Confidence Game Is Still Popular Criminal Pastime

Police Records of Chicago Indicate More Crime Now Than Formerly

CHICAGO, (AP)—City slickers still are selling the Masonic temple and other "gold bricks"...

Slaughter and attempting to kill human beings still goes on. The results to kill last year totalled 170; this year 180; the murders last year were 71; this year 69; the manslaughter cases last year were 23; this year 25 and annually with a deadly weapon numbered 776 last year and 907 this year.

OLD FIRES ARE BREAKING OUT IN MANY AREAS

Extreme Heat Threatens Blaze in Every County in Washington, According to State Forester Page

OLYMPIA, Wash., (AP)—A forest fire situation as serious as any in the history of the state is threatening virtually every county in Washington, according to State Forester Fred E. Page.

Probably 40 or 50 new fires have started up over Sunday, he said, and all the old fires are returning, many of them into green timber.

No serious damage is reported from any particular place, it was said, but a continuation of the present warm weather will put the blazes entirely out of control.

The first fires in the Olympic national forest of any consequence were reported Monday. One serious blaze is running into green timber along the Duckabush river.

CHICAGO STREET CAR MEN THREATEN TO TAKE ACTION

Eleven Thousand Employes of City Traction Lines Disatisfied with Wage Out

CHICAGO, (AP)—A strike of approximately 11,000 employes of the Chicago surface lines was threatened Monday night when the men rejected the company's offer of a 25 per cent decrease in wages and declared that a strike vote would be taken at once unless the present wage agreement was extended for one year.

Under this agreement the platform men receive 80 cents an hour. Under the proposed decrease they would have been cut to 60 cents an hour.

IDAHO WEATHER Tuesday: Fair.

CITY TAKES ON GALA AIR FOR CELEBRATION

Display of Flags, Concessionaires' Stands and Buckaroos on Streets Betoken Approach of National Holiday

FOURTH OF JULY PROGRAM 10 a. m.—Band concert, Main avenue. 10:30 p. m.—Baseball, Pifer vs. Eden, Lincoln park.

11 a. m.—Boys' and girls' bicycle races, Main avenue. 11:30 a. m.—Swimming contest, natatorium. 12—Waffle lunch, city park.

1 p. m.—Band concert. 1:30 p. m.—Address by the Rev. A. G. Pearson, city park. 2 p. m.—Base and athletic contests of all kinds, city park.

2:30 p. m.—Baseball, Hansen vs. Twin Falls, Lincoln park. 4:30 p. m.—Entertaining contests, Lincoln field. 6 p. m.—Treat and salute to the flag by the Boy Scouts, high school campus.

6:30 p. m.—Wrestling contest, Siders vs. Lewis, Main avenue. 7:30 p. m.—Boy Scouts' entertainers, roller skates and kiddie car races, Main avenue. 9 p. m.—Fireworks, courthouse lawn.

9:30 p. m.—Ballad concert, Main avenue. 10 p. m.—Street dance and carnival. With flags suspended over the streets in the business district and fying out at midnight, with the stands from which will be fired all of the cannon fire of a celebration, and with gaily garbed buckaroos making their appearance...

Never before a program of entertainment more arranged for a similar event than is now varied and so complete as the one worked out by the celebration committee this year. It will be a busy day for the musicians composing the Twin Falls band which is to lead the crowds from one attraction to another during the day, and finally to furnish music for operatic dancing in the evening. And it will be a day full of repetition of opportunities for celebration that will insure weariness at its close to the most ardent celebrant. It offers fullest advantage of all of them and the attractions are all free. Banks and public offices with the exception of the post office, will be closed all day. Most of the business hours will remain open until 11 o'clock or noon for the accommodation of visiting patrons as well as Twin Falls folk.

AMERICAN GRAIN SUPPLIES NEW YORK, (AP)—The visible supply of American grain shows the following: Wheat decreased \$22,000 bushels. Corn decreased 1,890,000 bushels. Oats decreased 234,000 bushels. Barley increased 164,000 bushels.

MARINE BRANCH NEW YORK, (AP)—The German mark today on the exchange market closed at a new low record of 1932 marks to the pound sterling, after violent fluctuations between the extremes of 1775 and 1955 marks to the pound.

Friend of President Is Probable Victim of Automobile Accident

Captain in Marion, Ohio, Police Department Steps from Car With Serious Results

MARION, Ohio, (AP)—Edward Masterson, captain in the Marion police department and a friend of President Harding during the days when the president was editor of the Marion Star here, was probably fatally injured shortly before Mr. Harding arrived Monday night. He was riding in an automobile to the home of the president's father when he heard that the Harding party had just entered the city. Attempting to descend from the motor vehicle, he was thrown to the ground and was said by physicians to have suffered a fractured skull.

Former Official of Union Brotherhood Probable Suicide

One Time Grand Secretary Order of Railroad Telegraphers Found Dead

ST. LOUIS, Mo., (AP)—Dependent upon poor health, for several years he believed by business associates to have been the cause of the death of Leon W. Quick, former grand secretary treasurer of the Order of Railroad Telegraphers, whose body with a bullet wound near the heart and a discharged shotgun by its side, was found in his garage Monday afternoon. Quick, a former banker, was an unsuccessful candidate for the republican nomination for governor of Missouri in 1912.

HEAT WAVE IN OREGON

PORTLAND, Ore., (AP)—Oregon sweltered Monday and the weather man promised no relief for Tuesday. The Dallas, with an unofficial maximum (temperature of 115, was the hottest place in the state. Portland had a temperature of 91 at the maximum and eastern Oregon was warmer.

FAMOUS GERMAN IS SHOT DOWN

Maximilian Harden, Editor and Publicist, Victim of Assassins' Bullets

BERLIN, (AP)—Two men attacked Maximilian Harden, editor and political writer, in his home in the Grandwood, a suburb of Berlin Monday. He was taken unconscious into the house where he was found to be suffering from five wounds to the head.

The assailants were arrested. The attempt on the life of one of the most noted European publicists, comes just a little more than a week after the assassination of Walter Rathenau, the German foreign secretary.

