NEGOTIATIONS  
LOOK TO SHORT  
TIME CONTRACT

Miners and Operators Seek Basis for Resumption of Operations—Only 'Until' April of Next Year

CLEVELAND, Aug. 11 (AP)—Any wage contract that may grow out of the conference here of coal operators and miners probably will continue in force only until next year, it was indicated today by disclosure of the operators' ultimatum to the miners.

Arbitration Is Suggested. Operators on the committee declined to make public their proposal for future settlements, but it was understood to have been presented and in this respect met with the first refusal of the miners. The union leaders, however, were said to approve a fact-finding commission of purely advisory powers.

Although opposition to negotiating an interstate agreement which might fix a minimum rate of wages for coal raised by Frank Farrington, the Illinois miners' president, the adjournment of the committee was marked by Michael Gallagher, head of the operators, declaring, "I have labored hard all day and feel we are making progress." President John L. Lewis, leading the miners, added he was optimistic as ever over the prospects of reaching an agreement.

CHICAGO, Aug. 11, (AP)—Reframing of the ultimatum of the coal strike with Illinois miners on an arbitration basis, said representatives of the three Illinois coal operators' organizations here have indicated this week, closed their meeting and went to their homes today.

OPERATORS STAND OUT. TERRY HANLEY, Ind., Aug. 11, (AP)—The Indiana bituminous coal operators' association tonight reaffirmed its previous stand not to take any part in any four-state settlement of the coal strike or to enter any temporary agreement with the miners which did not provide for arbitration by a government appointed commission which would investigate coal industry and then set a just wage scale. It was announced that 90 per cent of the state's tonnage was represented at the meeting.

At the same time Phil Ponce, secretary of the association made public a compilation which reflected that Indiana bituminous coal operators' association—totalled in only 750,000 tons annually and not more than two and a half million as announced there.

LEWIS IS WILLING. CLEVELAND, Aug. 11, (AP)—The United Mine Workers are ready to resume negotiations to end the strike in the anthracite coal regions of Pennsylvania "on any date designated by the operators' representatives," said a message sent tonight by President John L. Lewis to the Scranton board of trade.

EXPECT EARLY SETTLEMENT. WASHINGTON, Aug. 11 (AP)—President of the situation in the anthracite coal region would "come to a climax in less than a week from tonight" was made today at the White House by a spokesman here who has lately said "no comment, however, was forthcoming as to what developments were expected."

The administration spokesman further declared that President Harding believed that the anthracite operators had not and would not obstruct a settlement in their territory.

AWAIT CLEVELAND OUTCOMES. How soon negotiations to end the suspension of work in the anthracite field might be expected was not revealed by officials, but the opinion was expressed at the White House that a settlement had been delayed because of negotiations pending in Cleveland for a termination of the bituminous strike. Both parties to the controversy in the anthracite field were said to be in the president's opinion, to be justified in postponing their efforts to bring about an adjustment because of the spiriting in the bituminous situation.

Secretary Davis declared today that the country faced a shortage of anthracite coal which could not possibly be made up within the next year. There was a shortage of at least 30,000,000 tons, according to the latest reports received here.

Talk About Weather Finds Heat Intense

Unusually intense of the Monday and mid-afternoon heat Friday was reported generally "among persons here who sometimes talk about the weather. Records at the government weather observatory station here trace the mercury's ascent for the day to a maximum height at 92 degrees, and show a minimum for the 24-hour period at 47 above.

Site coal which could not possibly be made up within the next year. There was a shortage of at least 30,000,000 tons, according to the latest reports received here. The miners' ultimatum in touch with coal production, he added. Sufficient bituminous coal to establish the normal surplus quantity usually on hand could not be prepared before next April at the earliest, Mr. Davis said.

BANQUET CLOSES BAR CONVENTION

John W. Davis, New President of Association, is Inducted into Office

SAN FRANCISCO, Aug. 11, (AP)—The American Bar association convention closed tonight with a dinner at which John W. Davis of West Virginia, formerly chief justice of that state, was elected president of the association today, was welcomed to his new office. The speakers included Chief Justice Taft, Lord Thomas Shaw, M. Henri Aubepin and J. M. D. Barter.

Had No Opposition. Mr. Davis was chosen president without opposition. W. Thomas Kemp of Baltimore, and Frederick E. Wadlam of Albany, N. Y., were unanimously elected secretary and treasurer.

