PASSENGERS OF BURNED VESSEL ON WAY TO PORT

City of Honolulu, with Fire Still Smoldering, Continues to Drift; West Farallon is Standing By

SAN FRANCISCO, Oct. 13 (AP)—The veteran United States army transport Thomas is steaming today in the Pacific ocean toward San Francisco with 201 passengers and members of the crew of the liner City of Honolulu, which is drifting a burning wreck on the sea lanes to the southwest.

Word from the transport to the Associated Press today by the wireless service of the Federal Telegraph company was the effect that the passengers were in good spirits and that they evidently showed no fear when the fire erupted around them on the great liner and forced them to thrust into the sea in small boats to await what proved to be a kindly fate. The tons of water poured into the City of Honolulu's hull heavily to port, according to word from the Thomas, swinging the stricken vessel's small boats out board on the port side and nearly increasing the rescue hazard. Later the great vessel righted herself so that the boats could be lowered with greater facility.

Fire Still Smoldering. Word from the West Farallon tonight was that the City of Honolulu is still burning. Day reports told of the saving in the ocean of the survivors.

The ocean waves shut up clouds of steam as they leaped and leaped in the sea's blistering hot sides, but she continued to ride the seas easily and showed no indications that the flames which raged by would send her to the bottom. The blackened hull was named too hot to be approached today, according to a cable from the West Farallon to the agents, Struts and Gifford here. The rescue boat was told to stand by until it could be determined whether she should wait in a sheltered port or merely wait until salvage vessels arrived.

Rescue Moves Hastily. All messages received here said that the work of rescue was as effective as thought it had been, according to the latest news. According to a wireless message from the Thomas, the greatest hardship suffered by the passengers was on the open sea, while the Thomas, the West Farallon and the Matson liner, Enterprise, were approaching toward her.

Defective Wiring Blamed. The arrival of the Thomas is not to be made a public affair, according to transport authorities. The public will be kept off the landing dock, but the manager and newspaper men will be permitted on the transport. The probable cause of the fire was given as defective wiring in the second cabin, according to the message from the Thomas.

Plan for Conservation. Conservation of our natural resources will be necessary if we are to leave this country capable of supporting our rapidly increasing population. Our children should be left with a fair chance in life. If we waste our natural resources it will not be long until the struggle for life will be keen. Use of our resources ethically and well.—Exchange.

Put On Your Own Pins. Every one stamps his own value on himself. The price we determine for the qualities it gives us—Man is made great by little by his own will.—Schiller.

Wouldn't Be Right. "Our pastor's sermon this morning did not have so much meat in it as usual." "Meat? Certainly not; this is Lent."—Boston Transcript.

Armless Preacher of North Head, N. J.

Undismayed by the loss of both arms at the shoulder in a railroad accident 25 years ago, Rev. Dr. Joseph T. Hutson is pastor of the United Baptist church of North Head, Great Indian Island, N. J., in the Bay of Fundy. With artificial arms he entered actively into athletics in his home city, Leeds, England, and won honors as a track star. When he attended a seminary in Duques, Scotland, and following his theological course, went to Australia as a preacher. He was fully ordained in 1904, and went to Canada in 1918. He writes by holding a pen in his mouth.

PROSPERITY IS BAD FOR RACE

Swedish Scientist Says Material Advantages Tend to Lessen National Strength

STOCKHOLM, Oct. 13 (AP)—Prosperity is bad thing for a race because it is one of the first steps toward degeneration, is the opinion of Professor Herman Lundborg, head of the Race Biological Institute at Uppsala, Sweden, and well known for his investigations into genetics and racial biology. Prosperity brings with it the gradual elimination of the good old middle class, the professor declared in a recent address on this subject, and this in any country is a sure sign of decay. "There is grave doubt," the speaker continued, "whether or a people really gets any profit from millions of money being poured into the country. Experience, past as well as present, shows that when wealth is suddenly increased it brings end less new needs. Luxuries are demanded, leisurely sets in, and the interest in work and production falls off. Women begin to avoid maternity. All these processes, beginning in the middle and upper classes work downward and in time destroy the race. Thus they are as much more to a country as a powerful political enemy."

Favors Birth Control. The professor approves of birth control, however, especially among the less desirable elements of a country's population, and he believes that the reproduction of a race should be limited, as far as possible, to those who are well-bred. "It is a stony prospect to the mixing of races to give this as one of the reasons why populations in larger cities tend to degenerate except in so far as generally results from the country life."