Mr. Harden, during the war, published many striking articles in his newspaper, Die Zukunft, mostly denouncing the policy of the German government. He frequently crossed the line of the imperial authorities by his statements and in July, 1917, his publication was suppressed for the remainder of the war.

In one of his articles that attracted much attention, he criticized President Wilson; in another he asserted for German democracy.

MAINTENANCE OF WAY MEN WILL CONFER WITH BOARD

Threatened Walkout Definitely Held Up Pending Outcome of Session Agreed Upon Between Government Labor Tribunal and Executive Council of Brotherhood

WAY PAVED FOR APPEAL FROM LAST RULING AS TO REDUCTION OF WAGES

ACTION BY RAILROAD LABOR BOARD AVERTS IMMEDIATE STRIKE CALL BY MAINTENANCE MEN

DETROIT, (AP)—The United States railroad labor board late Monday averted, temporarily at least a threatened strike of 400,000 maintenance of way employes of the nation's railroads in protest against a wage reduction. Just as the executive board of the United Brotherhood of Maintenance of Way Employes and Railway Shop Laborers was making plans to send forth a strike call, the labor board made a request by long distance telephone that the union chiefs meet with the labor board in Chicago Tuesday in an attempt to adjust the differences between them by the board Monday, in which the invitation was accepted by the five members of the union board. B. F. Grable, international president, left Monday night for Chicago.

In addition to the invitation, the labor board sent by telegram to the members of the board Monday, in which is announced that any organization striking against the board's decision would be outlawed.

CHICAGO, (AP)—With striking shopmen formally branded by the United States railroad labor board as "outlaws," the board Monday night directed its efforts toward preventing an extension of the walkout by 400,000 maintenance of way men.

Following a meeting of the executive council of the United Brotherhood of Maintenance of Way Employes and Railway Shop Laborers in Detroit on Monday to canvas a strike vote, it was announced that the threatened walkout would be held up pending a conference with Walter L. McLaughlin, labor member and Ed W. Hooper, chairman of the labor board, Tuesday. The conference was arranged at the suggestion of Mr. McLaughlin.

Members of the board expressed strong hopes Monday night that the conference would avert a walkout. They declared that the only question at issue was not a pending strike vote, but already had been opened for a reconsideration of wage reductions which went into effect on July 1, simultaneously with the closing of the walkout.

Ray Vary Signs Chairman Hooper announced that government reports indicated an increase in the cost of living since the board rendered its wage reduction decision and that this would be made the basis of an investigation by the board by the employes for wage increases. Union leaders were quoted as demanding only that the board, in its wage reduction decision, be slightly and the belief was expressed that a strike would be bridged without a strike.

Meanwhile conflicting claims continued, regarding the number of men involved in the walkout of the shopmen. Neither the union, nor the railway managers would give any figures, but B. M. Jewell reiterated previous statements that the number of men actually 100 per cent perfect. The railway executives, on the other hand, declared that traffic was being continued practically without interruption, and repeated their assertions that the efficiency of the roads would not be seriously impaired by the walkout for seven days. He was quoted as saying that the workers were being permitted to take the pieces of the strikers and the opinion of the rail heads was unanimous that there would be no interruption of transportation.

OPEN SWITCH IS CAUSE OF WRECK

Terrible Accident Follows Apparent Neglect of Duty by Aged Tower Man

ATLANTIC CITY, N. J., (AP)—Investigation from four sources was underway Monday night to determine responsibility for the wreck of a Philadelphia and Reading railway train shortly after midnight at Winslow Junction, near here, which was killed by six persons and injuries to more than 65 others.

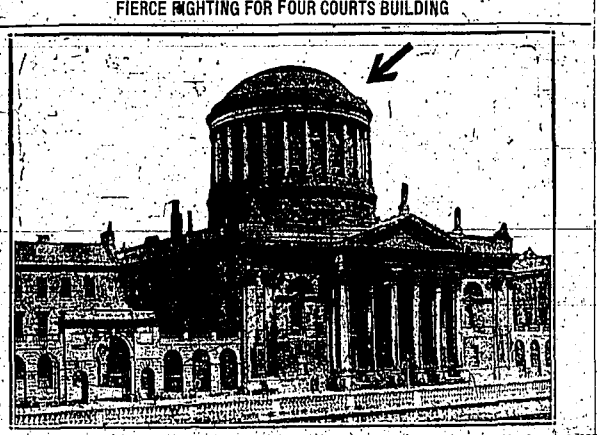

The wrecked train was the "Atlantic Flyer" which left Camden at 11:40 p. m. and was due in Atlantic City at 12:35 a. m.

The small accident on the Cape May-Wilderness branch, which was running at full speed, swept into an open switch leading off from the main line to the Cape May line. The engine led the train and the train was derailed down an embankment, taking with it five of the six cars.

The Cape May switch had been closed by maintenance men from Winslow Junction in order to allow the train to pass. It is believed that the switch was left open by a tower man who was on duty at the time.

Early Reports Denied Reports that Dowell had assumed the blame for the wreck were denied by the railroad officials. It was also by the Reading manager.

Railroad officials said that when a switch is open a signal warns the engineer of an approaching train to slow down. A train going 45 miles an hour, they said, would not have left the rails.

THIS IS the famous Four Courts Building in Dublin, the scene of the sanguinary fighting between the forces of the Irish Free State Army and the Irish Republican Army.

ADMIT BOOZE POSSESSION

Two Men Confess to Felony Charge for Second Offense Against Dry Laws

W. J. Dyer and Ernest Dyer, brothers, in public court today pleaded guilty to possession of illegal possession of liquor, preferred against them following their arrest Saturday after an exciting chase by pursuing officers on a city street.

The charges were based on records show that W. J. Dyer had been convicted previously of the offense with which he was now charged, and a charge was preferred against him because of that fact. The Dyers told the officers they were on their way from the Goller mountain country to Boise when they were intercepted. They made strenuous efforts to destroy their cargo of moonshine whiskey before their arrest.

