

# TWIN FALLS DAILY NEWS

VOL. 6, NO. 55

TWIN FALLS, IDAHO, WEDNESDAY MORNING, JUNE 14, 1922

PRIOR FIVE CENTS

## RAINFALL IS HEAVY OVER WIDE AREA

### Steady Downpour From Buhl to Burley Provides Thorough Wetting for Entire Section, Reports Show

One of the heaviest rainfalls in the history of the Twin Falls region was reported last evening. The rain was general, reports from Buhl, Hollister, Burley and other towns of this region indicating similar accounts of the precipitation in each locality. Little if any damage accompanied the downpour, but on the contrary, it is estimated to have been worth thousands of dollars to growing crops.

Half the town of Hollister was in darkness when electric light service was put-out of commission. That event, but there were no other reports of damage.

The rain fell gently but persistently and a few minutes after it began roads and streets were running sheets of water. Twin Falls business district drainage system proved inadequate to carry away the water and workers of the municipal street department were kept busy during the heaviest rainfall encircling the passage through gutters of water that banked up deep at the intersections of Main avenue and Rhoads street and other street crossings, while members of the police force stood by to warn utility pedestrians.

### Crowds Run for Shelter

Beginning in the late afternoon as a light shower which practically ceased in the early evening, the rain set in to deluge some of the playboys leaving moving picture houses at the end of the first show, and awnings, stairways and other places offering protection were eagerly sought after by men, women and children who had neglected to take the precaution of donning coats and carrying umbrellas.

At midnight the rain had ceased entirely, although it was intensely dark overhead, a few stars were beginning to appear.

### HEAVY RAIN AT BUHL

BUHL.—(Special to The News)—Heavy rain fell here Tuesday evening beginning at about 5:30 P. M., and continuing until about 9 o'clock, and roads were drenched with sheets of rain. No damage was reported.

### LIGHT SYSTEM AFFECTED

HOLLISTER.—(Special to The News)—Rain beginning here late Tuesday night, fell with increasing intensity with the coming of darkness. The electric lighting system was out of commission in half the town. No other damage was reported. At 11 o'clock the rain had ceased and skies were clearing.

### DOWNGRADE A WELCOME ONE

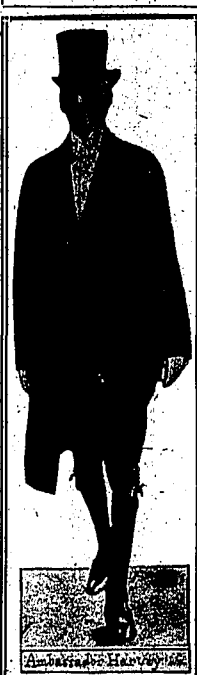

BURLEY.—(Special to The News)—Burley was visited last evening by one of the heaviest rainfalls in the history of the town, accompanied by wind and to damage reported, while farmers regard the extra moisture at this season a boon to newly planted and growing crops. Rain was continuing at 11 o'clock.

### POLICE DECLINE TO TALK ABOUT ARREST OF WIDOW

### Mrs. John Bruno Occupies Cell in Connection with Slaying of Husband

MOUNT-HOLLY, N. J., (AP)—With Mrs. Doris Brunen, widow of "Honest John" Brunen, the circus man, imprisoned without bail in connection with his slaying last March 10, county authorities Tuesday night kept her silent, as she sat at his home reading newspaper accounts of another unsolved murder mystery, the death of his former friend, William Desmond Taylor, in California.

## HARVEY'S THIN LEGS SHUN KNICKERS

AMBARASADOR GEORGE HARVEY, Harvey Extraordinary and Minister Plenipotentiary to the Court of St. James, isn't going to any more court functions in his famous plaid knickerbockers. He says his legs are too thin, so henceforth he'll wear conventional full dress trousers.

## Three Hundred Are Drowned in Torrential Flood

### Two Day Unprecedented Rainfall Takes Heavy Toll of Life in San Salvador

SAN SALVADOR, Republic of Salvador, (AP)—Three hundred persons are known to have been drowned and many are missing following an abnormal rise in the Acchuata and Arenal rivers, which overflowed their banks and were joined in one stream, inundating the Coadorilla district of this city. Several houses were swept away by the raging torrent.

The bodies of 200 men, women and children already have been found. The flood was caused by a two-day torrential rainfall.

The government has sent a relief expedition here to succor people in distress. A large subscription list has been started for the relief of the sufferers.

## HOUSE MAY ACT WITH FREE HAND

### Administration Officers Deny Thought of Delaying Action on Muscle Shoals

WASHINGTON, (AP)—Prospects for early action by the house on proposed legislation for development of the government's projects at Muscle Shoals, Ala., were brightened Tuesday by authoritative announcement from the White House that administration officials were willing and anxious for house action to get on the matter with a free hand.

What action the house will take, Representative Mondell, the republican leader, announced would be decided in conferences of majority members, and decision would be formulated in the near future.

## Part of Evidence Disappears From Records of Trial

### Documents Used in Previous Attempts to Convict Cannot Be Found

LOS ANGELES, (AP)—A number of letters and telegrams, introduced in evidence in previous trials of Mrs. Madeline Obenshain and Arthur G. Burch for the murder of J. Dalton Kennedy, are missing, it developed Tuesday in Mrs. Obenshain's second trial. The clerk of the court, where the other trials were held, testified that a portfolio of the documents could not be found.

A heated tilt between a defense attorney and the father of the slain man, and the disappearance of documentary evidence were features Tuesday of the trial. J. D. Kennedy, the father, on the witness stand, characterized as a "deliberate falsehood," a question in which he had been asked, whether his wife had undergone treatment "to make her look ghastly," when she testified in previous trials of the case.

That is a deliberate falsehood. Nothing of the kind was done," stated Kennedy. The point was not pressed further.

## BANK ROBBERY ENDS IN BATTLE WITH THIEVES

### Bold Daylight Hold-up of Montana Institution Leads to Chase of 35 Miles with Armed Clash Following

LEWISTON, Mont., (AP)—At 3:30 Tuesday afternoon, while President Fred Stevens of the First National Bank of Boy, was alone in the banking room, a man entered with a handkerchief over part of his face and covering the banker with a revolver, went back of the counters and put Stevens in the vault. The robber then took all the cash in sight, amounting, it is estimated, to about \$2,500 in cash and Liberty bonds and left.

A companion was waiting in a car just around the corner and the man with the booty jumped in and the next instant they started out of town at high speed. The man who entered the bank and put Stevens in the vault, came out and parried on the street, seized, ran into the bank and released Stevens. A car was secured and inside of five minutes Stevens and four other men, one being A. L. McKean, manager of a lumber yard, started in pursuit.

### Chase Runs 35 Miles

After a chase of 35 miles, the pursuers came close to the robbers who were fixing their car, and halted them. The robbers instantly opened fire at a distance of 75 yards, shooting A. L. McKean through the left shoulder.

The boy posse at once started back for Grass Range to get medical aid and by the time Sheriff Woods could get to the scene of the encounter the robbers had gone on their way.

Every man in the posse, but it is thought the robbers will abandon their car and take to the timber.

## DYER BILL IS ENDORSED

National Credit Men's Association in Favor of Bill for Garmenting of Government Salaries

CLEVELAND, (AP)—The Dyer bill to prevent garimention of salaries of government employes was endorsed Tuesday by Stephen H. Taftes of Washington, in his report as chairman of the legislative committee at the convention of the Retail Dry Goods National association here Tuesday.

The most important task facing the association is to spread the gospel of better credits and credit organization. R. W. Watson of Spokane, Wash., told the delegates.

A campaign has been opened by Mr. Watson and J. Frank Jeffers, delegate from Spokane, to have the 1922 convention held in that city.

## ODD AILMENT IS CAUSE OF DEATH OF U. S. OFFICIAL

### A. J. Frey of Los Angeles, Vice-President of Shipping Board, Emergency Fleet Corporation, Succumbs to Attack

WASHINGTON, (AP)—A. J. Frey of Los Angeles, vice president of the shipping board's emergency fleet corporation, died Tuesday, at Johns Hopkins hospital, Baltimore, after an illness of several months, according to an announcement by Chairman Lester of the board.

### DISEASE IS PECULIAR TO SINGLE SECTION OF COAST

SACRAMENTO, (AP)—The San Joaquin valley disease, to which the death of A. J. Frey at Washington, is attributed, is the local name of a rare disease known as acrodermatitis, a fungus which attacks the skin and then the inner tissues of the human body and has nearly all the symptoms of tuberculosis of the lungs, according to Dr. Fred E. Gundrum, vice-president of the California state board of health.

The disease first was discovered about 15 years ago by Dr. Wm. Ophule of Stanford university, Dr. Gundrum stated.

### Brain Frequently Attacked

The disease in its spread, Dr. Gundrum said, very often attacks the brain and then its symptoms are similar to those of meningitis. It is nearly always fatal. It is a chronic, slow growing affliction of which so little is known that its treatment is difficult.

The name of San Joaquin valley disease was attached to the affection because for several years that section of the state of California was its only known source. However, in recent years outbreaks have been found in various localities of the country.

## Slayer Escapes Mob Violence by Narrow Margin

### Ex-Convict, Confessed Murderer of Miss Alice Mallet, Barely Saved by Ease

JACKSON, Miss., (AP)—George Straub, an ex-convict, who confessed to the slaying of Miss Alice Mallet, a welfare worker, was saved from a threatening crowd that surrounded the county jail here Tuesday night when Sheriff Edwin Larrabee signalled the prisoner as a city fireman, removed him from the building by a rear entrance and whisked him out of the city in an automobile.

