

DRY LAND CROPS NEED MOISTURE

Intense Heat and Uninterrupted Sunshine Force Growth in Irrigated Sections

high range continues generally good and livestock are reported in good condition and making satisfactory gains.

Notes from the Field

North Idaho: The weather continues hot and very moist near the close of the week when it was cooler; all grain and crops and pastures benefited by drought, although light showers occurred in midweek in the northern counties; all fruits good; oats poor; wheat fair to good; harvest beginning; no storage; some hot winds.

Idaho: All counties: Crops are growing rapidly where well irrigated, but rain is needed to keep pastures and ranges in good condition.

Twin Falls, Twin Falls county: First of week clear and hot but closing rainy; all crops doing fine, nearly as big as stalk; high wind Friday.

Malin, Owyhee county: Sunshine all week; crops growing nicely; a good rain would be very desirable; pastures and range doing well; hay in full operation.

Geneva, Bear Lake county: Very hot weather all week; no rain; grain hurrying up; range drying very fast; alfalfa hay; beans; fair crop; livestock in fine shape.

Pringle, Blaine county: Very favorable for all crops; apple thinning being done where needed; cherries being picked; early potatoes looking fine; lettuce growers getting around in shape for planting.

Montpelier, Bear Lake county: We had a nice shower the middle of the

week which freshened things considerably and cooled the atmosphere, otherwise the week was dry and hot with drying winds, although the nights have been generally cool and pleasant; spring seeding suffering from lack of moisture and will not make without rain; fall seeding is not suffering so badly, but the yield will be light unless we have some moisture in the very near future; ranges are becoming quite dry.

Cajon, Adams county: Pastures and range excellent; temperatures rather high.

Captain, Boundary county: Temperatures almost normal; good shower Friday night.

Idaho Springs, Blaine county: Week dry, hot and smoky; high wind Saturday; crops needing rain; hay in full swing.

Wilder, Washington county: Week unseasonably hot; all grain in good condition; potatoes about ready to dig for early shipments; cherry picking in full swing.

Highfield, Latah county: Hay in full swing, good yield but hard to cut on account of being down; strong wind; latter part of week interfered with stacking.

Burley, Cassia county: Relief from extreme heat the last two days gives farmers a chance to catch up with irrigation; hay doing well along with a good yield of fine quality hay.

Abbotsford, Bligham county: The week has been hot and dry; alfalfa hay cutting and stacking has been going on steadily with very favorable weather

for the work; crops all doing well, but requiring lots of water.

Bliss, Gooding county: First cutting of alfalfa in strack; good yield of good quality hay; potatoes in bloom and doing nicely; grain growing well; winds drying soil rapidly; heat for part of week was damaging to crops.

Murtaugh, Twin Falls county: Alfalfa mostly stacked; beans and potatoes growing rapidly but due to rapid loss of soil moisture are requiring frequent irrigation; last three days very windy causing wheat to lodge where newly irrigated.

New Meadows, Adams county: Clear warm weather prevailed which hastened growth of meadows and favored farm work; extensive preparation for haying which will be general next week; prospects for a good average crop showers needed for grain; mountain range good and stock doing well.

Parma, Canyon county: A warm week, but nights a little cooler; first grazers well up with their work; winter wheat and barley being cut; pastures getting short; grain and potatoes hurt some by hot weather; fruit doing well; apple thinning full swing; farmers busy getting ground ready for fall lettuce.

Lowland, Nez Perce county: Dry, hot week with some hot winds; all wheat in valley and lower uplands has been harvested; most fields fair to good, but some poor; growth of vegetation at standards except where irrigated; irrigation water very short and restrictive measures in effect. Maximum temperature 109 on the 3rd.

Conversational Cement.
As you say, Aurelin, honeyed words are often used to mend broken promises.—Boston Transcript.

Illnesses and Constipation
For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Peppin preparations and medicine only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the bowels at once, strengthen the digestive functions, holding the system to its work naturally. Write Mrs. Ross Potts, Birmingham, Ala.—n.v.