Europe is decaying, not only as a result of political catastrophe, but also because of a recognition of racial hygiene, and failure to counteract the forces of degeneration. A strong middle class is necessary for the mixing of races to give this as one of the reasons why populations in larger cities tend to degenerate except in so far as generally results from the country life.

DANGER LURKS IN ATOMS. EMINENT SCIENTIST SAYS

Force Which May Some Day Perform Work of World to be Gingerly Handled

LONDON, Sept. 24 (AP)—By the liberation of the atom man may some day have under his control a force which will perform for him the entire work of the world; but if it gets beyond his control it may blow the earth and all its inhabitants to smithereens, Dr. Ashton of Cambridge, said in a lecture delivered recently before the members of the British Association. The chances of such a catastrophe are practically negligible, he explained.

Dr. Ashton opened his address with a description of the nature and force of the atom. "If a tiny hole were made in the side of an evacuated electric light bulb," he said, "the molecules of the air could rush in at a rate of 1,000,000 a second; it would take 100,000,000 years before the bulb was full and there are two atoms in each molecule of air."

Dr. Ashton told how Professor Rutherford discovered that all atoms were simply different combinations of electricity. The positive particles were cemented together by the negative particles. "Tables, houses, chairs, motor cars, feet, animals and inanimate substances, including man himself were composed simply of electricity."

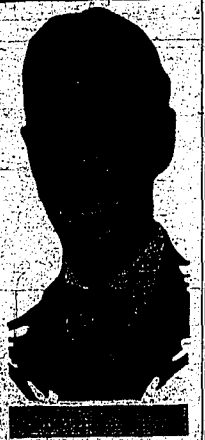

"What we know as a lump of coal," the speaker declared, "is simply an incomprehensibly large number of electrical particles clustered together. If these particles could be liberated and controlled, they would provide vastly more power than would be needed to run all the machinery that man ever could devise."

Professor Rutherford, said Dr. Ashton, "succeeded in arranging a collision between the central portions of two atoms. The result was the transmutation of the atoms into entirely different forms of matter."

"The possibility of such transmutation on any scale is of enormous importance. If the amount of hydrogen which goes to constitute a table-spoonful of water were transmutated into helium, the energy liberated would be 200,000 kilowatt-hours—one-seventh of the total amount of electricity used in London in a day for lighting and power purposes."

"The possibility has been discussed," said Dr. Ashton, "that this energy, when first liberated, would be out of human control. In that case, if all the hydrogen on earth were detonated into space, the successful experiment would be followed through by the annihilation of the earth as the birth of a new star. The probability of this catastrophe," added Dr. Ashton, "is practically negligible."

A. E. SMITH SMILES AT HIS NOMINATION

SENATOR SMILES AT HIS NOMINATION

NEW YORK, Oct. 13 (AP)—A. E. Smith, of New York, when he was nominated in the Democratic state convention at Syracuse, N. Y., today smiled broadly.

Why Insect? A telephone was used at a New York banquet to stop speeches when their time was up. That's all right, but why should the after-dinner speaker be started—Louisville Courier-Journal.

Righteous Can Always Hope. The hope of the righteous shall be gladness, but the expectation of the wicked shall perish.—Solomon.

Gigantic New Zealand Trees. The trees reported in some New Zealand trees are astonishing. Each of two giant trees from the vicinity of the Waipara forest is stated to have yielded 255,782 feet of sawable timber, which is about twice the product of the largest known trees of California, and equivalent to the entire production of nearly three acres of good European forest.

PIRATES WILL BE CONTENDERS

Outlook for Next Season Shows Buccaneers to be in Tip-Top Shape

PITTSBURGH, Oct. 13 (AP)—Despite the fact that the Pittsburgh Pirates failed to repeat the National League pennant from the New York Giants, optimism is in a decidedly different mood than it was a year ago today.

In 1931, Manager Gibson's warfare came down the home stretch with a commanding lead and that brought up a report that was heard throughout organized baseball. Pennant hopes faded away with the Giants' rush and local supporters were left with a sense of disappointment.

Gibson got away poorly this year. A change of managers resulted. From the week that Bill McKechnie became skipper, distinct improvement was noted. From the middle of July Pittsburgh played big a championship team and records were made. Gibson made the greatest record in the league from that turning point.

