

# REPUBLICANS AND DEMOCRATS FIGHT LEAGUE

### North Dakota Primary Will Be a Struggle for Control by the Present Administration Against Non-partisans

BISMARCK, N. D., (AP)—With party lines broken and disregarded, North Dakota is approaching its state-wide primary June 28th with the interest centered in the struggle between the present administration and the Non-Partisan League for the control of the state government. Governor R. A. Nelson, the first governor in the history of the United States to be elected in a recall campaign, is leading the combination of republicans and democrats allied against the league. The latter is marshaling its forces under the name of republican, the democratic members of the league signing up as republicans for the purposes of the primary.

#### Election Has Queer Angles

The primary is strictly a North Dakota affair. While a candidate for United States Senator is to be elected, the league and anti-league battle enters late and the selection of the senator is one of the queerest angles presented to the people of a state. Lynn J. Frieler, recalled governor, is the candidate for the non-partisan league. Porter J. McCumber is a candidate to succeed himself, and Ormsby Melfarg, of Jamestown, a former private secretary of Senator McCumber, is also a candidate.

According to political observers the primary will not give a line upon the trend of national feeling. Conditions politically they contend, are too chaotic, the party label too easily changed, for any stamp of pro or anti to be declared from the result. Something of the tangled conditions can be guessed from the fact that the names of the same men appear on petitions of candidates named for democratic and republican offices. No alignment has yet been made, this part of politics standing up one side or the other as carrying the banner of progress, immobility or reaction.

Back of these conditions trail the years in which North Dakota has been the experimental ground for economic theories, theories which needed a political party label for functioning, and still further back, are the years in which North Dakota was attempting to align herself under the progressive banner, upheld at that time by its most-native son, Theodore Roosevelt.

#### Six Elements in Campaign

Under these conditions six different elements entered into the campaign. The elements, each one paramount to some certain group or alignment, or section, follow:

- (1) Interested in the state ticket and the return of Governor R. A. Nelson to the position he has filled since November 23rd last. This element has no candidate for the senatorship.
- (2) The Non-Partisan League, with its members signing up as republicans, its ticket headed by former governor Prader as candidate for United States Senator, and with a complete state ticket, headed by B. F. Baker of Oelburn, a farmer, for governor.
- (3) Democrats, supporting J. F. T. O'Connor for United States Senator and a complete state ticket.
- (4) Porter J. McCumber, senator ardently supported by former stalwarts

#### Italian Nobleman at Labor Meeting

The only titled union man to attend the American Federation of Labor Convention at Cincinnati, Ohio, was Chevalier Donnicio d'Allesandro. He is president of the National Hod Carriers' and Building Laborers' Union and was knighted by the king of Italy for breaking up the Italian "passions" system under which Italian laborers were held practically in Spangone, in America.

### Woman Candidate For Supreme Bench

Judge Florence E. Allen

Judge Florence E. Allen of Cleveland, O., has announced her candidacy for the nomination for the supreme court of Ohio. Judge Allen, who was the

first woman to be elected to the common pleas court in Ohio, is also the first woman candidate for the supreme court.

### PUBLIC LIBRARIES REACH BUT HALF OF POPULATION

#### Annual Conference at Detroit Will Take Up Discussion of This Problem

DETROIT, (AP)—Half the population of the United States virtually is beyond the reach of public libraries, according to officials of the American Library Association, and it was stated that this problem would be given special attention at the forty-fourth annual conference of the library body here June 26-July 1.

An exhibit of county library activities in various parts of the United States is being assembled by a special committee. It will represent the work of the county libraries in Minnesota, Texas, Indiana, New Jersey, Ohio, California, Maryland and Michigan.

Pictures and maps showing the progress of the work and special phases of it developed in different regions, lantern slides and descriptive folders are being arranged. California, where library work is highly developed, will be represented by 100 photographs. Texas will be represented by photographs and by a large map of Cook county showing in detail how the county is organized to make books reach every home in that territory.

#### Map in Preparation

A map of the United States is being prepared which will show which states have library laws which permit the establishment of libraries in the counties. A top village, a model of a library center, will show in graphic form how neighborhoods gather to borrow books. Asaiah B. Root of Oberlin College, president of the American Library Association, will give a radio talk on county libraries in the United States.

