

MYSTERY CAR NOW ADDED TO MURDER CASE

Maze of Conflicting Clues in Dual Crime Further Complicated by Injection of Completely New Lead

NEW BRUNSWICK, N. J., Oct. 4.—A mystery car with three occupants—two men and a woman—was added today to the conflicting maze of clues among which Middlesex and Somerset county authorities are groping in their efforts to apprehend the slayers of the Rev. Dr. H. H. Miller and his choir leader, Mrs. Elizabeth Reinhardt Miller.

A. E. Soper, retired business man of Highgate park, came forward with the story of this car. Nearly three weeks ago, on the night of the murders, Soper told the authorities he passed a sedan in the vicinity of the bridge to the spot where the bodies were.

He turned his searchlight on the car, he said, and observed that it contained a man in a dark suit and a woman who he failed to recognize any of the trio, he said, he observed that the woman wore a light coat.

Mrs. Hall is known to have worn a polo coat of light gray on that night when, according to her story, she left her home after midnight to seek her missing husband in his study at the church of St. John the Evangelist.

More Evidence Turns Up Three more bits of evidence supporting the theory that the minister and Mrs. Miller were on the point of slipping to the Orient when they were slain, also came to light today.

It is by this that the authorities fix the time when it was written. They have learned, it was disclosed, that the day before the double slaying the minister, Mrs. Hall, Mrs. Miller and Mrs. Minnie Clark had been on a picnic to Lake Hopatcong, and that an incident of the trip was that the minister took his travel bag, containing a barbed wire fence, and had Mrs. Hall mend them with a needle and thread she happened to have along.

Another evidence of the supposed elopement plan was contained in a letter from W. C. Hintha, a Hindu convert of Minnetonka, Minn. Hintha wrote that Mrs. Miller had sent him a letter propounding three questions: "Will the minister get a divorce?" "Will he go to a foreign country?" "If he gives up the other woman and goes to the Orient, shall I go with him?"

He said that he had answered her could give her advice which would "do good" if she would buy his book on astrology, but that he had heard no further from her.

The third indication of an elopement plan was conveyed to the authorities in a report of a remark of a woman member of the church who said to have made at Mr. Hall's funeral.

"Well, they are taking the minister out of the church," she was reported to have said, as the funeral services were concluded. "They didn't get off to Japan after all."

NEW MAP WILL OCCUPY 12 YEARS IN MAKING

American Government Now Engaged Upon Elaborate Compilation

WASHINGTON, Oct. 4.—Uncle Sam is slowly progressing on a map of the country, to be a part of a new world map, based upon a simple system proposed by American geographers in 1912 and secured at an international conference. It will be the result of years of effort by map makers who have desired a system of cartography in 1912 and secured at an international conference. It will be the result of years of effort by map makers who have desired a system of cartography in 1912 and secured at an international conference.

The globe is to be divided into 1648 sections. Each section is designated by a distinctive letter and number combination. In addition to a name derived from the locally mapped. Each sheet covering one section will cover six degrees of longitude and four degrees of latitude. The sheets are numbered from 1 to 60, beginning at the 180th meridian of longitude, and girdling the globe, to the eastward, and are lettered from A to Z, with the equator as a starting point. The north and south polar regions are to be shown in circular sections from the 90th meridian of latitude, and lettered Z-North and Z-South.

Is Complete World Map. The main purpose of the international map which will be drawn on the scale of one to one-millionth, is to furnish a complete world map of uniform scale of distances, of outline map makers and readers of every country to understand the maps of every other, even though they do not understand any but their own tongue.

While the scale which is approximately sixteen miles on the inch, will allow of every inch representing details of small towns and streams will be omitted.

To show heights and depth, a scheme of hypometric colors, have been adopted. This will grade from a very light green, for shallow waters, to the familiar blue of deep blue, for the increasing depths of seas and from light yellow, for low countries, to a deep brown red, for heights. Countries will be shown in sharp black lines, at intervals of 100 meters. The entire system adopted for all nomenclature, and high points, peaks and mountains will be shown in metric. Streams and rivers will be shown in blue, roads in red, cities and rail lines in black. The names of features will be shown in the color of that feature to obviate confusion. The projection is based upon a modified Mercator system, wherein meridians of longitude are laid in straight lines. The lines of latitude will be only slightly curving on each sheet, because of the large scale. The system is of advantage in the adjustment of adjoining sheets.