DECLARES POLL TAX LAW CAUSE OF MANY EVILS

President of Northwest Sheriffs and Police Association Criticizes Statute in Effect in Washington

COEUR D'ALENE, Idaho, (AP)—Characterizing the poll tax law of the state of Washington as being responsible for hundreds of acquittals in criminal cases in that state, L. S. May of Seattle, president of the Northwest Sheriffs and Police Association, made a bitter attack upon the poll tax law at the keynote speech of the joint convention of the Northwest association and the Idaho State Sheriff's association here Thursday.

"The poll tax law in Washington has forced upon the public and the judicial system of the state a horde of criminals and incompetent jurors," said Mr. May. "Any man or woman who pays the poll tax is liable for jury duty. Young men of immature years and transient who have no interest in the enforcement of the law are thus called for jury service. For this reason, if for no other, the poll tax law should be repealed immediately."

Effect Declared Said
Mr. May also touched upon the parole system and the giving of suspended sentences. "To seal the presence of a suspended or paroled criminal in a community has had effect upon the youth of the community and was a cause of juvenile delinquency. It also acted as a pension system for idle officers."

He stated that 40 officers have enrolled for the institute of criminology which will be opened August 1 in Seattle under the auspices of the association. According to Mr. May the institute will also offer extension courses to officers unable to take the classroom work.

INSPECT SITES FOR HOSPITALS

Prospective Locations for Government Institutions Examined by Federal Man

SPOKANE, (AP)—Prospective sites in this vicinity for government hospitals which will be opened August 1 in Seattle Thursday by Col. Charles R. Forbes, head of the United States veterans' bureau, who arrived here from Tacoma, on a tour of the Pacific coast, at 10 o'clock Thursday. Col. Forbes visited the E. Lewis Clark estate on Hayden lake, Idaho, 30 miles east of here, and said that he would visit Fort George Wright, near here Friday. He said that while he has not been informed of any intention on the part of the war department to abandon Fort Wright as a military post, he wishes to be informed concerning its adaptability for use as a hospital in case it should be given over for military use.

J. B. Mikkelsen, assistant director of the veterans' bureau; L. C. Joseph, manager of the Thirtieth district of the veterans' bureau; and other members of Colonel Forbes' party, accompanied the local branch of the veterans' bureau and the county tuberculosis hospital Thursday.

BANKERS HEAD WEST

Six Hundred Financial Institution Officials and Wives Reach Spokane En Route to Portland

SPOKANE, (AP)—More than 600 American bankers and their wives left here late Thursday night for Seattle on their way to Portland, where they will attend the convention of the American Institute of Banking. The party is traveling in a special train of four Pullmans.

The visiting bankers arrived in Spokane early Thursday afternoon and were met by automobile drivers through the surrounding country. Year by year summer resorts where they could indulge in bathing proved particularly delightful to the visiting financiers. A dinner and dance given in honor of the visitors by the local chapter of the institute occupied the evening.

COTTON TARIFF IN HOT DISPUTE AMONG SENATORS

First Real Split in Republican Ranks with Respect to Administration Bill May Take Some Days to Heal

WASHINGTON, (AP)—The first real split in republican ranks over the administration tariff bill came Thursday during consideration of the cotton schedule with a result that the conservative administration proposal increased rates on various kinds of yarns and on silver and roving were rejected one after another as fast as they were reached. The majority opposition was led by Senator La Follette, of Wisconsin, and reached its maximum strength on the first roll call as 22 republicans opposed the committee rate on a roll call which the amendment was rejected, 22 to 24.

The 22 republicans were, Benah, Capper, Cummins, Jones of Washington, Lenroot, McCormack, Nelson, New Norwick, Sterling, Townsend and Will. The tariff schedule was agreed upon by amendment was nine, with the average running at 10. With a slight exception on each roll call, the democrats voted solidly against the proposed increase.

