FOREIGN POLICY EXCEEDS HOPES OF ITS MAKERS

Secretary Hughes Tells Boston Audience Administration Will Help But Not Fetter American Independence

BOSTON, Oct. 30 (AP)—A foreign policy of independence and good understanding without antagonism was the main theme of Secretary Hughes' address at the state department in an address at Symphony hall tonight, reviewing the record of the Harding administration.

By the aid, it took in the arms conference, the secretary said, and by its efforts, toward, harmony among the nations of the western hemisphere, the American government during the past twenty months has set a record of accomplishment far beyond what was expected of it when the new administration came into power.

Ready With Helping Hand. So far as Europe is concerned, Mr. Hughes declared, President Harding and his advisers always have been ready to lend a helping hand where it would do the most good, but are not willing to fritter away the influence of the United States by intervention in the domestic affairs of other nations.

The chief trouble at this time in Europe," he continued, "is that the great powers have not been able to select an adequate machinery for being distinctly European questions, directly concern them and their want of agreement has led to the selection of a more international policy. For us, international cooperation does not mean that we should surrender ourselves to the whims of others not involving our own interests."

The secretary added that he believed a way might be found for the United States to participate formally in the selection of a more international organization of nations, a project which from the first had been the emphasis of his government. He declared that already in a humanitarian way and through the channels of trade, the United States really giving aid to the European situation, regarding the armistice agreements as meaning "the rescue of the world from despair."

Among the other accomplishments reviewed by Mr. Hughes as a part of the constructive program of the administration, were the negotiation of a peace treaty with Germany, the Hay agreement protecting American interests in the mid-Atlantic islands of the Pacific, the reorganization of Cuba's finances, the Havana-Artes agreement between Chile and Peru, the calling of a conference here of Central American republics, and the abolition of Haiti and Santo Domingo.

Explains Mexican Border. Toward the people of Mexico the secretary said, the United States entertains only the friendliest sentiments, although it is unwilling to recognize any Mexican internal policy based upon satisfactory measures against foreigners. He alluded also to the Near Eastern situation, regarding the Hay agreement between Chile and Peru, the calling of a conference here of Central American republics, and the abolition of Haiti and Santo Domingo.

FALL IN PRICES PREVENTED BY EMERGENCY ACT

Tariff Commission Reports "Definite Results" Found as to Duties Applied to Wool, Wheat and Sugar

WASHINGTON, Oct. 30 (AP)—The emergency tariff law, according to a formal statement on its general effects made public tonight by the tariff commission, has prevented a "fall in prices" as might otherwise have come, rather than to increase the value of the 30 commodities covered.

"The law seems to have assisted in following the acute depression" in the wool market, according to the statement, which adds that its effect there was largely in removing a strained credit situation and in cutting out the use of domestic rather than imported stocks.

"The duty of 35 cents a bushel on wheat," says the statement, "seems to have had the effect of holding up the northern spring wheat produced in the upper Mississippi and Missouri valleys in competition with Canadian wheat of the same quality. Large quantities of other varieties of wheat are exported from this country, therefore an import duty has little effect upon the domestic market.

Outstanding Features of the sugar and the surplus of 1921, the surplus of raws in Cuba. This amounted to nearly one-half million tons. The surplus, upon the completion and a serious effect on prices. A drop of five cents per pound for Cuban raw sugar in December, he emphasized the whole sugar trade and led to strong pressure for an increase in sugar duties.

Effect on Cattle Uncertain. "The effect of the duties on cattle, beef and veal are not certain. There is some indication that Chicago prices of cattle declined last year, but the domestic prices of practically the same grade after the enactment of the law.

Rules Against Candidate. The seven cents per pound duty on long staple cotton had no effect on the bulk of the cotton crop in this country, but it steadied the market for the decline in long staple or Egyptian type cotton produced in the irrigated regions of the southwest."

COMPETITION KEEN FOR UNIVERSITY LIVESTOCK

Hampshire Flock of Mrs. Minnie Miller to Enter Against State School's Herd

UNIVERSITY OF IDAHO, Moscow, Oct. 30.—The University of Idaho college of agriculture is sending four carloads of livestock to the Western Live Stock show at Spokane.

