STUBBORN FIRE TAKES TOLL OF SEVERAL LIVES

Two Firemen Killed and Three Missing—Many Residents of Section Injured by Series of Strange Explosions

NEW YORK, July 18. (AP)—A stubborn, puzzling warehouse fire in the Greenwich village section of the city broke out about 10 o'clock this morning, burned throughout the day and was still blazing tonight after nearly 4,000 gallons of water had been played on the flames by 40 hose lines.

"The toughest fire I've ever encountered," declared the acting chief "Sucky Joe" Marjani put it to Mayor Hylan when he returned to direct him, after having been blown out of a door way by one of a series of explosions which rocked the lower West Side.

With the flames checked but not extinguished, investigation showed that two firemen had been killed, three more missing, and about 15 persons had been taken to hospitals seriously injured and more than 100 had received first-aid treatment at three emergency stations opened by the Red Cross. In addition, about 500 families were driven from their homes in the Bohemian quarter and tonight were barred by the police from returning, lest the war-torn walls collapse.

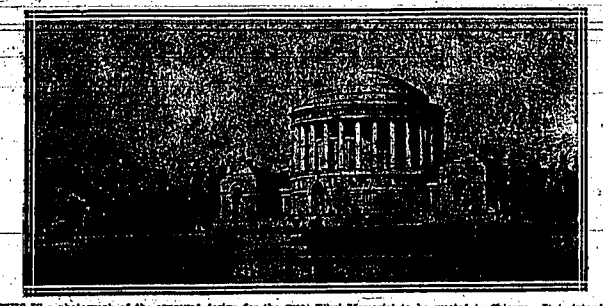

The outstanding feature of the fire was the mysterious, pungent black smoke that rolled out of the building soon after the first of the blasts.

Smoke Hampers Firemen. It came in never-ending clouds, settling down about the base of the store, house and blinding the fighters so that they could not see the flames they were combating. Though the flames were blazed down until late in the afternoon when a thunderstorm broke, the firemen found it black as midnight, and rigged great searchlights in their effort to penetrate the engulfing darkness.

Policemen were sent through the millling thousands who had gathered to watch the blaze, paging officials of the Manufacturers Trust company, operating the six story warehouse.

One story which particularly attracted the attention of the investigators was told by Dr. Anthony Faone, a dentist who lives opposite the warehouse. Incendiary Suspected. Parsons, who turned in the first alarm, asserted that just before the first explosion he had seen a man with a package in several boxes and then emerge. He advanced the theory that incan, diaries had started the blaze.

WITNESS' STORY INDICATES DEATH LIST MAY GROW

Killing Into Circumstances of Off's Party Near Cliffonville Brings Out New Facts

WELLSBURG, W. Va., July 18. (AP)—The latest into the deaths of Sheriff H. H. Duval and three other men killed in the attack on the Clifton mine, near Cliftonville, yesterday, was adjudged today until Monday, when it became evident there was some confusion in the mind of a foreign witness who was testifying, through an interpreter.

Deputy sheriffs who took part in the fight were other witnesses. George Caldwell, a Wellsburg business man, testified that the "Haywards" ruled down the hill firing and yelling and drove the deputies to cover. They were subjected, he said, to a heavy fire from the tent colony.

High J. Radcliffe, another deputy, started the jury by declaring that he had seen six dead during the fight. The official account of the deed is that Sheriff Duval and three of the attacking party.

Explosion Nearly Causes Collision in Pacific Fleet

Break in Steampipes on Battleship Now York Responsible for Narrow Escape

PORT ANGELES, Wash., July 18. (AP)—Exploding steam pipes on the battleship New York scalded one man, rendered 12 others unconscious and nearly caused a collision between the destroyer and the battleship. The incident occurred at the fleet maneuvers returning to this port from the coast.

The explosion took place in the boiler room underneath the New York's steering engine. When her rudder helpless the big battleship swerved toward the starboard where the destroyer was steaming in column.

Most of the deck aboard the McDermott prevented a serious accident. Burket turned his ship hard to port and the battleship missed it by only a few yards.

SIX EMPLOYEES BEATEN AND ATTEMPT MADE TO WRECK TEXAS TRAIN

Statement by Railroad Officials Predicts Serious Troup of the Freight Movement.

DALLAS, Texas, July 18. (AP)—Six employees of the Missouri, Kansas and Texas railway lines in Texas were beaten, an attempt was made to wreck a Katy train between Gresh and Rockwall, and a serious loup in freight movement is fast approaching in Texas, according to an announcement late today at the general offices of the Katy and Texas and Pacific railways in Dallas.

Declares "Drummer" Will Be as Extinct as Far Famed Dodo

Innoculation of the Merchandise Fairs Expected to Eliminate Traveling Man

NEW YORK, July 18. (AP)—The American "drummer" is doomed soon to become as extinct as the dodo or the bustle, Louis E. Pierson, president of the Merchants' Association, predicted today in an announcing plan for the National merchandise fair, to open in New York August 7.

Such fairs, patterned after the European or Leipzig system, will permit merchants particularly to draw and channel the goods of competitors, thus eliminating the need for "drummers" or traveling salesmen, said Mr. Pierson.

MANY OFFICERS TO BE LET OUT

Sweeping Reduction Necessary by Congressional Appropriation Cut

WASHINGTON, July 18. (AP)—Regulations to govern the separation of hundreds of regular army officers from the active service before the end of the year, as required by congress in the active service bill, were made public today at the war department.

"In accomplishing the required reduction," the circular states, "the interests of the government will be paramount to those of individuals. It is essential that the most effective officers be retained."

The regulations direct that so far as practicable, "all separations and reductions are completed by December 15.

