

PEACE TERMS GIVEN TURKS ARE LIBERAL

Work of Mudania Conference Reaches Point of Conclusion With Submission of Allied Terms to Kemalists

LONDON, Oct. 10.—After numerous delays and interruptions, the work of the Mudania conference reached a concluding point yesterday with the presentation to Kemalists of the nationalist representative of the protocol agreed to by the allies, which, as Lieutenant General Harrington described it, would give to the Turks their aims within 45 days.

The convention, consisting of 14 plenipotentiaries, is drawn on liberal lines, showing strong traces of French influence on the side of the Kemalists. Under it, the Greek would evacuate eastern Thrace within 10 days and complete the transfer to the Turks in an additional month. The Turkish civil administration would follow closely on the heels of the departing Greeks, the entire transfer being under the supervision of the allied missions and allied forces provisionally occupying Thrace. The number of Turkish plenipotentiaries in the province during the interval is left to the discretion of the Kemalists, subject to allied approval.

The Turks, on their side, would undertake not to place an army in Thrace until peace was ratified, while new neutral zones would be delimited by direct commission.

Early Answer Promised.

Imet Pasha expressed the hope that his government would approve the convention and promised an answer at 10 o'clock this evening. As the Greek government has instructed its delegates to sign the convention if the Turks agree, there appears good prospect of a peaceful settlement, leading to a general peace conference.

The British cabinet met this afternoon, hoping to be in possession of the Angora government's answer, but as this was not forthcoming the ministers dispersed. They kept, however, in close touch, so as to be in readiness when the reply arrived.

No Time Limit Given.

The protocol gives no time limit for withdrawal of the Turkish forces from the neutral zone; it simply specifies "with all possible speed." But if they sign the protocol, the Turks are expected to respect the neutral zone until allied occupation ceases. There is still no word that the Turkish forces in those zones have attempted to evacuate the zone for withdrawal, said to have been given by Mustafa Kemal.

Should the Turks sign the protocol, there would still remain the difficult question of the peace conference and particularly the question of whether the Russian and Black sea states should participate in it.

DECLARES GERMANY IS AGAIN GETTING READY

Country Said To Be in Far Better Position to Wage War Today Than in England at Present Time

LONDON, October 10 (AP)—Germany today is in far better position to wage another war than is Great Britain, England is dismantling her ammunition plants, while Germany is increasing her production of ammunition. This statement has been made before the British Association by Dr. J. A. Mariner, formerly director of research in the Ministry of Munitions.

Dr. Mariner declared that he was not an alarmist, but simply recited facts as he saw them. In 1918 Germany produced 90,000 tons of nitrogen chiefly for agricultural purposes, he said, while the smaller Germany of today has produced more than twice this amount.

"At the end of this year Germany will have at her disposal," Dr. Mariner went on, "an interesting capacity for producing 300,000 tons of nitrogen a year. This will make her entirely independent of all nitrate importation and in case of another war, she will have all the basic materials for a gigantic output of munitions and enough fertilizer to grow a large share of her food."

"It may be justifiable," he concluded, "for the allies to allow our late enemies to put themselves in a strong position to soon after the war, but it may also be that those whose function it is to see that some, at any rate, of the provisions of peace treaty are carried into effect are not aware of what is happening."

TRIAL MAY TAKE YEARS

Hearing of Charges Against Ministers Before Peasant Judges Expected to Drag On Indefinitely

SOFIA, Bulgaria, Oct. 10 (AP)—The trial of members of the Radevich cabinet, which brought Bulgaria into the war on the side of Germany, will soon enter its second year. Two hundred and fifty witnesses gave testimony during the first six months. Then it took one month to read the indictment. The Crown Prosecutor spoke for seventeen days, and then D. Touchev, minister of justice, and one of the accused, spoke for 20 days to explain his part, and has not yet completed his introduction.

Ten days of the second cabinet ministers and about twenty barristers are yet to speak. The defendants have already been three years in prison, where they have been preparing their speeches and other features of their defense. The judges are mostly peasants and some of them have remarked that if they listen for another year or two they will be able to pass their trial examination to the Bar without attending the University.