With the basic duties on yarns reduced, it was predicted that cuts in the rates on at least the lower grade cotton cloth of even greater proportion than recommended Wednesday by the finance committee majority would be made as the debate proceeded with the schedule. That probably will be some time next week, as the schedule is to be laid aside Friday in favor of the ocean embargo provision of the bill. "A vigorous fight over it is forecast."

The Old Nantucketer.
The Nantucketer, he alone resides and tins on the sea. There is his home; there lies his business, which a Nant's blood would not interrupt though it overwhelmed all the millions of China. He lives on the sea, as private captives in the galleon; he hides among the waves, he climbs them as elms on waters' 'ellab the land. For years he knows not the land, so that when he comes to it at last, it smells the most vilest, more strongly than the moon would to an Englishman. With the landless gull, that at sunset folds her wings and is rocked in sleep between billows; so at nightfall the Nantucketer, out of sight into the "Tinie" sea, and again to his rest, while under his very pillow runs herds of wretches and whites.—Herman Melville.

ENORMOUS SPUD CROP INDICATED

Idaho's Potato Production Jumps Three Million Bushels Over Last Year

Idaho's estimated potato production for 1922 is 13,664,000 bushels, an increase of more than three million bushels over last year's record yield, says William Jacobson, statistician for the Idaho crop reporting service, in his report for July. Acreage planted this year totals 79,000, an increase of 22,000 acres or 28 per cent over 1921, and the largest reported in the state since records have been kept in this state. The estimated United States potato crop is 238,600,000 bushels, or 18 per cent harvested, will be the second largest in the history of the country. In 1917, a crop of 442 million bushels was harvested.

Last season Idaho ranked fifth as a potato shipping state with a total movement of 14,641 cars and was exceeded only by Maine, Minnesota, Colorado and Michigan. The earliest movement in Idaho amounted to 83 per cent of the total 1921 crop. If present conditions hold up and there is a like demand, 18,000 cars should roll this season.

The July 1st condition of 92 per cent of normal, however, is six points below that of a year ago and one point above the 10-year average. A backward spring delayed planting and inferior seed has resulted in reduced stands of 15 to 20 per cent in many fields.

The early district, centering around Caldwell, which covers about 10 per cent of the total, shows the heaviest increase in acreage, it being 64 per cent greater than last year. Shipments in this district were 1,000,000 bushels in 1916-1917 to 2,500 cars last season. In the northern counties the acreage has increased 15 per cent; Rupert, to 341, 33 per cent; Pocatello north 40 per cent, and Pocatello east and south, 53 per cent compared with last season.

All the principal potato producing states show substantial increases in acreage this year, North Dakota leading with 75 per cent over 1921. In the early potato district of Kaw Valley, Kansas, the acreage is 17,600 or 1600 acres more than last year. Condition July 1st was 75 per cent of normal compared with 80 per cent in June. The heat wave in mid-June was followed by daily rains from June 28th to July 3rd, and there is now danger of scanty growth. Acreage in the Kearney, Nebraska, district has increased one-third over 1921. Shipments last season were 600 cars and the estimated this season is 1,000 cars. The crop in these two districts is now moving in carload lots and will compete with our Old-western district which shipping will be active about July 20th.

Following is a list of important points:

A Splendid Medicine for the Stomach
"Chamberlain's Tablets for the stomach and liver are splendid. I never tire of telling my friends and neighbors of their benefits."—Mrs. William Volmer, Eastwood, N. Y. When bilious, constipated or troubled with indigestion, give them a trial. They will do you good.—adv.

ROGERSON HOTEL PHARMACY "Service—Quality" G. P. KENNEDY, Mgr.

Info. states showing the average in past 10 years, condition, and net estimated production July 1st:

State	Average per cent	Condition	Production Percent
Maine	107.84	84	23,515,000 bu.
New York	104.88	84	3,712,000 bu.
Pennsylvania	105.01	81	24,985,000 bu.
Michigan	107.02	82	37,162,000 bu.
Minnesota	104.90	81	21,283,000 bu.
Wisconsin	110.00	80	42,905,000 bu.
North Dakota	175.92	92	18,900,000 bu.
Colorado	109.86	86	18,550,000 bu.

