TWIN FALLS, IDAHO, THURSDAY MORNING, JANUARY 4, 1923.

PRICE FIVE CENTS

MOORE USES  
SHARP AXE  
ON PAYROLL

Idaho's New Governor Removes State Constabulary and Immigration Department—Dismisses Employees

BOISE, Idaho, Jan. 3 (AP)—With one stroke of his pen today, G. C. Moore, governor, stopped the activities of the state constabulary and the department of immigration, labor and statistics, and removed from the state payroll the names of 220 employees of the state bureau of highways.

Resignations of all highway employees have been asked for on or before January 20, and they will be effective January 31. The bureau will be reorganized and reappointments made between January 20 and 31.

Activities of the state constabulary and the department of immigration, labor and statistics, cease January 12. In a statement issued today Governor Moore said that he will ask for no appropriation to carry on the two offices for the coming two years.

## RETIREMENT WILL FEATURE GOVERNOR'S RECOMMENDATIONS

BOISE, Idaho, Jan. 3.—(Special to The News.)—Reduced appropriations for highways; elimination of public building and a sharp reduction of appropriations to the public utilities commission will feature the recommendations for economy made to the seventeenth session of the Idaho legislature by the governor.

Careful guarding of budget suggestions is being carried out, but it is certain Governor Moore will make such specific recommendations.

Members of the legislature from North Idaho, who have arrived at the capital, expect to join in the economy plan, if it does not interfere with either the university or road building plans now locally financed.

No definite budget figures can be announced until the recommendations are released by the legislature.

The revenue division, which during many sessions has held back important legislation and caused much log rolling, may again invade a session of the Idaho legislature. Rumors of the revenue division under the lack of representation in the Idaho house and senate, resulting from the large vote of Boise, threaten to demand attachment of their territory to Canyon county. The attitude of Governor Moore on such legislation could not be determined today. Today, however, he indicated his deep feeling against further county division.

Asks Government  
to Make Stable  
Prices of Crops

North Dakota Senator Would Create \$100,000,000 Farm Products Corporation

WASHINGTON, Jan. 3 (AP)—Governor stabilization of prices for farm products is the object of a bill introduced today by Senator Ladd, republican, North Dakota, and referred to the senate agriculture committee, which has been sending another bill by Senator Ladd for government price fixing of certain agricultural products. Senator Ladd's new bill would create an American stabilization corporation with \$100,000,000 capital, all subscribed by the government, to buy from producers and sell to consumers, cereals, sugar, cotton and wool. The corporation would operate warehouses and have power to prohibit exports of farm products when domestic needs required them.

## SEEK GOVERNMENT AID IN DISPOSING OF CROP SURPLUSES

ST. PAUL, Minn., Jan. 3 (AP)—Disposal of crop surpluses through government aid, relief for agriculture by temporary price stabilization and opposition to a ship subsidy "in every form and fashion" are among the prominent planks in the Minnesota farm bureau federation's agriculture program for 1923 adopted by delegates to the fourth, annual state convention here tonight.

The convention renewed its 1922 pledge to cooperative marketing and held that "private marketing agencies have wholly failed during the recent period and definitely performed a service of marketing and distribution." Farmers, the program says, must do this work themselves. A policy of retrenchment on the part of the farmer until a reasonable price adjustment is established was recommended.

Knocked Off Lofly  
Perch, Workman Has  
Remarkable Escape

Stone That Topped Artisan From Girder Five Stories in Air, Saves His Life

CHICAGO, Jan. 3 (AP)—A stone weighing half a ton today knocked Fred Reid, a stone setter from an iron girder on which he was standing five stories above Michigan avenue—then saved his life. Reid, employed in erecting a new skyscraper, was knocked from the girder when the stone toppled over. In falling the stone plucked the edge of heavy steel beams between itself and the girder, leaving him dangling in mid-air. He was rescued by workmen.

THREE OFFICERS  
TO WALK PLANK

Idaho Commissioners of Immigration, Agriculture and Finance Slated to Go

BOISE, Jan. 3.—(Special to The News.)—At least three commissioners in the cabinet of the new administration are slated to walk the plank. Of these one, C. H. Barber, commissioner of immigration and labor and statistics, did not receive today even a temporary appointment.

Seven other commissioners received a communication from Governor Moore stating in substance that he had not yet determined upon a permanent appointment in their respective departments, but asking them to remain in charge of the state business until he could decide.

The failure to notify Mr. Barber of his temporary retention precluded the closing of this department, a constitutional office, which becomes inoperative when there is a failure to appropriate money for its conduct.

Cannon Due to Go.

Miles Cannon, commissioner of agriculture, is another who is slated to go, according to word which leaked out today. He is an advisor of the new government and his removal, and it is certain that the chief executive will act upon their advice.

Mr. Cannon has attained considerable prominence throughout the western states and in eastern marketing centers. He is an advisor of the new government, but has incurred much enmity through his outspoken advocacy of marketing methods and on other public questions.

John G. Fraile, commissioner of finance, who is also being considered, presented his resignation some time ago. His place will be filled among the first. Mr. Fraile has agreed to stay until his successor qualifies.

## POLITICIANS INVADE BOISE

BOISE, Jan. 3.—(Special to The News.)—Scores of politicians of republican persuasion have flocked to Boise for the past three weeks. Some of them have come at the invitation of the new chief executive, Governor C. C. Moore, while others, having some particular interest of local import, have come without request.

Following the campaign promise of Governor Moore that he would consult with all sections of the state before he made his final budget recommendations or concluded the list of his appointments, he has been taken literally.

A constant stream of men and women who enjoy prominence or political schemes, has visited him. To meet their wishes, and to gather together for the purpose of advice, has been impossible, but for the most part, they have marked the governor's effort to see them.

## The Day in Washington

(By The Associated Press)

American representation on the reparations commission was proposed in a resolution offered by Senator Robinson, democrat, Arkansas.

President Harding vetoed the Bureau bill, providing increased pensions for veterans of the Civil war and Mexican war and their widows.

Construction of federal buildings in 140 cities at a cost of \$40,000,000 was recommended in a report transmitted to congress by Secretary Mellon and Postmaster General Work.

Government aid provisions of the shipping bill were attacked by Senator Sheppard, democrat, Texas, after the senate, in session after a New Year's recess, resumed consideration of the measure.

Enactment of a flexible immigration law which would permit the entry of desirable aliens to relieve labor shortages was advanced by

WAR TIME GRAB  
OF \$8,000,000  
COMES TO LIGHT

Government Institutes Proceedings Against Massachusetts Concern in Connection with Cantonment Building

BOSTON, Jan. 3 (AP)—The United States government today instituted proceedings against Fred T. Ley and company, Inc., of Springfield and this city to recover \$8,000,000 for alleged breach of contract in connection with the construction of the army cantonment at Camp Devens. A writ for \$8,000,000 was placed in the hands of the United States marshal for service, but the declaration will not be officially filed until a return is made on the writ, which will ask recovery of only \$5,000,000.

The writ is returnable on the third Tuesday in March and belief was expressed here that the suit would not come to trial before next fall.

## Charges Wholesale Waste

Charges that there was "some unaccountable waste" of materials purchased or supplied for use in the cantonment; that unskilled workmen received the same wages as skilled workmen; that excessive amounts of material were used; that large amounts of unnecessary work were permitted to be done; that looting was permitted as well as "sabotage on the part of workmen and laborers"—were contained in the papers.

