FEDERAL RIGHT TO RUN TRAINS BEFORE HOUSE

Lengthy Debate Freshened With Respect to Passage of Amendments to Present Coal Control Legislation

WASHINGTON, Aug. 29 (AP)—Smouldering official opinion in favor of a presidential authorization to take over railroads and coal mines not operated at their highest efficiency, was revived in congress today when it was made known at the White House that President Harding is in favor of such a grant of power as desirable although without any idea of using the authority except in a case of direct public necessity.

One immediate result of the renewed discussion of government operation was the prospect that the house might be called upon at short notice to put its record in the matter. Representative Gorman, republican, South Dakota, announced his intention to offer tomorrow an amendment to the administration coal control bill which would give the president the authority he was said to desire.

As explained at the White House, the president's attitude is that the administration's hold on the situation would be measurably strengthened if it had a foundation the potential power to take over a single railroad or a system of carriers, a single minor or a series of important properties which had been shown clearly to have failed to render the public full service.

There was no hint as to the manner in which such property would be administered and when, if taken over, White House spokesmen emphasized that Mr. Harding had no intention of exercising the power, and forsook no prospect that it would have to be used on the basis of the present situation.

Mr. Harding, it was declared, believed today that the bituminous coal industry was working out its own problem under the impetus of the practical settlement reached by the anthracite strike. He further stated that the anthracite strike would be settled shortly.

Should this forecast be borne out by developments, it would mean that the White House is in a position to take the lead in the industrial tangle of first importance and in this connection the administration point of view, as though the bill was said to be constructed on a strict enforcement of existing laws which guaranteed safety of life and property and maintenance of necessary public service.

A less optimistic view of the fuel situation was taken by Chairman Cummings of the senate committee on coal control bill. Situation is Grave. "The present situation is an exceedingly grave one," he reported, "and it is believed that unless the railroads succeed in measurably increasing their facilities for handling coal, the situation will be such that the anthracite strike will be still in progress throughout the industry. Some operators of fuel may declare," the report continued, "that the situation is not so grave and that congress was forced with the necessity of either approving legislation such as that being reported or of permitting the public to be deprived of its fuel."

HER ROMANCE ENDED, SHE ASKS AID

MISS LOLA HART, who claims to be a cousin of a former governor of Alabama, with influential relatives in Birmingham and Atlanta, has complained to the federal authorities in San Francisco that she was introduced to a man named 'Handsome Jack' Bergen, a notorious criminal, who was in the same room when the man who had been killed by her was shot.

Says Coal Prices Have Small Effect On Cost of Fords

Secretary Hoover Declares Present Quotations Would Add Only \$1.50 Per Car—Statement is Resented

WASHINGTON, Aug. 29 (AP)—Present coal prices would only add \$1.50 to the price of Ford cars, Secretary Hoover declared today in expressing the hope that the Detroit automobile manufacturer would not find it necessary to close his plants because of the price of fuel.

Mr. Hoover said he noted that Mr. Ford considered \$4.50 a ton a reasonable price for coal, and that Mr. Ford could obtain it for \$4.50. He estimated that even under present prices the increase per Ford car would be only about \$1.50. Legislation now pending, Mr. Hoover added, probably would provide price control machinery that could give the Detroit plant a few days of September 16, the date set by Mr. Ford for shutting down his plants.

FIRES AGAIN ARE MENACE

Ten Days of Hot, Dry Weather Revive Difficulties in Canadian Forests. VANCOUVER, B. C., Aug. 29 (AP)—Forest fires again menace certain districts in British Columbia. Ten days of hot, dry weather have offset any benefit that might have been expected from the recent rains which are helping smoldering brush to flames again in the Prince Rupert district, on Vancouver Island, and in the Nelson district, the provincial department of forestry announced.

STORY TOLD BY JEALOUS WOMAN CAUSES MURDER

Many Witnesses to Killing of 'Handsome Jack' Bergen Brought to Light; Crime Apparently Was Deliberate

EDGEWATER, N. J., Aug. 29 (AP)—Two more movie people were today revealed as witnesses to the tragedy connected at the home of George J. Cline, location director of last Friday night, when "Handsome Jack" Bergen, "daredevil double" for film stars, was fatally shot.

Miss Alva Thornton, whom Bergen had lifted from a steno-grapher's desk in financial Manhattan to a place before the camera, was identified as "the mysterious blonde" who was in the Cline home when the man who had been killed was shot.

