

TWIN FALLS DAILY NEWS

VOL. 5, NO. 293. TWIN FALLS, IDAHO, FRIDAY MORNING, FEBRUARY 2, 1923. PRICE FIVE CENTS

AUDIT CHARGES VIOLATIONS OF LEGAL BOUNDS

Accusations Against Former City Officials and Employees Contained in Wolfenden Report are Withheld

Described by its author, John Wolfenden as a "research and housecleaning affair," an audit covering financial affairs of the city of Twin Falls over a period of five years ended May 1, 1922, embodied in 96 typewritten pages, was accepted by the city commission at a special meeting Thursday afternoon.

Motion for acceptance of the audit copies which were placed in the hands of the commissioners two weeks ago, was made by Commissioner John E. Roberts. It included provision that the auditor's report be published in the official organ of the city administration and that distribution of the organ containing the report be placed at the disposal of every Twin Falls residence at the expense of the city.

Charges Law Violations.

In an explanation and summary of the report, Mr. Wolfenden incorporated the statement that he had "given you information on sheets which point out that the law has been violated in different ways in transacting business." These sheets, pages 35 and 36 of the report, were missing from the copy which was Thursday evening made available to The News by Commissioner Roberts.

It was learned that statements made on those sheets had been revised after the delivery of the report in its original form to the commissioners, and that several allegations against former city officials and employees were eliminated in the revised form which was presented to the commissioners shortly before their acceptance of the report.

The author of the report claims to have discovered discrepancies in the accounts of W. A. Minick as city clerk and police judge, and of Paul H. Haber as police judge.

Calls Records Unintelligible.

The records of the city clerk, the report says, "were not in good shape and the amounts shown on the city books represent only the amounts turned by the city clerk. In figuring up the account I charged him with all licenses issued, etc., as shown by the stub-books on file, and credited him with the amounts shown as being remitted to the treasurer. With regard to the amount of the amounts turned by the city clerk, it is impossible to tell from his records how his accounts stand."

Explaining that "with regard to the accounts of the police judges, I may say that I listed the cases shown on the dockets in which fines and costs were imposed and charged to the police judges, crediting them with the amounts remitted to the city clerk," the author of the report says

Attributes Views of Russian Soviet to Iowa Senator

Brookhart Draws Lenroot's Fige in Clash Between Extreme and Conservative Advocates of Farmer Relief

WASHINGTON, Feb. 1 (AP)—Extreme and conservative advocates of farmer relief legislation clashed today in the senate during discussion of the Lenroot-Anderson farm credits bill on which a final vote will be taken tomorrow.

Russian soviet views were attributed to Senator Brookhart, now republican member from Iowa, by Senator Lenroot, republican, Wisconsin, co-author of the pending bill, and drew a sharp retort from the Iowan in a fervid hour's tilt.

Senator Brookhart's plan for cooperative banking and other enterprises drew the fire of Senator Lenroot, who said Lenine and Trotsky would not advocate some of Mr. Brookhart's ideas. Senator Brookhart replied that such charges had figured in the campaign and his election in Iowa, and he said that "the people of Wisconsin have much to answer for, and among these things is the junior senator from that state."

Little progress was made today on the bill, which assured of passage tomorrow, will complete the senate's farm credits program.

Lone Masked Robber Rifles Express Car on Canadian Train

Binds Express Messenger to team Pipe, Gags Him, and Makes Way With Haul

REGINA, Sask., Feb. 1 (AP)—A lone masked robber, who bound Paul Venzke, express messenger, on train No. 6 of the Canadian National railway to a steam pipe and gagged him with a handkerchief, despoiled with several thousand dollars between Prince Albert, Sask., and here this evening.

The robber boarded the train at Conde, 10 miles north of Regina, as the train was pulling out of that station. Some time later he managed to work his way to the front of the train and open the door of the express car. He carried a revolver and ordered Venzke to hold up his hands. When the messenger did as ordered, the handi bound him to the pipe with a clothes line and gagged him. Then the robber calmly took the keys from Venzke's pockets and looted the safe of the express packages.

FABRIC BILL IN IDAHO'S SENATE

Owyhee County Senator Would Require Labeling of Cloth; Propose Marriage Regulation

BOISE, Idaho, Feb. 1 (AP)—"Truth in fabric legislation will be before the Idaho legislature through a bill introduced at the afternoon senate session, providing for labeling of cloth used or to be used in wearing apparel."

The measure covers swatches and samples used in soliciting orders, as well as completed garments. Goods will be divided into three classes, and so labeled: first, "all virgin wool," second, "not less than ... per cent," third, "no virgin wool." Senator Keith of Owyhee county is the author of the bill.

The upper house today passed the Reiberg teachers institute abolishment bill, and house bill abolishing tobacco license, and indefinitely postponed the Harris measure which would reduce salaries of commissioners.

Would Regulate Marriage.

Reduction of the game department to one chief and deputy was advocated in a bill by Senator Clark, democrat, of Custer county, and the first enactment of the session was introduced requiring the filing of affidavits of health with the county auditor two weeks before marriage.

The certificate to issue show applicants for marriage were not feebleminded, epileptic, imbecile, insane, common drunkard, or suffering from pulmonary tuberculosis. This certificate would be required of both parties to the marriage contract; and the male applicant must furnish a certificate that he is not suffering from contagious venereal disease.