The contract in question, the government claimed, was entered into on June 11, 1917, between the company, represented by Harold A. Ley, president, and Major N. A. Dempsey, representing the United States, and was declared to be the first of the "cost plus" awards during the war.

## Defeats Contract Ends

"The Fred T. Ley company," according to the declaration, "counselled, advised, permitted, aided and abetted in the carrying out of the work in a grossly negligent and wasteful manner in utter disregard of the terms of the contract."

UTILITIES AND EXTENSION  
IN FOR RE-ORGANIZATION

Warm Legislative Battle Looms Over Questions Likely to Be Raised in Governor Moore's Message

BOISE, Jan. 3.—(Special to The News.)—The public utilities commission, foothold of Idaho legislatures, is in for re-organization, while the extension department of the university will also be somewhat emasculated, if the legislature carries out Governor Moore's recommendation.

While sorecity is maintained over the points decided upon, for the governor's message, it can be authoritatively stated that both of these departments will be materially changed.

Reduction of duties in the bureau of public accounts and their transfer from the department of finance to the auditor's office, also seem certain to be part of the executive's suggestions.

A warm legislative battle over the utilities and extension questions, is certain to occur, according to legislators now here.

## WALLES' BETROTHAL DENIED.

LONDON, Jan. 3 (AP)—Emphatic denial was issued tonight of the rumors of the betrothal of the Prince of Wales, to the daughter of the Duke of Devonshire, who he is reported to have spent Christmas with the royal family.

## The Day in Washington

(By The Associated Press)

for the house immigration committee by representatives of merchant tailors.

Ambassador Harvey, back from London to report on various phases of the European situation, remained in seclusion at the White House, the guest of the president, except for a conference with Secretary Hughes at the state department.

Minn's customary provision of \$300,000 for congressional distribution of free seed, the agricultural department appropriation bill was passed by the house, which later in the day also passed the supply bill for the interior and post-office departments.

Investigation of charges, made recently in the house by Representative Upshaw, democrat, Georgia, that certain high government officials did not practice the prohibition enforcement "which they preached," was proposed in a resolution by Representative Duff, republican, Maryland.

CONFERENCE AVOIDS  
RUPTURE BY RECESS

Termination of Sessions Without Agreement and Breaking Up of Allied Unity is Anticipated by Both French and British Delegates; Proceedings are Cordial but Opposing Viewpoints are Considered Irreconcilable

PARIS, Jan. 3 (AP)—Rupture of the premier's conference with all the dangerous possibilities for Europe and the Near East was barely avoided today by a recess until tomorrow, when the unfinished declaration by the British prime minister, Mr. Bonar Law, in reply to Premier Poincare and Thoms, will be completed, and Marquis Della Torretta will have a formal opportunity to read the Italian government's position.

The conference, in the judgment of both French and British delegates, probably will end tomorrow without an agreement, thus breaking the unity among the allied governments, upon which the policies of all the principal western powers are based.

There is much dismay and anxiety over the situation. The tone of the conference has been cordial enough, but the British and French views are irreconcilable as they stand now. Mr. Bonar Law is regarded by the French as personally desirous of doing all he reasonably can to prevent a break, but since the publication of the British plan he is thought to be limited absolutely by his own propositions, or propositions which, in the view of the French, were prepared by officials of the British treasury, in co-operation with Sir John Bradbury, member of the reparations commission, and Lord D'Abernon, British ambassador in Germany.

## More Talk Remains

The British prime minister therefore finds it will be high impossible to accept as a basis of discussion, either the French or Italian plans, without taking into consideration the entire day at the White House and the state department, but if his conference with the highest officials of the government led to any definite decision, it was guarded scrupulously.

## Storm Brews in Senate

In the senate, where the administration's attitude toward reparations recently weathered a three days' tempest of debate, there were signs of another approaching storm, entering this time around a proposal by Senator Robinson, democrat, Arkansas, to authorize American representation on the reparations commission.

Everywhere there was ample evidence that every move made in the Paris conference was watched from Washington with a deep realization that what is said and done there may weigh tremendously in determining the future policy of the American government.

Outwardly there was a show of confidence that the threatened breach between Great Britain and France would be mended by Senator Robinson's amendment, but inwardly, the government appeared to be asking itself again the questions proposed by Secretary Hughes in his speech at New Haven.

## Lausanne is Factor

M. Poincare's plain refusal even to accept the British plan as material for discussion, together with the French plan, has virtually brought the conference to an end, in the view of the British representatives. They frankly admit that the conference is being prolonged tomorrow, or Friday at the latest, in order to preserve the Franco-British accord as long as possible because of the delicate negotiations at Lausanne.

The British government is fearful of the effect which the breaking of the accord would have on the Turks and also of the effect such an event would produce on the attitude of the French delegation at Lausanne, and the British are urging the French to continue to work in harmony at Lausanne despite the disagreement at Paris.

## MEXICANS' DUEL FATAL

TO INNOCENT BYSTANDER

AMERICAN OWNER OF AUTO REPAIR SHOP IN MEXICO CITY, Walks Into Line of Fire on Street.

MEXICO CITY, Jan. 3 (AP)—George W. Stebbins, the American owner of an automobile repair shop, was mortally wounded tonight when he walked into the line of fire between two military men who were engaged in a pistol duel in the street.

Stebbins was struck down in the presence of his wife and child.

Five others were seriously wounded, including General Leonovillo Avila and Lieutenant Colonel Constantino Lencina, principals in the duel.

## GALE SWEEPS CHEYENNE

CHEYENNE, Wyoming, Jan. 3 (AP)—Sweeping down on Cheyenne last night was a maximum windstorm, with gusts reaching 82 miles an hour and continuing throughout the day with decreasing force, a near-gale broke all records for the past 51 years here. The highest velocity previously reported was four miles an hour less than that of a wind. No damage has been reported.

## FRENCH FLYER SETS NEW RECORD FOR STAYING ALOFT

BISKARA, Algeria, Jan. 3 (AP)—Lieutenant Thoret, a French military aviator, has beaten all glider records by keeping in the air for 7 hours and 3 minutes.

The feat was accomplished in a regulation army airplane, with the propeller previously wedged to prevent its operation. In addition to its motor, gasoline and oil supplies, the machine carried an extra weight of 500 pounds. It was in no way modified for gliding.

SPAN FALLS  
WITH CROWD  
INTO RIVER

Traffic Jam Overburdens the Bridge Across Washington Stream—20 to 30 Persons Missing and Many Injured

KEISO, Wash., Jan. 3 (AP)—With from one hundred to one hundred and fifty people and ten or more automobiles and trucks upon it, the old Keiso bridge collapsed into the flood waters of the Cowlitz river late today.

Upwards of 100 persons, according to best estimates, were precipitated into the flood and rushing river. How many were drowned or crushed to death amid the timbers and cables of the bridge could not be ascertained.

At a late hour no bodies had been recovered, but from 20 to 30 people were said to be missing and nearly as many injured had been rescued from the wreckage. Rescue work was being hampered by darkness. A transformer in the electric plant had blown out and there were no electric lights.

## Stalled Car Causes Jam

It is said two teams, five cars and two trucks went down with the bridge. Four cars caught in the bridge wreckage were visible tonight above the water. There was the usual evening rush of traffic both ways across the bridge. Trucks and automobiles had been stalled on the wagon and a balky automobile.

The bridge, a long wooden structure, was suspended by cables and it is said a turn-buckle supporting the north cable was stripped of its threads by the pressure. Several pedestrians on the bridge saw it going and escaped.