GOAL SESSIONS ADJOURNED FOR ANOTHER WEEK

Impression Prevails that Govern- ment Will Be Called Upon for Firm Stand if Settlement is Effectuated

WASHINGTON, (AP)—The conference of bituminous coal mine operators and officials of the miners' union summoned by President Harding to consider methods of ending the coal strike in unbroken fields, adjourned Monday night last Monday in the same deadlock which has characterized its sessions on two previous days.

Participants apparently considered that only government intervention going much further than it has to date, would offer possibilities of an early strike settlement. President Harding is expected on Monday again to have direct dealings with the negotiators but the government's plans are kept entirely secret.

From first to last, employers contended in the discussions here that they could no longer negotiate wage scales with the union in the central competitive field as a whole or in a national gathering of all union coal operators and miners. Miners' officials continued to demand such negotiation as the established practice in the industry, and to refuse offers to negotiate by district.

Suggestions Only Tentative

Secretaries Hoover and Davis, who have attended the meetings as representatives of the administration, have offered no propositions outside of a tentative suggestion that a committee of miners and operators might be appointed to consider possibilities of ending the strike.

England's Oldest Tree

An English correspondent, writing about England's trees, says: Some 12 years ago an interested person wrote to Lord Harcourt, then Mr. Lewis Harcourt, first commissioner of works, suggesting that a fence should be placed around the famous old oak tree in Hampton Court park. He received a prompt reply: "This tree, old oak tree is especially under the care of the keepers and staff of the park, who have strict instructions from Mr. Harcourt as to its preservation and protection." The tree in question, which is by the long water, is said to be over 1,000 years of age, and is possibly the oldest tree in England. Its trunk, two feet from the ground, measures 42 feet in circumference. It is hollow, of course, and affords standing room in its interior for a dozen persons.

GALLET WILL RUN AGAIN

Republican State Auditor to Ask for Nomination by Republicans on His Record

E. O. Gallet, present state auditor, has announced his intention to seek renomination at the hands of the republican party. Mr. Gallet is an old resident of Blaine county, and served the county as auditor for three terms, making a record for competency and efficiency that is unexcelled, and which undoubtedly have continued in that office to the present time had he so desired, says a recent issue of the Caldwell Tribune.

Coming to Pocatello in 1885, he has established an acquaintance, and made so many warm friends that Blaine county will support his candidacy whole heartedly, and it is safe to say he will have the endorsement of the entire southeast, where he is well and favorably known. He is a railroad man and a member of the U. S. R. R.

In his statement respecting renomination, Mr. Gallet says: "In announcing my intention to be a candidate for state auditor before the republican state convention next August, I am relying entirely upon the record of my office during the past three years for efficiency and promptness in discharge of duties and the many improvements effected in the accounting methods employed in supervising the fiscal affairs of the state."

"While the office's purely administrative and not much in the line of light or on dress parade, having little to do with shaping state policies, yet it is one of the most important offices in the state. It is the state's clearing house, through which passes, in some form, all transactions involving the receipt and expenditure of all moneys received by or paid out of the treasury, and the system of accounts established during my incumbency in office insure an accurate and complete accounting thereof. It is not the province of the state auditor to suggest passage of laws relative to matters affecting the welfare and interests of the people of the state, except possibly insofar as regarding reports of official transactions requiring the handling of money is concerned, nor to advocate the amendment or repeal of such laws as may be found inoperative or enforcement or detrimental to the major portion of the people, if any such laws there are."

"If the conduct of my office has been such as to commend me to the publishers of the state, and no just criticism of my official acts will be felt from the people, I am relying on the manner of handling affairs and renomination for the office of state auditor."

Gold in the Philippines

It is said that there is not a stream in the mountains of Luzon, and the same is true of other islands of the Philippine group, which has not its gold-bearing sands. The alluvial deposits of the precious metal have been garnered for many years, but no thorough exploitation has been made because the Spaniards were unable to conquer the tribes inhabiting the interior regions, and American conquerors have not yet been collected in this matter. Some of these tribes are said to look upon the digging up of the earth as a sacrifice, and they will not seek gold in that way lest the wrath of the gods should be brought against them.—New York Herald.

MANY DELEGATES IN ATTENDANCE

Annual Convention of Montana State Epworth League is Well Attended

GREAT FALLS, Mont., (AP)—Two hundred delegates had registered at the twenty-seventh annual convention and institute of the Montana state Epworth league at Nehalem by 6 o'clock Monday and continued to arrive during the evening. More than 500 are expected to attend the sessions which will not close until July 10.

Monday was spent in pitching tents on the camp site located one-half mile south of Nehalem in Bell creek canyon. Study and business sessions will start Tuesday.

Among those active in Epworth league work who have arrived at Nehalem are: Senator V. E. Lewis, state president; Fort Benton; Bishop Charles Wesley Burns, Helena; Dr. C. L. Howell, district superintendent, Butte; Dr. J. A. Martin, district superintendent, Great Falls; Dr. Charles G. Cole, district superintendent, Hays; Dr. Blaine Kirkpatrick, Blaine, Ore.; Dr.

W. E. J. Grata, Challis; Dr. Charles M. Donaldson, president, Montana Wesleyan, Helena; Dean A. C. Lennon, Montana Wesleyan, Helena, and Dr. C. L. Clifford, Butte.

UNIVERSITY'S FACULTY APPOINTMENT ANNOUNCED

Rupert Graduate in Chemistry is Promoted to Instructorship at State Institution

UNIVERSITY OF IDAHO, Moscow—Faculty appointments and promotions were announced today from the office of President A. H. Upham.

R. E. Johannesen, who was graduated from the university a year ago, and who has been serving the department as assistant in chemistry, has been promoted to an instructorship in chemistry. Mr. Johannesen is from Rupert. Louis C. Cady of Moscow, who graduated this spring, has been appointed assistant in chemistry.