Particular care has been exercised to put the university herd in the best possible shape for the coming show. Some of the animals will be sent also to the Pacific International show at Portland.

What is useless to you may be valuable to others—advertise it in the classified columns.

October 28 to November 3, according to Dean E. J. Iddings. The university exhibit consists of one car of Holsteins and Jersey dairy cattle, including Matador, the university's grand champion bull of last year's show; two cars of best cattle, including pure bred Hereford shorthorn and bull calves and one car of sheep especially fitted for the fall show.

Advance information received at the office of Dean Iddings indicates that approximately 4000 head of live stock will be exhibited. This will result in unusually keen competition in all classes.

IDAHO FARMERS SAVED

From Blighting Foreign Competition By the Republican Tariff

American markets are now safeguarded for the American farmer. Keep Idaho in line with the Party of Prosperity—the party that has always brought its country safely out of periods of depression.

Senator Simmons prominent southern Democrat said in discussing the Republican tariff:

This bill will make Idaho the richest state in the union in 10 years

Idaho must uphold the hands of the administration and keep its Republican congressmen in a Republican congress.

Passage first of the emergency tariff, and now the permanent tariff, means much for the farmer. Farm products have shown marked advances in many lines. Some of these are:

Table with 2 columns: 'MORE FOR' and 'FOR MOORE'. Lists various farm products like dairy products, butter, milk, eggs, wool, sugar, hay, and leather.

Mr. Farmer, Stockraiser and Taxpayer, study this list carefully. You will readily see that the Republican party has served the citizens of Idaho well during the past few months with the tariff scheduled hereinafter set forth.

Democratic free trade measure. All these products on free list two years ago and you had no protection. Your protection now under the Republican Protective Tariff Act passed last month.

Table listing various agricultural products and their prices, such as WHEAT, EGGS, CORN, BEEF, VEAL, MUTTON, PORK, BACON, MILK, CREAM, POTATOES, CATTLE, SHEEP, ALFALFA, ALSIKE CLOVER SEED, RED CLOVER SEED, WHITE CLOVER SEED, WOOL.

A year ago you were receiving twenty-five cents for your butterfat. This week the farmers of Gooding County were paid forty-six cents.

A year or two ago you could not give your hay away there was no market for wool. Now wool is bringing a good price and the farmer is getting good price for his hay.

You are getting the benefit. It is to your interest and personal benefit that all the offices in both county and state should be filled by Republicans.

INDUSTRY USES OWN RESOURCES FOR EXPANSION

Productive Activity Increases to Marked Degree in Past Six Months; Slight Advance in Bank Credit Use

SAN FRANCISCO, Oct. 30.—Productive activity has increased notably during the past six months in all the major industries in the Twelfth federal reserve district, according to a report issued here today by John Fortin, federal reserve agent. There has been only a slight increase in the use of bank credit for commercial purposes, Mr. Fortin said.

Total loans and discounts of reporting member banks in the larger cities have increased \$25,218,000, or 6.7 per cent, since February 1, when the low point of the year \$218,107,000, was reached. Of this amount, \$10,000,000 with the federal reserve bank on October 9, were near the lowest levels of the year. Recently their holdings on the part of the member banks in the country banks, as a group, have borrowed only in small amounts during the current crop moving season. On October 1, the federal reserve bank had declined to \$24,678,000, the smallest figure since member banks began to reduce their borrowings in December, 1920.

Interest rates in the principal banking centers were generally unchanged during the month. An exception was the rate for 30 to 90 day paper of customers in San Francisco, which at 5 per cent was lower than at any time during the present period of rising rates. The highest on bankers' acceptances advanced from 8.1-8 per cent on September 15, to 8.3-8 per cent on October 17.

Gas and Labor Short

Industry has been hindered recently in some sections by inadequate transportation facilities. The highly developed shortage of labor, the lumber industry in particular has been inconvenienced. Partly as a result thereof production has been only about 75 per cent, approximately 100 per cent normal, has exceeded shipments and orders for four consecutive months.

