# MOUCH LIGOR STOLEN FROM GOVERNMENT

## Charges Made That Huge Quantities of "Evidence" Disappeared from Custody of Department of Justice

WASHINGTON, Oct. 2 (AP)—Charges that "certain representatives of the department of justice" converted to their own use large stocks of liquor seized in the enforcement of prohibition laws were made in a special report filed today by the District of Columbia grand jury.

The report asserted that the liquor was removed from the warehouse used by the department for storage purposes and was used by the officials for their private consumption, for distribution to personal friends and as gifts to favored institutions.

It was charged that the liquor was disposed of for financial gain.

Illegal withdrawals covered in the report were declared to have occurred during July and August and September 11, 1922. The jury did not name the individuals who were involved, but declared that the evidence "cannot be so severely criticized."

At the department of justice, officials indicated that no action was being taken since the officers complained of were by "former attaches of a former administration" of the department.

William J. Burns, chief of the department's bureau of investigation, said that large stocks of liquor held in the custody of the department had "disappeared" between the dates mentioned in the grand jury report.

### Much Liquor Removed.

Officials of the department estimated that "several cases" of assorted liquors were removed illegally from the department's cache. This value was placed at upwards of \$100,000 by W. C. Wright, chief of the bureau of investigation, and Henry P. Alden, chief of the department, charging that they had removed his client's liquor from custody and converted it to their own use.

### Very Few Convictions.

It is a matter of record, according to attorneys who were interested in the legal status of the liquor, that few convictions resulted from the seizures of incoming stocks. In many cases, however, the defendants failed to appear in court and the report says that in a case was settled, and the stocks in storage grew to proportions which, at present day prices, would have represented a large fortune.

# ROADS READY TO SIGN AGREEMENT

## Principal Western Carriers Prepared to Make Contract with Trainsmen

CHICAGO, Oct. 2 (AP)—Approximately 40 roads west of the Mississippi embracing the principal carriers in this section, tonight were reported ready to sign an agreement with the Brotherhood of Railway Trainmen and the Order of Railway Men, continuing the present rate of way and rules with some slight changes for another year. Negotiations were begun this morning between a committee of executives headed by W. H. Jeffers, general manager of the Union Pacific, and W. G. Leo, head of the trainmen, and E. Sheppard, leader of the conductors.

Only two main points were in issue, Mr. Leo said, and named the overtime and the rate of pay. The agreement was today very friendly and all indications pointed to the fact that the agreement would be formally reached tomorrow. The Brotherhood committee met tonight, and it was understood, virtually accepted the propositions with the exception of some slight changes in rates, to be worked out tomorrow.

### Overtime Is Most Point.

At present members of the trainmen's and conductors' organizations receive time and one-half pay for overtime after the eighth hour. The roads have attempted to do away with this punitive overtime and have carried this change in rates, to be worked out tomorrow.

# OLD SCENES ANTICIPATED

## Beginning of Oil Drilling in Alaska Likely to Revivify Conditions of Gold Rush.

ANCHORAGE, Alaska, Oct. 2 (AP)—Announcement that big oil interests will soon start drilling for oil in the Yukon district of Alaska promises to bring back the thrills of the old gold rush days to life again, according to men who have visited the new fields recently. For this new oil country, men who know something of the hardships attendant upon a stampede, probably more rigorous than the wild prospecting surrounding Cape Nome.

The prospectors will plan to invade the country.

The uninviting prospect, however, will not deter the men, already for already the regular steamers and launches plying between Seward and Kotlik are booked to capacity weeks ahead of time. The men entering from Alaska will have the advantage of being allotted for an indefinite stay and already hardened to the rigors of the north.

It is believed there will be shipping lumber and supplies into the district for some time, and the erection of many new houses is expected soon to take place at several designated points. Many of the promoters, according to those on the ground, are of the general conditions surrounding the boom. Of the others who are joining the rush, some are only going in for the money, while others are seriously attempting the exploitation of the resources presumed to be there.

The announcement has served to stimulate interest in other parts of the territory and efforts are being made to attract attention to discoveries made in the Anchorage and Seward valleys.

# AUSTRIAN OWNERS LOTS OF CASH

## Huge Sums on Deposit in Swiss Banks Sheds New Light on Financial Condition

LONDON, Oct. 2 (AP)—The people of Austria are hoarding their money. They would take 10,000,000 pounds to invest in Austria or her feet again financially. Yet Austrians have in Swiss banks an amount estimated at 18,000,000 pounds. These statements are contained in a report made by the British department of overseas trade on the economic condition of Austria.

The Austrian situation this report says is "the psychological difficulty in the present position which inhibits initiative in the hands of Austrians themselves and makes them look solely abroad for salvation. The amount of money credits generally estimated to be in Swiss banks is about 18,000,000 pounds."