They broke up was too many, however, and local fans were left with another year. And they are, seemingly, confident that 1932 will be the season of triumph, such as were recorded at Forbes field when Fred Clarke was named champion of the world.

For the past six weeks the Pirates have been leading the league in team hitting. The pitching has been superb, with without victories; anything, but bare. The batting has been equally as spectacular.

YANKEE MANAGER WILL SERVE AGAIN

Bill McKechnie, who has been re-engaged to manage the New York Yankees for another year.

next year. That's "Babe" Adams. The big right-hander wants to retire, but he may change his mind.

It is an open secret that Adams over-exerted himself this season. Past 40, he pitched about out-ball when he had to, but the Mighty Matly of the olden days; he took things easy when he could. His friends of the team have told of nights, after hard battles when Adams' arm was so sore he could hardly lift it. His perfect control and his advanced knowledge of batters was his ace.

The Pirates will try out the usual flock of "promising youngsters" in the spring, but it will take a real phenom to out a regular from his present berth.

SPORTS (Continued from Page Three) FILER MEN LOSE IN GAME WITH LOCAL PLAYERS

Victory Perches Upon Banners of Twin Falls in Clean Cut, Hard Fought Battle with Denham's Warriors

Twin Falls' undefeated high school football team continued its way toward the state championship Friday afternoon when it took a hard earned victory from the Denham Warriors, by the score of 30 to 0.

The score does not indicate the closeness of the game, and the 2000 fans who kept on edge during the entire game of play, witnessed the thrilling team threatened, but the Evans team refused to be scared upon and Filer had to content herself with punting.

A cloudy sky greeted the two teams as they took the field and there was snuggled many in the side to keep the crowd on the move all the way through the game.

Twin Falls made two of her touchdowns with line plunges while the third was the result of a long forward pass, started by Garry and finished up with Captain Scott making a beautiful catch on the 10-yard line and getting over without opposition.

Filer Jans reserved a large portion of the bleachers and the entire student body was present. The thrill feeling that has existed between the two schools in the past was renewed on Friday. It was a scene, and although the students of each tried to out- yell the other, it was all in good spirit and served only to add to the pleasure of the occasion.

FRIDAY'S FOOTBALL RESULTS

Table with columns: Team, Won, Lost, Points. Rows include Twin Falls vs Filer 30-0, Denham vs Buhl 7-0, etc.

more speed and hard line plunges put the ball on the Filer 5-yard line. The Filer line stiffened and the locals barely got the ball over on their fourth down.

The ball sea-sawed back and forth with Filer on the defensive most of the time. The lineup: Pickett, Left end, Love, Filer; Ryan, Right tackle, Martin; Nye, Left guard, Connant; King, Center, Morris Cole; Franzell, Right Guard, Marion Cole; Lelzer, Fullback, O. Diehl.

Scott scored on the next play. Scott failed to drop-kick for the extra point. Score: Twin Falls 6, Filer 0. Pickett kicked to Aman, who carried the ball back 25 yards by clever dodging.

Four line plunges gave Filer the necessary yardage, and it looked very much as though the enemy was going to start a rampage up the field. Up the score, but a 15-yard penalty for holding nullified their hopes and Aman kicked for 7 yards, and then Garry and Selck got away with a 15-yard forward pass. Garry and Selck pushed the ball 10 yards more, setting it down on the 10-yard line.

Put On Your Own Price. Every one stamps his own value on himself. The price we challenge the ourselves in great one-man is made great or little by his own will.

CLOSE CONTEST GOES TO FAST BUHL TEAM

Coach Barry's Men Hold Oakley Team to Single Touchdown; Wilson's Too Wins Game.

OAKLEY (Special to The News)—In one of the hardest fought football battles ever witnessed in Oakley, the local team went down to defeat Friday afternoon at the hands of the Buhl team by the close score of 6 to 0.

Wilson made its score two minutes after play and started when Moore threw a long forward pass to Eddie Wilson, who caught the ball behind the goal line. Wilson dropped goal, Oakley and to contend itself with being on the defensive most of the afternoon, but in the last five minutes of play Captain Blake began storming the line, and with the assistance of Martin and Westenberg, carried the ball over. Westenberg missed the goal by hitting the cross bar.