Paul H. Miller has been appointed graduate assistant in agronomy. He received the degree of bachelor of science in farm crops this spring at Iowa State college, where he has had considerable experience in the seed laboratory. Alvin M. Johnson, a graduate of Harvard college with a major in botany, was appointed graduate assistant in botany. This summer she is doing graduate study at Columbia, together

with research work in the New York botanical garden. Promotions are announced as follows: J. H. Cushman from assistant professor of English to associate professor of English and dramatics; Mary P. Low from instructor in art to assistant professor of art and design; Mae Mathison from instructor of romance languages to assistant professor of romance languages.

With the opening of the fall term, C. W. Chenoweth becomes head of the department of philosophy, as associate professor. "He leaves the department of English." J. W. Boston is promoted from an associate professorship to a full professorship, as head of the department of psychology.

Agnes Peterson of Moscow, a former student of the university, who recently graduated from the library school of the University of Washington, has arrived and entered upon her work as loan desk assistant in the library, to which position she was recently appointed.

A Splendid Medicine for the Stomach and Liver

Gasoline, like other motoring necessities, is being improved from time to time

The matter of Balance for instance is of great importance to every gasoline user

THERE has always been a great deal of uncertainty surrounding the exact composition of gasoline. Tens of thousands of liquids have definite chemical formulae. Gasoline has none, as it is a combination of many compounds which vary greatly in their natural composition. So the study of gasoline is still going on, not only for the purpose of learning more about its make-up but principally to find ways, if possible, of increasing its efficiency as a motor fuel.—The farthest step forward in the latter direction has been the development of a balanced gasoline.

What makes gasoline "Easy Starting" and "Full of Power"?

The term "fraction" is a by-word in the laboratory of a modern refinery. Inasmuch as it accounts for the effectiveness of gasoline, the motorist should have at least a general idea of what it means. Most of us know that water boils at 212° F. Gasoline, however, has many boiling points, a wide range of them, in fact. A gallon of any commercial gasoline is composed of various portions, or fractions, which have different boiling points.

These fractions, each of which boils, or, in other words, vaporizes at a different temperature, control in a large measure the various properties of gasoline. Nature provides gasoline, when vaporized, with its explosive character; but the refiner determines just what fraction it is to contain, and these in turn govern its starting ability, the power it produces, the mileage it gives.

Conoco—the Balanced Gasoline

The various qualities of Conoco Gasoline are carefully balanced by its manufacturers. The fractions that it contains have been determined only after a long study of the requirements of modern motors and of the motoring conditions peculiar to the six intermountain states which this company serves.

Conoco Gasoline ignites promptly at all times because it has an abundance of low boiling-point fractions. It develops maximum power and gives a high-mileage rate per gallon because even its highest boiling-point or "power" fractions vaporize and burn completely at ordinary temperatures. An excess of "power" fractions might seem desirable on first thought but their presence would greatly increase carbon deposits and hence do more harm than good.

Use Conoco, the Balanced Gasoline, exclusively this season and check it up with your former experience in connection with starting, power, mileage, carbon, economy and all-around dependability.

LITTLE EFFECT FOLLOWS STRIKE IN NORTHWEST

Four Main Lines Running Into Spokane Report No Disruption of Traffic with Trains Practically on Schedule

SPokane, (AP)—Traffic continued with slight interruption Monday on the four main railroad lines running into Spokane, despite Saturday's walk-out of more than 12,000 shovemen and carpenters.

The Northern Pacific, Great Northern and Chicago, Milwaukee and St. Paul railways reported trains only slightly off schedule and the O. W. R. & N. trains were said to be on time. No disruption of traffic as a result of the strike is anticipated for two or three weeks by railway officials here.

Without a dissenting vote, the strikers adopted a resolution calling on all other railway union bodies to join the six shop chapters in the walkout. This action was taken at a mass meeting Monday. Another meeting of the strikers will be held Wednesday.

Spokane strikers will request employment of armed guards by the railroad, Dan Teters, chairman of the general strike committee of the Northern Pacific shopmen indicated. A resolution was adopted at Monday's meeting requesting Sheriff Clarence Long to supply the strikers with names of all regular deputies.

PORCELAIN INDUSTRY FOR NORTH IDAHO IS NEARER

Another Step Forward Secured for In- vestigations of State and Federal Governments

UNIVERSITY OF IDAHO, Moscow
—When will north Idaho be a porcelain industry?

Another step forward from work done in the past year by the Idaho bureau of mines and geology, in co-operation with the United States bureau of mines, is announced from Washington, D. C. Investigations then made and reported in a state bulletin are to be continued by the federal bureau, in co-operation with the University of Washington. This investigation will cover residual kaolin and feldspar of eastern Washington and northern Idaho, suitable for manufacture of white ware bodies.

The Idaho report of two years ago, made in a bulletin by Frank H. Skeels, disclosed that the clays of Latah and Benewah counties were unusually fine and that, when properly prepared and washed, they were suitable for production of porcelain.

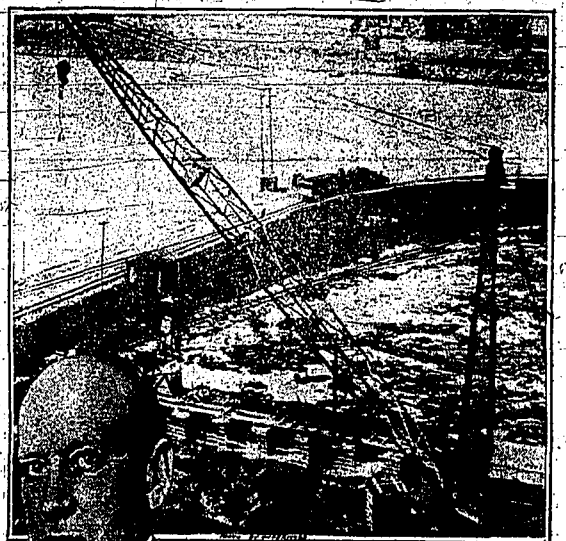

Hewitt-Wilson, consulting chemist of the United States bureau of mines, Seattle, led the laboratory work that that report. He will conduct the new tests now to be made.