Need for educating the people of the country was stressed by the law and courts as the defenders of their rights was emphasized earlier in the convention, but today, the eighteenth amendment failed.

The association decided the time was not ripe for publishing a comprehensive history of the bar but instead a committee's report favoring efforts to make legal aid available to everyone everywhere so that no one need be without for lack of money to pay counsel fees.

SCOUTS PROVE ABILITY TO SWIM AND SAVE LIFE

Interested Tests Being Conducted for Boys During the Summer Months

Twin Falls Boy Scouts during the summer months are improving their capability for sport and safety in the aquatic field. They have lately passed tests for merit badges for swimming and life-saving.

Requirements for merit badges in swimming are: (1) Demonstrate three different strokes; (2) Swim 20 feet backstroke; (3) Make a perfect dive; (4) Swim 100 yards.

The test for merit in life-saving comprises these requirements: (1) Go down and bring up 100-pound weight from the bottom; (2) Dress in trousers, coat and shoes, swim 50 yards and then undress without touching sides or bottom; (3) In deep water demonstrate the approved methods of releasing dead ship; (4) Demonstrate Schaefer method of resuscitation.

Brotherhood Men Reply. To this the brotherhood men replied: "Passengers on trains tied up here will be taken care of. Officials announced to our train that they would be officials, but passengers refused to go on trains manned by inexperienced crews."

Further reports to Mr. Hibbard from various railroad officials were that employees at several depot points were suffering from lack of water, food and provisions. He said he would appeal to brotherhood members at Barlow to take out a train for their relief.

FRUIT GROUP MENAAGED

FRESNO, Cal., Aug. 11, (AP)—Members of the big four railroad brotherhoods employed on the Santa Fe and Southern Pacific lines here today will meet tomorrow morning to determine whether they will quit work as a protest against working conditions in the city of Fresno.

In view of the situation, the banks of Fresno, which usually finance the fruit shipments, which are near their peak this week, have adopted a policy of declining to advance money to growers or jobbers. Bankers said, however, they would accept bills of lading for collection on the Southern Pacific but refused those on the Santa Fe because that road had declared a temporary halt to its virtually eliminating all shipments of green fruit.

Large shippers declared that the market over though it late but a week, would mean the green rut harvest would be practically a complete loss, with monetary damage of \$50,000,000.

PASSENGERS DEBERT CARES

NEEDES, Cal., Aug. 11, (AP)—"Fresno cooks" was the phrase applied tonight in the coaches of the train by passengers stranded here because of the controversy between the Santa Fe railway and members of the big four brotherhoods.

He and the other 800 or more deserted the trains which, from standing in the sun all day, were hotter than the atmosphere, and took up temporary homes in the little park around the railroad station.

A newspaper was all that was needed for a bed and the sky served for a cover. Passengers are being fed free by the railway company until it is able to move them to their destination.

FIREMEN REFUSE CALLS

SAN BERNARDINO, Cal., Aug. 11, (AP)—Firemen called for three engines on the Union Pacific here tonight refused to respond and declared they would not take out engines, asserting the guards on company property are a nuisance to their lives and that the equipment is in a unsafe condition.

FIREBOY CREWS QUIT

FRESNO, Cal., Aug. 11, (AP)—Santa Fe traffic out of Fresno was tied up tonight when all of the engineers, firemen and trainmen stationed at its California yards, walked out. The walkout occurred shortly after a fusillade of shots had been fired by guards for an unknown reason and the leaders of the men declared that "promiscuous shooting by the guards," was the cause.

# ELECTRIC STORM FIRES FORESTS

### Timber Belt Blazes Increased Along Idaho-Montana Border; Lookouts Busy

MIRBODULA, Mont., Aug. 11, (AP)—Two forest fires were burning—over 1600 acres of timber each tonight and though 70 men are fighting them, there is no information here tonight, forest officials say, that they have been controlled. One of those fires is on Twin creeks, on the Clearwater forest, near the Montana-Idaho line and the other is on the Cooper 1/2-acre forest.

#### Lightning Starts Fires

Two new fires have been started by lightning on the Cooper 1/2-acre forest and each covers about 30 acres. Ten lightning fires were discovered today on the Blackfoot forest, in addition to the 20 that were reported yesterday from this forest, located in north central Montana. This region is extremely dry. The crew fighting the Wall creek fire on this forest were able to prevent further spread today.

Three new lightning fires were reported from the Clearwater forest, Idaho, only one of which is under control. The forest fire burning on this forest has been placed under control.