Dangerous Alarm Clock.

To prevent oversleeping, and thus risking the loss of their employment, the mail-carriers of Morocco resort to a unique and perilous scheme. They tie a string to one foot, and, as they know how long a yard or two will burn, they regulate the length of the string by the time they have to sleep. They light the string, which burns slowly, and when the fire comes to their foot they are painfully reminded that it is time to arise.

UKRAINE FACES GRIM PROSPECT

Poverty and Plenty Run Hand in Hand But Relief Measures Necessary This Winter

KHARKOV, Oct. 10 (AP)—Poverty and plenty today run hand in hand along the railways in Ukraine, a country once known as the granary of Europe. There are bulging warehouses full of grain at some stations, none at all at others. The grain crops for 1922 are only about 60 per cent of normal, and Soviet officials frankly admit that outside aid from relief organizations is necessary until next spring at least, especially among children in the villages. The peasants, say officials, are quite able to take care of themselves, excepting in the scattered districts where there was a crop failure due to drought or lack of seeds last season.

There are splendid crops this year in a few districts in the northern part of the Ukraine—equally as good as in normal times. But in the south great sections of land were effected by late weather and there is not even a grain stubble to grow around. Ukrainian officials say that with the aid of the Central soviet government, they are making arrangements to transport 500,000 pounds of grain from the north to the south.

From districts where food has been scarce, many are flocking to the town. As a result there are as many beggars in the larger places as last year, when there was a crop failure. Some of the beggars are almost plump, while others are as thin as can be. They resemble the pictures of hungry natives of India and appear barely able to move about. In the poorer districts, the village dogs, too, have become beggars, like the dogs of India—gaunt, mangy creatures that scavenge about the cantaloupes and apple peelings thrown from the car windows. In addition to its fair grain crop at the north this season, the Ukraine has produced also about 13,000,000 pounds of beet sugar, three times more than last season, but barely enough for 500,000 inhabitants of the Ukraine Soviet republic itself.

Ukraine officials say they have plenty of potatoes this year, and that from present indications of the fall planting there are prospects of nearly a normal grain crop for 1923. They believe would put the country on its feet again.

In Other Words, Concentrate.

The great secret of both health and successful industry, is the absolute yielding up of one's consciousness to the business and diversion of the hour—never permitting one to intrude in the least upon the other.—Bismarck.

ANTI-VIVISECTIONISTS AGAIN HARD AT WORK

Head of British Opposition Now Touring America in Interest of Pro-Vivisection Legislation

WASHINGTON, Oct. 10 (AP)—American anti-vivisectionists have announced the re-adopting of their cause aimed at adoption of laws abolishing the practice. Dr. Walter B. Hatway, head of the British Union for the abolition of vivisection, has been engaged and is making a speaking tour of the country opposing vivisection.

Dr. Hatway opened a tour of the western states last month in Chicago, Minneapolis, St. Paul and other cities, giving them to California, where he will aid the campaign for the passage of an anti-vivisection amendment to the state constitution. Sentiment is strong in California for such a measure, according to officials of anti-vivisection societies, despite the defeat of a similar bill two years ago. After a month's work in California, Dr. Hatway will visit eastern cities. Advocates of the practice who believe in its value to the human race and to medical science, did not discuss the question of publicity with him it was said, when he visited this country several years ago. He is making his present visit in answer to those proponents of vivisection who challenged his right to speak for opponents.

Dr. Hatway was formerly a believer of vivisection; it was said, as well as vaccination and inoculation. Dr. Hatway claims that 75 per cent of English children are unvaccinated, and attributes to that fact the lowest smallpox rate in the entire history of that country.

Cows as Work Animals. In many parts of Europe, especially in France and Holland, cattle, both oxen and cows, are being used extensively for work. In one part of France the number of cows used for work is twice as great as the number of both oxen and horses. The cows work in yokes, and those used for hauling are also used for breeding. In many instances they are milked.

