

# MAYOR TUCKER'S ELECTION SEEMS OPEN TO DOUBT

### Figures of Official Result Indicate Vote Four Short of the Necessary Fifty Per Cent of Total Ballots

Question as to whether J. D. Tucker, who Monday assumed the office of mayor of Twin Falls actually was elected to that office at the election of July 6, is rather a hazy one. It may be recalled that the city's first municipal election was held on June 6, 1918, and that the voters of that city were asked to elect a mayor and four councilmen. At that time the voters elected Tucker as mayor and four councilmen. The voters of that city were asked to elect a mayor and four councilmen. At that time the voters elected Tucker as mayor and four councilmen.

According to the official canvass, Tucker received 1251 votes in the election of June 6, or 14 more than his opponent, William Graham. Under the commission form law no candidate can be elected unless he receives a majority of all votes cast. In order to have a majority of the votes cast at the election of June 6, it was determined in the case of the run-off between E. McAnley and Dr. W. H. Dwight for the fifth place on the board of commissioners, a candidate who was elected would have had to poll more than half of 2538 votes, or 1269 and Tucker's vote was 1251, or four less than necessary for election.

Opinion in Former Case  
Attorney General Black's opinion in the case of the Dwight-McAnley situation is as follows:  
"My opinion in this particular election, 2538 ballots were cast, and the voters of that city were asked to elect a mayor and four councilmen. At that time the voters elected Tucker as mayor and four councilmen. The voters of that city were asked to elect a mayor and four councilmen. At that time the voters elected Tucker as mayor and four councilmen."

Comment on the first day's activities of the new force was generally favorable, with only a few minor criticisms of the employment of as many as two special policemen to deal with the possible problems incident to the Fourth of July celebration.

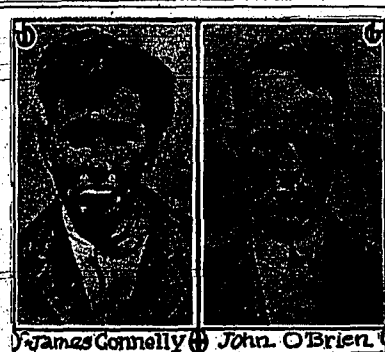

It was recalled that the proprietors of a lodging house at the corner of Main and Broadway were arrested for selling the day's take to a party of about 100 persons who had been arrested by the police force in the Fourth of July celebration. The proprietors of a lodging house at the corner of Main and Broadway were arrested for selling the day's take to a party of about 100 persons who had been arrested by the police force in the Fourth of July celebration.

Other factors, it is rumored, have caused dissatisfaction which in some instances has resulted in the resignation of the new administration by its former adherents. Among these, it is said, is dissatisfaction is quite prevalent on the part of laborers with the action of the commissioners in slashing wages, and along with this, in some quarters open statements are made of former supporters of the regime have been "double-crossed" and "slapped in the face" in the matter of promised appointments.

Object to Wage Issue  
Other factors, it is rumored, have caused dissatisfaction which in some instances has resulted in the resignation of the new administration by its former adherents. Among these, it is said, is dissatisfaction is quite prevalent on the part of laborers with the action of the commissioners in slashing wages, and along with this, in some quarters open statements are made of former supporters of the regime have been "double-crossed" and "slapped in the face" in the matter of promised appointments.

MUCH WOOL IS SOLD  
TROWELL, N. M., (AP)—Approximately 1,000,000 pounds of wool were sold here Saturday by the growers. The top price was 4 cents and the lowest 3 1/2 cents; there is still a million pounds of wool to be shorn, and it is expected that the wool clip in this vicinity this year is valued at \$1,000,000.

# HELD FOR MURDER OF MARSHAL WILSON

James Connelly and John O'Brien

JAMES CONNELLY and JOHN O'BRIEN, Irish extremists, were arrested in London, after a long pursuit through the streets, for the assassination of Fred Marshall, the Henry Hughes Wilson, when they sank down as he left his motor car to enter his home.

# NEGRO STRIKEBREAKER INSTANTLY KILLED BY FUSILLADE OF STONES

Houston, Texas, Railroad Yard  
Scene of 200 Railroad Workers and Former Employees  
HOUSTON, Texas, (AP)—Will McClure, negro, and a white strikebreaker, was killed by a blow on the head during a fusillade of rocks thrown by persons collected near the yard, H. and T. C. yards here late Saturday afternoon. The man was on company property when the blow crushed his head and killed him almost instantly.

# NINE INJURED IN TRAIN WRECK DUE TO OPEN SWITCH

East Bound Santa Fe Passenger, Running at Forty Miles an Hour Goes into Ditch—Oil Cars Ignited  
HUTCHINSON, Kansas, (AP)—Running at forty miles an hour, eastbound Santa Fe train No. 4 (second section) ran into an open switch at Burton, 10 miles from here this morning, wrecking the train and injuring nine persons seriously.  
Eight of the injured were passengers on the club car, the first behind the engine. It was the only wooden car in the train. The steel-clad day, first behind, nosed half way through the club car, reducing it to kindling. These cars and the engine were the only ones to leave the track.  
When the train entered the switch, both the fireman and engineer jumped.  
A spectacular feature of the wreck, which might have been disastrous, was when the engine collided with the two cars of coal, the impact igniting them. They burned fiercely for hours.  
Emergency aid was rendered by doctors sent on special trains from Newton and Hutchinson. Eight of the injured were brought to Hutchinson and placed in hospitals.

# GRASSHOPPERS DESCEND UPON ALFALFA CROPS

Fields in Some Sections of the County are Seriously Damaged by Winged Pests, Reports to Farm Bureau Say  
Grasshoppers in some sections of Twin Falls county are seriously damaging crops, according to reports coming into the county farm bureau. Alfalfa fields seem particularly subject to the attacks of the winged pests, although other legumes are not immune. Only a few sections including the Boggs and Rock Creek districts are reported most seriously damaged.  
Reports of the grasshoppers' ravages come to the farm bureau with requests for advice and assistance in combating the pests. The farm bureau is advising the use of sodium arsenate spray, which is being distributed at the infested fields.

# BIG CAR ORDER IS PLACED

Western Pacific Announces Purchase of 2000 Buicks and 150 Other Type Cars  
SAN FRANCISCO, (AP)—The Western Pacific railroad company announced Saturday it had ordered built 2000 refrigerators, freight cars and 150 other passenger cars to be attached to the county farm bureau. The new cars are to cost between \$5,000,000 and \$6,000,000 and the 150 special type cars will be used in handling perishable fruit and vegetable. The company expects to let other contracts for refrigerator cars soon. The cars are to be next spring.

# LINER DELAYED BY FIRE

HOBOKEN, N. J., (AP)—A stubborn smoke fire burned through number five hold of the Hibernian-American liner Clear America for seven hours Saturday and when it was all over, 650 passengers who were to have sailed at noon were notified that they would have to wait until Tuesday, when the liner is to be started. The fire had driven the liner's stern sharply toward the river's edge, would have been pumped out.