ROLLING STOCK DAMAGED.

MAYENCE, Feb. 1 (AP)—The railway strike situation in this district is generally growing more serious with much damage to rolling stock.

The roundhouse here was burned today, destroying a number of locomotives, and several other engines were ditched.

The Day in Washington

(By The Associated Press)

Major General John L. Hines took up his duties at the war department as deputy chief of staff.

Early retirement from office of Governor E. Mont Bally, of Porto Rico, was forecast in official circles.

Hated debate in the senate on the British debt funding arrangement to this country was precipitated through an attack on some of its features by Senator McKellar, democrat, Tennessee.

Favorable report of a bill which would authorize government purchase of \$10,000,000 worth of nitrates for resale to farmers at cost for use as fertilizer was ordered by the house agriculture committee.

Senator Brookhart, republican, Iowa, was charged by Senator Lenroot, republican, Wisconsin, during senate debate on rural credits, with advocating policies similar to those of Lenine and Trotsky.

Returning from a three weeks' survey of conditions on the Pa-

DISPUTE OVER BRITISH DEBT STIRS SENATE

Senator McKellar Attacks the American Settlement Terms Accepted by England; Senator Glass Leads in Reply

WASHINGTON, Feb. 1 (AP)—Fore-shadowing the fight in prospect in congress over acceptance of the British debt settlement, Senator McKellar, democrat, Tennessee, speaking today in the senate, declared congress, as the representative of the American people, had no right to "grant such a bonus or subsidy" to the British government as contained in the settlement approved yesterday by the British cabinet.

"The Tennessee senator said that propaganda was being sent out to influence congress into accepting the proposed settlement but added that he thought it would be "some time before congress agrees to any such proposition."

The American commission, Senator McKellar asserted, had no authority to make any proposition such as that accepted by the British cabinet. He added that the only proposition which could authoritatively be made to the British government was the proposal outlined in the debt refunding act, namely, interest at 4-1/4 per cent and payment of the principal in 25 years.

Glass Defends Arrangement.

The speech of the Tennessee senator brought on a discussion of the debt question in which nearly half of the score of senators on the floor participated, with Senator Glass, democrat, of Virginia, former secretary of the treasury, taking the lead in replying to Senator McKellar.

A tense scene, in which Senator Heflin, democrat, of Alabama, was held by Vice President Coolidge to have violated the senate rules and reflected upon Senator Wadsworth, republican of New York, former secretary of the treasury, who had just spoken after an hour's clashing between Senator Heflin and Senator Wadsworth and Lenroot, republican of Wisconsin. A statement by Senator Heflin, in criticizing the British debt arrangement, that he represented the American people and not the bond sharks and big financiers of Wall Street, was held by the vice president to be a reflection upon Senator Wadsworth, although Senator Heflin, supported by Senator Robinson, democrat, Arkansas, denied any infraction of the rules.

ABOLISHES HIGHWAY POST

BOISE, Idaho, Feb. 1 (AP)—The office of director of highways, filled for three and one-half years by Col. D. P. Olson, was abolished today by order of Governor Charles C. Moore, and the duties centered in the commission of public works, William H. Hall. In a letter to Col. Olson, Mr. Hall praised his accomplishments as a director.

Drastic reductions in the highway department force resulted in today's order. District jurisdiction and officers were cut from seven to four and approximately \$20,000 per month in expense was cut off by the order. Dis-establishment of district officers in Challis and Cour d'Alene by Feb. 15 was announced.

Germans Feel Pinch of Occupation Regime; Appeal to French to Lend Aid to Industry

M. LE TROUQUER, French minister of public works, now in charge of civil authorities in the Ruhr district in Germany, who, it is reported, will be appointed French high commissioner for the occupied territory.

Intervention by America is Asked by German Labor

Appeal to Congress is Dispatched by Unions Representing 12,000,000 Persons

BERLIN, Feb. 1 (AP)—Organized German labor, speaking for more than half the population of the German republic, views the American congress as the logical tribunal to which to address an appeal, declaring that "American honor asserted at this time can save us and the world from disaster."

This is the keynote of a message which was forwarded to Washington this afternoon, carrying the signatures of the chairmen of the executive boards of the German federation of trade unions, the federation of Christian labor union, the league of clerical employees, and the independent federation of liberal trade unions, which embrace a registered membership of 12,000,000 male and female workers.

Grows Out of Fears.

Labor's action is the direct outcome of apprehensions with which the situation growing out of the occupation of the Ruhr is viewed by the federation leaders, regardless of their political affiliations, and the telegraphic appeal to both houses of congress is a brief and informally worded message recalling the German government's willingness to submit to complete disarmament and their prompt readiness to adopt a democratic constitution in return for the American promise that right and justice should prevail in the post war adjustments.

The labor leaders assert that their action is undertaken independently of any influence from official sources, which, it was stated, would first learn of the appeal to the American congress in case it was reported back from Washington. Neither has the German press been apprised of the unique procedure.

Ignores Intermediaries.