#### Gossip

A traveled friend has observed how differently the horses of different lands urge on their steeds. The British click their tongues; the Norwegians make a sound like a hiss; the Arabs call a horse "ee" and the Neapolitan coachman barks like a dog.

But Only One is Happy. The Histrionic Patriot seems to doubt the truth of a certain old saying. It remarks: "The only two who can live together as children are a sea and a dog."—Boston Transcript.

The Novel is read by the permanent carrying classes.

### ADVERTISING IS AID TO CHURCH

#### Publishers Give Views as to the Benefit Accruing From Publicity

MILWAUKEE, (AP)—Views of editors and publishers on the value of church advertising were read before the convention of the Associated Advertising Clubs of the World here last week by the Rev. J. T. Brabner Smith of Chicago, of the division of publicity, Committee on Conservation and Advancement of the Council of Board and Benevolence of the Methodist Episcopal church.

The expressions were received in reply to a letter sent to publishers and editors asking for a statement of the advantage and values of church advertising. It was stated: Following are abstracts from some of the statements read by the Rev. Mr. Smith: The Times-Picayune, New Orleans, La., managers: "For many years the newspaper of New Orleans have given from two to four columns each week to free church notices. Within the last two years some of the churches have bought advertising space. Churches using display space have found it a good investment, I am told by the pastors."

#### Has Good Effect

The Indianapolis Star, managing editor: "First and most obvious is the effect in stimulating attendance. This result is too well attested by experience to be regarded as any longer a matter of experiment."

Cincinnati Times-Star, managing editor: "The church today, as always, requires direct advertising of its work. My experience has been that the militant church, with its modern methods of getting men and women within its portals, is the one which is doing the greatest amount of good in its community. The great factor in the campaigns of such institutions is advertising, newspaper advertising, that will reach into the home."

The World-Herald, Omaha, Neb., advertising manager: "It is our opinion that the ministers of the various churches are convinced of the value of newspaper advertising, in view of their efforts to obtain free publicity."

#### HAS LENGTHY RECORD

CLEVELAND, (AP)—George Wallace, more than 74 years old and who is reputed to be the oldest fire chief in the United States, has just celebrated his fifty-fourth year as a Cleveland fireman. On the last day of his fifty-third year, Chief Wallace personally answered nearly half of twenty-one alarms that came in on that date.

#### Vacied Heartstrings

The very gambliest and hardest of hearts has some musical strings in it; but they are tuned differently in every one of us.—Lovel.

### ARMY AVIATORS LOOK FOR LANDING FIELDS

Few Suitable Sites and Little Interest in Subject, Fought by Flyers in the Northwest

BOISE—Boise is minus any suitable place for an aviation field, as are most of the cities and towns in the west, according to Captain Lowell Smith of San Francisco, who arrived by air from Mountain Home Tuesday. Studying the possibilities of governmental landing fields and making maps and photographs is occupying Captain Smith's time while he travels from place to place in the high-powered army biplane. He is accompanied by Engr. William D. Whitefield, also of San Francisco. They left Idaho Falls Tuesday morning, and after visiting Blackfoot, Pocatello, Twin Falls and Mountain Home, they landed in Boise at 5:30 p. m.

Leaving San Francisco on this trip, the two fliers flew as far east as Cheyenne, and after going over Wyoming and Montana, they came into Idaho Tuesday.

Washington and Oregon will be the last states covered before they go back across the California line and to San Francisco, Captain Smith said.

Most of the towns visited go without any sort of field upon which a field, and only when a plane drops on them from nowhere in particular do they show interest in the things above the earth.

Little Room for Criticism. There are so many joy walkers and so many joy drivers that it hardly behooves any driver to talk about joy walkers, or any walker to mention joy drivers.—Seattle Post-Intelligencer.

## How Long Could a Man Live on Meat Alone?

Not very long, to be sure, and if he did he wouldn't be much good for work.

A cow would live for a long time on hay alone, but as a milk producer she wouldn't be worth much. It takes a balanced ration to produce energy and promote health and strength in man or beast.