The circular emphasizes that the reduction must be sweeping, as there were 2510 surplus officers on the rolls June 30, compared to the number in grade fixed by congress to become effective Jan. 1. It is estimated that more than 1700 colonels, majors, captains and first lieutenants must be discharged, notified or otherwise separated from the service.

CONDEMNED MAN AND HIS JAILER SHOT TO DEATH

Pistol Duel Staged in Cell of Convicted Murderer Costs Lives of Two Principles in Mississippi Town

JACKSON, Miss., July 18. (AP)—Russell Harris, jailer of Hinds county, and Henry K. Bond, condemned murderer, are dead as the result of a pistol duel they engaged in on the third floor of the county jail here. Bond had been held here for safe keeping pending his execution set for next Friday.

The shooting occurred two hours after Bond's wife and two relatives had visited him in his cell. They were later taken into custody for questioning.

The attack on Harris was the condemned man with his dinner. As the jailer looked the cell door Bond sprang forward and placing a pistol against Harris' breast fired and turned to run. Though mortally wounded, Harris fired three shots, killing Bond instantly.

Harris picked up the prisoner's pistol, walked down two flights of stairs, looking each door behind him and then walked to the court house, climbed another long stairway and with his shirt aflame from Bond's pistol and blood spurting in a stream from his wound, calmly said to Sheriff Williams:

"Old Bond shot me and I am done for. I have locked up the jail and here are the keys."

He then sank into a chair and in five minutes was dead.

Details of the affair are lacking, but at last reports, the 70 man had not returned to work. Fowler is said to be on his way to Wallace with his prisoners, but will not arrive before tomorrow. He possibly may take them to St. Marcus or Avery.

Under Idaho state law the men would be charged with criminal negligence, it reports that they called the men from work are substantiated.

AVIATOR IS STILL MISSING

Clarence O. Frost Being Sought by Searching Parties Between Eagle and Fairbanks

DAWSON, Y. T., July 18. (AP)—Searching parties from Eagle and Fairbanks, Alaska, are scouring the wild, wooded country between the two towns today for trace of Clarence O. Frost, the aviator who started in his biplane from Eagle Sunday morning for Fairbanks, a three-hour ride, and has not been seen since.

RESTORATION OF RIGHTS OF STRIKING SHOPMEN IS MAIN ISSUE OF STRIKE SITUATION

E. F. Grable, Head of Trackmen, Declares Settlement Being Held Up by Attitude of Few Roads Who Decline to Reinstate Strikers with Full Seniority and Pension Privileges

RAILROADS STAND PAT ON DECISION TO RETAIN WORKERS NOW EMPLOYED

CHICAGO, July 18. (AP)—With E. F. Grable, president of the maintenance of way union, asserting that he did not expect his men to leave their work, conferences looking toward a peaceful settlement of the shopmen's strike continued today. Mr. Grable issued a statement tonight asserting that "the path to an early adjustment is open" so far as the 400,000 members of his organization are concerned.

President Harding last week, Mr. Grable said he had received assurance that the Pennsylvania railroad's interstate commerce committee expected to hold early hearings on disputed points of the labor controversy.

"The band for the guidance of the board in the present act is to set a 'just and reasonable wage,'" Mr. Grable's statement said. "The present issue which should be settled by such a hearing by the interstate commerce commission is the status and amendments to the law, is an interpretation of the phrase 'just and reasonable' and its application to a living wage."

Grable's interpretation. Mr. Grable said he interpreted the phrase to mean a wage which would permit a worker "living and rearing a family according to modest standards of health and decency, and employes in the grades above should receive differentials for skill, hazard and responsibility."

Mr. Grable said he advised the board of orders sent to his general chairman to open negotiations with their respective roads immediately regarding disputed rates, working conditions, and wages said to submit the case to the board if an agreement was not reached.

"The first of these things should be done this afternoon, being that of the Chicago, Milwaukee and St. Paul road. The carrier set adds the thirty-day clause in existing agreements for the filing of a dispute and Mr. Grable, stating that the board's decision for early hearings on this and similar matters, many of which will be consolidated.

MINOR CLASHES WITH STRIKERS ARE FREQUENT

Shopmen in New York District Give Evidence of Rising Temper—Deputy Marshals Warned by Chief

NEW YORK, July 18. (AP)—Minor clashes between United States deputies and striking shopmen in the New York district, led United States Marshal William O. Hecht to dispatch messengers to outside shops, warning his deputies to take any action which might result in violent disruptions.

"Remember that the government is not taking any side in this controversy," as between railroad employes and railroad companies, was the message. Hecht said the agreement of the United States marshal and his deputies is to protect the mails and interstate commerce."

Agreement Reached. The Pennsylvania today announced completion of an agreement with its 140,000 shopmen, maintenance of way men, clerks, signal-men and miscellaneous employes, which would advance pay and change the law on its system. Wages in all departments averaged higher than the railroad labor board's award, it was said.

James H. Kinney, general chairman of the Pennsylvania's striking shopmen, declared that the agreement "never will stand up." He asserted, however, that his men were against any "outlaw" strike, and that they would abide by the promise made by Grand Chairman Grable to the labor board and remain at work until ordered out.

MOUSE CAUSE OF DEATH OF TWENTY-SEVEN CATTLE

They Bored Holes Up Water Pipe and Animals Die of Thirst on Farmington Ranch

SPRAUCE, Wash., July 18. (AP)—One mouse caused the death of 27 cattle on the ranch of Robert Potts. The mouse became stuck in a water pipe leading from a spring to the pasture watering trough.

The animals died of thirst. Some crawled through a fence into another field in their desperate search for water, Mr. Potts said.