FIRE IS CAUSED IN STRANGE WAY

Gasoline Auto Truck Destroyed Because Escape of Static Interfered With

WASHINGTON, Oct. 10.—A big tank truck transporting gasoline was blown up by a terrific explosion on the street, recently because a passer-by, who didn't know what he was doing picked up a piece of chain. He saw the chain hanging from one end of the truck and thought he was possibly save the truck from being wrecked through fouling the chain in one of the wheels.

The man didn't know that the chain was hanging there for a purpose. He didn't know that gasoline, unlike water is a non conductor of electricity. Possibly the man knew that flowing gasoline, especially when strained through such materials as chemis skin filters, sets up considerable static electrical or static electricity. But that was what caused the truck's destruction.

Usually when the big tank truck backs up to the filling plug at the service station or other storage place, the metallic nozzle from the truck touches the metallic intake pipe and the static is grounded, and an escape of static electricity that may be lost in the tank. Sometimes, however the nozzle does not touch a grounding point, and with no other metallic ground from the truck the car is perfectly insulated, standing as it does on rubber tires. Sometimes also, the nozzle of the truck outlet pipe rests against the metallic intake pipe and is thereby likewise insulated, for dry wood is also an insulator.

When the gasoline is pumped into the storage tank a certain amount of vapor arises, and there is certain to be some about the intake and the truck. The charge, however, it may become strong enough to leap the gap to the nearest ground, or the two points may be brought into contact. There is a spark, a flash and explosion and terrific damage may result.

To Drain Electricity.

Consequently the careful truck driver always has a metallic chain hanging from the truck to the ground, a rope or chain, to drain off the electric charge as it collects, as long as the gasoline is being drawn off.

The big tank cars have been the cause of numerous smaller fires and explosions in garages, both private and public. In one instance a car was being filled from a can. While the operator ran the gas into the can he strained it through a chemis filter in a funnel. To make the funnel sit up against the hole in the tank the wooden ring was placed in the hole and the funnel was placed in it. Thus the can was insulated. After the "Violet" Glover of Schlad, Oregon visited Miss Bertie Shaw Sunday. She is the house guest of Mr. and Mrs. Richard Lisco, near Filer.

Fred W. Berger made a trip to Twin Falls Tuesday on business returning on the noon train.

The Berger indoor baseball team had an exciting practice game Sunday and there were several sensational plays made. They will soon be ready to match up with some of the best outdoor teams.

Miss Theresa and Georgianna Berger were dinner guests at the home of Mr. and Mrs. C. M. Brady Sunday.

Lester McGregor visited his parents Mr. and Mrs. George L. McGregor, Saturday evening at Sunday returning to his work at J. M. Pierce's, Monday morning.

SAYS SHE WAS SERVANT TO "OTHER WOMAN"

Mrs. Victoria D. Smith Paris obtained a divorce in Chicago, because, she alleged, her husband confessed to loved another woman and that when she was forced to accompany her husband and the other woman to the Chicago she acted as a servant and carried the other woman's wraps. She declared her husband told her he regretted he could not marry the other woman and have his first wife, Violet, live with them "because she was so motherly."

BERGER

The Loyal Neighbors were entertained by Mrs. Arthur Parrott at their last meeting; they report a representative attendance. A order of business light refreshments of sandwiches, cake and luncheon were served.

Miss Francis McGregor came from Curry and visited with home folks during the week end, returning home Monday.

George L. McGregor was in Curry attending to business Monday.

Our elevator has been filled to capacity for the past week and the farmers have been dumping their wheat on the ground on account of shortage of cars for shipping.

Miss Violet Glover of Schlad, Oregon visited Miss Bertie Shaw Sunday. She is the house guest of Mr. and Mrs. Richard Lisco, near Filer.

RUSSIAN RELIEF FORCES BEING STEADILY REDUCED

Number of Americans Now Engaged in Alleviation of Suffering in Land of Soviets is About 100

LONDON, Oct. 10.—Col. William H. Haskell, director of the activities of the American Relief Administration in Russia, has announced that the reductions in accordance with the decision of authorities at Washington, of the A. R. A. personnel in Russia has begun and by October 15 the force of 500 American stationed in various parts of Russia will be reduced by nearly one-half.

