TWO BILLS WILL AUTHORIZE SALE

Members of Military Committee Introduce Measures to Sell Muscle Shoals

WASHINGTON, (AP)—Two bills authorizing Secretary Weeks to execute contracts with Henry Ford and transfer to him the government's \$100,000,000 power and alkali project at Muscle Shoals, Ala., were introduced Monday in the house by members of the military committee.

One presented by Acting Chairman McKelzie of Illinois provided for the acceptance of Mr. Ford's offer for the property on condition that the Georgia plant and alkali project be then submitted by Representative Wright, democrat, of Georgia, called for expedient compliance with the terms of the Ford proposal.

House republican leaders announced that reports by their authors explaining them in detail, and that time would be allowed the house to analyze each of the documents, after that had been accomplished, it was said, a decision would be made as to when actual consideration of the proposed legislation would be held.

It also developed Monday that the vote of 12 to 9, by which the committee favorably reported McKelzie's bill, did not reflect the sentiment or attitude of the committee towards all provisions of the measure.

Some members still are opposed to the proposed project, to the proposed sale of the nitrate plants and to the provision requiring the government to fix the maximum price of dynamite.

REPUBLICANS TO U. S. SENATE "S.E.L." TARIFF

Definite Program of Speeches Planned in Interests of Passage of Measure—Senator Watson Opens Ball

WASHINGTON, (AP)—A policy of striking back at opponents of the administration tariff bill was agreed upon Monday by senate leaders. Senator Watson of Indiana delivered the first of a planned series of speeches in the senate which leaders said were designed not only to place the republican viewpoint on the tariff before the country, but to bring to the notice of the sources of opposition to the bill.

Most of Senator Watson's address was directed at democratic attacks which have been made in the past on the bill. He has been under consideration. In passing, however, he charged a foreign propaganda against the measure, referring generally to agencies of the United States in the United States into the league of nations and specifically to some representatives of foreign nations in this country.

Senator Watson's address of two hours drew a reply of slightly greater length from Senator Simmons, North Carolina, who said that the bill was in the tariff fight. Senator McCumber, North Dakota, in charge of the bill, replied briefly to Senator Watson's address.

Characterizing the bill as the best balancing tariff measure ever presented to congress, Senator Watson asserted that it was the best measure that could be called as "impartial or outrageous" as they claimed, they would permit its passage in 15 minutes. He added that if this were not done, the bill would be a senate vote on one.

To support his contention that the democratic predictions of distress and burdens for the United States under the passage of the measure, were the same that had been made in senate debate when previous tariff measures were under consideration, the Indiana senator said that the measure proposed to discuss and of votes on this and other schedules in the measure.

MANUFACTURERS, N. H. (AP)—Striking textile operatives in New Hampshire claimed a victory Monday. Only 600 of the 25,000 operatives, normally employed, were at work on the first day of the reopening of cotton mills in Manchester, Nashua, Dover and Somersworth. It was estimated by police and newspaper men.

PARIS, (AP)—Conclusions of Camille Flammarion, the French astronomer, from the study of a few hundred cases along purely scientific lines, and apart from religious or spiritualistic views, are that the soul lives after decomposition of the body, is endowed with faculties similar to those of the body, and can manifest itself at a distance without the mediation of the senses.

ANTI-TRUST ACT TERMS APPLY TO ORGANIZED LABOR

Supreme Court Hands Down Far-Reaching Decision with Respect to Legal Status of Unions Under Sherman Law

WASHINGTON, (AP)—Deciding the Coronado case, the supreme court Monday held that labor organizations, although unincorporated, are amenable to the Sherman anti-trust act and that under it such organizations may be prosecuted for restraint of interstate labor unions may be such.

Chief Justice Taft, in announcing the decision, did not indicate any dissent. The case, which presented the questions passed upon by the court, was an appeal by the United Mine Workers of America, district No. 21, of that state, from a decision of the federal court in that district and 67 individuals, some of the latter not members of a union, from a decision by the United States district court of Arkansas, approved by the circuit court of appeals holding them guilty of violating the Sherman anti-trust act during the coal strike in Arkansas.

WANT LONGER HOURS Monday the jurors presented a petition Judge Edwards asking longer hours in court. They objected to the working day selected by the lawyers—10 a. m. to 4:30 p. m. After proposed starting at 10 a. m. and working until 5 p. m. The attorneys and court agreed to a compromise of 9:30 a. m. to 4:30 p. m. with one hour for lunch instead of one and a half.