On the Cabinet forest, near the Montana line in Idaho, the Government creek fire is burning over 15 acres of timber and is being fought by 25 men.

#### Fire Is Spreading

On the Koonoon forest, in northwestern Montana, 60 men are fighting the Star creek blaze, which has spread to 400 acres. Fifteen men are fighting the Callahan creek fire, which has covered 10 acres and a 25-acre fire is burning on Plinkham creek. This is one of the 60 which were of incendiary origin, the others having been placed under control.

A total of 45 lightning fires have been started on the Selway forest during the past 10 days. Of this number only two are of any size, one of them burning over 80 acres and another burning 100 acres. There has been no rain on this forest for 60 days.

## FEW SALES ESTABLISH CALDWELL SPUD MARKET

Price of 80 and 85 cents is set by few shipments, Osh on delivery at the Loading Station

CALDWELL, Aug. 11.—Market price of 80 and 85 cents for United States grade No. 1 potatoes, has been established here by a few sales of carlot shipments, cash on delivery here, according to Thursday's report of the United States department of agriculture, issued by C. E. Schultz, local representative.

The market is dull with light demand and, who inquiry, and few potatoes are being hauled. Most shipments are consigned.

Twenty-three carloads of potatoes were shipped Wednesday from Idaho and eastern Oregon, 15 going to Denver.

## Exposition Building Will Become Embassy

United States Building at the Brazilian Centennial Exposition, Rio de Janeiro, Brazil, as it will appear when completed. It will later serve as the United States Embassy.

JOSEPH H. CHOATE, while ambassador to England, was accosted by a London policeman late on a rainy, blistering night.

"What are you doing, walking about this beastly weather?" the "Bobby" demanded. "Better go home."

"I have no home," said Choate. "I am the American Ambassador."

The notorious failure of the United States Government to provide embassies in foreign capitals will be eliminated as far as Brazil is concerned through the construction of a \$500,000 building now being built at Rio de Janeiro to house American government exhibits at the Brazilian Centennial Exposition, and later to be converted into the American Embassy.

of Guanabara Bay, will be opened on September 7th—Brazilian Independence Day.

Located directly opposite the entrance to the harbor of Rio de Janeiro with its towering promontories, the new embassy has the most commanding, as well as the most convenient position possible.

The architecture is in the Portuguese Colonial style, harmonizing with the Brazilian mode. The outer walls of the building enclose a patio, or court open to the sky, in which a tropical garden and fountain will be located, surrounded on all sides by a wide corridor, or arched gallery. The walls of the patio, treated in soft buff Caen stone, with the frieze and soffits of the overhanging cornice and the tile inserts of the walls in high colors, will give this central court a distinctive Latin spirit. The fine reception rooms and offices of the future embassy follow the Latin arrangement, opening on the corridor and gallery around the court. The building is being constructed by Dwight P. Robinson & Company of New York from plans by Frank L. Packard, architect, of Columbus, Ohio.

Construction is progressing at a rapid rate. In June, Mme. Epitacio Pessoa, wife of the President of Brazil, laid the cornerstone. The feeling in the United States of the growing importance of South America is indicated by the sum being expended for this embassy. Previously the government had constructed but two embassies, one in Peking at a cost of \$180,000 for building, grounds and equipment, and one in San Salvador at a cost of \$60,000 for the building and improvement of grounds.

NEW LIGHT ON AN INTERESTING INCIDENT... In connection with Twin Falls city commission's recent purchase of fifteen hundred feet of hose for the fire department...

IT IS SUGGESTED IN AN ONTARIO TOWN... that safety pumps 10 inches high be built into roads to warn motorists of grade crossings ahead.

ADVERTISING IN EUROPE IS CHEAPER THAN OVER HERE... says an agent who returned to New York the other day.

ONE IDEA OF AN UNFAIR PSYCHOLOGICAL EXAMINATION... is that it gives a man less than 45 minutes to answer the query: 'Who was Parker's running mate in 1904?'

MORRIES ARE REPORTED TO BE SO PLOTTING IN SECTIONS THAT THE FARMERS CANNOT GIVE THEM AWAY... The city dealer does not either.

THIS, HE SAID IN EFFECT, 'IS A SAMPLE OF THE HOSE THE CITY HAS JUST BOUGHT FOR \$130 A FOOT.' He launched then upon a rapidly worded and highly technical description of that hose.