# PRESSURE ADVOCATED

DULUTH, Minn., (AP)—Pressure must be brought to bear to settle the coal strike if a serious coal shortage in the northwest is to be averted. This fall and winter, the local fuel committee, appointed at the request of Julius H. Darnis, president of the United States Chamber of Commerce, Saturday telegraphed President Harding.

# LITTLE BOY KILLED

LOS ANGELES, Cal., (AP)—Thomas Tiven, six, was killed Saturday while attempting to keep his baby brother out of the way of an automobile, which plowed into the house. The baby was hurt.

# DAHO WEATHER

Sunday, Fair.

# Change in Hour of Sailing Leaves An Angry Crowd Behind

Sixty Passengers Booked on Liber Majesty Fail to Make Connection at Dock

NEW YORK, (AP)—Sixty second cabin passengers of the giant liner Majesty were left behind when she sailed an hour ahead of schedule Saturday to take advantage of the high tide.  
The advanced sailing had been widely advertised. The party of her passengers apparently did not read the ads and arrived at the pier just as the steamer was casting off. Some of those left behind were taken by the steamer Zealand, which sailed at noon, but will arrive three or four days later than the Majesty. Thirty-six of them refused to sail on the smaller boat, however, and declared they would sail the White Star line.  
A total of about 2200 passengers, about 5000 other persons sailed on other ships leaving Saturday.

# WOMEN SERVE AS PICKETS

Wives and Daughters of Striking Shopmen Get to Land Assistance Job

MILWAUKEE, Wis.—Women will be on the picket lines at the shops of the Chicago, Milwaukee and St. Paul railroad on Monday, if plans drawn up by a committee of the wives and daughters of the members of the machinists' local materialize.  
About 25 members of the women's auxiliary of the union selected a committee to picket service and voted to try to get wives and daughters of all strikers to aid in the picketing work.

# TOURIST PARTY REQUESTED

FORT WYLLIAMS, Wyo., (AP)—Caught in a blizzard on Mount Washburn, in Yellowstone park, and lost for several days, a party of tourists, including Mrs. Perry Rockefeller of New York, was finally rescued by forest rangers, who were guided by a fire-lit by Mrs. Rockefeller herself.

# 12-YEAR OLD BOY KILLED BY GUARD; TROOPS ON SCENE

Shooting Follows Altercation with Strike Sympathizer and Illinois Infantry is Called Out  
CLINTON, Ill., (AP)—Companies A and H of the Third Illinois Infantry arrived here at 7 o'clock Saturday night and are guarding all railroad property, except the fire. Although other troops are expected, all trouble appears to be behind them.  
First trouble in the railroad shopmen's strike occurred here Saturday when a guard employed by the Illinois Central shot and killed Jim Fitzgerald, a 12-year-old boy, wounded his father, James Fitzgerald, a striker, by shooting him through the leg. The boy was shot by a guard named Tom Pitagari. The latter was shot through both legs.  
It was said the trouble started when the guard shot at the number of strike sympathizers to keep off the right of way, declaring he would "shoot the first man who stepped over the line."  
The strike, according to reports, was whipped out a pistol and invited the guard to "begin shooting." The boy died shortly after being wounded. He was shot through the right leg. The father and Hutchinson were taken to the hospital here for treatment.  
Trouble Expected.  
Early Saturday night about 60 strikers and strike sympathizers were collected near the Illinois Central shops and a riot broke out. This afternoon they stormed downtown stores in an attempt to purchase firearms. Policemen and deputy sheriffs were in the streets, but they were practically futile.  
Sheriff J. W. Persons sent a telegram to Lieutenant Governor Harding at Rockford, Ill., asking for troops. All men working at the Clinton shops have deserted their jobs and the guards stationed at the shops have fled.

# 20,000 CARS ARE NEEDED FOR CROP

Survey of Potato Industry in Idaho Indicates an Enormous Yield  
BOISE, (AP)—Twenty thousand freight cars will be needed to move the Idaho crop of potatoes this season, according to official estimates made by commercial engineers and from a survey made by railroads, operating in the state.  
This is an increase of 5772 cars over the number used in 1921. The survey was made by C. J. Stuel, a fruit warehouseman, in company with railroad men and fruit export agents. In the survey it is shown that the same crop will also need 350 more cars than last year and the peach crop in the state is more than doubled.

# PROTEST IN WASHINGTON

Executive Again at White House After Week's Auto Trip to Marion, Ohio  
WASHINGTON, (AP)—President Harding returned to the White House late Saturday from his week's automobile trip to Ohio.  
During his absence President Harding attended marine maneuvers at Gettysburg, Pa., and returned to Marion, Ohio, and a reception in his honor at Columbus, Ohio, in addition to making several stops along the route for brief addresses. The final day of the return trip, which was the thirty-first wedding anniversary of President and Mrs. Harding, was spent in celebration for a motorcade by which Germany would be enabled to spread her cash payments over a longer period.

# NONPARTISAN ISSUE CALL

Townley Men in North Dakota to Hold Meeting in Interest of Forthcoming Campaign  
FARGO, N. D., (AP)—The executive committee for the North Dakota branch of the Non-Partisan League, the National Committee and J. C. Townley organized this evening to hold a call for a state conference to be held in Minnawaukie Saturday, July 15.  
The purpose of the conference is not divulged, but it is understood that organizational plans and the conduct of the fall campaign will be decided on.

# TROOPS ORDERED OUT AND SOLDIERS ASSEMBLED FOR ACTION AGAINST STRIKERS

ACTION BY SIGNALMEN CONSTITUTES ONE BRIGHT RAY AMIDST THE CLOUDS

Nationwide Strike of the Railway Shopmen is Marked by Disorders at Various Points Federal Injunction Obtained Against Picketing by C. B. & Q. at Aurora, Ill.

CHICAGO, (AP)—The calling out of troops in Illinois, the assembling of soldiers in half a dozen other states and the intervention of the federal courts in the nationwide strike of railway shopmen marked the close of the eighth day of the walk-out Saturday night. The Chicago, Burlington and Quincy railroad Saturday night secured a federal injunction here restraining picketing at the Aurora shops while earlier in the day an injunction was issued at New Orleans restraining the strikers from interfering with trains on the Southern Pacific and at Council Bluffs, Iowa, the Burlington obtained a temporary restraining order from the federal court directed against striking shopmen in Southern Iowa.

# Ultimatum Given Little Attention By Spokane Men

Striking Shopmen Fail to Heed Return Call Issued by Union Faction Here

SPokane, (AP)—The Union Pacific railroad's ultimatum to striking shopmen to return to work by 3 o'clock Saturday afternoon or suffer the loss of security and pension rights was unheeded here as the 70 strikers in Spokane were concerned.  
More than 400 striking shopmen on the Idaho division of Chicago, Milwaukee and St. Paul railroad likewise will pay no heed to the ultimatum issued by that road-union which until 3 o'clock on Monday, July 10 to register or return to work with full privileges restored. It was announced Saturday.