Paula Salas, Town's

Keiso was in a wild tumult shortly after the crash. The apprehensive of safety of relatives or friends rushed madly from hospital to hospital and back to the bank of the river. Adding to the general confusion the city's lights went out soon after the accident.

At one hospital an operation upon an accident victim was in progress as the lights flickered.

Mr. Halvorsen's truck was on the bridge but whether he reached safety is not known. An automobile crowded with men from the Longview hotel, homeward bound, was near the middle

Test Shows Driver  
of Car in Wreck  
of Unstable Mind

Psychiatrists Announce Conclusion While Coroner's Jury Holds Subject to Blame

SEATTLE, Wash., Jan. 3 (AP)—Dr. A. P. Calhoun and Dr. Frank Will, psychiatrists today examined Henry Albrecht, 38 years old, driver of an automobile that Saturday night collided with a municipal bus, the collision causing the bus to fall over a 20-foot bluff and kill two people. The psychiatrists as a result of the examination pronounced Albrecht of an unstable mental condition.

A coroner's jury, which knew nothing of the mental examination made of Albrecht, found that both he and Floyd N. Perry, driver of the bus, had been going at excessive speed and were to blame for the accident. Albrecht was held to await action of the prosecuting attorney.

TWO ORPHANS MISSING  
SINCE BLAZE IN HOME

Dallas, Tex., Jan. 3 (AP)—Two boys known to have been in the dormitory which was destroyed by fire at Buckner's orphan home, eight miles east of Dallas, last night, are missing. It was announced tonight by Norman Campbell, Dallas business man, president of the Ex-Inmates' association, following a trip to the institution.

Dallas firemen, under the direction of Chief Myers, searched the ruins all day, but found no trace of the bodies of the missing boys. Twenty-five boy inmates have verified a statement of one of the boys that he saw one of the missing boys walking away from the burning building last night.

# MILITARY RULE IS IN PROSPECT FOR MOREHOUSE

Governor's Edict is Placed in Hands of Adjutant General as State Begins Hearing in Kidnaping Case

BASTROP, La., Jan. 3 (AP)—The possibility of martial law hovered over Morehouse parish tonight, as troops, civil authorities and the state's legal forces rounded out their final preparations for the open hearing in the Morehouse kidnaping and murder cases to begin Friday.

That Governor Parker had signed a martial law edict and placed it in the hands of Adjutant General Tomba to be promulgated at his discretion, was generally admitted. The governor and attorney general, however, in keeping with their policy of silence, declined to make an official announcement in this regard.

"I am here as the military representative of the governor to take such action, under his direction, as the situation at any time may warrant," Colonel Tomba said tonight.

"As conditions present themselves, they will be met adequately. Thus far no action has been taken which would place the parish under control of the military and any reports to the contrary are incorrect."

The adjutant general visited Mer Rouge and Bastrop during the day, conferring with the officers commanding the four units of state troops stationed there.

Cavalry on Scene.

The Jennings cavalry troop established camp at Mer Rouge today, while the Monroe infantry company, which has been on duty here since the state's open investigations into the kidnaping of two children of Morehouse and the murder of two men began two weeks ago.

The New Orleans machine gun company and the Alexandria infantry continued to occupy the square guarding the court house and jail.

Dr. B. M. McKinn, former mayor of Mer Rouge, arrested in Bastrop on a charge of murder in connection with the cases, was expected to reach here Friday with the officers sent to extradite him.

Return as Free Man.

The physician will return to the state as a free man, in accordance with an agreement reached today between Governor Parker and Governor Ritchie of Maryland, in regard to the content of extradition papers. What charges the state will place against him when he reaches Louisiana will could not be learned tonight.

Two assistant attorney generals of the state reached Bastrop today and established offices at the court house. They will be joined tomorrow by the attorney general and other assistants.

## STORM BATTERED LINERS MAKE PORT AT NEW YORK

Related Vessels Bring Stories of Fierce Battles with Gales; Conquer Sloggers' Quick Fears

NEW YORK, Jan. 3 (AP)—Four storm-battered liners entered New York harbor today, all late and all carrying stories of fierce battles with gales that have been blowing for almost two weeks.

The Hoshambau had the hardest fight. She fought the storm which at times reached waves 50 feet high. She battled slowly ahead. French concert singers, men and women, sang almost continuously to quiet the fears of pale-skinned passengers battered below decks.

Three Faber liners arrived from different parts of Europe.

The Canada, from Constantinople, was tossed about for days, she reported, making the trip a difficult one for 350 Russian refugees. The entire contingent went to Ellis Island.

The Asia, from Lissabon, and Providence, from Marseilles, also reported heavy gales.

During the storms, the Van Wyck left Hoboken for Rio de Janeiro with 42 passengers. She will try to make the round trip in 32 days, covered for the ship to us in late February 10 with a party of surgeons for a southern cruise.

Developing the Brain.

Mental health means mental digestion. The better the brain the better the digestion, of course, but the most ordinary brain can, by carefully considering what the eyes and ears bring it, become better and more fully developed, and of much greater use to its owner.—John Blake in Chicago Daily News.

Mind and Body.

The influence of the mind over the body is great. No sane person can deny that. At the same time, do not go to the extreme of saying "All is mind." We are a combination of mind and body, and the body should be controlled by the mind. "Mens sana in corpo sano."

## Russian Children, With Only Scanty Clothing, Hate Snow That Imperils Their Lives

Russian children hate the snow this year. They even cry when they see the big flakes coming down, and in many Russian homes there is the prayer that the New Year will bring warm weather. Weather has become the all important issue in this great country where several millions of people are practically without clothes. Boys and girls are wearing sack cloth dresses and suits made of fish net or wrapping paper. Thousands of them have only one garment—a patched and wretched affair made of torn up rags or old curtains. The furniture and clothing in most Russian homes has long ago been sold for food or used for fuel. The children sleep on the floor or huddled nearly naked around a tiny stove. Many of them cannot go out at all because they have nothing to wear that will protect them from the terrible Russian cold. The only food they get is at the American Relief Administration kitchens, where more than a million children are receiving their one meal a day. Unless they can procure clothing they will be deprived of even this. The adults are in the same predicament and in a climate where there is ice and snow for nearly nine months of the year they are in a dire danger from exposure, hunger and disease.

To meet this emergency the American Relief Administration has inaugurated a clothing remittance package system similar to the Hoover food remittance packages that saved so many lives. Each package contains nearly 5 yards of dark warm wool cloth, enough for one suit of clothing for an adult or two garments for a child; 4 yards of lining; 16 yards of muslin, sufficient for 4 suits of underwear; 8 yards of flannel, sufficient for two men's shirts or women's shirt waists, and buttons and thread to make up these garments. Through arrangement with the Soviet Government these packages will be delivered free of duty and at the greatest possible speed. No mark for a special person in Russia the packages will be delivered to the most needy cases. Several thousand American banks and other organizations have agreed to forward the money for these clothing packages, and twenty dollars sent to the American Relief Administration headquarters, 42 Broadway, New York City, or to a local bank will equip and deliver a package to anyone in Russia.

## SHOWS POSTAL HOUSING NEEDS

Recommendations to Congress Point Out Requirements for Working Space in Cities

WASHINGTON, Jan. 3 (AP)—Attention of congress was called today to the urgent need of providing additional working space for government activities in 140 cities, based upon facts developed by a careful survey conducted by the treasury and postoffice departments during the last year.

The list of cities calling for first consideration, was transmitted to Speaker Gillett of the house by Secretary Mellon and Postmaster General Work. The postal service was reported in need of new, adequate bureau of internal revenue and veterans bureau next in the order named.