ALLYING TO WORK The jurors celebrated their partial victory by making permission to muck the judge's lawn and plant his garden. It was granted. Last week the 12 jurors called on Judge and Mrs. Edwards and the jury, an automobile mechanic, overhauled the family car, another a plumber, repaired the bathroom. The others, including two landscape gardeners, did a bit of house painting and spaded the garden.

STAGE BEAUTY OF YEARS AGO DIES SUDDENLY

Lillian Russell, Wife of Pittsburgh Publisher and Noted Actress of Bygone Days Succumbs to Brief Illness

PITTSBURGH, (AP)—Mrs. Lillian Russell Moore, wife of Leonard P. Moore, publisher of the Pittsburgh Leader, and noted stage beauty of a score and more years past, died at her home at 2:30 o'clock Tuesday morning after an illness of several days.

At the bedside at the end of her daughter, Mrs. Dorothy Cahill, Mr. Moore, her niece, Mildred A. Martin, and Dr. C. B. Schillinger.

Following a crisis in Mrs. Moore's condition Saturday night, her physicians had expressed belief that she would rally, but late Monday night it became evident that she had suffered a relapse. While it was recognized that the situation was grave, members of the household nevertheless made known late in the evening that no alarm was felt.

HAD VARIED CARE Lillian Russell, "the Queen of American Opera," in private life Mrs. Alexander P. Moore, wife of the editor and publisher of the Pittsburgh Post-Gazette, for more than 20 years starred in various operatic roles in the United States and England.

During the war Miss Russell was active in the Red Cross, and gave many lectures, giving freely of her voice and dramatic talent to such causes. She was born in Clinton, N. J., December 1, 1858, the daughter of Charles E. and Cynthia Leonard, and removed to Chicago with her parents when four years old, her father becoming a member of a police force in Chicago, and she studied vocal and violin music and sang in a church choir.

Studied for Opera In 1876 she took a course in voice culture under Madame Schenbrugg and later studied for opera under Leopold Dorn.

Miss Russell's first stage appearance was in the chorus of Cloten's "The M. S. Financier" in 1879. On Christmas day of that year she appeared as an amateur in "The Merry Widow" at the Lyceum Theatre in New York. She took the name of Lillian Russell, her grace and charm soon winning for her the sobriquet of "sassy, fairy Lillian."

Became a Famous Stage Star and remained at that New York playhouse until 1899 when she became a member of the Grand Opera Company, continuing therein until her own company was organized. She then toured the United States and England and at the end of several successful seasons returned to Seattle.

Brookhart is Leading Field Iowa Republican Primary Attracts Light Vote Although Politics Wax Warm

DES MOINES, (AP)—Reports from all parts of the state Monday night indicate that the hottest battle in years which has been waged around the republican nomination for the United States senatorial nomination, failed to attract enough interest to draw even an average sized vote. Balloting is reported to have been held in the state.

This fact has caused doubt among politicians as to whether the primaries will result in any nomination for the senatorial nomination. It is expected that the vote in these 40 precincts, which are being held in the state, will be divided among the other five aspirants.

Smith W. Brookhart of Washington, was leading, with more than 35 per cent of the total vote reported in the first 60 precincts of the 2,448.

The vote in these 40 precincts, which are being held in the state, will be divided among the other five aspirants.

WASHINGTON, (AP)—Suggestions for a compromise settlement of the Tuzac-Ariza controversy without resort to mediation or arbitration by the United States court here, were made Monday by the front on Monday in the Chilean-Peruvian negotiations here.

WHOLE SESSION IS GIVEN OVER TO WAGE FIGHT

Opposition to Reduction of Pay for Railroad Men the Only Matter to Come Before the Meeting

CINCINNATI, (AP) — Concerted action against reductions in wages of railroad workers recently made by the United States railroad labor board will be the principal matter to be considered when leads of 11 railroad labor unions go into session here Tuesday.

The conference was called by B. M. Jewell, head of the railway employees department of the American Federation of Labor, who also will preside at the session.

Delegates who arrived here Monday held informal conferences and discussed ways and means to bring the question of wage reductions before their membership. Strikes votes are expected in every organization, each union taking its vote separately.