Origin of Mine Gas.
An interesting suggestion has been offered concerning the source of the explosive gases in coal mines and the cause of their variation in quantity in mining districts. It is pointed out that the earth's crust is always on the move, owing to the advance of the workings. Both above and below the seam that is being worked the rock strata are strained and rent by the removal of their support. Thus fissures are formed, and the imprisoned gas finds a way of escape into the galleries. Before its liberation it is probable that the free-gas is under considerable pressure in its rocky prison.

CONGRESSMAN KEARNS SOUNDS WARNING AGAINST HENRY FORD'S MUSCLE SHOALS PLAN

CONGRESSMAN KEARNS WHO SAYS FORD IS FOOLING THE FARMERS

CONGRESSMAN KEARNS WHO SAYS FORD IS FOOLING THE FARMERS

Henry Ford's plan to secure a 100-year title to Muscle Shoals, the gigantic producer of water power, has received a severe jolt at the hands of Congressman C. C. Kearns of Ohio, who filed with the House of Representatives an official report charging Ford with an attempt to "fool the farmer and laboring man of the country."

In his report, Kearns charges that Ford's promises of cheap fertilizer to farmers and the employment of a million men, if he should get Muscle Shoals, are without foundation. The Ohio Congressman's charges have aroused much opposition to the Ford scheme.

Congressman Kearns' report, which is also signed by seven other members of the House, Military Affairs Committee, denounces the

GOVERNMENT BUILT DAM AT MUSCLE SHOALS

Ford promises as designed to gain popular support for his Muscle Shoals plan. The Congressman who signs the report says Ford gives no guarantee to manufacture fertilizer at all.

No Fertilizer Guarantee.

"Mr. Ford has at all times steadfastly refused to bind his proposed company to manufacture fertilizer if certain contingencies should happen," says this latest report on the Ford plan. "Our position is that this is a hollow promise made to elicit the support of the farmers and not absolutely binding on any fact contained in the contract or existing outside of the contract."

If Ford's proposal is accepted, Congressman Kearns declares the company at Muscle Shoals will be given the use of two dams and powerhouse fully equipped for a period of 100 years and it will only be required to pay a rental therefor of 4 per cent on \$50,000,000, although the dams will have cost the taxpayers of the country \$27,000,000.

"It must be remembered," says

the "that Mr. Ford does not own these dams but he is given the use of them. Hence if the dams should break the government must stand not only the cost of rebuilding, but must pay any damage that arises in consequence of the escape of the impounded water. How many millions, or even billions, this is going to amount to in the course of 100 years we do not know and he does not do."

If Muscle Shoals is turned over to Mr. Ford, Mr. Kearns says, Ford will not have to pay taxes on the cost of the dams at any time during his 100-year period. The company to be organized by Mr. Ford would be a private company, he alleges, doing business for itself and uncontrolled or unhampered in any way by any utility commission, either State or Federal, except that if this company makes fertilizer it must make it at a profit not to exceed 8 per cent.

If Mr. Ford's proposition is accepted, the Congressman declares, Ford will receive privileges and rights similar to every other man or group of men in the United States.

CONFESSES TO FORGERY

Carl Steole, Brought Back from McCammon, Pleads Guilty to Crime

Carl Steole, in private court Monday, pleaded guilty to charge of forgery, and, according to statement of the sheriff's office, will be arraigned Wednesday in district court. The charge against Steole, who was arrested by Hamock county authorities at McCammon, Idaho, grows out of his alleged forgery last winter of the names of C. L. Holmgren and Herbert G. Lauterbach, as managers here of the Doyle Cattle Company.

Steole's said to have called early to the company's check book during the noon hour. The bogus checks he is said to have passed on the Big White store and Struss and Glanzer.

FUNERAL FOR STOCKMAN

Earl Ritter, Paid Memory of Stocker Bates, Victim of Sudden Death

Funeral services for Robert Hardy, Shoshone, local district stockman, whose death occurred suddenly Friday afternoon, were held Monday afternoon at the Grusman chapel here and were conducted by the Rev. A. O. Peterson, pastor of the Presbyterian church. Burial was in the Twin Falls cemetery.

A Long Name.

"Telerodograph" are X-ray pictures made at a distance, sometimes as great as eighty-five feet, and they show all the detail of those made at close range.

One Dollar Save Payments Ten Dollars Earned

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Vary often a few cents properly invested like buying stocks for his garden, will save several dollars out later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars—adv.

Wise, who has filed in the United States District Court for Idaho, his application for discharge in bankruptcy, and that all creditors and all persons in interest are required to show cause why they have any objection to said petition should not be granted by entering their appearance in said proceedings, on or before the 7th day of July, 1914, and within ten days thereafter, filing the particular grounds of their opposition in the office of the Clerk of said Court.

GUY L. KINNEY, Referee.

NOTICE
Notice is hereby given that on July 1, 1912, the District Court for Twin Falls County entered an order to the effect "That each acre of irrigable land within said Salmon River Project shall receive the same amount of water as the other acres of the project and owners of the Salmon River Project shall pay \$1.20 per irrigable acre maintenance charges for the year 1912." That the settlers and land owners of the Salmon River Project have charge now unpaid be due and payable on or before the 8th day of July, 1912.

Under the terms of above order those who have made partial payment of maintenance charges are advised that to secure a continuance in the delivery of water payment of the balance due of 50c per irrigable acre must be made on or before July 8th.

LETTUCE GROWERS SIGN LEASE FOR WAREHOUSE

Producers of County Make Arrangements for Packing Houses at Four Points

Warehouse at Hihl, Piler, Kimberly and Twin Falls to be used for packing head lettuce grown here this season, according to the statement of L. S. Otto, president of the Twin Falls County Vegetable Growers' association, were Monday obtained under lease by the Idaho Producers' union, with which the county association is affiliated. It is estimated that members of the county association, numbering 150, will produce an average of 300 crates upon each of the 315 acres, or 94,500 crates in all.

It is expected will begin this week and will be completed by July 25. Arrangements are being made to begin packing the crop for shipment to outside markets about October 1.

Supplies for packing, such as paper crates, etc., are being unloaded at Twin Falls and Ellier. Equipment used in packing has been ordered and is in transit here to be installed at the warehouses at the four shipping points.

