INJUNCTION HAS LITTLE EFFECT UPON STRIKERS

Reports of Scattered Violence Received From Different Points—Government Stands Upon Court Order

CHICAGO, Sept. 2 (AP)—While all the efforts of the government were directed toward enforcing the restraining order issued yesterday prohibiting striking railway shopmen from interfering in any way with the nation's railroad traffic, reports of scattered violence continued to be received.

More than 8000 deputy United States marshals went today to enforce the restraining order. They were armed with rifles and pistols and were accompanied by federal judges. The marshals were being served on more than 250 union officials throughout the country. Deputy marshals here said they had obtained surreptitious information of the names in the writ issued yesterday by Judge James Wilkerson in federal court at the request of Attorney General Daugherty.

Mr. Daugherty, left for Cleveland yesterday and Blackburn Estelino, his assistant, left here today after a conference with Charles F. O'Byrne, United States district attorney.

Jewell Is Absent

Meanwhile the strike of some 300,000 shopmen continued apparently unchecked and the issue between the government and the strikers was not forced by a single arrest. B. M. Jewell, head of the shopmen's organization, did not appear at his office today and at strike headquarters it was intimated he was out of the city. At the federal building, however, the impression seemed to prevail that he was in Chicago, although it was not announced whether he was on his way to Chicago or whether he had been arrested.

One report was that Mr. Jewell had gone to Cleveland to confer with train agents, but another "chafe" and "another" was that he was on his way to Washington to confer with the federal Comptroller of the Currency, the American Federation of Labor.

Will Continue Strike

The life of the order extends to September 11 when a hearing to have it made permanent is to be held. While the shopmen issued a statement through the executive council that the writ would be obeyed, the right was claimed to continue the strike in a lawful manner.

No comment on the federal action was forthcoming from the United States railroad labor board today where members were busy with the hearing involving the maintenance of way employes' request for an increase in wages.

TO RE-EXAMINE QUESTION

Control of Traffic in Arms Will Be Re-submitted to Committee on Disarmament

GENEVA, Sept. 2 (AP)—The committee on disarmament today decided that the question of controlling traffic in arms must be entirely re-examined because of the non-ratification of the convention of St. Germain by the United States. It suggests that this be done with the object of finding a basis of possible co-operation with the United States.

The committee makes no suggestion as to an arms traffic conference, leaving it to the assembly of the league of nations to pass upon the question, since the assembly last year adopted a resolution providing for an optional conference on that subject.

GRABS FIRE EXPENSIVE

DENISON, Texas, Sept. 2 (AP)—Fire originating from burning gas in the yard of the Missouri, Kansas and Texas railway tonight resulted in a considerable loss, according to officials.

Two Sisters Mourn Michael Collins

TWO SISTERS were heart broken by the murder of Michael Collins, Commandant-in-Chief of the Irish Free State army. They are Mrs. Kitty Sheridan and Miss Hanna Collins.

Pump House at Shops is Blown Up by Dynamite

Negro Is Taken From the Sheriff's Custody and Hanged to Tree

Assault Upon Young Woman With Iron Bar Leads to Dramatic Action by Georgia Mob

ATLANTA, Ga., Sept. 2 (AP)—Jim Reed Long, a negro, who was arrested tonight charged with having struck Miss Violet Wood, 19-year-old, with an iron bar, when she discovered him in a home at Windsor, Ga., where she was visiting, was lynched by a mob near the place tonight. Long was taken from the sheriff, who had him in custody, and was hanged to a tree.

Sheriff Campbell was successful in splitting the negro from the crowd at the county jail in Windsor, where a large mob had gathered, and was taking him to Atlanta for safe-keeping, when the road was blocked and the negro taken from the sheriff.

Although Miss Wood's condition is said to be serious, it was believed tonight that she would recover.

Declares Candler Leader of Attack To Recover Note

New Element Injected into Alleged Blackmail Case with Filing of Answer of Accused Auto Dealer

ATLANTA, Ga., Sept. 2 (AP)—The Walter T. Candler, wealthy banker, and his brother, Asa G. Candler, Jr., and a man named McIntyre tried to take forcibly from him the note which Walter T. Candler has petitioned the Fulton county superior court to search on the ground that it was extorted from him through blackmail, was charged in an answer of Clyde K. Byfield, filed today with the court.

Byfield, a local automobile dealer said a few days before the suit was filed, the three men made a demand on him for the note, with between \$20,000 and \$30,000, with between \$20,000 and \$30,000, with between \$20,000 and \$30,000.

He said his clothes were torn in the struggle, which ended when it was (Continued on Page Five)

One End-of-Building Entirely Demolished and Machinery Put Out of Commission by a Heavy Blast

LAKELAND, Fla., Sept. 2 (AP)—The gymnasium at the shops here of the Atlantic Coast line railway was dynamited tonight and destroyed. No one was injured.

Railway officials, after an examination, said the blast had been caused by some explosive, probably dynamite. One end of the building was demolished and the pump put out of commission.

The night engineer, the only employee on duty, was at his home about 100 yards from the pump station when the explosion came and was not injured.

NINE ARRESTS MADE

WAYCROSS, Ga., Sept. 2 (AP)—Nine arrests were made here today upon warrants charging violation of strike injunction of the federal courts, and warrants have been issued for others, according to the statement of District Attorney John W. Bennett.

Those taken are alleged to have been violating an injunction granted by the federal court of the Southern district of Georgia against striking employes of the Atlantic coast line. Deputy United States marshals have been here in connection with the strike.

FIRST WEEK COMES TO END

Special Grand Jury Investigating Herrin Mine Battle Closes Six Day Period

MARION, Ill., Sept. 2 (AP)—Concluding the first week of its work, the grand jury investigation of the Herrin massacre of June 22 which resulted in the death of 22 men, adjourned later today until Tuesday morning. There will be no session today.

The record for the first week of deliberations in all probability the most strenuous the jurors and the prosecutors will be called upon to face—showed that one man was indicted for murder, arrested and lodged in jail; testimony, much of it said to be important—was recorded from about 20 witnesses; two men refused to testify, and federal officials have been set to watch a number of persons suspected of participation in the riot.

The first indictment was voted against Otis Clark, miner of Goveville, Ill., for the murder of C. K. McDowell, mine foreman. His arrest followed the next day and he was lodged in jail. A move was made to obtain his release on bail but it has not been carried to completion.

WON'T BREAK HER RECORD

Veteran Actress, Stricken by Illness, Insists on Playing in Final Performance

NEW-YORK, Sept. 2 (AP)—Defying to break her record of playing in every night performance of "The Rat" for two years and ten days, Miss Edie Keller, veteran actress, who was stricken on the stage last night, overruled her physicians today and insisted on playing in the farewell appearance here tonight.

The doctor's urgent plea to rest in order that she might be able to go with the company to Boston, where the play opens next week, but she declared nothing could make her miss the New York finale.

STROKING MAN DIES

YUMA, Ariz., Sept. 2 (AP)—Otto Rinkhardt, 63, of Spokane, who was taken from a Southern Pacific train here on a morning train from Astoria, died today. Rinkhardt was on his way to Phoenix when he became so ill he had to be removed from the train.

WEATHER FOR WEEK

WASHINGTON, Sept. 2 (AP)—Weather outlook for the week beginning Monday: Upper Mississippi and lower Missouri valleys: Rocky mountain and plateau regions: Generally fair and normal temperature.