It was pointed out that the matter of acceptance or rejection of the cuts rests with the membership of each union.

Unions to be represented in the conference are the machinists, boiler-makers, firemen, carmen, electricians, sheet metal workers, clerks, signal men, telegraphers, maintenance of way and stationary firemen and others.

Big Chiefs Absent

Chiefs of the big four — brotherhoods — the transportation unions — will not be present, it was said, because the present reductions of the railroad labor board have not affected members of these organizations.

Samuel Gompers, president of the American Federation of Labor, was expected to arrive here Tuesday from Washington to take part in the discussions. Leaders tonight precipitated the conference of the union officials' would last for two, and probably three weeks. The important business before the department will be the question of affiliation with the projected national construction council to embrace ten units of the building industry — material men, architects, financial institutions, contractors, engineers, land owners, insurance and bonding, public utilities, public works and labor.

FAMOUS FERRIS WHEEL DISAPPEARS FROM PARIS

PARIS, (AP) — Americans visiting Paris will no longer see the famous Ferris Wheel, which with the Eiffel tower for 20 years has been one of the most familiar landmarks of the French capital. Modern needs have decreed that the colossal wheel make way for a more profitable investment. Workmen are now dismantling the huge steel structure, the axle of which alone weighs 75,000 pounds and is set a distance of 194 feet from the ground.

Built in 1889, at the time of the Paris Exposition from plans of an American engineer whose name is lost, the gigantic wheel has afforded pleasure and amusement to hundreds of thousands of Parisians and foreign visitors, young and old.

PLAN WIRELESS STATION ABLE TO TALK TO BRITAIN

SYDNEY, N. S. W., (AP) — Plans for direct wireless communication between Australia and Great Britain have been announced and provide for a main station which will be able to speak over 12,000 miles for the greater part of the day.

The site for this station has not been selected but it will be either in New South Wales or Victoria. Six feeders one in each of the capital cities, will work with this main station and, as far as possible the radio system, which is to be taken over by the commonwealth next month will be utilized for this purpose. Several new plants also will be required.

PRESIDENT FOR SENATE BILL

WASHINGTON, (AP) — President Harding in a letter Monday to Chairman Warren of the senate appropriations committee urged retention in the army appropriation bill or provision for officers, enlisted personnel and national guard voted by the senate and opposed the smaller provisions of the house bill.

LONDONERS LAY PLANS TO CORRAL AMERICAN CASH

Outlook is Bright for Influx of Tourists with Loose Money

LONDON, (AP) — London shopkeepers are anticipating a season far more brilliant than any since the war. It is expected that more American money will be spent here this year than for many years past, and many are the plans being made to capture as much of it as possible by entertainments of various sorts.

In Charing Cross Road London is planning the biggest dance hall in the world. This will have accommodation on one floor for 1,000 dancers and balcony space for 1,000 spectators. Eighty women and 25 men will be engaged to furnish dancing, while three bands, two English and one American, will provide the music.

For the other side of the picture the Bishop of Peterborough has proposed that in every ballroom and on every dining table during the season a box be placed labelled "For the Fellowship of Britons," in which contributions could be received "for the many thousands in this country who often do not know where the next meal is to come from."

INCREASED PRICE OF COAL ASSURED

Chairman Hoover Notified that Recent Maximum Agreed On Means Sure Rise

WASHINGTON, (AP) — Retail prices of bituminous coal "will rise" as much as \$1.75 a ton because of the advance in the price of coal at the mines under new agreements in the last week with bituminous operators in the producing fields, Secretary Hoover was informed Monday by Rogers Stephens of New York, president of the National Bituminous Coal Merchants' association.

Mr. Hoover met with about 45 members of the association to discuss the cooperation of the retailers in the commerce department's efforts to prevent runaway coal prices during the strike, but the conference developed principally into a colloquy between Mr. Stephens and Hoover over a probable increase in the price of coal to the household.

The voluntary cooperation of the association to prevent undue price advances was pledged by Mr. Stephens. Establishment of a maximum of \$3.50 a ton for coal at the mines, Mr. Stephens contended, will mean an increase of \$1.75 a ton in the retail price in Maine and the northwest, while immediate advances could be expected in New York and Chicago.

The necessity for advancing the retail prices, he said, was due to the prices fixed by the operators and the long transportation now necessary from non-mining fields.

