PRICE FIVE CENTS

SETTLEMENT OF GOAL STRIKE IS GAINING GROUND

Additional Agreements Calling for Annual Production of 10,000,000 Tons Signed, John L. Lewis Declares

CLEVELAND, Aug. 16, (AP)—Settlement of the Philadelphia coal strike is gaining ground, John L. Lewis, president of the United Mine Workers of America, announced that additional agreements amounting to approximately 10,000,000 tons annual soft coal production were executed here today in the settlement, in part, of the bituminous coal strike.

"Acceptance of the approximately 60,000,000 tons annual production represented in the conference of miners and operators yesterday and the execution of additional agreements today involving something more than 10,000,000 tons production gives the settlement impetus that will be irresistible," Mr. Lewis said in a statement today.

He predicted general acceptance of the agreement by practically all operating units in the organized sections of the bituminous industry within a short time.

"This constitutes an object lesson that will be especially helpful in adjusting the strike in the anthracite fields," Mr. Lewis said.

CUPID NO RESPECTER OF PERSONS

FOUR YEARS AGO MISS MARY McLESTER, pictured here, took a job with the county clerk of San Diego, Cal. and issued her first marriage license.

"I'll never marry," she said, as the first happy couple left the court house. Two years later she issued her four thousandth license and re-wedded her own. Recently she issued her 7,999th license—and then decided that her 8,000 would be for herself and Chester Duffy, the county clerk.

Operators Decide to Meet Workmen in Indiana Field

Owners' Scale Committee to Submit Plan for Resumption of Coal Mining on Compromise Basis

TERRE HAUTE, Ind., Aug. 16, (AP)—Decision to meet with miners' representatives here next Monday "for the purpose of making a contract to permit the mines of Indiana to resume operation" was reached today by the scale committee of the Indiana Bituminous Coal Operators' association.

In announcing acceptance of the miners' classification for the meeting, the operators gave no indication as to their stand on the Cleveland agreement. This agreement was the method by which the Cleveland strike was ended.

The policy is outlined.

PASTOR DENIES IMPROPRIETIES INITIAL AFFINITY

Oklahoma Minister Declares Eloignement and Embzelement Charges False; Says His Wife is Grand Woman

MALLETTER, Okla., Aug. 16, (AP)—Denial that he had eloped with Miss Anthony Campbell, a pretty nurse, was made today by the Rev. J. C. Trotter, who is charged with the care of embzelement funds of the Brocks Institute of Hartsboro, of which he was financial secretary.

The minister, pastor of the Methodist church, South, of Hartsboro, admitted to an interviewer that there was a love affair between himself and Miss Campbell, but denied any legal violation. Mr. Trotter also denied any charge in his accounts and declared that when his books are audited, he had Miss Campbell, former head nurse at the Brocks Institute, will be vindicated of the embzelement charge.

Organized Gang Takes Personal Charge of Shipment of Fuel for East St. Louis

MURPHYSBORO, Ill., Aug. 16, (AP)—Approximately 200 striking miners forced the crew of a Mobile and Ohio train to sidetrack five cars of bituminous coal, 10 miles north of here, this afternoon. The coal was bound for East St. Louis, according to an announcement issued by E. Norris, vice president of the railroad.

Executive May Defer Action Pending Outcome of Meeting Between Railroad Executives and Labor Leaders

WASHINGTON, Aug. 16, (AP)—Agreement between railroad executives and railroad labor organization leaders to hold another conference tomorrow in New York to seek a settlement of the shopmen's strike, it was said today, had resulted in President Harding questioning the desirability of making his expected report to congress and the cabinet under the circumstances within the next few hours.

COERCION NOT PART OF PLAN FOR RESERVOIR

Canal Company Directors Will Assist Dissatisfied Persons in Securing Exclusion of Lands from Big District

Whereas, it is not the desire or purpose of those favoring the organization of the irrigation district to coerce any person to remain in said proposed district; therefore, be it resolved, that upon request of any landowner or that his land be excluded from said district, the board of directors of the Twin Falls North Side Canal Company, including the Twin Falls South Side Canal company, will recommend that the county commissioners exclude said land from said district.