PAYMASTER IS FIRED ON AND MONEY TAKEN

Lumber Company Cashier Seriously Wounded on Lonely Road and Payroll Amounting to \$10,500 Missing

BIRMINGHAM, Sept. 2 (AP)—R. Thompson, paymaster for the E. H. Grayson Lumber company camp, six miles from Leeds, was shot down from a motor car and \$10,500 this afternoon about 4 o'clock. He was taken to a local infirmary where his condition is said to be critical.

According to the story told by the wounded man, he was riding on his horse along the highway leading from the office of the lumber company to their camp at Leeds, which is about five miles from Leeds and as he was within about two miles of the camp, he was fired upon from a clump of bushes, the shots from a shotgun striking him about the face and body.

He fell from his horse and the money lying in his possession was taken by his assailant. County officers who are investigating the robbery reported no arrests had been made early tonight.

COMPERS RENEWS PLEDGE OF AID TO SHOP STRIKERS

VICIOUS ATTEMPT TO WRECK PASSENGER IS DISCOVERED IN TIME

Brakeless Fastened to Rail in Missoula Yards Would Have Meant Certain Death

MISSOULA, Mont., Sept. 2 (AP)—A truckless, fastened to a rail in such a way as to derail any train that would attempt to pass over it, was discovered this morning on the Western Pacific railroad in the west-end yards here.

The truck had not been heard between the hours of 4 o'clock and 8:30 in the morning. It is supposed the brakeless was placed on the rail to ditch passenger train No. 41, which ordinarily would have been the first train to pass over this spot.

Today train No. 2, the North Coast Limited, which might have been the train plotted against, and train No. 41 were both late. A track walker discovered the obstruction on the track just before a freight train was due there.

Sympathy and Support Promised by Labor Leader; Previous Statement is Ratified and Strongly Re-stated

WASHINGTON, Sept. 2 (AP)—A renewed pledge of "sympathy and support to the fellow strikers in our power" was given to the striking railway shopmen tonight by President Compers of the American Federation of Labor.

Without making direct mention of the Chicago injunction proceeding, or discussing in detail its possible consequences, the labor leader telegraphed to B. M. Jewell, head of the Federation's railway employes department, announcing it had been "decided to ratify and emphasize" a previous pledge of support by the labor legislative representatives of the national organization.

The telegram, sent after a conference of the legislative representatives at federation's headquarters, constituted virtually the only comment on the strike situation to come from labor officials since the Chicago injunction was issued. It was signed by Mr. Compers, in his capacity as chairman of today's conference, at which, it was indicated, the restraining order issued at Chicago was studied minutely.

Representatives and officials of the government likewise were reticent in discussing the injunction suit.

Although for three hours the senate gave its full attention to coal distribution legislation, drafted to meet the emergency, which was a major item of the Chicago proceedings in the whole debate, and officials of the executive departments indicated that they preferred to let the attorney general's injunction petition speak for itself.

Shops Hard at Work

As bearing on the strike situation generally, the Association of Radio Broadcasters announced tonight despite the absence of the striking shopmen from their jobs, the number of freight cars in need of repairs decreased 5,438 between August 1 and August 18.

Although the total on the latter date was 30,998 above the figure for July 1, which the radio began, the number listed as needing attention on August 15 was 235,576, or 14.3 per cent of whole number on all lines.

The association's statement did not cover the condition of motive power, but it did show how many of the cars out of commission were of coal carrying type. It was said that the organization's headquarters, however, that association reports from throughout the country indicated that there now were upwards of 100,000 surplus coal cars in good condition.

It was said at labor federation headquarters that Mr. Compers' telegram to Mr. Jewell was all the federation president cared to add to his statement of yesterday, in which he guaranteed the Chicago restraining order an "outrageous" invasion of the rights of organized labor, and declared the unions would stand upon the guarantee of industrial freedom given to them under the constitution.

Has No Authority

in view of talk of a possible general strike, it again was pointed out that the American Federation of Labor has no authority to call for such action, although it was said a number of resolutions and petitions from local unions and other advocating a national walkout would be laid before the meeting of the Federation's executive committee at its headquarters at Chicago.

Absolutely no official comment was forthcoming from executives regarding the injunction, which they said yesterday had taken them by surprise. This week the executive, in presenting the injunction, said that the strike suit had broken and predicted their shop forces soon would be back to normal. It was apparent, however, that rail heads were keeping close observation on the effect on their forces of the government's action.

DAISO WEATHER

Sunday, Fair.

American Tailors Would Change Type of Russian Styles

Fashion Experts Set Sail for Land of Soviets to Introduce Latest in Trousers

NEW YORK, Sept. 2 (AP)—With the avowed hope of substituting the nattily creased trousers of American men for the baggy ones of the Russian, 25 American tailors, most of them of Russian extraction, sailed for Russia today on the Bronco.

Up-to-date waistcoats, coats and other items of correct male attire in America also will be shown the Russians and an effort made to have them universally adopted in the land of the soviet.

American Legion Publication Asks Pointed Question

"Who Got the Money" Title of First of Series of Articles Based on Alleged War Profiteering

CHICAGO, Sept. 2 (AP)—Under the caption "Who Got the Money," the American Legion magazine today began publication of a series of articles based on allegations of war profiteering. Exclusive of loans to the allies, the war cost the United States government something like \$19,000,000,000, which about \$15,000,000,000 was expended in purchase of materials, the first article asserts.

Life and property, men and munitions was the war, the article says. It then tells of a lieutenant, worn out with fighting, who during his last moments made a list of names of those who made out reports, one of which failed to report the loss of two rifles. The price of these rifles was deducted from his pay. The article declares that officers at the front sometimes were tempted to believe that the government regarded property as more valuable than lives.

Treatment accorded fighting men is compared with that given to rich and powerful companies at home, which are tempted to believe that the government regarded property as more valuable than lives.

The article declares that officers at the front sometimes were tempted to believe that the government regarded property as more valuable than lives.

Treatment accorded fighting men is compared with that given to rich and powerful companies at home, which are tempted to believe that the government regarded property as more valuable than lives.

Wounded Dancer Has Small Chance; Veil of Mystery Surrounds Affair

Wife of Victim of Accidental Revolver Shot, Declines to Discuss Details of Matter

PLATTSBURGH, N. Y., Sept. 2 (AP)—Only a faint chance of recovering from an accidental self-inflicted bullet was held out for Al (Buddy) Johnson, husband and dancing partner of Peggy Marx, tonight by surgeons attending him at the hospital here where he was rushed by boat and automobile from the summer camp of Jack Clifford at Chautauque lake, where the accident occurred Thursday night.

Contrary to reports, county and state authorities are not conducting an investigation into the accident, which still will be shrouded in mystery. Mrs. Johnson, in a highly nervous state from her constant vigilance during the journey to the hospital, tonight would add nothing to the given upon arrival here.

Radio Fans Will Be Given Chance To Hook Up to Best of Programs

New Class of Broadcasting Licenses Authorized But Many Conditions Are Attached

WASHINGTON, Sept. 2 (AP)—A new class of radio-telephone broadcasting station licenses has been authorized by the department of commerce which would establish a special 400 meter wave length system to permit those fans who so desire to "listen in" to the best stations with less interference from some of the lesser lights in radio broadcasting.

