POLICE DIG FOR BODIES OF BABIES

Woman Accused of Murder of Twins Declares Supposed Offspring Consisted of Pair of Well-Made Dolls

HAMMOND, Ind., Oct. 17 (AP)—Police today began digging in the yard of the home of Frank McNally, 56 years old, husband of Mrs. Hazel McNally, 32, in an attempt to solve the mystery that revolves around the twins which McNally declared were born to his wife on December 8 and disappeared. He declared they had been buried in the ground near his home, a small farm in rural Indiana, and denied that the children were born.

In a statement to reporters, Mrs. McNally stated that she supposed twins were born two days before the birth being arranged; she added, "because of her husband's desire to be known in the world as the father of twins."

McNally said he believed that he was injured in testifying that he had seen his twins and fainted when

The police tonight said that so far their digging had revealed nothing.

Now Through Advertisement

Mrs. McNally declared she met her husband through an advertisement and she had been previously married, having a boy seven years old. After her marriage to McNally she said her husband repeatedly expressed a desire to become a parent and they made an attempt to adopt a child.

"Finally," she added, "his desire to pose before the world as a father became acute, we were convinced that we must have a child, and I agreed to undergo the operation, notwithstanding that I was soon to be married to another man."

McNally said that therefore she and her husband became estranged.

The husband, who had his wife's story published in a newspaper, went away with his children without telling that he had watched the twins as they were buried by the mother.

EXPERIMENT SUCCESSFUL

Airplane Minus Landing Gear Brought "Safe to Earth" by Army Man at Saltbridge Field

MOUNTAIN VIEW, Calif., Oct. 17 (AP)—An airplane without landing gear seems to catch safely today at Saltbridge field in an official army test to determine whether such landings were practical.

Lieutenant H. E. Johnson in a speedy plane rose to a height of several hundred feet, tucked away his retractable landing gear and then glided down to earth, coming to a stop within 100 yards. The machine was not damaged.

Further tests at gradually increased speed are to be made to determine how fast a plane may land in this manner without danger.

VACUUM CONCERN WILL CUT MELON

Stockholders to Pass on Issue of Dividend as Means of Capital Addition

NEW YORK, Oct. 17 (AP)—A meeting of stockholders of the Vacuum Oil company, one of the Standard Oil group, will be held December 5, directors announced today, to vote on the proposed increase of the capital stock from \$15,000,000 to \$17,500,000. The present value of the stock will be changed from \$100 to \$85 a share.

The remainder of the authorized increase in capital will be held in the treasury, which an annual audit of employees would be made to the extent required in fulfillment of a plan to come up for approval later.

An official statement issued by the company said:

"The assets of the company are greater in excess of the par value of the present capital. Therefore, the directors consider the proposed increase in capital advisable."

A declaration of a \$300 per share stock dividend and a cash dividend value to \$25 per share will be exchanged for 10 percent stock. Payment of the dividend will require the distribution of \$45,000,000 stock and with the present \$15,000,000 outstanding, will make the total issued capital \$60,000,000. This will have to be capitalized, but undivided in the treasury.

ALLEGED WOMAN PONZI HELD FOR TRIAL

OFFERS PLEDGE OF UNION LABOR TO LEGION MEN

Samuel Gompers Assures Convention of Faith of Followers in Principles Maintained by Service Men

NEW ORLEANS, Oct. 17 (AP)—The American Legion in annual convention here today heard Samuel Gompers, president of the American Federation of Labor, pledge anew the faith of union labor, that its support was always behind the government and upholding the hands of those who fought for the maintenance of American principles.

It received the foliation of wounded veterans of European nations who came here last week to attend the convention of the Inter-Aid Veterans organization. The work is being conducted in behalf of wounded men and disabled veterans.

It was pointed out by representatives of the veterans of earlier wars as to the uprightness of the principles they fought to uphold. The heads of the Spanish war veterans, the grand army of the republic and confederate veterans brought their highest regard and God speed to the Legion.