"The shortage of labor previously noted in the mining industry in this district continues. Average wages of all classes of mine workers were 20 per cent higher than in August and September. All the more important metals are being produced in increasing quantities.

"The production of California, production reached the record figure of 408,838 barrels per day during September. Stored stocks on October 1, were \$2,823,000, the largest amount held in storage since February, 1916.

"Building throughout the district continues. The largest amount of building September were greater in both number and value than one year ago. According to the United States bureau of labor indices, wholesale prices of building materials are now 16 per cent above their low point of March, 1922, and 17 per cent above the general level of wholesale prices.

Goods Moving Freely

"Goods continue to be distributed freely at retail and wholesale. The value of sales of 31 department stores was 2.7 per cent greater than in September, 1921. In the wholesale trade, the value of the ten lines reported, an increase in the value of their sales compared with one year ago. Dealers in the live stock market reported that in September, 1922, they had sold more live stock than in August.

"Charges to depositors' accounts (bank debts) in the banks of the 29 banks listed in the district again exceeded those of the corresponding month a year ago this month by 7 per cent.

"Business failures during September, 1922, were less than in any month since April, 1922, and were below the figures for September, 1921, in both number and amount of liabilities.

"After advancing from 135 in January, 1922—the low point to 158 in July and August, the United States price index for the principal commodities sold prices declined two points during September.—Prices of the principal products of the district changed little this month.

Wheat—Wheat to market. An average crop of wheat, amounting to 96,657,000 bushels, has been harvested in the district. The government market was more rapid during September, but is still retarded by shortage of freight cars and the reported hope of many farmers that better prices will prevail in future months. Marketing returns indicate that the California barley crop totaled 41,664,000 bushels, the largest yield since 1914. The large potato crop of the district has not yet been marketed with difficulty and prices are low. With the exception of apples in the Pacific northwest and grapes in California, the fruit shipping season is practically completed.

"Livestock are being marketed in normal quantities."

BABSON CALLS WEEVIL BILLION DOLLAR BUG

Famous Statistician Points Out Advantages of Reduced Cotton Supply and Diversification of Agriculture

WELLESLEY HILLS, Mass., Oct. 30.—In view of the seasonal reports relative to conditions in the south, especially due to the boll weevil, Roger W. Babson has been advised to make an analysis of the southern situation as it now appears from the viewpoint of a statistician. Mr. Babson's statement is as follows:

"In the so-called 'cotton belt,' which stretches across many southern states, is produced 60 per cent of the world's supply of cotton. In fact, this cotton crop has been so important that the south has practically given its entire attention to cotton and thus become a 'one crop' country. The boll weevil is now destroying a large percentage of this cotton crop, so that in many sections only one bale of cotton is gathered where two were originally produced. It is a matter of great concern being made to control the boll weevil, and science will ultimately find a solution to this problem. In the meantime, however, there are several factors to be considered.

"First, our supply of cotton will be greatly reduced until this weevil is controlled. The amount produced for the next few years may not be more than half of the requirements of former years. This means that high prices may be expected both for raw cotton and for all manufactured cotton goods for some time to come.

"Secondly, the south, which has been a 'one crop' country, will be forced to raise other crops and become at least self-supporting. In previous years the south has imported from the middle west nearly all the corn and a large proportion of the meat which it has consumed. This year the south has raised sufficient corn for its own use. It is also successfully riding itself of the 'dick' which is so detrimental to raising good cattle. Herds of fine stock are rapidly increasing, and the south, which has an ideal climate for all-year stock grazing, should soon be one of the most important cattle raising sections of the country. This means that the middle west will have a serious competitor in corn and stock raising.

