## STRIKES AT VOTING LAW INTRIGACIES

Bill in Idaho House Would Make Registration of Voters Less Expensive and Vexatious; Proposes Change

BOISE, Idaho, Jan. 18, (P)—Registration of voters in Idaho will be made much less expensive and vexatious in the belief of house members expressed today when a measure by W. D. Huffaker of Idaho Falls, and Charles A. Johnson of Burley, was introduced.

Providing that one registration for voters in a precinct would be sufficient until the removal of the voters from that precinct and eliminating the annual registration, the bill distinctly changes the present system in the state.

Cutting thousands of dollars from the annual expense of registration, and cutting the additional expense of the registrar to a minimum, the bill would further provide that a certificate of transfer would be the only necessary legal step to secure the right of franchise for a voter when he or she moved to another precinct in the county.

Removal from the county to adjoining counties in the state would be the only requirement of a new registration. Under the present law, registrars are paid for each new registration which is required at each general election or primary.

Labor Backs Lien Bill That the full force of organized labor in Idaho will go behind the Raymond-measure's lien bill introduced last week in the house is developing.

The measure provides that all mechanics' liens will take precedence over other liens, including mortgages, first filed. So interested are labor members in the provisions of the bill it was learned today that a powerful labor lobby would be on hand to push the measure and others of interest to unions.

Senator Mark A. Means of Lewiston would have introduced under lien, but for the fact that the bill introduced Thursday morning.

Tax Exemption Sidetracked Indefinite postponement was the fate meted to the five hundred dollar improvement tax exemption measure of Senator Huffman.

From the Clearwater senator a new mining tax measure duplicating the house bill was thrown into the senate hopper today.

House bill by Huffaker of Bonaville would require litigants who ask for a jury to deposit a sufficient amount for one day and mileage expense of jurors.

## WITNESS NAMES HOODED RAIDER

Bastrop Hearing Brings Out Testimony on Identity of One of Kidnapers

BASTROP, La., Jan. 18, (P)—Testimony as to the identity of one member of the masked band which on August 24 kidnaped Watt Daniel, T. F. Richard and several others, was offered today at the open hearing being conducted here by the state of Louisiana into the activities of hooded men in Morehouse parish.

The mutilated bodies of Daniel and Richard were found several weeks ago floating on the surface of Lake La Fourche. Pathologists reported the two men had been tortured to death before their bodies were thrown into the lake. Other members of the kidnap party were testified to have been flogged by the kidnapers.

Fred Eubanks testified he was held up by masked men on the Bastrop-Mer Rouge highway that evening and that he recognized Newt Gray as a member of the party.

Much of the testimony both yesterday and today centered about Gray and his counsel stated certain questions put to him while on the stand Tuesday and Wednesday bordered on the "third degree" variety. Judge Fred M. Odom ruled that Gray need not answer any question that might tend to incriminate him.

## HARVEY LEAVES WHITE HOUSE

WASHINGTON, Jan. 18, (P)—Ambassador Harvey, who has been a guest at the White House since January 8, left last tonight for New York. Although no definite statement was made, it was indicated that he might return to Washington some time next week before leaving for his London post.

## WOJIECHOWSKI IS POLISH PRESIDENT

STANISLAUS WOJECIHOWSKI, former minister of the interior in the cabinet when Ignacy Paderewski was premier of Poland, has been elected to the office of president of Poland, following the assassination of President Narutowicz.

## SENATE TO VOTE ON CAPPER BILL

Arrangements are Made for Final Action on Farmer Relief Measure

WASHINGTON, Jan. 18, (P)—Arrangements for a final vote tomorrow on the Capper bill, the first of the farm credits measure to be taken up, were made by the senate into today after another day of general discussion. In view of the delay on the bill, which was scheduled to be passed last Monday, leaders today obtained unanimous consent to close the debate tomorrow at 2 o'clock and a vote, expected to be almost unanimous, is due to follow.

Attempts to amend the bill were rejected, 40 to 21, an amendment by Senator Fletcher, democrat, Florida, proposing private management of farm land banks when federal capital is in a minority.

Another amendment rejected was by Senator Simmons, democrat, North Carolina, proposing that loans be made to farmers on chattel mortgages by the cooperative credit associations provided in the bill.

This was opposed as a "paw broking" amendment Chairman McLean of the banking committee declaring it would enable borrowers to obtain loans by giving chattel mortgages on "watches, overcoats or furniture."

Senator Trammell, democrat, Florida, offered an amendment providing for loans by the proposed associations upon farm real estate up to fifty per cent of its value. The amendment was left pending for disposal tomorrow.

## MEXICO CANCELS GRANT

Withdraws Permission to Los Angeles Interests to Exploit Public Oil Land in Tampico Region

HOUSTON, Texas, Jan. 18, (P)—The Mexican government has annulled the grant to a group of Los Angeles capitalists to exploit public oil lands in the Tampico region, according to advices from the Houston Post correspondent at Monterey. Failure to make a deposit of 400,000 pesos is given as the reason for the deal falling through the dispatch added.

The department of industry, commerce and labor, in making the announcement, issued a statement declaring that the government now was in a position to negotiate with other parties for development of these regions, about 11,000,000 acres situated along rivers and streams adjacent to Tampico and Turpan fields.

## The Day in Washington

(By The Associated Press)

President Harding, still confined to his room with an attack of grippe, was reported much improved.

American merchandise exports during 1922 were valued by the commerce department at \$3,311,516,735 compared with \$4,485,031,556 in 1921 and \$2,484,018,292 in 1913.

Italy, it became known here, hoping the Rubik situation to be brought with dignity, has urged France to consider carefully the advisability of taking any further steps to forcibly collect German reparations.

Compared with 1921 totals, gold imports during 1922 decreased \$418,078,512, the commerce department announcing, however, that \$1,923,987,517 in gold exports and \$2,555,987 in silver exports and \$1,123,187 in silver exports.

## SELF-NAMED TRIBUNAL'S WORK TOLD

Arkansas "Citizens' Court" Claims Credit for Clearing Up Two Years' Depredations Incident to Rail Strike

HARRISON, Ark., Jan. 18, (P)—Virtually winning up its work of investigating the depredations on railroad property which are said to have occurred during the past two years and recently reached such proportions as to cause officials to threaten the suspension of operation of the Missouri and North Arkansas railway, the "citizens' court" tonight issued a statement making known for the first time the result of their efforts.

According to the announcement, the committee and court will prepare the evidence for presentation to the state courts and the legislative committee appointed by Governor McRae yesterday to investigate the riots on the railway and the lynching here of C. B. Gregory, an alleged strike leader, who was hanged Tuesday from a tree.

The statement issued by the self-appointed tribunal says in part: "We welcome the action of the legislative committee. We are congratulating ourselves on having won this situation with a minimum amount of tragedy and unpleasantness. What the civil and court authorities were unable to handle in the past two years, the citizens have accomplished in two days' time."

Ready to Forget "Some men who have suffered from the strike are still more or less 'hard boiled' but they are a number and the people of the entire region are ready to forget and forgive animosities."

It was explained today that the "citizens' committee" is working as a clearing house and will continue for a few days more. The committee's activities consist of the main of questioning witnesses brought before it. If a person failed before the committee is found satisfactory the committee puts it, O. K. on him and a witness is planned on the witness' coat.

## GOVERNOR GIVES ASSURANCE CONDITIONS ARE NORMAL

LITTLE ROCK, Ark., Jan. 18, (P)—Governor P. C. McRae today assured officials of railway shippers, through Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, that conditions along the route of the Missouri and North Arkansas railway again are normal and that the authorities are in complete control of the situation.

The governor gave this information in a telegram to Mr. Stone, replying to one from the labor leader stating that his information was that "the strike is doing nothing to stop those depredations."

The governor again today received messages from the sheriff and other Boone county officials assuring him that order prevails and that the depredations and the progress now being made toward clearing up the alleged disorders and apprehending those responsible are satisfactory.