Several Injured in Sanguinary Rioting in Railroad Yards

Attempt of Strike Sympathizers to Prevent Men Leaving Shops Causes Trouble

ST. BERNARDINO, Aug. 16, (AP)—Several persons were wounded here today when they were injured by rocks thrown tonight when a crowd of several hundred persons gathered at the Santa Fe railroad shops here and attempted to prevent employees working there from leaving the enclosure.

Plans made for the reception of his communication tomorrow at a joint session of the house and senate committee were understood to be on the verge of a revision tonight, as the president was represented as being desirous of withholding his statement of the case of the union strike from the road presidents could hold out any prospect of a mutually satisfactory settlement.

Head of the seven railroad labor organizations on strike met today with the officials of unions not involved in the controversy and after some delay the meeting was adjourned. The center group to New York for the discussions with the executives. Through the union group, the engineers, conductors, firemen, brakemen and switchmen will be the only ones actually in the position of the committee of railroad executives, their chairman, Warren B. Stone, declared they destroyed class and anti-strike leaders and the workmen for all the other railroad unions.

Objection Apparent

Some objection to this plan developed among the strike leaders, but they apparently are agreed to attend the meeting with the management.

Mr. Stone and the brotherhood officials who will meet with the railroad executives declared they were not taking any action to prevent the meeting with the management.

L. E. Sheppard, president of the Order of Conductors, said the demand of the union for a full majority strike in case of their return to work could not be modified, and the views of the strike leaders appeared to coincide with those of the management. The question has been the crucial issue in the strike situation ever since the organizations have out on strike.

Would Fight It Out

President Harding of the Southern Railway, twin sister of the railroad workers attempting unsuccessfully to deal separately with the striking unions on the basis of granting them the right to rail yard control, would proceed to employ outside men, issued a statement today declaring that "people all over the South now demand that it be fought out."

President Harding, who was understood to be preparing his message to congress, held discussion concerning it with Senator Lodge, a republican leader in the senate. It is considered certain, advisors said, that he would not request legislation, but he has not said although it was regarded as probable he would assure congress that such a request would be made if the situation necessitated.

SECOND PRIMARY NEEDED

Democratic Senatorial Nomination in Doubt and Run-off to Be Held

JACKSON, Miss., Aug. 16, (AP)—Statements issued tonight from the campaign headquarters of former U. S. Senator Ben H. Lundy, of Oxford, and Hubert D. Stephens, leading contestants in yesterday's statewide primary for the senate, indicated that a second primary would be necessary to determine the party nominee.

Victory is Claimed

Despite unfavorable economic conditions and with tremendous political and financial influences raised against us, we are emerging from the conflict victorious," the statement said.

Operators Decide to Meet Workmen in Indiana Field

The miners have won their fight against the proposed rate increase in the bituminous coal fields.

MUST ACCEPT TERMS

SPRINGFIELD, Ill., Aug. 16, (AP)—Unless Illinois miners accept the terms of a settlement and accept terms similar to those made in the recent wage conference of Cleveland, Illinois coal operators will threaten to fight the principles of collective bargaining in the various producing fields. The same policy will be applied as regards any company which declines to recognize the union, which may decline to accept the basis of settlement as negotiated in the Cleveland conference.

BOTH SIDES OPTIMISTIC

PHILADELPHIA, Aug. 16, (AP)—Anthracite coal operators and officials of the United Mine Workers were gathering here tonight for a "war of cooperation" tomorrow which, it is predicted, will result in an early settlement of the hard coal strike. Optimism was apparent on all sides.

FIREMAN KILLED IN TRAIN WRECK

Engineer Seriously Injured and Passengers Badly Shaken by Collision

HORINE, Me., Aug. 16, (AP)—E. E. Jones of Chaffoo, Me., fireman of No. 800, was killed and George Weston of St. Louis, engineer of No. 801, was injured here today when the two St. Louis and San Francisco trains collided. A number of passengers were shaken up and many were injured. The accident occurred when the northbound train from St. Louis crashed into the northbound train. The engineer of No. 801, seeing the northbound train on the track, slowed down from forty to twenty miles an hour before the crash occurred.