When the packing operations will be in charge of a body of between 40 and 50 experienced workmen from the Imperial valley of California. It is sent here by the California Vegetable union, marketing agency for the Idaho growers.

These workmen will make the trip overland in automobiles and trucks, arriving here a few weeks before the packing season opens.

Representatives of the California Vegetable union also will assist growers in the production of the crop from the time of planting up to the harvest season.

Lake Erie Named After Indian Tribe.
When the French first explored this country, they found a tribe of Indians called "Erie" living in the vicinity of the lake immediately west of Lake Ontario, this Indian was given an Indian name, and called Lake Erie, after the tribe. The Erie were a race of Indians of close kin to the Iroquois.

BOY MUST GO TO OLD HOME

Burial of Henry Hemer, Accident Victim, to Take Place in Kansas

Following funeral services here Monday afternoon for Henry Hemer, Hahn district farmer, who was electrocuted Friday afternoon while attempting to move a hay derrick under a power transmission line, the body will be taken Tuesday morning to the former home of the family at Hixie, Kansas, for burial. No funeral in the case was deemed advisable. D. A. Hemer, father of the dead man, having made a statement relieving all persons from blame in connection with the fatal accident.

Funeral services were held at the Grusman chapel and were conducted by the minister of the Lutheran church at Eden.

Las Palmas.
Las Palmas is the chief town in the Canary Islands, and is situated on the northeast shores of the Grand Canary. The town enjoys considerable trade and is coming into prominence as a health resort. Its population is about 45,000.

What is useless to you may be valuable to others—advertise it in the classified columns.

CROWLEY GETS SENTENCE

Hihl Man Must Serve 6 to 20 Years in Penitentiary for Heinous Crime

Sentence of imprisonment from 5 to 20 years in the state penitentiary was Monday imposed by Judge W. A. Babcock, in district court here, upon John Crowley of Hihl, who pleaded guilty to a statutory crime after his arrest last week, resulting from official investigation following the birth two months ago of a child to his 15-year-old daughter.

Napoleon's Original Tomb.
The original tomb of Napoleon at St. Helena has fallen into a state of disrepair since the body was removed in state to the Invalides in Paris, according to a letter received from a recent visitor to that remote island. "I walked the five and one-half miles up-hill to Longwood, Napoleon's old home," the writer says, "and inspected his much-neglected tomb, which is down in a deep corner of a deep valley—just a slab covered with dirty white-wash—no inscription whatever. The area around was intact, and surrounded by a circle about twenty paces in diameter, of tall trees, and there was nothing anywhere to tell the visitor when the body was removed or to whom the old tomb had belonged."

BOTH SIDES ARE CLAIMING GAINS IN COAST CITIES

Attitude of Railroads-Stiffening Towards Strikers-Shopmen Declare Ranks Are Steadily Augmented

SAN FRANCISCO, (AP)—A stiffening attitude on the part of some railroads toward striking shop employees, employment of a few strikebreakers and assertions by the men that some of those who had remained at work Saturday had walked out Monday, were the outstanding developments of the railway shopmen's strike in the Pacific coast cities.

Striking shopmen of the Southern Pacific railroad must return to work next Tuesday morning or their places will be declared vacant. J. H. Dyer, general manager of the company announced: "Those returning at the time specified will retain their seniority and other privileges as usual."

Western Pacific officials look the stand that it was "too early to close the door." They announced that they would have no ultimatum until the men have had plenty of time to think the matter over.

L. B. Gordon, secretary of the Portland Railway Employees of the Southern Pacific System, announced that the strike already has caused a freight car congestion in certain portions of Texas and that the situation is getting better hourly from the strikers' standpoint.

Ferryboat Men Join
J. C. God, business secretary of the railroad shop crafts, with headquarters at Oakland, reported that 300 Southern Pacific ferryboat men had joined the striking shopmen in that city. The Southern Pacific company disputed these figures, saying that while some of the men had quit there was a sufficient crew remaining to take care of all work.

As far as number of men at work was concerned, the situation presented little change.

At a few points, strikebreakers were called in. At La Grange, Ore., "Tin strikers" presented against orders reported to have been issued by the Oregon-Washington Railroad and Navigation company special agent that the strikers refused to come to work. In Los Angeles a few strikers were reported to be returning to work.

Officials manned a wrecking car, which cleared up a freight car block on the Southern Pacific line between Fresno and Merced, which blocked traffic for some hours. They were assisted by section workers.

Armed guards were placed at all the tunnels and bridges on the La Grande Portland, Ore., division of the Oregon-Washington line.

The absence of any specific figures regarding "the exact" number of the strikers was explained by union leaders and railway executives as due to the holiday over the Fourth. Union leaders said they believe many of their men had quit work on Saturday with the idea of taking a "vacation" and returning to work on the first of July. They charged up a freight car block on the Southern Pacific line between Fresno and Merced, which blocked traffic for some hours. They were assisted by section workers.

Armed guards were placed at all the tunnels and bridges on the La Grande Portland, Ore., division of the Oregon-Washington line.

The numbers of the Wayville club and their families will have a lawn social on the evening of July 6, at the home of Mr. and Mrs. J. A. Morgan of Kimberly Road. There will be a program by the children.

Mr. and Mrs. Arthur J. Penney entertained at an informal dinner Sunday evening in honor of Mrs. Penney's sister, Mrs. B. E. Brown of Chicago, and also for Mrs. E. J. Osterlund on the occasion of her birthday. A host of of delinquents made a charming contribution for the party. Covers were laid for twelve.

Did Jesse Livermore Lose \$3,500,000?

Jesse Livermore. E. W. Dooney.

Mexican Petroleum—Wall street's "Max Pete." Edward Laurence Dooney, president of Mexican Petroleum, is said to have engineered the recovery which is reported to have left Livermore out of pocket. Livermore's own losses are reported to have been \$2,500,000 but he denies it emphatically.

president and general manager, was quoted as saying, "The 'putting out' of repair work has been started by the New York Central lines, 10 locomotives from Cleveland and three from the Elkhart, Ind., shops being sent to Quakertown, N. Y., Monday for repairs."