# FOR STRIKERS' BENEFIT

DENISON, Texas, (AP)—Markets sponsored by the Farmers' union of Grayson county will be opened at Sherman and Denison next week where striking shopmen may buy farm products at cost, the manager of the farm union announced Saturday. Strikers and the union produce will receive it free, it was said.  
Following an all day session with W. L. McMillen, labor member of the board. This was the second time which has intervened with the strikers' ranks, walkout of 400,000 maintenance of way men having begun in this manner a few days ago.  
With B. M. Jewell, head of the shop craft and the labor board each offering a firm in the attitude that each organization will stand with the strikers Saturday night were gridding for the second week of the struggle, determined to maintain uninterrupted transportation and thus break the strike.

# BRITISH GOLD TO PAY UP INTEREST

Shipment Valued at \$2,500,000 Arrives as the First Consignment

NEW YORK, (AP)—Definite indications that Great Britain intended by liquidation of her war debt in the United States government, who had bankers Saturday in the arrival of gold bars valued at \$2,500,000 on the steamship Bismarck for the account of the British treasury and the announcement that another shipment is on its way. The gold was consigned to J. P. Morgan and company, fiscal agents for the United States government, who were requested to hold it "for instructions later."  
It was pointed out that the British government had no other commitments in this country so that the gold obviously was for war debt liquidation. The size of \$2,500,000 will be due the United States in October as interest on the British war debt. Saturday's gold shipment is the first that has been received here for the account of the British in about a year and a half.

# DENVER FIREMEN HELP IN FIGHTING FOREST BLAZE

Confederation Raging in Near-by Hills Threatens Summer Homes of Many  
DENVER, (AP)—With several squads of Denver firemen and scores of volunteer workers fighting the forest fire which raged all day in the foothills near Morrison, a mountain resort here, reports Saturday night indicated that the flames were gradually being put out and the fire was under control.  
The summer homes of many Denver people were endangered by the fire in a heavily timbered region. Saturday night the fire was under control and their property owners in the fire zone rushed to the scene and joined in the battle with the fire.  
The fire apparatus which could be transported to the mountains was loaned by the Denver fire department.

# Train Schedules Disrupted

Missouri, Kansas and California were among states that either had assembled troops or were prepared to do so in case disorders occurred.  
Train schedules were further disrupted by the fire in Missouri, Oklahoma, Kansas and Texas, while the Chicago and Alton abandoned all service in Illinois and California.

# RESTRAINING ORDER GRANTED

COUNCIL BLUFFS, Iowa, (AP)—Federal Judge M. J. Wade late Saturday issued a temporary restraining order directed against the six shopmen unions in favor of the Burlington railroad. The order, affecting all Burlington, was issued.

(Continued on Page Five)

# DEMOCRATS ARE AT VARIANCE IN TARIFF NOTIONS

## Minority Senators Split Widely on the Question of Duty on Rice—House Rates Are Approved

WASHINGTON, (AP)—There was another wide split Saturday among the democrats on the tariff, a number of them joining with the republicans in rejecting the lower rates on rice written into the bill by the finance committee majority. The house rates were approved on motion of a committee which receded from its amendments.

Separate votes were had on each rate, but rollcalls were demanded on only two, those on rough rice and on milled rice. On the first rollcall Senators Amhurst of Arizona; Broussard and Batschell, of Louisiana; Caraway and Robinson of Arkansas; Jones of New Mexico; Kendrick of Wyoming; and Shepard, Texas, voted with the majority. While Senator La Follette, republican, Wisconsin, was absent, the remaining 31 democrats in favor of the lower committee rate.

On the second rollcall, Senator Amhurst was not recorded as voting, while Senator Caraway was not in the chamber. The vote on the rough rice rate was 35 to 12, while that on the milled rice rate was 37 to 15.

### Debate Takes Wide Range

While the rice paragraph was before the senate throughout the day, the debate took a wide range. Senator La Follette introduced a tariff bill, and, particularly, on the cotton schedule, speaking for three hours. He declared this was not the time to raise the tariff because of existing conditions in the business world. Also he inveighed against the present system of tariff-making, under which the tariff is raised or lowered before a congressional committee is asked for the rates they wanted and as a rule were given exactly what they asked for.

Wolf was brought into the discussion by Senator Gooding of Idaho, chairman of the republican agricultural tariff committee. He presented a letter signed by Cohen, Goldman and Co., clothing manufacturers of New York city and sent to a clothing dealer in his state, in which it was stated that the tariff would result in an increase of about 40 per cent in the price of a suit of clothes. The letter explained that the tariff would increase the cost of the wool which it used to the extent of 10 per cent at the time the wool reached the clothing weaver, because of the overhead and profits of the proposed handlers.

### Senator Lodge of Massachusetts, the republican leader, suggested that the wool rate proposed was eight cents lower than that now in force and under which clothing was being manufactured.

Senator Gooding said that was the case and added:

"If what this letter says is true, every wool dealer, every manufacturer of cloth and of clothing, and every retailer is a profiteer and a crook. If what it says is not true, the man who sent it is a criminal and should be prosecuted."

"That is the kind of propaganda that has been circulated against this bill by the importers and others."

### Lion's Immense Strength

There is a record which says that a lion has dragged a man a distance of 30 yards, a bull's weight at least three times as much as a lion. I have never had evidence of this much "pulling power," but I have known of many instances of lions dragging zebras that fat, and the zebras weigh and are twice as much as the lions do. Another test of a lion's strength is his ability to stand punishment. I have seen a lion which charged with seven lead bullets through his side through his shoulder, and only finally succumbed to the eighth bullet in his head.—Carl E. Atkey in World's Work.

The Usual White.  
After a man has made an ass of himself and thrown away his chances there isn't much left except the pleasure of complaining that people didn't treat him right.—Birmingham News.

## Countess Is Shot Fleeing Reds

Countess Marie de Villeneuve, a member of one of the oldest families of Russia, reached Chicago after a thrilling series of adventures, including a hot-up by Mexican bandits. She is on her way to the home of her cousin, the Marquis du Villeneuve, in Paris. She was in Petrograd when the Bolsheviks seized control, taking her \$3,000,000 estate. Her sisters, husband and year-old son were murdered, and she was sent to Siberia and forced to do all kinds of manual labor. By bribing the guards she was able to flee to Mukden, then under Japanese control. During her flight she was wounded in the leg.

## IMPROVE GRAIN MARKETING

### Conference Held in Chicago to Discuss Better Facilities for Disposing of Crops

CHICAGO, (AP)—Steps toward the future improvement of nation-wide grain marketing facilities were taken Friday at a conference of representatives of grain exchanges, millers, exporters, farmers, grain dealers, the department of agriculture and the United States Chamber of Commerce.

The conference, called by President Robert McDougal, of the Chicago Board of Trade unanimously authorized the appointment of a committee of seven, representing the different groups present, to meet out in the next few weeks the various suggestions advanced at Friday's conference. A second general meeting will be called soon to take final action on the committee recommendations.