RUPERT OUTPLAYS BURLEY IN HARD FOUGHT CONTEST. Irregulars Upset All Done by Winning from Heavier Adversaries—Kerehnik Makes Touchdown.

Report, Oct. 13.—(Special to The News).—Playing on a muddy field, the Rupert high school football team won from the heavy Burley squad here Friday afternoon by the score of 13 to 6.

SHOSHONE FALLS BEFORE JEROME'S AERIAL ATTACK. Inland Lads Bewilder Main Line Hosts with Extra Formations—Jerome Trying for North Side Title.

SHOSHONE, Oct. 13.—(Special to The News).—Jerome's football team swamped the locals here Friday afternoon by the score of 50 to 0.

HAGERMAN TAKES CLOSE CONTEST FROM GOODING

Forward Passes Upset Done in North Side Contest — Game Played on a Muddy Field.

GOODING, Oct. 13.—(Special to The News).—The local high school football team lost Friday afternoon at the hands of the Hagerman team, Gooding losing by a 10-0 score.

SEASON OPENS AT SHASTA. SAN FRANCISCO, Oct. 13.—(AP)—Football gets under way in the Pacific coast conference tomorrow at Shasta, where the University of Washington's result team meets the University of California, which has been crippled by the loss of one of its stars. Filer, who was declared ineligible last week. All the other teams of the "far-western" "Big Eight" play non-conference games tomorrow.

SEATTLE CALLED OFF. SAN FRANCISCO, Oct. 13.—(AP)—No negotiations for a "Little World Series" in California between the team winning the Pacific coast baseball league championship and the winner of the St. Paul-Baltimore series have been called off by W. H. McCarthy, president of the western circuit, announced here today. An agreement could not be reached on the number of games, the exact officials wanting seven contests and the easterners five.

The Optimism that comes with passing years

When an institution has seen a community grow from the humble, almost primitive beginning of Pioneer Days—the days of sage and the old stage—to such a promising city.

It can certainly find reasons here for an optimistic view of future possibilities!

The First National Bank foresees an active Fall and Winter! In many industries there is awakened activity and in some new records are being attained.

As Westerners, one of the greatest assets any of us possess is OPTIMISM!

The First National Bank of Twin Falls, Idaho We Seek More Business on Our Record

Announcement

How It Was Done. Filer won the toss, and received Pickett kicking off to Aman, who carried the ball back 23 yards, the entire Filer team, after his making no interference. Timm and Lapp failed to make any material gains on the next two plays, Lapp being treated to a hard tackle through the assistance of one Mr. Filer. Aman was forced to kick on the next play, booting the ball outside. Timm fumbled on the first attempt at carrying the ball, and once more the visitors took a whiff at making a touchdown, but found the going pretty rough, as the Twin Falls line, led by Tommie Jenkins, was able to block the center of the field.

Jenkins went back at the 10-yard line, and hit the line for 5 yards. A series of line plays carried the ball down the field 25 yards for the locals. Filer carried the ball to the 10-yard line, but lost the ball or yardage. Unable to gain the necessary 10 yards, the Filer line gave the pigskin back to Twin Falls. The Twin Falls backfield took on

SPORTS LOSES BATTLE ON FOUL BLOW

Tom Gibbons of St. Paul Loses Decision to Billy Miska in Tenth Round

NEW YORK, Oct. 13.—Tom Gibbons of St. Paul, lost on a foul to Billy Miska, his fellow townsmen, in the 10th round of their scheduled 15 round bout which, Gibbons had been leading until the fight was stopped, when Miska claimed he had been struck low and could not continue.

The crowd gathered around the ring and some of the spectators shouted to Miska to continue. Gibbons walked to Miska's corner and Miska appeared to look to acknowledge Gibbons. Then the judge's decision was announced, and the crowd roared its disapproval. When Gibbons started toward his dressing room there was a round of applause.

In Lead on Points
Gibbons was far in the lead on points when the opposing manager, who had been appearing anxious throughout the fight, started to advance to the center of the ring and fell into a close exchange, both players for the moment. Gibbons stepped backward to get greater leverage with his right, and as he brought it down, Miska stepped forward and the blow to the Bill's groin. He dropped helplessly to the floor and Gibbons stepped away.