"The third fact to consider is that the south will steadily increase its manufacture of cotton into finished goods. This year the south has produced quantities of these manufactured goods into the northern states. These southern mills produce very economically and at the source of the raw materials. The eastern states will have serious competition. Owing to the present immigration restrictions, those northern mills will soon

South has large undeveloped resources. It has coal, mineral deposits and water powers. Its export cities have good harbors which are strategically located for commerce with Latin America and southern Europe. Thus, as the south more fully realizes and grasps the opportunities which it holds it will grow and develop rapidly into economic importance. This means that during the next few years the south will offer many very attractive opportunities for investors. Just at present the south is hard hit by the boll weevil, but this very fact is bringing it to a realization of its needs and opportunities. Thus, the boll weevil is doing a good deed condition should be established and the south should be more prosperous than at any time in the past."

Get a small trial bottle of old, honest St. Jacob's Oil at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet ab-

be greatly handicapped as to labor supply, which fact should also aid the south.

"A fourth factor is that the southern farmers are employing less labor on their farms than under previous conditions, many of them reducing labor one half. The reason is that the farmers are planting a larger acreage of corn, hay, and other crops and less acreage in cotton. These other crops require less labor to work than cotton does. Today there is a very considerable unemployment of farm labor in the south. This means that there will be ample labor for cotton mills and other forms of manufacturing and for the development of natural resources.

Advantage of Struggle.

"Fifth, and finally, the south is venturing its neck of effort and struggle in order to hold its economic position. The boll weevil is forcing upon it a new economic condition, which it is now struggling bravely to meet. I believe it has the will to meet these new conditions, but it needs capital. The

POWER

CONOCO'S strongest point

WHEN you buy gasoline you want all the power you can get — uniform, dependable power — the kind that comes from instant ignition and complete combustion.

The strongest point about CONOCO is the POWER it delivers. But this is only one point in which it excels. Positive start, quick pick-up, less carbon and greater mileage are all there, too.

And there is a good reason for this. CONOCO has been scientifically developed with a carefully determined range of boiling-points in just the right proportion.

Most any gasoline contains some sort of a range of boiling-points but it takes experience, resources and refining skill to get these nicely balanced — not too many low points at the sacrifice of the equally important higher ones, nor an uneven "jump" somewhere in between. It is this ideal proportion of the whole range that you will find in CONOCO. That is why we call it the balanced gasoline. That is why CONOCO does all the things you expect of a good motor fuel and does them well.

For all-round, year-round satisfaction you'll find CONOCO the best buy! Try it for a month and you'll use it the rest of the season.

No need for lubrication troubles. Use the proper consistency of POLARINE, The Perfect Motor Oil, and drain the crankcase every 400 to 500 miles.

Indications in "Hammer" Murder Case Suggest Financed Flight with Victim's Funds

LOS ANGELES, Cal., Oct. 30. (AP)—The story of the flight of Mrs. Clara Phillips after the slaying of Mrs. Albert Meadows was begun today in the report of Mrs. Phillips for murder, and the prosecution's theory that Mrs. Meadows at the same time of her death had \$85,000 unaccounted for.

The cross-examination of Mrs. Fay Carter, who witnessed the slaying, was brought to an abrupt close today. She stuck closely to the direct examination story of the slaying. District Attorney Fricks said Mrs. Carter's short of the cross-examination would enable him to close his case some time tomorrow.

Mrs. Meadows' sister, Mrs. Meadows, testified she met the latter at noon on July 19, the day of the slaying, at the bank where Mrs. Meadows was employed.

Mrs. Meadows said she drew \$100 from the bank, and gave her \$15. Jules Tesza, who called himself a sweetheart of Mrs. Meadows, previously had testified that he was present at the noon hour with Mrs. Meadows and that she spent nothing. Mrs. Carter testified that she and Mrs. Phillips and Mrs. Meadows after the latter left the bank that afternoon and drove directly to the spot where the slaying occurred. After the tragedy, Mrs. Carter said, Mrs. Phillips carried away Mrs. Meadows' purse.

Guy Millman, clerk at a downtown hotel, testified that Mrs. Phillips registered there, using the name "Mrs. E. E. Jackson." The "E. E." register was admitted in evidence, also the county jail register bearing Mrs. Phillips' signature for purposes of comparison.