Quarrel Ends Friendship. Bergen was attentive to her, she said, until they quarreled over her alleged relations with Mrs. Cline.

Heart Quarreling. Mrs. Cline said she reached the house some 6 o'clock and heard sounds of quarreling inside. He said he walked in on Cline, who was starting up the stairs, holding a pistol.

Mrs. Cline Tells Story. Mrs. Mary Cline, who has always been the cause of the trouble, told her story of the tragedy tonight for the first time.

Mr. Bergen told the truth just as she told it. She knew that night, she said. "After my husband had accused him of having maltreated me, he threw his car back at me to be hit, and then he said: 'I know I'm a dirty rat; I know I'm no good; I'm a dirty rat; I'm a rat.'"

GRABLE WANTS LAW REVISED FOR TRACKMEN

Head of Maintenance of Way Brotherhood Asks Presidential Aid in Efforts to Secure Living Wage Scale

CHICAGO, Aug. 29 (AP)—Declaring that the desire of 400,000 maintenance of way employees to obtain a "living wage" through decision of the United States Supreme court is "absolutely hopeless," E. G. Grable, president of the track men, tonight sent telegrams to President Harding and Chairman Cummings of the senate interstate commerce committee, urging the transportation act be revised to make provision for a living wage.

Mr. Grable's telegram was sent after the labor board, in answer to a request of the United Brotherhood of Maintenance of Way Employees of Railways and Laborers that the board accept the principle of the living wage, but applied that it would not go beyond the transportation act which says that wages shall be "just and reasonable."

Mr. Grable, who is asking for wages based on 48 cents an hour instead of the present scale ranging from 23 to 35 cents, informed the president and chairman of the board, that he was in agreement with the case before the board in which more than 100 roads are considered "highways" in view of the action of the board, which procedure seems absolutely hopeless.

Asks Immediate Action. The maintenance of way leader requested that immediate consideration be given to the proposal to submit an bill to congress which would make clear beyond all doubt that the framers of the transportation act and congress itself intended that even the lowest of any maintenance of way employee should receive a wage sufficient to maintain himself and his family in healthy and modest circumstances. It was suggested that the board be instructed to act at once and that committee hearings be held as soon as possible.

Rights Are Maintained. The board in passing on the living wage principle today said it would neither limit nor enlarge the right of either the railroads or trackmen to present their case, but that it maintains a just and reasonable wage.

Evidence Secured in Herrin Battle Is Disappointing

Witnesses Said to Have "Forgotten" Many of Facts Depended Upon Convictions

MAHON, Ill., Aug. 29 (AP)—The veil of secrecy that has been thrown around the grand jury investigation of the Herrin mine war, June 21 and 22 last, causing 29 fatalities, was drawn today by the disclosure of the names of the witnesses being divulged. This stringent action followed the report that one witness had declined to testify in answer questions asked by the members of the investigating body. The witness whose name was not given out was turned over to the sheriff, but given an opportunity to talk tomorrow morning to reconsider his refusal, when he will again be called before the grand jury.

More than two score of witnesses were called into the grand jury room during the day, the chief witnesses being Alton P. Findlay of Chicago, a time-keeper of the Southern Illinois Coal company, the then owner of the strip mine, who was constantly guarded during his stay in Marion. Findlay was also a disapprover of the mine owners' policy of the surrender of the mine employees and only his presence of mind saved him from certain death, when the "chain gang" of the mine went to the underground and found Findlay apparently dead. It is understood that Findlay furnished the grand jury with a list of names of the apparent leaders of the attacking mine.

Have Poor Memories. Rumors coming from authentic sources described the testimony of some witnesses heard during the afternoon session of the grand jury as "faded" and "incomplete." It was reported that the witnesses seemed to "have forgotten" facts which the prosecution had fully relied upon as being the basis of the inquiry.

EVANS HONORED BY SPAULDING

Local High School Coach Given Prominent Place in New Football Rule Book

The 1922 Spaulding football rule book arrived in town Monday, and with it a story of Idaho football "written" by Coach Evans of the local high school team.  
That this is considered an honor is shown in the fact that but 24 high schools were mentioned out of all the high schools in the country. The rule book also shows a picture of the 1921 Twin Falls high school football squad.  
Following is Coach Evans' story as it appears in the Spaulding rule book: "Southern Idaho is rapidly developing into a first-class intercollegiate football section. During the past two years all schools have made rapid advancement in the quality of foot ball play; so well, in fact, the leading teams in the various sections were evenly matched last season that a definite state championship could be claimed by any one school and go unchallenged."  
"The three divisions of Southern Idaho are Boise Valley, Southeastern and South Central. In the Boise Valley section the three teams that were contenders from the start were Boise, Caldwell and Nampa. The season ended by each winning all its games from other schools in the section, but getting themselves in one grand tie-up by Boise losing to Nampa, Nampa losing to Caldwell, and Caldwell losing to Boise. Therefore a triple tie resulted for sectional honors.  
"Exactly the same thing happened

While the metropolitan district will have the heaviest representation almost every state in the union will send one or more performers, and some of the middle western and Pacific coast sections will enter teams of unusual numbers and strength.