RIOT CALL SENT IN MUSKOGEE, OKLA., JULY 19.

A general riot call was sounded here tonight shortly after a squad of police, equipped with tear gas, rushed to a town street corner, where several railroad shopmen in a wrecked motor car were surrounded by a threatening crowd.

The crowd, apparently made up of sympathizers of striking shopmen, quickly swelled to several hundred. Irons and trunks were buried at the policemen. All the local national guard units are at Fort Bill, Okla., in summer camp.

ENGINEER FATALLY WOUNDED

WILMINGTON, N. C., July 18. (AP)—P. J. Shewell, Atlantic Coast line engineer, was shot and fatally wounded tonight by H. E. Dallas, yardmaster and special guard at the Atlantic Coast line station here.

GOVERNORS ARE ASKED TO HELP BACK PRESIDENT

Harding Wires Executives of Coal Production States Requesting That They Second His Invitation

WASHINGTON, July 18, (AP)—Governors of 28 coal producing states were called upon by telegrams sent them today by President Harding to "second" his invitation to miners and operators to resume coal production and to give them "assurance of maintenance of order and the protection of lawful endeavor."

The president said he wished to convey to the governors the assurance of the "prompt and full support of the federal government" whenever and wherever you find your agencies of law and order inadequate to meet the situation.

"Your state government and the federal government are responsible for conditions under which free men, willing to work, may work in safety. We are responsible for the production and the maintenance of a coal supply amply for the necessities of the American people and the public utilities which serve them, particularly the railways engaged in interstate commerce. We must have ample coal to maintain industrial activity; we must have the coal necessary to the health, security and the activity of all the people. It is important to you that we understand how far the federal government has gone in seeking a voluntary adjustment. Thus far there has been no challenge of the right of workers to decline employment or the right of the employers to hire as they elect."

Must Guarantee Security

"Our present duty is to guarantee security in the exercise of these rights, security in all lawful operations and to afford a safe opportunity for the production and distribution demanded by the necessities of the American people."

"It has been no government assumption of a part of the duties of those organized workers and organized employers. I did offer, the only available agency which I know of to effect settlement and these good offices have not availed."

"It becomes necessary, therefore, in the name of the nation, to invite protection in the fulfillment of that obligation which attaches to an American industry engaged in providing a public necessity and to afford security to all men alike who are ready and willing to work and serve the common good. No cause is so important as that of common welfare and there must be the suppression of every unlawful hindrance to the service of that cause. To the task of lawful protection and the maintenance of order, the federal government pledges to you every assistance at its command. (Signed)

"WARREN G. HARDING."

Governors Notified

The telegrams went to the governors of the following states:

- Governor: Kelly, Alabama; McRae, Arkansas; Shapp, Colorado; Hardwick, Georgia; Small, Illinois; McCray, Indiana; Hendon, Iowa; Allen, Kansas; Morrow, Kentucky; Ritchie, Maryland; Groesbeck, Michigan; Hyde, Missouri; Dixon, Montana; Mechem, New Mexico; Morrison, North Carolina; Newton, North Dakota; Davis, Ohio; Robertson, Oklahoma; O'Connell, Oregon; Sprunt, Pennsylvania; Miller, South Carolina; Taylor, Tennessee; Naff, Texas; Mabey, Utah; Trinkle, Virginia; Hart, Washington; Morgan, West Virginia; and Carey, Wyoming.

CLARA PHILLIPS DECLARED SANE

Woman Accused of "Hammer" Murder Passed Upon by Alienist and Physician

LOS ANGELES, July 18, (AP)—Mrs. Clara Phillips, indicted for the murder of Mrs. Alberta Meadows, underwent a "thorough physical examination" today, her attorney announced. The examination was made by a local surgeon after a long consultation held by the accused woman's counsel. The purpose of the examination, Mrs. Phillips' attorney said, was to determine whether or not she was sane and scratches on her limbs. These, the attorneys aver, were inflicted by Mrs. Meadows while she was struggling with Mrs. Phillips at the time Mrs. Meadows' life was beaten out with hammer blows last Wednesday.

Next in the day the alienist examined Mrs. Phillips for the district attorney's office and found her to be not legally insane. The defendant was arraigned today and will plead next Thursday. The prosecution said its case was complete but not quite ready for trial.

SHARP ATTACK ON NATIONAL GUARD MARINE MEASURE PATROLS TOWN

Administration Bill for Establishment of Merchant Marine Assailed

One Hundred Fifty Men and Machine Gun Unit on Duty in Waycross, Ga.

WASHINGTON, July 18, (AP)—The administration ship subsidy bill was attacked in the senate today by Senator Fletcher, democrat of Florida, former chairman and now ranking minority member of the senate-commerce committee, who said the bill had "provisions for subventions, indirect subsidies and direct bounties upon a scale never before contemplated. The Florida senator added that in his opinion it would at this time "be a mistake and most unfortunate for the country to enact this into law."

"Sale of shipping tonnage on long-line permits and government insurance for American ship operators was recommended by Senator Fletcher. Analyzing the pending bill, Senator Fletcher said it proposed to loan money to ship purchasers at rates lower than the government could itself obtain. He also thought that the Standard Oil, the United States Steel corporation, United Fruit, and other great corporations maintaining fleets of vessels, would under the bill, escape all taxes on their shipping property."

Suggests New Procedure

"If the chairman of the shipping board," Senator Fletcher added, "instead of furnishing arguments to congressmen and spending money on a public campaign to persuade voters of the country to favor this bill, would spend his time and devote his energies to persuade American ship buyers to buy ships, would be much more helpful in establishing an American merchant marine and much less costly to the American people."