A dairy cow requires succulent feed the year around, together with dry feed, to manufacture and deliver a maximum of milk and butterfat. The most succulent of all milk-producing feeds is

## Silage

A valuable and interesting booklet has just been prepared by the Boise Payette Lumber Company, which not only tells about the best silo obtainable but gives many pages of information regarding the growing of crops for silage, how to fill a silo and how to feed silage. This 40-page booklet, entitled "From the Forest to Your Farm," is FREE. Fill out the coupon today and mail it for a copy.

# Studebaker

STUDEBAKER builds more six-cylinder cars than any other manufacturer because Studebaker builds them better. We can show you 84 definite points of superiority in the Special-Six over Studebaker's nearest competitor.

In times of close competition, merit wins. Today competition in automobiles is keener than ever was, because people are buying more carefully than ever. Studebaker increased its sales 29% in 1921, though the industry, as a whole, showed a falling off of nearly 45%. 1922, up to May let, shows a gain in Studebaker production of 143% over the same period of 1921.

Studebaker sales records tell their own story. The buying public has declared for Studebaker superiority.

# SUN YAT SEN IS STILL FACTOR IN CHINESE AFFAIRS

## Captured Leader Held on Cruiser Near Former Seat of Government, to be Invited to Canton

PEKING, (AP)—President Li Yuan-Hung Wednesday declared that he was prepared to invite Sun Yat-sen, former president of the South China republic, who has been taken prisoner by United China forces, to come to Peking to help in the reunification and reconstruction of the country.

Advised received by the foreign legations here from Canton that Sun's capture and said he was being held on the Chinese cruiser Hsueh in the West river near Canton.

President Li said: "Sun Yat-sen once declared that he intended to tour foreign countries as soon as constitutional government was restored in China. That object has been attained and the time has come for Sun to start. If he cannot realize his purpose, I will welcome him to Peking. I see no reason why he should not do so at the same table with me and discuss China's future."

We shall expect the president declared that he had offered the premiership to Wu Ting-fang, but that he had received no reply so far.

He asserted that China, with the prospect of the old republican parliament convening, now has before her the greatest opportunity since the republic was founded.

So far as Peking is concerned, the Canton government is at an end. The fall of the southern government, according to President Li, was due to the increasing desire of Southwest China for unification and end of civil strife. The chief executive said that the provinces of Szechuan, Hunan, Kweichow, Kiangsi and Yunnan had been inclined to renounce with the north but had been prevented from carrying out their purpose by Sun Yat-sen.

RECAPTURE LOOKED FOR. SHANG HAI, (AP)—Sun Yat-sen's supporters here declare that he intends to recapture Canton.

The defeated southern leader is said to have recalled his troops from the north, where they were engaged in the invasion of Kiangsi province. Those troops Sun intends to use in his drive against General Chen Chiang-ming, his former supporter and the man who executed the coup d'etat that resulted in the downfall of the Canton government.

Sun's troops are reported as seeking strategic positions surrounding Canton.

In preparation for the attack on General Chen, refugees from Canton continue to pour into Hong Kong, according to advices from that point.

(The foregoing dispatch evidently was filed at Shanghai before receipt of the report that Sun Yat-sen had been captured.)

## STATUTE OF LIMITATIONS SAVES HEAVY RESTITUTION

### Former President of Defunct Chicago Bank Released from Liability

SPRINGFIELD, Ill. (AP)—Cornelius K. G. Billings, former president and director of the Home Savings Bank of Chicago, which closed its doors December 18, 1905, owing depositors \$200,000, was Wednesday saved from the necessity of restitution by the statute of limitations.

Without directly passing on his liability as a director, the court, in an opinion written by Justice Dunn held that the action brought by Abraham Becker, stockholder, 12 years after the bank failed, was barred by the statute of limitations in Billings' case as well as in the case of other bank directors.

A former ruling of the supreme court held, Billings' liable.