The two men sentenced to prison today and began their terms of seven and ten years. They are reported to have said here that they "were not guilty, but pleaded guilty to save their lives."

The president of the state senate today appointed a committee of three members to conduct an investigation of the recent troubles along the Missouri and North Arkansas railroad. A similar house committee was named yesterday.

## MACHINEISTS' UNION CHIEF DEMANDS PROTECTION

WASHINGTON, Jan. 18, (P)—A demand for protection of the striking shop workers of the Missouri and North Arkansas railroad at Harrison, Ark., whose activities have come under the ban of a "committee of 1000" raised in this city.

(Continued on Page Four)

## Expert Says Wind Carried Dust From Utah to Wyoming

Laramie Investigator Identifies Soil Borne Along by Storm as From Neighbor State

LARAMIE, Wyo., Jan. 18, (P)—When a terrific windstorm swept the Rocky Mountain region recently, part of Utah was blown into Wyoming, according to Professor Samuel H. Knight of the University of Wyoming.

Knight examined minutely the particles of dust found in this vicinity after the storm had subsided.

He announced that the investigation disclosed that the dust is composed of the most part of minute grains of quartz and covered with a thin coat of iron oxide. No dust of a similar character is natural to Wyoming, he said.

"A reasonable estimate based upon studies during and following the storm," Knight said, "places the amount of material transported by the storm at 2,000 tons per square mile."

## DEBT PARLEYS WORK FINISHED

British Commissioners Leave Final Action to Embassy at Washington

WASHINGTON, Jan. 18, (P)—Discussions between the American and British debt commissions were adjourned today, but with the understanding that negotiations for refunding Great Britain's war debt to the United States would be continued through the British embassy here. Following the joint session of the commissions, an official spokesman voiced the expectation that the consultations which the British group are to have with their cabinet immediately after their return from Washington will pave the way for an agreement in principle in time for action by the American congress at the present session, which ends March 2. It was agreed that otherwise a refunding arrangement could not become operative in less than one year.

Only Details Remain.

Stanley Baldwin, the British chancellor of the exchequer, and head of the British group, was represented as holding the opinion that he could accomplish more in this regard through a personal conference with the cabinet than through even the most extended cable.

Immediately after today's session Mr. Baldwin and the other members of the British mission, departed for New York. They will sail for home tomorrow, arriving on Friday of next week. It was stated that Mr. Baldwin expected to confer with the cabinet on the day following and that the negotiations would be resumed through the British embassy during the week beginning January 23.

The final session of the commission lasted a little more than an hour and a half.

## Interest Rate Sothens.

Details as to the various suggestions that have been put forth during the conversations of the commissions which have extended over the past ten days, still were withheld, but it was learned that the British government regarded an interest rate of 3 per cent as fair and equitable, while the Americans presented arguments in favor of a rate somewhat higher, but at the same time below the 4-1/2 per cent fixed in the debt refunding law.

Coincident with the adjournment of the debt discussions, the mission to have sent through Harvey, who was recalled from London before the arrival of the British mission in this country, would return to his post in the very near future.

## HARDING IS IMPROVING

Physician Says President is Making Favorable Recovery from Attack of Grippe but Advice Best

WASHINGTON, Jan. 18, (P)—President Harding was reported tonight by Brigadier General Sawyer, his physician, to be making favorable progress toward recovery from the attack of grippe with which he has been suffering for the past few days. Dr. Sawyer said, however, he deemed it best inadvisable for the president to leave his office tomorrow and had advised him to "stick pretty close to his room."

The president remained in his room today and was said to have rested "reasonably well."

## COX BEES LEAGUE AS LIVE POLITICAL ISSUE

LANCASTER, O., Jan. 18, (P)—The league of nations still is an issue and the present public indictment is that General Cox has brought it back to Washington, declared former Governor James M. Cox of Ohio, democratic candidate for president in 1920, in an address here tonight. On this occasion of a Jacksonville observance.

## GERMANY FORBIDS RAILMEN TO MOVE COAL FOR FRANCE

Mediation Proposals Delay Consideration of Request of Berlin Government for Moratorium; Italy's Prime Minister Would Assume Role of Mediator; Seeks Agreement Between France and Germany to Stop Military Moves

BERLIN, Jan. 18, (P)—The German government has forbidden state railroad officials and workmen to co-operate in any way in forwarding coal to France and Belgium.

PARIS, Jan. 18, (P)—Formal discussion of Germany's request for a moratorium which was being postponed, and it seems probable that initial consideration of the question will not come up until next week.

## BRITISH MEDIATION IS SOUGHT BY GERMANY

LONDON, Jan. 18, (P)—The German government is sending a confidential mission to London to request the British government to mediate between France and Germany, says a dispatch to the Times from Essen.

## AMERICAN ADMISSION OF FRANCE'S RIGHT DENIED

State Department Disclaims Passing Judgment on Application of Treaty to Occupation of Ruhr

WASHINGTON, Jan. 18, (P)—The state department took steps today to correct any impression that the Washington government has attempted to pass judgment on the application of the terms of the treaty of Versailles to French occupation of the Ruhr. It was denied that Secretary Hughes, in his conversations with Ambassador Jusserand, over had expressed the view that France had the right in a legal sense to carry out the occupation.

The denial was prompted by publication in a French newspaper of an article saying that Mr. Hughes had so informed the ambassador, at the same time, however, expressing American disapproval of the expediency and wisdom of the course the French authorities had decided to adopt. The department's spokesman would not go beyond the flat assertion that this published statement was not in accordance with fact, insofar as the French right under the treaty was concerned.

## CENTRAL COMPETITIVE FIELD BASIS SCRAPPED

Coal Miners and Operators Eliminate Pennsylvania from Zone for Fixing Wages and Working Conditions

NEW YORK, Jan. 18, (P)—The old "central competitive field" basis, upon which wages and working conditions in the bituminous coal industry have been determined almost continually since 1908, were scrapped today by operators and union officials, conferring on 1923 wage contracts.

In its stead, a new "tri-state" competitive field was mapped, consisting of Indiana, Ohio, West Virginia, eliminating Pennsylvania, and upon this tri-state basis the conferees hope to proceed with the establishment of standard wage rates which operators and miners throughout the United States may use as a guide in possibly working out contracts this spring. Miners and employers declared at the close of today's sessions that they were ready to accept a complete new work within a week. The interim to April 1 then would remain for the negotiation of new wage scales throughout the industry, existing contracts expiring on that date.

## TWO FALL TO DEATH AS GALE OVERTURNS PLANE

Pilot and Companion Are Instantly Killed when Machine Drops 500 Feet to Ground at Cheyenne Field

CHEYENNE, Wyo., Jan. 18, (P)—Caught in a 50 mile gust of wind as they hovered 500 feet in the air near the Cheyenne aviation field here today, P. S. Grier of Cleveland, Ohio, and William Acor of Cheyenne, were instantly killed when their plane crashed to the ground.

The two men were using an airplane in a test flight, after it had been overhauled. It was Acor's first flight.

The plane, crashed about a quarter of a mile from the local hangar and bit-attachers who witnessed the accident ran with wire extending from the wreckage of the plane after its gasoline tank had exploded. Oakes' body was thrown 25 or 30 feet from the plane when it struck the ground but the fire spread so rapidly that it enveloped his body. Acor's body was pinned beneath the engine.

Officials at the aviation field said that the wind caused the plane to take two complete loops before it fell, and they saw black smoke emitted by the engine. Pilot Oakes had just completed flying around the city and was returning to the landing field when the accident occurred.

Among the most important reasons advanced for the delay is the reliably reported offer on the part of the German government to arrange a compromise between Paris and Berlin, with Italy as mediator of the present differences.

