 Shoshone east, telephone 1272-W.

THE ORPHEUM ALWAYS WORTH WHILE

JACKSON GREGORY'S FAMOUS NAVAL
"MAN TO MAN"

A Seven Part Production with Harry Carey and All Star Cast—A great drama of adventure and romance. A vivid story of a man who drifted around the world and then back to the stronghold of his enemies.

ALSO SHOWING COMEDY FEATURE, A BIG V SPECIAL, "THE MESSENGER," TWO REELS, A RIOT OF FUN—ALSO SHOWING SCREEN MAGAZINE—SPECIAL MUSIC—A GREAT TEN REEL SHOW.

Theatros

The first real million-dollar photodrama has made its appearance. It is "Foolish Wives," an extravagant pictorialization of life and adventures at Monte Carlo, made by Erich von Stroheim for the Universal Film Company. In the boldness of its sets, the absolute accuracy of its details and its unusual characterizations, it is reputed to outstrip anything hitherto attempted for the screen. It is to be presented at the Lavering theater on June 8, 9 and 10.

Much has been heard of how von Stroheim caused the construction at the Universal studios in California, of huge structures exactly duplicating the principal buildings at the European pleasure resort. Those who have seen the pictures are not that the director has absolutely re-created Monte Carlo, from the exotic architecture of the Casino down to the monograms on the linen of the Hotel de Paris.

Mary Pickford Saves Life of Actress

Switching from the dives of "Tivvina" in the South Seas to the grand lands of Actrices, the story of "Man to Man" at the Orpheum theater the balance of the week, has a wide range of appeal.

It is a Universal feature starring Harry Carey, the actor who in "Human Nature" won the story of "Man to Man" at the Orpheum theater. It is a woman as charming as Miss Ilich herself. "Yes!" wonderful is the heroine, human enough not to be capable of bearing a hundred lies about the hero without believing some of them, and yet sweet to him because she is in love with him and can't help it—the state in which a woman is most beautiful and lovable.

Harold Goodwin plays a juvenile role while Alfred Allen and Charles LeMay have their hands in dirty work from the first flash.

Host Gibson in "The Heart," a "Universal Special Attraction," is the feature at the Rialto theater. Those who have seen this swelling hero's most recent pictures will find much to enjoy in his newest which is a whirlwind story of the old West. Gibson portrays the type of role which has won him fame—justly, many will admit.

The story concerns a young man who steps over the Mexican border to rid himself of a slight unpleasantness resulting from an episode in his six-month figured prominently. He comes singing songs, the theme of which is his general "badness" and his sorrow that he is "so quick on the draw."

An excellent cast includes Harold Goodwin, Charles French, Fontaine LaRoe, Joe Harris and others of equal note. Ed Sedgwick directed from a magazine story by F. R. Buckley.

Notable casts have always been the feature of productions by Cecil B. De Mille, but in "Male and Female," the Paramount-Universal screen version of Sir James M. Barrie's famous play, "The Admirable Crichton," the master

director has fairly outdone himself. For the important roles in this picture, which will open at the Idaho theater on Saturday, some of the most prominent players in filmdom have been assembled. Thomas Morgan has the part of Crichton, the extraordinary English butler who becomes practically a king. Gloria Swanson is Lady Mary, the lord's daughter, who falls in love with Crichton.

In addition to this, it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.—Ad.

LACK OF OIL RUINS STARTER

Lack of Lubrication May Cause Bearings to Become Dry, Overheat and Finally Seize.

A starting motor in good condition will respond instantly whenever it is desired to crank the engine, and will continue efficiently the cranking operation as long as it receives current from the battery. Lack of attention, however, especially in regard to lubrication, may cause bearings of the starter to become dry, overheat and finally seize. This trouble may not be noticeable during a previous use, but on attempting to again crank the engine the starter refuses to revolve. No amount of pressure on the switch button will move the starter armature until the bearing has been cooled and properly lubricated. These bearings require but little oil, but should receive a definite amount regularly.

PLAN FOR LOCKING NEW CAR

By Removing Distributor Arm of Ignition System Owner Can Prevent Robbery.