For a few seconds both the audience and referee, Ed McFarland, seemed amazed. Miska's face on the floor, his face wrinkling in evident agony, but it was some time before McFarland stepped over, and grabbing Miska by the shoulders, lifted him to his corner.

Displays Real Guts
In the preceding nine rounds of fighting, Gibbons emulated the noted shift work of his brother Mike, called the St. Paul phantom. He followed around with his hands and feet, constantly plunging back now and then to drive a left jab to the head or to hook both fists into Mike's body. Gibbons had landed ten blows to Miska's side, and the latter was not greatly weakened.

The craftiness of Gibbons made Miska appear all the slower. Even when Tom did not drop away, Bill called on his legs and arms to lacestrate at closer range. At times the crowd giggled at Mike's utter inability to place his fists on Gibbons' body.

Round One—Gibbons jabbed a hard left to the jaw. Miska rushed him to his corner and grabbing him tossed him along the ropes. Gibbons was bleeding from a cut on his head. Miska sent a smashing right to the face, then missed a right hook. Gibbons feinted and caught Miska a hard right to the jaw.

hands and backed Gibbons to the ropes.
Round Ten—They fell into a clinch and began an exchange closely, Miska dropped to the floor, and a foul fight. He set their nerves, mumbled and Kid McFarland, the referee, picked him up and carried him to his chair.

AGED FATHER DIES
ST. PAUL, Oct. 13.—Thomas Gibbons, Sr., father of Mike and Tom Gibbons, St. Paul's famous boxer, died at his home here today after a long illness. He was 73 years of age. Mr. Gibbons' death was without will after the Billy Miska-Tom Gibbons boxing match at New York tonight.

MANY GAMES SCHEDULED
Western Conference Football Gets Into Start with State Between Northwestern and Chicago

CHICAGO, Oct. 13.—Football will get a flying start in the western conference tomorrow with games between Northwestern and Chicago and Minnesota. The Indiana and Michigan football contests for the championship race.

ILLINOIS will open the season against Butler at Urbana, while Oberlin, which defeated Ohio State last year, will again face the Ohio team at Columbus. Purdue will take the field again with the strong Notre Dame team at La Fayette, while Wisconsin will play Boston College at Madison.

CHICAGO AND MINNESOTA are expected to triumph in their games, although they will face formidable opposition.

HARD GAMES LOOKED FOR.
NEW YORK, Oct. 13.—International games feature the eastern football card for tomorrow with the Yale and the Army-Alabama Poly contests, the outstanding clash. Pennsylvania will meet Maryland, while Pittsburgh and West Virginia play at Pittsburgh. In addition there are several strictly sectional games which promise to develop hard, close matches in the list of more than 40 contests scheduled for the east.

Oil Used in Days of Pliiny.
Petroleum has been known from ancient times. It was put to practical use as a fuel around the Caspian sea much earlier than elsewhere. Under the name of "Sicilian oil" it was burned in lamps in Rome in the days of Pliiny. It entered into use in the east in China centuries ago, and was discovered by the early settlers in America.

CAPTURES LIBERTY TROPHY
Buffalo Man in Army Plane Takes First Place Among Field of Nine Competitors in Aerial Race

MOUNT CLEMONS, Oct. 13.—In a race in which nine army planes participated, the winner having withdrawn at the last moment, Lieutenant J. J. Mott of Buffalo, N. Y., won the Liberty engine builders' trophy here today. Lieutenant Koenig piloted a Le Pore observation plane equipped with a 400 horsepower Liberty 12 motor over the 340-mile rectangular course at an average speed of 128.8 miles an hour.

Second place in the race went to Major Follitt Bradley of Chasville field, Hantoni, Ill., who piloted a De Havilland 4-11 observation plane, driven by a 400 horsepower Liberty 12 motor. Lieutenant W. L. Boyd of Pittsburgh, piloting a similar plane, was third.

"Hyphenated Americans."
It is claimed that the term "hyphenated Americans" dates prior to the year 1870, when John Boye O'Reilly applied it to a remnant of the old-time torjism which objected to the nation-wide celebration which took place that year.

Much in Little.
A baby will make love stronger, days shorter, night longer, hand-roller smaller, hose happier, clothes snabler, the past forgotten, and the future worth living for.—Office Topics.

HALL-MILLS CASE
(Continued from Page One)

given out after a family conference at the home of Mrs. Hall lasting more than an hour. It followed unofficial reports today that the investigating authorities intended again to question the restorers' widow.