It is clear that Premier Mussolini does not in their present attitude of military operations which the French declare were made necessary by the German policy of passive resistance. In well informed diplomatic circles it is explained that all Mussolini's efforts are being directed toward an agreement between France and Germany which would make extensive military operations unnecessary.

## BRITAIN DEMURS PRESENT TOO EARLY FOR MEDIATION

LONDON, Jan. 18, (P)—The attempt being made today by the Italian representation to the allied ambassadors in Rome to bring about mediation between the French and German representatives, according to British official opinion.

It is believed here that no power can divert the French from a coercive policy of obtaining reparation while they are in their present attitude of mind. Interference would be likely only to delay the time when they are to decide whether military methods of exacting payment from Germany are a success or failure.

## COAL SEIZURES TOTAL OF OCCUPATION'S RESULTS

ESSEN, Jan. 18, (P)—The first week of French occupation of the Ruhr has ended and while troops on patrol and hold the railway in a ring of steel, little or no headway has been made by the economic mission in the way of achieving practical results. The only concrete returns for the seven days of occupation by the French have been the requisitioning of a fairly large number of cars and barges loaded with coal destined for the interior of Germany.

The failure of the French to execute their threats to confiscate or requisition the mines and the coal magnates to jail is considered in German circles here a plain retraction from the uncompromising iron-fisted policy announced by the military.

The failure has caused a cor-

(Continued on Page Five)

## DEPUTIES SPLIT ON CASHIN CASE

Rioting Precedes Vote to Suspend Parliamentary Immunity of Communist Member

PARIS, Jan. 18, (P)—After what is said to have been the wildest rioting in the French parliament since 1914, during which 60 deputies engaged in a free-for-all fist fight on the floor, the chamber of deputies this evening voted to suspend the immunity of Marcel Cachin, the communist member.

A commission of the chamber which investigated charges that Cachin recently had been engaged in subversive activities in the Ruhr recommended that the deputy's parliamentary immunity be lifted so as to permit prosecution of Cachin by the government on a charge of conspiracy against the security of the state in connection with plans to call a general strike in the Ruhr and in French cities in protest against France's seizure of the Ruhr.

Several deputies, notably radicals, during the debate, expressed disapproval of the government's action. They declared that M. Cachin was being persecuted for his opinions and that the evidence adduced by the government was the crime of the crime. Francois Arago, vice president of the chamber, presiding, had to suspend the sitting for a time. When it was resumed the uproar steadily grew worse, and finally the communists rose in a body and, bowing over the ushers, attempted to storm the presidential desk. The members of the right, led by Prince Maurice Boncompagni-Ludovisi, intervened to prevent the rescue. When the two bodies met, fists flew.

Eyes were blackened and lips and ears were swollen in the confusion. In the end, the two bodies above the tumult, finally ordered the sitting suspended again, but the battle went on for several minutes until reinforcements were brought up and succeeded in parting the belligerents and forcing them into the lobby.

# DENIES RIGHT OF INQUISITORS TO SEE BOOKS

Harry F. Sinclair, Oil Operator, Declines to Produce Corporation Records; Committee Issues Subpoena

WASHINGTON, Jan. 18 (AP)—A subpoena for the books and records of the Hyva corporation, a Sinclair owned concern, was drawn up for service upon Harry F. Sinclair today by the senate oil investigating committee, after Mr. Sinclair had refused to concede the right of the committee to go into the affairs of the corporation pending consultation with his attorneys and had failed to return to the committee session after two hours' absence.

Directions were said to have been given by Chairman La Follette of the committee to David S. Barry, sergeant at arms of the senate, to serve the subpoena before night. Mr. Sinclair was understood to be at work preparing a statement setting forth his attitude on the committee demands as made by its counsel during the course of that morning earlier in the afternoon.

**Sinclair Gives Postscript.**  
Mr. Sinclair appeared a few minutes after the committee adjourned with the statement which, as given out by him, said that he would willingly supply any records bearing upon subject under inquiry by the committee, but that he was "not willing to produce the records of the Hyva corporation that pertain to other matters and not pertinent to the subject matter under inquiry."

**Skirts Big Controversy.**  
The committee session previous to the clash between Mr. Sinclair on the one hand and Chairman La Follette and the committee attorney, Gilbert E. Roe, on the other, had been enlivened by a tilting of the lid of the Teapot Dome controversy. The Teapot Dome matter was brought before the committee through questions by Senator Brookhart, republican, Iowa, committee member, who, after Mr. Sinclair had made several statements with respect to the controversy, quickly clamped down the lid, declaring the committee did not want to go into the broad features of the Teapot Dome.

The committee then turned to the Sinclair interests by the Harding administration, "because that is to be investigated by another committee." The statements made by Mr. Sinclair with reference to the Teapot Dome, some in answers to questions by Senator Brookhart and others through interjections by Mr. Sinclair, answers to the questions, included testimony that, although the lease did not cost Mr. Sinclair anything, he assumed under its obligations amounting to between \$50,000,000 and \$100,000,000.

**Makes Frank Answer.**  
Senator Brookhart asked what Mr. Sinclair gave the Mammoth Oil company, the corporation operating Teapot Dome, in addition to the contract, in return for virtual ownership of the Mammoth. Mr. Sinclair replied that transaction on his part involved nothing but the contract which he said had a great potential value. The senator attempted to ascertain the value of the stock received by Mr. Sinclair and the witness frankly agreed that on the basis of present New York curb market quotations it would be worth about \$100,000,000, but said it would be difficult to sell the entire stock of 2,900,000 shares on the curb.

An attempt by Mr. Roe to trace the disposition by Mr. Sinclair of this Mammoth stock through the Hyva corporation led to the clash regarding the records of the corporation.

The Hyva corporation was touched upon in yesterday's testimony at the time Mr. Sinclair, in answering various questions, expressed doubt as to the authority of the committee to inquire into the affairs of what he described as a private corporation. When Mr. Roe again took up the Hyva concern today, the witness said he was able to answer the questions only in a general way and would prefer not to answer without his records, if his statements were to be challenged later when the records became available.

**Chamberlain's Cough Remedy.**  
This is a pleasant, safe and reliable medicine for coughs and colds. It has been in use for many years and is held in high esteem in those households where its good qualities are best known. It is a favorite with mothers of young children, as it contains no opium or other harmful drugs. Try it when you have need of such a remedy.

## WALLACE REID LOSES IN FIGHT AGAINST NARCOTIC

Motion Picture Actor Dies at Sanatorium in Hollywood Where He Had Been Patient for Months

LOS ANGELES, Jan. 18 (AP)—Wallace Reid, hero of romantic film plays, lost his life in fighting to overcome the drug habit. The end coming this afternoon at a sanatorium in Hollywood where he had been under treatment for more than a month. He had been unconscious for nearly two days, during all of which his wife, Dorothy Davenport was at his bedside.

The direct cause of death, according to Mr. Reid's physician, Dr. G. S. Herbert, was congestion of the lungs and kidneys, which resulted from the act of his collapse when he endeavored to break off the use of narcotics.

Reid, who was six feet tall, and whose normal weight was 183 pounds, lost sixty pounds before he came. Up to about a week ago, relatives said he was improving and would be able to resume work in the studio of the Famous Players-Lasky corporation by July at the latest.

"I'm winning the fight, mama," was his invariable greeting to his wife when she called on him. Mrs. Reid said her husband contracted the drug habit during an illness nearly two years ago. He was working on a picture early in November, when he suddenly collapsed.

He was advised to take a long rest and started on a mountain trip with Mrs. Reid, Teddy Hayes, his trainer, and H. H. Muller. On his return to Los Angeles, his condition showing no improvement, he went to the sanatorium.

Shortly before Christmas his family made public the cause of his breakdown. Mrs. Reid declaring she believed the information might aid in arousing the American people to the necessity of suppressing the narcotic traffic.

**AMSTERDAM.**—The Amsterdam Mercantile company held a stockholders' meeting on Monday.

Mr. and Mrs. Otis Nugent and children are residing at the high life, spent Sunday with relatives near Amsterdam.