Many modern cars are fitted with a battery ignition system in which the distributor arm is removable. By removing this arm the car owner makes it possible to steal his vehicle only by towing it away or by fitting another distributor arm. The arm may be removed simply by unclipping the distributor cover to which wires are attached. It is usually found that there is only one way in which this arm will fit, so that there need be no worry about replacement.

GASOLINE FEED LOCK

A new kind of safety device against theft is this lock attached to the gasoline line, so that it can stop the passage of fuel from the vacuum tank to the carburetor. It is installed on the instrument board or under it.

WHELEPING Just exactly why it should be necessary for canvassers in the interests of the Walton city election ticket to say to persons to whom they talk that the candidates on the opposition, or Citizens' ticket expect to resign their offices if they should be elected, is hard to understand.

If backers of the Walton ticket really know this to be the case they would do better to broadcast the information rather than whisper it from door to door.

This is the kind of petty, pettifogging methods which make of a city election so vicious and a filthy thing.

And having taken the job and put forth their best efforts to win, it doesn't seem exactly reasonable that, having won, they would be ready to resign the very thing they were willing to go out and fight for.

If people generally would quit listening to the political whispering of the would-be boss of Twin Falls, and his henchmen and view the whole matter of the forthcoming election in the light of cold common sense the interests of the city as a whole would be better served.

And the worst part of the whole matter lies in the fact that whispering frequently wins votes.

THE REGULAR ARMY

The administration desires a regular army of 150,000 men. The house voted to provide for only 115,000. The sub-committee of the senate committee has agreed upon 140,000 which it is supposed will pass the full committee and the senate and finally be settled in conference. It is said that the house will object strongly to any increase above 115,000.

This is a very large country and we are compelled to keep garrisons in the Philippines, Hawaii and the Canal Zone, besides a detachment in Alaska. There must be small forces in all our innumerable army posts, and it runs into men.

But the most important consideration is that there is not yet any certainty that there will be no more war. Until all reasonable fear of war disappears it is a national duty to maintain a thoroughly trained army of sufficient size to engage in maneuvers, to bear the first shock of an attack and to form the nucleus of an army of war.

To the failure of previous congresses to provide reasonably for an army organization is due from a quarter to a third, of the national taxation under which we grow and the unnecessary deaths of thousands of our young men, whose blood is on the heads of delinquent congressmen.

A "FIVELY" BOOM

Some prophets are without honor in their own community and others are hailed as presidential timber. Any way, the Henry Ford presidential boom has been launched, and fight in his old hometown—Dearborn in Wayne county, Mich.

It is declared to be the precursor of a nation-wide movement, and it has all the earmarks of such, for it was attended by 187 (official count) of the DII (estimated population) of the place that Henry made famous, which exuberantly feels its importance as an influence upon the rest of the American commonwealth and which is paradoxically anxious to become still more luminant

as producer—using the term in its non-political sense for the moment—of a chief magistrate of the nation. The meeting in the town hall at which the Ford-for-president club was formed included a clergyman, a judge, a publisher and a prominent business man. There were represented, then, the pulpit, the press, the bench, and commerce, and if that does not constitute a national movement right at the start, where was there ever any movement of an all-embracing character?

It is said the platform matter was touched upon only slightly—but why at all? Isn't Mr. Ford a sufficient platform unto himself? The voice of this meeting of the neighbors is, as Mr. Beveridge, of Indiana, might say, a mandate that the people of the country take no disregard.

MRS. SOUTHAID GIVEN \$3,000 ON MYER'S LIFE

Woman Serving Sentence Outlawed for Insurance of Fourth Husband

Under provisions of a stipulation by attorneys filed Thursday in probate court here, Mrs. Lydia M. Southaid will receive from the Idaho State Life Insurance company \$3,000 to settlement of her claims based on a \$10,000 insurance policy covering the life of Edward F. Meyer, her fourth husband, for whose murder she is serving a term of imprisonment in the state penitentiary.

An order for probate of the estate of Meyer will be issued by Probate Judge O. P. Davall in accordance with the terms of the stipulation. W. J. Trueblood, father of Mrs. Southaid, is the administrator of the Meyer estate.