The total crop is estimated at 23,810,000 bushels a decline of 622,000 from June 1st. Winter wheat condition July 1st was only 78 per cent of normal, the lowest since 1918, when it was 72 per cent the same date. A year ago it was 100 per cent, while the 10-year average July 1st condition is 88 per cent of normal. A crop of 64,500,000 bushels is forecast compared with 61,270,000 harvested in 1921. Spuds wheat declined 3 points from June in 88 per cent of normal. A year ago it was 97 per cent and the 10-year average is 86 per cent. Indicated production is 15,050,000 bushels. Heat and drought the last half of 1921, and a detrimental in northern counties are all non-irrigated districts. Wheat on the Rexburg Bench in Madison county is still holding up. Minnesota, 74 per cent, or 1,653,000 bushels of last year's 27,070,000 bushel wheat crop remained on farms July 1st, compared with 7 per cent, or 1,652,000 bushels, a year ago.

The nation's wheat crop is estimated at 817 million bushels, having been decreased by 38 million bushels since July 1st. The 1921 million bushels harvested last year only 4 per cent, or 31,641,000 bushels, remains on farms, as compared with 15,000,000 in July 1st, 1921, and 33,442,000, the five-year average, 1010-1020.

Oats and Barley
Both oats and barley suffered from heat and drought in all non-irrigated districts. The estimate for oats is 6,817,000 bushels against 7,740,000 bushels harvested in 1921. A condition 88 per cent of normal compares with 95 per cent a year ago and equals the 10-year average. Barley produces a crop of 2,921,000 bushels against 2,787,000 bushels harvested in 1921. Condition is only 87 per cent of normal compared with 93 per cent a year ago and 85 per cent the 10-year average.

Farmers in northern, western and southern counties have increased their corn acreage by 10 per cent over last year for a total of 52,000 acres. The forecast is 1,842,000 bushels, assuming all will be cut for grain. A condition of 92 per cent is 6 points under a year ago because of the late start this spring. Hot weather at present is causing rapid improvement.

Hay
In northern counties the hay crop has suffered severely while in western counties alfalfa growth has reduced yields. Hay shipping will be active and in condition from last month to 80 per cent of normal July 1st. Production is estimated at 2,535,000 tons against 3,180,000 tons harvested in 1921.

Fruit
Apples improved 3 points during June to 81 per cent of normal, forecasting a production of 4,275,000 bushels. A year ago the condition was 76 per cent while the 10-year average is 72 per cent. Last year's production was 4,400,000 bushels. Peaches show a condition of 66 per cent of normal compared with 51 per cent a year ago and a 10-year average of 58. The estimated production is 220,000 bushels compared with 150,000 bushels harvested in 1921. Peaches are flourishing in all districts. Condition this month is 90 per cent of normal compared with 80 per cent of normal July 1st.

DOAK HURLS ONE HIT GAME

Cardinal Spittballer Holds Phillies to Infield Single—Cubs Win from Giants

ST. LOUIS, (AP)—Bill Doak, the Cardinals' star spittballer, shut Philadelphia with one hit here Thursday. The only hit for the Phillies was an infield pop to Pontare by Walker in the seventh, on which Doak fisted a curve first. It was his second one-hit game of the year. Earlier in the season he held the Giants to one out. It was also the third time in Doak's major league career that a fluke infield hit spoiled him of a no-hit game.

CLEVELAND TAKES ANOTHER

Put Red Sox Back in Cellar When Lindsay Pitches Shut Out Ball

BOSTON, (AP)—Tim Lindsay, relieved Ullis at the sixth inning Thursday and held Boston to one hit for the rest of the game, which Cleveland won. The two winning runs were scored in the eighth when the bases were full and two out. J. Sewell hit to Burns, who threw to W. Collins. The Red Sox pitcher collided with Sewell and first base foot was injured, but Sewell was ruled safe.