With an "unexpectedness" that left many delegates to the convention hardly realizing what had happened, the report of the committee on time and place for holding the next national convention brought in its report regarding the convention to San Francisco, New Jersey, which had been chosen the convention for Atlantic City, led off in a movement which made rapidification of the committee's choice for the convention city unanimous.

Buddies Well Received

Brilliant summer weather continued to add gaiety and zest to the convention and the "buddies" have taken the town, the customarily friendly and the good-natured veterans have taken to them as kindly as they to it.

This afternoon the veterans and their women folk scattered to various entertainment divided for their amusement. Tomorrow the annual parade of the Legion will lead the convention of the American Legion auxiliary got under way in earnest today, to start and a brief session yesterday.

A feature of tomorrow's session of the convention will be an address by Kansan M. Landa, fed to alackers when he served as federal district judge in Chicago during the war. Mr. Landa, now supreme commissioner of the state of Kansas, received an impromptu reception of great enthusiasm last night when he reached New Orleans.

Upset Campaign Plan

Persons who have been following the campaigns of various candidates for national office in the Legion have declared that the early selection of San Francisco as the convention city had proved a surprise to those who had expected to give preference to their candidates in exchange for votes for San Francisco for the convention.

Harold MacNider, national committee of the legion, said he was surprised by the announcement, "that all for today. Tomorrow at 10 o'clock we convene and then the first work starts."

MacNider Remains Silent

Mr. MacNider smilingly declined to amplify his prediction of "fireworks" or to say whether he expected the induction into the deliberations of the convention of issues which, heretofore have made no public appearance during the convention sessions. These questions are under consideration of a possible signal by half of resolutions passed by the convention of the Legion members of common.

In all political quarters in London today there was a state of feverish activity, meetings and consultations occupying the entire day. The prime minster of Great Britain and his cabinet, presiding this evening over a large meeting of liberal ministers, under secretaries, party whips and others.

No reports of the proceedings has been made but it is believed that Lloyd George desired to assert his power he could still depend upon the liberal wing of the coalition in the coming developments and in the event of the conservative revolt against his leadership proving dangerous.

Conservative Weakening

On the other hand the conservatives at the last moment will recoil before the prospect of breaking with Mr. Lloyd George, who steadily retains the support of most Britons, and that the latter may secure a majority. At the same time the Conservative party, which should the Conservative gathering vote against Mr. Lloyd George, is in a critical position.

MacNider, however, attaches

importance to a third letter in which he found: "Honey, I was needed

you as only you know, but he was here and so I said not to come."

O'Dwyer Stopped but Questioned

According to Attorney Pfeiffer, regarding O'Dwyer's conduct at the meeting of the Conservative minority at the British Embassy, he said that he had been hunting deer in Canada.

EDUCATORS OF SOVIET RUSSIA IN BAD PLIGHT

Exile of Many of These to Northern Districts Regarded as Possible Forerunner of Wholesale Action

MOSCOW, Oct. 17 (UPI)—The Soviet government's recent action in calling abroad or "Northern Russia" educators, publishers and journalists who were unable to reconcile themselves to the soviet regime, came like a bolt out of the blue and has left thousands of others of the "intelligentsia" wondering their turn will come next.

For many months, since the development of free trade and the opening of ports to foreign manufacturers, it has been evident both to opponents of the government and to the communists themselves, that thousands of Russians were beginning toforget they were in the hands of a proletarian dictatorship, and were beginning to come as "bourgeoisie" as ever. Thinking that the new freedom of travel abroad from fear of political, also scores of college professors and some organizations of professional men began to talk, write and think freely again. The more timid did this secretly, while some plucked up enough courage to lampoon the government's new openly, pamphlets and, in the class room. One group of college professors even dared to strike strikes—implying prompt punishment in Russia.

Back Movement Stopped

Premier Lenin, openly announced last spring, that the retreat toward capitalism had reached its limits, and both the Genet and Hage conferences established that the Soviet Government was standing pat on the main principle of the proletarian dictatorship, even if it was inclined to tolerate some elements of capitalist foreign governments here and there. Within Russia, however, such leeway continued to be allowed to speculators. Gambling casinos were opened, racing flourished, and so many new commercial undertakings were launched that very few Russians realized that the communists, justly delighted that the capitalist system had collapsed, had not only the pendulum having swung so far to the right, now had to be swung back to the left until the Soviet clock kept proper time.