The new stations, which will be known as "Class B," will have to take the mark in efficiency in order to obtain a license. Among the qualifications necessary will be reasonable absence of harmonics, non-distorting and dependable power, with between 500 watts and 1,000 watts in the antenna the whole supervised and maintained so that service satisfactory to the public will be assured, and mechanically operated instruments must not be used except in emergency or during intermittent periods of the regular program.

OPERATORS TO ACCEPT OFFER OF SENATORS

Peace in the Hard Coal Fields Believed in Slight with Outcome of Conference at Philadelphia

PHILADELPHIA, Sept. 2. (AP)—An agreement to end the protracted anthracite suspension "in the immediate future" was reached by the operators and miners in a late session tonight. The men returned to work on the basis of the old wage agreement to extend until August 31, 1923.

The announcement of the agreement was made by Senators Pepper and Reed of Pennsylvania. The agreement was reached after a communication from President Harding was received by the parties to the controversy.

Under the laws of the United Mine Workers of America, the agreement is subject to ratification by the miners' local committee. It will meet in Philadelphia tomorrow and the convention will be held at Wilkesbarre, Pa., on Wednesday.

PHILADELPHIA, Sept. 2. (AP)—The anthracite operators tonight in resolutions adopted by the police committee accepted the proposal made by Senators Pepper and Reed of Pennsylvania, to resume the production of coal. In the resolutions the operators agree to extend the wage contract in force March 31, 1922, to August 31, 1923. The proposal previously had been accepted in principle by the leaders of the mine workers.

OFFICIALS WILL PLEASED

WASHINGTON, Sept. 2. (AP)—Warm congratulations were expressed by administrative officials of the department, who were informed that the police committee of the anthracite operators at a meeting in Philadelphia had agreed to accept the Pepper-Reed compromise plan for settling the strike in that industry. It was noted that the development, which was accepted as marking the end of the hard coal tie-up after five months' duration, but would go far toward prompt return of a prosperous condition in the nation's business.

Word of the acceptance of the operators' committee was relayed at once to the White House for the information of President Harding. While no statement was forthcoming from the executive, he was understood to hold the view that restoration of production in the anthracite fields would have an immediate beneficial reaction.

While the compromise so far has been only in principle by the miners' representatives, some cabinet members were said to have been authoritatively informed that, as adopted by the operators, it was entirely acceptable to the mine who have been in charge of the strike for the union.

Secretary of Labor Davis, who has maintained close personal touch with the negotiations, tonight expressed his congratulations "to all parties concerned."

"I am happy over the settlement of the anthracite strike," he was understood to say in a statement. "The people need the coal for winter use. Since there has been no increase in wages, I suppose we will obtain coal at the same price."

Richmond Blessings.
In the window of a color restaurant on the North side: "Come in and get your fill of sausage and old Virginia crackles, with plenty of sure enough strip, and get a glimpse of the land where the wicked cease from troubling and the weary are at rest."

FORMAL CEREMONIES AT UNIVERSITY'S OPENING

Faculty Members Will Appear in Academic Costume When School Year Begins

UNIVERSITY OF IDAHO, MOBOUW, Sept. 2.—Opening exercises of the 1922-23 academic year at the university will be held in the university auditorium Wednesday, September 20, beginning at 10:00 a. m. The ceremony will be formal and all faculty members will appear in full academic costume. Dr. Elmer A. Bryan, state commissioner of education, will deliver the opening address.

The first faculty meeting of the year will be held at 10 a. m. on Saturday, September 16. Following this meeting, the faculties of the several schools and colleges will meet separately for organization. At 2 p. m. the newly appointed standing committees will meet. At 8 p. m. the general session will be held to hear reports from the committees and to transact further business relating to the registration of students on the next Monday and Tuesday.

From 4 to 6 on Saturday afternoon, September 16, President and Mrs. A. D. Daphan will be at first home at their residence, 614 East First street, to the members of the faculty and their wives.

The special train from South Idaho will arrive at 11:20 Sunday forenoon, September 17, carrying about 300 students from the adjacent districts. Registration will begin Monday, September 18, and continue through Tuesday. Classes will convene Wednesday.

DIVORCE QUESTION IS UP

Episcopal Bishops Not Inclined to Agree to Relaxation of Church Rules on Subject

PORTLAND, Ore., Sept. 2. (AP)—Consideration of reports of committees on divorce and the revision of the book of common prayer officially opened the bishops of the Episcopal church in their informal session here today, but the question of divorce, brought up by a statement made in New York by the Rev. Dr. Percy Slickner Grant, rector of the Church of the Ascension of that city, was vigorously discussed by many of the clergymen.

None of the bishops who spoke for publication showed sympathy with the views advanced by Grant, whose statement was in effect a plea for relaxation of the church canons forbidding remarriage of any person divorced on grounds other than infidelity of the divorced mate. On the contrary, lightning of the restrictions on divorce was advocated by some of the bishops.

Razor Claim Hard to Catch

The so-called "razor claim" is not unfamiliar along the Atlantic littoral. It looks remarkably like a closed razor (not of the "safety" pattern, but the old-fashioned kind), and the valves of the shells are almost sharp enough to shave, he says the Kansas City Star. On the Pacific coast it is highly esteemed as a table delicacy, and in Oregon, Washington and Alaska razor claims are canned in immense quantities. They are gathered between Ulises at extreme low water. They are started in salt and the little skill and dexterity are required to capture them, so rapid are they in their movements. When frightened, the razor claim protrudes its "feet" downward, expands its and jerks itself upward. At each jerk it goes down a couple of inches, and so is quickly out of reach.

"Araseni" an Arabic Word.
"Araseni," an Arabic word, is one of the very few English words is one direct from the Arabic. Its adoption takes us right back to the days of the Crusades.—Boston Post.

RAILROADS FACE DIFFICULT TASK

Handling of Labor Day Travel Apt to Prove Real Test to Many Eastern Lines

NEW YORK, Sept. 2. (AP)—Eastern railroads tonight faced their hardest task since the rail strike was last handling Labor Day travel. Preparations to meet this rush and the issuance of a letter of instructions by local strike leaders, assailing the Harding administration for the injudicious proceeding instituted yesterday in Chicago and describing them as a breeder of anarchy, occupied chief attention today.

After checking up on their rolling stock and meeting extra guards on the properties, the roads professed themselves confident of handling travelers without undue inconvenience.

From labor's side came advice to travelers, warning against the condition of cars and of locomotives and predicting inconvenience. At the same time, strikers were urged by their leaders above all things to keep their heads and not to resort to violence.

Florida Sea Creatures

The dangerous marine creatures are in general not the largest. The killer whale, which is 20 feet or so in length, will attack and devour almost anything that swims in the sea. Sometimes they join in schools and make the big whalebone phalics like a pack of hungry wolves. The "man-of-war" shark, seldom more than 20 feet long, is one of the fiercest sea creatures. It is as rare as it is dangerous. The large sperm whale seems to feed largely on large specimens of octopus, for which it dives to deep waters. Some observers assert that they have seen spectacular contests between such a sperm whale and an octopus which it had brought to the surface.

Back Again

He says, "I'll join the aviation corps quickly enough, but I got a prejudice against you" my higher I can reach with a step ladder."—Wilmington Times-Dispatch.