GIANTS SUBDUED

CHICAGO, (AP)—Chicago staged a battling win in the twelfth inning and defeated New York. In addition to losing the game, the Giants lost the services of Helene Groh, who returned to the lineup Thursday after being out more than a month because of an injured knee. In attempting to field a ball by O'Farrell in the twelfth inning, Groh turned the same knee and had to be carried off the field.

TIGERS SLIP ANOTHER COG

PHILADELPHIA, (AP)—Philadelphia Thursday defeated Detroit. Howard Ehmke was pitched for 13 hits, including a pair of triples and doubles. Ehmke made home runs in the sixth and eighth, running his total to 16. Venice also hit a home run.

VANGS STOPS REDS

CINCINNATI, (AP)—The Reds failed to hit Vance at timely moments Thursday, when Gouch was batted freely, when his niece, Ruth, and Brooklyn went to 3, stopping the winning streak of the Reds. Mitchell hit a home run in the fourth inning, scoring a man ahead of him.

FINAL PRACTICE SCHEDULED

Alworth's Men Bounding Into Shape for Game with Kimberly on Sunday

The final practice preparatory for the Sunday game at Kimberly will be held this evening at Lincoln field. Manager Alworth has been putting his men through a hard routine this week in an effort to have the local lads in A1 condition for Kimberly's battle. All the old favorites will be on deck, although there may be a little change in the line up. In all probability, the line up will consist of: Alworth at the initial snek with Livuliffe or Oliver on the mound.

EDEN WINS FROM PAUL IN 14 INNING CONTEST

Modrill Wins Great Pitchers' Battle for Quark's Longest Game of the Season

PAULI, Idaho, (Special to The News)—Eden defeated Paul by the score of 5 to 1 on the local grounds last Sunday in a game that required 14 innings to decide. With both teams at a dead heat after nine innings of play, five more innings were necessary to find a winner.

WILLARD RECEIVES OFFER

Former Champion Asked to Consider Open Air Boat in August in Portland, Ore.

LOS ANGELES, (AP)—Jess Willard, former heavyweight boxing champion, Thursday received a telegram from Capt. Harry Hansen, manager here for the Portland, Oregon, municipal health commission, inquiring if he was "available for a date in August to meet some local heavyweight in a ten round bout in an open air show in the Establian park, under the auspices of the commission."

PLAYERS WILL COMPROMISE

Walter Schmidt Star Catcher, Pitcher Up Differences with Pittsburgh Nationals

STAR PITCHER, (AP)—Walter Schmidt, star catcher of the Pittsburgh National League baseball team, has come to terms with the team management and will leave for the east next week to join the club, then later see Yosemite valley where Schmidt is visiting, announced Thursday.

ESTABLISHES NEW RECORD

LOS ANGELES, (AP)—Clarence Wagner, 25, amateur bicycle racer, completed the last lap of a transcontinental ride here Thursday. His time from New York was 23 days, 20 hours and fifteen minutes, which exceeds more than six days from the previous pedaling record of 25 days.

FAVORITE LOSERS AT HOLEDOWN WINS FRONTIER HANDICAP

Peter Coley Takes Main Event of the Grand Circuit with Eleventh Hour Rally in Last Two Weeks

TULEDO, (AP)—Peter Coley, A. K. A. Dorsey's Findlay, Ohio, gelding, won the Main Event feature event of the Grand Circuit card here Thursday by mosing out Nedda, the favorite in the first race. In the first race Nedda overtook the field at the quarter post, after a bad start and pulled away for a length. In the final heat Nedra Fleming held Nedda for a stretch finish, but the mare was unable to overtake the Findlay gelding in the final second. Four heats were necessary in the 2:10 race which was won by Parker Boy. Post's Greer was his first race in the "Big Game" in the second heat. Nedra Argol paid \$60.00 on a 4 to 1 ticket. The 2:14 trot went four heats before it was won by Hollyraed Hilda.

THROUGH WITH SWIMMING

Famous Hawaiian Declares All Talk of Matched Race is Nonsense Now and Always

LOS ANGELES, (AP)—"I am through with competitive swimming forever," announced Duke Kahanamoku, Hawaii's swimmer, here Thursday.