Political Boundaries. As many political boundaries will be shown as the density of the data included permits. For instance, the map of the United States will show state, county, reservation, land grant, and other land office lines. The control that is positive determined as astronomically and by triangulation to insure accuracy, drainage, including rivers, streams, creeks, swamps, canals, and other water bodies, and culture, that is, towns, cities, railways, roads and highways, all constitute a "base map" which is compiled as the first step in the work and which will be made available by the survey for state and other maps. The completed map, in size about 20 by 30 inches, is copper

engraved in the most delicate and strong metal, and will be available at the survey, if it is ordered in time to form a scale of eight miles to the inch. The production is photolithographic.

FISHING PARTIES DO WELL

Bull Parties Meet With Exceptional Success in Pursuit of Fluffy Game at Magic Dam

BULL, Oct. 4.—Two successful fishing parties from Bull brought home a good catch Monday morning. In one party were Babe Brown, king fisher; Bull, Dr. H. T. Hill, W. E. Studer, Baker and L. G. Wright, who went to the Magic dam, where they landed 23 big trout, the largest weighing five pounds. This catch was displayed on Tuesday in the window of the Bull meat market.

Merrill Bugg, Lee Howard, Tom Howard and E. N. Johnson brought in a nice catch and six ducks from the Howorth dam Monday morning.

RAINBOW DAIRY IS SOLD

Raymond Bugg of Bull Disposes of Interest to W. A. Ambrose, Prominent West End Farmer

BULL, Oct. 4.—The Rainbow dairy, which was owned by Raymond Bugg, was sold this week to W. A. Ambrose, prominent farmer and dairyman living one mile south of Bull. Mr. Ambrose has a splendid herd of Jersey cows from which he will supply patrons of the Rainbow dairy.

This milk route was established by Mr. Bugg about five years ago, and operated by him most of the time since. However, the cows and route were leased about a month ago to Fred Seaman, former janitor of the high school building, and the route was sold this week to Mr. Ambrose. Mr. Seaman will remain on the Bugg farm and attend the dairy herd. Instead of selling the milk, the butterfat will be sold to one of the local creameries.

CANNON POINTS OUT REMEDY FOR IDAHO TROUBLES

Commissioner of Agriculture, Discussing Political Issues with Opponents Plan

Buhl, Oct. 4.—(Special to The News)—Idaho's troubles are not the result of taxation but of difficulty in selling Idaho products at a profit. The commissioner of agriculture, today told an audience of about 100 persons at the city hall here this evening.

"Grow the crops and sell them at a profit, and our troubles will disappear," the commissioner said. Low prices for Idaho farm products, Mr. Cannon stated, are to a large extent the consequence of an overproduction of agricultural products. He referred to the arrival some time ago at Vancouver of a load of 37,000 cases of eggs from Idaho, and said that 100 cents a pound in the price of butter following the arrival at San Francisco of large quantities of the product from New Zealand.

Tariff Affairs Remedy

The new tariff law, the commissioner promised, will tend to rectify this situation. It provides for payment of duties of 50 cents a bushel on foreign wheat; 4 cents a pound on foreign seed; 8 cents a pound on foreign eggs; 8 cents a pound on foreign butter; 84 cents on foreign potatoes; 50 cents a hundred on foreign potatoes.

Idaho needs a governor a man who is familiar with farm problems, Mr. Cannon said, adding that he would like to see C. G. Moore, the republican candidate for governor, was selling at a loss the crop of 800 acres of wheat, his opponent in Boise was selling goods at 100 per cent profit.

Shows Change of Front

The democratic party in Idaho, the commissioner said, propose to tear down all of the structure of state government and replace it with something to be decided along lines that could be suggested at a later date.

He referred to records showing that the democratic candidate when governor in 1917, urged upon the legislature the desirability of abolishing various boards and commissions and centralization of governmental powers. "The speaker said, 'the very thing is in no way attacking'."

Records of the state auditor's office, Mr. Cannon said, show that the number of employees on the pay roll of the state in July, 1917, was 595, and in corresponding month this year the number was 1,200. The state pay roll for July, 1922, was \$5,000 less than it was for July, 1917, the records show.

Commissioner Cannon was introduced by J. W. Taylor, candidate for prosecuting attorney. Sheriff E. B. Sherman, county clerk, and the republican candidate for reelection, attended the meeting.

BUHL CLUB WOMEN MEET

Mrs. M. J. Sweeley of Twin Falls, Principal Speaker at First Session

BUHL, Oct. 4.—Eighty women, representing all of the women's clubs in the west, and attended the first meeting since the summer vacation of the Community Welfare club of Buhl on Monday afternoon in the Buhl Chamber of Commerce room to hear the address of Mrs. M. J. Sweeley of Twin Falls. Mrs. Sweeley is president of the Western Federation of Women's clubs, and she will also give an account of the work of the general federation at Chautauque, N. Y., as well as that of the western federation.