Mr. and Mrs. Paul Reed and children of Twin Falls are spending some time visiting in Amsterdam.

## DEVICES ROAD METER TO COUNT AUTOMOBILES

Cascade Forest Supervisor Invents Automatic Recorder for Use in Nation's Woodlands

EUGENE, Ore., Jan. 18 (AP)—If a device invented by Nelson F. Macdonald, supervisor of the Cascade national forest, is successful in its operation, the number of automobile visitors in national forests of the northwest will be counted automatically in the future.

Supervisor Macdonald's apparatus consists of a wooden culvert placed on steel springs which will undergo a minute depression every time a vehicle passes over it. The depressions will be registered on a special meter.

The device is now being experimented with by C. B. McFarland a ranger in the Cascade National forest at the Ranger station southeast of here. It will be tried first on the Willamette highway entrance to the forest.

## LABORERS' WAGES IN JAPAN SHOW UPWARD TENDENCY

TOKIO, Jan. 18 (AP)—The result of investigations made by the Tokio Chamber of Commerce indicates an upward tendency of general laborers' wages during October. Of 50 different classes of labor, eight dropped in wages, and 10 rose, while the rest, numbering 32, remained practically unchanged, the increase in October on the general average amounting to half a sen.

Among those whose wages dropped in October were weavers, glass makers, bricklayers, shoemakers and tailors. The wages of those engaged in canning, cement making, spinning, and blacksmithing appreciated, while unchanged were the wages of those connected with match making, brewery, confection, lumber and general factory goods.

## GIVE VIEWS ON MERGING ROADS OF NORTHWEST

Northern Pacific Officials See  
Advantages in Joining Mil-  
waukee with Great North-  
ern System

WASHINGTON, Jan. 18 (AP)—Advantageous aspects of a possible merger of the Great Northern, Chicago and Milwaukee and St. Paul railroads were portrayed before the interstate commerce commission today by general officials of the Northern Pacific system. At the same time the witnesses maintained the position that public and corporate interests would best be served by the creation of a new system, possible to include the Great Northern, Northern Pacific and Chicago, Burlington and Quincy roads in one great system. The issues involved have been brought up by the commission's investigations into a plan for general consolidation of all the railroads in the United States into 18 or 19 systems, as authorized by the transportation act.

Elliott Computes Debt.  
Howard Elliott, chairman of the board of the Northern Pacific, estimated that the Great Northern and Chicago, Milwaukee and St. Paul systems, an aggregate of approximately \$250,000,000 in bonded indebtedness falling due during the next 17 years, but expressed the view that this would be no way higher a merger of the two. The securities could be refunded, and the credit of such a merger as contemplated he maintained, he said, if national policy regarding roads was satisfactory, because the territory they served was destined to develop.

G. Woodworth, vice president of the Northern Pacific, in charge of traffic, declared that any attempt to unite the Chicago, Milwaukee and St. Paul system with his road would meet opposition from the northern commercial interests as likely to decrease competition in railroad service and increase difficulty in car shortage, a combination of the two. The St. Paul system with the Great Northern, in his view, would maintain a competitive character of railroad service throughout the territory and all the northern transcontinental lines. Representatives of the Chicago, Milwaukee and St. Paul systems indicated they would reserve testimony on the subject until the commission's hearings in northwestern cities—dates for which have not yet been fixed—are held. The position of the Chicago, Great Western company, the only one of the three to be discussed today, was expressed by W. W. Sullivan, assistant to its president, who said that any disposition of its lines in a consolidation would be to protect property interests of its owners would be satisfactory.

## Brings Relics From World's Corners to California Chapel

Material Entering Into Con-  
struction of Abbey San En-  
cho Rich with Romance

LOS ANGELES, Jan. 18 (AP)—Bricks and stones from Westminster Abbey, Charlemagne's tower and old Manila, carvings from Metz and Cavite, old ship lanterns, nails, a pipe organ from France and a battle standard from the old Spaniards and Indians comprise a portion of the materials said to have been used in the construction and equipment of unique religious structure located in a secluded arroyo near here.  
Abbey San Encino as it is known, is the work of Father Delaney, and has been in course of construction for more than eight years. With high but tressed walls of blue granite, tall clock tower and glass windows and a tower, it follows the general lines of the old mission style. The red tiles which form the roof were molded and baked by the hands of its builder. Almost every material in the construction of the Abbey carries its story. A key, said to have once been Napoleon's, stands in a big pane of glass wrought iron slings and opening into a great hall. Stones, now part of the brick pillars around the patio, are said to have come from the battlefields along the Italian and German fronts.

## AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns  
Gray, Faded Hair Dark and  
Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Examine one of these preparations now because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application two or three days later your hair becomes beautifully dark, thick and glossy and you look

## St. Mihiel Brings Back American Troops

The Big United States Army transport St. Mihiel, commanded by Captain W. Oliver, is shown here loading in New York before sailing for Europe to bring back the last American soldiers stationed on the Rhine, thus expressing America's disapproval of France's further invasion of Germany.

## FORD HAS PLAN TO END STRIFE

Motor Maker Counts On Edu-  
cation and Prosperity to  
Make Wars Impossible

DETROIT, Jan. 18 (AP)—Henry Ford's industrial expansion program is world-wide, not national, in scope, and has been undertaken with the underlying motive of educating the people of the world to such a degree and of making them so prosperous "that wars will be ended forever."

This was disclosed today as the motive back of the Detroit manufacturer's desire to extend his operations into every part of the world.

Mr. Ford believes that "a busy, prosperous people do not stop work to make war; they go to war only when it is necessary to protect their homes or their ideals when these are menaced by some more idle nation."  
"When the time comes that everyone, everywhere, has a job, and lasting prosperity has been created as a result, the people of any nation will be too busy and too happy to even think about war," the manufacturer says. Therefore, it is pointed out by those in close touch with him, he is convinced that world industrial expansion, bringing with it prosperity for all peoples in all lands, automatically will make war impossible.

The manufacturer is known to believe that the automobile is the agent that will usher in the millennium of world peace.

"When the people of any country get to understand automobiles and use them daily, they will know considerably more about machinery," he declares. "Then, in the course of a few years agricultural machinery will appear in that country. Hundreds of bushels of grain will be produced where only a few were grown before. In many foreign countries the farmers have now nothing of machinery. Probably they will not know it until they have learned to use automobiles."

"Machinery will help to make any country prosperous."  
"There is another reason why world-wide use of motor cars will help to end war. That is in the increase of travel on the part of persons of any country."

"In Mexico villages fight one another. If we could give every man in these villages an automobile, let him travel from his own home town to his neighbor's, and permit him to find out that his neighbors, at heart, were his friends, rather than his enemies, Mexico would be pacified for all time."

"Russia could be saved by the advent of the automobile. It would educate the peasants by instruction in machinery. Other machinery would be brought in to till the fertile acres, and the peasants were once taught to use

it. There would be no more hunger anywhere in that country."  
"The same is true, to a greater or less degree, of every country under the sun."

Mr. Ford, according to those close to him, has come to look upon automobiles not merely as the products of his factories or the plants of other motor companies, but as a means of civilizing and pacifying every part of the world.

Dissecting the Grumbler.  
Grumblers deserve to be operated upon surgically; their trouble is usually chronic.—Douglas Jerrold.

Finally Learn Truth.  
There is a time in every man's education when he arrives at the conviction that envy is ignorance.—Emerson.

## CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys  
If Bladder Bothers or Back  
Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly headache and misery in the kidney region, rheumatic twinges, severe headache, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the purest of grapes and lemons, juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink, which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.—adv.

Billious Headache.  
When you have a severe headache, a disordered stomach and constipation, take three of Chamberlain's Tablets. They will correct the disorders of the stomach, bowels, and bowels, effectually curing the headache.—adv.