While the conference did not officially take up the subject of legislation bearing on the grain industry, several delegates warned that continued adverse action by congress would result in the complete breakdown of marketing machinery built up during the last seventy-five years.

"Seventh Crusade."  
If you were on the Mount of Olives today, or along the shores of the Jordan, you might hear the whir of the propeller as the plane from Jerusalem hops off on its regular flight in the northward, with mail and passengers. As appealing fact in the news of the day, it might be called the Seventh Crusade. The thinker has at least captured the Holy land, which for 20 centuries successfully resisted the soldier.—Farm Life.

## FOREST FIRES STILL BURNING

### Situation Improved but Still is Critical in British Columbia

VICTORIA, B. C., (AP)—The forest fire situation in British Columbia is improved but continues "extremely critical" according to officials of the provincial forestry department. Two hundred and sixty-one new fires, all small so far, were reported Saturday. Fires in the Nanaimo and Cowichan lake districts were reported smothered but fear is expressed the rising winds may fan into renewed action some of the blazes already being fought with some success.

Merville, a settlement of returned soldiers, has been abandoned to the flames. Refugees are streaming into Victoria from that district. Frank John Oliver announced the settlement would be rebuilt.

## New Volumes Placed on Library Shelves

The following books are to be placed on the shelves of the Twin Falls public library this week:

- Joanna Godden (Kays-Smith).
- Valon House (Williamson).
- Madame Valcour's Ledger (Olinstead).
- Goddie Green (Merwin).
- The Covered Wagon (Hough).
- Mr. Finn (Mills).
- Bennett Mallin (Singmaster).
- The Man Who Understood Women (Merrick).
- Coined in Quest of His Youth (Merrick).

- Busy Builder's Book (Cobb).
- Little Brother to the Bear (Long).

## REVOLT QUICKLY CRUSHED

### Chinese Troops Mutiny but Loyal Element of Armies Rapidly Suppress Disorders

PAOTINGFU, China, (AP)—The twenty-third division of General Wu Pei-fu's army, which is stationed here with other troops, mutinied Friday night and attempted to loot the city.

Loyal troops attacked the mutineers with machine guns, and after an all-night battle, crushed the revolt.

Lois in the afternoon officials reported the situation well in hand, and order restored.

This is the second abortive mutiny among troops under General Wu's banner within three weeks. The previous outbreak occurred June 21, at Hsinho, when the 25th division revolted. A gunshot quelled that mutiny and ended all the division's ammunition.

## ANNUAL RETURNS FILED

### Net Revenues and Expenses Both Show Falling Off by 201 Class One Railroads

WASHINGTON, (AP)—Class One railroads of the United States had a net operating income in May of \$61,950,000, or at the rate of 4.35 per cent on annual on their tentative valuation, according to complete returns filed with the interstate commerce commission. This compared with an indicated annual return of 5.83 per cent in April and 2.69 per cent in May, 1921.

Roads figuring in the returns numbered 201. Their operating revenues in March showed a decrease of nine per cent of 1 per cent, but operating expenses were reduced by 6.4 per cent compared with last May.

Much Harm Done by Smoke.  
It may sound an extreme statement, but there is reason to think that a smokeless atmosphere would do more to rid us of our diseases than any other conceivable means of prevention. We should in summer have a daily flushing of our streets and houses with the great antiseptic, and each in winter the unfiltered rays would "keep down" the vermin, which threaten us as pestiferous insects, which threaten us more than they are, but we can not emphatically secure the services of "nature's gamekeeper" to prevent the annual overgrowth of bacterial pests.

**Firestone GUM-DIPPED CORDS**  
-and Their High Mileage Records-

The high mileage records of Firestone cords continue to emphasize the fact that Firestone methods are different and better. These records, steadily increasing in number and in mileage totals, justify the Firestone contention that there is one best way to build tires.

Among the primary sources of Firestone extra mileage is double gum-dipping—the saturation of the cord plies in a vat of liquid gum—thus coating each cord and virtually eliminating internal heat and friction.

Another is Firestone air bag curing, with its 200 pound pressure, which places every cord accurately and equalizes the tension.

By blending the rubbers of different plantations and types, and by tempering it before mixing, Firestone men add still more mileage.

Many cord tests are good—a few are better—Firestone uses say one is best.

Those who have already experienced Firestone mileage, have stopped shopping and experimenting—they have made these cords standard equipment. Investigate your friends' success, with Firestone Cords—and buy your next tire accordingly. Come in and get your share of extra mileage.

REGULAR SIZE \$14.75  
Extra Size \$15.50  
CORD \$16.25

# NEW RECORD IS SET FOR TRAVEL TO YELLOWSTONE

### Every State in Union Represented by Visitors Coming by Rail and All But Three by Motor Tourists

YELLOWSTONE PARK, Wyo.—More truly than ever before Yellowstone national park in this year being made the nation's "playground," the number of tourists who in the past two weeks, only a few states in the union has been represented by visitors coming by railroad, and all but three of the states represented by motor tourists that have already toured the park.

### Scores Come in Motors

Transcontinental motoring having been made a popular pastime, the improvement and development of the highway systems, and become a source of pleasurable adventure, scores of motorists from the eastern states, from the south and the middle Atlantic states are making the trip every week.

All previous Yellowstone park travel records including railroad, automobile, foot, horse and motorcycle, for the corresponding period in other years, have been broken.

The total number of visitors to the park up to June 30 is 13,086, as against 6,075 for last June, and 7,435 for June, 1920.

The total number, 7,885 came by automobile and 6,000 by rail. Two thousand three hundred fifty-seven automobiles entered the park during June.

The heaviest motorist travel comes from the far western states and the middle west. Save for local travel from Montana, which always leads in "Yellowstone" travel, California leads, with 249 cars, carrying 717 passengers.

Other states sending heavy automobile travel are:

- Washington: 169 cars, 540 passengers.
- Idaho: 128 cars, 453 passengers.
- Wyoming: 148 cars, 425 passengers.

Motor parties are Delaware, Michigan, New York, California, New Jersey, and Oregon.

### Bigges' Opening Day

Besides the new record for June, the total number of visitors, 1922, arriving at the park on the opening day of the season, June 26, was greater than any previous opening day, and all travel for the year ending 1922, almost double the previous record established in 1920.

The increased patronage of the park has necessitated the building of a new entrance or overway. Hotel, permanent camp and transportation facilities in the park have been improved and there is no limit to the number of camping parties that can be accommodated on the public camp grounds maintained by the national park service.

Weather and road conditions have been ideal from the tourists' standpoint. Highways approaching the Yellowstone, and the roads approaching the park, are better than ever before.

### RECORD ENROLLMENT AT UNIVERSITY INDICATED

Applications for Admission Received in Early Summer Exceed Former Records

UNIVERSITY OF IDAHO, Moscow—More applications for admission to the university have been received this year than at any time in its history, according to Edward F. Mason, director of publication, who is corresponding with prospective students.