"We decided to go straight to the official representatives of the American government," was declared in a prepared statement to dispense with official or diplomatic intervention," Paul Graumann, vice chairman of the general federation's executive board, informed the Associated Press. "The message was drafted this morning at a joint session of the executive heads of the confederation and it represents the feeling of alarm with which labor already is contemplating the situation after the weeks of the Ruhr occupation. There is something more than the fate of the Ruhr basin at stake, if Germany is still a land of apparent law and order, and it is only because the dozen cock headed men in charge of organized labor's ranks have prevented the workers in all lines from becoming dangerously restive."

GOOSE CREEK FLOGGING SUSPECTS ARE INDICTED

HOUSTON, Texas, Feb. 1 (AP)—M. P. Rogers, Perkins Wright, Alton Wright and Bill Ogden of Goose Creek, were indicted Wednesday by the county grand jury on a charge that they "did unlawfully meet with intent to aid each other by violence to commit an assault and battery upon the person of E. C. Slaughter and to whip and beat the said Slaughter." They were fined at \$400.

In addition, Perkins, Wright and Ogden were indicted for carrying firearms.

Rogers already is under a \$500 bond on charges of assault to murder, filed against him by R. A. Armand, one of the victims of flogging at Goose Creek, January 5.

COAL PRODUCTION CUT BRINGS GRAVE ISSUES

Rhineland Workers in Desperation Turn to Invaders for Food and Means of Livelihood; Industrial Paralysis Piles Up Difficulties for Economic Mission in Effort to Keep Mines and Transportation Systems Working

(By the Associated Press.)

The German Federation of Labor Unions call the attention of the American congress to the "condition of servitude" imposed by the Ruhr occupation and the Versailles treaty and declare that "American honor asserted at this time can save Europe and the world from disaster."

SPENDING ORGY COMES WITH FALL IN PRICES

COBILENZ, Feb. 1 (AP)—Americans and Germans here are engaging in a new spending orgy as a result of the low prices of merchandise, although many stores have been closed.

Grand pianos are selling for \$160; shotguns cost only \$7; bicycles, \$10; phonographs, \$4, and shoes \$1 a pair. Automobiles cost only a few hundred.

The amount of German currency received in exchange for American money sometimes makes bulky packages, and one major in the American detachment here was seen to take off his belt to tie up a mass of small bills received at a bank in exchange for \$10.

FLOUTS WARNING OF FREE STATE

Irish Republican Chief of Staff Refuses to Surrender Hostages Under Threat

DUBLIN, Feb. 1 (AP)—A proclamation issued today by Liam Lynch, republican chief of staff, refusing to surrender hostages under Minister of Defense Mullenby's threat of punitive measures, throws some doubt upon the reported release by the republicans of Senator John Bagwell, general manager of the Great Northern railway, who was kidnapped Tuesday night. (A Dublin dispatch today said it was officially confirmed that Senator Bagwell had been freed.)

Mr. Lynch's proclamation, after pointing out that 53 officers and men of the republican forces already have been executed by the free state, says the army is determined that it will no longer suffer its members thus to be dealt with and allow the international usages of war to be violated with impunity.

A decision of the free state government to resort to punitive measures if Senator Bagwell was not released had the approval of the entire cabinet and Richard Mulcahy, the minister of defense, made it plain that, whatever the cost, it would be put into effect.

The belief in government circles today was that the policy of kidnapping parliamentary representatives would be abandoned.

Incentivism, however, is more difficult to deal with, and its application to the homes of persons having no responsibility for government action is proving a general alarm. Some houses have been attacked or burned without apparent reason. Sometimes it has even been difficult for the authorities to surmise the motives of the incendiaries.

Soviet's Attitude Causes Depression at Peace Parleys

Near East Conference Encounters Combined Opposition of Turkey and Russia on Question of Opening Straits

LAUSANNE, Feb. 1 (AP)—Although such action has been expected, bolshevik Russia's refusal today to sign the Near East peace treaty setting forth conditions for the opening of the straits of the Dardanelles and the Bosphorus and the demilitarization of the straits zones, caused depression in Near East conference circles. At Teltchirra, the leading Russian delegate, urged, that the whole question with regard to the straits be reopened.

By doing this the bolshevik minister declared, the allies would repair their "historic" mistake. He said the straits a treaty which Russia had not had suitable opportunity to discuss. His request was refused by the allies.

Ismet Pasha, the chief Turkish representative, objected, saying the straits convention left Constantinople practically a demilitarized zone. He said the extraordinary Turkish forces in Thrace and Constantinople should be limited to 20,000 men. Turkey also wanted the right to establish a garrison at Gallipoli. Ismet warned the conference that Turkish acceptance was connected with acceptance of the general peace treaty.

BRITISH BOARD APPROVES STOPPING WORK FOR TEA

Industrial Fatigue Research Investigators Eulogize Custom; Quote Workers' Views on Proposition

LONDON, Feb. 1 (AP)—The afternoon cup of tea, to which pleasant habit many Americans fall victim after a short sojourn in England, has been eulogized in a report issued by the Industrial Fatigue Research Board.

Investigation showed that where a long afternoon of five hours was interrupted by a ten interval, even if for ten minutes only, the regularity of the work was particularly noticeable. The report quotes workers as declaring: "We can face with equanimity, and even enthusiasm, a period of two hours with the prospect of rest, but to look forward to four or five hours unbroken work dampens the enthusiasm of even an ardent worker."