It is an open secret that, despite the law to the contrary very much larger sums in foreign currencies than these are held in Austrians, both inside and outside the country. The amount lying in Swiss banks alone has been estimated at 18,000,000 pounds.

"But these resources are idle because the owners have no confidence in the government or the future of the country. The political and psychological difficulties can be overcome most easily by financial assistance given by foreigners under suitable conditions. The Austrians, however, must show that they are ready to cooperate by taking at least the first steps to put their house in order themselves."

There is some prospect of this being done at an early date.

# MOST STOMACH TROUBLES ARE FROM ONE CAUSE

## Warm Water Removes It

It is safe to say that without Count Petio or accumulated waste in the intestines, we would know no stomach troubles unless we were outrageously stupid in our selection of food.

This is proved by the fact that the millions who now bathe themselves no longer suffer from indigestion, dyspepsia, flatulency, or discomfort of any description.

Not biliousness—no appendicitis pains. Keep it free from accumulated waste, there is a clear way for digested food to pass without obstruction—therefore no "backache" or "stomach ache."

Incidentally, there are no poisons to be taken up by the blood to drag us down.

One swallow warm water without food will cap—and all is well.

# MARX CHURCHES PUZZLE RUSSIA

## Effect of Soviet Regulations Upon Religion Provides Difficult Problem for People

MOSCOW, Oct. 2 (AP)—The people of Russia are today wondering curiously from one church to another on Sunday days, seeking to decide which brand of the two new kinds of simplified religious practices they should accept. They have been accustomed by experience and accretion to the elaborate rituals of the orthodox church, which virtually monopolized religion in the old days, and now that this has been taken away from them, they hardly know which way to turn.

As a result of the trials of churchmen in opposing the government's regulation of church revenues, Patriarch Tikhon was deposed and the church reorganized. Thereupon, however, two new sects developed. Archbishop Antonin, leader of the movement to outdo the orthodox in the name of the soviet regime, was elected as metropolitan of Moscow by the "Life Church" committee, but later he disagreed with the new sect and organized a new group pledged to work for the "Church of Regeneration."

Through government supervision a serious conflict in the middle of the metropolitan Antonin remains in office, but, nevertheless, in his church an actively effective service is held in the "New Life" church, which the latter only a few changes have been made from the old orthodox services, with Antonin's approval for simplicity. He has also been in contact with the secret allies and holds his services in the Russian tongue in the churches of the old faith. The congregation does all the singing.

The Moscow churches today have larger congregations than for many years past. Hundreds of priests also have come to the capital from the provinces to learn what is really going on in the matter of church work.

The soviet government is understood to have taken the position that it does not care how many particular forms of worship develop, but that it will permit a serious conflict in the governing body of the church as a whole. Both groups are to have representatives upon the governing board.

## Cincinnati Rabbi Goes on Record as Favoring Inclusion of Women in Orders of Jewish Rabbinate

CINCINNATI, Oct. 2 (AP)—Rabbi David Philippon, one of the largest Jewish synagogues here, places himself on record as favoring the admission of women into the rabbinate, an act most revolutionary in the eyes of an orthodox in a recent issue of the American Israelite. In his article he traces the history of the rabbinate from the days when the rabbis were the only men in the synagogues in special balconies as "religiously inferior" to the present, when they are no longer looked upon as inferior. He says that the rabbinate will be founded in the congregations of the reformed churches.

Every form of change which grants women more religious freedom has been fought as a break from the past," the editorial states, "and it is upon this ground that the admission of women to the rabbinate will be fought. Each argument is futile in view of the advance of women in every sphere."

"Who knows but that some woman may arise who will give the prophetic fire of a Deborah, may arouse the hosts of Israel out of their lethargy and lead them on to conquer new spiritual heights? The dead hand of the past should not be permitted to close the door of opportunity that may open out of great visions."

## Representatives of Soft Coal Miners and Operators Begin Upon Important Task

CLEVELAND, O., Oct. 2 (AP)—The generally recognized committee of United Mine Workers of America and representatives of bituminous operators from many parts of the United States met today to begin the task of negotiating future wage scales, and after organizing, adjourned until 10 o'clock tomorrow morning. Miners and operators said they always favored the admission of the western operators. The western operators' leader generally is conceded to be Harry W. Taylor of Kansas City, who took part in today's meeting.

At the joint conference this afternoon, T. K. Maher, president of the Maher Collieries company of Cleveland, Ohio, elected temporary chairman and Wm. Green, secretary of the United Mine Workers, temporary secretary.