Switches His Story "He had told the American a story, and when confronted by the sheriff and myself, he told another story. He said that the man said to have been wounded by Ward was brought down to his mother's home in the Bronx in a touring car and was later driven away."

Mention of the wounded man is in reference to one of the many tales investigated by local officials to the effect that Peters was not the only victim of the gun battle which Ward claims to have engaged in with three supposed blackmailers at the time Peters was killed.

Mr. Weeks said the man in custody is a race track employe, formerly attached to the stables of Commander J. K. Ross, Candia horseman.

Elephant Tusk Jelly is Highly Recommended

In English factories, where many tons of tusks are saved up annually, for knife handles and other uses, great quantities of ivory dust accumulate. This dust is sold for 9 pence a pound, and when properly boiled and refined, it makes a very fine and pure jelly, which is frequently prescribed for the sick.

Sport for the Clerks

Shop girls in an Emporium (Kan.) grocery store looked so much like brown sugar several people stopped and put a handful in their mouths. The more they experimented the more they enjoyed it, and the store clerks who naturally dislike people who loach off the store had a day of real sport.

Woman's Place

"Women at breakfast," said Eric, gave a contradiction in terms. They're out of place—like colors at a funeral. Their bedroom doors ought to be locked till 10 a. m.—From "Way of Revolution" by Wilfrid Ewart.

NEW LIGHT ON WARD MURDER IS ANTICIPATED

Arrest Expected to Result in Material Evidence in Connection with Shooting of Clarence Peters

WHITTE PLAINS, N. Y., (AP)—James J. Cunningham, of New York Thursday was arrested and is being held in jail here as a material witness in the case of Walter S. Ward, wealthy baker's son, confessed slayer of Clarence Peters, former sailor of Havorthill, Miss. Cunningham, whose name has not before figured in the case, was arrested in New York and immediately brought here. He is the first arrest in the case which has attracted nation-wide attention since Peters' body was found at a lonely spot near the Kenosia reservoir on May 10.

District Attorney Weeks issued the following statement concerning the arrest: "Cunningham is held as a material witness. He was dug up by the New York American as the result of an anonymous letter. He had been trailed for three days.

Chile's attitude toward the Peruvian arbitration proposal, generally was regarded as having made it necessary to formulate some new basis of discussion. It was understood to be on that

CONFERENCE HALTS TO AWAIT INSTRUCTIONS

Chile and Peru in Deadlock Although Neither Side Eager to Abandon Hope

WASHINGTON, (AP)—The Chilean-Peruvian conference here again came to a full stop Thursday to wait for fresh instructions from South America. No date for resuming the conference sessions was fixed nor would any official express a personal opinion as to when the next meeting could be held. Neither side, however, appeared to regard the situation as constituting a deadlock and both declared they still hoped a way to agreement would be found.

Chile's attitude toward the Peruvian arbitration proposal, generally was regarded as having made it necessary to formulate some new basis of discussion. It was understood to be on that

subject that both the Chileans and Peruvians desired to consult their home governments.

The Chilean reply, it is understood, has not yet been laid before the conference in final form, "although indications of its unfavorable nature are said to have been given the Peruvians at Wednesday's session.

Long Suffering. Scientists say that this old world of ours hasn't varied more than a second or two since it was formed in its original trip around the sun. Considering the trouble and turmoil it has carried along, the record is remarkable.

Origin of Pews. The origin of pews for the use of worshippers may be traced back to the time of the Normans.

Go Different From Her Own. "I do enjoy those films with children in 'em," remarked a tired-looking little woman. "When the children romp around on the screen they don't make a particle of noise."

Blessful Ignorance. "A bachelor is but half a man and doesn't know it," remarks an exchange. "A married man is reminded of it often."—Boston Transcript.

Overworking a Hobby. Riding a hobby is all right, but some fellows seem to forget that the best of horses must have a rest now and then.

What a Morning Newspaper Means to Users of Printing

Always The News has taken especial pride in its Job Printing Department.

Unlike most newspaper offices, where the Job Printing Department is regarded merely as an adjunct to the work of publishing the paper, The News has always given the same attention to its printing as would be the case if no newspaper were published at all.