GERMANS TO MOVE TRAINS IN COLOGNE DIRECTORATE

COLOGNE, Feb. 1 (AP)—An understanding has been reached between the Cologne railway directorate and the interallied railway sub-commission that from 6 o'clock tomorrow morning the German railway men will resume work throughout the area administered by the Cologne directorate.

The operation of trains will begin after the French and Belgian armed guards are withdrawn from all stations. Neither coal nor other reparations trains will be operated. Only those coming under the Rhineland agreement will be moved.

DISEMPOWER GERMAN'S APPEAL

MAYENCE, Feb. 1 (Via Berlin) (AP)—The court of appeals of the general staff of the French army has dismissed the appeal of the six Ruhr industrialists, including Fritz Thyssen, who recently were convicted by court martial of disobeying orders of the occupation officials.

ENDORSES BORAH'S MOVE

Democratic Senator Proposes Memorial by Idaho Legislature Lauding Scheme for World Conference

BOISE, Idaho, Feb. 1 (AP)—A memorial to congress, lauding Senator William E. Borah's request for a world conference, was introduced today by Senator Clark, democrat, from Custer county. The memorial was referred to state affairs committee. Republican leaders indicated tonight that efforts would be made to kill the measure because of its democratic authorship and intimated that it might have been introduced for the purpose of confusing republican legislators, who are not anxious to vote upon the question.

CONTENDERS IN OCCUPIED AREA DIVIDE HONORS

German Workers Make First Appeal to French for Aiding Factories; Frenchman Admits Precarious Position

DUESSELDORF, Feb. 1 (P)—Honors were about even on the twenty-second day of the gigantic economic battle now being waged between the French and Germans. Soler second thought is increasing and the scarcity of food and growing unemployment today caused a body of German workers to make their first appeal to the French for assistance since the troops entered the Ruhr.

Six thousand paper mill workers, threatened with closure of the Duesseldorf plants owing to lack of coal, sent a delegation to General Degoutte, requesting that the French supply fuel necessary for continuation of work. General Degoutte answered that the German railway men were responsible by failure to transport coal into Duesseldorf.

General Degoutte promised he would have coal brought to the paper mills. Depend on Cooperation.

The Germans secured when M. Franzen, one of the leading engineers of the French economic mission, speaking officially to the correspondents, admitted that the work of the mission depended upon the return to the Ruhr of the coal syndicate and cooperation with the mission, "virtually admitting that the French are powerless to work the Ruhr industries without the Germans.

The output of the mines is gradually dwindling, but this is the greatest argument favoring surrender of the population to the French terms.

The French quartermaster's department has issued information that the supply service to the French army of occupation is operating normally, five trains of foodstuffs sufficient for the army's needs, reaching the Ruhr today, but the French authorities have informed the Germans they are unable to transport food to feed the Ruhr civilian population, adding that if the railway men continue their strike, causing the heavy commodities to arrive, the responsibility is theirs.

German Resort to Violence.

The Germans are resorting to acts of violence. Another attempt to burn the roundhouse at Marxweg was partly successful today, while a German, caught in the act of trying to set fire to the Duisburg roundhouse and locomotive shops, was struck over the head with a rifle butt by a Belgian sentry and his skull fractured. The sentry reported that the German was not his firm him. The German probably will die.

The French refused to make any official statements as to whether the measure forbidding the export of coal and coke to unoccupied Germany inaugurated at midnight, was completely successful; they said they had not yet received reports from all the frontier points.

The populations at Elberfeld and Barnum, just outside the occupation zone to the south, are greatly alarmed because the French outposts are only four miles from their cities, and they have begun to remove the books, records and archives of the cities and municipalities, as well as of private firms, further into Germany. The French announced officially that they have no intention of extending the zone of occupation "for the present."

BANDITS IN MEXICO USE GARB OF KU KLUX KLAN

Highwaymen in State of Morelos Hold Up Automobile Parties; Display Prizes in Appearance in Bogalia

MEXICO CITY, Feb. 1 (P)—The dress of the Ku Klux Klan was copied by four hold-up men who, on a recent Sunday afternoon, attacked various parties of automobilists driving out to visit the famous Cacahuamilpa caves in the state of Morelos. It was on this road that A. Bruce Jinks, a party was held up, and it resulted in the kidnapping of the former head of the bureau of investigation of the department of justice of the United States.

The attacks were thorough in their work, even helping themselves to cigarettes and matches, but without they were so genial and courteous that one woman victim said later she rather enjoyed the experience. The men spoke English and called attention to the fact that they were Ku Klux regalia.

CANADA TO PAY HONOR TO CHANTECLEER'S ORIGINATOR

OTTAWA, Can. Feb. 1 (P)—An monument in honor of the founder of the only Canadian breed of domestic fowl, the Chantecler, will be erected at the Oka Agricultural Institute, La Trappe, Quebec. The memorial which will have a large block of granite as its base, will be surrounded by a bust of Brother Wilfrid, poultry husbandman of the institute and originator of the breed. An iron arch will carry, in reproduction, a pair of Chanteclers.

Funds will be collected among friends of the breed to erect the memorial, through the cooperation of department of agriculture officials.