Washburn officials at St. Louis said that the 2,500 engines employed by the road had reached an agreement and accepted a wage cut averaging \$4 a week. This cut is slightly less than that ordered by the labor board and makes the average pay \$108 a month. It was explained.

If Grasshoppers Mobilized.
There are not enough birds, experts say, to clean up a fallowfield invasion of grasshoppers such as the farmers dread, but the birds' best man to control the pest. If it were not for the birds the hoppers would ruin the farms.

Holiday Interiors
The absence of any specific figures regarding "the exact" number of the strikers was explained by union leaders and railway executives as due to the holiday over the Fourth. Union leaders said they believe many of their men had quit work on Saturday with the idea of taking a "vacation" and returning to work on the first of July. They charged up a freight car block on the Southern Pacific line between Fresno and Merced, which blocked traffic for some hours. They were assisted by section workers.

Quer "Parliamentary" Tactics.
The paper for parliamentary battles probably belongs to a small island near Tahiti. A trader induced the local natives who are cannibals, to plant their wars in favor of more civilized procedure, and to encourage them he built at his own expense a fine house of commons made of plaited palm leaves and furnished with soap boxes as seats. Alas! for his faith in parliament. When he turned up for the first day's assembly it was to find that the "government" had attacked the opposition party from a neighboring island by kidnapping all their warriors, allowing only the aged and infirm to continue the journey to the parliament which was to settle their respective futures.—London Times

What is a mixed foursome? It's what'll happen if Itoloph's Valentino marries twice more.

Francis N. Bushman and Beverly Bayne will come back to the screen in a Bolshevik production of "Rupert of Hentzau."

The new title of Frank Mayo's next picture, "Ariad to Fight" has been changed to "A Real Man's Love."

Even a pin uses its head to keep from going into things too deeply.
Pauline Gray, Richard Bartholmeusz and woman in "Bonny," recently found out that she had eighteen daughters.

Miss Garon went to The Strand theater.

TODAY'S AMUSEMENTS

General Fourth of July celebration program see advertisements for details.
HIALTO: Continuous from 11 to 11.

low on the opening night of "Tol'able Dan." The crowd was so great that the doors had to be closed.
"Hold on," she cried, as she saw the ticket taker turning away disappointed patrons. "I want to get in. I'm Mr. Bartholmeusz's leading woman in his next picture, and I must get in."
"All right," said the doorman with a grin, "but you're the nineteenth to pull that stunt tonight."

Because Hayakawa is to leave the screen temporarily and star in a speaking play on Broadway under Shubert direction.

Famous Players will reopen its Long Island picture plant at once. Albee Brady will work there in "Missing Millions," Elie Ferguson may follow.

Another star had tired director, Irving Cummings, one of the screen's most acute leading men, has been assigned to direct feature productions at Universal City.

If all screen players were as comfortably fixed as Maurice B. ("Lefty") Flynn, producers wouldn't have to pay my salaries. While working in "The Woman Who Walked Alone" Flynn was also receiving an income from his 2,500 acre ranch in northwestern Colorado which is stocked with fine cattle, including some highly pedigreed breeding stock. He is a former Yale athlete and all-American football but works in pictures because he likes it.

It's easy to write a motion picture comedy scenario if you will do one or two simple things that Buster Keaton tells you to do.

"The comedy writer should open up with a situation that will rock the theater, with laughter," says Buster. "This should be followed by a series of 'gags,' which are funny pieces of business cut straight from life. Another tremendous laughing scene should follow and care should be taken that the audience does not laugh so much that the foundation of the building be made unsafe. Follow this with more gags that will raise irritation. Close with a big, glib situation that will send the audience out chuckling with glee."

"If you can write one like this you will have achieved success. Also send it to me and I'll buy it pronto."

"That," concluded Buster, "is my idea of a comedy scenario. I might add that it has never been written as yet."

AMERICA'S WORK

The Declaration of Independence was written by men of the highest intelligence.

It is not to be torn up and its shreds thrown to the paper mills.

The founders of this country wrote a Declaration of Independence as good for 1922 as it was for 1776.

Independent of what? Of political browbeating by Great Britain?

But with that tradition come independence, ruggedness, alertness, the will and the power to brave.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

means anything, it means that there are no classes, but just citizens, in this country, and that every last one of us owns no special interest, anything, but owes all the rest of us every bit of faith, idealism and power that is in him.

The task of this country is clearly apparent between the lines of the Declaration of Independence.

The peculiar genius of this country is in its idealism, checked, discouraged, sneered at, but active beneath all the flurries and insults of the "practical" old world.

It must cobble out some league boots for its good intentions.

It must carve ascending steps on the precipice of inertia and folly by which its dreams of peace and plenty for all mankind may climb.

THE VIEWS OF ONE: Why does the warm weather? The Lord made it, and what is good for Him ought to be good for you.

And She Tried to Free Faint Stirring of Her Fingers to Vary Them, and Finding Them Held, Dropped Her Eyes Again.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

HARRIET and the PIPER

By Kathleen Norris

Illustrated by Irwin Myers

Copyright by Kathleen Norris (Continued from Sunday's Issue)

CHAPTER XV: The summer Sunday ran its usual course. Ward and his sister went to lighthouse in the club; Madame Carter drove majestically to a late service in the pretty, cream-colored village church.

And She Tried to Free Faint Stirring of Her Fingers to Vary Them, and Finding Them Held, Dropped Her Eyes Again.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

"I know she is! But how about you?" Richard asked. "You are not a you, you have some idea of what marriage means."

"The marriage must be a notorious one, in any case," Blonnie pursued. "I don't intend to make my stand too clear in view of a reformation."

"She is extravagant, naturally," her father said. "She will want new gowns, want to display her new jewelry."

"Blonnie had no money, and lived with an extravagance that kept him from having a cent for money."

"You're not seen Nina today?" Nina's father asked.

"I broke an engagement with her at the club, the other man assured him."

"Do it now. Make that your rule of life and success will be assured."