## VIOLATORS OF FEDERAL BIRD LAWS CONVICTED AND FINED

Among the convictions obtained by the United States department of agriculture during May for violation of the migratory-bird treaty act in Illinois, involving the killing of a gull, fine \$25 and costs; 1 in Virginia, involving the sale of a heron, fine \$25; 3 in Kentucky, involving the hunting of ducks from a motor boat, fine \$25 each and costs; 2 in Florida, involving possession of ducks in closed season, \$23 each; 2 in Oregon, involving the hunting of ducks after sunset, fine \$25 each; 1 in Oregon, involving the killing of a band-tailed pigeon, fine \$25; 2 in Arkansas, involving the sale of ducks, \$20 each; 1 in Florida, involving the killing of ducks in closed season, fine \$20; 1 in Virginia, involving the sale of ducks, fine \$100, and 1 in Louisiana, involving the sale of ducks, fine \$100.

## WISCONSIN HAS ONE-FOURTH OF COW-TESTING ASSOCIATIONS

The 115 cow-testing associations in Wisconsin, kept in operation with the assistance of county agents and specialists employed co-operatively by the United States Department of Agriculture and the State Agricultural College, equal almost one-fourth of all the associations of the country. Twelve of these associations have been organized since December 1, 1921, and the number in the state now numbers about 3,800 farmers owning 55,000 cows.

The aims of the associations have been to weed out unprofitable cows and to feed the animals balanced rations for maximum milk production. Records of the associations show the value of high-grade cows and purchased since last year 335 purebred bulls were purchased by the associations and 83 scrub bulls replaced by purebreds in 69 associations.

## Marconi Got No Signals From Mars

Marconi and his wife.

Before he reached New York on his yacht Eletta, on which he has been conducting wireless experiments, Guglielmo Marconi, inventor of wireless telephony and telegraphy, was pleased that he had received no signals from

Mars. Mr. Marconi last winter picked up a signal on a 150,000-meter wavelength, and he figured it might have come from one of the planets, since no wavelength ever employed on this hemisphere ever approximated such a figure.

an amendment covering the reduction would have to be re-written before it would be acceptable to the house delegation. Several members of the conference felt, however, that another day or two would result in an agreement on that feature.

## HOUSE AND SENATE RAISE REGULAR ARMY PERSONNEL

### Agree to Increase in Maximum Strength from 11,000 to 12,000 Officers

WASHINGTON, (AP)—House and senate conferees on the army appropriation bill agreed late Wednesday on a maximum of 12,000 officers as the permanent strength for the army for the next 12 months. The house had provided for only 11,000 while the senate amended the bill to provide an average of 12,500 for the coming year.

The agreement leaves no question of importance to be decided, the committee already having settled on an enlisted strength of 125,000 for the next year. Methods of reducing the number of officers from the present number of more than 15,000 to that prescribed by the bill have proved a stumbling block and it was said after Wednesday's meeting that in all probability the sen-

## "BOPE OF TAILS" TESTIFIES TO WORK AGAINST RODENTS

A rope made of 3,000 gopher (ground squirrel) tails was recently on display at the office of the Montana Extension Director, awaiting shipment to the Biological Survey of the United States Department of Agriculture. The rope was made by the Blackfoot Indian chief, Spilt-Tail, and his tribal assistants, who live near Browning, in Glacier county, Mont. The Indians have taken an active interest in the campaign against the rodents, and after buying more than 1,400 ground squirrels, decided to save tails for the 10-foot rope now on exhibition. It is estimated that at least 15,000 rodents were destroyed by the Indians during the drive.

## LOWER PRICES FOR VARIOUS ROADS MATERIALS REPORTED

A considerably lower level of prices for the various items entering into highway construction is reported by the bureau of public roads of the United States department of agriculture. This conclusion is based on the following prices by successful bidders on federal aid roads during April and are averaged for the whole of the United States. Some of the figures cover a large volume of work well distributed over the country, while others are based either on small volumes or scattering reports.