Uses Other Names

Jesse Canancho, city detective of Tucson, Ariz., testified he arrested Mrs. Phillips there the night of July 19, on a Southern Pacific railway train bound from Los Angeles to El Paso, Texas. Mrs. Phillips, he said, was traveling as "Mrs. E. Jackson," but when summoned from her berth, she said she was Mrs. Clara Phillips of Los Angeles. Canancho said he found a postpaid box among her effects on which the name "Clara Phillips" had been written and that an attempt had been made to erase it. He also found some jewelry and \$60 in cash, he testified.

MOTHER DRAFTS QUESTIONS FOR INVESTIGATORS

Mrs. Pyle Will Seek Information on Deaths of Clergyman and Her Daughter Not Cleared up at Inquest

HAVRE, Mont., Oct. 30 (AP)—Mrs. Joseph Pyle of Butte, mother of Mrs. Margaret Carleton, who with the Rev. Leonard J. Carleton was shot to death in the Christ the King church Friday, will tomorrow go to Max Kuhn, prosecuting attorney, with four questions, she says.

The questions are: "What motive have you established for the double killing if it was done, as was decided by the verdict of the coroner's jury, by my daughter?" "What motive has been established to cover two diamond rings observed at 9 p. m. on the evening of the tragedy, on Mrs. Carleton's hands?"

"If the rings were removed from her fingers it is not possible that this revolver, which was not her own, for her own was in her bag at her room, was placed in her open palm at the time she was shot?"

"Your determination of the facts in these respects will materially aid my own and public understanding of the tragedy if it is not possible that this revolver, which was not her own, for her own was in her bag at her room, was placed in her open palm at the time she was shot?"

Mr. Pyle arrived in Havre today and spent six hours with Mrs. Pyle and Mr. Joseph Davis of Helena, a Helong friend, going over evidence before the inquest and all information on the matter they have gathered.

Call Investigation "Outrage"—Careful examination was made today of all of Mrs. Carleton's effects, including contents of a trunk which was in the home she and former Judge Frank E. Carleton occupied when he was on the district bench in Havre. Mrs. Carleton appeared to be very methodical in the conduct of her affairs. Papers relating to her Chautauque work in Illinois, Iowa and Mexico were scattered over neatly folded and other papers were in perfect order.

No communication from Mr. Carleton to Mrs. Carleton was found beyond the one which had already been found in the bag.

Characterization of the investigation of the double killing as "one of the most mysterious and most baffling" was made by Judge Carleton in a telegram to Mrs. Pyle, made public by her tonight. "The wife and daughter were shot to death in the presence of all outsiders is a damnable outrage."

Affectionate Terms—Another telegram informed Mrs. Pyle that he had just returned to Los Angeles from a business trip in "Imperial Valley, Cal., and added: "Have my loving affection and arrangements to come, but not able to. Regret I am unable to be with you in this hour of our mutual sorrow."

A telegram addressed to Carleton to his wife dated October 22, was concluded in terms of deepest affection and expressed the hope that they soon would be together in Los Angeles. The request expressed in his letter to Mrs. Carleton was "Miss Catherine— for my 13-year-old daughter is in Mrs. Carleton's home in Butte. In many of his letters Judge Carleton speaks of money troubles."

How Better Than Pills?—The question has been asked: "What does Chamberlain's Colic, Cholera and Diarrhoea Remedy do for many people?" The answer is: "It is easier and more pleasant to take and it acts so quickly that it is almost certain that it is preferred by a million. Then, they not only move the bowels but improve the appetite and strengthen the digestion."

BOMBERS ACTIVE IN DUBLIN, LONDON, Oct. 30 (AP)—An attempt was made today to blow up the British house, Dublin, the headquarters of the government's criminal investigation department. A Dublin dispatch to the Times says: "Several people were slightly injured and many windows in the district were broken."

ASKING FOR AN INTERESTING BOOK ON INTERNAL BATHS

Dr. Chas. A. Tyrell always claims that life was saved by Internal Bathing.

And after they made him well, they kept him one hundred per cent well and satisfied for many years.

This is not hard to believe when physicians agree that most human ailments are caused by accumulated wastes in the lower bowels. The medicine has ever been found to keep it free from these poisons.