This year, it is said, is another index pointing toward a greatly increased enrollment next fall. "No definite enrollment figures can be given from the figures as special efforts have been made this summer to get students into the hands of the registrar earlier than last year. We are receiving applications from all over the country. A great many requests for room reservations already have been made."

Headling Habits.—This year, it is said, is another index pointing toward a greatly increased enrollment next fall. "No definite enrollment figures can be given from the figures as special efforts have been made this summer to get students into the hands of the registrar earlier than last year. We are receiving applications from all over the country. A great many requests for room reservations already have been made."

## DEMAND FOR BUSINESS TRAINING SHOWS GAINS

State University Grants New Position on Faculty to Meet Students' Needs

UNIVERSITY OF IDAHO, Moscow—Appointment of Lynn L. Schooner as assistant professor of economics and business administration was announced today by the board of trustees of the University of Idaho. This appointment fills a new position, created, according to the announcement, to take care of increasing demand for instruction in the business world.

Professor Schooner is especially well trained in economics, according to Professor H. C. Dale, head of the department and will give courses in insurance, health, advertising, business administration, and other phases of applied economics.

Professor Schooner is a graduate of the Wisconsin state normal school and holds his bachelor's and master's degrees from the University of Wisconsin. He was the third summer student of study at the University of Chicago, where he is working for a doctorate.

For the last two years he has been assistant professor of economics and business administration in Albion college, Michigan.

He will be the enrollment in classes in economic, political science, and business in the University of Idaho totaled 687, as contrasted with an enrollment of 47 in the year 1919-20.

### FILM LAD IS INJURED

BY STRAY SKY ROCKET

FILM—For the forty-year-old son of Mr. W. H. Davis, his third summer student, was the victim of a Fourth of July fireworks accident at Twin Falls Tuesday evening, when an exploded giant skyrocket that had been set off by the boy, struck him on the leg, fracturing it with his parents two blocks east of the Twin Falls city park.

He was given first aid treatment at the home of Mrs. Davis and then rushed here where his wounds were treated. The rocket grazed his leg in two places and struck a toe, causing painful but not serious injuries.

Only a safe distance from where the explosives were being set off, the Davis family were not out of range of the blast and although Mr. Davis saw the rocket when he saw it, he was powerless to move the child in time to avert the injury.

### RAMON FOREMAN BEAT WHEN HIS CAR TURNED SOMEBEAULI

FILM—The "Maverick" actor, foreman of the "Maverick" show, which will start its regular run in an accident Friday evening, when a light car in which he was riding, and driven by Mrs. Johnson, backed over a curb, struck the rear of a car, and was thrown into the air, the engine was killed, and the car started backwards, making a complete reversal, as it backed over the curb.

With Mr. and Mrs. Johnson at the time was another lady, and her daughter. The party then was seriously injured.

### FILM MAN HAS NEW POTATOES

FILM—Earl S. Le Hue claims title to being the first grower of early potatoes in this county within the confines of the city limits, says the Film Record, he having exhibited yesterday a bush of the "Burrhead" variety, a big orange, and of good quality and appearance. Mr. Le Hue had no idea his potatoes were ready for use; but after the discovery of the big tuber in his garden patch it is evident he had potatoes ready for use at least two weeks ago.

Byron's Curl Papers.—The curls which Byron, according to confessions in his newly published letters, was accustomed to bestow upon his numerous loves were not natural, as he wished to have them better. Some of the curls were the poet's bedroom at Oxford one morning, and surprised him with his hair in curl papers. "Why," said Scrope, "I thought your hair curled naturally?" "Confound you!" growled the poet, "so it does, I take care of that. But that's the curliest curl I ever had," he added anxiously. "Of course," said Scrope; and went off to tell everybody he knew.

## MOTORCOP IS MYSTIFIED NEW STYLE FILM PROMISED

Auto Used in Performance of "The Woman Who Walked Alone," Proves Fiasco

It happened in Hollywood. A motor cop leaped to him when he saw an automobile bearing a "London 1922" license rolling up the boulevard.

### GREAT RACE TRACK FILM

"Thunderclap" Coming to Orpheum Declared to be One of Best Pictures of the Kind Ever Filmed

"Thunderclap" is a stupendous picture, and advance notices call it the greatest race-track photo-drama ever staged. It will come to the Orpheum theatre in Twin Falls.

### CAMOUFLAGE RESORTED TO

"The Conquest of Gansan," Filmed in Asheville, N. C., and Identity of the Town Explored

One of the outstanding features in the production of Booth Tarkington's novel, "The Conquest of Gansan," a Paramount picture starring Thomas Meighan, is the complete fidelity of the scenes. For much of this picture, the background is the town of Asheville, N. C. This southern town was transformed into "Gansan" for the filming of the picture, which gave an air of reality to the entire setting, something that is hard to obtain in constructed sets.

"Historic Dodo." "As dead as the dodo" is a common expression, but few know what a dodo was or what it did. The dodo was a large bird, with a huge beak and useless wings. Portuguese and Dutch sailors found it on the island of Mauritius in the Indian ocean during the sixteenth century. It was so stupid that the Portuguese named it "dodo," simpton. Europeans destroyed its eggs and young, and it became extinct in the seventeenth century.

Correcting a Saddle Nose. For the correction of saddle nose and tip irregularities Lewis makes an incision on the upper surface of the tip of the nose parallel with the long axis of the nostril, cohering the nasal tip into a hood. The implant or transplant used to straighten the nose is inserted into this pocket.—New York World.

Smaller for a Parisian Factory. The recent smelter is so essential to perfume manufacturers as the tenaster is to the ten merchant. The gift of scent smelling is a thousand times more rare than the gift of wine-making.

## "Second Hand Rose," Adapted from Popular Song, Said to be Vastly Entertaining

The drama is enlarging its scope with every new picture. "Second Hand Rose" at the Orpheum theatre Monday, is an example of this advance.

The popular piece, "Second Hand Rose," suggests the story. The song was published by Shapiro, Bernstein and company.

### VAUDEVILLE LOOKS GOOD

Clara Louise Burnham Will Constitute Feature Bill at Orpheum Monday

A wide variety of entertainers will be seen in the new vaudeville at the Orpheum theatre on Monday.

Almond and Hazel, who present an offering of singing, comedy, novelty and vaudeville, are the feature attraction. They are clever stagers and can sing most delightfully, an unusual combination for top-notch vaudeville artists.

### ETHEL CLAYTON COMING

The admirers of Ethel Clayton, the beautiful and popular Paramount star, doubtless will turn out in force to welcome her in her latest picture, "Beyond," which it is shown at the Idaho theatre next Monday and Tuesday. This vehicle, produced by William D. Taylor, is said to provide her with one of the most unusual roles of her screen career. The supporting company is headed by Charles Meredith, a well known leading man.

Old moose shed the big, moose-like antlers early in January, younger ones weeks later. By the middle of May the new growth of horns protrudes from the top of the skull. In three months the development of the 70-pound shovel, often six feet across, is entirely completed.