EXPENDITURES BY GOVERNMENT BEING CUT DOWN

Treasury Statement for Fiscal Year Ending June 30 Indicates Sharp Falling Off in Disbursements

WASHINGTON, July 18, (AP)—Ordinary expenditures of the government during the fiscal year just closed fell off by \$1,208,000,000, as compared with the previous year, while public debt disbursements showed a decline of \$8,181,000,000, according to a statement of classified expenditures for the months ended June 30, issued tonight by the treasury.

For the past fiscal year, ordinary expenditures aggregated \$3,727,000,000, against \$5,116,000,000, the previous year, while public debt disbursements amounted to \$7,921,000,000, as against \$5,182,000,000 for the fiscal year 1921.

Interest Big Items

Interest on the public debt aggregated \$91,000,000, compared with \$209,000,000 for 1921, was the largest item of ordinary expenditure during 1922; the navy department with \$476,000,000, against \$680,000,000 for 1921 was second; the war department with \$484,000,000, against \$1,101,000,000, third, and the veterans' bureau with \$460,000,000, the being a charge against this item in 1921, was the fourth largest on the list.

Retirement of certificates of indebtedness to the amount of \$4,775,000,000 made up the majority of public debt disbursements, although there was a decrease of \$3,777,000,000 in this item compared with the previous year. Victory notes retired during the year aggregated \$1,908,000,000 against \$338,000,000 for 1921.

Liberty Bond Retirement

Retirement of Liberty bonds was as follows:

- First loan \$413,000,000, against \$508,000,000 in 1921; second loan \$6,000,000,000 against \$9,000,000,000; third loan \$138,000,000,000 against \$37,000,000,000; and fourth loan \$9,000,000,000 against \$20,000,000,000.

National bank and Federal reserve notes retired aggregated \$1,070,000,000 against \$377,000,000 the previous year.

Should Have Understood.

"When C. M. Blazell was in charge of the old Harlow railroad he issued an order that whenever a conductor received a cash fare he must give a receipt, and enter the amount on a stub. Very soon a committee from the conductors called and asked for more pay. Blazell inquired: "Why, boys, why do you ask for that now?" There was some hesitation and then the oldest committeeman said: "Mr. Blazell, you used to be a conductor yourself."

USCO set the high value mark for 30x3 1/2 tires when it originated the \$10.90 price last fall.

USCO today betters that mark with a new and greater USCO—an USCO improved in many important ways.

For instance, a thicker tread—with a surer hold on the road—thicker side walls, adding strength and life to the tire.

And the price is \$10.90—with the tax absorbed by the manufacturer.

Men have always looked to USCO for the best tire money's worth on the market.

CLOSE GAME GOES TO EDEN

JEROME DEFEATED IN GREAT PITCHERS' BATTLE; SPECTACULAR PLAY FEATURED

EDEN (Special to The News)—The Jerome baseball team came over to the location of the country Sunday afternoon with a determination to take back a few few leaves from the Garden of Eden, but the heat they could do was to win on the short end of a two to one score in one of the fustiest games ever played on the local diamond.

Askenfelter was on the rubber for the first time on the county, and pitched good ball, although the Eden swatters hit him often enough to win but were unable to bunch their hits.

Clyde Moultrie, throwing for the locals, was in mid-season form, and combined with almost perfect support, made the game well in hand at all times. Nino Jerome clouted the zone trying to straighten out his twisters.

The feature of the game was a fast double play in the sixth. With Byrnes of the defense on third and one out, Brooks hit a terrific roller at Bebout, the local first baseman. "B" touched first and threw to George Modrill, cutting off Byrnes at the plate.

Earl Jeffries in right field made two fine running catches, while Keeser, better long hit homers with the willow by palting out three out of four.

Shimminis, the visiting catcher, received a split finger in the seventh, and Leach took his place behind the bat.

The lineup:

Jerome	Pos.	Eden
Askenfelter	p.	C. Modrill
Shimminis	c.	A. G. Modrill

UNIVERSITY'S SELECTION OF COACH WINS PRAISE FROM SPORTS WRITERS

more than 12 to 15 men all told were available for the eleven.

"The basketball under his coaching will be held its own with any of the colleges and several times was among the runners-up for the championship. His baseball teams also were good."

"Matthews' work at Willamette attracted the attention of his alma mater, the University of Washington, and last year he was signed as assistant football coach under Bagshaw and given charge of freshman athletics. His freshman football team went through the season without a defeat. He is almost unqualified that showing as a freshman basketball coach, his first season only one game and that by a low score."

WINS PRAISE FROM SPORTS WRITERS

"Takes Baseball Championship

"Besides that," Matthews' coached the varsity basketball team at Washington this spring and his nine won the northwest conference championship. His success as an athletic coach has been almost equally prominent in football, basketball and baseball.

"Matthews attended the University of Washington in his freshman year at college and played on the football team. Then he went to Notre Dame, where for three successive years, 1905, '06 and '07, he not only made the Notre Dame varsity but was named on the All-Western eleven besides. In 1908 and '09 he was selected All-Western out. The next season he was switched to basketball and in that new position was included again on the All-Western team, this time as half.

"Not many players can point to a showing like that."

Letters in Three Sports

The new Idaho coach is a graduate of Notre Dame, where he won his letters in football, basketball and basketball, according to George Varnell, Spokane sports writer.

"Matthews started his varsity athletic career in 1907, when he was quar-

terback on the University of Washington eleven," says Varnell.

"He entered Notre Dame in 1908 and played the season of 1908, 1909 and 1910 on the varsity football team. He played out during the 1908 and 1909 seasons and halfback during the 1910 grid season. He was chosen all-western in 1908 and 1909 and given all-American attention after the 1908 season. He played guard and forward in basketball and as halfback position on the Notre Dame football team.