Dr. Tyrell's book tells why and how this has been the means of freeing millions of progressive Americans from "that tight feeling" as well as the more serious illnesses which follow. If the pernicious poisons are not cleaned out, simple warm water scientifically administered, will take them out and keep them out.

TWO KILLED, TWO HURT IN AIRPLANE COLLISION

Machine Glides in Attempted Landing Resulting in Death of Passengers and Injury of Others

HONOLULU, T. H., Oct. 30 (AP)—Lieutenant Thomas V. Hines and Sergeant Ross Owens, first pursuit squadron, Luke field, were killed and Captain W. Allen and Lieutenant F. F. Hubbard, Seattle flyers, were injured when two army aeroplanes collided today.

Lieutenant Hines and Sergeant Owens were returning to Luke field from aerial gunnery practice. While attempting a landing, their plane sideslipped and crashed into another piloted by Captain Allen, with Lieutenant Hubbard as observer.

Hines and Owens were thrown from their seats and fell about 200 feet into the narrow channel separating Luke field from the island of Oahu.

Captain Allen came out of the crash with a dislocated hip and Lieutenant Hubbard with a broken leg.

The body of the dead lieutenant was recovered shortly after the accident. Naval divers are attempting to locate the body of Sergeant Owens.

DEATH TAKES TOLL IN GASOLINE EXPLOSION

Retired Farmer Only One of Two Known Dead; Child, Blown Out of Building, Saved From Flames

KNOWLTON, Iowa, Oct. 30 (AP)—An explosion in the gasoline station of S. L. Collins company here at seven o'clock this evening resulted in the death of two men and the injury of two others.

Only one of the dead, Marsh Black, 71 years old, a retired farmer had been identified.

James Black, 69 years old, was badly injured, but may recover.

A child, three years of age, was blown out of the building by the explosion, but was saved when the flames which he was extinguished by rescuers.

Cause of the explosion has not been determined. The gasoline station was demolished.

FIRE RAGES ON 5 FLOORS

(Continued from Page One)

ling in the air holding out the coping of the building, with smoke and flames pouring out around them. They finally were rescued by their comrades.

Lillian Gray, stenographer, was dodging the flames in the building when she was driven back to the fourth floor by the flames. She finally made her way to a window before the arrival of firemen. She was picked up unconscious.

Other witnesses questioned by District Attorney Boston said that the flames appeared to have started on the lower floor, and fed by shells, swept to the other levels.

See Flames in Windows—Mrs. Rebecca Lasky, who lives directly opposite the destroyed building, said she was seated at the window of her room when she saw flames dancing in the windows on the third and fourth floors of the middle factory. A moment later, she said, she saw a man and two women run to the window and sit at the extreme end of the fourth floor, poised for a second and then dive for the street below.

In the windows of the fifth floor, she said, she saw the frightened faces of girls pressed against the glass for a moment. Then a cloud of smoke burst forth "swirling" in the windows were broken. When she could see the building again, the faces were gone. The 15 girls reported missing were said to have been working overtime.

ACCUSED WOMAN RELATES STORY

Mrs. Catherine Rosler, Charged With Fatal Shooting, Says Mind Was Blank

PHILADELPHIA, Oct. 30 (AP)—Mrs. Catherine Rosler, charged with the killing of her husband, Oscar, and his stenographer, Alfred G. Beckitt, testified today that her mind went blank when the shooting occurred. She is being tried for the shooting of the stenographer.

Purposed Self-Destruction—Mrs. Rosler, swaying in her chair, haltingly told how she went to her husband's office with a newly bought pistol prepared to end her life. A last appeal to her husband for his love failed. She testified that she opened the door and found her husband and his stenographer there.

She screamed, she said, and thereafter remembered nothing until she saw John E. Scott, her counsel, in the police station.

Severe cross examination by assistant District Attorney Maurice J. Spitzer failed to alter materially this testimony.

Mr. Chas. K. Mills, an alienist, called to the stand, shortly before the close of the session, declared he believed Mrs. Rosler was insane at the moment of the crime.