STANLEY BASIN BULLETIN THEME

Bureau of Mines and Geology Reports Results of Study of Interesting Idaho Region

UNIVERSITY OF IDAHO, MOBOUW, Sept. 2.—Description of the mining possibilities of the mountain area south of Stanley and northwest of Ketchum, comprising parts of Blaine, Coeur, Boise, Elmore and Camas counties, is contained in a bulletin, "Geology and Ore Deposits of Alturas Quadrangle, Blaine County, Idaho," written by S. M. Ballard and issued by the State Bureau of Mines and Geology.

The district is one of considerable promise, says the bulletin. The numerous veins of the mountains are well outcrop at intervals from the summit to the creek bottom, and afford evidence of the possibilities for exploration at depth. The strong relief of the country affords ideal sites for far more extensive development of the country at depth than has yet been attempted.

Yields to New Method

"Considerable ore, too low grade to stand former-day shipment charges, has been left in the various workings over the district. Local treatment by modern methods affords a far different basis for calculating its present commercial value. The results of a few preliminary tests on what is thought to be typical ore of the district give a present concentration ratio of approximately 20 to 1. It is an ideal ore for flotation and is amenable to cyanidation. With favorable market conditions for alloys, no local reason for the present inactivity of the district is apparent.

Altitudes vary from 7,000' to 10,000 feet. The view from different points on the main summit is magnificent. The bulletin continues, "It being possible to see many of the main mountain ranges of southern and central Idaho. Large glacial cirques, occupied by numerous small lakes, with deep glaciated canyons extending valleys, forming the landscape along the main Sawtooth divide. Sharp crested ridges separate the view from different points on the main summit is magnificent."

rate the railways with scattered peaks far out on these divides, extending well above 10,000 feet. Erosion is everywhere in an exceedingly active stage. Perennial snow cover the north slopes of some of the higher mountains and snow would melt in places that no great change in climatic conditions would be required to bring back the glaciers of former times.

Dense Forest Growth

"The forest growth of fir and pine is very dense in favored areas and of suitable size and quality for framing and building purposes. From rough, underground conditions are not such that excessive lumbering is not required in local mining work. While depletion, due to former activity in the country, is in evidence, there remains ample timber for many years to come. Branch roads extend westerly into the quadrangle from three different points and all are open for auto travel in season.

Sine Qua Non

A Kansas City bankrupt declared that all he wanted to keep of his assets was his Bible and his golf clubs. "What after all, need a man care whether he's buried or not, as long as he has these spiritual and physical consolations?"—Cleveland Plain Dealer.

PIRATES WIN FROM CARDS

Take Last Game of Series and Climb into Third Place—Giants and Dodgers Divide.

ST. LOUIS, Mo., Sept. 2. (AP)—St. Louis led its final game to Pittsburgh today. Rogers Hornsby "dropped" his thirty-third homer in the sixth off Brown. This ties "Tillo" Walker of the Philadelphia Athletics, who took the major league home run record in yesterday's game with the Yankees.

EACH WINS ONE

NEW YORK, Sept. 2. (AP)—After losing their fourth straight contest to Brooklyn by dropping the first game of today's doubleheader, the Giants rallied and took the closing outburst. The champions won by launching extra base hits in the seventh on Leon Cooney, who had pitched hitless ball up to that time.

Brooklyn was strong throughout the first game.
First Game: R. H. E.
Brooklyn 4 8 1
New York 2 6 1
Batteries: Ruether and DeBerry; Hill, J. Barnes and Snyder.
Second Game: R. H. E.
Brooklyn 2 6 1
New York 6 6 0
Batteries: Cooney, Mammox, Schraber and Miller; Scott and Smith.

DIVIDE DOUBLEHEADERS

BOSTON, Sept. 2. (AP)—Boston split even with Philadelphia in today's doubleheader. Cooney—recently recalled from New Haven, won his first big league game for Boston in the opening game and game was decided by Philadelphia scoring four runs off McManara in the ninth inning.
First Game: R. H. E.
Philadelphia 2 6 1
Boston 3 12 0
Batteries: Habbell and Headline; Cooney and Gandy.
Second Game: R. H. E.
Philadelphia 6 10 4
Boston 2 6 4
Batteries: Wetmore and Peters; Gratton, McManara, Watson and O'Neill.

REDS SLAUGHTER CURBS

CHICAGO, Sept. 2. (AP)—Cincinnati struck back at Chicago with vengeance today and pounded the local twiflow for 31 hits, winning easily.
R. H. E.
Cincinnati 17 21 8
Chicago 6 11 8
Batteries: Donohoe and Wilson; Robinson, Osborne, Stuseland, Jones and O'Farrell.

If your property is desirable and is advertised in the classified—you'll find your buyer.

YANKS AND MACKMEN SPLIT

Hasty's Great Pitching Enables Tail Enders to Divide Bill With Leaders; Browns Win

PHILADELPHIA, Sept. 2. (AP)—Bill Hasty's great pitching enabled Philadelphia to get an even break with New York today. The Yankees won the first game and lost the second.

First game: R. H. E.
Philadelphia 11 14 3
New York 10 10 2
Batteries: May, Jones and Schang; Naylor, Holmoch and Perkins, and Hasty.
Second game: R. H. E.
New York 0 6 1
Philadelphia 6 6 0
Batteries: Shawkey, Murray, and Hoffmann; Shewey; Hasty and Perkins.

BROWNS GAIN HALF GAME

DETROIT, Sept. 2. (AP)—St. Louis climbed a half game closer to first place today by defeating Detroit while the Yankees were breaking camp in a double-header with Philadelphia.
Score: R. H. E.
St. Louis 5 9 2
Detroit 4 8 0
Batteries: Kelp, Frantz and Seaver; Osham, Johnson and Baister.

RED BOX WIN TWO MORE

WASHINGTON, Sept. 2. (AP)—Boston split the locals out in both ends of a double header today.
First game: R. H. E.
Boston 3 5 1
Washington 0 4 0
Batteries: Ferguson and Root; Brillhart, Erickson, Francis and Charney.
Second game: R. H. E.
Boston 6 6 0
Washington 0 7 0
Batteries: Flacey and Chaplin; Johnson and Gharzity.

BOONE PITCHES HORROR AT CAMEL

CLEVELAND, Sept. 2. (AP)—The pitching of recruit John Boone, who is permitted only two White Sox batters to get to second base, featured Cleveland's victory over Chicago today.
Score: R. H. E.
Chicago 0 6 1
Cleveland 2 9 0
Batteries: Leverette and Schalk; Boone and O'Neill.

GAMES FOR MONDAY

With first place but a game or two away from four teams in the National League, St. Louis and New York fighting it out in the American, it may not go astray to give Monday's schedule in the two leagues:
American League.
Detroit at Chicago, 2 games.
Chicago at St. Louis, 2 games.
Philadelphia at Washington, two games.
Boston at New York, 2 games.
National League.
New York at Boston, 2 games.
Brooklyn at Philadelphia, 2 games.
St. Louis at Pittsburgh, 2 games.
Chicago at Cincinnati, 2 games.

The News is read by the permanent earning class.

MANY STUDENTS TRY FOR TEAM

Season for Molekin Artists to Start Tuesday with 75 Men Eligible for the Squad

(By Fullback)

With the opening of school on Tuesday, the local football season will get under way, as Coach Evans has announced. The team, as the boys have been working all summer on ranches and have obtained from cigarettes, will find the sledding pretty tough when it comes to getting on the team.