Twenty-five cities, including New York, Chicago, Philadelphia, Boston and Detroit, were equally in need of more adequate facilities, the report said, but information as to conditions and methods of relief there will be submitted later.

Development Increases Needs.

The growth of the parcel post service, development of the rural carrier service, collection of income taxes, enforcement of prohibition and the varied activities of the veterans bureau were cited as the principal causes of congestion, which had thrown some of the work of these bureau into public corridors. The veterans bureau, according to the report, is paying \$405,272 rent annually for commercial space.

"Even if it were prudent financially to relieve all this congestion in one year," said the report signed jointly by Mr. Mellon and Mr. Work, "it would be impracticable from a construction standpoint to undertake so much at one time. It would therefore seem right to map out a program covering a period of years, relief to be provided first where congestion is greatest, and where the government is paying out large sums for rent of space in private buildings."

Follow Population's Advance.

The survey was conducted in communities which have doubled or tripled in population since federal buildings were provided and enlarged. Many were found to be lacking in floor space to such an extent that additional quarters had to be rented.

These Days.

The fellow who wrote "Mother, May I Go Out to Sperm?" lived in a day when mother was occasionally consulted. These days it's almost impossible to ask mother anything. She isn't at home.—Richmond Times-Dispatch.

Thought for the Day.

If we would greet the members of our family in the evening as pleasantly as we have greeted other people during the day, our homes would be happier.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

## GASOLINE TAX INDIANA ISSUE

Traffic and Highway Problems Figure in Program for Legislative Session

INDIANAPOLIS, Ind., Jan. 3 (AP)—A gasoline tax of two cents per gallon, an increase ranging from 50 to 100 per cent in automobile license fees, thorough consideration of proposed plans for improving education, appropriation of \$1,000,000 to continue the new reformatory building program, and general economy in appropriations are included in the program which Governor McCray is expected to present to the legislature, which convenes tomorrow. Tax legislation is a purely partisan measure may be introduced by the democrats, whose platform favors "home rule" in control over tax levies and bond issues. Governor McCray and other republican leaders believe such authority should remain with the tax board.

The closeness of republican and democrat division in the legislature precludes the passage of a great amount of purely partisan measures. The senate has 32 republicans and 35 democrats and the house 33 republicans and 32 democrats. At caucuses held by democratic leaders and the minority members of both houses, any intention of obstructing the republican program was disclaimed, although all majority measures will be closely scrutinized. The democrats charged extravagance in reformatory construction work during the campaign.

A discussion of the primary law has been held by both parties and Governor McCray is quoted as favoring repeal of the election law, relative to the disposition of the increased revenue. Many members of both parties have expressed themselves as believing the money should be devoted to highway construction, the direct highway tax be abolished, and that the increased fees be used to provide additional general revenue.

## BILLION DOLLAR EXPENSE BILL PASSES HOUSE

Postoffice, Agricultural and Interior Bills Are Approved With Few Changes in the Original Form

WASHINGTON, Jan. 3 (AP)—Annual supply measure totaling nearly a billion dollars were passed today by the house when it reassembled after the New Year's holiday. They were the postoffice appropriation bill, carrying \$354,014,000, the agricultural bill, carrying \$60,008,000, and the interior bill, carrying \$204,347,000. No record votes were taken on any of the measures.

Consideration of the agricultural bill was completed before the Christmas recess and the other measures were made ready for a vote last week, but under an agreement between the republicans and democrats leadership, the final votes were held up until members absent for the holidays had returned.

Few changes were made by the house in the measures as they came from the committees, the postoffice bill going through virtually without amendment, and the agricultural and interior bills being modified only in minor details.

Once Is Enough.

It's just as well that we can't live our lives over again. We might not make the same mistakes, but we would make many others we avoided the first time by sheer luck, rather than discretion.—Birmingham Age-Herald.

Stop and Take Stock.

It is a good plan now and then to take stock of ourselves to make sure we are as reasonable as we expect other folks to be.

Shakespeare's Philosophy.

I earn that I get that I wear; I own no man here, any no man's place; glad of other men's good, content with my harm.—Shakespeare.

Quite the Contrary.

It isn't when a woman looks daggery that she looks killing.

## TRADERS GET MORE WITH CANDY THAN WITH MONEY

Islanders Comply Readily with Requests for Wax Tablets When Sweets Are Produced

HONOLULU, T. H. Jan. 3 (AP)—Rapa, the island where men are outnumbered considerably by women residents, also is the island where jam and candy are far more precious than much fine gold, according to J. F. G. Stokes, scientist attached to the Bishop museum, who conducted an extensive tour of investigation of the Austral islands in connection with the museum's efforts to establish the origin of the Polynesian race.

Stokes said that offers of money had no effect upon natives of Rapa when they were requested to obtain specimens, relics and other fragments of a lost civilization. But these were forthcoming instantly when candy was offered in exchange. As a result, the supply of candy soon was exhausted. Then Mrs. Stokes came to the rescue. The natives would furnish her no more specimens, unless they were supplied with sweets. Mrs. Stokes hit upon making jam out of the oranges which grow in abundance on Rapa.

Stokes said that the jam was considered more valuable than the candy.

## FORD BELIEVES EMPLOYMENT IS UNREST CURE

Motor Maker Tells League Investigators Solution for Economic Difficulties is to Find Work for Every Man

DETROIT, Mich., Jan. 3 (AP)—Henry Ford believes that "the only cure" for world unrest is to "create for every able-bodied man in the world a job of some sort," the manufacturer told a delegation representing the International Labor office of the League of Nations whose members held a long conference with him at his Dearborn offices today.

The delegation, which came to this country recently to obtain ideas that might be introduced in other countries for benefit of workers, is headed by Albert Thomas of France director of the International Labor office.

### Minimizes Money Factor

During the interview, Mr. Thomas deplored the present unstable condition in many parts of Europe and suggested that equalization of exchange rates might have been beneficial.

Mr. Ford replied that in his opinion the question of the currency of the world back to peace and prosperity could not be solved through money, declaring his belief that the solution rested in expansion of industry, improvement of agricultural methods and education of the workers of the world.

Mr. Ford told his visitors that "all the money in the world could be dumped into the sea and as long as men would put one stone upon another and fill their greed, they would have produced to barter and exchange, and world commerce would go on without interruption."

### Solution is Employment

"The solution is a job for every man," the manufacturer said. "Let the people of the world get the idea that all they need is to do a day's work six days in every week and that in this way they can make their own prosperity and there will be no more talk about unstable conditions, for instability will have to cease to exist."

Mr. Ford declared one of the most urgently needed reforms facing the world pertaining to the widespread use of farm machinery. He told the delegation that "farmers everywhere" must be taught the use of machines and their economic value before better prosperity can come to any people.

## SEE USE FOR RADIO IN HALTING CRIME SPREAD

Peace Officers of Northwest Plan to Adopt Wireless in Apprehension of Offenders

SPOKANE, Wash., Jan. 3 (AP)—Use of radio as a means of combating the spread of crime and hastening the arrest of criminals will be instituted in Spokane county this spring, according to Sheriff Clarence E. Long.

In explaining his decision to adopt the use of radio Sheriff Long stated that he believed it would be of particular value in "blocking the activity of criminals who move rapidly from city to city, leaving a long list of crimes in their wake. The plan will be worked out in conjunction with the Northwest Association of Sheriffs and Police.

According to the plan mapped out by the Northwest association, every day complete accounts of new crimes committed in any zone with descriptions of criminals, suspects, finger print classifications, history and identification will be broadcast in association code. The association has made formal petition to the government radio control board for a distinctive wavelength for exclusive use of the association.