Hereafter, the work of printing and publishing the Twin Falls News will be performed mostly at night, but the Job Printing Department will continue to function all day long just as it has always done.

And there will be the undivided attention of the Day Force of printers available for every piece of printing entrusted to us.

Quality plus Service has always been the watchword of the Printing Department, but from now on News Printing Service will be better than ever, and if it were possible to improve the quality, this too, would be done.

NEWS PRINTING IS GOOD PRINTING!

ALBANIAN BOYS LEARN TO WORK

Red Cross Overcomes the Aversion of Youths to Manual Labor

TIRANA, Albania, (AP)—Work is a disgrace in Albania. One who is forced to do it is immediately ranked as belonging to the lowest orders of Albanian society. As a result of this point of view, American teachers assigned to the American Red Cross vocational school here had first the task of teaching the 50 or more boys coming from the higher Albanian families that if they wished to learn any trade the idea of spurning the hammer and the saw must be dispelled from their young minds.

When the boys congregated for their lessons in the vocational school all refused to have anything to do with tools. They obtained teaching anything that bore evidence of work. They refused to use hammers to sweep out their dormitories. They looked at the chisel and mallet with repugnant eyes.

The American teachers met this puzzling situation in a practical way. They began using the tools themselves, freely and naturally, and continued to demonstrate the value and help of a tool to the workers until finally the repugnant resistance of the young Albanians was completely overcome and they came to use every implement in the shop.

Education Wipes Out Traditions.

Long centuries of caste had taught the boys that the real gentleman was he who lived in idleness. A few months in the school and the age-long tradition was practically wiped out. The boys now do all the work, including the care of their own money and the waiting on the tables of the school canteen. The minds of these youths have been transformed, and constant reference to the upward struggle of American captains of industry who achieved their success through work have imbued each with such spirit of initiative that the school, located in the midst of a slowly dying population, stands out in bold relief for its industry and zeal.

The students are adopting all sorts of other American characteristics. They have fashions and styles, they have developed a school spirit. They have taken to athletics, baseball being the major sport, followed closely by boxing. Baseball is supervised by Amos B. Kelly, of Albany, N. Y., an old-time baseball star.

In boxing their only idea is to punch. Boxing "fans" would be delighted with the exhibition put on by the Tirana vocational school. It is practically all straight punching. There are no feints. Each boxer thinks skill is measured by the rapidity and force with which he can land blows on the other man's face without regard to his own protection. Blows are what count in these Albanian boys and they give and take them like Spartans.

Australia's Water Supply.

Australia's wonderful underground water supply, her artesian wells, her great springs, will rank among her greatest assets. But like other assets, the artesian water supply can be wasted, and Australians are not without concern that in New South Wales there has been a total diminution in the flow of water from 238 selected water borers of something like 21,400,000 gallons a day, or about 23.8 per cent. It is now being recognized that the artesian water must be conserved by the artificial lifting of the borers, so that only the flow capable of being used will be allowed to issue. The irrigation commission is taking steps to penalize the careless bore owner—Christian Science Monitor.

Git Used.

Not counting debate in congress, Americans used 310,888,000 cubic feet of artificial gas last year.

This is an achievement, comparing it with a generation ago when a mother had to wash the smoked chimneys of the kerosene oil lamps and trim their wicks daily.

In about one more generation the only lighting and light heat will be electricity. Gas power is a good legacy for grandchildren.

The Flapper Dollar.

Already the critics call them byppers, if you like—are knocking our new silver coin. One writer calls it the "flapper dollar" and says the open-lipped girl thereupon looks as though she might be saying "Line's bizzy" or "Sny, lissen." Just that sort of girl, you know. If the comment were not so cutting we would say something about money talking—but we refrain.—Action Transcript.

Recommends Chamberlain's Tablets

Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have the heart-ache, indigestion, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up. MRS. N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good.—Adv.

Trades His Booze For Her Roses

Miss Ethel Mantell.

Miss Ethel Mantell, player of note and daughter of the famous Robert Mantell, is a militant prohibitionist, and at a fashionable gathering in Los Angeles she exchanged a bunch of roses for the host's wine cellar and then destroyed a \$12,000 stock of rare beverages with a golf club.