The conference was characterized by John L. Lewis, president of the United Mine Workers, declared in a statement that the "miners are standing pat" on the agreement reached in August, when the soft coal strike was practically settled. "Miners' quarters this was interpreted as meaning that the miners would insist on the appointment of a commission composed of operators and miners to investigate the industry. What said the operators would take on the industry to make a survey of the causes, Mr. Penna said. The operators met immediately following adjournment of the conference.

### Works For Harmony.

The Illinois Coal Operators' association already has announced it will seek to prevent and arrangement which would conflict with the provisions of the federal fuel-finding coal commission bill, which provides that the president appoint a commission outside the industry to make a survey of the situation and report back of congress.

Operators at their caucus were almost unanimous in expressing the need of some definite organization which would be empowered to deal with the miners and which would be representative of all parties controlling mines. However, no action looking to the formation of such an organization was taken. Following this afternoon's meeting of the operators, Mr. Penna announced that no definite policy of action had been reached. He said the operators discussed the whole situation pertaining to the soft coal industry and hoped that tomorrow's joint conference would develop the attitude of both sides regarding the making of a investigating committee and a joint committee empowered with the formulation of a method to be followed in negotiating new wage contracts at another meeting in January. E. B. Wertz, United States district attorney in Cleveland, was present at the operators' caucus. He said he was representing his own coal interests.

# WAGES MOVING DOWNWARD.

## TOKIO, Oct. 2 (AP)—Investigation made by the Tokio Chamber of Commerce show that wages of general laborers in Tokio are on a downward trend. Of the fifty classes of workmen registered a drop in August and September indicated "from last month" the average index number for the current month indicated a decrease by one per cent over the preceding month, although it is ten per cent higher than the figure recorded for the corresponding period of 1920.

Among the works that scored a drop in wages are cement making, blacksmithing, glass manufacturing and drug producing, while spinning, bricklaying and printing registered a slight appreciation.

# A Well-Known New York Banker Says:

"The place of advertising in the present economic system is thoroughly well established."

Goodwill has come to be a vital factor in the success of any business, and goodwill can only be created by right and persistent advertising.

A manufacturer who advertises honestly the stability and quality of his goods sets for himself a standard of production. He makes a treaty of faith with the buying public which he must uphold at any cost.

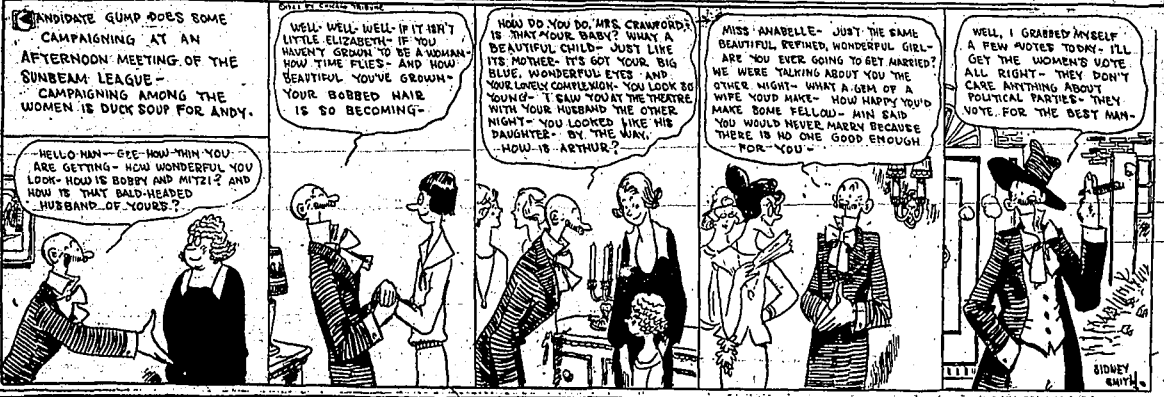

Frequently, for the purpose of promotion, the manufacturer needs financial assistance.

The time is fast approaching when bankers, having carefully investigated the standing of a manufacturer desiring a loan, will ask this leading question:

"What is his advertising appropriation?"

The Boise Mountaineers took both ends of a double-header Sunday at Kimberly from the Hansen team, the first game ending 11 to 1 in favor of the visitors, while the second, which stopped at seven innings, resulted in Hansen suffering a coat of whitewash, the invaders piling up five runs.

Jack Wyman, he with the slow ball, was on the mound for the Mountaineers, and had the Hansens completely baffled, some of the Hansen players striking at curve balls that they did not expect to see.

Frank Fuller started to do mound duty for the team, but the Boise pitcher, after his batting average during his stay in the box, in the sixth he was relieved by Lefty Oliver, who pitched the eighth and ninth innings, and the capital city hit the knuck of hitting safe when men were perched on the bases.