SUSPECT CRIMINAL MOTIVE

Killing of Kentucky Sheriff Regarded as Result of Deep Rival Plot

GREENVILLE, Ky., Aug. 29 (AP)—Belief that the killing last night of Sheriff Wm. Mathis and the wounding of four other persons did not come about through a mistake, but that the shooting was result of a plot by enemies-of-the-plain-officer—is expressed here by Hubert Moradith, commonwealth's attorney, who has been investigating the case.  
Mathis, who had a warrant charging breach of the peace, for Clyde Harper, and gone to the home of John Bunker under the belief it was Harper's cottage. He was killed when he forced the door after being refused admission.  
As Sheriff Mathis had been waging a fight against bootleggers in Mullensburg county, Mr. Moradith expressed the belief he had been directed intentionally to the Emie home when he asked the way to Harper's residence.  
Sure Proof of Love.  
"Are you sure that Sam really loves you?" "Certainly. I crumpled his ace in a bridge game the other day and he admitted publicly that I had reason for thinking it the proper thing to do."

DIXIE BOYS WIN GOLD CUP IN ENGLAND'S ROYAL SHOW

GOLD CUP WORLD CHAMPIONS

London, England.—Even American boys lift English cups. The three young men champion in the tractors are world champions. They have just captured the championship gold cup for judging livestock by boys at the most authoritative of all livestock exhibits, the Royal English show at Cambridge, England.

These young Marylanders, while they have attained to unusual efficiency not only in matters pertaining to livestock but in all that has to do with modern farming, are said to be typical of thousands of farm boys throughout the country. Their schooling, which is generally practical, includes the application of fertilizers, the use of silos, and a mechanical knowledge increasingly necessary on farms where tractors

DEFINITE OFFER PROMISES WELL

Proposal as to Settlement of Hard Coal Strike Holds Out New Hope

WASHINGTON, Aug. 29 (AP)—A proposal that the strike in the anthracite coal fields be settled immediately on the basis of the wage scales in effect last April was advanced through Senator Pepper of Pennsylvania tonight at a conference of representatives of operators and mine union officials.

Under the proposal the controversial issue of arbitration as a means of reaching agreement on wages would be set entirely aside, and the only important question to be decided would be that of how long the compromise would be effective.

Senator Pepper and his associates from Pennsylvania, Senator Keck, who also participated in the preliminary conference, left the meeting after the proposal had been laid before the opposing delegations.

Not Easily Excited.

There was an explosion of a gas tank in a local factory that caused consternation among the employees without, injuring any or doing great damage. In the wild rush to escape it was not noticed that one of the old clerks picked up his hat and carried it out through a passage and set it down in the rear of the lot.

When quiet was restored and the tank was discovered outside the wooden structure it took those men the better part of the afternoon to get the desk back into the building. And the man who performed the feat had the effrontery to declare that he had got accustomed to those explosions and they did not disturb him greatly any more.

Others "Best Believes"

We all find a good deal of comfort in thinking of our best selves. If we thought very much about our worst selves we should be pretty miserable. Such thinking as we do about "worst selves" is not noticed that one of the clerks picked up his hat and carried it out through a passage and set it down in the rear of the lot.

PETITION BEARS SAFE MARGIN OF FARMERS' INTERESTS Commissioners' Investigation Indicates Sufficiency of Request for Election on American Falls District

More than 30 per cent of the 498,361 acres included in the boundaries of the proposed irrigation district to be formed to assist in financing construction of the American Falls reservoir project is represented by signatures on petitions for the election on creation of the district, more than 20 per cent of the area shall be represented by petitioners for an election on creation of an irrigation district.

Compulsions completed Tuesday by the commissioners show that approximately 152,510 acres is represented by signatures of the petition, and that 25 per cent of the total area of the district is subscribed in the petition while in 124,687 acres.