Many of the 75 or 80 Americans who are to return home are in the famine areas where adult feeding is being reduced as rapidly as conditions will permit.

Major Philip H. Carroll, a prominent member of the European staff, has left London for the United States. He comes from Hood River, Oregon, where he owns an apple ranch. He presiding Colonel Haskell as A. R. A. chief in Russia. He is accompanied back by his wife and two children.

J. J. Somerville, Y. M. C. A. worker who has been stationed for some time past at Riga, has left that city to return home. A number of Latvian intelligentsia members of the American clergy, chiefs of the Latvian army and a military choir and band assembled at the station to bid him farewell. Speeches were made by many of the officials present and flowers were presented to Mr. and Mrs. Somerville by the Latvian Youth Society.

JEROME

Helen Deeds, daughter of Mr. and Mrs. John Deeds, of Sugar Land, returned to her home on Friday from the Twin Falls hospital where she has been patient for two weeks, having submitted to an operation for appendicitis.

A fine boy weighing ten pounds arrived at the Canyon Hiller home at Tread on the third of October. Mrs. R. R. Clayton was hostess to the Methodist Ladies Aid at her home Thursday afternoon. After a business meeting a section where they were followed by delicious refreshments.

Mr. and Mrs. T. L. Robinson expect to leave in the near future for Mendocino, California where they will remain for the winter.

Miss Berrie Strain returned to her home at Pleasant Plains after having spent the week vacation with relatives in Twin Falls.

W. B. Wheeler underwent an operation at the Boise hospital last of the week. At last reports Mr. Wheeler was doing nicely.

Mr. and Mrs. Ed Gill of Appleton expect to dispose of their interests this week and are leaving in the near future for sections where they expect to make their future home.

Walter Pear is looking after business interests in Jerome this week from his home in Boise.

IDAHO TECH. RELIES ON STRENGTH OF BACKFIELD

Ooch Hutchinson, Whipping Team Into Shape for Utah Agricultural College Game.

IDAHO TECH. FOOTBALL, Oct. 10.

The strongest football team in the history of Idaho Tech will open the season with a game with the fresh of the Agricultural college Saturday of this week. The outstanding feature of the Tech team this year will be the strength of the backfield. O. K. Pines, last season's stellar quarterback, is showing his old form. Harold Holmes, a great kicker and passer and a veteran at the game, will probably open the season as the first man trying hard for backfield places.

HIGH SCHOOL NOTES

There will be a short assembly Wednesday morning at the school building. Mr. Karnes has some announcements that he will make at this time.

Eight pupils of the high school took condition examinations Monday. These pupils were conditionally in certain subjects last year and had to take these examinations in order to continue their work in the following course.

There will be a meeting of the four committees and the cabinet of the Blue Triangle club Wednesday evening immediately after school.

Junior High School Notes

Can you name the bones of the body from those of the cranial down to the metatarsals? You recall, however, that you once tried. It was like the not very old idea of medicine—good brain exercises. Today in the junior high school the 8th psychology class is different. It is placed upon the care of the body, and the maintenance of good health than upon a course in anatomy. The student finds himself involved in a lab course. It is an 18-week course for better preparation, more outdoor exercise, the right kind of food, a crusade for the bettering up of the physical condition, both mental and physical, which tend to make him the desired kind of citizen.

Social Notes

Edited by Mrs. E. B. Williams. Telephone 898

The current events of the Twentieth Century club opened their activities for the coming year with a charming reception at the home of Mrs. James Fitzgerald on Lincoln street, the additional hostesses being Mrs. Kennedy Packard, Mrs. H. A. Briscoe and Mrs. F. L. Cogswell. The social was beautifully decorated in white and green, the club colors, the tea table having a centerpiece of white asters and green foliage; at either end of the table were crystal centerpieces holding white candles with green shades, the white and green color scheme was carried out in the dainty refreshments. Mrs. H. A. Briscoe presided. Mrs. Henry W. Norton poured. The attendance numbered 40.