Six Successive Championships

"The 1912 season found Matthews at Kenyon college, Gambler, Ohio. He was athletic director and coached all sports. Matthews remained at Kenyon

In 1918 he succeeded to the position of athletic director at Williams university, Salem, Ore., and during his stay at Williams he was instrumental in securing a non-conference game in football and won six successive non-conference championships in each of the major branches of sport.

Following the expiration of his contract as football coach at the University of Washington in 1921 and not turned out a championship football team. He repeated in freshman football and won the Pacific coast championship in the varsity basketball team during the spring season.

Keen Student of Sports "The new Idaho coach is generally regarded as an exceptional development of football and a keen student of all branches of sport." When Darwin Melness, graduate manager at the University of Washington, announced acceptance of Melness' resignation there, he said: "We felt that Melness was too big a man to be handling freshman teams and when the Idaho offer came we did not want to stand in the way of his acceptance."

HARRY GORB IS SUSPENDED

New York Boxing Commission Takes Step to Compel Champions to Fight

NEW YORK, July 18. (AP)—Another step in the campaign of the New York boxing commission to see that champions of the ring give promising amateurs a chance to win the crown was taken today when Harry Gorb of Pittsburgh, light heavyweight champion and his manager, George Engle, were indefinitely suspended from further participation in bouts in this state because Gorb has not signed a contract to box Dave Rosenberg, as he was directed to do.

More than a month ago the commission banned Johnny Wilson, the middleweight champion from New York state because he had not come to terms for a match with Gorb for his title. Wilson's crown was declared vacant so far as this state was concerned and the winner of the Gorb-Rosenberg match was promised official recognition as "world's middleweight champion."

Title Will Pass. With Wilson, the original title holder, and Gorb, the original challenger, both pronounced passe, the commission today offered to name the first conqueror of Rosenberg the champion, although contending that Rosenberg does not now hold the title. If Gorb's defeat the first acceptable challenger who supports a formal deft with a forfeit of \$2,000.

Gorb is the third world champion to be barred from this state. Wilson and Johnny Kilbane, the featherweight featherweight king—excellent in New York—being the others. Gorb, however, does not suffer the loss of the light-heavyweight crown as Wilson and Kilbane were removed from under the title. Neither Gorb nor Wilson can now box in this state, though Kilbane can—as a featherweight contender.

Women Prove That Horse Racing Not Millionaire's Job

Five Thousand Dollar Investment Brings Returns of \$7,000 This Year

NEW YORK, July 18 (AP)—The famous syndicate of race horses, once dubbed by local sages of the saddle the "Five and Ten Cent Stable," was sold at the end of the racing season. It was announced today by the two women owners, who have made an income of \$7,000 this year from a \$5,000 investment in horseflesh. The women—Mrs. E. Peter Smith, daughter of the late E. P. Harriman, and Mrs. F. Ambrose Clark, wife of a millionaire, think they have proved that horse racing—usually regarded as the sport of kings—can be made a means of income for persons of moderate means. But they say it is through demonstrating for the horses' sold this year are to be replaced by a new inexpensive string, it was stated, and the experiment will go on and on.

A year ago the two women race enthusiasts mainly set out to prove that blooded horses didn't require millions of dollars in upkeep. They bought nine yearlings, some of them at \$200 and \$300 apiece. One of the horses, called "Starover," became a success before he was sold for \$2,000. Another, called "Suspicion," bought for \$500, has won \$1,000 in prizes. The total winnings have brought the income of the stable to \$7,000.

DOPE RUNS TRUE TO FORM

Peter Pizzo's Victory Over Longest Only Upset in Card of Grand Circuit at Keokau

KEOKAU, Mo., July 18. (AP)—When Peter Pizzo trotted in the first race of the four-event card of the second day of the Grand Circuit meet he furnished the only upset of the afternoon. Longest was the favorite but the Tom Tracee horse was able to outpace the Cox entry and find first money. The Jane Revere had no trouble in win-

ning the 3-year-old trot in straight heats. 10 Guy was an easy second. The last time of the meeting so far was hung up in the first heat of the new Indiana hotel course for 2,075 feet, when Jackson Granton did the distance in 2:02 1/2. The Cox entry then annexed the race in straight heats, with Edna Ely and Tramp Safe finishing in two three-over in each mile. Borealis also came through in straight heats in the 2:10 trot. Dottie Day took second money while Utah was third all the way.

NEWSPAPER MEN DISAGREE

Boxing Bout at Milwaukee Replete with Foul Tactics and Improper Methods

MILWAUKEE, July 18. (AP)—Newspaper critics were divided on the outcome of the boxing bout tonight between William Montalban, local lightweight and Tommy O'Brien of Los Angeles. Some thought Montalban deserved a walk and others credited O'Brien with the better of the fight. Each boxer accused the other of hitting too low in the fourth and fifth rounds and after the bout over the referee said unskillfully that unfair tactics such as butting were resorted to by both boxers towards the end of the contest. O'Brien bled from the mouth in the third and fourth rounds and Montalban took some severe body blows.

While the boys engaged in sparring hot, misfits, both were apparently strong at the finish.

FIELD GREATLY REDUCED

Annual Longwood Bowl Single Tournament Continues with 16 Men on the List

BROOKLINE, Mass., July 18. (AP)—Ranking players continued along the even tenor of their ways when play was resumed today in the 30th annual Longwood Bowl single tournament here and the field had been reduced to sixteen men.