President Harding Back At Desk

His face pained showing the results of his recent illness, President Harding was photographed the day he returned to his desk, after a mild attack of influenza, which kept him in the White House for several days.

England Lowers Barrier Against German Waiters

Kitchen and Dining Room Workers of Germany and Austria Welcome Relaxation in Britain's Restrictions

BERLIN, Feb. 1 (P)—"After the beginning of the new year I shall not be serving you any longer; I am going back to my old job and my old position in England."

A servile German waiter in one of Berlin's better class restaurants was overheard making the above remark in English to an American diner. Asked why he had delayed so long after the war in seeking re-employment abroad, the waiter explained that only on December 23 had the English government lifted its post war ban on German arrivals.

For this man, and doubtless hundreds of others in his calling here, that date had stood out long as a red letter day on his calendar. He has been working for months and supporting his family with no other remuneration from the restaurant than the ten per cent tip legally prescribed for waiters in Germany, together with such added gratuities as benevolent guests were inclined to give.

Few Romanian Abroad.

It is estimated that there are abroad now only one-sixth of the German and Austrian cooks and waiters who were in foreign employ before the war. When hostilities broke out many dropped their knives and forks in other lands to come home and pick up a rifle; others were deported or interned; some were caught while visiting in Germany, and willingly or otherwise, became a part of the military forces.

In 1914 there were some 3000 German and Austrian cooks in foreign countries, and 15,000 waiters. Today there are from 500 to 1000 cooks and about three times that many waiters. These latter figures do not include a large number of Germans who remained in the United States throughout the war.

Chicago is cited here as having hitherto been the most popular single point of attraction in the outside world. In that city alone, before the war, the German and Austrian cooks numbered 300 and the waiters no less than 1000.

European countries also drew many of these employes away from their native tables, and it is a source of surprise to many tourists here that foreign figures do not include a large number of Germans who remained in the United States throughout the war.

Other "Promised Lands." Next to England and America, Switzerland and Holland were the pre-war

STOCKMEN HEAR ARGUMENTS FOR UNITED ACTION

Francis J. Heney Tells Cattle-men at Los Angeles They Should Follow Example of California Fruitgrowers

LOS ANGELES, Cal. Feb. 1 (P)—Francis J. Heney urged cattle-men of the United States to organize along the lines of the cooperative fruit growers organization of California in an address Wednesday before the convention of the National Livestock association. Mr. Heney, who conducted a federal investigation of packing house methods for the federal government several years ago, said that cattle growers should control the output of their industry for the benefit of themselves and the consumers.

Calls for Modernization

Cattle-men of the United States must modernize their methods or go out of business, F. J. Hagenbarth, member of the association's executive committee and president of the National Woolgrowers association told the delegates.

"Take a lesson from the sheep men," he said, "they have stopped selling wethers and are selling quick maturing lambs. Intensify your business—sell 'baby beef'—market your cattle as yearlings and receive fat steer prices instead of feeder prices. The raising of a three year-old steer is an economic mistake because the selling price of a three year-old is 20 to 30 per cent less than the cost of production."

Credit should be based on solid earning power, Mr. Hagenbarth declared, and that "at present we act as if we were dopey, and, like the dope fiend, we are waiting for the other fellow to get us out of trouble. It can't be done. We must solve our own problems."

They Appeal to Our Sympathies

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause a gentle movement of the bowels. When you have any trouble with your stomach, give them a trial—adv.

SANTA FE HEAD PRESENTS CASE OF RAILROADS

Attributes Unhealthy Condition to Too Much Interference and Ineffective Remedies; Asks Credits and Liberty

KANSAS CITY, Mo., Feb. 1 (AP)—Give the railroads credit, let them earn a fair return on their investment and let them alone are the three cardinal points emphasized by William B. Storey, in telling the Kansas City Chamber of Commerce members here tonight how to overcome the ills that are interfering with the prosperity of the country.

Mr. Storey blamed high labor costs as being responsible for the present condition of the farmer and attributed high labor costs to the restrictive immigration laws and a high tariff wall.

"The railroads are not healthy. They have too many doctors and too much medicine," said Mr. Storey. "First came the United States government with the Interstate Commerce Commission. Then came the state commissions, and gradually the medicine applied became stronger and stronger. Finally when the war came the railroads were unable to function properly. Instead of changing the medicine, the government seized the roads.

Control Proves Costly.

"Government control mislaid costs, decreased the efficiency, and nearly ruined the roads. But it convinced the people that they wanted no government ownership and it led to the enactment of the Esch-Cummins bill, the Transportation Act 1920. This law was the first really constructive measure attempted.

"If recognized, first, that credit is absolutely necessary to the roads. This credit has gradually diminished during the long period of deteriorating when the enormous business and need of good transportation maintenance itself. They were short of everything that goes to make up a complete railroad.

"The only cure is credit. Establish the ability of the roads to pay interest on the money invested and the money necessary will flow toward the roads. The Transportation Act attempted by the commission when it made the rate increase in 1920 but their figures were based on a certain volume of business. Unfortunately, the slump of 1921 came on, the volume was not there and the rate was that year a net of 3.7 per cent on their valuation. But the business of the country had started on the upgrade when the Interstate Commerce Commission, acting under public pressure, made a horizontal reduction of 10 per cent. The result has been that in 1922 the railroads have been unable to earn over 4.2 per cent. This reduction checked railroad buying; it retarded railroad spending.