Meetings to be held. A meeting will be called as soon as school hits its regular routine, by the president of the south central division, Mill Bogardus of the Jerome high school to determine a playing schedule, rules, etc.

For the benefit of the fans that did not see the ruling of the state board of athletics last fall, the following will explain the method to be used this season in determining a state champion.

The state will be divided into four sections, The Northern division, comprising Moscow, Lewiston, Coeur d'Alene and other schools in the panhandle. Then comes the Boise Valley division, which has Boise, Nampa, Caldwell, Waller and others. The district composed of Twin Falls, Filer, Bluff, Burley, Rupert, Jerome, Gooding, Wendell is known as the South Central section. Last year Gooding was out of the running as they didn't have a football team, but this year they state that they are out after the division championship.

The Eastern division is composed of Pocatello, Idaho Falls, Downey, Blackfoot and American Falls.

Each section will have its elimination games, and the winners of the South Central division will play the winner of the Eastern section. The Boise division champs will play the winners of the Northern division and the winners of those two games will clash for the state title.

The champions of each section must be declared before the date to be set later on by the state athletic board. Titles must be played off before this date.

This method of finding the state champion is expected to make the trip.

THIRTY-THREE FOR HORNBEE
ST. LOUIS, Mo., Sept. 2. (AP)—Rogers Hornsby of the local Nationals, closed his thirty-third home run of the season in the sixth inning of today's game with Pittsburgh. This ties him with Tillo Walker of the Philadelphia Athletics who is the leading home run hitter of the season.

(Additional Sport News on Page 9)

READ THE CLASSIFIED ADS.

The hard part of getting a football team together is usually found in the fact that the boys who are the best-looking prospects are the ones that are out of condition. This season should find the boys in fine physical condition, as many of the lads have been working all summer on ranches and have obtained from cigarettes.

A cigarette smoker will find the sledding pretty tough when it comes to getting on the team.

It is to be hoped that all students that have ability will be out on Tuesday, thus insuring Twin Falls of a real football team.

RUPERT AND HANSEN TODAY

Fast Game Anticipated When Teams Clash This Afternoon—At Hansen

From the eastern part of the Twin Falls tract comes word that the Rupert baseball team is coming to Hansen this afternoon with the intention of giving Hansen a good beating. It has been rumored that Rupert has gathered the pick of the eastern section, and if such is the case, the Hansenites are in for a real battle, as there are some classy ball players around Rupert, Hansen and Durio.

Hansen of course realizes that they must win the game in order to keep up their reputation as winners. Walton, the lad who wears the smile that never wears off, will be on the mound for the Hansen club and will pitch the entire game, providing that the Rupert stars don't take too kindly to his benders. Patton will be on the receiving end.

The game will be called at 2 sharp and a large delegation of Twin Falls fans is expected to make the trip.

STAGE SET FOR BASEBALL GAME

Jerome and Hansen Both Ready for First Game of Series to be Played Here Tomorrow

Everything is in readiness for the big game at Lincoln field tomorrow afternoon between Hansen and Jerome, being the first of the three game series for the Southern Idaho championship.

Both teams have been practicing all week, and are in fine fettle for the fray.

Hansen will get a little additional practice this afternoon while playing Rupert, while Jerome has decided to rest their men.

The Hansen management is still undecided as to what man they will put in the box against Jerome. Jimmie Thompson was out last evening and looked like a big leaguer, and Frank Fuller stated that his arm was feeling great. The chances are that the pitcher will not be decided upon until they work out Monday.

Jerome will use Clyde Modrell in the box for the opening game on the strength of his wonderful showing against the strong Hansen team three weeks ago. Clyde is no dub when it comes to hurling the ball.

The addition of Zieske to the Hansen outfield fills a gap that should make Jerome hustle to overcome. Zieske is a real fielder, and a hard hitter and knows the game from A to Z.

The place and time for the playing of the second and third games of the series will be decided upon Monday before the game.

The game will be called at 3 o'clock sharp, and the early arrivals will get the shady seat.

What is useless to you may be valuable to others—advertise it in the classified columns.

CHAUTAQUA COMMITTEE HEADS ARE ANNOUNCED

Organization of Twin Falls Entertainment Association Enters New Stage

Appointment of the chairman of the committee as which, with the five elected officers will form the board of directors of the Twin Falls Entertainment Association...

The list of committee chairmen follows: Finance, W. A. Patrick; publicity and advertising, Mr. J. Kingsbury; flowers, Mrs. Stella Hubbard; reception, Burton E. Morse; membership, Roscoe Stevens; auditing, J. O. McKinley...

Each chairman within the next two weeks will designate the persons to serve with him on his committee. Donation has been reached to limit membership of committees to the following numbers...

Electing officers of the association, besides the president, Art Vice president, Mrs. Burton E. Morse; recording secretary, Dr. O. H. Caldwell; corresponding secretary, Miss Jessie Fraser; treasurer, James Fitzgerald.

Spends Week Here—Charles H. Burton returned to Payette Friday after spending the week at his home in this city.

Here from Panhandle—John C. White of Wallace, Idaho, is here for a few days on business in connection with his farm land holdings in this county.

At Summer Camp—Mr. and Mrs. Donald McLean and Mrs. Burton E. Morse are spending the week end at the White summer home on Warm Springs creek.

Spent Holiday Here—Mrs. S. F. Vandament and daughter, have been spending the week with Mrs. Charles H. Burton. Mr. Vandament will arrive Sunday to spend Labor Day in Twin Falls taking his family home with him.

Take Marriage Licenses—Marriage licenses were issued Saturday at the office of the county recorder here to Oscar Bowen, Roseworth, and Lucile Darling, Chicago, and to Loring A. Wood, Kimberly, and Amy Gagel, Chicago.

Delegates Named—Election of F. F. Johnson, S. G. McAuley, R. T. Jester and C. E. Rowcliffe as delegates from Twin Falls lodge, I. O. O. F., to sessions of the Idaho grand lodge of the order convening at Pocatello October 10, was announced Saturday.

Mr. Fletcher Returns—Mrs. Gustav Fletcher arrived Friday afternoon at absence of four months, a portion of that time having been spent at Hot Springs, N. Dak., where she went for surgical treatment. She visited at the home of her parents at Crawford, Neb.

Brought to Hospital—Mrs. William Holway was Saturday brought from her home in the Nevada hills above Devil creek to the county general hospital here to undergo a surgical operation. She was accompanied by a physician and by her sister, Mrs. Boyd of Rogerson.

Express Agent Here—Charles E. Davis, San Francisco representative of the American Express company, was here Saturday in conference with chamber of commerce officials relative to its request for establishment of an up-town express station or extension of the delivery service zone.

Leaves for Salt Lake—Mr. and Mrs. C. B. Chanuel and daughter, Dorothy, left Saturday for Salt Lake, taking with them the Misses Gladys and Mary Melton, niece of Mrs. Chanuel, who have been making a vacation visit at her home. The trip is being made overland.

Teachers' Meeting Postponed.—Because of the absence of 10 teachers who will be employed in the Twin Falls schools this year, a general assembly of teachers called by Superintendent M. C. Mitchell to be held Saturday, was postponed until Monday at 9 a. m. Traffic delays on railway systems is the cause given for the failure of the teachers to arrive here earlier.