## FRENCH WOMAN WINS BIG GAME

American Player Popular with Audience but Outclassed by Opponent

WIMBLEDON, England, (AP)—Sixth-seeded English, the marvelous French girl and holder of the world's tennis championship, was a swift and certain victor over the American champion, Mrs. Mabel Blythe, Saturday afternoon. She disposed of her opponent in two sets, the score being 6-2, 6-1.

This was the event which the tennis world had awaited with keenest interest over since the match between these two rivals in the United States last year, when came to a sudden ending through the collapse of Miss. Longdon. Great crowds packed every vantage of the great center amphitheater; the gates to the enclosure had long since been shut and barred. The king and queen of England were there, the Earl of Halifax, King George and Queen Mary, many lords and ladies, and all the followers of tennis who could find their way within fighting distance of the courts.

Notwithstanding other contests promising royal sport, the Lengton-Murray match was the great magnet that attracted and the struggle for which the thousands waited for hours in the rain.

American Player Popular: Outbursts of applause gave evidence of the overwhelming popularity for the American woman, particularly Mrs. Mabel Blythe, who had many supporters, who grew in numbers as she showed her mastery of the sport. She carried herself with a poise and confidence that was evidence of nervousness. She played not only with confidence, but with deliberation and thus was able to find the weak spots in Mrs. Murray's armor and take full advantage of them.

After the easy manner in which Mrs. Murray was defeated, it was expected that the American woman would make Saturday's match a notable exhibition, but the 19-year-old left-hander of the local's staff, kept the visitor's life scattered after the second inning of the final game. Scores: R. H. E. Detroit: 2 8 1 Washington: 1 11 1 Batteries: Pillette and Basler; Francis and Gherardy.

## AMERICAN TAKES TROPHY

Walter Hoover Wins Feature Event of British Regatta in Remarkable Race

HENLY-ON-THAMES, England, (AP)—Rowing a straining race, which of his own design over, the famous Royal regatta course in the face of a strong wind and a driving rain, Walter Hoover, the crack American sculler, outdistanced his opponent, J. Beresford, Jr., of the Thames Rowing club, by nearly 50 yards Saturday and the diamond sculls trophy, which has been in the hands of Great Britain for 100 years, will follow Hoover to his native city of Duluth.

The time made by the American for the course of one and one-half miles, was 22 minutes, 22 seconds, more than a minute longer than the diamond sculls record, but none of the officials believe that Hoover's sculling was anything but a record in many years, would have brought a record under normal weather conditions.

KIMBERLY TO PLAY BURLEY Kimberly will entertain the fast Burley team Sunday afternoon at 3 o'clock at the Kimberly grounds. This is the first game away from home and a lively tilt is expected. Leg and Courts will form the battery for the Kimberly team.

## BROWNS AND REDS SPLIT

Leaders Have Hard Time With Tallenders; Indians Beat Yanks; Sox Lose

BOSTON, (AP)—Boston and St. Louis again divided a double-header Saturday. The Browns' holding as well as his hitting featured the opener. In the second game he hit a home run over the left field fence with Burns on base. Scores: R. H. E. First game: St. Louis 1 6 3 Boston 2 4 2 Batteries: Vaughtler and Severoid; W. Collins and Ruel.

SEABER'S HITTING WINS GAME NEW YORK, (AP)—Spaker's two home runs, one in the sixth inning and the other in the ninth, enabled Cleveland to defeat New York Saturday. Cleveland's pitcher, Mays, pitched brilliantly, and the Cleveland pitcher was especially effective in the pinches. Coveleske struck out Mousal with the ball in the seventh inning. Scores: R. H. E. Cleveland 3 5 3 New York 1 8 3 Batteries: Mays and O'Neil; Mays and Hofmann.

## TIGERS AND CRITTFARMEN SPLIT

WASHINGTON, (AP)—Washington defeated Detroit in the second game of a double-header Saturday. Franck and Francis had been tested in a pitcher's battle with Pillette in the opener, which the visitors won. Donnan Brill, head of the local's staff, kept the visitor's life scattered after the second inning of the final game. Scores: R. H. E. Detroit: 2 8 1 Washington: 1 11 1 Batteries: Pillette and Basler; Francis and Gherardy.

## BOX AND ATHLETICS SPLIT

PHILADELPHIA, (AP)—Chicago and Philadelphia split a twin bill Saturday. The second game was called in the eighth on account of rain. "Red" Urban, Faber held Philadelphia to three hits in the opener, one a home run to Clarence (Willie) Hasty, his nineteenth of the season. Hasty was driven from the mound in the fifth and Sullivan relieved him. Scores: R. H. E. Chicago: 4 11 0 Philadelphia 1 3 1 Batteries: Faber and Schalk; Hasty, Sloan and Perkins.

## CANADIAN PLAYER WINS

DURHAM, N. Y., (AP)—Mrs. Harry Dickie of Toronto, Ont., Canadian, won the 100-yard race for women's clay court championship by defeating Miss Leslie Bancroft of Brookline, Mass., in a spectacular three-set match, 3-4, 6-1, 7-5.

## BREAKS WORLD'S RECORD

NEW YORK, (AP)—Miss Sybil Bauer of the Illinois A. C. Chicago, broke the world's record for the 100-yard sack stroke with a time of 22.4 seconds Saturday; by one-fifth second. She finished in 1 minute, 25.4 seconds.

## COOPER WINS FROM GIANTS

Holds Leads Safe After First Inning; Cubs Win Two More; Cards Win

PITTSBURGH, (AP)—After the first inning Cooper held New York to three hits and the Pirates overcame a five-run lead, defeating the Giants Saturday. Scores: R. H. E. New York 5 8 9 Pittsburgh 7 14 0 Batteries: Tracy, Cauby and Boyler; Cooper and Good.

## CHICAGO GRABS TWO MORE

CHICAGO, (AP)—Chicago won both games of a double-header from Boston Saturday. The Cubs were the first game in two rallies, Barber's triple clearing the bases for the winning margin. In the second game, Chicago, anchored by his and Kaufmann, although wild managed to pitch good ball in the pinches. Grimes wrenched his back in sliding for first base in the first inning and retired from the game. Scores: R. H. E. Boston 5 10 2 Chicago 6 10 0 Batteries: Watson, Pillingim, Oeschger and O'Neil; Cheever, Stueland, Osborne and O'Farrell.

## BOBINS LOSE THIRD STRAIGHT

ST. LOUIS, (AP)—The local Nationals took their third straight game from Detroit Saturday afternoon. Both pitchers played well in the game by the two teams. Scores: R. H. E. Detroit 7 10 2 St. Louis 8 10 0 Batteries: Grimes, S. Smith, Matmax and Miller; DeBorby; Sherdil, Partica, North and Albany.

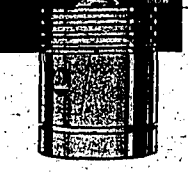

## REDS COP TWO

CINCINNATI, (AP)—The Reds won both games of the double-header with the Phillies Saturday. Scores: R. H. E. Cincinnati 7 8 0 Philadelphia 1 4 2 Cincinnati 7 8 0 Batteries: Welbert and Peters; Donohue and Wingo.