The figures which cover the cost in place are as follows: Earth excavation, common, 23 cents a cubic yard; excavation, \$1.25 a cubic yard; gravel, \$1.44 a cubic yard; sand-clay, 45 cents a cubic yard; crushed stone, \$3.42 a cubic yard; structural concrete of various classes ranges from \$14 to \$21.20 a cubic yard. For surfacing the following are the prices by the square yard: Gravel, 40 cents; surface-treated macadam, 50 cents; bituminous macadam, \$1.05; bituminous concrete, \$1.97; plain cement concrete, \$2.17; reinforced cement concrete, \$2.54; and brick \$2.70. Reinforcing steel has cost \$0.50 a pound. Cement has been furnished to contractors by the following states at the prices given by the barrel: New York, \$1.73; Wisconsin, \$1.94, and Arkansas \$2.70.

## Dwindling Row.

The population of the islands of the Marquesas group is dwindling very perceptibly. Thirty years ago the total was 80,000, whereas today it is but 2,500. By some it is claimed that the race commenced to decline as soon as the missionaries taught the natives to wear clothes. Tuberculosis, which had been unknown before at once commenced its ravages.

Paste. A paste effective for mending fine china can be made by dampening rice flour with cold water and stirring it gently on the back of the stove until it becomes quite thick. Since the paste is white, it scarcely shows in mending.  
Have an idea. Adv.—Wanted, an experienced designer to design latest designs for carpets for carpet factories. A "trite" vague, but we think we understand what's wanted.—Houston Transcript.

## LAST ARGUMENT FOR BABE RUTH

### Champion Slugger in Apologetic Frame of Mind Following His Latest Outburst

CLEVELAND, (AP)—Babe Ruth has been hushed from the game for the last time for arguing with an umpire, especially over a decision rendered against another player, the champion home run slugger declared here Wednesday.

Previous to Wednesday's game between New York and Cleveland, Ruth walked into the umpire's room at Dunn field and made that announcement to Umpires Bill Dineen and Dick Mallin. Both is under suspension for five days, three for arguing with Umpire Dineen over a decision rendered in Monday's game, for which he was ejected, and two for an argument with Dineen yesterday over his first suspension.

When he entered the room, Ruth was not in the least antagonistic nor was he excited. If anything he appeared repentant but he offered no apology. "Bill, do you think I'm hitting a square deal?" Both asked Dineen, as he sat on a table. He had just finished practicing with his team.

"I have nothing to do with that at all," Dineen replied.

"When a fellow is down and out, it seems to be a case of holding him down," Ruth stated.

Last Time for Babe  
"Well, you can't hit it the last time I ever will be suspended for wrangling with an umpire. In the future I will keep out of the arguments, especially if they interest another player."  
"I do not regret being out of the game because of the money it costs me. I really don't need the money, but I do love to play baseball. For that reason I hurt when I can't get into the game."  
"Another thing that hurts is the criticism. Some persons are saying that I welcome the suspension because it gives me an ability for not equaling my home run record of last year. That is ridiculous as I realize that that is impossible. Others claim I have a 'swelled head.' My friends know different."

## KILBANE MUST FIGHT OR QUIT

### New York Athletic Commission Says Featherweight Title Forfeit in State

NEW YORK, (AP)—The New York state athletic commission, which has declared Johnny Kilbane's right to the featherweight boxing championship would no longer be recognized in this state because of his failure to accept a challenge by Johnny Dundee, had not announced Wednesday night its decision in the case of Johnny Wilson, middleweight title holder, pending efforts to match the latter with Harry Greb.

Promoter Tex Rickard, after making fresh overtures for the contest, had received no reply from Wilson late Wednesday night. The middle weight champion, in the face of the commission's recent ultimatum, had expressed his willingness to fulfill a contract, made some time ago with Rickard, to meet the new light heavyweight champion.

The athletic commission indicated that failure on his part to come to definite terms would be followed by getting similar to that taken in Kilbane's case.

The commission, in a formal statement earlier Tuesday, announced it would recognize Dundee and Danny Frush of Cleveland, as the leading contenders for the championship declared vacant by Kilbane.

### RECEIVES ROYAL WELCOME

LONDON, (AP)—England gave an affectionate and joyous welcome to the Prince of Wales upon his return on Wednesday afternoon from his third imperial tour of the world. London, which he left eight months ago, greeted him with a fever and spontaneity befitting a royal ambassador of the empire returning from a series of diplomatic triumphs.