Nostrums Cause Apprehension.

"We feel however, that if the prospects for 1923 are fulfilled, we stand a chance of earning a fair return. But we are certain that if the many nostrums that are now proposed are administered we shall be in a worse condition at the end of the year.

"To show you what those 'cure-alls' consist of, I might cite the bill by Mr. Gooding of Idaho to reduce all freight rates on agricultural products 33 per cent; Senator Johnson's bill to prevent railroads from using the necessary cars are provided; Senator Brookhart's opinion that seven or eight billion dollars should be squeezed from the valuation of the railroads; the American Farm Bureau demand that all guarantees be taken out of the Act (there are in reality no guarantees).

"The farmer is demanding lower freight rates and Senator Capper is backing him up in this demand. Senator Capper has made statements on the floor of the United States senate which he cannot substantiate.

"None of these things will help restore the credit of the railroads.

"The President of the United States advocates making the question of wages a function of the Interstate Commerce Commission. Gentlemen, the Interstate Commerce commission has more than it can attend to now. Don't give it any more.

Credit Prime Requisite.

"Of first importance, however, is the necessity for credit. If we can get money, we can supply you with the right kind of transportation and without it we cannot. Rates cannot be raised or business will be checked.

Here Is Champion Artist's Model

Miss Ann Carlere

Miss Ann Carlere, of Cleveland, illustrators. She is said to have been the highest-salaried model in the United States for the last five years.

Certainly reducing the rates will not help. The farmer is having a hard time; he should have help, but banking the roads will not help. But let it alone until we can really see what is wrong with it."

"If you can get lower labor costs, you can reduce the price of steel, the number of cement, of curbs, of locomotives, of coal and of everything that enters into the operation of either the farmer or the railroad. And as long as we have the restrictive immigration law in effect and a high tariff wall about us just as long must labor costs step up. If the country wants these things, it must be content to do business on the high price plane on which we are now doing it. But the farmer should be taught this and he should decide what he wants. High labor costs are responsible for the present condition of the farmer, and not the railroads.

"What we want seems simple. We want to be let alone. We want to have the Transportation Act of 1920 given a chance; we think it will work out. But let it alone until we can really see what is wrong with it."

How Small Leaks Grow.

To show what the little things mean in a chain of restaurants, coffee less may be cited. Two quarts a day makes 720 quarts a year. In 24 stores this would be 17,280 quarts or 343,100 cups. At 5 cents a cup the loss totals \$17,250 retail value, simply because not enough attention is given to small quantities of coffee wasted. —From the Waldorf Window.

Sometimes Virtue in Opposition.

No man ever worked his passage anywhere in a dead canal. Let no man wax pale, therefore, because of opposition. —John Neude.

ACCUSED DRY LAW AGENT WINS SECOND ACQUITTAL

Federal Prosecution of Suspended Director on Bribery Charges Falls Again in Helena Court

HELENA, Mont., Feb. 1 (AP)—Federal prosecution of O. H. P. Shelley, suspended federal prohibition director, on bribery charges, failed when the jury hearing the second case brought in a verdict of not guilty. The verdict, brought in at 10:25 o'clock Tuesday night, was sealed and opened Wednesday in court before Federal Judge George M. Bourquin.

Shelley, who is Montana member of the republican national committee, was suspended from his office as prohibition director August 10, 1922. On November 14, 1922, he was indicted by the federal grand jury in Butte on two indictments, one charging seven counts charging acceptance of bribes from breweries in Great Falls and Lewistown to permit manufacture and sale of beer on an illegal alcoholic content, and the other charging five counts of accepting bribes from drug stores in Helena, Great Falls and Billings to permit illegal sales of whiskey and other intoxicants.

Last trial took approximately four days and each resulted in a verdict of not guilty. The first jury was out two hours and a half and the second almost seven hours.

Chamberlain's Cough Remedy Aids Nature

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on the plan. It attacks the cough, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its good qualities. Try it when you have a cough or cold.—adv.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre at Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it dardens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored and it becomes thick, glossy and healthy, and you appear years younger.—adv.

Australia's "Model City."

Adelaide, the capital of South Australia, is a "model city." laid out with a central town in perfectly square blocks, containing public and business buildings. Outside of that is a belt of public parks and gardens and beyond the latter are the residence suburbs.

Free Gold Fish (Including Fish Bowl)

We are giving away a crystal bowl containing two gold fish, with the purchase of a fifty-cent box of Lac-Lax, the delicious candy laxative. Children delight in these lively little gold fish; the golden we could find anywhere. They are fascinating to grownups, too, and the clear crystal of the aquarium reflecting the golden flashes of alert, busy little inhabitants adds an ornamental touch to the home. We couldn't think of a more acceptable gift with which to introduce this very mild and pleasant laxative. And a laxative of this kind is very important at this particular time. Lac-Lax are mild and harmless, nothing habit-forming about them. Grown folks like them and children really delight in taking them, for they are just like little mint lozenges.