Fuller pitched away the honors in the opener, pulling out four safe ones out of five trips to the plate, and added laurels to his fielding ability when he speared Thompson's long drive to the asters in the fourth inning. It looked like a two-bagger at least, but the wily Phil couldn't see that way.

The second game brought out the fact that Venneman, who was scheduled to pitch for the Hansen team, had to alter his plans, and went in for Boise. Venneman was in fine form, and set the contenders down with two hits.

Idaho Team, Although Handicapped by Injuries, Rounding into Shape for Opener

UNIVERSITY OF IDAHO, Moscow, Oct. 2.—Although handicapped by minor injuries incurred in scrimmages, the Wandals football squad is speedily rounding into shape to open the season at Walla Walla, October 7.

Because of Whitman's sudden turn of the tables against the Gen Stars, the coaching staff is not at all optimistic about the team's chances to clear this year as unusual significance. The Misericordians are considered the edge on preseason competition.

With but a week to recover from whatever effects may result from the Whitman conflict, the Wandals travel to Seattle and tackle Bradshaw's speedy Washington eleven in the first Coast Conference game. One week later the Washington State team at Moscow, and then the next week the Vandals go to Portland for the annual battle against the University of Oregon eleven and the traditional Oregon jags.

Competition for positions on the team has been exceptionally keen. Idaho's team will attract more than usual attention this year because of the reputation of Coach Matthews as a developer of winning teams and the phenomenal record of the Vandals basketball crew in the Coast Conference.

BIG AUDIENCE LOOKED FOR

COLUMBUS, Ohio, Oct. 2. (AP)—When the rival colleges of the University of Michigan and Ohio State University trot out on the field here October 21 to dedicate Ohio's new \$1,500,000 stadium, indications are that a record-breaking crowd of 60,000 spectators will be in the huge structure to witness the game and dedication ceremonies.

Advance orders for tickets point to a complete sell-out for the 63,000 seats and if this results, the attendance will set a new record for football in the middle west. Last year the Buckeyes and Wolverines played before a record crowd of 42,000 in the re-dedication of the enlarged Perry field at Ann Arbor.

Amid strains of alma mater songs to be played by the 110-piece Ohio State band, representatives of Western State normal universities will pull 10-foot pennants presented by their respective schools, up 30-foot flag poles atop the main entrance.

With 80 huge pennants of the "Big Ten" representing 11 universities, the great above the 100-foot concrete and steel wall of the stadium, Miss Eloise Frohm of Urbana, Ohio, stadium girl during the fund raising campaign in 1920, will hold the national colors on the field flagpole while the Michigan and Ohio State bands play "The Star Spangled Banner" following which artillery pieces manned by 21 newly recruited cadets will bark a salute of 21 guns.

At part of the preparation for dedication to the first attempt in history to reunite every Ohio State grid square since the original squares in 1890, is being made by former captain. Each captain will lead his colleagues in a parade down the new stadium field.

Dedication Ohio stadium will add something new to the architecture of modern stadia. In being horseshoe-shaped, the Ohio plan resembles that of the stadium at Berkeley, but has two decks the Ohio plan is unique. The advantages ascribed to the double deck feature include bringing of what would be rear seats much closer to the playing field and the sheltering of 21,000 seats in the lower deck.

Nearly ten acres are covered by the Ohio stadium, which measures one and a half miles from end to end and towers 170 feet high. Intramural facilities for 16,000 students will be provided, including 25 basketball courts, 11 croquet courts, 20 tennis courts and 11 croquet courts to be laid out on the recreation area developed adjacent to the stadium proper.

BURLEY-TWIN FALLS GAME PROMISES LOTS OF ACTION

**Invaders Reputed to Have the Heaviest Team in South Central Division**  
The Twin Falls-Burley football game which will take place at Lincoln field on Wednesday afternoon at 3 o'clock promises to be one of the toughest games of the season.

Burley has a line that is like a stone wall, and Twin Falls will have their hands full breaking through. Burley, according to reports, has a team that is 50 per cent stronger than that of last year, and if such be the case, then Coach Evans will have to be on his guard, as Burley didn't have the poorest team in this section last year.

In "Buz" Canine, Burley has one of the best back field men in the county. "Buz" is fast, and his line has a cannon ball. Remembered as last season's guard on Burley's creek basketball team, is stationed on the right tackle, and it is said when this 210 pounder decides to get through the line he usually succeeds.

Coach Evans, in commenting on the coming game with Burley, said he thought enough of Burley's strength to give his boys a hard workout Monday evening, including scrimmage. This is contrary to Evans' usual routine, and it means that when Burley Hiller to two touchdowns it proved conclusively that Burley must be reckoned with, and the local coach figures a word to the wise is sufficient.