Uncle Eben.  
"De man dat always greets everybody with a happy smile, no matter what his troubles is," said Uncle Eben, "ain't nothin' but a good actor."

### DODGERS MOVE UP A NOTCH

#### Win From Pirates and Go Into Third Place; Chicago Wins from Philadelphia

BROOKLYN, N. Y., (AP)—Brooklyn moved into third place Wednesday, defeating Pittsburgh in a game of many hits and shills. The Pirates made 25 hits and the Dodgers, 19, nine pitchers taking part. Brooklyn gained a five run lead in the early inning, the Pirates tying it up with a four run rally in the eighth. The visitors next went ahead by two runs in the ninth but the Dodgers tied it again. Rogers' home run and Goetz's tally gave the Pirates another two run lead in the tenth, but the Dodgers came back with three on a double, two errors, two passes, and a sacrifice fly.

### SAN FRANCISCO CLUB WANTS TWO NEW MEN

#### O'Connell and Kamm, Who Go to Major League Clubs, Will Be Mined

SAN FRANCISCO, (AP)—Already the San Francisco club of the Pacific Coast Baseball League is rebuilding its machine for next year when two of its stars, Jimmy O'Connell and Willie Kamm, go up to the majors for a sale price of \$175,000 and \$175,000.

According to present plans of manager Jack Miller, Hal Blythe, who plays shortstop for the Seals, will be at third next year in place of Kamm; Ralph Miller, late of the Phillies, will be at short and Gene Vella, promising recruit, will take O'Connell's job in the outfield.

A real scout, Nick Williams, who recently toured the middle west looking for material, reports that he has been unable to find anyone who can come near replacing Kamm or O'Connell.

"We are on the lookout for anyone who will strengthen Seals next year," Charles Graham, vice-president of the club, declared recently. "We want a large number of candidates for all the positions."

## TO TAKE TARIFF MAKING OUT OF PARTY POLITICS

### Frelinghuysen, Proposes An Amendment Increasing the Membership of Old Commission to Ten

WASHINGTON, (AP)—Technically the tariff bill was before the senate Wednesday but there was no action upon any part of it and it came in for only brief discussion. This was in connection with an amendment offered by Senator Frelinghuysen, republican, New Jersey, proposing to set up the machinery looking to the enactment hereafter of a "scientific tariff."

Under the terms of the amendment, which is understood to have some support on both sides of the chamber, the tariff commission would be increased to ten members, appointed by the president for life and would be authorized to investigate the difference in conversion costs in the United States and abroad and to recommend tariff rates sufficient to cover the cost.

The commissioners would receive salaries of \$12,000 each, and would be empowered to employ necessary expert assistance. The amendment proposes an appropriation of \$1,000,000 to cover investigation costs and it would require the commission to recommend new tariff rates by December 1, 1923, and every six months thereafter in such cases as it found that the rates in force were higher or lower than the differences between conversion costs.

Founder of Yale College Held Auction. One of the oldest methods of transacting business is the auction sale which, according to the early writers, was known among the Romans, and is specifically mentioned by Pomerius, an Arabist in 82 A. D. The first auction sale in England took place about 1700 and was conducted by Eli Yale, the founder of Yale college, who thus disposed of goods he had brought home from the East Indies. Such sales were first started in England in 1770.

## Starts School to Kill Temperament in Movie Queens

### Head of Famous Players Lasky Corporation Outlines Unique Educational Scheme

NEW YORK, (AP)—Emotions of motion picture stars of both sexes urged with stifling confusion when Adolph Zukor, president of the Famous Players-Lasky corporation, informed the audience that he had established a school at Hollywood to arrange temperament and a lot of other things.

While the object of the school is to establish a "perpetual reservoir of talent," the million-dollar-a-year young lady who refuses out her temper at the director when he objects to the way she thinks the picture should be made, is going to have a hard life. There will be a weekly rating card for good and bad marks and if she required 75 per cent in no obtained the penalty is expulsion from the company.

Conceding that temperament is a valuable asset, the rules proclaim that "temperament out of control is a nuisance to yourself and everybody about you. Hairs of no-called temperament in the studio will not be tolerated."