PERMIT FINALLY GRANTED

JERSEY CITY, (AP)—Following a verbal battle which threatened at one time to develop into a physical clash between Tom Rickard, fight promoter, and Herbert Clark Gilson, counsel for the Anti-Prize Fight church association, Rickard Thursday was granted a license and permit to stage the Benny Leonard-Clark Gilson lightweight championship contest in this city on the night of July 27.

BURCH IS SAVED FROM TESTIFYING

Co-Defendant in Obenchain Trial Has Narrow Escape from Witness Box

LOS ANGELES, (AP)—Arthur C. Burch, co-defendant with Mrs. Madejyne Obenchain on trial for the murder of J. Bolton Kennedy, was called as a witness by the prosecution Thursday, but on objection by his counsel, did not testify.

Burch, who is charged with having shot Kennedy at the investigation of Mrs. Obenchain, faced her from the witness chair as she sat at the counsel table, but no sign of recognition passed between them. He replied to a question of why his name, after writing, could not be objected to his testifying unless the indictment against him was dismissed. When the prosecution stated it would not, the witness, Burch, was excused.

The principal witness Thursday was Paul J. Ryan, counsel who previously testified that several conversations took place at the county jail and in letters written to him while he was in Polson prison. Mrs. Obenchain's counsel has him give false testimony for her.

The defense introduced two more letters which Ryan identified as having been written by Mrs. Obenchain while she was in Polson prison.

One of them had been written pending his escape from writing a romance which would be constantly with you and my thoughts are always of you and also dreams. And besides I am utterly lonely and blue.

PRESIDENT TAKES

(Continued from Page One)

The president also received Thursday a letter from Postmaster General Work stating that a survey just completed showed that 50,000 motor vehicles could be made ready in 24 hours to carry the mails in event the railroads found it impossible to do so.

May Use Airplanes

Supplementing this the aeronautics chamber of commerce of America, with headquarters in New York, notified Dr. Work that it was prepared to mobilize into an aerial mail fleet all commercial airplanes in use in the United States and that such a fleet would be capable of transporting eight million first-class letters daily.

The bureau of aeronautics of the navy, also in New York, stated it had at its disposal hundreds of land and seaplanes scattered in squadron units from Newport to San Diego which it was ready to put into the air carrying mail or other commodities.

STRIKE BALLOT VOTED

CINCINNATI, (AP)—The station committee and freight handlers on the Big Four railroad system numbering, it is said, approximately four thousand, are taking a strike ballot, it was reported Thursday by officials in headquarters of the clerks' union here. Officials of the union refused to comment on the strike ballot saying that the matter was in the hands of the general chairman.

NO STATE TROOPS TO BE USED

DALLAS, Texas, (AP)—State troops will not be ordered out to protect property of the Missouri, Kansas and Texas railroad in Texas, "at this time," Governor Pat M. Neff said here Thursday night, after receiving the telegram of Secretary of War Weeks relative to the railroad strike situation at Denison.

ASK PERMISSION TO STRIKE

MARLBORO, Texas, (AP)—Three hundred members of the "big four" brotherhoods here Thursday night appealed to their executives for permission to strike in the event of a general railroad strike. The men ask for permission to go out by July 20.

ASK GOVERNOR'S PERMISSION

RENO, Nev., (AP)—President C. M. Levy of the Western Pacific railroad appealed Thursday to Governor Boyd for permission to arm guards at stops and stations along the Western Pacific.

He said state authorities had forbidden guards to carry weapons in Nevada. The governor received a written opinion from Deputy Attorney General Robert Richards that it was the constitutional right of citizens to protect their property and that the arming of guards on railroad property was not illegal.

SUPPORT IS PROMISED

WASHINGTON, (AP)—Presidents of international unions and of the various American Federation of Labor departments here met Thursday with President Robert Gompers to discuss the railroad strike and, according to later announcement, to determine in what

manner the most effective assistance could be rendered.

"It was made clear in the conference by President Gompers," the statement said, "that the full strength of the American Federation of Labor was behind the strike and that every possible effort will be made to bring about its success."