In addition to Mrs. Sweeley's talk, Mrs. L. J. Parker gave an address of welcome to the members of the visiting clubs, which was responded to by Mrs. Jack Carr, president of the Home Culture club, Mrs. Wm. Sawyer, president of the Imitis Circle, and Mrs. Wm. T. Togni, president of the Cedar Draw Community club.

Mrs. B. R. Tillery sang two solos and Mrs. Ray Overbaugh rendered a piano solo.

The next meeting of the Buhl Community Welfare club will be on October 17, and the program is being prepared by the library committee. Among other things of interest, Miss Jessie Fraser, of Twin Falls, state librarian, will talk to the club members, and Mrs. Charles H. Evans, of Boise, will give a paper on library work. The discussion to follow will be led by Mrs. Clara Orr.

Never in vain. They tell us that not a sound has ever ceased to vibrate through space; that not a Higgs has ever been lost upon the ocean. Much more is it true that not a true thought, not a pure resolve, not a loving act, has ever gone forth in vain.—F. W. Robertson.

Social Notes

Edited by Mrs. E. H. Williams Telephone 316

Mrs. E. H. VanCott was hostess to the Harmony club Wednesday afternoon at her home on Sixth avenue east. Nice members were in attendance and Mrs. E. E. Du Sault, of Higginson, Mrs. C. G. Larson and Miss Collette Wolf were guests. Mrs. Larson was the successful contestant for the favor in the bridge game. Delicate refreshments were served at the close of the afternoon.

The Elks enjoyed their first dance in their new hall Tuesday evening. It was delightfully informal and was attended by a large crowd who were devoted to this popular form of entertainment. The music was all that could be desired, and delicious punch served throughout the evening added to the pleasure of the occasion.

Mrs. G. W. Shurt and Mrs. A. B. Bent entertained with a bridge luncheon Wednesday afternoon at the home of the latter. Mrs. E. B. Spafford was the high scorer and Mrs. W. B. Pribe was awarded the consolation. Fall flowers were used to decorate the rooms and tables. Twenty-five invitations were issued and a large number will entertain at bridge for twenty days.

Miss Anna McNeil and her guest, Mr. Alfred Brady, of Philadelphia, were delightfully surprised Tuesday evening by a number of their friends. The party was given by Mrs. E. B. Spafford, after which a winner's feast was enjoyed. Mr. Brady will leave the latter part of the week for California for a short visit before returning to his eastern home to resume his college work.

The Morningdale club met on Wednesday afternoon at the home of Mrs. P. J. Jones on Second avenue east with Mrs. Jones and Mrs. E. F. Moore as hostesses. An interesting program on the history and geography of Idaho was given. Mesdames Essex, Pribble and Shultz were guests. At the close of the afternoon delicious refreshments were served.

Chapter "D," P. E. O. sisterhood, met with Mrs. Dornan Johnson and Mrs. M. L. Haviland Tuesday evening at the home of Mrs. Johnson in the best parlors. The program was a business session, with the president, Mrs. F. S. Bell, presiding, devotionals were led by the chaplain, Mrs. Haviland. The program was in charge of Mrs. S. S. All, Mrs. F. F. McAlister and Mrs. C. J. Hahn and was a James Whitcomb Riley evening. Mrs. McAlister gave a brief sketch of his life and poems were read by Mrs. Hahn, Mrs. Zenas Smith, Mrs. All and Miss Edith Dyke. The chapter was pleased to have Mrs. A. N. Sprague with them again.

In observance of their twelfth birthday anniversary, Mrs. and C. B. DeWetter entertained Sunday at their home on 51st avenue east, at dinner for a number of relatives, including Mrs. and Mrs. B. H. Hunsacker, Mr. and Mrs. C. L. Smith, Mrs. DeWetter and Miss "Ella DeWetter of Smith Center, Kansas.

Members of Henry W. Walling circle, ladies of the G. A. R., met Wednesday evening at the home of Mrs. W. A. Reed on 10th street. The president presided at the business session, after which refreshments were served during a social hour by the hostess, assisted by Mrs. Frank Bowman.

World's Largest Spring

Mammoth spring, at Mammoth Spring, Ark., is the largest spring in the world. This spring covers 18 acres, flows 900,000 gallons of water a minute and is 70 feet deep. It forms Spring river, 850 feet wide. The flow does not fluctuate the year round.

MRS. PHILLIPS IS COOL AT MURDER TRIAL

PHOTOGRAPH shows Mrs. Clara Phillips entering the court house at Lincoln Falls, where she coolly and calmly faces trial for the "Stone Age" murder of Mrs. Alberta Meadows, who owed bank check, of whom she was jealous. Mrs. Phillips is wearing a hat loaned her by Mrs. Meadows' obsequies, also in jail on a murder charge.