Will Practice in Jerome.—Dr. W. L. Ickard, veterinarian, who has served for 14 months as Twin Falls meet and dairy inspector, will leave Tuesday for Jerome where he will enter upon the practice of his profession. He will be joined there by Mrs. Ickard who is visiting relatives in Oklahoma City. He will be succeeded as inspector here by Dr. Walter G. Brown of Chicago. We come to Idaho from Brooklyn with the "modern caravan" last fall.

RUN FOR YOUR LIVES—Printhead, Idaho, Monday, Tuesday, Wednesday.—adv.

Special Dance Labor Day, Sept. 4, at Darceland. Dancing 8 to 12.

Social Notes

Edited by Mrs. E. B. Williams, Telephone 398

Mrs. J. Frank Martin, entertained at bridge Saturday afternoon in honor of Mrs. Harry J. Benoit. Miss Albertine Benoit won the prize for high score. The rooms were attractive with fall flowers in pink, yellow and lavender, in the same color scheme being used in the delicious refreshments served following the games. The guests numbered thirteen were all immediate friends of the guest of honor.

Miss Julia Jenkinson was hostess at a slumber party Thursday night at the home of her parents, Mr. and Mrs. M. E. Jenkinson. The evening was spent with dancing and games, followed by a midnight supper. A waffle breakfast was served. The guests were Miss Nora

Ular, Miss Imogene Craven, Miss Agnes Hezron, Miss Hazel Pariah, Miss Helen McDowell and Miss Hazel McDowell.

AT THE HOTELS

CHURCH DIGNITARY HERE

Judge C. H. Hart of Salt Lake attending I. D. A. Convention Conference. Judge Charles H. Hart of Salt Lake, representative of the general church authorities and Mutual Improvement associations, arrived here Saturday to attend two day sessions of the annual auxiliary group convention and quarterly stake conference of the Twin Falls stake, Latter Day Saints, which will be concluded Sunday evening with a general meeting at the First ward chapel at which Judge Hart will speak. Sessions of the convention and conference Saturday were largely attended by members of the church and various auxiliary organizations. Representatives of several of the auxiliary groups from Salt Lake are taking part in the proceedings.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

THE full leased wire service of the Associated Press is rarely to be found in any newspaper in a town of less than 20,000 inhabitants.

Yet it is offered to readers of The Twin Falls News, in exactly the same sense as it is offered to readers of the Chicago Tribune and all the other great daily newspapers of the country.

And the Associated Press report carried in The News covers the news happenings of the world, because The News does not go to press until after the wire closes for the night whereas outside morning newspapers coming into Twin Falls are compelled to go to press hours in advance of The News press time in order to make the train connections which enable them to get their papers into Twin Falls at noon each day.

There is an advantage here to News readers in point of news service which should not be overlooked.

The News essays to cover its field in Southern Idaho as thoroughly as does the Lewiston Tribune in North Idaho and the Statesman in Central Idaho.

The News is the morning daily newspaper east and south of Boise in the entire state.

MILNER DISTRICT CLAIM TO LIEN ON LAND DENIED

M. J. Swesley, Twin Falls Attorney, Calls for Restraining Order to Prevent Proposed Sale

Declaring that his lands in the vicinity of Murtough derive no benefit from the Milner Low Lift Irrigation district and that no contract for water for the lands has been made with the district but that water is obtained for the property through the Twin Falls canal system under a court decision entered last December, M. J. Swesley, Twin Falls attorney, Saturday instituted in district court here an action calling for an injunction to restrain the district and P. A. Terrell, its treasurer, from selling the land in question under an assessment and alleged lien. In his complaint Mr. Swesley alleges that the assessment and all of the proceedings of the district in this regard are illegal and void, that the district's canal system has not been built to supply water to the lands in question which were entered upon under the Carey act and that water from the Twin Falls canal system was obtained by Myron B. Doley, his predecessor in interest.

On Big Scale. The Yellowstone remains the largest of our national parks and contains the greatest variety of scenic wonders. Everything within its more than 2,000,000 acres is on a gigantic scale. Distances are great; canyons are of terrifying depth; mountains tower to monstrous heights. The rivers, the "hot spots" the hot springs, are of never-ending interest to tourists.

Youthful Lover Too Sordid. He was ten, I was eight. He invited me to a carnival one night, and of course I accepted. He treated me to rides, bought me candy, and I had the time of my life. But my love for him faded within the next day, he came and showed my mother a list that he had kept of all the things he had treated me to, and asked her to pay him back.—Chicago Journal.

Turpentine in Pine. Successive seasons of turpentine cause no lowering in strength or resin content of pine trees, states the forest products laboratory of Wisconsin.—The crude turpentine is the result of the resin, and comes only from living cells in the sap wood region of the tap bore. The heart wood, which consists of dead cells, contains no resin.—Scientific American.

Gold Practically Everywhere. Gold, the aristocrat of metals, is found to some extent in every part of the world, from near the equator in Africa, to the poles, to the frozen ground of Alaska, Finland and Siberia.

Plus for Faith, Not Doubt. If you have any faith, give me, for I want to make a bank of it. You might you may keep to yourself, for I have plenty of my own.—Chicago Journal.

Special Dance Labor Day, Sept. 4, at Darceland. Dancing 8 to 12.

NEPTUNE PLAYS OLD-TIME GAME

American Officials Pay Heavy Tribute to Mythical Monarch in Crossing Equator

ON BOARD THE STEAMER PAN-AMERICA, Friday, Sept. 1, (By Wireless to the AP)—When the steamer Pan-America crossed the equator today, Neptune held his usual court to try those who never before had entered his domain.

Charles W. Hughes, the American secretary of state, and other members of the American mission who are proceeding to Brazil for the centennial celebration, were tried for numerous crimes and misdemeanors.

Mr. Hughes was accused of boisterous conduct, loud laughter and antique jokes and of having undermined the prestige of Neptune by scrapping battleships. Mr. Hughes pleaded guilty to all counts of the indictment against him but he called attention to the fact that Neptune now was a ruler in the kingdom of peace instead of in the kingdom of war.

Major General Robert Lee Bullard was compelled to go through the charge of arms or conviction of the court laid against him. Representative Charles E. Johnson, chairman of the house committee on foreign relations, was convicted of perjury for having pretended that he previously had crossed the equator. Supreme Court Justice Edward Finch was accused of subordination of perjury and was sentenced to write a poem. This he did, paying tribute to President Harding and President Pessoa of Brazil.

WILL OBSERVE LABOR DAY

Hansen-Jerome Ball Game Will Keep Many Twin Falls People at Home

In observance of Labor Day Monday, Twin Falls business houses generally will be closed as will banks and public offices with the exception of police and sheriff's offices.

An scheduled baseball game between Jerome and Hansen teams will keep many Twin Falls people at home for the day, while others will take advantage of the double holiday for more or less extensive outing excursions.

Origin of "Publican"

In England the keeper of a public house came to be called a publican and he was probably so-called because he put a tax as it were on travelers and uprisings sometimes extorted and the term publican got fixed in the speech of the people that it found its place in the law and under English statutes the term publican included inn-keepers, hotel-keepers, keepers of saloons and wine vaults, etc. We find today a shop or store called a publican, or a Boniface, or mine host.

"The Blues"

This phrase, descriptive of moods of depression or melancholy, has an interesting origin. It was formerly believed that working with indigo dye caused fits of melancholy, as the chemical worked on the system through the skin. As the dyers were nearly always stained blue in parts of their bodies, the phrase came into current use to express low spirits or moodiness.