Denies Intent to Kill Husband—During the cross examination Mrs. Rosler said she did not mean to kill her husband.

"I loved my husband too much to kill him," she said. "I wanted to go to his office and kill myself in his presence."

TURKS ACCEPT INVITATION

CONSTANTINOPLE, Oct. 30 (AP)—Hamid Bey, the national deputy, arrived in Constantinople late tonight received a note from the Ankara government for presentation to the allied high commissioners accepting the invitation of the allies to the peace conference at Lausanne.

Statement of JOHN W. HARDIN, Candidate for State Senator on the Republican Ticket.

I have always been in favor of a state wide direct primary and since my nomination at the republican primaries of Twin Falls county, I have endeavored to secure the support of the voters of the republican party concerning a state wide direct primary and feel that I can safely say that a large majority of my fellow republicans are for it.

I believe in a majority rule, and consider myself in no wise bound by the republican state platform on that subject, inasmuch as I was nominated at a primary election held weeks prior to the Wallace convention.

Therefore, if elected to the senate, I shall support and work for a state wide direct primary measure for the relief of the voters of the great west and any measure having that end in view will receive my whole-hearted support and effort.

If I am elected to the office which I am nominated, it shall be my sole aim and purpose to support any legislation that may be proposed for the benefit of the majority of the people, and shall give every attention to any legislation that the people of Twin Falls county may from time to time suggest.

A Remarkable Record

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost half a century and has consistently grown in favor and popularity. Its good qualities become better known. It is the standard and main reliance for these diseases in thousands of homes. The fact that it can always be depended upon is a safe and pleasant fact to take as greatly in its favor when it is wanted for children.—adv.

DOG DERBY DAY
DRAWS HUNTERS

Interest in Bird Dogs Shown
at Annual Events of Southern Idaho Club

The events of the first day's annual trials of the Southern Idaho Field Club were run off Monday over a distance of about five miles northwest of the town. About 150 automobile filled with dog enthusiasts followed the run which was otherwise featured by remarkably good performances and interest on the part of large numbers of birds, according to M. O. Ware, secretary of the club.

Winners of Day
The events Monday comprised the Junior Derby and the open derby. The Junior derby first place was won by Weinberger's Whitecane, owned by John A. Weinberger. Second went to Flossie, owned by Freda, owned by Mr. Ware and Diana, owned by D. R. Arcaus, won third place. Open Derby winners were Cora's Dog, owned by R. A. Deane, first place; Flossie's Whitecane, second, and Mohawk Deer, owned by R. J. Dickinson, third. Tuesday, the all-gate and the Irish steeplechase will be run off. The trial will start from the home of Mr. Ware, 430 Jefferson avenue, and will be run westward. The third and fourth events will be run at the club members' stako events Wednesday.

Posters Interest in Dogs
The purpose of the club is to promote interest in bird dogs and to cultivate the sport of hunting with dogs without a gun. Each dog is given a specified time in which to perform and the awards are made on the basis of his official. The events are open to setters and pointers, and no restrictions are made as to the territory from which entries may be made. About 80 dogs are entered, including many from outside the state, Mr. Ware said.

MERCHANTS WILL CLOSE
DOORS ARMISTICE DAY

Business Men at Meeting Monday
Decide to Close from 11 A. M. Until 4 P. M.

Twin Falls stores will be closed between 11 a. m. and 4 p. m. Armistice Day. This decision was reached at a meeting Monday afternoon at the Chamber of Commerce offices.

The matter of closing was discussed at a meeting Monday afternoon at which it was decided that the merchants were in favor of remaining closed five hours as specified. The American Legion has announced the completed program for the day, but the matter of holding a parade has evidently been abandoned.

TAX ROLLS ARE REDUCED
TOTALS THIS YEAR SHOW

Difference of More Than \$400,000 Between Totals of Two Years is Ascribed to Decreased Valuations
Real property tax rolls on which total taxes were extended this year are being prepared according to figures given out Monday. This represents a reduction of \$403,446.88 under last year's total for 1921 being \$1,002,840.40.
To reduction is accounted for largely in decreased valuations of farm lands, livestock and mercantile stocks.