CHICAGO HAS CHURCH SIMILAR TO KAISER'S

CHICAGO, (AP) — The fact that Chicago possesses a remarkable religious edifice illustrating in appearance the Kaiser's church in Berlin has been brought to notice by reports that of late the former German emperor has strangely occupied himself almost altogether with ecclesiastical concerns.

The Chicago structure, built of redish stone and with a lofty spire, St. Paul's Evangelical Lutheran church near Fullerton Park way, a short distance west of Lincoln park, is celebrated chiefly, not for the Kaiser, but for a beautiful wall painting, the gift of a Chicagoan, who during his boyhood spent his childhood. Many years later, long before the world war, the washerwoman, all her years spent at the tub but never forgetting a cherished ambition, gave her life savings to purchase the painting as a memorial for her boy.

The People Will Decide Today Whether or Not Twin Falls Will be Ruled By Walton

Citizens of Twin Falls will today by their ballots decide whether or not Twin Falls is to be ruled by Walton.

The issue is well known. Sentiment is crystallized. The public mind has been made up. It remains but to express the public will at the polls today.

The women of Twin Falls hold the balance of power. Their vote will decide the issue today.

If they go to the polls and vote, regardless of the fact that they can not be hauled there by automobiles, Waltonism will be overwhelmingly defeated today.

If they fail to vote, we shall have rule by Walton.

Walton hopes the women will not vote. He counts upon the belief that they will not walk to the polls.

We have faith that they will.

They realize the responsibility that is theirs, and in appreciation of the importance of the issue, we are confident they will vote today.

That there may be no confusion in the booths, it would be well for voters to take with them to the voting booth a list of candidates on the Graham ticket. This will insure them that they are casting their ballots against Walton.

The ticket which is opposing Walton is as follows:

- For Mayor: **William Graham**
- For Council: **T. J. Lloyd**
- L. A. Chapin**
- C. D. Thomas**
- W. H. Dwight**

There will be no designation on the ballot to show that these men are opposed to Walton. So be sure you know each name. Better carry a list into the booth with you.

Vote early. The polls will be crowded in the afternoon. This is important.

CIRCUS MEN SEE NO EVIDENCE OF HARD TIMES HERE

Crowds Filling Tent to Capacity of 15,000 Persons Daily
Belle Stories of Poverty of Southern Idaho.

"When Southern Idaho's people every day fill our circus tent to its capacity of 15,000 seats it is difficult for us to believe that Southern Idaho is seriously hit by hard times," Rex de Roselli, personal representative of A. O. Barnes, local members of the Kiwanis club at their luncheon meeting Monday noon.

Mr. de Roselli told the Kiwanians evidences of prosperity in Southern Idaho came as an agreeable surprise to the circus men. "We had been told that banks had failed, that the farmers were poverty stricken, and we at most expected to see a desolate region on our visit here this year."

A number of amusing incidents in his experience as a showman were related by Mr. de Roselli.

James Clark's decision. O. O. Hagan of Boise, district governor of Kiwanis clubs of Utah and Idaho, and James S. Hall, Twin Falls city treasurer, also were guests of the Kiwanians.

Mr. Hagan praised the club's decision, reached at this meeting to send a delegate to the Kiwanis club international convention this year at Toronto. "It is a commendable and laudable thing to do," he said.

Defining Kiwanis, Mr. Hagan said: "The business of Kiwanis is to see that all of the organizations needed to make the community what we want it to be, such as the chamber of commerce, charitable organizations, and organizations for young men and women, are established in the community and that they are functioning. It is not to take the place of these organizations."

Favors With Song. Mr. Hall responded to an encore after singing one song, accompanied by Mrs. Hillyer.

In the absence of M. J. Sweoley, president, and John W. Graham, vice president, Newell E. Wright, an executive, presided at the club's meeting.

Alvin Holloway, since 1909 a resident of the Twin Falls country and owner extensive farming interests in the vicinity of Knoll, five miles southwest of Twin Falls, died at noon today at his home at Knoll, after an illness several months' duration at the age of 71 years. Decedent is survived by his widow, three sons and one daughter, all of whom are residents of the vicinity of Knoll. His sons are Walter E. Holloway, Hugh E. Holloway, and Leonard L. Holloway. The daughter is Mrs. Roy Wright.