Complimenting Mrs. M. F. Bourville, mother of Mrs. R. B. Spafford, Mrs. Fred Pass entertained four tables at 6:00 Monday evening. The honored guest received a dainty party and Mrs. Annette Olliv won the favor for high score. A delicious two-course luncheon was served at the close of the game.

The advisory board of the Regatta church met at the club home of Mrs. and Mrs. J. C. Beatty Monday evening. The regular order of business was transacted, and was followed by a social hour and refreshments.

Mrs. William Macaulay was hostess to the Pan-Hellenic club Monday evening at 6:00 Monday evening. The honored president, Mrs. E. J. Jolly, presided at the business session, during which plans were made for the next meeting, which will be held at Filtr with Mrs. A. E. Anderson and Mrs. W. D. Olliv entertaining. Members are requested to notify Miss Frances Fielding if they can or cannot attend. The remainder of the evening was spent with cards and a general social time. Mrs. Macaulay was assisted by Mrs. Clyde Eason in serving delicious refreshments to the 23 members present.

Little Alice Peavy entertained Tuesday afternoon in honor of her Grandfather Perry, who is leaving this week to make her home in Fresno, Cal. The time was spent with games and dainty refreshments were served to the ten guests in attendance.

The P. E. O. Sisterhood, chapter "D" were entertained at a silver tea Tuesday afternoon at the home of Mrs. L. Breckenridge for the benefit of the school children's hot lunch fund. The rooms were decorated in the honor colors of yellow and white. Refreshments were served from a beautifully appointed table in the dining room having for a centerpiece a large bowl of marigolds. Mrs. E. P. Dunlap and Mrs. Zenas Smith presided during the first hour, and Mrs. R. W. Wilson and Mrs. T. P. Warner the second hour. Mrs. J. F. Johnston, Mrs. Wilton Peck and Mrs. Dorman Johnson served. Music was furnished during the afternoon by a portion of Cedric Seary's orchestra.

IDAHO-WASHINGTON GAME SCHEDULED FOR SATURDAY

Arrangements Being Made to Take Care of Large Crowd Expected to Attend

UNIVERSITY OF IDAHO, Moscow, Oct. 15—Arrangements are being made to accommodate all people who will flock to Moscow Friday, October 20, for the annual Idaho-Washington State football classic. This contest will be featured this year as the annual homecoming day for all Idaho alumni and former students and plans are already under way for accommodating all who return.

Temporary bleachers, with a seating capacity of approximately 1000, will be erected on the football field to augment the bleachers already there. Part of this section will probably be handled by the Washington State college students who will accompany their eleven.

Even this material increase in bleachers may not prove sufficient to handle the large crowd which will attend the game, according to Albert Knudson, athletic manager of the college. Idaho's excellent prospects to realize a long-sought revenge against the Cougars make the contest of unusual significance this year.

Advertisement for Yellowstone Barber Shop, 116 2nd Ave. South. Services include Shave, Hair Cut, Electric Massage, Ladies Hair Trimmed, etc.

PUNTS AND PASSES

By FULLBACK.

But two days remain for the Filtr and Twin Falls football teams to whip into shape for the annual classic, which will be held this year at Lincoln Field. The game is scheduled to start at 3 o'clock and there has been talk that what the largest crowd of the season will be in attendance.

Last season Twin Falls won from Filtr by the score of 29 to 0. From the time that Filtr lost that game they have been contenders for the state title. They moved down every year that had the nerve to play them, and wanted another chance at Twin Falls, but it was too late in the season, and had to be called off.

Friday will see Filtr's first meeting with Twin Falls since that time and the fans are all excited over the game. In fact it is doubtful whether the state championship game would have occurred if not for this.

Coach Deuman of the Filtr squad, undaunted by Bulb's victory last Friday, is giving his lads the hardest workout of the season. Coach Evans of the local team is doing the same, only perhaps a little stronger.