ST. LOUIS, Aug. 16, (AP)—The county representatives of the St. Louis Southwestern (Cotton Belt) railroad today adjourned this afternoon, after the committee declined to make a separate agreement with the road and insisted on all striking employees to return to work at their former status and with seniority rights unimpaired. The Cotton Belt has never accepted any of the strikers.

WOULD FIGHT IT OUT

President Harding of the Southern Railway, twin sister of the railroad workers attempting unsuccessfully to deal separately with the striking unions on the basis of granting them the right to rail yard control, would proceed to employ outside men, issued a statement today declaring that "people all over the South now demand that it be fought out."

WOULD FIGHT IT OUT

President Harding, who was understood to be preparing his message to congress, held discussion concerning it with Senator Lodge, a republican leader in the senate. It is considered certain, advisors said, that he would not request legislation, but he has not said although it was regarded as probable he would assure congress that such a request would be made if the situation necessitated.

SPECIAL POWER WILL BE ASKED OF GOVERNMENT

Control of Coal Prices During Coming Winter Provided For in President's Pending Message to Congress

WASHINGTON, Aug. 16 (AP)—President Harding, in his contemplated address to congress upon the national industrial situation, will suggest legislation giving the federal fuel emergency organization powers to control the distribution and prices of coal to safeguard the country against a coal shortage, according to officials who talked today with the chief executive.

The president was reported to be considering seriously recommendations for definite legislation to provide legal powers to supplement the voluntary system of coal control now in operation and was understood to have before him a draft of a tentative plan of fuel administration prepared by Secretary Hoover. Creation of a federal coal commission also would be recommended, it was reported, which would be designed to make a thorough investigation of the national coal industry and suggest legislation for the permanent solution of labor problems.

Tending the enactment of emergency legislation, the central coal distribution committee, high officials indicated, would continue fuel control under voluntary price agreements made with Mr. Hoover by producing operators, were to be in effect during the transition, but a meeting of the federal coal committee with the commerce secretary and Fuel Distributor Spencer today, to consider the effect of partial settlement of the mining controversy upon price arrangements, decided that the agreements would hold until production was more largely resumed.

No Settled Yet
Mr. Spencer declared it could not yet be assumed that the strike was settled, and no operators generally were showing no inclination to withdraw their protest, but it would be no change for the moment. Application of fuel price agreements to the union mine fields as they resume production, he said, now was under consideration by the federal organization.

Investigation of charges of profiteering in coal was asked of Secretary Hoover today by Senator Horn, republican, Idaho, in a letter calling for suggestions as to immediate measures to prevent charging of excessive prices. Senator Horn said in his letter that "some of the operators have taken advantage of the situation to charge unusual and exorbitant prices and that the practice will now be more general in all probability." He submitted prices of April 3 and August 7 secured in his investigation, he said, showing large price increases, and added that he also had letters to support the profiteering charges.

Settlement Is Assumed
Stating that "the coal strike is practically settled or at least in process of settlement," Senator Horn added: "It should be pleased to have any facts or data in possession of your department and your own views and suggestions relative to this situation, and as to what we can do in a specific and practical way to deal with the situation. I do not presume at this day in the session we will be able to legislate fully in regard to all phases of the coal industry, in the matter of regulation and control of that industry. That feature of the legislation may be taken up at the next session, for certainly we ought to endeavor to protect the country against a recurrence of these annual controversies between the operators and the miners, the cost of which is pushed onto the public. But it has

occurred to me that something should be done and can be done to make controlling the prices of coal in the present emergency and upon that subject I am particularly interested to have the facts and suggestions?"

PROGRAM NOW IMPOSSIBLE

Chancellor Wirth of Germany Doctores Fulfillment of Obligations Must Wait

BERLIN, Aug. 16 (AP)—Macke which sold at a rate of 10 for a cent and less in the European situation growing out of the undeclared London conference on a moratorium, and the Alstion refugee situation were some of the subjects on which Chancellor Wirth yesterday emphasized himself in the course of a frank discussion with the correspondents of the Associated Press. Incidentally he admitted that the German government no longer was able to carry out its "program of fulfillment."