AND THIS, HE SAID IN EFFECT, REFERRING TO THE SECOND PIECE OF HOSE AND ADDRESSING COMMISSIONER A. S. ALL, 'IS A SAMPLE OF THE HOSE YOU SAID WAS AS GOOD AS WHAT WE BOUGHT AND THAT MELGE WOULD SELL US FOR \$1.00 A FOOT WHEN YOU TRIED TO MAKE IT APPEAR JUST WORK THAT WE HAD PAID \$300 TOO MUCH FOR THE HOSE WE BOUGHT.'

THERE WAS NO OPPORTUNITY THEN AND THERE FOR VERIFICATION OR DISPROVAL OF WALTON'S ASSERTION; but some time has since elapsed and the facts are now available.

THERE IS UNDISPUTED FACT NOW THAT THE HOSE WALTON REPRESENTED AS THE MELGE HOSE WAS NOT THAT HOSE AT ALL, but was a sample of the cheapest of six grades of hose which another firm that had not been taken into consideration when the contract was awarded, had offered to furnish for 90 cents a foot.

ON A JUNE MORNING DWIGHT HERBERT DEACON looked at the sky, and said with his manner of originating it: 'How about a picnic this afternoon?'

INA, with her blank upward look, exclaimed: 'Today?'

COME TO THINK OF IT, INA DIDN'T KNOW THAT THERE WAS ANYTHING TO PREVENT, but mercy, Herbert was so sudden.

WHY, FOR INSTANCE, did Commissioner J. E. Roberts tell Melge six days before the contract was awarded that Melge's bid would be considered, and why, when Commissioner All asked, just before the contract was let, if there were any other bids, was he told that there were none?

WHAT WAS THE OCCASION FOR SO GREAT HASTE IN AWARDSING THE CONTRACT AND, what, anyhow, is Walton's peculiar interest in the mere purchase by the city of fifteen hundred feet of fire hose for nineteen hundred and fifty dollars more or less?

IT COSTS NOTHING... G. K. Chesterton must have his joke. What he is making sport of now is the custom of men taking off their hats to women.

hor doing any of them accord with the ideals of civility, which require the homage to be paid by the man to the woman instead of by the woman to the man.

Thus the crux of the question becomes, simply, why is man-lifting preferred to umbrella-tossing by the man? Let us suggest two answers. In the first place, in the orient, where the umbrella (but not civility) originated, women pay homage to men and not men to women, and anyhow the umbrella there was long the prerogative of royalty, which paid homage to nobody.

In the second place, lowering or throwing away one's umbrella never fitted in with the aims and notions of civility, because it could reveal nothing of the knight's person to his lady, whereas lifting his hat or the visor of his helmet hid bare his handsome head and face and thus permitted him to exercise to the full his natural manly charm and beauty.

Advertising in Europe is cheaper than over here, says an agent who returned to New York the other day. What's the rate on a short snappy "Hlop Wanted" ad in Russia?

One idea of an unfair psychological examination is that it gives a man less than 45 minutes to answer the query: "Who was Parker's running mate in 1904?"

"Dwight, darling, are you sure there's no danger?" "Why, none. None in the world. Whoever heard of drowning in a river?" "But you're not so very used—"

"Oh, wasn't he? Who was it that had lived in a boat throughout youth, if not he?" Ninian refused out-of-hand, lighted a cigar, and sat on a log in a permanent position.

"You can-slip on my linen duster, over!" Ina said graciously. "Your new one?" "Dwight incredulously winked at her."

"Oh, no!" Ina laughed at the idea. "The old one." They were having to wait for Di in any case—they always had to wait for him—and at last, hardly believing in her own motion, Lulu was running to beyond the window blind; in fact: "Go on, Lulu. It'll do you good. You mind me and go on."

"Look Here," said Ninian, "aren't you going?" "Met," said Lulu. "Oh, no."

make ready. Mrs. Betts hurried to help her, but she took down the wrong dress and they were both irritated. Lulu reappeared in the linen duster and a wide hat. There had been no time to "lighten up" her hair; she was dashed at the adventure; she had never looked so well.

"They're Sometimes in the Way." Jack—well, wasn't the idea of cutting her hair when it took you so long to grow it!

"Bill—of course, you saw me catch Gladys under the mistletoe during the last dance."

"No!—couldn't she kiss you on account of that?" "Not exactly, but she became so unconscious that she lost her gum in it."—Boston Banquet.