Funeral services for Mr. Holloway will be held at 2 o'clock Tuesday afternoon at the Baptist church at Knoll, and will be conducted by the minister, the Rev. E. J. McKewen.

SEARCH FOR RELATIVES OF DEAD LABORER FAILS

County Authorities Cease Unavailing Efforts and Make Arrangements for Burial of Tom Haines

County authorities late Monday abandoned their unavailing search for relatives of Tom Haines, farm laborer, whose body has lain unclaimed in the morgue at the P. J. Grossman undertaking establishment since his death here Friday, and arrangements were made for burial this morning after brief funeral services at 10 o'clock at the Grossman chapel.

Efforts to locate relatives of the dead man at Union and at Baker, Ore., proved futile, when word was received from both places that persons there supposed to be relatives were confident that the case was one of mistaken identity.

First Photos of S. S. Egypt Disaster

The pictures show some of the 100 members of the crew of the ill-fated British steamer Egypt, who fought passengers away from the lifeboats when the vessel was rammed in a fog by the French freighter Saba. Nearly one hundred of the passengers were lost. Captain Collier and Chief Purser Burrows were saved, as were Mrs. Warner, Miss Eddenden and Miss Emmet, three of the women passengers.

There's a Vast Difference

—between making ordinary gasoline and making a balanced gasoline. And it shows up plain as day in their behavior in your motor.

Briefly, balanced gasoline is refined with the definite aim of making the most of the many natural properties of gasoline and of utilizing them to the greatest advantage.

Motorists want a gasoline of all-around dependability. They don't want one that is a wonder on starting but takes the hills like a lame horse. And they aren't particularly anxious to drive over the mountains if they've got to put up with a lot of coughing, balking, lost time and sorely-tried patience every time they start a cold motor.

Conoco—the balanced gasoline—gives you everything you really want in a motor fuel. It starts quickly, takes the heavy grades comfortably, gives you the highest mileage you can hope to get and does it all economically.

Use Conoco, the balanced gasoline, and Polarine, the perfect motor oil. Start today.

THE ELECTION

Today, Tuesday, is election day; by tonight it will be known just exactly what has happened—it will be apparent whether a comparatively unknown man, never before interested in public affairs, has been able to build up a following upon a purely negative proposition in excess of that accorded the ticket headed by William Graham.

There isn't any real issue; both sides pledge themselves to do the best they can in the interests of the city. The whole thing is merely a question of whether or not E. P. Walton can put across a movement to take Twin Falls by the heels and stand it on its head.

Whether or not Walton is able to get away with it will be known late tonight. In the meantime the duty of every voter is clear, namely, to get out and vote. There will be no free rides, and it might rain; if these things are factors in the vote, and the rain comes, Walton's chances are better by 50 per cent, if the last election may be accepted as criterion.

When the election is over it will be too late. And no matter which side wins it will be little short of a community disgrace if the vote polled does not almost equal the registration.

As an eleventh hour admonition—VOTE. No matter for whom you mark your ballot, VOTE.

Better that the Walton ticket be elected from top to bottom than that the Graham ticket squeeze through by majorities too small to settle decisively, once and for all, the question involved in this election.

THE SPORTING VISION

College sports have come in for their share of adverse criticism of late. In many a college community the faculty is looking askance at the emphasis laid on athletics as compared to that given over to education proper.

Quite aside from the college sports controversy, this thought holds good on other walks of life. In the daily routine of work and living of the average man there is but little opportunity for a "supernatural effort for a definite end."

necessary to attain something more worth while. And yet this is just the distinction between the average individual on the one hand and the exception on the other. This, one, by not using it, loses his driving power more and more; the other, by using all that is available, acquires more as the years go by. If the habit of driving one's self is ever to be acquired it may possibly be that when young men and women are of college age it can best be acquired. And whether it is done through football or hockey is of no importance, provided only it carries over into later years and other walks of life. Certain it is that we all need more driving power, more practice in making a supreme effort for a definite end; for only thus is mediocrity to be avoided.

TEA INDUSTRY IN INDIA IS HAMPERED BY LABOR

Growers and Exporters, However, View Market Outlook with Optimism

CALCUTTA, (AP)—That the interference which labor troubles and nationalist movements have made the tea industry in India is not irreparable, was the opinion expressed by the majority of the delegates at the annual meeting of the Indian Tea association recently held here. In spite of the excessive stocks now on hand and the continuance of labor difficulties, most of the tea growers and exporters are viewing the market outlook with considerable optimism.