As the system is perfected smaller stations throughout the northwest will be added to the chain of police broadcasting bureaus, as will stations in Montana and British Columbia.

## OPERATORS SEEK METHOD OF APPROACHING MINERS

Conference Endeavors to Work Out Plan for Development of Working Conditions and Wage Agreements

CHICAGO, Jan. 3 (AP)—A plan upon which working conditions and wage agreements can be placed before the joint meeting of operators and miners from 15 bituminous coal fields of the country was being sought here tonight by a special committee of operators, appointed after the joint meeting adjourned this afternoon and operators went into separate meetings in an effort to agree upon a constructive plan.

The committee was instructed to formulate a plan from discussions of the meeting and report to the operators tomorrow morning, who will meet one hour prior to the resumption of the joint conference at 10 a. m.

That the plan will be different from any before submitted to the miners is indicated by operators who said John Lewis, head of the miners, had made it clear that the district plan of reticement, sliding scale and arbitration submitted at a special reorganization committee meeting here in December and rejected, would not be considered

## Snow Threatens to Be Shroud for Huge Numbers of Russians Who Have but Rags for Clothes

A white New Year lends extra zest to the holiday season in the United States, but in Russia this year the deep snow looks like a shroud to millions of children and their elders. The winter is extremely cold in Russia, where the climate is similar to that of the northern United States, but the bitterest of the cold does not begin until after the first of January, as a rule. Herbert Hoover predicts that at least a million children and elders will be facing death during the coming weeks unless clothing is sent to them.

Mr. Hoover's prediction is based upon reports of American Relief Administration workers in every part of Russia, who say that a vast num-

ber of children and adults cannot possibly survive the hardest part of the winter dressed in the tatters which now form their only clothing. Rags at worn that they cannot longer be called garments, or single garments of thin four-acking, or even of newspapers are their only protection against the elements. To people so clad the cold is so formidable that hungry children no longer go to A. R. A. kitchens for their one meal a day, preferring to cover unfed in their heatless homes. Fuel and garments are alike unobtainable at their present high prices. The cost of food itself leaves no margin for anything else.

To meet this emergency, the American Relief Administration has introduced clothing remittance packages, on the same plan as the famous Hoover food remittance packages of

last year. The sum of \$20, sent to the New York Headquarters of the A. R. A., 42 Broadway, will buy one of these packages, containing enough material to make two persons' worth of clothing of the cold. It will be delivered to any designated beneficiary in Russia, or merely distributed to an undesignated needy case, as the giver prefers. The sender of each package will receive a direct receipt from the Russian who gets the clothing.

The contents of each package are as follows: 4 1/2 yards of 56-inch 20-ounce wool cloth, enough for outer garments for two children, or a suit of clothes for either a man or a woman; 4 yards of black-cotton lining; 15 yards of muslin, for four suits of underwear; 3 yards of flannel for two men's shirts or two women's shirtwaists; buttons and thread to make up this material.

### HIGH SCHOOL NOTES.

Wednesday morning the sophomore class entertained the rest of the students with a delightful one act play entitled "A Case of Suspicion." The characters were introduced by George Duke. They were as follows: Helen Fisher, Helen Grove and Leola Richins as college girls; Charles Brown, Tom White and Russell Denoyer as college boys; Norma Lenz as dean of the college; Carl Hagan as the professor; Angela Beckwith as the maid, and Harry Puttner as the janitor. Each member of the cast took his part very well and Carl Hagan was very good as a dignified professor. The story starts out with a plan for secret party by the boys and girls. As it is quite the professor's duty, he investigates. He is mistaken for one of the boys and is brought up to the room by means of a clothes basket tied to a rope. Miss Judkins, the dean of the college, also

## BURSUM TO MAKE FIGHT FOR BILL

Loss of Blanket Pension Increases to Veterans Threatens Through Veto

WASHINGTON, Jan. 3 (AP)—Loss to Civil and Mexican war pensioners of the large blanket pension increases proposed by the Bursum bill was threatened today through the veto of the bill by President Harding.

The president returned the bill to the senate, where it originated, with a message attacking it. He declared it would cost the government \$105,000,000 annually and set a precedent cutting pension obligations of \$50,000,000,000 within the next 50 years. He also disapproved specifically provisions giving pension rights to widows or veterans who had been married only two years.

### Admits Chances Slim

Despite the president's veto, Senator Bursum, republican, New Mexico, author of the bill, which would raise Civil and Mexican war veterans' pensions from \$50 to \$75 and their widows from \$30 to \$50 a month, as well as increase the amount to nurses who saw active service in the Civil war and provide for Indian war veterans and their widows, announced that he would endeavor to have the bill passed over the veto. Senator Bursum, who is chairman of the senate pension committee, said he would take an opportunity to make his motion, possibly tomorrow, but probably a few days later, after a canvass of senate sentiment.

At the same time he admitted there was little probability of its passage over the veto.

Coal Output in United States. Existing coal mines in the United States can produce from 700,000,000 to 900,000,000 tons a year.

### Farmer's Handicap.

The farmer deals with the earth open-handed; he deals with commerce with his hands tied—Liberty Hyde Bailey.

Emerald is Supreme. The emerald is the most precious of gems.

## Kills Coyote and Hunter's Dog With One Shot of Rifle

Unique Accident Resulting from Deflection of Bullet Comes to Light in North Idaho

JULIAETTA, Idaho, Jan. 2 (AP)—How a single bullet from a hunter's rifle killed a coyote and mortally wounded a hunter's dog so that the animal had to be killed is being related here.

About four miles below Juliaetta the Albright brothers have a farm in the Big Polish canyon. Coyotes abound in the vicinity. Recently one of these marauders was being hard pressed by the Albright brothers and a prized Alro

The dog caught up within a few yards of the nearly exhausted animal. The hunter fired. The bullet of the soft-nose variety passed through the body of the coyote, killing the animal immediately. The bullet then struck a rock and glanced. One piece of the shattered missile pierced the Alro's side and wounded him so severely that it was necessary for the hunters to kill their four-footed companion.

Thought for the Day. You will never leave footprints on the sands of time if you spend all your time sitting down.

Knowledge Purchasable. Grace is given of God, but knowledge is bought in the market.—A. H. Clough.

Twin Falls, Idaho.

DEAR BROTHER:

You will be pleased to know that the second annual contest of the SOUTHERN IDAHO DEGREES TRIANGLE OF BUREAU, BUREAU, BUREAU and TWIN FALLS will confer the four degrees at TWIN FALLS, JANUARY 6TH, 1923, 7:30 P. M., in our new hall.

You are cordially invited. There will be a large delegation from all these towns. Our lodge expects every member to be present. Arrange to attend.

Yours in F. T. & T.

W. F. GLASGOW,  
Noble Grand.

## Book Stock Reduction Sale

During the month of January only, we will offer our Popular Copyright books at 50c each. This is less than the replacement price.

We have several thousand copies, with over 500 titles to select from.

Get your supply of winter reading matter now.

Clos Book Store

arrives in the midst of the party. The maid and janitor are in league with the young people so they all join in the merry-making. The play was directed by Miss McKain, advisor to the sophomore class. The play was a real success and was enjoyed by all the students.

The Blue Triangle meeting which was to be held Wednesday evening was postponed. There will be no meeting until next semester.

The final debate tryouts will be held tonight in the auditorium at 7:30.