Hears Some Questions Compilation of these figures occupied practically all of the commissioners' time at the second day of the hearing Tuesday. The work was occasionally by inquiry on the part of interested individuals appearing from time to time throughout the day with questions for inclusion of excluded lands or exclusion of included lands, and for further investigation into the sufficiency of the petition.

Will Exclude Raw Lands Petitions for exclusion of included land will include an accounting of the decisions reached by the directors of the Twin Falls North Side Canal company to request the exclusion of approximately 40,000 acres of land under the North Side canal system and approximately 10,000 acres included under the Twin Falls irrigation system. It was announced by Mr. C. E. DeLong, managing director of the Idaho Reclamation association, those lands which the directors will not have excluded are narrow lands which were included in the boundaries of the proposed district through error.

Comparative Figures Areas under the canal systems of each of the companies it is proposed to unite in the irrigation district to finance their payments for water from the American Falls canal system, the amount of land required to be aligned up in each to meet requirements for the election on the district, and the number of small actually represented by signatures on the petition, are shown in the following tabulation prepared Tuesday by the commission.

Table with 2 columns: Area, Acres. Rows include Project Area, North Side, Twin Falls, and Totals.

THREE CANDIDATES OUT FOR EDUCATION BOARD Voters Given Choice Among Three Aspirants for Two Places to be Filled

With the expiration of the time limit for filing nominations for members of the Twin Falls school district board of education, the clerk's records Tuesday showed three candidates to be running for the two positions to be filled at the election next Tuesday.

Candidate of Mrs. Scott was put forward Monday with the endorsement of Twin Falls club women. She is the only woman serving as a member of the board, and is believed to be one of the few women in the country serving on an executive board of education.

CASTLEFORD MAN HURT BY UNSLAUGHT OF BULL Wife and Brother with Dog's Aid Drive Off Murderous Beast

Rescued, by the combined efforts of his wife and brother and dog, from the attack of a bull that had struck him down and was trampling him with forefeet and horns, George W. McClinton, Castleford district farmer and former service man, was Monday evening brought to the county general hospital by a horse for medical attention.

GRANTS POTATO RATE REDUCTION WITH CONDITION Interstate Commerce Commission Requires Charges from Colorado Fields to be as High as from Idaho

Permit to put in effect a reduction of 20 cents a hundred pounds in the rate on Idaho potatoes to Missouri, river and eastern points has been granted by the interstate commerce commission to the Union Pacific railroad, according to telegram from Representative Addison P. Smith received Tuesday afternoon by Carl L. DeLong, manager for the Boyle Commission company.

Differential Complicate The present differential on potatoes in favor of Colorado is 14 cents per 100 pounds, according to a message received Monday from Senator P. R. Gooding by George E. Erb, president of the Idaho public utilities commission. The senator's message pointed out obstacles in the way of granting the reduced rate to Idaho shippers.

Fears Costly Delay Mr. Erb expressed the belief that if the adjustment of the Colorado rate to 20 cents and the two states ship for exactly the same cost, Colorado shippers will complain that they are overfilled to some advantage, and want their rate reduced still further. If this happens, he said, then the situation is relatively the same as at present, and Idaho growers will have lost valuable time in getting their early stock on the market.

WAR MOTHERS WILL HOLD DISTRICT SESSION HERE Invitation is Extended to All Mothers of Former Service Persons

CONFERENCE IS STILL ON Hard Coal Operators and Miners' Representatives Continue Negotiations

WASHINGTON, Aug. 29, (AP)—The conference between operators and miners' representatives involving the tie-up in the anthracite field, was still in progress at one o'clock this morning. At that hour the conference had been in progress for over five hours and had considered a proposal that the miners return to work under the wage scales which were effective last year.

A number of individual conferences between participants were conducted as the night wore on, and President John L. Lewis of the United Mine Workers, declared early to newspaper correspondents that the decision was not to work under the wage scales submitted some proposition to the operators or had taken a final position on the settlement, proposed under discussion.

The Misses Elsie Jarman, Vera Bates, Vera MacArthur, Agatha Pelham and Leola Richies entertained at a dancing party Friday evening, comprising Miss Louise Heck, who is leaving for Illinois to attend school. The party was given at Miss Richies' home, and was most heartily enjoyed.

On Sunday afternoon Paul Madigan Roberts was surprised by about thirty of his little friends in honor of his sixth birthday. Miss Dorothy Estling, Miss Irene Hocking and Miss Miriam Gallan were guests.