Communists explain that—long as efforts of individuals however prodded to them—such developments, immediately or potentially advantageous to the government in its scheme of reconstructing Russia, these individuals are to be given wide scope in freedom from interference. But when the work of the individual does not fit into this general scheme, or when an individual acts against the government, then his punishes are cut short and the offender punishes.

From Main Point

The recent decision of exile, says the newspaper, Pravda, are only the first warnings to the intellectuals who remain. The Soviet government will, as in the past, value highly the support of those representatives of the old "intelligentsia" who will loyally work with the government, as the better part of the specialists. And, while it will as far as possible attempt to utilize the legal possibilities for an opto or strict simple against the government and for the restoration of a "bourgeoisie regime."

"There is no hope for a return to the past," the Pravda warns.

Lower California Cattle.

In addition to cattle, many excellent miles are raised in Lower California. Horses are rarely used. The beautiful burro is the principal means of transportation. Except for a few thousand cattle, there are few domestic sheep in the country. In the north, there are numerous herds of goats. The largest cattle ranch on the peninsula comprises at least 1,000,000 acres.

MEXICAN TREASURER SAILS FOR EUROPE

DOCUMENTS ARE OF LURID KIND

Barrels of Literature Will Fig ure in Trial of Alleged Communists Taken in Raid

ST. JOSEPH, Mich., Oct. 17 (UPI)—Twenty-one alleged communists, arrested as a result of a raid on a meeting held in the sand hills twenty miles south of here last August, will be arraigned here soon, charged with violating the Michigan anti-syndical law.

Among the prisoners are W. Z. Foster, leader of the 1919 steel strike; Charles Eisingberg, secretary of the Workers Party, legal branch of the American Communist organization in this country, and William F. Dunn, Workers Party candidate for governor of New York. Foster has denied he attended the meeting.

Barrels of communist literature, documents and manuscripts will be presented to court by O. J. Smith, assistant attorney general of Michigan, who is in charge of the prosecution. When Sheriff Bridgeman, his deputies and federal agents, swooped down on the meeting in the early hours of August 23 all of the paraphernalia of the alleged national Committee—completely had disappeared, but—curiously enough—several barrels in the woods led the sheriff to the spot and four typewriters, a duplicating machine, a half dozen leather brief cases, between seventy and eighty portfolios of paper, piles of printed matter and stationery and other alleged Communist property were recovered.

Federal Men Busy

Federal agents, specialists in radical matters, have been working for weeks at the jail here classifying the documents and questioning eleven of the prisoners who were unable to identify the \$100,000 "bombs" found.

The Communist party of America, according to its program and constitution, dozens of copies of which were seized, is an "underground, illegal organization" officially representing the Russian Soviets in this country, and formed for the purpose of "systematically and persistently propagating the idea of the inevitability of and necessity for violent revolution."

"By the use of force," the program says, the proletariat, will destroy "the machinery of the bourgeois state and establish a proletarian dictatorship based on Soviet power."

Under the sub-head of Mass Action, the program says:

Militant Methods Advised.

"The revolutionary epoch upon which the world has now entered forces the proletariat to resort to militant methods—militant strikes, strikes in armed struggle and civil war. Mass action is the proletarian revolt against the oppression of the capitalist class. It develops from spontaneous activities of the workers massed in large industries. Among the initial manifestations are mass strikes and mass demonstrations."

While the defendants have declined to make public the names of 70 or 80 delegates who attended the secret conference in the woods, it has been reported that one of the delegates was an emissary from Moscow and had arrived in the United States only a few days before the conference.

Sixteen men were arrested in the midnight raid. Foster and two others were extraded from Chicago, and two more were arrested in New York. The defendants, with the exception of Foster, will be represented by Sybrand Wesseling of Grand Rapids. Foster has retained Clarence Darrow, well known Chicago labor attorney, to defend him.