Filtr has two of the best back field men in the state in Allen and Tamm, and these two speed artists work together like a piece of machinery. On the other hand the local high school has Carry, Scott and Jenkins, not to say anything of Selok and Alford.

It is the opinion of this column that neither the Filtr team nor the Filtr team have shown anything as yet, holding everything in reserve for the annual classic. It has been noticed that both teams have been confining their play to three and four different formations, so consequently every one is on edge to see which coach will bring out the trickiest play.

Don't forget that hostilities start on Friday at 3 o'clock at Lincoln field.

TWO YEARS' WAIT FOR McINTYRE IS REWARDED

Sheriff's Office Operatives Arrest Alkali's Belter of Mortgage-Talking Machine

Memory of operatives of the sheriff's office extends over a period of at least two years, it was learned by Roy A. McIntyre, when he was arrested here Tuesday something more than two years after the date of his escape from custody of the former sheriff McIntyre was held this to answer to a charge of obtaining money under false pretenses. He was alleged to have obtained from E. E. Hall \$40 for a talking machine upon false representations that the machine was free of encumbrance. McIntyre is said to have betrayed the confidence of the former sheriff when the opportunity was given to square up to the case.

COACH FRACTURES RIBS DEMONSTRATING ATTACK

Suffers Painful Injury in Attempt to Tear Through High School Protective Line

Clinton W. Evans, Twin Falls high school director of athletics and football coach, was Tuesday evening taken out of a practice scrimmage on Lincoln field suffering from two broken ribs received when he went into the practice game to demonstrate effective blocking of the Twin Falls eleven line. The coach was taken to his home where throughout the evening there were received many inquiries as to his condition. Dr. W. F. Fasset, medical aide and advisor to the gridiron warriors, reported Tuesday night that the coach was resting as easily as possible under the circumstances.

FUNERALS

DeVoe Hartley Clark. Funeral services for DeVoe Hartley Clark, four months old son of Mr. and Mrs. D. E. Clark, whose death occurred Monday afternoon, will be held at 2 o'clock Wednesday afternoon at the P. J. Grossman chapel and will be conducted by the Rev. A. C. Pearson of the Presbyterian church.

A trio composed of Mrs. F. B. Dell, Mrs. H. R. Cowling and Miss Grace Bryant sang two selections. Mrs. F. B. Dell rendered two vocal numbers, "Serenade" by McDonald, and "A Birthday" by Gentry. Mrs. Zenas Smith, Mrs. H. R. Cowling, Mrs. Ethel Gray and Mrs. Dell, gave a collection. There was a large attendance and a goodly sum was collected to be turned over to the worthy cause for which it was given.

CARD OF THANKS. We desire to express our sincere thanks and appreciation for the floral offerings and many kindnesses extended us in our recent bereavement in the death of our dear wife, mother and sister.

We Have Your Copy Of An Interesting Book On Internal Baths. It Is Free Dr. Chas. A. Tyrrell always claimed his life was saved by Internal Bathing. And that after it made him well, it kept him 100% well and efficient for many years. This is not hard to believe when Physicians agree that most human ills are caused by accumulated waste in the lower intestine and no medicine has ever been found to keep it free from this poison. Dr. Tyrrell's book tells why and how this has been the means of freeing over a million of enlightened Americans, many right here in town, from "that dread feeling" as well as the more serious illnesses which follow if the pernicious poisons are not cleaned out. Pure warm water scientifically administered, will take these poisons out and keep them out. Ask today for this book—"Why Man of Today is Only 50% Efficient"—Remember it is free to you. THE MARKETS

CHICAGO GRAIN MARKET
 CHICAGO, Oct. 10 (AP)—Wheat upward a little in value today, owing mainly to uncertainty regarding a chance that the Turks might choose to fight rather than accept terms which had been offered by the allies. Closing quotations were unaltered, 1.3 to 2.88 and higher, with December 1.07 1/2 to 1.07 3/4, and May 1.00 1/2 to 1.00 3/4. Corn finished 1.40 to 1.8 to 1.8 1/2 up; oats at 1.9 1/2 to 1.40 decline to 1.40 up; and provisions unchanged to 13.2 to 14.