The final examinations will be held Wednesday and Thursday of next week. Students with a perfect attend-

ance and an average of C will be exempt. There will be no school Friday, January 11.

The moving picture machine, which was given to the school by the class of '22, was used for the first time Wednesday. Two educational films, which were of special interest to the physics and chemistry students, were shown. It is hoped that some English classics will be shown in the future.

The subscription list of the Coyote will be taken up soon. The price of the annual will be \$2 this year, and half of it is to be paid down to insure the selling of the annuals. This guards against any loss and an oversupply of annuals this year.

## Big Removal SALE of Hardware

Now is the time to make your plans for 1923. Our plans are ALREADY made to give you BETTER hardware for LESS money.

## Diamond Hardware Co.

A Good Place To Buy Hardware

## Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight!

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

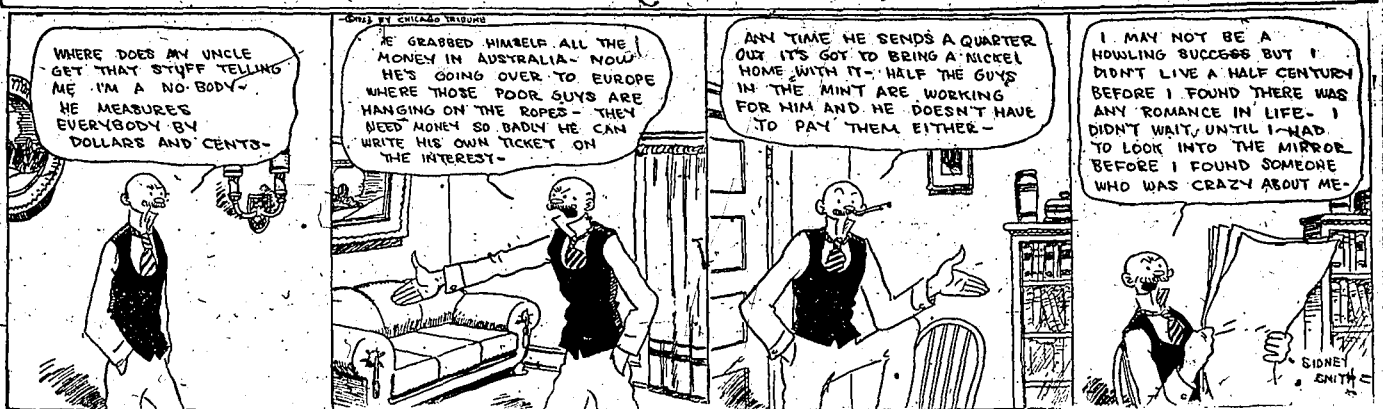

Camels are made for men who think for themselves.

# Camel

## THE GUMPS—TIS LOVE THAT MAKES THE WORLD GO ROUND, BUT MONEY OILS THE WHEELS.

## FRIEND OF DEAF ANSWERS CALL

Mrs. Alexander Graham Bell, Whose Triumph Over Affliction is Boon, Dies

WASHINGTON, Jan. 3 (AP)—Mrs. Alexander Graham Bell, widow of the famous inventor, died here tonight after a long illness. She was 63 years of age.

Mrs. Bell died at the home of her daughter, Mrs. David Fairchild, where she had been failing ever since the death last August of the famous inventor.

## Lives Under Affliction

Mrs. Bell was Marietta Hubbard, the daughter of Mr. and Mrs. Gardiner Greene Hubbard of Cambridge, Mass., where she was born in 1859. The Hubbard family traced its ancestry back through a line of American pioneers to the early days of the island. Although throughout her life she was a leader in her own small social set and acted as her distinguished husband's business manager and aided him in his work, she lived under an affliction of total deafness that followed a severe attack of scarlet fever in her childhood. Through the devotion of her mother, however, who learned to speak and to read the lips of others and her teachers in a private school in Cambridge, where she was the youngest pupil, declared her mentality was higher than that of the other children, despite her disadvantage. In 1885, she wrote an article on lip reading that was published in many foreign countries.

Mrs. Bell's father was deeply interested in Dr. Bell's telephone inventions; backed his scheme and became the first president of the Bell Telephone company.

**Inspires Invention.** She married Alexander Graham Bell in Boston in 1874, after he had studied at his school for voice culture. It was said that she was his inspiration for the invention of the telephone for which he is best known, because his hope that he might find a means of enabling her to hear, led him into his study and experiments in phonetics.

Few persons realize the benefits that deaf children have derived as the result of the long illness that robbed little Marietta Hubbard of her hearing, for it was her father who in 1867 discovered through her that the sign language was the only means of educating deaf children. After teaching the afflicted child to read lips, her parents arranged a demonstration of her ability before Massachusetts legislators. They were so impressed that they granted a charter for the first school of instruction in this method, and now every deaf child can be taught to speak and read lips.

Mrs. Bell contributed articles to many magazines and wrote several plays.

**Capital's Monumental Churches.** Among the great capital cities of the world, Washington alone has no monumental church. Two, however, are building. The corner stone of the National Shrine of the Immaculate Conception has been laid, and the spire of the new Protestant cathedral of St. Peter and St. Paul is already completed. The Protestant cathedral is at the summit of Mount St. Alban, overlooking Washington, a situation one writer calls "the noblest site of any cathedral in the Old World or the New."—Youth's Companion.

**Corn Loaded in Cars by Air Blast.** Loading car corn into box cars has been facilitated by the production of a portable air blast outfit, which is manufactured by an Illinois concern. It is described and illustrated in Popular Mechanics Magazine. When the front end of a wagon is elevated by a jack, its contents fall upon an endless belt that conveys the grain to a powerful blast of air, which blows the corn inside the car.

**Tip.** When the girl keeps on calling your attention to what a lovely ring the moon has, grab your hat and go home. —Richmond Times-Dispatch.

## Army Surgeon Held As Bigamist

Captain Charles Pike. Mrs. Frances H. Pike. Captain Charles Pike of the United States army medical bureau, is shown enjoying his dinner in the Crown Point (Indiana) jail, where he is held on charges preferred by the father of his present wife, Mrs. Frances Helle Pike, that he is a bigamist. "Mrs. Marjory Pike" alleges she is the common law wife of the army officer. Despite her father's action, the present Mrs. Pike rushed to her husband's defense.

## Run of Smelt Cuts Price of Fish on Portland Markets

Quotations Drop to 10 Cents a Pound with Indications of Further Break

PORTLAND, Ore., Jan. 3 (AP)—Columbia river smelt in their annual run, have reached Oak Point. The next station is the Cowitz river with its dip nets. Portland received such liberal supplies of fresh smelt from the Columbia river today that the price was lowered to 10 cents a pound with indications of further breaks. The price has now reached the point where smelt is the cheapest food on the market.

**Bluff Called.** The evening train had filled rapidly. Three commuters, each of whom had a seat, were loudly boasting when they'd do if they wanted a seat, and all because one other man had jumped on the train, turned over double seats and was holding them—the only unoccupied ones in the entire car—for three persons who had not yet put in their appearance.

"Believe me," said one of the former three, "I I needed a seat I'd sit right down there with him."

"Well," said the second, "he wouldn't bar me from sitting there."

And still the third spoke up: "Say, if I had no seat I'd go right back there and turn them over to double quick order."

Two business girls, acquaintances of the three, burst into the train, had arrived late and were standing in the aisle near the three, debating where they'd sit.

"One of them spoke up and said to the men: 'Say, go back and turn them over for us, will you?'"