## BAY IS BELIEVED HAVEN OF MISSING AUTOMOBILES

Search of Ocean Floor May Be Made  
to Recover Scores of Stolen or Wil-  
fully Lost Machines

SAN FRANCISCO, Jan. 18 (AP)—The bottom of San Francisco Bay may be searched as a possible "parking station" for scores of unrecovered stolen or wilfully lost automobiles, as the result of a confession of an alleged automobile thief that, to escape detection, he drove a car into the bay at the Presidio here.

Aside from actual theft of the cars, B. W. McCay, chief investigator of the theft bureau of the Pacific Coast Automobile Underwriters' Conference, to whom the confession was made, believes "that the waters of San Francisco Bay cover a number of machines which were driven therein by persons who later collected insurance after reporting their cars stolen."

"Only recently," he said, "the police of Vancouver, B. C., retrieved a dozen cars from the bottom of the Fraser river. If we recover any automobiles from the bottom of San Francisco Bay on which insurance has been paid to owners, we will require the owners to do some explaining."

Few Really Uscians.  
No one is modern in the world who lightens the burden of it for anyone else.—Charles Dickens

## The Screen

RICH MEN'S WIVES.

The butterfly-eyed woman with the silk worm, which spins its threads that so-called butterflies may be beautifully gowned, is far happier than its human prototype, if one is to believe the story of "Rich Men's Wives," the preferred picture now playing at the Idaho theatre.

"QUEEN OF THE MOULIN ROUGE"

No one need express surprise at her splendid portrayal of the true role in the Ray C. Smallwood-Pyramid picture, "Queen of the Moulin Rouge," by Martha Mansfield. The role fits her like a glove because in it she appears as a dancer and as such she shone in the brilliant revue and extravaganza of Broadway. She was the "Century Girl" in Dillingham and Ziegfeld's production of that name; she was in the "Polles"; she was in A. J. Vanda's stage production of "On With the Dance."

That is her background, her training, she became Eugene O'Brien's leading lady in Solheim's picture, "The Girl in the Red Velvet Dress," played with Van McElhin in "Civilian Clothes," or John Barrymore in "Dr. Jekyll and Mr. Hyde."

COUSIN KATE.

Kate Curtis, crying Amy to overlook some small differences and recall her banished fiancé, told her little cousin that a woman's life is so empty without love. "I know," she added, "I have friends, success, yet I am lonely."

The scene is one of many tense with human interest in "Cousin Kate," an Albee Joyce musical Vitaphone production, which will be shown at the Laverne theatre on Friday and Saturday.

The famous Charles Frohman play had two long runs, years apart, on the spoken stage, with Ethel Barrymore in the role now assumed by Albee Joyce. The popularity of the motion picture version promises to exceed that of its original drama. This wonderful picture, an excellent comedy and, as an added attraction, the management has booked the Knights of Harmony, the Salt Lake songsters, for Friday and Saturday. The boys come back to Twin Falls featuring several brand new songs and a regular vaudeville act. No lacrosse in the afternoon show. A special matinee will be given Saturday, beginning at 3 p. m.

Figured Wood for Furniture.  
From the very earliest days of furniture, through the Middle Ages, to the present time figured wood for furniture has found favor.

To Outward Seeming.

### WRIGHT'S TEAM BEATS SHOEMEN

Department Store Bowlers Take Two Out of Three From Foot Fitters

W. H. Wright and Sons bowling team took the odd game from the Shoe Market quintet Thursday evening, winning the second and third games, after a poor start in the first canto.

The feature of the evening was the big league bowling of Emery Benoit. This dark horse upset all the dope by knocking down 555 pins in the three games for an average of 183, taking the league leadership away from "Bill" Towan, who felt secure with "81." Benoit marked in 25 of the 30 frames, having three misses and two splits during the performance.

The opener went to the leather soled brigade, by the score of 835 to 664. In this game Emery Benoit and Walter Benoit, 400 for high game with 175. The department store men headed by Audriano experienced considerable trouble finding out where the pinners were placing the head pins. "Pop" Kieffer, who announced before the game that he had bowled in 1842, failed to get started, stopping at 134 in this game.

The second game found the Wright boys right, and they gave the special extremity custodians a walloping, the final score from the scorer announcing the score 725 to 713. Benoit again hit the top mark with 193. Audriano during this game discovered that talking to the pins would not make them topple, the result being that his high mark in this tilt registered 87.

In the final frame, the Wright lads (including Kieffer), gave fits to the straight-faced timber choppers, beating them by the wide margin of 717 to 608. This affair again brought Benoit in the limelight, 187 pins answering to his call.

The feature of this game was the reversal of form shown by Audriano, who said "Good Bye" to 154 pieces of lumber.

The Thursday evening game ended the play in league games for the week, with the Troy Laundry and Rendahl-Wright teams in a mighty wood splitting contest Monday evening.

What the noise was all about: Wright's Store 1 2 3 Totals Kieffer 134 147 129 410 Audriano 105 87 154 346 Woodhead 118 123 114 355 Benoit 175 193 187 555 Flako 132 175 133 438

Totals 664 725 717 2104 Shoe Market 1 2 3 Totals McKillan 99 141 103 343 Skinner 131 151 93 375 Kobs 124 110 135 375 Buchanan 175 154 103 432 Lewis 158 151 114 421

Totals 685 713 608 2006 "Drys" and "Wets." "Drys" as applied to prohibitionists, made its appearance first in Georgia, and "wets" appeared at the same time.

### BASKET BALL TEAMS TO BUMP AGAINST JEROME

Boys' and Girls' Quintets to Travel for Return Games Against North Side Players

Twin Falls high school boys' and girls' basketball teams will journey across the canyon this evening for a return tilt with the hoopers of the Jerome high school.

That the games will be well worth seeing is understood as both local teams took a beating from Filer Wednesday evening and this defeat must be wiped out.

Couch Evans gave his cohorts a stiff workout Thursday afternoon, including a few remarks that will no doubt be beneficial to the blue and white camp artists.

The girls, after having lost the first game last by Twin Falls girls for four years, are determined to win this evening.

Homer Hudson, who refereed the Gooding-Twin Falls game last week, has been chosen to do the whistle blowing for the North Side game.

The girls' game will start at 7:30 sharp.

### BANK AND TRUST VICTOR

First National Bankers Concede Honors on Basis of High Pins in Match

Stating that the match games between Bank and Trust company and First National Bank teams on Wednesday afternoon at the Twin Falls bowling alleys were for the high total pins for two games, and not for the best two out of three, the president, manager and captain of the First National team have decided to give the title to the Bank and Trust company, who topped the most maples.

It is now come on Twin Falls National Bank team, stating that if ever there was a bowling team overlooked it was their quintet, and have issued a challenge to Al Kieffer, Norris Koz for a two game series, total pins to decide the victors. This linament selling affair will take place Tuesday afternoon at 4:30.

The Bank and Trust team will start off with the same five who made such an enviable record Wednesday, Patrick, Peck, Fix, Ryan and Liville are the quintet who will defend the reputation of the bank that made the clock famous.

The Twin Falls National team should give their opponents considerable trouble as they boast of such pin busters as Al Kieffer, Norris Koz, Eric Gyan, Clarence Beatty, and Charley Larson.

Makes for Longevity. Cheerfulness is the best promoter of health, and is as friendly to the mind as to the body.—Addison.

## SPORT BRIEFS

DUBUQUE, Iowa, Jan. 18 (AP)—Helen Engel, of Dubuque, wrestling Johnny Meyers, champion middleweight of the world, collapsed here last night after three hours and 30 minutes on the mat. The referee called the match a draw, refusing to award it to Meyers because no fall had been obtained.

BOULDER, Colo., Jan. 18 (AP)—Winning two falls out of three, August Sepp, claimant to the Rocky mountain middleweight wrestling championship, defeated Walter Evans, former Rocky mountain champion, here last night.