The crowd began to gather about the jail soon after an announcement that Straub was confined there in a short time several thousand persons surrounded the building. A number of attempts were made to storm the doors, an aged woman leading the angry citizens, but they were repelled by the use of tear gas both from the building and by deputy sheriffs and state police.

Sheriff Larrabee appealed to the crowd to disperse but feeling bad run high since the finaling of Miss Mallet's body, with the head crushed and her throat slashed, and the officers were contacted the situation might get from under their control before national guardmen ordered from Lansing could arrive. Long after midnight crowds thronged the streets speculating as to where Straub might be found.

## SHIP SUBSIDY ACTION OR SPECIAL SESSION LOOMS

### President Wants Congress that Matter Must Be Taken Up Without Delay

WASHINGTON, (AP)—Warning by President Harding that he would feel obliged to call congress in special session if it failed to take up the ship subsidy bill prior to adjournment, was substantially Tuesday by a White House announcement that the administration was determined to press unrelentingly for action now.

## Husband and Wife Dead Three Others Wounded In Battle With Maniac

### Thomas E. Tubb, Believed Insane, Shoots Woman Then Opens General Attack From Vantage Point in Store — Railroad Agent Hit Twice and Deputy Sheriff Struck by Bullets

### FIRST INTIMATION OF TROUBLE COMES WITH RECEIPT OF STRANGE MESSAGE

ORIN JUNCTION, Wyoming, (AP)—Thomas E. Tubb and his wife are dead and three others including Deputy Sheriff John McPherson are seriously wounded as the result of battle at 4 o'clock Tuesday afternoon here between Tubb, officers and citizens.

Mrs. Tubb was shot by her husband who is believed to have become suddenly insane. Tubb was slain by an unidentified resident of Orin Junction and the three others were wounded by Tubb before he was killed. Before the shooting Tubb, who was a homesteader, telephoned Douglas, Wyoming, authorities that his farm was being taken away from him. He requested that an officer be sent to protect him. Deputy Sheriff McPherson was dispatched from Douglas.

As McPherson entered the store from which Tubb had fired, Tubb opened fire, wounding the officer. S. B. Magnuson, a railroad agent, hearing the shots, ran to the store. He was met with a fusillade of shots from Tubb's gun and fell with two wounds. It is believed that Tubb then shot his wife, who was in the store with him.

### PROPOSED RATES ARE SUBJECT TO STRONG ATTACKS

### Administration Tariff Bill Comes In for Heavy Criticism at Hands of Senator Simmons

WASHINGTON, (AP)—The administration tariff bill was subjected to another general attack Tuesday in the senate by Senator Simmons, democrat, North Carolina, who declared the committee duty of 60 percent ad valorem on wool and willow furniture—which subsequently was approved—was illustrative of the plan of the majority as outlined in the whole bill.

"You start in the kitchen, laying heavy duties on kitchen utensils and ware," said the senator. "Next you impose a heavy tax on laborware and then you go after the furniture in the home, laying a duty of 60 percent on furniture, in common use throughout the country."

"If you can tell me anything of consequence entering into the household or the building of the home, or that goes on the backs of the people on which you have not increased the duty, I don't know what it is. If this tax is for revenue, then I say to you, do not go into the homes of the people to tax the necessities to raise a revenue."

The Revenue item furnished the only real fight of the day in which unusually good progress was made on the bill. Disposing of several remaining minor amendments in the metal schedule the senate got through with the wool schedule after deferring the fight over the proposal to retain shingles on the tax list.

Then it went into the sugar schedule, but since the committee had not recommended any change in the house rates in that section, the big controversy over this will await completion of action on the remaining 1700 odd committee amendments.

## MINISTER THREATENED WITH HERESY CHARGES

### Meeting of Northern Baptist Church Will Investigate Alleged Statements of Teacher

INDIANAPOLIS, (AP)—Attacks on the alleged teaching of heresy by Henry Clay Vander of the General Theological seminary, Philadelphia, were made at the meeting of the Fundamental group of the Northern Baptist church Tuesday by Dr. Frank Goodchild of Brooklyn, N. Y.

An "innuendo bath from sin," a sentence which Dr. Vander is charged with having often spoken and written, was the basis of the attack by Dr. Goodchild.

Bringing of the charge of teaching heresy at the seminary before the convention Wednesday, it was said at the meeting, would be attempted.

## PAST DEALINGS OF CURBSTERS ARE CANCELLED

### New York Street Brokers Trading in North American Steel on a "When Issued" Basis Heavily Penalized

NEW YORK, (AP)—On the eve of a grand jury investigation of its member-brokers who have been trading in North American Steel corporation stock on a "when issued" basis, the board of governors of the New York stock market announced that the privilege to deal in the securities had been withdrawn, and all past dealings are declared cancelled.

The action of the board of governors was made public before District Attorney Barton had issued subpoenas for 50 curb market brokers to appear before the grand jury Wednesday, following a long conference with Samuel Untermyer, counsel to the Lockwood legislative committee.

Mr. Untermyer had before the district attorney the information gathered at the committee's hearings concerning the proposed merger of Midvale Steel and Ordnance, Republic Iron and Steel and Inland Steel into the North American company, after curb market officials had defied his warnings to discontinue dealings in the hypothetical stock. He contended that negotiations for the amalgamation had not proceeded to a point where it was fair to purchasers to deal in the stock, even on a "when issued" basis.

Nearly 1500 shares of the stock, bought on the curb Tuesday, the price fluctuating between 48 and 49 1/4, with a final sale at 47—a net gain of 1-1/4 point.

Earlier in the day, curb market officials took the attitude they were within legal rights to act as brokers of the stock for purchase and sale of the stock and indicated they would continue to do so.

IDAHO WEATHER Wednesday, showers.

# SALVAGING OF LUSITANIA WILL BE DIFFICULT

### Value of Ship After Recovery and Rebuilding Would Be Less Than Cost of Raising and Refitting

LONDON, (AP) — The statement cable from New York by an American salvage company was going to try to raise the Lusitania has aroused keen interest here. But most of those who speak with authority about lifting ships from the bottom of the sea are skeptical as to the Lusitania ever being floated.

Sir Frederick Young is strongly of the opinion that it will never be done. He has charge of the Admiralty Salvage section during the war, and brought into port nearly 500 ships that had become war casualties. Many of them had been torpedoed and a considerable number had been sunk. No one knows more about raising sunken ships.

### Cost Would Be Exorbitant

To an interviewer Sir Frederick said it is very improbable, though not absolutely impossible, that the Lusitania could be raised. The cost would be out of all proportion to her value. After lying seven years at the bottom of the sea it would cost as much to re-raise her as to build a new vessel.

To build a floating chamber 900 feet long and 100 feet wide and to attempt to raise the wreck by means of steel cables, would involve, Sir Frederick pointed out, an expenditure so considerable as to make the undertaking by that means quite impossible on any commercial basis. The alternative method of raising the vessel by pumping in compressed air hardly seemed feasible. Before that could be done she would have to be made air tight. "It is not possible to make the ship tight, for divers to work at a depth of 250 feet, and they would have to go that far under water to get at the Lusitania. The greatest depth at which divers now work successfully is 180 feet.

## SUPERIOR COURT WILL TRY J. W. W. MEMBERS

### Men Are Charged With Criminal Syndicalism Under State Law

SACRAMENTO, Cal., (AP) — Ten admitted members of the Industrial Workers of the World will go to trial in superior court here today on charges of criminal syndicalism under the provisions of the state antiradical law, which makes liable any person belonging to an order which practices or teaches sabotage. The men, among whom are two prominent members of the I. W. W., were arrested one by one after they had been tested at trial in April of Peter Gastorf and Earl Frey. J. W. W. delegates, who were found guilty and sentenced to serve and indeterminate term in San Quentin state penitentiary.

The ten defendants are Walter Smith, member of the general executive board of the Industrial Workers of the World; A. E. Anderson, Thomas O'Mara, H. F. Edwards, John Nash, Tom Zanger, Peter Bentley, Charles B. LaDue, William Rutherford and Bert Kelly. Zanger is said to be a delegate of the Agricultural Workers' Union.

The officers of the Sacramento county authorities in causing the arrests of the men after they had testified, was made the subject of a protest by the "General Defense Committee" of Chicago.

### OPTIMISM STIMULATED

TONOPAH, Nev., (AP) — A system of auguring the future of the Nevada town is believed by peace officers to have been uncovered through the arrest here recently of a Chinese giving his name as Goo Bing. Five thousand dollars worth of narcotics were seized according to police when Goo Bing was arrested at the stepping stone of the car of a Reno train. He is said by officers to be one of a chain of vendors who are alleged to receive their supplies of drugs from train porters.

### Much Natural Gas Wasted

Of natural gas we burn usefully in a year fully 800,000,000 cubic feet—equivalent to the heating value of 40,000,000 tons of coal, and something like 8,000,000 families are directly benefited by it in cooking, heating and lighting. But the most significant aspect of this matter is that approximately two-thirds of the gas used industrially. The history of our treatment of natural gas is a record of wanton waste. Just think of it, in the course of one month gas was allowed to escape unchecked from a well yielding the while 1,000,000,000 cubic feet of the commodity; and in two months four wells scattered broadcast a total of more than 5,000,000,000 cubic feet of gas! This dissipation of potential heat corresponding to 250,000 tons of coal, or enough to supply 20,000 households for a year. By recourse to moderate expense for proper casing at our gas wells an enormous conservation of this fuel might be effected. Scientific American.