On Thursday the Gooding and Jerome high school teams will clash in a return game at Lincoln field. This is done to give the teachers who are here attending the institute a chance to see the "Buz" as well as the south side in action. This game also starts at 3 o'clock.

For the benefit of the sporting fans it is said that when Burley meets Twin Falls Wednesday the fur will fly. (Additional sports news on page four)

CROWDS BEGIN ARRIVING FOR WORLD SERIES

Players, Managers, Officials, Newspaper Men and Fans Pouring Into Metropolis on Every Train for Games

NEW YORK, Oct. 2 (AP)—All day today fast passenger trains arriving at New York terminals were bringing crowds of minor league players, managers and officials, newspaper men and fans.

It probably is true that the seasonal interest is not so great when the series has for its principals two teams of the same city, but a baseball fan is like a little boy when his sister's team is calling. He can't forego the burning desire to take a pop. Among the writers who will report the game for newspapers from other countries are a squad from England, two from Japan, one from Australia, one from Russia, one from Cuba, a couple from Brazil and the Argentine, a score from Canada and one from Sweden. The latter set of series is attracted by the Giants' latest pitching addition, one Mr. Cveogros. Cveogros, however, is not a world series pitcher.

Reservations have been made by men representing every large city in the United States. Many are from the Pacific coast while the minor league clubs, at least the larger of them, have sent writers along with the fans. Business managers of both the clubs have announced that the reservations for seats reservations are much larger than last year.

Van Seat 40,000
It is possible to seat about 40,000 persons in the Polo Grounds, where all the games will be played. Each team will alternate in being "the home" team with the Giants enjoying the comforts of the home bench on the first day.

Whisper may be the interest because the Yankees and the Giants are between the Manhattan teams, there are enough fans among the six million folks of the greater city, to keep up a lively up-to-date of speculative chatter. The Yankees' and the Giants' what's and why's of the chances of the teams.

Yankees Pitchers Strong
The big four of the Yankees pitching staff, Bush, Shawkey, Hoyt and Mays are called by the experts to be much better than McGraw's moundmen, Neff, Jess and Virgil Barnes, Scott McPhillips and Bud Fowler.

Yankees and Giants
The Yankees and the Giants will be a match here tonight. The Yankees finished with only the slim margin of one game.

CLEVELAND MAN WINS
ST. LOUIS, Oct. 2 (AP)—Chris Jordan of Cleveland, claimant of the world's middle-weight wrestling title, defeated Gus Eisel, almost champion, in a match here tonight. Eisel, who had to Jordan after Jordan had secured a fall and Eisel claimed his shoulder was injured.

BOUY DELAWARE TAMEL
NEW ORLEANS, Oct. 2 (AP)—Martha Bark of New Orleans, was awarded the title over Fred Fulton of Rochester, Minn. at the end of a tense 15-round bout here tonight. Fulton weighed 211 pounds and Hark 177.

Question of Appetite.
Probably no difference of opinion on a comparatively minor subject is more striking than that which exists between a man and his doctor on what constitutes overeating.

Somewhat Particular.
A little girl entered the grocery store and asked her mother to buy a match her mother bought. The clerk asked: "Brown or white?" and she replied: "What other colors have you got?"

Chart Shows Relative Strength of the World Series-Contenders

Figures Indicate Giants and Yanks Nearly Evenly Matched with Little Choice at Any Point

NEW YORK, Oct. 2 (AP)—In offensive strength there is little to choose between the contenders in the 1922 world's series, as they appear grouped upon paper, and only with the aid of the ratios that decide that some player shall hit when "white" is most needed, or that a manager shall fall when failure is most costly can a preference be made.

Of course it is by the arrangement and distribution of batting strength that a manager obtains the most possible out of the team; and the actual attacking value of a ball club must be gauged by what the lineup produces. In evaluating the teams, however, consideration must be given to their defensive abilities in relation to their offensive character.

FARMERS JOIN LION HUNT

Masses Score Counters for King of Beasts and His Men as Guarded as Never Before
MOUNT VICTORY, Ohio, Oct. 2 (AP)—Scores of farmers are scouring this section of the country with renewed energy tonight for two lions, reported to have been seen several times near Mount Victory.

At an all-day search privied futils and farmers are under the impression that the jungle beasts are confining their activities to night.

The animals first were seen about a week ago by William Wilkerson. Since then they have been reported as having been seen by several other persons. Interest reached a high pitch today when a Big Four freight train engineer and fireman reported that they saw the lions last night.

Last night was clear and there is no mistake about it," said Ben F. O'roy of Bellefontaine, engineer. "When you will get this close range both made a hole for a woods nearby."

His friend, Arthur Stanfer of Indianapolis, confirmed the statement. It is now recalled that considerable stock has been killed and this was attributed to dogs. Now the killings are believed to have been done by the beasts which are believed to have escaped from a circus.