What You Waste in Youth, Must Be Worked For in Old Age

Christianity in youth means ease and comfort in old age. Wasteless in youth may mean less in old age. Wasteless in the days when

the shadow lengthens.

Youth is the time for pleasure but a sensible regular savings plan should also be provided for. In the young man's budget, proper allowances can be made both for amusements and pleasure, and for saving.

Even a small amount, deducted from the weekly wage envelope, and put aside in the savings account, will accumulate through the weeks and months and years into a substantial emergency fund. This Bank helps thirty seven thousand families every year by paying 4 per cent interest on all savings accounts, subject to usual regulations. One dollar a year opens an interest bearing savings account.

PENDLETON TO BE OPPONENTS

East Oregon Football Squad to Play Local High School Team on Armistice Day

The cat is out of the bag. Twin Falls high school football team has found an opponent for Armistice Day.

Pendleton, Oregon, high school football squad will be the visitors on that day. This high school team has enjoyed a wonderful record thus far this season and has had the reputation of being one of the toughest teams in that state.

The local student body tried to get East High of Salt Lake back again for this year's Soldier day, but the annual East and West high game is scheduled for November 1st and the fall schedule of Utah State will now have no opportunity to see how they teach football in Oregon.

When asked about the coming game, Coach Evans stated that he had tried to get a Salt Lake team here for November 1st, but that the other schools in the high school going as far as the coast for an opponent. When he heard what the Pendleton team had done thus far, he immediately got in touch with the faculty at that end and arrangements were completed Tuesday.

The student body and Coach Evans are to be congratulated on their efforts in getting such a classy team to this section for Armistice Day. The American Legion asked that during that day's game the two schools play a regular football game with a bunch of new faces as opponents, and from all indications it looks as though the high school student body has fulfilled their wishes.

BOXING IS OFF IN DENVER

Supreme Court Decides Against Manly Art After So-Called Prize Fight Is Staged

DENVER, Colo., Oct. 17. (AP) - No more boxing bouts in Denver, Colo., last night's battle between Joe Walling and Jimmy Hanlon, was the editor of District Attorney Phillip Van Cleave this afternoon.

"Local fight exhibitions will have to be discontinued, he said, under a recent ruling of the Colorado state supreme court." The decision, handed down in a case involving Jack Hammer and John Corbett, local fight promoters, held that a bout staged at the stock yards stadium here two years ago was a "prize fight," which naturally means that the good light team will resort to open formations and forward passes in preference to taking a chance at direct attacks, such as the old high school contests.

As a result of the announcement, the Denver athletic clubs will stage an amateur tournament, in which hundreds of youthful aspirants for ring honors participate, will be forced to pay a city license fee of \$1,000. Van Cleave declared the amateur tournament could not legally be denominated a "prize fight" and would be permitted if the city fee is paid.

NEWS ROUTE CARRIERS WANT FOOTBALL GAME

Stars in Embryo Willing to Stake Their Reputation Against Any Team in the City

The News route carriers football team has a hat in the ring, and will play any team in this section under 16 years of age.

The team is captained by Russell Potter, and said Russell is anxious to get an opponent.

Any communication addressed to the sports department of The News will be forwarded to the carrier football team or its captain, Russell Potter, who is the opponent for The News' Squad.

Every member of the team is a bona fide member of The News delivery service, and it is the team in the city that stands ready to take the entire list of amateur football stars together and compete against the carriers.

Classified advertising is the cheapest thing you can buy—assured to bring you.

PUNTS AND PASSES

By FULLBACK

Each scrummage was the dith served to the local high school football team last evening at Lincoln field.

All members of the squad except the exception of "Pat" Flynn,

who is at home with a bum ear, will be out in harness tomorrow which means that additional pop will be shown.

Expect will be high Friday, and to

say that they are the possible can of this section is putting it mildly.

In looking over the dope it is found that Rupert won a decisive victory over Buell by a score of 27 to 0, by

winning forward passes with codes of 100 to 77, and that they

Rupert were unable to do anything with their forward passes. Fifteen of them were attempted and not one was

caught until the latter part of the game.