## Royalty at Royal Wedding

Royalty attended the wedding in London of Princess Marie of Romania, the most beautiful princess in Europe, to King Alexander of Serbia. The Duke of York, second son of the rulers of England, represented King George VI. Queen Mary, Queen of Spain, represented the Duchess of York. Princess Beatrice, children of the King of Italy, represented the monarchs of Italy.

## CHINESE FLEEING BEFORE ADVANCE

### Wealthy Families Pick Up Valuables and Move Ahead of Sun Armies

KIANGSU, Province of Kiangsu, (AP) — Wealthy Chinese with their families and valuables are fleeing from Nanchang, capital of Kiangsu province, as the army of Dr. Sun Yat-sen, the south China leader advances northward. Looting at the hands of the southern troops is feared. American missionaries at Nanchang are also prepared to leave if it becomes necessary for the forces at Wu Pei-fu, the military power of the Peking government, to evacuate Nanchang. The American gunboat Isabel is stationed here ready to protect American interests if the necessity arises. The Japanese and British vessels, Sumida and Cookhamer, respectively, are also here. Dr. Sun's army has captured Kanchow Ai, in the south of Kiangsu province. A report from the south June 10 said the forces of Wu Pei-fu were retreating northward.

## NEW MEXICO PHYSICIANS MAKE UNIQUE BONE GRAFT

Section of This Attached to Femur of Guy Victim of Automobile Accidents

ALBUQUERQUE, N. M., (AP) — Unique in New Mexico medical annals was the operation performed at St. Joseph's hospital here the other day when eight inches from the tibia of the patient's left leg was grafted onto a fractured femur. Physicians say it is the first case of bone grafting to occur in the state.

The patient, Miss Laura Crawford, age 19, received a broken leg last November when the automobile in which she was riding was struck by a train. The driver of the car was killed and three other persons were injured.

Miss Crawford was removed to a hospital and a silver plate was placed in the break of the limb. This did not prove efficacious, according to attending physicians, and last week the patient submitted to the bone grafting operation.

Physicians pronounced the operation a success following an X-ray examination.

Friendship Important. To build life that brings joy to old age you must build friendship into the days of your youth. Antagonism may compel attention from the world. But soon the world will find a way of avoiding your coercing power, and you will be left despaired and desolate to spend your declining years amidst hostile environments. It's too late to make changes when the building is almost finished. Changes can always be made but they are costly and often do not fit in well with the structure. Still if mistakes have been made, correct them as soon as you can.—Grit.

## People of Britain Must Pay for Destruction Wrought in Ireland

### Heavy Losses Caused by Burning of Buildings in Emerald Isle Are Met by People of England—National Treasury Pays Part of the Damage

LONDON, (AP) — While the Irish people burn buildings and destroy property in Ireland, it is the people of the sister island who have to pay the bill. Part of these costs are taken from the national treasury by Parliament and part are voluntary contributions given to the funds being raised in England by the sympathizers of sufferers in both sections of Ireland. The Irish secretary, Sir Hamar Greenwood, recently proposed in the House of Commons a grant of 750,000 pounds as compensation for damages to property in northern Ireland during the disorders of the past three years. During the credits debate which followed he explained that by agreement between Colonial Secretary Churchill and Sir James Craig, Prime Minister of the Ulster government, the British government promised to pay Ulster 1,500,000 pounds for damages committed up to the first of January. This does not cover the amount the national treasury will grant to Ireland by any means. Enormous Sums Appropriated. Sir Hamar Greenwood told the House there would be an appropriation of another 1,950,000 pounds for relief work for Catholics and Protestants in northern Ireland as well as a further estimate of 2,000,000 pounds to compensate Crown employees, most of whom have lost their positions through the establishment of the new government. The total award made by the courts in northern Ireland to persons who have suffered damages amount to 2,900,000 pounds, so that the British government defraying 1,500,000 there will be 500,000 pounds for the Ulster government to deal with. The courts have passed on the claim submitted in the north, which has simplified matters. In the south most of the British courts have been suppressed and where courts have been sitting many claimants were afraid to appear. Accordingly it is now possible only to estimate the claims of southern Ireland. Sir Hamar Greenwood estimated these at about 11,000,000 pounds, but hoped they would ultimately be reduced by half. Hence the grand total of damages to be paid to individuals by the British government for the civil war, or civic disturbances in Ireland, is about 11,000,000 pounds. Of course before the new government of Ulster was launched and the provisional government of the south, Ireland was contributing her share to the taxation of the United Kingdom, from whose funds these bills will be settled.

Hint to a King-to-Be. One of the oldest New Year's gifts on record was the dark lantern sent by Sir John Harrington to James VI when James VI of Scotland. The top of the lantern was a crown of pure gold, serving also to cover a perfume pan; within it was a shield of silver, embossed to reflect the light, on one side of which were the sun, moon, and planets and on the other a picture of the Crucifixion. Around the lantern was inscribed the broad hint: "Lord, remember me when Thou comest into Thy Kingdom." Sir John titled his gift well. It was sent on New Year's day, 1603, only three months before the death of Elizabeth.

## "NAY" IS GREEK FOR "YES"

### And in a Number of Other Respects—Greece Is Just Turkey-Turkey Land.

Psychology is supposed to interpret all things nowadays and I should very much like a psychological explanation of a very curious way they have in Greece, writes Beverly Nichols in the Outlook. The Greeks are, and always have been, a people who gesticulate freely when speaking. But it is with an almost uncanny sensation that you suddenly realize that their gesticulations mean precisely the opposite of our own. Watch a man in the street calling to a friend. Instead of beckoning to him—that is, instead of crooking his finger and drawing it toward him—he pushes his hands vigorously outward, and then gives a little backward gesture. And if he wants his friend to go away, sure enough he starts to beckon.

It is the land of the wrong way round. For if you are observant you will notice that this trait is repeated a hundred times in the national life. Take the case of language. One of the great difficulties of learning modern Greek lies in the words "yes" and "no." In the other languages one learns the negative always begins with an "n." In French it is non, in German nein, in Spanish and Italian and English it is no, and so when you hear a Greek say may you think, quite naturally, that he means "no." But nay is the Greek for "yes," and when you want to say "no" you have to make strange noises in your throat which make you feel quite ready to agree to anything. When you arrive in Athens, you must not expect people to call on you. You have to call on them first and leave cards on quantities of people with highly barbaric names and highly civilized butlers. (The Greeks have a passion for leaving cards, and I have seen an elaborate card decorated with the names of thousands of callers in the house of a particularly popular hostess.)

Finally I have just eaten a meal in which we began with a sort of liqueur and ended with white wine and tea. I have just received a letter which was addressed on the envelope to "Esquire Nichols." Have you any need of further proof?

## JEROME

JEROME.—Miss Marilyn Walker has returned to her home at Sugar Loaf after attending St. Teresa school at Boise. Miss Walker was a graduate of this year's class. Mrs. L. Thilston transacted business in Jerome on Monday from her home in North Dakota. Mrs. Tony Huberman of Aradaha has her best guest her mother, Mrs. Finch of East Lake City. Marble Coplin left the first of the week for Alok where he will take up summer school. C. C. Tillman of Chicago is visiting relatives in Jerome. Mrs. B. Farber left last Sunday for an extended visit with relatives in Chicago.

## ATTENTION

Modern Women of America. Regular meetings are to be held at the Old Town Hall over the Idaho Department Store, every second and fourth Wednesdays of each month until further notice. Our next regular meeting is to be held on Wednesday, June 14, 1922, at 8 p. m. J. P. JOHNSTON, Secy.

## Working Up to a Climax

Bad blood between Biggs and Jiggs in the mountain section of northeast Pennsylvania came upon Biggs put up a fence which backed an old cowpath and Jiggs' cattle were called upon to detour. Jiggs tore the fence down. Biggs put it up again, then Jiggs demolished it once more. Biggs went to an attorney and asked what he could do. The lawyer said, "It is trespass. I can sue him for you. The cost will be about \$10." Biggs produced a greaty wallet and \$20 in currency and said: "I want you to law that sucker. I want him lanked a good \$20 worth. As soon as you get the case started call him a blunderbuss." This volley included about every banned epithet in the English language, any of which would have meant contempt proceedings by the court. "After that," continued Biggs, "begin to warm up gradual and leave Jiggs know that when I law a man I law him proper."

# FEW IDLE ON PACIFIC COAST

## Encouraging Reports on Industrial Conditions in Extreme West

**SAN FRANCISCO, (AP)**—Decided improvement in employment conditions on the Pacific coast is noted by J. A. Kelly, San Francisco, district director of the employment service, United States department of labor, in his report for May, made public here today. Although in foodstuffs and leather there is a slight decrease in employment, highway construction, building, lumber, mining, oil, farming and railroad repair show an encouraging improvement.