Farm houses are guarded tonight as never before in the memory of the oldest inhabitant.

Good Advice Wanted.

Isadora Duncan, Russian Artist, Held Up by Immigration Officials

NEW YORK, Oct. 2 (AP)—Isadora Duncan, her exuberant young husband, George Yemassee, were permitted to land in the United States today after the department of justice had "detained" them 24 hours to learn whether the dancer, who arrived from Moscow yesterday, was a courier of the Russia soviet government.

She had a bad humor tonight and she did not reveal much happiness over finally being allowed to enter the country.

"The hell me because I came from Moscow," she said. "What did they ask me? Oh, they wanted to know if I was a classical dancer. I told them I didn't know, because my dancing is what I looked like when I danced. How do I know? I never saw myself dance."

She was kept so busy and nagged so much she complained that she did not have a bit of nourishment all day except one cup of coffee at breakfast time.

## Sixteen Year Old Charlotte Mills Taken From School and Questioned as to Right to Invoke Aid of Governor

NEW BRUNSWICK, N. J., Oct. 2.—Charlotte, a 16 year old daughter of Mrs. Eleanor C. Mills, choir leader whose body was found here that of the Rev. Edward W. ...

She was taken from school and questioned as to her right to invoke the aid of the governor in the case of her mother's death.

From the questions asked, I am convinced they are not putting anywhere. I am heartily sick and tired of answering a lot of questions when they might better be asking me to help in the investigation of the murder.

She also said that up to date no member of the church has called on her to express sympathy with her in the loss of her mother.

While Miss Mills was voicing these criticisms, the work of investigation was continuing here in New York and Philadelphia.

Charles Collins, a county detective, today went to Philadelphia, where he said he learned from ...

"That is my pleasure then," he said gallantly, having, and at once instituting himself as master of ceremonies... "I must confess this is as much a surprise to me as to any one present."

"You were with the army in France?" "In an engineer regiment. I have been in America only two weeks." "Ah, indeed, and this is your home?"

"I really seem so ridiculous," she explained at last despondently... "I am not at all a good business man, but something strange is going on behind the scenes. I seem to be fighting against a ghost."

Everything for QUALITY - nothing for show. THAT'S OUR IDEA in making CAMELS—the Quality Cigarette. Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight. And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco. Camels wonderful and exclusive Quality wins on merit alone. Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste. Camels are made for men who think for themselves. R. J. ## THE MARKETS

### CHICAGO GRAIN MARKET

CHICAGO, Oct. 2. (AP)—Wheat prices fell today as a result of stoppage of exports from the Danubian. The market closed easy, 1 1/2 to 1 3/4 lower with December \$1.04 1/2 to \$1.04 5/8 and May 1.07 to 1.07 5/8. Corn gained 1/2 to 3/4; oats finished 1/8 off to 3/4 to 1/2 up; and provisions unchanged to 7/8 higher.

There was something of a selling stampede in the wheat market as soon as the market reaction commenced. Constantinople showing a nearly complete reversal from the threatening outlook Saturday as to peace. After prices had dropped about 2c a bushel, however, it became apparent that good sized buying orders were waiting around 1 1/4 for the December delivery. This was the first time since within a week that similar support for the market had unfolded at the same level, the rush to sell was soon curbed, and the market rallied to 1 1/2. Throughout the remainder of the day there was an evident tendency to go slow pending further developments concerning possibilities of peace.

Noting that the amount of wheat on ocean going passage had increased 800,000 bushels for the week was offset by the fact that the United States wheat supply had fallen little or nothing within a week that similar support for the market had unfolded at the same level, the rush to sell was soon curbed, and the market rallied to 1 1/2. Throughout the remainder of the day there was an evident tendency to go slow pending further developments concerning possibilities of peace.

### NEW YORK STOCK MARKET

NEW YORK, Oct. 2. (AP)—A sharp advance in prices took place in stock markets today. The British and Turkish companies in the Near East had agreed to meet at a truce conference tomorrow. Professional investors who had held stock freely last week on the disquieting foreign dispatches hastened to cover and their demands, coupled with those of traders who had kept out of the market until the war clouds apparently had passed, resulted in most active issues registering gains of from one to nearly four points.

Additional large orders from the big railway systems. Mexican Petroleum, which was under pressure last week, exhibited a marked recovery of form today, showing net gains of 1-1/2 points. Reports that the Mexican government had ruled against the sale of Veracruz Crude Importing, a state tax on petroleum production was a favorable influence. Standard Oil of California, moved up 3-3/8 despite announcement of a cut of 2c a gallon for gasoline in the Carolinas by the New Jersey company.