SERVICE CURTAILED

BALTIMORE, (AP)—Declaring its inability to get assurance of protection to the lives of employees and property of the Chesapeake and Potomac Telephone Co., important points on the Chicago division on the road affected by the shompen's strike, the Baltimore and Ohio railroad has announced a temporary curtailment of its passenger service "through the territory affected by these conditions."

TROOPS ARE SENT OUT

ST. LOUIS, Mo., (AP)—Four companies of the 138th Infantry, Missouri National Guard, late Thursday departed for the Poplar Bluff, where requests have been made for troops in view of events in connection with the shompen's strike. The troops departed on a Missouri Pacific train which had been held near the army all day.

ROUNDHOUSE CREW OUT

MUSKOGEE, Okla., (AP)—The entire roundhouse crew of the St. Louis and Muskogee, Okla., railroad, here went on strike Thursday in sympathy with the striking shompen. The walkout, according to officials, will seriously hamper service.

Unless men can be hired by Friday morning to replace the roundhouse strikers service on the branch from Fayetteville, Ark., to Okmulgee, officials say. The strikers include engine wipers, firemen and laborers. Thursday there was no one at the roundhouse except a clerk and the general foreman.

EMPLOYE EMBARRASSED

MUSKOGEE, Okla., (AP)—Frank Owens, employed at the Missouri, Kansas and Texas shops here was seized by a band of about 20 men said to be strikers who was beating duty late Thursday. He was beaten over the head and carried away in an automobile. There were five cars in the kidnapping party, it was said. All available police officers were sent in pursuit.

Sulphur Peculiarity

Yellow sulphur melts on heating, but if the heating is continued and the temperature increased the molten mass hardens and becomes solid, malleable and is finally converted into a gas. This peculiar behavior of sulphur is of the greatest significance from an industrial and technical standpoint. It has made it possible to mine it under the most unusual circumstances, a feat which would, under other conditions, have been impossible.

L. Zinn and Lester Rivera, guards, charged with assault with intent to commit murder.

CONTENTIONS IN WILL CASE ARE DISPOSED OF

LOS ANGELES, (AP)—Glenda Swanson, motion picture actress, and Mrs. Matthew Burns, her mother, did not dispute the will of the late Mrs. Swanson. The will of the late Mrs. Swanson was held by Judge Dyer. Mrs. Swanson's mother had not complied to secure the marriage of the letter-writer with Burns. This disposed of two of the contentions raised by relatives of Mrs. Swanson's will, and left only the question of the competency of Mrs. Burns at the time she made the will to be determined.

TWO OUT OF THREE BILLINGS IN FAVOR OF MOVING PICTURE ACTRESS AND MOTHER

LOS ANGELES, (AP)—Glenda Swanson, motion picture actress, and Mrs. Matthew Burns, her mother, did not dispute the will of the late Mrs. Swanson. The will of the late Mrs. Swanson was held by Judge Dyer. Mrs. Swanson's mother had not complied to secure the marriage of the letter-writer with Burns. This disposed of two of the contentions raised by relatives of Mrs. Swanson's will, and left only the question of the competency of Mrs. Burns at the time she made the will to be determined.

FEDERAL TROOPS ROUTED

Rebels Defeat Attacking Forces Numbering 1000 in Bagmati Battle Near Moscow

PHLEBOTOMY FLYING RAPIDLY

One of the highest forms of reproduction life which flourishes in prehistoric times was the phlebotomy, the huge flying reptile which, in view of the scarcity of birds in those days, used to prey on the domain of the air. A mature phlebotomy possessed a wing spread of 20 feet, and a toothless head, more than a yard long, and as sharp as a dagger. The structure of the phlebotomy was of extraordinary strength, and it was able to carry a weight of 100 pounds, and the entire weight of the living creature, according to leading scientists, could not have exceeded 200 pounds. The remains of the phlebotomy have been found in America, but they were apparently most numerous and in the most curious forms in what is now Europe.