Dr. Wirth was visibly depressed as he stressed the impolicy of the present European attitude, especially with reference to its direct bearing on Germany. "We must first safeguard the nation's bread supply," he declared, "and if any gold is left after we are through paying for foreign grain, we will use it to meet our reparations obligations."

Evason Is Denied
The chancellor denied that Germany was attempting to evade payment. He said it would be necessary to adjust reparations payments to the nation's financial and economic capacity. Calling attention to today's quotation of the mark, the chancellor declared that if the undeclared London conference had succeeded in administering such a staggering blow to Germany's exchange, Germany would be completely dominated by Poland who have meant an end to German currency.

One chausseur, who more than a year ago proclaimed the "policy of fulfillment" for which he had but indifferent parliamentary support, virtually admitted the fact, although he said he believed the government's endeavor to carry out the program had had the practical effect of proving "the absurdity of the allied demands."

SUN ISSUES STATEMENT

Deposed Ruler of Southern China, Still Regards Himself as President

SIANG HAI, Aug. 16 (AP)—Sun Yat Sen, deposed president of South China, issued a manifesto today insisting that he is the only legal president of all China, but refused, in reply to direct questions, to make the first statement to that effect. Sun is preparing a statement to be addressed to the foreign powers.

The southern leader, fugitive from his capital at Canton, his army defeated and his navy divided, but still considered by the Peking administration as a powerful factor in the latter's plans to reunify China, continues his negotiations here on an equal footing with the emissaries of President Li Yuan Hing. Three more personal representatives of President Li have arrived to present Sun Yat Sen an autographed invitation to shift the scene of the conference to the capital.

No Reply to Date
Sun has made no reply, nor has he indicated whether he will, but he intimates that he will go to Peking if important questions relating to the conference are submitted satisfactorily to himself. He professes his inability at present to define the nature of these questions, but he admits they relate to conditions set forth in the manifesto. This latter document which the southern chieftain put forth today, accepts Peking's convocation of parliament, as an actual meeting of the old republican parliament, and to it Sun pledged his full support, when it functions independent of outside influences.

Sun today refuses to discuss the subject of the presidency until the questions of parliament and its status are settled.

TROUBLE LEADS TO ISSUANCE OF COURT ORDERS

Temporary Injunction Granted Restraining Alleged Vicious Activities of Strikers in Southern Towns

ASHBYVILLE, N. C., Aug. 16 (AP)—Temporary injunction restraining all striking employees, members of the various crafts, their officers or agents, from interfering with the movement of interstate commerce, United States mail, or employees of the Southern railroad at Spencer or Salisbury, was signed today by United States district court here.

The injunction was signed by Judge James E. Boyd of Greensboro and E. Yates Webb of Shelby.

"Three hundred or more strikers and sympathizers refused to allow special guards to leave the train when they arrived at Salisbury for special duty Tuesday night," the attorneys asserted. It is reported that several of the guards are missing.

SERIOUS TROUBLE REPORTED
WASHINGTON, Aug. 16 (AP)—Report received by the general department here are that "serious trouble" has occurred in connection with the railway stoppage of a strike at Spencer, N. C. Strike sympathizers, he said for night, according to his reports, had entered the shops, routed workers and had intimidated railway police. An appeal had been made for military and troops, the attorney general said he had been informed, adding, however, that no federal action was being taken at present, although United States marshals were "on the job."

PICKETING IS STRENGTHENED

CHARLOTTE, N. C., Aug. 16 (AP)—Officials at the office of the general superintendent of transportation of the Southern Railway here said tonight stated that while "strengthened picketing" prevailed at the Spencer shops, no outbreaks of violence had been reported to headquarters here.