### How Better Than Pills?

The question has been asked, in what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are cleaner and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. They not only move the bowels but improve the appetite and strengthen the digestion.—adv.

Congressman Smith, on Return  
to Home Here, to Take Part  
in Campaign, Praises Work  
of Republicans

CONGRESSMAN SMITH  
GIVES LIGHTS ON  
G. O. P. ACHIEVEMENTS

When the republicans came into  
power liberty bonds were selling at  
85 cents on the dollar, and they are  
now above par.

The treasury has been reduced from  
\$20,000 to 135,000 men, and the  
navy from 132,765 to 93,841.

The employees of the civil service have  
been reduced from 610,176 to  
71,840.

Over \$350,000,000 of our war debt  
has already been paid and the bur-  
den of taxation has been reduced  
nearly 41,000,000,000 per annum.

The disarmament conference will  
be held in Washington on the 27th  
of this month. It is hoped will forever  
prevent another world war.

An emergency tariff law was  
enacted soon after the inauguration  
to prevent disastrous competition on  
the part of the farmers of the country  
with the foreign producer, and a  
permanent tariff has just been  
signed by the president under which  
the farmers, stockmen and sugar  
planters will be able to re-  
trieve their claims during the past  
two years, and soon get their af-  
fairs on a paying basis.

ADDISON T. SMITH.

In no previous congress has so much  
wise and beneficial legislation been  
enacted. In the sessions just ad-  
justured, and members of the dominant  
party are well supplied with arguments  
in favor of solving republican im-  
propriety, according to a statement  
of Representative Addison T. Smith,  
who left Monday evening to enter upon  
his duties at home. He will be  
well here at the home of his son, Walter  
R. Smith.

Mr. Smith, accompanied by Govern-  
or D. W. Evans, will leave for Wash-  
ington Wednesday night at 8:30. They  
will speak Thursday night at Wendell  
and at Shoshone on the following  
night.

Outlining major achievements of con-  
gress under the administration of  
President Harding, Mr. Smith said:  
The republicans have not only  
been confronted with more vital and im-  
portant questions than a war congress is  
generally conceded fact, and the world  
has benefited by the passage of legis-  
lation left in its wake more seem-  
ingly insurmountable problems than any  
previous peace congress has been called  
upon to solve.

FRIDGE FULFILLED

However, when the gavel fell on  
September 22, one of the most eventful  
sessions of congress ended that has  
ever been held and the members of the  
party turned toward home with a feel-  
ing of gratification and satisfaction  
that they had filled their party pledges,  
and had passed needed constructive leg-  
islation which would gradually turn  
the country back to normalcy.

This congress, which is overwhelm-  
ingly republican, has enacted legis-  
lation which will benefit the people of  
the nation's life which has become  
grossly abnormal under democratic  
administration. By their actions  
and laws they have shown that  
which the republican members are re-  
turning to their respective districts  
most their constituents are confident that  
the time of this exceptionally long ses-  
sion has been utilized to the fullest extent  
for the general welfare of the nation.  
Legislation has been enacted and al-  
ready the country has begun to be ben-  
efited.

IN LIGHT OF COMPARISON

A brief resume of the contrasting  
conditions found in the country at the  
inauguration and the present con-  
ditions should be considered in order  
that one might fully appreciate what  
has accomplished in the past few years.

The stock raiser had his cattle, but  
no market; the sheepman had his sheep  
and his wool, but the market price in  
many instances was insufficient to cover  
freight charges from range to market;  
sugar factories were either closed or  
operating at a tremendous loss; and  
various other conditions which affected  
the farmer could be cited. Why did  
this condition exist? Because under the  
democratic administration the markets  
of the United States were flooded  
with foreign commodities produced  
by cheap labor with which  
American producers could not compete  
because the democratic administration  
in 1920 suddenly restricted credits to  
the American farmer. This condition  
was corrected by the passage of an  
emergency protective tariff in response  
to the president's campaign pledge that  
he would sign such a measure as soon  
as a republican congress could be called  
and on April 11, 1921, this emergency  
tariff bill, once vetoed by President  
Wilson, was reintroduced and was signed  
by President Harding on May 27 of  
that year. The war finance corporation  
act was amended which lifted great  
numbers of stockmen and farmers over  
as a republican congress could be called  
and on April 11, 1921, this emergency  
tariff bill, once vetoed by President  
Wilson, was reintroduced and was signed  
by President Harding on May 27 of  
that year. The war finance corporation  
act was amended which lifted great  
numbers of stockmen and farmers over  
as a republican congress could be called  
and on April 11, 1921, this emergency  
tariff bill, once vetoed by President  
Wilson, was reintroduced and was signed  
by President Harding on May 27 of  
that year.