Some firmness at the start was displayed by the wheat market, apparently as a result of higher prices for the pool and because the United States government crop report concerning wheat was construed as bullish. Besides, talk was current about frost in Argentina. During, however, lacked volume throughout the morning and the market, with a few exceptions, showed a tendency to sag in sympathy with corn and oats.

Shorts in wheat got restless though during the last hour of the trading session, no word having been received as to the outcome of the allied ultimatum to Turkey. News that the British had accepted the ultimatum showed a continued rise, tested further to emphasize bullish sentiment and, likewise, all reports of a better market for wheat at the Gulf of Mexico was at about the top figures of the day.

The bearish aspect of the government crop report, as to corn, combined with what most traders had expected, made prices for corn and oats average lower. The market, with a few exceptions, showed an official crop estimate and by a taper in shipping demand.

NEW YORK STOCK MARKET
 NEW YORK, Oct. 10 (AP)—Heavy speculation and violent fluctuations in high priced oil shares and extensive trading in metals and equipments were the outstanding developments in today's active and irregular stock market session.

Large blocks of buying orders sent prices up at the start, but the violence of the rise and a higher ruling rate for call money induced heavy profit-taking, especially in the Standard Oil, causing the market to drop around noon of the first hour. The rapid bidding up of Mexican and Pan-American Petroleum stocks of the afternoon and afternoon prices tapered again, but the marking up of the call money rate to 1 1/2 per cent and a rather widely held belief that the success of the advance had left the market in a weakened technical position, resulted in a general unsettledness in final dealings.

Standard Oil of New York, which fluctuated within a range of nearly 20 points, established a new high at 102 1/2 and then closed at 103 for a gain of 12 1/2 points, the day's advance approximating 10,000 shares. Mexican Petroleum moved within a radius of 12 1/2 points, closing at a net gain of 63.4. The Pan-American issues were strong in sympathy. Texas Company established a new high but eased off 100 1/2 points. The day's advance in domestic oils, notably Houston, Pure, Pacific, Producers and Refiners and Phillips Petroleum closed below yesterday's final figures.

The United States Steel corporation's statement of unfilled orders on September 30, showed an increase of 741,000 tons. This positive disappointment was reflected in a drop of 3 1/4 from the day's high, which was 108.84, the highest in more than two years. Independent Steel of New York, which had lagged behind the rest of the

GOVERNMENT BONDS
 NEW YORK, Oct. 10 (AP)—Liberty bonds closed:

3 1/2s	\$100.60
First 4s	99.92
Second 4s	100.04
Third 4s	100.00
Victory 4s	100.00
Victory 4 1/2s (uncalled)	100.25
Victory 4 3/4s (called)	100.10

lat and generally closed lower, but Delaware, Lackawanna and Western, up for up for a net gain of 1 1/2, at 150, after having closed 141.

Talk of milder-cutting was responsible for the bidding up of some of the high priced industrial specialties. National Biscuit touched 215 5/8, a comparison with 201 at the close yesterday, on reports of a proposed 7 per cent stock dividend. American Well improved 1 1/4 on reports of better trade conditions.

Total sales were 1,500,000 shares. Call money opened and ranged at 5, and then advanced to 6, probably as a result of the government withdrawal of \$4,000,000 from its deposits in the local market. The new money and commercial paper markets were quiet.

Foreign exchange was irregular. Demand sterling was firm at the opening, reacted later on a heavy offering of commercial bills, and closed at a slight fractional gain. The premium on Canadian dollars touched one eighth of one per cent. German marks fell to 8 3/4 a hundred, another new low.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Often Means You Have Been Eating Too Much Meat

When you wake up with backache and dull misery in the kidney region it may mean you have been eating too much meat for a while past. Backache, dizziness, excruciating pain, and a general feeling of weakness are the signs of kidney trouble. The urine is cloudy, full of sediment, channels often get sore, water sends you and are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Ind-Elixir. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This medicine is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus often ending bladder weakness.

Ind-Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia water drink. Drink lots of soft water—adv.