William T. Tilden II, of Philadelphia, still is looking forward to his first tournament singles match in Boston. He drew a bye, then got a forfeit in the second round, but had a practice tilt with R. Norris Williams, Jr. today and the Longwood star took six of the eight games that were played. Tilden had started "cold" while Williams had just finished a match so that the GS count was not conclusive.

NEW CHAMPION WILL PLAY

Gene Sarazen, Winner of First Place Among Golfers of World, Agrees to Match

NEW YORK, July 18. (AP)—Negotiations are under way for a professional golf championship match between Gene Sarazen, of Pittsburgh, and Walter Hagen, of Detroit, winner of the British open title for a purse of \$2,000 and a silver cup, it was announced tonight. The Westchester-Biltmore country club has offered the purse and cup and if arranged, the match will be held over the links at Bryn M. N. Y. Sarazen, it was stated, already has accepted the proposition and final arrangements await definite word from Hagen. It is planned to play the match the latter part of August.

The fight is between Benny Leonard and Lew Tenderfoot, who met in a 12-round championship battle last year. The bout will be conducted under the state no-decision law.

NO CHALLENGE RECEIVED

Australian Tennis Player Not Notified of Any Match with Reason Made

LONDON, July 18. (AP)—Gerald L. Patterson, who with the other members of the Australian Davis cup team will sail for New York tomorrow, told the Associated Press today that he had received no challenge from William T. Tilden, who, according to a dispatch from Boston, had expressed a desire to meet Patterson for the world's tennis championship. Patterson said he had written the American Lawn Tennis association stating that he would be pleased to meet the winner of the American championship, with a view to deciding the absolute championship of the world. If Tilden won the American championship he would play him or any other winner of that title. He said if he could beat the American champion, he then would feel there was nobody else in the world to defeat.

HOWELL MAINTAINS LEAD

Jeffers, and Davis in Second and Third Place in Senatorial Primary Race

OMAHA, July 18. (AP)—H. B. Howell, of Omaha, was maintaining his lead over Congressman Albert W. Jeffers, Omaha, and Attorney General Clarence A. Davis, in the contest for the republican senatorial nomination; Senator Gilbert M. Hitchcock had what appeared to be a commanding lead over two opponents for the democratic senatorial nomination, while both the republican and democratic gubernatorial races were in doubt, on the face of returns received here early this morning.

These returns showed: For republican United States senators, 232 precincts out of 1918, Howell, 8,804; Davis, 5,500; Jeffers, 5,430; Walter 3,631; John 1,190; Zeiser 747. For United States senator, democratic, 286 precincts: Hitchcock, 9,918; Broeyer, 3,222; Mahanah 1,874.

For governor, republican, 300 precincts: Randall, 9,803; McMullen, 8,902; Bryan, 5,700; Stetler, 1,827. For governor, democratic, 249 precincts: Bryan, 4,059; Butler, 3,764; Norton, 3,457; Maupin, 1,055.

An Essay on Frogs. The Chicago board of education has caused a classic essay to be immortalized in type: "It's about frogs and was written by a young Norwegian. The essay: "What a wonderful bird the frog are! When he stand he sit, almost. When he hop he fly, almost. He ain't got no sense, hardly. He ain't got no fall hardly, either. When he sit he sit on what he ain't got, almost."

NEW ALL ABOUT "LA GRIPPE"

People of the Eighteenth Century Suffered From Its Attacks as/25 Those of Today. Amid all our sufferings from the "grip," "Russian influenza," "Hitz Antaria," "Spanish influenza," and "dr. et al-ome genus, the name and writings of Benjamin Mercier are too easily forgotten in his picture of "Tablou de Paris" is to be found the following passage on the "grippe," written in 1789, which might have been written today: "Almost every year toward the middle of November occur catarrhal indispositions caused by the presence of a humid and cold atmosphere and fogs which suppress transpiration. Many die of it, but the Parisians, who laugh at everything, call these colds the 'grippe' the 'grip' but the laughter three days later is himself 'gripped' by it and goes down to the grave. "Passing from old rooms and theater halls to the open air makes this suppression of the transpiration almost intolerable. The new fashion of wearing long cloaks is excellent. It gives protection against the cold. Taking good exercise is even a 'surge remedy.' The women who are compelled to wait some time for their carriages—those charming, delicate women—see shivering along the parlor and porticoes—should consider that their pelisses are not sufficient to protect them against winds."

What would he have said to the abbreviated skirts of today?

MANY persons are loth to admit that there is a difference in Printing. To these, Printing is Printing; and that's all there is about it.

It is true that all Printing is Printing but all Printing is not Good Printing. If it were there would be no incentive to skill in industry.

All music is music; but only a minor percentage of it is good music. Good music is produced by men who have spent much time and great skill and effort in the acquiring of the ability to produce it. Good Printing is likewise the result of many years of close application on the part of the printers, which coupled with the best of material in the way of paper stock and ink, combine to make a first class product.

FEW plants in the State are equipped to do more extensive work in the Printing line than The News—none at all to do a better quality of work.

Have you tried News-Printing LATELY? The News plant is turning it out day and night.

GIVES ROAD'S VIEWS OF TRANSPORTATION TIE-UP

Union Pacific President Outlines History of the Present Railway Strike

The attitude of the Union Pacific railway management with respect to the continuing strike is set forth in a communication from C. B. Gray, president, to E. E. Calvin, vice president of the system, and by him sent out to all agents of the system. The following is a copy of this communication received Tuesday at Oregon Short Line offices here:

For information of general public who inquires have reached me as well as for assurance of our shop employees and those who are entering our service every day and to whom I say that our former employees may thoroughly understand our position, I wish you would communicate contents of this letter to the public through the press and to all of our officials so that public and each former employee shall be personally advised and informed of the "Chalmers Den. W. Hoover" of the United States railroad labor board, July 1, 1922, issued the following statement:

"Regardless of any question of the right of the men to strike, the men who have been in the line of the former government paper will protect the men who remain in their positions and men who may come in."