Mr. Kelly's report, covering California, Oregon and Washington, follows: "California.—The general employment situation is decidedly improved over last month. Among the classified industries, foodstuffs, textiles and leather show a slight decrease in employment. There is a surplus of unskilled labor but this is gradually being absorbed by the resumption of large construction projects and the growing demand for farm workers. The surplus of skilled iron and steel workers has been reduced by resumption of foundry work throughout the state and absorption by other industries. Vegetable canning now under way, giving employment in negligible. Nearly all lumber mills operating at capacity. Fishing season now at its month of the Columbia. Much construction under way and to be started within 30 days. Building activity continues. Iron and steel and transportation trades remain idle in Oregon.

"Oregon.—Unemployment, outside of Portland, is negligible. Nearly all lumber mills operating at capacity. Fishing season now at its month of the Columbia. Much construction under way and to be started within 30 days. Building activity continues. Iron and steel and transportation trades remain idle in Oregon.

"Washington.—Employment situation vastly improved. Supply of skilled mechanics in some industries becoming exhausted. Labor suspension of facts may coal mines and dock work. Road building, electric power extensions, railroad work and textile output increasing. Building construction continues at an increased pace. These activities with the normal operation of lumber mills and agricultural and reclamation work will absorb the surplus of unskilled labor. Lumber interests of state, with headquarters at Seattle, have made inquiries of the public employment bureau of California regarding the possibility of engaging help through that office. Gray Hacks electric power extension, construction program, building, logging, roads and highways, with a shortage of good steady men. All manufacturing to capacity, some two or more shifts."

**Valuable Word.**  
Fleck, out of the definitions of pluck, is a word that in its charge of meaning has become a favorite child of the language. It was commonplace to begin with was pluck—a term used in stone cutting and photography and also as the heart, liver and lungs of an animal; as a verb to pull out feathers, to pull, to fleece, to grab at something. After a while the English college boys used it to signify the rejection of a candidate for a degree. Best of all, it came to mean courage, spirit, resolution. We could scarcely get along without the colloquial significance of the words spunk and pluck, while its strict understanding and application there has never been. Uncle Sam what is today.—Exchange.

**"Old Rough and Ready."**  
It was Gen. Zachary Taylor who afforded amusement to his political opponents by unctuously proclaiming as a presidential nominee in 1848 that "we are at peace with the world and the rest of mankind." They were wondering where the rest of mankind might be located. Taylor wasn't in high favor with those whom Simon Cameron delighted to rebuff. He was a "lithium piller," however, he proved himself sufficiently strong to beat two accomplished statesmen, such as Martin Van Buren and Lewis Cass, when he pitted against them in the 1848 campaign.

### BROWNS EVEN WITH YANKS

**Danforth's Pitching Coupled with Heavy Hitting Puts St. Louis Near to Top**

**ST. LOUIS, Mo., (AP)**—The Browns and the Clamptons Yankees broke even in their series here by virtue of the local victory Tuesday, due to Dave Danforth's pitching and the clabbing of Sisler and his mates. Catcher Geyer was put out of the game for protesting, Umpire Evans' decision. Score: R. H. E.  
New York 4 11 2  
St. Louis 13 16 0  
Batteries: Shawkey, Murray, O'Dout and Davenport; Danforth and Severid, Collins.

### TWO-HIT GAMB FOR ROBERTSON

**CHICAGO, (AP)**—Charley Robertson of perfect game fame, Tuesday led Boston down with two hits, while Chicago touched Bill Piercy for 10 and about out the visitors in the final game of the series. O'Rourke, the first man up in the eighth inning, made his hit, a single to left, but a fast double play followed. Menosky uncorked the other hit in the ninth, but was forced at second.  
Robertson was given fine support. Chicago won the game by hitting open bats. Score: R. H. E.  
Boston 0 2 2  
Chicago 5 10 1  
Batteries: Piercy and Chaplin; Robertson and Schalk.

### GOES IN OLD-TIME FORM

**DETROIT, (AP)**—Detroit made it three out of four from Washington, winning Tuesday. Harris' homer in the first averted a shutout for the Nationals. Cobb's hitting was a big factor in the Tigers' victory, while four double plays behind Oldham also cut off scoring chances for Washington. Score: R. H. E.  
Washington 1 7 2  
Detroit 5 9 0  
Batteries: Francis, Erickson and Fielch, Gharitty; Oldham and Basler.

### NATIONAL LEAGUE

**STANDING OF THE CLUBS**

Club	Won	Lost	Pct.
New York	33	19	.635
Pittsburgh	27	21	.563
St. Louis	29	24	.547
Brooklyn	28	26	.519
Cincinnati	27	29	.479
Chicago	24	27	.474
Boston	23	27	.463
Philadelphia	16	33	.327

### REDS WALLOPED BY GIANTS

**New York Leads the National League by Four Full Games.—St. Louis Shut Out**

**NEW YORK, (AP)**—New York increased its lead in the National league to four full games Tuesday by making it four in a row from Cincinnati, while Pittsburgh lost to Boston. Both Nohr and Couch were hit hard but had exceptional control. R. H. E.  
Cincinnati 5 9 0  
New York 7 14 1  
Batteries: Couch and Hargrave; Nohr and Smith.

### PHILLIES SHOT OUT CARDS

**PHILADELPHIA, (AP)**—Pounding our St. Louis pitchers for a shutout Philadelphia Tuesday took the final game of the series. First baseman Fournier pitched the eighth inning for the Cardinals and did not allow a hit. Pitchers Haines and Petlica played first base and shortstop, respectively in that inning. Recruit Singleton held the visitors to six scattered hits. R. H. E.  
St. Louis 0 0 0  
Philadelphia 14 10 1  
Batteries: Dock, North, Balley, Petlica and Clemens; Singleton and Petlica.

### BRAVES WIN ANOTHER

**BOSTON, (AP)**—Good hitting in the benches by Gowdy, Barber and Nicholson largely accounted for Boston's victory over Pittsburgh Tuesday, giving the series to the Braves, three games to one. Boris Lave and ballplayer Boston won his nine out of its last eleven games. R. H. E.  
Pittsburgh 5 11 3  
Boston 8 18 1  
Batteries: Hamilton, Cooper, Morriss, Goben, Humpgren, Marquard, McCullin and Gowdy.

### DODGERS PITCHER BUMPED

**BROOKLYN, (AP)**—Chicago overcame the series by beating Brooklyn Tuesday. The Cubs landed on Grimes for six hits and two sacrifices in the fifth, which with three errors gave them six runs and sent the Dodgers' ace to the showers. Alexander received all right support. R. H. E.  
Chicago 8 10 1  
Brooklyn 3 10 6  
Batteries: Alexander and Hartnett, O'Farrell, B. Grimes, Mamau, Shriver and Miller.

### Ignition Defects And Hard Starting

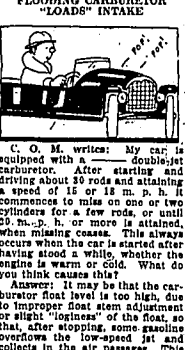

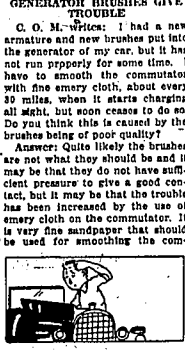

**Wei Spark-Plugs Are the Cause of Much Unnecessary Cranking**  
**WHEN A COLD ENGINE** HAS BEEN SUFFICIENTLY (but not excessively) primed, either through its pet-cocks, by means of the choker or otherwise, and still ignites cannot be secured, the trouble is presumably in the ignition. If a roller-contact timer is the form of contact device used, it is quite common for the oil, which has to be used to lubricate it, to form a contact contact segments, which prevents the roller from touching them and thus no current can pass to the coils. Thinning the oil with kerosene and the subsequent use of engine oil mixed with kerosene is the remedy. Both temperature and moisture conditions cooperate unfavorably, ignition may be interfered with, by the condensation of moisture on spark-plug insulation. Sometimes, when a car is brought into an unheated garage in a wet condition, and the weather suddenly turns cold, the moisture present will condense upon the external surfaces of the spark-plugs, creating a leakage path that entirely absorbs the ignition current and prevents sparks passing at the points. Steam, being a constituent of exhaust, is left in the cylinders when an engine is stopped, and as cooling takes place, it is condensed into water upon the cylinder walls and upon the internal spark-plug insulation, where it forms a conducting film to short-circuit the ignition current. Sometimes condensation runs down the plug, forming a drop between the plug points and in extreme cases it may freeze there and, under very adverse humidity and temperature conditions, condensed moisture has been known to freeze upon and stop the action of magneto and battery make-and-break devices. In view of the above, it is well to be sure that the plug porcelain are dry before starting, and that sparks will actually pass from a detached plug cable to the engine before exhaust generator either the operator or the battery by protracted cranking.