## CONTRACT IS HELD UP

NEW YORK, (AP)—Jack Dempsey and Harry Wills, were challenged for the heavyweight championship called for to get together at a conference called for the signing of a contract for the contest Saturday.

## GETS NEW SEASON RECORD

Single G. Carries Off Free For All in One of Most Spectacular Races of Circuit

NORTH RANDALL, CLEVELAND, (AP)—Single G. demonstrated again Saturday that he is the best free-for-all horse in the Grand Circuit. The aged son of Anderson Wilkes, driven and trained by E. Allen of Indianapolis, defeated the best bunch of pacers in training for the free-for-all purse, feature of Saturday's getaway card at North Randall. He won the event in straight heats and set a new season's pacing record for one and two miles by negotiating the distance in 3:03.3 and 3:02.4 respectively. Never was the result in doubt.

So well were Single G's chances thought of that he was barred in the action betting. In the muck he was a prohibitive favorite.

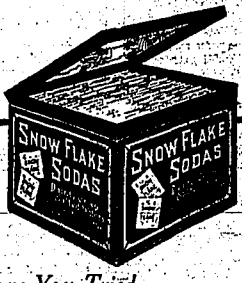

After Single G. had been ruled out, June proved a surprise by beating Hal Mahone and Jimmy McKerron in the third heat. Pop Gers, veteran driver of the Grand Circuit, had a narrow escape from injury in the 2:15 trot. Queen Alice backed into Gers's sulky, overturning it. The veteran Memphis roanman—luckily escaped with a slight shaking up. His entry, Anna Phelps, which finished second in the first heat, ran away two miles and a half after the accident and was withdrawn. One of the biggest upsets of the week came in the last event, which Misses Gentry won. Son Flash, one of the hottest favorites of the meeting, won the first heat easily, but was unable to beat the winner in the next two.

Hog's Bristle First Hairraising. In the early days of watch-making science had not yet developed steel sufficiently to be made a part of the timepiece's delicate mechanism. It was therefore given to one of the competitors of hardy animals—the pig—to make an important contribution to the science of horology. The first hairraising was actually made from a hog's bristle and it worked very well indeed, and also served to demonstrate the correctness of the principle involved. The next step was the substitution of a steel spring, and this led to the development of the celebrated watch which is in use in the modern watches.

FRED KORSMEIER, Manager

# SITUATION MAY BE RELIEVED IF FRANCE WILLING

### Political and Economic Crisis in Germany Regarded as most Serious — Utter Collapse is Feared

WASHINGTON, (AP)—Germany, facing a political and economic situation generally admitted as most serious, must, in the view of American officials, as expressed Saturday, look to France for relief.

France, it was stated Saturday, by one official in close touch with developments in Europe, must loosen her grip upon the reparations situation to lighten Germany's financial burden, or utter collapse of the former along central power may result and a radical regime arise from the ruins.

Help from the United States, if generally maintained by officials here, only can be given to Germany in the form of loans of private capital and Germany can obtain loans only through the offer of sufficiently protective security to attract investors. Under the present reparations scheme, it appears to officials here that all Germany's resources are bound to the wheel of allied payments and held by the hand of France, so that unless Germany can obtain concessions to permit plugging some of her potential wealth as security, all hope of financial assistance from without must be abandoned.

### Situation Well Known.

The situation in Germany financially and economically has been made known to officials of the American government by reports from American representatives in Germany. These have been supplemented by information given by American business men.

### May Try Economic System.

The suggestion was made in an informal German quarter Saturday that there must be recourse to the Russian system of barter, if Germany is to go on at all. Unable to pay the American cotton growers and the copper mines in any kind of acceptable currency and without coal, the German manufacturer must either return for the material a certain proportion of the finished product into which it is made up. It is fully realized by the Germans that any such plan would on the whole be better than the present one.

### Commercial Barter System.

Officials here have noted in some French quarters a tendency to discuss the possibility of heavy payments in kind from Germany with a resultant lessening of the cash commitments. It was believed that strong opposition would be raised to a readjustment of reparations along such lines. Government authorities are also reported to be small French inventors, it was explained, who would restrict the effect of the German payments while French labor and industry would fight the receipts and the great quantities of German goods entering into competition with the output of France.

### All So Unnecessary.

I was leisurely walking back to the office for lunch, enjoying the sun and shade and the beauty of the day, when I met a girl I had known only a short time. She greeted me effusively, and we stopped for a moment to chat. When she turned to go I said I would walk on with her.

### Feathers by the Carload.

Six carloads of feathers composed the unusual shipment of a Missouri mercantile company recently in the delivery of 500,000 pounds of the fluffy product. Packed in wool sacks, which are three feet in width and seven feet in length, the shipment is thought to be one of the largest of its kind on record—Popular Mechanics Magazine.

London Has White Monkey.  
The only pure white monkey known to exist was recently brought to London.

## Mina Helen Clay Frick Seriously Ill

Mina Helen Clay Frick, daughter of the late Henry Clay Frick, of Pittsburgh and New York, is reported seriously ill at her residence at Grosvenor, near Boston. She suffered a nervous breakdown as a result of her unending efforts to entangle the works of her father's estate in her father's New York palace.

## TROOPS ORDERED OUT

Huguenot points in Southern Iowa, prohibits the unions from interfering with the operation of trains and the full possession of railroad property.

### INJUNCTION GRANTED

CHICAGO, (AP)—An injunction against the picketing of the Chicago Burlington and Quincy shops at Aurora, Ill., by striking railway shopmen was granted early Saturday night by Federal Judge George Carpenter. It was expected that other roads entering Council Bluffs planned to do the same.

## TROOPS ORDERED OUT

BARBOURVILLE, Ky., (AP)—Governor Edwin Morrow late Saturday ordered troops to move from Hopkinsville and Lawrence to Barbourville, where county authorities at that place advised him the situation at a step mine there proved threatening and that local authorities would be unable to handle the situation if trouble developed as they anticipated.

## TROOPS MOBILIZED

JEFFERSON CITY, Mo., (AP)—The entire Missouri National Guard, numbering 4021 men and officers, will be formally mobilized and held ready for instant service Sunday morning at 9 o'clock. It was announced here Saturday evening following a conference between Governor Hays, Adjutant General Baupp and representatives of five railroad companies operating throughout the state.

## STRIKERS RETURN TO WORK

HOOPER, (AP)—Nine of the striking employees of the Oregon Street Line returned to their jobs in pursuance of an ultimatum served a few days ago that unless the men returned Saturday at 3 o'clock they would lose their seniority.

## BOILERMAKER KILLED

CLEVELAND, Ohio, (AP)—William Urochanski, 35, a member of the boiler makers union, employed at the Litchfield shops of the Big Four railroad, was among those who quit work, was shot and killed late Saturday night while in the vicinity of the shops. A number of other men who were in the vicinity assert the shooting was done by men guarding the property.