Then the Burley-Rupert game of last Friday showed that Rupert had discarded its method of attack and went to straight football, holding the heavy Burley team in check at all times, and not allowing them to make yardage runs until the latter part of the game.

Now that is all right. Is Rupert

a team that has two methods of attack?

Are they so good on the line that

Burley can't stand up to them?

WOULD COMPEL INVESTIGATION OF DIVIDENDS

Wisconsin Congressman Suggests to Secretary Mellon That Stock Distribution Plan Be Looked Into

WASHINGTON, Oct. 17 (AP)—Offices reports that the Standard Oil company of New Jersey had declared a 400 per cent stock dividend. Representative John J. La Guardia, republican member of the house committee on banks and currencies, asked Secretary Mellon yesterday if the treasury had invoked section 220 of the 1921 revenue act, which provides methods for reducing holders of surplus when held for corporate profit-making taxation.

Mr. Frear also wrote the secretary that according to newspaper accounts subsidiary members of the Standard Oil company were declaring various stock dividends and that the United States Steel corporation "will take the same course." He said he believed that at several hundred million dollars.

In making public his letter to the secretary, Mr. Frear announced in a statement that in the next Congress he would make a fight to make all income tax laws more equitable, adding that those were the only changes in government record now, next year, he has.

Some campaigning will be required, Mr. Frear said, to change the present law. "It may not get far during the short session," he added. "But it is certain to be a live issue in the sixtieth congress."

Possible Heavy Loss

"It is possible," Mr. Frear declared, "that a disclosure of secret tax reports held by the treasury, will show that over \$200,000,000, and possibly several times \$200,000,000, is being lost to the government annually through unearned executive stock dividends and other expense allowances known to large taxpayers, that should be collected."

President Harding, said Mr. Frear, sought to tax reach tax-free securities by constitutional amendment, but for some reason it was never introduced and never passed the house.

Consequently, he declared, there was responsible for failure to pass corrective legislation.

"If the income tax is right in principle, by taxing income, according to ability to pay, through brackets and taxes," Mr. Frear declared, "then the law should be enforced equitably. In other words, if the Rockefellers, for example, with a reported income of a million dollars a day, place their blindfold and give it to the Lavers, who have incomes in the Lavers' case, higher than the day evening. It was the largest audience that has assembled at a political gathering in the campaign here this year."

County Candidates on Stage.

County candidates on the democratic ticket for the state legislature in the second state on the platform were introduced by E. J. Flinch, chairman of the democratic county committee, after Mrs. I. H. Masters had opened the meeting with the song "America" and Dr. Harry Davis had followed, in a slogan parody, to the tune of "Babylon."

Quoting figures with the rapidity of machine gun fire, Mr. Alexander puns addressed his audience with frequent quips and salutes the expense of his political opponents and drew rounds of admiration from his audience.

Drews Humorous Conclusions.

Speaking on necessity for the office of commissioner of immigration, labor and statistics, Mr. Alexander told his audience that during the past few years no immigrants had come to Idaho, but there seemed to be need for a "hard-wire" commissioner to keep the population now here.

He concluded with the assertion that "for the first time in the history of the state the lieutenant governor draws a salary of \$1250 a year," to the conclusion that the responsibility devolved upon the legislature and governor and more particularly Governor Davis.

Gov. Davis, Governor G. O. McRae, whom he characterized as "Idaho's Gold Dust Twin."

Doubled Deficit.

Mr. Alexander denied that a deficit existed in the state treasury at the close of his second administration. He cited figures provided by the state auditor showing a balance in the general fund of the state amounting to

Photo by the Associated Press

MILLIONS WILL BE SAVED WHEN HE IS ELECTED

M. Alexander, Democratic Candidate for Governor, Entertains Audience in His Own Imitable Style

Defending his own administration, denouncing the "cabaret form of government" established by his successor, and giving statistics on the number of state officials and saving of "millions of dollars in taxes," Mose Alexander of Boise, twice elected governor of Idaho and again the candidate of the democratic party for that office, addressed his audience here yesterday evening.