### GENERATOR BRUSHES GIVE TROUBLE

**C. O. M. writes:** I had a new armature and new brushes put into the generator of my car, but it has not run properly for some time. I have to smooth the commutator with fine emery cloth, about every 30 miles, when it starts charging all right, but soon ceases to do so. Do you think this is caused by the brushes being of poor quality?  
**Answer:** Quite likely the brushes are not what they should be and it may be that they do not have sufficient pressure to give a good contact, but it may be that the trouble has been increased by the use of emery cloth on the commutator. It is very fine sandpaper that should be used for smoothing the com-

### FLOODING CARBURETOR "LOADS" INTAKE

**C. O. M. writes:** My car is equipped with a double-jet carburetor. After starting and driving about 10 miles and attaining a speed of 15 or 18 m. p. h. I commence to miss on one or two cylinders for a few rods, and at 30 m. p. h. or more is attained, when missing ceases. This always occurs when the car is started after having stood a while, whether the engine has been run or not. What do you think causes this?  
**Answer:** It may be that the carburetor float level is too high, due to improper float stem adjustment or slight "looseness" of the float, so that after standing some time, the overflow the low-speed jet and collects in the air passages. This would cause an over-rich mixture just after starting, perhaps fouling the plug temporarily and causing misfires. You might not notice occasional misses, while going through the lower gears, but they are apparent when you attain a high gear, causing as soon as excess fuel has been fitted into the cylinder. The fuel level should not be higher than 11/16 in. below the edge of the bowl.

mutator and not emery cloth, as emery is likely to embed in the copper and destroy the contact of the brushes. We suggest that you clean the commutator very thoroughly with sandpaper, using a set of brushes furnished by the maker of the generator, see that they are properly fitted and have the right pressure and make sure that no oil reaches the commutator surface.

## The Joy of Succeeding

Seldom can greater satisfaction come to a man than that which accompanies personal achievement. The joy of succeeding usually belongs to the man who utilizes his time, his energy and his money to the best advantage. Thrift in any form aids accomplishment. An account with us is of inestimable assistance to any one who is striving to conserve funds with which to meet future opportunities.

**THE RISE IN LIBERTY BONDS**

The rise in Liberty bond issues to par or higher several days ago is highly important as proof that the country, economically speaking, is rapidly nearing that state of industrial and business normalcy for which everyone has been hoping. As because on the shores of the financial seas these securities are safe guides. The general improvement in business that has taken place is indicated by their steady rise in the market from the considerable discount at which they were traded in only several months ago. The history of former government bond issues is sound basis for the belief that all of these securities will ere long be selling at substantial premiums. All of which means that the purchasing power of the dollar is becoming greater than for several years past.

It was said in the darker days that the war bonds were absolutely safe investments, as to principal and interest both. Truth never was more absolute. Current quotations speak convincingly. Every coupon has been cashed when due. There will be 100 cents paid by the treasury for every dollar's worth of bonds at their maturity. But in the interval between issue and redemption these bonds like every other reliable thing, take their chance with the market that is made according to the laws of supply and demand.

Those who felt compelled to sell Liberty bonds in an unfavorable season, unfavorable because "everybody else" also wanted to sell and the dollar was exchangeable for less of consumable goods than it is normally, lost money on them. Those who keep their bonds may make a profit with the reversal of conditions. But all are certain to come out "whole" if they retain their trust.

**POWER OF PUBLIC OPINION**

The Dyer anti-lynching bill now before congress had its origin in public opinion which condemns mob rule, whatever the name that incites it. There appears to be a strong possibility that the senate will reject the bill, already passed by the house, because of a belief that the supreme court would rule it unconstitutional. Such action by the senate would be regrettable. An adverse decision by the highest court might be accompanied by an opinion indicating modifications which would make an anti-lynching bill appeal-proof. In any case, there would be great moral gain from congressional recognition of public opinion against mob law.

This bill signifies in concrete form the detestation of the great mass of Americans for the crime of lynching and their determined purpose to eradicate it so far as may be done by statute. For the states which oppose the Dyer bill as a measure whose effect would be to destroy state rights, the popular movement which the legislation represents should be a warning. The exercise of the police power would not have been reserved to the states in the manner it is but for the conviction that these sovereign organizations would employ it justly and zealously protect the rights of all individuals over whom they have jurisdiction.

States that do not commonly offend in the matter of lynching are as concerned for the preservation of their rights as are those which have brought disgrace upon the country. The significant thing is that in public opinion the necessity of curbing the mob spirit transcends the importance of preserv-

**C. C. Moore of St. Anthony**

Candidate for the Republican Nomination for Governor

ing the constitutional police powers of the states.

This is the point for them to ponder profoundly and to act on appropriately. For there can be no denying that due to changes of popular sentiment, there is a growing tendency toward centralization of government. The general sentiment for the anti-lynching bill is but a symptom of it. The states have lost a great deal of their original powers simply through the demonstration that their retention of it was contrary to the common welfare.

There is So Much to Be Gained. No way has been found for making freedom easy, even for the scholar. Labor, from labor, is for him. The world was created as an end-to-itself; the atoms of which it is made are opportunities. Read the performance of Bentley, of Gibbon, of Cuvier, of Geoffrey Saint-Hilaire, Laplace, "the old world territory" said Cecil of Sir Walter Raleigh. These few words are and bite and lash us when we are frivolous. Let us get out of the way of their blows by making them true to ourselves. There is so much to be done that we ought to begin quickly to beat ourselves. This day-labor of ours, we confess, has hitherto a certain emblematic air, like the annual plowing and sowing of the emperor of China. Let us make it in some way. Let the scholar measure his valor by his power to come with intellectual giants. Leave others to count votes and calculate stocks.—Emerson.

What is useless to you may be valuable to others — advertise it in the classified columns.

**TARIFF ACTION MUST BE FIRST, SAYS PRESIDENT**

Plan to Sidetrack It for Soldiers' Bonus Legislation Not Popular with Leaders in Confidence of Executive

WASHINGTON.—(P)—Senate-republican leaders who are opposed to the plan of Chairman McCumber of the finance committee to sidetrack the tariff bill for the soldiers' bonus have the support of President Harding. The executive, it was stated officially Tuesday at the White House, regards tariff legislation as most important and worthy of the undivided attention of the senate.

Plans for consideration of the bonus still are very indefinite, but they may take shape after the return here on Wednesday of Senator Lodge of Massachusetts, the republican leader, who has been campaigning in his home state.

Some leaders desire that a party conference pass upon the question of the right of way as between the two bills, but should such a conference be called Senator McCumber and other proponents of the bonus are expected to make a fight against delaying senate action on that measure until the tariff bill has been disposed of. Senator McCumber has given notice that he will call up the bill in the near

future. He has not yet fixed upon a definite date.

**May Be Called Up Soon**

Some leaders said Tuesday there was a probability that the bill would be called up the latter part of next week or early in the week following unless agreement was reached in party conference to defer action. Meantime, subsequent proposals for the amended bonus bill are being put forward. The latest was offered Tuesday by Senator McCumber's colleague, Senator Ladd, republican, North Dakota.

It would provide for a cash bonus to the soldiers to be paid by the issue of \$2,500,000,000 or less of legal tender treasury notes to be retired over a period of 25 years out of proceeds from

special taxes on banks and interest received from foreign indebtedness.

**World Tax Banks**

Senator Ladd's plan contemplates a tax on all banking institutions having a capital stock of \$100,000 or more equal to fifty per cent of the profit in excess of 12 per cent and all other taxes. Should these taxes and the interest on the foreign debt be insufficient to pay the annual refunding instalments on the legal tender issued to the veterans, the deficiency would be made up out of the federal treasury.

Explaining his amendment, Senator Ladd said in a formal statement that few would contend that in the light of present economic conditions, banks should make a profit greater than 12 per cent. He argued that this plan

would cause no inflation of credits and contended that in this manner the soldiers could be paid at little expense to the government. Characterizing the certificate plan of the McCumber bill as little more than a "broad bill" for the veterans, Senator Ladd said they had "asked for meat and have been given a stone."

An Compensation Measure  
The bonus got into the senate Tuesday, Senator Knicker, democrat, Wyoming, delivering a prepared address in favor of compensation and urging that the Smith-McNary reclamation bill be attached to the bonus measure as a land settlement option.

# GIANT PROJECT IS WAITING ON PETITIONS HERE

### Review of Situation Shows the Signatures of West End Landowners Will Make Possible Action on Big Dam

With approximately 32,000 acres out of the 200,000 acres of land under the Twin Falls canal system, about 20,000 acres less than the required 35 per cent, represented by owners' signatures on petitions for creation of the Snake River irrigation improvement district, it remains only to complete the circulation of the petitions in the west end of the Twin Falls district to put the proposition on a footing where immediate action may be taken by the entire Snake river valley toward construction of the American Falls dam.

This was the situation as it was disclosed at a meeting here Tuesday night, the directors of the Twin Falls canal company, at which Harry Dibble of American Falls, project manager for the United States reclamation service, was present.

### Work Finished Elsewhere

Mr. Dibble told the directors that circulation of the petitions for formation of the big district had been completed throughout the region to be included in it except in the Twin Falls district. As soon as circulation of the petitions is completed here, Mr. Dibble said, arrangements will be made for a hearing before the commissioners of Twin Falls county preliminary to their issuance of a call for the election to create the district, and the movement for building of the American Falls dam will be fairly launched.

### Canvassers of the Petitions Returned by the Canal Company Directors, showed completion of the work in the district each from Twin Falls, with more than the requisite number of signatures and amount of land represented.

### Farm Work Causes Delay

It remains to complete the circulation of the petitions in the Elmer, Dahl and Cassford districts, constituting the big end of the tract, from which returns have been secured. It is understood, sentiment is largely in favor of the proposal. Claims of active farming operations upon the time and attention of the landholders of the west end have delayed the circulation of petitions up to the present time.