MINNEAPOLIS, Minn., Jan. 18 (AP)—Arthur Jacobson, Windom, Minn., was elected captain of the 1923 University of Minnesota cross-country track team yesterday.

MACON, Ga., Jan. 18 (AP)—Young Strubling, local middleweight, won a ten-round decision over George Shade, light heavyweight of New York, here tonight.

## IDAH O LOSES AT SEATTLE

SEATTLE, Wash., Jan. 18 (AP)—The University of Washington basketball team took revenge for two defeats given it last season in Moscow by the University of Idaho by losing out 37 to 36 over the Gem state in a hard fought game here tonight. The feature of the contest was the scoring of Windy Crawford, Washington guard, who threw nineteen fouls out of twenty-two chances and made three field baskets, a total of 25 points, and of Fox for Idaho. Fox shot fourteen out of 17 chances and threw one field basket, a total of 16 points. For second honors in scoring, Lewis, Washington captain, and Edwards, a substitute guard of Idaho, were tied with six points each.

## GERMANY FORBIDS

(Continued From Page One)

responding increase in the stubbornness of the German resistance. A letter written in Dr. Gruetzer, president of Rhenish Province, to General Denigine on the subject of French occupation and threatened control of commerce and traffic by the French, is printed in all the local newspapers today. It is termed by the French "an insolent document," but it has caused much rejoicing among the Germans, who assert that had a German official sent a similar letter to the French occupying authorities at Duesseldorf in March, 1921, he would have spent the night behind bars.

## DECISIVE TEST OF STRENGTH BELIEVED DRAWING NEAR

LONDON, Jan. 18 (AP)—A dispatch to the Times from Essen forebodes the arrest of Dr. Gruetzer, in consequence of his letter to General Denigine.

The correspondent adds that it is the general opinion among both the French and Germans that Friday will see a decisive trial of strength between the opposing parties.

Mr. Stone said union officials had

## ASKS PRICE-FIXING FOR AGRICULTURAL PRODUCT

Corn Belt Committee Sees Menacing Conditions, Urges Government to Intervene by Legislation

KANSAS CITY, Mo., Jan. 18 (AP)—Declaring that the conditions which now confront farmers of the United States are "more menacing than any similar conditions in the history of American agriculture," the corn belt committee last night made public resolutions urging congress to create a price-fixing commission for farm products.

The committee was formed at a conference here last week of representatives of the Farmers Union, the Missouri Farmers association and the Equity Exchange, of St. Paul. It is composed of five leading farmers, each from Oklahoma, Colorado, Kansas, Missouri, Illinois, Iowa, Nebraska and Minnesota. Formation of the committee was said by its organizers to mark the first extensive pooling of interests by the self-help farm organizations of the central states.

The resolutions ask congress to do these things: "First, to create a commission which shall relate as equitably as is humanly possible the price of wheat, corn, pork, beef and cotton, to the current price of merchandise and to the prevailing wage scales of organized labor. Second—To adjust the tariff so that the above mentioned products may be protected against imports at a lower price."

Third—To create governmental machinery which shall take over the surplus of each of these commodities at the world price, or by some other means remove the influence of such surplus to the end that the home market may be preserved for the farmer on the basis of American living standards, and at the same time provide a powerful deterrent against overproduction and also protect the government against loss.

## SELF-NAMED

(Continued from Page One)

the surrounding country, was telegraphed today to Governor McRae of Arkansas, by W. H. Johnston, president of the International Association of Machinists. Members of that union the message asserted, "are being wanted and cruelly maltreated by a mob in the city of Harrison," and the governor was charged with allowing the situation to continue.

Missouri and North Arkansas strikers, the message said, have been charged with setting fire to bridges and other structures belonging to the railroads, but machinist union officials considered these to be due to defective locomotive fire boxes. Records of the Interstate commerce commission would show, it was claimed, that fires had started since the road from this cause and the governor was asked to make an investigation.

## UNION LEADER COMPLAINS OF HARRISON GRIEVANCE

CHICAGO, Jan. 18 (AP)—Warren A. Stone, grand chief of the Brotherhood of Locomotive Engineers, declared tonight that an "absolute censorship prevails at Harrison, Ark."

Mr. Stone said union officials had

## HUGHES POLICY PRAISED BY CIVIC FEDERATION

Committed of 100 Commands Secretary of State for "Tactful Efforts" to Bring About Peace in Europe

WASHINGTON, Jan. 18 (AP)—The committee of 100 on foreign relations of the National Civic federation concluded its initial two-day conference today with instructions to its executive committee to commend the secretary of state for his "tactful efforts" for peace in Europe, and to conduct an immediate investigation of propaganda of "foreign governments or organizations" in this country.

Alton B. Taylor, who presided, announced he would name the executive committee and call it in session probably in New York within the next ten days. Appointment of a committee of 100 to collect and disseminate facts on foreign affairs relating to the United States was recommended yesterday.

## HERRIN CASE IN HANDS OF JURY

Fate of Five Men Charged with Murder of One of Riot Victims Hangs in Balance

MARION, Ill., Jan. 18 (AP)—The jury of Williamson county farmers, into whose hands the fate of five men charged with the murder of Howard Hoffman, one of the victims of the Herreria riots, was given shortly before noon today, continued their deliberations tonight without being able to arrive at any verdict.

One report during the afternoon was that the jurors stood 10 to 2 for conviction. Another placed the count at 7 to 5 for acquittal. No grounds could be found for either runner.

Under the instructions given by Judge D. T. Hartwell, the jury will return separate verdicts for each of the defendants and may find one guilty and another innocent. At the same time the jury will fix the punishment, if any, ranging from death to 14 years imprisonment.

"It's murder or nothing," Judge Hartwell said, after the jury had retired and he had refused to give any instructions regarding a manslaughter verdict which would carry only a sentence of one year in prison. He also refused to give any instructions regarding self-defense, extreme provocation or justifiable homicide.

At 9:30 o'clock Judge Hartwell announced that he had ordered the jurors locked up for the night and left his office for his home. He said he would be ready to receive the verdict at 9 o'clock tomorrow morning if the jury reached any decision.

## NAVAL PILOT IS KILLED WHEN SEAPLANE FALLS

Lieutenant W. H. Rohrbach Meets Instant Death and Two Other Officers Are Injured in Crash

AVALON, Santa Catalina Island, Cal., Jan. 18 (AP)—Lieutenant William H. Rohrbach, naval pilot, of Norfolk, Va., was instantly killed and two other naval officers were seriously injured today when the seaplane S-5-L-2 fell 2000 feet and splintered to bits on a rock off Catalina island.

Those injured were Lieutenant H. F. Whelan of San Francisco, and Lieutenant Matthew B. Gardner of Washington, D. C. Five other naval men in the seaplane escaped injury.

The P-5-L-2 together with another plane was engaged in the recovery of torpedoes used in connection with fleet maneuvers. At an altitude of 2000 feet trouble developed and the seaplane started to fall. Dropping through a dense fog, it hit a large rock just above the surface of the sea and splintered to pieces.

The body of the dead pilot was taken to Los Angeles harbor and the two injured men removed to the submarine base hospital there, where surgeons said their condition was critical.

## METHODISTS NEAR ACCORD

Commissioners Agree on Working Plan for Reunion of Two Factions of Church in United States

CINCINNATI, O., Jan. 18, (AP)—A working agreement making possible the reunion of the two factions of the Methodist Episcopal church, was agreed to in an executive session here tonight by the commissioners representing the Methodist Episcopal church and the Methodist Episcopal church, South.

## Shaves in Bath Tub

One resident of an uptown apartment house has found a way to beat the heat shortage which prevails in many new structures, the Pittsburgh Dispatch reports. It works only during the early morning shave.

"I used to freeze as I shaved after my morning hot bath," explained this genius, "until I hit upon the idea of shaving right in the tub."