RICKARD QUILTS TITLE PROJECT

Willard's Chances for Match With Dempsey Fade as Promoter Withdraws from Field

NEW YORK, Feb. 1. (AP)—A series of unexpected developments today brought the heavyweight boxing situation back into the limelight, after a lapse of several days, but failed materially to increase prospects of a title bout for champion Jack Dempsey.

The net result of these developments, which included withdrawal of Tex Rickard from the field of bidders for a championship contest and a new offer from Tom O'Rourke, Polo Grounds matchmaker, for two fights this summer, was to diminish chances of a return match for Jack Willard, former heavyweight king.

Rickard sacrificed his refusal to bid to lack of support for any particular title match but Willard announced he soon would undertake a country-wide exhibition tour to demonstrate his fitness for another crack at the title.

Willard's tour will start at Portland, Maine, February 19, and take him through the east, middle west and south during the next two or three months.

Fears Adverse Effect

Rickard, it was made known, has refused to consider staging a contest between Dempsey and Harry Wills, New Orleans negro, because of the possible adverse effect on the championship match, and it was declared that his action today was the result of this, and the fact that both New York and New Jersey boxing commissions had frowned upon a Willard-Dempsey project for the present.

Leis Messano, chairman of the New Jersey commission, today denied reports that he was definitely opposed to a Dempsey-Willard match in his state. Mr. Messano said he had merely expressed a doubt as to whether Willard could get into proper condition again.

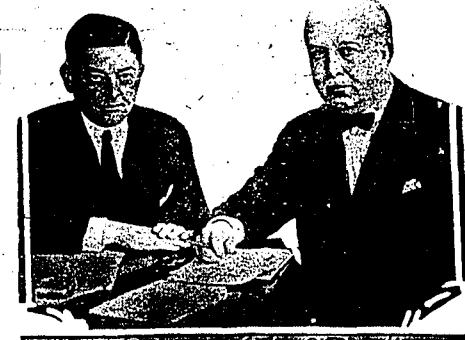

The commission, he added, would not take any attitude until an application for a Dempsey-Willard bout had been presented to it.

William Muldoon, chairman of the New York commission, also explained that while Willard technically was barred from fighting here because he is over the age limit, now fixed at 35, this might not act as a barrier if he demonstrated that he was in condition to oppose Dempsey.

O'Rourke Has Field Alone

O'Rourke's offer for two fights, meanwhile, is the only bid which Jack Kearns, Dempsey's manager, has under consideration. The Polo Grounds matchmaker submitted terms for matches with Joe Beckett, English heavyweight, and Harry Wills, to take place at the Giants ball park on July 4, and Labor day. It was understood he guaranteed the champion \$500,000 for his end of the purse. Beckett's

Offer Dempsey \$1,000,000 To Fight

Jack Dempsey has been offered \$1,000,000 for three fights at the Polo Grounds, New York City, during the coming summer.

Jack Dempsey has been offered \$1,000,000 for three fights at the Polo Grounds, New York City, during the coming summer. John M. O'Connor, president, and Tom O'Rourke, match-

maker, of the Republic Athletic club, made the offer. In case Dempsey accepts it is likely the three contenders will be Floyd Johnson, Harry Wills and either Joe Beckett, of England, or Jess Willard.

appearance, he said, would be contingent upon the outcome of his match with Georges Carpentier, scheduled in May.

Kearns expressed some dissatisfaction with details of the offer but informed O'Rourke he would make no definite decision before Monday.

Like Bread Upon Water.

Is thy cure of comfort wanting? Rise and share it with another; then through all the years of famine it shall serve thee and thy brother. Is thy burden hard and heavy? Do thy steps drag wearily? Help to bear thy brother's burden—God will bear both it and thee.—Ellenbeth Charles.

Had Her Lesson Perfect.

A little girl was told that polite people did not talk about their ailments in company, or outside the family. So when a visitor asked her if she was well, she said, "Well, in the family, I have stomach ache and other childish ailments; in company I am quite well thank you."

Cleans Teeth of Saw.

Saws used for cutting metal are frequently rendered inefficient by reason of the particles of metal adhering to the surface and interfering with the cutting operation. A new invention has a thin wheel which cleans each tooth of the saw after it has passed through the metal.

Mere Possession Not Sufficient.

No house, hotel or ship should be without a good dictionary, but not necessarily a ponderous one. It is indispensable. But the possession of a dictionary is not sufficient. You must use it.

Auntie's Temperature.

Montana Students Don Hood and Robe To Build Up Spirit

Mystery Enveloping Abduction of University Men is Dispell-ed at Smoker to Arouse Interest

MISSOULA, Mont., Feb. 1. (AP)—The mystery which has enveloped the state university of Montana, the city of Missoula and the entire state for the past week, was cleared up when 800 men of the university faculty, alumni and student body met in the new gym tonight in response to a call issued today for a mass meeting of the men, presumably to probe the recent kidnappings of two university students by scarlet hooded and robed men, turned out to be a smoker with a large and varied program of entertainment for the purpose of securing a closer cooperation among the students, faculty and alumni.

It was learned tonight that both "victims" of the mysterious had had engaged previously with members of the organization to be engaged in order to arouse an interest in the student body.