## AT THE HOTELS

**PERLINE**—Mr. and Mrs. Holloway; George Bannett, Dr. M. F. Bratten, Hollister; Mrs. J. M. Bratton, Hollister; Frank Reber, Ogden; G. F. Colt and wife, Denver; H. B. Vincent, Salt Lake; W. D. MacLean, Salt Lake; H. A. Gardner, Salt Lake; W. T. Fry, Jefferson, Wis.; A. A. Dibble, American Falls; E. W. Sanderson, Washington, D. C.; G. A. Robinson; Soren Anderson, Butte; John S. Coddling and wife; C. E. Dillard, Buhl; Arthur O. Tracy, Boise; John W. Channingham, Portland; Mr. and Mrs. A. C. Duanan, Salt Lake; H. W. Trefer, Thama, Okla.

Ozley, Shoshone; Byron Hunter, Moscow; W. E. Schmidt, Payette; L. A. Larson, Moscow.

### Valuable Tablecloth

Guests at a formal dinner once given by Mrs. Andrew Carnegie in New York were surprised when, after the last course, the butler placed a small, unassuming tablecloth on the table, requesting that every one write his name beside his plate, says the Despatcher. Afterward, explained Mrs. Carnegie, the cloth would be carefully removed and given to an embroiderer who would "do" the signatures in gold thread. Many famous names were already embroidered at each place—Thomas Edison, John Burroughs, Philip Gilbert. The cloth formed an interesting souvenir of guests who had been bread at this famous hostess' table.

### Had Fondness for Medicine

There is a record of Samuel Jackson, who died in 1817 at the age of sixty-five years, as being a "good fortune, notwithstanding a most inordinate craving for physic." In twenty-one years this remarkable man took 220,534 pills, annually increasing the dose until 1810, when he was swallowing 78 pills per day. His record appears to have been 1814, when he took 31,000 pills. "The notice concludes, "Notwithstanding this and the addition of 40,000 bottles of mixtures and Jalaps and electuaries, extending altogether to fifty-five closely written columns of an apothecary's bill of 65 years.—London Times.

## Husband and Wife in Senate Race

Mr. and Mrs. J. H. Ferguson and their daughters

James H. Ferguson, impeached several years ago as governor of Texas, on the charge of "juggling" state funds in a candidate for the U. S. senate. His wife also is a candidate in the first time in American history such political race has occurred. They both seek the seat of Charles A. Culberson, senior senator from Texas. The constitution of the state of Texas provides that no husband and wife shall ever hold public office again. If Ferguson should be elected the legal aspect of the case will raise many complications.

## HOME GIRLS AT PAYETTE CAMP

### Twin Falls is Represented at Annual Y. W. C. A. Outing Conference

Twin Falls is represented at the Y. W. C. A. summer camp-conference at Payette Lake which opened last evening to continue 30 days, by nine high school girls who are members of the Blue Triangle club and two junior high school members of the Junior B's, with Miss Marian Barnes, a teacher of the high school faculty. The triangle club girls of the delegation which left here Monday evening were Mabel Della, Uva Stafford, Bev Duke, Ireta Field, Nina Howard, Valene Rowberry, Mary Newman and Orpha Markle. The Junior B's representatives were Peggy Wall and Barbara Noble.

### No "Hot-House Flowers"

The camp will be attended by girls of the Y. W. C. A. in Idaho and Eastern Oregon. Leaders of the camp have mapped out a program, the more thought of which might bring aye to the heart of the healthy girl who is staying at home, although it is certainly no program, they say, for her sister, the "hot-house flower." Appetites should be whetted by the dip in the lake in the morning before breakfast, which is scheduled for 7:30. At 9:30, after the respective camps have been put to order, comes the flag raising exercises, with devotion and Bible discussion following. The dinner diet will begin at 12:30 and the afternoon will be spent by hiking, swimming, rowing and other sports. Flag lowering exercises are held after supper. At 10 o'clock "the lights out" order must be obeyed. The Twin Falls girls expect to return June 24 or 25.

### The Carjole

In Norway they still use a peculiar kind of carriage, called the carjole. It is drawn by one horse, usually a very slow one. The carriage is slung much like a spoon on wheels. You take your seat in the bowl of the "spoon," where there is just room enough to hold you. Your legs stretch straight out along the "handle," somewhat as they might in a canoe. The end of the handle turns up, and against this you brace your feet. If you do not care to drive yourself, there is always a small child who will do it for you, seated perched somewhere outside. The harness of the carjole is usually composed mostly of rope, but you arrive at your destination, quite satisfied with the equipment, drive, yourself and the appearance you make seated in it!

## Social Notes

Edited by Mrs. E. B. Williams Telephone 396.

The annual children's party given by the Order of the Eastern Star Tuesday afternoon was one of the most delightful of the season. A short program was given consisting of a group of songs by Mrs. Frank Krogstad, several recitations by some of the children, a recitation by Virginia Stiller, an instrumental number by Mildred Lehner and a fancy dance by little Josephine Kalm in costume. A fish pond addition to the pleasure of the afternoon, and antics were enjoyed. At the close of the afternoon refreshments were served. About seventy children with several of the mothers were in attendance. The committee for this event was Mrs. J. Paul Johnston, chairman, Mrs. H. E. Rinehart, Mrs. J. B. Williams, Mrs. Dickinson and Mrs. Dorothy Levy.

The regular meeting of the Business Woman's club was held Monday evening with the president, Mrs. Cora Orouso presiding. On Tuesday twenty members of the organization enjoyed a catered luncheon in the club rooms. These luncheons are to be given every Tuesday at the noon hour. During the meeting announcement of committees was made, and plans for the summer were discussed. It was decided to rent a cottage in the Wood River country where members may go to spend their vacation. Plans were also devised for publicity for Idaho at the Business Woman's convention to be held at Chattanooga, Tenn., the latter part of this month.

Mr. and Mrs. Charles O. Rulon and daughter, Elsie, of Salt Lake, are guests at the home of Mr. and Mrs. E. Johnson. On Sunday evening Mr. and Mrs. Johnson entertained in their honor. Monday evening they were dinner guests at the home of Mr. and Mrs. Homer Bonbrake. Tuesday evening Mr. and Mrs. D. Cavanaugh gave a dinner for a number of guests complimentary to these Salt Lake visitors.

Miss Viola Evans entertained the King's Daughters Monday evening. Singing and a general social time was enjoyed. About 18 members were in attendance and dainty refreshments were served at the close of the evening.

### NOTICE TO CREDITORS

The First National Bank, located at Kimberly, in the State of Idaho, is closing its affairs. All note holders and other creditors of the association are therefore hereby notified to present their notes and other claims for payment.

L. H. WALDEN, Cashier. Dated June 1, 1922.

If your property is desirable and is advertised in this classified you'll find your buyer.

## LABOR OPENS UP FIRST ATTACK ON CHIEF EXECUTIVE

### American Federation Goes on Record as Opposed to Ship Subsidy Bill Coincident with Harding's Strong Approval

CINCINNATI, (AP)—Unqualified condemnation of the ship subsidy bill was voted unanimously by the delegates at the American Federation of Labor convention Tuesday, almost simultaneously with President Harding's despatch of a letter asking congress to pass the measure under threat of an extra session. The convention also voted to send a protest against the passage of the bill to the senate and house leaders.

The bill was termed by the resolution adopted by the convention as a "cunningly devised scheme to enrich certain classes of so-called American ship owners at the expense of the truly American seaman and also to provide patronage which is certain to be used for purely political purposes." The resolution concluded with the statement that the bill was "condemned as inimical to the public interest, and particularly destructive to the nation's hopes for sea power."

### Action First Attack

The first attack on the Harding administration, which it was indicated by the federation's executive council report, would be the brunt of other attacks during the two-weeks convention. All other matters were laid aside for considering the shipping bill, but the only floor discussion that came while the measure had the right of way was from Andrew Furness, president of the Seaman's union.

While the action on the shipping bill was the outstanding development of the convention, interest among the delegates was centered in the first election for a contest of membership on the federation's executive council.

### Candidate Announced

Joseph A. Franklin, president of the Tolbramers' union, announced his candidacy for treasurer, opposing Daniel Tobin, president of the Tenaster's union, who is a candidate for re-election.

Mr. Franklin's announcement was made after a meeting of the chief of seven rail unions, which control the most one-third of the convention vote, and his candidacy was regarded as a movement to give the rail organizations a representative on the council.

### Tokyo's Broadway

The Orient is Tokyo's most interesting thoroughfare, though it is just beginning to emerge architecturally. It now suggests a fringe of lower Broadway in the late '20s. It has an up-to-date tramcar line and the first link in the sewage system of the town is nearing completion. The need of a sewage system, by the way, is beginning to arouse the Japanese, although it is frowned upon by some of the ancients, who assert that Japan has worried along for a couple of thousand years without one and that there is nothing to worry about. The prevailing sewerage system perpetuates the cesspool idea, which is safeguarded as such as circumstances permit.

## BUSINESS NOW CHIEF MISSION

### Shriners at San Francisco Prepare for Election of New Imperial Potentate

SAN FRANCISCO, (AP)—The imperial council of the Ancient Arabic Order of Nobles of the Mystic Shrine got down to business Tuesday after the grand opening parade to escort the imperial divan to the council chamber.

Reading the report of Imperial Potentate Ernest Allen Cutts, of Savannah, Ga., occupied most of the afternoon session, the morning being largely given over to speeches of welcome. The race is generally considered to be between John Foucaud of Alhambra temple, Chattanooga, Tenn., and Earl Mills of St-On-21st temple of Des Moines, Iowa. They are just past contestants of their temple.