CONGRESS AND LABOR

When the administration came into  
power this country was riddled with  
unemployment. The republican admin-  
istration of the United States labor demand  
is greater than the supply. What has  
been done? The present administration  
has enacted protective tariff laws that  
have protected the farmer.

THE counting mechanism on the News  
press starts at zero at the beginning  
of each press run, not at 500 or any other figure--  
but the News is not primarily interested in 'press run'  
any more than it is interested in what the average  
circulation of any newspaper amounted to during  
the year which closed with the last Audit Bureau  
check-up on July first, or with the filing of the re-  
port to the Post Office Department on April first  
last.

But The News IS interested in the cir-  
culation of The News and Times in the trading terri-  
tory tributary to Twin Falls as of SEPTEMBER 30,  
1922, the date of the last Times claim of circulation  
superiority.

The suggestion of The Times that an au-  
dit be made of both circulations by a committee  
be named by the Mayor of Twin Falls and the Twin  
Falls Chamber of Commerce, meets with our warm  
approval and is hereby accepted.

The News will cheerfully pay \$100.00 in  
gold in any local charity which may be selected as  
the recipient, if the circulation of The News in the  
territory bounded by Castleford at the west, Contact  
at the South, Jerome at the North, and Rupert at  
the East, is not greater than that of The Times or  
any other newspaper published anywhere in the  
United States.

The only condition that The News cares  
to suggest is that the finding of the au-  
diting committee be given full and com-  
plete publicity in both The News and The  
Times.

mentioned. It has stopped the flooding  
of American markets with foreign  
goods, and stimulated home production.  
Money has been appropriated for  
the purchase of raw materials and  
markets abroad and all the phases of  
production at home, and place American  
goods in foreign markets, commodity  
the laborer, the most essential and  
fuel, foodstuffs, rubber, boots and shoes  
(including leather and hides);  
textiles (including wool), and a num-  
ber of other industries which are en-  
gaged in this work.

RED TAPES IN DISCARD

This congress has enacted legisla-  
tion limiting the number of immigrants  
to three percent of the population of  
each state or territory of this  
country. In many other ways has  
the administration helped the farmer and  
the laborer, the most essential and  
fundamental producers in the na-  
tion's life. Legislation has been enacted  
to relieve the needs of the disabled  
and to provide for the aged and  
for his sacrifices during the war. Con-  
gress has consolidated the public health  
service and the bureau of war risk in-  
surance, and has eliminated the red  
tapes, into the great veterans' bureau.  
This change has not only lessened the  
burden upon the government, but  
has relieved the veterans of red  
tapes, which has always proved a men-  
ace to the ex-serviceman. I have in-  
duced a bill in the house, known  
as the Smith-McNary bill, which  
has passed in the next session of congress,  
will not only give the ex-serviceman  
the same right of appeal and profes-  
sion as in employment on the  
work, but will make possible the devel-  
opment of vast unexplored areas  
throughout the nation, and  
especially Idaho will be greatly  
benefited from such an act.

REDUCING TAX BURDEN

What has this congress accomplished  
with respect to decreasing national  
taxes? It has changed the tax  
government to a business basis. It  
has adopted the budget system which  
has made the people of average in-  
come. It has reduced the average in-  
come. It has reduced the average in-  
come of the army from \$40,000,000  
to \$32,765,000, and the navy from  
\$120,000,000 to \$40,176,000, and  
\$1,840. Over \$350,000,000 of the  
debt has already been paid. It has  
created a refunding commission which  
has made the American foreign loans on  
a business basis and arranged for their  
payment. What the country is in bet-  
ter financial condition now than it was in  
1920, and that the present administra-  
tion has the confidence of the business  
world is shown by the marked advance  
in Liberty bonds from 85 cents on the  
dollar to above par.

try for the Troy Laundry company,  
Twin Falls, has been missing since  
Saturday morning when he was last  
seen at Castleford, and foul play is  
feared, according to statement made  
Monday evening to Sheriff E. B. Sher-  
man by the wife of the missing man.  
Sheriff Sherman said that he would  
begin an investigation early Tuesday  
morning in an attempt to locate Car-  
son.

Carson is said to have spent Fri-  
day night at Castleford. During the  
day he is believed to have collected  
about \$70 from patrons of the laun-  
dry. He is said to have been seen  
early Saturday morning attempting to  
start his car which stood overnight  
in the street at Castleford. Failing  
in this attempt, it is said, he started  
out on the road toward Buhl on foot.  
No report of his movements or where-  
abouts since that time has been re-  
ceived by his wife.

Carson recently was the defendant in  
a criminal action instituted in  
court here by E. J. Murray, a former  
employer, who accused him of embe-  
zlement. Carson was released by or-  
der of the court at the conclusion of  
the preliminary examination.