The first of the kidnappings which occurred the night of January 25, took place between the halves at a basketball game in the new gym when hundreds of students saw their yell king "Bill" Hughes, taken from the middle of the hall by four men garbed in scarlet hoods and robes. The only exit was through a fire escape and the abduction was so quickly and orderly accomplished that not a voice was raised in protest until all had disappeared and were speeding from the campus in two closed cars.

When Hughes was returned here he refused to tell anything of what had taken place except that his captors had given him a "talking to."

The curiosity and excitement increased Monday night when Charles Gleason, university correspondent for the Missoula Press, stated that he had discovered the hiding place of the band and within an hour afterwards was kidnapped when he was leaving his fraternity home to investigate an alleged case promised through a mysterious telephone message. Gleason had just been aware of the motive of the organization and was about to expose the affair in the press when he was approached and told of the purpose and

DANISH PRINCE TO WED CANADIAN GIRL

agreed to keep quiet and to be "hid-napped."

No inkling was given as to the identity of the hooded men at the moonlight banquet, the only connection being the appearance of two of the hood in a dog step. However, the purpose of the smoker in creating a closer bond between the university men was unquestionably successful, according to those who attended, and the promoters of the entire affair were highly praised by various speakers.

The Ages of Trees.

The Toronto Observer in England figures upon a charter dated 1135, and so it probably will on toward the end of its fourth century, and there is an oak at Tiford, near Farnham, which was there in the year 1250.

DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder Irritation or Back-ache

The American man and woman must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the clean-sive tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, or a stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Dr. Sells' Tablets. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then set fire.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Dr. Sells is incalculable; cannot insure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having good kidneys flushing any time. By all means have your physician examine your kidneys at least twice a year.—adv.

Goldens in Ocean's Depths.

The water of the ocean is colder at the bottom than at the surface. In many places, especially in the bays of the coast of Norway, the water freezes at the bottom before it does above.

Origin of Tinting.

The art of tinting iron appears to have originated in the sixteenth century; tintplate was manufactured in Great Britain in 1670.

POSTPONE BOND ISSUE OF CITY

Special Session of Council Results in Decision to Advertise for Bids

An ordinance lowering the water rates in Twin Falls by approximately 10 per cent was passed by the city commission at the special session at the city hall Thursday, and, acting on a decision of S. D. Davis, city attorney, the commissioners agreed to withhold the sale of bonds to refund outstanding city warrants.

Several of the bond house representatives who attended the regular session of the commission Tuesday evening were present. When the bidding was resumed Attorney Davis made it known that the call for bids must be advertised four weeks before the bids are to be offered and the commission purchased his decision. The bond sales were postponed until the bonds could be sold without the formality of legal advertising.

MAINTAIN NEW SCHEDULE

The revised time schedule of local railroad trains has resulted in much more satisfactory connections between the main line and branch trains at Minidoka, according to local railroad officials. The new schedule is to remain in effect until further notice.

FIRMS IN NEW LOCATIONS

Among the firms which have recently taken new quarters are the Idaho Vulcanizing company, Peters Brothers shoe shop and the Thomas grocery. Peters Brothers shoe shop has moved from 230 1/2 Shoshone west to Shoshone street north in the rooms vacated by the Wall brothers grocery. The vulcanizing company has taken over the former location of the shoe shop and the Thomas grocery is in the former quarters of the Southern Idaho Frigate association.

Nevada Concern Has Heavy Shipment; Sheep, Poultry, Hogs and Mules Moving

First big cattle shipments of the season will begin moving to outside markets early this month. One of the heaviest shippers is the Utah Construction company, which has 2000 head of beef cattle at San Jacinto, Nevada. Fourteen cars will be loaded by this company on February 6, bound for Los Angeles. The entire shipment will require 80 cars.

DAIRY TESTS INDICATE BIG MILK PRODUCTION

January Report Shows 220 Cows Average 788.4 Pounds of Butterfat for the Month

The January report of the Pioneer Cow Testing association shows 220 cows were tested during the month and the average production of butterfat was 33.9 pounds and 788.4 pounds of milk.

The cow making the high record for the month is Koruyke Doke De Kot, owned by A. H. Jacobs of Buhl. She is a registered Holstein and produced 2132.9 pounds of milk or 89.6 pounds of butterfat.

The high herd under 15 cows is owned by A. H. Jacobs, his herd numbering six Holsteins with an average production of 1394.3 pounds of milk and 42.8 pounds of fat.

CROWDS ATTEND REVIVAL

Rev. L. E. Burger Attracts Hundreds; Urges Sincere Support of Church; Musical Numbers Are Pleased

An audience estimated at 800 persons attended the revival services at the Lavington theatre Thursday night to hear the Rev. L. E. Burger speak on the subject, "Repentance." The speaker cited instances from biblical history to emphasize the importance of sincerity in repentance and he showed his subject was one of the principal ones used by the followers of Christ.

In speaking of the church he said: "In most funerals it takes six live ones to handle a dead one and that is about the state of most churches. It takes so many of us to take care of the dead sinner."

Parent-Teachers Present Program

Gathering at High School Attended by More Than 300 Members of Association. Approximately 350 persons attended the program given in the high school auditorium Thursday night by the parent members of the High School Parent-Teachers' association in honor of the teachers. Mrs. I. E. Joslyn presided.

ELKS HOLD ANNUAL EVENT