### New Chapters Applied For

Washington so far is the chief applicant for the privilege of having the imperial council meet within its gates. The selection of the next meeting place will be made Thursday. Shriners in nine cities have applied for charters for temples.

### Keeping One's Head Clear

Here's a very childish plan that works—a plan that keeps your head clear during any readjustment. Merely make up your mind that all the big news items are not to be read. The favorite Air Ballon, owned by A. R. Cox, was turned my proxy over to the All-Wise—I haven't sense enough to vote on these current issues anyway. Get one thing clearly in mind, namely that nothing is happening by chance. Nothing takes place now is accidental. Somewhere there is a big scheme and I'm in it and is working it out. Somewhere there is a head, after that line, who knows his business. You have no idea how coming to this simple conclusion straightens everything out. Try it and you feel blood pressure go down.—Homer McCrete, in Forbes Magazine.

### Changes Mate to Female

Changing a male animal into a female has been accomplished. Mate new's fresh water animals that resemble salamanders, have been placed on a starvation diet one spring, fed well the next, and then they have become females. This has been discovered by Christian Chenuy, French biologist. He started male newts during the period of their greatest sexual activity. They acquired female characteristics, such as coloration and behavior. The following spring the newts were plentifully supplied with food, and it was found that their male internal organs had changed to a female-like structure which contained true egg cells. Nature makes this startling transformation, it is believed, because of her desire to provide greater chance of perpetuating the animal when times for it are hard.—Science Service.

What is useless to you may be valuable to others—advertise it in the classified columns.

## SPORTS DOES REMARKABLE WORK

### Welsmuller of Illinois Athlete Club Smashes Four World's Swimming Records

KAILUIHI, Island of Maui, T. H. (AP)—Johnny Welsmuller, of the Illinois Athletic Club, Chicago, smashed four world's records here Tuesday in a tank handily race. This is what the paddling marvel from the east did: Covered 400 yards in four minutes, 40.25 seconds, or 14 seconds faster than the previous record mark; cut the time for 100 meters from five minutes, 14.25 seconds to five minutes, 8.15 seconds; set a new mark for 500 yards of five minutes, 10 seconds; shaved the 500 meter time from five minutes, 50.25 seconds to five minutes, 52 seconds.

### FREEBOOTERS TAKE GAME

### Independent Team Springs Surprise by Win Over Camp Lewis by Score of 5 to 3

BOISE, (AP)—Hosted by the addition of Captains King and Veigt, of Camp Russell, Tuesday, the Independent "Red" Freebooter team sprung a surprise with a 5 to 3 victory over the "Pink" field artillery quartet of Camp Lewis.

By their win Tuesday afternoon, the Freebooters tied with the Thirteenth cavalry, winners of the runners-up trophy for the final round-robin contest.

### ASCOT STAKES WON

ASCOT HEATH, England, (AP)—The Ascot stakes, principal event of the day of the "Royal of the Ascot meet," was won by G. E. D. Langley's four-year-old chestnut colt, Double Hackle, an eight to one shot. The favorite, Air Ballon, owned by A. R. Cox, was second, Lord Derby's Stanislaus and Sir William Cook's Davies ran a dead heat for third place.

### IS WILLING TO FIGHT

BOSTON, Mass., (AP)—Marty Killian, manager of Johnny Wilson, middleweight champion, said Tuesday that he was ready and willing to sign a legal contract to let Wilson "box any legitimate contender for his title, Harry Greb preferred.

"This," he said, "will prove to the public that Wilson is not trying to evade a meeting with Greb, light heavyweight champion of America."

### LEGAL ADVERTISEMENTS

**ALIAS SUMMONS**  
In the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls.

Mary E. Owens, Plaintiff,  
vs.  
Unknown heirs and devisees of J. H. Hicker, Jr., deceased; Mrs. J. H. Hicker, Jr., (whose given name is unknown to plaintiff) and unknown owners and claimants to Lot 2, Block 4, of Albert Tract adjoining Kimberly Township, being a portion of the Southeast Quarter, Section 10, Township 10 South, Range 18 E. B. M.

The State of Idaho sends greetings to unknown heirs and devisees of J. H. Hicker, Jr., deceased, and Mrs. J. H. Hicker, Jr., (whose given name is unknown to plaintiff), and to all persons claiming or claiming to be interested in and claimants to Lot 2, Block 4, of Albert Tract adjoining Kimberly Township, being a portion of the Southeast Quarter, Section 10, Township 10 South, Range 18 E. B. M.

you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed for in said complaint.

Said action is brought to foreclose a real estate mortgage of date January 2, 1919, made, executed and delivered by W. W. Reed and Hazel B. Reed, his wife, to L. E. Hickey and H. C. Brown, covering the South Half (8 1/2) of the Northwest Quarter (NW 1/4) of Section Five (5), Township Ten (10) South, of Range Seventeen (17) East of the Boise Meridian, together with all other rights appurtenant thereto or held in common therewith, together with the tenements, hereditaments and appurtenances thereto belonging or to any-wise attaching thereto.

Witness my hand and the seal of said District Court this 10th day of May, 1922.

C. O. SUGGINS, Clerk.  
Frank L. Sigmond, Attorney for Plaintiff, residing at Twin Falls, Idaho.

**REPAYMENT OF EXPENSES OF VILLAGE OF HAMBURG, IDAHO, FOR YEAR 1921, COMMENCING ON TUESDAY IN MAY, 1922.**

It is estimated by the Chairman and Board of Trustees of the Village of Hamburg, Idaho, that the available amount of money necessary for all purposes to be raised in said Village during the fiscal year commencing on the first Tuesday of May, A. D. 1922, will be \$2,666.00.

Notice to creditors  
Estate of Edward F. Cedarholm, deceased.

Notice is hereby given by the undersigned administratrix of the estate of Edward F. Cedarholm, deceased, to all creditors of and all persons having claims against the said deceased, to exhibit them within the necessary vouchers, within ten months after the first publication of this notice, to the said administratrix at the office of E. L. Ashton, First National Bank building, Twin Falls, County of Twin Falls, State of Idaho, this being the first place fixed for the transaction of the business of said estate.

James F. Burns, and Bridget Burns, Plaintiffs,  
vs.  
Ingvald Fonley, a widower, Burton F. Bean, and Ora Bean, his wife, and Bank of Kimberly, a corporation, Defendants.

Under and by virtue of an Order of Sale and Decree of Foreclosure, issued out of the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, Idaho, in the above entitled action, wherein James F. Burns, and Bridget Burns, the above named plaintiffs, obtained a decree against Ingvald Fonley, a widower, Burton F. Bean, and Ora Bean, his wife, and Bank of Kimberly, a corporation, defendants on the 10th day of May, 1922, which said decree was on the 10th day of May, 1922, recorded in Judgment Book Seven, at Page 351, it is commanded to sell all that certain lot, piece or parcel of real estate situated in the County of Twin Falls, State of Idaho, and bounded and described as follows, to-wit:

The NW 1/4 of the NW 1/4 of Section 23, Township 10 South, Range 18 East of the Boise Meridian, together

# SEEK TO LEAD ASSISTANCE TO RAILWAY PLANS

### Chamber of Commerce Directors Will Try to Find Out Where and How Effective Help May Be Given Project

In an effort to determine where and how assistance may be best toward construction of the railroad south from Rogerson to Wells, Nevada, at the earliest possible date, directors of the Twin Falls Chamber of Commerce at a regular monthly business session last night decided to issue a circular to Idaho-Nevada holiday company, and representatives of the Contest, Nevada, mining district, to meet with them in the near future for a review of the situation.

No statement was made by the chamber of commerce directors as to the anticipated results of the proposed meeting.

### TALK OF LEGION HOME ENGROSSSES VETERANS

Proposition Goes Over to Meeting in July with Special Attractions

Informal discussion of suggestions for building a home or club house here for American Legion members, held the center of interest at a meeting of Twin Falls veterans in the Elks hall last evening. No decision was reached and further consideration of the proposition will be held at the next meeting of the veterans, to be held July 11. At that time, A. W. Wilson, Peck, acting commander, announced, delegates will be elected from Twin Falls to the state convention of the American Legion in Idaho to be held atampa, Oregon, to be held at the same time for an entertainment program in charge of Ralph Pink and 'Cats' at the July meeting, at which all former service men and women will be welcomed.

# HATCHER BURIED BY MAYOR-ELECT

### J. D. Tucker, Guest of Legion Men, Promises Equal Consideration

Mayor-elect J. D. Tucker extended the olive branch to former service men of the American Legion when, as their guest at luncheon Tuesday at the Rogerson hotel, he said: "I am sure that it would be impossible to handle a group of citizens who voted against me as so easily as did the American Legion members, and I presume there is not a man here who cast his vote for me. That, however, is a matter of the past, and henceforward any citizen either in my office or in my office will be treated on an equal basis regardless of his political belief. If there are any former service men seeking appointments under the new administration I can assure you that they will receive the same consideration as any other citizen. They submit written applications either in my office or to Homer C. Mills, chairman of our campaign committee."

### SIMS WILL SERVE TERM

Attorney Says Former Legislator Will Return to Jefferson Club

Harold M. Sims, former Twin Falls county representative in the state legislature, who four years ago was convicted in district court here on a charge of adultery and sentenced to serve four months in the county jail, will return to serve his sentence, according to reports from Jefferson.