Puzzling English Pronunciation

We may puzzle our brains over the tongue-twisting names which France and Russia have given to some of their towns, but England furnishes a few quite as dazzling as that of Princesburg. Hunsomere, for instance, is pronounced Huns-oo. Kikkysbriest, Kir-cobree, Daventry, Dantry; Le-comister, Lemster, and Leoman, Esham.

Daily Thought

Certainly, in our little sphere, it is not the most active people to whom we owe the most. It is the lives like the stars, which simply pour down on us the calm light of their bright and faithful being, up to which we look, and out of which we gather the deepest calm and courage.—Brooks.

That's More Like It

If "ohby" is to be omitted from the ritual, how about making it "love, honor and display"—El Paso Herald.

SPORTS

(Continued from page three.)

CHAMPIONSHIP RETAINED

Two Matches to One in Favor of United States is Score at End of Day's Playing

PORTER HILLS, Long Island, Sept. 2. (AP)—Australia's quest for the Davis cup emblem of title of the world's team tennis championship has not been in vain. Regardless of the final outcome of Monday's play, the work of Pat O'Hara, Wood and Gerald-Patterson in the doubles match when they defeated William T. Tilden, J. and Vincent Richards, 6-4, 6-0, 4-6, this afternoon, will stand in the annals of American tennis as one of the greatest exhibitions ever witnessed on the continent. As a result of their victory the score stands tonight two matches to one in favor of the United States.

Defeated three sets to one by the same combination at Boston on Monday for the United States championship, the Antipodeans came back today on the courts of the West Side club and literally tore the American team apart. No greater display of team tennis in all its multiple requirements has been seen since Norman E. Brookes and Anthony Wilding, the famous Australian racket masters, won a similar match on the same stretch of turf in 1914. Incidentally it was the first time since that year that Australian players have won a match from the United States in Davis cup play.

ATTEMPTS DIFFICULT JOB

American Swimmer Will Try to Cross English Channel—One Man Gives Up in Four Miles

DOVER, Sept. 2. (AP)—An American swimmer, Charles Toth of Boston, is breasting the cold waters of the English channel tonight in an attempt to swim to the French coast. Another American, Sam Richards, also of Boston, started, but after swimming about four miles out was overcome by a fit of coughing and was taken from the water. Still a third American, Henry Sullivan of Lowell, Mass., was to have made the attempt, but delayed it until tomorrow morning.

A group of friends, scores of fisherfolk and grizzled mariners gathered on the beach to wish the intrepid swimmers success, as they plunged at flood tide from the base of Shakespeare cliff, which juts from England's rocky coast. The men were covered with grease to counteract the numbing effect of the cold and to guard against the stings of jelly fish.

The early collapse of Richards indicated the difficulty of facing the tides, the wind and the cold of the channel. As the crew filed, the distance between Shakespeare cliff and the French coast is a short swim of the strong side and cross currents carry a swimmer far out of his course, so that in crossing he actually would cover a distance of more than fifty miles.

DETROIT MAN LOBBES

DETROIT, Sept. 2.—Comodore Gar Wood of Detroit, who since 1917 has held the gold cup emblematic of the power boat championship of America, lost his title today, when he finished eighth with Baby Goo, Jr., in the second heat of the gold cup event. Col. J. G. Vincent, driving his Packard "chickens" the magnificent effect of yesterday, taking the second 30-mile heat from Arab VI of the Buffalo lunch club.

NEW WORLD'S RECORD

NEW BRUNSWICK, N. J., Sept. 2. (AP)—George Eddy of the New York Yacht Club's Swimming association, New York, long distance swimming champion, established a new world's 440-yard record for women today in winning the National A. A. U. championship over that distance. Miss Eddy's time was 6 minutes, 16 seconds, 17.35 seconds faster than the former mark, held by Miss Helen Wainwright of New York.

MEADOWBROOK WINNER

RUMSON, N. J., Sept. 2. (AP)—Meadowbrook today was the Hubert Mead's annual try by defeating Fleming, 18 to 11, in an extra period contest, the final match in the international polo tournament, which began a week ago. Meadowbrook has conceded a handicap of eight goals to Fleming.

Will He Be Left Waiting at The Church?

Mary Landon Baker

Three times Miss Mary Landon Baker, beautiful Chicago beauty, has been her persistent fiancé, Allister McCormick, rich Chicago man, waiting at the church. The first time the guests were assembled in the church when she postponed the ceremony. The fourth time may "take," for they are reported ready to be married "somewhere in England" between September 18 and 21. But no one can tell a woman's mind, and she has a right to change it.

BOUT MAY BE CANCELLED

Match Between Johnny Dundee and Johnny Kilbane is in Danger of Cancellation

NEW YORK, Sept. 2. (AP)—Johnny Dundee will not box Johnny Kilbane for the featherweight championship at Jersey City, Sept. 29, he announced today, if the New York state athletic commission continues to oppose the contest arranged by Promoter Tex Rickard.

William Muldoon, chairman of the commission, declared last night that Dundee would forfeit his right to box in New York state if he fought Kilbane because the latter is under suspension by the commission for failure to accept Dundee's challenge last June. At that time Kilbane's featherweight title was declared vacant in this state and Dundee was recognized as champion after recently knocking out Danny Frush of Cleveland.

"If the New York state athletic commission continues to oppose the contest I have scheduled with Kilbane at Jersey City, Sept. 29, there will be no fight," Dundee declared today. "I'll stand by the commission."

Elephant Sprinters

In spite of the great bulk and lumbering gait, the elephant has been known to exceed 15 miles an hour and to have kept up a rate of ten miles an hour for a long time. It is said that an elephant does not reach proper maturity until it is 40 years old, and that it may live for over a century. Darwin calculated that after a period of 700 years, if breeding were not interfered with, there would be 10,000,000 elephants alive, descended from a single pair. The tusks which are the weapons of the males in their furious combats, are used by both sexes in everyday life for digging up roots for food.

To Mend Crack in Basin

When a large white basin is cracked, paint over the crack with a piece of white enamel. Then lay on a piece of white tape and give another coat of enamel. This will prevent the basin from breaking.

Giant Berries Found

Giant herring-looking like blackberries, but dark red in color, have been discovered in Columbia, South America.

ALL CANDIDATES ARE CONFIDENT

Pending Primary Election in Wisconsin Brings Out Many Speakers in Fast Finish

MILWAUKEE, Sept. 2. (AP)—Leading candidates for political honors in Wisconsin practically wound up their vigorous campaigns tonight incident to next Tuesday's primary, with addresses in various parts of the state. All spoke in a hopeful vein for their success at the polls.

United States Senator Robert M. La Follette, who lost several days on account of a hurried trip to Washington where he registered his vote in favor of the soldiers' bonus, made his last pre-primary speech at Kenosha and Okauch, talking on lines bearing upon his record in the senate on various measures and making support for the self and the progressive republican state ticket, headed by Governor John J. Blaine.

William A. Ganfield, who opposes La Follette, talked to an audience at Lake Geneva. He accused the opponent of playing politics throughout the campaign. Mr. Ganfield said that while Senator La Follette condemned the Eel-Caninus law, he did not offer anything to replace it.