"The water forms a warm cloak, and with the aid of a hand mirror I manage to shave myself as well as if I were standing up in front of the wall mirror and getting colder every minute."

"I suppose I must look like a nut rolling back in the tub and holding a hand mirror in one hand and a safety razor in the other, but I'm a comfortable, warm nut, and no one sees me anyhow."

## There's the Trouble

"Sedentary workers need a hearty breakfast." But "those who are busy as they are, they are too proud to accept charity."—Hartford Times.

Essentials for Happiness. The grand essentials of happiness are: Something to do, something to love and something to hope for.

Wednesday you may have your choice of good quality Brand Aluminum Ware. We offer stew kettles, sauce pans, muffin pans, steak strainers, and other articles of good weight and service. Choice, 2 for \$1.00

# DIGGER FUTURE IS PLANNED BY DUREC RAISERS

Breeders of Purebred Swine Gather at Annual Meeting and Exchange Ideas on Advancing the Industry

Determination to make the coming year one of greater success in the raising of purebred Duroc hogs constituted the greatest point of achievement at the annual meeting of the Idaho Duroc Breeders' association last night at the Fortine hotel. Sixty-four persons, including pig club members and several professional breeders from a distance, were present.

The business session which followed the banquet resulted in the election of Dr. R. S. Ames of Piler, president; Roy Stutwell of Idaho, vice president; E. J. Fieldstead of Idaho Falls, secretary; treasurer, W. H. Bambo and L. S. Otto were elected members of the board of directors, which includes the newly elected officers. Mr. Otto was the only one of the officials of the organization who was re-elected.

**Pass Resolution.**

A resolution was passed and signed by those present petitioning the National Duroc breeders association to amend exhibition rules to provide for the showing in futurity classes at Idaho shows of any swine not farrowed in this state. No objection was made, however, to the importation of purebred breeding stock. This proposition was presented by Mr. Otto.

Following the reading of the secretary-treasurer's annual report it was decided to have each member contribute either a Duroc gilt or its equivalent in cash to maintain the association's finances. A resolution was passed and signed unanimously recommending the continuance of the office of the county club leader and the farm agent here.

**Many Speakers.**

The number of speakers and participants in both the banquet program and the business session was very numerous and it was midnight before the event came to a close.

E. O. Walters, secretary of the January sales here, presided. Among those who gave talks or addresses during the banquet were E. J. Fieldstead of Idaho Falls, formerly chief of the Idaho Duroc service; Howard Hamilton, chief of police, agricultural supervising officer for the U. S. veterans' bureau; Mr. Otto; E. D. Duncan of Boise, state club leader; Alfred Strunk and M. L. Davis, pig club members; William Kerr, state vocational supervisor; R. E. Broadhead, county farm agent; D. B. Leonard, county club leader; J. P. Linn of Gooding; Earl Woodruff and George Deann of Piler, and Mrs. Charles M. Brown of Twin Falls.

**Lands Club Work.**

Mr. Duncan delivered an interesting talk on the past and future of swine raising, dealing particularly with pig club work and with farm boys and girls in general.

Mr. Duncan stated that Twin Falls county has an investment of approximately \$45,000 as a result of pig club work and that the net profit from this investment this year was \$15,000. He urged the importance of the county club leader and the farm agent in their service is no longer desirous of their services there are several other counties that will be shifted to other points.

**Gives Farm Problems.**

The speaker quoted figures showing that 75 per cent of the farm boys between 20 and 24 years of age are farm laborers and 25 per cent are farm operators. Of those between the ages of 35 and 44 years who are engaged in farming 25 per cent are farm laborers and 75 per cent are farm operators, he said. "Sooner or later the farm boys and girls are bound to return to the farm," Mr. Duncan said. "It is only a question of time as to when the life most appealing to them. In my opinion, if boys and girls were taught the principles of economy, thrift and such things as junior swine-raising, the number of farm boys and girls who leave in that class would no longer exist."

Mr. Deann of Piler brought out the point that in raising purebred swine the boys and girls are given a hobby that does much toward forming good character.

**Practical Things.**

If you think all that comes to him who waits just sit down and wait and see how hungry you get.—Arkansas Gazette.

**Listen and Obey.**

We need only obey. There is guidance for each of us. And by lowly listening we shall hear the right word.—R. W. Emerson.

**Polite Dissembling Necessary.**

In social intercourse truth is more of an stranger than fiction.—Boston Transcript.

**Constipation.**

Constipation of the bowels is a storehouse of the average system that removes waste matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste as it is the waste of your home be kept open and carry off the waste from your house. If you would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.—adv.

**FOR SALE—Rhode Island Red Roosters.**

\$1.00 apiece while they last. J. A. Flynn.

## GEN. GOETHALS WILL BE N. Y. FUEL CHIEF

GENERAL GEORGE W. GOETHALS, builder of the Panama canal and chief of supplies in the U. S. army during the world war, has been named by Governor Alfred E. Smith to be head of the New York state fuel commission in the emergency caused by the coal shortage. He will have full powers, at a salary of \$2500 a month.

## CLAIM RUMORS CLOSED BANKS

Pernicious Plot Seen in Suspension of Institutions at Rupert and Paul

RUPERT, Idaho, Jan. 18.—(Special to The News).—The First National bank here and the bank at Paul, connected jointly voluntarily closed their doors and another institution opened for business today.

The closing of the two banks is said to have been caused by the effects of a rumor that has been persistent here for approximately four months and which has created some apprehensions as to the condition of the two banks.

As a result of the rumor, it is said the deposits have dwindled until the officials decided to close and to adjust affairs. Whether there is still an opportunity to do so, it is expected that the deposits will be refunded.

The First National here is capitalized at \$25,000, and at the time of the last call its condition was shown to be good. A surplus of \$60,000 existed at that time, the report showed. Deposits have dwindled recently, however. Deposited at the time of closing were said to be about \$150,000 as compared to approximately \$100,000 before the rumor was started.

The rumor that has been spread up to the forced closing are believed to have been the result of a deliberate and pernicious plan of persons here antagonistic toward the bank or the officials. Whether or not the rumors will be sifted and the guilty persons, who are known here, prosecuted, is not known yet.

Carl Tims is president and R. B. Titus is cashier of the First National. The president has also been serving in an official capacity with the Paul bank.

The case here is one of a very few in southern Idaho wherein the checks of the bank have not been contested.

## ANNOUNCEMENTS

The Pythian Sisters will hold their regular meeting this (Friday) afternoon at 2 o'clock in the Business Women's club rooms. All members are urged to be present.

The directors of the Rural Federated club will meet at the home of Mrs. W. S. Parish at 2:30 Saturday afternoon.

The American War Mothers will meet today (Friday) at 2:30 p. m. at the home of Mrs. Turner R. Hackman, 350 Fifth avenue east.

## CLAIM FALL WAS CAUSE OF DEATH

Believe Jarbridge Metal Worker Met Death by Falling Over River Bank

The body of Archie Moore, 35, metal worker employed at the Elmore Mining company mill at Jarbridge, Nev., which was Wednesday afternoon taken from the Jarbridge river near there, was Thursday brought here to be sent for burial to Corning, Cal., in accordance with instructions received from J. P. Moore of Corning, father of the dead man.

The body was taken from the river after almost 24 hours' search that was begun when Moore, walking along a path at the river's edge Tuesday evening from his cabin to the town of Jarbridge, was seen to stumble and fall down a 10-foot rock wall into the stream.

Two ribs were broken and a wound on the head was found when the body was recovered. Coroner P. J. Grossman, into whose custody the body was delivered here last evening, expressed the opinion that Moore's death resulted from effects of the fall rather than from drowning. There was little water in the river, he said.

The body was brought here by Walter Smith and H. Hatfield of Jarbridge.