Subsequently the labor board has declared that the rule and working conditions under which mechanical forces were working before the strike "will still in force and effect. They cannot be changed except by an agreement between our employees and the management of this system, or in event of failure to reach mutual agreement by our employees (not the former employees) the management may order the men to make no settlement of the United States railroad labor board for decision, therefore, since our former employees left our service of their own free will and accord, thereby ceasing to be employees of this system, the public and those who have any right legal to our service and those who have entered service since strike as well as those who are entering our employ daily may rest assured that the management of this system will use every resource at its command to keep faith with them.

The public will keep in mind the fact that this strike is not against the railroad system but that it is against the decision of an agency of our government, therefore the strike wholly resolves itself into question whether the orderly processes of law and order shall prevail or the arbitrary action of a small minority. To that question there is no alternative, we are a law abiding people, the orderly processes of law shall prevail. The management of this system has religiously at all times kept faith with its employees both as to its spoken and written word and as it always will.

NOT ENOUGH TO KNOW RULES

Successful Authors Have to Pass Very Far Beyond Stage of the Writing Game.

"A man who writes like a schoolmaster, may know all the rules of poetry, and never write a poem; know all the rules of art and never paint a picture; know all the laws of harmony, through bass and counterpoint and never write or sing a song that touches a man's soul and never hit a crick on his golf greens or retrieves that are said."

"The reason is that these people never progress farther than rules. Knowing rules is but the beginning. Perhaps a man cannot write without having learned certain rules, though that is doubtful, but to write well, a man must have passed on beyond rules that he does not think of them; that is, he has to be speaking at such length, on this subject, I was led to thinking of it by hearing so much talk of this that I called 'news-paper English.'"

should, the man with a job at good wages is better able to pay higher prices for goods than one without a job is able to purchase cheaper goods.

It would be ideal, perhaps, that which each individual wishes to buy be duty free and that which he sells be subject to protective tariff.

One man says: "Times are not good, but they will be better some day, and in the meantime I will just do the best I can and be thankful that I can do that much when the world is topsy-turvy."

Another man says: "Times are awful. It's a struggle to keep soul and body together. Everything is up in the air and I don't know what we are coming to."

Two sides of human nature—the optimistic and the pessimistic. One man is enjoying life under difficulties, doing his part toward making the world happier and leading it out of the chaos into which it has been plunged.

Each of us is one or the other, or in between and don't know which way to turn. Think well before speaking—look twice before you turn.

RAD FOR AVIATION

The best stunt for aviation in this country would be to put an end to stunt flying, save as it may be required by the facilities of the air service of the army and navy.

What aviation needs is continuous, practical demonstration in useful ways. And the country is in need of such demonstrations.

The flyer who carries mail between important points, and performs this important service consistently, continuously and promptly, is performing the stunt that will do most for aviation and for the important chain of business interests promoting the making and use of the airplane.

WY TARIFF IS NEEDED

A European cartoon reproduced in this country depicts an Englishman returning from a trip loaded with goods bought in Germany and boasting that the goods cost him next to nothing.

On the second day he reached the boat buffalo trail that led to the salt lake and on to the river, and there he met his mother. He remembered a place where the Indians had camped after they had captured himself and his mother.

On the seventh day he was nearing the village, where the chief lay dead, and when he caught sight of the teepees in a little creek bottom, he fired his rifle and putting fire into a gallop and with right hand high, swept into the village.

He followed the flash of her eyes to the age of the freight where a young Indian stood watching and scowling: "Who is that?" "Dinck Wolf, son of Crooked Lightning."

The Squaw Gathered and There Were Grunts of Recognition and Greeting. "Who is the Boy Pulled Up in Their Midst?"

And thereupon he turned his face and went back into the shadows. Just before sunset the shots sounded in the distance—the hunters were coming in—and the accompanying whoops meant great success.

Quickly the feast was prepared and the boy ate heartily, his mother bringing him food—but he could hear the story of the day's hunting and the allusions to the prowess of Crooked Lightning who was dead.

Fresh wood was thrown on the fire, and as its light leaped upward the lad saw an aged man emerge from one of the tents and set about on a little rise—saw him lift both hands toward the stars for a moment and then return.

"Who is that?" he asked. "The new prophet," said his mother. "He has been over, and my father has much power over our young men." An awful of place goats was looked on the blaze, and in a winter leap of light he saw the face of a woman at the other end of the tent.

and adopted her girl—the old woman gave a little guttural cluck of triumph—"she dies tomorrow. Kahto will burn her."

"Who is that girl?" The old woman looked displeased. "Daughter of the white woman." "How do you know?" "I saw her when she was a child."

"Who is that?" "Dinck Wolf, son of Crooked Lightning." "Ah!" thought Erskine. "Within the old chief called palatka and the Indian woman motioned the lad to go within."

"The nameless men of the boy, his steady eye, and his bold truthfulness, pleased the old man. The lad must take his place among them."

"I told you I would come when the leaves fell and I am here. Why is Crooked Lightning here? Why is the boy here?"

"The story of the prophet and Crooked Lightning is too long," he said wearily. "I will tell tomorrow. The woman must die because her heart is not true."

"I have spoken," said the boy. He turned to the tent and went to sleep. The old man sat, staring out at the stars.

Smoke as Lightning Conductor. The present reference to the meteorological conditions of St. Elmo, a prominent scientific allusion indicates the fact that thunderstorms are very rare phenomena there.