The chairman of the association, in his address, condemned the government for allowing the non-co-operation movement to develop as it has, rather than dealing with it in its infancy.

LONDON, (AP)—Russians are now open to the transportation of American Relief administration supplies, and the transportation problems which faced organization in Russia last winter are nearing solution, according to cable advices received at London headquarters.

The Indian tea industry received a boost from the fact that the majority of the delegates at the annual meeting of the Indian Tea association recently held here. In spite of the excessive stocks now on hand and the continuance of labor difficulties, most of the tea growers and exporters are viewing the market outlook with considerable optimism.

AMERICAN INSTITUTIONS SEEK RELICS IN ASIA

ATHENS, (AP)—American scientists have begun excavations upon the ancient site of Colophon, in Asia Minor. The work is being conducted jointly by the Fogg Museum of Art, of Harvard University, and the American School of Classical Studies at Athens, the former represented by Miss Betty Goldman of Bryn Mawr, and the latter, by Dr. Carl W. Blegen, of Yale. Colophon lies about half way between Smyrna and Ephesus.

The school has awarded its two annual fellowships, each carrying \$1,000 for a year. One goes to Franklin Clark Fry, of Hamilton College, and the other to Philip Hildane Davis, of Princeton University. These men will reside in Athens next year, as students of the school.

SURRENDERS TO FEDERAL COURT

Phillips, Accused of Conspiracy to Defraud - Government, Gives Himself Up

WASHINGTON, (AP)—John Lewis Phillips, republican state chairman for Georgia, for whose arrest a warrant was issued, this Saturday on complaint of the department of justice, alleging conspiracy to defraud the United States in connection with a war contract for the disposal of surplus lumber, surrendered to a deputy United States marshal on his arrival here Monday from Philadelphia. He was arraigned before United States Commissioner Elliott, who issued the warrant, waived examination and was released in \$20,000 bail for action of the grand jury.

The warrant for Mr. Phillips' arrest was issued while the special grand jury was still in session. Indictment had not yet been returned by the grand jury and it was understood that witnesses were still being heard. Much mystery surrounded the obtaining of the warrant. Full copy of the complaint was made public at the department of justice, following the formal arrest of Mr. Phillips, spokesman of the department denied that a warrant had been sought.

Masters to Washington. While the formalities of the bail bond were being attended to in Commissioner Elliott's office, Mr. Phillips said he had hastened to Washington as soon as he had been informed of the issuance of the warrant.

The first disclosure of the government's hand in this particular one of the so-called war fraud cases came during the arraignment of Mr. Phillips, Assistant Attorney General John W. Cline, in charge of all criminal matters for the department, it was learned, decided to swear out the warrant notwithstanding the fact that no indictment had been returned, on evidence and information in his possession following grand jury sessions of Thursday and Friday.

Mr. Phillips tonight refused to make a formal statement at this time but declared that all his transactions with the government always had been clean and above board, and were matters of record. He said he was surprised at the issuance of a warrant for his arrest before the grand jury had indicted him and attributed it to politics.

Her hair and her teeth are gray, and she's as ugly as a toad." "You needn't whisper, Simpson; she's also dead."

NEW OFFICIALS TO TAKE REINS SATURDAY EVE

Retiring Mayor and Council Plan to Turn Over Administration to Their Successors Elected Today

Twin Falls municipal administration next Saturday will be turned over to the mayor and council elected today at Twin Falls' first commission form election.

Formal arrangements for this effect were reached Monday evening by members of the city council who gathered in the city hall for a regular meeting.

Provisions of the law requiring that the vote cast at today's election shall be canvassed within four days after the election, were interpreted by the council members to mean that the new administration should take office as soon as the official canvass was completed and certificates of election issued to the new officials.

Date Action on Budget.
Adoption of the resolution containing the estimate of municipal expenditures for the coming year was to have been the principal item of business for Monday night's meeting. This was not accomplished because of the lack of a quorum, Councilman W. E. Sanger being not yet returned from his business trip to Idaho Falls, and Councilman C. P. Bowles having left last week for a month's visit with his father in Keosauqua.