When informed of Pfeiffer's letter to Governor Edwards, Joseph E. Stricker, Middlesex county prosecutor, said: "Any information Mr. Pfeiffer can procure about the case will be welcomed but at the same time I do not think it would be wise to take him or anybody else into my confidence in the investigation. I personally have not changed my mind as to the wisdom of that course."

Further Aid Welcomed
A. M. Beckman, Somerset county prosecutor, said that as far as he was concerned, he would be grateful for help in the case from either the state attorney general or anybody else.

Raymond Schneider, who accused Clifford Hayes of the double killing, was brought to New Brunswick late today and was locked in the Middlesex county jail on charges of perjury and impairing the morals of Pearl Bahner. He pleaded not guilty to the charge involving the girl and declined to enter a plea on the other accusation. County Judge Daly fixed bail on both charges at \$5,000.

What is useless to you may be valuable to others—advertise it in the classified columns.

TO INVESTIGATE PIERRE CHEYRENE Wyo. Oct. 13.—M. C. Wehrle, assistant federal prohibition director, for Wyoming, left Cheyenne for Cody tonight to investigate a three cornered fight reported to have taken place there last night with Town Marshal Harry Ward and Bruce Hodges the chief combatants.

"Ward" is reported to be in a hospital at Cody, suffering from a bullet wound in the leg, and Hodges, a federal prohibition officer working out of Cheyenne, is said to have sustained a fractured jaw in a "pitched battle" which followed an alleged attempt by Ward to arrest Hodges on charges of drunkenness, and disturbing the peace.

"Dandies" Among the Anolists.
According to a Greek writer, effeminate dandies in ancient Greece sometimes slept on beds of sponge. Fashionable people in Athens slept under coverlets of dressed peacock skin, with feathers on. Cushion of pink and purple supported their heads.

Metrio System.
As early as 1670 Abbe Gabriel Mouton, a Frenchman, proposed as a unit for length of arc of one minute of the earth's circumference. Later other Frenchmen developed the system and it has since been adopted by various nations in whole or in part.

"Cowboy."
The term "cowboy" first used during the American revolution, applied to a band of rascals who looted the western ground of Washington county, N. Y., stealing cattle from both parties and doing other mischief.

Many Public Charges.
In Mongolia the eldest son of each family must be a monk or head of which are in the nature of public charges. The lamas never work but depend on alms for his support. The town of Urga, with its 10,000 lamas is a veritable city of beggars.

Wonderful St. Anthony.
St. Anthony was the saint who could never be tempted. He was particularly famous from the blandishments of women. Usually when a man is referred to as a "modern St. Anthony" it is meant that he doesn't care about women.

Butter Queen of Fate.
Butter is better than many other common fats, particularly for little children. It has no higher fat value than the other fats, but it contains an abundance of a substance necessary for growth.

Nation of Snuff Takers.
The greatest snuff-taking country in the world is France, though it shows a decline in the habit.

Bulbs For Immediate Planting

A MODERN ADVENTURE

It was a daring venture that Christopher Columbus and his crew of fifty-two men set out on four hundred and thirty years ago.

On board with the captain was his wife and eight and three Chinese sailors. Their fragile craft ran into some bad seas, but they came through all right.

It was no new continent Captain Ward was discovering. His trip in the nature of a pleasure jaunt.

Now just what it is that makes Columbus' voyage so much more remarkable. It is not merely that he was the first to cross the Atlantic.

The mental attitude of Columbus and of Europeans of his day made the difference.

Handing did not know the world then. Captain Ward was aware what risks he was taking.

Columbus sailed across the ocean in spite of fear.

BO BUSINESS

There isn't much of gratification to the people as a whole in the news of a stock dividend by the Standard Oil company of New Jersey amounting to four hundred percent.

Shorn of all the technicalities of modern business it means that profits have piled up so fast that the capital now necessary for the operation of the business amounts to four times as much as it did to begin with.

In other words, the Standard Oil company of New Jersey, paying regular dividends in the ordinary way right along, has been enabled to set aside a surplus equal to four times as much as its entire operating capital.

We should never allow ourselves to become perfectly contented. This may seem strange advice, but it isn't.

Do you ever change your mind? The stubborn man seldom changes his.

Great minds are susceptible to change upon admission of proof.