FAMOUS CHARACTER DEAD

Sudden Demise of Edwin B. Trafton Directs Attention to Well Known Novel

LOS ANGELES, Aug. 16 (AP)—Edwin B. Trafton, whose experiences in the Jackson Hole country of Wyoming were said to have formed the basis of Owen Wister's novel, "The Virginian," dropped dead while eating an ice cream soda in a downtown establishment late Tuesday.

Trafton was identified from letters in his pocket. One was written by James Melrose, of Denver, for 16 years a special agent of the department of justice, who stated that Trafton, known also as Ed Harrington, had been a guide in Yellowstone park for 35 years, had punched bulls "with Buffalo Bill," and had had many exciting experiences in the days of the old west.

The police have started a search for Trafton's wife, believed to be a patient in a Los Angeles hospital.

Amsterdam and vicinity was visited by a good rain the middle of the week and the weather has been much cooler since.

LITIGATION LIKELY IN CASE OF OUTLAWED TAX

Novel Question is Presented Over Albion Normal Removal Levy

IDAHO FALLS, Aug. 16 (AP)—An interesting controversy has developed between Bonneville county and the state of Idaho with the Albion normal school improvement tax amounting to \$2,095.16 at the base of contention. The supreme court, held in a recent decision that the removal of the state normal school from Albion to Burley was unconstitutional and hence it said the tax cannot be used for the purpose for which it was levied.

The Bonneville county commissioners instructed the county auditor to hold the amount of such tax collected in this county until a decision is reached and to "withhold the same" by making it of it. The state auditor maintains that the county has no right to refuse to remit tax unless collected for the state and threatens a friendly suit to get a decision on the case from the supreme court.

The case is said to be the first of its kind in Idaho and its decision will affect every taxpayer in the state.

WAR VETERANS HONORED

Medals Bestowed Upon Two American Officers During Annual Convocation

SEATTLE, Aug. 16 (AP)—Proceedings of the Veterans of Foreign Wars, who opened in this city their annual national convocation, Tuesday, were featured by bestowal of the French Legion of Honor on Robert G. Woodside of Pittsburgh, commander in chief, and Rud W. Fitan, of New York, adjutant general. The ceremonies, conducted by Christian Van der Couver, French consul here, were conducted in Woodland park, before a crowd estimated at 50,000.

The medals were given in recognition of the part Captains Woodside and Fitan played in decorating the grave of the unknown French soldier who rests beneath the Arc de Triomphe in Paris and of their patting his name on the rolls of the Veterans of Foreign Wars.

CRESLAN DOLL

As one might expect, the little Greek girls had beautiful dolls. They were made of clay and wax and decorated with bright colors. They had beautiful garments which could be put on and taken off at will, and some of them were made to represent the gods and heroes so much revered by the people. They were not stiff creatures, but had movable limbs.

was \$1785 Now \$1650

YOU can buy a Studebaker Big-Six Touring Car today for \$1650. This is the lowest price ever asked for a car of its sterling high quality.

Always a matchless value, the Big-Six stands out today more strikingly than ever in the field of fine cars.

The seven-passenger Big-Six is not a "volume" motor car, but you get it at a volume price because the Studebaker organization produces and sells three separate models with only one overhead.

Look over the field. Check the manufacturers that will appeal to you in the selection of a car. See the Big-Six. Ride in it—we'll Rain-proof, one-piece windshield; windshield wiper; courtesy light on the driver's side which promotes safety in passing other cars at night; tonneau lamp with long extension cord; cool parking light; cool ventilator; eight-day clock; thief-proof transmission lock; tool compartment in the left front door; shock absorbers.

take you for a demonstration any time you say. Try the wheel yourself. Then compare it with any other car, even at two or three times its price, and you will appreciate how much more you get for your money in a Big-Six than you can find anywhere else.

The price of the Big-Six was reduced at a time when Studebaker had unfilled orders on hand for more than 15,000 cars. The first seven months of this year were the biggest in Studebaker's 70 years' history. Capacity production lowers costs and Studebaker believes that its manufacturing savings should be shared with the customer. Hence the new low price of the Big-Six.