But not one of the men moved. All smiled slyly and turned to their evening papers, while the two B. G.'s sought seats in another car. —Chicago Journal.

**Getting Her Reward.** I have always made it a practice to wear dirty house dresses, in the morning and afternoon frocks at home no matter what happens.

When my son was eight we moved to a small town where the women were far from up to date in dress and to be brutally frank, not always neat. In a few weeks our maid had become acquainted with other boys near his age, and had been to most of their homes.

**Claim Electrical Cure.** An electric cure for headache is one of the electrical appliances used in the medical world. The ornamental head band is equipped with wires which carry current from a battery. The slight tingle of electricity has a curative effect, according to its inventor.

Another electric device is a little electrical rod carrying a powerful ray, which is used in the treatment of toothache. This device is used to treat diseased gums and abscesses, and is said to bring relief in severe pain.

**Six May Listen In.** Six persons may listen in to radio concerts simultaneously and with rubber-tube ear pieces instead of the more expensive amplifiers and loud-speaking horns. A Pennsylvania man has designed a nickel-plated attachment, shown in Popular Mechanics Magazine, that fits into the ear openings of two receivers and possesses six branch tubes, to which the half dozen listening contrivances are attached.

**Worthy Citizens.** It was one of those overheard conversations:

"Yes, they're a fine couple, regular 100 per cent Americans. They're doing pretty good now; too, and they're saving say the boy can go to college later on."

"What business is the lady, the second talker inquired."

"Oh, didn't you know? The first one replied. "It's in the bootlegging business."

**Perchings and the Pigeons.** In old times falconry was a royal sport and hawks were trained to kill their kills at their masters' feet; today in India deer are hunted in this way. Sportmen are just now reviving falconry in this country.

RIGHT HANDED BOWLERS CAPTURE OPENING ROUND

JEROME HOOPSTERS WILL ENTERTAIN LOCAL STARS

Winners in First Match of Series Pile Up 2147 Against Opponents' 2027

The right handed bowlers walloped the left-handers Wednesday evening at the Twin Falls bowling alleys by a 120 pins, the final score for the three games reading 2147 to 2027.

Ray Cubit was the bright star of the evening, toppling 502 pins in the three games. Cubit had two games of 172, and one of 158. Elmer Atinip and W. McRoberts were tied for high game with 189.

Carlos Linville, who holds the high record for the alleys, played in bad luck during the evening, throwing into a split five times during the first game.

Atinip, subbing for Salmon for the left-handers rolled two games, Salmon taking the helm in the third and rolling 144.

A large crowd was in attendance. Following are the scores made in the first bowling contest of the season:

Left-handers	1	2	3	Total	Avg.
Atinip	189	128	115	432	144
Salmon	144	144	114	402	134
Ayres	111	99	100	310	103
Linglebach	130	100	75	305	101
Woodhead	140	130	135	405	135
Buono	142	133	141	416	138
Totals	718	629	680	2027	135

Right-handers	1	2	3	Total	Avg.
Stewart	135	149	125	410	136
Lewis	117	134	130	381	127
Linville	140	126	152	418	139
McRoberts	157	90	189	436	145
Cubit	172	172	158	502	167
Totals	721	671	755	2147	143

**STRAWLER BEATS YUSKO.** RENO, Nev., Jan. 3 (AP)—"Strangler" Lewis, wrestling champion of the world, successfully defended his title tonight in a finish match with Frank Yusko of Boston.

Lewis won his first fall in 21 minutes with a headlock, and the second in six minutes and 49 seconds with a double wristlock.

Boys and Girls from the North Side to Stage a Double-header Here Friday

Basketball fans will be treated to a double-header Friday evening at the high school gym when the boys and girls of the Jerome high school will engage with the boys and girls of the local institution of learning.

Jerome has a far better team than they presented last year, and have been playing since the football season ended, giving them a decided advantage over the Evans clan, who have played but one game so far this season.

Coach Evans, too, has better material this season, and with the addition of Lard Jenkins, the racy-checker forward, will make the other team of this section step right along.

The girls' team of the local school is still an unknown quantity. Miss Stanchiff, the coach, being undecided as to who would represent the blue and white.

The class games brought out several girls that showed a great deal of promise and early indications point to a championship team.

The first game will be played by the fair sex, and will start at 7:30.

## BRENNAN SHADES WALKER.

GRAND RAPIDS, Mich., Jan. 3 (AP)—Bill Brennan of New York was crowned by newspaper critics as having shaded Hugh Walker of Kansas City, in a fast ten-round no-decision fight here tonight. Brennan weighed 206 pounds and Walker 184.

## VANDALS WIN ANOTHER.

WALLA WALLA, Wash., Jan. 3 (AP)—The University of Idaho basketball team won from the local Y. M. C. A. quintet here tonight, piling up a score of 39 against 25. Richard Fox was the outstanding star of the Vandals.

## Foolish Sensitivities.

Sensitiveness is closely allied to egotism; and excessive sensibility only another name for morbid self-consciousness. The cure for tender sensibilities is to unite more of our objects and less of ourselves.—Dove.

Starts Today: **Idaho Theatre** The Newest Matinee 2:15 Pictures

In the cast: DORIS KENYON, EDMUND BREESSE, ROBERT EDSON, J. BARNEY SHERRY, EFFIE SHANNON

JOHNNY HINES

so fast a picture that your head will swim when you see the action flash in front of your eyes.

"Sure Fire Flint"

As Speedy in Action as a Screaming Tornado. "ARGONAUT MINE DISASTER" (Two Reels). A historical record that everyone will want to see. Literary Digest's "FUN FROM THE PRESS"

## The Screen

"One Clear Call"

Louis B. Mayer, producer of "One Clear Call," the John M. Stahl offering, the Orpheum theatre will present, beginning tonight, is not only a firm believer in the value of great casts on the screen but also is a conscientious follower of the theory. His list of celebrities in this picture reads like a roll call of the most popular players in filmdom.

Milton Sills, Claire Windsor, Irene Rich and Henry B. Walthall head the aggregation, and in the balance of the cast are Joseph Dowling, remembered as "The Miracle Man," Doris Pawn, Shannon Day, Donald MacDonald, Edith Yorke, Nick Cogley, Fred Kelly, William Marion, Albert MacQuarrie, Annette DeFay and Stanley Goethals. Eight of this ensemble rank either as individual stars or featured players of the ordinary release, and none of the rest, with the exception of Master Goethals, have had less than two years' experience before the camera.

## "SURE FIRE FLINT."

Spiced, comedy, action and dramatically intertwined in a mélange of six fast reels is promised patrons of the Idaho theatre, starting with the matinee today. The story of "Sure Fire Flint," written by Gerald C. Duffy, has all to do with the hectic experiences encountered by Flint, and naughtily nicknamed "Sure Fire Flint," because of his dynamic temperament and his utter disregard for danger and the soft, easy path of least resistance. Flint goes to the mine, and there he finds him imbedded more and more into hazardous situations that gives the story every conceivable kind of kick. Official pictures were taken of the Argonaut mine disaster at Jackson, California, which are also being shown on the program. Twenty-five per cent of the proceeds from the rental of this film go to the widows of the miners who lost their lives in the mine fire. "Fanny Layton" from the press of the country conclude the program.

Don't take medicine. Try bowling at the Twin Falls bowling alleys. 154 Second avenue north—adv.

## THE NEW ORPHEUM

# STANDARD OIL MARGIN SMALL ON GASOLINE

Refiners' Profit Averages One Cent to One and One-Half Cents a Gallon, Senate Investigators Are Told

WASHINGTON, Jan. 3. (AP)—Profits averaging from one cent to one and a half cents are realized by the Standard Oil company of New York, upon each gallon of gasoline produced in its refineries, according to testimony submitted by the corporation today in the senate oil investigation.