Russian Priests Under Death Sentence

The Metropolitan Benjamin and the southern Bishop Trochon of the Old Greek Orthodox church, who formerly was recognized as supreme in the south.

Church Services

PRESBYTERIAN CHURCH. A. G. Pearson, Pastor. There will be no morning or evening worship in this church.

Lutheran Church. Third Ave. West and Fifth St. John Johnson, Pastor. 9:45 a. m., Sunday school. Lesson, "The Story of King Hezekiah."

Methodist. E. L. White, Pastor. Sunday school at 10 a. m.; E. L. Ashton, superintendent.

RADEBREDS

NEW YORK, Oct. 13 (AP)—Bradstreet forecast will say: "An increase of activity with a marked increase in strength in prices, especially of all textile fabrics; improve country buyers at large western distributive points; the arrival of long expected wool trade with stimulating effect on retail trade, particularly in the north and west; which tends to portend a year ago; continued growth in the volume of railroad business, an important indication of this direction; by close to record coal loading this week, and very active building with consequent good effects on buying of lumber, iron and steel, and other materials, and notably among the many favorable factors coming to hand this week. The main unfavorable element in regard to country trade is the evident growing stagnation of car supply, which is delaying lumber shipments from the Pacific Northwest and other finished steel mill, coal from the mines and crops from the farm to market. Weekly bank clearings were \$9,310,000,000."

JURY UPHOLDS CLAIMS FOR RECOVERY ON NOTES

Verdict Awards Judgment to M. J. Byrne and Against G. W. McKeon

Claim asserted by M. J. Byrne against George W. McKeon for recovery on account of two promissory notes in the aggregate amount of about \$2,000...

Defence in the case was based on the claim that the notes were given up along with the proceeds of a payment for a ranch in Lincoln county.

MUCH WORK

(Continued from Page One)

Proposed line from Wells north to the present terminus of about 18 miles, have been completed to an extent that approximate estimates of cost of construction can be computed.

Mr. Wolfley was most positive in his statements to us that trains would be in operation by next June over the Idaho Central between Wells and Riverside, the townships which he is operating the new line over.

On the other hand, we were advised by Mr. Wolfley and his associates had taken no steps to establish credit there, and among the principal business men we interviewed, there was an absence of conviction that the proposed line would be prosecuted with entire purpose to complete the road, although there was indicated a desire to see the road built.

The report and recommendations of the chamber of commerce officials together with the detailed report on the engineering phases of the investigation will be laid before the Chamber of Commerce railroad bureau at an early meeting.

REAL ESTATE TRANSFERS

Furnished by the Twin Falls Title and Abstract Company

Thursday, October 12. O. P. Wertsbaug to F. W. Doada, 4100 lot 1, block 2, Turner's addition to Kimberly.

Extreme Economy. A neighbor had some dental work done. While the filling was being placed the tooth fell out, causing him nervousness and annoyance.

Surgeon's Penalties. In the ancient days of Mesopotamia the surgeons were discouraged from making rash operations: If the patient died the surgeon had to lose one of his eyes.

Malina's Rebuke. Malina was asked what Chester came over to play with her, but was surprised when she saw he was all dressed in his best clothes, and after looking him over from head to foot, she asked severely: "Why, Chester, for why you wear your Sunday clothes on week days?"

First Woman to Join Union. The first woman to join the A. F. of L. trade union composed of men is believed to have been Miss Mary Baker, who in the late sixties was unanimously elected to membership in the Chicago branch of the International Typographical union.

A few eggs a day keeps the bill collector away—n-s-g. Blatchford's Egg Mash.

'POP BOTTLE' MYSTERY SOLVED

At the head of the section between the New York, Nevada, and St. Louis divisions that determined the American League's championship in St. Louis, Whitey Ford, of the Yankees, once was knocked out by a pop bottle, most fans thinking it was thrown by a St. Louis roofer, James P. Kim saw the incident and reported that Whitey, running at full speed, stepped on the neck of a bottle that was lying in the outfield and that it flew up and hit him in the head.

Next the Heart. The left hand in France is universally regarded as that "of the heart" and is reserved for relatives and intimate friends and those toward whom the grater is unusually well disposed.

Preserving Balance. In adversity be splitless and firm, and with cool prudence reason your way when filled with a too sudden gale of property—Horse.