DEARTH OF CARS LIKELY RESULT OF SHOP STRIKE

Oregon Short Line Says Force of Workmen Must Be Recruited or Transportation Will Stop in Thirty Days

Cars will not be available for movement of crops 30 days from now, unless other workmen are found to fill positions in Oregon Short Line shops at Pocatello, rendered vacant by the railway shopmen's strike.

Officers Indemnities: There is an immediate need for between 500 and 1000 mechanics at Pocatello, unless they are available to take over the work of the men filling these positions as the shopmen are.

The rate of pay ranges from 40 cents an hour for inexperienced labor to 70 cents an hour for mechanics. At the present time employees are provided with quarters and board without cost on the company's property.

Mr. Prater decided emphatically that the purpose of the railroad company to break down any labor organization.

Labor shortage incident to the strike has not yet affected train service on the Short Line, Mr. Prater explained. Cars in need of repairs are being turned into the shops as being accumulated on switchtracks at the Pocatello yards.

World Avert Crisis: It is the Short Line's desire to avert such a situation by recruiting and maintaining a working organization in its shops.

Mr. Prater said that he had made the statement in repeated hours before meetings of citizens at Rupert, Burley, Buhl and Jerome, and that he had found sympathetic appreciation of the situation as he disclosed it.

SHORT LINE'S MEN HERE NOT AFFECTED BY STRIKE

Agent Says None of Employees at Twin Falls are Ordered to Quit Work

None of the Oregon Short Line employees at Twin Falls have been affected by strike orders, according to the statement late Tuesday of D. E. Sullivan, Short Line agent here.

In respect to current on the streets Tuesday one or more of the Short Line employees here had been ordered to quit work. Mr. Sullivan said that two men employed at the coal-chutes, who are not members of the union, had learned through newspaper reports that union men engaged in similar work had been called out, but that these two men had expressed no intention of leaving their work.

PIONEERS' WATER RIGHTS INVOLVED IN LITIGATION

Twin Falls Attorney Takes Hand in Suit to Quiet Title to Raft River Waters

Water rights decreed a half century ago are involved in litigation in connection with which E. M. Wolfe, Twin Falls attorney, was called in conference with Elmer Tinkler, attorney at Boise. Mr. Wolfe met with some of the defendants in this suit which has been instituted before Judge F. S. Dietrich in federal district court at Boise, by the Albion-Idaho Land company to quiet title to the waters of Raft river.

The corporation is the successor of the Sweetser and Pierce interests in Idaho and Utah, which were representative of some of the first cattle companies operating in Idaho, Utah, Nevada and California. Some of the water rights date back to 1871. It owns also 2500 acres of land on Raft river, situated in Idaho and Utah.

There are 575 defendants to the suit, situated also in Idaho and Utah. The waters of the river and all of its tributaries have been decreed by the courts in times past. Some of the cases have found their way into the supreme court of the United States. It is, however, the purpose of this suit to get all of the rights settled in one decree and suit, with finality.

Head conditions: Mr. Wolfe said, on the one hand, that the suit is being prosecuted at the expense of the litigants.

DENY HOSPITAL TAX EXEMPTION

County Commissioners, as the Equalization Board, Reject Petition in Boyd Case

Petition for exemption of the Boyd hospital in Twin Falls from taxation for 1922 was denied by the board of county commissioners as its final action before adjournment Monday as a board of equalization. The claim for tax exemption was made by H. C. Mills, an attorney for the Boyd corporation, and was supported by an affidavit declaring that the hospital was in the possession of the Catholic Sisters until after April 1, 1922.

Investigation of the county records, the commissioners said, disclosed that title in the property had never passed from the Boyd corporation. The Catholic Sisters relinquished the property this spring.

Only eight petitions for adjustment of tax assessments were acted upon by the commissioners during the four weeks they were in session as a board of equalization.

County and company, wholesale grocers of Twin Falls, submitted an inventory as a basis for assessment in lieu of a former statement, and by the board's acceptance of the inventory and fixing assessments on the same basis for other merchandise stores the reasonable valuation was raised from \$6,700 to \$44,500.

Readjustments also were ordered in the valuations placed upon lots 13 to 24, block 13; lots 15 to 29, block 14; lots 1 to 12, block 17; and lots 1 to 15, block 20, all in Filer, and upon the SW 1/4 SW 34-10-16, owned by George W. Reed, reduced from \$3,375 to \$3,200; NW 1/4 SW 34-10-16, owned by L. E. Daniels, reduced from \$3,700 to \$3,450; SE 1/4 SW 21-11-16, owned by B. S. Robbins, reduced from \$2,800 to \$2,650.

BELLIGERENT SETTLER TO BE GIVEN HEARING

Court Sets Time for Inquiry Into Charge of Threats Made Against Development Company Here

Hearing in the case of Fred Perkins, Roseworth project settler, who is charged with making threats against the life of P. C. Meredith of Buhl, president and general manager of the Idaho Farm Development company, will be held Thursday afternoon by a jury in probate court after more than an hour's deliberation.

In this case Dr. Pike brought suit to collect \$2500 as fees for professional services. Payment was resisted by the Eatons on the grounds that the operation had not been performed by Dr. Pike but by Dr. H. W. Sawyer and that Dr. Pike had been called for time to consultation. They offered to pay Dr. Pike \$75. They declined also to pay Dr. Sawyer, any surgical fees on the grounds that he was an osteopathic physician and not qualified to perform the operation. Dr. Sawyer testified that he had only assisted in the operation, which, he said, was performed by Dr. Pike.

Members of the jury were Charles Brown, C. V. Parks, W. E. Crabtree, W. A. Falcon, R. G. Benson, R. L. Ashton.