Testimony was presented to the senate manufacturers subcommittee conducting the inquiry by four officials of the Standard of New York, who, replying to questions put by the committee counsel, described in detail operations of the company in the fields of foreign and domestic trade, transportation and finance. Incidentally the committee got its first direct information as to salaries paid to high officials of oil companies.

**Seven Cents Spread**  
The statement as to profits on gasoline was made by Howard A. Wilkinson, a director of the corporation in charge of domestic sales. He estimated the spread in gasoline between the refineries of the Standard of New York and the company's filling stations in the territory it covers—New York and the New England states—at seven cents a gallon. This spread, he said, was taken up by a little more than four cents for marketing, with the balance representing profits of the company.

The information as to salaries was brought out by Chairman LaFollette. Representatives of companies appearing previously before the committee were asked to submit a list of their higher officials and the salary paid each. However, when Howard J. Cole, third vice-president of the Standard of New York, took the stand today, Mr. LaFollette asked him point blank what his salary was. Mr. Cole plainly was disconcerted by the question but finally replied in a low voice that his salary for 1922 was \$47,500; for 1921 was \$42,000 and for 1919 was \$35,000.

**Discloses Increasing Salary**  
Mr. Wilkinson, who followed Mr. Cole, also was subjected to inquiry as to his salary and likewise in a low voice said he was paid \$32,000 last year, \$27,000 the year previous and \$18,000 in 1920 when he was Boston manager for the Standard of New York.

While the manufacturers committee was pursuing its inquiry, which is expected to be concluded the last of this month, steps were taken by the senate public lands committee to resume its inquiry into leases of naval oil reserves. Definite plans were left for formulation next week but members said that investigation would be made first into leases given by the interior department to the Sinclair interests in the Teapot Dome region of Wyoming, concerning which Secretary Fall of the interior department, desires to testify before his retirement from office on March 1.

Financial operations of the Standard of New York were referred to, before the manufacturers committee by A. E. Hinch, comptroller of the corporation, who estimated net earnings of the company since the supreme court dissolution decree, at \$253,817,550.

**Control Half of Trade**  
Mr. Wilkinson, in replying to questions as to domestic business of the company, said the Standard of New York controlled about half of the retail business in the territory which it covered. He declared emphatically that independent dealers were given the same right in the purchase of gasoline from his company as dealers having the pumps and tanks furnished by the company. Reductions from 2 1/2 to 3 cents a gallon in the price of gasoline in New York City, ordered recently by the Standard of New York, he said, were due to competition by the Gulf and Texas companies.

Other representatives of the Standard of New York will be heard tomorrow by the committee and then the inquiry will be turned to the Magnolia Petroleum company, a subsidiary of the Standard of New York.

**Answer Duty's Call.**  
Let him who groopes painfully in darkness or uncertain light, and prays vehemently that the dawn may ripen into day, lay this present well to heart: "Do the duty which lies nearest to thee," which thou knowest to be a duty! The second duty will already have become clearer—Carlyle.

**Devotion.**  
Devotion is like the candle which Michael Angelo used to stick in his patchboard cap so as not to throw his shadow upon the work in which he was engaged.—Phillips Brooks.

## SPAN FALLS WITH CROWD

(Continued from Page One.)

of the bridge, according to Jack Mason, an employe at the hotel, who reached shore safely by running between the cars as he heard the bridge crashing.

Standard Oil truck went down with the bridge, but the driver, Bill Haver, escaped with injuries.

Water mains to west Kelo were carried out by the crash and the west side is without water. Later a transformer burned out at the pumping plant and the entire city will be without water.

### Steamer Uses Searchlight

The steamer Pomona has its searchlight trained on the river where the span went down tonight, hoping to locate bodies.

Two weeks ago the bridge was subjected to a severe strain by a log jam. The last of the logs was cleared Monday of this week. There was a difference of opinion tonight as to whether the logs contributed to the accident.

### One of Early Spans

The Cowlitz river is a narrow stream and at times of high water is very swift. Recent heavy rains have flooded the river.

The bridge which collapsed was one of the early spans across the Cowlitz and was erected long before the present day heavy traffic would be dreamed off. In 1915 it was considered in bad shape and at that time was rebuilt. Two piers of heavy pile driven provided the foundations for the structure, which was of the bascule or

## Dr. Lorenz's Son Will Marry Yet

Dr. Lorenz's Son Will Marry Yet

When Baroness Rolanda Stankovic of Vienna, landed in New York to become the bride of Dr. Albert Lorenz, son of the famous bloodless surgeon, she was refused a marriage license because she was a foreigner.

balanced drawbridge suspension type, a short distance away, was nearing completion but had not been opened.

### Motavians' First in Ohio

Missionary ministers of the Moravian church were the first white settlers in Ohio. In 1722 these men laid the foundation to the town which they called Schoenbrun, in the Tuscarawas valley of the unknown wilderness.

## WIDOW MEETS CHARGES OF MURDER WITH SMILE

Family Physician Tells of Finding Body with Bullet Wound in Neck, But No Powder Burns

HEMPHILL, Texas, Jan. 3 (AP)—Mrs. Lillian Knox, widow of a Texas millionaire, Texas lumberman, found dead in bed at his home in Hemphill the morning of November 26, smiled when she faced her accusers in the court room today. Mrs. Knox is charged with her husband's murder.

A crowd of friends of the "lady beautiful" of the lumber camps, many of them employes of the Knox mill, filled the little court room where W. H. Pratt, judge of the peace, heard testimony all day.

The testimony—fully to develop all of the sensations examined by the state's attorneys—only a few of the 22 witnesses for the state had testified when adjournment was taken for the night.

The first witness called at the hearing today was Dr. T. W. Arnold, family physician, who testified he was called to the Hemphill mansion in the early hours of November 26. He found Knox dead in his room with a bullet wound in the back of his head, he testified.

There were no powder burns, Dr. Arnold said.

The state is counting on this bit of testimony to go for tomorrow showing that Knox did not commit suicide, as was at first believed.

Dr. Arnold testified that Mrs. Knox told him the night of Knox's death that her husband had been despondent and worried over financial matters, and had been drinking.

## ROBB PREFERS CHARGES AGAINST FORMER JAILER

Deposed Chaplain-Sheriff, Held on Larceny Charge, Counters Against His Accuser

DEN MOINES, Iowa, Jan. 3 (AP)—W. E. Robb, until yesterday Polk county's chaplain-sheriff, today filed two charges of perjury against William McMurray, former county jailer, who preferred charges of grand larceny against the sheriff in connection with the theft of \$30,000 worth of liquor from the county jail last week.

McMurray was taken into custody immediately and was released on bail. The perjury charges were filed in connection with McMurray's allegations that Robb had illegally disposed of seized liquor and that he had converted stills, barrels and other matter to his own use.

Robb was given a preliminary hearing in municipal court this afternoon but without examination and was bound over to the grand jury. Immediately after his hearing the former minister, chaplain and sheriff was arrested on charges of parking his automobile over time in the business district. He was fined \$5, but the fine was later suspended.

### Boob, Indeed!

Mac—"Jack was over to see me the other night and I kept telling him what a reputation he had for being a devil among the women." Mary (anxiously)—"And did he live up to it?" Mac—"No, he just sat there like a perfect boob and kept denying it."—Michigan Gargoyle.