It was decided that a special meeting of the council should be held at 2:30 o'clock this afternoon for the purpose of adopting the budget. It developed in informal discussion among the council members Monday evening that no objection or criticism has been presented to the part of the public with respect to the proposed budget which has been published for four weeks.

Will Pass Bills.
In view of the decision to turn over the municipal government next Saturday, the councilmen will be in session in special session Friday evening to pass upon bills introduced by the city since the beginning of the new fiscal year, May 1, and up to the time of change in administration.

CIRCUS WINS PRAISE OF POLICE OFFICERS HERE

No Complaints Made Against Aggregation During Two Days' Sojourn

The best circus that ever came to town, from the standpoint of the public, departed early this morning when A. O. Barnes' wild animal circus pulled up its stakes after entertaining about 15,000 men, women and children at its afternoon and evening performances Monday.

During the two days' stay here, the police said, not an arrest was made that was attributable to the circus, and not a single complaint was made against the circus or its employees. With the opening of the evening performance, the work of the men and beasts employed in striking tents and loading the animals on board cars began in earnest. Through a drenching rain men and beasts continued their work with precision, and the last of the circus left for its home at 10 o'clock, following its forerunners to Burley, where the circus will hold forth today.

One Man Thrown From His Horse and Painfully Injured in Fifth Period

BOISE—(Special to The News)—In the second contest of the polo tournament here Monday the 10th field artillery team of Camp Lewis defeated Monterey by awarding \$700.38 on its claim to the polo team that had overpaid Reed in the district court here according to notice filed Monday by the attorney for the defendant.

Halving in the fifth and sixth periods, with three men on a side, a result of serious injuries sustained by Lieutenant Lipman, Eleventh Cavalry, the Monterey outfit's team raised the polo score from 1 to 6 as the feature of the second polo tournament game.

The final score at the end of the eighth inning was 14 to 11 for the tenth field artillery team of Camp Lewis. Lieutenant S. M. Lipman, of the cavalry lineup was thrown from his horse early in the fifth period and was taken what is feared may be a slight basis for growers of Southern Utah their crop of approximately 750 carloads of potatoes, the Boyle company has completed contracts covering about 90 per cent of the potato crop of the entire state of Utah this season, Carl E. Nina was very dressed for the ten party the next day... Harriet looked at her severely plain ruffles...

"Here we are," Nina gave a startled glance at the lavous and gardens of the joyous nation already dotted with white and red and sparkling...

"Very decent of you, Miss Field," blushed Mrs. Jay, "to take me like that of a horn..."

"The nation melted away; Harriet looked over her tiny smiling back into infinity..."

"I'm glad," said the boy, "that you are so glad to be here. I'm glad to see you. I'm glad to see you. I'm glad to see you..."

"I said, 'But I don't know how you like it.' Nina repeated, looking down at her hands..."

"A second later she looked up in some alarm. He was silent—she had somehow said the awkward thing..."

"But what she saw reassured her. Royal Blonid had squared himself about, and had folded his arms..."

"I—hope we are!" Nina said, clearing her throat, with a bashful laugh...

REGISTRATION IS HEAVY FOR CITY ELECTION

Officials Point Out Necessity for Voting Early if All Qualified Citizens Are to Be Accommodated at Polls

With registration records completed last night showing a total of 4,100 qualified voters, Twin Falls citizens today will go to the polls to elect a mayor and councilmen in the first commission form election in the history of the town.

Registration books show there are 2,290 qualified voters in the second ward, and 1,900 in the first ward.

Election officials today will count ballots cast by 150 absentee voters. This is by far the largest number of ballots cast by absentee voters in Twin Falls' political history. The absentee votes are divided as between the two wards, 61 in the first and 75 in the second.

Election officials last night, in connection with the large number of registrations, called attention to the necessity for voting early if the entire electorate as represented by the registration lists is to be accommodated at the polls.

Polls will be opened in both wards at 9 o'clock this morning and will continue open until 7 o'clock this evening.

Where to Vote

Voters residing north and west of Shoshone street in the first ward, will cast their ballots at the city hall, corner of Second avenue and Second street.

Voters residing east and south of Shoshone street, in the second ward, will vote at the Johnson Auto company building, 329 Shoshone street east.

Under provisions of the Black Law, regulating municipal affairs under the commission form of government, it will be illegal for any person to carry in an automobile or other vehicle any voter to the polls except with his own family, or voters who are physically unable to walk to the polling place.