Commissioner Warns Ambitious Anglers About Closed Water

Calls Attention to Legal Conviction of Activities of Fishermen

With the opening Thursday of the fishing season, ambitious and early rising fly casters of Twin Falls in common with those throughout the state began to carry into operation their cherished self-for-extermination to lake or stream in quest of the wily trout. Activities of anglers, however, are somewhat circumscribed by statute and Otto Jones, state fish and game commissioner, with a view to forwarding fishermen, has prepared the following list of streams and lakes on which fishermen are under the ban of Snake river.

Magle dam reservoir, Lake Point d'Orville, Reed's creek and tributaries in Clearwater county.

Muscellidale creek and tributaries in Clearwater county.

Big springs in Fremont county.

Alturas lake in Custer county, closed on red fish.

Elk creek, Silver creek and Crystal creek, tributaries of Orogrande creek in Clearwater county.

Big creek and tributaries in Valley county.

Tributaries of Potlatch river above the fork out of Henry and the Palouse river, and all its tributaries above Driscoll ramp in Latah county.

Blanchard creek, in Bonner county. All creeks tributary to Priest lake and Upper Priest river.

Elk river, except that portion from the backwaters of the Big Potlatch to the falls about four miles below the dam, all in Clearwater county.

The channels through which the thousands of water courses from its interflow with Snake river, run to the north and south including the rapids between the outlet from the Thousand Springs power plant and the point at which these waters enter the main channel of Snake river.

Fish creek reservoir and Fish creek below the point where the road crosses the creek near the mouth of West fork of the outlet into Fish creek reservoir in Blaine county; open to fishing only during July.

Washington lake, Fourth of July lake, Frog lake, Chumpon lake, Ilmire Smith lake, Lake Creek lake and Boulder lake, all in Custer county; closed during April, May, June and July.

Pole King creek, a tributary of Lochs river, in Idaho county.

All the tributaries of the St. Joe river, between Lake Chatolet and Copper fork of the St. Joe river at Avery; with the exception of Marble creek, Mica creek and the St. Maries river.

CHAPTER XXII

The New Day.

The slapping of the wind against the tent awakened Beatrice. She could hear it rustling gently through the branches of the live oak. An out-flying arm discovered Clay mistletoe.

Her questing glance found him busy over the mesquite fire upon which he was cooking breakfast. She watched him move about, supple and light, and strong, and her heart lifted with sheer joy of the mate she had chosen. He was such a man among men, this clear-eyed, bronzed husband of hers. He was so clean and simple and satisfying. As she closed the flaps she gave a deep sigh of content.

Every minute till she joined him was intruded. For Beatrice had learned the message of her heart. She knew that she was wholly and completely in love with what life had brought her.

And she was amazingly, rapturously happy. What did motor cars or wine suppers or Florida gowns matter? They were the trappings that strove for slavery. Here she moved beside her mate without fear or doubt in a world wonderful. Eye to eye, they spoke the truth to each other after the fashion of brave, simple souls.

Climbing from the ice-cold bath of water from a mountain stream, she stepped down the slope into a start of sunshine to join Clay. He looked up from the fire and waved a greeting at her. For by 7:30 a. m. on June the day—his stout tips on the white mountain tops. They had come into the hills to spend their honeymoon alone together, and life spoke to him in accents wholly joyous.

The wind and sun caressed her. As she moved toward him, a breath of the morning fawn the glow about her so that each step nodded away the slender limbs.

Her husband watched the girl streaming down the slope. Love and joy as old wine flooded his veins. He caught her in his arms, and looked down into the deep, still eyes that were pools of happiness.

"Are you glad—and all through sweetheart?" he demanded. A little laugh welled from her throat. She gave him a tender, mocking smile. "I hope heaven's like this," she whispered.

"You don't regret New York—not a whit?"

"It was the hitching-post that did it, then?"

"The hitching-post began it, anyhow." She slipped her arms around his neck and held him fast. "Oh, Clay, isn't it just too good to be true?"

A ball of fire pushed up into the crotch between two mountain peaks and found them like a searchlight, gilding their little valley with a golden glow.

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTY AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!