The Barn Owl

The barn owl, also called the white or golden owl, is easily distinguished by a heart-shaped ring surrounding its face, which is formed by a layer of feathers radiating from each eye. The eyes are rather large and the yellow iris opens and closes about the pupil similar to the arrangement in the cat's eye, only the pupil in the owl is round when contracted instead of being elongated. In the dark the pupil is expanded until it covers most of the eye, giving it the appearance of a shining coin. The ear is very large, covering most of the side of the head, and it is very different from the ear of other birds. Instead of being a mere hole opening into the internal ear, there is a fold of skin which forms a channel extending across the head from above the eye widening to a considerable extent and reaching almost to the windpipe. When it is hunting in the dark the owl is able to hear a very slight rustle of leaves made by a mouse. Its plumage is so fluffy and its feathers have such soft fringes, which serve as cushions, that its flight is absolutely noiseless.

Heritage of Death or Life

Why do two infants out of every ten die before the end of their first year in this country, and in some civilized countries as many as one in every three? Why do only about eight per cent of the infants of the rich die, while among the poor the rate is often as high as 40 per cent? Education for parenthood includes a study of practical hygiene of such a nature that it may be applied to life at once instead of a muddle of misinformation. It means a sound grounding in the principles that man may not live to himself alone, but that he is a part of all that he sees, hears, feels and thinks, that upon right living today will depend the character of our children of tomorrow.—Ernest Bryant Hoag, M. D., in Mother's Magazine.

INTEREST KEEN IN BUHL GAME

West End Team to Play Filer Friday; Bad Luck Dogs the Footsteps of Barry's Men

BUHL, Oct. 4.—The Buhl high school team will play the Filer team at Filer on Friday of this week. This will be the third game of the local schedule, one of which Buhl lost and one was won.

Coach Barry has manifested considerable concern about the outcome of the Filer game, due to the fact that practices are being conducted five days a week but a few of the men out. Then, too, several men are on the injured list. Garcon Layne is still unable to return to the game on account of a fractured bone in his wrist. Bearing is out with an injured knee received in practice, and Weaver received a wounded knee in the football game two weeks ago from which he has not recovered. Wingard also has a sprained ankle.

Filer is working hard this week with the full team out every afternoon, according to word received at Buhl, and they are confident of a victory. The Filer team is composed of last year's experienced players. It is understood that practically every man on Filer's

MINERS TO INSIST

(Continued from Page One)

"The manner in which the business was dispatched argues well for future relations within the industry." Delegates to the joint conference held for their homes tonight.

It was learned from an authoritative source tonight that in the recent count of ballots something of a tie occurred in the United Mine Workers of America between 1000 and 1700 local unions and their ballots for President Lewis and that 123 locals—voted for Harry Meyer, statistician of the Illinois miners, to succeed Lewis as president. The nomination of Phillip Murray of Pittsburgh to succeed himself as international vice president was practically unanimous. Some few locals nominated Alexander Hovest of Kansas to succeed Murray, but as Hovest has been expelled from the union, it was assumed his name would not be on the ballot. There was practically no opposition to the nomination of William Green of Indianapolis to succeed himself as international secretary-treasurer.

JEROME AND GOODING TO BATTLE FOR SUPREMACY

North Side Teams to Play Return Game Today at Lincoln Field for Entertainment of Teachers

Local fans are interested in the Jerome-Gooding football game which will be played this afternoon at Lincoln field at 3 o'clock, for the reason that it will give South Side fans a chance to see how strong the North Side pigskin chasers really are.

After the South Side finishes out its schedule, they must play the winners of the North Side division, consequently a large crowd of rooters will be present this afternoon to see what is going to happen.

The game today is a return game, Jerome having won from Gooding last Friday, 23 to 0. This is one of the few times that football played at Lincoln field and Twin Falls is not a contestant.

Miner's Invented Bangalore

Man Eating Lions Discovered to be Two Airedale Dogs Midnight Frowlers Terrorizing Natives in Ohio Zooed Down by Keeper of Zoo

TOLEDO, Ohio, Oct. 4.—The "ferocious man-eating lions" that have been terrorizing the natives in the vicinity of Mount Victory are two Airedale dogs, according to Louis Scherer, keeper of the Toledo zoo, who returned here today after spending a day in the woods of Hardin county.

Certainly the safest way. A Panossee decision in Evans vs. Elgdon holds that looking at a nude through a crack in a barn is not sufficient to constitute a valid attempt on the male, but Law Notes suggest that it is "by all odds the safest way."

Afterward Ago. Visitor—"And just how old are you, Will?" "While—"Mother says I'm too young to eat the things I like, and too old to cry when I don't get them."