To Gain a Good Reputation
"The way to gain a good reputation is to endeavor to be what you appear." This is precisely the manner in which Chamberlain's Cough Remedy has gained its reputation. As a cure for coughs, colds, croup and whooping cough, Ewery little that has ever been put out by the manufacturers has been fully up to the high standard of excellence claimed for it. People have found that it can be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take.

HALLOWEEN.

TWENTY YEARS ago today, just as the sun was setting, father took the front gate off its hinges and hid it in the backyard. Every day he came there and looked the door came into the house and warned the children "not to try out late tonight" and then went to bed. Likely as not, he awoke the next morning to find that his precautions had been in vain.
The boys from another part of town had probably spirited the buggy out of its customary quarters and backed it up on the postoffice steps and as for the gate, the only thing to do was to wait until a resident some far distant section finally discovered the rightful owner.
All sorts of Halloween devices for the general purpose of merrymaking have been in demand in the last few years and indications are that the coming winter will see that the celebration is not without its share of excitement. With the abundance of the moving mania in recent years the occasion will be celebrated in a probably less reckless manner.

DEMOCRATIC NOMINEES
PRESENT PARTY ISSUES

Whitaker and Thompson Speak at Lavering—Defend Form or Governor's Acts

Party issues were discussed by W. P. Whitaker, democratic candidate for representative, and Elmer Thompson, democratic candidate for lieutenant governor, in public addresses at Lavering, Idaho, Monday night. About 350 persons attended.
Mr. Whitaker particularly contended that Representative Adlai Stevenson had failed to secure reclamation legislation in congress and that he had not properly supported the "Ishba" bill.
Mr. Thompson declared statements which have been set forth in opposition to the candidacy of Moses Alexander by "false representations" and devoted a part of his speech to their support of the acts of the former governor while in office.
The speakers were introduced by E. J. Finch, democratic county chairman. An explosion of gasolene 78909.

MUST HAVE FIRE PERMIT
OR RUN RISK OF ARREST

City Street Superintendent Gives Warning That Bonfires Must Be Guarded
Many Twin Falls residents, by building bonfires in the streets, are taking the risk of being arrested and prosecuted under the city ordinance which forbids building fires in the streets, and without permits, J. T. Kivancak, street superintendent, declared Monday.
"Building fires on the pavements is strictly forbidden," he said. "This habit not only creates a fire hazard, but seriously damages the pavement."
"If a bonfire is built on a sidewalk, a pile of rubbish, of any sort must be kept from any office or from Fire Chief Golden. This permit is good for one day only."
"Even with the authority of a permit which allows building fire in the back yard away from buildings, the property owner should not fail to have a supply of water or a hose available."
With a heavy fall of leaves evident practically everywhere in the city, the tendency has been to take the leaves out on the pavement to burn them and several persons have been arrested in the last few days, Mr. Kivancak said.

CHILD LEAVING CHURCH
STRUCK DOWN BY MOTOR

Lucille Wallace Recovers Painful Bruises Under Wheel of Skidding Automobile
Lucille Wallace, age 7, daughter of Mr. and Mrs. George C. Wallace, is recovering from painful injuries received Monday noon, when struck by an automobile driven by Superintendent of the Highways while crossing the street.
The girl was in a serious condition and no bones were broken although she is barely able to move about, according to a report from the Wallace home Monday night.
The accident occurred when the little girl and her sister came out of the Catholic church after attending late mass Sunday. In crossing the street they passed an automobile and apparently were not seen by Mr. Kennedy until he was within a short distance of the girls.
On seeing the girls the driver applied the brakes but had struck Lucille before being able to stop. The car skidded several feet, according to witnesses, when stopped the girl was found underneath, although the wheels had not passed over her.
Mr. Kennedy gave her every attention possible, and had called a doctor to her home where Dr. J. J. Coughlin was called. She received bruises about the arms and legs, and her neck was injured and her clothing badly torn.