TARIFF NEARS LAST CHAPTER IN THE SENATE

All Important Amendments Offered from Floor Adopted with Two Exceptions—Little More to Be Done

WASHINGTON, Aug. 16, (AP)—With two exceptions, all important amendments to the administration tariff bill offered today by individual Senators, were approved by the senate.

WASHINGTON, Aug. 16, (AP)—The aluminum and all questions furnished the "high spots" in senate debate today.

Discussing the aluminum duty, Senator Reed, democrat, Missouri, charged that the tariff bill was "tailored" with self-interest of high officials of the federal government.

FRENCH STAND IS APPROVED

Attitude of Premier Poincare at London Conference Given Endorsement

RAMBOUILLET, France, Aug. 16, (AP)—Sitting under the presidency of President Millerand the French cabinet at its session here today gave unanimous approval to the attitude taken by Premier Poincare at the recent conference of allied premiers in London and also discussed the question of a moratorium for Germany.

On the matter of a moratorium, it was decided to await the forthcoming decision of the reparations commission, but plans were perfected regarding the measures to be adopted should the decision of the commission fail to agree with the French viewpoint.

Another decision arrived at was that for the time being the government need not call an extraordinary session of parliament so that the deputies and senators might be segregated with the Premier. Some proposals of the government. Freedom of opinion was reserved, however, to consult with parliament in the event that the plans adopted should require legislative endorsement.

M. Poincare's plan for an immediate convening of parliament developed opposition, of which President Millerand was the leader, and finally was defeated.

Had Special Mandate

M. Poincare went to London with the specific mandate to execute a plan which had been signed by all the members of the cabinet without the slightest deviation. It is known that when Poincare made some concessions to David Lloyd George's counter proposal last Friday, a telegram was dispatched to him from Rambouillet requesting the strict carrying out of the specific plan agreed upon.

All of the ministers were in a sober mood as they emerged from the large sitting room of the Rambouillet chateau, where the conference was held by the people who had assembled at the Rambouillet station.

DEATH NARROWLY AVERTED

Painter Engaged in Work on Smokestack Barely Saved from Terrible Fall

NEW ORLEANS, Aug. 16, (AP)—Suspended 80 feet in the air by his toes for nearly half an hour before being rescued was the experience today of John B. Thomas, a 49-year-old painter, who was painting a factory smokestack here.

Thomas was sitting in a rickety chair attached to a block and tackle when he was overcome by heat. Falling backward he began a plunge. As his feet caught in a piece of rope, the fall was stopped.

A bucket of creosote paint upset and poured over Thomas. A helper climbed from the top of the stack and hauled Thomas' feet to the rigging, being unable to pull him to safety.

Twenty-five minutes after the accident, extension ladders from a fire company were raised and Thomas was rescued from his perilous position.

TO PREVENT ALL STRIKES

New Society Designed to Control Labor Disturbances by Public Opinion

CHICAGO, Aug. 16, (AP)—The incorporation of a national society of the middle classes to act as a "balance of power" to prevent strikes and other forms of industrial strife, under the name of the American Commonwealth, was announced here today, the object, according to Marvin V. Hinshaw, head of the new society, being to create among the people a voice so powerful that such disastrous strikes as the country has faced recently would be doomed of forever.

IRISH PATRIOT LAID AT REST

Thousands Line Streets During Passage of Funeral of Arthur Griffith

DUBLIN, Aug. 16, (AP)—Glasnevin cemetery today received another Irish patriot—Arthur Griffith, president of the Dail Eireann cabinet, whose body lies to the fore ever in the soil in which sleeps Daniel O'Connell, Parnell, and others whose life work was for Ireland.

A solemn requiem mass was said for Mr. Griffith in the cathedral of the Immaculate Conception this morning. The impressive ceremony was carried out in the presence of a congregation that filled the beautiful edifice, while outside thousands, unable to gain admission, knelt in the street and prayed for the repose of the soul of the man who overbeyond considers gave his life for Ireland by his arduous labors to effect peace.

Michael Collins, commander-in-chief of the national army, headed the members of the government at the ceremony which was attended also by the members of the consular corps in Dublin, priests and prelates and German representatives of all walks of life.