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

Do it now. Make that your rule of life and success will be assured.

"Just one moment, Mr. Carter. You said that you and I know what marriage is. How do you reconcile it with your knowledge of Nina's knowledge of her upbringing, to plan deliberately what would make our marriage—or any marriage—foredoomed to failure from the start?"

"The marriage must be a notorious one, in any case," Blonnie pursued. "I don't intend to make my stand too clear in view of a reformation."

"She is extravagant, naturally," her father said. "She will want new gowns, want to display her new jewelry."

"Blonnie had no money, and lived with an extravagance that kept him from having a cent for money."

"You're not seen Nina today?" Nina's father asked.

Western Auto Co. Telephone No. 120. Twin Falls, Idaho. Ford Touring, with starter and demountable rims \$550.00 F. O. B. Twin Falls.

WHAT DO YOU PAY FOR? Do you pay for expert, skilled workmen who use only the highest grade of paints and varnishes or do you pay for a job that soon wears off and needs repainting? When you come to this, the oldest shop in Southern Idaho, you get only the highest grade of materials and the most skilled painters, and you pay no more than if you went elsewhere.

A BANK IS THE SAFE PLACE TO "HIDE" MONEY. Put your money in the bank, where it is not only safe, but where it earns interest for you. The following clipping from a Cleveland newspaper shows the risk of keeping money in private hiding places: HIS 334 BOILS AWAY. Man Hides Money in Coffee Pot, Then Forgets. CLEVELAND, O.—Eugene Para reported to police Monday night that \$54 of his savings was in the bottom of a coffee pot in his restaurant, had been stolen. Last night he advised the officers that it was a mistake. He explained the money was in a small coffee bag hidden in the pot. Forgetting the money he had placed the pot on a steaming radiator. The coffee boiled over and with it the \$54. Para found the money behind the radiator, he said.

THE GUMPS—AN INDOOR FIRECRACKER

FIRST DAY IN OFFICE IS BUSY ONE FOR BOARD

Differences Over Appointment of Merchants' Patrolman Evinces Proceedings of Commission Form Administration

Twin Falls' first commission form administration put-in a busy day Monday between the hours of 9 a. m. and 6 p. m. With two hours out for lunch, taking up the reins of city government and introducing an almost complete new list of appointive officials and municipal employees. The commission adjourned to meet again Wednesday evening at which time action upon a salary list is to be an outstanding item of business.

Speaks for Official Men

An interesting development of the afternoon session was the unavailing fight made by Commissioner S. B. Alford against the appointment of Rigby as merchant's patrolman, an appointment of W. G. Griffin to that position. Mr. Alford nominated Rigby for appointment but the vote for Griffin was four to one. Mr. Alford said he was convinced that the business men who employed Rigby as a merchant's patrolman directed his attention and placed a list of 12 or 15 merchants whom he had interviewed during the noon hour, he said, all of whom desired for Rigby as a patrolman. He said that he had agreed to employ Griffin under misapprehension, having been assured by Griffin that Rigby was quitting. Griffin was not charged. Griffin was not questioned by the commissioners, but a paper containing several names of business houses against whom Rigby was a merchant's patrolman was presented. The merchant's patrolman was brought under jurisdiction of the chief of police by the city administrator under agreement whereby the city was to pay the patrolman \$5 a month. There was no apparent intent on the part of Griffin at least to resign the matter closed, and late Monday afternoon upon removal of several of the merchants by whom he is employed, he was sworn in as a deputy sheriff.

Organization Effected

Organization of the new city administration was effected with the organization of S. S. Alford as commissioner of accounts and finance; J. E. Roberts, commissioner of public safety; S. O. Mearley, commissioner of streets and public improvements; F. L. Cogswell, commissioner of parks and public property.

SEEKS BRIGHTER SIDE ON SALMON

Canal Company-President Tells Kiwanians 'Settlement' is Established Fact

Statement of the Salmon River Irrigation project's difficulties presented to the relocation of the project's area from 90,000 to 35,000 acres is an established fact, Mr. H. H. Huggins, president of the Salmon River Canal company, told members of the Kiwanian club, whose guest he was at a luncheon meeting Monday. Mr. Huggins said that a majority of landholders both inside and outside the retained area had entered into the settlement agreement worked out by Murray Hookman and E. R. Shepley, and said that litigation now involving the settlement was prosecuted by persons who sought to arrive at a settlement but by another course.

SOUTH IDAHO IN JUNE INDICATES REPUTATION

Two out of three days in the month of June were clear, according to a summary of the month's weather in this district just completed by Marlow H. Johnson, government weather observer here. There was only one day in the month classified as cloudy and it was partly cloudy. Days with one or two hours of an inch or more of rainfall numbered five, total precipitation for the month being 34.44 and the greatest in 24 hours, 4.56, recorded June 14.

LEAVES HIGHWAY BOARD TO ENTER JUDICIAL RACE

Asher B. Wilson Monday resigned as president and member of the Twin Falls highway district board of commissioners, retiring from that position, which he has held for the past twelve months, because of his candidacy for the democratic nomination for judge of the eleventh judicial district.

Billions and Constipation

"For years I was troubled with billions and constipation, which made life miserable for me. My appetite failed me. I had my usual force and vitality. Pepsin preparations and cathartics did not make matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, clear the bowels of their functions, help the system to work naturally," writes Mrs. Ross Potts, Birmingham, Ala.—Adv.

Dance at the Parish hall this afternoon and evening. Music from all over the world.—Adv.

Father of English Poetry

Chaucer, the father of English poetry, was born in London, England, in 1343. He was a poet, philosopher, and statesman. His most famous work is 'The Canterbury Tales'.

New Warm Weather Mark for Season is Set on Monday

A new warm weather record for the season was set Monday when mercury in the thermometer at the government weather observer's station here reached a maximum height of 96 degrees above zero. The previous high mark of the season, attained June 14, was 95 above zero. Maximum temperature for the 24-hour period ending at 6:30 o'clock Friday evening was 91 above zero. Sunday's high was 90 above and low 47 below.