## Safety Luncheon.

When animals like cows, sheep or deer go through the performance of "chewing the cud" they are carrying out a function which their ancestors discovered was a means of adding them to their own rations. These animals of long ago were always in danger of attack, so they got into the habit of eating so much grass and herbage as they could in a short time, and then retiring to a place of safety. The same was done by the animals in a special chamber, and once out of harm's way the animals proceeded to regurgitate the food and swallow it again.

# IRREGULARS IN FLIGHT BEFORE FEDERAL FORCE

### Volunteer Troops Mustered South of Dublin, Scatter at Approach of Irish National Military

DUBLIN, (AP)—The force of irregulars mustered south of Dublin has fled before the advance of the national troops, and the menace of fighting before the capital is further removed. The base of the irregulars is now in the form of a line of small villages throughout the country side was captured by national forces early Saturday and the main body of the irregulars is on the run in the Wicklow hills.

### Garrison Melts Away

As the national advanced the garrison gradually melted away, leaving destruction and loss behind. They had established their headquarters at the Ulster bank, the largest structure in the place. The destruction here was of a particularly unnecessary kind, partly because of the northern associations. The windows had been severely fortified, and the irregulars wasted much ammunition sniping at the national in the distant hills. Before they left they helped themselves to money from the bank.

The national encountered serious resistance only at Ballymore Rabboc, where they suffered some minor casualties. The irregulars fell back on their base, losing several small detachments when the regulars took them with and west within a mile of them they slipped away into the wildest part of the Wicklow hills.

The irregulars have lost their best leader, including Andy MacDonnell and Jerry Boland. Jerry is the brother of Harry J. Boland, Dr. Valera's former secretary.

### Steal for Their Employers.

"Many servants have to be watched in many ways," says Mrs. Carvel Wells who spent some time on the Cleveland Flat. "For instance, a native servant's liver is often so big she must be able to eat from some one else and bring it to his master. If we went visiting, at leaving we would ask the host to count the number of silk stockings and kerchiefs missing, so that we could get them from the servants and return them before going. Many a time I have found several extra pairs of silk hose in my suitcase and a spinning servant expecting me to give her them for me, many times, too. I have found my own wardrobe pretty bare after company had left."

## London's Famous Fog.

No description of London would be complete without a reference, however brief, to the singular atmosphere and charm of the London climate. This is seen at its best during the autumn and winter months. The climate of London, as viewed of England generally, is due to the influence of the Gulf stream. The way it flows is this: The Gulf stream, as it bears the shores of the British Isles and feels the influence of Ireland, rises into the air, turns into wind, and comes down on London. At times this soup is thin and is in fact a little more than a mist; at other times it has the consistency of a thick Potage St. Germain. London people differ their atmosphere by calling it a fog; but it is not; it is only a Stephen Leacock in Harper's Magazine.

## A Bad Man's Good Thought.

To enjoy a thing exclusively is commonly to exclude one's self from the true enjoyment of it. Said Byron: "Those who joy would miss share it; happiness was born a twin."—Boston Transcript.

## FAIR WEATHER FOR WEEK

Rocky Mountain and Plateau Region Promised Normal Temperatures for Next 6 Days

WASHINGTON, (AP)—Weather outlook for the week beginning Monday: Upper Mississippi and lower Missouri valleys: Generally fair; temperatures near normal, but with probability of local rains in middle of the week. Rocky mountain and plateau regions: Generally fair, normal temperatures, but with probability of occasional showers in the mountains.

## A Lesson From The Stars

In the garden of a country home two men were talking. Near them sat a small boy, looking at the stars.

Said one of the men: "I am making a product that I know is the best in its class—and still I can't sell it."

There was a moment of silence. Then the second man called to the boy who sat near them. "Boy," he said, "if you had your choice of any of those stars up there, which one would you choose?"

The boy promptly pointed to the brightest star in sight. "That big one over there!" he said. "The man who had addressed the boy turned to his companion. "As a matter of fact," he said, "there are other stars in the heavens which the boy cannot see that are brighter and bigger than the one he has chosen. But did he know the other stars were there—and so he couldn't choose them. That's why your product isn't selling. People simply do not know it exists."

"I know what you mean," said the first man, "advertising. But I have tried advertising in the past twice or three times—and it didn't work."

His companion seemed preoccupied with the stars. "If I stand here and stare at the sky for a few minutes," he finally said, "I shall see, as shooting stars. It will spurt across the heavens for a second, and then it will die out. But the thousands of shooting stars every night. People pay little attention to them and they are instantly forgotten. That's the kind of an advertiser you are."

"The pole star," continued the speaker, "has stayed on the job so long and so faithfully that its very name has come to mean a stable, controlling principle. And that's the way to advertise. There are certain products today whose names are repeated as a guide to satisfaction and a controlling principle of quality. They are the pole stars. In this present economic situation it is the job stars that are doing the business."

## Remove Gum From Flax.

A process has been perfected in Stockholm for removing gum and other waste matter from flax straw before it is dried and sent to Europe for manufacture into their articles.

# Wright's A GOOD PLACE TO TRADE

# The Story of Arch Preservers

As Told By the Manufacturer In Their National Advertising  
An interesting story of a wonderful innovation in shoe manufacture. We are the exclusive agents in Twin Falls. Our shoe clerks know Arch Preservers and how to fit them. We carry a complete size range in the best selling numbers. Come in and let us tell you about them.

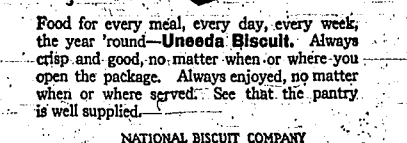

Right now while you have good feet you should take care of them. You can't have comfortable feet unless you continue to wear ordinary shoes with sagging arches. Arch Preserver Shoes with the concealed arch bridge keep your feet free of all strain, and let you walk or stand as much as you wish. The built-in arch makes Arch Preserver Shoes different—and better. They combine Nature's comfort with good style. Come in and get acquainted with real comfort.

Are Your Feet Older Than Your Body? If your feet ache and weary you, then they are annoying you more rapidly than your body. They need the protection of correct shoes, and they need to be on Arch Preserver shoes. Their built-in walking base which Nature demands, will keep your feet young and vigorous—and comfortable. They are always in good style, giving your feet a trim, well set-up appearance. It's just as easy to have foot comfort as to have foot annoyance.

## Don't Slip Off Your Shoes!

You don't have to slip off your shoes to relieve your feet, because it is not necessary to wear incorrect shoes that cause foot annoyance. Your feet are made to walk on a solid base, and Arch Preserver Shoes build this built-in arch bridge, give such a base. They make you forget all about your feet—because there can't be any strain on the arch of the foot. And the good styles are all the more charming in these times, because your feet are always held erect and trim. Let us show you Arch Preserver Shoes.

Food for every meal, every day, every week, the year 'round—Uneeda Biscuit. Always crisp and good, no matter when or where you open the package. Always enjoyed, no matter when or where served. See that the pantry is well supplied.