Last Minute Move

There were no new developments in the political situation during the hours immediately preceding the dawn of election day, although fights were being in the printing office of J. D. Walker, leader of the forces supporting the ticket headed by J. D. Tucker as candidate for mayor, and it was understood that the fight was being turned out.

VICTIM OF ASSAULT IS NOT YET OUT OF DANGER

Physicians Attending Napoleon Olson Fear Possible Blood Poison

Napoleon Olson of Twin Falls, suffering from three compound fractures of the skull and 19 stony wounds inflicted with a shovel by his brother-in-law, John Bergeman, at the latter's farm near Burley a week ago today, had sufficiently recovered Tuesday to sit up in his bed at a hospital in Burley for the first time since his injury, according to word received from his wife.

Attending physicians indicate their belief that Olson is not yet out of danger. They are especially apprehensive about possibility of development of blood-poisoning. Olson complains of severe pains in his head. If Olson recovers, he will be well enough in a long time to expose himself to warm sunshine, and he will be under necessity to refrain from manual labor for at least a year.

Bergeman at liberty under bond on a charge of assault with a deadly weapon.

BUHL FARMER SUFFERS FROM SEVERE WOUND

Mystery Surrounds Injury to N. O. Winkle, Patient at the County Hospital; Investigation Sheds No Light

Mystery surrounding the injury of N. O. Winkle, Buhl district farmer, who since Saturday afternoon has been a patient at the county general hospital suffering from fracture of the skull, was not dispelled Monday afternoon by Sheriff R. B. Sherman and prosecuting attorney Frank L. Stephan in their interview with Winkle in an effort to get at the facts in the case.

Winkle is either irrational or he is covering up something, the officials said at the conclusion of the interview.

Reports coming to the county auditor here are that Winkle was attacked by a neighbor with an irrigating shovel and after he had been rendered unconscious, was left lying in an irrigating ditch. Some time later Winkle made his way to the farm home he occupies with his two motherless sons, aged 14 and 15 years.

Offers No Information

Winkle was brought to the hospital Saturday afternoon by his brother, J. G. Winkle, who also is a farmer of the Buhl district. Attendants at the hospital and the doctor called to attend his injuries say that the brother disclosed nothing of the circumstances surrounding the case.

Attending physicians Monday said that Winkle's chances for recovery are favorable.

Winkle's carrier on a conversation with Sheriff Sherman that seemed to be rational up to the point where the subject of his injury was introduced. With somewhat of an effort he recognized the sheriff and called him by name. In reply to questions he said that he was in the hospital, he believed, for treatment for an attack of influenza, that he had been "living too high" and that he was conscious of a severe pain in his head. He denied

Law's Delays Topic for Court's Lecture

When several cases on the civil calendar set for trial in district court Monday had been called and attorneys interested gave no reason or another why they were not ready for trial, Judge W. A. Babcock took advantage of the opportunity to deliver a lecture to the assembled barriesters on the general subject of the law's delays with suggestions for speeding up legal processes. Thereafter he dismissed the cases for the term. They will be set for jury called for service in district court until the term opening in September.

"W. E. SPAULDING,
"Secretary."

Why Suffer from Rheumatism?
Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscle, or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to anyone afflicted with rheumatism.—Advt.

Have You Ever Met Old Bill Spud?

There is just ONE original Old Bill Spud.

HE is the multiplex of a concern which has marketed potatoes successfully for over twenty-five years. Everyone who has made his acquaintance has a great deal of respect for his advice. He has been in the game for many years, known from coast to coast and, through the trade papers has made a wide circle of friends. He has weathered all the storms known to potato marketing and always comes up smiling with the same conservative brand of talk.

WE are going to introduce him to those farmers in IDAHO who have never chance to meet him before. He will tell you something about the concern which he ably represents. And above all he will give the farmer some idea what efficient marketing includes—you will find that he has sound ideas and good judgment.

IN future issues he will be introduced to you and it will pay you to listen to what he has to say. Those of you who know him can vouch for his wisdom.

WE are organizing committees of farmers under what is known as a GROWERS' COLLECTIVE AGREEMENT. We ask for your business on the basis of your expecting more attention to your interests than other firms show. Our representative will be glad to explain our proposition, which has stood the test successfully.