Thousands View Funeral

From the cathedral on its way to the cemetery, the cortege was viewed by thousands upon thousands of persons, not alone citizens of Dublin, but dwellers in various parts of Southern Ireland. The greatest reverence was everywhere shown. No untoward incident marked the day.

At the graveside, William T. Cosgrove, acting chairman of the Dail Eireann cabinet in place of Mr. Griffith, paid a warm tribute to the dead leader in a stirring address to the great patriot and a great man, "who died, not like other leaders, but with his work accomplished."

Looking Into Life With Browning—The one poet in the world who so forthrightly catches the relations of things and lends one to new conceptions of life's meaning and possibilities. It is Robert Browning's deep insight into human character, human nature, his grasp of the meaning that lies behind the surface events of existence, that make him a perpetual source of inspiration. It is hard to imagine an individual for whom Browning has not a message; a person who could turn through the pages of a Browning volume and not be soon caught with something that points a truth not hitherto suspected, that leads to a better understanding of life.

Encourage Child to Talk

The child who talks well is the child who has something to say. Let him recall stories, recite to him that he distinguishes fact from fancy. Total repression, at the table, for instance, might profitably give way to an intelligent conversation in which the child takes an active part. Draw out the hidden life of his child. By narrating them his gains practice in the use of language. As the same time his past experiences are being reinforced, and not only will they be better remembered but in a more useful way. If an arm is not exercised it will weaken and wither. Mental associations are strengthened by usage; they weaken and fade through disuse. It is well that the mental parts, as it were, be kept clean and in good operating condition.—Daniel A. Laird in the Life Review.

Chivalrous Grocers

First on the list of public bodies in England to recognize woman's rights, stands the Worshipful Company of Grocers of the City of London, incorporated by Edward III in 1381. These gallant grocers not only admitted "mistress of the fraternity" to their guild but even invited ladies who were not members to share in their feasts. This historic company was amalgamated with the purveyors and spicers and for some centuries also included the apothecaries; moreover there is a connection between the Grocers' company and the Bank of England that dates back to the very birth of the Old Lady of Threadneedle Street. It was in Grocers' hall that the governor and company of the Bank of England held their courts between 1604 and 1704.

General Grant's Boyhood

Ulysses Grant was what was called in the neighborhood of Georgetown, O., where he lived from his second year until he was sent to West Point academy, "a horsey boy." He liked horses—liked to ride and drive them and to work with them. A horsey boy was not expected to take kindly to books, and Ulysses was behind most of the boys of his age in the school at Georgetown, except only in arithmetic. Teachers at that time gave their pupils mental arithmetic before they took up the written work, and in doing the problems given the classes in mental arithmetic young Grant proved a star.

Buddhist Ideas of Marriage

According to the Buddhist faith, the marriage he contracted in this world will carry over to the next. When circumstances prevent a marriage in this world many Japanese men and women commit suicide in the hope of a happy married life in the world to come.

Plan Now to Properly Take Care of the Harvest!

It costs far more money not to have good buildings on your farm than it costs to have them. When your crops are ripe you must have a place for them. Before winter sets in you should provide adequate protection for your stock and good sheds for your machinery. Keep your feed where you can handle it conveniently. There's no better place for succulent crops than in a B. P. Frost-Proof Silo.

Now Is the Time to Build a New Barn, Granaries, Machine Sheds, Silo, etc.

The architectural department is at your service. It will supply you with plans and specifications that simplify your building problems and enable you to build economically.

Men who have had years of experience are ready to help you and their services are FREE. We own our own forests, cut the logs, mill the lumber and sell it direct to you. Ask the manager of the nearest B. P. yard.

Invisible Corseting with Warner's Wrap-arounds

Figure Perfection Without the Appearance of Being Corseted

And there are no lacings—just an insert—or two inserts—of elastic, from top to bottom, that stretch enough to let you wrap it and snap it on.

And when on, the Warner's Wrap-Around is a part of yourself—not a line showing through your outer clothing.

It does not stretch into looseness like an all-elastic corset; it holds you as much as you want to be held—and no more.