## BIDDING KEEN AT SALE OF COUNTY CLUB SWINE

Buyers from Distance Attend Auction of Durocs Offered by Junior Breeders

The sum of \$2168 was paid to the members of the county pig club at the first annual sale at the McClinton sale barn Thursday for 38 sows and gilts. The sale was held by the county club members and was much interest was shown, buyers from as far as Boise and Idaho Falls being present.

Alfred Strunk of Twin Falls, topped the sale when he got \$135 for Perfection Lady, a gilt, daughter of Queen's Perfection, 1090914, and grand-daughter of Pathfinder's Queen, 3rd, the state champion in 1922 and valued at \$1000. She was sold to J. S. Feldhusen.

Gilt Sells for \$150.

Milo Davis received \$150 for Orion's Lady, a gilt on which the bidding was led by George W. Parsons of Piler was the buyer.

Perfection Princess, a litter mate of Perfection Lady, also owned by Alfred Strunk, was sold to Mr. Feldhusen for \$125. All others sold for less than \$100.

This sale, taken as a whole, indicated that the Twin Falls Junior Breeders' association has accomplished a great deal in advancing the purebred Duroc industry. A feature of the sale was the offers made by several individuals for first, second and even third and fourth choice of the first litter of pigs to be farrowed by the sows and gilts sold.

## Makes Offer.

J. E. Nesley, Idaho Farmer representative, made offers for first choice of three litters and second choice of one litter. Some of these will be given as prizes to club members for special efforts along certain lines.

The Twin Falls Junior Breeders' association has offered on one first, one second and one third choice after first and second had been taken in one litter and promised to give the gilt to the pig club boy or girl who pays the highest price for a gilt at the sale next fall.

## Society

Edited by Mrs. R. B. Williams. Telephone 295.

Messrs. Frank Magal, Zach North, John Smith, Ray Logan, Hal Bieler, Charles and Smiley Marshall and Charles Macaulay entertained their wives Thursday evening with a dinner at the home of Mr. and Mrs. Frank Magal on Tenth avenue east.

The cooking and serving was all done by the gentlemen, thereby setting a dangerous precedent, for it was all so delicious that the wives are thinking of turning over the kitchen from now on to the heads of the families.

On Wednesday afternoon the Country Women's club met with Mrs. C. E. McClain, with the president, Mrs. M. T. Kennedy, presiding. After the business session Mrs. McClain gave a paper on Idaho schools and churches, which was followed by a paper on "Homecoming and Homecoming," by Mrs. Kenworthy. A book pertaining to the industrial school at St. Anthony was read by Mrs. Winsler. Refreshments were served during the social hour to fifteen members and one guest.

A special all day meeting will be held at Mrs. Joseph Walkington's on January 31, at which time layettes will be made to be given to the hospital for emergency cases.

Mrs. A. D. Stafford was hostess to the Ninth Avenue club Wednesday afternoon. Fifteen members and one guest were in attendance. The program was in charge of Mrs. R. A. Stolliffe, who gave an interesting paper on "Constitution in General." A social hour followed during which dainty refreshments were served. The next meeting will be held February 7 at the home of Mrs. E. J. DeWaver.

Mrs. R. C. Ostrander entertained the Episcopal Guild Thursday afternoon. The usual business was transacted with the president, Mrs. C. C. Sigel, in the chair. George will was answered with quotations from Proverbs. Committees were appointed for the coming year, and plans were made for a "get together" meeting to be held before the opening of the lenten season. During the lenten period the guild will sew on garments for Alaskan missions. There was a good attendance and refreshments were served by the hostess, who was assisted by Mrs. George Easley and Mrs. H. E. Allen.

The Curry Parent-Teachers' association held its monthly meeting last Friday at the school house. Papers pertaining to school work were read and at the close of the meeting the members were guests of Mr. and Mrs. Raymond Carter. Refreshments were served. About 25 were present.

## Deaths

### Montgomery Hartman

Montgomery Hartman, age 80, father of Mrs. Gilbert Telford, died here Thursday last at the home of Mr. and Mrs. Telford on Main avenue north. The body was taken to the J. E. DeWitt undertaking establishment on Main avenue north. Funeral arrangements have not been made.

Mr. Hartman and his wife came to Twin Falls about a year ago from Seattle and have been making their home, during that time, with their daughter. Another daughter resides in Seattle. Death followed complications of advanced age.

Mrs. Clara B. Arterburn  
Mrs. Clara B. Arterburn, age 43, wife of C. C. Arterburn, of Hagerman, died Thursday afternoon at the county general hospital here following an illness. The body will be taken to Hagerman, where the funeral will be held Saturday morning at 11 o'clock.

## FUNERALS

Mrs. Robert Shanks.  
Funeral services for Mrs. Robert Shanks will be held Sunday afternoon at 2:30 o'clock from the Methodist church.

LAWRENCE BARRETT IS HERE.  
adv.

FOR SALE—For painting, kalsomining and paper hanging, Phone G. W. Eyrre, Omaha, W. E. Medley, and wife, Condon, Mont.; C. D. Smith, Twin Falls.

## Personal

Bus for East—Bus was filed Thursday by C. C. Griffin to collect rent from R. D. Dawley for a storeroom at Buhl.

Conciliates Visit—Mrs. Charles McPhoe left last evening for Salt Lake after spending the past three weeks with her parents, Mr. and Mrs. L. I. Benoit.

Ault Improving—John R. Ault, juvenile officer, is reported to be improving from the effects of an operation performed Sunday. He is at the county hospital.

Leaves for Coast—Mrs. Robert H. Stevenson and daughter, Mrs. Frederick Lloyd Coats, left Thursday evening for Hollywood, Cal., the home of the latter, where Mrs. Stevenson will spend the winter.

Wire Official Here—U. G. Life of Salt Lake, district commercial representative for the Western Union Telegraph company, is here on business. Mr. Life is a charter member of the Salt Lake Rotary club.

Book Lost Girl—Police here have been asked by the Cassia county sheriff at Burley to aid in finding Rodea Horen, 19, who disappeared from Oakley January 11 in the company of a bound whose identity was not given.

Bound for California—Miss Anna Gummerson left last evening for California. She will visit in San Francisco for a few days and then go on to Los Angeles, where she expects to remain. She was accompanied by Miss Masters.

Rotary Official Leaves—Chief Justice of the Idaho Supreme Court, Charles A. McEachy, left yesterday morning for Buhl, where he will hold an official visit to the Buhl Rotary club in his capacity of district governor of the Western Auto company. President of the local club, accompanied Judge McEachy to Buhl.

Industrial Films Here—A series of industrial films constituting a picture which is said to be of unusual interest will be shown at the Orpheum theatre Friday afternoon under the auspices of the Western Auto company. There is no admission charge and the public is cordially invited by the company to attend the performance.

## HOLD SPECIAL SERVICES

Address of Evangelist Given at Methodist Church in Honor of Aged; Sunday School Executives to Meet

Approximately 800 attended the special services of Dr. J. H. Elliott at the Methodist church Thursday afternoon in honor of the aged. A large attendance was also on hand for the evening sermon.

Following the sermon Friday night a special meeting of the Sunday school superintendents and teachers of the various participating churches will be held.

Will Determine Action.  
No action will be considered as shameful unless the will was so, for by the will the act was directed.

## BARBER SHOE CO. THE MODEL

## KILLS HOG LICE

Cures Mange — Keeps Pens and Yards Continually Disinfected.

## PREVENTS DISEASE

## GET RID OF LICE

Let your "hogs" rid themselves of those blood-sucking pests. Give them a fighting chance to live and thrive and resist disease. Every time they rub against the "New Idea" Hog Oil they apply the refreshing, vermin-killing Oil right on the itch, killing the lice, destroying the eggs, healing the skin of mange, scurfy and other skin diseases. It soothes and heals—promotes a healthy skin and a smooth, glossy coat of hair.

DEERING MCCORMICK INTERNATIONAL P. & O. CASEY-PARKER IMPLEMENT CO.

Masonic Building, Twin Falls, Idaho.