The income tax is right in principle, by taxing income, according to ability to pay, through brackets and taxes," Mr. Alexander declared, "then the law should yield an annual income of about \$15,000,000 or more, while his daily income of \$30,000 is several times the amount necessary to meet the expenses of the treasury. When Mr. Mellon received himself of the same amount of income tax escape as Mr. Rockefeller, is only known to the secretary of the treasury who has the records, and what is true of Mr. Rockefeller and Secretary Mellon is not known to me. The 100 individual income tax payers whose annual incomes are exposed to run from \$50,000 to \$150,000 each, if correct should be to be had. These all are kept secret today."

GLASS OF SALTS CLEANS KIDNEYS

If Your Kidneys Hurt or Bladder Bothers You, Drink Lots of Water

When your kidneys hurt and your back feels sore, drink lots of water and you'll feel better. This drink, which is good for the kidneys, is made of salt water, and it will help to cleanse the kidneys, and stimulate the entire urinary tract. Keep your kidneys clean like you keep your bowel clean, by flushing them with a mild, harmless salts which helps to remove the body's wastes waste and stimulate them to their normal activity. The best way to cleanse your kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much water, and you can get from any pharmacist four ounces of Salt Salts; take a tablespoonful in a glass of water before breakfast; eat morning for a few days and your kidneys may then act fine. This famous salts is made from the ash of green seaweed, and it is good for the kidneys, and has been used for generations to cleanse and stimulate clogged kidneys; also to neutralize the salts in urine so it is no longer a source of irritation, thus often ending bladder weakness.

Smyrna Rescue Ship Reaches New York

Bringing stories of terrible privations the U. S. S. shipping board steamer Winona, commanded by Captain Jack M. Walters, has arrived in New York from Smyrna, where it saved 1300 ref-

ugees before the officers were forced lone and his hands full feeding the refugees on the way to Piraeus and from her being "swamped." The patients were moved to the captain's tears when he told them: "Chief Edward J. J. Mc-

Whitney was present, Smyrna which is owned by E. G. Oliver.

Judge Learned Hand, who has been used in temporary cases in the admiralty, with the explanation that the amount credited included money paid insurance policies covering the soldiers' home and Lawton Normal school which had been damaged by fire.

Finds Causes for Failures.

Mrs. F. P. McAtee, entertained at a luncheon given by the National League of Women Voters in honor of Mrs. H. C. Miller, Tuesday, the 16th, in the salaried paid the commissioners of public finance. He questioned the necessity of gallardias with trailing vines over the cover. At either end of the table crystal candlesticks were placed containing yellow candles. Bridge followed, and then the dinner, P. G. Costello winning the favor for high score and Mrs. Miller received a large guest prize. The guests numbered ten and were all ladies of Mrs. McAtee's neighborhood and close friends of the honored guest. Mrs. I. B. Perrin and Mrs. Morgan G. Heap assisted the hostess.

He declared for adoption of a guaranteed law, direct primary and other provisions of the democratic platform.

VETERANS BUREAU WILL WORK AMONG HOSPITALS

Compensation Representative to be Commissioneated at Each Institution with 100 or More Soldier Patients.

POCATELLO, Oct. 17.—A special compensation representative of the United States veterans bureau will be stationed permanently in every government hospital in the Pacific northwest with 100 or more disabled veterans and patients, according to Springer F. E. Price, director of the bureau. The bureau has been making its headquarters in the city since last summer, in an announcement made today.

This government agent will hear claims and grievances of the hospitalized veterans and assist them in preparing their claims.

Patients of Veterans' hospitals in Tacoma, Port Gamble, Walla Walla and Boise are affected by this new ruling. In the past the Seattle district office of the bureau has sent out a contact man from time to time to survey compensation claim cases and to advise the hospital managers of the total of approximately 600 hospitalized veterans will hereafter have a compensation representative close at hand to assist them in handling their respective cases with the government.

Medical heads of the hospitals and the northeast district manager of the bureau made the hospital contact representative.

The Nile River.