Drunkards Among Insects

Rentomologists have found that ivy flowers provide a veritable bacchanalian festival for a number of insects. When the yellowish flowers of the ivy are in a state of disintegration along its yellow catkins. There is a fly so addicted to wine that Linnaeus named it the "cellar fly," which application Kirby changed to the more appropriate one of the "cellar wine drinker." Kirby states that the larvae of this little fly, whose diet he could attest from his own observations, desecrate to feed on anything but wine or beer.

"Trumpet Blowing"

It is a mistake to underestimate yourself, because people are apt to take us at our own valuation. At the same time, we do not advise "trumpet blowing," as this makes a person objectionable. Try to strike the happy medium of a dignified estimation of your own powers, but don't boast about them.

Repairing Water Pipes

A satisfactory temporary repair of a leaking pipe may be made by binding around several layers of string well soaked in thick oil.

America's First "Zo"

Independence square in Philadelphia was the site of America's first zoological garden. It was there that Charles Wilson Peete, in 1794, transferred the museum which for a decade previous he had maintained in his home, Third and Lombard streets. The Philadelphia society, at Sixth and Chestnut streets, gave him permission to use its building for his large collection of portraits of men of the Revolution. He started the zoological garden in the rear of the building. An eagle was among the living specimens. Above its cage was an inscription: "Feed me well and I will live a hundred years."

AMERICAN LEGION

(Continued from Page One)

the government for \$5,600,000. The charges say further that despite a congressional report that this food was packed knowingly for sale to the army the courts thus far have denied the opportunity of deciding the case. The article asks whether equal justice was meted out to the soldiers and to the food sellers.

DECLARES CANDLER

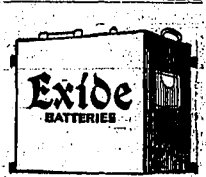

(Continued from Page One)

learned the note was not in his possession at that time.

Except for this allegation, Byfield's answer followed closely the statements issued by him soon after the filing of the suit by Candler and in the petition of Mrs. Byfield asking \$100,000 from the banker as a result of an alleged attack upon her in her store room aboard the steamship Berengaria on July 16, 1918. The automobile dealer denied any effort to blackmail Candler and said that "on the contrary Candler admitted his guilt and urgently besought this defendant to make a settlement with him."

Hearing on Candler's petition originally was set for today but was postponed by agreement of counsel.

THE MARKETS

Chicago Grain Market

CHICAGO, Sept. 2.—Wheat prices held within relatively narrow limits the greater part of the short session today. Starting firm, the market quickly eased off when offerings increased on the wheat, and the best prices were maintained. At the finish, wheat showed a net loss of 7/8 to 1 1/8, with September 6s and December 10s at 1.01 1/8; 6075 was 1-9/16 to 3-4 off; oats were unchanged to 1-4 higher and provisions were unchanged to 1/16 down.

Trade in wheat was largely as a prelude to the opening of the yearling crop for labor day. There was little change in the character of the news and grain traders as a whole paid little attention to the threat of a general strike, following the instance of the sweeping fall operation, relying rather on the government's announced policy to keep the railroads operating at all costs. A record crop of wheat was obtained in the Northwestern provinces, according to a report from Winnipeg, which placed the total at 875,000,000 bushels, or 12,000,000 bushels in excess of the bumper crop of 1918.

Export demand was reported slow. Deliveries on September contracts today were 55,000 bushels and fresh receipts were estimated at 90 cars.

Corn advanced to the highest figures of the week in the early trading, despite getting better 1/16. It showed a strong upward trend throughout. Provisions were easier with flattened liquidation in the nearby deliveries of lard.

Potato Market

CHICAGO, Sept. 2.—Potatoes—Wheat receipts 56 cars; total United States shipments 65 cars; Idaho and Oregon sacked Burles \$1.25 cwt.; Wisconsin bulk Golden \$1.25 to 1 1/8 cwt.; Minnesota sacked and bulk Early Ohio \$1 and 1/2 cwt.; Utah sacked Early Ohio \$1 cwt.; New Jersey sacked Clinton \$1.15 cwt.

Portland Livestock

PORTLAND, Ore., Sept. 2.—Cattle—Steady; receipts 100; prices unchanged.

Hogs—Steady; receipts 118; prices unchanged.

Sheep—Normally steady; no receipts; prices unchanged.

Omaha Livestock

OMAHA, Sept. 2.—(United States Department of Agriculture)—Hogs—Receipts 5,500; few early sales 10 to 12 cwt. generally 15 to 25 cwt. lower; closing dull at fall decline; bulk butchers 85 to 9; bulk packing grades \$5.00 to 7.00; top 25; bulk of sales \$5.00 to 6.00.

Cattle—Receipts 675; compared with a week ago: Best grade corn fed heifers strong to 25 higher; weak stock \$10.75 per load other grades of beef to 25 higher; bulk to 10 higher; weak mostly 25 higher; packers and feeders strong to 25 higher.

Sheep—Receipts 600; compared with week ago: Lambs and yearlings mostly 25c lower; sheep 20 to 15c lower; feeding lambs steady; feeding and breeding sheep 20c lower.

Chicago Livestock

CHICAGO, Sept. 2.—(United States Department of Agriculture)—Cattle—Receipts 2,000; compared with week ago: Best steers and yearlings mostly 25 to 50c higher; best steers and yearlings eligible to sell at 100; up; no high price level for the year; top matured beef steers \$11.25; numerous loads at \$11 to 11 1/8; best long yearling \$11; the stock largely strong to 25 higher; spot 35 to 40c up; on heat fat cows and heifers; bulk about steady; veal calves 50 to 70c higher; stockers and feeders steady; spots weak to lower; weak bulk prices best steers \$8.50 to 10.00; stockers and feeders \$6.25 to 7; best cows and heifers \$4.75 to 1.25; calves and others \$2.85 to 3.50; real calves \$12 to 12.50.

Hogs—Receipts 6,000; closed weak 1/16 to 20c lower on all grades; bulk 175 to 200 pound \$9.45 to \$9.60; bulk 230 to 250 pounds \$9.10 to \$9.40; bulk 280 to 300 pounds \$8.70 to \$8.85; bulk 300 to 350 pounds \$8.25 to \$8.50; packing sows \$8.00 to 8.25; top 400; packing sows \$8.00 to 8.25.

Draw Anything

You need never hope to get on, if you are the least anxious that the drawing you are actually at work on should look nice about it in done. All you have to care about is to make it right, and to learn as much in doing it as possible. So then, when you are sitting in your friend's parlor or in your own, and have nothing else to do, you may draw anything that is there, for practice; even the freelions or the pattern on the carpet; be sure that it is a 1/4" practice and not because it is a 1/4" practice. nor a drawing poker and tongue, nor because you wish to please your friend by drawing a room—From Tutkin's "The Elements of Drawing."

Large Ship of Ocean Denizens

There are plenty of monsters in the sea, though many equate the largest of the whale sharks. The largest of such creatures are something like 90 feet in length. If there are larger specimens they have been remarkably successful in eluding accurate measurement. In order to find sufficient food such gigantic creatures must be content with a humble diet. Hence they have developed their whalebone—a substance in which no intelligence can compete in the manufacture of high-grade whip handles and carpet staves—for the purpose of straining an abundance of small fishes or other animals from the sea water.

By actual count, four out of every five homes in Twin Falls receive The News, daily. Tell all these people what you have to sell, trade or exchange, about your rooms for rent, houses for sale or rent, the position you want, or the help you need—ONE CENT per word—Phone 32