# ARRANGEMENTS COMPLETE FOR FLAG-DAY CEREMONY

### Boy Scouts Will Duplicate Honors Paid Daily to National Colors by Soldiers

Boy Scouts' flag day exercises here will open at 8 o'clock this morning with the hoisting of the national colors on the high school campus. The Scouts in line stand at attention, and reveille is sounded. Thereafter a short address appropriate to the occasion will be made by the Rev. A. O. Pearson, who has been substituted for Lectur. Harry J. Bennett, unable in earlier announcement of plans for the event.

### WIFE PULLS GUN AS POLICE TAKE CHARGE OF HOME

### Mrs. Herman Southard Taken In With Her Husband When Several Gallons of Moonshine Are Found on Premises

Charge of illegal possession of liquor was preferred against Mr. and Mrs. Herman Southard, 294 Fourth street, north, following their arrest Tuesday afternoon after an exciting episode at their residence in which the woman produced a revolver from a dresser drawer and warned the officers that she would not be responsible for what she did if they should "hurt my Herman."

### SPORTSMEN ASK DEPUTY'S SCALP

### Rod and Gun Men of Twin Falls District Make Hot Charges Against Laws

Charging that one of the deputy state game wardens, an individual named Laws with headquarters at Gooding, "has strutted about fishing waters wearing a big six-gun and a belt full of cartridges, and using a dog self ridiculous and the first and game department stogy and insincere," the Southern Idaho Fish and Game association, in resolutions addressed to Governor Davis and Otto M. Jones, state fish and game warden, has called for the dismissal of said Laws.

### FUNERALS

Funeral services for Charles Pawson, Twin Falls district farmer who died here Monday, will be held at 3 o'clock this afternoon at the P. J. Grossman chapel, and will be conducted by Capt. O. M. Godwin of the Salvation Army.

### ANNOUNCEMENTS

The War Mothers will meet Friday, June 16, at the country home of Mrs. Joseph W. Walker. All members who wish to attend will meet at the city park at 1:30 o'clock where cars will be provided for transportation.

# Local Brevities

Back From Moscow—Paul Dieler has returned from Moscow where he spent the past year at the University.

Here From Long Beach—Al Bradley is in the city from Long Beach, where he has recently disposed of his business interests.

Father's Illness Calls—Mrs. Frank Iken is here from Palmyra, Tenn., to visit with her father, D. C. Daugherty, during his illness.

Recovering After Operation—Lowell Nickelson, son of Mrs. M. M. Nickelson, is in the city from Palmyra, Tenn., recovering after a general operation for appendicitis which he underwent Monday night.

Here For Visit—Mrs. W. H. Johnson has arrived here from Eugene, Ore., to visit with relatives and friends for a time before continuing her trip to Spokane, Seattle and Long Beach to visit her sons. She will return to town.

Back From California—C. A. Robinson arrived here Tuesday after several days' visit in California with Mrs. Robinson and children. He will return today to Burley, where he is in charge of the affairs of a bank which has closed its doors.

Take Marriage License—Marriage licenses were issued Tuesday at the office of the county recorder here to Elmer O. Harding and Vera B. Will, both of Burley, and to George Elmond Tibble, Billings, Montana, and Nell Louise McQueen, Burley.

Home for Vacation—Dean Mickelwitz, son of Mrs. M. J. Mickelwitz, returned here from Corvallis, Ore., where he has just completed his junior year at the Oregon Agricultural college, and will spend the summer vacation here.

Will Plan Celebration—Members of the chamber of commerce Fourth of July celebration committee will meet today at luncheon at the Rogerson hotel to consider details of plans for the observance here of the nation's birthday, according to announcement last evening of Secretary N. S. Wright.

Duty Expects Visit—W. E. Meyer, dairy farmer, and Chris Johnson, jewelry manufacturing specialist, of the fish department of agriculture division stationed at Salt Lake, on trip through dairying regions of Idaho, were here Tuesday and conferred with extension division agents at the county farm bureau office.

Masons Will Travel—Officers and members of Twin Falls lodge, A. F. and A. M., have been invited by the lodge at Hollister to confer the Master Mason degree upon three candidates at a meeting of the Hollister lodge Friday night. The Twin Falls lodge evening will meet here to confer the Master Mason degree.

Reports Loss of Car—Lavern Stross, residing two and a half miles north of Twin Falls, Tuesday reported to the police the loss of his Ford touring car, which, he said, was taken from in front of the Carter residence on Fourth avenue west Monday afternoon. The car carried license No. 41-429, and motor No. 38229.

Seals Tract Detachment—Formal protest and objection of the city of Twin Falls to the application of the Keel-Wilkinson-Stromk Lumber company for detachment of a tract of land in Twin Falls from the limits of the district court here by Taylor, Cummins, city attorney. In this document the city denies that the tract in question does not receive sufficient special benefits from its location and denies that the tract can be detached without particularly marred the symmetry of the city.

### CAPTAIN GODWIN GIVEN POCATELLO ASSIGNMENT

Commander of Salvation Army Corps Here Receives Promotion and Transfer to New Field

O. M. Godwin, in charge of the Twin Falls Salvation Army corps for the past three months, Tuesday received word from Salvation Army divisional headquarters at San Francisco that he had been promoted from the rank of major captain to captain and that he had been transferred to command of the Salvation Army corps at Pocatello.

### LEADS ELKS' VANGUARD

O. P. Duvall, State Association President, Leaves for Boise Reunion

With the vanguard of Twin Falls Elks attending the first annual reunion of the Idaho State Association of the B. P. O. E. O. P. Duvall, Twin Falls county probate judge, left Tuesday for Boise, where, as president of the association, he will preside at its sessions beginning today and continuing until Thursday evening. Judge Duvall was accompanied by W. H. Dotweller of Piler. It was estimated last night that fifty 50 Twin Falls Elks would attend the reunion at Boise.

# MURPHY ELECTS TO STAND TRIAL

### Blackmail Suspect Waives Preliminary Hearing and Calls for Bail

Dawson Murphy will stand trial in district court on a charge of attempting to extort \$200 from Dr. E. R. Van Cott by means of threatening letters, according to his statement Tuesday when he was arraigned before W. H. Mallory, justice of the peace, and waived preliminary hearing. Murphy was not represented by an attorney. He was admitted to bail in the sum of \$1000 which, he said, he was confident he could furnish. He was remanded to the custody of the sheriff until bail was furnished.

Murphy's wife left Monday, attorney said, going to her parents at Roseworth, Ia. He is only 20 years of age and is the mother of a three months' old child.

Dawson was arrested one Saturday morning when he appeared in the vicinity of a livery barn on Second avenue south and took possession of Dr. Van Cott's reply to the letter, upon which the authorities base their charge against Murphy. Operatives of the sheriff's office announced soon after Murphy's arrest that he had made a complete confession.

### FIND MISSING YOUNGSTER IN BED WITH BOY FRIEND

### Don Riggs, Aged 14, Accepts Bid to Blame Party but Forgets to Tell Parents

Don Riggs, aged 14, provided the scare of this town to his parents, his father, J. P. Riggs, residing at 529 Eighth avenue east when at bedtime last night the youngster turned up missing and an hour or two of anxious waiting failed to change the situation.

It was midnight arrived and with it no tidings of the lad, the police was notified and plans laid for a general search. Before arrangements for this were completed, however, a canvass of the neighborhood began to show results and finally the young man was located in a room in the hotel of his friend in the neighborhood of about his own age, whose hospitality he had accepted without remembering to appraise his parents of the fact.

### FINAL PLANS COMPLETED FOR ELKS ANNUAL REUNION

### Two Thousand Visitors Expected at Boise When Idaho State Association Gets Under Way

BOISE, (P) —Final plans were completed Tuesday night for the opening of the first annual reunion of the Idaho state association of Elks. Two thousand visitors are expected to arrive early Wednesday morning to participate in the two days' celebration.

Seven brass bands will participate in the flag day parade, the feature of the opening day program.

Why Horse Sleep Standing. It is sometimes argued as a reason why horses sleep standing that they have an acute, instinctive fear of mice and insects. However, this argument is not conclusive. When turned out to pasture, horses are apt to spend more time lying down, but even at that they seldom spend more than an hour at night recumbent. That hour is generally taken at midnight. It is not uncommon for people to express wonder at the "quiet way" many horses will stand still, practically motionless for hours in one position. Their weight is generally on three legs, while the fourth is resting. Few people realize how complete is the relaxation obtained, and to what extent a horse is able to rest in a few hours of such repose. Stable men declare some horses have never slept, except on their feet, in their lives.

### HOME GROWN Strawberries and sweet cherries now on the market at S. J. Vance's Public Market—adv.

# It Costs You More to rot buildings than it does to let paint save them

CHECK the costs. Compare the prices of lumber and paint. They will show you how extravagant it is to allow buildings to depreciate for lack of paint.

And buildings do depreciate rapidly unless they are painted when they need to be. Paint saves the lumber. It protects your investment.

To enjoy the biggest saving in painting, use the best paint. It spreads more easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

It serves five or more years longer than "cheap" paint. The best paint is most economical because it is scientific in formula and preparation. We have been making best paints for 73 years.

They contain the finest materials. Our white lead, for instance, is PIONEER WHITE LEAD. It is super-purified and ground so fine that it will pass through a silk screen with 30,000 meshes to the square inch.

So with the other materials—pure linseed oil, pure zinc and pure color—each of the finest quality, combined in Fuller's Paint in scientifically exact proportions with long-time skill.

Free Advice on Painting