So far only the upper and lower courses of the Nile river are navigable throughout the entire year. The entire course, which extend 1,100 miles, with long stretches of smooth water between them, prevent the Middle Nile from being available for important navigation except at very high flood.

new guardian is Miss Jeannine Neal. The court, in denying the contention of his opponents that serious damage to the steamship lines would be caused by the enforcement of the Daugherty ruling before a final decision, declared that the government had been very courteous in the matter and had gone to great lengths to avoid embarrassment to the shipowners.

Ship Are Tramptory

Mr. Haynes closed the case for the government, arguing that the court constituted "territory of the United States" in the meaning of the federal prohibition act, quoting British legal opinion to support his contention. The federal prohibition amendment, he declared, was meant to cover every territory under the jurisdiction of the United States, with the largest possible interpretation of jurisdiction.

The American lines, were represented by Cleon Keating and Field L. Carr, who declared that a decision unfavorable to them would mean irreparable damage to the lines and to American shipping.

THE MARKETS

CHICAGO GRAIN MARKET.

CHICAGO, Oct. 17. (AP)—It was a bull market in wheat today, due to standing temporary setbacks due to a reduced output of corn, which foreign buyers had failed to provide for their December and January requirements and were just starting out to do so. The market closed strong 11¢ to 14¢ net higher, with futures \$4.25 to 5¢ lighter weights up to 67.50¢.

WHEAT—\$14; feeders fully 25¢ higher; 1250 Montana 55-pound lambs \$14.25; 1000 feeders 114.75 to 15¢; sheep 25¢ to 5¢ higher; hogs 25¢ to 5¢ lighter weights up to 67.50¢.

NEW YORK BONNED.—NEW YORK, Oct. 17. (AP)—Liberty bonds closed: 1 1/2% 100.75;

Second 4% 99.10;

Fourth 4 1/4% 99.15;

Third 4 1/4% 99.25;

Fifth 4 1/4% 99.24;

Fourth 4 1/4% (uncalled) 100.10;

Second 4% (uncalled) 100.20;

U. S. government 4 1/4% 100.00;

and 3 1/4% 100.10; 1 1/2% 22.50;

1 1/2% 15.8 to 3.4¢. Bonds:

100.00.

NEW YORK STOCK MARKET.

NEW YORK, Oct. 17. (AP)—The sensational advance in Mexican Petroleum, which touched \$228 a share, was the noteworthy feature in today's stock market. The rest was in the money market. The commercial paper market was:

Buying of Mexican Petroleum, and Pan-American issues accompanied reports of an increase of the rail dividend, the latest an early announcement of a new haul of exchange of Mexican Petroleum shares for Pan-American stocks.

The more urgent buying of sterling exchange was a feature of the foreign exchange market. Demand bills being quoted around \$44.42. A drop in the price of bar silver resulted in a depreciation in the Commodity Committee of both companies, dealers in silver action along that line had yet been taken, although the subject had been frequently discussed. The rapid rise of Mexican Petroleum in the last hour was undoubtedly a "run" in the buying side.

During struggles to get back wheat which had been let go of earlier, there was little offering because apparently and through lack of information, the day before, the advance of prices took place. December wheat here showed more strength than May, and houses with export and cash connections bought December at Kansas City and St. Louis, the latter market going to a premium of 10¢. The market, however, was in a panic, it is the moment point attained in many weeks.

All deliveries of corn reached highest level yet for the 1922 crop. Smallest of corn receipts here gave an advanced 10¢ to 15¢, the market taking a decided advance in a day.

Provisions were firm in accordance with hog values.

CHICAGO POTATO MARKET.

CHICAGO, Oct. 17. (P)—Potatoes receipts 1000 tons; car load Shippers, round white, sacks \$1.00; round white, No. 1, \$1.05 cwt.; Wisconsin round, white, bulk, 90¢ to 95¢ cwt.; Minnesota round white sacks \$1.00 cwt.; 1.05 cwt.; Minnesota sacked Red Silver Ohio \$1.00 and \$1.15 cwt.; North Dakota sacked \$1.00 cwt.; Idaho Early Idaho \$1.00 and 1.10 cwt.
